# FACILITIES ON JUNE 30, 2000

Florida correctional facilities are divided into major institutions, work camps, work release centers and road prisons. The classification of inmates into these different facilities takes into account the seriousness of their offenses, length of sentence, time remaining to serve, prior criminal record, escape history, prison adjustment, and other factors. The most serious offenders with the longest sentences and those least likely to adjust to institutional life are placed in more secure facilities.

## SUMMARY OF FLORIDA STATE CORRECTIONAL FACILITIES

| Facility Summary                                   | Total      | Male       | Female    | Both     | Population on June 30, 2000 | Percentage of Population |

\* Institutions with separate units and hospitals are counted as one institution. These institutions are Apalachee East and West units; CFRC Main, East and South units; Dade Main and Annex units; Gulf Main and West units; Hamilton Main and Annex units; Lowell Men's, Women's and Boot Camp units; New River East and West units; NFRC Main and West units; and Sumter and Boot Camp units.

**Correctional Institutions** are prisons with fences, razor wire or ribbon, electronic detection systems, perimeter towers with armed correctional officers and/or officers in roving perimeter vehicles. Contrary to popular belief, most of these inmates do not reside in cells, but in open bay dormitories with bunk beds. Some exceptions include those confined for disciplinary or security reasons, and those on death row. These facilities are divided into seven levels of security ranging from minimum custody facilities to maximum custody facilities. About 84 percent of the Florida prison population is housed in a major institution.

## Gender and Type:

M: Houses male inmates      RC: Reception Center      A: Adult Facility  
 F: Houses female inmates      YO: Youthful Offender

## Security Level:

1: Minimum Custody      4,5,6: Close Custody  
 2,3: Medium Custody      7: Maximum Custody

**Work/Forestry Camps** are minimum to medium custody facilities surrounded by fences and razor ribbon. Inmates are usually transferred to a work camp after completing part of their sentences at a correctional institution and demonstrating satisfactory adjustment. Most of these work camps are located next to correctional institutions so that they can share facilities like laundry and health services. The inmates housed at these facilities may be assigned to community and public work squads. Their jobs include cleaning up roadways and rights-of-way, performing grounds and building maintenance, painting, building construction projects, moving state offices and cleaning up forests. About 10 percent of the prison population resides in work camps.

**Work Release Centers (WRC)** house two categories of minimum custody inmates: those who are participating in community work release and work at paid employment in the community and those who are participating in a center work assignment and work in a support capacity for the center. They must be within two or three years of their release date, depending on their job assignment. No sex offenders may participate in work release or center work assignments. Those working at the WRC perform such tasks as providing transportation, working in food service and maintenance of the center. There are no perimeter fences and they must remain at the WRC when they are not working or attending programs such as Alcoholics Anonymous or Narcotics Anonymous. Inmates participating in work release must save part of their earnings for when they are released and pay toward victim restitution, as well as room and board. Approximately 5,000 inmates participate in Florida's 29 work release programs annually, with about 2,300 or three percent of the prison population enrolled at any given time. Work release centers are supervised by the Department's Office of Institutions.

**Road Prisons** house minimum and medium custody inmates and have perimeter fences. Most of these inmates work on community work squads and the highways doing road work. Their jobs also include support services to state agencies such as collecting recycling materials and moving furniture. Less than one percent of the prison population is housed in road prisons.

| <b>Adult and Youthful Female (2)</b>                                   | 2,046              | \$69.24       | \$47.65    | \$19.52         | \$2.07             |
| <b>Specialty Institutions</b>  | 16,033             | \$56.51       | \$41.68    | \$13.83         | \$1.00             |
| <b>Work Release Centers</b>  | 1,991              | \$29.84       | \$28.60    | \$0.12          | \$1.12             |
| <b>Probation and Restitution Centers</b>                               | 360                | \$38.43       | \$38.43    | \$0.00          | \$0.00             |
| <b>Private Institutions (1)</b>  | 3,692              | \$53.67       | \$0.00     | \$0.00          | \$0.00             |

(1) These facilities exclude debt service costs which, if included, would increase the Department's average major institution (Okeechobee CI) per diem by \$0.19 and the private institutions per diem by an average of \$7.08.

(2) Also serving as reception centers (Broward CI and Lowell CI) for female inmates.

(3) Per diem figures do not include indirect administrative costs of \$3.75 for major institutions (operations: \$2.69, health services \$0.40 and education \$0.66).

Overall, the Department's total operating expenditures increased only \$26 million (less than 1.7%) when compared with Fiscal Year 1998-99 totals. In recognition that inmate populations increased by almost 4% and the Department's spending plan included a mandatory pay increase for most employees of 2.78%, this modest overall increase demonstrates the Department's success in gaining operational efficiencies.

When viewed on an inmate cost per day basis, the Department's cost decreased when compared to FY 1998-99, with the exception of Education Services, which reflects an increase due to receiving additional appropriations. Part of the cost reduction in Operations is the result of closing institutional business offices and reassign-

ing administrative support to the newly created service centers. Institutional health services cost per day increased only 1%, a remarkable achievement in light of the significant cost increases experienced in the health services industry.

The Department's reduction in overall cost per day was also the result of being in a position to accommodate population increases within current physical capacity, and not having to open new facilities. For the private institutions category, the cost increase from FY 1998-99 (5.7%) reflects the annual cost increases included in the vendor's contracts, as well as the Department's decision to utilize less contracted capacity.

# BUDGET

## FY 1999-00 Correctional Budget Total Expenditures \$1,586,325,436

## Percent of State General Revenue Budget Appropriated to Corrections

## Inmate Cost Per Day by Type of Prison

## Inmate Cost Per Day for FY 1999-00 \$50.06 (\$18,272 annually) (Major Institutions Only)

# BUDGET

## Inmate Cost Per Day Over Five Years (For All Department Facilities)

**Total Daily Cost\***  
(\$18,027 annually in FY 1999-00)

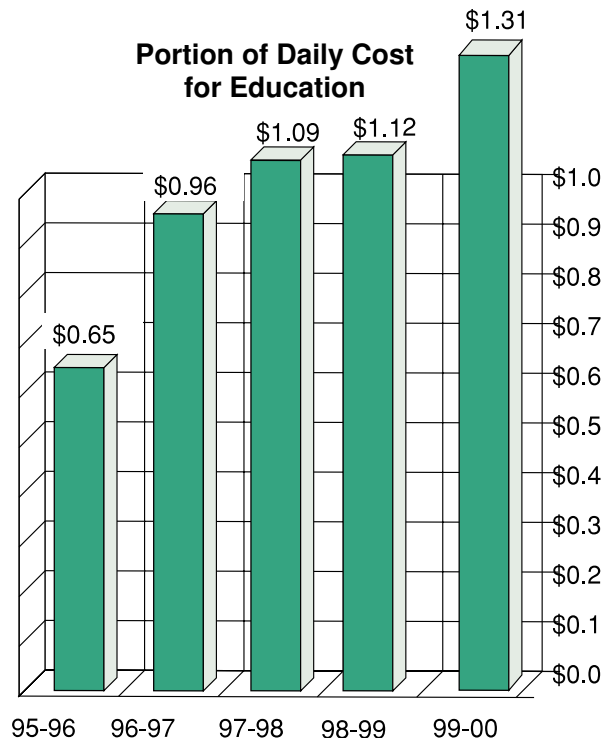

**Portion of Daily Cost  
for Operations**

**Portion of Daily Cost  
for Health Services**

**Portion of Daily Cost  
for Education**

\* Fiscal Year 1999-2000 reflects a reduction in Administrative Costs due to the closure of business offices at the institutional level. These numbers refer to inmates in all facilities, not just prisons but also work release centers, etc.

# COMMUNITY SUPERVISION: CPO's

## Investigations, Collecting Fees Part of CPO's Duties

The Bureau of Probation and Parole Field Services is responsible for developing, implementing, revising and monitoring programs in the areas of probation and other field supervision operations, sentencing guidelines, probation and parole databases, court-ordered payments, and sexual offenders/predators. Employees in this bureau are also responsible for developing policy for over 3,200 correctional probation officers and staff. Along with supervising almost 150,000 offenders requiring community supervision, correctional probation officers (CPO's) were required to collect the following fees from offenders, when applicable: cost of supervision, victim restitution, court fines and costs. CPO's were also required to conduct more than 360,000 investigations each year, including pre and post-sentence investigations and to work closely with other law enforcement agencies in the community to ensure the safety of the community.

- n In FY 1999-00, the highest average caseload for correctional probation officers was for those supervising offenders on basic community supervision (76:1), such as felony probation, and the lowest average caseload for CPO's was for those supervising offenders on community control (25:1)
- n The cost per day for an offender on pretrial intervention is \$2.23, while the cost for an offender on Community Control I, without electronic monitoring, was \$9.11. The latter is used for more violent offenders whose movements need to be closely monitored, such as domestic violence situations.
- n Of the \$83,252,503 in payments collected from community supervision offenders in FY 1999-00, the majority (\$31,387,928 or 37.7%) were victim restitution payments, followed closely by \$26,858,362 or 32.3% in cost of supervision payments.

| <b>DAILY PER DIEM</b><br>(FY 1998-99) |        |
|---------------------------------------|--------|
| Probation and Parole*                 | \$3.15 |
| Offender Release Services             | \$2.96 |
| Community Control I                   | \$9.11 |
| Electronic Monitoring**               | \$6.68 |
| Pre-Trial Intervention                | \$2.23 |

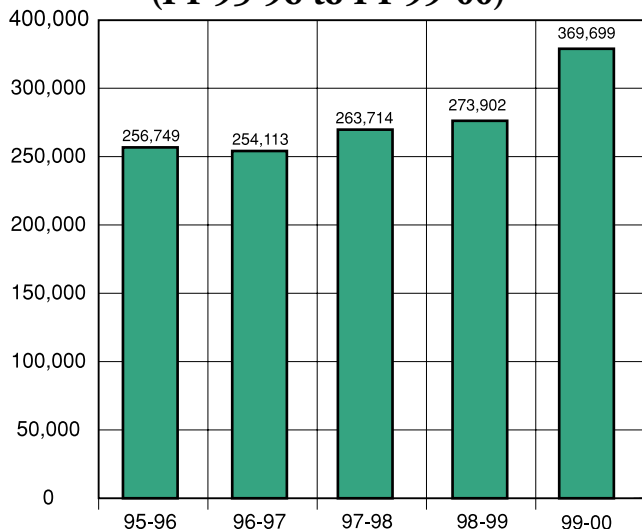

\*Per diem figures do not include indirect administrative costs of \$0.82 for Probation and Parole.  
 \*\*The per diem for Electronic Monitoring, which includes radio frequency and global positioning satellite, is in addition to the cost of Community Control I.

