KEVIN WHITE ACTING MARSHAL

Jerry L. McDaniel, Director Office of Policy and Budget Executive Office of the Governor 1701 Capitol Tallahassee, Florida 32399-0001

JoAnne Leznoff, Council Director House Full Appropriations Council 221 Capitol Tallahassee, Florida 32399-1300

David Coburn, Staff Director Senate Policy and Steering Committee on Ways and Means 201 Capitol Tallahassee, Florida 32399-1300

Dear Directors:

Pursuant to Chapter 216, Florida Statutes, our Long Range Program Plan (LRPP) for the State Courts System is submitted in the format prescribed in the budget instructions.

LRPP September 29, 2010 Page Two

The plan has been posted on the Florida Fiscal Portal and the address on our internet website that references the link to the LRPP located on the Florida Fiscal Portal is http://www.floourts.org/gen_public/pubs/index.shtml.

The posted plan is a true and accurate presentation of our mission, goals, objectives and measures for the Fiscal Year 2011-12 through Fiscal Year 2015-16.

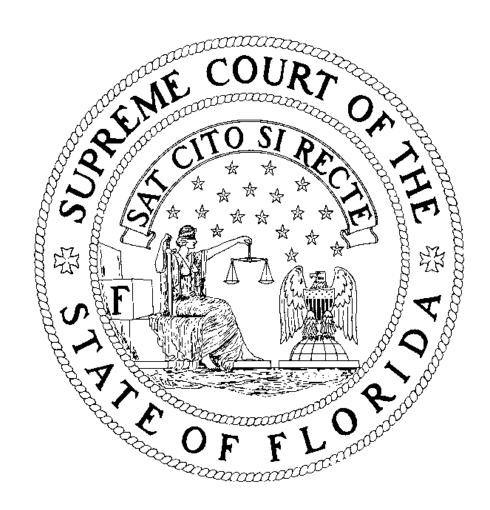

Sincerely,

Charles T. Canady

Cha. T. Coroley

Vision

Justice in Florida will be accessible, fair, effective, responsive, and accountable.

To be accessible, the Florida justice system will be convenient, understandable, timely, and affordable to everyone.

To be fair, it will respect the dignity of every person, regardless of race, class, gender or other characteristic, apply the law appropriately to the circumstances of individual cases, and include judges and court staff that reflect the community diversity.

To be effective, it will uphold the law and apply rules and procedures consistently and in a timely manner, resolve cases with finality, and provide enforceable decisions.

To be responsive, it will anticipate and respond to the needs of all members of society, and provide a variety of dispute resolution methods.

To be accountable, the Florida justice system will use public resources efficiently, and in a way that the public can understand.

Mission

Protect rights and liberties, uphold and interpret the law, and provide for the peaceful resolution of disputes.

State Courts System Goals Overview

The strategic direction delineated in this plan establishes the long-term focus of the judicial branch

and outlines strategies to address issues evolving from past events and trends. Some strategies

improve upon what has been done in the past and others point the branch in new and different

directions. The strategic direction provides context for how the branch will organize, provide

services, and fund activities.

The State Courts System's comprehensive goals are organized around five long-range issues that

identify significant challenges that must be addressed over the long term in order to move toward

fulfilling the vision and mission of the judicial branch. An updated long-range strategic plan for

the judicial branch was approved by the Supreme Court on July 1, 2009 and reflects goals and

strategies for a plan of action over the next six years. Priorities will also be set through 3-year

operational plans.

The long-range plan was developed by the Task Force on Judicial Branch Planning through

multiple methods to gather a wide range of perspectives and expertise. The methods allowed for an

identification of strengths, weaknesses, threats, and opportunities facing the State Courts System.

Methods included surveys of the public, court users, jurors, attorneys, judicial officers, and court

staff. Additionally, nine public forums were held in communities across the state as well as a

meeting of representatives of justice system partner organizations and focus groups composed of

subject matter experts.

The updated long-range issues are: Issue #1 – Strengthening Governance and Independence; Issue

#2 – Improving the Administration of Justice; Issue #3 – Supporting Competence and Quality; Issue

#4 – Enhancing Access and Service; and Issue #5 – Enhancing Public Trust and Confidence.

