

ANNUAL REPORT

LOUIE L. WAINWRIGHT, SECRETARY

1985 - 86

BOB GRAHAM, *Governor*
State of Florida

WAYNE MIXSON, *Lt. Governor*
State of Florida

FLORIDA
DEPARTMENT of
CORRECTIONS

Governor
BOB GRAHAM
Secretary
LOUIE L. WAINWRIGHT

1311 Winewood Boulevard • Tallahassee, Florida 32301 • Telephone: 904/488-5021

December 15, 1986

Honorable Bob Graham
Governor of Florida
Honorable Members of the Florida Legislature

Dear Governor and Members of the Legislature:

In accordance with Chapter 20.315 (15), Florida Statutes, the Department of Corrections respectfully submits its Annual Report for Fiscal Year 1985-86. This year's Report will provide you and other interested individuals and agencies with information regarding the activities, status, functions and impact of the Florida Department of Corrections as it executes its statutory responsibility for the custody, care, treatment, management, and supervision of adult and youthful offenders.

Should you have any questions regarding the material in the Annual Report, we will be happy to respond.

Sincerely,

A handwritten signature in black ink, appearing to read 'L. L. Wainwright', written in a cursive style.

LOUIE L. WAINWRIGHT
Secretary

SECRETARY'S MESSAGE

During 1985-86, the Department of Corrections confronted critical issues head on which had been gathering momentum during previous years. Adequate resources to provide additional facilities of the type needed to meet increased inmate populations were not provided. Inmate population projections by the Criminal Justice Estimating Conference and the Department of Corrections not agreeing, it became obvious in FY 1985-86 that a more accurate method for projecting multi-year inmate population was essential to realistic and effective planning efforts. The Department is moving aggressively toward that goal, having established a top priority study effort aimed at producing an improved projection model.

Louie L. Wainwright, Secretary

In the meantime, the Department continued to emphasize the use of alternatives to incarceration which are safe for the community and which provide adequate opportunities for inmates to conform their behavior to socially acceptable norms and move their lives in positive directions. Alternative programs such as Work Release and Supervised Community Release assisted in the battle against overcrowding, however, resources to meet all agency needs were not available.

During the year, the Department continued to press ahead with improvements in health services for inmates. An appropriation of sixteen million dollars to meet the level of care recognized by the Costello v. Wainwright Agreement was provided by the Legislature. This lump sum appropriation is to be used to continue delivery of health care services. The Department has developed a comprehensive plan to insure the most effective use of the appropriated funds. Improvements continued to be made in health care delivery at the Reception and Medical Center Hospital as updated diagnostic equipment was procured and installed and additional management improvements made. The future for the Hospital, however, remains open to several options now being explored. The newly established Correctional Medical Authority is expected to provide valuable counsel in the development of the health services program for the Department.

Emergency Preparedness Training, started two years ago at the management level, progressed through the Staff Supervisor level this year. All Corrections Emergency Response Teams (CERT) completed their 40 hour, Phase II, training during FY 85-86. Many Correctional Officers volunteered to become members of Correctional Emergency Response Teams. Volunteers who met the stringent selection criteria have become members of these important control elements. The rapid success of the CERT Program in preparing Correctional Officers for special emergency duty as well as its contribution as a positive morale booster has been most gratifying. The enthusiastic response to this special security program is just one more example of the team spirit and drive to excel that characterizes the staff of the Department. This spirit has resulted in the Department's recognition as being among the best in the country and the only large correctional system to be fully accredited by the Commission on Accreditation for Corrections.

New days are dawning in the field of Corrections. Expanded usage of computers, electronic surveillance devices and other advancing technologies are creating an environment which demands continuing professional development of Correctional Staff. There are greater demands for staff training and effective administration than ever before. In meeting these demands,

the Department has initiated action to develop innovative staff training methods, such as interactive video training. The physical fitness of staff is of increasing importance to meet the challenges of caring for and supervising more than 29,000 incarcerated inmates and over 77,000 offenders under community supervision on a daily basis.

The Department has moved ahead forcefully in its efforts to save tax dollars by recouping costs of supervision, collecting court ordered victim restitution and providing inmate work squads for interagency and public work projects. During 1985-86, almost \$12 million was collected in cost of supervision and over \$13 million was paid by offenders to victims of crime and for mandated fines and court costs. Additionally, 1,594,316 hours of labor from 25,287 inmates were provided for interagency or public work projects during FY 1985-86. At \$3.35 per hour, inmate work saved \$5,340,959 of public money.

Increasing the educational levels of inmates continues to occupy an important position in the Department's effort to provide opportunities for them to become productive citizens. The new, legally mandated Correctional Education School Authority is expected to provide the means to maintain and improve all correctional education programs within the system. These educational efforts must be continued and active job placement procedures must be developed to insure that inmates are placed in jobs that are compatible with their training.

I have saved mention of the most important element of the Department until last - our human resources. As mentioned previously, a new era is dawning in Corrections in Florida and nationally. Everyone has a role to play whether it be effective management, supervisory leadership or alert staff action. We must recruit highly qualified correctional officers and administrative staff; we must recognize their accomplishments and reward them for meritorious service. Salary parity between Correctional Officers and Law Enforcement Officers continues to be a major priority for the Department and is identified as such in the Department's Agency Functional Plan (AFP). Upgrading of Correctional Probation Officer pay levels also demands priority attention and, likewise, is an issue addressed in the Agency Functional Plan. We must succeed in accomplishing these objectives in the near future if the quality of the Department's services is to be improved.

I am exceptionally proud of the Correctional Officers of the Department. In honor of their dedication and commitment to excellence, Governor Graham introduced a resolution before the Cabinet designating the week of May 4-10, 1986 as Correctional Officer Week in Florida. The honor is richly deserved. In spite of the many worthy programs aimed at development of positive directions in the lives of offenders in Florida, the Correctional Officer remains the most valuable agent of change in the offender's progress toward successful re-entry into society. This year, as in previous years, each Region of the Department nominated a Correctional Officer who had achieved an outstanding level of proficiency in performing his or her duty. From this group of five outstanding officers, Correctional Officer Shirley Smith of Florida Correctional Institution was chosen Correctional Officer of the year. This remarkable Officer earned her Associate and Bachelor of Arts degrees and commenced work on her Master's degree while raising four children and working full-time as a Correctional Officer. On the job, her in-depth professional knowledge has earned her the respect of both staff and inmates. Officer Smith's exemplary accomplishments are reflective of the will to succeed evidenced by a vast majority of Departmental staff.

In FY 1985-86, the Department made significant progress and many notable milestones were passed, even though faced with further dramatic increases in inmate population. Challenges await us, but we are ready to meet them with a better trained and motivated staff, a commitment to excellence and a strong sense of pride in our profession. We will press ahead resolutely to ensure protection for society and provide avenues to successful citizenship for offenders under our supervision.

CORRECTIONAL OFFICER OF THE YEAR 1985-86

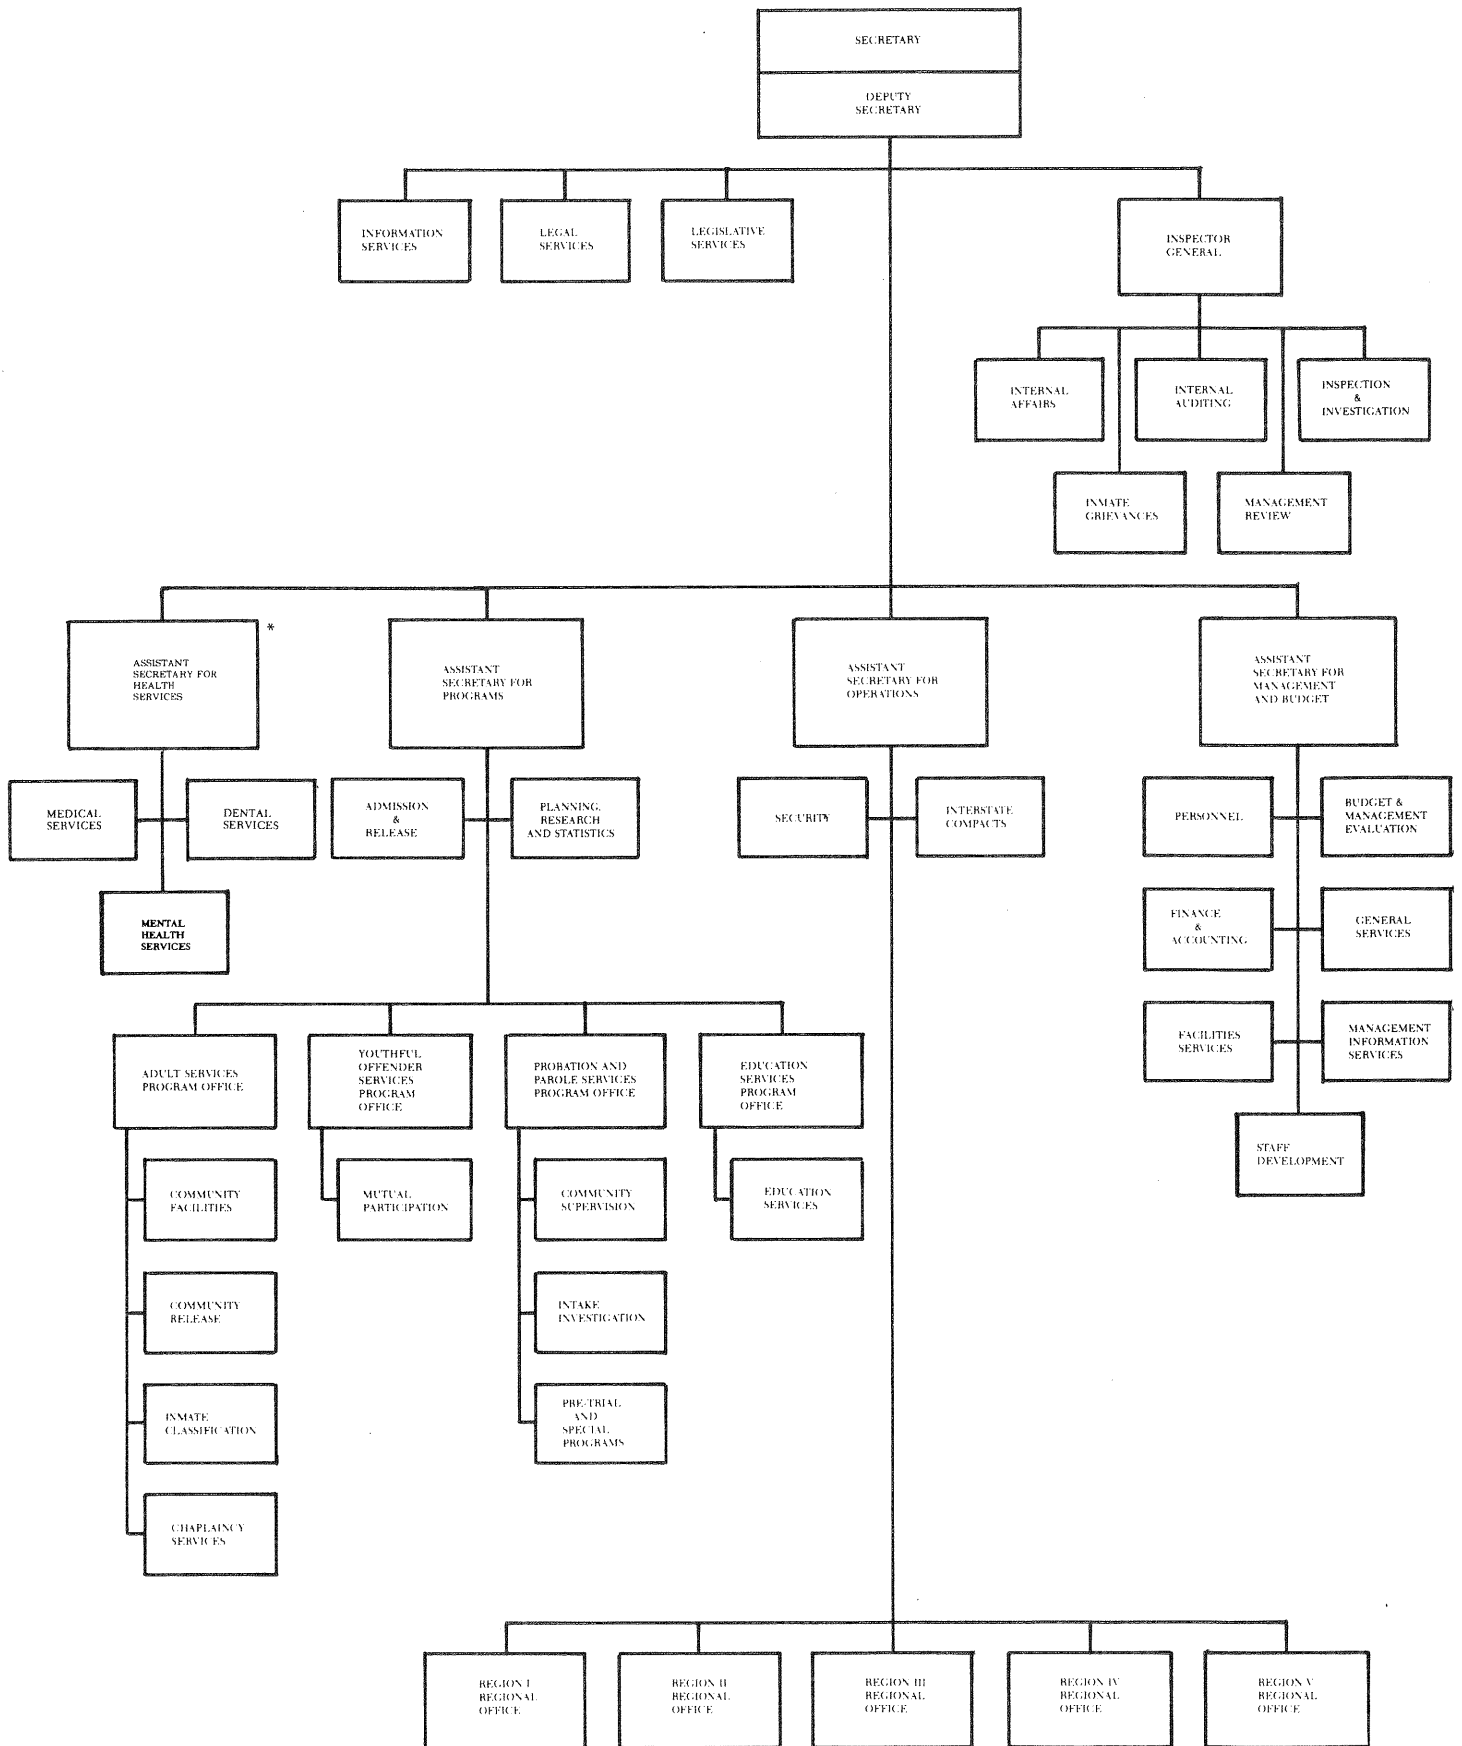

**Correctional Officer I, Shirley M. Smith
Florida Correctional Institution**

Shirley M. Smith, Correctional Officer I, has been employed at Florida Correctional Institution, the Department's first female offender institution, since 1979.

