

REPORT
OF THE
ADJUTANT GENERAL

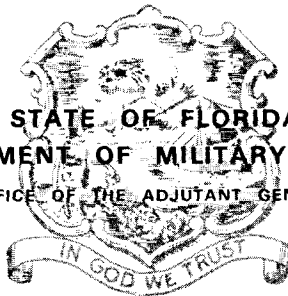

OF THE
STATE OF FLORIDA

1979

KENNEDY C. BULLARD
MAJOR GENERAL
THE ADJUTANT GENERAL

STATE OF FLORIDA
DEPARTMENT OF MILITARY AFFAIRS
OFFICE OF THE ADJUTANT GENERAL

STATE ARSENAL, ST. AUGUSTINE
32084

30 September 1979

Honorable Bob Graham
Governor of Florida
Tallahassee, Florida 32304

Dear Governor Graham:

Pursuant to the provisions of Section 250.10, Florida Statutes, there is submitted herewith the report of the Adjutant General of Florida, pertaining to the administration of the Department of Military Affairs for the fiscal year 1 July 1978 - 30 June 1979.

As indicated in the accompanying report, the progress made during this past fiscal year reflects the high state of readiness and efficiency maintained by the Florida National Guard in its efforts to fulfill both State and Federal missions. I feel that you as Commander in Chief can take real pride, as I do, in the accomplishments of the Florida National Guard.

Respectfully yours,

K. C. BULLARD
Major General, FARNG
The Adjutant General

GOVERNORS OF FLORIDA

FIRST SPANISH PERIOD, 1565-1763

At St. Augustine

Pedro Menéndez de Avilés	1565-1574
Hernando de Miranda	1575-1577
Pedro Menéndez Marqués (Governor <i>ad interim</i>)	1577-1578
Pedro Menéndez Marqués	1578-1589
Gutierre de Miranda	1589-1592
Rodrigo de Junco (appointed governor, was drowned) ..	1592
Domingo Martínez de Avandafío	1594-1595
Goncalo Meñdez de Canco	1596-1603
Pedro de Ybarra	1603-1609
Juan Fernández de Olivera	1609-1612
Juan de Tribiño Guillamas	1613-1618
Juan de Salinas	1618-1623
Luis de Rojas y Borja	1624-1629
Andrés Rodríguez de Villegas	1630-1631
Luis Horruytiner	1633-1638
Damian de Vega Castro y Pardo	1639-1645
Benito Ruiz de Salaza Ballecilla (deposed in 1646, reinstated in 1647)	1645-1650
Nicolás Ponce de León (Governor <i>ad interim</i>)	
Pedro Benedit Horruytiner (Governor <i>ad interim</i>)	
Diego de Rebolledo	1655-1659
Alonso de Aranguiz y Cortés	1659-1663
Francisco de la Guerra y de la Vega	1664-1670
Manuel de Cendoya	1670-1673
Nicolás Ponce de León (Governor <i>ad interim</i>)	-1674
Pablo de Hita y Salazar	1675-1680
Juan Marqués Cabrera	1680-1687
Diego de Quiroga y Lozada	1687-1693
Laureano de Torres y Ayala	1693-1699
Joseph de Zúñiga y Cerda	1699-1706
Francisco de Córcoles y Martínez	1706-1716
Juan de Ayala Escobar (Governor <i>ad interim</i>)	1717-1718
Antonio de Benavides	1718-1734
Francisco del Moral Sánchez	1734-1737
Manuel Joseph de Justis (Governor <i>ad interim</i>)	-1737
Manuel de Montiano	1737-1749
Melchor de Navarette	1749-1752

GOVERNORS OF FLORIDA

FIRST SPANISH PERIOD—Continued

Fulgencio García de Solís (Governor <i>ad interim</i>)	1752-1755
Alonzo Fernández de Heredia	1755-1758
Lucas de Palazio	1758-1761
Melchor Feliu	1762-1763

ENGLISH PERIOD, 1763-1783

East Florida at St. Augustine

James Grant	1763-1770
John Moultrie (Lt. Governor)	1771-1774
Patrick Tonyn	1774-1783

West Florida at Pensacola

George Johnstone	1763-1767
Monforte Browne	1767-1769
John Eliot	1769-1769
Elias Durnford	1769-1770
Peter Chester	1770-1781

SECOND SPANISH PERIOD, 1783-1821

East Florida at St. Augustine

Manuel de Zéspedes	1783-1790
Juan Quesada	1790-1795
Bartolomé Morales, Acting Governor	-1795
Enrique White	1795-1811
Juan de Estrada	1811-1812
Sebastián Kindelan	1812-1815
Juan de Estrada, Acting Governor	1815-1816
José Coppinger	1816-1821

West Florida at Pensacola

Arturo O'Neill	1781-1793
Enrique White	1793-1795
Paula Gelabert	1795-1796
Juan Folch	1796-1811
Francisco St. Maxent	1811-1812
Mauricio de Zúñiga	1812-1813
Mateo González Manrique	1813-1815
José Masot	1816-1819
José Callava	1819-1821

GOVERNORS OF FLORIDA

Under the American Flag

TERRITORIAL GOVERNORS, 1821-45

Andrew Jackson	1821-1822	Robert Raymond Reid	1839-1841
William P. Duval	1822-1834	Richard Keith Call	1841-1844
John H. Eaton	1834-1836	John Branch	1844-1845
Richard Keith Call	1836-1839		

STATE GOVERNORS SINCE 1845

William D. Moseley	1845-1849	Cary A. Hardee	1921-1925
Thomas Brown	1849-1853	John W. Martin	1925-1929
James E. Broome	1853-1857	Doyle F. Carlton	1929-1933
Madison Perry	1857-1861	David Sholtz	1933-1937
John Milton	1861-1865	Fred P. Cone	1937-1941
*A. K. Allison	-1865	Spessard L. Holland	1941-1945
William Marvin (Provisional)	1865-1866	Millard B. Caldwell	1945-1949
David Shelby Walker	1866-1868	Fuller Warren	1949-1953
Harrison Reed	1868-1873	**Dan McCarty	1953
Ossian B. Hart	1873-1874	Charlie E. Johns (Acting)	1953-1955

DEPARTMENT OF MILITARY AFFAIRS

INTRODUCTION

The State of Florida, Department of Military Affairs, is a State agency, created by Chapter 250, Florida Statutes and composed of the military force provided for in the laws of the State of Florida. The Florida National Guard is provided for by Section 2, Article X of the Constitution and Chapter 250.08 of the Florida Statutes. The National Guard of the United States is provided for by Title 32, U. S. Code.

The Governor is Commander in Chief of the Florida National Guard. The Adjutant General is Chief of the Department of Military Affairs and Commanding General of the Florida Army and Air National Guard. There is an Assistant Adjutant General, an Assistant Adjutant General for Air, and a directorate staff organization in the Headquarters, (Appendix I, Organizational Chart).

The troop structure of the Florida National Guard is composed of the Florida Army National Guard and Florida Air National Guard. The Army National Guard consists of the State Headquarters and Headquarters Detachment with its attached support type units; an Infantry Brigade (Separate); and nondivisional units grouped under an Alternate Command Headquarters, FARNG, and a Command and Control Headquarters, (Appendix III, Organization - Florida Army National Guard). The Florida Air National Guard consists of the Headquarters Florida Air National Guard; the 125th Fighter Group, (Appendix IV, Organization - Florida Air National Guard).

MISSION

As provided for under the provisions of the National Defense Act, units of the Florida National Guard, both Army and Air, have a dual mission.

(1) A State mission, to provide military organizations trained and equipped to function when necessary in the protection of life and property, and in the preservation of peace, order and the public safety, as directed by competent State Authority; and,

(2) A Federal mission, as Reserve Components of the Army and Air Force of the United States, to provide trained and qualified individuals available for Federal service in time of war or national emergency, or at such other times as the national security may require augmentation of the United States Armed Forces.

The Florida Air National Guard, in addition to their State and Federal mission, has an air sovereignty mission for the eastern seaboard of the United States. Mission involves the maintenance of F-106 fighters and crew on a twenty-four hour alert status, armed and ready for immediate commitment to intercept unidentified aircraft in or approaching the airspace of the United States.

The State Adjutant General and his Headquarters has an additional Federal mission to direct and coordinate the preattack planning and postattack operations of all military forces (Army, Navy, Air Force) made available within the State, to support civil authorities engaged in providing for survival of people and continuity of government in a nuclear environment.

SUMMARY

The Florida Army National Guard experienced five major reorganizational changes during the period covered by this report. One unit was inactivated, four units were organized. Reorganizations under the Department of the Army Vertical Army Authorization Document System have remained in force throughout the period which, created some minor adjustments in Military Occupational Specialties, strengths and changes in unit Tables of Organization and Equipment. All prescribed training level objectives imposed by Department of the Army have been attained and maintained and the Standards of Proficiency and Readiness of units remained at a high level with all administered Army Training Evaluation Programs

(ARTEPs) being successfully accomplished, all units being rated satisfactory during their Annual Training exercises. Officer Educational Requirements and Enlisted Military Occupational Specialties Training have been maintained at a high level through attendance of personnel at Army Service Schools, Army Area Schools and the many available Specialized Courses of Instruction.

The Equal Opportunity Program for the Florida Army National Guard, Equal Employment Opportunity Program for Federal technicians and State employees, and the Social Actions Program for the Florida Air National Guard received continued emphasis during the year. Gains were recorded in the numbers of minorities and women assigned to the Army and Air National Guard. The total number of women and minorities employed as technicians in the Army and Air National Guard remained the same as the preceding period. A gain was recorded for minorities and women as State employees, while the total number of employees decreased slightly. Emphasis in the military programs is on upward mobility for enlisted personnel and increasing the number of minority officers in both the Army and Air National Guard. EEO program emphasis continues to be in the area of recruitment of minorities for full-time positions, either as technicians or as full-time military members.

During fiscal year 1979, the Florida Army National Guard reflected a net gain of 33 Personnel. As of 31 July 1979, Florida's reflected assigned strength was 100.9% of authorized and ranked number 2 of all states nationally in percentage of assigned strength as compared to authorized strength. The coming year will be a challenge for the Florida Army National Guard to attain and maintain its authorized strength. Additional incentives are needed to retain and attract personnel in the Florida Army National Guard.

During the fiscal year the Florida Air National Guard reorganized adding the 125th Resources Management Squadron which incorporated many functions previously assigned to Group Headquarters and the Combat Support Squadron. This reorganization was directed by the United States Air Force Air Staff to facilitate wartime tasking. The 125th Fighter Interceptor Group continues to maintain its high level of combat readiness with a personnel strength of 107%.

ORGANIZATION

The Florida Army National Guard realized several major changes to its force structure. Company C and Company D, 26th Aviation Battalion, were organized as a result of the 111th Aviation Company being inactivated. A Command and Control Headquarters was organized to administer and control all augmentations to Army Guard units. The 11th Air Traffic Control Platoon (ATC) was organized to support the Army Aviation Support Facility. Several units had to be relocated, the 164th ADA Detachment from St. Augustine to Camp Blanding, HHD and Co A, 3rd Battalion, 20th Special Forces Group from Jacksonville to Camp Blanding. Other Army National Guard units were reorganized under the Department of the Army Vertical Army Authorization Document System which resulted in minor changes to the unit's Modified Table of Organization and Equipment.

Headquarters, Florida Air National Guard experienced minor personnel changes during the reporting period. Command and control, staff assistance visits and exercise evaluations continue as primary activities. The State Air Headquarters is functioning very effectively after last years reorganization.

EMPLOYEES

There are 1,030 individuals, civilian and military, employed by or assigned to the Department of Military Affairs. These employees work either directly with the Headquarters, Department of Military Affairs or with National Guard units in the field, supporting approximately 10,000 Florida National Guard personnel. (Appendix II, Employee Allocation, Department of Military Affairs.) There are 134 Career Service personnel of the State of Florida, employed under the rules and regulations of the State Division of Personnel, 881 Federal technicians, authorized for employment under the rules and regulations of the U. S. Civil Service Commission by Public Law 90-486, and 15 active duty personnel assigned as Army and Air Force Advisors to the Florida National Guard. These employees are specialists in the field of administration,

finance, accounting, supply and maintenance. With the exception of a limited number of employees, personnel are required to be military members of the various organizations and units to which assigned. (Fiscal Data, Appendices VII and VIII.)