The State Courts System long-range strategic plan uses the terms: issues, goals, and strategies to

define its systemic direction. The following sets out descriptions of the long-range issues

(condensed from the long-range plan) as well as the *goals* (desired future states) and *strategies*

(general courses of action to accomplish the goals) associated with each strategic issue.

Issues, Goals, and Strategies

Long-Range Issue #1: Strengthening Governance and Independence

4 of 184

The Constitution of the State of Florida creates the judicial branch along with the legislative and executive branches, and vests the judicial power exclusively in its courts. To fulfill its mission, the judicial branch must strengthen its ability to fully function as a coequal and independent branch of government, to govern itself with coherence and clarity of purpose, to manage and control its internal operations, and to be accountable to the people.

To achieve this in an era of increasing workloads and limited resources, the branch must govern itself effectively and efficiently. The judicial branch must also have the capacity to develop and implement effective and responsive policies, to deploy its resources efficiently, and to provide transparency and accountability in the management of resources.

Goal: The judicial branch will be governed in an effective and efficient manner.

Strategies:

- Reform and strengthen the governance and policy development structures of the judicial branch.
- Implement a governance structure with the capacity to consult with affected constituencies and stakeholders and to produce policies that are responsive, coherent, and timely.
- Effectuate a governance structure that can implement policies in an efficient and effective manner.

Goal: The judicial branch will interact effectively with all parts of government on issues related to the justice system.

Strategies:

- Strengthen the capacity to regularly communicate with the legislative and executive branches on issues affecting the justice system.
- Create institutional mechanisms to consult and coordinate activities with justice system partners on issues affecting the justice system.

Long-Range Issue #2: Improving the Administration of Justice

The state courts of Florida annually dispose of more than 3.5 million cases, ranging from simple

traffic citations to serious criminal cases and complex civil disputes with multiple parties. These cases are disposed through a range of dispute resolution processes, including diversion, mediation, plea, and adjudication by trial. The resources needed to process cases vary depending on the type of case and the manner of disposition. Increasingly, many litigants choose to represent themselves without counsel, which can pose challenges to the court. In addition, the Constitution of the State of Florida provides for a right of appeal of all final judgments as well as some non-final orders.

The management of such large caseloads and the administration of the resources and personnel necessary to manage the different types of cases is a complex undertaking. This task is increasingly challenged by growing caseloads and decreasing resources. To meet these challenges the courts must constantly find ways to improve the processes used to accomplish their constitutional mission. The judicial branch must remain committed to ongoing improvement in the administration of justice, including effective case processing policies and the efficient management of resources.

Goal: Cases will be processed effectively, efficiently, and in a timely manner.

Strategies:

- Develop and implement case management practices to resolve cases in a timely and effective manner.
- Continue to explore and implement effective alternative dispute resolution processes.
- Develop the capacity of the State Courts System to timely monitor key caseload and workload information at the circuit, appellate, and statewide levels.

Goal: The State Courts System will utilize public resources effectively, efficiently, and in an accountable manner.

Strategies:

- Enhance the capacity of the State Courts System to manage court resources and services in a cost-effective and accountable manner.
- Continue to develop and institutionalize performance and accountability management systems that implement best practices in resource management.

- Improve the institutional capacity of the courts to coordinate activities and services that optimize the resources and effectiveness of justice system partners.
- Assess and modify, when necessary, services provided by Florida courts and functions performed by clerks of court to improve efficiency and effectiveness.
- Augment the capacity of the judicial branch to enforce orders and judgments, including collections of fees and fines, compliance with terms of probation, and adherence to injunctions.

Goal: The State Courts System will have an adequate statewide information technology system adequate to support effective and efficient case management and management of caseloads and court resources.

Strategies:

- Develop and implement standards that effectuate the equitable statewide deployment of functionally compatible information technology infrastructure within the judicial branch, or;
- Pursue restructuring of information technology funding to enhance statewide equity and functional compatibility.
- Enact policies that coordinate the deployment of compatible information technology infrastructure within the judicial branch.
- Institute policies to build a comprehensive uniform statewide case management information system that integrates the case maintenance systems of the clerks of the circuit courts.
- Expand and integrate information technology systems statewide that support best practices within the courts, including resources management and performance measurement systems.
- Implement uniform statewide State Courts System communication technologies, including electronic filing, electronic access to court records, electronic scheduling, and electronic appearance of attorneys and parties.
- Continue to improve data sharing and data integration with justice system partners.

