

REPORT
OF THE
ADJUTANT GENERAL
OF THE
STATE OF FLORIDA
1970

HENRY W. McMILLAN
MAJOR GENERAL, LINE
THE ADJUTANT GENERAL

STATE ARSENAL, ST. AUGUSTINE
32084

5 January 1971

Honorable Reubin O'D. Askew
Governor of Florida
Tallahassee, Florida

Dear Governor Askew:

Pursuant to the provisions of Section 250.10, Florida Statutes, there is submitted herewith the report of the Adjutant General of Florida, pertaining to the administration of the Department of Military Affairs for the Calendar Year 1970.

As indicated in the accompanying report, the progress made during this year reflects the high state of readiness and efficiency maintained by the Florida National Guard in its efforts to fulfill both State and Federal missions. I feel that you as Commander in Chief can take real pride, as I do, in the accomplishments of the Florida National Guard.

Respectfully yours,

HENRY W. McMILLAN
Major General, Line
The Adjutant General

GOVERNORS OF FLORIDA

FIRST SPANISH PERIOD, 1565-1763

At St. Augustine

Pedro Menéndez de Avilés	1565-1574
Hernando de Miranda	1575-1577
Pedro Menéndez Marqués (Governor <i>ad interim</i>)	1577-1578
Pedro Menéndez Marqués	1578-1589
Gutierre de Miranda	1589-1592
Rodrigo de Junco (appointed governor, was drowned)	-1592
Domingo Martínez de Avandaño	1594-1595
Gonçalo Meñdez de Canço	1596-1603
Pedro de Ybarra	1603-1609
Juan Fernández de Olivera	1609-1612
Juan de Tribiño Guillamas	1613-1618
Juan de Salinas	1618-1623
Luis de Rojas y Borja	1624-1629
Andrés Rodríguez de Villegas	1630-1631
Luis Horruytiner	1633-1638
Damian de Vega Castro y Pardo	1639-1645
Benito Ruiz de Salaza Ballecilla (deposed in 1646, reinstated in 1647)	1645-1650
Nicolás Ponce de León (Governor <i>ad interim</i>)	
Pedro Benedit Horruytiner (Governor <i>ad interim</i>)	
Diego de Rebolledo	1655-1659
Alonso de Aranguiz y Cortés	1659-1663
Francisco de la Guerra y de la Vega	1664-1670
Manuel de Cendoya	1670-1673
Nicolás Ponce de León (Governor <i>ad interim</i>)	-1674
Pablo de Hita y Salazar	1675-1680
Juan Marqués Cabrera	1680-1687
Diego de Quiroga y Lozada	1687-1693
Laureano de Torres y Ayala	1693-1699
Joseph de Zúñiga y Cerda	1699-1706
Francisco de Córcoles y Martínez	1706-1716
Juan de Ayala Escobar (Governor <i>ad interim</i>)	1717-1718
Antonio de Benavides	1718-1734
Francisco del Moral Sánchez	1734-1737
Manuel Joseph de Justis (Governor <i>ad interim</i>)	-1737
Manuel de Montiano	1737-1749
Melchor de Navarette	1749-1752

GOVERNORS OF FLORIDA

FIRST SPANISH PERIOD—Continued

Fulgencio García de Solís (Governor <i>ad interim</i>)	1752-1755
Alonzo Fernández de Heredia	1755-1758
Lucas de Palazio	1758-1761
Melchor Feliu	1762-1763

ENGLISH PERIOD, 1763-1783

East Florida at St. Augustine

James Grant	1763-1770
John Moultrie (Lt. Governor)	1771-1774
Patrick Tonyn	1774-1783

West Florida at Pensacola

George Johnstone	1763-1767
Monforte Browne	1767-1769
John Eliot	1769-1769
Elias Durnford	1769-1770
Peter Chester	1770-1781

SECOND SPANISH PERIOD, 1783-1821

East Florida at St. Augustine

Manuel de Zéspedes	1783-1790
Juan Quesada	1790-1795
Bartolomé Morales, Acting Governor	1795
Enrique White	1795-1811
Juan de Estrada	1811-1812
Sebastián Kindelan	1812-1815
Juan de Estrada, Acting Governor	1815-1816
José Coppinger	1816-1821

West Florida at Pensacola

Arturo O'Neill	1781-1793
Enrique White	1793-1795
Paula Gelabert	1795-1796
Juan Folch	1796-1811
Francisco St. Maxent	1811-1812
Mauricio de Zúñiga	1812-1813
Mateo González Manrique	1813-1815
José Masot	1816-1819
José Callava	1819-1821

GOVERNORS OF FLORIDA

Under the American Flag

TERRITORIAL GOVERNORS, 1821-45

Andrew Jackson	1821-1822	Robert Raymond	
William P. Duval	1822-1834	Reid	1839-1841
John H. Eaton	1834-1836	Richard Keith Call	1841-1844
Richard Keith Call	1836-1839	John Branch	1844-1845

DEPARTMENT OF MILITARY AFFAIRS

INTRODUCTION

The State of Florida, Department of Military Affairs, formerly the Military Department, is a State agency created by Chapter 250, Florida Statutes and composed of the military force provided for in the laws of the State of Florida. The name of the Department was changed by the Reorganization Act of 1969. The Florida National Guard is provided for by Section 2, Article X of the Constitution and Chapter 250.08 of the Florida Statutes. The National Guard of the United States is provided for by Title 32, U. S. Code.

The Governor is Commander in Chief of the Florida National Guard. The Adjutant General is Chief of the Department and Commanding General of the Florida Army and Air National Guard. There is an Assistant Adjutant General who is also Assistant Adjutant General for Army, an Assistant Adjutant General for Air and a directorate staff organization in the Headquarters. (Appendix I, Organizational Chart.)

The troop structure of the Florida National Guard is composed of the Florida Army National Guard and Florida Air National Guard. The Army National Guard consists of the State Headquarters and Headquarters Detachment with its attached support type units, commanded by the Adjutant General; an Infantry Brigade (Separate), commanded by a Brigadier General; and non-divisional units grouped under an Emergency Operations Headquarters, commanded by a Brigadier General, (Appendix III - Organization - Florida Army National Guard.) The Florida Air National Guard consists of a Fighter Group, commanded by a Colonel. (Appendix IV, Organization - Florida Air National Guard.)

MISSION

As provided for under the provisions of the National Defense Act, units of the Florida National Guard, both Army and Air, have a dual mission.

(1) A State mission, to provide military organizations trained and equipped to function when necessary in the protection of life and property, and in the preservation of peace, order and the public safety, as directed by competent State authority; and

(2) A Federal mission, as Reserve components of the Army and Air Force of the United States, to provide trained and qualified individuals available for Federal service in time of war or national emergency, or at such other times as the national security may require augmentation of the United States armed forces.

In addition to their State and Federal mission, the Florida Air National Guard has an air defense mission for the eastern seaboard of the United States, from Charleston, South Carolina to Key West, Florida. This aerospace mission involves the maintenance of four F-102 fighters and crew on a twenty-four hour alert status, armed and

ready for immediate commitment to intercept unidentified aircraft in or approaching the air space of the United States.

The State Adjutant General and his Headquarters has an additional Federal mission to direct and coordinate the preattack planning and post attack operations of all military forces (Army, Navy, Air Force) within the State, to support civil authorities engaged in providing for survival of people and continuity of government in a nuclear environment.

SUMMARY

The Florida Army National Guard experienced only minor reorganizational changes during calendar year 1970, and the troop structure and strengths remained unchanged. As noted in the previous report, the proposed reorganization of units under newly authorized Modified Tables of Organization and Equipment (MTOE) was initiated but, will not be completed until the spring of calendar year 1971. The Florida Army National Guard has continued to make noteworthy strides in meeting its training level objectives, as established by Department of The Army, and as is evidenced by the many outstanding Annual General and Annual Training Inspection Ratings received during calendar year 1970. The majority of units completed their prescribed Company Level Army Training Tests during Annual Training 1970, and all remaining units have been programmed for completion of same during calendar year 1971, thereby meeting the requirements established by Department of The Army. Although Branch and Technical Training of both officer and enlisted personnel was curtailed to some degree due to reduction in funds as provided from federal sources for Army Service and Army Area School training, the establishment of priorities for school attendance resulted in maintenance of officer educational requirements and enlisted Military Occupational Specialties in those areas requiring the greatest emphasis. During the past year unit strengths have been satisfactorily maintained; recruiting efforts have been satisfactory; and the Florida Army National Guard has continued to maintain its national standards of unit proficiency.

On 8 February 1970, Brigadier General Charles J. Kaniss, Commanding General, Emergency Operation Headquarters, FARNG, retired and Brigadier General George H. Dale was transferred from command of the 53rd Infantry Brigade (Separate) to assume command of the Emergency Operation Headquarters, FARNG on 9 February 1970, with Colonel Kennedy C. Bullard assuming command of the 53rd Infantry Brigade (Separate) on 9 February 1970.

The Florida Air National Guard experienced no reorganizational changes during the calendar year, and the 125th Fighter Group, with station at the Jacksonville International Airport, Jacksonville, continues to maintain its high level of training and national standing, and to perform its air defense mission with distinction.

State and Federal fiscal matters remain on a sound basis, and expansion of facilities, both Army and Air, continue to make forward strides. The Florida National Guard, Army and Air, can well be proud of the continued advancements made during calendar year 1970.

ORGANIZATION

During calendar year 1970 the troop allotment and authorized strengths of the Florida Army National Guard remained unchanged, and only minor reorganizational changes were experienced. On 1 January 1970, the 1st and 3rd Infantry Battalions, 124th Infantry and the 2nd Battalion (Mechanized), 124th Infantry were reorganized to conform to the new Department of The Army Modified Tables of Organization and Equipment (MTOE). Incident to such reorganization, the 2nd and 3rd Rifle Platoons, Company A, 1st Battalion, 124th Infantry, Fort Lauderdale were consolidated with their parent unit Company A, 1st Battalion, 124th Infantry, with station at Hollywood. On 1 February 1970, the 3rd Operation Detachment B and 4 Operational Detachments, Company C, 20th Special Forces Group (Airborne), 1st Special Forces were authorized an official change of station from Miami to Fort Lauderdale.

Brigadier General Charles J. Kaniss, Commanding General, Emergency Operation Headquarters, FARNG retired on 8 February 1970 and Brigadier General George H. Dale was transferred from command of the 53rd Infantry Brigade (Separate) to assume command of the Emergency Operation Headquarters, FARNG on 9 February 1970, at which time Colonel Kennedy C. Bullard assumed command of the 53rd Infantry Brigade (Separate), and on 1 June 1970 the 16th Artillery Detachment (Air Target) was redesignated as the 164th Artillery Detachment (Air Target).

There were no reorganizational changes reflected for Headquarters, Florida Air National Guard or the 125th Fighter Group, FANG during the calendar year.

As of the time of writing of this report, it is proposed by Chief, National Guard Bureau to complete, during calendar year 1971, the reorganization of all other units of the Florida Army National Guard under the new Department of The Army Modified Tables of Organization and Equipment, as was initiated on 1 January 1970. A second proposal pending for the ensuing year is the initiation of a program wherein the 146th Signal Battalion (Combat) (Army), with station at Jacksonville, will enter a Department of The Army test program entitled Program for Improving Readiness of Selected Reserve Component Units.