ARMORY BOARD, STATE OF FLORIDA

The Armory Board, State of Florida, established as provided by Section 250.40, Florida Statutes, and comprised of the Governor, the Adjutant General, the State Quartermaster, the General Officers of the Line, Group Commanders, and the Senior Air Commander of the active Florida National Guard, provides general supervision and control of real properties utilized by the Florida National Guard. This Board met during the year to consider plans for construction, alteration, rental, maintenance and management of National Guard armories, other facilities and real properties utilized by the Florida National Guard. The Armory Board is responsible for and controls forest management, mineral exploitation, game and fish propagation programs and the maintenance and improvement of the former Federal lands at Camp Blanding, with the approval of the U. S. Government. (A detail of the organization of the Armory Board is shown in Appendix V.)

The National Guard, as a joint effort of Federal, State and local governments, has taken its place as a major component in the defense of our National, State and local communities through this mutual support. The Armory Board reemphasized its policy, during the year, that National Guard armories be utilized by the citizenry of the community, to the fullest extent possible, where such use is not to the detriment of public interest and does not interfere with the primary use of armories for the housing and training of military units stationed therein. The Armory Board cooperated with other armed services, State agencies and organizations by providing facilities at Camp Blanding for use in training, rifle marksmanship, and instruction.

FACILITIES

State Arsenal

The State Arsenal is one of the older and more historic buildings in St. Augustine. It houses Headquarters for the Department of Military Affairs and the Florida National Guard. This four hundred year old facility was formerly the site of a Franciscan Monastery constructed in 1588. It was converted to a military barracks by the British in 1763; from 1783 to 1821 it was a Spanish garrison; and from 1821 to 1900, it served as a U.S. Army Post. In 1907 the Headquarters of the Department of Military Affairs and the Florida National Guard was established here. Normal repairs and maintenance are performed in such a manner as to preserve the historic features of the facilities, insofar as is feasible.

Armories

There are fifty National Guard armories, strategically located throughout the State, from Pensacola on the west, to Jacksonville on the northeast, to Fort Myers and Homestead on the south. (Locations and valuations are reflected in Appendix VI.)

A construction contract of a 600-Person Armory and 6-Bay Organizational Maintenance Shop at Miami was awarded for a cost of \$2,245,515 (\$1,554,419 Federal Funds and \$691,096 State Funds). Construction is approximately 25% complete.

The design of a new 600-Person Armed Forces Reserve Center and 2-Bay Organizational Maintenance Shop at West Palm Beach is approximately 90% complete. This new facility will be constructed on a new 20-acre site during fiscal year 1979-80 at an estimated cost of \$3,644,800 (\$3,171,600 Federal Funds and \$473,200 State Funds).

An Architect-Engineer contract was awarded during the year for the design of a new 200-Person Armory and Post Headquarters Building at Camp Blanding. This proposed facility will house eight (8)

units and detachments along with the Post Headquarters operations with an estimated cost of \$2,429,700 (\$1,372,500 Federal Funds and \$1,107,200 State Funds). Design is approximately 60% complete with proposed construction during fiscal year 1980-81.

Construction of a Division Logistics System Facility at the Tampa Armory was completed during the year. This facility, costing \$142,910 (100% Federal Funds), provides day to day logistics operations as well as a training vehicle for mission oriented units and personnel.

An update of the existing 75 Intrusion Detection Systems in Arms Vaults located in the National Guard facilities throughout the State, was completed.

In addition to the above major projects, fencing, paving, repair and renovation projects were accomplished at numerous armories throughout the State.

Air National Guard Base

The Florida Air National Guard Base, located at the Jacksonville International Airport, is the home of the Florida Air National Guard. The 158-acre complex consists of 25 buildings containing 316,235 square feet of floor space and over 130,876 square yards of pavements for a gross asset value of more than 6 million dollars. This past year, federal funds amounting to approximately \$935,200 were approved for operations, maintenance, repair and new construction. A major portion of this expenditure was allocated for equipment A/F 32A - 17A and T-8 to environmentally control noise pollution generated by the Air National Guard at the Jacksonville International Airport.

This complex consists of buildings which can be easily expanded should the need arise, and includes an independent emergency water supply, underground electrical distribution system, a central heating and air conditioning plant with underground lines, vehicle parking areas, a 78,201 square foot aircraft maintenance hangar, a base operations building, consolidated maintenance facility, a 260-person dining hall and a medical clinic. The facilities were designed to incorporate functional management for nearly any mission assignment.

Ranges

National Guard Rifle Ranges at Camp Blanding and Avon Park were continued in use during the year and in addition, the MacDill Air Force Base ranges, in Tampa, were utilized through an agreement with the Air Force. These ranges were used, not only by the Florida National Guard, but also by the regular and reserve forces.

CAMP BLANDING

General

The Armory Board maintains the Florida National Guard's 72,000 acre campsite located in Clay County. Included in this area are 40,000 acres, representing former Federal lands, deeded to the Armory Board by the Federal Government through Public Law 493, with stipulations that all the lands be maintained as a military reservation and that a Forest Management Program be conducted. The Armory Board realizes revenue from the forestry program and, also, from mineral exploitation occurring on these former Federal lands, all of which is utilized to defray operating expenses.

Utilization

The Camp Blanding Military Reservation is utilized extensively by units of the Florida National Guard in all phases of training, to include weekend Multiple Unit Training Assemblies (MUTA) and Annual Training (AT). During the fiscal year, the facilities were utilized some 40,676 man-days for Army National Guard MUTA's with an additional 613 being devoted to conduct of small arms competitive matches, sponsored by the National Guard and by Camp Blanding Rifle and Pistol Clubs. Man-days totaling

60,381 were devoted to AT exercises for elements of the Army National Guard of Florida, with an additional 64,281 man-days being devoted to AT by elements of other states' National Guard. Another 660 man-days were devoted to Federal Government organizations, while 13,673 man-days were devoted to State and local agencies.

The Camp Blanding Military Reservation is noted for its fine facilities and training areas conducive to the conduct of command post exercises, logistical exercises, specialized training and training conferences, as well as for its recently renovated and modernized firing ranges, which include 7.62MM, .30 and .45 Caliber small arms ranges, machine gun, rocket launcher, recoilless rifle, 81MM and 4.2" mortar ranges, subcaliber tank ranges, an aviation air assault range, a demolitions and explosives range, and an anti-aircraft artillery range. Camp Blanding is the home of the Florida National Guard Military Academy, consisting of the Officer Candidate School, the basic source of newly commissioned second lieutenants required for filling junior officer vacancies and the Non-commissioned Officer Academy which provides advanced leadership training for non-commissioned officers of the Florida Army National Guard. The camp is the home training site of the Special Forces elements of the Florida Army National Guard, with its fine jungle type training areas, drop zone and rappelling tower facility. Of utmost importance, is the Camp Blanding Army Airfield and its excellent service facilities, which are used extensively by Army Aviation units throughout the training year.

Warehouse storage facilities continue to be occupied by the Directorate of Supply and Services (USPFO) for receipt, storage and issue of Federal property and supplies, which are utilized by the units of the Florida Army National Guard. The Florida National Guard Combined Support Maintenance Shop (CSMS) continues to perform its important mission of maintenance of Federal equipment in support of units throughout the State. The Mobilization and Training Equipment Site (MATES) facility, adjacent to the CSMS, maintains vehicles and weapons used by units in training at Camp Blanding. Equipment consists of self-propelled, tracked, twin 40MM guns, various types of engineer heavy equipment, infantry recoilless rifles, mortars and wheeled vehicles.

The regular establishment, Army, Navy, Air Force and Marine Corps, as well as elements of their respective reserve forces, continue to utilize training areas and small arms ranges at Camp Blanding as part of their yearly programs. A total of 12,022 man-days were spent in training exercises by such elements during the last year.

The U. S. Atlantic Fleet, Fleet Air, Naval Air Station, Jacksonville continues to maintain its leased portion of the Reservation which they and the Air Force utilize for the training of pilots, to include carrier based personnel, in air-to-ground bombing and strafing and for the operation of their Radar Scoring Station.

Fiscal year usage of this outstanding training facility totaled 192,306 man-days.

Game Management

The agreement between the Armory Board and the Department of Natural Resources, whereby portions of Camp Blanding are opened to controlled public hunting and fishing, remains in effect. Controlled burning and grain planting has been most favorable in the production of game. Lake samplings indicated that fish stocked in certain lakes have done well in most instances.

Forest Management

The Armory Board continues to conduct a Forest Management Program at Camp Blanding. During the year, normal road maintenance throughout the Reservation was accomplished and additionally, new roads, with drainage structures, were constructed. Harvesting and replanting of timber continues in a balanced program under the supervision of a professional forester.

Mining Operations

E. I. duPont deNemours and Company continues to mine in a restricted area on the western edge of Camp Blanding, ilmenite being the principle mineral removed from the soil. DuPont, at their own expense, as an ecological project, has instituted a procedure whereby the top six inches of soil is stripped and stockpiled, prior to the mining operation. After mining, this top soil is redistributed, on the subsequent spoil area, thereby successfully stabilizing the spoil and improving the return of vegetation. Pine seedling plantings are now flourishing on this area.

Construction

The construction of a new Post, Camp or Station Warehouse Building to replace a similiar warehouse which burned totally in October 1977 was completed during the year. This facility was replaced utilizing Florida Fire Insurance Trust Fund at a cost of \$481,000.

A construction contract was completed for construction of 34 Vault Type Field Latrines in the various training areas and ranges. These latrines, costing \$94,450 (100% Federal Funds) will replace the existing open "pit" type latrines now in use.

An Architect-Engineer contract was awarded during the year for the rehabilitation of 7 Mess Halls at Camp Blanding. This project is estimated to cost approximately \$96,000 (100% Federal Funding) and design is approximately 15% complete.

STATE FUNDS

Appropriated Funds

Disbursement of General Revenue Funds are based on appropriations made by the Florida State Legislature and are reflected in Appendix VII.

Armory Board Trust Fund

This fund is utilized primarily as a revolving fund from which expenditures related to Intrusion Detection Systems supervision and inspections are reimbursed by the Army Service Contract.

Camp Blanding Management Trust Fund

This fund consists of revenues realized at Camp Blanding, principally from the sale of timber products and royalties received from the mining operation, and, by law, is expended exclusively for the operation and maintenance of Camp Blanding.

Community Funds

Florida law provides that counties and municipalities may provide financial or material support to the National Guard. A portion of the Military Code dealing with this subject is quoted below and Appendix X details that support received during fiscal year 1978-79.

250.40 Armory Board; Armories, How obtained --

(6) In order to provide for the cooperative support of the National Guard, and that armories may be provided which will furnish suitable training facilities and adequate storage accommodations for all arms, equipment and other military property, the armory board shall have authority to receive from counties, municipalities and other sources, donations of land and contributions of money to aid in providing, improving and maintaining an arsenal, armories, camp site, target ranges, and other facilities, throughout the state, and any property so donated, shall be held as other property for the use of the state and such counties and municipalities are hereby authorized and empowered to make such donations of lands by deed or long term leases and contributions of moneys for the purposes herein set forth, and to issue bonds

or certificates of indebtedness to provide funds for such purposes; * * * *

Service Contracts

The Federal Government and the Armory Board have cost-sharing contracts for the maintenance and operation of the physical plant of certain facilities of the Florida National Guard. The Army Service Contract, which supports the Arsenal Annex, portions of Camp Blanding, the Army Aviation Maintenance Shop and fifteen Organizational Maintenance Shops, provides for a Federal share of 75% and Armory Board share of 25%. The Air Service Contract, which supports the Air National Guard Base at Jacksonville, provides for a Federal share of 80% and Armory Board share of 20%. Annual training and weekend training activities of the Florida National Guard are 100% Federally funded.

Budgets

A recapitulation of budgeted State funds for the previous, current and next fiscal years is displayed at Appendix VII.

DATA PROCESSING

The Department of Military Affairs, like many other agencies, utilizes electronic data processing to aid in the accomplishment of its mission. The HRS Data Center serves State oriented requirements of this Department through a data center sub-unit located in the State Arsenal.

The Data Processing Center Activity of the United States Property and Fiscal Officer for Florida is the servicing facility for all Federal programs required by the Florida Army National Guard. These programs consist of accounting functions for Federal activities of logistics, financial accounting, military pay (JUMPS), and civilian technician payrolls. This Center also maintains data and prepares reports for Military Personnel Directorate; Plans, Operations and Training Directorate; Technician Personnel Office; Recruiting and Retention Office; Equal Employment Officer and the Maintenance Directorate.

