5. Appendix E - Actuarial Data
6. Appendix F - Population Data
7. Appendix G - Funding Progress GASB-25

B. Inventories

1. Appendix H - Inventory of School Boards Early Retirement Programs
2. Appendix I - Inventory of Municipalities-Retirement Systems
3. Appendix J - Inventory of Special Districts-Retirement Systems

I. INTRODUCTION

A. BACKGROUND

Section 112.665(1)(d), F.S., provides that the Department of Management Services shall:

"Issue, by January 1 annually, a report to the President of the Senate and the Speaker of the House of Representatives, which report details division activities, findings, and recommendations concerning all governmental retirement systems. The report may include legislation proposed to carry out such recommendations;"

Within the Department of Management Services, the responsibility for issuing the aforementioned annual report has been delegated to the Local Retirement Section, which is housed within the Division of Retirement-Bureau of Local Retirement Systems. Accordingly, this is the 27th annual report published since the local government retirement systems review function was established, pursuant to s.112.63, F.S., to ensure that local government retirement plans are funded on an actuarially sound basis. Since the first report in 1981, the number of defined benefit local government retirement plans has increased from 355 to 501 in 2007.

The 501 municipal and special district retirement plans, and school boards' early retirement programs which the Local Retirement Section monitors and oversees for actuarially sound funding, currently provide retirement, death, and/or disability benefits to 59,747 retirees or their beneficiaries. Active plan membership for municipalities and special districts retirement plans is 100,491. School board early retirement program active plan membership is 15,616. Total plan assets were valued at approximately \$21.1 billion for the municipalities and special districts and \$57.4 million for the school boards' early retirement programs, as of September 30, 2007.

In addition to publishing the Local Government Retirement Systems Annual Report, other specific responsibilities include:

- Reviewing and commenting on actuarial valuations, impact statements, and reports submitted by local governments, special districts, and school boards;

- Determining if actuarial reports are timely, complete, accurate, and based on reasonable assumptions;
- Gathering and cataloging data to maintain a computerized data information system on all public employee retirement systems;
- Cooperating with local retirement systems on matters of mutual concern by providing technical assistance when requested;
- Issuing a report to the Department of Community Affairs (Special District Information Program) regarding special district pension plans and their compliance with the local government and state-administered retirement provisions as required by Section 112.665(1)(e), F.S.; and,
- Adopting reasonable rules to administer the provisions of Chapter 112, Part VII, F.S.

B. SCOPE OF REPORT

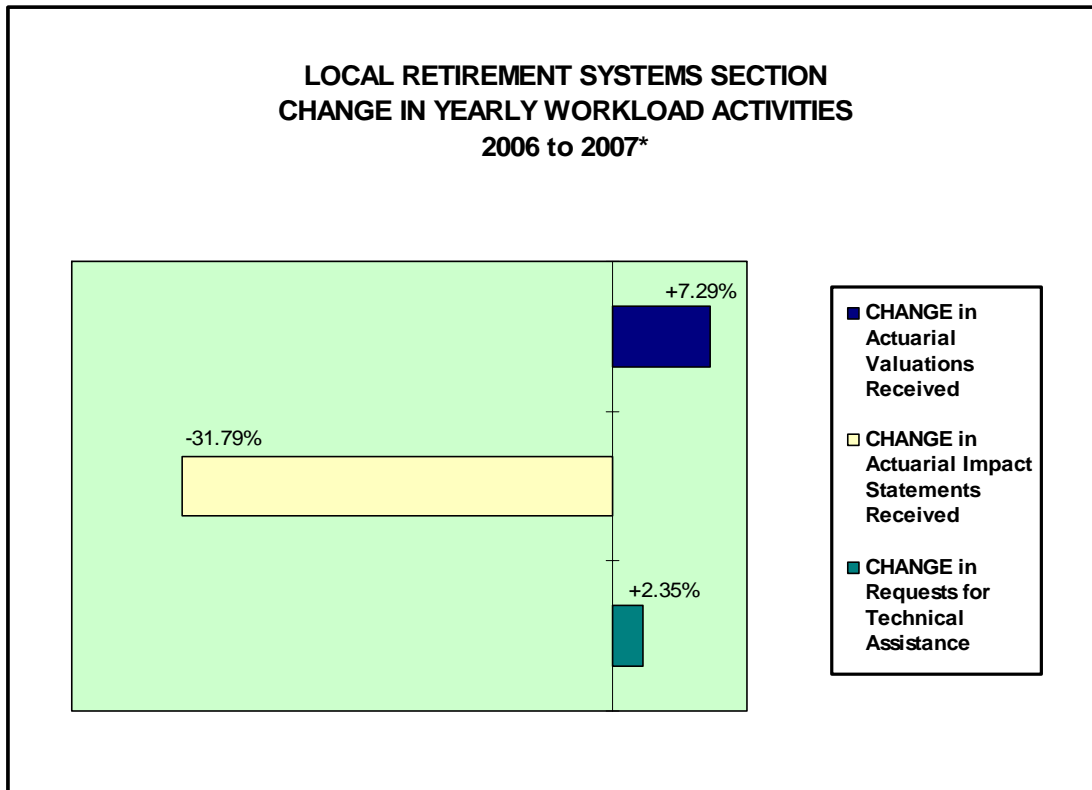

In compliance with Section 112.665, F.S., this report:

1. Details the activities of the Local Retirement Section in overseeing the provisions of Chapter 112, Part VII, F.S. (Chapter II);
2. Highlights the status of local government retirement systems (Chapter III);
3. Addresses issues of concern (Chapter IV); and,
4. Provides inventories of municipalities, special districts, and school boards and the types of retirement options offered by those entities; and, also provides data from the Local Retirement Section computerized information system (Chapter V).

C. SUMMARY

Summary

II. Workload of the Local Retirement Section

*Detailed information on pages 9-10 indicates actual numerical changes.

Summary

III. Status of Local Retirement Systems

The Local Retirement Section monitors 501 defined benefit plans sponsored by 257 local governments (many local governments sponsor plans for more than one employee group) and seven school boards. The following charts indicate the number of local government and school board plans overseen by the Local Retirement Section, the number of employees and retirees, and the financial resources of these plans.

Local Government Defined Benefit Retirement Systems as of 09/30/2007

Number of Municipalities	212
Number of Special Districts	45
Number of Plans	494
Total Assets (Market Value)	\$21,132,224,130
Number of Active Employees	100,491
Number of Retirees, Beneficiaries, and Vested Terminees(1)	58,293
Annual Retiree Payroll	\$1,133,780,000
Average Annual Pension	\$19,450
Sponsor Payroll	\$4,795,044,000
Annual Contribution(2)	\$1,101,042,000
As % of Payroll(3)	22.96%

School Board Early Retirement Programs as of 09/30/2007

Number of Reporting Programs(5)	7
Total Assets	\$57,357,617
Number of Active Employees(4)	15,616
Number of Retirees, Beneficiaries, and Vested Terminees(1)	1,454
Annual Retiree Payroll	\$6,789,000
Average Annual Pension	\$4,670
Sponsor Payroll	\$480,616,000
Annual Contribution(2)	\$6,001,000
As % of Payroll(3)	1.25%

(1-5) - See footnotes on next page.

- (1) Many pension systems purchase annuities from insurance companies at the time of an employee's retirement. Following retirement, these individuals are not maintained in any report submitted to the Local Retirement Section.
- (2) Depending on the individual retirement system, all or some of the annual contributions could be borne by the local government sponsor, the employees, or other sources (such as state disbursements through Chapters 175 or 185, F.S., for eligible fire and police pension plans).
- (3) The percentage of payroll actually contributed may be higher than the reported amount. This may be attributable to several contribution practices: the total required annual contribution is not normally paid at the beginning of a plan year so an interest factor is applied; many sponsors contribute the amount determined by multiplying the contribution rate and the applicable payroll; and the contributions to a police or fire plan from state revenues often exceed the required annual contribution. Also, a plan sponsor may elect to pay in excess of the minimum requirement.
- (4) The benefits provided by the various school boards' early retirement programs are available only to employees who reach age 50 and complete 25 years of service, and who are not eligible for normal retirement. Several school boards further limit the age and service requirements. Included in the total amount reported are employees who currently fail, or in the future will fail, to satisfy the requirements for benefit eligibility. The actuarial valuation process determines the liability and cost for the employees who are, or who become, eligible for the benefit from among each applicable board's total employee population.
- (5) There may be additional school board programs for which sufficient data is not yet available.

Florida's local government retirement plans experienced growth in 2007. There was an increase of 1.6% in the number of active employees in local government defined benefit plans. With the increase of active employees came an increase of 3.8% in the covered employees' payroll for such plans. Local government plans' retirees, beneficiaries, and vested terminees also increased significantly for municipalities and special districts. While the number of retirees increased 3.5% for municipalities and special districts, the actual dollar amount of contributions made to those retirement plans increased 6.5%. The average annual retiree pension for municipality and special district retirement plans is now \$19,450. Asset values for local government retirement plans increased 8.0%.

Florida's school board early retirement programs experienced varying experience in 2007. Active employee membership declined 10.6%, while the amount of annual contributions declined 17.0%. While school board early retirement plans retirees, beneficiaries, and vested terminees increased 4.1%, the average annual retiree supplemental pension increased to \$4,670. Asset values for school board plans increased 6.9%.

Summary

IV. Issues of Concern

This section discusses the Local Retirement Section's issues of concern and proposes review and corrective action pertaining to:

- establishing audit policy applicable to all public pension plans;
- retaining contribution stability;
- clarification of statutory provisions;
- improving plan funding;
- limiting required contributions for well-funded plans;
- access to State Board of Administration's investment resources; and
- supporting terminated plan until plan sponsor funds all nonforfeitable benefits

Summary

V. Data Collection

Included in the Data Collection section is information relating to defined benefit pension plans' finances, benefits, market value of assets, active employee and retired memberships, funding methods and assumptions, and funding ratios. Inventories of retirement plans of cities, special districts, and school boards are also included in this section, providing information on social security coverage (with exclusions noted).

II. WORKLOAD OF THE LOCAL RETIREMENT SECTION

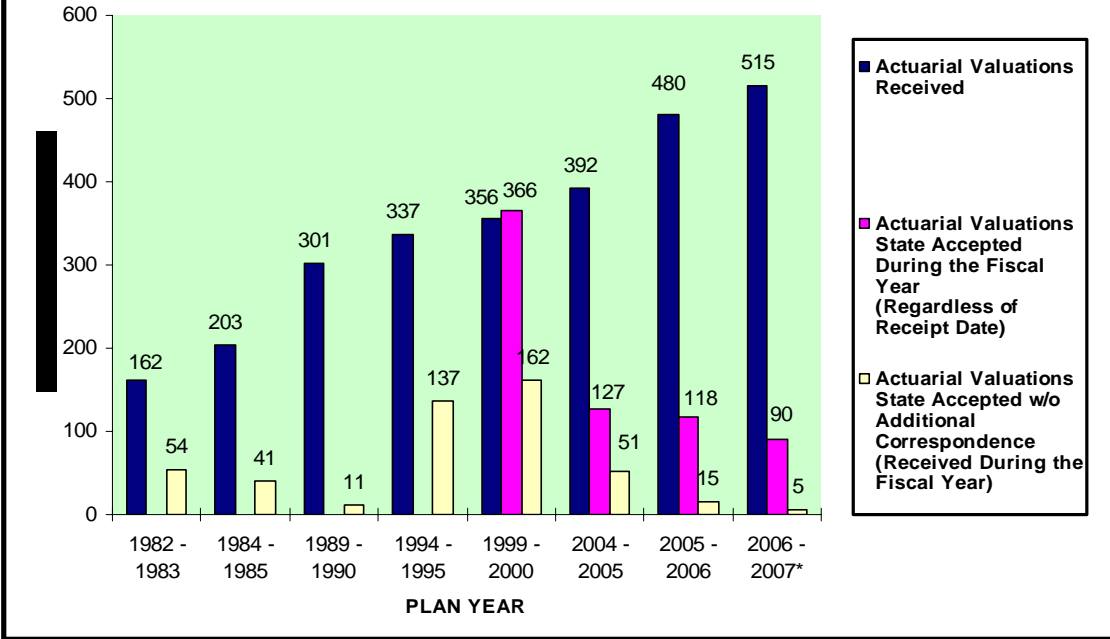

The workload of the Local Retirement Section is divided into the following six major categories:

- 1 - Reviewing actuarial valuations of defined benefit pension plans;
- 2 - Reviewing actuarial impact statements of defined benefit pension plans;
- 3 - Updating defined contribution plan files;
- 4 - Collecting and analyzing data on local retirement plans;
- 5 - Maintaining a computerized data information system on local retirement plans; and,
- 6 - Providing technical assistance.