EMPLOYEES

There are 803 individuals, civilian and military, employed by the Department of Military Affairs. These employees work either directly with the Headquarters, Department of Military Affairs or National Guard units in the field, supporting approximately 9,000 Guardsmen assigned to the Florida National Guard. (Appendix II, Organization, State of Florida, Department of Military Affairs.) There are 99 Career Service personnel of the State of Florida, employed under the rules and regulations of the State Division of Personnel and Retirement, and 704 Federal technicians authorized for employment under the rules and regulations of the U. S. Civil Service Commission. These employees are specialists in the field

of administration, finance, accounting, supply and maintenance. With the exception of a limited number of female employees, personnel are required to be military members of the various organizations and units to which assigned. (Fiscal data, Appendices VII and VIII.)

On 1 January 1969, Public Law 90-486 provided for employees, paid from Federal funds, to participate in the Civil Service Retirement Program.

ARMORY BOARD, STATE OF FLORIDA

The Armory Board, State of Florida, is established as provided by Section 250.40, Florida Statutes, and comprised of the Governor, the Adjutant General, the State Quartermaster, the General Officers of the Line, Group Commanders, and the Senior Air Commander of the active Florida National Guard, provides general supervision and control of real properties utilized by the Florida National Guard. This Board met during the year to consider plans for construction, alteration, rental, maintenance and management of National Guard armories, other facilities and real properties utilized by the Florida National Guard. The Armory Board is responsible for and controls forest management, mineral exploitation, game and fish propagation programs and the maintenance and improvement of the former Federal lands at Camp Blanding, with the approval of the U. S. Government. (A detail of the organization of the Armory Board, State of Florida, is shown in Appendix V.)

The National Guard, as a joint effort of Federal, State and local governments, has taken its place as a major component in the defense of our Nation, State and local communities through this mutual support. The Armory Board reemphasized its policy, during the year, that National Guard armories be utilized, by the citizenry of the community, to the fullest extent possible, where such use is not to the detriment of public interest and does not interfere with the primary use of armories for the housing and training of military units stationed therein. The Armory Board further cooperated with other armed services, State agencies and organizations by providing facilities at Camp Blanding for use in training, rifle marksmanship, instruction, etc.

ARMORIES

There are fifty-one National Guard armories, strategically located in cities throughout the State, from Pensacola on the west, to Jacksonville on the northeast, to Fort Myers and Homestead on the south. (Locations and property values are reflected in Appendix VI.)

During the year, construction was commenced on a new, 1 unit armory at Bradenton, Florida. When completed, this armory will replace an old, City owned building, which has become inadequate for housing the local unit. It is anticipated that construction will be completed and the armory ready for occupancy in March 1971.

Federal matching funds have been programmed and State funds appropriated for construction of a new National Guard armory at Avon Park, Florida. Due to an anticipated shortage of funds in the State

Treasury, State construction is temporarily curtailed, however, sufficient State funds for Architect/Engineer planning services have been made available to the Department. As of this writing, plans and specifications are being prepared in anticipation that State construction funds will be made available early in 1971.

In addition to the aforementioned major projects, fencing, paving, repair and renovation projects were accomplished.

Programming of a new armory at Bartow, Florida, to replace the present inadequate facility, on which the City will not renew a long term lease, has been commenced, and a suitable site has been made available, to the Armory Board, by the community. Federal matching funds have been requested from the National Guard Bureau and State matching funds will be requested from the 1971 session of the Legislature.

FACILITIES

State Arsenal

The State Arsenal is one of the oldest buildings in St. Augustine. It houses Headquarters for the Department of Military Affairs and the Florida National Guard. This four hundred year old facility was formerly the site of a Franciscan Monastery constructed in 1588. It was converted to a military barracks by the British in 1763; from 1783 to 1821 a Spanish garrison; 1821 to 1900 a U. S. Army Post. In 1907 the Headquarters of the Department of Military Affairs and the Florida National Guard was established here. Normal repairs and maintenance are performed in such a manner as to preserve the historic aspects of the facilities, insofar as is feasible.

Air National Guard Base

The Florida Air National Guard Base, located at the Jacksonville International Airport, is the home of the Florida Air National Guard. The 168 acre complex consists of 19 buildings containing 188,000 square feet of floor space and over 128,000 square yards of paving. The complex consists of dormitories for out-of-town officers and airmen, buildings which are easily expanded should the need arise, an independent emergency water supply, underground electrical distribution system, a central heating and air conditioning plant with underground distribution lines, adequate parking space, 80,000 square foot aircraft maintenance hangar, base operations building, and a 260-man dining hall and a dispensary. The facilities were designed to incorporate functional management for any mission assignment.

Ranges

National Guard Rifle Ranges at Camp Blanding, Avon Park and Stuart were continued in use during the year and in addition, the MacDill Air Force Base ranges, in Tampa, were utilized through an agreement with the Air Force. These ranges were used, not only by the Florida National Guard, but also by the regular and reserve forces.

CAMP BLANDING

The Armory Board maintains the Florida National Guard's 72,000 acre campsite located in Clay County. Included in this area are 40,000 acres representing former Federal lands, deeded to the Armory Board by the Federal Government through Public Law 493, with stipulations that the lands be maintained as a military reservation and, further, that a Forest Management Program be conducted. The Armory Board realizes revenue from the forestry program and also from mineral exploitation occurring on these former Federal lands.

UTILIZATION

National Guard

The Camp Blanding Military Reservation is used extensively by the Florida National Guard for maintenance of training proficiency, both during weekend Multiple Unit Training Assemblies (MUTA's), and during conduct of Annual Training (AT). The 72,000 available acres provide outstanding small unit tactical training areas, as well as fine facilities and training sites for conduct of Headquarters type Command Post Exercises, Specialized Training and Conferences. Camp Blanding is noted for its fine firing ranges, to include, Cal .30 and Cal .45 Small Arms Ranges, Machine Gun and Recoilless Rifle Ranges, 81mm and 4.2mm Mortar Ranges, and an Antiaircraft Artillery Range.

Camp Blanding is the designated home of the Florida National Guard Officer Candidate School, source of newly commissioned second lieutenants assigned each year to units of the Florida Army National Guard, and continues to be the home training site for elements of the Florida National Guard Special Forces, with its excellent jungle type training facilities, rappelling tower, and its drop zone. Driving Ranges, available for the Track Vehicle Operations of Mechanized and Artillery type units have been improved, facilities of the Army Airfield have been expanded, and the six Administrative Bivouac Areas with its showers and latrines have been improved to provide for expanded lighting facilities, and for the first time since WW II all troops utilizing the Bivouac Areas for Annual Training 1970 were quartered in ten-man General Purpose Tents. Utilization of the new Post Chapel as well as the Post Dispensary has been greatly enhanced during both MUTA and AT periods through assignment of Florida National Guard Chaplains and Medical Officers to Headquarters and Headquarters Detachment, Camp Blanding for support of such facilities.

During calendar year 1970, training facilities at Camp Blanding were utilized some 20,000 man-days by personnel of the Florida Army National Guard for weekend Multiple Unit Training Assemblies, and approximately 1,650 man-days were devoted to conduct of small arms competitive matches as sponsored by the National Guard and by the Camp Blanding Rifle and Pistol Club. During the period May-July 1970, 80,766 man-days were devoted to Annual Training Exercises for elements of the Florida Army National Guard, and an additional 21,489 man-days were utilized for the Annual Training of elements of the South Carolina Army National Guard and Special Forces units of the several states of the Third U. S. Army Area.

At the writing of this report, plans have been initiated for expansion of the 81mm and 4.2mm Mortar Ranges, and the construction of a new 105/106mm Recoilless Rifle Range.

The Director of Supply and Services (USPFO for Florida) continues to utilize facilities at Camp Blanding for the receipt, storage and issuance of Federal properties and supplies as utilized by units of the Florida Army National Guard, and the Florida National Guard Combined Support Maintenance Shop continues to perform its mission of maintenance of Federal equipment as maintained at that location and in support of units throughout the State, as well as to continue the maintenance support of vehicles and generators of Headquarters, United States Strike Command, with Headquarters at MacDill Air Force Base, Tampa.

Active and Reserve Forces

The Regular Establishment; Army, Navy, Air Force and Marine Corps, as well as elements of their respective Reserve Forces, continue to utilize training areas and small arms ranges at Camp Blanding as a part of their yearly training programs. A total of 4,917 man-days were spent in training exercises by such elements during the calendar year.

The U. S. Atlantic Fleet, Fleet Air, Naval Air Station, Jacksonville continues to maintain its leased portion of the Reservation which is utilized for the training of their pilots, to include carrier based personnel, in air-to-ground bombing and strafing, and for the operation of their Radar Scoring Station.

Florida Game and Fresh Water Fish Commission

The agreement between the Armory Board and the Florida Game and Fresh Water Fish Commission, whereby portions of Camp Blanding are opened to controlled public hunting and fishing, remains in effect. Controlled burning and grain planting has been most favorable in production of game. Lake samplings indicated that stocked fish in certain lakes have done well in most instances.

Forest Management Operation

The Armory Board continues to conduct a Forest Management Program at Camp Blanding. During the year, normal road maintenance and construction, throughout the reservation, was accomplished. Additionally, twelve (12) miles of fence required repair and thirty (30) drainage structures were replaced incident to torrential rains in February and March 1970. Harvesting and replanting of timber continues, in a balanced program, under the supervision of a professional forester.

Mining Operations

E. I. du Pont de Nemours and Company continues to mine on the western edge of Camp Blanding, with ilmenite still the principle mineral removed from the soil. Du Pont, at their own expense, has

instituted a procedure whereby the top six inches of soil is stripped and stockpiled, prior to the mining operation. This top soil is re-distributed, on the subsequent spoil area, thereby successfully stabilizing the spoil and improving the return of vegetation.

Construction

Utilizing Federal training site funds authorized for opening, operating and closing costs, in connection with annual field training at Camp Blanding, a great deal of renovation has been accomplished. This work included road repairs, paving and building repair. Several buildings utilized by National Guard troops, in the cantonment area, were renovated.

The Federal Government has made available, to the State of Florida, \$150,000 for the construction of an Annual Field Training Equipment Pool maintenance building and vehicle equipment storage building at Camp Blanding, in support of the Air Defense Artillery training facility there. Plans and specifications are presently under preparation and it is anticipated that construction will be accomplished in calendar year 1971.

STATE FUNDS

Appropriated Funds

Disbursements of General Revenue Funds are based on appropriations made by the Florida State Legislature and are reflected in Appendix VII.

Service Contracts

The Federal Government and the Armory Board have cost-sharing contracts for the maintenance and operation of certain facilities of the Florida National Guard. The Army Service Contract, which covers the Arsenal Annex, portions of Camp Blanding, the Army Aviation Maintenance Shop and sixteen (16) organizational maintenance shops, provides for a Federal share of 75% and Armory Board share of 25%. The Air Service Contract, which covers the Air National Guard Base at Jacksonville, provides for a Federal share of 80% and Armory Board share of 20%. Annual field training site and weekend training site activities of the Florida National Guard are 100% Federally funded.