Officer Smith personifies the ideal Correctional Officer having successfully worked all assigned posts within the institution; earned the respect of her peers, supervisors, and inmates; maintained a high level of involvement in her community and church; and attained personal goals by earning Associate and Bachelor of Arts Degrees in addition to completing several advanced training courses. While accomplishing these achievements, she has raised four children as a single parent. Officer Smith continually sets high goals for herself and then quietly proceeds to achieve them.

DEPARTMENT ORGANIZATION CHART

MANAGEMENT AND FUNCTIONS

SECRETARY LOUIE L. WAINWRIGHT is chief administrator of the Department of Corrections. He has held this position since July, 1962 and has served under five Governors. The Secretary has the authority and responsibility to plan, direct, coordinate and effect the powers, duties and responsibilities assigned to the Department. Through daily contacts and weekly staff meetings, Secretary Wainwright provides guidance to the entire Department, identifies major issues and directs the planning and implementation of policies and procedures necessary to the operation of the State Corrections System.

Secretary Louie L. Wainwright and Senior Manager Assistant II, Donna Scruggs

Deputy Secretary, David D. Bachman discusses his calender with Senior Manager Assistant I, Gail Rayner.

DEPUTY SECRETARY DAVID D. BACHMAN shares the total management responsibility with the Secretary and in the absence of the Secretary acts on his behalf. Mr. Bachman has served in several major institutions and has held key administrative assignments throughout the Department since the commencement of his employment in 1957. He has been assigned to numerous special task forces and committees which have produced recommendations and guidelines in virtually every area of correctional endeavor.

OFFICE OF THE SECRETARY

David Brierton, Inspector General

Vernon Bradford, Information Director

Lisa Kirkland, Legislative Programs Coordinator

Louis Vargas, General Counsel

Ray Mulally, Accreditation Manager

Information Services: Provides liaison with the news media; responds to requests for information from the news media and the public sector; produces the Department Newsletter; coordinates release of information by the Department.

Legal Services: Coordinates legal services; represents the Department in court suits; renders legal opinions as necessary to the Secretary and other staff of the Department; coordinates and provides for promulgation of Department Rules.

Legislative Services: Coordinates all legislative liaison activities; analyzes and evaluates proposed legislation for potential impact upon the Department; coordinates development of Department positions on proposed legislation.

Inspector General: Conducts internal affairs, investigations and audits; inspects jails and prisons and investigates matters related to their operations; investigates and reports upon inmate grievances; conducts management evaluations.

Accreditation Manager: Supervises the Department's Accreditation efforts and the continuing process of re-accreditation statewide, which includes liaison between the Department and the Commission on Accreditation for Corrections, and coordination and monitoring of all agency accreditation activities.

Assistant Secretary for Operations, Harry K. Singletary is briefed by Senior Manager Assistant I, Shirley Skrove.

ASSISTANT SECRETARY FOR OPERATIONS

Operational Supervision: Responsible for direct supervision of the five Regional Directors and the delivery of all Departmental programs and services in the Regions through major institutions, community facilities and Probation and Parole Services.

Interstate Compact: Arranges and coordinates the implementation of the Interstate Compact Agreement; implements interstate extradition proceedings.

Security Coordination: Monitors and evaluates security programs at all facilities; advises superintendents in the event of riots, disturbances, or potentially dangerous situations; monitors care and control of all movable security equipment; reviews security plans of all proposed institutions.

Assistant Secretary William J. Thurber, Office of Management and Budget, discusses a project with Senior Manager Assistant I, Sandy Payne.

ASSISTANT SECRETARY FOR MANAGEMENT AND BUDGET

People Services: Personnel - Represents the Department in all personnel matters. Manages collective bargaining, recruiting, classification and pay programs departmentwide. **Staff Development -** Coordinates and supervises all staff training programs conducted within the Department.

Dollar Services: Budget and Management Evaluation - Coordinates statewide legislative and operating budget requests, plans and supervises fund allocations and associated releases.

Management Services: Finance and Accounting - Plans for and maintains records and reports to reflect past, current and future financial posture of the Department. **General Services -** Plans and coordinates food service programs; acquisition and management of property; energy, safety and preventative maintenance activities; coordinates purchasing activities relative to statewide contracts, force account construction, emergency purchases and communication equipment. **Management Information Services -** Designs, implements and maintains automated information programs to assist in management of key aspects of the Department.

Facilities Services: Prepares requests to the Legislature and plans and supervises resulting appropriation to construct, renovate and maintain the fixed assets of the Department.

ASSISTANT SECRETARY FOR HEALTH SERVICES

Supervision of Professional Delivery of Health Care Services: Is directly responsible for the provision of inmate health care services at hospital, regional and institutional levels. Maintains liaison with recognized health care authorities, providers and other agencies, such as the Department of Health and Rehabilitative Services.

Health Services Policies: Establishes health care standards, policies, directives, and formulates related health services legislative proposals.

Health Services Planning: Develops and implements health care plan and programs in accordance with State Comprehensive Plan goals; monitors and evaluates progress and status of health services delivery.

Medical Issues: Consultant and medical advisor to the Secretary of the Department of Corrections and staff members on health services issues.

Assistant Secretary for Health Services, Bealer T. Rogers, M.D. discusses the Department's Comprehensive Health Care Plan with Senior Human Services Program Specialist Gerald P. Ellsworth.

ASSISTANT SECRETARY FOR PROGRAMS

Supervision of Program Offices: Assesses program needs, develops policies, monitors and controls program quality and provides technical assistance in the areas of Adult Services, Youthful Offenders, Probation and Parole Services and Health and Education Services.

Admission and Release: Receives, documents and establishes the official record of all persons sentenced to the Department of Corrections; the physical movement of inmates between institutions and community facilities and returning parole violators from out-of-state.

Planning, Research and Statistics: Develops goals, objectives and performance measures; evaluates programs of the Department; forecasts prison populations and probation and parole supervision caseloads, produces the Department's Annual Report; provides recurring monthly reports regarding admissions and releases and status of the population under supervision.

Assistant Secretary for Programs, Wilson C. Bell, provides guidance to Senior Manager Assistant I Joyce Byrd.

CORRECTIONAL FACILITIES

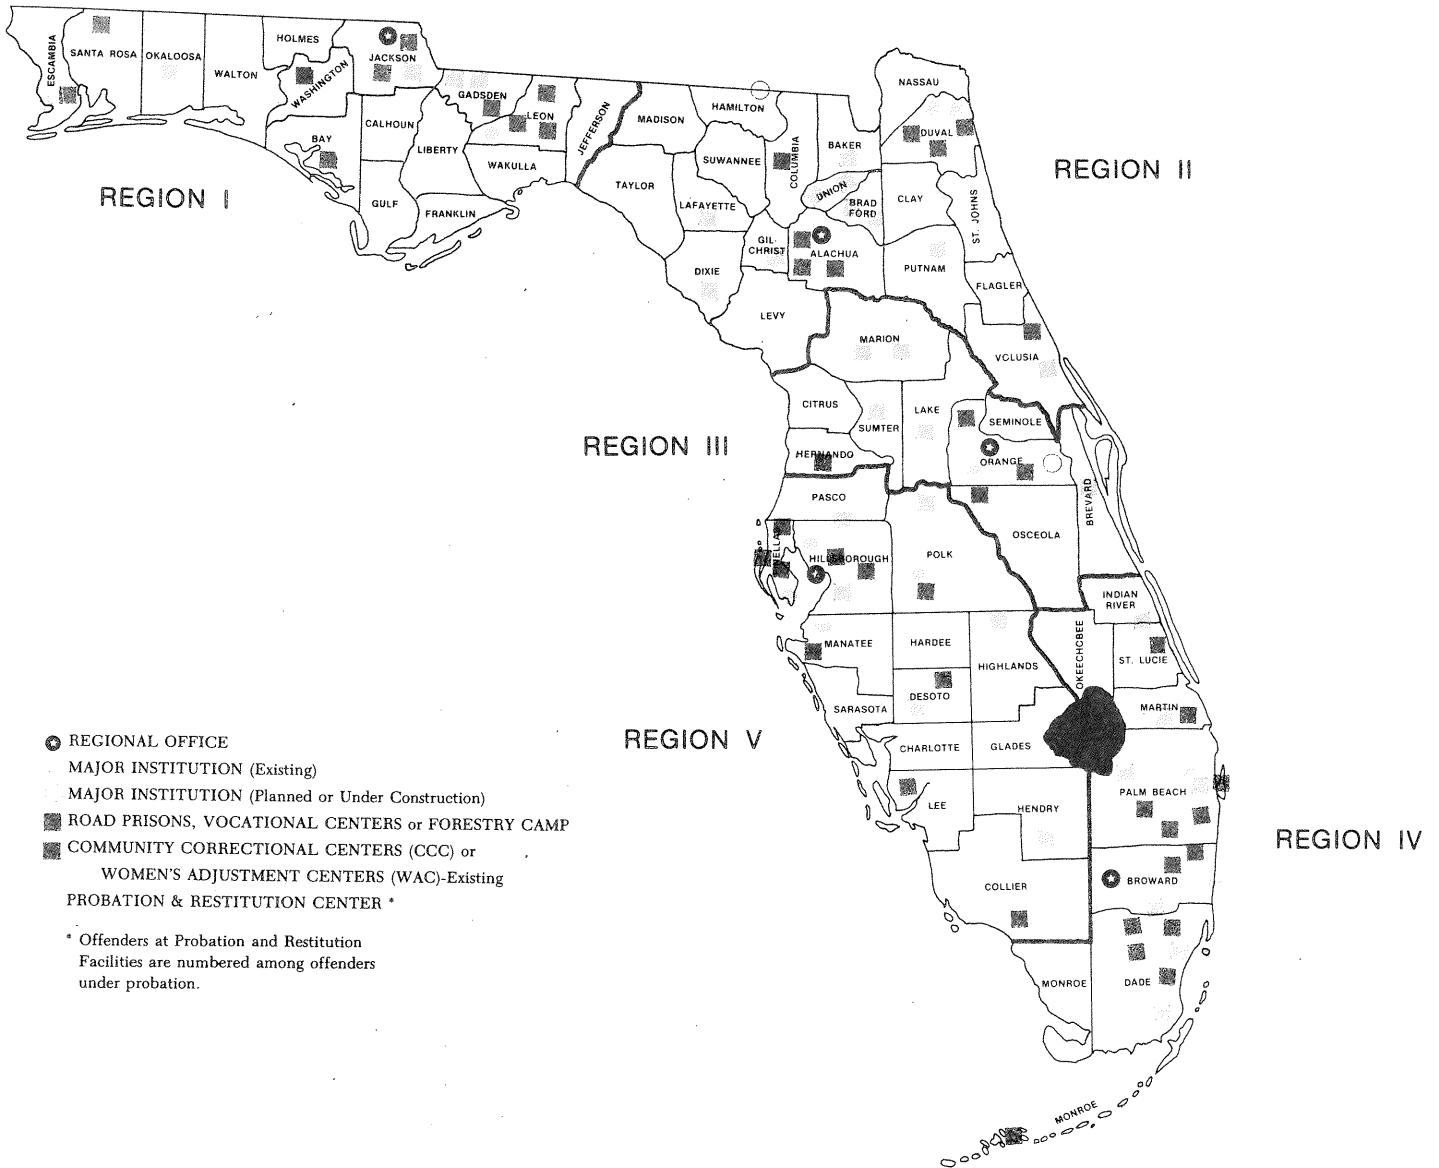

Facilities required for housing incarcerated offenders are located throughout Florida. The geographical separation of similar facilities provides additional opportunities for appropriate programming and management of the inmate population.

