This activity is impacted by the restoration of a Lung Cancer Screening Pilot Project. Lung cancer kills more people each year than breast, colon, and prostate cancer combined. More than 90 million Americans are at risk, mostly from smoking. The issue will restore the funding for an early-warning test called spiral CT, a sensitive type of CAT scan. The estimated cost for this type of scan is $300. This issue requests $1,744,186 in funding to continue to provide this services to an estimated 4,000 Medicaid beneficiaries statewide. $890,329 in funding would be added to this activity based on this issue.

Conference projections.

This funding request is impacted by the restoration of fee increases for Home Health providers. The average reimbursement rate for Florida Medicaid home health providers is substantially below Medicaid provider rate in other southeastern states and Medicare. The 2001 Legislature authorized an 11% fee increase for nursing visits and a 13% increase for home health aide visits effective January 1, 2002. This was the first fee increase since 1987. The Fiscal Year 2002-03 General Appropriations Act includes non-recurring funding to continue this increase through June 30, 2003. This issue proposes to maintain the increased reimbursement levels in the 2003-04 Fiscal Year by restoring $359,238 to this activity.

SPECIFIC AUTHORITY: Chapter 409, Florida Statutes

AGENCY CONTACT: Shelly Brantley, Division of Medicaid, Bureau of Health Systems Development
TELEPHONE: (850) 488-9347

DESCRIPTION OF ACTIVITY:

1. PURPOSE OF ACTIVITY IS: Provides a wide array of community outpatient mental health services, targeted case management and community-based residential treatment services in therapeutic foster homes to assist children and families in resolving mental health issues that interfere with the child's functioning at home, in school or in the community. These services also serve to prevent the need for more intensive, more restrictive residential mental health placements.

2. TASKS/PROCESSES INCLUDED IN ACTIVITY ARE: Therapy treatments must be prescribed by the beneficiary's primary care physician and be provided by a licensed therapist or assistant supervised by a licensed therapist. The provider conducts an evaluation of the beneficiary, writes a plan of care for the beneficiary, performs the needed therapy, and provides reevaluations and revisions of the plan of care as needed or every six months.

3. ACCOMPLISHMENTS OF ACTIVITY ARE: Treatments are provided to beneficiaries statewide to enhance the beneficiary's quality of life and provide medically necessary therapy.

SPECIFIC AUTHORITY: Chapter 409, Florida Statutes

AGENCY CONTACT: Shelly Brantley, Division of Medicaid, Bureau of Health Systems Development
TELEPHONE: (850) 488-9347

DESCRIPTION OF ACTIVITY:

1. PURPOSE OF ACTIVITY IS: To maximize federal reimbursement under Title XIX, Medicaid, by utilizing local school district and state funds as the state share of Medicaid payment. There is no Medicaid general revenue used for the program.

2. TASKS/PROCESSES INCLUDED IN ACTIVITY ARE: Ongoing technical assistance to school districts to ensure that Medicaid billings are accurate, avoiding any federal recoupment.

3. ACCOMPLISHMENTS OF ACTIVITY ARE: Increasing federal reimbursement to school district from $12,000 for CY 1996 to $50 million in CY 2001.

4. CUSTOMERS/NUMBER SERVED: Fee for service, approximately 40,000. Administrative claiming is measured and billed by activities, not customers.

5. COUNTIES SERVED: All counties except St. Johns and Santa Rosa. School district participation is voluntary.

AGENCY - AGY REQUEST FY 2003-04 NARRATIVE:
The Agency requests $50,000,000 in continuation funding for this activity. By utilizing local school districts and state funds as the state share of Medicaid payments, federal funds are maximized under Title XIX. There is no state general revenue utilized in this program. Ongoing technical assistance is provided to school districts throughout the state (excluding St. Johns and Santa Rosa counties) to ensure Medicaid billings are accurate and maximize federal reimbursement. This funding will allow the purchase of approximately 7,316,844 case months of Medicaid services. Funding for this activity is based upon cost

will allow the purchase of approximately 10,006,416 case months of Medicaid services. Funding for this activity is based upon cost projections adopted at Social Service Estimating Conferences. These estimates may be adjusted by future Social Services Estimating Conference projections.

This funding request represents an approximate .77% increase over the prior year funding need. This activity is impacted by Agency requests to restore Adult Dental, Visual, and Hearing services as well as Medical Foster Care Expansion.

Adult dental, visual, and hearing services are optional services covered by Florida Medicaid. Dental services cover medically necessary emergency dental procedures to alleviate pain or infection. Visual services include eyeglasses and dispensing services and related repairs. Hearing services include hearing evaluations and hearing aids, as well as dispensing and related repairs. The General Appropriations Act for Fiscal Year 2002-03 provides non-recurring funding for these services. $3,459,506 in funding will be added to this activity based on this issue. This funding is required in Fiscal Year 2003-04 to continue this coverage.

The expansion of the Medical Foster Care Program in Tampa, Orlando, Jacksonville, Lakeland, West Palm Beach, Ft. Lauderdale and Ft. Myers will add an additional 264 beds serving approximately 330 additional children. This will bring the statewide total of Medical Foster Care beds to 444 providing 555 children with services in Medical Foster Care homes. This issue will add $1,243,422 in funding to this activity.

DESCRIPTION OF ACTIVITY:

1. PURPOSE OF ACTIVITY IS: To furnish inpatient hospital services to Medicaid beneficiaries statewide when medically necessary.

2. TASKS/PROCESSES INCLUDED IN ACTIVITY ARE: Inpatient services must be prior authorized by a peer review organization (PRO) or PRO-like entity. This requires hospital providers to request authorization from the PRO for the issuance of a prior authorization number, which, when entered on the hospital claim form, will enable payment of all medically necessary hospital days.

