Governor
LAWTON CHILES
Secretary
HARRY K. SINGLETARY, JR.

2601 Blair Stone Road • Tallahassee, FL 32399-2500

November 6, 1995

The Honorable Lawton Chiles
Governor of Florida
The Honorable Members of the Florida Legislature

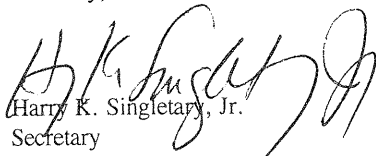

Dear Governor and Members of the Florida Legislature:

In accordance with Chapter 20.315(16), Florida Statutes, the Department of Corrections respectfully submits its annual report for Fiscal Year 1994-95. The report summarizes the department's progress and accomplishments during the year.

This year's report was created to serve as a resource book for those interested in any aspect of the Florida correctional system. This report covers the department's success in ending early release, accelerating prison construction, the incorporation of inmate education and job training once again as a responsibility of the department, and the continuance of offender programs. The report also contains comprehensive statistical data pertaining to the incarcerated and community supervised offender population.

We will be happy to respond to any questions regarding this report.

Sincerely,

Harry K. Singletary, Jr.
Secretary

HKSJr/CH/bcm

SECRETARY'S MESSAGE

"They said it couldn't be done."

But thanks to skill and determination from Corrections' committed staff, we have proven them wrong. Once again, positive attitudes and quality work from each of our valued employees has carried us over the top.

For as long as I have been affiliated with the Florida Department of Corrections, I have been impressed with the many ways that our staff and administrators continue to produce and perform to help the department reach its goals.

As I reflect on 1994, many questioned our ability but we rose to the challenge and eliminated early release by December 1994 — 11 months ahead of the projected termination date. This accomplishment is significant because the 1987 Florida Legislature only authorized the early release of state inmates as a temporary, short-term solution to prison overcrowding. No one could have anticipated the extraordinary increase in prison admissions due to the crack cocaine epidemic and statewide population growth.

Subsequent legislatures have funded new prison beds in unprecedented numbers. Sufficient beds were funded to end early release by December 1995. However, in late 1993 we launched our accelerated building program by utilizing prefabricated T-Cell building construction techniques and materials.

In a 10-month period, beginning in August 1994, the department built 5,940 cells using the T-cell modules that were delivered to the building site and stacked in place.

A new building was started every seven days, each completed in five months or less, helping to ensure that inmates would serve a greater percent of their sentences. The innovative building design can accommodate both medium and maximum security functions. It requires minimal staff and can be built at a substantial cost savings over previously used designs for single-cell construction.

Although the utilization of early release as a population control mechanism was effective to avoid prison overcrowding, it had a devastating effect on other components of the criminal justice system. From the law enforcement officer on the street, to criminal prosecution efforts, to inmate management within the prison system, the system imploded. While it may

have been intended as a short-term solution, early release was not terminated until almost eight years after it was created.

It is my hope that Florida's citizens and our criminal justice system will never again be subjected to such a frustrating and counter-productive prison management program. To help ensure it does not happen again, the department continues to recommend a two-pronged solution: enhancement of early intervention and prevention programs along with adequate funding for prison beds.

Building prisons alone will never solve Florida's dilemma. But as long as we're in the business of providing both prevention programs and supervision while advocating for adequate funding for prison bed construction, we will add value to Florida because of who we are and what we do.

I hope we are able to continue our early intervention and prevention programs for young people around the state. This is where we can achieve the biggest impact in the life and the future of our state.

It is also my hope that we will continue to meet the challenge of preparing for the twenty-first century by increasing our efforts to involve total quality management to promote and produce a stronger work force. We have attempted to be more innovative and more efficient and have been successful.

Working together we defied the odds by eliminating early release 11 months early when they said it couldn't be done. By maintaining our unified approach to quality we can exceed our goals and make a major difference for the citizens of Florida who depend on us for safe neighborhoods.

Next on the horizon, we all must do more to promote and ensure a safer work environment in each of our facilities. As always, public safety is our primary concern. While we look to 1996, it is my desire that we are able to heighten our awareness of safety. We also want to strive to ensure that quality is achieved at all levels and each Corrections' employee adds value to the department and is valued as a member of an aggressive team working for the citizens of Florida. Have a great year!

Harry K. Singletary, Jr.

SECRETARY & DEPUTY

SECRETARY

Harry K. Singletary, Jr. is chief executive officer (CEO) of the Department of Corrections. He was appointed to this position by Governor Lawton Chiles in April 1991. Singletary worked for 11 years in juvenile corrections in Illinois before moving back to Florida to accept a position as Region V Director in 1979. As DC Secretary, he is responsible for the direction and operation of all aspects of the Florida correctional system. During his tenure, he has sought to decentralize the department's administrative functions using Total Quality Management techniques and has emphasized training and staff development, community partnerships and increased public safety.

DEPUTY SECRETARY

Bill Thurber assists the Secretary in supervising the activities of top management staff in the department, in addition to acting on his behalf in the Secretary's absence. He was appointed to the position of Deputy Secretary in May 1991. Thurber has been with the department for 17 years, serving most recently as Assistant Secretary for the Office of Management and Budget for seven years before being appointed Deputy Secretary. Thurber's vast knowledge of the budget process, finance and administrative services makes him an invaluable asset to the department.

VISION, VALUES & MISSION

VISION

The Florida Department of Corrections envisions a leadership role in public safety including comprehensive institutional and community-based sanctions, services, and programs. The department will assume a strong advocacy role for public safety to meet the challenges facing Florida. The department will forge working partnerships with local communities and public safety agencies to reduce the growth of the offender population and will strive for excellence with a highly trained, ethical, and dynamic work force.

VALUES

We, the members of the Florida Department of Corrections, believe:

- In the worth of the individual;
- Our word is our bond;
- In maintaining individual and collective integrity;
- That we recognize the right to be different and differ but shall not allow it to be divisive;
- Our most valuable asset is a well-trained, dedicated staff working as a team to meet any challenge;
- In an innovative approach to decision making based on sound correctional judgement;
- In treating all offenders firmly but fairly;
- That we have an obligation to be accountable and efficient in our use of resources.

MISSION

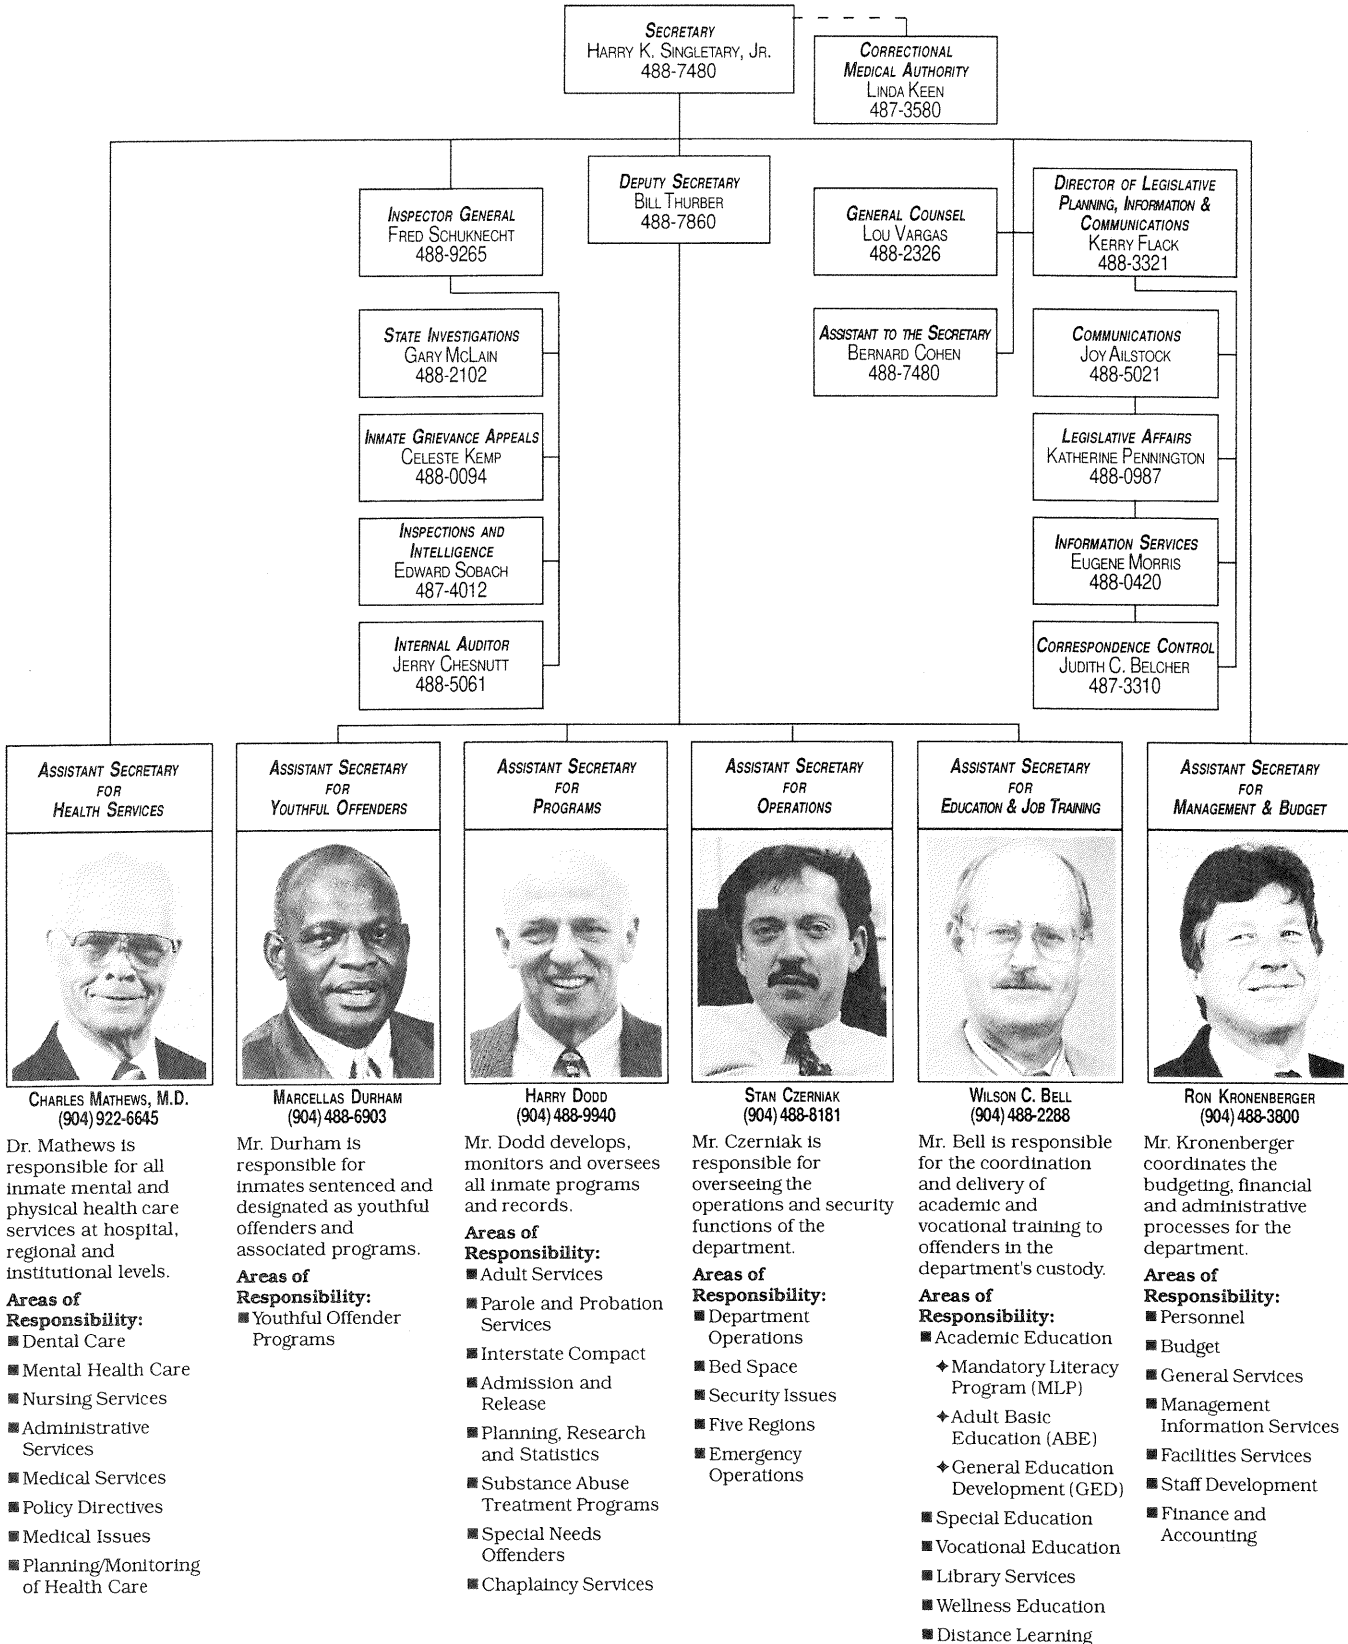

The mission of the Florida Department of Corrections is to protect the public, provide a safe and humane environment for staff and offenders, to work in partnership with the community to provide programs and services to offenders, and to supervise offenders at a level of security commensurate with the danger they present.