Budget Requests

The requests for operating funds for the coming year, by the Department of Military Affairs, appear in Appendix VII.

Inter-Service Agreements

The Army, Navy, Air Force, Marines and the Reserve Forces, which includes the National Guard, currently operate under a policy whereby one service may support another on a reimbursable basis. This policy reduces duplication of effort, gives a faster response

to requirements and effects an overall savings to the Federal Government an ultimately to the tax payer. The Florida National Guard receives subsistence from the active service installations throughout the State of Florida and we are thereby able to subsist our troops in a better manner and at a reduced cost over the purchase of this subsistence from commercial sources. Conversely, the Florida National Guard supports the active and other reserve forces by furnishing gasoline to these services at the bulk purchase price. Also, the Florida National Guard supports the U.S. STRIKE Command (Communications Support Element) by performing maintenance and repairs on vehicles, weapons and other items which that command does not have the capability to perform and the services are not available on the commercial market. The services and supplies furnished the other services on a reimbursable basis by the Florida National Guard during the past fiscal year amounted to \$177,035.16. Each year at Christmas time, vehicles are loaned to the Post Office Department on a non-reimbursable basis.

DATA PROCESSING

The Department of Military Affairs, like many other agencies, utilizes automatic data processing to aid in the accomplishment of its mission. The State of Florida recently established data centers, strategically located throughout the State, and each center assumes the responsibility for furnishing data services to State agencies assigned to it. This Department is served by the Jacksonville Data Center, which utilizes personnel and unit record equipment previously utilized by the Department.

The Data Processing Center part of the Office of the United States Property and Fiscal Officer is the Federal servicing facility for all Federal programs required by the Florida Army National Guard. These programs consist of accounting functions for the Federal fields of logistics, financial accounting and civilian technician payrolls. It also maintains data records and prepares reports for the Military Personnel Directorate, Organization and Training Directorate and the Military Support to Civil Authorities Directorate.

ADMINISTRATION

Administrative and staff services were provided to the Headquarters and the units of the Florida National Guard. These services included public affairs, records administration, mail management, distribution of Department of the Army publications, reproductions, awards and trophies, communications and security files.

RECORDS MANAGEMENT

The Department's Archives and Records Administration Program insures uniform procedures governing maintenance and disposition of records and the preserving of historical documents. Permanent records are microfilmed to reduce storage space.

COMMUNICATIONS

This Headquarters maintains a reliable communication system using the following means:

Commerical Telephone. A console (switchboard) providing external and internal communication equipped with a radio telephone patch capability.

Defense Communications Automatic Voice Switching Network (AUTOVON). A military worldwide general purpose dialing system providing the capability of immediate communication with other military installations.

Landline Teletype. A teletype network providing the capability to transmit and receive written messages.

National Warning System (NAWAS). A voice circuit emanating from North American Air Defense Command (NORAD), Colorado Springs, Colorado, the objective of which is to establish, operate and maintain an effective nationwide warning system to alert governments and the public to the threat of extraordinary dangers.

Command State Emergency Radio Net (COMSERN). A Florida National Guard radio net providing radio communication with Florida National Guard Task Force Headquarters strategically located throughout the state.

Florida Highway Patrol Radio Network. A network providing radio communication with state law enforcement agencies.

These communication systems when integrated provide continuous reliable communications under all conditions. To insure continuous communication with this Headquarters, a staff officer is on duty twenty-four hours daily.

PUBLIC AFFAIRS

The "Florida Guardsman" magazine, a four page monthly insert in "The National Guardsman" is utilized to maintain a high level of morale and to promote esprit de corps. This magazine is subscribed to by Florida National Guardsmen.

An illustrated narrative briefing of the Florida National Guard continues to be an excellent method of furthering the understanding of civil authorities, civic organizations and other groups throughout the State of the organization, responsibilities and mission of the Department of Military Affairs.

The history of the State Arsenal and the Military Reservation dates back to the 16th century when it was the site of a Franciscan Monastery. In order to preserve and record this unique history a museum and archives is maintained. The museum is aptly located in the former monastery cells and endeavors to tell the story of the Florida National Guard and the militia from territorial days to the present. Historical documents and artifact contributed by Guardsmen, former Guardsmen and citizens have resulted in a collection of many historical items that would have otherwise become lost to posterity.

SERVICE RECORDS

The Department has custody of available records of the soldiers of Florida. These records include Muster Rolls of the Indian Wars of 1835, Muster Rolls of the Florida Militia and Florida National Guard since 1835, and Rolls of the Florida troops mustered into the Confederate Forces and Union Forces in the War Between the States (Civil War), the Spanish American War, the Mexican Border Incident, World War I, World War II, the Korean Conflict, and the Berlin Crisis. A card record is maintained for each individual who entered World War I from the State of Florida, whether by enlistment, induction through Selective Service or induction with the Florida National Guard. In addition, an individual file folder, containing copies of all pertinent orders and personnel documents, is retained for each individual who has been a member of the Florida National Guard (Army and Air). The individual folders for current members are separated from the folders of former members and are maintained current at all times. These records occupy approximately 1,200 feet of shelf filing space. Requests for Statements of Service and information generally fall into two broad categories. The majority of requests in the first category are for documentary evidence to establish eligibility for some type of benefit such as Federal or State military retirement benefits; birth date and/or active Federal service for Social Security benefits; increased military longevity pay for former service; burial in a National Cemetery or government furnished grave marker; or hospitalization or other financial benefits through the Veterans Administration. The second category pertains to requests in the interest of genealogy or history and, for the most part, are applicable to records prior to 1900.

The number of Statements of Service furnished during the period of this report was 640 of which 131 were for advanced certification of completion of 20 years of active service which would entitle the individual to Federal retired pay for military service upon attaining age 60. This is a new requirement which was instituted to eliminate errors and misinformation which previously would not appear until individual reached age 60 at which time he would discover that some of his service did not meet this criteria and it was too late to perform additional service to meet the requirements for Federal retired pay.

MILITARY SUPPORT TO CIVIL AUTHORITY

General

The Adjutant General has both State and Federal responsibilities in providing support to civil authorities. The State responsibility involves providing troops (National Guard) to assist civil authorities in major emergencies when authorized by the Governor. On the Federal side the Adjutant General is responsible for the preattack planning and postattack operations of all military forces (Army, Navy, Air Force and their reserve components) to support civil defense (civil authority) within the State of Florida in

event of a nuclear attack against this nation.

Planning and Coordination

The Adjutant General has been provided with five (5) federally paid technicians to plan for and supervise the Federal mission. In 1967, their role was expanded to include planning for and supervising the State mission. These technicians form the Directorate for MSCA (Military Support to Civil Authority) in the Department of Military Affairs. Close liaison is maintained with law enforcement agencies and civil defense within the State as well as with Federal agencies and military forces. National Guard troop units within the State are organized into task forces for rapid response to locations within the vicinity of their home station. Close contact is maintained with civil authorities by these task forces.

Operations

The Department of Military Affairs goes into an increased readiness status immediately upon threat of civil disturbance, natural disaster, or similar emergency that may require use of National Guard troops. Measures taken include a telephone alert of key personnel, contact with local authorities, and review of capabilities of troop units in the emergency area. As the situation develops to a more serious threat additional actions are taken to man the EOC (Emergency Operations Center), dispatch liaison officers to area, alert troop units and send additional equipment and communications as deemed necessary.

Active State Duty

Under the provisions of Military Code, Chapter 250, Florida Statutes, troops of the Florida National Guard were called to Active State Duty to assist civil authorities during 1970 as follows:

Jacksonville--Flooding--3-4 February 1970

Extremely heavy rains in the Jacksonville area caused flooding throughout the city and civil defense requested assistance from the Florida National Guard. Forty-three (43) National Guardsmen (officers, drivers and mechanics) were placed on duty and assisted local authorities evacuate residents from flooded areas.

Titusville--Tornado--5-8 March 1970

A tornado struck a residential section in Titusville, Florida on 5 March 1970 damaging nearly 100 homes in a one square mile area. Ninety-seven (97) officers and men were placed on duty in response to the local sheriff's request for assistance and provided security for the stricken area.

Orlando--Rock Music Festival--26-30 March 1970

Three officers maintain liaison with civil authorities during Rock Festival in Orlando area.

West Palm Beach--Civil Disturbance--8 June 1970

Three hundred ten (310) officers and men on duty during threatened demonstration at Palm Beach County Courthouse by union construction workers.

Jacksonville--Civil Disturbance--13-15 April 1970

Forty-one (41) key National Guard personnel were called to duty to finalize planning and maintain liaison with local law enforcement officials due to a threatened demonstration by hard hat construction workers at the Jacksonville Civic Auditorium where an out-of-town ACLU attorney was to speak. Local labor union officials heeded city officials requests to help "cool" the situation and as a result only six (6) "hard hats" showed up and the talk was presented without any incidents.

Miami--Civil Disturbance--16-20 June 1970

Widespread areas of Dade County were torn by six (6) straight nights of rock throwing, looting, fire bombings and sniper fire. Forty-two (42) officers and men were called to duty to maintain liaison with the Dade County Sheriff's Department, review plans and check supplies and equipment required for possible support operations.

Quincy--Civil Disturbance--10-12 October 1970

One officer and one enlisted man on duty at Quincy National Guard Armory during minor civil disturbance resulting from the shooting of a black man by a black policeman.

FLORIDA NATIONAL GUARD OFFICER CANDIDATE SCHOOL

The Florida National Guard Officer Candidate School was established in March 1961 by the Adjutant General of Florida. The mission of the school is to provide effective instruction for officer candidates that will qualify them in the military educational requirements for appointment as second lieutenants, and to develop maximum leadership and command ability in the candidates.

The school is operated by a fourteen-man OCS section consisting of seven officers, one warrant officer and six enlisted men. The section is organic to the State Headquarters Detachment. During the Annual Training period the section is augmented with additional instructor and support personnel. The school is accredited by the Department of Army and is inspected yearly by the Inspector General, Third United States Army to determine manner of performance. The school has received very high ratings on each inspection.

To successfully complete the Florida National Guard Officer Candidate Course encompasses a full year of study and training,

starting with a two (2) week training period the first summer, followed by twelve (12) weekend training assemblies during the fall, winter and spring months and is completed at a second two week training period the second summer. The program of instruction taught is developed and monitored by the United States Army Infantry School, Fort Benning, Georgia in coordination with Chief, National Guard Bureau, and closely parallels the resident Infantry Officer Candidate School. It consists of 322 hours of instruction. All examinations are graded by the Infantry School. Methods of leadership development include rigid discipline, high standards of deportment and conduct, and exacting manner of performance, frequent and effective counseling and continuous observation, correction and evaluation.

The Florida National Guard Officer Candidate School is the primary source of junior officer procurement for the Florida Army National Guard. At present 56% of all company grade officers in the Florida Army National Guard are graduates of the school. In recent years personnel of the United States Army Reserve have been admitted to the school and, upon graduation, are appointed second lieutenants in that component.