3. ACCOMPLISHMENTS OF ACTIVITY ARE: Medically necessary inpatient hospital services are furnished to Medicaid beneficiaries who need them. The process of prior authorization ensures that the inpatient services reimbursed by Medicaid are medically necessary.

4. CUSTOMERS/NUMBER SERVED: 23,374 potential beneficiaries.

This funding request represents an approximate 24.6% decrease over the prior year funding need. This activity is impacted by Agency requests to restore funding for the Medically Needy program. The General Appropriations Act for Fiscal Year 2002-03 provides non-recurring funding for Medicaid coverage for adults in the Medically Needy program and for changes in the program effective May 1, 2003, that will increase the monthly income limit to $450 and require that Medicaid not reimburse providers for any medical costs used by the beneficiary to meet his or her share of cost (spend down) to become eligible. This issue is requesting the restoration of funding to continue coverage for adults under the program as converted effective May 1, 2003. The issue will increase spending in this activity by $54,477,485 after the program conversion.

Chapter 2002-400, Laws of Florida amends section 409.904, Florida Statutes effective May 1, 2003, to increase by $270 the income disregards for children, pregnant women, and aged, blind and disabled persons used to determine if persons are eligible for the Medically Needy program. In addition, this law eliminates Medicaid reimbursement of any expense that was used to meet the share of cost in accordance with the federal requirement. The increase in the amount of income disregarded for the Medically Needy program will provide individuals with $450 for his or her living expenses such as food, shelter and clothing; the current standard requires them to spend down their income with expenses not covered by Medicaid to $180.

AGENCY - AGY REQUEST FY 2003-04 NARRATIVE:
The Agency requests $16,587,585 in funding for this activity in order to purchase medically necessary outpatient hospital services and emergency treatment for Medicaid beneficiaries when such care is needed and the level of care is such that a more costly inpatient setting is not required. This funding will allow the purchase of approximately 280,488 case months of Medicaid services. Funding for this activity is based upon cost projections adopted at Social Service Estimating Conferences. These estimates may be adjusted by future Social Services Estimating Conference projections.

This funding request represents an approximate 28% decrease over the prior year funding need. This activity is impacted by Agency requests to restore funding for the Medically Needy program and the restoration of a Lung Cancer Screening Pilot Project. The General Appropriations Act for Fiscal Year 2002-03 provides non-recurring funding for Medicaid coverage for adults in the Medically Needy program and for changes in the program effective May 1, 2003, that will increase the monthly income limit to $450 and require that Medicaid not reimburse providers for any medical costs used by the beneficiary to meet his or her share of cost (spend down) to become eligible. This issue is requesting the restoration of funding to continue coverage for adults under the program as converted effective May 1, 2003. The issue will increase spending in this activity by $12,313,727 after the program conversion.

Chapter 2002-400, Laws of Florida amends section 409.904, Florida Statutes effective May 1, 2003, to increase by $270 the income disregards for children, pregnant women, and aged, blind and disabled persons used to determine if persons are eligible for the Medically Needy program. In addition, this law eliminates Medicaid reimbursement of any expense that was used to meet the share of cost in accordance with the federal requirement. The increase in the amount of income disregarded for the Medically Needy program will provide individuals with $450 for his or her living expenses such as food, shelter and clothing; the current standard requires them to spend down their income with expenses not covered by Medicaid to $180.

Lung cancer kills more people each year than breast, colon, and prostate cancer combined. More than 90 million Americans are at risk, mostly from smoking. The issue will restore the funding for an early-warning test called spiral CT, a sensitive type of CAT scan. The estimated cost for this type of scan is $300. This issue requests $94,181 in funding for this activity to continue to provide this services to an estimated 4,000 Medicaid beneficiaries statewide.

This funding request represents an approximate 26.4% decrease over the prior year funding need. This activity is impacted by Agency requests to restore funding for the Medically Needy program and the restoration of fee increases for Home Health providers. The General Appropriations Act for Fiscal Year 2002-03 provides non-recurring funding for Medicaid coverage for adults in the Medically Needy program and for changes in the program effective May 1, 2003, that will increase the monthly income limit to $450 and require that Medicaid not reimburse providers for any medical costs used by the beneficiary to meet his or her share of cost (spend down) to become eligible. This issue is requesting the restoration of funding to continue coverage for adults under the program as converted effective May 1, 2003. The issue will increase spending in this activity by $792,400 after the program conversion.

Chapter 2002-400, Laws of Florida amends section 409.904, Florida Statutes effective May 1, 2003, to increase by $270 the income disregards for children, pregnant women, and aged, blind and disabled persons used to determine if persons are eligible for the Medically Needy program. The increase in the amount of income disregarded for the Medically Needy program will provide individuals with $450 for his or her living expenses such as food, shelter and clothing; the current standard requires them to spend down their income with expenses not covered by Medicaid to $180.

The average reimbursement rate for Florida Medicaid home health providers is substantially below Medicaid provider rate in other southeastern states and Medicare. The 2001 Legislature authorized an 11% fee increase for nursing visits and a 13% increase for home health aide visits effective January 1, 2002. This was the first fee increase since 1987. The Fiscal Year 2002-03 General Appropriations Act includes non-recurring funding to continue this increase through June 30, 2003. This issue proposes to maintain the increased reimbursement levels in the 2003-04 Fiscal Year. This issue will add $53,234 in funding to this activity.