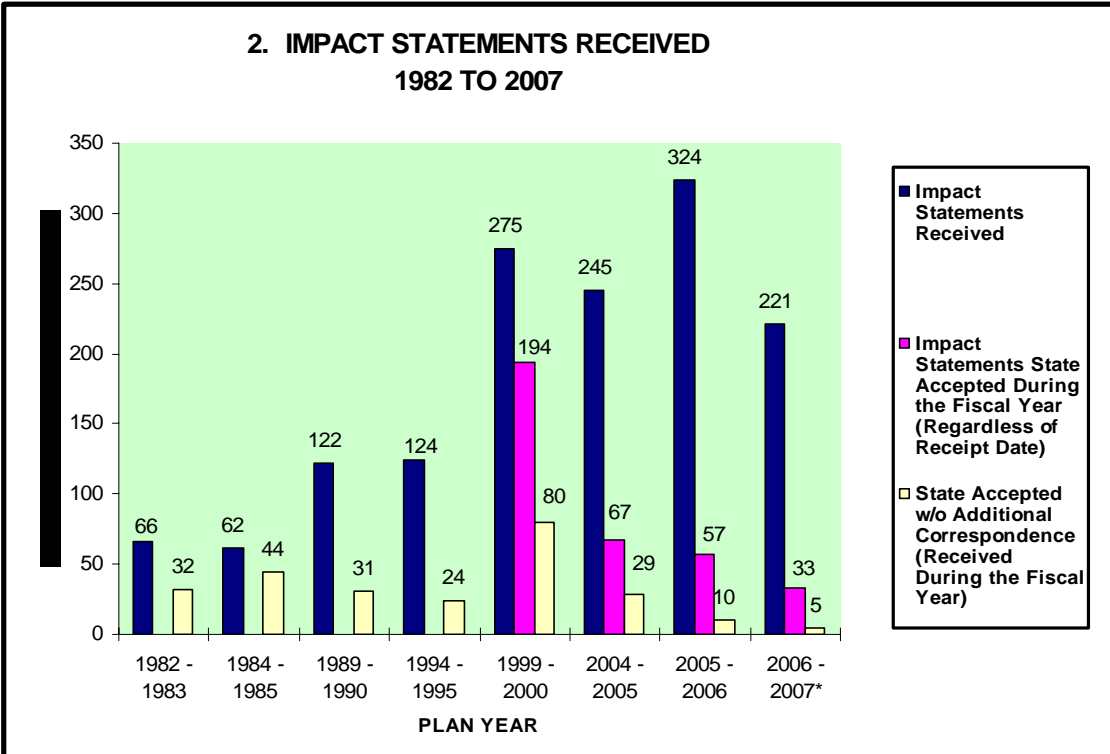

During the fiscal year, the Local Retirement Section received and reviewed **515** actuarial reports, **221** impact statements, and responded to **783** technical assistance requests.

The following graphs display annual workload data on the review of actuarial valuations, impact statements, and technical assistance requests received and responses given. The graphs compare workload data for selected periods ranging from July 1982 to September 2007:

1. ACTUARIAL VALUATIONS RECEIVED 1982 TO 2007

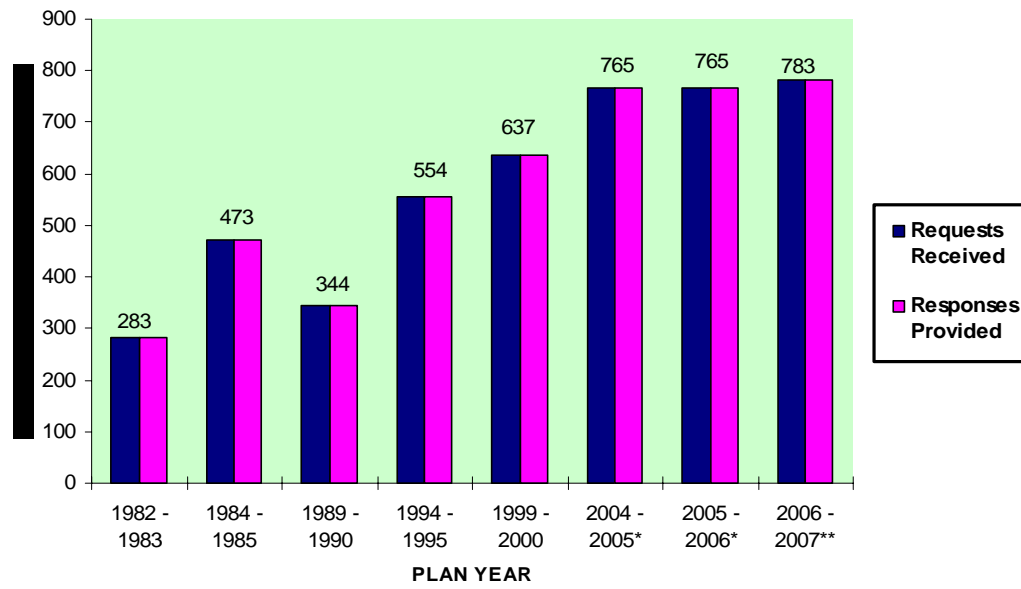

2. IMPACT STATEMENTS RECEIVED 1982 TO 2007

*Data provided is as of June 30, 2007.

**3. TECHNICAL ASSISTANCE
REQUESTS RECEIVED/RESPONSES PROVIDED
1982 TO 2007**

*Estimated.

**Data provided is as of September 30, 2007.

III. STATUS OF LOCAL RETIREMENT SYSTEMS

The following is information regarding the current status of local government retirement systems:

A. LOCAL RETIREMENT SYSTEMS' GROWTH

The charts below compare the changing financial resources controlled by local government (including special districts) retirement systems and school board early retirement programs, and the number of current and former employees affected by such systems.

1. Local Government Defined Benefit Plans

	<u>2006</u>	<u>2007</u>	<u>Increase</u>
Covered Employees Payroll	\$4,618,875,000	\$4,795,044,000	3.8%
Number of Active Employees	98,913	100,491	1.6%
Retirees, Beneficiaries, and Vested Terminees	56,317	58,293	3.5%
Assets (Market Value)	\$19,561,827,888	\$21,132,224,130	8.0%
Annual Contributions	\$1,033,642,000	\$1,101,042,000	6.5%

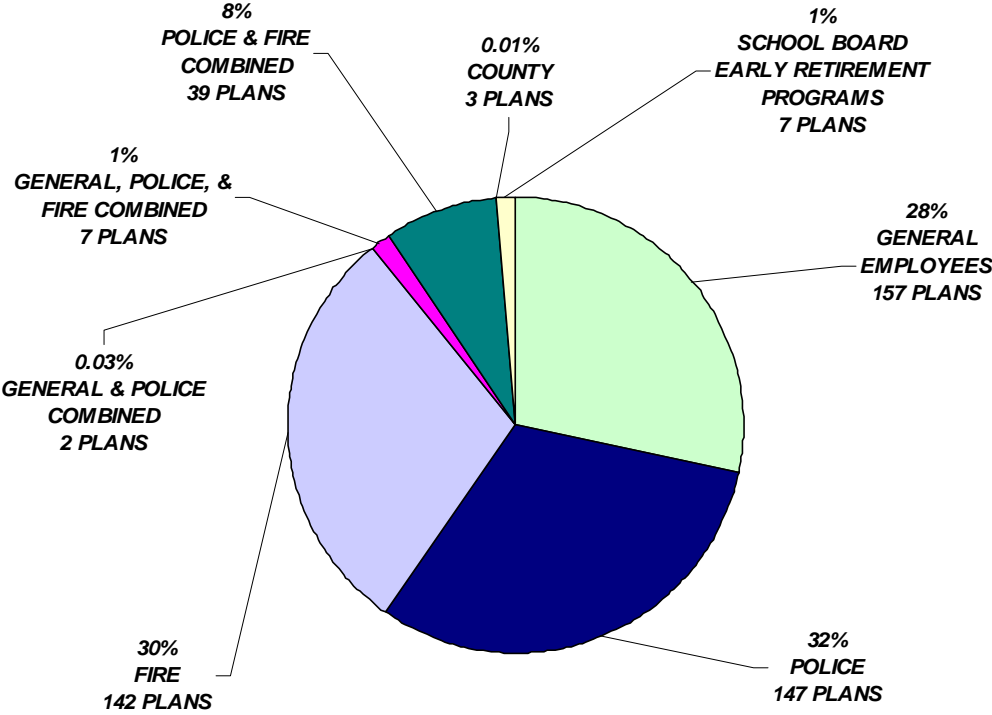

2. School Board Early Retirement Programs

	<u>2006</u>	<u>2007</u>	<u>Change</u>
Covered Employees Payroll	\$511,238,000	\$480,616,000	-6.0%
Number of Active Employees	17,465	15,616	-10.6%
Retirees, Beneficiaries, and Vested Terminees	1,397	1,454	4.1%
Assets (Market Value)	\$53,652,467	\$57,357,617	6.9%
Annual Contributions	\$7,231,000	\$6,001,000	-17.0%

B. LOCAL RETIREMENT SYSTEMS' FACTS AND TRENDS

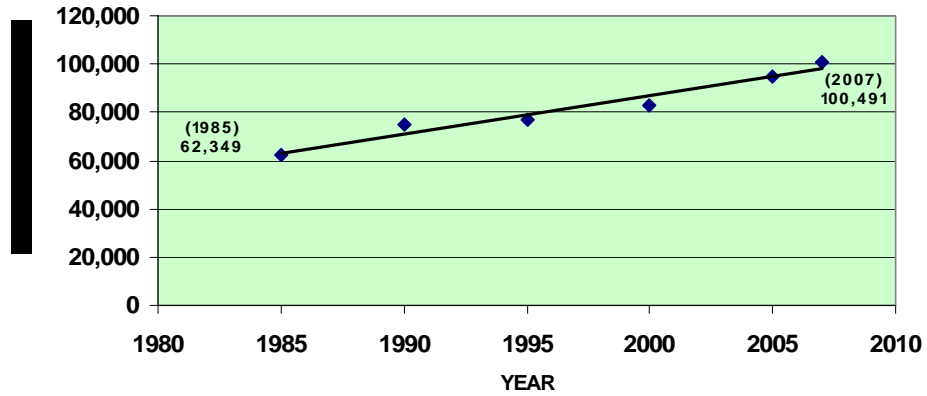

The Local Retirement Section collects and retains various information on the benefits provided by Florida's local government defined benefit plans. The information collected includes data such as the retirement benefit accrual rate, the formula for determining the normal retirement benefit, the number of years included in the average final compensation determination, the vesting requirement, the normal retirement requirement, whether automatic cost-of-living adjustments are offered, death and disability benefit descriptions, early retirement provisions, and other benefit-related information. From this data, the following is information regarding benefits and other statistical information (as of September 30, 2007):

1. LOCAL GOVERNMENT RETIREMENT PLAN(s) BY EMPLOYEE GROUP*

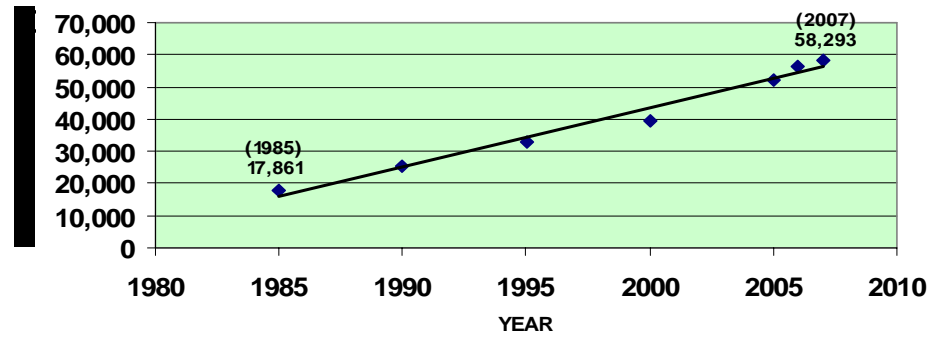

* A city may operate several plans: for general employees, police officers, firefighters, elected officials and utility employees; or there may be various combinations of these plans. There are 413 incorporated cities in Florida, with 330 of them operating at least one retirement system. The Local Retirement Section's most recent count of municipal defined benefit retirement systems (including special district, county, and school board early retirement plans) is 501.