THE DEPARTMENT IS RESPONSIBLE FOR:

SUPERVISING 29,712 OFFENDERS

IN

90 FACILITIES *

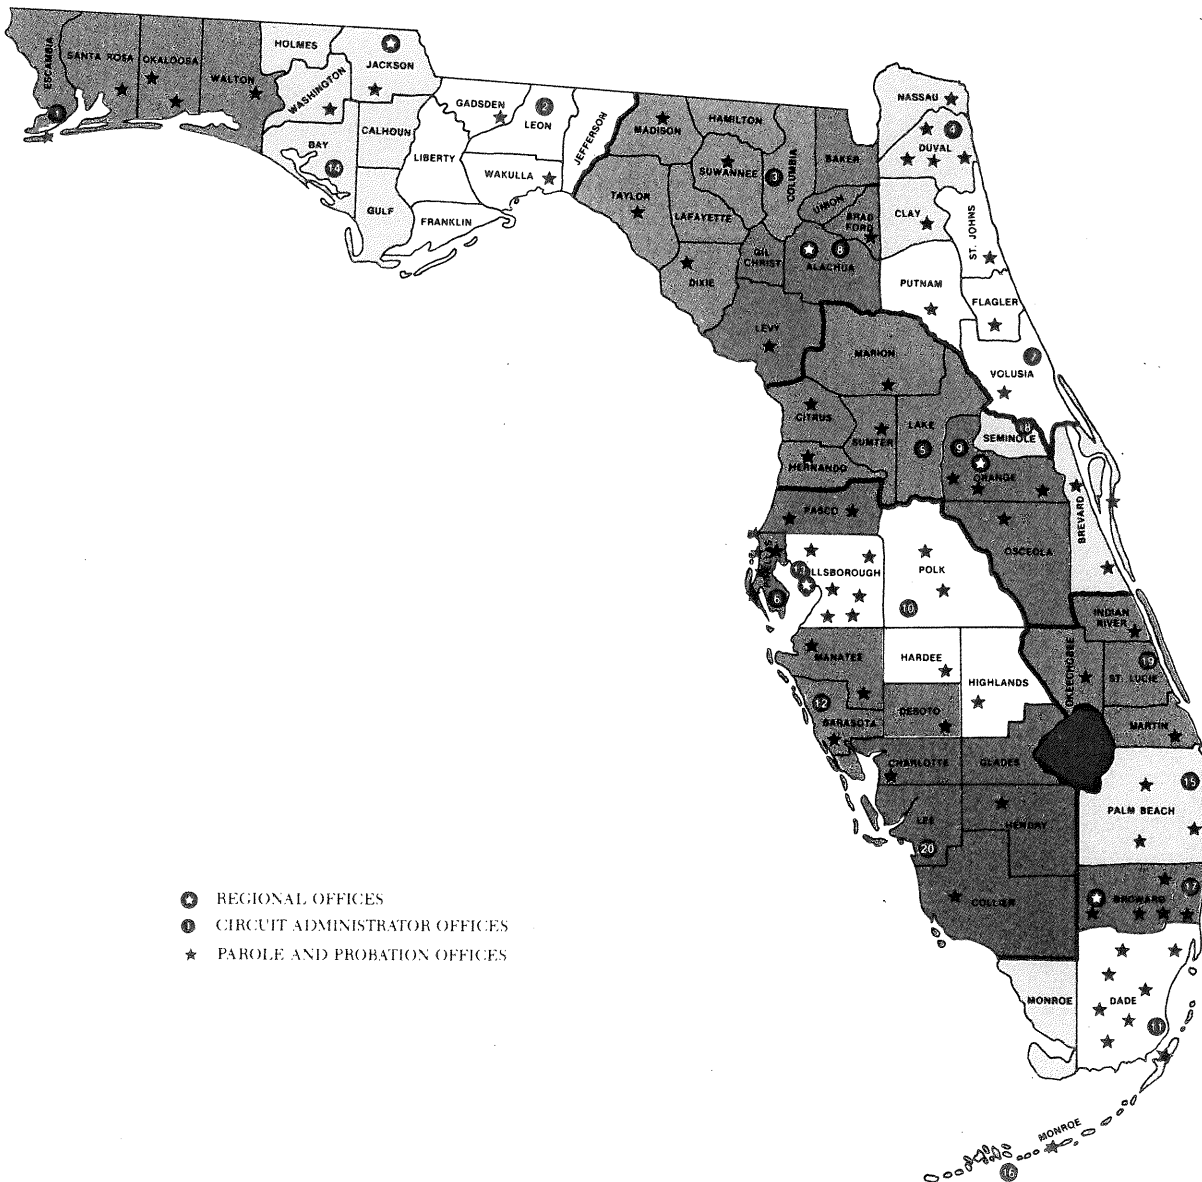

June 30, 1986

PROBATION AND PAROLE OFFICES

Diversionary strategies are a critical factor in the success of any offender based criminal justice system. Florida relies on the quality and professionalism of the Probation and Parole offices to keep diversionary practices a viable alternative for offender rehabilitation.

THE DEPARTMENT IS RESPONSIBLE FOR:

SUPERVISING 77,448 OFFENDERS
FROM
102 PROBATION/PAROLE OFFICES

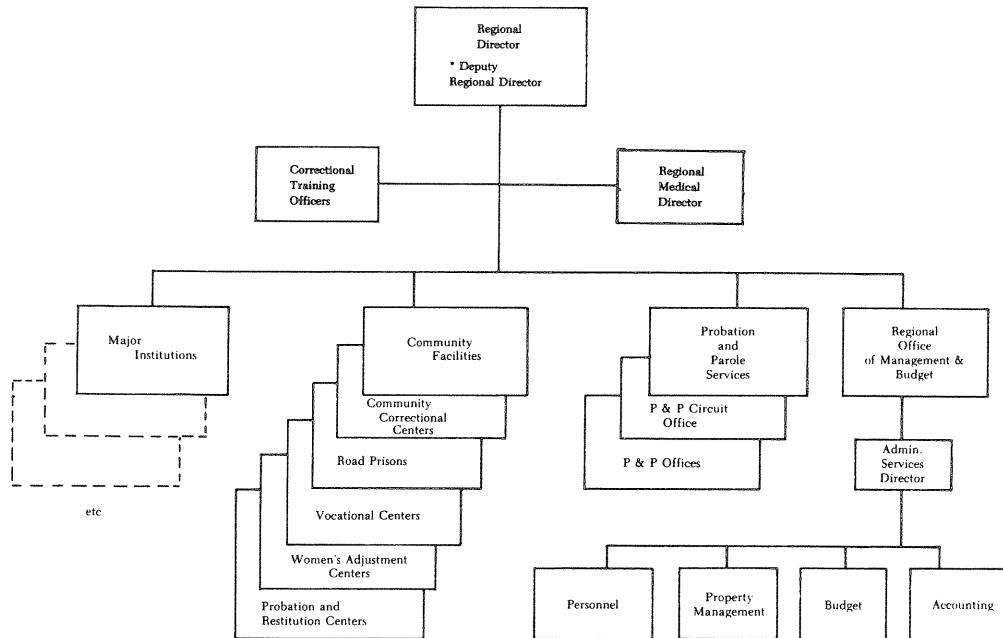

June 30, 1986

REGIONAL ORGANIZATION

Correctional Institutions, Facilities and Probation and Parole offices are administered through five geographic regions. Each Region is headed by a Regional Director who supervises the activities of the Superintendent of each Major Institution, the Superintendent of Community Facilities and the Regional Probation and Parole Administrator. The Regional Director is responsible for financial administration and personnel management within his Region and for ensuring that Departmental policies are carried out and standards are met. Regional organizations and functions are shown below.

TYPICAL ORGANIZATION

* Not in All Regions

REGIONAL FUNCTIONS

Each Regional Office coordinates activities and solves problems at major institutions in accordance with standard Department diagnosis, evaluation, referral, classification and case management procedures.

The activities of all Community Correctional Centers, road prisons, vocational training centers, women's adjustment centers and probation and restitution centers are also directed by the Regional Office in accordance with Central Office policies and directives.

Regional Offices coordinate and direct all probation and parole services and activities in accordance with policy guidelines and program directives from the Central Office, to include supervision, investigation, intake and diversionary programs.

Each Regional Office performs personnel management activities, to include maintenance of personnel files and related records for personnel of community facilities, probation and parole offices and the regional office. In addition, regional officers maintain property accounting records, document all property transactions and maintain property management and control.

In addition, the Regional Offices prepare and submit regional budgets, monitor operating accounts and expenditures and supervise regional fund allocations and releases.

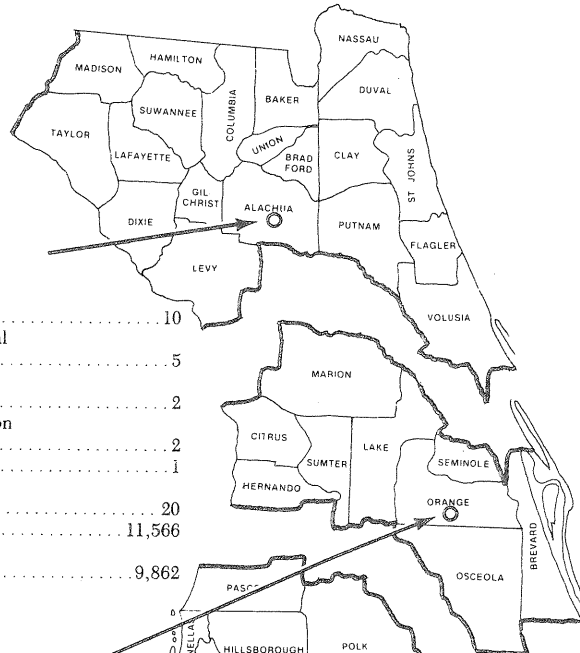

THE REGIONS: GEOGRAPHICAL LOCATIONS AND ADMINISTRATIVE DATA

REGION I

Total Staff: 1,327

Offenders Under Supervision	24,075

DEPARTMENT OF CORRECTIONS
GOALS AND OBJECTIVES
1985 - 1987
(Revised August 1986)

1. PROVIDE HUMANE ENVIRONMENT IN SUFFICIENT FACILITIES TO ACCOMMODATE CURRENT AND POTENTIAL INMATE POPULATION

- Implement construction of estimated 3,078 additional beds to come on line by June 1988 to prevent emergency release of inmates under provisions of Correctional Reform Act of 1983.
- Monitor inmate population levels to ensure maintenance below 99% of lawful capacity.
- Request sufficient bed space to provide at least 2% cushion above the 99% release cap.
- Maintain accepted standards for the health and safety of inmates and staff.
- Complete the correction of any outstanding fire, safety and waste water treatment deficiencies.
- Continue developing youthful offender system of intake, movement, treatment and facilities.
- Provide required 320 hours of basic recruit training programs for all new Correctional Officers and Probation and Parole and Community Control Officers.
- Decentralize Intake and Reception capability for males and females by establishing Reception Centers for both in North and South Florida.
- Tie administrative staff positions to the growth of field operations through development and approval of an appropriate funding formula.
- Standardize staffing for all institutions to the extent possible following reduction from maximum to system maximum capacity.
- Ensure security and safety of staff and inmates by increasing staffing levels at major institutions.
- Request sufficient administrative staff to support the new Health Services and Educational Services budget entities.

2. CONTINUE TO REDUCE STAFF TURNOVER

- Request the Governor and the Legislature to provide parity between Correctional Officers and the beginning level State Law Enforcement classes statewide.
- Increase minority employment to 24 percent and female employment to 32 percent.
- Increase and improve the quantity and quality of staff training experiences.
- Establish self-study learning centers to provide additional flexibility in the delivery of staff training.
- Provide Basic training for all newly hired Correctional Officers and Correctional Probation Officers.
- Implement a uniform computerized record keeping system to maintain accurate training records.
- Seek funds to increase the number of Correctional Training Officers.
- Seek funds to increase the number of training relief positions.
- Provide physical fitness equipment and facilities in the work place.
- Insure that health services employees are provided the opportunity to attend job-related in-service training programs.
- Promote the use of Department personnel in the development and delivery of training.
- Continue compliance with staff development and training standards for accreditation.
- Re-implement the specialized Youthful Offender Staff Training Program.
- Seek funds to increase the salary level of Correctional Training Officers.

3. CONTINUE TO IMPROVE YOUTHFUL OFFENDER PROGRAMS

- Emphasize staff development utilizing the new revised 40 hour youthful offender training program.
- Propose the establishment of a behavioral management unit for the treatment of youthful offenders with emotional problems but who are not in a psychotic state.
- Institute a standardized pre-release program in youthful offender institutions.
- Include in budget proposals an amount sufficient to construct and operate an institution for female youthful offenders.
- Develop programs for young offenders with special needs including those with substance abuse problems, barring disabilities and physical or mental handicaps.

4. MAINTAIN AMERICAN CORRECTIONAL ASSOCIATION ACCREDITATION STANDARDS

- Continue the monitoring and maintenance of accreditation standards for major institutions, Probation and Parole Services, Community Facilities and the Central Office.
- Attain reaccreditation, as appropriate, for major institutions, Community Facilities, Probation and Parole Offices and the Central Office.

5. PROVIDE ADULT BASIC EDUCATION AND VOCATIONAL TRAINING TO INMATES

- Re-allocate educational resources to conform with current and projected needs.
- Prepare inmates for current job opportunities by updating vocational training and replacing obsolete equipment.
- Develop and implement competency based adult basic education.

- Improve the delivery of educational programs through the design and installation of computerized data collection for appropriate education statistics.
- Update and improve teaching competencies through continued in-service training opportunities for education staff.
- Implement the Correctional Education School Authority authorized by Section 242.68, Florida Statutes.