RECOMMENDATIONS

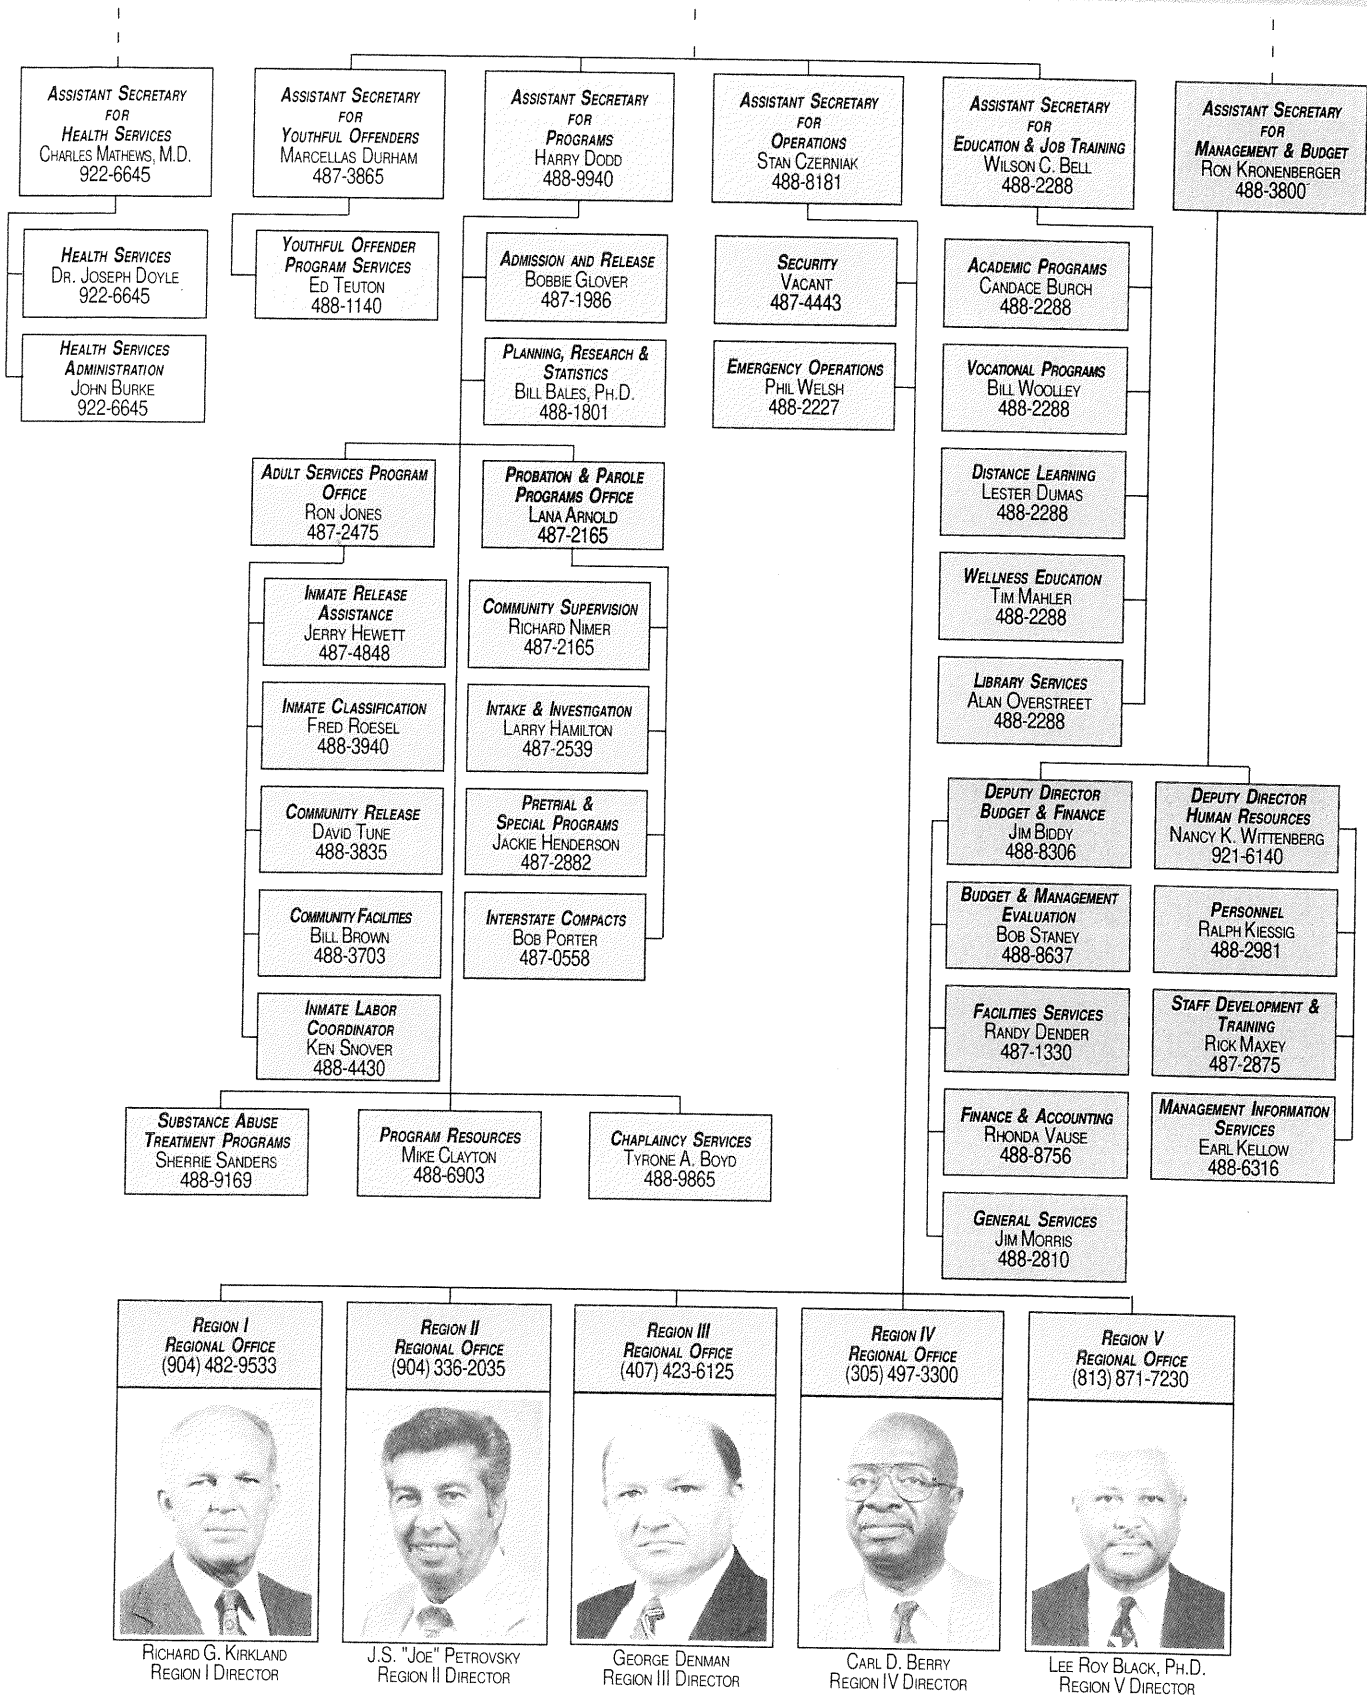

As required by F.S. 20.315(16), the Department of Corrections has developed recommendations for improving correctional services in the state. Based on accomplishments during the last fiscal year and objectives defined in the Department's Strategic Plan, it is recommended that action be taken and/or resources provided to accomplish the following departmental objectives.

- Reduce the escape rate from major institutions and the rate of felony crimes committed by offenders while in prison.
- Increase the percentage of single cell housing units commensurate with the increase in violent and disruptive inmates.
- Conduct formal risk and needs assessments for 97% of offenders sentenced to prison.
- Conduct formal risk and needs assessments for all offenders placed on Community Control, probation or other community supervision programs.
- Reduce the number of probationers and community controlees revoked and committed to prison for technical violations.
- Reduce the recommitment rate for drug offenders who have received treatment.
- Establish security components in all facilities commensurate with accepted professional standards and mission requirements.
- Link the data received from sentencing guidelines with the department's other automated databases.
- Increase development of partnerships with private and public agencies.
- Expand the Community Work Squad Program to 75% of department facilities.
- Reduce by 10% the proportion of lesser offenders sentenced to state prison.
- Substantially reduce the recommitment rate of released inmates.
- Implement programs and services which will result in a 10% reduction in the rate of supervised revocations.
- Meet at least 85% of identified needs associated with department programs and services based on results of needs assessments.
- Increase employee awareness of agency issues, policy and practices.
- Increase awareness of media, educators, students, business/civic leaders and the general public on the role and scope of the Department.
- Achieve the level of funding required for new beds and for all strategic plan strategies.
- Compensate correctional officers and other career service employees equitably when compared to state law enforcement officers and staff of other state agencies.
- Maintain correctional officer turnover and correctional probation officer turnover at a rate not exceeding 10% annually.
- Employ a work force which reflects the community in terms of all races, genders and cultures in the available labor market.
- Implement a work force plan based on emerging needs of a majority of department employees.
- Train 500 staff in Corrections Quality Managerial Leadership (CQML) principles.
- Establish a Quality Assurance Program to include all major department components.
- Adopt the Sterling Award criteria to validate departmental productivity increases.
- Establish new sites for correctional officer basic training programs.
- Standardize training curricula.
- Reduce employees' travel time away from work for training purposes.
- Replace overloaded distributed processes with client/server LAN-based technology.
- Acquire capacity upgrade for the mainframe computer.
- Increase technical support staff to adequate levels.
- Implement according to their projected schedules the innovative technology projects identified in the Information Resources Management Plan.
- Equip central office, regional offices and 50% of major institutions to receive satellite broadcast programs.

ORGANIZATION CHART

ORGANIZATION CHART

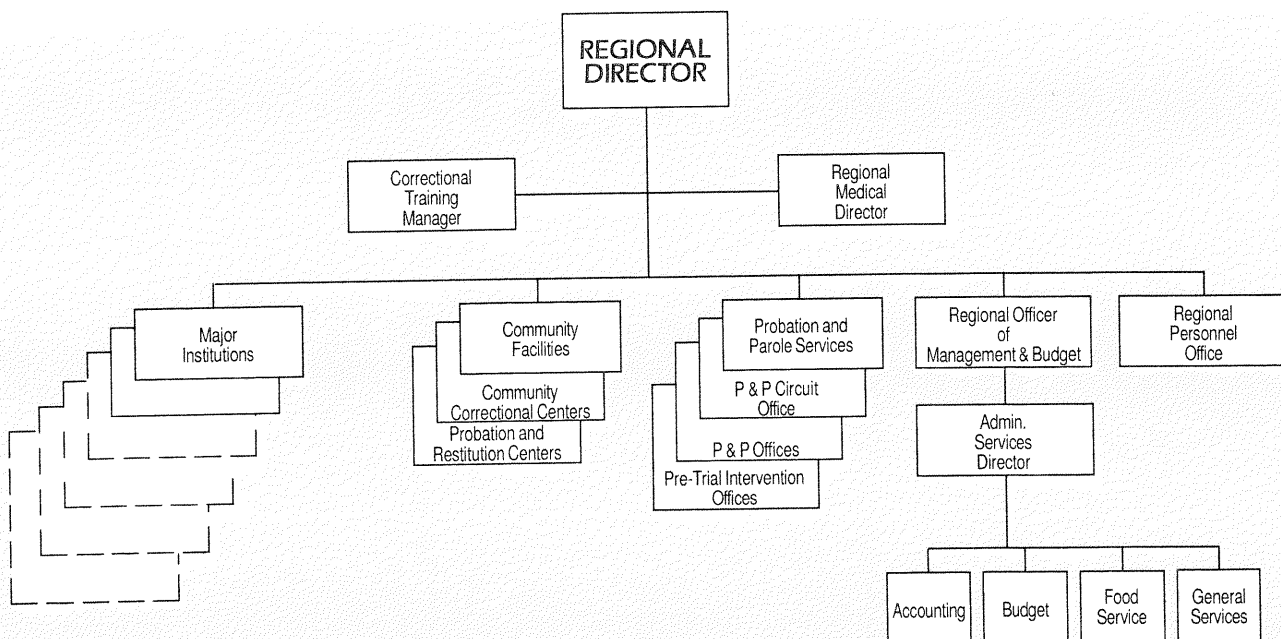

ORGANIZATION CHART

REGIONAL ORGANIZATION

Correctional institutions, community facilities and probation and parole offices are administered through five geographic regions. Each region is headed by a regional director who supervises the activities of the superintendent of each major institution, the superintendent of community facilities and the regional

probation and parole administrator. The regional director is responsible for financial administration and personnel management within his region and for ensuring that department policies are carried out and standards are met. Regional organizations and functions are shown below.

REGIONAL FUNCTIONS

Each regional office coordinates activities and solves problems at major institutions in accordance with standard department diagnosis, evaluation, referral, classification and case management procedures.

The activities of all community correctional centers, road prisons, vocational training centers, work camps, forestry camps, and probation and restitution centers are also directed by the regional office in accordance with Central Office policies and directives.

The offices coordinate and direct all probation and parole services and activities in accordance with policy guidelines and program directives from the Central

Office, to include supervision, investigation, intake and diversionary programs.

Each office performs personnel management activities, including maintenance of personnel files and related records for personnel of community facilities, probation and parole offices and the regional office. In addition, regional offices maintain property accounting records, document all property transactions and maintain property management and control. The regional offices also prepare and submit regional budgets, monitor operating accounts and expenditures and supervise regional fund allocations and releases.

PRISON BEDS

Historical Summary of Prison Capacity

Prior to 1995, the department's measurement of bed capacity was greatly influenced by the Costello lawsuit. As a result of this lawsuit, the state signed an agreement in 1979 that allowed the correctional system to operate at maximum capacity, (1) until June 1985, at which time the agreed-upon capacity would be reduced to 33 percent above design capacity, (2) which was referred to as lawful capacity. In effect, this means that for every 100 design beds in the system, the department can house 133 inmates.

The Florida Legislature provided the assurance that the department would continue to abide by the lawful capacity agreement by codifying these standards into Florida statute. However, the 1995 Legislature amended this statute. Senate Bill 94 redefines lawful capacity as "total capacity" and increases it from 133% to 150% of design capacity.

The new law provides a few exceptions to the 150% requirement, such as medical or mental health beds and confinement beds. The bill also provided that when it is evident that the system may exceed total capacity, the Secretary shall devise a plan which addresses alterna-

tives to prevent the over capacity from occurring. The plan must be submitted to the Governor and the Legislature at least 30 days prior to any projected bed deficit.

Although the Legislature passed SB94 to expand the capacity of the department, appropriations to fund the operation of departmental facilities for Fiscal Year 1995-96, remained at the level necessary to maintain the population at the old lawful capacity (133%). For Fiscal Year 1995-96, the actual difference in beds measured at 150% as opposed to 133% is an increase of just over 3,000 beds.

Breakdown of Beds Appropriated During 1995 Legislative Session

A prison construction package for a total of 3,776 beds at 133% capacity was approved by the Legislature during its 1995 session. They include:

2,366	New institutions and annexes
524	New Work Camps
528	Additions to current facilities
122	Mental Health
12	Confinement Facilities
<u>224</u>	Privatization beds
3,776	Total beds

Total Beds Funded by Year

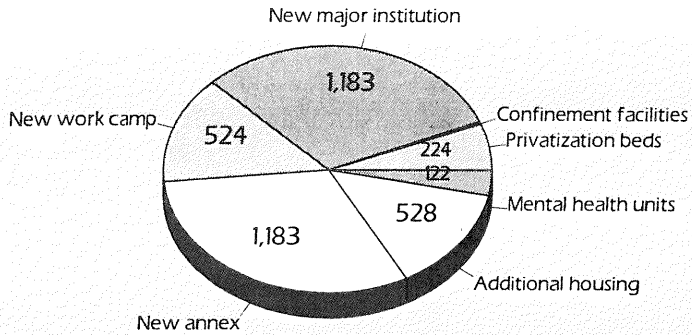

(* = Number of appropriated beds was adjusted for beds subsequently deleted due to budget reductions)

PRISON BEDS

New Prison Beds

A breakdown of the new prison beds to be built is as follows:

- 1,183 New major institution in Franklin County
- 524 New work camps at Graceville and Wakulla CI
- 1,183 New annex at Taylor CI
- 528 Additional housing units at three existing facilities
- 122 Mental Health units TBA1 & TBA2
- 12 Confinement at Cross City
- 224 Privatization — female youthful offender at Gadsden
- 3,776 Total beds**

Prison Construction

Work camps are the least expensive facilities. They hold 284 inmates at "Total Capacity" and cost approximately \$2.5 million or \$8,803 per bed. The Department has built 31 work camps in the last six years.

and treat substance abuse offenders with sentences of three years or less. Funded for the first time in 1990, two of these 384-bed at 133% capacity facilities were built during 1991-92 at a cost of \$10,475 per bed.

Single cell prisons house 1,432 inmates at "Total Capacity" and cost \$34 million or \$23,743 per bed. Prototypes opened in Orange County in 1988, Charlotte County in 1989, and Hardee County in 1991. Santa Rosa and Okeechobee, which were appropriated in 1994-95, are near completion.

"Combo" institutions have both single cells and dormitories. They have 1,275 beds at "Total Capacity" and cost \$27 million or \$21,176 per bed. Two were completed in 1991, two in 1993, four were appropriated for 1993-94, four in 1994-95, and two in 1995-96.

* Due to the opening and phase-in of these facilities during the fiscal year, average inmate population was relatively low, resulting in inflated per diem costs.

** Also serving as reception centers for female inmates.

*** Amounts shown are net of inmate subsistence payments of \$5.00 per day for inmates on Work Release, which contractors are allowed to retain and treat as a credit to their billing.

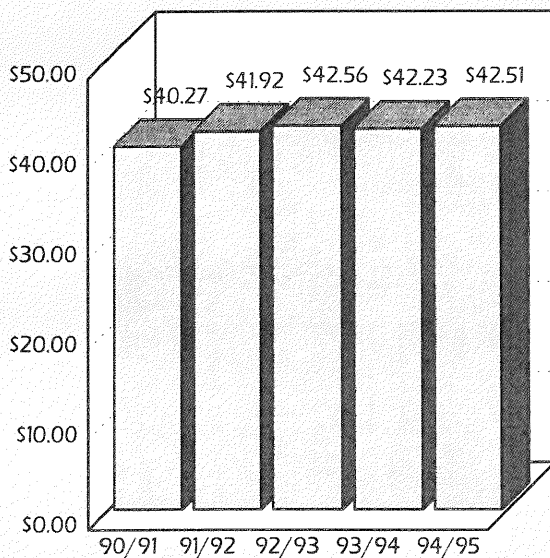

FY 1994-95 Correctional Budget Total Expenditures \$1,161,606,780 (In Millions)

Percent of State Budget Spent on Corrections

Inmate Per Diem Over 5 Years (For all department facilities)

Inmate Cost Per Day (Major Institutions only) \$43.65

* Raw food product cost is \$2.33.