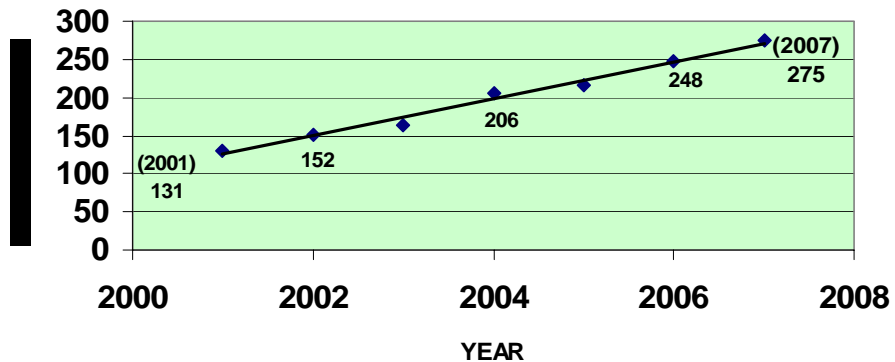

2. GROWTH OF LOCAL GOVERNMENT RETIREMENT SYSTEMS ACTIVE EMPLOYEES

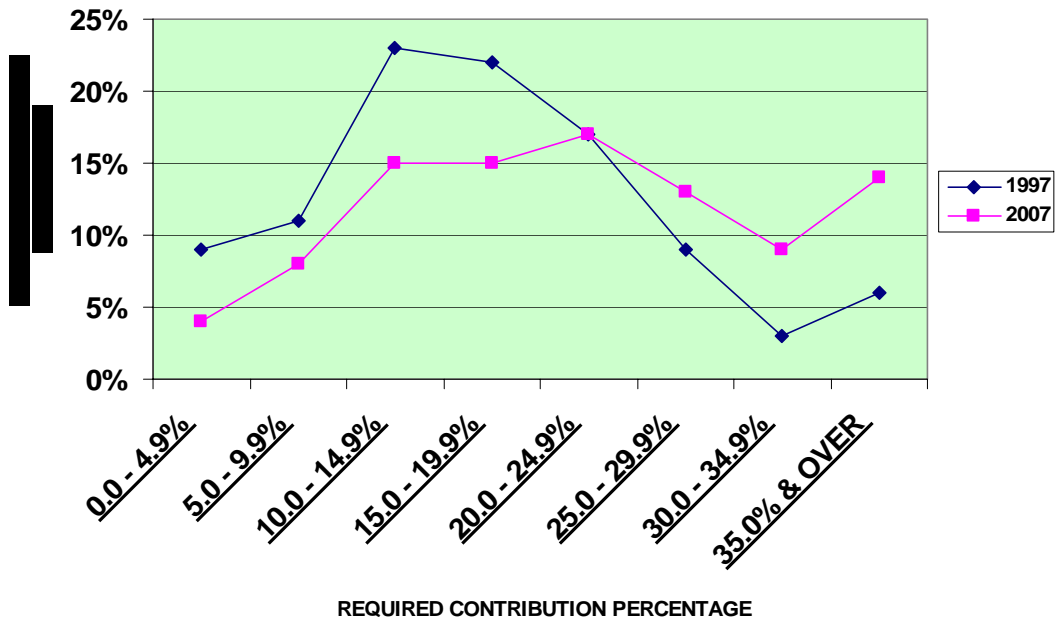

3. GROWTH OF RETIREES, BENEFICIARIES, and TERMINATED VESTED

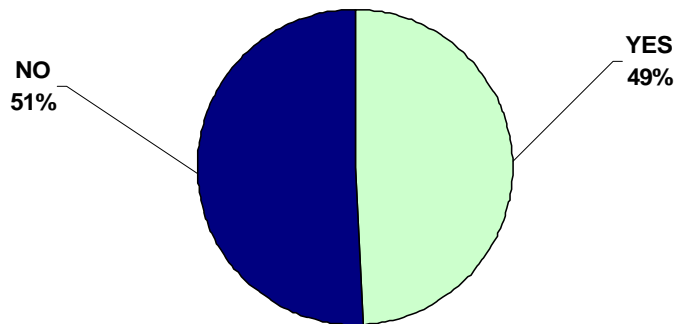

4. GROWTH OF LOCAL GOVERNMENT RETIREMENT PLANS OFFERING DEFERRED RETIREMENT OPTION PLANS (DROP)

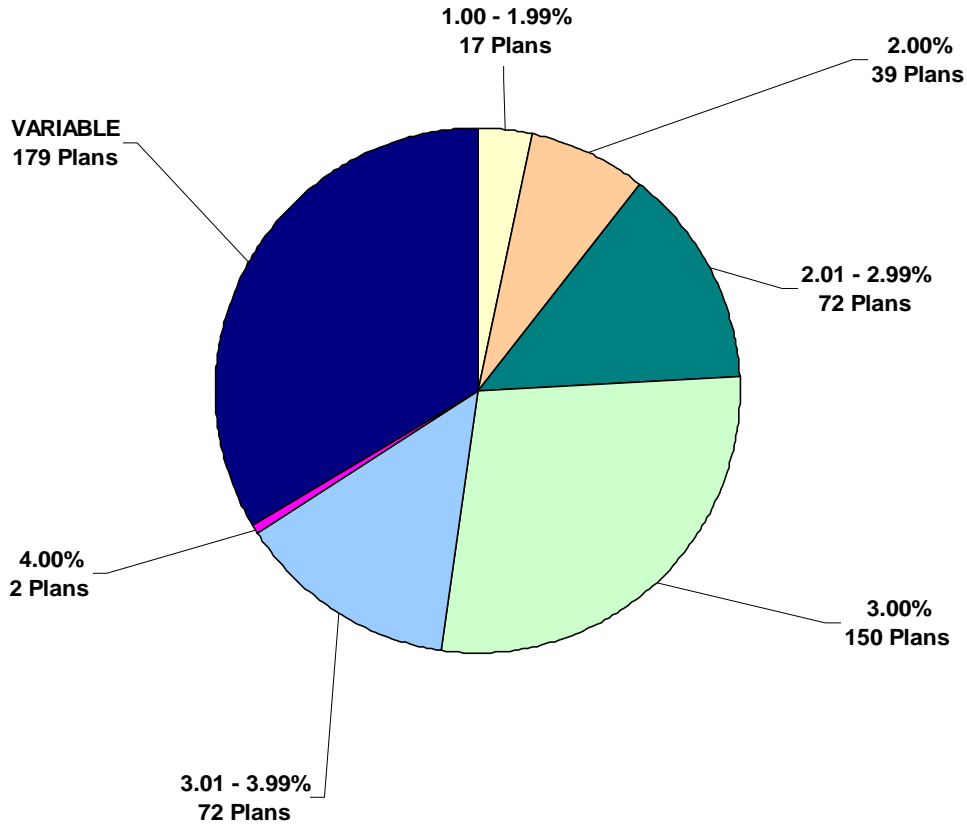

5. REQUIRED CONTRIBUTION RATE COMPARISON 1997 TO 2007

6. PERCENTAGE OF PLANS OFFERING COST OF LIVING ADJUSTMENTS (COLA)

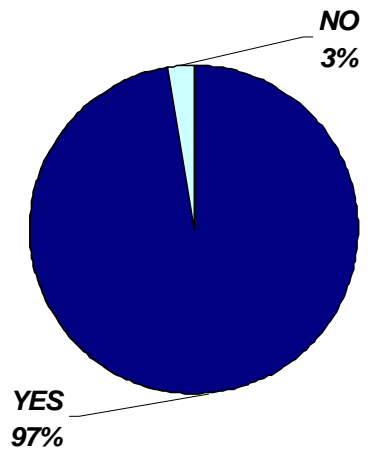

7. LOCAL GOVERNMENT RETIREMENT SYSTEMS BENEFIT ACCRUAL RATES*

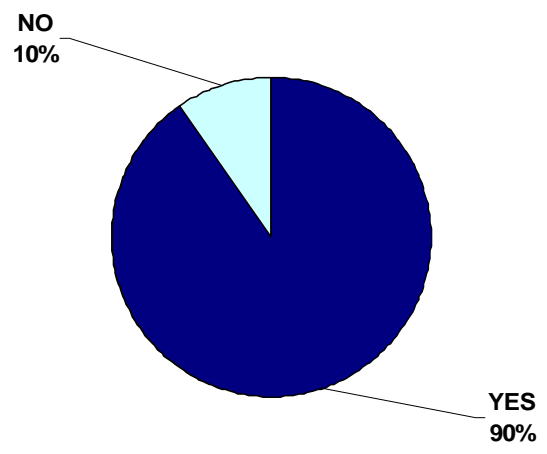

*The product of the retirement benefit rate or annual accrual rate, the number of years of service and the member's average final compensation determines the member's benefit. Current local retirement plan data shows that the annual retirement benefit rate for all local retirement plans ranges from 1% to 4%. The most common benefit accrual rates are 2%, 3% and also variable accrual rates. The variable retirement benefit rates vary with service credit dates, hire dates, employee contribution (if variable), or the particular benefit program (if options are presented).