The present computer tape system is being considered for replacement by new mini-computers. This conversion would bring the National Guard up-to-date in computer hardware. This system would be disk oriented and enable this Center to service activities of the Florida Army National Guard with programs that are more responsive to their need and provide Commanders with timely and concise information for improved control and utilization of Federal funds and equipment.

ADMINISTRATION

Administrative and staff services were provided to the Headquarters and the units of the Florida National Guard. These services included public affairs, records administration, mail management, distribution of Department of the Army publications, reproductions, awards and trophies, communications and security files.

RECORDS MANAGEMENT

The Department's Archives and Records Administration Program insures uniform procedures governing maintenance and disposition of records and the preserving of historical documents. Permanent records are microfilmed to reduce storage space.

COMMUNICATIONS

This Headquarters maintains a reliable communication system using the following means:

SUNCOM. A dedicated State of Florida long distance telephone network for governmental agencies which provides a nationwide direct dialing capability.

Commercial Telephone. The solid state, highly versatile touch tone telephone system installed

throughout the State Arsenal complex by Western Electric and Southern Bell Telephone and Telegraph Company with its many automatic features has materially improved communications efficiency within the Headquarters. This system also has a radio telephone patch capability that expands this versatility State-wide. The equipment and installation costs were supported jointly by Federal and State funds and will result in a 30% savings on monthly recurring costs.

Defense Communications Automatic Voice Switching Network (AUTOVON). A military worldwide general purpose dialing system providing the capability of immediate communication with other military installations.

Interim Remote Terminal (IRT) Telecommunications Link. A telecommunications center linked directly to an Automated Multi-Media Exchange (AMME). The AMME connects into the Automatic Digital Network (AUTODIN) which provides the Department of Military Affairs with the capability to transmit and receive narrative and card traffic from worldwide subscribers.

Landline Teletype. A teletype network providing the capability to transmit and receive written messages.

National Weather Service Teletype. A teletype network providing the capability to receive written messages on all weather conditions, (Severe, Hurricane Advisories) and local weather conditions throughout the State of Florida.

National Warning System (NAWAS). A voice circuit emanating from North American Air Defense Command (NORAD), Colorado Springs, Colorado, the objective of which is to establish, operate and maintain an effective nationwide warning system to alert governments and the public to the threat of extraordinary dangers. This system can also be used within the State for emergency operations and consists of over one hundred (100) extensions including the Governor's Office, Division of Disaster Preparedness, local civil preparedness agencies, police, sheriffs, and weather stations.

Command State Emergency Radio Net (COMSERN). A Florida National Guard radio net providing radio communication with Florida National Guard Task Force Headquarters strategically located throughout the State.

Commercial FM. A commercial FM (line-of-sight) system consisting of two (2) base stations and ten (10) handi-talkie radios. This system is used during emergencies for direct communications between the Adjutant General and key staff officers assigned as liaison to civil authorities and/or coordinating National Guard assistance throughout the emergency area.

Mobile Communication Center. The Headquarters has tailored a military expansible van into a mobile communication center to provide communications into disaster stricken and remote areas. Power for operation is supplied by two (2) gasoline generators mounted on a trailer. The center is equipped to operate on:

- Single Side Band (SSB) – 2 to 15 MHz
- Amplitude Modulation (AM) – 2 to 15 MHz
- Frequency Modulation (FM) – 30 to 75.95 MHz
- Air to Ground (AM) – 220 to 399.9 MHz
- Florida Highway Patrol Net

Florida Highway Patrol Radio Network. The Department also has the capability of entering the Florida Highway Patrol Radio Net with a base station located in St. Augustine.

PUBLIC AFFAIRS

The "Florida Guardsman" magazine, a four-page monthly insert in "The National Guardsman," is utilized to maintain a high level of morale and to promote esprit de corps. This magazine is subscribed to by Florida National Guardsmen.

An illustrated narrative briefing of the Florida National Guard continues to be an excellent method of furthering the understanding of civil authorities, civic organizations and other groups throughout the State of the organization, responsibilities and mission of the Department of Military Affairs.

The history of the State Arsenal and the Military Reservation dates back to the 16th century when it was the site of a Franciscan Monastery. In order to preserve and record this unique history a museum and archives is maintained. The museum is aptly located in the former monastery cells and endeavors to tell the story of the Florida National Guard and the militia from territorial days to the present. Historical documents and artifact contributed by Guardsmen, former Guardsmen and citizens have resulted in a collection of many historical items that would have otherwise become lost to posterity.

COMMUNITY SERVICES

The role the National Guard plays to the State and Nation during times of disaster and emergencies, both natural and man made and the service rendered by the Guardsmen to the citizens during these devastating occurrences are well known, little, however is said of community orientated activities of a non-military nature performed by the Guard. The armory facilities of the Florida National Guard are available for community functions and are extensively utilized by other governmental agencies; State, County and City. It is through this type of governmental cooperation that full utilization of facilities is accomplished. The armories' facilities; classrooms, drill hall, indoor rifle ranges and parking area, etc., provide excellent accommodations for conducting various activities. The armories are also available to civic and fraternal organizations for their activities. In addition a ninety-acre (90) tract at Camp Blanding, "Camp Neyati", has been made available to the Gateway Girl Scout Council, Incorporated, for camping and other activities of youth groups.

DECORATIONS

State

The Florida Cross—Awarded in the name of the Governor to the officer, warrant officer, or enlisted personnel of the Florida National Guard who distinguish themselves conspicuously by extraordinary heroism at the risk of his life, or by exceptionally outstanding meritorious service to the State or Federal government.

The Florida Service Medal was established by General Orders No. 10, 1929 and is awarded to members of the Florida National Guard who have served the Florida National Guard honorably, loyally and faithfully for a period of twenty or more years in an active status. The medal will normally be awarded upon retirement as a token of gratitude and as an expression of appreciation for faithful and self-sacrificing service to the Florida National Guard, State and Nation.

Twenty (20) medals were awarded during this period.

The Florida Commendation Medal was established by General Orders No. 1, 1973 and may be awarded to any member of the Florida National Guard who shall have distinguished himself by heroism, meritorious achievement or meritorious service. Award may be made to individuals not members of the Florida National Guard who distinguish themselves by an act of heroism, extraordinary achievement, or meritorious service which has been of benefit to the Florida National Guard.

On hundred and seventy-seven (177) medals were awarded during this period.

Federal

Meritorious Service Medal, authorized by the President of the United States by Executive Order, 16 January 1969, and awarded by the Adjutant General, State of Florida to active members of the Florida National Guard under the provisions of AR 672-5-1. This medal is awarded for outstanding meritorious achievement or service.

The Meritorious Service Medal was awarded for meritorious service during this period to the following individuals:

LTC Milton O. Jones	FLARNG	P O 61-1	13 Jul 78
COL Edwin P. Stewart	FLARNG	P O 71-2	4 Aug 78
LTC Herman E. Fugate	FLARNG	P O 94-1	13 Oct 78

Armed Forces Reserve Medal, authorized by Department of the Army, and awarded by the Adjutant General, State of Florida to active members of the Florida National Guard under the provisions of AR 672-5-1. This medal is awarded to officers, warrant officers and enlisted personnel who honorably and satisfactorily complete ten years service as a member of one or more of the Reserve Components of the Armed Forces of the United States. A ten-year device is authorized for each additional ten-year period.

Army Reserve Components Achievement Medal, established by Department of the Army General Orders No. 30, 29 June 1971. This medal is awarded for four years of honest and faithful service in a troop program unit of the Army National Guard.

Air Reserve Forces Meritorious Service Ribbon, authorized by Department of the Air Force, and awarded by the Adjutant General, State of Florida to enlisted personnel of the Florida Air National Guard under the provisions of AFM 900-3. This medal is awarded for four years of exemplary behavior, efficiency and fidelity.

AWARDS

The Active State Service Ribbon—Awarded to officers, warrant officers and enlisted personnel of the Florida National Guard who participate in a major tour of active state service in the aid of civil authorities.

The Florida Service Ribbon—Awarded to officers, warrant officers and enlisted personnel who complete five years of service in the Florida National Guard. A bronze cluster is authorized upon completion of each additional five year period.

The Florida National Guard Recruiting Ribbon—The Florida National Guard Recruiting Ribbon was established by Permanent Orders 53-2, 1977, and may be awarded to officers, warrant officers, and enlisted personnel of the Florida National Guard (Army and Air) who excel in the field of recruiting by securing five enlistments or appointments in the Florida National Guard.

The Meritorious Service Ribbon (formerly the Attendance Ribbon) was established by General Orders No. 1, 1973 and may be awarded to any member of the Florida National Guard who shall distinguish himself by meritorious achievement or meritorious service or to individuals not members of the Florida National Guard for meritorious service of benefit to the Florida National Guard.

UNIT CITATION

The Florida Governor's Meritorious Unit Citation—The Florida Governor's Meritorious Unit Citation was established by Permanent Orders 53-1, 1977, and will be awarded by the Adjutant General to all officers, warrant officers and enlisted personnel that are members of the unit adjudged the winner of the Governor's Trophy. Once awarded the unit citation, it may be worn by individuals upon reassignment to other units of the Florida National Guard. Personnel becoming members of the unit after the

date the unit is adjudged the winner of the Governor's Trophy are not authorized to wear the unit citation.

The winner of the Florida Governor's Meritorious Unit Citation during this period was:

Battery A, 1st Battalion, 116th FA

TROPHIES AND AWARDS

The Superior Unit Award—Awarded by the Chief, National Guard Bureau, to all Army National Guard units achieving a "Superior" unit rating for the previous training year. The following units of the Florida National Guard attained an overall rating of "Superior" for Calendar Year 1978.

Headquarters and Headquarters Detachment, FARNG
Company C, 3rd Battalion, 124th Infantry
Battery A, 1st Battalion, 116th FA

The Eisenhower Trophy—Awarded by the Chief, National Guard Bureau, to the Army National Guard unit in each State rated the most outstanding during the Calendar Year. The following designated Florida Army National Guard unit was presented the Eisenhower Trophy for Calendar Year 1978.

Headquarters and Headquarters Detachment, FARNG

The National Guard Florida Trophy—Awarded through the Chief, National Guard Bureau, by the National Board for the Promotion of Rifle Practice to the team attaining the highest figure of merit in each State. The following designated Florida Army National Guard unit was presented the National Guard Florida Trophy for Calendar Year 1978.

Battery A, 1st Battalion, 116th FA

Award for Efficiency in Maintenance—Awarded by the National Guard Bureau to the Army National Guard company-sized unit in each State during the fiscal year that achieves the best rating in those areas of the Command Maintenance Inspection that pertains directly to unit maintenance of issued equipment. The following designated Florida Army National Guard unit was presented the Award for Efficiency in Maintenance for Fiscal Year 1978.

Headquarters and Headquarters Detachment, 146th Signal Battalion

The Governor's Trophy—Awarded annually through the Adjutant General, State of Florida, to the most outstanding organization of the Florida Army National Guard. The following designated Florida Army National Guard unit was presented the Governor's Trophy for Calendar Year 1978.

Battery A, 1st Battalion, 116th FA

The Adjutant General's Trophy—Awarded annually to the most outstanding federally recognized organization in the Florida Army National Guard for efficiency in administration, supply and maintenance. The following designated Florida Army National Guard unit was presented the Adjutant General's Trophy for Calendar Year 1978.

Company C, 3rd Battalion, 124th Infantry

The Remington Trophy—Presented to the Florida National Guard by the citizens of Ilion, New York, commemorating the making of the first Remington rifle. Awarded annually to the organization of the Florida National Guard whose team obtains the highest figure of merit during the National Rifle Association Indoor Rifle Tournament. The following designated Florida Army National Guard unit was presented the Remington Trophy for Calendar Year 1978.

Troop E 153d Cavalry

The Wadsworth Trophy—Presented to the Florida National Guard by Major General Louie C. Wadsworth. Awarded to the unit attaining the highest rating for efficiency in maintenance of equipment. The following designated Florida Army National Guard unit was presented the Wadsworth Trophy for Fiscal Year 1978.

Headquarters and Headquarters Detachment, 146th Signal Battalion

The Chief's 50 Award—Awarded by the Director, Army National Guard, to the recruiter of each State who has caused the enlistment of the greatest number of personnel during the period of the contest. The following individual was awarded the Chief's 50 Award for Fiscal Year 1979.