WORK FORCE

Ralph Kiessig, Personnel Chief
 (904) 488-2981 SC 278-2981

The Florida Department of Corrections had a total of 25,885 authorized positions as of June 30, 1995. Staffers care for the needs of more than 61,000 inmates and over 136,000 offenders on community supervision. That staff consists of professionals as wide ranging as doctors and teachers, correctional and correctional probation officers, chaplains and educational specialists, superintendents and support staff, program managers and food service directors. Since public safety is the department's foremost mission, more than half of all staff positions are in security areas.

On June 30, 1995, the department had 24,749 employees on its payroll. There were 17,393 working in institutions and community facilities, including suboffices, and the majority worked in a security capacity. The breakdowns of staff by race and gender indicate a diverse corrections workforce.

The most valuable asset an organization can have is a well adjusted, dedicated staff. To that end, the Department of Corrections provides the following employee programs.

Post Trauma Staff Support Program — Employee involvement in specific violent, work-related situations may cause serious physical and/or emotional trauma to an employee. The PTSS program is designed to minimize the effects of the trauma by providing immediate intervention and subsequent debriefing by an outside mental health counselor specializing in post trauma stress.

Employee Assistance Program — The EAP provides outside counseling services to employees experiencing personal problems that may affect their ability to perform their duties and responsibilities. Participation in EAPs has resulted in a reduction in absenteeism, sick leave usage, tardiness and turnover, while improving job performance, employee morale and employee relations.

Breakdown by Type of Positions on June 30, 1995

Total Positions: 25,885

Total Staff on June 30, 1995: 24,749

Staff by Race

Staff by Gender**

* Other includes attorneys, financial and computer analysts, personnel, clerical, technical support, maintenance, etc.

** Nine employees did not indicate gender.

Recruitment

The Florida Department of Corrections is recruiting for Correctional Officers and Correctional Probation Officers for **immediate employment** throughout the State of Florida.

CORRECTIONAL OFFICER:

- Salary Range: \$18,109 - \$29,075 annually. Salary additives ranging from \$3,800 to \$6,300 annually for certain South Florida counties
- Fully paid enhanced (special risk) retirement program
- \$275 annual clothing and shoe allowance
- Must complete the basic recruit training course and successfully pass the Florida Officer Certification Examination. Correctional Officer applicants who have not completed basic recruit training may be hired in trainee status.
- Must be high school graduate or its equivalent (GED)
- Staff housing provided, when applicable
- Step pay plan increases 3% effective 1/1/96.

CORRECTIONAL PROBATION OFFICER:

- Salary Range: \$22,268 - \$35,777 annually. Salary additive of \$4,640 annually for certain South Florida counties.
- Must have Bachelor's degree
- Correctional Probation Officer applicants are normally hired in trainee status until they have successfully passed basic recruit training and the Florida Officer Certification Exam.

Minimum Qualifications for either position:

- 19 years old or older
- United States citizen
- Not convicted of a felony or a misdemeanor involving perjury or a false statement
- Honorable discharge from any of the Armed Forces of the United States
- Good moral character as determined by a background investigation
- Successfully pass a physical examination and drug test

Benefits include:

- Criminal Justice incentive pay up to \$130 per month
- Promotional opportunities
- 13 vacation days and 13 sick leave days the first year
- 10 paid holidays
- Fully paid retirement program
- State subsidized health insurance
- State subsidized life insurance
- Pre-tax medical and child care benefits
- Supplemental insurance (i.e., car, dental, cancer, legal)
- Child care facilities in some locations

Preference shall be given to certain veterans, spouses of veterans and minorities, as provided by the Florida Statutes. Physical and drug tests required. Opportunities are also available in various medical and administrative careers.

WORK FORCE

Staff Development

Rick Maxey, Bureau Chief
(904) 487-2875, SC 277-2875

Areas of Responsibility:

- Employee training and education
- New employee orientation
- Basic recruit training for correctional probation officers
- Certified Public Managers Program
- Training materials, including videos and computer-based interactive videodisc programs
- Training requests, reports, proposals and records
- Florida Corrections Academy -- two sites
- Liaison with Florida Department of Law Enforcement, Criminal Justice Standards and Training Commission, and National Institute of Corrections

Accomplishments:

- Received clearance from the Base Closure Commission to use facilities at the Orlando Naval Training Center as a central training site.
- Offered over 30 mandatory training topics and numerous specialized topics.
- Developed, in conjunction with staff from the Bureau of Management Information Services, a records management system to maintain data on training.
- Worked with the University of South Florida to create a four-year degree program that would prepare students to become correctional probation officers.
- Disseminated copies of the "Life Inside" curriculum to middle and high schools in Florida.
- Worked with the Office of Programs to obtain a grant with Florida Gulf Coast University and St. Petersburg Junior College to develop and implement a management training program to be delivered by satellite to department offices and institutions.

Quality Management

Leon Gilchrist, Administrator
Raymond Mulally, ACA Coordinator
(904) 922-2357 SC 292-2357

Areas of Responsibility:

- Quality Management Implementation
- Americans with Disabilities Act Compliance
- American Correctional Association Accreditation
- State Awards Program

Accomplishments:

- Monitored 55 Corrections Action Teams (CATs) working on problems with statewide implications.
- Developed Quality Coordinator's Network throughout the agency to implement quality at the local level.
- Conducted 12 three-day quality management sessions focused primarily on managers.
- Introduced the Quality Performance Award.
- Completed a management strategic planning survey.
- Established liaisons with other quality management offices such as the Tallahassee Quality Council and the American Society for Quality Control (ASQC).

- Set up the first satellite downlink for Forum XI, which is the ASQC's National Quality Month platform for conveying the latest news about quality and a forum for discussing quality's increasing importance in a changing economy.
- Completed accreditation of nine more Community Correctional Centers in FY 1994-95, bringing the total number of facilities accredited to 43 major institutions, 32 community correctional centers and all five Probation and Parole regions. Florida continues to lead all other correctional agencies in the nation with its number of accredited facilities. Preparation for the reaccreditation of the facilities audited in 1992 has begun and will continue throughout FY 1995-96.
- The DC received a total of 41 Davis Productivity Awards during 1994 for innovative ideas and increased efficiency. Included were two Exemplary Agency Awards. Central Florida Reception Center was recognized for its implementation of the Computer Assisted Reception Process (CARP), the first of its kind in the nation. The DC was recognized statewide for its continuing efforts to increase efficiency in all areas, including construction, food and laundry service.
- A total of 44 suggestions were submitted to the State Awards Program during FY 1994-95, including 37 from employees within the DC.

Legislative Update

Katherine Pennington, Director
(904) 488-7436 SC 278-7436

Areas of Responsibility:

The department's Legislative Office operates as a central clearinghouse for all state and federal legislative issues. It collects and disseminates information to members of the Florida Legislature, the Congressional delegation, and to the department's employees around the state.

The Legislative Office also develops the department's legislative package and submits it to the Governor and Legislature for action. Once the Legislature enacts new measures, the Legislative Office monitors its implementation and makes periodic reports to the Governor and the Legislature.

The Legislative Office is an immediate resource available to legislators, legislative and committee staff members, and to department personnel. As an example, each year the Legislative Office responds to several hundred requests for information or inmate inquiries from individual members of the Florida legislative or the Congressional delegation.

During the 1995 legislative session, the Legislative Office tracked, monitored and analyzed over 500 legislative bills and proposals that, if enacted, could affect the operations of the Department of Corrections. Criminal justice and corrections issues took center stage in the 1995 legislative session. The result is several new initiatives that will substantially change the way in which offenders are sentenced and the length of time offenders spend in prison. The following is a brief synopsis of some of the major changes made by the 1995 Legislature:

Prisoners to Serve 85% of Sentence Imposed

Offenders who commit crimes on or after October 1, 1995, **are required to serve 85% of the sentence imposed.** Inmates convicted under this act are eligible to earn up to 10 days of gain time a month; however, the sentence may not expire prior to the service of 85% of the sentence imposed.

Prison inmates who receive disciplinary reports on or after January 1, 1996, are not eligible to earn additional gain time up to six months following the month in which the disciplinary infraction occurred.

Increasing Prison Capacity

"Lawful capacity" is redefined as "total capacity" and is increased from 133% to 150% of design capacity. The bill provides a few exceptions to the 150% requirement, such as medical or mental health beds.

The bill also provides that when it is evident the system may exceed "total capacity," the Secretary shall devise a plan that addresses alternatives to prevent the overcrowding from occurring. The plan must be submitted to the Governor and the Legislature at least 30 days prior to any projected bed deficit.

Sentencing Guidelines Changes

The Legislature also passed sweeping changes to the still new 1994 sentencing guidelines revisions.

This bill greatly enhances the scoresheet points assigned to certain crimes, thereby lengthening a great number of prison sentences (and offenders will serve 85% of this longer sentence.) The increased penalties now mandate a prison sentence for Level 7 offenses and above. Under the 1994 guideline revisions, a judge had discretion whether to order prison terms for Level 7 offenses. It increases victim injury points for several crimes, especially sexual crimes. Offenders convicted under this law face a mandatory 15 year sentence for possession of a firearm by a violent career criminal.

Evelyn Gort Career Criminal Act

This bill establishes a new category of habitual offender, the "violent career criminal." Persons convicted three or more times of any forcible felony, aggravated stalking, aggravated child abuse, other sexual crimes, escape, and certain weapons crimes can be sentenced as a violent career criminal. Mandatory periods of incarceration under the Evelyn Gort bill will include mandatory life sentences for those convicted of a life felony or a first degree felony, 30 to 40 years for a second degree felony, and 10 to 15 years for a third degree felony. Persons convicted

LEGISLATIVE

under this new law must also serve a minimum of 85 % of the sentence imposed; however, these offenders may only earn up to five days per month incentive gain time.

Pay Increases

The Legislature appropriated enough funds for a three percent pay increase effective January 1, 1996, for all career service employees, including bargaining unit employees, select exempt employees, and senior management employees. Although the Legislature did not fund the security services step pay plan this year, all security service employees will receive the three percent increase that other employees receive.

Correctional Education, Jails, Health Care Surveys

Senate Bill (SB) 2050 provided statutory authority to abolish the Correctional Education School Authority (CESA) and creates an Assistant Secretary for Education and Job Training. It also created a temporary Advisory Board of Correctional Education (the existing CESA Board) to assist in the transition to the department. The advisory board is only in existence until July 1, 1996.

This bill also eliminates the requirement that the Department of Corrections conduct inspections of local jails. There is some ambiguity regarding whether the department will continue in some capacity to inspect or monitor local jails.

Finally, SB 2050 changes the frequency of health care surveys conducted by the Correctional Medical Authority from every two years to every three years.

Other Bills (SB 2944, SB 2050) Affecting the Department of Corrections

- Authorizes the department to reimburse employees for the amount of the insurance deductible when they

are required to use their personal vehicle while conducting state business and their vehicle is damaged while conducting such business.

- Requires the department to establish guidelines for the admission of certain reading materials determined to be sexual in nature or detrimental to the safety or welfare of correctional institutions.
- Provides representation from the Department of Corrections on the Joint Task Force on State Agency Law Enforcement Communications.
- Prohibits name changes unless civil rights have been restored. (Inmates may no longer petition to legally change their names.)
- Provides that judicial appeals challenging prisoner disciplinary proceedings must be commenced within 30 days after final disposition of the disciplinary proceeding.
- Authorizes the department to utilize "auxiliary correctional probation officers" who may work under the supervision of a full or part-time correctional probation officer.
- Prohibits inmates who have previously been convicted of escape from participating in work release or being housed in minimum security facilities.
- Beginning July 1, 1995, requires the department to provide public notice (in a local newspaper) regarding the proposed location of probation and parole offices at least 30 days prior to execution of a lease.
- Requires the department to promote inmate work programs by using clearly displayed signs that identify inmate work crews, inmate transport vehicles and, possibly, inmate work uniforms of a distinctive design.
- Provides some technical revisions to the 1994 changes to the Youthful Offender law.

Strategic and Operational Planning

A. Charles Hazelip, Ph.D., Planning Mgr.
(904) 488-1801 SC 278-1801

Seven critical issue teams consisting of central office staff, augmented by Corrections Action Teams formed in each region, drafted the annual update to the agency's Strategic Plan. In keeping with the department's policy of maximum feasible employee participation, about 90 employees were involved in drafting this year's revisions to the plan. The seven priority issues of the previous year's plan were maintained. In brief, they covered:

- Public safety
- Community partnerships
- Offender programs
- Improving communications
- Financial Resource Requirements
- Increased productivity
- Use of technology

Emphasis again was placed on tightening up condition descriptions, making them more data-driven and focused on future projections. Strategic Plan objectives were studied and modified to make them more outcome oriented and measurable.

The department's quarterly reporting system used to track progress in meeting Strategic Plan objectives continued, with efforts to simplify the reporting system and convert from an E-mail basis to a PC-based format. The reports provide executive management with the current status of specific strategies in the strategic plan. The reports also provide the basis for the annual progress report submitted to the Governor and legislature.

The department has moved forward with operational planning. The Adult Services Program Office, the original pi-

lot-plan organization continues to refine its operational plan. Chaplaincy Services has developed an operational plan, as well. The Office of Youthful Offenders has conducted initial workshops to develop an operational plan covering their responsibilities. Workshops have been held in each region to acquaint field staff with the operational planning process. A Policy and Procedures directive clarifying strategic and operational planning responsibilities has been initially reviewed by senior staff and is undergoing re-drafting. The implementation of operational plans department-wide remains the ultimate goal of this effort.

OFFENDER PROGRAMS

Adult Services

Ron Jones, Director
(904) 487-2475 SC 277-2475

Areas of Responsibility:

■ Inmate Transition Assistance

During the 1995 Legislative Session, Florida Statute 944.703, 704 and 706, which governs the Transition Assistance Program, was amended as follows:

- ◆ The Department of Corrections is now required to provide a transition assistance officer at each major institution. These officer's primary responsibility will be in assisting inmates in their transition from prison to society. Prior to this amendment, the Department designated a classification officer to perform transition duties along with their regular classification responsibilities.
- ◆ The Department of Corrections eligibility criteria for transition assistance has been expanded to include those inmates released from work release centers.

■ Inmate Classification

- ◆ Systematically monitored and evaluated the quality and appropriateness of inmate classification assessment, placement, and management.
- ◆ Pursued opportunities to improve classification services and the delivery of services to inmates.
- ◆ Identified and resolved problems and issues related to inmate classification.
- ◆ Produced escape analysis reports for each inmate escape.
- ◆ Analyzed and made final decisions for inmate transfer recommendations.
- ◆ Oversaw the general management of the Computer Assisted Reception Process (CARP).
- ◆ Monitored inmate gain time awards.
- ◆ Developed rules, policies, and procedures related to inmate classification issues.

■ Community Facilities

- ◆ Contracted with Franklin County Jail and Taylor County Jail to house working squads of inmates.
- ◆ Completed accreditation of all Community Correctional Centers in April 1995.

- ◆ Contracted for delivery of Life Skills and Behavioral Modification Programs for selected inmates at twenty-six (26) institutions/facilities.

■ Community Work Release

- ◆ Collected \$6.5 million in subsistence during FY 94-95
- ◆ Increased the community work release center population by approximately 600, thus reducing the per diem cost.
- ◆ Maintained community Tier III facilities at 99% + capacity, meeting minimum guaranteed contracts.

■ Inmate Labor Office

- ◆ Coordinated, monitored, and participated in the management of inmate labor assigned to work with the Department of Transportation, Division of For-

Value of Inmate Labor

Public/Interagency Work Squads FY 1991-94 to FY 1994-95

Department of Transportation FY 1991-94 to FY 1994-95

OFFENDER PROGRAMS

estry, Public Works and Interagency Community Service (these later two areas involve other governmental agencies, counties, cities, municipalities and non-profit organizations).

