ACTIVITY: GENERAL COUNSEL/LEGAL

SPECIFIC AUTHORITY: Section 20.42, Florida Statutes

AGENCY CONTACT: Valda Clark Christian
TELEPHONE: (850) 922-5873

DESCRIPTION OF ACTIVITY:

1. PURPOSE OF ACTIVITY IS: To support, guide and defend Agency mission critical regulatory, prosecutorial and policy making activities for all Agency divisions, including Medicaid fraud and abuse and healthcare facility regulation. Legal support is an absolute requisite to effectuating the Agency's statutory mandates; without it, Agency decision making would be subject to constant challenge and rendered ineffective.

2. TASKS/PROCESSES INCLUDED IN ACTIVITY ARE: Prosecute or defend Agency decisions in all legal fora. Provide day-to-day counseling and legal opinions. Review, draft and make recommendations on new legislation and administrative rules. Review and assist in drafting Agency contracts. Prepare Final Orders that enunciate Agency policy.

3. ACCOMPLISHMENTS OF ACTIVITY ARE: The activity of the General Counsel's Office is mission critical to the Agency. It effectuates and upholds Agency policy and decisions through the legal process, helps eliminate Medicaid fraud and abuse by obtaining judgments for overpayments or sanctions against abusive providers, and helps protect Florida's vulnerable ill and elderly by prosecuting deficient healthcare facilities.

4. CUSTOMERS/NUMBER SERVED: The entire populace of Florida's citizens who may ever receive treatment in a Florida healthcare facility and the entire populace of Medicaid beneficiaries and other poor, elderly and disabled in Florida.

5. COUNTIES SERVED: Statewide.

AGENCY - AGY REQUEST FY 2003-04 NARRATIVE:

ACTIVITY: TRAINING

SPECIFIC AUTHORITY: Section 20.42(1)(d), Florida Statutes

AGENCY CONTACT: Betty Clark
TELEPHONE: (850) 922-8435

DESCRIPTION OF ACTIVITY:

1. PURPOSE OF ACTIVITY IS: Provide training to improve the skills of the Agency's employees. A structured training program assures that the Agency retains a staff of highly skilled, motivated, and professional personnel. Without this section, the Agency's employees would no longer receive supervisory, continuing education, professional development and skill improvement and development training.

2. TASKS/PROCESSES INCLUDED IN ACTIVITY ARE: Researching training needs; coordinating and facilitating training including orientation, supervisory training, continuing education, professional development and skill improvement and development; recommend a training module for staff, monitoring training classes taken.

3. ACCOMPLISHMENTS OF ACTIVITY ARE: Ensure staff are knowledgeable about Agency procedures and policies and state and federal laws related to the workplace; provide access to the latest information for skill development/improvement; schedule classes for continuing education credits during work hours when possible; ensure motivational and other topics of interest are presented to staff through the Lunch and Learn series; and offer supervisory/managerial classes regularly to meet Agency needs.

SPECIFIC AUTHORITY: Section 408.006(5)(e), Florida Statutes

AGENCY CONTACT: Paul Harbin
TELEPHONE: NUMBER: (850) 922-3657

DESCRIPTION OF ACTIVITY:

1. PURPOSE OF ACTIVITY IS: This activity includes the Agency's Help Desk and customer support staff, providing end-user support for all Agency offices on an as needed basis. All Agency staff using personal computers are potentially dependent on desktop support for times when they need assistance.

2. TASKS/PROCESSES INCLUDED IN ACTIVITY ARE: Evaluation, acquisition, configuration and installation of desktop/laptop computers and peripherals for the Agency. Troubleshooting and repair of computer hardware and software problems. Phone support and hands-on support provided. Manage voice communications including upgrades and changes to telephone systems and individual phone line needs.

3. ACCOMPLISHMENTS OF ACTIVITY ARE: Low occurrences of down time for computer systems that supply Agency staff with the applications to accomplish the Agency mission. Strong customer service and very rapid responses to computer and educational problems.

4. CUSTOMERS/NUMBER SERVED: The general public is served directly via the Agency's Internet sites and indirectly via the support given to the rest of the Agency. All Agency employees are served. Consultants and other state agencies are also supported in some fashion.

5. COUNTIES SERVED: Statewide.

AGENCY - AGY REQUEST FY 2003-04 NARRATIVE:

This activity provides Agency computer customer support via a computer and telecommunications Help Desk. In Fiscal Year 2001-2002, the Help Desk logged 8,080 calls for assistance. ACTIVITY: INFORMATION TECHNOLOGY - EXECUTIVE DIRECTION

SPECIFIC AUTHORITY: Section 408.006(5)(e), Florida Statutes

AGENCY CONTACT: Frank Folmar
TELEPHONE: NUMBER: (850) 922-5539

DESCRIPTION OF ACTIVITY:

1. PURPOSE OF ACTIVITY IS: The Chief Information Officer supports the Agency's business systems and operational objectives through executive direction, planning, and coordination of the complete information technology solution with Agency executives, Health and Human Services knowledge domain executives, State Technology Office executives, and information technology activity managers.

2. TASKS/PROCESSES INCLUDED IN ACTIVITY ARE: This activity consists of meeting with key Agency stakeholders to determine the best way to leverage technology to achieve the Agency's mission. Once the direction is established, plans are made to execute it in a cost efficient manner. Various coordination activities must be done on a regular basis.