ACTIVITY: MEDICALLY NEEDY - THERAPEUTIC SERVICES FOR CHILDREN

SPECIFIC AUTHORITY: Chapter 409, Florida Statutes

AGENCY CONTACT: Shelly Brantley, Division of Medicaid, Bureau of Health Systems Development
TELEPHONE: (850) 488-9347

DESCRIPTION OF ACTIVITY:

1. PURPOSE OF ACTIVITY IS: Provides a wide array of community outpatient mental health services, targeted case management and community-based residential treatment services in therapeutic foster homes to assist children and families in resolving mental health issues that interfere with the child's functioning at home, in school or in the community. These services also serve to prevent the need for more intensive, more restrictive residential mental health placements.

2. TASKS/PROCESSES INCLUDED IN ACTIVITY ARE: Therapy treatments must be prescribed by the beneficiary's primary care physician and be provided by a licensed therapist or assistant supervised by a licensed therapist. The provider conducts an evaluation of the beneficiary, writes a plan of care for the beneficiary, performs the needed therapy, and provides reevaluations and revisions of the plan of care as needed or every six months.

3. ACCOMPLISHMENTS OF ACTIVITY ARE: Treatments are provided to beneficiaries to enhance the beneficiary's quality of life and provide medically necessary therapy.

4. CUSTOMERS/NUMBER SERVED: 3,385 potential beneficiaries.

5. COUNTIES SERVED: Statewide

AGENCY - AGY REQUEST FY 2003-04 NARRATIVE:

ACTIVITY: MEDICALLY NEEDY - OTHER

SPECIFIC AUTHORITY: Chapter 409, Florida Statutes

AGENCY CONTACT: Shelly Brantley, Division of Medicaid, Bureau of Health Systems Development
TELEPHONE: (850) 488-9347

DESCRIPTION OF ACTIVITY:

1. PURPOSE OF ACTIVITY IS: Reimburses enrolled providers for other medically indicated services for adults and children enrolled in the Medicaid Medically Needy program. Services include: adult dental, visual and hearing; community mental health; family planning; nurse practitioner; physician assistant; other lab and x-ray; physical, speech, occupational and respiratory therapies for children; developmental evaluation and early intervention for children; and county and rural health clinics.

2. TASKS/PROCESSES INCLUDED IN ACTIVITY ARE: Services must be provided in accordance with Medicaid policy as presented in the appropriate services' Coverage and Limitations Handbook that is incorporated into rule. Payment is made according to service-specific fee schedules. Suspended claims are manually reviewed by agency claims resolution staff.

3. ACCOMPLISHMENTS OF ACTIVITY ARE: The cost-effective administration of the Florida Medicaid Program.

4. CUSTOMERS/NUMBER SERVED: 23,374 potential beneficiaries.

5. COUNTIES SERVED: Statewide

AGENCY - AGY REQUEST FY 2003-04 NARRATIVE:
The Agency requests $12,302,987 in funding for this activity in order to reimburse enrolled providers for other medically indicated services for elderly and disabled Medicaid beneficiaries. Services include: adult dental, visual and hearing; community mental health; family planning; freestanding dialysis centers; nurse practitioner; physician assistant; other lab and x-ray; physical, speech, occupational, and respiratory therapies for disabled children; and developmental evaluations and early intervention for children. This funding will allow the purchase of approximately 280,488 case months of Medicaid services.

Funding for this activity is based upon cost projections adopted at Social Service Estimating Conferences. These estimates may be adjusted by future Social Services Estimating Conference projections.

This funding request represents an approximate 25.9% decrease over the prior year funding need. This activity is impacted by Agency requests to restore funding for the Medically Needy program and Medical Foster Care Expansion. The General Appropriations Act for Fiscal Year 2002-03 provides non-recurring funding for Medicaid coverage for adults in the Medically Needy program and for changes in the program effective May 1, 2003, that will increase the monthly income limit to $450 and require that Medicaid not reimburse providers for any medical costs used by the beneficiary to meet his or her share of cost (spend down) to become eligible. This issue is requesting the restoration of funding to continue coverage for adults under the program as converted effective May 1, 2003. The issue will increase spending in this activity by $8,242,197 after the program conversion.

Chapter 2002-400, Laws of Florida amends section 409.904, Florida Statutes effective May 1, 2003, to increase by $270 the income disregards for children, pregnant women, and aged, blind and disabled persons used to determine if persons are eligible for the Medically Needy program. In addition, this law eliminates Medicaid reimbursement of any expense that was used to meet the share of cost in accordance with the federal requirement. The increase in the amount of income disregarded for the Medically Needy program will provide individuals with $450 for his or her living expenses such as food, shelter and clothing; the current standard requires them to spend down their income with expenses not covered by Medicaid to $180.

The expansion of the Medical Foster Care Program in Tampa, Orlando, Jacksonville, Lakeland, West Palm Beach, Ft. Lauderdale and Ft. Myers will add an additional 264 beds serving approximately 330 additional children. This will bring the statewide total of Medical Foster Care beds to 444 providing 555 children with services in Medical Foster Care homes. This issue will add $35,947 in funding to this activity.

ACTIVITY: REFUGEES - HOSPITAL INPATIENT

SPECIFIC AUTHORITY: Chapter 409, Florida Statutes

AGENCY CONTACT: Shelly Brantley, Division of Medicaid, Bureau of Health Systems Development
TELEPHONE: (850) 488-9347

DESCRIPTION OF ACTIVITY:

1. PURPOSE OF ACTIVITY IS: To furnish inpatient hospital services to Medicaid beneficiaries when medically necessary.

2. TASKS/PROCESSES INCLUDED IN ACTIVITY ARE: Inpatient services must be prior authorized by a peer review organization (PRO) or PRO-like entity. This requires hospital providers to request authorization from the PRO for the issuance of a prior authorization number, which, when entered on the hospital claim form, will enable payment of all medically necessary hospital days.