### Payments Collected During FY 1999-00 Total \$83,252,503\*\*

\* Community Corrections also collects other costs (crimes compensation, electronic monitoring, drug testing fees, surcharge and others).  
 \*\*Total collected for FY 1999-00 does not include COPS payments collected at Work Release Centers. Payments collected by Work Release were included in total payments collected during FY 1998-99.

### Number of Investigations Conducted (FY 95-96 to FY 99-00)

### Average Caseloads for Correctional Probation Officers (FY 1999-00)

|                                  |      |

# COMMUNITY SUPERVISION: DRUG PROGRAMS

## Many Community Supervision Offenders Participate in Drug Abuse Treatment Programs

Many offenders on community supervision participate in substance abuse programs or are routinely tested for drugs as part of their probation or supervision sentences.

- The pie chart below shows that the majority (83.0%) of those on community supervision who are participating in community-based substance abuse treatment programs do so on an outpatient basis. The other types of programs available to these offenders include secure (movement beyond the facility is restricted) and non-secure (movement is less restricted) programs.
- The bar chart below right shows that of those who entered residential community-based drug treatment programs in FY 1997-98, 81.4% of those who successfully completed non-secure programs and 70.1% of those who completed secure programs have had no recommitment to Florida state prison or supervision after two years.
- While the number of offenders being tested for drugs increased substantially in the last year (bar chart at right), the percentage of those testing positive for drugs remained the same (11%).

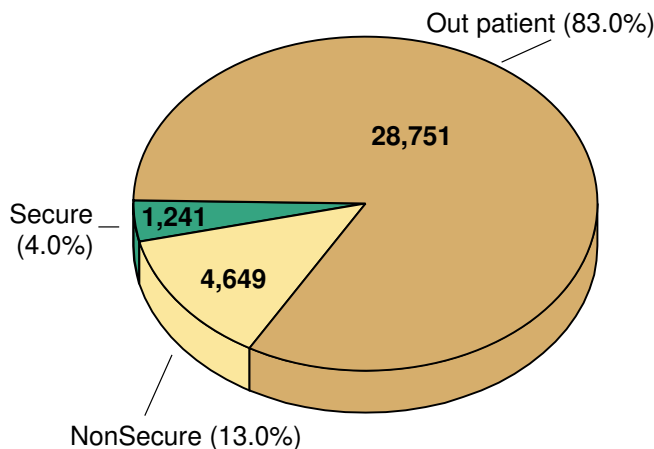

### Community Corrections Statewide Offender Drug Testing Over Five Years

### Recommitment Rates Two Years After Program Entrance (in FY 1997-98) for Successful Completions for Residential Community-Based Substance Abuse Programs

### Total Offenders Participating in Community-Based Substance Abuse Programs - FY 1999-00 Total = 34,641

# RANDOM DRUG TESTING/YOUTHFUL OFFENDERS

| FY 1998-99                                  | 91,945      | 90,985         | 960            | 1.04%         | 29                    | 851      | 131     | 103     | –     | 1,114  |
| FY 1999-00                                  | 88,889      | 87,680         | 1,209          | 1.40%         | 25                    | 1,078    | 139     | 55      | 49    | 1,346  |

The Department's Drug Testing Unit oversees the inmate random drug testing program in which 10% of the inmate population is selected and tested for illegal substances each month through a computerized random selection system. In addition to random drug tests, the program also includes "for cause" testing of any inmate based on reasonable suspicion of involvement with drugs or alcohol. The role of testing, as an integral part of ef-

fective substance abuse treatment programs, has been recognized as highly effective in identifying those who have substance abuse problems, getting them into treatment, and monitoring them during the treatment process. Since the inception of the drug testing program in January 1994, the rate of positive tests has declined from 6% to 1.4% indicating an overall reduction in inmate drug use in our system.

## Youthful Offender Population by Facility

|                               | Age Range    | Custody              | Population   |
|-------------------------------|--------------|----------------------|--------------|
| Brevard C. I.                 | 19-24        | close/minimum        | 932          |
| Brevard Work Camp             | 19-24        | medium/minimum       | 263          |
| Hendry C. I.                  | 19-24        | close/minimum        | 618          |

| Contract Work Release Centers |              |                      | 14           |
| Other (Broward,ZHCI)          |              |                      | 10           |
| <b>TOTAL</b>                  |              |                      | <b>4,617</b> |

- The Court may sentence a person as a youthful offender if the crime was committed prior to his or her twenty-first birthday (F.S.958.04)
- The Department of Corrections may classify an inmate as a youthful offender if he or she is 24 years old or under, with a sentence of 10 years or less. Vulnerable inmates who are 19 or under with a sentence of more than 10 years may also be classi-

fied as youthful offenders, if their safety would be jeopardized in an adult institution. YO's must also be on their first prison commitment

- During FY 1999-00, 55 inmates were at some point classified in youthful offender status for protective reasons. (F.S.588.11)
- Capital or life felons may not be classified or sentence as youthful offenders.

# EDUCATION

## Inmates Taking Correctional Education Classes Show Gains in FY 1999-00

Purpose: As per Section 944.801, (3), (f), F.S., this sheet summarizes the average change in literacy levels of Correctional Education (CE) students during FY 1999-2000 (July 1999 – June 2000).

Methodology: Tests of Adult Basic Education (TABE) administered to students during FY 1999-2000 were scored using TestMate and the Advanced Module of the TestMate System (test scoring and reporting system). Inmate names and DC numbers were used to track those who had both pretest and posttest scores during this period. This summary includes all inmate students who during this period had at least one matched set of scores (pretest and posttest scores) in at least one subject area. A total of 4,715 students had matched scores for all three of the subject areas (Total Battery) of Reading, Total Mathematics, and Language. The total sets of matched scores for each subject area were: (a) 4,975 for Reading, (b) 5,226 for Total Mathematics, and (c) 4,952 for Language.

Results: The three charts below show the average gains made in each subject in terms of grade equivalents (GE), scale scores, and of normal curve equivalents (NCE), respectively. To be included, students had to have both a pretest and posttest. Gains were made in all three subject areas and for the total battery. For an average of three months of instruction, the overall (total battery) gain was five months in grade equivalent scores. This translates into an average 12-point increase in scale scores and a gain of three points for the normal curve equivalent scores.

**Chart 1 – Gains Expressed in Grade Equivalents (GE's)**

**Chart 2 – Gains Expressed in Scale Scores**

**Chart 3 – Gains Expressed in Normal Curve Equivalents (NCE's)**

Reading (N=4,975), Total Math (N=5,226), Language (N=4,952), Total Battery (N=4,715)

# EDUCATION

## Over 1,500 Inmates Earned GED's in FY 1999-00

- 1,563 inmates earned GED certificates while in the Florida prison system in FY 1999-00. An additional 120 had their GED's verified while in Florida prisons, meaning they earned their GED's elsewhere such as contract drug facilities, county jails or from other states.
- The number who enrolled in GED courses during the fiscal year was 2,331, and the completion rate for the year was 67%.
- 28,518 inmates participated in 30,081 courses during the fiscal year. "Number of courses" and "number of inmates" are different for adult education and vocational counts, since it is possible for a given inmate to be involved in more than one course in either program during the year.
- Note that none of the counts in these charts include program participation or certificates earned at private facilities.

### Change in Inmate Literacy Levels (Four-Year Trend)

### FY 1999-00 GED and Vocational Certificates Awarded

| Types of Award Locations  | GED Certificates Awarded | Vocational Certificates Awarded | Total Certificates Awarded |

\*= Distance Learning Downlink Site

Special Education programs are at all Work Release Centers (WRC).

All major institutions have chaplaincy services.

X = Program(s) operational at this institution, or main unit of institution if it has 2 or more units; ANX = Annex; WC = Work Camp;

Educational Programs: BIU = Basic Training Unit.

Law Library Programs: MJR = Major Collection; MNR = Minor Collection; STR = Starter Collection; (2) = Union CI has a separate law library in its death row unit.