Numbers of candidates attending the Florida National Guard Officer Candidate School, and graduates, by year, are shown below:

<u>Class</u>	<u>Enrolled</u>	<u>Graduated</u>
1962	49	24
1963	79	45
1964	118	61
1965	89	53
1966	127	79
1967	126	69
1968	96	54
1969	51	26
1970	53	21
1971	53	--

SPECIAL ASSIGNMENTS

Special assignments are performed by the Florida National Guard troops in support of community, state and national activities. This duty is on a voluntary basis. These assignments are generally performed during non-duty hours, weekends and holidays.

Among these assignments were the annual celebration of Armed Forces Day, Memorial Day and Veterans Day throughout the State, as well as community sponsored events, the Gasparilla Festival in Tampa and the Orange Bowl in Miami.

The Florida National Guard was called upon throughout the year to furnish firing squads at military funerals for members of the armed forces from Florida who made the supreme sacrifice in the defense of our Country.

The outstanding ceremony during 1970 was the dedication of the Camp Blanding Post Chapel, The Reynolds Chapel, which was dedicated in a most impressive ceremony on 5 April 1970. Major participants

in addition to Major General Henry W. McMillan, the Adjutant General and members of the Florida National Guard Chaplain Corps were Chaplain (Major General) Francis L. Sampson, Chief of Chaplains, U. S. Army and Mr. J. Louis Reynolds, Reynolds International, Inc., donor of the Chapel. The Dedication Ceremony was interdenominational with the Florida National Guard Chaplains, representatives of the Florida National Guard troop commanders, enlisted personnel corps and clergymen of the Jewish, Protestant and Catholic faiths participating.

The air conditioned Chapel is completely furnished and is one of the most beautiful chapels in the entire armed forces. It is unique in that it has revolving altars -- Protestant, Jewish and Catholic -- thus permitting services of any denomination being conducted in the principal sanctuary.

DECORATIONS

State

The Florida Cross--Awarded in the name of the Governor to the officer, warrant officer, or enlisted man of the Florida National Guard who distinguished himself conspicuously by extraordinary heroism at the risk of his life, or by exceptionally outstanding meritorious service to the State or Federal government.

The Florida Cross was awarded for meritorious service during this period to the following individuals:

BG Charles J. Kaniss	FlaARNG	GO 7	dtd 21 Jan 70
COL James A. Griffin	FlaARNG	GO 87	dtd 15 Sep 70

The Distinguished Service Medal--Awarded to the officer, warrant officer, enlisted man or civilian who distinguished himself by bravery or by meritorious service affecting the Florida National Guard.

The Distinguished Service Medal was awarded for heroism during this period to the following individual:

MAJ Duffy E. Morgan	U.S. Army	GO 111	dtd 15 Dec 70
---------------------	-----------	--------	---------------

The Distinguished Service Medal was awarded for meritorious service during this period to the following individuals:

COL Enoch W. Hunt	FlaARNG	GO 18	dtd 5 Mar 70
MSG John P. Flautt	FlaARNG	GO 35	dtd 24 Apr 70
CWO Harold W. Mullis	FlaARNG	GO 51	dtd 8 May 70

The Florida Service Medal--Awarded to the officer, warrant officer or enlisted man when he is placed on the Retired List after twenty years service.

The Florida Service Medal was awarded during this period to the following:

CWO Robert S. Sutton	FlaARNG	GO 15 dtd 11 Feb 70
1SG Frank W. Ballantine	FlaARNG	GO 15 dtd 11 Feb 70
CWO Lawrence W. Lee	FlaARNG	GO 78 dtd 28 Aug 70
LTC Robert A. Honiker	FlaARNG	GO 109 dtd 11 Dec 70

Federal

The Armed Forces Reserve Medal--Authorized by Department of the Army, and awarded by the Adjutant General, State of Florida, to active members of the Florida National Guard, under the provisions of Army Regulation 672-5-1.

It is awarded to officers, warrant officers and enlisted men who honorably and satisfactorily complete ten years service as a member of one or more of the Reserve Components of the Armed Forces of the United States. A ten-year device is authorized for each additional ten-year period.

142 awards were made during this period.

AWARDS

The Florida Commendation Ribbon--Awarded to officers, warrant officers and enlisted men of the Florida National Guard who render outstanding service in their military capacity by superior performance of duty.

127 awards were made during this period.

The Active State Service Ribbon--Awarded to officers, warrant officers and enlisted men of the Florida National Guard who participate in a major tour of active state service in the aid of civil authorities.

554 awards were made during this period.

The Florida Service Ribbon--Awarded to officers, warrant officers and enlisted men who complete five years of service in the Florida National Guard. A bronze cluster is authorized upon completion of each additional five-year period.

838 awards were made during this period.

Drill Attendance Ribbon--Awarded to enlisted men for completion of one year of 100% drill attendance, to include the field training period. A bronze cluster is authorized upon completion of each additional period. A silver cluster is awarded in lieu of any five bronze clusters.

1865 awards were made during this period.

TROPHIES AND AWARDS

The following designated Florida Army National Guard units were presented Trophies and Awards (Federal and State) during the calendar year 1970.

*The Eisenhower Trophy-----Co D, 146th Signal Bn

*The National Guard (Florida)

Trophy-----Co C (P) 3rd Bn, 124th Inf

*Award for Efficiency in

Maintenance-----Co D (M) 53rd Support Bn

The Governor's Trophy-----Btry B, 2nd Bn (105-T), 116th Arty

The Adjutant General's Trophy---753rd Trans Det then 53rd QM
Platoon

The Remington Trophy-----Co C 20th SF Gp (Abn) 1st SF,
Fort Lauderdale then Co C, 20th
SF Gp (Abn) 1st SF, Miami

Taliaferro Trophy-----Co A, 2nd Bn, 124th Inf

I. Thord-Gray Trophy-----HHD, FARNG

Wadsworth Trophy-----Co D, Maintenance, 53rd Spt Bn

*Denotes Federal Trophies and Awards

The Outstanding Airman Trophy is awarded annually by the Adjutant General of Florida to the outstanding airman of the Florida Air National Guard.

Awarded to SSGT Thomas L. Allen, Jr., Hq FlaANG

RIFLE AND PISTOL MARKSMANSHIP MATCHES

National Matches

National Rifle (7.62mm) and Pistol Matches (Cal. 22, Cal. 38 and Cal. 45) conducted under the supervision of the National Rifle Association were held at Camp Perry, Ohio in 1970.

Support for State National Guard Teams participating in the National Matches was withdrawn for calendar year 1970. The Florida National Guard was afforded the honor, however, of having SSG Sidney M. Mills, HHD, FARNG, selected as a member of the All National Guard Pistol Team for 1970 which participated in these matches.

As a result of scores fired during the conduct of the National Matches, SSG Mills completed his final qualifications for award of Distinguished Pistol Shot Badge for individual excellence in marksmanship. Fewer than two percent of those who try for the Distinguished Badge ever achieve it. The fact that since 1884 fewer Distinguished Badges have been awarded than Medals of Honor is an example of its uniqueness. SSG Mills is the third Florida National Guard competitor to achieve this honor in recent years.

All Army And Regional Matches

All Army and Regional Rifle (7.62mm) and Pistol Matches (Cal. 22, Cal. 38 and Cal. 45) are conducted by the Department of the Army and fiscal support of State National Guard Teams is not provided. Regional and All National Guard Teams are selected from

the states and territories however, based on marksmanship ability achieved in Army Area and State level matches which are supported for competition at this level by the National Guard Bureau.

The Florida National Guard was afforded the distinct honor of having two individual marksmen selected for participation at this level of competition. They were SGT Kenneth V. McDole, 3 Op Det B & 4 Op Det A, Co C, 20th SF Gp, Ft. Lauderdale, a rifle competitor and SSG Sidney M. Mills, HHD, FARNG, St. Augustine, a pistol competitor.

Army Area Matches

Third U. S. Army Rifle (7.62mm) and Pistol (Cal. 22, Cal. 38 and Cal. 45) Championship Matches conducted by Commanding General, Third U. S. Army, were held at Fort Benning, Georgia in 1970. The Florida National Guard was represented in both rifle and pistol competition at these matches. SSG Sidney M. Mills, HHD, FARNG, St. Augustine was awarded second place winner, open category in the individual .45 Cal. Timed Five Match.

State Marksmanship Matches

The Taliaferro Trophy Match (Cal. 30 M-1 or 7.62mm M-14) is conducted each year at Camp Blanding, Florida under authority of the Adjutant General. The Taliaferro Trophy was presented to the Militia of Florida in 1903 by the Honorable James B. Taliaferro, then United States Senator from Florida. It is awarded annually for unit rifle marksmanship competition. Winners of competition for 1970 are listed below:

Winner: Co A, 2nd Bn, 124th Inf, Clearwater
2nd Place: 153rd Engineer Co, Lake City
3rd Place: 9th B Det, Co C, 20th SF Gp, Fort Lauderdale

The Individual Rifle Championship Trophy (Cal. 30 M-1 or 7.62mm M-14) is fired concurrently with the Taliaferro Trophy Match. The Individual Rifle Championship Trophy presented to the Florida National Guard by Brigadier General Robert G. White, then Assistant Adjutant General in 1959, is awarded to the individual achieving the highest record score during the Individual Rifle Championship Match. Winners of the competition for 1970 are as follows:

Winner: SP4 Mike J. Nefton, Co A, 2/124th Inf, Clearwater
2nd Place: SP4 Richard E. Francis, HHC 146th Sig Bn,
Jacksonville
3rd Place: SGT Ronald L. Wilson, Det B, Co C, 20th SF Gp,
Tampa

The I. Thord-Gray Trophy Match (Cal. 45) is conducted each year at Camp Blanding, Florida under authority of the Adjutant General. The I. Thord-Gray Trophy was presented to the Florida National Guard in 1930 by Major General I. Thord-Gray, retired British Army Officer and was awarded for unit team marksmanship (carbine) competition until 1965. The trophy has been placed in pistol team competition as a result of the removal of the carbine from military inventory

in 1966. Winners for 1970 are as follows:

- Winner: HHD, FARNG, St. Augustine
- 2nd Place: 153rd Engineer Co, Lake City
- 3rd Place: Co C, 1st Bn, 124th Inf, Homestead

The Mark W. Lance Trophy (Individual Pistol Championship Cal. 45) Match is fired concurrently each year with the I. Thord-Gray Trophy Match at Camp Blanding, Florida under the authority of the Adjutant General. The Mark W. Lance Trophy, presented to the Florida National Guard in 1967 by the Camp Blanding Rifle and Pistol Club in memory of former Adjutant General, Major General Mark W. Lance, is presented annually to the individual achieving the highest record score in Pistol Match Competition. Winners for 1970 are as follows:

- Winner: SSG Sidney M. Mills, HHD, FARNG, St. Augustine
- 2nd Place: TSGT Stanley F. Ferreira, Sr., 125th Cmbt Spt Sq, Jacksonville
- 3rd Place: MSG Jack W. Griffin, HHD, FARNG, St. Augustine

Chief, National Guard Bureau Matches

Chief, National Guard Bureau Rifle and Pistol Tournament (caliber .22) is conducted annually by the National Rifle Association in cooperation with the National Guard Bureau to determine National, Army Area and State Champions. Florida National Guard individuals and teams placed as shown below during 1970.