6. ENHANCE COMMUNITY-BASED ALTERNATIVES TO INCARCERATION

- Implement and evaluate a pilot project on Community Control II (Electronic Monitoring).
- Assist in curriculum development and begin officer training at the Academy in accordance with Criminal Justice Standards and Training legislation.
- Seek officer staffing ratio equal to Workhour Formula.
- Establish Correctional Probation Officers salaries at one pay grade above law enforcement parity.
- Increase percent of guilty dispositions in community control from 5% to 6%.
- Establish radios as standard OCO equipment for Community Control Officers.
- Establish office automation in probation offices.
- Improve clerical pay to competitive level.
- Continue to maintain joint contract with Department of Labor and Employment Security to provide jobs for offenders.
- Expand Pretrial Intervention to include the 20th Judicial Circuit and seek staffing improvement statewide.
- Evaluate need for relief factor for officer training.

7. PROVIDE HEALTH SERVICES IN ACCORDANCE WITH ACCEPTED HEALTH SERVICES STANDARDS AND THE DEPARTMENT'S COMPREHENSIVE HEALTH SERVICES PLAN

- Improve the operation of the Health Services Program through the development and training of health care staff.
- Maintain and update protocols and comprehensive procedures for each facility's health unit.
- Seek comprehensive staffing and equipment for health facilities including emergency equipment for treatment rooms.
- Continue development and implementation of programs for inmates with special needs due to mental, developmental and physical disabilities.
- Improve the evaluation and quality assurance program to maintain professional effectiveness of health services.
- Develop health services information system for implementation in all institution health services departments, and Office of Health Services.
- Develop and deliver staff training programs to implement effective health services management of the budgetary process and fund allocations.
- Improve health services discharge planning for inmates with special health needs.
- Identify health needs for FY 1987-88 through FY 1990-91 and revise DC Comprehensive Health Services Plan accordingly.
- Ensure that therapeutic diet menus are provided as ordered in conjunction with Food Services.
- Develop plans to meet medical needs as determined after review of recommendations of medical review team pursuant to *Costello v. Wainwright* Agreement.

8. PROVIDE MENTAL HEALTH CARE FOR ALL INMATES IN NEED

- Operate with contracted Services a 48-bed Mental Health Unit at South Florida Reception Center (SFRC) dedicated to treatment of offenders with mental health disorders.
- Continue expansion of the Treatment Team Concept and continue to utilize the Individualized Written Treatment Plan (IWTP) in all major institutions having mental health care providers. Fully implement problem assessment records plan.
- Continue use of state-wide medically accepted institutional screening methods for identifying inmates with mental disorders.
- Expand provision of staff training in basic mental health treatment concepts through more hours of in-service training.
- Establish intermediate care capabilities for inmates with chronic mental illness, especially day care facilities at Union Correctional Institution and Reception and Medical Center.
- Implement provisions of Corrections Mental Health Act related to women's mental health care with additional facilities at Corrections Mental Health Institution.
- Develop state-wide programs using specially trained and recruited mental health staff to develop programs in substance abuse treatment at all institutions.
- Recruit and develop a state-wide system of unifying and coordinating psychological assessments at all Reception Centers, and assure that the information derived is appropriately communicated.

9. IMPROVE THE QUALITY OF FOOD SERVICES FOR INMATES

- Continue to ensure that Master Menus and therapeutic diet menus, where applicable, are utilized departmentwide.
- Increase levels of staff supervision in food service areas by establishing additional positions.
- Develop and secure approval of a plan to equalize food service personnel salaries with comparable positions in the private sector, as well as other state correctional agencies.
- Continue to standardize purchasing procedures and improve procurement control.
- Utilize to the fullest extent possible nonstate sources of food, such as USDA, Child Nutrition and donated food.
- Continue to improve coordination of National Child Nutrition Program to maximize use of federal funding for improvements of food service operations.

10. ENHANCE RELIGIOUS SERVICES TO INMATES

- Increase religious opportunities for inmates to attend services of their own faith.
- Improve Chaplaincy Services by requesting Chaplain and Secretarial positions based on the following ratio:
All Major Institutions:
 - 1 Chaplain for the first 300 inmates.
 - 1 additional Chaplain for each 500 additional inmates.
 - 1 Secretarial position for each 2 Chaplains.
- Improve delivery of Chaplaincy Services by upgrading personnel, including pay and training required, and establishing a career ladder for Chaplains.
- Plan for separate facilities for religious activities in each Major Institution. The Department will pursue a program to construct Chapels at all institutions not having them through volunteer donations.
- Develop and establish an evaluation and quality assurance program for Chaplaincy Services to ensure accountability and program effectiveness.

11. IMPROVE THE DELIVERY OF SERVICES BASED ON SPECIFIC PROGRAM NEEDS

- Evaluate the special needs of the female offender and continue to develop Programs to meet those needs.
- Continue and increase efforts to assist ex-inmates to obtain employment related to vocational skills acquired during incarceration.
- Improve the identification of the needs of inmates in Community Correctional Centers, and structure policies, programs, resources and activities to meet those needs.
- Continue the joint efforts of the Department of Corrections and the Department of Labor and Employment Security to help the ex-inmate find suitable and meaningful employment.
- Develop a structured statewide citizen volunteer program.

12. IMPROVE EFFICIENCY, PRODUCTIVITY AND ACCOUNTABILITY

- Continue to ensure that chains of command, areas of responsibility and authority are clearly defined.
- Continue to improve communications between employees and supervisors.
- Continue affirmative action programs to ensure wider employment and promotion of females and minority groups.
- Continue to improve fire safety and preventative maintenance procedures in all facilities.
- Continue to develop new plans for conserving energy.
- Standardize automated systems for accounting and personnel to ensure maximum quality of product.
- Acquire resources necessary to respond to the increasing number, frequency and magnitude of requests by the Department of Environmental Regulation.
- Facilitate statewide inter-departmental communication through the implementation of office automation techniques.
- Establish a monitoring system to determine the progress being made on accomplishing these goals and objectives.

13. CONTINUE TO IMPROVE CORRECTIONAL WORK PROGRAMS

- Identify and reduce inmate idleness where it exists in major institutions through development of appropriate programs.
- Strengthen the development and coordination of inmate work opportunities in non-industries areas, such as Public Works, Department of Transportation, Community Services projects and interagency work squads.
- Continue to assist the work of the Prison Rehabilitative Industries and Diversified Enterprises, Inc. to provide more effective and efficient management and administration.
- Assist PRIDE in inmate assignment and job placement following release.
- To work with the Bureau of Staff Development in the development of additional training programs for non-DC supervisors relating to Public Work Squads.

14. DEVELOP CONTINUING PLANNING, RESEARCH AND EVALUATION SYSTEMS INCLUDING AGENCY FUNCTIONAL PLANNING, POPULATION FORECASTING, PROGRAM EVALUATION AND STATISTICAL REPORTING

- Design and implement a work plan for continuation of Agency Functional Planning.
- Update the Department's Goals and Objectives annually.
- Design and implement a model program evaluation system, including automated statistical data bases.
- Evaluate 20% of the Department's programs annually.
- Produce the Department's Annual Report by December 15th and distribute Report.
- Coordinate the acquisition of additional federally funded grant projects.
- Develop an automated population forecasting model.
- Develop an extensive automated program catalogue necessary to fulfill statistical requirements for the Annual Report, monthly recurring reports and other statistical analysis needs.
- Complete Annual Report statistical sections by October 1 each year.
- Complete federally funded grant projects as scheduled.

ACTIVITIES SECTION

EMERGENCY PREPAREDNESS

Emergency Preparedness Training: During FY 1985-86, the Department conducted six sessions of Emergency Preparedness Training for Chief Correctional Officers and for managers who had not previously received the training. Approximately 215 Department of Corrections personnel attended the sessions. Three of the 40 hour courses were held at the Florida Corrections Academy at Vero Beach. Two courses were conducted in Region I at Marianna and one course was held at Florida State Prison. The courses included major presentations concerning internal factors affecting emergency situations; disturbance and disorder planning; hostages and bondage situations; organizational leadership and change; and principles important to becoming a correctional officer.

Corrections Emergency Response Teams: The Department recognized the need for a capability to handle extreme emergencies at correctional institutions using modern tactics and equipment. Corrections Emergency Response Teams (CERT) evolved from this original concept. Fifteen major institutions in the Florida Correctional System are authorized CERTS. All correctional officers on the teams are volunteers who have met stringent selection criteria. The six man teams are comprised of a team leader, an observer, a scout, a marksman, a medical specialist, and a rear guard. Initial training consisted of a 40-hour advance course in tactical problems, a second 40-hour session focuses on special weapons and tactics. Team members are also taught advanced emergency medical procedures. All must qualify annually with the AR-15, .38 Caliber Police Special, shotgun and .22 Caliber Derringer. Marksmen are required to fire at least 50 rounds per month with a .223 Caliber Remington Bolt Action Rifle at ranges from 100 to 200 yards. Re-qualification and re-examination of CERT members is required each year in the areas of weaponry, physical fitness, strength and endurance and emergency plans. The CERTS are control forces to be deployed at the institution where extremely hazardous control problems have developed, such as hostage situations or where inmates have barricaded a part of the institution. Control problems of a less severe nature, e.g. small scale riots and disturbances are handled by Correctional Officers assigned to Confrontation Control Force Squads. During FY 1985-86, all authorized institutions completed the required training for their CERT. There was no requirements to deploy CERT during this fiscal year, however, the teams continue to maintain a high level of readiness to meet the future emergencies when and if they occur. In order to motivate CERT personnel to remain at peak proficiency, a Statewide competition for CERT and other emergency response teams has been scheduled during FY, 1986-87. Future program developments will include training for Hostage Negotiating Teams.

A CERT trainee rappels down the practice tower of the Reception and Medical Center Training site.

A CERT competitor adjusts his equipment prior to entering competition.

A confrontation Control Force practices handling a minor disturbance.

INSTITUTION DEVELOPMENT AND INMATE PROGRAMS

New Correctional Institution for Female Youthful Offenders: The 1986 Legislature authorized the acquisition of a new institution for female youthful offenders by appropriating \$300,000 in start up costs so that the project can commence in 1986-87. An additional \$8 million dollars will be budgeted next year for construction to continue. A planning committee has been organized to move the project forward. The 200 bed facility is scheduled to be located in Orange County. Programs will emphasize education and vocational training of female youthful offenders. The projected opening date of the facility is June, 1989.

Quick Construction Beds: As rapidly expanding inmate populations pressed the capacities of the State's facilities, the Department has been aggressive in its efforts to meet the increased need for beds. Efforts to construct additional capacity rapidly resulted in the approval for construction of dormitories capable of housing inmates with minimum or medium custody classifications. Rapidly built housing for inmates was scheduled for construction at eleven correctional institutions and facilities. A total of 591 beds will be added to the Department's System Maximum Capacity upon completion of all construction. Funds allocated for the project amounted to \$1,300,000. These "quick construction" beds help in dealing with increased populations; however, the Department has an urgent need for facilities in which to house the more difficult inmates. These are more costly and take longer to construct, and most of them should be of the single cell configuration. The prototype plans used to construct Martin Correctional Institution, a new institution (672 single cells) in Orange County, are expected to be used over and over again as funds are available to construct future institutions.

Inmate Work Programs: Under a program authorized by the 1986 Legislature, inmates from Florida correctional institutions are employed to clean up and landscape public roadways and parkways in counties throughout

Inmates from Brevard CI at work on a county beautification project.

Inmates from Avon Park CI at work renovating a local High School football press box.

the state. Specially screened and selected minimum and medium custody inmates are used for the improvement of privately owned property. Typical examples of the new program includes two seven-man inmate crews from Brevard Correctional Institution which work 40 hour weeks on assignments received from Keep Brevard Beautiful, Inc., the county beautification organization. Other teams of ten and seven inmates work at the county Sheriff's Department Farm and for the Department of Transportation, respectively. Martin Correctional Institution daily checks out four work squads to work on roadside maintenance for the Department of Transportation. Another squad is providing roadside and park maintenance for St. Lucie County. Utilization of inmate labor from Zephyrhills Correctional Institution saved an estimated \$86,000 in wages in the construction of the San Antonio Boy's Village Detention Center. The 17,286 square foot building is divided into living areas, classrooms, administrative offices, a recreational area and a porch. In addition to providing a cost savings, the use of inmate labor allows a number of inmates to sharpen their work skills in building construction and has been a positive influence, allowing them to work in the community and providing a sense of accomplishment. Their closely supervised interactions with the residents of Boy's Village has the side effect of helping the residents understand the conse-

quences of being a law breaker. Inmates from Avon Park Correctional Institution also were involved in providing assistance to the local community. Several projects for local schools in the community were completed, including renovation of the High School football field press box.

Management and control of inmate funds: Accountability for inmate personal funds has been a continuing challenge to the Department of Corrections. Lack of staff with expertise in fiscal management and use of antiquated equipment has resulted in audit criticisms of the control process. During FY 1985-86, the Department developed a plan to remedy the situation. The plan consists of two major objectives, the automation of the accounting system and the reassignment and centralization of the accounting function. The computer system currently used at major institutions will be expanded to account for inmate funds and modified to meet the unique aspects of Community Facility operations. Modern banking technology makes it possible to receive and disburse funds through a network of remote locations while maintaining control and accountability at a central point. Thus, the Department is able to reassign responsibility of accounting for personal funds of inmates in community facilities to the administrative staff of its five Regional Offices. By consolidating the workload, the Department will economize staffing while assigning responsibilities for accounting and fund administration to staff with the expertise to handle them. Resources to accomplish the planned changes are being requested in the FY 1987-89 Legislative Budget Request.