MSG Robert C. Worrell, Jr., Headquarters and Headquarters Detachment, FARNG (FTRF)

The Outstanding Airman Trophy—Awarded annually by the Adjutant General, State of Florida, to the outstanding airman of the Florida Air National Guard. The following airman was awarded the Outstanding Airman Trophy for Calendar Year 1978.

SSG Joseph T. Melanson, 125th Combat Support Squadron

RIFLE AND PISTOL MARKSMANSHIP MATCHES

All National Guard Team

A limited number of National Guard rifle and pistol competitors representing the best shooters from all states are annually selected by National Guard Marksmanship Training Unit to compete in matches not normally supported at the State Team level. Selection for participation on this U. S. National Guard Shooting Team is an honor comparable to attaining All-American status in other shooting sports.

The All Guard Team represents the National Guard at such competition as National Championship Matches, International Olympic Tryouts, and Interservice Matches, as well as numerous other matches at regional level.

The Florida National Guard was afforded the honor of having SFC Sidney M. Mills, HHD, FARNG; MSGT Stanley F. Ferreira, 125th Combat Support Squadron; SSG Wallace H. Christie, 153d Engr Co, and SP4 Barbara C. Keller, HHC, 50th S&S Bn, selected as members of the All National Guard Rifle and Pistol Team for 1979 which participated in these matches.

All Army and All Air Force and Regional Matches

All Army and All Air Force Regional Rifle (7.62mm and 5.56mm) and Pistol Matches (Cal. 22, Cal. 38 and Cal. 45) are conducted by the Departments of the Army and Air Force, and fiscal support of State National Guard Teams is not provided. Regional and All National Guard Teams are selected from the states and territories, however, based on marksmanship ability achieved in Army Area and State level matches which are supported for competition at this level by the National Guard Bureau.

The Florida National Guard was afforded the distinct honor during 1979 of having three individual marksmen selected for participation at this level of competition. They were MSGT Stanley F. Ferreira, 125th Combat Support Squadron, FlaANG, an Air Force pistol competitor; SFC Sidney M. Mills, HHD, FARNG, St. Augustine, an Army rifle competitor, and SSG Wallace A. Christie, 153rd Engineer Co, Lake City, an Army rifle competitor. The National Guard teams participating at this level of competition were awarded a major portion of all individual and team awards in competition.

State Marksmanship Matches

The Taliaferro Trophy Match (5.56mm, M-16) is conducted each year at Camp Blanding, Florida under authority of the Adjutant General. The Taliaferro Trophy was presented to the Militia of Florida in 1903 by the Honorable James B. Taliaferro, then United States Senator from Florida. It is awarded

annually for unit rifle marksmanship competition. Winners of competition for 1978 were:

Winner – 631st Maint Co, Starke
2nd Place – 153rd Engr Co, Lake City
3rd Place – 631st Maint Co, Starke

The Individual Rifle Championship Trophy (5.56mm, M-16) is fired concurrently with the Taliaferro Trophy Match. The Individual Rifle Championship Trophy, presented to the Florida National Guard by Brigadier General Robert G. White, then Assistant Adjutant General in 1959, is awarded to the individual achieving the highest record score during the Individual Rifle Championship Match. Winners for 1978 were:

Winner – SSG Terry F. Hardee, 631st Maint Co, Starke
2nd Place – SP4 Steve Varnum, 631st Maint Co, Starke
3rd Place – MSG Gene A. Johnson, CAC, St. Augustine

The I. Thord-Gray Trophy Match (Cal. 45) is conducted each year at Camp Blanding, Florida under authority of the Adjutant General. The I. Thord-Gray Trophy was presented to the Florida National Guard in 1930 by Major General I. Thord-Gray, retired British Army Officer, and was awarded for unit team marksmanship (carbine) competition until 1965. The trophy has been placed in pistol team competition as a result of the removal of the carbine from military inventory in 1966. Winners for 1978 are as follows:

Winner – Co A (-) 2/124th Inf, Clearwater
2nd Place – HHD, FARNG, St. Augustine
3rd Place – Co A (-) 2/124th Inf, Clearwater

The Mark W. Lance Trophy (Individual Pistol Championship Cal. 45) Match is fired concurrently each year with the I. Thord-Gray Trophy Match at Camp Blanding, Florida under the authority of the Adjutant General. The Mark W. Lance Trophy, presented to the Florida National Guard in 1967 by the Camp Blanding Rifle and Pistol Club in memory of former Adjutant General, Major General Mark W. Lance, is presented annually to the individual achieving the highest record score in pistol match competition. Winners for 1978 are as follows:

Winner – SSG Rogers B. Holmes, 125th FIGp, Jacksonville
2nd Place – MSGT Stanley F. Ferreira, 125th FIGp, Jacksonville
3rd Place – TSGT Buddy Henson, 125th FIGp, Jacksonville

All National Guard Rifle and Pistol Matches

All National Guard Rifle and Pistol Matches are conducted annually by the National Guard Bureau to promote marksmanship and provide a significant year-end goal of high level competition among the states. The first such match was conducted at Camp Robinson, Little Rock, Arkansas in September 1973, and are held in honor of Major General Winston P. Wilson who accomplished so much for the marksmanship program of the National Guard during his tenure as Chief of the National Guard Bureau.

Florida National Guard Rifle and Pistol Team again participated in these matches in 1978. SFC James A. Livingston, Spt Co, 2/124th Inf, Eustis, distinguished himself and the Florida National Guard Team by placing first, Expert Class, in the Center Fire Pistol Championship Match. SSG Wallace H. Christie, 153d Engr Co, Lake City, was awarded the Excellence in Competition (Leg) Medal toward a Distinguished Rifleman's Badge.

Chief, National Guard Bureau Annual Rifle and Pistol Tournaments

The Chief, National Guard Bureau Rifle and Pistol Tournaments (Cal. 22) are conducted annually by the National Rifle Association in cooperation with the National Guard Bureau to determine National, Army Area, and State winners. Florida National Guard individuals and teams placed during fiscal year

1979 as shown below:

Unit Team CNGB Rifle Match:	Company B (-), 1st Bn, 124th Inf West Palm Beach, FL State Winner
Unit Team CNGB Pistol Match:	Company B (-), 1st Bn, 124th Inf West Palm Beach, FL State Winner
Individual CNGB Pistol Match:	MSG Stanley F. Ferreira 125th Resource Mgmt Sqd Jacksonville, FL State Winner

National Rifle Association Indoor Rifle Tournament

The National Rifle Association Indoor Rifle Tournament is conducted annually under sponsorship of the Adjutant General per authority of Chief, National Guard Bureau. The tournament is conducted in two phases. Phase I is Postal/Shoulder Matches between teams of each of the three leagues. League winners fire a Postal Match to determine the State Champion. The composition of a unit team consists of two unit Guardspersons and two junior members under 18 years of age. Guard membership is not a requirement for a junior member. Results for fiscal year 1979 are as follows:

Team Competition:	Troop E, 153d Cav, Ocala, FL State Winner
	631st Maint Co, Starke, FL Second Place

SERVICE RECORDS

The Department has custody of available records of the soldiers of Florida. These records include Muster Rolls of the Indian Wars of 1835, Muster Rolls of the Florida Militia and Florida National Guard since 1835, and Rolls of the Florida troops mustered into the Confederate Forces and Union Forces in the War Between the States (Civil War), the Spanish American War, the Mexican Border Incident, World War I, World War II, the Korean Conflict and the Berlin Crisis. A card record is maintained for each individual, who entered World War I, from the State of Florida, whether by enlistment, induction through Selective Service or induction with the Florida National Guard. In addition, an individual file folder, containing copies of all pertinent orders and personnel documents is retained for each individual who has been a member of the Florida National Guard (Army and Air). The individual folders for current members are separated from the folders of former members and are maintained current at all times. These records occupy approximately 1,750 feet of shelf filing space.

The vault storage area for these records has reached maximum capacity and a project is underway to reduce the records of all former members to microfiche. The project will be accomplished in 3 to 4 phases by a civilian firm over a period of 3 to 4 years as determined by fund allocations on a fiscal year basis. The project is scheduled to begin in July of 1979 with completion of phases 1 and 2 in November 1979.

Request for Statements of Service and information generally fall into two broad categories. The majority of requests in the first category are for documentary evidence to establish eligibility for some type of benefit such as Federal or State military retirement benefits; birth date and/or active Federal service for Social Security benefits; increased military longevity pay for former service; burial in a National Cemetery or government furnished grave marker; or hospitalization or other financial benefits through the Veterans Administration. The second category pertains to requests in the interest of genealogy or history and, for the most part, are applicable to records prior to 1900. The number of Statements of Service furnished during the period of this report was 308 of which 55 were for advanced certification of completion of

20 years of active service which would entitle the individual to Federal retired pay for military service upon attaining age 60. This requirement was instituted to eliminate errors and misinformation which previously would not appear until individual reached age 60 at which time he would discover that some of his service did not meet this criteria and it was too late to perform additional service to meet the requirements for Federal retired pay.

MILITARY SUPPORT TO CIVIL AUTHORITY

General

The Adjutant General has both State and Federal responsibilities in providing support to civil authorities. The State responsibility involves providing troops (National Guard) to assist civil authorities in major emergencies when authorized by the Governor. On the Federal side the Adjutant General is responsible for the preattack planning and postattack operations of all military forces (Army, Navy, Air Force and their reserve components) to support civil defense (civil authority) within the State of Florida in event of a nuclear attack against this nation.

Planning and Coordination

The responsibility for planning, coordination and conduct of operations in support of civil authorities is centered in the Directorate of Plans, Operations and Training. Liaison is maintained with law enforcement agencies and the Bureau of Disaster Preparedness within the State and with Federal agencies and military commands as appropriate. National Guard troop units are organized into task forces to provide a rapid response to locations within a specific area in proximity to the units' home stations. Liaison is maintained with civil authorities in their area of responsibility by these task forces.

Operations

The Department of Military Affairs goes into an increased readiness status immediately upon threat of civil disturbance, natural disaster, or similar emergency that may require use of National Guard troops. Measures taken include a telephone alert of key personnel, contact with local authorities and appropriate State agencies, and review of capabilities of troop units in the emergency area. As the situation develops to a more serious threat additional actions are taken to man the EOC (Emergency Operations Center), dispatch liaison officers to area, alert troop units and send additional equipment and communications as deemed necessary.

Active State Duty

Under the provisions of Chapter 250, Florida Statutes, troops of the Florida National Guard were called to Active State Duty to assist civil authorities during fiscal year 1979 as follows:

24 - 25 October 1978 - Train Derailment - Lake City, FL

A train derailment at Lake City caused a tank car loaded with LP gas to overturn. Fifty (50) officers and enlisted personnel were on duty for a period of two (2) days to assist local authorities in securing the derailment area.

3 - 4 March 1979 - Flood - Escambia County, FL

A total of seventeen (17) inches of rain was recorded in the greater Pensacola area and caused widespread flooding. Thirty-five officers and enlisted personnel were on duty for three (3) days to assist local authorities in evacuating residents and move supplies through high waters.

8 - 9 April 1979 - Train Derailment - Crestview, FL

Sixty-three (63) rail cars of the L & N Railroad were derailed west of the town of Crestview. Among the derailed cars were several containing propane gas, alcohol and toxic chemicals. Forty-seven (47)

officers and enlisted personnel were on duty two (2) days to assist local authorities in establishing road-blocks and evacuating residents from the immediate area.

8 - 9 May 1979 - Tornado - Polk County, FL

A tornado touched down near Auburndale in Sun Acres. One hundred forty-two (142) officers and enlisted personnel were on duty two (2) days assisting local authorities establish security and prevent looting and pilfering.

24 - 25 May 1979 - Contaminated Water Supply - Eustis, FL

Local health authorities feared possible contamination of city water supply when the water pressure in the City of Eustis dropped to zero. An emergency arose at the Oakwood Convalescent Center due to the lack of sufficient drinking water. Four (4) enlisted personnel were on duty for two (2) days providing assistance in delivering fresh water to the center.

21 - 29 June 1979 - Fuel Crisis - Fort Lauderdale-Tampa, FL

Independent trucker strike resulted in the supply of fuel to local service stations in the Fort Lauderdale and Tampa areas to come to a halt, creating an emergency situation. Eleven hundred (1100) officers and enlisted personnel were on duty nine (9) days to assist local authorities in delivering fuel throughout the areas and providing security for civilian drivers upon request.

Other

Several times during the year assistance was provided in a non-pay status to assist small communities and institutions. These consisted primarily of loaning and moving equipment such as water trailers to needed locations until normal services could be restored.