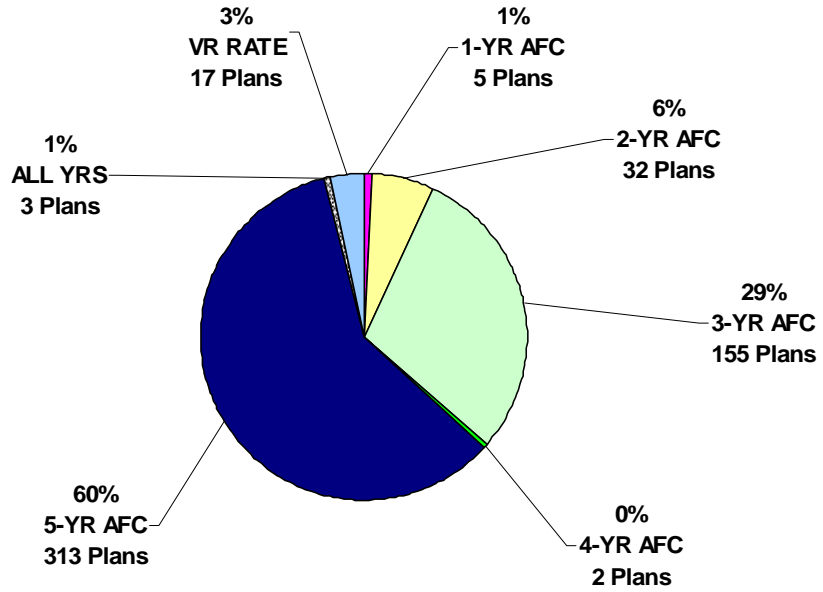

8. PERCENTAGE OF PLANS OFFERING DISABILITY BENEFITS

9. PERCENTAGE OF PLANS OFFERING EARLY RETIREMENT BENEFITS

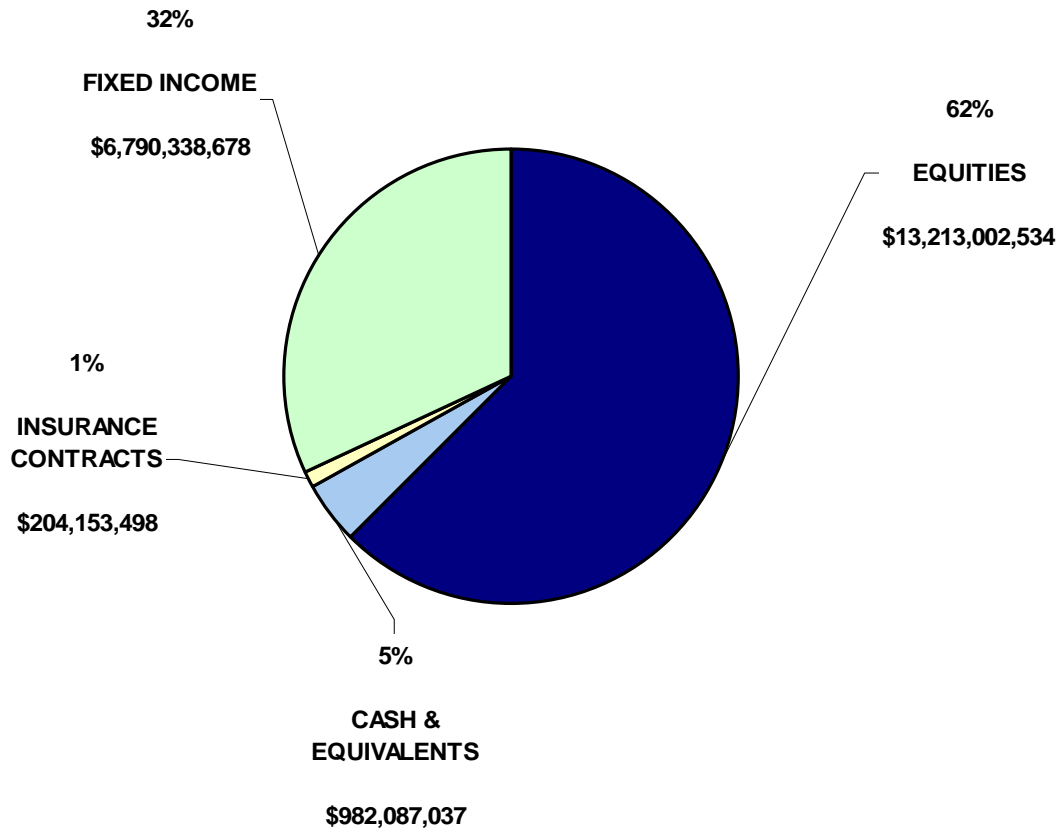

**10. MOST COMMON AVERAGE FINAL COMPENSATION (AFC) RATES
2007**

C. ASSETS and INVESTMENTS INFORMATION

The following display indicates asset values held by defined benefit pension trust funds including school boards as of September 30, 2007:

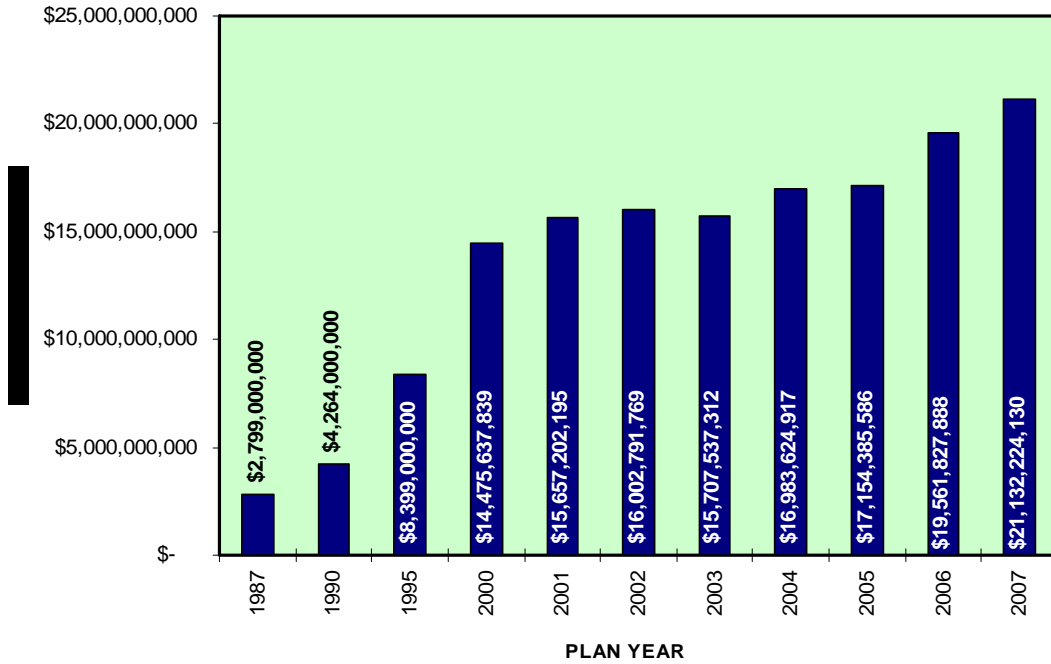

**1. FLORIDA LOCAL GOVERNMENT RETIREMENT SYSTEMS
ALLOCATION OF INVESTMENTS***

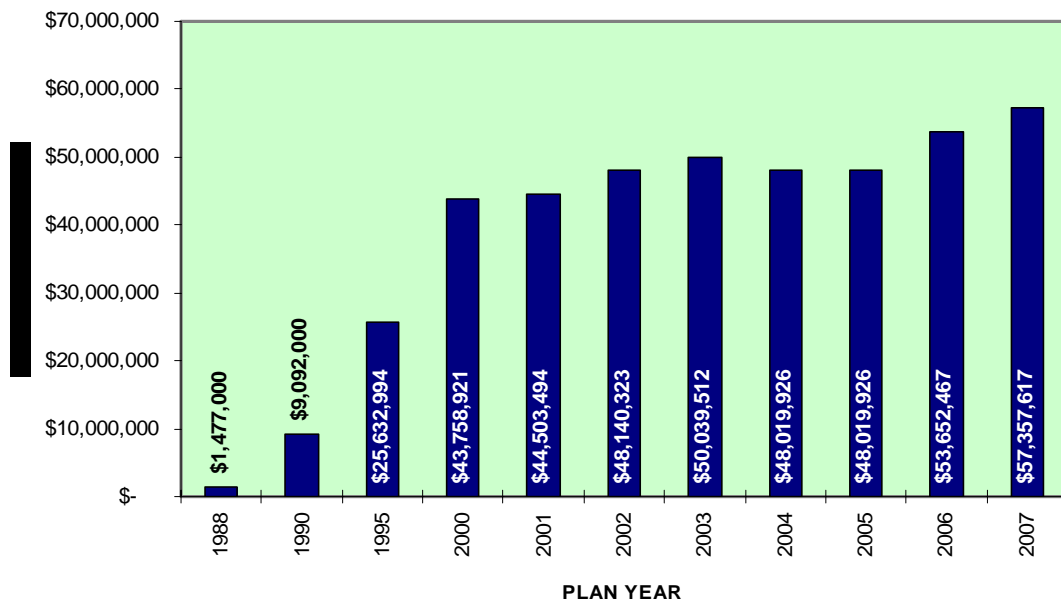

*Individual plan asset data may be found in Appendix C.

The following charts compare the growth of local government retirement systems and school board early retirement program assets for related periods ranging from 1987 to 2007:

2. GROWTH OF LOCAL GOVERNMENT RETIREMENT SYSTEMS ASSETS

3. GROWTH OF SCHOOL BOARD EARLY RETIREMENT PROGRAMS ASSETS

IV. ISSUES OF CONCERN

This section discusses local government retirement systems issues of concern and proposes review and corrective action pertaining to:

- A. establishing audit policy applicable to all public pension plans;
- B. retaining contribution stability;
- C. clarification of statutory provisions;
- D. improving plan funding;
- E. limiting required contributions for well-funded plans;
- F. access to State Board of Administration's investment resources; and
- G. supporting terminated plan until plan sponsor funds all nonforfeitable benefits.

A. AUDITS OF PUBLIC PENSION PLANS

Currently, with one exception, there are no uniform state audit requirements for local government pension plans. The one exception is the Chapters 175/185 firefighter and police officer pension plans which only require an annual audit by a certified public accountant if assets are \$250,000 or more or a certified statement of accounting if assets are less than \$250,000 (see subsections 175.261(1)(a)2 and (2)(a)2, F.S., and 185.221(1)(a)2 and (2)(a)2, F.S.). The audit report is limited in scope, with only the following items required to be disclosed:

- a detailed listing of the assets;
- methods used to value the assets;
- all items of income and disbursement during the year; and,
- a reconciliation with the assets at the beginning and end of the year.

The Local Retirement Section occasionally learns of plans not abiding by provisions of the applicable local ordinances and of plans where the fiduciaries appear not to have been knowledgeable of the plan administrator's and/or the plan's activities.

Chapters 175/185, F.S. audit requirement should, as a minimum, be required of all local government retirement plans. Additionally, other areas to be audited include:

- the agreement of the plan's investments with the plan's investment policies, criteria and applicable statutory standards pursuant to section 112.661, F.S.;
- the agreement of the plan's operations and administration with all applicable board policies, local ordinances / plan provisions, contract requirements and statutory directives regarding:
 1. eligibility of employees (those included or excluded from the plan's membership);
 2. accuracy and completeness of the membership data provided to others (for example, to an actuary for actuarial valuations, etc.);
 3. benefit determinations;
 4. operation expenses;
 5. compliance with section 112.61 and 112.65, F.S., and subsections 112.66(1), (2) & (7) F.S.; and,

6. compliance with applicable provisions of the Internal Revenue Code.

The Legislature should establish an audit policy for all public pension programs subject to Part VII of Chapter 112, F.S. Such policies should address the frequency of the audits, filing requirements of the audit reports, and provide for audit findings and recommendations. Further, the policy should require audits that would satisfy the “financial audit” and “performance audit” requirements/standards per subsections 11.45(1)(c) and (h), F.S., respectively. Additionally, fiduciaries should be required to periodically attend educational programs that are designed to familiarize them with their duties and obligations as pension board members.

The additional audit requirements recommended by the Local Retirement Section within the Bureau of Local Retirement Systems are offered as a measure of prudent oversight. Considering that the local government entity is ultimately responsible for the pension plan(s) it sponsors (see s.112.66 (8), F.S.), and also that the local government entity is already annually audited by either the Office of the Auditor General or by an independent CPA pursuant to s. 218.39, F.S., it is further recommended that the review of the audit report and other applicable subsequent review procedures continue to be a responsibility of the Auditor General.

In performing its statutory responsibility of administering Part VII of Chapter 112, F.S., the Local Retirement Section does not require or receive any local government pension plans' audited financial statements. The three-person staff of the Local Retirement Section does not include any accountants or auditors with the training and experience necessary to undertake a review of such financial and performance audits, as recommended here. Expanding the role to include additional responsibilities would necessitate receiving sufficient funding for the appropriate quantity and quality of staff as well as additional office space. This would substantially increase the core functions of the section.

The Municipal Police Officers' & Firefighters' Retirement Trust Funds' Office within the Bureau of Local Retirement Systems reviews Annual Reports of pension plans governed by Chapters 175 & 185, F.S. During its annual reviews of participating plans for compliance under these chapters, the office receives and reviews an Annual Report from each participating pension plan (about 330 plans) that compiles the financial and statistical activity for the plan

year. Annual Reports reviewed by the Municipal Police Officers' & Firefighters' Retirement Trust Funds' Office are prepared for the specific purpose of documenting the plan's compliance with Chapters 175 and 185 and are not prepared in accordance with any official accounting standards or pronouncements. These Annual Reports are unaudited.

Upon determination of compliance with Chapters 175 & 185, F.S., the Municipal Police Officers' & Firefighters' Retirement Trust Funds' Office makes an annual distribution of insurance premium tax moneys collected pursuant to ss. 175.101 and 185.08, F.S. Premium tax funding is to be used for the sole and exclusive benefit of the police officers and firefighters participating in these plans. To make sure these moneys are used properly, Chapters 175 & 185, F.S., require plans with greater than \$250,000 in assets have an independent audit performed by a CPA. These audits are submitted to the Municipal Police Officers' & Firefighters' Retirement Trust Funds' Office as supporting documentation for the Annual Report. The Municipal Police Officers' & Firefighters' Retirement Trust Funds' Office applies the following limited procedures to the audited financial statements:

- Ensures that the audit has a clean opinion letter.
- Scans the footnotes for new disclosures of interest.
- Ties the audited numbers to the Annual Report (often requires reconciliations to be prepared by the plan administrator as the two reports are frequently prepared on different bases).