3. ACCOMPLISHMENTS OF ACTIVITY ARE: Overall AHCA staff/management satisfaction is a key indicator of successful completion of this activity. Additionally, projects that contribute to the Agency's mission, which are delivered on time and on budget are success indicators. Systems that deliver high availability are important. Friendly, accessible, technical support for the use of technology in the Agency is another key indicator.

4. CUSTOMERS/NUMBER SERVED: The general public is served directly via the Agency's Internet sites and indirectly via the support given to the rest of the Agency. All Agency employees are serviced by this activity.

AGENCY - AGY REQUEST FY 2003-04 NARRATIVE:

This activity provides high-level oversight and direction of all information technology processes to the Agency. The Agency requests that the spending for this activity be increased from $129,590 to $292,838, a 125.98% increase. This activity includes an issue for disaster recovery funding as well as funding for 1.00 position. Therefore, it also includes statewide issues such as pay package, which results in changes to the appropriations.

The Agency requests $162,636 in funding in order to establish a disaster recovery services plan for the Agency. The Bureau of Information Technology (IT) is charged with securing a disaster recovery plan. A critical component of the plan is a recovery strategy for alternate processing (Hot-Site) to provide disaster recovery services for the various system environments. The disaster recovery services will cover essential computer equipment; data communications connections to the state backbone; and restoration of critical systems and data. Additionally, pending federal Health Insurance Portability and Accountability Act (HIPAA) Security Standards require all health care entities to have a Disaster Recovery Plan in place. The Agency's disaster recovery services would include a Hot-Site facility and Mobile Office Center.

DESCRIPTION OF ACTIVITY:

1. PURPOSE OF ACTIVITY IS: This activity includes the Agency's Help Desk and customer support staff, providing end-user support for all Agency offices on an as needed basis. All Agency staff using personal computers are potentially dependent on desktop support for times when they need assistance.

2. TASKS/PROCESSES INCLUDED IN ACTIVITY ARE: Evaluation, acquisition, configuration and installation of desktop/laptop computers and peripherals for the Agency. Troubleshooting and repair of computer hardware and software problems. Phone support and hands-on support provided. Manage voice communications including upgrades and changes to telephone systems and individual phone line needs.

3. ACCOMPLISHMENTS OF ACTIVITY ARE: Low occurrences of down time for computer systems that supply Agency staff with the applications to accomplish the Agency mission. Strong customer service and very rapid responses to computer and educational problems.

4. CUSTOMERS/NUMBER SERVED: The general public is served directly via the Agency's Internet sites and indirectly via the support given to the rest of the Agency. All Agency employees are served. Consultants and other state agencies are also supported in some fashion.

out of Program Component 1602000000 - Executive Leadership/Support Services to 1603000000 - Information Technology. This activity is used in Information Technology program component 1603000000 where we are requesting an increase from $3,239,730 to $3,298,984. Other than the funds related to the budget realignment, this is an increase of 1.83% for continuation funding of this activity at the current funding levels in order to maintain the same level of service as being delivered in Fiscal Year 2002-2003. The budget realignment is to fund the salaries and expense of one full time equivalent position to the appropriate program component. The net impact of this issue is zero. The movement of the budget does not create any additional budgetary need. Program component 1603000000 for this activity includes 24.00 positions. Also included are statewide issues such as pay package, which results in changes to the appropriations.

DESCRIPTION OF ACTIVITY:

1. PURPOSE OF ACTIVITY IS: The Agency for Health Care Administration purchases health care coverage for services for children enrolled in the MediKids Program through Medicaid managed care. MediKids is available for children ages 1-5 throughout the state.

2. TASKS/PROCESSES INCLUDED IN ACTIVITY ARE: As part of the Agency's contract with Medicaid health maintenance organizations (HMOs), the HMOs are required to provide services to MediKids enrollees comparable to Medicaid services. MediKids eligibles may also enroll in MediPass, a primary care case management program.

3. ACCOMPLISHMENTS OF ACTIVITY ARE: The MediKids program utilizes contracted Medicaid HMOs and the MediPass program to provide services to MediKids beneficiaries. Mandatory assignment has been implemented as a tool to get children enrolled more quickly in the program.

4. CUSTOMERS/NUMBER SERVED: 30,240 children are enrolled in the MediKids program as of July 2002.

5. COUNTIES SERVED: Statewide

AGENCY - AGY REQUEST FY 2003-04 NARRATIVE:

The Agency requests $41,121,617 in funding for this activity in order to allow the Agency to purchase health care coverage for children enrolled in the MediKids program through Medicaid managed care. This funding will allow the purchase of approximately 501,732 case months of services. Funding for this activity is based, in part, upon cost projections adopted at Social Service Estimating Conferences. These estimates may be adjusted by future Social Services Estimating Conference projections.

This funding request represents an approximate 9.9% increase over the prior year funding need. This activity is impacted by Agency requests to annualize Florida KidCare Program funding. The Fiscal Year 2002-03 appropriations for the KidCare program were established under the assumption that enrollment will continue to increase in all components of the program through June 2003. Assuming that the projected June 2003 enrollment will be achieved, additional funds will be necessary to annualize the cost of the June 2003 enrollments. This issue will add $3,724,170 in funding to this activity.

ACTIVITY: PURCHASE CHILDREN'S MEDICAL SERVICES NETWORK SERVICES

SPECIFIC AUTHORITY: Chapter 409, Florida Statutes

AGENCY CONTACT: Shelly Brantley, Division of Medicaid, Bureau of Health Systems Development
TELEPHONE: (850) 488-9347

DESCRIPTION OF ACTIVITY:

1. PURPOSE OF ACTIVITY IS: The Agency for Health Care Administration purchases health care coverage for children with special health care needs from birth to age 19 who are enrolled in the Children's Medical Services (CMS) Network. Children must be eligible for the program under Title XXI of the Social Security Act. Eligibility for the CMS Network is determined by the Department of Health.