Substance Abuse: I=Modality 1(Intensive Outpatient, Old Tier 2); II=Modality 2(Residential, Old Tier 3 & 4); III=Modality 3 (CORTS, Old Tier 5);

OT1=Old Tier 1; AM1=Alternative Modality 1 (Intensive Outpatient, Old Tier 2); AM2=Alternative Modality 2 (Residential, Old Tier 4); CD=Co-Occurring Disorders

In addition to the Modality 3 programs listed on this chart, there are Modality 3 programs at the following WRC's: Atlantic, Cocoa, Daytona Beach, Ft. Pearce, Hillsborough, Hollywood, Kissimmee, Lake City, Miami North, Opalaka, Orlando, Panama City, Pensacola, Pinehills, Pinellas, Pompano, Sante Fe, St. Petersburg, Tallahassee, Tampa, Tarpon Springs, and West Palm Beach

\* Denotes female facility

There are a total of 173 workforce development programs at 47 facilities: 43 male and 4 female

All are located in major institutions (prisons) except for Pompano Work Release Center

# PRIDE

## Prison Rehabilitative Industries and Diversified Enterprises (PRIDE)

### Authorized by the Legislature

Prison Rehabilitative Industries and Diversified Enterprises, Inc. (PRIDE) is a state-authorized, not-for-profit manufacturing and services corporation. Since 1981, when the Florida Legislature authorized the company to operate the state's correctional industries, PRIDE has trained thousands of prison inmates and has provided them with marketable and accredited job skills. PRIDE teams with Labor Line (a staffing and employment firm) to assist with inmates' post release job placement.

### Inmate Workers Generate Revenue

In FY 1999-00 PRIDE trained 4,989 inmates who worked 4.5 million hours in 43 diverse industries located in 20 correctional institutions. Many of them were trained in modern high technology trades in the areas of print and digital information, garments and apparel, furniture manufacturing, vehicle renovation, metal fabrica-

tion, optical, and many more. Inmate workers produced thousands of products with sales totaling over \$88.5 million, of which \$4.3 million was provided back to the state, including inmates wages totaling \$1.9 million. The remainder of funds paid for room and board, victim restitution, crime compensation as well as inmate transition and support services. PRIDE receives no state funds or appropriations to operate these industries.

### Recommitment Study

Inmate workers receive job readiness training and then are contracted to be placed in jobs after release. Critical transitional support such as housing, transportation, and other needs are also provided. The impact of PRIDE job training and transition support is reflected in a lower recommitment rate. Of the 771 inmates released in FY 1997-98 who had worked for PRIDE for at least six months, 146, or 18.9%, were recommitted within a two-year period ending FY 1999-2000.

## DC Has Adequate Bed Space for Its Inmate Population

Since the Florida Department of Corrections currently has enough prison beds to house its inmate population, no funds were appropriated in 1999 or 2000 to build additional prison beds. The last year prison beds were funded was in 1998. That year \$48,080,959 was appropriated for improvements to two youthful offender institutions; adding secure housing units to five institutions; and providing site work for three new facilities. These projects added more than 800 new prison beds to the corrections system.

### 1,340 Beds Funded Over Last Five Years

### Prison Construction

Work camps are the least expensive facilities to build and operate. They hold 288 inmates at total capacity and cost approximately \$5.2 million or \$18,000 per bed. Buildings are constructed by contract. Each work camp has two open bay dormitories.

Annexes to existing institutions house 1,499 inmates at total capacity and cost \$43,200,000 or \$28,800 per bed. All buildings are constructed by contract. Each annex includes six secure housing units and two open bay dormitories.

Institutions house 1,499 inmates at total capacity and cost \$49,000,000 or \$32,700 per bed. All buildings are constructed by contractors. Each institution includes six secure housing units and two open bay dormitories. The first phase of site work and utilities for Franklin CI is currently underway.

## How the Statistical Pages that Follow are Organized

In the pages that follow, statistical information is provided on offenders in the custody of, or supervised by, the Florida Department of Corrections. This information is organized in two main sections: Inmates in Prison and Offenders Under Community Supervision. Each section is then divided into three distinct populations: Admissions (those who entered the Florida prison system or Community Supervision from July 1, 1999 through June 30, 2000), Inmate or Offender Population (those inmates in the Florida prison system or those on Community Supervision on June 30, 2000) and Releases (those released from the Florida prison system or Community Supervision from July 1, 1999 through June 30, 2000). The Inmate Population section also includes a section on death row inmates. These statistics reflect demographic characteristics, as well as aspects of the offenders' criminal histories.

### Violent Offense Definition

The Florida Department of Corrections has developed the following definition of violent crime to guide the way in which it categorizes crimes as violent and non-violent in the following statistical pages. A crime is defined as violent if it involves actual physical harm or

the threat of physical harm to a person, or the crime has a reasonable probability of causing unintended physical harm or physical threat of harm to a person. Crimes are defined as violent from the statutory reference only. Therefore, a judgement has to be made based on this sometimes limited information whether the crime fits the DC definition. For example, if the crime is shooting into a vehicle, it is not known if actual or the threat of physical harm occurred. But in this case we assume there is a reasonable probability that violence could have resulted.

### Where Can I Get More Information?

Statistical information from previous annual reports is available upon request from the Bureau of Research and Data Analysis, 2601 Blair Stone Road, Tallahassee, FL 32399-2500. Or call (850) 488-1801 or SunCom 278-1801, Fax (850) 488-1967. You may also call to obtain updated information or to request specific information or data concerning your particular area of interest.

# INMATE ADMISSIONS

## Inmate Admissions FY 1990-91 to FY 1999-00

### Inmate Admissions are down from ten years ago, but rise slightly in the last five years

Inmate admissions refer to the number of offenders admitted into the prison system during a given period of time. In this report, fiscal years run from July 1 to June 30. The following tables and charts will detail the characteristics of inmates who were admitted into Florida state prisons from July 1, 1999 to June 30, 2000. Other fiscal years may also be featured to illustrate trends.

- Inmate admissions have dropped 30% in the last ten years, from 37,184 in FY 1990-91 to 25,743 in FY 1999-00, though they have risen slightly in the last five years.
- For each of those ten years, the single largest group of prison admissions was incarcerated for drug crimes, from 32.6% in FY 1990-91 to 28.5% in FY 1999-00.
- Those who enter prison today for a crime committed on or after October 1, 1995 will serve a minimum of 85% of their sentences.
- More than 90% of the inmates admitted to prison in FY 1999-00 were sentenced under the 85% law and will therefore serve a minimum of 85% of their sentences.

Prison Admissions by Primary Offense Type

\* One of the following conditions must occur for a crime to be defined as violent under this definition: actual physical harm or threat of physical harm, or a reasonable probability existed that individual criminal acts could have resulted in unintended physical harm or the threat of physical harm.

Admissions Over Five Years

| Type of Offense           | Number | Percent | Average Sentence Length In Years * | Average Age at Admission |
|---------------------------|--------|---------|------------------------------------|--------------------------|
| Murder, Manslaughter      | 1,027  | 4.0%    | 23.6 years                         | 30.8                     |
| Sexual Offenses           | 1,662  | 6.5%    | 10.8 years                         | 35.2                     |
| Robbery                   | 2,119  | 8.2%    | 8.8 years                          | 26.7                     |
| Violent Personal Offenses | 3,538  | 13.7%   | 4.7 years                          | 31.6                     |
| Burglary                  | 4,188  | 16.3%   | 5.2 years                          | 29.4                     |
| Theft/Forgery/Fraud       | 3,341  | 13.0%   | 2.7 years                          | 33.1                     |
| Drug Offenses             | 7,325  | 28.5%   | 2.9 years                          | 32.6                     |
| Weapons                   | 845    | 3.3%    | 4.1 years                          | 31.3                     |
| Other                     | 1,698  | 6.6%    | 2.7 years                          | 34.6                     |

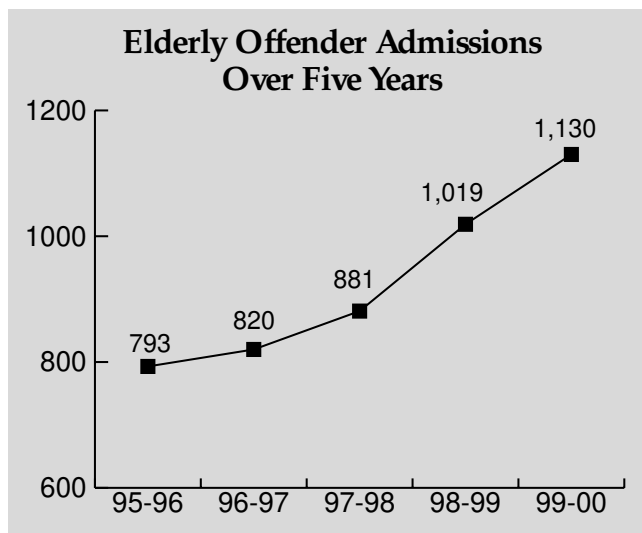

\* Sentence lengths of 50 years or longer, life, and death are coded as 50 years for calculations of averages.

# INMATE ADMISSIONS

\* Other Returns include: clemency returns, returns from out-by-permission, returns from supersedeas bond, returns from interstate compact, received out-of-state concurrent sentences, conditional medical release violators and those returned to custody.

- When we refer to **prison admissions**, we are talking about the 25,743 inmates who were sentenced by the courts and brought into the state prison system during the fiscal year. The admissions section of this report is focused exclusively on the characteristics of these individuals.
- The **intakes** featured in the table are different from prison admissions in that they did not receive a new sentence when they were admitted into the prison system. They may have violated their terms of post-prison supervision, or returned from court without a new sentence, etc. This report does not focus at all on the more than 8,000 intakes also brought into the prison system during this fiscal year, though it is important to note that these individuals are back in the system, albeit without new sentences. We do not include them in current admissions because they were counted previously for their original admission.

# INMATE ADMISSIONS

This table represents the 67 counties in Florida and the number of inmates admitted into prison who were sentenced from each county.