Neither the format nor the contents of the 175/185 plan audits are reviewed for compliance with applicable accounting standards or pronouncements. The staff person responsible for this portion of the Annual Report review is not a CPA and not qualified to comment on the required accounting standards and pronouncements. The audit is a final product with no supporting work papers submitted. The audited financial statements are provided as support documentation to the Annual Report. The financial statements are used to complete the compliance review but they are not themselves subjected to a review.

This proposal would require that every local retirement pension plan in Florida have both financial statement and compliance audits performed. These audits would provide assurance to

all stakeholders that the plan's financial records are being properly maintained, its internal control procedures are functional and that the plan is administered in accordance with all applicable policies, rules, statutes, ordinances and/or resolutions that govern its provisions.

The proposed audit requirements contemplate a far more comprehensive review than simply financial statements. The performance or compliance audit would include, among many other things, procedures designed to confirm that all and only eligible employees are being included in the plan, that employee contribution deductions and benefit determinations are being calculated correctly and that the plan is in compliance with applicable IRS provisions. The state review of the audits should encompass these additional requirements.

Although certainly not a comprehensive list, following are some of the review procedures that could be utilized for these audits:

- Review the form and content of the audited financial statements for compliance with applicable accounting standards and pronouncements;
- Perform field work on a scope basis to substantiate the information contained in the reports;
- Review the audit procedures followed to ensure that the auditor has properly addressed the plan's risks and operating environment; or
- Other procedures, such as the ones already being performed by the Auditor General in the enforcement of part III of Chapter 218, "Local Financial Management and Reporting."

B. RETAINING CONTRIBUTION STABILITY

A provision in the Pension Protection Act of 2006 (PPA) (P.L.109-280) unfavorably impacts the budgeting and funding of all Florida local governmental defined benefit plans, unless Part VII of Chapter 112, F.S., is amended.

The actuarially-determined annual contributions fund the difference between the value of the promised benefits and the sum of the assets and future member contributions. To reduce the volatility in the annually required contributions resulting from the use of the fair market value of the assets, s.112.625(7), F.S., was amended (Chapter 83-37, Laws of Florida) with the option to use a smoothed asset value as permitted under the regulations prescribed by the Secretary of the Treasury pursuant to s.302(c)(2) of the Employee Retirement Income Security Act of 1974. The regulation permits the use of any smoothing method subject to certain restrictions including, specifically, that the method: is not designed to consistently provide a result above or below fair market value; limits to five years the values used for smoothing purposes; and restricts the resulting value to be in a “corridor” of not less than 80% and not greater than 120% of fair market value.

Effective for years beginning after December 31, 2007, the PPA limits the averaging period to two years, and the corridor limits to 90% and 110% of fair market value. (See Internal Revenue Code, s.430(g)(3).) Unless the applicable Florida law is amended, these changes will increase the volatility of the annually required contributions.

It is recommended that s.112.625 (7), Chapter 112, F.S., be amended as follows:

- (7) “Statement value” means the value of assets in accordance with s.302(c)(2) of the Employee Retirement Income Security Act of 1974 and as permitted under regulations prescribed by the Secretary of the Treasury, as amended by P.L. 100-203, as in effect on August 16, 2006. Assets for which a fair market value is not provided shall be excluded from the assets used in the determination of annual funding cost.**

C. CLARIFICATION OF STATUTORY PROVISIONS

The legislative intent stated in Section 112.61, F.S., requires that the pension liabilities attributable to the benefits promised public employees be fairly funded by the current and future taxpayers; and provides that, except as otherwise provided, it is the intent of the act to prohibit the use of any procedure, methodology or assumptions the effect of which is to transfer to future taxpayers any portion of the costs which may reasonably have been expected to be paid by the current taxpayers. It also provides that cumulative net, favorable actuarial experience may be used to fund additional benefits.

We have been advised by Division of Retirement legal staff that these provisions being expressed as the legislative intent do not have the force of substantive law as do the other provisions of Part VII of Chapter 112, F.S. We recommend that one of these two provisions be repeated in a new subsection 112.64(7), F.S., and the other be transferred from the current Section 112.61, to a new subsection 112.64(8), F.S.

It is recommended that Section 112.61, F.S., be amended, and subsections 112.64(7) and (8), F.S., be created as follows:

112.61 Legislative intent.—It is the intent of the Legislature in implementing the provisions of s. 14, Art. X of the State Constitution, relating to governmental retirement systems, that such retirement systems or plans be managed, administered, operated, and funded in such a manner as to maximize the protection of public employee retirement benefits. Inherent in this intent is the recognition that the pension liabilities attributable to the benefits promised public employees be fairly, orderly, and equitably funded by the current, as well as future, taxpayers. Accordingly, except as herein provided, it is the intent of this act to prohibit the use of any procedure, methodology, or assumptions the effect of which is to transfer to future taxpayers any portion of the cost which may reasonably have been expected to be paid by the current taxpayers. ~~Actuarial experience may be used to fund additional benefits, provided that the present value of such benefits does not exceed the net actuarial experience accumulated from all sources of gains and losses.~~ This act hereby establishes minimum standards for the operation and funding of public

employee retirement systems and plans.

112.64 Administration of funds; amortization of unfunded liability.—

(7) Except as otherwise provided, it is prohibited to use any procedure, methodology, or assumptions the effect of which is to transfer to future taxpayers any portion of the costs which may reasonably have been expected to be paid by the current taxpayers.

(8) Actuarial experience may be used to fund additional benefits, provided that the present value of such benefits does not exceed the net actuarial experience accumulated from all sources of gains and losses.

D. IMPROVING PLAN FUNDING

There are two parts to this recommendation: making “reasonable” assumptions effective; and establishing contribution requirements for plan years commencing subsequent to the actuarial valuation date.

PART I

This regards the need to amend the law to help make effective or to effectuate the use of reasonable assumptions, thus improving plan funding, and to satisfy legislative intent in s. 112.61, F.S.

“..it is the intent of this act to prohibit the use of any procedure, methodology, or assumptions the effect of which is to transfer to future taxpayers any portion of the costs which may reasonably have been expected to be paid by the current taxpayers.”

Additionally, Part VII of Chapter 112, F.S., “*ACTUARIAL SOUNDNESS OF RETIREMENT SYSTEMS*” requires, among other things, that reasonable assumptions be used in determining the annual funding requirements supporting a pension plan’s benefit promises. (See ss.112.63(1)(f), 112.63(4) and 112.64(5)(b)2, F.S.) Also, s.112.63(1)(e), F.S., requires each actuarial report to include:

“A comparative review illustrating the actual salary increases granted and the rate of investment return realized over the 3-year period preceding the actuarial report with the assumptions used in both the preceding and current actuarial reports.”

“Reasonable” is not defined and this has resulted in ongoing, time-consuming disputes, conflicts, and abuse. To help clarify the meaning of “reasonable” and to connect it to both the legislative intent and the foregoing three-year disclosure requirement, Chapter 60T-1.003(6), F.A.C., provides that:

“Actuarial assumptions selected for the actuarial valuation report should reflect the actuary’s best judgment of future events. They should take into account the actual experience of the covered group. The actuary should consider the impact of inflation on appropriate assumptions. The preferred approach in selecting actuarial assumptions is the use of explicit assumptions which more nearly represent the actuary’s best estimates of anticipated plan experience under each assumption. **Actuarial assumptions which consistently generate experience gains or losses are prima facie indications of unreasonable actuarial assumptions.**” (Emphasis added.)

Regardless of the legislative intent and these requirements, generally, changes are made only when the Local Retirement Section of the Division of Retirement questions the reasonableness of the applicable assumptions, and many times only with the caveat of determining future actuarial valuation reports to be not state accepted without appropriate assumption changes. This means many years may elapse between the time when what was reasonable at the time and the year when the contributions reflecting the revised assumptions become payable.

The persistence in the use of unreasonable assumptions is due to various factors including conflicts of interest, abuse, ignorance of or indifference to fiduciary responsibility, a reluctance to increase required contributions and by the consulting actuary to confront the ongoing use of the assumptions that are no longer reasonable.

A current example is the three pension plans sponsored by an existing Florida city (City) for its firefighters, police officers and general employees. The firefighters’ plan has had continuous unfavorable actuarial experience commencing with calendar year 2000 primarily due to unfavorable salary increase and investment return experience as compared to the applicable assumptions. The annual salary increase assumption was reduced to 5% from 6% effective with the actuarial valuation prepared as of January 1, 2001. The average annual actual increase was: 7.8% for the three years ended December 31, 2000; and has averaged almost 11% for the subsequent years ended September 30, 2005. The plan’s actuary informed the Local Retirement Section that the reduction to 5% from 6% was made at the direction of a member of the plan’s board. In a conference call with the city manager, finance director and plan board members, all vehemently disclaimed any knowledge of why the actuary reduced the assumption. In our

opinion, there was certainly no basis for the assumption reduction; additionally, the Local Retirement Section does not doubt the actuary's assertion. Additionally, investment experience was unfavorable. A different actuary prepared the valuations as of October 1, 2004 and 2005 and did not change the existing assumptions. In the actuary's response to the Local Retirement Section letter not state accepting the January 1, 2001 and subsequent actuarial reports due to the use of the unrealistic salary increase and investment return assumptions, and other issues, the current actuary stated:

“When determining costs and liabilities for the October 1, 2004 and October 1, 2005 actuarial valuations, the assumptions for investment return and the salary scale were deemed to be reasonable and appropriate. To the extent that these assumptions are no longer reasonable, or reflective of anticipated experience, the Board has approved an experience study for the purpose of considering alternative assumptions.”

In the general employees' plan, salary increases averaged 7.5% annually during the five-year period ended December 31, 2000; the assumption was 5%. The actuary (different from the firefighter plan's actuary) recommended a rate increase to 6%-6.5%, in addition to certain other changes. According to the minutes of the plan's June 22, 2001 committee meeting reviewing the proposed changes, the city manager recommended the assumption be increased “to 5.5% for the current year, and review the trend next year for the need to further increase compensation.” The assumption was increased to 5.5% effective with the January 1, 2001 actuarial valuation. Commencing with calendar year 2000 through September 30, 2005 annual salary increases averaged 8.4%. A different actuary prepared the January 1, 2002 and subsequent valuations, and none of the assumptions changed. The board attorney's December 21, 2006, response to the Local Retirement Section June 29, 2006 letter not state accepting the January 1, 2000 and subsequent actuarial valuation reports due to the use of the unrealistic salary and investment return assumptions, and other issues, is that while the salary increase and investment return assumptions may indicate a significant difference with actual experience when viewed over a short period, when viewed over a longer period such assumptions are within acceptable ranges.

Regarding the police officers' plan, the actuary who prepared the January 1, 2001 and earlier valuations also prepared the similarly-dated valuations for the general employees' plan; and the

actuary who prepared the January 1, 2002 and subsequent valuations also prepared the similarly-dated valuations for the general employees' plan. The actuary's response to the Local Retirement Section letter not state accepting the valuations, and also in the conference call, referred to certain actuarial standards of practice to justify the continued use of the assumptions. In the course of the conference call, the Local Retirement Section noted that such standards fail to satisfy the legislative intent in s. 112.61, F.S., and fail to recognize the three-year standard in s. 112.63(1)(e), F.S., and the requirement in Chapter 60T-1.003(6), F.A.C., regarding assumptions consistently generating gains or losses are prima facie indications of unreasonable assumptions. Again, the prior assumptions have continued in use. The actuary's letter (addressed to the Board's chair with a copy to the Local Retirement Section also included the following comment:

“As you are aware, we have discussed an experience study prior to preparing the October 1, 2006 Actuarial Valuation Report. The experience study will attempt to further align actuarial assumptions with Plan experience during the five year period ended September 30, 2006 and future expectations.”

