## EXECUTIVE SUMMARY

The mission of the Volunteer Health Services Program is to promote access to quality health care for the medically underserved and uninsured residents of Florida through the commitment of volunteers.

From July 1, 2008, through June 30, 2009, the value of goods and services donated to the citizens of Florida through the Volunteer Health Services Program totaled \$223 million. Since the inception of the Volunteer Health Services Program in 1992, the Department of Health (DOH) has documented more than \$1.5 billion in donated goods and services in the two volunteer programs the department administers. The majority of these contributions were directly related to medical and dental care provided to underserved and uninsured clients.

This annual report consists of two sections that describe the contributions of many individuals and organizations participating in the two volunteer programs under the auspices of the Florida Department of Health. The Chapter 110, Part IV, *Florida Statutes* – Volunteers (Appendix A) facilitates the use of volunteers in DOH facilities that augment the reach of the public health initiatives to the communities that the DOH facility serves. Section 766.1115 *Florida Statutes*, Volunteer Health Care Provider Program (VHCPP) facilitates the use of volunteer healthcare professionals who donate their services to eligible clients referred by the department's agents. The state extends to these volunteers the state laws of sovereign immunity waiver and caps outlined in Section 768.28, *Florida Statutes*. DOH's Volunteer Health Services Program promotes and provides technical support to these individual and organizations through a staff of 11 people operating in 11 regions of the state with an annual budget of \$566,881. (See Appendix C for a listing of staff and regions.)

Florida has encouraged the use of volunteers within all state agencies through Chapter 110, Part IV, *Florida Statutes*. The Department of Health, realizing its limited resources and fiscal constraints, as well as the value of volunteers, advocates the use of volunteers to augment its public health functions. DOH volunteers hold many positions that directly benefiting Floridians.

The VHCPP implementation of the "Access to Health Care Act" (Section 766.1115, *Florida Statutes*, see in Appendix B) which was created in 1992, and makes, by contract, licensed healthcare professionals agents of the state of Florida therefore covered by sovereign immunity for uncompensated services rendered to eligible clients referred by the DOH. Many contracted health care professionals are associated with community or faith-based organizations and are not volunteers at the Department of Health. These volunteers are agents of the state, in that they provide services for clients referred from DOH and agree to certain contractual stipulations. This contract provides them with the same liability protection as state employees when they provide healthcare services. This program, with its limited resources and restrictive eligibility, is a small but vital component in the department's effort to increase access to health care for those in need throughout the state.

Are required by section 766.1115(7), *Florida Statutes*, the Division of Risk Management compiles an annual report of claims under this program. This report, in the form of a letter, is contained in Appendix D.

The key to the continued success of these volunteer initiatives is the sustained support of various professional associations, public/private partnerships, and individuals who commit to strengthen and develop collaborative relationships in their local communities.

# TOTAL VALUE OF CONTRIBUTIONS Since Program Inception \$1.5 Billion

## Total Volunteers 31,647

## Total program Contributions \$222,773,587

## SUMMARY OF CHAPTER 110 VOLUNTEER ACTIVITIES WITHIN DEPARTMENT OF HEALTH FACILITIES

The DOH recognizes volunteers and public/private partnerships will continue to be an integral part of its effort to increase access to quality health care for Florida residents. This section of the report summarizes the contributions and donations made to DOH by a variety of volunteers as defined in Chapter 110, Part VI, *Florida Statutes*. The majority of goods and services are donated at county health departments (CHD) and Children's Medical Services (CMS) sites. During this reporting period, the DOH documented the participation of 9,934 volunteers, contributing 555,140 hours of their time, for a total of \$66.6 million in donated goods and services.

The DOH uses a broad range of volunteers and collaborations to augment existing local resources. These include, but are not limited to, licensed healthcare professionals providing direct patient care, technical personnel assisting in information technology units and environmental health-related areas, HIV/AIDS counselors/educators, language interpreters, and administrative staff providing clerical support. To support Volunteer efforts the DOH makes available the use of many of its facilities to non-governmental organizations to provide healthcare education and services for residents of local communities.

The Department of Health offers a wide range of valuable educational opportunities. Several colleges and universities have contracted with the DOH to permit students to complete their internships and/or clinical requirements in DOH facilities. In addition, many educational institutions have partnered with the DOH in support of health fairs, disaster preparedness and natural disaster events, immunization clinics, back-to-school physicals, and other events to improve the health of the community. Another recent innovative program involving volunteer nurses in public schools has been extremely successful in increasing the number of nurses available to address basic healthcare needs and health education of students in the state's school systems.

The following documentation shows that the contributions of numerous individuals and public/private partnerships were extremely valuable to the department's mission and services to its customers. Many community, faith-based, and secular organizations including, but not limited to, the Medical Reserve Corps, Salvation Army, YMCA, Florida Baptist Convention, and Wal-Mart Corporation, were essential partners in the DOH's efforts to increase access to public health services for Floridians.