Goal: The roles and responsibilities of the state courts and the circuit clerks of court when performing court-related functions will be clearly defined.

Strategies:

- Improve the capacity to review services performed by circuit clerks of court when performing court-related functions.
- Enhance the institutional capacity of the courts to coordinate activities and services with the clerks of court at all levels.

Long-Range Issue #3: Supporting Competence and Quality

The delivery of justice is affected by the competence and quality of judicial officers, administrators, and court staff. Law and court procedures are increasingly complex, and those within the judicial system face difficult legal and ethical issues as well as heightened societal expectations. Consequently, advanced levels of training and development are critical to enable those who work within the system to effectively perform the challenging work of the courts and meet demands placed on them. The Florida State Courts System is committed to having a workforce that is highly qualified and dedicated to service.

Ongoing professional development, education, and training, with appropriate emphasis on effective resource management policies and practices and ethical behavior, are essential to ensure a competent and high quality workforce to adequately address court operations, improve interactions with the public, and enhance perceptions of procedural fairness. Court system users reasonably expect the courts to employ effective management techniques, continuous operational improvement, innovative technologies, and superior service levels. The State Courts System will continue to foster working environments and organizational cultures marked by high achievement and work satisfaction while successfully meeting these challenges.

Goal: Judges and court employees will have the knowledge, skills, and abilities to serve and perform at the highest professional levels.

Strategies:

• Improve and expand training and educational opportunities and offerings, adding self-learning resources and electronic/online tools for judges and court employees.

- Foster professional development and growth through programs such as succession planning, mentoring, coaching, job shadowing, on the job learning, and introduction to management and leadership.
- Collaborate with local, state, and national providers to enhance and expand training and development opportunities.
- Provide training on the use of existing and evolving technologies.
- Develop and provide programs to strengthen the management and leadership skills of judges, executive management, and supervisory court employees.

Goal: All court employees will be of good character and adhere to high standards of professionalism and ethics at all times.

Strategies:

- Develop, adopt, and implement statewide standards of professional and ethical conduct for non-judge court employees.
- Emphasize professionalism and ethical behavior in training and educational programs and materials.
- Support effective procedures for responding to complaints of unethical or unprofessional behavior.

Goal: The State Courts System will attract, hire, and retain highly qualified and competent employees.

Strategies:

- Improve, expand, and modernize recruitment methods and practices, including the use of new technologies and networks, to attract competent and qualified candidates.
- Increase diversity so that the State Courts System better reflects the demographics of individual communities and aids in enhancing effective interactions with people of different cultures.
- Provide monetary and non-monetary incentives, rewards, and recognition for excellent service and performance.

- Provide career paths and advancement opportunities for non-judge court employees.
- Create a motivating, satisfying, and purposeful work environment and organizational culture that values and engages judges and court employees.
- Advocate for competitive pay and benefits that are comparable to market rates.
- Provide judges and court employees with the information, resources, tools, and technology needed to do their work well.

Goal: The judicial branch will attract, retain, and support highly qualified judicial candidates.

Strategies:

- Ensure that the most challenging judicial assignments have adequate resources and support.
- Create a motivating, satisfying, and purposeful work environment and organizational culture for judges.
- Advocate for competitive pay and benefits.
- Provide judges with the information, resources, tools, and technology needed to do their work well.
- Support the appropriate consideration of diversity in the selection of judges.

Long-Range Issue #4: Enhancing Court Access and Services

Public access to the courts is a cornerstone of our justice system. Article I, section 21 of the Constitution of the State of Florida requires that "the courts shall be open to every person for redress of any injury, and justice shall be administered without sale, denial or delay." Inherent in this mandate is the precept that our courts are neutral bodies that will interpret the law fairly, and will ensure equal treatment of all parties.

However, litigants do face some obstacles in seeking access to the courts. The cost of litigation, communication and language barriers, lack of information, complexity, cultural and attitudinal biases, and physical obstructions can be substantial impediments to accessing the courts.

Additionally, the elderly and individuals with developmental disabilities, mental illness, dementia,

and visual and hearing disabilities may also experience difficulty with access. Obstacles are particularly difficult for the increasing number of pro se litigants in Florida's courts; they may come to the courts for many reasons, but often have a minimal understanding of the law, little information about court procedures and rules, and limited access to assistance.

Goal: Provide meaningful access to Florida's courts for all people.