- ◆ Coordinated and monitored master agreements between the Department of Corrections and the Department of Transportation and the Department of Agriculture and Consumer Services.
- ◆ Monitored Inmate Utilization and prepared periodic reports and reviews, and coordinated inmate assignments to work and program activities with Classification.

Accomplishments:

- Completed implementation of the Computer Assisted Reception Process (CARP) at the remaining reception centers: Broward Correctional Institution, Florida Correctional Institution and South Florida Reception Center.
- Coordinated transfer of the inmate visitor list of all inmates in system to a database.
- Assisted in coordinating the opening of new institutions.
- Developed "Quality Criteria Check List" streamlining

and applying consistent application of inmate transfer recommendations.

- Initiated gathering of data from inmate records and transferring information to database of all inmates to assist in inmate management and tracking.
- Initiated project to place inmate arrest history on database.
- Implemented the second generation of the Integrated Assessment and Placement System, incorporating additional and more complex inmate screening factors to improve the versatility and accountability of inmate placement decisions.
- Implemented the Florida Criminal Alien Removal Program (FCARP), which is a collaborative agreement between the DC, the Governor's Office, the Immigration and Naturalization Service and the Executive Office for Immigration Review. FCARP encompasses a number of initiatives regarding the receiving, processing, releasing and deporting of criminal aliens.
- Implemented the Institutional Telephonic Hearing Program, which reduced the need to transport inmates to hearing sites and has increased the number of hearings required to determine an inmate's alien status.

PRIDE

Pamela Jo Davis, Ph.D., President
(813) 535-4900 SC 568-1300

Areas of Responsibility:

Prison Rehabilitative Industries and Diversified Enterprises (PRIDE), Inc., was authorized by the Florida Legislature in 1981 to operate the state prison industries. A non-profit corporation, PRIDE has contributed over \$73 million to the state of Florida over the years, including inmate compensation, victim restitution, and investment in state assets.

Inmate On-the-Job Training:

In the 1994-95 fiscal year, 4,648 inmates trained and worked 4,611,255 hours in PRIDE's multi-businesses. The corporation offers over 400 different skill paths required by 2,838 inmate positions within 40 industries and 12 operations located in 21 prisons.

PRIDE inmate workers were paid \$1,771,469 in 1995 and \$265,720 was paid to victim restitution.

Opportunities for Inmates

PRIDE's variety of businesses provide job training experiences consistent with the private sector companies in Florida. PRIDE integrates market-based customer-driven goals, objectives and measurements with industrial job training and employability education. Within this private enterprise mode, inmate workers assigned to PRIDE by the Department of Corrections learn marketable job skills demanded by today's business world.

Accredited Training

Seventy-six percent of the PRIDE industries have been certified or recognized by national business/trade associations and

accredited institutions such as the Department of Education; Clemson University School of Textiles, Clemson Apparel Research; the University of Florida (Institute of Food and Agricultural Sciences); Florida A&M University/Florida State University; the National Institute of Automotive Service Excellence (ASE); the American Welding Society as well as Pittsburgh Paint and Glass Co. (PPG).

Post Release Support

Prior to release, inmate workers receive job readiness

OFFENDER PROGRAMS

training and are advised to contact the PRIDE job developers, using a toll-free number provided. Upon release, referrals and job interviews are scheduled for the ex-offenders, with an emphasis on matching the job with job

training received at PRIDE. Critical transitional support such as housing, transportation, clothing, and tools (if needed) are provided to the ex-offenders.

OFFENDER PROGRAMS

A PRIDE inmate worker designs a logo, one of many produced by the Cross City Screen Printing Industry.

PRIDE Prison Industry Consistently Wins International Awards

For the past four years PRIDE's Cross City Screen Printing Industry has competed with over 200 companies from 32 countries in an international screen printing contest.

To date, the inmate workers' award winning samples have garnered seven top awards: Three First Place (Golden Squeegee Awards), Two Second Place (Silver Squeegee Awards), and Two Third Place (Bronze Squeegee Awards). PRIDE has been the only prison-based industry to enter this competition.

Economic Impact

Pride has averaged \$36 to \$40 million in economic impact each year through PRIDE staff payroll and purchases of goods and services from over 3,500 Florida-based companies. This impact on the state is valued annually between \$60 to \$80 million, based on the 1.2 to 2 multiplier effect.

Recommitment Study

A four year tracking study shows that of the 4,710 PRIDE inmate workers released into the community, 719 or 15.2% have returned to prison. Of the 4,710 inmates released, 2,068 inmates worked for PRIDE for six months or more. Only 230, or 11.1% of those recommitted.

Food Service

Bill Bowers, Director
(904) 488-0123 SC 278-0123

Areas of Responsibility:

- Food selection, warehousing and distribution
- Menu development and implementation statewide
- Nutritional analysis including food quality and cost control
- Food service equipment design specification and purchasing
- Farming and gardening program(s), including growing grapes and raising catfish.

Accomplishments:

- Served more than 66 million inmate meals during FY 94-95 at a cost of 74 cents per meal. These full course meals are nutritionally balanced and certified by registered dietitians.
- Reduced food costs substantially over the last five years, as shown in the per meal food costs table.
- Continued improvements to food acquisition process, including contracting for redistribution of specialty products, consolidating regional purchasing to maximize qual-

ity discounts, and an independent review of the current process and modeling of future enhancements.

PER MEAL FOOD COSTS

(FY 1990-91 to FY 1994-95)

FY 1990-91	77.9¢
FY 1991-92	78.0¢
FY 1992-93	71.0¢
FY 1993-94	75.6¢
FY 1994-95	74.4¢

- Continued development of the farm and garden program. There are over 300 acres being cultivated by over 1,200 inmates, with additional expansion planned. New or expanded programs that were initiated in FY 94-95 include luffa, viticulture (grapes), and aqua-culture (catfish farming), as well as more traditional plantings such as tomatoes, potatoes, greens and other consumable vegetables.
- Publishing of the nationally recognized diet manual to provide guidance and direction to both health and food service professionals in meeting the inmate's special diet needs. In addition, the master menu and the therapeutic diets were completely rewritten, resulting in a more uniform and consistent menu.
- Increased testing and monitoring of food quality resulted in thousands of dollars being reimbursed to DC by vendors attempting to deliver substandard food.

OFFENDER PROGRAMS

Chaplaincy Services Office

Chaplain Tyrone A. Boyd, Director
(904) 488-3570 SC 278-3570

Areas of Responsibility:

The mission of Chaplaincy Services is to assist the department in maintaining public safety by providing pastoral care to inmates, staff and their families; assisting offenders in their responses to the realities of their actions prior to, during and after incarceration; assisting offenders in discovering religious faith, or in developing their personal faith, and by working in partnership with the community to accomplish mutually beneficial results.

The Chaplain is a leader of prayer, worship and learning in the total prison community. The Chaplain coordinates an extensive community volunteer program. The Chaplain supervises religious programs and services to meet the needs of persons of all faiths, including counseling in times of grief and crisis.

Accomplishments:

- Chaplaincy Services has implemented an operational plan to increase inmate participation in religious activities

* All annual totals are based on monthly, cumulative figures.

- Chaplaincy Services has initiated a study to measure and evaluate the impact of religious activities on recidivism
- Attendance at worship services and religious events: 593,224* (Catholic, Protestant, Jewish, Muslim and other faiths)
- Participants in religious studies programs: 313,434
- Pastoral visits and counseling sessions in areas including orientation, family crisis, death, marriage and pre-release: 543,595
- Citizen volunteers trained and supervised (approx.): 2,700

Thirty-six (36) of 51 major institutions have chapels and chapel libraries.

Office of Youthful Offenders

Marcellas Durham
Asst. Secretary for Youthful Offenders
(904) 487-3165 SC 277-3165

Creation of the Office of Assistant Secretary for Youthful Offenders

The Office of the Assistant Secretary for Youthful Offenders was established by the Florida Legislature in 1994. It was the outgrowth of the Youthful Offender Programs Office first established by the Legislature in 1978 with the enactment of the Youthful Offender Act, FS 958. By elevating the youthful offender function to the level of Assistant Secretary, the Legislature set in motion the capability to improve and expand opportunities for Florida's young offenders committed to the Department of Corrections.

The purpose or mission of the Office of the Assistant Secretary for Youthful Offenders is to improve the chances of correction and successful return to the community of youthful offenders sentenced to imprisonment by providing them with enhanced vocational, educational, coun-

seling, or public service opportunities, and by preventing their association with older and more experienced criminals during the terms of their confinement.

The office is also responsible for encouraging citizen volunteers from the community to contribute time, skills, and maturity toward helping youthful offenders to successfully reintegrate into the community and to *require* youthful offenders to participate in substance abuse treatment and other types of counseling and programs at each youthful offender institution for male and female youthful offenders.

In addition to the youthful offender function, the Assistant Secretary for Youthful Offenders is currently charged by the Secretary of the Department of Corrections to administer these departmentwide programs: Chaplaincy Services; Citizen Volunteers; Substance Abuse Treatment Programs; Elderly Offender Services; Women Offender Services; Grants and other Resource Acquisition Activities. Accomplishments in each of these areas are detailed in the following sections of this report.

OFFENDER PROGRAMS

Bureau of Youthful Offender Program Services

Bureau Chief Edward M. Teuton
(904) 488-1140 SC 278-1140

Areas of Responsibility:

- Programming for a 112-bed military-style Basic Training Program (Boot Camp) in Sumter County for first-time commitment youthful offenders.
- Enhanced, specialized programming for more than 2,500 sentenced and classified youthful offenders at four male institutions, one female institution dormitory and Sumter Boot Camp.
- Coordination of classification activities for all youthful offenders.
- Coordination of academic, vocational and self-betterment programming for youthful offenders.
- Coordination of transfer and placement of male and female youthful offenders.
- Coordination of special education programs for all offenders.

Accomplishments:

- Converted Hillsborough Correctional Institution (CI) from an adult to a youthful offender institution.
- Implemented the extended day concept of 12 hours of program activity per day for youthful offenders at Youthful offender institutions.
- Developed individualized development plan procedure for all youthful offenders.
- Implemented changes in the Basic Training Program to include academic and vocational training, and extended the length of the program.
- Implemented life skills program at all youthful offender institutions.
- Coordinated the implementation of transition assistance for all youthful offenders.
- Implemented specialized transition assistance for youthful offenders at Tampa and Pompano Beach Community Correctional Centers.
- Implemented a community residential transition program for youthful offenders.

- Developed a tour program under which a judge may order juveniles who have committed delinquent acts to tour correctional facilities.
- Developed the youthful offender rule which provides procedures for dealing with youthful offenders in prison and in the community.
- Implemented enhanced academic and vocational assessment at reception centers for youthful offenders.

Who may be sentenced or classified as a Youthful Offender?

- **The court** may sentence a person as a youthful offender if the crime was committed prior to his or her twenty-first birthday (F.S. 958.04).
- **The Department of Corrections** may classify an inmate as a youthful offender if he or she is 24 or under, with a sentence of 10 years or less; or vulnerable inmates 19 years or under with a sentence of more than 10 years, if their safety would be jeopardized in an adult institution.
- During FY94-95, 45 inmates were at some point classified in youthful offender status for protective reasons.
- Capital or life felons may not be classified or sentenced as youthful offenders.
- 14-18 year old youthful offenders must be separated from 19-24 year old youthful offenders.

Youthful Offender Institutions

Inmates sentenced or classified as youthful offenders are assigned to one of six designated youthful offender facilities.

YOUTHFUL OFFENDER POPULATION

OFFENDER PROGRAMS

Youthful Offender Resource and Program Development

Mike Clayton, Program Administrator
(904) 488-6903 SC 278-6903

Areas of Responsibility:

- Developing grants to be used for Youthful Offenders and Adult Offenders.
- Programming for elderly inmates
- Programming for female offenders
- Organizing citizen volunteers

Accomplishments:

- Grants and resource development for areas related to the function of the Office of Youthful Offenders. Grants were developed to provide for additional funds in the areas of substance abuse, family literacy, parenting, volunteerism, environmental awareness, and youthful offender programming.
- Programming for more than 3,200 elderly inmates (50 years of age or older) focuses on assisting institutional staff to meet the special needs of this target population.
- Special programming for female offenders expanded to include domestic violence support groups at all major institutions, as well as some community facilities. In addition, the Girl Scout program was extended to other areas of the state as part of the department's effort to establish cooperative partnerships with communities.
- A wellness education program for inmates was de-

signed and implemented to promote positive lifestyle changes through increased awareness in areas such as diet and nutrition, exercise, stress management, sexually transmitted diseases, and other related topics that lead to a healthier way of living. Certification of Recreation Therapy Managers as Wellness Specialists was completed through a 40-hour seminar conducted by the University of Florida's School of Health and Human Performance.

- Coordination of the activities of numerous citizen volunteers statewide. Volunteer training was standardized by the development of uniform lesson plans and trainee workbooks. The DC utilizes most of its volunteers in the areas of religion and drug treatment. The department also uses volunteers in educational tutoring, vocational instruction, counseling, and clerical services. Student interns from state colleges and universities provide an array of volunteer services to the department, including music therapy, educational instruction, and counseling. They also serve as assistant probation officers in Probation and Parole Offices.
- The DC utilized an average of 5,300 volunteers each month during FY 1994-95.
- Volunteers were utilized at 78 major institutions, work camps and forestry camps; 53 Probation and Parole offices; and the majority of community correctional centers during the FY.
- Volunteers averaged 19,564 hours per month in FY 1994-95, and an annual total of more than 234,000 hours. This translates into \$1.87 million in savings to the department and the State of Florida.

Probation and Parole Services

Lana Arnold, Director
(904) 487-2165 SC 277-2165

Areas of Responsibility:

- Supervising approximately 136,000 offenders on probation, parole, community control, pretrial intervention, control release, drug offender probation and conditional release with approximately 2,800 officers.
- Identifying needs of probation and parole offenders
- Developing programs, creating and monitoring probation and parole service standards
- Developing training and technical assistance for programs such as Sentencing Guidelines

DAILY PER DIEM

(FY 1994-95)

Regular Supervision:	\$3.51
Post Release Supervision:	\$1.07
Pretrial Intervention:	\$1.26
Community Control I & II:	\$4.77
Drug Testing (Per Test):	\$5.40

- Developing state program plans, rules and regulations
- Providing technical assistance to the regions in community supervision, intake, investigation and classification
- Evaluating programs
- Selecting and overseeing substance abuse treatment programs for offenders

OFFENDER PROGRAMS

SUPERVISION TYPES AND POPULATION

(June 30, 1995)

Probation:	93,723
Parole:	2,838
Conditional Release:	2,392
Control Release:	7,899
Drug Offender Probation:	6,332
Community Control:	14,692
Pre-Trial Intervention:	7,793
Other:	387
TOTAL:	136,056

AVERAGE CASELOADS

(FY 1994-95)

Adult Supervision:	115:1
Community Control:	23:1
Youthful Offender:	90:1
Pretrial Intervention:	90:1
Drug Offender:	70:1
Offender Release:	90:1
Specialist:	90:1

Accomplishments:

- The Client Management Classification System (CMC) was brought on-line, along with the Automated Substance Abuse Program (ASAP) in FY 1994-95. CMC is a nationally recognized program which assesses, focuses and builds on the strengths of the individual offender. Community Control officers and other key employees statewide were educated by a core group of dedicated staff on CMC's uniquely developed supervision plans.

These supervision plans are used by officers to supervise the offender in a way that reduces the likelihood of recidivism, enhances opportunities for success and may ultimately lead to a safer environment for the employee, offender and the public at large.