The Local Retirement Section letter to each of the three City plans also noted the requirement in s.112.661(9), F.S., that a determination be made of the total expected rate of return on the investments for the current year, for each of the next several years and for the long-term thereafter; and that this determination is to be filed with the Local Retirement Section, as well as with the plan's sponsor and the consulting actuary. Also, that no such information has been received by the Local Retirement Section. The Local Retirement Section requested a response to three items: why the statutory requirement has not been satisfied; the required statements describing how the expected return rates were determined; and, an explanation of the difference between the actual and the expected return rates. Subsequently, the firefighter and police officer plans each provided undated identical responses in September (differing only in the plan name, the Board's meeting date, and the investment return rate) stating that “.. during a regular scheduled meeting .. determined that the total annual rate of return for the fund for the next year, the next several years and the long-term thereafter shall be [x]%. This determination was based on input and advice from the board's investment professionals and actuary and shall be net of investment related expenses.” The general plan attorney's December 21, 2006 response is that “it

was understood that approval of the annual valuation report (which contains the exact data required in 112.661(9) would meet this requirement .. ”.

For private sector plans, the Internal Revenue Code currently requires actuarial experience gains and losses to be amortized within five years and changes in liability variations due to actuarial assumption changes to be amortized within 10 years. Effective with plan years beginning in the year 2008, the Pension Protection Act of 2006 (PPA) (P.L. 109-280) requires all experience gains and losses, and liability changes attributable to actuarial assumption and methodology changes and benefit changes to be amortized within seven years, in addition to other very substantial changes (i.e., a specified actuarial cost-funding method, and interest and mortality assumptions) in determining minimum annual funding requirements.

The City’s three plans as well as Florida’s other public employee pension plans typically amortize over 30 years the actuarial gain and loss experience and changes in liabilities due to actuarial assumption and method changes, as permitted by s.112.64(4), F.S. We recommend a reduction in the 30-year amortization period. This will improve plan funding as it results in funding costs that will more closely reflect the use of more realistic and reasonable assumptions; and the greater the reduction in the amortization period, the greater the improvement to plan funding. Additionally, this would certainly limit the current abuse to the legislative intent in s. 112.61, F.S., where there has been a more than fair transference to future taxpayers of costs which may reasonably have been expected to be paid by the current taxpayers.

We recommend that actuarial gain and loss experience be amortized within seven years, and liability changes due to actuarial assumption and method changes be amortized within 15 years. The seven-year requirement will fund the benefit as if realistic and reasonable assumptions had been used, and certainly reduce the current abuse to the legislative intent. The 15-year requirement encourages changes to the assumptions and enables the additional liabilities to be amortized over the longer 15-year period resulting in lower annual funding costs.

It is recommended that s. 112.64(4), F.S., be amended as follows:

(4)(a) The net increase, if any, in unfunded liability under the plan arising from significant plan amendments, ~~changes in actuarial assumptions, changes in funding methods, or actuarial gains or losses~~ shall be amortized within 30 plan years.

(b) The net increase, if any, in unfunded liability under the plan arising from changes in actuarial assumptions and changes in funding methods shall be amortized within 15 plan years.

(c) The net increase, if any, in unfunded liability under the plan arising from actuarial gains or losses shall be amortized within 7 plan years.

PART II

Standardize the method for determining the required annual contributions for plan years beginning at later dates, again, improving plan funding, and satisfy the legislative intent in s.112.61, F.S.

The actuarial valuations of the local pension plans establish the plan sponsor's **fixed-dollar** required annual contribution for the plan year beginning on the valuation date, which is paid during such year or is deferred to be paid in the following year (with an interest adjustment). An increasing number of plans establish the **fixed-dollar** required amount for the plan year beginning one year after the actuarial valuation date, which is paid during such year. There are a few plans determining the **contribution rate** required for the plan year beginning one year after the valuation date that is to be applied to the emerging payrolls during the applicable plan year, similar to the contribution procedure for the Florida Retirement System. Our reviews of the plans establishing the required contribution for the plan year beginning one year after the valuation date indicate that such **fixed-dollar** amounts are materially less, relative to the amounts that would have been contributed using a **contribution rate** applied to the actual emerging payrolls; and that this is due to the use of an unreasonable assumption of expected payroll-increase for the one-year period from the valuation's determination date to the beginning of the applicable plan year, including payroll changes during the year. The resulting underpayments are actuarial losses, which are subsumed in the overall determination of actuarial experience, and amortized over future years.

Pursuant to s.121.71(1), F.S., the annual actuarial valuations of the Florida Retirement System establish a per cent rate that is applied to the emerging payrolls during the year beginning one year after the actuarial valuation date. A similar provision in Part VII of Chapter 112, F.S., will reduce actuarial losses improving plan funding, and satisfying the legislative intent.

It is recommended that subsection 112.63(5), F.S., be amended as follows:

112.63 Actuarial reports and statements of actuarial impact; review. –

(5) Payments made to the fund as required by this chapter shall be based on the normal and past service costs contained in the most recent actuarial valuation, subject to being state-accepted.

(a) The required dollar contributions for plan years beginning subsequent to the actuarial valuation date shall be the product of the required contribution rate and the payrolls during such plan years. The required contribution rate is the required dollar contribution amount for the plan year beginning on the valuation date, including any adjustments for expected benefit changes, divided by the compensation amount used to establish the required dollar contribution amount.

E. PERMISSIBLE LIMITING OF REQUIRED CONTRIBUTIONS

The funding of several local government pension plans exceeds reasonable funding standards. There is no provision in Part VII of Chapter 112, F.S., limiting required contributions for such plans. There is a provision in the Internal Revenue Code for limiting required contributions for well-funded plans in the private sector. The Local Retirement Section recommends a similar provision be added to Part VII of Chapter 112, F.S.

It is recommended that subsection 112.63(5), F.S., be amended to read as follows:

112.63 Actuarial reports and statements of actuarial impact; review. –

(5) Payments made to the fund as required by this chapter shall be based on the normal and past service costs contained in the most recent actuarial valuation, subject to being state-accepted.

(b) The required plan sponsor payments to the fund may be limited to the amount equal to 110% of the excess of the sum of the normal cost and the accrued liability over the value of the fund's present assets. For this purpose:

- 1. The normal cost and the accrued liability are determined under the individual entry-age actuarial-cost funding method if such items cannot be directly calculated under the funding method used for the plan. The entry age is the member's current age adjusted to reflect the number of years of credited prior service.**
- 2. The value of the fund's present assets is the lesser of the fair market value and the value determined according to the plan's asset valuation method.**
- 3. All determinations shall be as of the same date.**

**F. ACCESS TO THE STATE BOARD OF ADMINISTRATION'S
INVESTMENT RESOURCES**

This is a recommendation to give Florida's local government pension plans the option of having the State Board of Administration (SBA) manage the plans assets.

Florida's local government pension plans are funded by plan sponsor and member contributions, and investment income. In the current tax/revenue environment, all local governments are under increased pressure to fund their on-going financial commitments. It becomes more critical that the pension plan trustees better manage the plan's investments. There are two ways to improve investment income: seek higher investment returns, commensurate with risk, and/or reduce the investment-related expenses. There is a way to accomplish this.

The SBA has compiled an envious record of outstanding investment performance contributing to the Florida Retirement System (FRS) being rated as the best funded pension plan in the country. The FRS's market value rates of return, less expenses, have been 15.73%, 10.71%, 10.65% and 18.24% during the years ended June 30, 2004, 2005, 2006, and 2007, respectively. In our experience, very few local pension plans can match this record. Additionally, SBA's expenses are 17 basis points for the FRS whereas such expenses for the local plans are generally a multiple of SBA's rate.

It is recommended that s. 215.44(1). F.S., be amended as follows:

215.44 Board of Administration; powers and duties in relation to investment of trust funds.- -

(1) Except when otherwise specifically provided by the State Constitution and subject to any limitations of the trust agreement relating to a trust fund, the Board of Administration, hereinafter sometimes referred to as "board", composed of the Governor as chair, the Chief Financial Officer, and the Attorney General, shall invest all the funds in the System Trust Fund, as defined in s. 121.021(36), and all other funds specifically required by law to

be invested by the board pursuant to ss. 215.44-215.53 to the fullest extent that is consistent with the cash requirements, trust agreement, and investment objectives of the fund. Notwithstanding any other law to the contrary, the State Board of Administration may invest any funds of any state agency, ~~or any unit of local government~~ or any local government pension plan pursuant to the terms of a trust agreement with the head of the state agency, ~~or the governing body of the unit of local government~~ or the Board of Trustees' of the local government pension plan which trust agreement shall govern the investment of such funds, provided that the board shall approve the undertaking of such investment before execution of the trust agreement by the State Board of Administration. The funds and the earnings therefrom are exempt from the service charge imposed by s. 215.20. As used in this subsection, the term "state agency" has the same meaning as that provided in ¹s. 216.001, ~~and~~ the terms "governing body" and "unit of local government" have the same meaning as that provided in s. 218.403, the term "local government pension plan" has the same meaning as that provided in s.112.62, ss.112.625(5) and (9), and the term "Board of Trustees" has the same meaning as that provided in ss.112.625(8).

G. “NONFORFEITABLE” BENEFITS – A WORTHLESS PROMISE?

Upon a pension plan’s termination, all accrued benefits become nonforfeitable regardless of the length of service.

There is a conflict in and among certain statutory provisions in the event a pension plan terminates and assets are not sufficient to provide for the benefits accrued at termination date. Sections 175.361 and 185.37, F.S., identically provide, in pertinent part: “[T]he rights of all employees to benefits accrued to the date of such termination and the amounts credited to the employees’ accounts are nonforfeitable.” Such sections also identically provide the procedure for an apportionment and distribution of the funds, including the procedure when the funds are insufficient to provide for all the nonforfeitable benefits. In accordance with the procedure, after provision for expenses, the assets are first used to provide for the retired members, the beneficiaries of deceased retired members and those members eligible for normal retirement but not yet retired. If the assets are not sufficient to provide for this group, the values of their benefits are proportionally reduced so that the total is equal to the asset value. If the assets exceed the value of the benefits, the remaining assets are used for the next lower group of plan members, and so on for each of the remaining groups until there are no remaining assets. Thus, for those retired members, their beneficiaries, members eligible for but not yet retired, vested-terminated and/or active members for whom the assets are insufficient to provide any or part of their “nonforfeitable” benefits, the “nonforfeitable” provision is worthless.

This appears to conflict with the state constitution and other provisions of state law. Article I, Section 10 of the state constitution provides that “No ... law impairing the obligation of contract shall be passed.” It is our understanding that this provision has been interpreted by the courts to

protect vested pension benefits; additionally, that it has also been interpreted that the impairment of contract protections permits only prospective adjustments to the pension benefits. An amendment to the state constitution adopted in 1976 (Article X, Section 14) specifically provides that benefits be funded on an actuarially sound basis. Subsequently, Part VII of Chapter 112, “*ACTUARIAL SOUNDNESS OF RETIREMENT SYSTEMS*” was added to the Florida Statutes. Section 112.61, legislative intent, provides, in part: “It is the intent of the Legislature in implementing the provisions of s. 14, Art. X of the State Constitution, relating to governmental retirement systems, that such retirement systems or plans be managed, administered, operated, and funded in such a manner as to maximize the protection of public employee retiree benefits.” Further, s. 112.62, F.S., provides in part: “The provisions of this part supplement and, to the extent there are conflicts, prevail over the provisions of existing laws and local ordinances relating to such retirement systems or plans.” Further, ss.112.66(8), provides in part: “Nothing herein shall absolve the governmental unit from being ultimately responsible for the payment of its contribution to a retirement system or plan nor remove from the governmental unit the ultimate authority to adjust benefits consistent with the Florida Statutes and the retirement system or plan” Finally, Part V of Chapter 218, *LOCAL GOVERNMENTAL ENTITY AND DISTRICT SCHOOL BOARD FINANCIAL EMERGENCIES*, in s.218.503(1)(d)2, F.S., determines there is a financial emergency if there is a failure for one pay period to pay, due to lack of funds, retirement benefits owed to former employees.

The Local Retirement Section is not aware of any Florida Statute that addresses this issue except for the referenced ss.175.361 and 185.37, F.S.