3. ACCOMPLISHMENTS OF ACTIVITY ARE: Medically necessary inpatient hospital services are furnished to Medicaid beneficiaries who need them. The process of prior authorization ensures that the inpatient services reimbursed by Medicaid are medically necessary.

4. CUSTOMERS/NUMBER SERVED: 8,886 potential beneficiaries.

5. COUNTIES SERVED: Statewide

AGENCY - AGY REQUEST FY 2003-04 NARRATIVE:
The Agency requests $2,556,064 in continuation funding for this activity in order to furnish inpatient hospital services to Medicaid beneficiaries statewide when medically necessary. Inpatient services must be prior authorized. This funding will allow the purchase of approximately 61,392 case months of Medicaid services. Funding for this activity is based upon cost projections adopted at Social Service Estimating Conferences. These estimates may be adjusted by future Social Services Estimating Conference projections.

ACTIVITY: REFUGEES - THERAPEUTIC SERVICES FOR CHILDREN

SPECIFIC AUTHORITY: Chapter 409, Florida Statutes

AGENCY CONTACT: Shelly Brantley, Division of Medicaid, Bureau of Health Systems Development
TELEPHONE: (850) 488-9347

DESCRIPTION OF ACTIVITY:

1. PURPOSE OF ACTIVITY IS: Provides a wide array of community outpatient mental health services, targeted case management and community-based residential treatment services in therapeutic foster homes to assist children and families in resolving mental health issues that interfere with the child's functioning at home, in school or in the community. These services also serve to prevent the need for more intensive, more restrictive residential mental health placements.

2. TASKS/PROCESSES INCLUDED IN ACTIVITY ARE: Outpatient mental health services for children, including psychiatric evaluations and assessments; individual, group and family therapy; in-home therapies; day treatment and targeted case management to assist children in accessing needed services. For children in state custody, this activity includes assessment services and placement, if indicated, in specialized therapeutic foster homes with trained foster parents, supervised by licensed clinicians.

3. ACCOMPLISHMENTS OF ACTIVITY ARE: These services help children and adolescents function more successfully in their home, schools and communities and avoid placements in restrictive residential treatment settings. For children in state custody, these services are helpful in maintaining the stability of foster home placement. Therapeutic foster care services have resulted in a number of adoptions of special needs children who have been placed in specialized therapeutic foster homes.

4. CUSTOMERS/NUMBER SERVED: 972 potential beneficiaries.

2. TASKS/PROCESSES INCLUDED IN ACTIVITY ARE: Nursing facilities are reimbursed a per diem rate based on annual cost reports provided to the Agency by the facility. Beneficiaries are placed in facilities after they are determined to meet certain financial eligibility standards determined by the Department of Children and Families and certain medical level of care standards determined by the Department of Elder Affairs, CARES Program. Nursing facility services must be ordered by a physician.

3. ACCOMPLISHMENTS OF ACTIVITY ARE: Accomplishments are that beneficiaries who need 24-hour skilled nursing care due to their physical condition are provided this type of care in this type of facility, reimbursed by Medicaid. These services will ensure they receive care that will stabilize or rehabilitate their illness.

4. CUSTOMERS/NUMBER SERVED: Average number of beneficiaries per month is 47,796. Total of annual beneficiaries served is 76,981.

5. COUNTIES SERVED: Statewide

AGENCY - AGY REQUEST FY 2003-04 NARRATIVE:

The Agency requests $2,167,696,927 in continuation funding for this activity in order to purchase 24-hour per day care in skilled nursing facilities for beneficiaries in need of more intensive and adequate care than can be provided in the community. This funding will allow the purchase of approximately 573,552 case months of Medicaid services. Funding for this activity is based upon cost projections adopted at Social Service Estimating Conferences. These estimates may be adjusted by future Social Services Estimating Conference projections.

This funding level includes a $26,925,842 request for the restoration of funding for Medicaid Nursing Home Reimbursement Reform. This funding will provide for the rebasing of per diem rates for liability insurance. Chapter No. 2002-400, Laws of Florida amends section 409.908, Florida Statutes to direct the Agency to amend reimbursement plans for nursing facilities to allow for interim rate adjustments to reflect increases in the cost of general or professional liability insurance for nursing homes in order to offset the cost of such insurance. The General Appropriations Act for Fiscal Year 2002-03 provided non-recurring funding for this issue.

funding requested includes issues to restore and continue funding the Project AIDS Care Home and Community Based Services Waiver that is partially funded with non-recurring appropriation for the 2002-03 Fiscal Year. This waiver includes services such as case management, day health care, home delivered meals, skilled nursing care and specialized personal care for foster children. This issue requests the restoration of $6,526,468 for continuation of this program. Additional funding is also requested to provide Medicaid Waiver services to medically complex, technologically dependent, young adults aging out of coverage under the Children's Medical Services Program. Currently, 15 young adults are served under this program at a cost of $1,282,000. The Agency is requesting and additional $1,011,533 to cover an additional 5 individuals as well as to deal with increasing costs associated with this waiver service.

Currently, Florida has a federal Research and Demonstration Waiver, Consumer Directed Care, as authorized by Chapter 2002-223, Laws of Florida. The Florida legislature authorized the Agency to establish a permanent statewide program pursuant to the Consumer Directed Care Act, in light of the fact that the current waiver will expire October 2003. In order to maintain the program directed by the Legislature it is necessary to secure funding for 3,000 individuals to remain in a Consumer Directed Care program. The Agency is requesting $50,085,000 to serve an estimated 3,000 Developmentally or Aged and Disabled individuals. The Department of Children and Families and the Department of Elder Affairs will provide state matching funds for this issue.