2. TASKS/PROCESSES INCLUDED IN ACTIVITY ARE: Appropriate and complete screening of children to determine the presence of special health care needs continues to be an area of focus in the program. KidCare partners are in the process of updating the KidCare application to better assist in the correct and prompt identification of children with special health care needs.

3. ACCOMPLISHMENTS OF ACTIVITY ARE: The KidCare application is being modified as stated in #2 above.

4. CUSTOMERS/NUMBER SERVED: 7,665 children were enrolled in the CMS program as of July 2002.

5. COUNTIES SERVED: Statewide

AGENCY - AGY REQUEST FY 2003-04 NARRATIVE:
The Agency requests $65,481,749 in funding for this activity in order to allow the Agency to purchase health care coverage for children with special health care needs from birth to age 19 who are enrolled in the Children's Medical Services Network. Children must be eligible for the program under Title XXI of the Social Security Act. Eligibility for the Children's Medical Services Network is determined by the Department of Health. This funding will allow the purchase of approximately 116,592 case months of services. Funding for this activity is based, in part, upon cost projections adopted at Social Service

Estimating Conferences. These estimates may be adjusted by future Social Services Estimating Conference projections.

This funding request represents an approximate 40.3% increase over the prior year funding need. This activity is impacted by Agency requests to annualize Florida KidCare Program funding as well as funding requests to increase the Title XXI Children's Medical Services Behavioral Health Network.

The Fiscal Year 2002-03 appropriations for the KidCare program were established under the assumption that enrollment will continue to increase in all components of the program through June 2003. Assuming that the projected June 2003 enrollment will be achieved, additional funds will be necessary to annualize the cost of the June 2003 enrollments. This issue will add $3,536,777 in funding to this activity.

The Behavioral Health Network currently has a waiting list for eligible children and Florida Healthy Kids has identified several hundred additional children who may be eligible for the program. By providing increased funding, an additional 900 eligible children with serious emotional and substance dependence problems will be able to obtain the level of specialized behavioral health services they need. This issue will add $15,259,536 in funding to this activity.

ACTIVITY: PURCHASE FLORIDA HEALTHY KIDS CORPORATION SERVICES

SPECIFIC AUTHORITY: Chapter 409, Florida Statutes

AGENCY CONTACT: Shelly Brantley, Division of Medicaid, Bureau of Health Systems Development
TELEPHONE: (850) 488-9347

DESCRIPTION OF ACTIVITY:

1. PURPOSE OF ACTIVITY IS: The Agency for Health Care Administration provides the Florida Healthy Kids Corporation with funding for the purchase of health care coverage for children ages 5 to 19 who are enrolled in Florida Healthy Kids. Families are required to contribute to the cost of coverage.

2. TASKS/PROCESSES INCLUDED IN ACTIVITY ARE: The Agency contracts with the Florida Healthy Kids Corporation to enroll eligible children in Florida Healthy Kids.

3. ACCOMPLISHMENTS OF ACTIVITY ARE: The primary beneficiaries of services provided through the corporation are children with a family income below 200 percent of the federal poverty level that do not qualify for Medicaid. Without this program, many Florida children would not have health insurance coverage.

4. CUSTOMERS/NUMBER SERVED: Over 220,000 children were enrolled in the Healthy Kids program in July 2002.

5. COUNTIES SERVED: Statewide

AGENCY - AGY REQUEST FY 2003-04 NARRATIVE:
The Agency requests $393,963,696 in funding for this activity in order to provide the Florida Health Kids Corporation with funding for the purchase of health care coverage for children ages 5 to 19 who are enrolled in Florida Healthy Kids. Families are required to contribute to the cost of coverage. This funding will allow the purchase of approximately 3,793,692 case months of services. Funding for this activity is based, in part, upon cost projections adopted at Social Service Estimating Conferences. These estimates may be adjusted by future Social Services Estimating Conference projections.

This funding request represents an approximate 17.7% increase over the prior year funding need. This activity is impacted by Agency requests to annualize Florida KidCare Program funding. The Fiscal Year 2002-03 appropriations for the KidCare program were established under the assumption that enrollment will continue to increase in all components of the program through June 2003. Assuming that the projected June 2003 enrollment will be achieved, additional funds will be necessary to annualize the cost of the June 2003 enrollments. This issue will add $59,335,096 in funding to this activity.

requested to build upon a pilot project to determine the feasibility of implementing statewide, the integration of a comprehensive automated eligibility access system, which incorporates the Florida 211 network information, and referral system project. $395,126 is requested to fund an increase in the frequency and number of admission and continued stay inpatient reviews for Statewide Inpatient Psychiatric Services (SIPP) for individuals under the age of 21. As of January 2002, the expansion of SIPP from two providers to fifteen has increased the number of requests for prior authorization and continued stay reviews based on the beneficiaries' medical necessity and length of stay. A PEER Review Organization (PRO) under contract with the Agency conducts the reviews. $195,000 is requested to allow an increase in the number of home health pre-certification reviews performed by a PRO. The Agency contracts with PRO organizations to conduct medical record reviews for pre-certification of home health visits for any beneficiary that has had 60 cumulative home visits. Estimates provided by Medicaid Program Development anticipate a 5,000 or a 18% increase in the number of pre-certifications primarily due to a growing population of Medicaid beneficiaries age 65 and older receiving home health services. $898,320 in recurring funding is requested to continue management of and professional fees for qualified evaluations of each child in the state's care and custody who is referred for and admitted into residential treatment in Florida. The 2000 Legislature mandated that each child in state custody be referred for placement in a mental health residential treatment center and receive an initial suitability evaluation to access care prior to placement. Current funding provides for 1089 initial evaluations and 990 subsequent evaluations. Non-recurring funding was provided in Fiscal Year 2002-2003 for this issue.