Youthful Offender Wilderness Program: Under a contract between the Department and Associated Marine Institutes, Inc., a multi-phased wilderness program for thirty youthful offenders was scheduled to commence in Mid-February, 1986. Delays in construction schedules caused by resolution of zoning and environmental problems surrounding the Program's wilderness camp area in Charlotte County have set back its commencement until August, 1986. Phase I of the program involves offenders living under austere conditions and participating in rugged work on environmental projects where they acquire physical and mental skills and establish positive patterns in working and learning. Evenings are occupied with motivational short courses and beginning educational sessions aimed toward acquiring a General Education Development certificate. In Phase II, inmates work one half day on environmental and community projects and spend the other half day in career education and development and vocational training. Motivational courses in the evenings continue. Living conditions in Phase II are less austere than in Phase I and increased privileges are granted. Phase III of the program allows the offender to return home or to an approved residence where he will be guaranteed employment and encouraged to pursue higher educational goals and vocational skills improvement. A six point list of criteria for selection to participate in the Wilderness Program ensures that inmates express a desire to participate; are males 18 years of age and younger; minimum custody grade; with a minimum of 12 months and maximum 24 months remaining to serve; physically fit and eligible under Departmental rules regarding extension of the limits of confinement.

Dormitory under construction at Crossroads Wilderness Institute.

Community Education Services Program: Hillsborough Correctional Institution launched an inmate participatory Community Education Services Program (CESP) in late 1985. The Program assists the community through presentations given in Junior and Senior High Schools, particularly addressing alcohol and drug abuse issues. The Program was expanded to include a series of inmate presentations to Intensive Learning Alternatives (ILAP) classes in both Hillsborough and Pasco Counties, beginning in March, 1986. It features youthful offenders who present some of their background with substance abuse problems and how these problems led to their current incarceration as well as other encounters with law enforcement officials. Inmates are selected after a combined screening effort of the institution's Classification, Security, Education, Psychological Services, and Administration departments. School Resource Officers select classes for presentations to be made. Trips to area schools, beginning December 20, 1985 became much more frequent throughout the school year. The pilot study for CESP was completed at Brandon's Armwood High School in December, 1985. Statistics generated via questionnaire, completed by 104 students ranging in age from 14-17, indicate the Program is accomplishing its objectives of increasing awareness of dangers inherent in drug/alcohol abuse by drivers and passengers; and motivating students to take an active role in sharing important information gained in the Program with other students and friends who may be instrumental in preventing drug-influenced and drunk driving. Presentations

were made in seven schools in the Tampa Bay area; students in attendance numbered about 800. Thus far, twelve (12) individual youthful offenders have been involved in the program.

In similar programs, the Impact Team of the Avon Park Correctional Institution's Youth Awareness Program made twenty-nine presentations to area schools about criminal oriented life-styles and the consequences of incarceration. Team visits exposed over 8,000 young people to information about the realities of imprisonment. Another 500 youth visited the Institution for a first hand look at prison life.

HEALTH CARE SERVICES

Health Services Management Developments: The Department was greatly occupied during the fiscal year in dealing with various issues related to inmate health care services and the Costello v. Wainwright litigation. The DC response to the interim report of an expert panel of medical authorities was filed on June 28, 1985. Since that time, several additional institutions have been surveyed and the Reception and Medical Center Hospital has been under continuous review. In August, 1985, the United States District Court, Jacksonville Division, sought to bring to an end the protracted litigation by appointing a Special Master to closely monitor progress in health care improvement. Also in 1986, the Deputy State Attorney General convened a working group to explore possible avenues to take in carrying out needed improvements. A number of options were developed by the working group.

In June 1986, the Legislature's proviso to the Appropriations Act required the Department to develop a plan to improve the delivery of health care for inmates. The Plan is to provide detailed discussion of the philosophy and concepts of inmate health care and specific policies relative to the operation of DC Health Care Facilities. Additionally, the 1986 Legislature appropriates \$16 million above and beyond requested budgets to improve prison health services. The bulk of the additional allocation (\$10.8 million) is channeled toward continued decentralized community hospitalization of inmates, their speciality services and physician's fees. Another major segment of the allocation is for 340 new positions.

Automated Health Services Management System: The Department's health activities received increased attention internally and externally during FY 1985-86. The Legislature has for several years increased the funding and authorized positions in response to requests from the Department and guidance from the courts. To support an improved health program, an automated department-wide health services computer system for the professional management of highly significant health data on each inmate patient is under development for implementation in FY 1987-88. All required computer programs are being developed by in-house staff supported by outside contracts as necessary. The programs, after coordination, testing, and debugging, will be pilot tested at selected locations. The final result of this project should be the provision of vital health information to all professional management levels where actions crucial to improved and routine health care are being made.

Housing Units for AIDS Patients: The Reception and Medical Center opened the Florida Department of Corrections AIDS Housing Dormitory on June 1, 1986. The dormitory is supervised by Correctional Officers in the same manner as other inmate dormitories. Medical staff make routine rounds of the inmates housed there. The facility is capable of housing 40-50 inmates, but presently houses between 8 and 16 inmates. Inmates housed in the dormitory are those who have been positively identified as AIDS victims whose infections are in a state of remission. The Department's AIDS Housing Dormitory is considered a "state of the art" facility in dealing with AIDS in a correctional setting, comparing very well with the best similar facilities nationwide.

The dormitory for AIDS inmate-patients at the Reception and Medical Center Hospital.

Hospital Clinic Expansion: Construction of a modern Outpatient Department at the Reception and Medical Center Hospital began in 1986. The facility represents an expansion of the existing outpatient clinic and will serve to accommodate the recent increases in new commitments to the Department of Corrections. New Laboratory and Radiology Departments and a Physical Therapy Facility are included in the expanded clinic. Construction will also include ten physician's offices and much needed storage space. The new facility costs \$1.5 million, including laboratory and radiology equipment.

Improvements in Mental Health Services: A new mental health clinic was designed at Zephyrhills CI and built with inmate labor. The modern 1500 square foot, climate controlled building includes sufficient space to contain facilities for video and audio taping of inmate-patients for treatment and supervision purposes. Along with treatment and testing facilities, administrative space is also provided for six full time mental health staff. More than 633 therapy sessions were provided in the six-month period between January and June, 1986. Sixty-six psychological evaluations were provided to classification and probation and parole authorities during the period.

Construction under way on the new out-patient Department at the Reception and Medical Center Hospital.

EDUCATION SERVICES

Correctional Educational School Authority: Sweeping changes in Correctional Education were made by the 1986 Legislature through the enactment of a law providing for the creation of a Correctional Education School Authority. The legislation requires the establishment of a Board of Correctional Education and the position of Director of Correctional Education who is responsible for administering the policies set by the Board. The Board is composed of nine members: they are the Commissioner of Education, the Secretary of Corrections, five voting members knowledgeable of educational or correctional issues appointed by the Governor and confirmed by the Senate, The Secretary, Department of Labor and Employment Security and The President of Prison Rehabilitation Industries and Diversified Enterprises, Inc. (PRIDE). The School Authority will be responsible for the complete management of all education services for inmates within the Department of Corrections. Transition of management of education services from the Department to the School Authority must be accomplished by July 1, 1987.

Training Technology: Recent Federal Funding which provided equipment and leader training has enabled inmate students at Baker, Marion, and Sumter Correctional Institutions to master the complexities of computer assisted drafting. This "state-of-the-art" training provides successful inmate students with increased employment opportunity in fields such as engineering design and architecture where drawing board, slide rule and scale are being widely and permanently displaced by the electronic screen, digitizer, and keyboard.

Literacy Program: The high percentage of functionally illiterate youthful offender inmates under supervision of the Florida Department of Corrections prompted development of a tutoring program by the Chaplaincy Services Department in conjunction with the Education Department at Hillsborough Correctional Institution. The program is based on the concept "each one teach one", otherwise known as the Laubach Method after its founder Dr. Earl Laubach. Originally developed for use in missionary work in The Philippines, the method has been adapted for use in a correctional setting.

Joe O'Guin, Drafting Instructor at Baker Correctional Institution instructs an inmate student in the use of computerized drafting equipment.

CORRECTIONAL OFFICER STANDARDS AND COMPENSATION

Criminal Justice Standards for Correctional Probation Officers and Supervisors: A major effort during FY 1985-86 resulted in the statewide implementation of completely revised Performance Evaluation procedures. These were followed by uniform performance standards for both Correctional Officers and Correctional Probation Officers. Correctional Probation Officers, Supervisors, and Administrators were recognized by the 1986 Legislature in dramatic fashion in that they were placed under the Criminal Justice Standards and Training Commission. Effective October 1, 1986, they will be required to meet the same employment and training standards applicable to all current Florida Law Enforcement and Correctional Officers.

Correctional Officers and Correctional Probation Officers Compensation: While the statewide starting salary for Correctional Officers has been increased several times since 1979, it still remains almost 3% below State Law Enforcement Officers. Although the increases have assisted in reducing Correctional Officer turnover significantly, turnover among Correctional Officers remains higher than that among Law Enforcement Officers. Correctional Probation/Community Control Officers also are paid less than other law enforcement staff, even though they must meet elevated educational and experience requirements. The Department successfully pursued and the Legislature granted substantial salary increases for Correctional Officers and Correctional Probation/Community Control Officers effective January 1, 1987. However, salary levels still lag behind State Law Enforcement salaries.

Turnovers in Correctional Officer and Correctional Probation/Community Control Officer positions continues to run at an unacceptably high rate due to differences in competitive area differential compensation for the Southeast Florida area. This situation is expected to improve now that the Department has been authorized a special competitive area differential for Correctional Probation Officers working in Southeast Florida.

Correctional Probation Officer Andrew Elliott instructs a new probationer in the rules governing his probation.

Today's Correctional Officer must meet demands of increased technology and administration.

Community Control Officer, Jon Wright, making a residential visit.

PROBATION AND PAROLE SERVICES

Electronic Monitoring: During FY 1985-86, the Department reviewed proposals for the deployment of electronic surveillance devices. Some of these devices limit the Community Controllee to a radius of 150 feet from their home telephone and allow for continuous 24 hour per day surveillance. Plans include using this type of equipment in a conceptual program known as "Community Control II" which would provide a sentencing alternative to prison for "harder to control" offenders and provide for some additional prison diversions. A pilot project to test this surveillance system is scheduled during the coming year. Also being considered for use in another pilot project is a paging system and an electronic verification device intended to enhance the Community Control Program.

"Inmate end" components of the electronic surveillance device being tested in Broward County.

Community Control Officer Caseloads: The use of Community Control as an alternative to imprisonment by the courts is continuing to exceed expectations. As of June 30, 1986 there were 5,408 community controlees under supervision. Since the program started October 1, 1983, there have been 2,089 revocations with 1,246 of these for technical violations and 843 for committing either a new misdemeanor or felony offense. A total of 13,221 have been placed in Community Control since its beginning. Based on the Sentencing Guideline Scoresheets, 70.6% of these cases are "bona fide" prison diversions.

Community Control has received considerable national attention including coverage on the ABC Good Morning America Show and ABC 20/20. Additionally, articles have appeared in several national publications. It has been designated as a model program by the Council of State Governments and program material has been sent upon request to the majority of states and some foreign countries. Adequate staffing and provision of other necessary resources are paramount to the success of this Program. Florida Statutes require caseloads not to exceed 20 offenders per Community Control Officer. As of June 30, 1986, 5,408 offenders were under supervision in the Community Control Program and new intakes to the program were averaging 371 per month. The Department has had to continually drain off staff from regular Probation and Parole Services to adequately staff the mandated Community Control Program.

Almost 20% of Probation and Parole resources are now allocated for this purpose. The results of this condition include loss of confidence by the courts and inability to effectively supervise offenders and protect the community. Additionally, probation revocations have increased resulting in additional prison commitments. In order to maintain Community Control as an effective diversionary alternative, as well as maintain the integrity of regular probation, the Department is working to establish it as a separate funding entity.

Collection of Cost of Supervision Monies: The Cost of Supervision Program continued to produce excellent returns. In FY 1985-86, staff collected about \$12 million in cost of supervision payments, which were returned to the State Treasury. This represents an increase of 29% over the prior fiscal year.

Probation Supervision: Probation is continuing to provide the major diversionary alternative to imprisonment. However, the success and growth of Community Control "house arrest" programs has adversely affected probation due to the necessity of transferring a large number of Correctional Probation Officer positions into Community Control in order to maintain the limit of 20 cases per Community Control Officer imposed by Florida Statutes. Probation supervision has continued to deteriorate due to officer caseloads which, in some areas, have reached as high as 140 offenders per officer. The results have been those mentioned above, a loss of confidence by the courts, and a reduced ability to effectively supervise the offender. Frustrated officers have resigned and the turnover rate has increased as morale has lowered. The Department continues to seek approval for an officer to offender caseload ratio in accordance with the Workhour Formula of 1:56 for youthful offenders and 1:81 for adults, with full funding for non-discriminatory investigations ordered by the Court. Such approval would enhance the use of probation and community control as diversionary alternatives.

Community Control Officer Robert Woody (L) makes an employment verification visit to one of his controlees place of work. He is accompanied by citizen volunteer John Malcomb (R).

STAFF TRAINING AND DEVELOPMENT

The Florida Corrections Academy: During FY 1985-86, the Department relocated the Correctional Training Institute to Vero Beach and renamed it the Florida Corrections Academy. An excellent classroom building and acreage were provided by Indian River Community College at a satellite location and plans were made to construct an administrative wing and a separate dormitory. Also, a cooperative training and college-credit program was approved by the Department and the College.

The Florida Corrections Academy Advisory Board, (L to R) Bill Beardsley, Internal Inspector; George Denman, Superintendent; Phillip Shuford, Director, Region I; Joe Papy, Budget Officer; Joe Palmer, President, National Academy of Corrections; Howell Winfree, Regional Administrator, Probation and Parole; Bernard Cohen, Chief, Bureau of Staff Development.