## FY 1999-00 Inmate Admissions (COUNTY OF COMMITMENT)

| County       | Total | Percent | County       | Total         | Percent       |

# INMATE ADMISSIONS

## Counties with Most Admissions in FY 1999-00

Felony cases are processed through judicial circuits. A circuit can consist of one large county (Circuit 11: Miami-Dade) or several smaller counties (Circuit 3: Columbia, Dixie, Hamilton, Lafayette, Madison, Suwannee and Taylor counties). The county that an inmate is admitted from is generally the county in which the inmate committed his or her crime.

- The top five counties of admission (Broward, Dade, Hillsborough, Orange, and Pinellas) provide almost half (44%) of all prison admissions statewide.
- Broward and Dade counties alone account for 22.3% of all state prison admissions, and 25.8% of the admissions from those two counties this fiscal year were for drug offenses, compared to 30.5% five years ago.
- As expected, the least populated counties consistently have the fewest number of prison admissions.

## Judicial Circuits with Most Admissions in FY 1999-00

# INMATE ADMISSIONS

## Average Sentence Length: 5.3 Years

- Most (61%) of those admitted to prison this fiscal year were sentenced to three years or less. The average sentence for everyone admitted to prison this fiscal year was 5.3 years. For calculation purposes, those sentenced to more than 50 years, life or death were coded as 50-year sentences.
- Of the 484 inmates admitted to prison in FY1999-00 with life sentences, 480 will serve a life sentence with no possibility of parole. The four who are parole eligible will have to serve 25 years in prison before becoming parole eligible.
- Men who received death sentences are housed on death row at either Union Correctional Institution or Florida State Prison. Women on death row are located at Broward CI.
- Over the past five years, average prison sentences have decreased slightly, from 5.6 years to 5.3 years, but the average percentage of sentence served has increased from 62.8% five years ago to 78.8% for those released this fiscal year.
- Anyone sentenced to prison today for a crime committed on or after October 1, 1995 will have served 85% of their sentence or more by the time they are released.
- Any county jail time that an inmate has served prior to coming to state prison is subtracted from the prison sentence upon entry into prison. County jail time can range from days to years, and averaged six months for the inmates admitted in FY 1999-00.

\* GT - Greater than, LE - less than or equal to.

\*\* Sentence lengths of 50 years or longer, life, and death are coded as 50 years for calculations of averages and medians.

# INMATE ADMISSIONS

## Equal Sentence Lengths for All in FY 1999-00

For the past four fiscal years (FY1995-96 through FY1998-99), blacks have consistently had average sentences that were shorter than whites, while "others" have consistently had higher sentences than both blacks and whites. In FY 1999-00, all three groups had equal sentence lengths, 5.3 years.

## Admissions for Violent Offenses Decline Slightly

A primary offense is the most serious crime for which an inmate was admitted into prison, based on the statutory degree of the crime. It is called the primary offense because many inmates have multiple offenses for which they are being admitted to prison.

■ As mentioned previously, the sale, purchase or manufacture of drugs is the single offense for which most inmates were admitted this fiscal year (16.7%), followed by possession of drugs (8.5%) and burglary of a dwelling (8.0%).

- More than a third of the offenses committed by those admitted to prison this fiscal year were violent offenses, including murder, sexual assault, robbery and arson, among others.
- Property crimes including burglary, theft, forgery and fraud comprised almost 30% of prison admissions this fiscal year
- The sale, manufacture, purchase, trafficking and possession of drugs equaled 28.5% of prison admissions.
- The "other" category includes racketeering, DUI, traffic and other offenses and comprised less than 10% of admissions.

## Admissions for Violent Vs. Drug Offenses

### Most Admissions (55.4%) New to Florida Prisons

Prior commitment refers to any previous occasion that an inmate served time in the Florida prison system. This does not include supervision, such as probation. Nor does it include inmates who may have been in county jails in Florida, or in other state systems or in the Federal prison system.

- Some (44.6%) of the people who were admitted to the Florida state prison system in FY 1999-00 had been in state prison in Florida before, and that number has stayed fairly consistent for the past five years.
- Nineteen percent had been in prison in Florida once previously, and ten percent had been in twice previously. Eight percent had been in prison in Florida four or more times in the past.
- For FY 1999-00, the following types of prison admissions had no previous Florida prison commitments: sex offenders (71.4%), females (63.6%), those ages 50 and over at admission (54.2%) and drug offenders (46.7%).

### Percent of Prison Admissions with Prior Commitments to Florida's Prison System Decline Slightly

Offenses are categorized by degree up to the level of a capital felony.

■ More than 44% of those who entered prison in FY 1999-00 were admitted for second degree felonies, followed by 35.7% for third degree felonies.

### Comparing Offenses of Inmates Admitted to Prison Over Two Years

# INMATE ADMISSIONS

## Age of Prison Admissions Ranges From 11 to 88 in FY 1999-00

- The youngest person admitted to state prison this fiscal year was 11 years old at the time the crime was committed, and the oldest was 88 years old when admitted to prison.
- Their average age was 31.7 years and the largest age group that was admitted was ages 25-29 (16.8%), though the 35-39 age group was close behind at 16.4%.
- Women who were admitted this year were typically about two years older than the men who were admitted.
- Of the inmates over the age of 50 at admission, most were from Dade county (12.0%) and sentenced for a drug (25.8%) or sex (17.6%) crime.
- Of the inmates who were 17 or under when they committed their crimes, 13% were from Dade County and most were sentenced for burglary (26.2%) or robbery (22.8%).

# INMATE ADMISSIONS

## Inmates Test at Around the Sixth Grade Level; 70% Not Functionally Literate

When inmates come into prison, they are tested to determine their educational level in the form of a school grade level. The table on the right lists the grade levels indicated by the TABE (Tests of Adult Basic Education) scores of those inmates admitted into prison during the FY1999-00. Inmates with unavailable data were not included in the analysis.

- Of all the scores analyzed, the median test score (half the scores were above and half were below this score) was 6.3.

- The tested grade level achieved most often (14.2%) was the fifth grade.

The table below groups the grade levels of the inmates admitted during the 1999-2000 fiscal year into three different categories—less than basic literacy, basic literacy, or functional literacy. Again, inmates with unavailable data were not included in the analysis.

- About 70 percent had less than functional literacy skills (less than 9.0 grade level).

- Half of the tested inmates were classified as having basic literacy skills (4.0 to 8.9 grade levels).

# INMATE POPULATION ON JUNE 30, 2000

## Inmate Population on June 30, 1991-2000

## Florida Prison Population Up 54% Over Ten Years

Inmate population refers to the 71,233 inmates who were present in the Florida prison system on June 30, 2000. The following tables and charts will detail the characteristics of these inmates. Other fiscal years may also be featured to illustrate trends.

- While prison admissions have declined 30% over the last ten years, the number of inmates in prison has risen 54%, from 46,233 in June 1991 to 71,233 in June 2000. This means that while fewer inmates are coming into prison, the ones who do come in are serving longer sentences.
- The average percentage of sentence served for inmates released in June 2000 was 80%, compared to 34% in June 1992.
- The majority of inmates in prison on June 30, 2000 are male (67,214 or 94.4%) and black (38,679 or 54.3%). However, the percentage of black inmates in prison is decreasing (from 58.1% in June 1992 to 54.3% in June 2000.)
- The top five categories of primary offenses for which they are incarcerated are: drugs (17.7%), burglary (17.3%), murder/manslaughter (14.6%), robbery

(14.2%) and violent personal offenses such as carjacking and aggravated assault (11.9%).

- On June 30, 2000, 455 of every 100,000 Floridians were incarcerated compared to 445 four years ago.

## Percent of Inmate Population with Priors Continues to Decline

Prior commitment refers to any previous occasion that an inmate served time in the Florida prison system. This does not include supervision, such as probation. Nor does it include inmates who may have been in county jails in Florida, in other state systems or in the Federal prison system.

- The number of inmates in prison on June 30 who had been in Florida prisons previously has decreased almost 10% in the last five years, from 57.2% in 1995 to 48.5% in 2000.
- Of the 36,677 (51.5% of the inmate population) in prison on June 30 who had no prior Florida prison commitments, 52.3% were white, 44.7% were black and 3.0% were other races.
- Most (93.0% or 34,124) of those with no prior Florida prison commitments were male.
- Twenty percent had been in prison in Florida once previously, and 12.3% had been in twice previously. Eight-and-a-half percent had been in prison in Florida four or more times in the past

Percent of Inmate Population with Prior Commitments to Florida's Prison System On June 30, 1995-2000

# INMATE POPULATION ON JUNE 30, 2000

This table represents the 67 counties in Florida and the number of inmates in prison on June 30, 2000 who were sentenced from each county.

## County of Commitment (INMATE POPULATION ON JUNE 30, 2000)

| County       | Total | Percent | County       | Total         | Percent       |

# INMATE POPULATION ON JUNE 30, 2000

## Violent and Property Crimes Account for Three of Every Four Inmates in Prison

A primary offense is the most serious crime for which an inmate was convicted and sentenced to prison, based on the statutory degree of the crime. It is called the primary offense because many inmates have multiple offenses for which they are sentenced to prison.