ACTIVITY: MENTAL HEALTH DISPROPORTIONATE SHARE PROGRAM

SPECIFIC AUTHORITY: Chapter 409, Florida Statutes

AGENCY CONTACT: Ken Thurston, Division of Medicaid
TELEPHONE: (850) 488-3560

DESCRIPTION OF ACTIVITY:

1. PURPOSE OF ACTIVITY IS: Distribute funding for Florida Medicaid Mental Health Hospitals that participate in the Disproportionate Share Program (DSH).

2. TASKS/PROCESSES INCLUDED IN ACTIVITY ARE: Based upon the General Appropriations Act for each fiscal year, Program Analysis determines which hospitals are eligible to participate in the Mental Health DSH program in accordance with s. 409.911 and 409.9115, F.S.

3. ACCOMPLISHMENTS OF ACTIVITY ARE: Mental health hospitals receive the maximum amount of annual DSH funding allocated for mental health DSH programs.

4. CUSTOMERS/NUMBER SERVED: Four (4) mental health hospitals in Florida receive mental health DSH funding.

5. COUNTIES SERVED: Gadsden, Broward, Baker, and Desoto

AGENCY - AGY REQUEST FY 2003-04 NARRATIVE:
The Agency requests the continuation of this activity at the current level of funding in order to provide funding for mental health hospitals according to statutory rules and federal requirements which serve a disproportionate share of Medicaid or charity care cases throughout Florida. Funding for this activity is not allocated per recipient, as is the case of other services purchases by Medicaid. $53,362,198 in funding will provide an estimated 540 case months of Medicaid services. Funding for this activity is based upon cost projections adopted at Social Service Estimating Conferences. These estimates may be adjusted by future Social Services Estimating Conference projections.

AGENCY CONTACT: Shelly Brantley, Division of Medicaid, Bureau of Health Systems Development
TELEPHONE: (850) 488-9347

DESCRIPTION OF ACTIVITY:

1. PURPOSE OF ACTIVITY IS: The purpose of this activity is to provide an array of home and community based services at a capitated rate to beneficiaries who meet nursing facility level of care. This facilitates the inclusion of these beneficiaries in the community as opposed to costly institutional care.

2. TASKS/PROCESSES INCLUDED IN ACTIVITY ARE: Capitated, per member per month payments are made for services that are provided through health maintenance organizations or other qualified providers. Qualified individuals must be at financial risk for nursing facility services if the beneficiary can no longer remain at home in the community with these services.

3. ACCOMPLISHMENTS OF ACTIVITY ARE: Provides home and community based services to beneficiaries who are Medicare and Medicaid eligible and would otherwise reside in a nursing facility.

4. CUSTOMERS/NUMBER SERVED: 1,059

5. COUNTIES SERVED: Orange and Palm Beach

AGENCY - AGY REQUEST FY 2003-04 NARRATIVE:
The Agency requests the continuation of this activity at the current level of funding in order to provide payment for an array of home and community based services at a capitated rate to beneficiaries who meet nursing facility level of care. AGENCY CONTACT: Jeff Gregg
TELEPHONE: (850) 922-0791

DESCRIPTION OF ACTIVITY:

1. PURPOSE OF ACTIVITY IS: The CON program is a health planning process that directs new hospital, nursing home, hospice and ICF-DD facilities and services to areas of greatest need according to established need formulas. The financial analysis programs evaluate audited financial statements submitted by hospitals and nursing homes, using the information to contribute to CON reviews as well as other activities such as calculating provider contributions to the PMATF and HCRA programs.

2. TASKS/PROCESSES INCLUDED IN ACTIVITY ARE: Forecasts need for regulated health care services twice yearly; completes health planning, accounting and architectural reviews of CON applications; monitors conditions that apply to existing CONs; and participates in legal appeals of CON decisions. The financial analysis programs analyze audited financial statements and provide the results of these analyses for use in different processes that require health care financial information.

3. ACCOMPLISHMENTS OF ACTIVITY ARE: The CON program completed 103 full comparative CON reviews, 21 expedited reviews, processed 124 exemption requests and conducted 1,040 condition compliance reviews. The financial analysis program completed 266 hospital reviews and 224 nursing home reviews. The unit also staffed the statewide CON Workgroup, completed a study of FDVA nursing home privatization and developed financial analysis tools to improve licensure reviews.

4. CUSTOMERS/NUMBER SERVED: Customers are the state's 1,100 hospitals, nursing homes, hospices and ICF-DDs; and Florida citizens being served by these facilities.

ICF-DD facilities and services to areas of greatest need according to established need formulas. This activity also evaluates audited financial statements submitted by hospitals and nursing homes. The Certificate of Need/Financial Analysis Unit anticipates conducting 1,800 certificate of need requests and financial reviews during the 2003-04 Fiscal Year, which is same level of certificate of need requests and financial reviews processed during the 2002-03 Fiscal Year.

The Agency requests that funding be increased from $1,303,471 to $1,310,912, which represents a .57% increase for continuation funding in order to maintain the same level of service as being delivered in the 2002-03 Fiscal Year. The funding requested for this activity includes 22.00 positions and therefore includes statewide issues such as pay increases, which result in changes in appropriations.

DESCRIPTION OF ACTIVITY:

1. PURPOSE OF ACTIVITY IS: All of these responsibilities are geared to serve the users of health care facilities and services and to ensure consumer safety through provider compliance with minimum standards. If the activity did not exist, facilities would be free to treat customers based upon numerous different and possibly unacceptable standards. The state has both a statutory and moral obligation to its citizens to ensure compliance with minimum standards of health and safety.