## **SUMMARY OF THE CHAPTER 766 VOLUNTEER HEALTH CARE PROVIDER PROGRAM ACTIVITIES**

This section of the report documents the contributions made by participants in the Volunteer Health Care Provider Program (VHCPP). These activities are carried out under the terms and conditions specified under section 766.1115, *Florida Statutes*. The monetary values are a compilation of data reported by providers for services rendered to eligible clients referred by the DOH throughout the state. In fiscal year (FY) 2008-2009, 14,077 licensed healthcare professionals and 7,315 staff volunteers provided healthcare services for 347,589 patient visits with a total value of \$162,204,922 million. This includes in excess of \$72.3 million in donations from grants and gifts from various entities to many community and faith-based organizations.

Healthcare access for the underserved and uninsured residents of Florida, via this program, is completely dependent on volunteer providers donating services. The DOH is extremely thankful for the healthcare providers' commitment to this endeavor and acknowledges their positive impact on local communities. Vital to the continued success of this program are the support and sponsorship of the licensed healthcare professionals, community and faith-based organizations, public/private partnerships, the Florida Medical Association, the Florida Osteopathic Medical Association, and the Florida Dental Association. In many areas, providers and organizations have joined forces to develop extensive collaborations to support a complete, uncompensated, healthcare network for a limited number of clients in their community.

## Appendix B

**766.1115 Health care providers; creation of agency relationship with governmental contractors.--**

**766.1115** Health care providers; creation of agency relationship with governmental contractors.-

(1) **SHORT TITLE**--This section may be cited as the "Access to Health Care Act."

(2) **FINDINGS AND INTENT**--The Legislature finds that a significant proportion of the residents of this state who are uninsured or Medicaid recipients are unable to access needed health care because health care providers fear the increased risk of medical negligence liability. It is the intent of the Legislature that access to medical care for indigent residents be improved by providing governmental protection to health care providers who offer free quality medical services to underserved populations of the state. Therefore, it is the intent of the Legislature to ensure that health care professionals who contract to provide such services as agents of the state are provided sovereign immunity.

(3) **DEFINITIONS**--As used in this section, the term:

(a) **"Contract"** means an agreement executed in compliance with this section between a health care provider and a governmental contractor. This contract shall allow the health care provider to deliver health care services to low-income recipients as an agent of the governmental contractor. The contract must be for volunteer, uncompensated services. For services to qualify as volunteer, uncompensated services under this section, the health care provider must receive no compensation from the governmental contractor for any services provided under the contract and must not bill or accept compensation from the recipient, or any public or private third-party payor, for the specific services provided to the low-income recipients covered by the contract.

(b) **"Department"** means the Department of Health.

(c) **"Governmental contractor"** means the department, county health departments, a special taxing district with health care responsibilities, or a hospital owned and operated by a governmental entity.

(d) **"Health care provider" or "provider"** means:

1. A birth center licensed under chapter 383.
2. An ambulatory surgical center licensed under chapter 395.
3. A hospital licensed under chapter 395.
4. A physician or physician assistant licensed under chapter 458.

5. An osteopathic physician or osteopathic physician assistant licensed under chapter 459.
6. A chiropractic physician licensed under chapter 460.
7. A podiatric physician licensed under chapter 461.
8. A registered nurse, nurse midwife, licensed practical nurse, or advanced registered nurse practitioner licensed or registered under part I of chapter 464 or any facility which employs nurses licensed or registered under part I of chapter 464 to supply all or part of the care delivered under this section.
9. A midwife licensed under chapter 467.
10. A health maintenance organization certificated under part I of chapter 641.
11. A health care professional association and its employees or a corporate medical group and its employees.
12. Any other medical facility the primary purpose of which is to deliver human medical diagnostic services or which delivers nonsurgical human medical treatment, and which includes an office maintained by a provider.
13. A dentist or dental hygienist licensed under chapter 466.
14. A free clinic that delivers only medical diagnostic services or nonsurgical medical treatment free of charge to all low-income recipients.
15. Any other health care professional, practitioner, provider, or facility under contract with a governmental contractor, including a student enrolled in an accredited program that prepares the student for licensure as any one of the professionals listed in subparagraphs 4.-9.

The term includes any nonprofit corporation qualified as exempt from federal income taxation under s. 501(a) of the Internal Revenue Code, and described in s. 501(c) of the Internal Revenue Code, which delivers health care services provided by licensed professionals listed in this paragraph, any federally funded community health center, and any volunteer corporation or volunteer health care provider that delivers health care services.

**(e) "Low-income"** means:

1. A person who is Medicaid-eligible under Florida law;
2. A person who is without health insurance and whose family income does not exceed 200 percent of the federal poverty level as defined annually by the federal Office of Management and Budget; or

3. Any client of the department who voluntarily chooses to participate in a program offered or approved by the department and meets the program eligibility guidelines of the department.

**(4) CONTRACT REQUIREMENTS**--A health care provider that executes a contract with a governmental contractor to deliver health care services on or after April 17, 1992, as an agent of the governmental contractor is an agent for purposes of s 768.28(9), while acting within the scope of duties under the contract, if the contract complies with the requirements of this section and regardless of whether the individual treated is later found to be ineligible. A health care provider under contract with the state may not be named as a defendant in any action arising out of medical care or treatment provided on or after April 17, 1992, under contracts entered into under this section. The contract must provide that:

**(a) The right of dismissal or termination** of any health care provider delivering services under the contract is retained by the governmental contractor.