- More than half of the offenders in prison on June 30, 2000 had a violent primary offense, including murder, sexual assault, robbery and arson.
- About one-fourth of those in prison on June 30, 2000 were serving time for property crimes including burglary, theft, forgery and fraud.
- 17.7% of inmates in prison on the last day of the fiscal year were serving time for the sale, manufacture, purchase, trafficking or possession of drugs.
- The "other" category includes racketeering, felony DUI and other offenses and comprised less than ten percent of all inmates.
- One in ten (10.6%) of the offenders in prison on June 30, 2000 had a primary offense for the sale, purchase or manufacture of drugs (10.6%), followed by robbery with a weapon (9.8%) and burglary of a dwelling (8.4%).
- Inmates in prison for murder or manslaughter were serving an average of 34.3 years and their average age at offense was 26.9 years. (Sentence lengths of 50 years or longer, life and death are coded as 50 years for calculations of averages.)
- Inmates in prison for sexual offenses were serving an average of 22.3 years; 17.6 years on average for robbery; and 11.1 years on average for burglary.
- Robbery is the offense type for which the average age at offense was the youngest: 25.2 years.

# INMATE POPULATION ON JUNE 30, 2000

## About 8% of Inmates in Prison on June 30, 2000 Committed Their Crimes Before They Turned 18

- The youngest person in state prison on June 30, 2000 was 14 years old and the oldest was 88 years old. (There are others in prison on that date who were as young as 11 and as old as 87 when they committed their crimes.)
- There were 5,691 or 7.9% inmates in prison on June 30, 2000 who committed their crimes before they turned 18. Their average age on June 30, 2000 was 21.7 years.
- The average age of all inmates in prison on June 30, 2000 was 35.7 years. The average white male was 2.3 years older than the average black male, and the average white female was 1.8 years older than the average black female.
- The largest age group of inmates in prison on June 30, 2000 was ages 35-39 (17.6%), followed closely by ages 30-34 (17.0%) and ages 25-29 (16.8%).
- As you can see from the chart below, there were 464

inmates in prison on June 30, 2000 who were still 17 or younger. The majority were 15 or 16 years old when they committed their offenses. A breakdown by age at offense:

| Age | Number | Percent |
|-----|--------|---------|
| 12  | 4      | 0.9%    |
| 13  | 21     | 4.6%    |
| 14  | 91     | 19.5%   |
| 15  | 153    | 33.1%   |
| 16  | 172    | 37.2%   |
| 17  | 23     | 4.8%    |

- This chart below also tells us that the number of inmates who were 17 or younger when they committed their crimes continues to decline, while the number of older inmates (ages 50 and over) in prison on June 30 of each year continues to climb.

Number of Younger Inmates Declining as Number of Older Inmates Increasing

\* Medical levels are assigned to inmates by health care professionals based primarily on general physical stamina, mental health and functional capacity.

# INMATE POPULATION ON JUNE 30, 2000

## Increasing Numbers of Inmates Suffering from Mental Disorders, Especially Women

Generally accepted epidemiological studies indicate that between ten and twenty percent of the mentally ill in state and federal prisons suffer from serious mental disorders. In Florida, about 16% of the inmates receive mental health care.

Mental health grades range from S-1 to S-5. S-1 grade (Normal) indicates no mental health problems are present. S-2 grade (Mild) indicates outpatient mental health services without psychotropic medication. S-3 grade (Moderate) indicates outpatient mental health services with psychotropic medication. S-4 and S-5 grades (Severe/Hospital) indicate inpatient mental health services in a Transitional Care Unit (TCU) or inpatient mental health services in a Crisis Stabilization Unit (CSU) or at the Corrections Mental Health Institution (CMHI). CMHI is an Inpatient Psychiatric Institution where inmates are placed by judicial order.

- Over a five year period, the percentage of the prison population who are considered to have "normal" psychological grades has decreased from 88.4% in 1996 to 84.5% in 2000.
- Female inmates have had a dramatic decline in "normal" grades from 76.2% five years ago to 54.8% in 2000. This decrease, in part, reflects the prevalence of depression among women in the general population, which is approximately twice that of men.
- Women, in particular, are increasingly falling into the "moderate impairment" category, from 463 or 13.0% of the total female population in 1996 to 1,311 or 32.6% in 2000.
- In comparison, the number of male inmates considered "moderately impaired" has risen only 2.8% in the last five years, from 3,749 or 6.2% of the total male population in 1996 to 6,062 or 9.0% in 2000.

## 61% of Alien Inmates Serving Time for Violent Crimes

### What is an alien inmate?

An alien inmate is one who does not have U.S. citizenship. Newly admitted inmates are referred to Immigration and Naturalization Service (INS) agents, working in prison reception centers, who identify and investigate those who may be aliens. On June 30, 2000, Florida prisons held 4,416 confirmed alien inmates.

### What happens once alien inmates finish their prison sentences?

As with other inmates, alien inmates are released from prison when their sentences are completed. If the INS has notified the Department that they want to take an alien inmate into custody, the inmate is released only into INS custody. Some alien inmates can not be deported. However, the majority of alien inmates who complete their sentences in Florida prisons are released to INS for further immigration processing, including possible deportation.

### Under what circumstances would an alien inmate be deported?

At their quarterly cabinet meetings, the Governor and Cabinet consider granting clemency for certain non-violent alien inmates in exchange for their agreement to be immediately deported and not to return.

- Most (61.0%) of the confirmed alien inmates in prison on June 30, 2000 were serving time for violent crimes.
- Almost one fourth (24.0%) of all confirmed aliens were serving time for murder or manslaughter, and 21.0% were serving for drug-related crimes.
- Cuba is the single country with the largest number of confirmed aliens in Florida's prison system (41.0%) on June 30, 2000.
- Mexico (10.0%) and Jamaica (10.0%) account for one of every five aliens in Florida prisons.
- Nicaragua, the Bahamas, the Dominican Republic, Honduras, Canada and Guatemala account for about 12% of confirmed aliens in Florida prisons on June 30, 2000.

## Sentence Length of Current Commitment

- Almost one-fourth (24.1%) of current inmates have sentences of less than three years.
- The average sentence length of current inmates is 15 years, whereas the median sentence length (same number of inmates with sentences above and below that number) is 7.5 years.
- The average sentence length for men, which ranges from 15.3 to 16.9 years in the table below, is much higher than that for women, which ranges from 7.6 to 9.1 years, depending on race.
- More than half (56.7%) of the current inmates now serve under the 85% law (if crime was committed after October 1, 1995 at least 85% of the sentence must be served).
- The largest category of sentence length for current inmates is "Greater than 1 year, Less than 2" (9,226 or 13.0% of the inmate population on June 30, 2000). This category is followed closely by those with Life or Death sentences, 8,092 or 11.4% of all inmates.

\* GT - Greater than, LE - Less than or equal to. \*\* Sentence lengths of 50 years or longer, life, and death are coded as 50 years for calculations of averages and medians.

# INMATE POPULATION ON JUNE 30, 2000

## More Than Half of All Inmates Serving 85% of Sentences

Offenders who committed their offenses on or after October 1, 1995 are required to serve a minimum of 85% of their court-imposed sentence prior to their release. On June 30, 2000, more than half (56.7%) of all inmates in prison had been sentenced under this law,

meaning they will serve at least 85% of their sentences, and that number is expected to increase annually. The average percentage of sentence served for released offenders has significantly increased in the last 11 years, from 33.1% in June 1990 to 80.9% in June 2000.

# INMATE POPULATION ON JUNE 30, 2000

## Median Grade Level Achieved by Inmates Tested Was 7.3

Periodically inmates are tested to determine their educational grade level in the form of a school grade level. The table on the right shows the grade levels for the most recent TABE scores of the inmate prison population on June 30, 2000, which is the last day of the fiscal year. Inmates with unavailable data were not included in the analysis.

- Of all scores analyzed, the median test score (half the scores were above and half were below this score) was 7.3, compared with 6.3 for inmates who were admitted to prison in FY 1999-00.
- The tested grade level achieved most often (13.0%) was the twelfth grade, compared to a tested grade level of fifth grade for inmates admitted in FY 1999-00.

The table below groups the grade levels of the June 30, 2000 prison population into three different categories: less than basic literacy, basic literacy, or functional literacy. Again, inmates with unavailable data were not included in the analysis.

- Six of every ten inmates (63.1%) in prison on June 30, 2000 had less than functional literacy skills (less than the ninth grade level).

### Tested Education Grade Level (MOST RECENT TESTS OF ADULT BASIC EDUCATION [TABE] SCORES AS OF JUNE 30, 2000)

| Grade Level      | Males         | Females      | Total         | Percent       | Cumulative Percent |

# DEATH ROW

## Lethal Injection Becomes Option in FY 1999-00

- On June 30, 2000, there were 368 inmates on Florida's death row.
- It costs approximately \$72.39 per day to incarcerate a death row inmate.
- Florida administers execution by electric chair or lethal injection.
- Lethal injection became an option for death row inmates in FY1999-00.
- The first inmate to die by lethal injection was Terry Sims on February 23, 2000.
- While tobacco was banned inside Florida prisons on January 1, 2000, death row inmates were exempted from this rule since they have no access to designated smoking areas.
- The executioner is an anonymous, private citizen who is paid \$150 cash per execution.
- Five death row inmates were executed in FY 1999-00.
- A death row cell is 6 X 9 X 9.5 feet high.

### Race of Inmates Executed Since Death Penalty Reinstated

- Death row inmates can be distinguished from other inmates by their orange t-shirts.
- The state of Florida was given the authority to execute inmates by the 1923 Legislature.
- The U.S. Supreme Court declared capital punishment unconstitutional in 1972 in *Furman vs. Georgia*.
- In 1976 the *Furman* decision was overturned, upholding the constitutionality of the death penalty, which was resumed in Florida in 1979 with the execution of John Spenkelnik.
- Male inmates under sentence of death are housed at Union CI or Florida State Prison.
- Female death row inmates reside at Broward CI in Pembroke Pines.
- Average number of years served before execution: 11.3
- Average number of years between offense and execution: 12.9
- Average age at execution: 42.9
- Average age at offense: 30.0

# INMATE RELEASES AND TIME SERVED

## 24,317 Inmates Released; Served Average 78.8% of Sentences

This section includes statistics on the number of inmates who were released from the Florida prison system during the period of July 1, 1999 through June 30, 2000. Time served refers to the percentage of sentence that inmates actually served in prison, plus credit for jail time, compared to their sentence length. For example, an inmate may have been sentenced to ten years in prison, but his actual time served will be about eight and a half years, once his gain time has been subtracted from his sentence.