2. TASKS/PROCESSES INCLUDED IN ACTIVITY ARE: Health Facility Regulation provides protection throughout Florida to health care consumers and stakeholders by regulating activities including policy and minimum standards development, facility licensure, federal Medicare-Medicaid certification, facility compliance history analysis, and response to consumers about numbers of facility complaints.

3. ACCOMPLISHMENTS OF ACTIVITY ARE: The Bureau administered state licensure, federal certification and/or state registration programs for 33 different types of health care providers. There were over 21,340 licensure actions, either for initial applications or renewals.

4. CUSTOMERS/NUMBER SERVED: Direct customers are 21,340 regulated health care providers. An untold number of health care patients and their families were served by this regulatory activity.

This activity includes a legislative budget request in the amount of $25,950 for an annual support agreement with VERSA Management Systems, Inc. to maintain the Florida Regulatory Administration Enforcement System (FRAES) to ensure continued functionality. The on-going maintenance funding will allow the Agency to maintain an on-going agreement with VERSA at a more cost beneficial fixed rate. The recurring funding requested for this activity is a 1.89% increase from $5,472,689 to $5,575,954, which includes 82.50 positions and therefore includes statewide issues such as the pay package, which results in changes in appropriations.

The 2001-02 General Appropriations Act included non-recurring funding in the amount of $476,987 for the re-engineering of the FRAES system as well as $400,000 in non-recurring funds appropriated for nursing home reform during the 2001-02 Legislative session.

completing 24,530 surveys and facility complaint investigations during the 2003-04 Fiscal Year, which is a 4.99% increase in productivity over the 2002-03 Fiscal Year.

This activity requests a .39% decrease in funding from $19,579,103 to $19,503,621 and includes a legislative budget request to realign salaries, expense and positions between program components. In the last several years management and workforce reductions have occurred in inappropriate program components. This has resulted in the budget being reduced from the incorrect program component. This issue will realign the budget in the appropriate program components. DESCRIPTION OF ACTIVITY:

1. PURPOSE OF ACTIVITY IS: To assure the protection of the rights, welfare, health and safety of consumers receiving care in licensed health care facilities through the development and enforcement of minimum standards; and to improve patient outcomes by using Minimum Data Set (MDS) and Outcome Assessment Information Set (OASIS) assessment data, providing surveyor and provider training, and conducting nursing home quality-of-care monitoring visits.

2. TASKS/PROCESSES INCLUDED IN ACTIVITY ARE: The number of Minimum Data Set (MDS) and Outcome Assessment Information Set (OASIS) assessment records received and successfully deposited in the database. The number of individuals (surveyors and providers) who completed training sessions. The number of nursing home quality-of-care monitoring visits conducted.

3. ACCOMPLISHMENTS OF ACTIVITY ARE: Survey activities are more focused on specific needs of the individual Floridian through the use of Quality Improvement Reports generated from 1,677,292 MDS/OASIS data transactions. Training of 3,048 persons ensures the skills necessary to evaluate health outcomes and promotes uniform enforcement of health facility standards. 2,089 quality-of-care monitoring visits provided Early Warning detection of conditions potentially detrimental to the health of residents.

4. CUSTOMERS/NUMBER SERVED: Customers include all individuals served by Florida's health care facilities.

AGENCY - AGY REQUEST FY 2003-04 NARRATIVE:

This activity assures the protection of the rights, welfare, health and safety of consumers receiving care in licensed health care facilities through the development and enforcement of minimum standards; and to improve patient outcomes by using Minimum Data Set (MDS) and Outcome Assessment Information Set (OASIS) assessment data, providing surveyor and provider training and conducting nursing home quality-of-care monitoring visits. The Health Standards and Quality activity expects to perform 1,682,429 transactions during the 2003-04 Fiscal Year, which is the same level of transactions completed during the 2002-03 Fiscal Year.

The Agency requests that recurring funding be increased from $3,567,122 to $3,623,935, which represents a 1.60% increase in funding and includes a legislative budget issue for continuation funding for the Florida Center for Nursing in the amount of $250,000, which was funded and established by the 2001 Legislature to address issues of supply and demand for nursing to include recruitment, retention and utilization of nurse workforce resources. The funding requested for this activity includes 51.50 positions and therefore includes statewide issues such as the pay increases, which result in changes in appropriations.

Also included is a legislative budget issue for a two-position movement between the Managed Care program component (1205020000) and the Facility Regulation program component (1204010000) due to position reductions being taken in the incorrect program components over the past several years. Additionally, this issue proposes to realign the budget between program components.

DESCRIPTION OF ACTIVITY:

1. PURPOSE OF ACTIVITY IS: This activity exists to assure the health and safety of health care patients through the review of the physical plants of hospitals, nursing homes, ambulatory surgical centers, hospices, ICF/DDs, and birthing centers.

2. TASKS/PROCESSES INCLUDED IN ACTIVITY ARE: The review of plans and the on-site inspection of construction for all new and renovated facilities and the physical plant on-site review of existing facilities to insure consistent compliance with applicable codes, rules, and standards.

3. ACCOMPLISHMENTS OF ACTIVITY ARE: Without this activity, 25-30 percent of these facilities would have serious physical plant defects, such as fire safety deficiencies that can cause injury from fire and smoke inhalation, health safety deficiencies that can cause nosocomical infections, and electrical and mechanical deficiencies that can cause catastrophic patient injury through electrical shock, dirty air filter systems, and incorrectly installed medical gas systems.

4. CUSTOMERS/NUMBER SERVED: Customers include over 1,500 health care facilities and individuals served by those facilities. The average number of reviews conducted during a fiscal year equals approximately 4,500.

will complete the same number in the 2003-04 Fiscal Year.