Interactive Video Training: Software was developed for use in Self-Study Learning Centers and training staff were recognized by the American Correctional Association for this achievement. Contracts were let for the development of three forty-hour courses and one eight-hour course during the next fiscal year. The Self-Study Learning Center, one of which is planned to be located at each major institution, will provide an opportunity for employees to receive independent training for short periods of time during all hours of the day. Bureau of Staff Development will produce and distribute self-instructional programs consisting of video tapes, related printed materials, program texts and other self-study modules. Toward this end, video production capability of the Bureau was enhanced through the purchase of equipment and training of key staff. Also, the video library and equipment available to field training officers was upgraded.

New video production equipment used by Staff Development to produce interactive video training lessons.

Staff Physical Fitness: The Department of Corrections has joined the movement toward promoting healthy employee life styles in the workplace. In the last three years, the Department has taken vigorous measures to encourage employee involvement in physical fitness activities. Physical fitness equipment and facilities are available at many correctional institutions and a facility was provided for Central Office Staff in FY 1985-86. During the fiscal year, classroom training in nutrition and the benefits of physical exercise were presented to interested Department personnel. The Bureau of Staff Development is developing plans for providing physical fitness opportunities in locations other than major institutions to facilitate use by Probation and Parole, Community Facilities, and Regional Office Staff. January 1, 1987 is the target date for these plans to commence.

COMMUNITY FACILITIES

Opa Locka Community Correctional Center.

New Facilities Open: Region IV Community Facilities opened two new facilities during 1985-86. The Opa Locka Community Correctional Center is a 150 bed work release center, located in north Dade County, across from the Opa Locka Airport and Coast Guard Air Station. This is a modern facility which has won design awards for the architect, because it is so uniquely functional.

In Palm Beach County, the Palm Beach Probation and Restitution Center was opened, but was temporarily designated as a transit facility for state inmates approved for work release, and waiting for a bed to become available at a community correctional center. This decision was made as part of the Department's efforts to handle overcrowding. The building also houses Probation and Parole Offices, and upon completion of on-going renovations, will include a 150 bed Community Correctional Center for men. In addition, there are 10 women assigned to a Probation and Restitution Program.

The new Palm Beach Probation and Restitution Center was formerly the Palm Beach County Jail.

Private Contracts: During the year, Region IV became the first Region to enter into a contract with a private firm to operate a Community Correctional Center. National Corrections Management, Inc. began the operation of Beckham Hall Community Correctional Center in October, 1985. This is an initial step in Departmental efforts to expand the use of Community facilities by increasing the number of contractual agreements with private agencies for the supervision of work releases and for provision of specialized treatment programs.

INTERGOVERNMENTAL COORDINATION

Jail Population Data: As a result of the passage of SS 951.23 (2), Florida Statutes, the Department of Corrections developed an instrument to collect offender information from the administrators of county detention facilities on a monthly basis. The County Detention Facilities Monthly Report was initiated in October of 1985 and data was collected for the month. Seventy-five percent of the County Jail Administrators submitted the requested data for October and by January of 1986 all administrators were complying with the data submission requirements of the Act.

This particular process provides a long needed jail data resource which identifies, on a monthly basis, prisoners being held in county detention facilities. The information being collected and consolidated into monthly reports separates the data by male/female and by adult/juvenile. The data being collected for adult males and females is separated into three classifications; felonies, misdemeanors and miscellaneous other violators. Data collected for juvenile males are categorized under those charged as adults for misdemeanors.

The County Detention Facilities Monthly Report requires that each county facility maintain daily population figures for the previously mentioned prisoner categories. Prior to submitting the monthly report to the Department of Corrections, there is also a requirement that a daily average for each prisoner category be calculated. In order to insure each prisoner is only counted once, instructions for categorizing people in custody were forwarded to each administrator of county jails.

Jail Improvements: During the past year improvements to many of the county detention facilities in Florida have been brought about through inspections of the facilities by the Department's Office of the Inspector General. Specific areas where jail improvements have been made include construction standards; programs; security and control; fire safety; sanitation; housing; and medical services. Through the Department's urging, health care and fire safety in county jails attracted the attention of the legislature in 1986. The Legislature amended s.951.23, F.S., to allow the Department to contract with a health care provider to perform comprehensive and exacting medical inspections of inmate health care in all county and municipal facilities. The health care inspections of county detention facilities by the private contractor are conducted in coordination with the semi-annual inspections by the Office of the Inspector General. The legislative amendment also required the managing body of the county or municipal detention facilities to contract for fire safety inspections. The Legislature stipulated that the inspections are to be performed at least once a year by personnel certified by the State Fire Marshall's office as fire safety inspectors. As a result of Legislative action and the continued efforts of the Department's Office of the Inspector General, conditions in and standards for county and municipal detention facilities in Florida continue to improve.

DEPARTMENTAL EFFICIENCY

The Offender Based Information System (OBIS): During FY 1985-86, OBIS, the Department's automated process which tracks felony offenders through the Corrections System, achieved maximum utility thus far. The concept for the system was developed in the early 1970's and was implemented on July 1, 1978 after extensive research and planning. Since that time, the system has evolved to its present full on-line system for data entry and query capabilities. The System is capable of tracing pertinent data for each felony offender through probation, incarceration, parole and eventual release from the State Correctional System and the Florida Parole and Probation Commission. Major features of the System include tracking external and internal movements, legal status, personal custody, gain time, disciplinary reports, classification, detainers and warrants, cost of supervision progress reports, daily population and management reports, reporting to national agencies, inmate bank transactions, and inventory control.

The System has brought major benefits to the Department, eliminating many forms of manual calculations; providing a centrally stored data base available to all Department staff; enabling the monitoring of inmate population levels and parole and probation caseload levels; maintaining records of cost of supervision payments of offenders under community supervision and permits control of all Department of Corrections numbers for inmates and new offenders entering the system. OBIS is currently tracking approximately 372,000 offenders, which involves processing 1.3 billion characters of information in the data base.

Automated Transfer System: In an effort to more efficiently manage the Department's constantly increasing inmate population, a contract was negotiated with a computer consulting firm in early 1986 to automate the Department's transfer system. This program is designed to automatically select individuals for transfer to pre-approved destinations as vacancies occur. Transfer orders and route schedules will be generated by the computer system and will enable this Department to maintain individual institutional population quotas more efficiently. The program has been written and is scheduled for implementation during the Fall of 1986.

Correctional Probation Officer Sam Richardson, observes as Data Entry Operator Laura Lemonds call up data on a terminal in the expanding network of automated office systems of the Department.

Automated Office System: The Department's effort to provide an integrated statewide office automation/word processing capability began with a comprehensive study of needs by the Information Resource Commission staff in 1984. That document has served as the basis of legislative budget requests for an automated office system for the last three fiscal periods and as a basis for submission of Information Resources Plans. The Plans envisioned installation of equipment and programs in the Central Office and Regions in the first year; development and implementation of pilot projects for systems to serve the probation and parole and the reception processes in the second year. In the third and fourth year, installation of equipment and programs in all major institutions and community facilities was to be completed followed by installation of a networking system for statewide operation.

Funds have not been provided to carry out this ambitious program. In spite of that, however, the Department has managed to use the funds available in complete compatibility with the original program intent. While there is not yet a networking capability, automated equipment is available to a majority of the offices of the Central Office and Regions. Pilot projects are underway in several of the major Probation and Parole Offices and Reception Centers. The Department will continue to seek funding of the Information Resource Plan as a high priority need in the forthcoming legislative budget request.

Training Workshops for Fiscal Staff: In furtherance of its goals to improve the timeliness, accuracy and understanding of financial data, the Office of Management and Budget has developed and delivered basic level training programs and workshops to Departmental fiscal staff. Further plans to expand the office's instructional role to middle and upper level manager to assist them in interpreting the data generated by the accounting system have been developed. In addition, the Office of Management and Budget has begun the implementation and monitoring of new guidelines to ensure consistent and proper classification of all expenditures and to require adoption of full accrual accounting methods.

OTHER IMPORTANT ACTIVITIES AND ISSUES

Supervised Community Release Program (SCRCP): During the latter part of fiscal year 1985-86 the Department was experiencing one of its worst population increases and in danger of exceeding the maximum cap mandated by Federal Court order in the Costello Agreement. The Legislature developed and passed legislation that was to provide immediate relief and at the same time provide an effective rehabilitative community reentry program for carefully selected eligible inmates. The Governor signed into law on June 3, 1986, the Supervised Community Release Program. Within the first 30 days of the program 785 inmates were released under supervision keeping the Department below the Costello maximum and the newly established state prison population cap.

The Supervised Community Release Program allows selected inmates at Community Correctional Centers who are within 90 days of their expiration of sentence to be released under a conditional release. Probation and Parole Officers provide intensive community supervision, enhancing an orderly and structured return of inmates to the community; thus, greatly increasing their opportunity for success. Releasees are no longer under the care and custody of the Department, but remain subject to disciplinary sanctions and may continue to earn incentive gain time. Inmates remain under supervision in the community until the completion of sentence, unless they violate the conditions of release. Violations of the conditional release may result in return to prison until their sentence is complete. The Supervised Community Release Program is expected to be a valuable resource in population management and in assisting inmates with their reentry into the community.

Affirmative Action: The Department has continued its progress in the area of Affirmative Action. The annual goals were met by increasing minority employment from 22% to 23% and female employment from 30% to 31%. This reflects the Department's consistent efforts since 1971. The past 15 years have seen minority employment increase by 18 percentage points from 5% to 23% and female employment also increase by 18 percentage points from 13% to 31%.

A group of Department employees participate in an in-service training class.

Training: Training continued to be a major focus for the 11,500 employees of the Department, all of whom received 40 hours of in-service training. Also, 1,500 new Correctional Officers completed the 320-hour Basic recruit course and 40-hour orientation course during their first year of employment. Additionally, the Bureau of Staff Development completed a 4-year project that provided a 160-hour Supplemental training course to over 4,000 Correctional Officers in all ranks who had completed an earlier 160-hour Basic recruit course at the time of their employment.

A Department of Transportation dump truck being overhauled in PRIDE's heavy Equipment renovation facility at Tomoka C.I.

Warehouse expansion of PRIDE's printing plant at Zephyrhills C.I.

PRIDE Progress: October 28, 1985 was the opening day of the newest Prison Industry Program in the Florida Correctional System. Prison Rehabilitative Industries and Diversified Enterprises, Inc. (PRIDE) established a heavy equipment renovation operation at Tomoka Correctional Institution. Approximately 26 inmates participate in the program, learning and applying mechanical and body work skills in refurbishing trucks, earth moving equipment and busses.

On June 25, 1986, the PRIDE printing industry at Zephyrhills Correctional Institution opened an extension to the existing printing plant. The new addition will house receiving and shipping operations and inventory control. The 51,840 cubic foot, steel, prefabricated building is air conditioned to preserve the paper stocks stored on three-tiered steel shelves. The work space in the original building which was made available by opening of the extension, now contains new equipment, specifically a Heidelberg 25 1/4 x 36" press and a 45 station collator.

PROP Progress: A pilot program tested at Lake City Community Correctional Center has proven to be very successful. the Pre Release Orientation Program (PROP) was developed by Growth Orientation, Inc. in conjunction with Florida Department of Corrections. The program is designed for minimum custody inmates approved for work release. It is intended to prepare inmates for the outside world through an intensive transition and decompression period between the institutional setting and work release. PROP is a four-week workshop which allows participants to evaluate themselves and to learn such skills as preparation of job applications, financial planning and suppression of hostilities. Groups are lead by 6 to 8 inmate counselors selected by the Department and trained by Growth Orientation, Inc.

Basic Release Assistance: The Department continued to emphasize the Basic Release Assistance Program (BRAP) to insure that all qualifying inmates needing immediate assistance regarding housing or employment were referred to local community resources for placement. During FY 1985-86, 5,069 inmates were assisted in this manner. A total of \$421,000 was disbursed as part of the assistance provided to releasees. Department liaison staff in the field established and maintained close working relationships with community resources, using maximum program availability to released inmates.

The Program has proven to be a valuable asset in the management of the inmate population crisis during the year. An average of 20 inmates per day were released on a average of 25 days early. These releases totaled 126,725 cumulative days of early release, freeing many critically needed beds.

The Basic Release Assistance Program has been effective in assisting reentry of inmates to the communities. Since its inception in October, 1983, only 6% of those placed on BRAP have be re-incarcerated.

Department of Corrections Meritorious Service Awards: The Department's Meritorious Service Awards Program was developed in FY 1985-86 to recognize and reward employees in various categories for exceptional contributions and for sustained satisfactory performance. Authority for the Program was devised from the Florida Statutes. The Program is divided into four components; suggestions awards, service awards, superior accomplishment awards and special recognition awards. Recipients are eligible for cash and honor awards as prescribed by Awards Committees and approved by The Secretary of Corrections. The Program developed in FY 1985-86 also provides for recognition of volunteers, citizens and employees of other agencies for their exceptional service or contributions to the Department.

Certification of Grievance Program: The grievance program for the Department of Corrections offers an important avenue for inmates to register complaints about their treatment and, if their complaints are valid, to have their problems resolved. Often problems can be resolved early on, correcting procedures as necessary and avoiding costly litigation. The Grievance Program for the Department is a three level system, an informal level allows an inmate to discuss his complaint directly with staff of the institution verbally. A formal institutional level grievance requires the inmate to submit an official form. The grievance is then investigated formally at the institution and the inmate is provided a response. The third level of the grievance system involves submission of a grievance appeal to the Central Office. The complaint is reviewed and investigated again, if necessary, by the Grievance Administrator. Florida Statutes require the Department's grievance procedures to conform to Title 42, United States Code. The Department submitted the initial application for certification to the United States Department of Justice in October 1985 in compliance with the Statutes. Upon final certification, the end result of the process will be an inmate grievance system for the Florida Department of Corrections that meets nationally recognized standards.