In our opinion, plan sponsors should be required to continue financial support of terminated plan(s) until all nonforfeitable benefits are funded. Accordingly, we recommend ss.175.361 and

185.37, F.S., each be amended as follows (note: these sections are identical differing only in the use of the terms “special fire control district” and “firefighter” in s. 175.361, and “police officer” in s. 185.37):

175.361 Termination of plan and distribution of fund.--For any municipality, special fire control district, chapter plan, local law municipality, local law special fire control district, or local law plan under this chapter, the plan may be terminated by the municipality or special fire control district. Upon termination of the plan by the municipality or special fire control district for any reason or because of a transfer, merger, or consolidation of governmental units, services, or functions as provided in chapter 121, or upon written notice by the municipality or special fire control district to the board of trustees that contributions under the plan are being permanently discontinued, the rights of all employees to benefits accrued to the date of such termination and the amounts credited to the employees' accounts are nonforfeitable. The fund shall be ~~apportioned and~~ distributed in accordance with the following procedures:

- (1) The board of trustees shall determine the date of distribution and the asset value required to fund all the nonforfeitable benefits to be distributed, after taking into account the expenses of such distribution. The board shall inform the municipality or special fire control district if additional assets are required, in which event such municipality or special fire control district shall continue to financially support the plan until all nonforfeitable benefits have been funded.**
- (2) The board of trustees shall determine the method of distribution of the asset value, that is, whether distribution shall be by payment in cash, by the maintenance of**

another or substituted trust fund, by the purchase of insured annuities, or otherwise, for each firefighter entitled to benefits under the plan as specified in subsection (3).

(3) The board of trustees shall ~~apportion~~ distribute the asset value as of the date of termination in the manner set forth in this subsection, on the basis that the amount required to provide any given retirement income shall mean the actuarially computed single-sum value of such retirement income, except that if the method of distribution determined under subsection (2) involves the purchase of an insured annuity, the amount required to provide the given retirement income shall mean the single premium payable for such annuity. The actuarial single sum value shall not be less than the employee's accumulated contributions to the plan, with interest if provided by the plan, less the value of any plan benefits previously paid to the employee.

~~(a) Apportionment shall first be made in respect of each retired firefighter receiving a retirement income hereunder on such date, each person receiving a retirement income on such date on account of a retired (but since deceased) firefighter, and each firefighter who has, by such date, become eligible for normal retirement but has not yet retired, in the amount required to provide such retirement income, provided that, if such asset value is less than the aggregate of such amounts, such amounts shall be proportionately reduced so that the aggregate of such reduced amounts will be equal to such asset value.~~

~~(b) If there is any asset value remaining after the apportionment under paragraph (a), apportionment shall next be made in respect of each firefighter in the service of the municipality or special fire control district on such date who has completed~~

~~at least 10 years of credited service, in the firefighters' pension trust fund for at least 10 years, and who is not entitled to an apportionment under paragraph (a), in the amount required to provide the actuarial equivalent of the accrued normal retirement income, based on the firefighter's credited service and earnings to such date, and each former participant then entitled to a benefit under the provisions of s. 175.211 who has not by such date reached his or her normal retirement date, in the amount required to provide the actuarial equivalent of the accrued normal retirement income to which he or she is entitled under s. 175.211; provided that, if such remaining asset value is less than the aggregate of the amounts apportioned hereunder, such latter amounts shall be proportionately reduced so that the aggregate of such reduced amounts will be equal to such remaining asset value.~~

~~(c) If there is any asset value after the apportionments under paragraphs (a) and (b), apportionment shall lastly be made in respect of each firefighter in the service of the municipality or special fire control district on such date who is not entitled to an apportionment under paragraphs (a) and (b) in the amount equal to the firefighter's total contributions to the plan to date of termination; provided that, if such remaining asset value is less than the aggregate of the amounts apportioned hereunder, such latter amounts shall be proportionately reduced so that the aggregate of such reduced amounts will be equal to such remaining asset value.~~

~~(d 4) In the event that there is asset value remaining after the full apportionment distribution specified in paragraphs (a), (b), and (c) subsection (3) and the expense of such distribution, such-excess shall be returned to the municipality or special fire control district, less return to the state of the state's contributions, provided that, if the excess is less than the total contributions made by the municipality or special fire~~

control district and the state to date of termination of the plan, such excess shall be divided proportionately to the total contributions made by the municipality or special fire control district and the state.

(4 5) The board of trustees shall distribute, in accordance with the manner of distribution determined under subsection (2), the amounts ~~apportioned~~ determined under subsection (3).

If, after a period of 24 months after the date on which the plan terminated or the date on which the board received written notice that the contributions thereunder were being permanently discontinued, the municipality or special fire control district or the board of trustees of the firefighters' pension trust fund affected has not complied with all the provisions in this section, the ~~division~~ Department of Management Services shall effect the termination of the fund in accordance with this section.

V. DATA COLLECTION

Appendix A - Financial Contribution Data (Type B)*

Appendix B - Benefit Data (Types C and G)*

Appendix C - Market Value of Assets (Type H)*

Appendix D - Funding Progress FASB – 35 (Type H2)*

Appendix E - Actuarial Data (Type E)*

Appendix F - Population Data (Type F)*

Appendix G – Funding Progress GASB – 25 (Type E2)*

Appendix H - Inventory of School Board Early Retirement Programs

Appendix I - Inventory of Municipalities - Retirement Systems Inventory

Appendix J - Inventory of Special Districts - Retirement Systems Inventory

Each printout is preceded by a Heading and Abbreviation Key to assist the reader.

- * Municipal sponsors are in alphabetical order followed by special district sponsors. Also, a number of plans will indicate a valuation date over three years old. These plans either have submitted new reports, which are being reviewed or have been contacted and are preparing a current valuation.

APPENDIX A

FINANCIAL/CONTRIBUTION DATA
(Form Type B)

This display captures key elements of each valuation, such as assets, unfunded liabilities, active member payroll, annual benefits payable to inactives, annual required contributions, and contribution rates. All figures are as of the valuation date shown. Since some valuations are only prepared biennially or triennially, the data contained herein is an approximation of current conditions rather than an exact accounting.

<u>HEADINGS</u>	<u>INFORMATION PROVIDED</u>
CITY OR DISTRICT	Plan Sponsor (Name of City, Special District, or School Board)
TYP. SYS.	Type of Retirement System: <ul style="list-style-type: none"> • G = General Employees <u>only</u> • P = Police Officers <u>only</u> • F = Firefighters <u>only</u> • PF = Police Officers and Firefighters <u>only</u> • GPF = General Employees, Police Officers and Firefighters • GP = General Employees and Police Officers <u>only</u> • GF = General Employees and Firefighters <u>only</u> • C = Correctional Officers <u>only</u>
VAL. DATE	The year/month/day on which the financial data in the actuarial valuation is based.
C.V.	An "X" appears beside the most <u>C</u> urrent <u>V</u> aluation.
TOTAL ASSETS	The market value of assets.
UAAL	Amount of the <u>U</u> nfunded <u>A</u> ctuarial <u>A</u> ccrued <u>L</u> iability (UAAL)
VAL. PAYROLL	Total payroll of participating employees included in the valuation.
RETIRED PAYROLL	Reflects annual benefits payable to retirees, beneficiaries, and vested terminees. NOTE: Those retirement systems which provide retirees with a lump-sum payment or a purchased annuity will <u>not</u> reflect retired payroll amount.
NORMAL COST	The amount of the total annual contribution representing the financial obligation associated with service rendered by plan participants in the "current year".
% of PAYR	The percent that the normal cost is of the participating employee payroll.
UAAL PAYMENT	The amount of the total annual contribution representing the current year payment on the financial obligation associated with service rendered in past years which has not yet been funded.
% of PAYR	The percent that the UAAL payment is of the participating employee payroll.
REQUIRED CONTRIBS	Total annual contribution required for the "current year". The sum of Normal Cost and UAAL payments.
% of PAYR	The percent that the annual contribution is of the participating employee payroll.
CONTRIBUTION	Reflects the percent of participating employee payroll which is paid by:
MEMB	Employees
CITY	Plan sponsor
OTHER	Other source (typically Chapter 175 or 185 funds)
	NOTE: Percent of member, city, and other must at least equal total percent of required contributions, though it may be a greater amount.
PLAN YEAR BEGINNING	Plan year for which recommended contributions apply, using beginning date.
PAYMENT BEGINNING	Beginning date of when contributions are actually paid for the plan year. May be fiscal year or budget year.

APPENDIX B

BENEFIT DATA
(Form Type C)

The Benefit Data listing is in two parts because two "form types" are required by the software system to capture all the applicable information.

Each defined benefit plan will be listed with information on "Benefit Data - Form Type C" first. This first print-out includes such information as annual benefit accrual rate, number of years used in computing AFC, normal retirement age, normal form of benefit payment, whether there is a vesting provision, and whether there is an automatic COLA in the plan. Each defined benefit plan is then again presented under a heading "Added Benefit Data - Form Type G", which includes information on disability, death, and early retirement benefit provisions.

<u>HEADINGS</u>	<u>INFORMATION PROVIDED</u>
CITY OR DISTRICT	Plan Sponsor (Name of City, Special District, or School Board)
TYP. SYS.	Type of Retirement System: <ul style="list-style-type: none">• G = General Employees <u>only</u>• P = Police Officers <u>only</u>• F = Firefighters <u>only</u>• PF = Police Officers and Firefighters <u>only</u>• GPF = General Employees, Police Officers and Firefighters• GP = General Employees and Police Officers <u>only</u>• GF = General Employees and Firefighters <u>only</u>• C = Correctional Officers <u>only</u>
RETIREMENT BENEFIT RATE %	Percent of Average Final Compensation (AFC) which is earned with each year of service.
DESCRIPTION	The usual formula for determining what a final benefit at retirement would be is to multiply (1), (2), and (3) where: (1) = percent of AFC earned each year (2) = AFC (3) = service credit (years of service)
AFC	The number of years used in determining the AFC, e.g., "05" could be either average of best 5 years service or last 5 years of service. 99 = Career average AL = All years of service used VR = Varies - may vary with hire date
YR	Normal retirement age
NORMAL RETIREMENT AGE DESCRIPTION	Describe requirement for full pension, e.g., attained age of 65 years with 10 years of service (65 w/10 SC).
N	Number of type of benefit - option 1, 2, 3, 4, or 5 (see below)
NORMAL FORM OF BENEFIT DESCRIPTION	There are five types of benefit payment forms: <ol style="list-style-type: none">1. Life Annuity2. Life Annuity w/10 years certain3. Joint and survivor4. Single Sum5. Other
V S	Vesting Y - Yes N - No P - Partial A "yes" response indicates that prior to completion of normal retirement age and credit, members have rights to benefit computed on years of service. "No" indicates members must complete requirements (i.e., 30 years of service) or lose all rights to any benefits. "Partial" indicates a vesting schedule (i.e., 20% of benefit with 3 years of service, 40% with 6 years of service, etc.).
S S	Do members have Social Security coverage? Y - Yes N - No
COL	Indicates whether the plan has an automatic cost-of-living provision for retirees. Yes (Y) = Yes A = Available N/A = Not Available

ADDED BENEFIT DATA
(Form Type G)

<u>HEADINGS</u>	<u>INFORMATION PROVIDED</u>
CITY OR DISTRICT	Plan Sponsor (Name of City, Special District, or School Board)
TYP. SYS.	Type of Retirement System: <ul style="list-style-type: none">• G = General Employees <u>only</u>• P = Police Officers <u>only</u>• F = Firefighters <u>only</u>• PF = Police Officers and Firefighters <u>only</u>• GPF = General Employees, Police Officers and Firefighters• GP = General Employees and Police Officers <u>only</u>• GF = General Employees and Firefighters <u>only</u>• C = Correctional Officers <u>only</u>
Y	Does plan provide disability benefits? Y = yes; N = no
DISABILITY BENEFITS DESCRIPTION	The description of disability benefits usually falls into to classes: ILOD: In-Line-of-Duty disability REG: Regular or <u>not</u> ILOD The class of disability (ILOD or Reg) is followed by a formula (e.g., 2% x AFC x SC - reduced) where "REDUCED" is an actuarial factor by which the benefit is reduced.
Y	Does plan provide death benefits? Y = yes; N = no
DEATH BENEFITS DESCRIPTION	Plan provisions if member dies prior to normal retirement.
Y	Does plan contain an early retirement provision? Y = yes; N = no
EARLY RETIREMENT BENEFITS DESCRIPTION	Provides a description of minimum requirements for early retirement (e.g., 55 w/10sc-reduced) translates to the employee must be age 55 with at least 10 years of service followed by a description of how the normal retirement benefit is reduced for early retirement.