The Agency is also requesting funding to provide for evaluation and research of Medicaid programs to improve performance. The Agency is requesting $450,000 to provide treatment to individuals with orphan autoimmune disorders at the Center for Autoimmune Disorders at the University of Florida. The goal is to provide clinical research aimed at defining the causes of systemic autoimmunity, monitoring patient compliance and developing clinical pathways for treatment. This funding will provide treatment to an estimated 300 patients statewide. $892,955 is requested to provide an increase in funding to allow the legislatively mandated Developmental Services (DS) Quality Assurance Program to meet expanded needs resulting from both DS program growth as well as simultaneous DS program re-designs. It also provides for enhancements and an independent evaluation, in order to ensure quality of care is available to the Medicaid waiver population with developmental disabilities. $300,000 is requested to update to Florida Health Insurance Study, which was last conducted in Fiscal Year 1998-99. Over 2.6 million Floridians under the age of 65 do not have health care coverage. The intent of the study is to better understand and remain informed of complex issues that surround that rapidly growing number of uninsured Floridians.

This activity also includes issues to assure cost effectiveness in the Medicaid program. $360,000 in recurring funding is requested to secure 1000 hours of services from an actuary to assist Medicaid in determining cost effectiveness of waiver programs and computing capitation rates for managed care programs. Non-recurring funding was provided for this initiative in Fiscal Year 2002-2003. $2,412,000 in non-recurring funding is requested to continue a two-year demonstration Geriatric Falls Prevention Program initiated in Fiscal Year 2002-2003. With the use of information workshops, home safety assessments,

ACTIVITY: THIRD PARTY LIABILITY

SPECIFIC AUTHORITY: Chapter 20, Florida Statutes

AGENCY CONTACT: Ken Thurston, Division of Medicaid
TELEPHONE: (850) 488-3560

DESCRIPTION OF ACTIVITY:

1. PURPOSE OF ACTIVITY IS: The purpose of the Medicaid Third Party Liability (TPL) program is to identify all possible resources available to Medicaid beneficiaries in order to ensure Medicaid is the payer of last resort.

2. TASKS/PROCESSES INCLUDED IN ACTIVITY ARE: The Agency currently contracts with an outside vendor, Health Management Systems, to administer this activity. Five employees monitor the contractor's activities. This program minimizes Medicaid expenditures by taking steps to ensure that Medicaid is reimbursed or does not pay for health care that is the legal responsibility of other individuals including Medicare, private insurers or individuals deemed liable for an accident or incident.

3. ACCOMPLISHMENTS OF ACTIVITY ARE: For FY 2001-02, third party recoveries totaled $54.4 million and over $788 million in Medicaid claims that were not paid due to cost avoidance measurers implemented by the Agency and the contractor.

4. CUSTOMERS/NUMBER SERVED: Medicaid beneficiaries, attorneys, insurance companies, and Medicare carriers.

5. COUNTIES SERVED: Statewide

AGENCY - AGY REQUEST FY 2003-04 NARRATIVE:
The Agency requests continuation of the Third Party Liability activity with an increase in spending from $4,630,364 to $4,632,905. Continuation funding is necessary to ensure that Medicaid is reimbursed or does not pay for health care that is the legal responsibility of someone else such as Medicare, private insurers or individuals deemed liable for care. The $4,632,905 request provides funding for 5 positions as well as the continuation of contracts with outside vendors to conduct casualty, estate and third party recoveries

ACTIVITY: FISCAL AGENT CONTRACT

SPECIFIC AUTHORITY: Chapter 409, Florida Statutes

AGENCY CONTACT: Alan Strowd, Division of Medicaid, Bureau of Contract Management
TELEPHONE: (850) 922-2726

DESCRIPTION OF ACTIVITY:

1. PURPOSE OF ACTIVITY IS: The Medicaid fiscal agent is primarily responsible for reimbursing providers for Medicaid services received according to state and federal rules and regulations.

2. TASKS/PROCESSES INCLUDED IN ACTIVITY ARE: Enrolling and re-enrolling Medicaid providers, claims processing and payment, and system maintenance and MMIS enhancements.

3. ACCOMPLISHMENTS OF ACTIVITY ARE: Processed in excess of 120 million provider claims in FY 2001-02 with an average payment made within fourteen (14) days of receipt of the claim.