Governor's Advisory Committee on Corrections: Throughout FY 1985-86, the Governor's Advisory Committee on Corrections has continued to provide valuable guidance and assistance in a multitude of issues concerning corrections in the State. Under the strong leadership of Attorney General Jim Smith, many of the Committee's recommendations have become law or are now among the Department's Rules or Policies. The committee has not shied away from critical issues as a brief examination of recent activities will show.

The professionalization of Correctional Officers has been a top priority of the Advisory Committee. Simultaneous efforts to raise employment, expand training programs, and increase salary and benefits were among the recommendations urged upon the Governor and Legislature. Many gains have been made in increasing the starting salary of Correctional Officers to its present level. Also, the Committee strongly advocated consolidation of the Standards Commissions for police officers and correctional officers into the current Criminal Justice Standards and Training Commission.

Recognizing competition is strong for quality employees in Southeast Florida, The Advisory Committee vigorously supported an increase in competitive area differential pay for correctional officers to equal that paid law enforcement officers in the area. To right a more critical inequity, the Committee recommended establishment of a competitive area differential for Correctional Probation Officers at a level equal to that of correctional officers.

Throughout recent periods of critical overcrowding, the Advisory Committee worked vigorously to assist in addressing the problems. While supporting every effort to find alternatives to incarceration and utilize them, the Committee worked to convince the Governor and Cabinet to exercise eminent domain over property which, when exempt from county zoning ordinances, could be used to expand correctional facilities. The importance of accurate prison population projections to the management of overcrowding also concerned the Committee. Aware that existing procedures for population projection were inaccurate, Chairman Smith and the other committee members suggested that alternative and/or additional methods for projecting prison populations be developed, an effort which is now ongoing. Further, the Committee urged the enactment of an emergency release mechanism enabling the Governor to take steps to control the prison population in the event it might exceed the court mandated cap.

The above issues are but a few of those confronted by the Governor's Advisory Committee on Corrections. Other key issues include: addressing prison industries and inmate idleness; mental health and medical issues; establishment of inmate grievance procedures; sentencing guidelines; and alternatives to incarceration, such as Community Control and Probation services.

Interest in correctional issues and the commitment to improvement of the Florida Correctional System have been hallmarks of the Advisory Committee. Chairman Jim Smith has served the State well in leading the dedicated membership of the Committee to its many accomplishments.

Attorney General Jim Smith (L), Chairman of the Governor's Advisory Committee on Corrections discusses correctional issues with Deputy Attorney General Bill Bryant (c) and Deputy Secretary of Corrections David Bachman.

ACHIEVEMENTS

The Walter Dunbar Accreditation Achievement Award: The Dunbar Committee of the Commission on Accreditation of the American Correctional Association, at its meeting at San Diego, California in January, 1986, unanimously selected Secretary Louie L. Wainwright to be the recipient of the Third Annual Walter Dunbar Accreditation Achievement Award. Secretary Wainwright was nominated by numerous professionals in the field of Corrections from across the Nation. Secretary Wainwright's selection recognizes his significant contribution to the development of standards for correctional accreditation, his active role in the expansion of participation in accreditation and his major contribution to the promotion and understanding of accreditation programs. He was further cited for his improvement of correctional management through application of standards in the accreditation process and for developing methods to improve accreditation procedures.

Secretary Louie L. Wainwright addresses the American Correctional Association membership as the keynote speaker at the ACA Conference. The Secretary became the third recipient of the Annual Walter Dunbar Accreditation Achievement Award at the same conference.

REGIONAL CORRECTIONAL OFFICERS OF THE YEAR 1985-86

Finalist, Region I

Correctional Officer Carlton Sherman
Quincy Vocational Center

Officer Sherman has been employed by the Department of Corrections since October, 1979. He has consistently performed his duties conscientiously and thoroughly, resulting in his receiving Outstanding Performance Evaluations since 1983. In addition to exemplary performance of assigned tasks, Officer Sherman is actively involved in volunteer activities. He is Inside Sponsor for the "Nu-Way-AA Group" at the Vocational Center, spending many hours and much energy arranging special events and programs for the inmate members of this group. Officer Sherman is also active in the religious program at the Center and volunteers his time to supervise inmates doing community projects. His high standards of professionalism are apparent in his personal appearance and job knowledge; and interest in Corrections, as evidenced by his membership in Chapter XXI, Florida Council on Crime and Delinquency.

Finalist, Region II

Sergeant Joseph M. Combs
Baker Correctional Institution

Sergeant Joseph Combs has been employed with the Department of Corrections for over seven years. He was promoted to the rank of Sergeant after only two years and has performed in an outstanding manner during his tenure. Sergeant Combs has prepared himself professionally with an AA degree from Lake City Community College, a BS degree in Criminology from Florida State University plus other coursework and training. He displays a special aptitude in counselling and problem-solving and is tireless in his efforts to improve his capabilities as a Correctional Officer.

Sergeant Combs is well respected by his peers and members of the local community. His community involvement includes church league softball, instructing teenage children in self-defense techniques and coaching flag football. Also, he is an active member of the Macclenny Historical Society. He is a member of the First United Methodist Church of Macclenny and a member of the Florida Sheriff's Association.

Finalist, Region III and

Winner of the
Correctional Officer of the Year
Competition
FY 1985-86

Correctional Officer I
Shirley M. Smith
Florida Correctional Institution

Officer Smith has been employed at Florida Correctional Institution, the Department's first female offender institution, since 1979.

She personifies the ideal Correctional Officer having successfully worked all assigned posts within the institution and earned the respect of her peers, supervisors, and inmates. She has maintained a high level of involvement in her community and church and attained high personal goals by earning Associate and Bachelor of Arts Degrees in addition to completing several advanced training courses. While accomplishing these achievements Officer Smith was also raising four children as a single parent.

Officer Smith continually sets high goals for herself and goes about quietly achieving them.

Finalist, Region IV

Sergeant Carl D. Russell
Hollywood Community
Correctional Center

Sergeant Russell has always demonstrated the ability to inspire inmates and lead fellow employees, serving as a personal example and role model to both. His leadership technique is based on common sense and the ability to listen. Besides his B.S. degree from Florida A & M University he has successfully participated in over a dozen professional development courses plus other training required by the Department. He currently is a member of the Region IV Affirmative Action Committee and is the Region's Drug Awareness trainer. With the inmates at Hollywood CCC, he has worked in their Jaycee, AA, and NA programs, assisting them in their recent fund drives in which they collected and donated over \$12,000 to needy care programs. Under his sponsorship, inmates are active at the Hepburn Center for the Blind in school talk programs, and similar community activities. In his nine years with the Department, all of which have been spent in Region IV Community Correctional Centers, Sergeant Russell has always shown a personal and professional pride in being a team member of the Department of Corrections.

Finalist, Region V

Sergeant Meyer G. Gabay
Polk Correctional Institution

Sergeant Meyer G. Gabay has been employed with the Department of Corrections for six years; the last five years of which have been at Polk Correctional Institution. Prior to entering the field of law enforcement, he spent twenty years in the United States Air Force during which time he was awarded the Airman's Medal for heroism while serving a tour of duty in Libya. Sergeant Gabay's duties at Polk Correctional Institution are that of a Correctional Supervisor. He is a volunteer member of the Polk Correctional Institution Correctional Emergency Response Team (CERT), a position which requires numerous hours of mental and physical training.

Sergeant Gabay's dedication to duty and professionalism is exemplified by his role in the apprehension of an escaped inmate. While off duty, Sergeant Gabay and another officer discovered a man hitchhiking on the Interstate Highway who fit the description of one of four escaped prisoners from Polk Correctional Institution. Following the escapee to a convenience store, Sergeant Gabay physically subdued the inmate and notified local authorities. Sergeant Gabay and his partner were able to get further information from the prisoner which led to the recapture of the other three (3) inmates that same day.

Corrections Teacher of the Year

Alice Hallinan, Classroom Teacher I, at Polk Correctional Institution, has been named the Department of Corrections' 1987 Teacher of the Year. Her name was submitted to the Department of Education to be considered with the nominees from 67 counties for the State of Florida Teacher of the Year honors.

Hallinan teaches social studies, language arts, and English as a second language at Polk C.I., where she has been employed for two years. Her educational background includes a Bachelor of Arts degree in Spanish and social studies from Florida State University as well as postgraduate courses at other Florida schools. Ms. Hallinan's education also includes extensive travel study in Latin American countries.

In selecting Ms. Hallinan, Secretary Louie L. Wainwright stated that her nomination "exemplifies the outstanding abilities, techniques and personal qualities of the many dedicated educators working in Florida's correctional system." This year 24 institutions submitted nominees for the Department's consideration.

Alice Hallinan, Classroom, Teacher I
Polk Correctional Institute

Police Olympics Winners: Union Correctional Institution fielded a number of winners in the 1986 Police Olympics. Medals were won by UCI employees in the Half-Marathon Competition and in pistol shooting. Paul Gunning and Mrs. Gunning won medals for their participation in the Half-Marathon. Max Denson, Richard Rogers, Ken McChesney, and Roy Weiland won team and individual medals for their pistol shooting.

Successful Police Olympics Competitors from Union Correctional Institution.
(L to R) Max Denson, Richard Rogers, Ken McChesney, Paul Gunning and Roy Weiland.

RECOMMENDATIONS

As required by Chapter 20.315 (15), F.S., the Department of Corrections has developed recommendations for improving the delivery of correctional services in the State. The recommendations address views and requirements that have become apparent in the areas of policy needs, facilities necessary to remain ahead of inmate population growth and personnel requirements to ensure optimal effectiveness of our correctional personnel. Based on the accomplishments of 1985-86 and assessment of requirements for further progress toward established Departmental goals, the following recommendations are listed under the goals to which they are related.

1. **Provide a Humane Environment in Effective Facilities to Accommodate Current and Potential Inmate Population.**
 - a. Provide funds to purchase sites for prisons in advance of their need.
 - b. Appropriate dollars necessary to construct single cell housing facilities for close management inmates and at all new major correctional institutions.
 - c. Begin planning with the Executive Office of the Governor and the Legislature to phase out World War II type dormitories at Avon Park and DeSoto Correctional Institutions.
 - d. Provide appropriations to complete all physical components of major institutions.
 - e. Provide funding over the next four years for replacement of facilities cited in the Capital Improvement Program.
 - f. Provide funding in the Capital Improvement Program to accomplish major repairs and renovation of the Department's facilities, for restoration of Services and the elimination of deficiencies, including those of health and fire safety.
 - g. Convert surplus public facilities into correctional facilities as feasible.
 - h. Provide funding for 31 full time professional and clerical positions to effectively manage a viable safety and loss control program.
 - i. Approve increased use of razor wire at major institutions.
 - j. Fund a relief factor for Correctional Officer posts that is based on leave time, training requirements, and security needs, so that essential posts can be filled without the expense of overtime pay.
 - k. Provide resources for increased staff in confinement areas of major institutions.
 - l. Provide resources for a computerized transfer program which will automatically handle institutional assignment for previously approved transfer orders as vacancies occur in Department facilities.
 - m. Continue to support expansion of the Department's Training Academy to provide adequate space for classrooms, dormitory accommodations, and food service operations.
 - n. Provide resources required to develop a computer-based population projection model.
 - o. The Criminal Justice Estimating Conference in conjunction with the Department of Corrections develop an accurate process of estimating the projected inmate population.
 - p. Provide resources at the Central Office for an Inmate Activities Coordinator, support staff, equipment and material to coordinate inmate activities and adult offender and youthful offender institutions.
2. **Continue to Reduce Staff Turnover.**
 - a. Increase salary rate and Competitive Area Differentials for Correctional Officers and Correctional Probation/Community Control Officers.
 - b. Revise current salary levels to reflect the increased education and experience requirements for correctional probation officers/community control offices.
 - c. Provide funds for more sophisticated recruitment tools such as video tapes and slides of all phases of the Department of Corrections operations.
 - d. Appropriate funds for 27 additional Correctional Training Officers.
 - e. Provide funding for computer hardware and development of training software.
3. **Continue to Improve Youthful Offender Programs.**
 - a. Provide resources for improved and expanded education/vocational training opportunities for all youthful offenders.
 - b. Provide funding for a 50 bed behavior management unit for youthful offenders experiencing adjustment difficulties.
 - c. Provide standardized curriculum for an 80-hour pre-release program to be implemented in all youthful offender institutions.