- In FY 1999-00, 24,317 offenders were released from Florida's prisons.
- Most of them (14,559 or 55.5%) were released because their sentences expired.
- Slightly more than 18% (4,446) were released to conditional release supervision, a type of supervision for more serious offenders.
- Almost 17% (4,105) were released to probation or community control.
- The majority of offenders released in FY 1999-00 were black (13,515 or 55.6%) and male (22,393 or 92.1%).
- Almost 40% were between the ages of 35 and 49 (9,469).
- Almost 39% were serving time for violent offenses (9,228).

**Permanent Inmate Releases  
FY90-91 to FY99-00**

\* One of the following conditions must occur for a crime to be defined as violent under this definition: actual physical harm or threat of physical harm, or a reasonable probability existed that individual criminal acts could have resulted in unintended physical harm or the threat of physical harm.

| Type of Offense           | Number | Percent | Average Sentence Length In Years * | Average Age at Offense |
|---------------------------|--------|---------|------------------------------------|------------------------|
| Murder, Manslaughter      | 1,088  | 4.5%    | 15.9 years                         | 36.9                   |
| Sexual offenses           | 1,368  | 5.6%    | 8.9 years                          | 38.1                   |
| Robbery                   | 2,870  | 11.8%   | 7.8 years                          | 31.1                   |
| Violent Personal offenses | 3,346  | 13.8%   | 4.2 years                          | 33.5                   |
| Burglary                  | 4,483  | 18.4%   | 4.9 years                          | 31.7                   |
| Theft/Forgery/Fraud       | 3,015  | 12.4%   | 3.4 years                          | 34.4                   |
| Drug offenses             | 6,223  | 25.6%   | 3.4 years                          | 34.5                   |
| Weapons                   | 828    | 3.4%    | 3.3 years                          | 32.3                   |
| Other                     | 1,096  | 4.5%    | 2.9 years                          | 36.0                   |

\* Sentence lengths of 50 years or longer, life, and death are coded as 50 years for calculations of averages.

# INMATE RELEASES AND TIME SERVED

## Temporary vs. Permanent Releases

Releases are grouped into two broad categories: permanent releases and temporary releases.

- Permanent releases are those inmates who have reached the end point of a state prison sentence and whose state prison record has been officially closed out.
- Temporary releases are those inmates currently in the service of a state prison sentence who are not in the physical custody of the department and whose prison record is still currently active.

For more detailed information about inmate releases and time served, go to our website at [www.dc.state.fl.us](http://www.dc.state.fl.us) and click on "statistics".

\*Includes sentence vacated, provisional release, commutation, parole reinstated, parole/probation, execution, mandatory conditional release, Florida Parole Commission release, conditional pardon.

\*\*Includes R.O.R., out without credit, transfer intrastate, transfer out of state concurrent, not in custody, out by permission, out on supersedeas bond.

# INMATE RELEASES AND TIME SERVED

**Type of Release From Prison  
(FY 1999-00) Total 24,317**

## Facts about Time Served...

- The average amount of time served for all offenders released in FY 1999-00 was 39.2 months or 78.8% of their court-imposed sentences.
- In the last month of the fiscal year (June 2000), offenders released from Florida's prisons were serving an average of 80.9% of their court-imposed sentences. (Offenders with offense dates on or after October 1, 1995 are required to serve a minimum of 85% of their court-imposed sentence prior to their release.)
- The average percentage of sentence served for released offenders has much more than doubled in the last ten years, from 33.1% in June 1990 to 80.9% in June 2000.

**Average Percentage of Sentence Served  
Over Eight Years**

# ESCAPES

## Escapes Decline by 230% Over Last Ten Years

## Most Escapes (94.3%) Are Walkaways from Work Release...

- Escapes from Florida state prison facilities declined by 232.2% over the last 10 years, from 289 in FY 1990-91 to the current total of 87. Over the last two fiscal years, escapes declined by almost 50%, from 160 in FY 1998-99 to 87 in FY 1999-00
- Of the 87 completed escapes this fiscal year, nine (10.3%) were from correctional institutions, three (3.4%) were from a work camp/road prison and 75 (86.2%) were from non-secure work release/contract centers.
- Of the 87 completed (as opposed to attempted) escapes, 75 (86.2%) were recaptured as of July 17, 2000.
- Forty-four (61.1%) of the recaptures were completed within 24 hours of the escape.
- Three of the 87 escapes were from either a secure or non-secure perimeter and involved violence or potential violence in the escape process; two of the escapes were from a secure perimeter and did not involve violence and 82 (94.3%) of the escapes were from a non-secure perimeter such as a work release center and involved no violence. (Example: If an inmate does not return from his work release job he or she is considered an escape from a non-secure perimeter.)
- There were 16 attempted (and foiled) escapes in FY 1999-00.

## Escapes by Month

# COMMUNITY SUPERVISION/ADMISSIONS

## Overview of Community Corrections

Community Corrections is responsible for the supervision of over 150,000 offenders under community supervision annually. Comprehensive community supervision comprises a multitude of human resources, programs, automation and communication systems and specialized supervision approaches. The following is a brief overview of the types of supervision and programs that make up this area of the Florida Department of Corrections.

### Original Sentence

#### Probation

Probation is a court-ordered term of community supervision under specified conditions for a specific period of time that cannot exceed the maximum sentence for the offense. The probationer is required to abide by all conditions ordered by the court. Violation of these conditions may result in revocation by the Court and imposition of any sentence, which it might have imposed when originally placing the offender on probation. The probationer is generally required to pay the cost of supervision to the state of Florida, and may have additional conditions requiring payment of restitution, court costs and fines, public service and various types of treatment.

The probationer is usually required to visit his supervising officer in the local office at least once a month and depending on the probationer's status, the officer may visit the offender at his/her home and/or place of employment.

#### Administrative Probation

Administrative Probation is a form of non-contact supervision in which an offender who represents a low risk of harm to the community may, upon satisfactory completion of half the term of regular probation, be placed on non-reporting status until expiration of the term of supervision. The department is authorized to collect an initial processing fee of up to \$50 for the offender reduced to administrative probation. Periodic record checks are completed to ensure the offender has not violated the law.

#### Drug Offender Probation

Drug Offender Probation is an intensive form of supervision, which emphasizes treatment of drug offenders in accordance with individualized treatment plans. The program includes elements of surveillance and random drug testing. Contacts are made by correctional probation senior officers to ensure offenders remain drug free. The sentencing court reviews the offender's progress on a regular basis.

#### Sex Offender Probation

Sex Offender Probation is designated for offenders placed on probation whose crimes were committed on or after October 1, 1995, and who are placed under supervision for violation of chapter 794,

s. 800.04, s. 826.071, or s. 847.0145. Per Florida Statute, the court must impose specific special conditions, as set forth in s. 948.03(5)(b), in addition to all other standard and special conditions imposed. Sex Offender Probation is designed to enhance the protection of the community and to require treatment/counseling for the offender. The offender is also required to submit two specimens of blood to the Florida Department of Law Enforcement to be registered with the DNA data bank.

#### Community Control

Community control is a form of intensive supervised house arrest in the community, including surveillance on weekends and holidays, administered by officers with limited caseloads. It is an individualized program in which the freedom of the offender is restricted within the community, home or non-institutional residential placement, and specified sanctions are imposed and enforced. As with probation, violation of any community control condition may result in revocation by the court and imposition of any sentence, which it might have imposed before placing the offender on community control supervision. Many of the offenders who are placed on community control are prison diversions.

### Offenders Tracked by Electronic Monitoring June 2000

| Supervision Type / Device Type             | Sex Offenders | Others     | Total      |

# COMMUNITY SUPERVISION/ADMISSIONS

## Community Control II (Electronic Monitoring)

The use of electronic monitoring as an enhancement to community control continues to receive judicial approval. Radio frequency electronic monitoring is utilized in all 20 Judicial circuits. This system electronically tethers an offender to their home during specified periods of the day or night with violations noted and investigated. This system, however, is unable to determine the offender's whereabouts during approved absences from their residence. Global Positioning Satellite system electronic monitoring, presently in use in 18 Judicial circuits, continuously tracks offender movements at home and in the community with uniquely defined inclusion and exclusion zones for each offender. Violations of this monitoring system are immediately sent to an on call officer in the circuit for resolution.

## Community Control-Sex Offender

Sex Offender Community Control is designated for offenders placed on probation whose crimes were committed on or after October 1, 1997, and who are placed under supervision for violation of chapter 794 or s. 800.04, s. 827.071, or s. 847.0145. Per Florida Statute, the Court must impose specific special conditions, as set forth in s. 948.03(5)(b) in addition to all other standard and special conditions imposed. Sex Offender Community Control is designed to enhance the protection of the community and to require treatment/counseling for the offender. The offender is also required to submit two specimens of blood to the Florida Department of Law Enforcement to be registered with the DNA data bank.