APPENDIX C

MARKET VALUE OF ASSETS
(Form Type H)

The market value of assets listing identifies the asset mix held by each local retirement plan.

HEADINGS

INFORMATION PROVIDED

CITY OR DISTRICT

Plan Sponsor (Name of City, Special District, or School Board)

TYP. SYS.

Type of Retirement System:

- G = General Employees only
- P = Police Officers only
- F = Firefighters only
- PF = Police Officers and Firefighters only
- GPF = General Employees, Police Officers and Firefighters
- GP = General Employees and Police Officers only
- GF = General Employees and Firefighters only
- C = Correctional Officers only

VAL. DATE

The year/month/day on which the financial data in the actuarial valuation is based.

ASSETS

The different asset investment categories are as follows:

EQUITIES

Equities includes stock, real estate, and stock mutual funds.

CASH AND EQUIV

Cash and equivalents includes cash on hand, accrued interest, certificates of deposit, money market accounts, T-bills, commercial paper, repurchase agreements, and receivables (less payables).

INSURANCE

Insurance contracts includes investments in insurance company contracts.

FIXED INC

Fixed income includes bonds, mortgages, corporate debts, securities and agency debts, government bills (T-bills), notes, fixed income mutual funds and convertible securities.

OTHER

Other. The CV entered in this field indicates Current Valuation.

TOTAL ASSETS

Reflects the total market value of assets.

APPENDIX D

FUNDING PROGRESS (FASB-35 BASIS)
(Form Type H2)

HEADINGS

INFORMATION PROVIDED

CITY OR DISTRICT

Plan Sponsor (Name of City, Special District, or School Board)

TYP. SYS.

Type of Retirement System:

- G = General Employees only
- P = Police Officers only
- F = Firefighters only
- PF = Police Officers and Firefighters only
- GPF = General Employees, Police Officers and Firefighters
- GP = General Employees and Police Officers only
- GF = General Employees and Firefighters only
- C = Correctional Officers only

VAL. DATE

The year/month/day on which the financial data in the actuarial valuation is based.

C.V.

An "X" appears beside the most Current Valuation.

TOTAL ASSETS

The actuarial value of assets (not necessarily the market value).

LIABILITY FOR

RET. & BEN.

The actuarially determined present value of benefit liability for retirees, beneficiaries, and those employees who are terminated vested. (Referred to below as "inactives").

EE CONTRIB.

The amount of active employee contributions, including if applicable, accumulated interest. Some plans do not refund all or may refund only a portion of employee contributions.

ACTIVES

The balance of the actuarially determined present value of accrued benefits of current employees.

RATIO OF ASSETS/
LIABILITIES

INACT

Total assets divided by liability for the inactives. If assets are equal to or greater than the liability, "100%" (funded) is shown under heading INACT.

CONTR

Total assets less the liability for the inactives divided by the amount of employee contributions. If assets less "inact" liability are equal to or greater than the liability for employee contributions, "100%" (funded) is shown under CONTR heading. The formula for determining the percent is:

$$\frac{\text{ASSETS} - \text{INACT}}{\text{CONTR}}$$

VESTD

In pre-1984 reports the liability for active employee's vested benefits was determined separately. The percent reported here is determined by subtracting from total assets the liability for inactives and employee contributions then dividing by the balance of the liability for active employee's vested benefits. Formula:

$$\frac{\text{ASSETS} - \text{INACT} - \text{CONTR}}{\text{VESTD}}$$

NVSTD

Also for pre-1984 reports, a separate figure for the percent funded of active employee benefits accrued but not yet vested. Formula:

$$\frac{\text{ASSETS} - \text{INACT} - \text{CONTR} - \text{VESTD}}{\text{NVSTD}}$$

ACTVS

In post-1984 reports, the percent funded of all accumulated active employee benefit liabilities, both vested and non-vested, is measured. Formula:

$$\frac{\text{ASSETS} - \text{INACT} - \text{CONTR}}{\text{ACTVS}}$$

COMMENTS

Plan or valuation changes. Indicates whether there was a benefit or assumption change during the year. The comment field indicates that the data provided is on the before or after-change basis.

APPENDIX E

ACTUARIAL DATA
(Form Type E)

This display identifies the actuarial cost funding method, certain assumptions, and experience data for each local retirement plan for the plan year ended on the valuation date shown. For those actuarial reports prepared biennially or triennially, the salary increase experience is the annualized rate for the intervening period.

HEADINGS

INFORMATION PROVIDED

CITY OR DISTRICT

Plan Sponsor (Name of City, Special District, or School Board)

TYP. SYS.

Type of Retirement System:

- G = General Employees only
- P = Police Officers only
- F = Firefighters only
- PF = Police Officers and Firefighters only
- GPF = General Employees, Police Officers and Firefighters
- GP = General Employees and Police Officers only
- GF = General Employees and Firefighters only
- C = Correctional Officers only

VAL. DATE

The year/month/day on which the financial data in the actuarial valuation is based.

FUND METHOD

The actuarial cost funding method may be one of the following:

- EAN = Entry Age Normal
- FIL = Frozen Initial Liability
- AGG = Aggregate
- UC = Unit Credit
- AAN = Attained Age Normal
- ILP = Individual Level Premium

OLD PLN

Does the plan include a "prior" or "closed" plan that employees have opted to remain in which may include different benefit provisions than the plan valued?

PLNYR ENDED

Date plan year ended of the valuation date shown.

SALRY ASSMP

Annual salary increase assumption percent.

SALRY ACTUL

Actual salary increase percent.

INT ASSMP

Annual interest assumption percent.

INT ACTUL

Actual interest return percent.

PR GR ASSMP

Annual payroll growth assumption percent.

RET AGE ASSUMPTION

YR

Assumed retirement age

DESCRIPTION

Full description of the retirement age and/or service assumption.

COMMENTS

The CV indicates Current Valuation.

APPENDIX F

POPULATION DATA
(Form Type F)

This display captures information on the plan's location, both city and county. Also listed is information on the plan's membership, which includes: number of active members, retired members, and vested-terminated members.

HEADINGS

INFORMATION PROVIDED

CITY OR DISTRICT

Plan Sponsor (Name of City, Special District, or School Board)

TYP. SYS.

Type of Retirement System:

- G = General Employees only
- P = Police Officers only
- F = Firefighters only
- PF = Police Officers and Firefighters only
- GPF = General Employees, Police Officers and Firefighters
- GP = General Employees and Police Officers only
- GF = General Employees and Firefighters only
- C = Correctional Officers only

CITY POPULATN

Population of the city the plan resides in.

COUNTY POPULATN

Population of the county the plan resides in.

MEMBR ACTIV

Number of active members in the plan.

MEMBR RETRD

Number of retirees, and/or beneficiaries.

MEMBR TERMD

Number of vested-terminees.

APPENDIX G

FUNDING PROGRESS (GASB-25 BASIS)
(Form Type E2)

HEADINGS

INFORMATION PROVIDED

CITY OR DISTRICT

Plan Sponsor (Name of City, Special District, or School Board)

TYP. SYS.

Type of Retirement System:

- G = General Employees only
- P = Police Officers only
- F = Firefighters only
- PF = Police Officers and Firefighters only
- GPF = General Employees, Police Officers and Firefighters
- GP = General Employees and Police Officers only
- GF = General Employees and Firefighters only
- C = Correctional Officers only

VAL. DATE

The year/month/day on which the financial data in the actuarial valuation is based.

C.V.

An "X" appears beside the most Current Valuation.

FUND METHOD

The actuarial cost funding method may be one of the following:

- EAN = Entry Age Normal
- FIL = Frozen Initial Liability
- AGG = Aggregate
- UC = Unit Credit
- AAN = Attained Age Normal
- ILP = Individual Level Premium

TOTAL ASSETS

The actuarial value of assets (not necessarily the market value).

AAL

Actuarial Accrued Liability

UAAL

Unfunded Actuarial Accrued Liability

FUNDED RATIO

TOTAL ASSETS ÷ AAL = FUNDED RATIO %

COVERED PAYROLL

Payroll on which benefits are based

UAAL AS % COV'D PAY.

AAL – TOTAL ASSETS ÷ COVERED PAYROLL

COMMENTS

Section 1012.685 and 1012.87, F.S., allow school boards and community colleges to supplement the early retirement income payable from the FRS to retiring school personnel. The benefits provided are usually equal to the amount of the reduction in monthly benefits resulting from retirement under the FRS prior to age 62. The participant must have applied for FRS early retirement, in addition to the many other requirements, to be eligible for the early retirement benefit.

The following is an inventory of reporting school board early retirement programs with their effective dates and a brief description of the plan:

School Board District	Effective date	Plan Description
Alachua County	01/01/84	Provides for benefits after participant is credited with at least 25 years of FRS service, and has attained age 55 to 61.
Hernando County	07/01/83	Provides for benefits on or after attaining age 55, but not later than age 61, and upon completion of at least 25 years of FRS service.
Hillsborough County	08/01/84	Provides for benefits after completing 25, 26, or 27 years of FRS service, and attaining age 55, but less than age 60.
Martin County	07/01/89	Provides for benefits on or after attaining age 51 and completing 25 years of service. Participant must retire within 2 years of becoming eligible for the supplemental benefit to receive any benefits from this plan.

School Board District	Effective date	Plan Description
Miami-Dade County	07/01/84	Provides for benefits upon retirement at any time on or after attaining age 55, but before the age of 62, and upon completion of 25, 26, or 27 years of FRS service.
Monroe County	07/01/92	Provides for benefits on or after the attainment of age 55, but before age 62, and the completion of 25, but less than 30, years of creditable service.
Pasco County	07/01/83	Provides for benefits to participants who are at least age 50 but less than age 62 and with 25 or more years of service.

APPENDIX I

INVENTORY OF MUNICIPALITIES

This display is a listing of municipalities and the type of retirement plan alternatives they may offer their employees.

Abbreviation Key

<u>ABBREVIATION</u>	<u>DESCRIPTION</u>
CH	Chapter 175/185 (DB) Plan
DB	Defined Benefit Plan
DC	Defined Contribution Plan
FRS*	Florida Retirement System
SH	Share Plan (a DC plan)

OTHER: The following numbers are used in the OTHER category:

<u>NUMBER</u>	<u>DESCRIPTION</u>
1-----	ICMA – Executive Program through International City Managers Association
2-----	Deferred compensation plan.
3-----	IRA and/or SEP (Simplified Employee Pension Plan) account.
4-----	Opted-out of the FRS effective 12-31-95 for all new employees. Persons employed by this agency on or after January 1, 1996 will not be eligible to participate in the FRS and must participate in the agency's local plan.
5-----	Newly created City. Currently being surveyed for retirement plan findings.

* All FRS members have Social Security Coverage.

APPENDIX J

INVENTORY OF SPECIAL DISTRICTS

This display is a listing of special districts (by county) and the type of retirement plan alternatives they offer their employees.

Abbreviation Key

<u>ABBREVIATION</u>	<u>DESCRIPTION</u>
DB	Defined Benefit Plan
DC	Defined Contribution Plan
FRS*	Florida Retirement System
CH	Chapter 175/185 (DB) Plan
SS	Social Security
IND	Independent
DEP	Dependent

OTHER: The following numbers are used in the OTHER category:

<u>NUMBER</u>	<u>DESCRIPTION</u>
1-----	Did not respond to prior survey.
2-----	Tax district transferred to a NOT-FOR-PROFIT corporation.
3-----	IRA and/or SEP (simplified employee pension plan) account.
4-----	HUD plan - (U.S. Department of Housing and Urban Development Plan) federally funded.
5-----	ICMA - Executive program through International City Managers Association.
6-----	FRS; some employees under a prior plan.
7-----	FRS; currently no employees.
8-----	Employees are members of city's plan.
9-----	Deferred compensation plan.
10-----	Parent entity is a member of the FRS.
11-----	Firefighters in FRS; all other employees in city DB plan.
12-----	Opted-out of the FRS effective 12-31-95 for all new employees. Persons employed by this agency on or after January 1, 1996 will not be eligible to participate in the FRS and must participate in the agency's local plan.
13-----	Currently being surveyed for retirement plan findings.

* All FRS members have Social Security Coverage.