4. **Provide Adult Basic Education and Vocational Training to Inmates.**
 - a. Provide additional education program space at selected major institutions.
 - b. Support expansion of competency based academic education using state standards for public schools.
 - c. Monitor and evaluate computer assisted instruction.
 - d. Enhance library services for inmates by authorizing addition of a library coordinator in the Bureau of Education Services.
 - e. Provide resources to develop and implement an improved Education Data Collection System.
5. **Enhance Community-Based Alternatives to Incarceration.**
 - a. Establish Community Control as a special supervisor area.
 - b. Authorize establishment of correctional probation officer pay grade one level above law enforcement parity due to elevated education requirements and the technical nature of the work.
 - c. Fully fund Community Control as a separate budget issue.
 - d. Provide funds to acquire radios as standard operating equipment for community control officers.
 - e. Reestablish probation officer case load ratios at 1:56 for youthful offenders and 1:81 for adult offenders, the same levels which existed prior to implementation of community control.
 - f. Provide additional funds for growth during the next four years for Probation and Parole Services.
 - g. Establish a Pretrial Intervention Program in the twentieth judicial circuit.
6. **Provide Health Services in Accordance With Accepted Health Services Standards and the Department's Comprehensive Health Services Plan.**
 - a. Improve the Reception and Medical Center Hospital to allow resumption of secondary level care, including a limited acute/surgical capability.
 - b. Provide appropriate resources and support to the health care delivery system to resolve needs identified in the Costello v. Wainwright litigation.
 - c. Department of Health and Rehabilitative Services provide resources for the outpatient care and treatment of substance abusers in conjunction with the Department of Corrections.
 - d. Provide resources to offer competitive salaries for professional health services positions, including critically needed physicians.
 - e. Provide additional resources for one intermediate care facility for inmates' mental health care.
7. **Improve Quality of Food Services for Inmates.**
 - a. Provide funds and resources to manage system.
 - b. Approve upgrading of food service staff.
8. **Enhance Religious Services to Inmates.**
 - a. Provide funding for 19 additional Chaplains and 31 secretarial positions.
9. **Improve the Delivery of Services Based on Specific Program Needs.**
 - a. Improve job placement options by developing state policy requiring state agencies to employ ex-offenders, with specific goals being established.
 - b. Allocate resources to the Department to improve its pre-employment training, job placement and follow-up activities.
 - c. Develop and implement a plan for utilizing provisions of the Job Training Partnership Act conjunctive with the Department's education, industries, and correctional work programs providing training, job placement, follow-up and other services for offenders.
 - d. Provide resources to expand the training of security staff to better assist them in handling emergencies.
 - e. Establish three positions and provide necessary funding for continuity of effective decision making in the Basic Release Assistance Program.
10. **Improve Efficiency, Productivity and Accountability.**
 - a. Seek funding for the establishment of a new classification workload and staffing formula that addresses the results of law change and system expansion.
 - b. Provide resources to upgrade computer capabilities and technology to achieve increased efficiency, create an equitable distribution of work, and to implement a computerized transfer program.
 - c. Provide adequate funds for required travel by all staff.

- d. Support development of an automobile replacement schedule to be used to replace Department vehicles having over 100,000 miles and which are in need of maintenance that is no longer cost effective.
- e. Provide funds for computer terminals, as outlined in the Information Resource Commission (IRC) plan and expand the installed network providing increased access by Major Institutions, Community Facilities, Probation and Parole Offices and the Central Office to the Offender Based Information System (OBIS).
- f. Provide resources to support the approved office automation supplement to the IRC plan to improve and expand services to probationers, parolees, inmates and prosecutors in Florida and other states.
- g. Provide funds to upgrade technical training for all staff assigned to Planning, Research and Statistics.
- h. Provide funding for 27 Property Officer positions.
- i. Exclude account clerks and data entry operators from the 3.1 clerical ratio.
- j. Provide funding for two Planner II professional positions and one secretarial/word processing position to accomplish agency functional planning and carry out program evaluations.
- k. Provide resources to establish Property Administrator II positions for the Central Office, five (5) Regional Offices and thirty-two major institutions, to assist in property management and control at all areas requiring accountability.
- l. Appropriate resources and establish positions in the fiscal and administrative areas to provide for the coordination of all segments of the Florida Fiscal Accounting Management Information System.

11. Continue to Improve Correctional Work Programs.

- a. Provide resources to expand program direction and support for after-hour activities for adult inmates to reduce idleness.
- b. Continue support for further expansion of PRIDE Industries Programs which replicate the best aspects of private enterprise relative to on-the-job training, incentives for productivity and career advancement opportunities.
- c. Expand and improve vocational and academic educational programs to provide the prerequisite skills needed for employment and promotion in existing and projected Industry Programs.
- d. Provide funding to assure a continuing capability within the Department to coordinate the efforts of PRIDE, Inc. in the operation, expansion and up-grading of Industrial Work Programs and to evaluate ongoing industrial operations.

CRIMINAL JUSTICE TRENDS

The size of the inmate population and the probation and parole caseload of the Department of Corrections is the result of varying rates of admissions and releases. Several factors affect the rates of admission including population growth in Florida, crime rates, the State unemployment rate, rates of arrest and prosecution, existence of alternative programs, sentencing policies of the judiciary and statutes related to sentencing. Factors affecting releases include the extent of mandatory sentencing, the existence of parole, sentence length, and policies concerning the award of gain time.

- **AGE AT ADMISSION HAS BEEN INCREASING OVER TIME**

The age at time of commitment to prison or probation has been increasing over the last several years. The average age of new commitments during fiscal year 1985-86 was 28.9. The corresponding age for new admissions to probation was 29.3.

MEAN AGE AT ADMISSION FOR DC NEW COMMITMENTS AND PROBATION INTAKES

- **POPULATION AT RISK CHANGES OVER TIME**

The term population at risk is used to refer to the group of individuals who are most likely to be admitted to the Department of Corrections, either as a new commitment or as an admission to probation. While the population at risk has traditionally been defined as the male population 18-29 years of age in Florida, the observed increase in the age at admission shown graphically above, suggests that the true population at risk in Florida is an older population. Recent computer based modeling efforts have used the male population 18-34 as the population at risk and this appears to be more appropriate group.

FLORIDA MALE POPULATION 18-34 (Fiscal Year Averages)

- **NEW COMMITMENTS AS A PERCENT OF GUILTY DISPOSITIONS RELATIVELY STABLE OVER TIME**

With the exception of the period immediately following the implementation of sentencing guidelines and community control, the percent of guilty dispositions that are committed to prison as new commitments has remained relatively stable since 1977. New commitments as a percentage of guilty dispositions fluctuated around 18 percent from the first quarter of 1977 through the third quarter of 1983. The percentage then dropped to a low of 15.2 percent in the fourth quarter of 1983, and rebounded to a high of 21.2 percent in the beginning of 1985. The level is now remaining at approximately 22 percent, a new high mark for prison admissions.

- **PAROLE ELIGIBLE POPULATION DECLINING**

Inmates committed to prison under sentencing guidelines are not eligible for parole. As more and more admissions to prison fall under the sentencing guidelines criteria, the number of individuals in prison who are eligible for parole will decrease. Less than half of the prison population incarcerated on June 30, 1986 was for parole review but this number is expected to decline to 2,318 by June 30, 1995.

- **INDEX CRIMES IN FLORIDA INCREASED 14.9% DURING CALENDAR YEAR 1985**

The Uniform Crime Report provides a general indicator of criminal activity in the state. Crime report data historically has not been related to prison admissions. This may be explained by the fact that the Uniform Crime Report counts crimes, not criminals. In addition, the index crimes reported include a significant number of misdemeanor offenses not resulting in prison admissions.

CRIME TREND DATA CALENDAR YEARS 1983-1985

INMATE ADMISSIONS AND RELEASES

- *THERE WAS A NET GAIN OF 1442 INMATES AND THE TOTAL PRISON ADMISSIONS FOR THIS YEAR INCREASED BY 19.1% AS COMPARED TO FISCAL YEAR 1984-85.*
 - New admissions from the court increased 23.2%
 - Admissions of violators of parole decreased 23.3%

- **PRISON RELEASES INCREASED BY 19.4% THIS FISCAL YEAR COMPARED TO FISCAL YEAR 1984-85.**

COMMUNITY SUPERVISION INTAKES AND LOSSES

The rate of growth of probation and parole cases is affected by changes in certain variables similar to those used to predict prison admissions. However, increases in the supervision caseload are the direct result of the rate of parole release from prison, as well as new probation commitments from the circuit courts.

It should be noted that with improved reporting resulting from full implementation of the probation and parole information system, the trends below may not accurately reflect the degree or rate of change, but they are generally considered to be valid indicators of direction of growth.

- **SUPERVISION INTAKE FOR FISCAL YEAR 1986 WAS 1% LESS THAN THE PREVIOUS YEAR**
- Felony probation intake increased 2.7% over last year
- Community Control increased 15.5% over last year
- Parole intake decreased 33.6% over the previous year

NOTE: This does not include Pre-Trial Intervention

- **SUPERVISION LOSSES FOR FISCAL YEAR 1986 INCREASED 8% OVER THE PREVIOUS YEAR**
- ### SUPERVISION CASELOAD LOSSES FOR THE PAST TWO FISCAL YEARS

INTERSTATE COMPACT TRANSFERS

- INTERSTATE COMPACT TRANSFERS DURING THE 1985 / 86 FISCAL YEAR INCREASED 7% FROM THE PREVIOUS YEAR
- FLORIDA SENT 73 PAROLEES TO OTHER STATES FOR SUPERVISION
- FLORIDA RECEIVED 518 PAROLEES FROM OTHER STATES TO SUPERVISE
- FLORIDA SENT 2854 PROBATIONERS TO OTHER STATES FOR SUPERVISION
- FLORIDA RECEIVED 1943 PROBATIONERS FROM OTHER STATES FOR SUPERVISION

CORRECTIONAL STATISTICS

The continued refinement of our computerized data system has permitted inclusion of information for incarcerated inmates and offenders under community supervision for two time periods.

- Inmates and probationers/parolees admitted to custody or supervision of the Department of Corrections during FY 1985-86
- Inmates and probationers/parolees in custody or supervision of the Department as of June 30, 1986

Data in this section of the Annual Report are organized into two major subsections—incarcerated offenders, and offenders under community supervision. This data follows the summary statistics for population under criminal sentence.

For each category statistics are included on the population in custody or under supervision, along with dispositional data and offender demographics. The data are organized along the following lines:

- First, data descriptive of the prison and community supervision populations are presented. Data are included on the number of offenders, their origin by county, and where housed or supervised.
- Then, dispositional data as to criminal history, primary offense, length of commitment or supervision, and class of felony is included.
- Finally, offender specific data on age, education, intelligence, length of residence, employment, and use of alcohol or narcotics are provided.

It should be noted that some data are the result of self reporting and may be subject to error and may not be totally reliable.

Due to limitation of space in the Annual Report, a limited amount of data is included in the report. Data from reports which previously appeared in the Biennial Report series are available upon specific request from the Bureau of Planning, Research and Statistics, 1311 Winewood Boulevard, Tallahassee, Florida 32301, Telephone: (904) 488-8430, SunCom: 278-1776.

CHANGES:

In this year's report those offenders under Pre-Trial Supervision are included for the first time. Also, the numbers representing offenders on conditional pardon have been aggregated with those on felony probation, because of the small numbers of offenders who receive conditional pardons.

POPULATION UNDER CRIMINAL SENTENCE

	1984-85	1985-86
INCARCERATED INMATES UNDER CRIMINAL SENTENCE ON JULY 1	26,471	28,310
ADMISSIONS AND RETURNS		
New admissions from Court (exec. PVs)	13,149	16,200
Parole violators with new sentences	534	408
Return Parole violators serving old sentence	710	546
Escapes recaptured	579	795
Returns from authorized temporary absences	3,600	4,695
RELEASES AND ABSENCES		
Expiration of sentence	9,679	12,934
Sentence commuted or vacated by court and reinstated paroles	222	222
Parole	2,139	1,451
Execution	7	3
Deaths	49	56
Escapes	658	972
Out by authorized absence	4,124	5,861
POPULATION UNDER CRIMINAL SENTENCE ON JUNE 30, 1986	28,165	29,455
Contract Jail Beds	145	257
INCARCERATED INMATES UNDER CUSTODY ON JUNE 30*	28,310	29,712
TOTAL OFFENDERS UNDER COMMUNITY SUPERVISION ON JUNE 30*	73,866	74,078
TOTAL CASELOADS UNDER PRETRIAL SUPERVISION ON JUNE 30	3,449	3,370
TOTAL UNDER SUPERVISION OF THE DEPARTMENT ON JUNE 30	105,625	107,160

*NOTE: Statistics for Probationers and Parolees appear on pages 60-86.

ADMITTED NARCOTICS USE REPORTED BY INMATES COMMITTED TO THE DEPARTMENT OF CORRECTIONS

PROBATION AND PAROLE STATISTICS

The following pages contain statistics concerning probationers and parolees under the supervision of the Department of Corrections. The probation and parole caseload continues to increase. The Department continues its emphasis upon diversionary programs and these programs, hopefully, will reduce the number of institutional beds necessary in the future. Consequently, an even greater probation and parole caseload is anticipated in the years to come.

In the following tables, misdemeanor probation reflects cases originally filed in circuit court as felonies that were reduced to misdemeanors and subsequently placed on probation.

POPULATION UNDER COMMUNITY SUPERVISION

	<u>1984-85</u>	<u>1985-86</u>
POPULATION UNDER PAROLE AND PROBATION SUPERVISION ON JULY 1	69,538	73,866
Intakes ¹	48,163	47,569
Terminations ²	43,835	47,357
POPULATION UNDER PAROLE AND PROBATION SUPERVISION ON JUNE 30	73,866	74,078
POPULATION UNDER PRETRIAL SUPERVISION ON JULY 1	4,065	3,449
Intakes	4,876	5,210
Terminations	5,492	5,289
POPULATION UNDER PRETRIAL SUPERVISION ON JUNE 30	3,449	3,370
TOTAL POPULATION UNDER SUPERVISION	77,315	77,448

¹Includes all sources of intake (courts, prison, out-of-state, etc.)

²Includes all types of terminations (normal, expiration, death, etc.) including parole and probation revocations

ACTUAL PAROLE AND PROBATION CASELOAD UNDER SUPERVISION 1979-1989 AND CASELOAD PROJECTIONS THROUGH 1989*