## Pretrial Intervention (PTI)

Any individual who is charged with any non-violent third degree felony is eligible for the pretrial intervention program. Approval of the administrator and the consent of the victim, the state attorney, and the judge hearing the case are required in order to formally accept the offender into the program. If the offender completes the conditions of the program which could include restitution to the victim, counseling and/or community service, then the State Attorney's Office will not prosecute the case. Since the statute has been changed to allow any non-violent third degree felony as criteria for entrance into the program, PTI caseloads have steadily increased, as has the risk level of these offenders.

## Pretrial Intervention - Drug Offender

Any person charged with a felony of the second or third degree for purchase or possession of a controlled substance under chapter 893, and who has not previously been convicted of a felony, nor been admitted to a pretrial program, is eligible for admission into a pretrial substance abuse education and treatment intervention program approved by the chief judge of the circuit, for a period of not less than one year. At the end of the pretrial intervention period, the court shall make a decision as to the disposition of the pending charges. The court shall determine, by written finding, whether the defendant has successfully completed the pretrial intervention

program. Failure to successfully complete the program shall result in the continued prosecution of the case by the State Attorney's Office.

## Post-Prison Release

### Parole

Parole is a post-prison supervision program where eligible inmates have the terms and conditions of parole set by the Florida Parole Commission. Parole supervision is provided by the Florida Department of Corrections. Although Florida no longer has parole except for those offenders sentenced for offenses committed prior to October 1, 1983, caseloads have increased. These increases are attributed to other state cases, which have transferred supervision to Florida. There are currently 815 active Florida parolees, 1,468 parolees from other states under Florida supervision, and 5,565 Florida inmates eligible for parole.

Parole is a conditional extension of the limits of confinement after an offender has served part of his sentence. The period of parole cannot exceed the balance of the sentence. Under parole, the offender is to be supervised in the community under specific conditions.

### Conditional Release

An inmate sentenced to murder/manslaughter, sexual offenses, robbery or other violent personal crimes, and who has a previous commitment to a state or federal institution or has been convicted as a Habitual Offender or Sexual Predator, meets the criteria for conditional release. Upon reaching the release date with accrued gaintime, an inmate is placed on conditional release to serve up to the remainder of the length of sentence. A conditional release eligible inmate often accrues less gaintime than other inmates due to the nature of the offense. Conditional release is not technically an early release mechanism as it merely provides for post-release supervision for those considered serious offenders for up to the amount of gaintime accrued.

### Other Post-Prison Releases

Other types of post-prison release supervision include control release, administrative control release, provisional release, supervised community release, conditional pardons and county work release. These types are not used as often, in part, because of adequate numbers of prison beds.

# COMMUNITY SUPERVISION/ADMISSIONS

## Community Supervision Admissions Decline

Supervision admissions refer to the number of offenders beginning a new period of community supervision by the Department of Corrections. This may be a result of either a new offense or a revocation of a previous supervision period. It does not include offenders already on supervision who receive an additional sentence for a different offense than the one that initially placed them on supervision.

Supervision sentences include:

- an original sentence by the court to probation, community control or a pretrial intervention program, or

- the supervision portion of a "split" sentence – prison followed by community control or probation, or
- assignment to supervision as a condition of prison release, or
- offenders from other states that Florida supervises through Interstate Compact agreements.

In this report, fiscal years run from July 1 to June 30. The following tables and charts describe offenders admitted to supervision from July 1, 1999 to June 30, 2000. Other years are sometimes featured to illustrate trends. For example, as the table below illustrates, community supervision admissions declined in FY 1999-00 for the first time since FY 1995-96.

**Supervision Admissions**  
FY 1990-91 to FY 1999-00

\* Sentence lengths of life are not used in calculations of averages.

# COMMUNITY SUPERVISION/ADMISSIONS

## More than Half of those on Community Supervision Admitted for Felony Probation

■ The majority of offenders were admitted to community supervision in FY 1999-00 for felony probation (56,617 or 58.4%), community control, with or without electronic monitoring, (13,889 or 14.3%) and pretrial intervention (9,252 or 9.5%).

■ Post-prison release supervision accounted for only about 5.5% (5,366) of the new admissions to supervision in FY 1999-00, with the majority of those being offenders on conditional release (4,355 or 4.5%).

## About 29% of Offenders Admitted to Community Supervision in FY 1999-00 Were Considered Youthful Offenders (Under 24)

Offenders on community supervision are generally considered Youthful Offenders (YO's) if they are under the age of 24. Youthful Offenders are often assigned to Correctional Probation Senior Officers (CPSO's) because supervising YO's is generally more difficult than supervising older offenders and requires more experience on the part of CPSOs to address the broader range of problems that YO's present. For example, YO's are often lacking in job skills and have more education and substance abuse problems than other offenders, requiring more contact by CPSO's with school officials, counselors, and family members than the average offender. About 29% of those admitted to community supervision in FY 1999-00 were under the age of 24.

### Admissions of Offenders Under Age 24 FY 1995-96 to FY 1999-00

# COMMUNITY SUPERVISION/ADMISSIONS

## Average Age of Offenders Admitted to Community Supervision is 32

- More than 1,400 offenders admitted to community supervision in FY 1999-00 were 17 years old or younger and nearly 30% were less than 24 years old.
- Pretrial intervention cases have the lowest average age, while post-prison release cases have the highest average age.
- Those sentenced for robbery or burglary offenses have the youngest average age.
- Over the last five years, the average age of community supervision offenders has changed very little (31.0 in FY 1995-96 to 31.9 in FY 1999-00).
- In the last five years, the average age of both women and men admitted to community supervision has increased by about one year, from 30.4 to 31.4 for men and 31.0 to 31.9 for women.

# COMMUNITY SUPERVISION/ADMISSIONS

This table represents the 67 counties in Florida, along with "other state" cases accepted under the Interstate Compact Agreement. The county of conviction for the primary offense, shown here, may not be the same as the county where the offender is ultimately supervised.

## County of Conviction (SUPERVISION ADMISSIONS FOR FY 1999-00)

| County       | Total  | Percent | County           | Total         | Percent       |
|--------------|--------|---------|------------------|---------------|---------------|
| Alachua      | 1,652  | 1.7%    | Lee              | 1,551         | 1.6%          |
| Baker        | 124    | 0.1%    | Leon             | 2,227         | 2.3%          |

# COMMUNITY SUPERVISION/ADMISSIONS

Felony cases are processed through judicial circuits. A circuit can consist of one large county (Circuit 11: Miami-Dade) or several smaller counties (Circuit 3: Columbia, Dixie, Hamilton, Lafayette, Madison, Suwannee and Taylor counties). This table shows the circuit in which the offenders were sentenced for their most serious offense.

## Circuit of Conviction (SUPERVISION ADMISSIONS FOR FY 1999-00)

| Circuit            | Probation     | Drug Offender Probation | Community Control | Pretrial Intervention | Parole     | Conditional Release | Other Post-Prison Release | Total         | Percent       |

# COMMUNITY SUPERVISION/ADMISSIONS

Felony class for the primary offense is the same even when offenders were convicted of attempts, which explains why some capital and life felony cases are on supervision rather than in prison. Others are offenders who served prison sentences followed by a period of supervision such as parole or conditional release.

## Felony Classification (SUPERVISION ADMISSIONS FOR FY 1999-00)

| Category              | Original Sentence |                         |                   |                       | Post-Prison Release |                     |                           | Total         | Percent       |

## Most Offenders on Community Supervision Serving for Drug or Property Crimes

The primary offense is the most serious crime for which the offender was admitted to supervision, based on the statutory degree of the crime. Offenders may also be serving sentences concurrently (at the same time) for other offenses. The offender may have been convicted as an accessory, or for conspiracy or an attempt, rather than as a principal for this offense.

- The largest category of offenders were admitted for drug offenses (33.4%).
- The largest single offense type for which the most offenders were admitted to supervision in FY 1999-00 is drug possession (20,646 or 21.5%).
- Violent offenses accounted for less than a quarter of all supervision admissions (20.7%).
- Murder/manslaughter, sex offenses, robbery and other violent personal offenses accounted for less than a quarter of all supervision admissions (20.7%).
- The "other" category includes DUI without injury, traffic and other non-violent offenses, and constitutes only 10.1% of all supervision offenders in FY 1999-00.

# COMMUNITY SUPERVISION/ADMISSIONS

## Average Sentence Length for Community Supervision Admissions is 2.4 Years

- The majority (67.8%) of those admitted to community supervision in FY 1999-00 are serving sentences of two years or less.
- The average sentence length for all those admitted to community supervision in FY 1999-00 is 2.4 years, compared to 2.5 years in FY 1995-96.
- Those admitted to parole in FY 1999-00 are serving an average sentence length of 8.1 years while those on pretrial intervention serve an average of 1.2 years.
- Of the 721 offenders placed on parole in FY 1999-00, only 92 of them were released from Florida's prisons while 607 came from other states.
- The average sentence length for parole has increased about one year over the last five years. In FY 1995-96, the average sentence length for those admitted to parole was 7.2 years, compared to 8.1 years this fiscal year.
- Over the past five years, the average sentence lengths of male and female community supervision admissions have remained similar. In FY 1999-00 male admissions were sentenced to an average of 2.5 years and women to 2.2 years, while five years ago men were sentenced to 2.5 years and women 2.3 years.

# COMMUNITY SUPERVISION/ADMISSIONS

## Total Prior Commitments by Type of Supervision Supervision Admissions for FY 1999-00

### Felony Probation: 59,806 admissions

More than half (59.5%) of those admitted to community supervision in FY 1999-00 and placed on felony probation had no prior commitments to either prison or supervision.

### Drug Offender Probation: 8,574 admissions

Of those admitted to Drug Offender probation in FY 1999-00, an almost equal percentage of offenders had no prior commitments (41.0%) or prior supervision commitments only (39.9%).