FLORIDA NATIONAL GUARD MILITARY ACADEMY (FNGMA)

On 1 September 1975 the Florida National Guard Officer Candidate School was reorganized and redesignated as Florida National Guard Military Academy and assigned the mission of conducting both an Officer Candidate School and Noncommissioned Officer School.

The Academy is operated by a sixteen-person section consisting of nine officers, one warrant officer, and six enlisted personnel. During the Annual Training period, the section is augmented with additional instructor and support personnel, to a desired strength of forty officers/warrant officers and one hundred twenty enlisted personnel. The Academy is accredited by the Department of the Army and is evaluated yearly by representatives of the Commanding General, First United States Army, to determine manner of performance. The Academy has received very high ratings on each evaluation and is considered one of the best in the nation.

Officer Candidate School

The Florida National Guard Military Academy Officer Candidate School was originally established in March 1961 by the Adjutant General of Florida. The mission of the school is to provide effective instruction for Officer Candidates that will qualify them in the military educational requirements for appointment as second lieutenants, and to develop maximum leadership and command ability in the candidates.

Class No. 18 completed their twelve months of training and were graduated and commissioned 20 May 1979.

Class No. 19 began their training on 19 May 1979 and completed Phase I 3 June 1979. They will continue into a seventeen (17) day Phase II, 6-22 July 1979, twelve (12) weekend training assemblies during the fall, winter and spring (Phase III) and a minimum four-week branch resident qualification

course (Phase IV). Class No. 19 will graduate and be commissioned at completion of Phase III and attend Phase IV in an officer status within twelve months of commissioning. The program consists of a minimum of 576 hours.

The Programs of Instruction taught are developed and monitored by the United States Army Infantry School, Fort Benning, Georgia, in coordination with Chief, National Guard Bureau, and closely parallels the resident Infantry Officer Candidate School. All examinations are graded by the Infantry School. Methods of leadership development include rigid discipline, high standards of deportment and conduct, and exacting manner of performance, frequent and effective counseling, and continuous observation, correction and evaluation. The Florida National Guard Military Academy Officer Candidate School is the primary source of junior officer procurement for the Florida Army National Guard. At present 50% of all company grade officers in the Florida Army National Guard are graduates of the school. In recent years personnel of the United States Army Reserve have been admitted to the school, and upon graduation, are appointed second lieutenants in that component. Numbers of candidates attending the Florida National Guard Military Academy Officer Candidate School, and graduates by year, are as shown below:

CLASS	ENROLLED	GRADUATED	YEAR GRADUATED
1	49	24	1962
2	79	45	1963
3	118	61	1964
4	89	53	1965
5	127	79	1966
6	126	69	1967
7	96	54	1968
8	51	26	1969
9	53	21	1970
10	53	30	1971
11	57	46	1972
12	51	30	1973
13	50	30	1974
14	49	21	1975
15	53	17	1976
16	49	24	1977
17	90	49	1978
18	63	33	1979
19	66	—	—

Noncommissioned Officer School

The Florida National Guard Military Academy Noncommissioned Officer School was established 1 September 1975. The mission of the school is to develop leadership and professional military skills in selected junior personnel in grades E-4 and E-5 to qualify them as noncommissioned officers.

The Program of Instruction consists of 113 hours of academic and leadership instruction and is conducted yearly during the Academy's seventeen (17) day Annual Training in July. Class No. 1 graduated with 51 students, 25 July 1976. Class No. 2 graduated with 46 students, 24 July 1977. Class No. 3 graduated with 65 students, 23 July 1978.

EQUAL OPPORTUNITY (EO), EQUAL EMPLOYMENT OPPORTUNITY (EEO), AND SOCIAL ACTIONS (SL)

Current status in the various programs is reflected in the following statistics:

Military EO Program

	Minorities	Women	Total Military Force
ARNG	2694/29.5%	415/4.5%	9116/100%
ANG	112/11.6%	66/6.8%	960/100%

The percentages of minorities and women increased in the ARNG, while overall strength also increased. There were no significant changes in percentages of minorities and women in the ANG.

Technician EEO Program

	Minorities	Women	Total Technicians
ARNG	53/9.9%	52/9.7%	533/100%
ANG	15/4.6%	22/6.7%	326/100%

Total number of minority technicians remained the same and a loss of two female technicians is reflected during the period in the ARNG. In the ANG, the number of minority technicians remained the same, and a gain of three female technicians was achieved. Overall, the total number of technicians declined during the period.

State Employee EEO Program
Department of Military Affairs

Minorities	Women	Total Employees
37/28.6%	44/34.1%	129/100%

A gain of four minority employees and three women was recorded during the period. Total employees decreased by five over the preceding period.

Minorities and women in the military, technician, and state employee programs are for the most part in lower level positions. Emphasis in the military programs is on upward mobility for qualified personnel and increasing the number of minority officers in both the Army and Air National Guard. Some improvement has been made in the number of minority officers in the Army and Air National Guard. EEO program emphasis continues to be in the area of recruitment of minorities for full-time positions, whether as technicians or as full-time military members.

Thirteen of the twenty-two personnel occupying EO or SL duty positions have received formal training in their assigned duties. No changes were made to ARNG EO sections as authorized by MTOE/MTDA. A total of five EO sections are authorized throughout the state. The ANG is authorized one Social Actions section.

Twenty-four EEO Counselors are appointed and trained. All but two counselors have received training in advanced counseling techniques. Counseling activity was nil during the period, and no EEO complaints were received.

ARMY NATIONAL GUARD

The Florida Army National Guard entered fiscal year 1979 with an authorized strength of 8,589 personnel. During the fiscal year the authorized strength has increased to a current authorization of 9,018 personnel as a result of several minor reorganizations.

The strength at the beginning of fiscal year 1979 was 9,084 and Florida was at 102% of authorized strength. As of 30 June 1979, Florida's strength was at 9,100 for 100.9% of fill, ranking nationally number 2 of all states in percentage of assigned strength compared to authorized strength.

Source of officer procurement consisted of one third furnished through the State OCS program and the remaining two thirds from officers returning from active duty and transfers from out of state National Guard and reserve units.

RESERVE OFFICER PERSONNEL ACT (ROPA) 1954

The Reserve Officer Personnel Act (ROPA) continues to prescribe policy, guidance, and procedures for consideration, selection, and promotion of Army National Guard commissioned officers not otherwise selected for unit vacancy promotion within their respective state.

During the fiscal year 1979 period, 86 officers were considered for mandatory promotion by the respective Department of Army Selection Board with 57 being selected. This represents an overall selection rate of 66%. The statistical analysis of selection by grade is as follows:

	LT to CPT	CPT to MAJ	MAJ to LTC
Recommended	17 (65%)	26 (16%)	14 (82%)
Not Recommended (1st Pass Over)	9	15	2
Not Recommended (2nd Pass Over)	<u>0</u>	<u>2</u>	<u>1</u>
TOTALS	26	43	17

A majority of the officers selected by the board for mandatory promotion elect to decline their promotion for the authorized period as sufficient position vacancies are not available for immediate promotion. Further, some officers must accept discharge from the Florida National Guard with concurrent transfer to the non-unit USAR for mandatory promotion for the same reason.

FLORIDA ARMY NATIONAL GUARD OFFICER SELECTION BOARDS

State Selection Boards were established in Florida in 1963 as a positive method of implementing a career development program for officer personnel. The Boards convene as necessary to fill Major, Lieutenant Colonel, Colonel, and certain General Officer position vacancies. It is also charged with the responsibility of recommending to the Adjutant General, reassignments of battalion commanders, changes in field grade staff assignments, and acceptance of declination of ROPA promotions to Colonels.

The Senior Officer Selection Board, composed of the Assistant Adjutant General and the two General Officer Commanders, met one time during fiscal year 1979 recommending promotion of 4 Lieutenant Colonels to Colonel, reassignment of 2 Colonels, reassignment of 6 Lieutenant Colonels and acceptance of 17 declinations of promotion to Colonel under ROPA provisions.

The Field Grade Selection Board, composed of the Assistant Adjutant General, General Officer Commanders, and Group Commanders, met two times during this period, recommending to the Adjutant General promotion of 6 Majors to Lieutenant Colonel, 13 Captains to Major, and reassignment of 29 Field Grade officers.

SELECTIVE RETENTION

A Selective Retention Program was implemented by the National Guard on 1 July 1969. NGR 635-

102 prescribes the procedures and policies for conduct of the Selective Retention Board. The Selective Retention Board, conducted during the first half of each calendar year considers officers and warrant officers with 20 or more qualifying years of service for retired pay. Originally, the Regulation required individuals to be considered every year following completion of the 20 qualifying years of service. However, beginning with the Board in 1974, the Regulation was changed to provide that the Board would be convened annually but individuals would be considered every other year instead of every year unless the Board recommended annual consideration for a specific officer. This substantially reduced the number of individuals reviewed by the Board each year. Factors considered by the Board include demonstrated performance, physical fitness, civilian and military education, previous assignments, and potential for future staff and command assignments.

Since inception of the Selective Retention Board in July 1969, ten Boards have been held. Results of these boards since 1974 are as follows:

	<u>1974</u>	<u>1975</u>	<u>1976</u>	<u>1977</u>	<u>1978</u>	<u>1979</u>
Total Considered	86	96	100	100	106	88
Recommended	84	94	98	99	106	88
Not Recommended	2	2	2	1	0	0

ENLISTED QUALITATIVE RETENTION BOARD

The Enlisted Qualitative Retention Board as implemented by AR 135-205 convenes during the period October-December each year. The records of all enlisted personnel who have 20 qualifying years of service, without regard to Expiration of Term of Service or grade, are reviewed every two years except when the convening authority determines that an annual review is necessary.

The Board, composed of 3 Field Grade Officers and 2 Command Sergeant Majors, recommend to the Adjutant General, those individuals who have future potential benefits to the Army National Guard based on demonstrated performance as attested to by Efficiency Reports, a review of all Military Personnel Records, Medical Records, and physical fitness.

Since inception of the Qualitative Retention Board in June of 1974, five Boards have been held with the following results:

	<u>1974</u>	<u>1975</u>	<u>1976</u>	<u>1977</u>	<u>1978</u>	<u>1979</u>
Total Considered	203	247	252	252	210	To be
Recommended	203	242	225	246	190	convened
Not Recommended	0	5	27	6	20	20 Oct 79

An Appeal procedure was provided for by the Regulation beginning with the 1976 Board. Of the 20 not recommended for retention by the 1978 Board, 10 appealed with 8 appeals being sustained and 2 appeals denied by the National Guard Bureau.

ARMY NATIONAL GUARD TRAINING

Training of the Florida Army National Guard is based on criteria prescribed by the Department of the Army, in coordination with the National Guard Bureau. The Commanding General, First United States Army is charged with the responsibility of coordination, support and supervision of prescribed training. Standards for training are established by Department of the Army and unit performance is evaluated on a continual basis by active Army personnel. There are three phases of training:

Basic Combat Training and Advanced Individual Training for development of basic skills and techniques, culminating in the assignment of Military Occupational Specialties (MOS) to individuals

commensurate with the type of training received and which denotes qualification to perform the duties of a particular job assignment.

Unit Training is conducted by units of the Florida Army National Guard. This training is designed to produce units qualified to perform assigned missions prescribed in applicable organizational authorization documents and to maintain the level of readiness required to support operational or contingency missions. Unit Training consists of the following: Formal unit training which prepares a unit to perform its mission as stated in applicable organizational authorization documents. Various levels of formal unit training are culminated by the administration of an Army Training Evaluation as soon after completion of the levels as possible. Formal unit training consists of training of skilled individuals designed to develop squads, crews, sections, detachments, platoons, or companies capable of successfully accomplishing the unit mission, conducted in a progressive manner, culminating at the level prescribed by the appropriate unit Army Training and Evaluation Program (ARTEP). Upon completion of the various levels of training, proficiency tests are administered to evaluate individual and unit performance. Upon successful completion of all levels of training, the unit should have demonstrated satisfactory standards of performance and be fully capable of undertaking combat operations.

Field exercises are conducted in the field under simulated combat conditions (in which personnel and equipment of one force are actually present, while those of the opposing force may be real or imaginary). Field exercises are training vehicles that may be squad through brigade in size. They are mission oriented and designed to prepare participating units for identifiable missions. Field exercises are conducted, as appropriate, during all levels of unit training.