**(b) The governmental contractor** has access to the patient records of any health care provider delivering services under the contract.

**(c) Adverse incidents** and information on treatment outcomes must be reported by any health care provider to the governmental contractor if the incidents and information pertain to a patient treated under the contract. The health care provider shall submit the reports required by s. 395.0197. If an incident involves a professional licensed by the Department of Health or a facility licensed by the Agency for Health Care Administration, the governmental contractor shall submit such incident reports to the appropriate department or agency, which shall review each incident and determine whether it involves conduct by the licensee that is subject to disciplinary action. All patient medical records and any identifying information contained in adverse incident reports and treatment outcomes which are obtained by governmental entities under this paragraph are confidential and exempt from the provisions of s.119.07(1) and s. 24(a), Art. I of the State Constitution.

**(d) Patient selection** and initial referral must be made solely by the governmental contractor, and the provider must accept all referred patients. However, the number of patients that must be accepted may be limited by the contract, and patients may not be transferred to the provider based on a violation of the antidumping provisions of the Omnibus Budget Reconciliation Act of 1989, the Omnibus Budget Reconciliation Act of 1990, or chapter 395.

**(e) If emergency care** is required, the patient need not be referred before receiving treatment, but must be referred within 48 hours after treatment is commenced or within 48 hours after the patient has the mental capacity to consent to treatment, whichever occurs later.

**(f) Patient care**, including any follow up or hospital care, is subject to approval by the governmental contractor.

**(g) The provider** is subject to supervision and regular inspection by the governmental contractor.

A governmental contractor that is also a health care provider is not required to enter into a contract under this section with respect to the health care services delivered by its employees.

**(5) NOTICE OF AGENCY RELATIONSHIP.**--The governmental contractor must provide written notice to each patient, or the patient's legal representative, receipt of which must be acknowledged in writing, that the provider is an agent of the governmental contractor and that the exclusive remedy for injury or damage suffered as the result of any act or omission of the provider or of any employee or agent thereof acting within the scope of duties pursuant to the contract is by commencement of an action pursuant to the provisions of s.768.28. With respect to any federally funded community health center, the notice requirements may be met by posting in a place conspicuous to all persons a notice that the federally funded community health center is an agent of the governmental contractor and that the exclusive remedy for injury or damage suffered as the result of any act or omission of the provider or of any employee or agent thereof acting within the scope of duties pursuant to the contract is by commencement of an action pursuant to the provisions of s. 768.28.

**(6) QUALITY ASSURANCE PROGRAM REQUIRED.**--The governmental contractor shall establish a quality assurance program to monitor services delivered under any contract between an agency and a health care provider pursuant to this section.

**(7) RISK MANAGEMENT REPORT.**--The Division of Risk Management of the Department of Financial Services shall annually compile a report of all claims statistics for all entities participating in the risk management program administered by the division, which shall include the number and total of all claims pending and paid, and defense and handling costs associated with all claims brought against contract providers under this section. This report shall be forwarded to the department and included in the annual report submitted to the Legislature pursuant to this section.

**(8) REPORT TO THE LEGISLATURE.**--Annually, the department shall report to the President of the Senate, the Speaker of the House of Representatives, and the minority leaders and relevant substantive committee chairpersons of both houses, summarizing the efficacy of access and treatment outcomes with respect to providing health care services for low-income persons pursuant to this section.

**(9) MALPRACTICE LITIGATION COSTS.**--Governmental contractors other than the department are responsible for their own costs and attorney's fees for malpractice litigation arising out of health care services delivered pursuant to this section.

**(10) RULES.**--The department shall adopt rules to administer this section in a manner consistent with its purpose to provide and facilitate access to appropriate, safe, and cost-effective health care services and to maintain health care quality. The rules may include services to be

provided and authorized procedures. Notwithstanding the requirements of paragraph (4)(d), the department shall adopt rules that specify required methods for determination and approval of patient eligibility and referral and the contractual conditions under which a health care provider may perform the patient eligibility and referral process on behalf of the department. These rules shall include, but not be limited to, the following requirements:

(a) The provider must accept all patients referred by the department. However, the number of patients that must be accepted may be limited by the contract.

(b) The provider shall comply with departmental rules regarding the determination and approval of patient eligibility and referral.

(c) The provider shall complete training conducted by the department regarding compliance with the approved methods for determination and approval of patient eligibility and referral.

(d) The department shall retain review and oversight authority of the patient eligibility and referral determination.

**(11) APPLICABILITY**--This section applies to incidents occurring on or after April 17, 1992. This section does not apply to any health care contract entered into by the Department of Corrections which is subject to s. 768.28(10)(a). Nothing in this section in any way reduces or limits the rights of the state or any of its agencies or subdivisions to any benefit currently provided under s. 768.28.