4. CUSTOMERS/NUMBER SERVED: State of Florida, Agency, Medicaid Providers and benficiaries.

5. COUNTIES SERVED: Statewide

AGENCY - AGY REQUEST FY 2003-04 NARRATIVE:
The Agency requests continuation of the Fiscal Agent Contract activity with an increase in funding from $68,739,340 to $70,853,176. Continuation funding is necessary to ensure the operation of the Florida Medicaid Management Information System (FMMIS). Specific tasks for this activity include adjudication and payment of Medicaid provider claims, provider enrollment, preparation of subsystem reports, and responding to provider inquiries. $70,902,838 in funding represents a cumulative 3% increase over the prior year which is primarily attributable to two system enhancement issues 1) a $2.8 million request to fund the testing of changes to the Florida Medicaid Management Information System to be compliant with the Health Insurance Portability and Accountability Act (HIPAA) of 1996 and 2) $704,106 for the remediation of the claims processing system used by Florida Medicaid to provide for a technical solution to ensure compliance with standard electronic claims transactions mandated by HIPAA. This will permit standardization of

ACTIVITY: MEDICAID PROGRAM INTEGRITY

SPECIFIC AUTHORITY: Section 409.913, Florida Statutes; 42 Code of Federal Regulations

AGENCY CONTACT: Judith E. Hefren
TELEPHONE: (850) 921-4897

DESCRIPTION OF ACTIVITY:

1. PURPOSE OF ACTIVITY IS: Identifying potential fraud, abuse and waste; investigating Medicaid providers for abusive billings under the Medicaid program; identifying overpayments; and making recommendations to the Medicaid Program staff to prevent fraud, abuse and waste in the Florida Medicaid Program.

2. TASKS/PROCESSES INCLUDED IN ACTIVITY ARE: Identify potential fraud, abuse, and waste; recommend change to reduce exposure; audit and investigate Medicaid providers suspected of over-billing Florida's Medicaid program; issue administrative sanctions; and refer cases of suspected fraud for criminal investigation.

3. ACCOMPLISHMENTS OF ACTIVITY ARE: Medicaid Program Integrity provides an avenue for reporting suspected fraud and abuse. Staff audit and investigate Medicaid providers who show various trends in billing practices. These audits and investigations serve to identify fraudulent and over-billed expenditures, therefore, off-setting some of the costs of the program. In addition to recouping Medicaid costs, Medicaid Program Integrity's functions serve as a deterrent to potential fraud and abuse.

4. CUSTOMERS/NUMBER SERVED: Customers include any individual concerned about fraud and abuse in the Florida Medicaid Program, including the Governor's Office, the Legislature, Agency staff, and managers within the Medicaid Program.

5. COUNTIES SERVED: Statewide.

AGENCY - AGY REQUEST FY 2003-04 NARRATIVE:
The Agency requests continuation of the Medicaid Program Integrity activity with an increase in funding from $12,498,204 to $14,002,638. This funding will enable the Agency to serve as a watchdog of billing

practices while reducing revenue losses due to fraud and abuse in the Florida Medicaid Program. Tasks of this activity include audits and investigations of Medicaid providers suspected of over-billing, recovering and recoupment of over payments, and issuing administrative sanctions. The $14,002,638 includes funding for 98 positions and represents a cumulative 12% increase over the prior year, which is attributable to a $1.9 million legislative budget issue requesting 7 new positions and funding to expand the Agency's efforts to control Medicaid fraud and abuse. The new staff will increase the Agency's efforts to expand a new unit possessing complex business and financial expertise dedicated solely for identifying new methods used by providers to defraud and abuse the Medicaid program. Along with the new positions this issue will provide funding to expand cost effective outsourcing of pharmacy audits. Statewide issues such as pay increases also impact funding for this activity.

AGENCY - AGY REQUEST FY 2003-04 NARRATIVE:

The Agency requests $31,948,268 in funding for this activity in order to pay the third and final payment of three annual payments for the settlement of lawsuits filed demanding a retroactive reimbursement differential between the Medicare and Medicaid rate for Qualified Medicare Beneficiaries dually enrolled in Medicare and Medicaid.

The plaintiffs in the case of Savona, et. al. v. Agency for Health Care Administration sought retroactive relief on behalf of a class of physician providers demanding a reimbursement differential between Medicare and Medicaid rates for Qualified Medicare Beneficiaries dually enrolled in the Medicaid and Medicare programs. Plaintiffs in state, federal and administrative forums, filed four lawsuits. Management took strong legal stands in all cases. The Legislature appropriated $87 million to fund a federal court judgment for state participation. The judgment was subsequently vacated in March 1999. Some funds were expended from the appropriation prior to a change in federal law in October 1997. A settlement has been reached which would pay the plaintiffs a total of $95,844,804 million over a three-year period. The proposed settlement has been agreed to by the Governor's Counsel, and the settlement appears to be reasonable since the initial lawsuit could have otherwise potentially cost the state in excess of $500 million.

The 2001 Florida Legislature appropriated $31,948,268 in nonrecurring funds for the first year of the settlement agreement. The 2002 Florida Legislature appropriated $31,948,268 in nonrecurring funds for the second year of the settlement agreement. This issue would fund the final payment.

SPECIFIC AUTHORITY: Chapter 409, Florida Statutes

AGENCY CONTACT: Shelly Brantley, Division of Medicaid, Bureau of Health Systems Development
TELEPHONE: (850) 488-9347

DESCRIPTION OF ACTIVITY:

1. PURPOSE OF ACTIVITY IS: To furnish inpatient hospital services to Medicaid beneficiaries statewide when medically necessary.

2. TASKS/PROCESSES INCLUDED IN ACTIVITY ARE: Inpatient services must be prior authorized by a peer review organization (PRO) or PRO-like entity. This requires hospital providers to request authorization from the PRO for the issuance of a prior authorization number, which, when entered on the hospital claim form, will enable payment of all medically necessary hospital days.

3. ACCOMPLISHMENTS OF ACTIVITY ARE: Medically necessary inpatient hospital services are furnished to Medicaid beneficiaries who need them. The process of prior authorization ensures that the inpatient services reimbursed by Medicaid are medically necessary.