Battalion Rifle Team Match: 146th Signal Battalion, Jacksonville, Florida was State winner.

Individual Pistol Match: SSG Sidney M. Mills, HHD, FlaARNG placed 3rd Nationally, 2nd in the Third U. S. Army Area and 1st in the State.

Unit Team Match: HHD, FlaARNG, St. Augustine, Florida was winner in the Third U. S. Army Area and State.

National Rifle Association Indoor Rifle Tournament

The National Rifle Association Indoor Rifle Tournament consisting of team and individual matches between league match winners is conducted annually under authority of the Chief, National Guard Bureau and sponsored by the Adjutant General. State winners for 1970 are listed below:

- Team: HHC, 146th Signal Battalion, Jacksonville
- Individual: 1SG Joseph K. Longino

ARMY NATIONAL GUARD

STRENGTH

The Florida Army National Guard entered fiscal year 1970 with an authorized strength of 8,043 with a reduction in manning level to 7,863. During the fiscal year, the authorized strength and the state manning level was raised to 8,138 and is the current maximum Army National Guard strength.

The strength of the Florida Army National Guard for this period has averaged 97 percent of the unit manning level and 100.7 percent strength closed the fiscal year 30 June 1970. Recruiting efforts to replace normal attrition continued with a realistic program to absorb the overstrength created by the 20 January 1968 reorganization. The status of the 1968 overstrength of officers is as follows:

	<u>COL</u>	<u>LTC</u>	<u>MAJ</u>	<u>CPT</u>	<u>1LT</u>	<u>2LT</u>	<u>Total</u>	<u>WO</u>
20 Jan 68	3	14	18	13	7	28	83	27
30 Jun 70	0	0	0	2	2	0	4	8

It is anticipated that the remaining overstrength will be absorbed by normal attrition prior to expiration of the three year authorized retention period with the exception of some warrant officers who are National Guard technicians. The numerical overstrength of enlisted personnel was absorbed. During the year, the National Guard Bureau initiated a "Try One" Enlistment Program designed to attract combat veterans of Viet Nam to enlist in the Army National Guard. Under the program authority was granted to enlist these veterans in the grade held at the time of their release from active duty without regard to the grade authorized for the vacancy for which they are enlisted. There remained some overstrength in grade resulting from the 20 January 1968 reorganization. In view of the "Try One" Program, authority was granted by the National Guard Bureau to extend the authorized period of retention in the over grade status of enlisted personnel which occurred as the result of the reorganization.

RESERVE OFFICER PERSONNEL ACT OF 1954

During the period 1 July 1969 - 30 June 1970, the Reserve Officer Personnel Act of 1954 (ROPA) remained unchanged insofar as the provisions for mandatory elimination and mandatory promotion consideration were concerned. The First Lieutenant Selection Boards, previously held at State level, were convened at the respective Army headquarters for the first time. The Captain, Major, and Lieutenant Colonel Boards remain at the Department of the Army, Washington, D. C.

During this period, 79 officers were considered for mandatory promotion with 52 being selected or a 65 percent selection rate. Breakdown of consideration is as follows:

	ILTs	CPTs	MAJs	TOTAL
CONSIDERED:				
1st Consideration	15	32	20	67
2nd Consideration	<u>1</u>	<u>11</u>	<u>0</u>	<u>12</u>
Total	16	43	20	79
SELECTED AFTER:				
1st Consideration	11	20	17	48
2nd Consideration	<u>1</u>	<u>3</u>	<u>0</u>	<u>4</u>
Total	12	23	17	52
FAILED OF SELECTION				
1st Time	4	12	3	19
2nd Time	<u>0</u>	<u>8</u>	<u>0</u>	<u>8</u>
Total	4	20	3	27

This increase in selection rate reflects the continued emphasis placed on the officer's performance as reflected by Officer Efficiency Reports (DA Form 67-6) and the continued emphasis on the importance of early completion of military educational requirements by all officers. As a result of the officer overstrength generated by the 1968 reorganization, it was again necessary that the majority of officers selected for mandatory promotion decline their promotion for the authorized period. During this year the previously authorized declination period of three years was, by regulation, reduced to one year from the officer's promotion eligibility date with the exception of National Guard technicians who are authorized to decline for the full three years from the date of adjournment of the Selection Board. Due to the backlog of declinations generated by the overstrength, the requirement for declinations will remain for several years to come and it does not appear that all selected Captains and Majors will be able to be promoted in the National Guard due to the limited vacancies. Therefore, some Captains and Majors, upon the expiration of their declination, will have to be discharged from the Florida National Guard with transfer to the non-unit U. S. Army Reserve for mandatory promotion.

FLORIDA ARMY NATIONAL GUARD OFFICER SELECTION BOARD

The Florida Army National Guard Field Grade Officer Selection Board, established in October 1963, was redesignated as the Florida Army National Guard Major-Lieutenant Colonel Selection Board. The Board membership was changed to the Assistant Adjutant General-President; Commanding General, Emergency Operation Headquarters; Commanding General, 53d Infantry Brigade; and the Commanding Officers of the 53d Signal Group and the 164th Artillery Group as members; with a recorder from The Department of Military Affairs, without vote. In addition, the Florida Army National Guard Colonel's Selection Board was constituted with the Assistant Adjutant General as President and the Commanding General, Emergency Operation Headquarters, and Commanding General, 53d Infantry Brigade; as members with a recorder from the Department of Military Affairs, without vote. The Selection Boards meet at the call of the President to select

officers for assignment to vacancies as they occur. During the period of this report, primary consideration was given to the reassignment of excess officers and consideration of officers serving under a declination of promotion.

SELECTIVE RETENTION BOARD

As a result of a Hollingsworth Board recommendation, the National Guard Bureau published NGR 20-8 entitled "OFFICERS AND WARRANT OFFICERS SELECTIVE RETENTION" effective 1 July 1969. The regulation prescribed policies and procedures for the establishment and conduct of Selection Boards used in the Army National Guard Program for selective retention of officers and warrant officers beyond 20 years of qualifying service for Federal Retired Pay. The Selective Retention Board must be convened annually within each state and with minor exceptions must consider all officers and warrant officers who have completed more than 20 years of qualifying service for retired pay. Officers or warrant officers who fail of selection are required to be retired or discharged within 90 days of the approval of the recommendations of the Selection Board. The first Selective Retention Board for the state of Florida was convened at the State Arsenal in St. Augustine during February 1970 and considered 98 officers and warrant officers. Breakdown of consideration is as follows:

	SELECTED	FAILED OF SELECTION	TOTAL CONSIDERED
COL	10		10
LTC	20	3	23
MAJ	20	4	24
CPT	7	2	9
CW4	12	1	13
CW3	15	1	16
CW2	1	2	3
Grand Total	<u>85</u>	<u>13</u>	<u>98</u>

Future Selective Retention Boards will annually consider those officers and warrant officers previously selected for retention and those officers and warrant officers who complete the 20 years of qualifying service for retired pay since the meeting of the previous Selection Board.

ARMY NATIONAL GUARD TRAINING

Training of the Florida Army National Guard is based on criteria prescribed by the United States Continental Army Command, in coordination with the National Guard Bureau. The Commanding General, Third United States Army is charged with the responsibility of coordination, support and supervision of prescribed training. Standards for training are established by Department of The Army and unit performance is evaluated annually during the active duty (annual training) period by a Board of Active Army Officers.

There are four phases of training: Basic Combat Training and Advanced Individual Training for development of basic skills and

techniques, culminating in the assignment of Military Occupational Specialties (MOS) to individuals commensurate with the type of training received and which denotes qualifications to perform the duties of a particular job assignment; Basic Unit Training, conducted by all units in accordance with the Army Training Program (ATP) appropriate to each type unit, to develop effective, well coordinated section, teams and small units, composed of those members having acquired the skills and techniques as noted above in the Advanced Individual Training Phase; and finally, the Advanced Unit Training Phase which, is designed to provide practice in the employment of unit techniques, to develop unit operating procedures, and to furnish command and staff training in the conduct of combined arms training.

Rigid training objectives were assigned to all units of the Florida Army National Guard to be accomplished during training year 1970. These objectives were:

Accomplish an Army Training Test at the next training level up to and including Company level.

Improvement of individual proficiency.

Development of junior officer and non-commissioned officer leadership and instructor capability.

Improvement of squad, platoon and unit proficiency.

Maintenance or development, as appropriate, of proficiency in Civil Disturbance operations.

At the conclusion of annual training 1970, fifteen units had satisfactorily completed Platoon Army Training Tests and thirty-six units satisfactorily completed Detachment or Company level Army Training Tests.

The premobilization training objective is to attain and sustain proficiency at the highest level of the Basic Unit Training phase, or comparable level of the Army Training Program, culminating with satisfactory completion of the appropriate Army Training Test.

The objective of the overall training effort is to improve the readiness of all units to mobilize and promptly initiate a post mobilization training program to meet deployment schedules. Toward this end maximum progression to higher levels of training, even beyond those objectives stated above, is encouraged consistent with strength, training equipment, facilities and attained proficiency.

INITIAL ACTIVE DUTY FOR TRAINING PROGRAM

The Reserve Enlistment Program of 1963 (REP-63) continued during the period of this report. This program required as a condition for enlistment, a nonprior service individual to enter within 120 days of his enlistment, on active duty for a minimum period of four months to receive basic and MOS training. Maximum active duty time is determined by the time required to train the individual in his assigned MOS. During this year, administrative requirements for requesting and allocating quotas for input and issuance of orders changed considerably. These changes substantially increase the time required for processing nonprior service personnel into

the initial active duty for training and their return to State control.

Sufficient quotas were obtained from Department of The Army to preclude any backlogs from occurring during this year. Except for unusual circumstances, nonprior service enlistees are entering initial active duty for training within 60 to 120 days after enlistment.

A total of 1,393 trainees entered initial active duty for training during this period with 920 completing their training and returning to their National Guard unit.

SCHOOL PROGRAM

The Army National Guard School Program, supported from Federal funds, provides the vehicle for the branch and technical training of officer and enlisted personnel, whereby they may qualify themselves for their unit TOE/TDA assignments and receive advance training in critical Military Occupational Specialties. It is through the media of the Service School Program that officers are afforded the opportunity to complete training in their chosen career fields, and officers and enlisted personnel alike maintain their proficiency in the areas of combat arms, technical and administrative fields.

During calendar year 1970, 61 officers and 22 enlisted personnel participated in the Army Service School Program, 103 officers and 45 enlisted personnel in the Army Area School Program, and 78 officers and 42 enlisted personnel participated in Specialized and Refresher Type Courses of Military Instruction.

ENLISTED EVALUATION SYSTEM

The Enlisted Evaluation System is a method of testing individuals in their assigned Military Occupation Specialty (MOS). This program has been in effect for the Army National Guard since April 1964.