- P&P Services increased database capabilities with new programming and enhancement of existing programming.
- On October 17, 1994, the new cost of supervision declining balance policy became a part of the Court-Ordered Payment System (COPS). This eliminated the need for a separate billing, receipting and disbursement system.
- The Sentencing Analysis and Guidelines Entry Systems (SAGES) was also enhanced with the addition of over half of the State Attorney Offices throughout the state having on-line access to the program.
- In 1994, the DC acquired the four-story structure which formerly housed Glenbeigh Hospital in Hialeah. The building underwent some minor renovations and in February 1995, the facility opened to house the Circuit 11-7, Miami-Westchester Probation and Parole Office on the first floor; Miami Community Correction Center (female work release center) on the second floor; and the Dade Bridge, 100-bed, non-secure drug treatment center on the third and fourth floors. The staff of these three separate offices have worked diligently to meet the challenge of this innovative and exciting approach to community-based corrections.
- Probation and Parole Services also opened 500 diversion and non-secure treatment beds at new and existing centers during FY 1994-95.

Correctional Education

Wilson Bell, Assistant Secretary for Education and Job Training
(904) 488-2288 SC 278-2288

Summary of Changes in Correctional Education's Function

Through June 30, 1995 the Correctional Education School Authority managed the educational programs for inmates. Effective July 1, 1995, the Florida Legislature placed inmate education programs under the direct supervision of the Department of Corrections. The function of the new Office of the Assistant Secretary for Education and Job Training is to provide ba-

sic education, special education, and vocational training to inmates.

Vital Statistics:

- Total 1994-95 budget: (\$15.5 million)
- Employees: 318, including 260 instructional staff; 119 citizen volunteers also tutor inmates.
- Inmates enrolled: Enrollment was 6,922 on June 30, 1995. This includes an enrollment of 4,605 in academic programs and 2,317 in vocational programs.

During 1994-1995 a full range of academic programs and at least two vocational programs were offered at 25 correctional institutions. Additional academic and

OFFENDER PROGRAMS

vocational programs were offered at 23 other facilities including work camps and the boot camp.

Accomplishments:

New initiatives and major accomplishments include:

- Adding 25 new Academic and Vocational teacher positions, and changing nine grant-funded positions to state general revenue funded positions
- Developing a set of procedures (Targeted Education Services Score [TESS]) that, if fully implemented, could ensure educational needs of inmates are served according to priorities established by statute
- Increasing the emphasis on the use of CAI (Computer-Assisted Instruction).
- With special attention given to Federal Compliance Monitoring Training, Correctional Education achieved, for the first time, a no fund adjustment by the U.S. Department of Education. Also, positive mention was made concerning the increases in confinement services and in direct instruction to special education inmates.
- The data collection system was redesigned to ensure unduplicated counts and reliable statistics are gathered. A major part of this effort was the development of a research file within the department's database which made a variety of inmate variables accessible for analysis.
- Initiated Phase I of the Corrections Distance Learning Network (CDLN), a thirty-five site satellite television network to be used for inmate academic and vocational training and staff development.
- Extensive program reviews in eight different program and service areas at ten correctional institutions indicated that over 91% of all applicable standards were met.
- Surveys conducted in November and May indicate that Correctional Education is reaching the type of stu-

dents mandated by the Legislature. In both the November and May surveys, over 87% of the inmate students were considered as high priority (High Target and Medium Target students).

Correctional Education Teachers of the Year

The major effort and accomplishments of faculty during the year are reflected in the selections of the Teachers of the Year. **Donald Turnage**, Academic Instructor at the Sumter Boot Camp, has been chosen by his peers as Correctional Education's Teacher of the Year. Mr. Turnage developed the curriculum for the educational component of the Sumter Boot Camp and monitors its progress daily, making improvements as needed. Mr. Turnage's innovative use of a computer lab and Computer-Assisted Instruction (CAI) has made significant changes in the academic progress of his students. Other teachers of the year at the institutional level are: **Gretchen Infinger** (Apalachee CI), **Michael Kidd** (Avon Park CI); **Manly Solovicos** (Brevard CI), **Janice Lubner** (DeSoto CI), **Linda Tochman** [Florida {Forest Hills} CI], **George Vorhes** (Hillsborough CI), **Timothy Sanders** (Indian River CI), **Joseph Fannon** (Lake CI), **Donald Jacobson** (Lancaster CI), **Shelley McLeod** (Madison CI), **William Sise** (Marion CI), **Theresa Kunselman** (Martin CI), and **John Rosinski** (New River West CI).

Correctional Education's Employee of the Year is **Paul D. Bohac**, Education Supervisor at Apalachee CI. Mr. Bohac was selected based on his exceptional leadership ability, professionalism, and commitment to agency goals.

Donald Turnage,
CESA Teacher of the Year

DRUG TREATMENT PROGRAMS

Substance Abuse Treatment for Incarcerated Offenders

Sherrie Sanders, Director
(904) 488-9169 SC 278-9169

An Overview

A comprehensive Substance Abuse Treatment Program is in place at 43 major institutions, 30 community correctional centers, seven community facilities and nine Probation Restitution Centers. These programs annually serve approximately 17,727 inmates with substance involvement, abuse, or related problems. The program's main objectives are to identify substance abusers, assess the severity of their problems, measure their readiness for treatment, and finally, to recommend them for an appropriate treatment program. These objectives are accomplished through inmate testing and interviewing at the time they enter reception centers for classification. Offenders assessed as being in need of services are either sent directly to appropriate programming or placed on a waiting list pending availability of such programming.

Tier System

The following is a summary of the comprehensive statewide substance abuse programs for incarcerated offenders. These programs include an initial assessment phase and a Tier system offering varying degrees of treatment for identified substance abusers. The department offers various levels of treatment programming based on the inmate's need and readiness for treatment. This system was developed to accommodate the department's sentencing guidelines and movement of inmates through the system. All of the programs, with the exception of Tier I are governed and licensed by the Florida Department of Health and Rehabilitative Services (HRS). While in operation, each program's license is renewed annually.

Tier I

Tier I is a 40-hour program specifically designed to address the needs of offenders who (1) have less than severe substance abuse problem; or (2) are believed to have a severe problem, but are denying the problem exists and therefore are not considered ready for treatment; and/or (3) due to a very short sentence, will not have the opportunity to go through a longer term program. Although primarily designed to provide information as an educational component, Tier I also introduces group counseling techniques. In addition, and more importantly, it serves as the beginning point to essential follow up treatment

consisting of further group counseling; encouragement to participate in Alcoholics Anonymous, Narcotics Anonymous, or other support groups; and referral as appropriate to a more intensive level of treatment. The Tier I program is provided either by department staff or by contractual agreements, and is located at 14 sites. The counselor/inmate ratio is 1:45.

Tier II

Tier II is an intensive eight week residential modified therapeutic community program housed within a correctional institution designed for inmates with serious substance abuse problems. This level of treatment is aimed at those inmates who will not be in the correctional system long enough to participate in a more extensive program. Tier II also serves as a referral mechanism to other levels of treatment such as long term follow-up treatment, referral to Tier III, referral to a community based program if eligible, and/or encouragement to participate in Alcoholics Anonymous, Narcotics Anonymous, etc. This Tier is characterized by frequent individual and group counseling with continuous treatment. The Tier II program is provided by department staff and/or contractual agreements, and is located at eight sites. The number of inmates in each program is determined by the available space at the institution and the dorm size. The counselor/inmate ratio is 1:8 as dictated by HRS.

Drug Treatment Center

Drug Treatment Centers house minimum or medium custody inmates with emphasis on those inmates convicted of drug offenses, theft or burglary who have cumulative sentences of three years or less, and who are assessed in need of substance abuse treatment. New inmates assessed in need of drug treatment have a shortened reception process and movement is made directly to the treatment center in three to seven days.

The entire Drug Treatment Center facility revolves around providing drug treatment services. Inmates are involved in this intensive therapeutic community (TC) process 24 hours a day, seven days a week, for four months. The treatment phases include: orientation, treatment and re-entry. In addition to the treatment program, all inmates participate in a structured therapeutic fitness regimen. The DTC's are provided by department staff and/or contractual agreements and are located at five sites. The number of inmates in each program is determined by the available space at the institution/facility and the size of the dorm. The counselor/inmate ratio is 1:15 as dictated by HRS.

Tier III

Tier III is a full service residential TC program. This treatment component is six to 12 months long and is currently provided in a female institution, a male youthful offender institution, and an adult male institution. Additionally, the department has contracts with community-based drug treatment programs throughout Florida to provide this service for eligible inmates approaching the end of their sentences. These contract facilities are designated as Community Tier III therapeutic communities. Presently, the department utilizes six such facilities and contracts for a total of 54 beds within those facilities. For placement at such a facility an inmate must be classified as community work release eligible. The Tier III program is provided by department staff and/or contractual agreements and is located at five institutional and seven community sites. The number of inmates in each program is determined by the available space at the institution and the dorm size. The counselor/inmate ratio is 1:15 as dictated by HRS.

Day or Night Treatment

This program provides a structured schedule of treatment services that includes a minimum of 16 hours of activities per week, six of which occur in individual, group or family therapeutic sessions. Services provided in this structured outpatient setting are consistent with the services provided in the residential programs except that

the outpatient program is conducted during the day, evening or weekend hours to accommodate the inmates' institutional work schedules. Day/Night Treatment serves approximately 40 inmates every four to six months. The Day/Night Treatment program is provided by contractual agreements and is located at 26 sites. The counselor/inmate ratio is 1:20 as dictated by HRS.

Tier IV

Tier IV is designed specifically to provide counseling services to inmates assigned to Community Correctional Centers by means of contracted services. This outpatient/aftercare treatment strategy focuses on relapse prevention and supportive therapy. This ten-week program involves inmates during the afternoon and/or evening prior to or after work and includes eight weeks of counseling, group attendance at AA/NA meetings, and educational groups. The final two weeks prepares inmates for community re-entry. The relapse prevention program is essential for this re-entry process. Group, individual, and family counseling sessions are held, and relapse prevention plans are completed. Emphasis is also placed on developing and cementing connections with community-based drug treatment programs, self-help support groups, and other aftercare services. The program is provided by contractual agreements and is located at 39 sites. The counselor/inmate ratio is 1:30 as dictated by HRS.

DRUG TREATMENT PROGRAMS

I. Random Drug Testing

In 1993 the Drug Free Corrections Act, under Florida Statute 944.473, mandated that the department establish procedures to randomly select and test inmates for substance abuse. In January 1994 the random selection and testing of inmates started. The plan developed by the task force called for random selection and testing of 10% of the Florida prison population every month. The following table presents the results of random drug testing for the last fiscal year. The department tested 37,731 inmates during FY 94-95. The results indicate that 1,513 inmates tested positive for drugs, which is about four percent of all inmates tested.

II. Treatment Program Drug Testing

As part of its evaluation process, the substance abuse treatment programs conduct their own drug testing. Inmates in the Tier programs are continually monitored for drug use as an integral part of their treatment. The drug testing policy for the treatment program was established long before the overall random testing and continues today.

III. Testing due to Reasonable Suspicion

In addition to random testing of the inmate population, the department also tests inmates based on reasonable suspicion that they have ingested drugs. Any inmate who is likely to have been using drugs is subject to a drug test. A positive test will result in disciplinary action for the inmate.

FY 1994-95 Random Drug Testing Results

Inmates Tested	Inmates Tested Positive	Inmates Tested Negative	Positive Test Results			
			Alcohol	Cannabis	Cocaine	Total*
37,731	1,513	36,218	83	1,411	88	1,582

* Note: Total includes multiple positives

Substance Abuse Treatment for Offenders on Supervision

Correctional Programs Administrator
Richard Nimer
(904) 487-2165 SC 277-2165

An Overview

It is estimated that approximately 70% of the offenders on community supervision in Florida have substance abuse problems, or a history of substance abuse. Affordable drug treatment for offenders, especially indigent offenders, is scarce or not available in local communities. In response to this problem, Probation and Parole Services has developed a substance abuse treatment system for offenders under community supervision. During FY 1994-95, the department's community-based treatment efforts served over 25,000 offenders and had a successful completion rate of 44 percent for all treatment programs. The system was designed to screen offenders on community supervision for drug abuse, and place them in the appropriate treatment program. The intent of the system is to make treatment available and accessible to all offenders, regardless of their ability to pay. The court must order the offender into treatment. Offenders under community supervision have access to intervention/assessment programs, nonresidential, detoxification and residential programs. The department has contracted with community-based providers for the following services:

assessment programs, nonresidential, detoxification and residential programs. The department has contracted with community-based providers for the following services:

Intervention/Assessment Programs:

Assessment — Offenders are referred for a substance abuse assessment by court order to determine the presence or severity of their substance abuse problem. If identified as an abuser, the offender will be referred to the appropriate education or treatment service.

TASC — An integral part of intervention programs is Treatment Alternatives to Street Crime (TASC). TASC agencies primarily serve substance abusers involved in the criminal

Region	Secure	Non-Secure	Diversion
I	20	90	60
II	40	120	45
III	70	90	90
IV	53	322	205
V	90	246	100
TOTALS	273	868	500

DRUG TREATMENT PROGRAMS

justice system. TASC services include screening and case identification, court liaison, offender referral and tracking.

Non-residential Programs:

Outpatient Treatment — Outpatient treatment provides therapeutic activities for offenders while they maintain employment in the community. The focus is on treatment and education. Outpatient services are provided to offenders statewide at various intensity levels. Each outpatient program provides a minimum of one individual, group or family session bi-weekly. Outpatient programs also provide drug education classes. The treatment and classes are designed to impose minimal disruption on daily life activities.

Day or Night Treatment — Day or night treatment consists of an intensive non-residential program providing offenders four consecutive hours of daily structured treatment activity at a minimum frequency of four days per week. At least six hours per week is allocated to individual or vocational programming. Day or night treatment allows offenders to participate in an intensive therapy program while maintaining residence and employment in the community.

Detoxification — Detoxification units provide medical and/or psychosocial treatment procedures in conjunction with counseling to help offenders withdraw from the physiological effects of substance abuse. Detoxification can occur in a residential or non-residential setting.

Residential Programs:

Residential treatment involves a structured, live in, non-hospital environment, focusing upon all aspects of substance abuse rehabilitation including vocational and education programs.

Level I: Level I residential treatment provides inpatient therapy for up to 60 days.

Level II: Level II services provide for residential treatment from 60 days up to one year. A variety of Level II programs are available statewide.

Level III: Level III residential services are long-term treatment programs wherein the average length of stay exceeds one year.

Non-Secure Drug Treatment Program:

The Non-Secure Drug Treatment Program was implemented as part of the 1990 Community Corrections Partnership Act passed by the Florida Legislature. One of the primary goals of this act was to reduce prison admissions by diverting the offender to community treatment programs. The Non-Secure Drug Treatment Program provides treatment for non-violent offenders on probation or community control with alcohol or drug abuse problems who need more intense treatment than outpatient. The non-secure program is designed to help offenders break their pattern of use and gradually move them back into the work force through a supervised, treatment-supported environment.

Long-Term Residential (Secure) Drug Treatment Program:

The Long-Term Residential (Secure) Drug Treatment Program is also for non-violent probationers or community controllees who violate conditions of their supervision. Offenders are eligible for referral to the secure program if they have a chronic history of substance abuse, treatment failures, and an inability to stay substance and criminal activity free. The candidate for Secure Drug Treatment is similar to the candidate for Non-secure Treatment in substance abuse and criminal activity patterns. The difference lies in the greater degree of involvement in this lifestyle.

Drug Testing for Offenders on Supervision

A comprehensive, random drug testing program for offenders is operational, using laboratory and on-site drug

Statewide Drug Tests Over Seven Years

AWARDS

Department Employee of the Year

Carol Pulaski

has been with the department for six years and is a Senior Health Services Administrator at Tomoka Correctional Institution. She has kept her eye on the "bottom line" by negotiating many cost saving contracts for the department, such as the more than \$200,000 in savings in FY 1994-95 that resulted from her efforts. Ms. Pulaski has been a consistent influence for good, making herself readily available to staff and inmates having problems in her area of responsibility. The success of her efforts is exemplified by the implementation of an improved system of scheduling outside medical appointments, development of new guidelines on dietary supplementation and guidance on issuance of special shoes. She is a team player and is always looking for ways to improve quality and productivity.