The objective of Army National Guard training is to attain the highest levels of individual and unit proficiency that are achievable in a premobilization status. Individuals in the National Guard receive the training necessary to teach them basic military skills and the special skills required to perform effectively the duties of their assigned positions. Operational readiness is the primary requirement of the individual and units of the National Guard. Units and individuals must be ready to mobilize and undertake accomplishment of the mission specified by the TOE/TDA. The minimum standard for Army National Guard units is the attainment and maintenance of company or comparable level proficiency. This is defined as completion of the appropriate unit training program and proficiency verified by successful completion of an applicable Army Training Evaluation, with 85 percent or more of unit members participating. During Training Year 78-79 all units having assigned Army Training Evaluations accomplished same in a most satisfactory manner; resulting in Active Army Evaluators evaluating the units as being in a training readiness condition equal to most Active Army Units.

INITIAL ACTIVE DUTY FOR TRAINING PROGRAM

The Reserve Enlisted Program of 1963 (REP-63) (Requirement for Initial Active Duty Training for non-prior service personnel) continued during the period of the report.

The Split Training Option, which was initiated in June 1978 on a pilot program basis, continued during the period of this report. As of 30 June 1979, one hundred thirty-one (131) enlisted persons are participating in this program.

The nationwide time-sharing computer service, using a national telecommunications network with remote terminals capable of simultaneously accessing a common data bank containing the annual training base continues to be utilized in securing a training space for non-prior service individuals.

Sufficient quotas have been obtained from Department of the Army to preclude any backlog from occurring during the year. Except for unusual circumstances, non-prior service enlistees enter their initial active duty for training within 30 to 180 days after enlistment.

A total of 1,195 trainees entered initial active duty for training during this period with 838 completing their training and returning to their National Guard unit.

SCHOOL PROGRAM

The Army National Guard Schools Program provides the main vehicle for the branch and technical training of Officer and Enlisted Personnel of the Florida Army National Guard, whereby they are afforded the opportunity to qualify themselves to fill their unit MTOE/MTDA assignments and receive advanced training in critical Military Occupational Specialties. It is through the media of the Schools Program, which is supported by Federal funds, that Officer and Enlisted Personnel complete their training in their chosen fields and are able to maintain proficiency in the areas of Combat Arms, Technical and Administrative fields.

During the fiscal year, Officers and Enlisted Personnel participated in the Schools Program as outlined below:

	TY-79	
	<u>Officers</u>	<u>Enlisted</u>
Army Service Schools	78	81
Army Area Schools	20	9
Military Occupational Specialty Courses	23	230
Specialized and Refresher Courses	<u>158</u>	<u>20</u>
	279	340

ENLISTED EVALUATION SYSTEM

During the period of this report, the implementation of Skill Qualification Test (SQT) slowed considerably due to a number of administrative problems inherent in the program. No units have taken the test for record as of this date and presently, none are scheduled until October of 1980.

The Enlisted Evaluation Report (EER) and the Senior Enlisted Evaluation Report (SEER) continues to be utilized in lieu of current test scores for reassignment, transfer, and promotion of enlisted personnel.

RETENTION AND RECRUITING

During the period 1 October 1978 through 30 June 1979, the Florida Army National Guard reflected a small gain of 33 personnel. During this period 1880 new enlistments were produced, of which 48% were non-prior service and 52% were prior service personnel.

Florida's retention rate is 78% for this period which is above the national average, however, the losses for other reasons than ETS is the real problem facing the Florida Army National Guard at this time. Efforts are being made at the unit level to abate this problem.

Florida continued to gain strength in the area of black personnel. As of 30 June 1979, there were approximately 2,325 black personnel on board, which is 25.5% of the total assigned strength. Women strength suffered a slight loss of 12 personnel with a total of 415 women assigned 30 June 1979.

Florida is currently at a strength of 9100 personnel for a 100.9% fill rate and ranks number 2 of all states nationally in percentage of assigned strength as compared with authorized strength.

Florida will continue to vigorously exercise its retention and recruiting program to insure 100% fill during the coming year.

FEDERAL FUNDS AND EQUIPMENT

The United States Property and Fiscal Officer (USPFO) for Florida is charged with the responsibility as pertains to comptroller matters, purchasing and contracting, transportation, supply and logistics, and maintenance of Federal property. He is assisted by a technician work force to maintain these accountable

records. The USPFO mission is to assist, with the necessary administrative and logistical support, those units of the Florida Army and Air National Guard when they are mobilized for Federal active duty.

The Florida Army National Guard continues to be better equipped than in previous years. This is due primarily to the receipt of more modern equipment and the additional funding being made available to the State of Florida by the Federal Government.

The National Guard now fills a major role in future national crises. This policy by the Secretary of Defense insures that additional equipment, more modernized equipment and additional funds will be made available to the National Guard for the support of this increased national defense role. In keeping with this policy the Federal Government has furnished the following new items of major equipment during the period 1 July 1978 through 30 June 1979.

2 Repeater Telephones	1 Aircraft Armament System
1 Central Office TTW-1	7 Trailers
30 Generator Sets	20 Truck Cargo 1¼ Ton
1 Test Set	9 Teletypewriters
94 Machine Guns	33 Pistols
25 Truck Utility	68 Rifles
2 Fork Lifts	8 Cameras
188 Radios	69 Rifle Recoilless
30 Tool Sets	5 Repeater Sets TRC-111
2 Semitrailers	81 Launcher Rocket 2.75
8 Truck Dump	19 Aircraft
1 Loader Scoop	2 Tractors Full Track
1 Truck Tractor	1 Carrier Cargo
5 Boat Recon	4 Truck Van Shop

There were 557 full-time Federal employees paid from Federal funds as of 30 June 1979. Federal funds, during the period 1 July 1978 through 30 June 1979, expended in direct support of the Florida Army National Guard, totaled \$31,777,290.04. At the close of 30 June 1979, the value of Army equipment on hand in the State totaled \$97,360,621.41. This is an increase of 5 million dollars from 1978 (Appendix VIII, breakout of expenditures of Federal funds).

INTER-SERVICE AGREEMENT

All Active and Reserve Forces, which include the National Guard, currently operate under a policy whereby one service may support another on a reimbursable basis. This policy reduces duplication of effort, gives a faster response to requirements and effects an overall savings to the Federal Government and ultimately to the taxpayer. The Florida National Guard receives subsistence from the active services installations throughout the State of Florida, and we are thereby able to subsist our troops in a better manner and at a reduced cost over the purchase of this subsistence from commercial sources. Conversely, the Florida National Guard supports the active and other reserve forces by furnishing supplies and services on a reimbursable basis.

MAINTENANCE OF FEDERAL PROPERTY (SURFACE)

The maintenance program for the State of Florida Army National Guard for fiscal year 1979 was published in Florida National Guard Circular 750-1, dated 9 July 1979. This program provided overall guidance for performance of maintenance at all echelons. The Director of Maintenance assisted the Adjutant General in carrying out his program.

Florida National Guard Circular 750-1 amplifies the accomplishment of maintenance at the lowest echelon possible, with primary emphasis being placed at the organizational level. Individual unit organizational capabilities are augmented by fourteen Organizational Maintenance Shops located throughout

Florida, staffed by highly qualified National Guard Maintenance Technicians. The Organizational Maintenance Shops are augmented by the Combined Support Maintenance Shop, located at Camp Blanding, Florida, which provides both Direct and General Support Maintenance for all Florida Army National Guard organizations. Support maintenance for all major commodities, except Aviation and Medical, is provided by the Combined Support Maintenance Shop. Camp Blanding is also the location of the Mobilization and Training Equipment Site (MATES), where a wide variety of unit equipment is stored and maintained so as to provide available training assets for units that attend Annual Training and Inactive Duty Training at Florida's principal Training Site. The Direct Support capabilities of Florida's Maintenance Directorate is augmented by two ordnance units, 631st Maintenance Company, Starke, Florida, and Company D 53rd Support Battalion, Tampa, Florida. These two units provide immeasurable assistance in the Direct Support effort during Annual Training and Inactive Duty Training.

Maintenance Funding (Repair Parts) requirements for fiscal year 1979 were \$1,217,244.00, of which \$708,600.00 was funded, or 58.2% of requirement. Even with this curtailment of required funding, prudent allocation resulted in a high percentage of Operationally Ready Vehicles and Equipment.

Manpower requirements for full-time technician mechanics were established at 256 personnel of which 182, or 71% of established requirements, were supported. The balance of the maintenance workload was performed by TOE unit maintenance personnel during Inactive Duty Training or Annual Training periods. Overall, the fiscal year 1979 Maintenance Program was accomplished in an outstanding manner.

ARMY AVIATION

The Army Aviation Support Facility Command (AASFC) is responsible to the Adjutant General for the supervision of aviation unit training, individual aviator/crewmember training, administration and logistics. In order to accomplish the desired level of training and proficiency, the AASFC employs 67 technicians in various positions within the command structure. Two of these technicians are employed under the Full Time Training Duty (FTTD) program.

ARCSA III (Aviation Requirements for the Combat Structure of the Army) is the acronym describing the community study to determine the aviation requirement to equip the Active Army and Reserve Components to fight in a high threat air defense environment from 1977 to 1986.

TRADOC (Training and Doctrine Command) was tasked by Headquarters, Department of the Army, in 1976 to perform this study, and on 15 February 1977 the completed ARCSA III package was briefed to the U. S. Army Chief of Staff who approved it for implementation.

Under this plan, changes to Table of Organization and Equipment were made to reallocate aircraft from support to combat roles, to optimize combat effectiveness, to reduce the number of small units, and to better utilize available aviation personnel.

Effective 1 September 1978, aviation elements of the Florida Army National Guard were reorganized to three major elements: the Aviation Section, 53rd Infantry Brigade (Sep); Company C, 26th Aviation Battalion (Combat Support) (redesignated from the 111th Aviation Company minus the armed helicopter platoon); and Company D, 26th Aviation Battalion (Attack Helicopter), a new attack helicopter company gained by the State of Florida. This new company was formed initially from the Armed Helicopter Platoon lost in the redesignation of the 111th Aviation Company. Equipment and personnel were re-distributed/reassigned as necessary to effect a smooth transition.

Effective 1 March 1979, Florida was the recipient of a newly formed platoon designated the 11th Air Traffic Control Platoon (Forward). The mission of the 11th ATC Platoon is to provide terminal and enroute air traffic control service, navigational aids, air warnings, and other assistance to inflight Army National Guard aircraft within the tactical training area, Camp Blanding, Florida.

Aviation assets presently assigned at Craig Field, Jacksonville, Florida are: 29 UH-1H's, 15 UH-1M's 6 UH-1B's, 20 OH-58's, and 1 U-8F, Florida expects to receive its first attack helicopter, AH-1G, by the

middle of August 1979. This aircraft will be utilized to transition/qualify aviators assigned to Company D, 26th Aviation Battalion, until more AH-1 assets are made available in 1980-81.

Operations and Training

The Operations and Training section of the AASFC is presently staffed by six Flight Instructors, two Flight Engineers, one Flight Operations Coordinator, and one Training Technician. They are responsible for scheduling and conducting all phases of aviator individual training and for coordinating and scheduling all aviation mission support required by ground elements throughout the State.

Formal courses of instruction (National Guard Bureau approved Unit Schools) are conducted at the AASFC which provide for aircraft refresher/qualification training, instrument flight qualification, and Nap-of-the-Earth (NOE) qualification for assigned aviators. During the training year 15 aviators received refresher/qualification training, 10 aviators received instrument flight qualification, and 11 aviators were NOE qualified.

Effective 1 October 1978, all assigned aviators were required to complete fiscal year reoccurring prescribed training in the 2B24 Synthetic Flight Training Simulator (SFTS). This device is a highly sophisticated motion simulator capable of training aviators by computer or instructor pilot in all phases of instrument flight and emergency procedures associated with the UH-1 series aircraft in day or night conditions. This training is conducted at the SFTS complex, Hunter Army Airfield, Savannah, Georgia.

With the implementation of the Aircrew Training Manuals in October 1978, all reserve component aviators are required to meet the same training requirements and performance standards as Active Army personnel. These requirements are accomplished during the year at weekend Multiple Unit Training Assemblies (MUTA's) Additional Flight Training Periods (AFTP's), and Annual Training (AT).