4. CUSTOMERS/NUMBER SERVED: 567,449 potential beneficiaries.

5. COUNTIES SERVED: Statewide

AGENCY - AGY REQUEST FY 2003-04 NARRATIVE:
The Agency requests $1,250,542,865 in funding for this activity in order to furnish inpatient hospital services to Medicaid beneficiaries statewide when medically necessary. Inpatient services must be prior authorized. This funding will allow the purchase of approximately 5,545,884 case months of Medicaid services. Funding for this activity is based upon cost projections adopted at Social Service Estimating Conferences. These estimates may be adjusted by future Social Services Estimating Conference projections.

This funding request represents an approximate .21% increase over the prior year funding need. This activity is impacted by Agency requests to annualize the costs of Adult Lung Transplant services, establishment of a Global Fee for Liver Transplantation, statewide implementation of the Mary Brogan Breast and Cervical Cancer Early Detection Act, and the restoration of the Subacute Care Pediatric Pilot project authorized by the 2002 Legislature.

The annualization of Adult Lung Transplant services will provide an additional $1,145,326 in funding for this activity and allow the Medicaid program to provide this service to an estimated 39 adult beneficiaries. Statewide implementation of the Mary Brogan Breast and Cervical Cancer Early Detection Act will allow this service to be expanded from the current 21 counties to all 67 counties serving an estimated 270 individuals with breast cancer and 135 with cervical cancer. $5,601,999 in funding will be added to this activity based on this issue.

Establishment of a Global Fee for Liver Transplantation services will replace the current reimbursement methodology and will insure adequate and quality care for Medicaid beneficiaries with end-state liver disease. This funding will provide these services for an estimated 80 evaluations and 60 transplantation procedures. $2,037,000 in funding will be added to this activity based on this issue.

Chapter No. 2002-400, Laws of Florida requires the Agency to conduct a pilot program in Miami-Dade County to provide for sub acute pediatric transitional care to a maximum of 30 children at any one time. Restoration of funding for this pilot project will allow the program to continue after June 30, 2003 at a cost of $3,764,172.

This activity is also impacted by an Agency request to transfer $8,030,000 in funding from this activity to the Therapeutic Services for Children activity to provide step-down placements when children and adolescents are ready for discharge from a Statewide Inpatient Psychiatric Program (SIPP) facility. These group home services might also serve as a less costly diversion from more expensive and restrictive SIPP Placements.

DESCRIPTION OF ACTIVITY:

1. PURPOSE OF ACTIVITY IS: Reimburse participating pharmacies for prescription drugs dispensed to elderly and disabled beneficiaries enrolled in Medicaid fee for service or MediPass programs statewide. Prescriptions not on the Medicaid preferred drug list must be prior approved. A limit of four brand name drugs per month is in effect for adults age 21 or older with some exceptions.

2. TASKS/PROCESSES INCLUDED IN ACTIVITY ARE: Negotiate state supplemental rebates with pharmaceutical manufacturers and build a preferred drug list using efficacious, cost effective drugs. Maintain a toll-free call center for prescribers to obtain prior authorization when necessary. Administer a variety of other programs intended to control prescribed drug costs, including benefit management, counter-detailing, prescriber profiling, and other measures.

adopted at Social Service Estimating Conferences. These estimates may be adjusted by future Social Services Estimating Conference projections.

This funding request represents an approximate .15% increase over the prior year funding need. This activity is impacted by Agency requests to annualize the costs of Adult Lung Transplant services, statewide implementation of the Mary Brogan Breast and Cervical Cancer Early Detection Act, the restoration of increased funding for dispensing fees for prescriptions dispensed in nursing homes and other institutional residents.

The annualization of Adult Lung Transplant services will provide an additional $179,175 in funding for this activity and allow the Medicaid program to provide this service to an estimated 39 adult beneficiaries. Statewide implementation of the Mary Brogan Breast and Cervical Cancer Early Detection Act will allow this service to be expanded from the current 21 counties to all 67 counties serving an estimated 270 individuals with breast cancer and 135 with cervical cancer. $1,141,171 in funding will be added to this activity based on this issue.

Restoration of funding for increase pharmacy dispensing fees to pharmacies serving nursing homes and other instructional residents will impact an estimated 3,276,660 prescriptions for a cost of $1,638,330. This activity is also impacted by an Agency request to transfer remaining funds from the Elder Drug Program to the newly implemented Ron Silver Senior Drug Program. This issue will transfer the remaining $1,250,000 in funding to this new program.

DESCRIPTION OF ACTIVITY:

1. PURPOSE OF ACTIVITY IS: To pay physicians for medically necessary services rendered to Medicaid beneficiaries according to the approved fee schedule. MediPass primary care providers approve most services for their assigned beneficiaries and are additionally paid a case management capitated fee for this utilization control.

2. TASKS/PROCESSES INCLUDED IN ACTIVITY ARE: Monitoring of MediPass primary care physicians and service referrals; manual review of claims for pricing, if needed; and prior authorization of out-of-state and certain other in-state services.

3. ACCOMPLISHMENTS OF ACTIVITY ARE: Implementation of a 4% fee increase for services provided to beneficiaries ages 0-20 effective April 1, 2002 for acute care health practitioners.

4. CUSTOMERS/NUMBER SERVED: 567,449 potential beneficiaries.

5. COUNTIES SERVED: Statewide

AGENCY - AGY REQUEST FY 2003-04 NARRATIVE:
The Agency requests $176,232,277 in funding for this activity in order to purchase physician services for medically necessary services rendered to Medicaid beneficiaries. MediPass primary care providers approve most services for their assigned beneficiaries and are additionally paid a case management capitated fee for this utilization control. This funding will allow the purchase of approximately 5,545,884 case months of Medicaid services. Funding for this activity is based upon cost projections adopted at Social Service

Estimating Conferences. These estimates may be adjusted by future Social Services Estimating Conference projections.