Each year regulations have been updated placing more emphasis on a high academic achievement for these tests. Regulations have prescribed that failing scores will lead to reassignment, reduction, and/or separation. Current regulations updated in May 1969 require in addition to a passing score of 70 for retention purposes, that a minimum score of 110 be achieved to permit promotion to a higher grade. Waivers by the Adjutant General are currently authorized to permit promotion with minimum score of 80 with a graduated increase requirement over a 3 year period to achieve the 110 score.

During the fiscal year of this report, four test periods were conducted in which a total of 3,355 individuals were evaluated.

Test results continue to reflect enlisted personnel of Florida compare favorably with enlisted personnel of the overall National Guard and the Active Force.

FEDERAL FUNDS AND EQUIPMENT

The Florida Army National Guard continues to be better equipped than in previous years. This is due primarily to the issue of more

modern equipment and the additional funding being made available to the State of Florida by the Federal Government.

The Secretary of Defense has announced that the National Guard will fill a major role in future national crises. In this announcement statements were made that additional equipment, more modernized equipment and additional funds will be made available to the National Guard for the support of this increased national defense role.

The "Military Support of Civil Authorities" program referred to in the 1967-1968 and 1969 Adjutant General's Report is still in existence and is being given more emphasis nationwide. The funding program and additional equipment made available by the Federal Government to the State of Florida continues to increase each fiscal year.

Camp Blanding, Florida, is still being used for weekend training assemblies and annual field training site for National Guardsmen not only from the State of Florida but from other states. The Federal Government continues to partially support this site as evidenced in Appendix VIII.

There are 473 full-time employees authorized for the Florida Army National Guard statewide who are paid from Federal funds. During the Fiscal Year 1970, Federal funds expended in direct support of the Florida Army National Guard totaled \$13,097,105.82. At the close of Fiscal Year 1970, the value of Army equipment and supplies on hand in the State totaled \$32,716,117.83.

MAINTENANCE OF FEDERAL PROPERTY

Surface Equipment

The maintenance of surface equipment is accomplished in two general categories. Organizational (user and unit) maintenance is accomplished as a part of military training within the organization. To assist Commanders, there are sixteen Organizational Maintenance Shops, with an authorized technician strength of 106, strategically located to furnish backup organizational maintenance.

The Annual Training Equipment Pool, located at Camp Blanding, performs organizational maintenance of sixty-four Guns, Self-Propelled, Twin, 40mm, (Air Defense Artillery) for use by National Guard Air Defense Artillery units in the Third United States Army Area, and is manned by 9 full-time technicians.

Support maintenance is accomplished at the Combined Support Maintenance Shop located at Camp Blanding. With an authorized technician strength of 70, major items of equipment supported are 10,033 Small Arms, 83 Artillery, 105 Combat Vehicles, 2,710 Tactical Vehicles (including trailers), and 13 Engineer Special Purpose Equipment. The Combined Support Maintenance Shop continued to support, on a cross-service agreement, United States STRIKE Command, at MacDill Air Force Base, Tampa, Florida. 84% of the CSMS personnel are technically trained, and in order to keep abreast of the latest techniques and ever increasing complexity of equipment, attendance at service schools (Army) and manufacturer's courses of instruction is encouraged.

Aircraft Maintenance

The Army Aviation units in the Florida Army National Guard are consolidated at Craig Airport, Jacksonville, Florida and are housed in an armory, hangar and organizational maintenance shop complex. The Army Aviation Support Facility Command also located at Craig Airport is responsible for the training, administration and logistical support of the aviation units and also responsible for initial aircraft checkout procedures as well as standardization and aircraft currency flights with assigned aviators.

The Army Aviation Maintenance Shop performs organizational, direct support and when authorized general support maintenance on assigned Army aircraft. An average of 25 Army National Guard technicians perform maintenance on the unit aircraft which includes, one U-1A, four U-6A, three O-1A, six OH-23B, seven TH-13M, three UH-1D and one ICAI Flight Simulator.

The Army Aviation program is now undergoing a tremendous build up program in both aviators and aircraft. The aviation units are full strength with trained aviators. Modern aircraft are now being received, in fact, the aircraft listed above with the exception of the U-1A, U-6A, and UH-1D are interim aircraft and will most likely be phased out of the active inventory within the next calendar year.

Approximately 6,000 flying hours were utilized for proficiency and support missions during calendar year 1970.

AIR NATIONAL GUARD

AIR NATIONAL GUARD OPERATIONS AND AIR DEFENSE COMMAND ALERT PROGRAM

The Florida Air National Guard continues to perform the aerospace defense of the southeastern United States. The alert force provides two aircraft on five minute alert duty and two additional aircraft on fifteen minute alert twenty-four hours per day, seven days per week. The alert commitment plus the daily training requirements keep over half of the fighter pilots in the squadron on active Air Force duty each day. This outstanding participation is even more significant considering many aircrew members are engaged in full time employment in the greater Jacksonville area. The Aerospace Defense Command's 20th NORAD Region at Fort Lee, Virginia, maintains operations control of the active alert detachment with satellite operations at Fort Fisher, Virginia, and Tyndall Air Force Base, Florida. Operational and training activity involving the alert force are as follows:

There were twenty-four (24) Air Defense Scrambles ordered during the period. Four (4) scrambles were cancelled. Of the twenty (20) scrambles that became airborne several were tasked as trailer aircraft on hijacked Air Liners.

One hundred and sixty-eight (168) training flights were flown on Air Defense exercises with one hundred and thirty-two (132) successful intercepts.

Sixteen hundred and forty-two (1642) training intercepts were flown by aircrews on alert status during daily training operations. Fourteen hundred and forty-nine (1449) successful training intercepts were accomplished.

The 125th Fighter Group extensively planned a deployment to Howard Air Force Base, Canal Zone. The operation was postponed by the National Guard Bureau due to funding limitations and conflicting inspection schedules. The plan is being held for possible implementation during the next fiscal year. Operational requirements were to involve deployment of six (6) aircraft and aircrews plus two (2) supervisory officers and twenty-six (26) support personnel. Also included were approximately 33,262 pounds of support equipment and parts which were to be airlifted by Air National Guard airlift units.

The Aerospace Defense Command Inspection team performed a General Inspection plus an Operational Readiness Inspection during the calendar year. After correcting deficiencies in the missile maintenance area, the unit was rated satisfactory.

In the future the gaining command inspections will be combined so as to create a minimum number of interruptions to operational requirements.

The Fighter Group deployed to Tyndall Air Force Base, Florida, during 1-7 March 1970. During this period, seven (7) airborne (weapons systems) were evaluated utilizing a test firing program

against Firebee drone targets. Ten (10) aircrews and thirty-six (36) maintenance personnel were involved in the deployment, twenty-two (22) Sorties were flown during the deployment, six (6) AIM 4A's (missiles) were successfully fired, and twenty-four (24) FEAR's (rockets) were also fired.

The Florida Air National Guard will conduct annual training at Gulfport, Mississippi, for a two week period in June 1971. This will be the first training period away from home station for the entire unit in over ten years. Planning, funding and airlift activities are now taking place.

Our annual training plan will include deployment of all operational ready F/TF102A aircraft with appropriate support aircraft which are available. Supporting units and equipment will be airlifted by Air National Guard airlift units. Operational training will include practice Ground Controlled Intercepts (GCI) and extensive ground training for operational and support aircrews. All operational plans of the 125th Fighter Group will be reviewed and exercised as may be appropriate.

The 125th Fighter Group leads the Air National Guard units in exercise participation. During the year NORAD or the 20th Region conducted sixteen (16) live exercises in which the 159th Fighter Interceptor Squadron provided a large interceptor force, plus numerous target aircraft.

Aircrew Flying and Ground Training Requirements accomplished during this period were as follows:

100% of all Ground Training was accomplished.

100% of all Flying Training was accomplished.

10 pilots received Physiological Training at Cecil Field, Naval Air Station, Jacksonville, Florida.

7 pilots attended Life Support School at Tyndall Air Force Base, Florida and Perrin Air Force Base, Texas.

Twenty-seven (27) Primary Duty Fighter Pilots are authorized in the 159th Fighter Interceptor Squadron. An average of twenty-five (25) pilots were maintained during this period.

Average Total Time of all Pilots.....3,242 hrs.

Average Total Jet Time.....2,347 hrs.

Average Total Unit Equipment Aircraft Time..1,164 hrs.

ADMINISTRATIVE/PERSONNEL MANAGEMENT

During the year 1970, the administrative management of all official documentation received re-evaluation and direction from all levels of command. This in turn caused a comprehensive appraisal of methods, plus a complete indoctrination of administrative personnel toward increased economy and efficiency. Included herein were new standards, terms, procedures, and techniques as well as specific alignment of management responsibility in all areas of the Air National Guard. This was accomplished along with the continuing workload and has progressed quite satisfactorily. Management emphasis is continuing locally and appears command interest will remain high in the future.

As in past years, computer mechanization offered the greatest

challenge to personnel management during 1970. Changes came early in the year with the February modification to the Personnel Data System, officer and airman. Although modifications to the system were not as drastic as those of past years, they still required changing numerous formats, data elements and codes and collecting and/or changing data. Procedures connected with the Air Reserve Pay System remained stable during the year and required only normal personnel management.

A significant factor affecting personnel management was the transfer of the management functions of the civilian personnel program from Base level to the consolidated civilian personnel office at State Headquarters. This action required transfer of civilian personnel records and required considerable coordination between personnel managers at both levels.

As always, direction of General Military Training, On-The-Job Training, Disaster Preparedness Training, Riot Control Training plus various other exercises coupled with normal duties, continue to require attention.

SCHOOL TRAINING

The Air National Guard continues to utilize Air Force Technical Schools for the major portion of the formal training received by Air Guardsmen. All non-prior service enlistees are required to undergo an initial active duty training tour subsequent to their enlistment. The minimum length of this tour is four months, however, it can be longer depending upon the complexity of the specialty for which the individual is being trained. This training normally consists of six weeks Basic Military Training (BMT) coupled with an Air Force Technical School. In a small percentage of cases, this training consists of the BMT only with a concentrated period of On-The-Job Training (OJT) at home station.

In addition to the school training for non-prior service airmen, other types of formal training are available to members of the Florida Air National Guard. Some of these are advanced training courses, lateral training courses, special training, and field training detachments.

The National Guard Bureau has established its own Air National Guard Non-Commissioned Officer Academy at McGhee Tyson Airport, Knoxville, Tennessee, and during 1970 commenced the Air National Guard Leadership School at the same installation. While the Academy is designed to enhance the prestige and further develop the leadership abilities of the non-commissioned officer grades, the latter school has been established to promote retention of the lower grade airmen in the Air National Guard program. At the present time, there are twenty-seven (27) graduates of the full academy course and seven (7) graduates of the Phase I course. Seven other airmen are currently awaiting class assignment. Plans have been formulated to establish a Disaster Preparedness Training School at the above training site. This type of training is being given more importance with each inspection this unit undergoes.