Annual Training for all aviation units was conducted at Camp Blanding during periods 21 April - 5 May 1979 and 9 - 23 June 1979, under simulated high threat environment. A high state of unit readiness was achieved, as reflected by ratings received from Active Army Evaluator teams, during these periods. Also, during these two 15-day periods, individual training was conducted and resulted in nine refresher/qualifications in various aircraft, 15 initial instrument flight qualification, 20 Nap-of-the-Earth (NOE) qualifications, 26 M-23 door gun qualifications (considered a postmobilization objective for Reserve Components), seven Aerial Observers qualified, four XM19 Flare Dispenser qualifications, and 11 qualifications in the various attack helicopter gunnery subsystems to include the M22 system which is a wire guided missile system received this year. Army Aviation also supported three additional Annual Training periods during the fiscal year. These were the 227th Field Artillery Brigade conducted at Fort Stewart, Georgia; 3rd Special Forces Battalion, 20th Special Forces, conducted at Camp Dawson, West Virginia; and Alternate Command Headquarters conducted at Camp Blanding, Florida.

A high state of operational readiness is maintained throughout the Aviation units by skilled crewmembers and support personnel. Total combined aviator flying hours is 236,357 hours; average flying hours per aviator is 2,229 hours; total combat flying hours is 64,881 hours; average combat flying hours per aviator is 612 hours.

Mission ready aircraft were available and utilized to accomplish the 1979 fiscal year flying hour program as follows: UH-1 - 5,636 hours; OH-58 - 2,062 hours; U-8 - 300 hours; Total - 7,998 hours.

Maintenance

The Army Aviation Maintenance Shop is tasked with providing AVUM (organizational), AVIM (direct support) and limited general support maintenance for 71 aircraft assigned to the Florida Army National Guard.

Fifty-five federally funded technicians (which includes two Full Time Training Duty personnel) presently support the Army Aviation Maintenance program on a daily basis. These highly skilled and

dedicated individuals continually maintain an operational ready rate in the 80 percentile, one of the highest in the National Guard system.

Community Relations and Civil Assistance

Army Aviation units regularly participate in community programs, and the AASFC continues to provide an excellent attraction for local school groups on educational field trips. Local familiarization flights for Federal Aviation Administration Jacksonville Center and approach control personnel are periodically scheduled in connection with instrument training flights in order to familiarize Air Traffic Control personnel with helicopter operations and to establish a better controller/pilot relationship. These and other humanitarian efforts are published throughout the community and have resulted in improved public relations and awareness of the Florida Army National Guard.

AIR NATIONAL GUARD

The Florida Air National Guard operates daily in a dual mission concept. The dual mission is apparent as a function of the Aerospace Defense Command and the state mission of Florida.

The combat ready status is necessary to support the active forces in peacetime in an air sovereignty role 24-hours a day. A second active support role is training and maintaining a full squadron of interceptor aircrews and aircraft in a combat ready status capable of immediate assumption of a wartime posture.

The state mission was graphically portrayed in supporting the Governor during the Trucker's Strike in June 1979. This support was directed by the Adjutant General, in conjunction with Governor Graham's responsibility to protect lives and property. Eight (8) sorties were flown in our C-131 aircraft to support this contingency.

OPERATIONS

An Operations Dispatch Center maintains command and control of the federal mission with the Aerospace Defense Command and implements responsible inputs from higher headquarters on a 24-hour basis.

A firing deployment to Tyndall Air Force Base resulted in remarkable firing success by the aircraft and aircrews of the Group. All scheduled sorties were flown with no cancellations or aborts.

Monthly exercises continue to place "Real Time" commitments and expertise to the mission in a very realistic manner. Sixteen (16) locally supported exercises were flown in response to the active forces.

A flying time, sortie schedule has been effectively followed with maximum training beneficial to all sections in the Group. Two thousand, four hundred fifty-seven sorties and four thousand, two hundred seventy-five flying hours were utilized in 1979.

Verification of the 20th Air Division's radios and radar coverage and sovereignty of the continental United States continues as PACE flights are flown weekly and No-Notice checks are flown bi-weekly. Many of the No-Notice radar checks result in scrambles.

Thirty-one scrambles have been ordered as unknown aircraft have to be intercepted and identified. This reaction is not part of an exercise or part of a system check, but is an actual unknown intruder to be properly identified as an air sovereignty problem.

The Operations Section was directly involved in the Operational Readiness Inspection conducted by the Aerospace Defense Command. Ratings of Excellent and Outstanding were received in each area of operations. There were no write-ups during the inspection that required any type of answer or corrective action.

MAINTENANCE

During the past fiscal year an average of 196 men and women were employed by the Florida Air National Guard to maintain the F106 fighter interceptor aircraft. Despite budget limitations and higher operating costs we were able to provide fully mission capable aircraft for our alert commitment and daily training missions. By staggering annual training we are able to augment the technician force and allow Guardsmen the one-to-one training which enables them to stay highly proficient.

The information listed below shows the flying allocations by aircraft for fiscal year 1979 and accomplishments through 30 June 1979.

AIRCRAFT	ALLOCATED SORTIES/HOURS	FLOWN SORTIES/HOURS
F-106	2457/4275	1809/3237.5

T-33
C-131

* / 700
* / 300

326/ 432.5
146/ 217.1

*Sorties are not allocated for T-33 and C-131 support aircraft.

INSPECTIONS AND DEPLOYMENTS

An Operational Readiness Inspection (ORI) was conducted 24-29 August 1978 by the Aerospace Defense Command (ADCOM), in accordance with ADCOM Regulation 123-6. The overall rating for maintenance was excellent. Aircraft regeneration was noted as outstanding with 69 of 72 sorties flown being regenerated prior to fade out. Particularly noteworthy was that of the ten aircraft that returned in a Code III status, four were regenerated within 45-minutes. Good management, esprit de corps and mechanically sound aircraft were credited for the accomplishment of the maintenance complex during the ORI.

An excellent rating was received on a Nuclear Surety Inspection conducted by ADCOM during the period 24-29 August 1978. The re-introduction exercise was rated excellent with all loading and special weapons personnel executing flawless loads. The locally devised plan for delivery of primary weapons to loading crews immediately after inspection was praised by the inspection team. One hundred percent of the munitions loading operations were evaluated and received a rating of excellent, with loadcrew management being rated outstanding.

The unit participated in a Combat Pike Deployment from 3-17 March 1979. Emphasis was placed on utilization of weekend reservists during the deployment. The high skill levels maintained by the Guardsmen were evidenced by the successful outcome of the deployment. During the deployment, 70 sorties were flown without a ground abort or late take-off.

AIRCRAFT NOISE SUPPRESSOR PROGRAM

After problems with the first article testing of the A/M37T-20 test cell and A/F32T-8 noise suppressor could not be resolved, the Florida Air National Guard received an A/F32A-17A noise suppressor to be built at the trim pad. This new type suppressor uses water injection to reduce the noise level of the exhaust gases and to lower the temperature. This will prolong the life of the suppressor. Completion is scheduled during the summer of 1979 and will be a major step in reducing the level of noise generated at this organization.

MAINTENANCE MANAGEMENT INFORMATION AND CONTROL SYSTEM (MMICS)

Since we were the first unit to implement the MMICS program, the Florida Air National Guard currently serves as a focal point for MMICS to many units in the Air National Guard. Many of our personnel have gone TDY to instruct Air National Guard maintenance managers in MMICS implementation procedures. Additionally, we have hosted visitors from other Air National Guard units and have provided comprehensive training programs on the loading and use of all applicable MMICS subsystems.

AIR FORCE ON-LINE DATA SYSTEMS (AFOLDS)

The Florida Air National Guard is the only unit in the Air National Guard using AFOLDS in conjunction with maintenance at this time. Although the system has been available to the Air Force for a few years the Air National Guard has just recently begun hearing about AFOLDS. This comprehensive system is used to retrieve all types of information from the Burroughs and Honeywell computers, and is slated to take the place of the Base Level Inquiry System (BLIS) sometime in fiscal year 1980. We anticipate that the experience we have gained working with this system will be of benefit to other Air National Guard units in the future.

MAINTENANCE DATE COLLECTION (MDC)

Another example of how the Florida Air National Guard continues to be a forerunner is the

implementation and development of new systems and procedures, in the fact that it was selected as the single point of contact for MDC reduction for the Air National Guard. In addition to reducing the amount of paperwork the workers must fill out, the system will also establish job standards for maintenance supervisors as a management tool.

QUALITY MAINTENANCE

Maintenance quality and reliability is the responsibility of all maintenance personnel. The combined efforts of Quality Control personnel, maintenance supervisors, and technicians are necessary to assure high quality maintenance production and equipment reliability. At the Florida Air National Guard this is evidenced by our high full mission capable rate, our low number of aborts (air and ground) and our scheduling effectiveness. Our aggressive aircraft Debriefing Section insures that all inflight discrepancies are defined as thoroughly as possible to aid the technician working the job, and constant scrutiny by Quality Control has enabled this unit to maintain some of the finest aircraft in the inventory.

ADMINISTRATION

Management of the administrative functions in areas of Documentation Management, Publications, and Central Base Distribution have continued to be relatively stable during this period. Metered mail cost for the period was \$7,327.68. This cost is borne by Headquarters, United States Air Force, based on quarterly reports of expenditure. United Parcel Service (UPS) has been initiated for items being processed through supply and cartons through the unit mail facility. This is expected to result in an overall savings next year. In the area of Publications, each functional library has been surveyed toward realistic requirements and all excess stock depleted from the local Publications Distribution Office. Much activity is expected in this area next year due to the change in our gaining command. In the area of Documentation, new Offices of Record have been established to facilitate realignment of the unit to the Tri-Deputy system. Each individual Office has been reviewed toward economy of operation and mission support requirements. Individual training of assigned members continued to receive emphasis.

DATA PROCESSING

Changes are constant in the Data Processing field. During this year, the Remote Job Entry Terminal System (RJETS) was enhanced by the installation of a disc module and a new operating software. Acceptance testing was performed during the months of April thru June.

This enhancement provides several benefits. It requires less Computer Support Base operator intervention, thereby allowing them to concentrate their attention more to the B3500 Computer. It allows Base Support Supply terminals to operate at the same time other input and output devices are operating. It gives the RJETS operators more flexibility and a more desirable method of computer control.

The first steps were taken to improve the operation of the Maintenance Management Information and Control Systems (MMICS) by replacement of existing TC521 Remote Terminals with Cathode Ray Tube (CRT) Terminals. This provides both improved service and a cost savings.

Planning and preliminary work continue for replacement of the U1050 and B3500 computers with Phase IV computers. Announcement of the selection of the final two contractors is expected in the very near future.

The replacement of the remaining PCAM equipment with a cartridge disc unit is being contemplated.

PERSONNEL

The Florida Air National Guard has continued to be a national leader in maintaining strength levels. We again closed this reporting period with over 100% of our authorized Group strength at 107%. During this time the Air National Guard Lead Recruiter, TSgt Sidney L. Blanton, received several awards from the National Guard Bureau for his recruiting efforts. These awards included the National Guard Bureau

Minuteman Award for being nominated as Top Production Recruiter for a unit of 300 to 800 personnel; the National Guard Bureau Guardsman Award for maintaining the 125th Fighter Interceptor Group above 100% for fiscal year 1978; the National Guard Bureau Minuteman Trophy and a certificate of Appreciation for the overall Florida Air National Guard Recruiting Program. Also, the Recruiting Staff was doubled to two (2) Recruiters during this period.

Two individuals (MSgt Steve Fields and MSgt Roger Sain) from the Consolidated Base Personnel Office (CBPO) were the first non-aircraft maintenance personnel in the Florida Air National Guard to be certified as aircraft weapons loaders. This duty is performed in addition to their normal Personnel duties.

Reorganizations/Realignments continue to have a major impact on the personnel area. The 125th Security Police Flight was Federally recognized on 1 July 1978. The Tri-Deputy System was implemented effective 1 October 1978. This action placed the Supply and Services and Comptroller Functions in the Group Headquarters. Also, the Deputy Commanders were increased from two (2) to three (3). These include a Deputy Commander for Operations, a Deputy Commander for Maintenance and a Deputy Commander for Resources. Advance notice has been received of the pending transfer of the Supply and Comptroller Function to a new unit to be designated as the 125th Resource Management Squadron, effective 1 July 1979.

The Air National Guard Enlisted Incentive Program was implemented in February 1979, based upon critically needed Air Force Specialty Codes (AFSCs) Air National Guard-wide. The Florida Air National Guard has had five individuals approved for the Reenlistment Bonus under this program prior to 30 June 1979.

At the close of this period, the Florida Air National Guard has an authorization for 104 officers and 800 airmen while having an assigned strength of 93 officers and 867 airmen for a total assigned strength of 960.