A legislative budget issue in the amount of $104,448 to increase travel expenditure authority is requested for this activity. This will allow the Agency to conduct all required statewide fire/life safety surveys and construction surveys of hospitals, nursing homes, ambulatory surgery centers, hospices, intermediate care facilities for the developmentally disabled and birthing centers. Based on historical data, actual travel costs incurred are approximately $6,564 per professional position. This is $2,818 more than the per capita budget allocation available per professional position. The allotted per capita travel expense for these positions ($3,746 per position) is not sufficient to cover the travel required to conduct this program.

The Agency requests $3,414,124 in funding, which represents a 3.67% increase for this activity over the 2002-03 Fiscal Year. The funding requested for this activity includes 46.00 positions and therefore includes statewide issues such as pay increases, which result in changes in appropriations.

AGENCY CONTACT: Tom Hannah
TELEPHONE: (850) 414-1984

DESCRIPTION OF ACTIVITY:

1. PURPOSE OF ACTIVITY IS: To investigate citizen complaints against health care practitioners licensed by the Department of Health and thereby protect the public against dangerous or unscrupulous health care practitioners. As part of the effort to protect the public, staff in Investigative Services also performs annual inspections of pharmacies, dental laboratories, massage establishments, electrology establishments and dispensing practitioners.

2. TASKS/PROCESSES INCLUDED IN ACTIVITY ARE: Through its 11 offices statewide, Investigative Services provides practitioner complaint investigations when complaints are made against any of approximately 750,000 licensed health care practitioners in Florida; annual inspections of 5 different types of practitioner establishments; and monitoring of licensees placed on probation by the relevant licensure board.

3. ACCOMPLISHMENTS OF ACTIVITY ARE: For FY 2001-02, Investigative services completed 4,469 investigations; completed 16,525 annual inspections; and monitored an average of 170 probationary licensees each quarter while maintaining a compliance rate of 99.4% with the 90-day standard timeframe allowed by AHCA for completion of investigations. This enabled the program to maintain an average compliance rate of 90.3% with the statutorily mandated 180-day timeframe for a recommendation of probable cause.

4. CUSTOMERS/NUMBER SERVED: Customers served are the more than 16 million citizens of Florida who use the services of licensed health care practitioners.

Enforcement of regulations is required under Sections 456.001-456.082, F.S., and protects the public by removing from practice those practitioners that pose an immediate threat to the health, safety and welfare of the public.

2. TASKS/PROCESSES INCLUDED IN ACTIVITY ARE: Intake, analysis and determination of legal sufficiency for investigation of complaints against licensed health care practitioners, including consumer complaints against health care practitioners; complaints of unlicensed activity; and adverse incidents involving practitioners in hospitals, nursing homes and assisted living facilities.

3. ACCOMPLISHMENTS OF ACTIVITY ARE: Provided intake for 32,030 complaints and reports and processed and analyzed 29,753 such complaints and reports during FY 2001-02. This was done with a compliance rate of 98.4% with AHCA's established timeframe of 10 days for intake and completion. This was accomplished in spite of the loss of staff and an under-estimate of approximately 614% in the numbers of complaints that would be received as adverse incidents from nursing homes and assisted living facilities.

DESCRIPTION OF ACTIVITY:

1. PURPOSE OF ACTIVITY IS: To monitor the quality of care of commercial and Medicaid HMOs, prepaid health clinics, exclusive provider organizations, and workers' compensation arrangements. The office reviews the adequacy of provider networks and network changes; accompanies accreditation organizations on their reviews, and determines compliance with the Medicaid HMO contract requirements.

2. TASKS/PROCESSES INCLUDED IN ACTIVITY ARE: Marketing surveys, risk management surveys, accreditation surveys, network service reviews, complaint reviews, Medicaid rate reviews, disenrollment reviews, child health care check up reviews, and workers' compensation network reviews.

3. ACCOMPLISHMENTS OF ACTIVITY ARE: The workers' compensation program completed 360 surveys during FY 2001-2002, and the commercial and the program compliance unit completed 246 surveys, including desk reviews, for a total number of 606 surveys.

4. CUSTOMERS/NUMBER SERVED: The program serves the interests of all 4,491,125 members of managed care plans in Florida.

5. COUNTIES SERVED: Statewide

exclusive provider organizations, and workers' compensation arrangements. The office reviews the adequacy of provider networks and network changes; accompanies accreditation organizations on their reviews, and determines compliance with the Medicaid HMO contract requirements. The Managed Health Care activity completed 606 HMO and workers' compensation arrangement surveys during the 2002-03 Fiscal Year and the productivity level for the 2003-04 Fiscal Year is anticipated to remain at the same level as the 2002-03 Fiscal Year.

This activity included a request for funding in the amount of $250,000 for the use of a database system that is owned by the Department of Insurance and housed in the State Technology Office. The workers' compensation medical services unit was transferred from the Department of Labor and Employment Security to the Agency for Health Care Administration effective July 1, 2002. The medical services unit needs access to this database to obtain various reports such as health care provider reimbursement and medical data for workers' compensation injuries paid by insurers. This request is for the use of this database, through the State Technology Office, which will result in use fees and consulting fees to be paid to an outside vendor to maintain the database, perform software modifications and enhance the database as needed.

This activity proposes a 26.41% increase in funding from $3,157,981 to $3,992,041 and includes the transfer of seven positions associated with managed care activities from the Executive Leadership and Support Services program component to the Managed Care program component where the activities occur. This also includes a two-position movement between the Managed Care program component (1205020000) and the Facility Regulation program component (1204010000) due to position reductions being taken in the incorrect program components over the past several years. This issue proposes to realign the budget between program components. The funding requested for this activity includes 61.00 positions and therefore includes statewide issues such as pay increases, which result in changes in appropriations.