Central Office Employee of the Year

Jerry Hewett

has been with the department for 22 years. He is a Correctional Program Administrator in Adult Services and a Certified Public Manager. Mr. Hewett has distinguished himself in both knowledge and implementation of Correctional Quality Management. He was the head facilitator in the development of the first operational plan derived from strategic plan strategies in the department. His work in developing enhanced communication with the Parole Commission, via electronic means, was recognized by the awarding of a Davis Productivity award. He has also contributed to the department's successful negotiations with the federal government in implementing the Criminal Alien Removal Program. His high degree of personal integrity and professional competence has made him a valuable resource in the areas of inmate transition and continuous quality improvement. Mr. Hewett also holds positions of great responsibility in his church and is active in community affairs.

Correctional Officer of the Year

Sgt. Charles Godwin

has been with the department for five years and is employed at Walton Correctional Institution as the K-9 sergeant. His ability to handle the K-9 unit has been recognized by his first and second place showings among teams representing the State of Florida and the department in the 1994-95 Alabama Manhunt Competition.

Sergeant Godwin also performs security tasks not associated with K-9 operations. In every instance he handles his duties in a firm, fair consistent and professional manner. He has been instrumental in achieving total cooperation among local and regional law enforcement organizations. He is recognized as a valuable resource in efforts to recapture fleeing felons. These efforts frequently have placed him in dangerous confrontations with armed fugitives. As a community liaison, he represents the department and K-9 activities before many groups including scouts, elderly groups and student groups. He is credited for saving four lives this past year, locating children and elderly citizens who had wandered into wooded areas and become lost.

Sgt. Godwin unselfishly makes himself available for immediate response to calls for his assistance, usually answering such calls within seven minutes. He truly represents the best values of the department in an exemplary manner.

Correctional Probation Officer of the Year

Linda Obiaka Washington, a Correctional Probation Specialist in the Lakeland Probation and Parole Service, has been with the department for 11 years.

Ms. Washington has consistently taken on additional duties and training to further her professional competence. She has a high risk caseload which includes mentally challenged, violent offenders and other high profile cases. She has worked hard to get offenders in her caseload into programs that meet their behavioral and educational needs. She is willing to go the extra mile to represent the department well, to do her job and promote good will in the community. She works many non-traditional hours to make better field contacts and is often called upon to train other staff.

Ms. Washington received the Louis Wainwright Award from the Florida Council on Crime and Delinquency for outstanding work with the Department of Corrections in 1994.

She is an active church member and community activist, occupying responsible positions in regards to community economics, public service coordination and quality improvement.

SUPPORT SERVICES

Legal Services

Lou Vargas, General Counsel
(904) 488-2326 SC 278-2326

Areas of Responsibility:

- General legal advice
- Litigation in state and federal court
- Administrative Procedures Act (APA) — rule promulgation work
- Contracts — Competitive Bidding and Commercial Law
- Legislative drafting and analysis
- Sentence structure, gaintime and early release law

- Personnel — labor law
- Training

Accomplishments:

- Favorable Public Employees Relations Commission and District Court Appeal decisions were achieved in policy areas involving the security of the work place; the use of the Ion Scan for drug testing; the use of the breathalyzer; and the search of an employee's briefcase for contraband.
- Statewide Training of appropriate staff in the following areas:
 - The Americans with Disabilities Act, Religious Freedom Restoration Act of 1993; Workers Compensation law; and the Family Medical Leave Act.

Health Services

Dr. Charles Mathews, Asst. Secretary
(904) 922-6645 SC 292-6645

Areas of Responsibility:

- Inmate Health Care
 - Medical
 - Dental
 - Mental Health
 - Nursing
- Quality Management, Environmental Health and Health Administration
- Health-related Reports and Statistics
- Health-related Inmate Grievances
- Inmate Health Education
- Corrective Action Plans

Accomplishments:

- Saved over \$8.8 million through inpatient and outpatient hospital contracts.
- Consolidated pharmacy services in all regions, a cluster concept to save money.

- Decreased hospitalization days from 186.3 to 140.0 per 1,000 inmates annually.
- Provided over 2.9 million health care visits to more than 90,000 inmates (entering and leaving prison) during the year.
- Improved the Monthly Workload and Utilization Report (MWUR) to create a more useful tool for decision-making.
- Established linkages with communities where inmates return after serving their sentences.

**Cost Avoidance for FY 1994-95
Through Six Hospital Contracts**

Inmate Mortality

**Total Deaths* in Prison
1989-1994**

**Unnatural Deaths
1989-1994**

* These figures represent inmate deaths at major institutions and under DC care only.

**AIDS Deaths
1989-1994**

Facts about AIDS in Prison

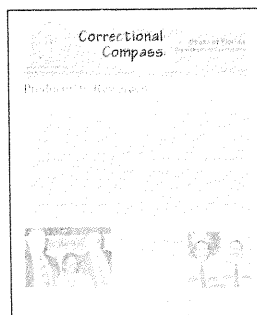

- Inmates may be tested for HIV at their request, or if they have been involved in an incident involving the exchange of body fluids.
- Inmates who are HIV positive or who have AIDS are not housed separately from other inmates.
- Inmates do have access to AZT and other drugs to combat their illness.
- Inmates could receive medical clemency under certain circumstances, and if their families agree to care for them upon release.

Information Services

Eugene Morris, Administrator
(904) 488-0420 SC 278-0420

Areas of Responsibility:

- Information requests from state and national media, the general public, legislators, and educators
- Media training for institutional and facility staff

- Public education about the department's mission, goals and policies
- News releases, information manuals, fact sheets, newsletters
- Special events programming, such as news conferences and ground breakings
- Media escort during executions
- Facilities visits with foreign envoys

Management Information Systems

Earl Kellow, Bureau Chief
(904) 488-6316 SC 278-6316

Areas of Responsibility:

- Overseeing all information technology activities
- Purchasing major equipment
- Developing policies and procedures
- Setting hardware and software standards
- Performing applications programming
- Providing telecommunications support

Accomplishments:

Computer Assisted Reception Process (CARP)

All five of the department's reception centers are now utilizing the new computerized intake system. It is designed to track all the steps involved in determining the appropriate classification and placement for an inmate entering the prison system. Over 200 staff use the system at each site. Many of these staff had never used a computer terminal, but after their initial training, quickly became active and enthusiastic users.

Cashless Canteen/Inmate Bank

All but two of the department's major institutions are now utilizing the department's point-of-sale and banking system. This system allows purchases from the institution canteens to be deducted directly from an inmate's account, thereby eliminating the need for cash in the institution population.

Integrated Assessment and Placement

MIS completed the implementation of this new sub-system to the offender information system. Classification staff now have a computer-assisted approach to performing

inmate needs assessments and arriving at more appropriate placement decisions.

Alien Tracking

A major effort was undertaken to get the offender database alien information as current as possible prior to annual reporting for maximum reimbursement by the federal government. Many changes and enhancements were made to the offender information system to identify aliens, update citizenship, insert alien tracking events, update alien status, and insert administrative detainers.

Outside Agency Access to Offender Database

The department continues to expand access to offender information for outside criminal justice agencies, including state attorneys, public defenders, courts, and local and federal agencies. The system now includes access for non-criminal justice agencies such as the Governor's Office and the Legislature. There are over 50 outside agencies with on-line access to the offender information system.

Court Ordered Payment System (COPS)

The Bureau continues to enhance the computer-assisted Court Ordered Payment System used at Probation and Parole offices statewide. This system collects nearly \$50 million annually in cost-of-supervision payments, victim restitution, court costs and other court-ordered payments.

Offender Information System

The Bureau continues to support and apply enhancements to the department's bread-and-butter offender information system. This system maintains a computerized "file jacket" for all felony offenders placed in the custody of the department. Each day this system is accessed over 850,000 times by thousands of department staff. It is made up of 24 major subsystems, and contains information on over 700,000 active and inactive offenders. Bureau computer staff maintain over 900 programs to support it. The system has been reviewed and adopted by four other states (Washington, Arizona, Arkansas and North Carolina).

Sentencing Guidelines

Harry Dodd, Director
(904) 487-2165 SC 277-2165

Background about Sentencing Guidelines

Guidelines for judicial sentencing of offenders were first implemented in Florida in October 1983. Beginning on January 1, 1994, a new sentencing guidelines system mandated by Florida Statute 921 became effective. Designed chiefly to increase the prison time served by violent offenders, the new system entails a shift of several organi-

zational and administrative functions from the Florida Supreme Court to the Florida Department of Corrections. Without specific legislative funding, the department has fulfilled its new responsibilities and faces additional challenges due to further changes to the guidelines enacted by the Legislature during its 1995 regular session.

The Guidelines Scoresheet

During the summer of 1993, the department developed a revised guidelines scoresheet which was ultimately approved by the Supreme Court. This scoresheet has been

SUPPORT SERVICES

printed and distributed quarterly to Clerks of the Circuit Courts, State Attorneys, and Probation and Parole Services field staff. The latest revision of the scoresheet has been developed by the department and forwarded to the Sentencing Commission in accordance with a legislative mandate. Several supplementary manuals regarding the guidelines have also been produced, printed, and distributed to various criminal justice entities by the department.

The SAGES System

Using an Innovations Incentive Grant of \$35,000, the department contracted for development of a computer system to automate scoresheet preparation and allow for storage and retrieval of offender information. The resulting software, Sentencing Analysis and Guidelines Entry Systems (SAGES), is currently on-line in the department's mainframe computer, with terminal availability to Probation and Parole field staff and in excess of half of the State Attorneys Offices in Florida.

Guidelines and SAGES Training

To acquaint field staff with the new guidelines and prepare them to use the SAGES software, the Probation and Parole Services Program Office, with assistance from the Bureau of Planning, Research and Statistics, has conducted in excess of 40 training sessions throughout Florida. All Probation and Parole Services professional staff have been instructed on sentencing guidelines structure and/or the SAGES program. The Probation and Parole Program Office continues to provide instruction to participating State Attorneys and Public Defenders throughout the state on the use of the SAGES system.

Who does What?

Under the new guidelines, Probation and Parole Services staff are jointly responsible with State Attorneys for completing scoresheets on all convicted felons and currently complete approximately 25% of the scoresheets statewide. Clerks of the Court in each judicial circuit are

charged with transmitting scoresheets to the Department of Corrections on a monthly basis. Probation staff have been proactive in the retrieval of scoresheets from the Clerks of the Courts. Upon receipt, the department ensures appropriate coding and entry of the scoresheets into the SAGES system in preparation for development of analysis and reports. This effort is coordinated through the activity of 31 selected probation officers statewide, the Probation and Parole Services Office and the Bureau of Planning, Research and Statistics.

Compliance Rates Increasing

By statute, the Department of Corrections is required to report to the Sentencing Guidelines Commission by October 1 of each year on the compliance rate of each judicial circuit in submitting scoresheets to the department. After less than one year of the department assuming this responsibility, the state's compliance rate for scoresheet submission rose from approximately 53% to 73%. Monthly reports tracking compliance indicate a compliance rate of 87% as of March 31, 1995.

The Sentencing Guidelines Commission

Additionally, the department assists the Sentencing Guidelines Commission in examining the impact of various facets of guidelines-based sentencing on incarceration rates and prison population levels. The department has also, in accordance with statutory mandates, made recommendations to the Sentencing Commission regarding technical changes to the sentencing guidelines. These recommendations were enacted as a part of the Crime Control Act of 1995.

For more information on Sentencing Guidelines training, policy and procedures, call JoAnne Leznoff at (904) 487-2165 or SunCom 277-2165. For information on Sentencing Guidelines data collection, entry and analysis, call Jenny Nimer at (904) 488-1801 or SC 278-1801.

Planning, Research and Statistics

William D. Bales, Ph.D., Bureau Chief
(904) 488-1801 SC 278-1801

Areas of Responsibility:

- Prison population projections
- Grant writing
- Analyzing legislative bills for potential impact on the department

- Department Strategic Plan
- Descriptive analyses of inmate admissions, releases and current populations
- Descriptive analyses of supervision admissions, releases and current populations
- Answering requests for statistical information from students, citizens, legislators, teachers, policymakers and the general public
- Review and final approval of research proposals

SUPPORT SERVICES

- Program evaluation
- Writing and layout of this Annual Report
- Ad hoc reports (Ex: Escapes, Disciplinary Reports, Substance Abuse Treatment)

Accomplishments:

- Received a \$50,000 joint grant from the National Institute of Justice to create a Criminal Justice Work Force database with the Florida Department of Law Enforcement. This database will include all certified correctional, probation and law enforcement officers, as well as all employees of criminal justice agencies in Florida. Its purpose will be to track trends and help foresee problems in training, retention and other personnel issues.
- In conjunction with the Office of the Attorney General, obtained an Innovative Investment Program award to conduct inmate lawsuit hearings by videoconference.

Reports produced and made available by this Bureau:

- Annual Report — Fall of each year
- Annual Performance Report — September of each year
- Strategic Plan — Annually
- Inmate Escape Report — Monthly
- Monthly Management Report — Monthly
- Boot Camp — Quarterly
- Sentencing Guidelines Compliance Report — Annually
- Secure Drug Treatment Programs — Quarterly

- Non-Secure Drug Treatment Programs — Quarterly

- Secure Drug Treatment Programs Summary — Quarterly

- Non-Secure Drug Treatment Programs Summary — Quarterly

- Data Entry in Probation and Parole Services — Monthly

- Florida Community Supervision Offender Trends — Yearly

- County Detention Facilities (Jails) Report — Monthly

- Ad hoc reports

Operations

Stan Czerniak, Assistant Secretary
(904) 488-4557 SC 278-4557

Areas of Responsibility:

- Coordinate department policy with Regional Directors overseeing 51 major institutions, 32 community correctional centers, five road prisons, 39 work/forestry camps and drug treatment centers and all Probation and Parole Offices and restitution centers.
- Provide input to the Executive Leadership Committee (ELC) concerning department-wide policy issues; draft implementing policies as a result of ELC recommendations.

- Screen all incident reports occurring throughout the department to detect any patterns developing that adversely affect security and public safety; identify any issues that may need corrective action.

- Establish security standards for the Department.

- Monitor security requirements of all facilities; assist in establishing the appropriate security levels of inmates to be housed in any facility.

- Assist in administering the habitability requirements of the department prior to opening any new facilities; ensure that minimum standards are met.

- Ensure statewide Emergency Preparedness training for insitutions.

SUPPORT SERVICES

- Serves as the department representative to the State Emergency Plan. The department is a support agency to three emergency support functions of the state plan. Upon activation of this plan, staff support is assigned to the state Emergency Operations Center.
- Serves as resource to the Executive Leadership Committee as well as the Regional Directors on security and public safety issues.

Accomplishments:

- Continued to assist in rapidly expanding the capacity of the department to preclude the use of any early release.
- Enhanced perimeter security at all locations in which deficiencies had been identified.

Office of the Inspector General

Fred Schuknecht, Inspector General
(904) 488-9265 SC 278-9265

Areas of Responsibility:

- Criminal Investigations
- Internal Affairs Investigations
- State Facility Investigations
- Administrative Investigations
- County Jail Inspections/Investigations
- Contraband Interdiction Activities
- Security Threat Group Intelligence
- Inmate Grievance Appeals
- Internal Audit
- Management Reviews

Fred Schuknecht

■ **The Bureau of State Facility Investigations** is responsible for conducting criminal, administrative and internal affairs investigations for the agency. Criminal investigations are referred to the appropriate State Attorney's Office for prosecution. Administrative and internal affairs investigations are referred to management for the appropriate follow-up action.

- ◆ 2,727 investigations were assigned (1,761 to investigators from the IG's office and 966 to the institutional inspectors and Correctional Probation Officers who assist the office on a case-by-case basis). Of the 2,727 investigations assigned, 2,322 were completed by June 30, 1995.

- ◆ Of the foregoing, 2,168 were administrative cases; 1,983 were completed by June 30, 1995.
- ◆ 134 were Civil Rights cases; 106 were completed by June 30, 1995.
- ◆ 559 were criminal investigations referred for prosecution.