This funding request represents an approximate 13.86% decrease over the prior year funding need. This decrease is due to the third and final payment for the Savona v. Agency for Health Care Administration lawsuit settlement being captured in the newly created statewide activity 'Payment of Pensions, Benefits, and Claims'. Previously, this cost was captured in this activity. This activity is also impacted by Agency requests to annualize the costs of Adult Lung Transplant services, establishment of a Global Fee for Liver Transplantation, and statewide implementation of the Mary Brogan Breast and Cervical Cancer Early Detection Act.

The annualization of Adult Lung Transplant services will provide an additional $227,760 in funding for this activity and allow the Medicaid program to provide this service to an estimated 39 adult beneficiaries. Statewide implementation of the Mary Brogan Breast and Cervical Cancer Early Detection Act will allow this service to be expanded from the current 21 counties to all 67 counties serving an estimated 270 individuals with breast cancer and 135 with cervical cancer. $1,799,118 in funding will be added to this activity. Establishment of a Global Fee for Liver Transplantation services will replace the current reimbursement methodology and will insure adequate and quality care for Medicaid beneficiaries with end-state liver disease. This funding will provide these services for an estimated 80 evaluations and 60 transplantation procedures. $1,550,000 in funding will be added to this activity based on this issue.

This funding request represents an approximate .24% increase over the prior year funding need. This activity is impacted by Agency requests to annualize the costs of Adult Lung Transplant services, statewide implementation of the Mary Brogan Breast and Cervical Cancer Early Detection Act, and the restoration of a Lung Cancer Screening Pilot Project.

The annualization of Adult Lung Transplant services will provide an additional $127,964 in funding to this activity and allow the Medicaid program to provide this service to an estimated 39 adult beneficiaries. Statewide implementation of the Mary Brogan Breast and Cervical Cancer Early Detection Act will allow this service to be expanded from the current 21 counties to all 67 counties serving an estimated 270 individuals with breast cancer and 135 with cervical cancer. $333,867 in funding will be added to this activity based on this issue.

Lung cancer kills more people each year than breast, colon, and prostate cancer combined. More than 90 million Americans are at risk, mostly from smoking. The issue will restore the funding for an early-warning test called spiral CT, a sensitive type of CAT scan. The estimated cost for this type of scan is $300. This issue requests $759,676 in funding for this activity to continue to provide this services to an estimated 4,000 Medicaid beneficiaries statewide.

Conference projections.

This funding request represents an approximate .16% increase over the prior year funding need. This activity is impacted by Agency requests for statewide implementation of the Mary Brogan Breast and Cervical Cancer Early Detection Act, and the restoration of fee increases for Home Health providers.

Statewide implementation of the Mary Brogan Breast and Cervical Cancer Early Detection Act will allow this service to be expanded from the current 21 counties to all 67 counties serving an estimated 270 individuals with breast cancer and 135 with cervical cancer. $127,888 in funding will be added to this activity based on this issue.

The average reimbursement rate for Florida Medicaid home health providers is substantially below Medicaid provider rate in other southeastern states and Medicare. The 2001 Legislature authorized an 11% fee increase for nursing visits and a 13% increase for home health aide visits effective January 1, 2002. This was the first fee increase since 1987. The Fiscal Year 2002-03 General Appropriations Act includes non-recurring funding to continue this increase through June 30, 2003. This issue proposes to maintain the increased reimbursement levels in the 2003-04 Fiscal Year and add $2,592,622 in funding to this activity.

ACTIVITY: ELDERLY AND DISABLED/FEE FOR SERVICE/MEDIPASS - THERAPEUTIC SERVICES FOR CHILDREN

SPECIFIC AUTHORITY: Chapter 409, Florida Statutes

AGENCY CONTACT: Shelly Brantley, Division of Medicaid, Bureau of Health Systems Development
TELEPHONE: (850) 488-9347

DESCRIPTION OF ACTIVITY:

1. PURPOSE OF ACTIVITY IS: Provides a wide array of community outpatient mental health services, targeted case management and community-based residential treatment services in therapeutic foster homes to assist children and families in resolving mental health issues that interfere with the child's functioning at home, in school or in the community. These services also serve to prevent the need for more intensive, more restrictive residential mental health placements.

2. TASKS/PROCESSES INCLUDED IN ACTIVITY ARE: Therapy treatments must be prescribed by the beneficiary's primary care physician and be provided by a licensed therapist or assistant supervised by a licensed therapist. The provider conducts an evaluation of the beneficiary, writes a plan of care for the beneficiary, performs the needed therapy, and provides reevaluations and revisions of the plan of care as needed or every six months.

3. ACCOMPLISHMENTS OF ACTIVITY ARE: Treatments are provided to beneficiaries statewide to enhance the beneficiary's quality of life and provide medically necessary therapy.

4. CUSTOMERS/NUMBER SERVED: 72,646 potential beneficiaries.

5. COUNTIES SERVED: Statewide

AGENCY - AGY REQUEST FY 2003-04 NARRATIVE:

The Agency requests $58,246,155 in funding for this activity in order to provide a wide array of community outpatient mental health services, target case management and community-based residential treatment

services in therapeutic foster homes to assist children and families in resolving mental health issues that interfere with the child's functioning at home, in school or in the community. This funding will allow the purchase of approximately 871,752 case months of Medicaid services. Funding for this activity is based upon cost projections adopted at Social Service Estimating Conferences. These estimates may be adjusted by future Social Services Estimating Conference projections.