UNIT TRAINING

The heart of the unit training program is On-the-Job Training (OJT). This is accomplished in accordance with directives developed by Headquarters, United States Air Force, by the gaining major air command Aerospace Defense Command, and by the National Guard Bureau. On the annual Inspector General inspection conducted during February 1970, the OJT program and administration of same was rated outstanding.

FIELD TRAINING

All units of the Florida Air National Guard conducted year-round field training at home station through the end of Fiscal Year 1970 (30 Jun 70). At this point, the year-round program was terminated and all units are now scheduled to deploy to the Air National Guard Field Training Site at Gulfport, Mississippi, during the period 12-26 June 1971, for field training. It is the desire of Air Defense Command that all units for which they are the gaining major command deploy to a separate location every third year for field training. The year-round program will be in effect during the other two years. The year-round program has been very successful in the accomplishment of training for operational readiness purposes.

FEDERAL FUNDS AND EQUIPMENT

The mission of the Florida Air National Guard is such that it must be operationally ready for combat at all times. To insure the maximum in readiness, the Federal Government provides funds and equipment for the Florida Air National Guard on a level closely paralleling the active Air Force. An average of two hundred (200) full time Federally supported technicians are employed at the Air National Guard Base in Jacksonville. These technicians, representing about 25% of the overall strength of the Florida Air Guard, are specialists in the fields of command, administration, finance, accounting, supply and maintenance.

During calendar year 1970, Federal funds in the amount of \$4,138,205.80 were expended in support of the Florida Air National Guard. The value of military equipment in use is \$39,162,285.00 an increase of \$6,145,485.41. This increase was due to the assignment of additional mission aircraft and supporting equipment.

The F-102 aircraft, with which the Florida Air National Guard is currently equipped, is an expensive weapon system to operate. Cash purchases of supplies and services in the Jacksonville area in support of this aircraft during calendar year 1970 totaled \$13,818.70, while purchase orders and delivery orders on local business concerns totaled \$94,492.64. Local transportation companies received \$9,422.98 for movement of material from Jacksonville to various points in the nation. Cross Service Agreements with other military activities in the Jacksonville area resulted in services to the Florida Air National Guard valued at \$5,000.00. The Federal funds paid to Florida business concerns, coupled with the \$3,125,650.05 paid in salaries during

this period, represents an industry of considerable value to the State of Florida and its citizens.

The warehouse inventory of 7,000 active items leveled at \$3,781,165.00. There was an average of 5,915 monthly transactions for a dollar value of \$727,375.00. These two figures indicate an efficient inventory control system that is well within the limits prescribed by the active Air Force. The aircraft fuel section issued fuel and petroleum products during this period that were valued at \$417,727.28.

The supply system has remained basically the same during this period with only a few minor changes, therefore, good support was afforded to all units.

MAINTENANCE

During the past year, an average of one hundred and eighteen (118) personnel were employed by the Air Technician Detachment of the Florida Air National Guard to perform maintenance on unit aircraft which includes, eighteen (18) F-102s, two TF-102s, two T-33s, one C-54 and one U-3A aircraft. Maintenance personnel are responsible for performance of all organizational maintenance and much of the intermediate maintenance on both the primary mission and support mission aircraft, missiles and associated test equipment, ground power equipment, all motor vehicles, including crash and firefighting equipment, the flight simulator, and the base communications system.

The 125th Fighter Group has had the F-102 as its primary aircraft for over ten years. This is the longest period of time this unit has retained any single aircraft model, and it has enabled us to attain an exceptionally high level of maintenance proficiency. During this ten-year period, 49,500 hours of F-102 flying time has been logged. The average experience level of Air Technician employees is now over eighteen (18) years. The experience level of all mechanics and specialists, both Air Technician and week-end trainee, has risen steadily as a result of continued vigorous On-The-Job training programs conducted at this base, coupled with attendance of most newly assigned airmen at Air Force Technical Schools.

During late 1969, we were re-equipped with a later model improved version of the F-102A. This aircraft is capable of improved low altitude intercept operations and has an improved weapons capability. At first glance, it appeared that these aircraft were in good condition. In-depth inspections, however, have shown that a minimum of proper maintenance had been performed by the units that previously possessed these aircraft. In many cases, intermittent electrical problems have required extensive trouble-shooting. For awhile, it seemed that the infamous "Gremlins" of World War II had made another appearance. Persistent checking has now revealed that use of improper wire crimping tools is the major cause of many loose electrical connections. Most of these discrepancies are noted and corrected during Periodic (PE) inspections conducted on this base. This situation has caused extensive delays in accomplishing PE inspections which have been further delayed by:

a. Reduction-in-force resulting in termination of four maintenance employees this year and inability to hire replacements for four other employees that resigned during the previous year, due to funding limitations and budget cuts.

b. A large amount of unscheduled flight line maintenance requiring specialist assistance. This maintenance has priority over PE maintenance since it is necessary to meet mission requirements. As a result, PEs are sometimes delayed several days awaiting specialists, which are necessary for extensive rewiring actions.

c. An ever increasing number of Time Compliance Technical Orders (TCTOs) requiring safety inspections and special maintenance. This is expected as aircraft become older. An average of five hundred and two (502) outstanding hours per airframe on Time Compliance Technical Orders (TCTOs) had accrued at the beginning of the year. This has been reduced to two hundred and nineteen (219) hours, of which one hundred and seventy-nine (179) are depot level and cannot be accomplished at this base. At present we have four (4) aircraft which are TO free. This is considered a major accomplishment.

d. Deletion of the IRAN inspection program where our aircraft were sent to another base for in-depth inspections and repairs. This program was deleted due to lack of funding and has resulted in the inclusion of many additional items during PE inspections.

e. Parts procurement problems resulting from priority being given to F-102 aircraft in Viet Nam. During 1970, we were NORS (Not Operationally Ready Supply) for seven months due to lack of parts. This compares with no months NORS during the previous year.

f. A total of one hundred and forty-three (143) cannibalization actions were required on F-102 aircraft. This is the removal of parts, not otherwise available, from one aircraft to make another operationally ready. Cannibalization is a "last resort" action.

Next year, PE maintenance flow time should improve, inasmuch as most aircraft have now undergone a PE inspection at this facility.

Subsequent inspections should be more routine and far less unscheduled maintenance should be required.

DIVISION EXERCISES

During January 1970, our parent command was changed from 32nd Air Division at Gunter Air Force Base, Alabama, to the 20th Air Division at Fort Lee, Virginia. During the course of any one year on numerous occasions, we are called upon to assist various Air Force units and air divisions by supporting division exercises with target and/or interceptor aircraft. Our parent air division has commended this unit many times for the support furnished during these around-the-clock operations.

INSPECTIONS

We received a "Satisfactory" rating from the Inspector General during our IG inspection in February 1970. The Inspector General commented that "maintenance personnel were knowledgeable, cooperative and enthusiastic in the performance of their duties". He also noted that of the ninety-five personnel in training, none were in

training for an excessive period of time. The IG rated as outstanding the Analysis-Records-Reports-Administration Section, the Weapons Loading Section, the Life Support Section, and the Flight Simulator Section.

AIR DEFENSE COMMAND ALERT

The maintenance section provides support for the twenty-four hour Air Defense Command alert commitment with ready maintenance crews and aircraft. Weapons loading crews are available for necessary loading and unloading of aircraft armament on a continuing basis. Our aircraft have been scrambled on many occasions to provide escort and surveillance for aircraft being hijacked to Cuba.

TYNDALL DEPLOYMENT

During March 1970, eight (8) aircraft, ten (10) pilots and thirty-six (36) maintenance support personnel were sent on temporary duty to Tyndall Air Force Base, Florida. The purpose of this deployment was to evaluate the F-102 weapons system and aircrews in actual firing of missiles against the Firebee radio controlled drone targets. Our success rate at deployments such as this is a tribute to the high degree of skill displayed by both pilots and maintenance personnel.

AIR NATIONAL GUARD BASE

Three paving contracts have been awarded and construction is presently in progress. Work is scheduled for completion by the end of February 1971. Cost of the three projects will amount to \$23,658.00 and they are:

a. Liquid Oxygen Storage: For the transfer and storage of the liquid oxygen used in unit aircraft. This new storage area will allow the relocation of the liquid oxygen storage facility from a hazardous area.

b. Fuel Truck Parking: This new parking area, with separate access and egress capability, will eliminate present parking of fully loaded aircraft fuel trucks along base roads.

c. Base Supply Warehouse Exterior Storage: Outside storage of supplies and equipment.

A previously submitted project for lighting vehicle parking areas has been approved by the National Guard Bureau at an estimated cost of \$14,000.00. Plans and specifications for this project are being drafted.

PUBLIC AFFAIRS

During the year 1970, the Florida Air National Guard continued its efforts to build and reinforce sound community relations in the locale of the base, and initiated a statewide program to make all Floridians aware of their Air National Guard and its mission.

The Information Office has strived to maintain a professional approach with high standards of accuracy and timeliness, and keyed to opening channels of access to news consistent with security regulations and the mission of the unit. News releases emanating from the office have been limited to stories with real news value and general interest. All stories released by the unit have been made available to all area media on a timely basis.

The following are summaries of the more important Information Office programs and news events during the year:

a. Florida Air National Guard pilot 1LT Lawrence M. Matheny, Jr., made headlines statewide when he played the key role in saving the life of a twelve year old Melbourne boy. In a coordinated effort between the Florida Air National Guard, the State Health Department and the Florida Highway Patrol, 1LT Matheny flew a supersonic race against death to deliver coral snake anti-venom from Jacksonville to Melbourne to save the boys life.

b. A statewide information program was initiated with a press kit mailed to all Florida daily newspapers in December 1970. The Florida Air National Guard mission charges the unit with spreading a protective umbrella over most of the State, but the nature of air power is such that there is little personal contact with Florida citizens outside of the Jacksonville area, where the unit is based. In the belief that an informed citizenry is an important prerequisite for a Democracy, an informative press kit was developed as the first step toward making all Floridians aware of the State's Air National Guard and its role in protecting the nation against air attack.

c. The State of Florida's Distinguished Service Medal was presented posthumously in July to MSgt John B. Flautt of the Florida Air National Guard. The award was accepted by Mrs. Flautt in impressive ceremonies as the entire unit looked on.

d. A number of localized news releases were distributed, such as those for two non-commissioned officers who received direct commissions during the year.

e. TSgt Stanley F. Ferreira, Sr., focused statewide attention on the Florida Air National Guard when he won five trophies, including the Grand Aggregate Price, at the State Championship pistol matches sponsored by the Florida Peace Officers Association. Sgt Ferreira represented the Florida Air National Guard in the statewide match, firing a .45 caliber automatic.

f. SSgt Derwood E. Coyle received the Florida Commendation Ribbon for being selected as the squadron's "Outstanding Airman".

g. Amn Peter F. Wormwood, Jr., of the Florida Air National Guard received the "American Spirit Honor Medal" for his display of outstanding qualities of leadership best expressing the American spirit, while one of hundreds of students from throughout the nation at Lackland Military Training Center, Lackland Air Force Base, Texas.

h. MSgt John H. Kent, Sr., was named a National winner in the Freedoms Foundation Incentive Awards Program. Sgt Kent won with an essay titled: "My Hope For America's Future." It featured the theme that a man must be willing to stand up and rebuff challenges to his religious beliefs and family ties.