SCHOOL TRAINING

Florida Air Guardsmen continued to avail themselves of the opportunity to attend the various technical, special and professional military education courses offered by the Air Force and National Guard Bureau. During the year 96 personnel attended various technical and special courses, four attended the Academy of Military Science, five attended Phase I of the Air National Guard Leadership School, six attended Phase II, two attended Phase I of the Noncommissioned Officer Academy and three airmen attended the full five and a half weeks Noncommissioned Officer Academy Course. Approval has been received from the National Guard Bureau for six additional airmen to attend the first phase of the Air National Guard Leadership School and three for Phase II for the Air National Guard Noncommissioned Officer Academy.

Annual Training

Annual training for this fiscal year was conducted on the year-round basis at home station for the majority of the unit's personnel. Exceptions to this program were:

- a. Civil Engineering PRIME BEEF Team deployed to New Orleans, Louisiana.
- b. A number of aircrew and support personnel deployed to Tyndall Air Force Base, Florida, for COMBAT PIKE exercise for testing of the weapons system.
- c. Most members of the 125th USAF Clinic performed annual training at Homestead Air Force Base, Florida.
- d. Members of the Fire Protection Section of the Civil Engineering Flight deployed to McConnell Air Force Base, Kansas, for training.

Unit Training

Unit Training during this year has been highly successful. The main emphasis in Unit Training is in the area of On-The-Job Training (OJT). An average of 202 airmen were at some level of OJT throughout the year. One hundred eighty-eight trainees were upgraded in their skill level through OJT, which is at the 8% Air National Guard desired standard for training programs. Units are assisted in the management of their training program by the Personnel Utilization Section of the Consolidated Base Personnel Office.

Community College of the Air Force (CCAF)

The Community College of the Air Force is authorized by Congress and HEW to grant an Associate in Applied Science (AAS) Degree when the program of study has been completed. The program is available to Air Guardsmen. Under the program college credits can be granted for resident military technical training and related work experiences. The requirements for the AAS in a program of study consist of a minimum of 64 and a maximum of 70 semester hours, divided among Technical Education and the Core Curriculum (General, Management and Physical Education). Degrees are offered in the following five career areas: Aircraft and Missile Maintenance, Electronics and Telecommunications, Health Care Sciences, Management and Logistics and Public and Support Services. Each area of study includes several study programs encompassing appropriate Air Force Specialties. The 1978 edition of the American Council of Education's Guide to the Evaluation of Educational Experiences in the Armed Services has the following statement concerning CCAF: "After this edition of the Guide was prepared for publication, CCAF was granted candidacy status as a degree-granting institution by the Southern Association's Commission on Colleges. With this change in accreditation status, it is recommended that institutions treat the CCAF transcript in the same manner as transcripts from institutions with similar recognition." This year the first Florida Air Guardsman received a degree from CCAF. Several others are within a few semester hours of completing degree requirements.

Federal Funds and Equipment

The Assistant USP&FO for Air Property, during this reporting period, continued to provide effective support for all 125th Fighter Interceptor Group units. The average warehouse inventory managed by Base Supply was 10,224 line items valued at \$1,840,078.00. Through computer accounting, Supply recorded an average of 19,741 transactions per month. Equipment in use by all organizations of the Group is valued at \$10,065,416.36, with this amount of supplies and equipment, Supply has consistently maintained an inventory accuracy of 99% for the year.

Approximately \$23,478.00 was paid to local transportation companies for the movement of material from Jacksonville to various points in the United States. Service agreements and local contracts with other activities in the Jacksonville area resulted in services to the Florida Air National Guard valued at \$250,977.00. These Federal funds paid to Florida business concerns represent an industry of considerable value to the State of Florida.

Audio/Visual Services

The Audio/Visual Service's mission is to support base activities through training, documentation, and public relations.

Audio/Visual Services has a total of 111 pieces of equipment assigned. The Film Library has filled 78 requests for projection equipment and distributed over 80 Air Force films during this period.

All equipment is maintained by personnel assigned to the section.

Closed Circuit Television (CCTV)

CCTV was implemented 1 October 1973, to enhance and augment the training programs and most importantly, to improve proficiency of Air National Guard personnel while achieving maximum cost

effectiveness by employing the advantages of television as a training device.

CCTV is currently equipped with four video tape recorders (VTR), four studio monitors, an audio/video switching panel, in addition to the special effects generator working in conjunction with two studio cameras. A Sony portable mini-camera has helped broaden our capabilities in the field.

One hundred five programs have been transmitted this year, 29 of which were local studio productions.

Transmission is accomplished via 75 base wide television cable drops.

Photo-Lab

Whether on CCTV with slide productions or in the classroom with slide presentations the photo-lab and CCTV complement one another.

Sixty-six rolls of transparencies were mounted, 700 plus black and white prints processed, and over 100 rolls of black and white film have been developed this year.

For the past three years Florida Air National Guard photographers have had prints accepted for the back cover of Interceptor Magazine, published monthly by ADCOM.

Vehicle Operations/Maintenance/Analysis

During the past fiscal year the Vehicle Operations Section has administered 120 Vehicle Operators Tests with a passing rate of 95%. Our vehicle accident rate attests to this outstanding training, as no reportable vehicle accident has occurred during this period.

The Vehicle Maintenance Section has accomplished five types of scheduled maintenance on 73 vehicle assets (163.4 vehicle equivalency) with a minimum of maintenance downtime. The Vehicle Dead-lined for Parts (VDP) is well below Air Force standards. Unscheduled maintenance and corrosion control of assigned vehicles accounted for 80% of the man-hour expenditure for the reporting period.

The Analysis Section accomplished an input of 3594 individual vehicle transactions with an error rate of less than 1%. This program in itself provided an information and control system, that can be used by the Vehicle Maintenance Supervisor to effectively manage personnel, equipment, and material to increase the efficiency of the vehicle fleet.

Medical Services

The 125th Clinic provides services mainly in two areas: (1) Physical examination of applicants for enlistment, commissioning, and flight training as well as periodic and annual flying physicals for assigned personnel. Services are also provided, on a limited basis, to the Florida Air National Guard and other military personnel in the Jacksonville area. (2) Authorized medical and dental care is provided assigned personnel, although this is very limited by Regulation. During the year the following workload was accomplished:

X-rays	310
Immunizations	697
Laboratory Procedures	1,219
Electrocardiograms	212
Physical Examinations	436
Patient Visits	1,968
Dental Visits	379
Aircraft Crash/Rescue Alerts	14

Six officers and 20 airmen deployed to Homestead Air Force Base, Florida, for annual training.

Clinic personnel were able to fill some essential manpower shortages being experienced by the United States Air Force Hospital through utilization of both military and civilian skills. A special requirement to accomplish 40 electrocardiograms was levied on the hospital during out training duty. To process this number of examinations through the normal hospital appointment schedule would have taken several weeks. Our Clinic personnel took on this project and completed it in two days. Complimentary letters were received from individual departments within the hospital, the Hospital Commander, and the Command Surgeon of the Tactical Air Command, due to the accomplishments during the deployment.

This year the clinic's equipment and capability was upgraded by the installation of a new 300 ma 150 kv, x-ray system at a cost of \$34,576.00.

ADVISORS

ARMY

The mission of the office of the Senior Army Advisor is to provide advice and assistance to the units of the Florida Army National Guard in all aspects of training, administration, supply and maintenance in order to assist the National Guard in accomplishing its mission. The Senior Army Advisor, Colonel Richard L. Tripp, is the liaison officer between the Adjutant General and the Commander, U. S. Army Readiness Region IV, First U. S. Army.

The office of the Senior Army Advisor is located with Headquarters, Department of Military Affairs, St. Augustine. Four additional advisory detachments are collocated with the following major headquarters: 53rd Infantry Brigade (Separate) in Tampa, 53rd Signal Group in Tallahassee, 227th Field Artillery Brigade in Miami, and the Army Aviation Support Facility Command in Jacksonville. The authorized strength of the office of the Senior Army Advisor, including the advisor detachments, is six officers, five noncommissioned officers and one civilian. Technical assistance and training support are provided by the U. S. Army Readiness Group at Patrick Air Force Base. Readiness Group Patrick supports both Army National Guard and Army Reserve units in Florida and is staffed with 29 officers, one warrant officer, 26 enlisted men and 12 civilians.

AIR

The mission of the Air Force Advisory personnel is to advise and assist the Air National Guard in achieving and maintaining the highest possible state of combat readiness. The advisory staff manning normally consists of one Lieutenant Colonel and one Staff Sergeant. During aircraft conversion the manning is increased for a one or two year period to 26 officers and airmen.

The Senior Air Force Advisor, Lieutenant Colonel John A. Glover, is the liaison officer between the 125th Fighter Interceptor Group Commander and the 20th NORAD/ADCOM Region Director of Operations, Ft. Lee Air Force Station, Virginia.

The Aerospace Defense Command is the gaining command of the Florida Air National Guard.

The advisory staff is located at the 125th Fighter Interceptor Group Headquarters, Jacksonville International Airport, Jacksonville, Florida.

**NATIONAL GUARD OFFICERS
ASSOCIATION OF FLORIDA**

The National Guard Officers Association of Florida has been in existence since 1902. It consists of all officers and warrant officers of the Florida Army and Air National Guard. The organization is run on a democratic basis, with the officers elected by the membership. Committee meetings are held periodically during the year, and a general conference is convened annually at some location within the State. The annual conferences consist of business sessions during the day with the social functions in the evening.

The purposes of the Association are to promote and improve adequate national security; to provide a medium by which all officers of the Florida National Guard may become better acquainted; to establish a foundation for promoting esprit de corps in the Florida National Guard; to promulgate and support legislation in furtherance of the best interests of the Florida National Guard; and, to maintain an Association complementing and in harmony with the National Guard Association of the United States.

This Association has 100% membership of all active National Guard officers and warrant officers. Even though members attend the annual conferences at their own expense, attendance continues to average in excess of 50% at these conferences. The 77th Annual Conference was held at the Hilton Hotel, Tallahassee, Florida, on 16-17 March 1979. The 78th Annual Conference will be held at the Holiday Inn, Cypress Street, Tampa, Florida, on 22-23 August 1980.

Members of the Executive Council 1978 – 1979:

**COLONEL EDWIN P. STEWART – President
BRIGADIER GENERAL JEAN BEEM – President-elect
LIEUTENANT COLONEL FRANK PANZARINO – Secretary-Treasurer
COLONEL DANIEL S. WHITE
LIEUTENANT COLONEL WALLACE M. GREEN, JR.

APPENDIX IX

125th CIVIL ENGINEERING FLIGHT
CONSTRUCTION, OPERATIONS AND MAINTENANCE PROGRAM

The following are Air National Guard Base vendor contracts and training projects with status indicated:

PROJECTS COMPLETED:

Approximately \$323,973.00, in Federal Funds have been expended during the past year on construction, maintenance, and repair projects, some of which are as follows:

Repair Taxiway Lights	\$ 4,000.00
Construction of Shops and Offices (Bldg No. 1)	90,000.00
Maintain/Repair Central Heating Plant (Bldg No. 10)	20,000.00
Repair/Replace Central Air Conditioning System (Bldg No. 10) ..	160,000.00
Maintain Base Windows (Solar Tex)	1,300.00
Construct new Road Raddii	4,000.00
Construct new Parking area at Bldg No. 23	20,000.00
Construct new Air Conditioning System (Bldg No. 5)	5,000.00
Intrusion Detection System at Ammunition Storage	3,000.00
Miscellaneous Base Maintenance and Repair	15,000.00

PROJECTS CURRENTLY IN PROGRESS:

Approximately \$935,000.00 in Federal Funds have been obligated for the following projects in design or in progress at this time.

A/F 32A-17A (Water Cooled) Noise Suppressor	\$300,000.00
T-8 (Air Cooled) Noise Suppressor (FAC No. 25)	450,000.00
Boiler Plant Repair (Bldg No. 18)	1,250.00
Closed Circuit TV Security System	160,000.00
Fire Suppressor System (Bldg No. 4)	2,000.00
Base Asphalt Maintenance	22,000.00

PROJECTS FORECAST FOR FY '80 - \$1,020,000.00

Runway 13/31 Extensions and BAK-12 Installation	\$805,000.00
Aircraft Apron Addition	350,000.00
Avionics Maintenance Environmental System	95,000.00
Maintain Aviation Fuel Storage Tanks	40,000.00
Repair Roll-Up Doors Buildings No. 9 and No. 7	9,000.00
Replace Exterior Lighting	26,000.00