DESCRIPTION OF ACTIVITY:

1. PURPOSE OF ACTIVITY IS: To provide an informal, low cost, personal forum for managed care organization subscribers with unresolved grievances. The program is composed of support staff and panel members selected from the Agency for Health Care Administration, Department of Insurance, a Governor-appointed physician, a Governor-appointed consumer representative, and a specialty physician as appropriate.

2. TASKS/PROCESSES INCLUDED IN ACTIVITY ARE: Receiving and reviewing information from subscribers and the health plans. Staff members research the issue(s), prepare written case summaries, and distribute these to the panel members. Following the panel hearings staff members closely track the process (hearing, period of objection, final order, compliance) to assure resolution in compliance with the Florida Statutes.

3. ACCOMPLISHMENTS OF ACTIVITY ARE: The support staff providing accurate information for the panel members. The subscribers have an opportunity for a personal presentation regarding their unresolved grievances before appropriate professionals. The program received 513 new cases and closed out 564 cases in 2000-2001. Of those cases processed through settlement or by the panel, 54.63% were decided in favor of the subscriber.

4. CUSTOMERS/NUMBER SERVED: In FY 2001-2002, 513 cases were received.

ACTIVITY: HEALTH CARE REGULATION--MEDICAID CHOICE COUNSELING

SPECIFIC AUTHORITY: Section 409.9122(2)(e), Florida Statutes

AGENCY CONTACT: Elfie Stamm
TELEPHONE: (850) 410-0823

DESCRIPTION OF ACTIVITY:

1. PURPOSE OF ACTIVITY IS: To provide Medicaid beneficiaries with information on their health care plan options prior to enrollment. The Medicaid Options Program is responsible for providing beneficiaries with the required information and enrolling beneficiaries in the plan of their choice. Florida's Medicaid Options Program is operated in compliance with federal and state laws.

2. TASKS/PROCESSES INCLUDED IN ACTIVITY ARE: The Medicaid Options Program operates a toll free hotline to provide Medicaid beneficiaries with immediate access to information on health plans available in their area of residence. All newly eligible Medicaid beneficiaries receive information packages; beneficiaries enrolling through the program receive confirmation letters; and beneficiaries requesting a change of plans are provided with the necessary assistance.

3. ACCOMPLISHMENTS OF ACTIVITY ARE: The Medicaid Options Program answered 767,171 calls in FY 2001-2002; mailed 502,323 new eligible packages; and enrolled 354,448 beneficiaries.

4. CUSTOMERS/NUMBER SERVED: The Medicaid Options Program enrolled 354,448 beneficiaries in HMOs and MediPass during FY 2001-2002 (some beneficiaries may enroll more than once during a year); and assisted 196,896 in plan changes.

5. COUNTIES SERVED: Statewide

Counseling' to 'Medicaid Options Enrollment Program'. The associated unit cost measure would change from the current 'Number of New Enrollees Provided Choice Counseling' to 'Number of Beneficiaries Receiving Assistance in Plan Enrollment and Plan Changes Annually'. These changes would more accurately reflect the program as Medicaid Options and is consistent with the statutory changes made by the 2001 Legislature to Chapter 409.912, F.S. Prior to the change, subsection 409.912(25) specified that the agency shall perform choice counseling, enrollments, and disenrollments for Medicaid beneficiaries. In 2001, the words "choice counseling" were stricken from this subsection. These statutory changes eliminate the authority of the agency to provide choice counseling. Instead the focus of the program is on Medicaid beneficiary enrollment.

This activity provides Medicaid beneficiaries with information on their health care plan options prior to enrollment. The Medicaid Options Program is responsible for providing beneficiaries with the required information and enrolling beneficiaries in the plan of their choice. Florida's Medicaid Options Program is operated in compliance with federal and state laws. The number of beneficiaries receiving assistance in plan enrollment and plan changes annually during the 2002-03 Fiscal Year was 551,344. It is anticipated that during the 2003-04 Fiscal Year the productivity will remain at the same level as the 2002-03 Fiscal Year.

This activity requests a 2.81% increase in funding from $7,396,751 to $7,604,475, which includes an issue to realign budget between program components. In the last several years management reductions and workforce reductions have occurred in the in the inappropriate program components. This has resulted in reductions in incorrect activities. This issue would realign the budget in the appropriate program components.

AGENCY - AGY REQUEST FY 2003-04 NARRATIVE:

This activity provides direction, policy, coordination, and administrative support to the operations of the Division of Managed Care and Health Quality.

The Agency requests a 17.38% increase in funding from $3,426,611 to $4,022,385, which includes an issue to allow the Agency to obtain an acceptable provider for services required in the Agency's privatized complaint and information call center. It is anticipated that the contract cannot be procured in the 2003-04 Fiscal Year for less than $1,858,332, which represents an increase of $966,332 in the required appropriation. A portion of this increase in costs will be paid by the Department of Health in recognition of the percentage of calls and mailings associated with health care practitioners. Medicaid matching funds are also available through the Administrative Trust Fund for calls associated with Medicaid beneficiaries.

Also included in this activity is an issue to realign budget in the appropriate program components. In the last several years management reductions and workforce reductions have occurred in the incorrect activity. This has resulted in the budget being reduced from the incorrect program component. This activity also includes the transfer of seven positions associated with managed care activities from the Executive Leadership and Support Services program component to Managed Care program component where the activities occur. The funding requested for this activity includes 7.00 positions and therefore includes statewide issues such as pay increases, which result in changes in appropriations.