The Florida Air National Guard is keenly aware of the need for achieving an increasing level of dialogue between the citizenry and its military arms of Government, for the people of this State and Nation are the basis of the military authority which is borne by men in uniform. Information Office programs are geared to inform the public about the Florida Air National Guard and its mission, and to provide a channel for Florida citizens to establish a dialogue with their military forces.

ADVISORS

ARMY

The primary mission of the US Army Advisor Group is to provide maximum advice and assistance to the units of the Florida National Guard in all phases of training, administration, maintenance and supply procedures to accomplish their mission of attaining and maintaining a high degree of operational readiness. The Senior Army Advisor, Colonel Rudolph Smith, is the liaison officer between the Adjutant General and the Commanding General, Third United States Army.

The Advisor Group is comprised of the Headquarters and Office of the Senior Army Advisor, State Arsenal, St. Augustine, Florida; and four Advisor sub-commands located at Emergency Operations Headquarters, Jacksonville, Florida; 53d Infantry Brigade Headquarters, Tampa, Florida; 53d Signal Group Headquarters, Tallahassee, Florida; and 164th Artillery Group Headquarters, Miami, Florida. Within these commands are twenty-two advisor stations fully staffed with professionally qualified officer and enlisted advisors.

The Advisor Group is at 100% assigned strength representing a combined total of 1,037 years of military service. Eighty-four per cent of the Advisor personnel have served in Viet Nam.

AIR

The Department of the Air Force provides an officer as Air Advisor and a non-commissioned officer as Personnel Advisor to the Florida Air National Guard, with office at Headquarters, 125th Fighter Group.

During calendar year 1970, there was no officer Advisor assigned. Senior Master Sergeant Robert J. Holden served as the non-commissioned Advisor.

Assignment of an Officer Advisor is expected during 1971.

Senior Master Sergeant Holden has given assistance in the training requirements and personnel procedures of the Air National Guard.

NATIONAL GUARD OFFICERS ASSOCIATION OF FLORIDA

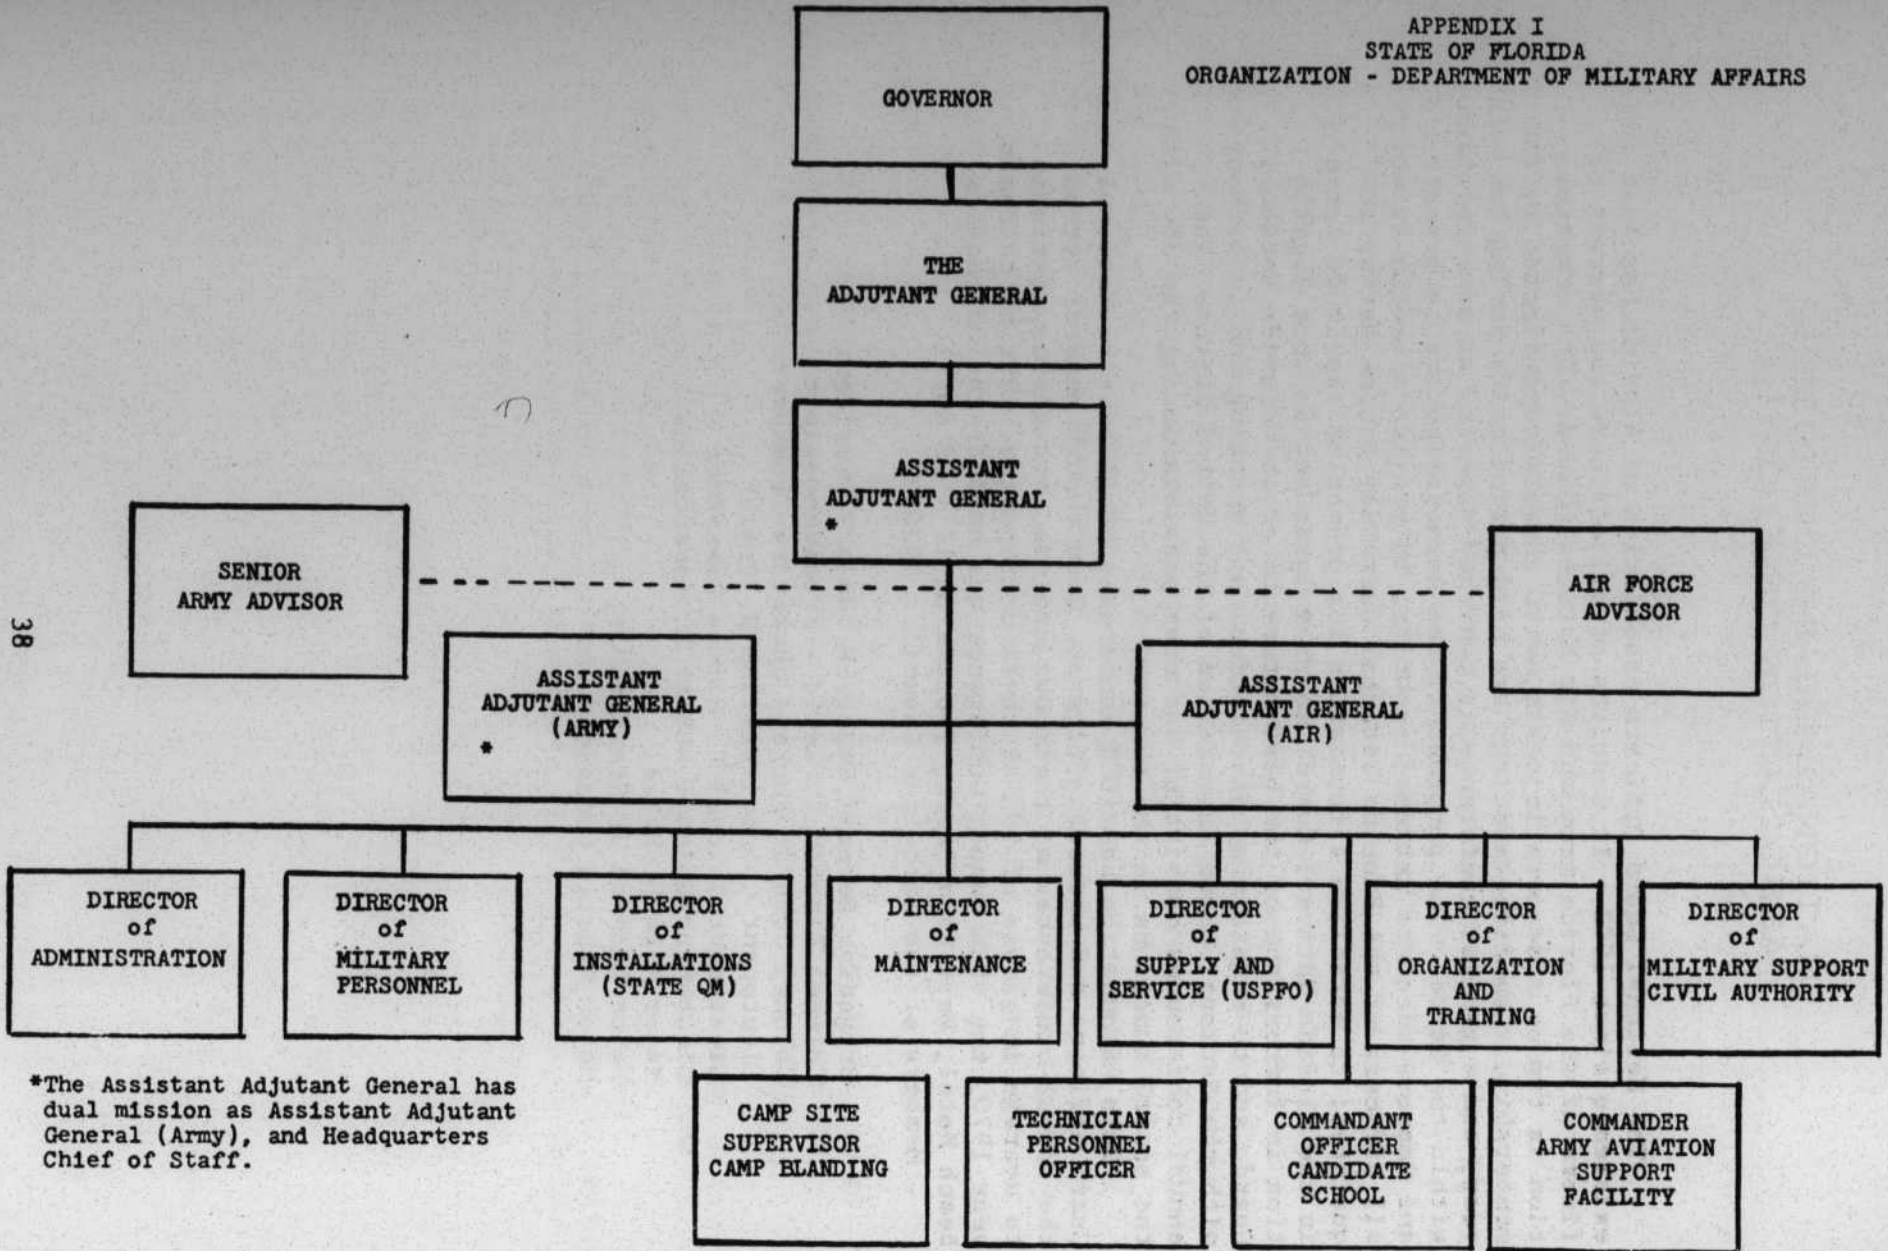

The National Guard Officers Association of Florida has been in existence since 1902. It consists of all officers and warrant officers of the Florida Army and Air National Guard. The organization is run on a democratic basis, with the officers elected by the membership. Committee meetings are held periodically during the year, and a general conference is convened annually at some location within the State. The purposes of the Association are to promote and improve adequate national security; to provide a medium by which all officers of the Florida National Guard may become better acquainted; to establish a foundation for promoting esprit de corps in the Florida National Guard; to promulgate and support legislation in furtherance of the best interests of the Florida National Guard; and to maintain an Association complementing and in harmony with the National Guard Association of the United States. The annual conferences consist of business sessions during the day with the social functions in the evening.

This Association has 100% membership of all active National Guard officers and warrant officers. Even though members attend the annual conferences at their own expense, attendance continues to average in excess of 50% at these conferences. During calendar year 1970, the 68th Annual Conference was held at the Colonnades Beach Hotel, West Palm Beach, Florida on 17 - 18 April.

Members of the Executive Council - 1970

Brigadier General George H. Dale - President
Colonel Richard L. Lewis - President-elect
Colonel John J. Rooks - Secretary-Treasurer
Lieutenant Colonel William H. Pruitt
Lieutenant Colonel E. Holmes Alexander
Lieutenant Colonel Robert X. deMarcellus
Major Alan D. Hetzel
Major Leonard J. Stewart, Jr.
Major Agustin Gonzalez