This funding request represents an approximate 16% increase over the prior year funding need. This activity is impacted by an Agency request to transfer $8,030,000 in funding from the Hospital Inpatient activity to this activity to provide step-down placements when children and adolescents are ready for discharge from a Statewide Inpatient Psychiatric Program (SIPP) facility. These group home services might also serve as a less costly diversion from more expensive and restrictive SIPP Placements.

DESCRIPTION OF ACTIVITY:

1. PURPOSE OF ACTIVITY IS: Reimburse hospice agencies for palliative health care services to terminally ill beneficiaries who choose to elect hospice. Terminally ill is defined as having a medical diagnosis with a life expectancy of six months or less if the disease runs its normal course.

2. TASKS/PROCESSES INCLUDED IN ACTIVITY ARE: Services must be provided in accordance with Medicaid policy as presented in the Medicaid Hospice Services and Limitations Handbook that is incorporated into rule.

3. ACCOMPLISHMENTS OF ACTIVITY ARE: Provides access to hospice services for terminally ill persons who meet Medicaid eligibility requirements.

activity is impacted by Agency requests for statewide implementation of the Mary Brogan Breast and Cervical Cancer Early Detection Act, and the reimbursement for reserved bed hold days for hospice enrolled beneficiaries residing in a nursing facility.

Statewide implementation of the Mary Brogan Breast and Cervical Cancer Early Detection Act will allow this service to be expanded from the current 21 counties to all 67 counties serving an estimated 270 individuals with breast cancer and 135 with cervical cancer. $369,737 in funding would be added to this activity based on the Agency request.

Reimbursement for reserved bed hold for hospice enrolled beneficiaries residing in a nursing facility will bring the Agency in compliance with Section 1919(c)(2)(D) of the Social Security Act which makes reserve bed policy notification applicable to all nursing facility residents regardless of the source of payment. This will allow for continued payment to nursing facilities for hospice beneficiaries when they require hospitalization or opt for therapeutic leave. $2,408,756 in funding would be added to this activity based on this issue.

Conferences. These estimates may be adjusted by future Social Services Estimating Conference projections.

This funding request represents an approximate 1.88% increase over the prior year funding need. This activity is impacted by Agency requests to restore Adult Dental, Visual, and Hearing services as well as Medical Foster Care Expansion.

Adult dental, visual, and hearing services are optional services covered by Florida Medicaid. Dental services cover medically necessary emergency dental procedures to alleviate pain or infection. Visual services include eyeglasses and dispensing services and related repairs. Hearing services include hearing evaluations and hearing aids, as well as dispensing and related repairs. The General Appropriations Act for Fiscal Year 2002-03 provides non-recurring funding for these services. $13,400,971 in funding is required in Fiscal Year 2003-04 to continue this coverage.

The expansion of the Medical Foster Care Program in Tampa, Orlando, Jacksonville, Lakeland, West Palm Beach, Ft. Lauderdale and Ft. Myers will add an additional 264 beds serving approximately 330 additional children. This will bring the statewide total of Medical Foster Care beds to 444 providing 555 children with services in Medical Foster Care homes. $3,827,711 in funding would be added to this activity based on this issue.

DESCRIPTION OF ACTIVITY:

1. PURPOSE OF ACTIVITY IS: To furnish inpatient hospital services to Medicaid beneficiaries statewide when medically necessary.

2. TASKS/PROCESSES INCLUDED IN ACTIVITY ARE: Inpatient services must be prior authorized by a peer review organization (PRO) or PRO-like entity. This requires hospital providers to request authorization from the PRO for the issuance of a prior authorization number, which, when entered on the hospital claim form, will enable payment of all medically necessary hospital days.

3. ACCOMPLISHMENTS OF ACTIVITY ARE: Medically necessary inpatient hospital services are furnished to Medicaid beneficiaries who need them. The process of prior authorization ensures that the inpatient services reimbursed by Medicaid are medically necessary.

4. CUSTOMERS/NUMBER SERVED: 1,463,212 potential beneficiaries.

SPECIFIC AUTHORITY: Chapter 409, Florida Statutes

AGENCY CONTACT: George Kitchens, Division of Medicaid, Bureau of Pharmacy Services
TELEPHONE: (850) 487-4441

DESCRIPTION OF ACTIVITY:

1. PURPOSE OF ACTIVITY IS: Reimburse participating pharmacies for prescription drugs dispensed to women and children beneficiaries enrolled in Medicaid fee for service or MediPass programs statewide. Prescriptions not on the Medicaid preferred drug list must be prior approved. A limit of four brand name drugs per month is in effect for adults age 21 or older with some exceptions.

2. TASKS/PROCESSES INCLUDED IN ACTIVITY ARE: Negotiate state supplemental rebates with pharmaceutical manufacturers and build a preferred drug list using efficacious, cost effective drugs. Maintain a toll-free call center for prescribers to obtain prior authorization when necessary. Administer a variety of other programs intended to control prescribed drug costs, including benefit management, counter-detailing, prescriber profiling, and other measures.

3. ACCOMPLISHMENTS OF ACTIVITY ARE: Provide a full range of prescribed medicines at a reduced cost.

4. CUSTOMERS/NUMBER SERVED: 1,463,212 potential beneficiaries.