■ **The Bureau of Inspections and Intelligence** inspects all county and municipal jails for compliance with minimum standards and investigates complaints and unusual incidents relating to these facilities. The Bureau is also responsible for carrying out contraband interdiction operations at DC institutions. The Bureau also administers the Security Threat Group (STG) program, which locates and identifies gang members in prison and under supervision.

Local Jails

- ◆ Conducted 521 local facility inspections and 591 investigations in FY 1994-95.

Contraband Interdiction

- ◆ In cooperation with the Florida Highway Patrol, conducted interdiction operations in one-third (17) of the institutions. These operations resulted in 13 arrests and the recovery of substantial amounts of contraband during FY 1994-95.

Security Threat Group Program

- ◆ Conducted training in four of the five regions on STG identification and assessment. (Final training session completed July 19 - 20, 1995.)
- ◆ Began production on a training video, pertaining to Chicago-based gangs and their presence in Florida.
- ◆ Assisted the Florida Department of Law Enforcement in a statewide gang assessment.
- ◆ Became affiliated with the Florida Gang Investigator's Association and the National Major Gang Task Force.

SUPPORT SERVICES

■ **The Bureau of Inmate Grievance Appeals** provides a central clearing house for inmate grievances. The DC grievance process was one of the first 10 certified by the U.S. Department of Justice. This certification will continue to save Florida taxpayers money because with the certified grievance process an inmate must first exhaust all his administrative remedies (grievance appeals) before filing a lawsuit. Often, problems can be worked out during this process, thereby eliminating the need for a lawsuit.

INVESTIGATIONS BY REGION (FY 1994-95)

Region	IG's Inspectors	Institutional Inspectors	P&P Inspectors	Total
I	402	385	0	787
II	463	186	0	649
III	215	111	5	331
IV	231	66	4	301
V	450	195	14	659
TOTAL	1,761	943	23	2,727

◆ Inmate Grievance Appeal staff processed 22,079 grievances in FY 1994-95, which represents a 33.7% increase over the previous year. Projections for the next two fiscal years are 31,000 grievances in FY 1995-96, and 42,000 in FY 1996-97.

■ **The Bureau of Internal Audit** is responsible for assessing the efficiency and effectiveness of management controls and programs to determine compliance with department policy and procedures. The bureau accomplishes its mission through compliance audits in accordance with professional standards, management reviews and assisting with investigations as requested. The bureau also serves as the department's liaison with the Office of the Auditor General and the Office of Program Policy Analysis and Government Accountability on all audits and performance reviews done by these offices.

- ◆ During FY 1994-95, the bureau performed 27 audits and issued 16 final reports (11 carried forward).
- ◆ Performed 33 management reviews and issued 21 final reports (12 carried forward).
- ◆ Coordinated 45 self-inspection management reviews.
- ◆ Assisted with five special investigations.

RELEASE PROGRAMS

Early Release from Prison Ended in December 1994

**William D. Bales, Ph.D., Bureau Chief,
Planning, Research and Statistics
(904) 488-1801 SC 278-1801**

After more than seven years and 181,149 inmates leaving prison early due to the lack of prison beds, the need for early release through the Parole Commission's Control Release program ended in December 1994. Early release began in February 1987 through the Administrative Gaintime program to prevent violation of the Costello agreement which prevented overcrowding in the prison system. Provisional Credits replaced the Administrative Gaintime program in July 1988 and the Control Release program operated from December 1990 to the present. However, Control Release has not been required since December 1994 for several reasons.

NUMBER OF INMATES RELEASED EARLY*

FY	Early Release	Non-Early Release
1987-88	24,600 (89.0%)	3,025 (11.0%)
1988-89	30,131 (90.7%)	3,077 (9.3%)
1989-90	33,261 (89.0%)	4,123 (11.0%)
1990-91	27,278 (84.7%)	4,924 (15.3%)
1991-92	25,430 (78.0%)	7,169 (22.0%)
1992-93	19,518 (68.8%)	8,860 (31.2%)
1993-94	14,580 (56.3%)	11,293 (43.7%)
1994-95	6,351 (28.6%)	15,823 (71.4%)

- 23,984 total prison beds were funded in FY1993-94 and FY1994-95.
- Inmate admissions have declined over the past several years.
- Prison construction was accelerated. The department used precast technology, incentives in construction contracts, and several other methods to bring new prison beds on line quicker.
- An increase in diversionary programs. The significant increase in funding of community diversionary programs such as drug treatment over the last several years is now having an impact on prison admissions.

Early prison release resulted in tens of thousands of offenders serving a minimal portion of their court imposed sentences. Police, prosecutors, judges, and the public were outraged by the failure of the state to supply enough resources to ensure that serious criminals serve their full sentences.

The significance of the elimination of early release is profound, especially since it was coupled with the elimination of Basic Gaintime under the 1994 Safe Streets Act. This unearned gaintime reduced offenders sentences by one-third upon entering the prison system.

Finally, there is no early prison release through parole or some other sentence reduction system. Prison sentences truly mean punishment in Florida for the first time in the lifetime of most Floridians.

* *Early Release Mechanisms include Administrative Gaintime (February 1987-June 1988), Provisional Credits (July 1988-January 1991) and Control Release (November 1990-Present).*

Admission and Release

**Bobbie Glover,
Bureau Chief
(904) 488-2533
SC 278-2533**

Bobbie Glover

Areas of Responsibility:

- Maintain lawful prison capacity
- Serve as release authority for incarcerated state inmates
- Ensure accuracy of automated release date calculations

- Adhere to sentence structure guidelines
- Audit prison commitments
- Ensure legal sufficiency of commitment documents
- Administer the victim assistance program
- Provide assistance to criminal justice officials
- Provide local, department, and outside agency training programs relating to inmate sentence data
- Maintain active and inactive commitment records
- Assist in operation of the court ordered payment system
- Provide fugitive identification coordination
- Process affidavits for court cases

RELEASE PROGRAMS

Florida Parole Commission

Judith A. Wolson, Chairman
(904) 487-1978 SC 277-1978

The Florida Parole Commission, under the direction of Chairman Judith A. Wolson, is a seven-member board appointed by the Governor and Cabinet and confirmed by the Senate. The Commission, which also serves as the Control Release Authority, was created in 1941. The mission of the Florida Parole Commission is to provide for public safety by improving the criminal offender post-conviction process.

Judith Wolson

Areas of Responsibility:

- Administration of the following release programs:
 - ◆ Parole
 - ◆ Control Release
 - ◆ Emergency Control Release
 - ◆ Conditional Release
 - ◆ Conditional Medical Release
 - ◆ Mutual Participation Program
 - ◆ Clemency (Investigative branch for the Governor and Cabinet when functioning as the Board of Executive Clemency)
 - ◆ Full pardon cases
 - ◆ Conditional pardons
 - ◆ Commutation of sentences
 - ◆ Remission of fines and forfeitures
 - ◆ Specific authority to own, possess or use a firearm
 - ◆ Restoration of civil rights in Florida
 - ◆ Capital punishment investigations
 - ◆ Review of Battered Women's Syndrome cases
 - ◆ Review of Illegal Alien cases
 - ◆ Review of Elderly Initiative Cases

■ Revocations

- ◆ Issue new and amended warrants for violation(s) of release
- ◆ Extradite releasees who are in violation of their supervision in other states
- ◆ Process Bond Hearings for Commissioners
- ◆ Process Revocation Hearings for Commissioners
- ◆ Enter such orders as the Commission directs

Accomplishments:

- Completed agency-wide management review covering both functional and organizational areas.
- As a result of the decline in prison admissions and an aggressive prison construction program, the Parole Commission, in its capacity as the Control Release Authority, ceased all scheduled early releases as of the close of business, December 8, 1994.
- Increased automation efforts which have resulted in cost and time savings for the Commission and the Department of Corrections staff.
- Implemented a pre-release screening process, utilizing existing resources, which addressed serious public safety concerns.
- Provided a 1-800 number in Victim's Services to provide easier access for Florida's crime victims to provide input.
- Initiated staff training in domestic violence to increase officer effectiveness in Clemency investigations and hearings.
- Recognized as one of only six state agencies to meet their minority business enterprise goals.
- Instituted cooperative and part time/full time positions.
- Increased efforts in the hiring of qualified Vocational Rehabilitation and ADA clients.
- Increased diversity in the composition of management and professional staff.
- Began implementation of Total Quality Management practices agency-wide, with particular success in the Revocation and Management Information Systems sections.
- Increased involvement with local criminal justice organizations and Public Safety Councils.

RELEASE PROGRAMS

Gaintime

Bobbie Glover, Bureau Chief
(904) 488-2533 SC 278-2533

"Gaintime" is a tool the department uses to encourage satisfactory inmate behavior. Awards of gaintime are made according to statutory eligibility and the inmate's own behavior while in custody. It amounts to "time off" for good behavior. Gaintime has been in existence in Florida since 1889. It is awarded by the department, and can be forfeited for escape, violations of department rules or revocation of supervision programs. Basic and Incentive gaintime are the most common types of gaintime awarded.

Basic Gaintime (F.S. 944.275) was eliminated as part of the Safe Streets Act passed by the 1992-93 Legislature. It eliminates basic gaintime for all inmates who committed crimes on or after January 1, 1994, and are subsequently committed to the department. Previously, inmates sentenced for offenses committed after July 1, 1978 received 10 days of basic gaintime for each month of sentence imposed on them. Inmates serving life or certain minimum mandatory sentences are not eligible, regardless of their offense date.

Incentive Gaintime (F.S. 944.275(4)(b)) is awarded to inmates for adjustment, work and participation in programs. The awards are made on a monthly basis as earned (unless prohibited by law), and the amount of the award

varies in relation to the inmate's rated performance and adjustment. Inmates who committed crimes on or after January 1, 1994 may earn up to 25 days of incentive gaintime per month, if the crime of conviction falls within levels 1 through 7 of the revised sentencing guidelines. If the crime of conviction falls within levels 8 to 10, or the crime was committed after 1983 but before January 1, 1994, the inmate is only eligible for up to 20 days per month of incentive gaintime.

Meritorious Gaintime (F.S. 944.275(4)(c)) may be awarded to an inmate for an outstanding deed. The maximum award is 60 days.

Educational (Achievement) Gaintime (F.S. 944.275(4)(d)) may be awarded to an inmate who receives a General Education Development (GED) diploma or a certificate for completion of a vocational program. The inmate can receive a one-time award of 60 days.

Educational Gaintime (F.S. 944.275(2)(e)) may be awarded to an inmate who satisfactorily completes the Mandatory Literacy program, as determined by the institution's Education Program manager. It is a one-time award of six days.

NOTE: The major changes in gaintime that were passed during the 1994-95 legislative session do not become effective until next fiscal year (October 1, 1995).

Illegal Alien Inmates

Sylvia D. Williams
Correctional Services Administrator
(904) 487-1918 SC 277-1918

As of March 14, 1995, 384 illegal alien inmates in Florida prisons had been granted conditional clemency. As of June 30, 1995, 304 of these aliens had been deported. This initiative is under the authority of a Memorandum of Understanding between the Governor and the Department of Justice, Immigration and Naturalization Service (INS). The Florida Department of Corrections and the Florida Parole Commission were significant partners in this initiative. As of March 1995, the Department of Corrections identified and reviewed over 1,700 inmate cases and submitted reports to the Commission. Following this, the Commission conducted clemency investigations and submitted recommendations to the Office of Executive Clemency. Illegal alien inmates who are Control Release eligible or who have no history of violence are reviewed for the conditional clemency initiative.

The primary condition of the conditional clemency is that deported alien inmates remain outside of Florida and agree not to re-enter the state. Failure to abide by the conditions of the conditional clemency will result in re-incarceration of the alien to complete the remainder of his/her sentence and any remedy imposed by the federal government.

Immigration and Naturalization Service (INS) Telephonic Hearings

The Inmate Transition Office implemented the Institutional Telephonic Hearing Program to conduct Master Hearings (first appearance) for alien inmates in FY 94-95.

Previously, alien inmates had to be transported to a designated institution to appear before an immigration judge for a first appearance hearing. However, utilizing the telephone to conduct the average ten minute hearing has reduced the need to transport numerous inmates for this hearing and has significantly increased the number of hearings held.

The Executive Office of Immigration Review (EOIR) provides the immigration coordinator with the hearing cal-

RELEASE PROGRAMS

endards and institutions are advised of the date and time of the scheduled hearing. Institutional transition assistance officers facilitate the hearing at the institutions. Inmates scheduled for an immigration hearing are provided hearing notices at least 10 days prior to the scheduled hearing. EOIR provides the immigration coordinator with the disposition of each case at the conclusion of the hearing.

Florida Criminal Alien Removal Program (FCARP)

The FCARP has been a constantly evolving process since its introduction in Florida in April 1988, as a joint initiative of the Department of Corrections, the Miami District Office of INS, and the Miami EOIR. This program pertains to the establishment of hearing and release sites, telephonic and individual hearing procedures, and the exchange of information concerning deportation and/or exclusion. A primary issue in the development of the FCARP was the DC's concern regarding the security problems created by the large numbers of alien inmates in so few institutions. Most of the Department of Corrections facilities are "open bay" facilities, which do not easily lend themselves to separation of large groups of inmates.

Originally, there were five individual hearing sites established under this program (one site for each of the five regions) to hold Master Calendar and Individual Hearings. In April 1994, three former hearing sites were transferred and consolidated into two new sites at the request of the EOIR.

The six (6) hearing sites are:

1. Apalachee Correctional Institution
2. Union Correctional Institution
3. Broward Correctional Institution
4. Charlotte Correctional Institution
5. Central Florida Reception Center
6. South Florida Reception Center

Release sites were reduced from 46 to 15 as part of the FCARP agreement between the Department of Corrections and INS. Within 45 days of their anticipated release date, the Department of Corrections will transport alien inmates to a designated release site for processing and will notify the INS of the transfer.

There will be at least one release site in each of the five DC regions and INS will travel to each location at least weekly to pick up inmates. Aliens who have been ordered deported or excluded through FCARP will be released through one of the sites listed below.

Region I:

Jackson Correctional Institution
Okaloosa Correctional Institution
Jefferson Correctional Institution (females only)

Region II:

Columbia Correctional Institution
Florida State Prison
Union Correctional Institution

Region III:

Marion Correctional Institution
Brevard Correctional Institution (youth only)
Florida Correctional Institution (females only)

Region IV:

Dade Correctional Institution
Martin Correctional Institution
South Florida Reception center
Broward Correctional Institution (females only)

Region IV:

Hendry Correctional Institution
Hardee Correctional Institution

ESCAPES

There were 308 escapes from all DC facilities during FY 1994-95. The majority (88%) were escapes from minimum custody facilities, such as work release centers. 82% have been recaptured, and about 52% were recaptured within 24 hours of their escape.

during FY 1994-95. Of these escapes, 16 (43%) escaped while outside the perimeter of the institution. Of the total (37) inmates who escaped from major institutions, 33 (89%) were recaptured. For a copy of the Florida Department of Corrections' monthly "Inmate Escape Report," call the Bureau of Planning, Research and Statistics at (904) 488-1801 or SunCom 278-1801.

CORRECTIONAL STATISTICS

In the pages that follow, statistical information is provided on offenders in the custody of, or supervised by, the Florida Department of Corrections. This information is organized in two main sections: Inmates in Prison and Offenders Under Community Supervision. Each section is then divided into three distinct populations: Admissions (from July 1, 1994 - June 30, 1995); Status Population (as of June 30, 1995); and Releases (from July 1, 1994 - June 30, 1995). The Inmate Status Population also includes a section on death row inmates.

The statistics reflect demographic characteristics as well as aspects of the offenders' criminal histories. It should be noted that some data are the result of self-reporting and are subject to validity problems.

Statistical information from previous reports is available upon request from the Bureau of Planning, Research and Statistics, 2601 Blair Stone Road, Tallahassee, Florida, 32399-2500, telephone (904) 488-1801 or SunCom 278-1801.

INMATE ADMISSIONS

Inmate Admissions refers to the 22,247 inmates who entered the Florida prison system from July 1, 1994 to June 30, 1995. The following pages will detail the characteristics of these offenders.

From FY 1985-86 to FY 1989-90, inmate admissions to Florida's prison system climbed steadily, from 17,154 to 44,701. During the last five years, admissions have decreased substantially.