### Community Control: 13,889 admissions

Over half (54.6%) of the offenders admitted to community supervision in FY 1999-00 and placed on community control had prior commitments to supervision.

# COMMUNITY SUPERVISION/ADMISSIONS

## Probation Officers Who Supervise Sex Offenders and Predators Have Specialized Training

The Public Safety Information Act (PSIA), which became law on October 1, 1997, broadened public access to the records of sexual predators and sex offenders. An offender can be designated a sexual predator if he or she commits certain statutorily defined sex crimes that are first degree felonies or greater, or if he or she commits two or more second-degree or greater felony sex offenses within 10 years. In either case, the offense had to have been committed on or after October 1, 1993. An offender can be designated a sex offender if he or she has been convicted of certain sex crimes listed in Florida Statute 794, regardless of the date of offense. Both sexual predators and sex offenders are subject to registration and community notification. It should be noted that some of the sex offenders on supervision previously served state prison time for their offenses.

Sex offenders and sexual predators are supervised by probation officers with specialized training. Most of these offenders are subject to special conditions of supervision and they are supervised at a higher level than regular probation offenders. Some of these offenders are also subject to statutorily defined specific conditions of sex offender probation or sex offender community control. Some examples of special conditions may include offenders not being allowed to reside within 1,000 feet of a school, playground or daycare center, or offenders being required to submit to DNA testing, sex offender treatment, or counseling.

The table below shows that in FY 1999-00, almost 30% of all sexual predators and offenders admitted to community supervision were sentenced from judicial circuits 11 (Miami – 11.9%), 4 (Jacksonville – 9.0%) and 6 (Clearwater – 8.8%).

# COMMUNITY SUPERVISION/POPULATION

## Community Supervision Offender Population Declines Slightly

For any specified date, the community supervision offender population consists of all offenders actively under supervision and those on supervision caseloads but temporarily unavailable for direct supervision because of known and designated reasons, such as hospitalization or incarceration.

Statistics on the offender population are those for June 30, the final day of the fiscal year. The table below shows that there was a slight decrease in the number of offenders on community supervision on June 30, 2000, compared to the previous year.

Offenders Under Community Supervision\*  
A Ten Year Overview

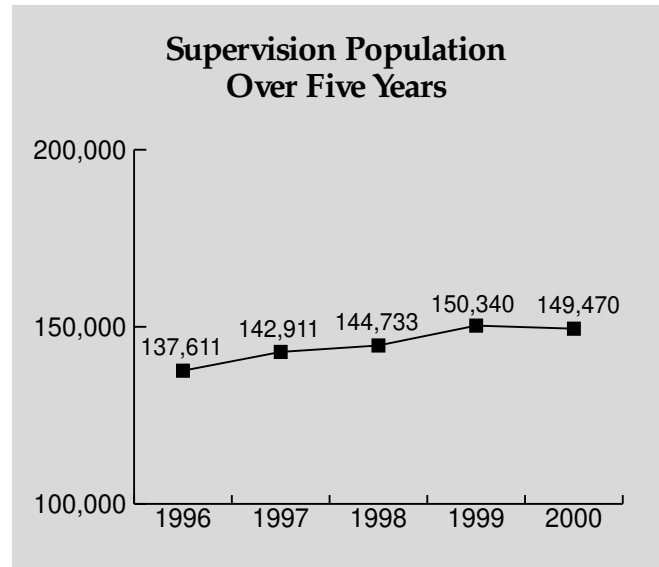

\* Historical figures differ from previous reports due to the inclusion of the offenders in suspense status.

## Pretrial Intervention Has Highest Percentage of Youthful Offenders

Offenders on community supervision are generally considered Youthful Offenders (YO's) if they are under the age of 24. Youthful Offenders are often assigned to Correctional Probation Senior Officers (CPSO's) because supervising YO's is generally more difficult than supervising older offenders and requires more experience on

the part of CPSOs to address the broader range of problems that YO's present. About 34.8% of all offenders on pretrial intervention community supervision on June 30, 2000 were Youthful Offenders, compared to only 1.7% Youthful Offenders in post-prison release programs.

### Offenders Under Age 24 Percent of Total Supervision Population

# COMMUNITY SUPERVISION/POPULATION

## Average Age of Community Supervision Offenders on June 30, 2000 is 33.8 Years

# COMMUNITY SUPERVISION/POPULATION

## One of Every Five Offenders Supervised in Miami or Ft. Lauderdale Circuits

Felony cases are processed through judicial circuits. A circuit can consist of one large county (Circuit 11: Miami-Dade) or several smaller counties (Circuit 3: Columbia, Dixie, Hamilton, Lafayette, Madison, Suwannee and Taylor counties). This table shows the circuit in which

the offender is currently supervised. The two circuits with the highest number of offenders under supervision on June 30, 2000 were Circuit 11 (Miami-Dade) and Circuit 17 (Ft. Lauderdale) with 16,302 or 10.9% and 15,128 or 10.1% respectively.

**Circuit of Supervision**  
(SUPERVISION POPULATION ON JUNE 30, 2000)

# COMMUNITY SUPERVISION/POPULATION

Felony class for the primary offense is the same even when offenders were convicted of attempts, which explains why some capital and life felony cases are on supervision rather than in prison. Others are offenders who served prison sentences followed by a period of supervision such as parole or conditional release.

## Felony Classification (SUPERVISION POPULATION ON JUNE 30, 2000)

## Most Offenders on Community Supervision on June 30, 2000 for Property Crimes

The primary offense is the most serious crime for which the offender was admitted to supervision, based on the statutory degree of the crime. Offenders may also be serving sentences concurrently (at the same time) for other offenses. The offender may have been convicted as an accessory, or for conspiracy or an attempt, rather than as a principal for this offense.

- The largest category of offenders on community supervision on June 30, 2000 were for property offenses (34.2%). The percentage of those on supervision that day for drug and violent crimes is almost identical, with 27.5% on supervision for drugs and 27.6% on supervision for violent crimes, which include actual, attempted and conspiracy to commit crimes.
- The majority (96,421 or 65.1%) of those on community supervision on June 30, 2000 had third

degree felonies. The next largest felony class was second degree, with 35,385 or 23.9% of all those on community supervision that day.

- The largest single offense type for which the most offenders were on community supervision on June 30, 2000 was drug possession (24,421 or 16.4%), followed by grand theft (16,654 or 11.2%).
- The "other" category includes DUI without injury, traffic and other non-violent offenses, and constituted only 10.7% of all community supervision offenders on June 30, 2000.
- For the past two years, the types of crimes for which offenders are on community supervision on June 30 has remained virtually unchanged.

# COMMUNITY SUPERVISION/POPULATION

# COMMUNITY SUPERVISION/POPULATION

## Total Prior Commitments by Type of Supervision Supervision Population on June 30, 2000

### Felony Probation: 108,385

Felony probation is the single largest category of community supervision, comprising 72.5% of all offenders on supervision. More than half (62.6%) of those on community supervision on June 30, 2000 for felony probation had no prior commitments to either state prison in Florida or supervision.

### Drug Offender Probation: 12,604

Of those on Drug Offender probation on June 30, 2000, an almost equal percentage of offenders had either no prior commitments (41.2%) or prior supervision commitments only (40.4%).

### Community Control: 13,651

Almost half (48.5%) of the offenders on community control on June 30, 2000 had prior commitments to supervision only, and (31.8%) had no prior supervision or prior Florida state prison commitments.

# COMMUNITY SUPERVISION/POPULATION

## Four in Ten Sexual Offenders/Predators from Five Judicial Circuits

The Public Safety Information Act (PSIA), which became law on October 1, 1997, broadened public access to the records of sexual predators and sex offenders. An offender can be designated a sexual predator if he or she commits certain statutorily defined sex crimes that are first degree felonies or greater, or if he or she commits two or more second-degree or greater felony sex offenses within 10 years. In either case, the offense had to have been committed on or after October 1, 1993. An offender can be designated a sex offender if he or she has been convicted of certain sex crimes listed in Florida Statute 794, regardless of the date of offense. Both sexual predators and sex offenders are subject to registration and community notification. It should be noted that some of the sex offenders on supervision previously served state prison time for their offenses.

Sex offenders and sexual predators are supervised by probation officers with specialized training. Most of these

offenders are subject to special conditions of supervision and they are supervised at a higher level than regular probation offenders. Some of these offenders are also subject to statutorily defined specific conditions of sex offender probation or sex offender community control. Some examples of special conditions may include offenders not being allowed to reside within 1,000 feet of a school, playground or daycare center, or offenders being required to submit to DNA testing, sex offender treatment, or counseling.

The table below shows that on June 30, 2000, four of every 10 (42.4%) sexual predators and offenders on community supervision were sentenced from five judicial circuits: Circuit 11 –Miami (11.8%), Circuit 4 - Jacksonville (8.1%), Circuit 6 - Clearwater (8.0%), Circuit 13 - Tampa (7.5%) and Circuit 9 - Orlando (7.0%). Far more sexual predators and offenders are male (97.8%) than female.

# COMMUNITY SUPERVISION/RELEASES

## Community Supervision Releases

The community supervision release population consists of all offenders permanently removed from a specific term of supervision by the Florida Department of Corrections due to satisfaction of the sentence, return to another state, death, or revocation.

### Supervision Type (SUPERVISION RELEASES FOR FY 1999-00)

| Category                           | Revocation For New Felony | Revocation For New Misdemeanor | Revocation For Technical | Pardoned | Death      | Normal Term   | Early Term   | Court Action  | Return of Other State Case | Total         | Percent       |