* GT - Greater than, LE - less than or equal to.

** Sentence lengths of 50 years or longer, life, and death are coded as 50 years for calculations of averages and medians.

INMATE ADMISSIONS

The Typical Male Offender

- Percent of All Admissions (91.2%)
- Is Black (53.7%)
- Is 29 or Younger (53.0%)
- Was Convicted of:
 - Sale/Manufacture of Drugs (12.8%)
 - Burglary of a Dwelling (8.8%)
 - Possession of Drugs (7.4%)
- Has a Prison Sentence of:
 - 4 Years or Less (59.6%)
- Was Convicted In:
 - Dade County (14.0%)
 - Broward County (13.6%)
 - Hillsborough County (9.9%)

The Typical Female Offender

- Percent of All Admissions (8.8%)
- Is Black (55.4%)
- Is 31 or Younger (55.0%)
- Was Convicted of:
 - Sale/Manufacture of Drugs (16.7%)
 - Possession of Drugs (16.3%)
 - Grand Theft (7.6%)
- Has a Prison Sentence of:
 - 3 Years or Less (60.2%)
- Was Convicted In:
 - Broward County (14.4%)
 - Dade County (11.5%)
 - Hillsborough County (10.8%)

PROFILES

of Inmates Admitted During FY 1994-95

The Typical New Admission

- Is Male (91.2%)
- Is Black (53.9%)
- Is 29 or Younger (52.2%)
- Was Convicted of:
 - Sale/Manufacture of Drugs (13.1%)
 - Burglary of a Dwelling (8.5%)
 - Possession of Drugs (8.1%)
- Has a Prison Sentence of:
 - 4 Years or Less (60.7%)
- Was Convicted In:
 - Dade County (13.8%)
 - Broward County (13.7%)
 - Hillsborough County (10.0%)

The Typical Drug Offender

- Percent of All Admissions (25.2%)
- Is Black (71.2%)
- Is 31 or Younger (51.5%)
- Was Convicted of:
 - Sale/Manufacture of Drugs (52.0%)
 - Possession of Drugs (32.2%)
 - Trafficking in Drugs (15.8%)
- Has a Prison Sentence of:
 - 3 Years or Less (64.4%)
- Was Convicted In:
 - Broward County (20.1%)
 - Dade County (14.3%)
 - Hillsborough County (11.3%)

The Typical Habitual Offender

- Percent of All Admissions (10.1%)
- Is Black (67.9%)
- Is 31 or Younger (52.6%)
- Was Convicted of:
 - Burglary of a Dwelling (13.5%)
 - Sale/Manufacture of Drugs (12.0%)
 - Burglary of a Structure (10.2%)
- Has a Prison Sentence of:
 - 5 to 10 Years (68.5%)
- Was Convicted In:
 - Dade County (20.1%)
 - Duval County (11.4%)
 - Broward County (10.0%)

INMATE ADMISSIONS

Admissions for Drug Offenses Continue to Decline

There were 5,616 drug offenders admitted during the 1994-95 fiscal year. Most of them (56.1%) had prior Florida prison commitments. For the fifth consecutive year, drug admissions have decreased, along with the number of inmates who admit to using illegal drugs. See Profiles (pg. 62) for more information on the typical drug offender.

* Includes felony and violent habitual offenders. Some inmates are sentenced as both felony and violent habitual offenders.

DEATH ROW

The state of Florida was given the authority to execute inmates by the 1923 Legislature, and the following year Frank Johnson was the first inmate ever executed by the state. Male inmates under sentence of death are housed at Union Correctional Institution (C.I.) at Raiford or Florida State Prison in Starke, and female inmates reside at Broward C.I. in Pembroke Pines. The sole method of execution in Florida is the electric chair. The executioner is an anonymous, private citizen who is paid \$150 per execution.

This section details the death row population over the last 10 years, the most frequent counties of conviction and the nature of additions and removals from death row.

†/‡ These offenders were executed for the same offense.

++ Theodore Bundy had two death warrants signed on two separate death sentences.

INMATE RELEASES

This section includes statistics on the number of inmates who were released from the Florida prison system during the period from July 1, 1994 through June 30, 1995.

Releases are grouped into two broad categories: "Releases" and "Temporary Releases." Releases are those whose term of incarceration has been completed. Temporary releases are those who have not completed their sentences and will return to an institution.

Permanent Inmate Releases FY 1985-86 to 1994-95

COMMUNITY SUPERVISION

TYPES OF COMMUNITY SUPERVISION IN THE FLORIDA DEPARTMENT OF CORRECTIONS

I. Court Originated Sanctions

Probation

A court-ordered term of community supervision under specified conditions for a set period of time not to exceed the maximum sentence for the offense of conviction, which may be either a felony or a felony reduced to a misdemeanor.

Community Control

Intensive court-ordered supervision in lieu of prison involving quasi-confinement of convicted felons to their homes with numerous monthly contacts by officers having restricted caseloads. At the direction of the court or election by the department, Community Control may involve electronic monitoring of offenders.

Pretrial Intervention

A supervision program intended to divert persons charged with any non-violent felony of the third degree from further prosecution and possible adjudication of guilt. Approval of the program administrator, the state attorney, the judge, and the victim allow the charged person to enter Pretrial Supervision, the successful completion of which results in a dismissal of charges.

Drug Offender Probation

An intensive, treatment-oriented form of supervision administered by officers with restricted caseloads for offenders with chronic substance abuse problems and convictions on drug offenses.

Administrative Probation

A non-contact supervision program for low risk offenders requiring only compliance with all laws.

II. Supervision as a Condition for Early Prison Release

Parole

At the discretion of the Florida Parole Commission, a conditional extension to the community of the limits of confinement for inmates whose prison terms resulted from convictions occurring prior to the advent of Florida's Sentencing Guidelines in October 1983.

Conditional Release

For certain violent and chronic offenders perpetrating their crimes on or after October 1, 1988, a prison release supervision program whose terms and conditions are set by the Florida Parole Commission. The maximum term of supervision cannot exceed the inmate's prison sentence.

Control Release

Created to maintain the state's prison population within its mandated capacity, Control Release is managed by the Control Release Authority (CRA), made up of the members of the Parole Commission. The CRA uses a system of uniform criteria to determine the number and types of inmates released to supervision prior to the expiration of their sentences. Inmates convicted of crimes occurring on or after October 1, 1983, are eligible, with the exception of habitual offenders, sex offenders, offenders committing crimes against a law enforcement officer, and offenders serving minimum mandatory sentences. Supervision time cannot exceed the inmate's prison sentence.

Administrative Control Release

As an option effective May 25, 1992, the Control Release Authority may, at its discretion, waive supervision contacts and require only that inmates placed on Control Release live within the law.

COMMUNITY SUPERVISION

Supervised Community Release

A release program, at the discretion of the department, for selected inmates who are within 90 days of release from a prison term for an offense occurring before July 1, 1988, or later than that date if no Provisional Credits have been earned.

Conditional Medical Release

Upon recommendation by the department, the Florida Parole Commission may release under conditions at its discretion any inmate judged to be physically incapacitated or terminally ill.

III. Other Supervision

Upon request, the department may supervise offenders subject to parole or work release from a county jail.

❖

For purposes of statistical reporting in most of the pages that follow, supervision types will be grouped into eight categories:

1. Probation, which includes felony, misdemeanor, and administrative cases.
2. Community Control, whether under court or Florida Parole Commission jurisdiction.
3. Pretrial Intervention
4. Control Release, whether regular or administrative.
5. Parole
6. Conditional Release
7. Drug Offender Probation
8. Other, including Supervised Community Release, Conditional Medical Release, and county-level supervision performed by the Department.

DUTIES OF PROBATION AND PAROLE SERVICES

In addition to supervising offenders, Probation and Parole Services performs a number of related duties, which include collecting court-ordered payments from offenders, conducting drug tests, and preparing offender investigations.

COURT-ORDERED PAYMENTS COLLECTED OVER THE PAST FOUR YEARS

	Cost of Supervision	Victim Restitution	Fines and Court Costs	TOTAL
FY 1991-92	\$20,409,668	\$17,892,787	\$8,552,383	\$46,854,838
FY 1992-93	\$20,135,584	\$18,092,534	\$8,522,615	\$46,750,733
FY 1993-94	\$18,930,643	\$18,540,461	\$9,608,797	\$47,079,901
FY 1994-95	\$20,662,225	\$21,594,033	\$10,148,772	\$52,405,030

COMMUNITY SUPERVISION

Payments Collected During FY 1994-95 Cost of Supervision

Investigations Conducted Over the Past Five Years*

* Investigations conducted by probation and parole offices include pre- and post-sentence investigations, preliminary pre-trial intervention (PTI), arrest and behavioral violation, transfers, sentence guidelines scoresheet placement, other state investigations, security investigations, work release, release on own recognizance, PTI background, client management classifications (CMC), split out of state transfer (SOST), background investigations (BINV), consecutive sentence investigations (CSEN), and other sentencing guidelines scoresheet investigations (SGSO).

** CMC, SOST, BINV, CSEN and SGSO investigations were added in FY 94-95, accounting for the 43,731 increase over the past years.

COMMUNITY SUPERVISION ♦ ADMISSIONS

COMMUNITY SUPERVISION ADMISSIONS

The supervision admission population consists of all offenders beginning supervision through specific court placement or by other assignment to a community-based program as a condition of prison release.

COMMUNITY SUPERVISION ♦ STATUS POPULATION

COMMUNITY SUPERVISION STATUS POPULATION

For any specified date, the community supervision status population consists of all offenders actively under supervision and those on supervision caseloads temporarily unavailable for direct supervision because of known and designated reasons, such as hospitalization, incarceration, etc.

Statistics on the status population are those for June 30, the final day of the fiscal year.

Offenders Under Community Supervision* A Ten Year Overview

* Historical figures differ from some previous reports due to the inclusion of the offenders in suspense status.

FACT SHEET

Florida Department of Corrections

October 1995

This fact sheet is intended to answer some commonly asked questions about the department. You are encouraged to copy and circulate it.

The Florida Department of Corrections, divided into five regions, has more than 25,885 employees and a 1995-96 budget of \$1.5 billion. The department is responsible for the custody, care and treatment of more than 198,000 offenders who are either in state correctional facilities or under community supervision.

Inmate Population

The inmate population has grown from 28,310 in 1985 to more than 61,000 in 1995. Inmates (5.1 percent are women) are housed in 133 facilities statewide, including 51 major institutions, 32 community correctional centers (8 for women), 5 road prisons, 27 work camps adjacent to major institutions, three forestry camps, and seven contracted drug treatment centers.

Cost of Incarceration

For 1994-95, the average statewide daily cost to care for and supervise an incarcerated male inmate in a major institution was \$39.86 a day or \$14,549 a year, \$50.63 per day or \$18,480 per year for a female inmate, and \$46.73 per day or \$17,056 per year for a youthful offender.

Employment

The department is currently hiring correctional probation officers and correctional officers. For more information, call the Bureau of Personnel at (904) 488-3130.

To become a Correctional Probation Officer (CPO), one must have a college degree; be a United States citizen; be 19 years or older; have no felony convictions; be of good moral character; and pass a physical examination and drug test. Once hired, the CPO is sent to one of the corrections academies for basic recruit training. The salary range for a Correctional Probation Officer is \$22,268-\$35,777 a year. Salaries are higher in certain locations of the state. During the training period, the employee's salary is 10 percent lower.

To become a Correctional Officer (CO) recruit, one must have a high school diploma or its equivalent; be at least 19 years old; be a United States citizen; have no felony convictions; be of good moral character; pass a physical examination and drug test; and complete basic recruit training at a certified training center. These training centers are located throughout the state and are frequently

associated with community colleges and/or area vocational technical centers. The salary range for a Correctional Officer is \$18,109-\$29,075. Salaries are higher in certain locations of the state.

Work, Counseling and Education

Inmates entering the department through one of five reception centers are tested and classified for medical needs, security requirements, and placement in work and educational programs. Academic and vocational courses are offered by the department's Office of Education and Job Training. Counseling and substance abuse programs are offered by contracted and department staff. Work assignments include a variety of prison-based industries such as agriculture, vehicle renovation and the manufacture of furniture, garments and license tags. Since 1984, these industries have been operated by Prison Rehabilitative Industries and Diversified Enterprises (PRIDE), a non-profit corporation. Inmate labor is also used extensively to build new prisons and maintain existing facilities. Outside the prison gates, inmate work squads assist Department of Transportation (DOT) highway crews, and help maintain municipal parks, roads and other facilities throughout Florida.

Health Care

The department's 2,544 Health Services staffers provide access to comprehensive medical, dental and mental health services to male and female offenders statewide. This includes health education, preventative care and chronic illness clinics at the community standard level of care as mandated by the federal government. During FY 1994-95, 2.9 million health care encounters were provided by the department. The scope of health services ranges from emergency care to inpatient hospitalization and specialty care, as required.

Food Services

More than 66 million meals were served to inmates during FY 1994-95. Each inmate is served three certified nutritionally sound meals a day at a cost of \$2.23 per day. For inmates who prefer to avoid meat or dairy products for religious, health or preference reasons, an alternate entree consisting of various protein substitutes is available.

Chaplaincy Services

The Chaplaincy Office provides spiritual care and support for the total institutional community. The chaplain's role begins during the reception processing of an inmate and continues throughout his stay. Approximately 95 chaplains provide religious services, support, education

continued on next page

clip and save

FACT SHEET

and consultation at prison facilities throughout the state. Chaplaincy Services also coordinates the participation of over 2,700 community religious representatives and volunteers in meeting the religious needs of inmates.

Youthful Offenders

Special programming is provided for offenders ages 24 and under, with a 10 year or less sentence; and selected offenders, age 19 and under, regardless of sentence length, excluding capital and life felons. The more than 3,219 Youthful Offenders under the department's control are housed in five male institutions throughout the state and one female dormitory at Florida C.I. The department also opened a Basic Training Program at Sumter C.I. in 1987. This "Boot Camp" program for selected youthful offenders lasts from 90-120 days. If the inmate satisfactorily completes the program, his remaining sentence is converted to probation. The Youthful Offender Program Office expanded to include female issues, elder affairs, special education inmates, volunteer services, libraries and law libraries.

Drug Treatment Programs

The Department contracts with numerous organizations to provide various levels of substance abuse treatment for inmates and probationers. These programs include individual/group therapy, life management, skill building, physical fitness, family values, and job skills. These programs were created to get the offenders to admit their addictions and assist them with overcoming their addiction in order to allow prison beds to be used for violent offenders. Comprehensive substance abuse treatment programs are in place at 43 major institutions, 30 community correctional centers, 12 contract and institutional drug treatment centers, and one work camp.

Work Release

Work release enables select inmates to work at paid employment in the local community. When not involved in work or authorized activity, inmates live at one of 32 work release centers statewide. These offenders are carefully screened, classified minimum custody and normally will be considered for work release in the last 36 months prior to their release.

Death Row

In July 1995, there were 352 inmates on death row, including six women. Execution in Florida is conducted by electrocution at Florida State Prison in Starke, where some male death row inmates are housed. The other males are at Union Correctional Institution, and all female death row inmates live at Broward C.I. in Pembroke Pines.

Probation and Parole Services

The department supervises more than 136,056 offenders under community supervision. Cost of supervision for each offender averages \$3.22 per day, excluding contract beds. During FY 94-95, more than \$20 million was collected in cost of supervision fees and over \$31.7 million has been collected in restitution to victims of crime, including court costs and fines. **Probation** is a prison alternative sentence which can be imposed by a judge. The offender remains productive in the community, but is under the supervision of a probation officer. Violation of conditions of probation may result in the offender being committed to prison. **Community Control** or "House Arrest" requires an offender's confinement to their residence instead of confinement in prison. Each correctional probation officer's caseload for community controlees is limited to 25 offenders. Public service, in addition to regular employment, is mandatory. There are over 14,692 community controlees under supervision. Electronic monitoring in the form of anklets, wristlets and voice verification is also used for community controlees. ■

The Florida Department of Corrections

Annual Report for FY 1994-95