Strategies:

- Advocate for improved accessibility and modernization of court facilities.
- Utilize scheduling practices whenever possible that provide maximum court access to parties in terms of convenient hours and locations.
- Ameliorate the impact of economic barriers to accessing Florida's courts.
- Minimize the effects of physical barriers to Florida's courts.
- Reduce the effect of communication and language barriers to Florida's courts.
- Collaborate with justice system partners, professional associations, and community organizations to enhance access to the justice system.
- Educate judges and court staff about barriers faced by court users trying to access the courts
 and how those barriers may be addressed or minimized.

Goal: Florida's courts will provide the highest quality of services to court users.

Strategies:

- Improve and expand services, assistance, and information provided to self-represented parties.
- Ensure that court information, resources, and services are made available and understandable to everyone.
- Provide consistent levels of core services, information, resources, and assistance in all
 courts throughout Florida, to include conflict resolution, court reporting, and
 interpreter/translator services.

- Collaborate with justice system partners to ensure delivery of appropriate services to court users.
- Supply court users with current information on available community and justice partner programs and services.
- Expand the use of existing and emerging technologies to enhance access to information and services.
- Emphasize the use of standardized, simplified rules and practices for all case types.

Goal: Florida's courts will treat all people fairly and with respect.

Strategies:

- Ensure that all State Courts System employees understand the importance of providing procedural as well as substantive justice to all parties.
- Emphasize the importance and relevance of interacting effectively with people of different cultures in performing duties and responsibilities in serving Florida's diverse population.
- Enhance training programs for judges on issues of fairness.
- Augment training for court employees on issues of fairness and diversity.

Long-Range Issue #5: Enhancing Public Trust and Confidence

Public trust and confidence in the judicial branch is at the core of maintaining a peaceful and democratic society. The judicial branch must consistently strive to maintain and improve the public's trust and confidence by: fulfilling its mission of protecting rights and liberties, upholding and interpreting the law, and providing for the peaceful resolution of disputes; and by achieving its vision of being accessible, fair, effective, responsive, and accountable to all Floridians.

Recent findings indicate that confusion still exists among the public about the role, purposes, and function of courts and a compelling need remains to better educate and inform the public about the role and accomplishments of the branch. To further fulfill its mission and achieve its vision, the judicial branch must also perform its duties with impartiality, integrity, and honesty.

The State Courts System can also enhance public trust and confidence by maintaining the highest standards of accountability for its use of public resources, adhering to statutory and constitutional mandates, and continuing to improve its overall performance.

Goal: The State Courts System will be accountable to the public for its use of public resources and overall performance.

Strategies:

- Monitor and evaluate court performance.
- Communicate and inform the public and the executive and legislative branches of government about the State Courts System performance and use of public resources.
- Inform the public and policy makers about judicial branch accomplishments.
- Solicit regular feedback and institutionalize lines of communication with the public, court
 users of all types, community organizations, and justice system partners to improve judicial
 branch performance.

Goal: The public will better understand the purpose and role of the judicial branch.

Strategies

- Educate and inform the public about the judicial branch as well as constitutional and legal principles.
- Collaborate with the legal community and justice system partners to educate the public about the court system.
- Enhance and expand outreach to all levels of educational institutions and community organizations to improve understanding of, and involvement with, the justice system.
- Promote and improve relations with the media to ensure the accuracy and adequacy of public understanding and perception of the judicial branch.

Goal: The courts will be fair, impartial, and free from bias, political pressures, and special interests.

Strategies:

- Protect and preserve the ability of judges to decide legal matters according to the constitution, the law, and legal precedent without fear of reprisal.
- Improve communication between the judicial branch and the community.
- Work to prevent bias, and the appearance of bias, in all parts of the judicial branch.

Objectives and Service Outcomes

Objective 1: The supreme court will clarify Florida law, ensure that district court decisions throughout the state are consistent, and ensure that court decisions at all levels of the state courts are consistent with rights and liberties. This process will contribute to the development, clarity, and consistency of the law through opinions that provide the public, other courts, and the legal community with a body of law. This jurisprudence will provide a level of stability and predictability that allows Floridians to conduct business and personal affairs in accordance with the law of this state. In the execution of its supervisory responsibilities over the state courts and the practice of law, the supreme court will ensure the integrity of a legal system capable of meeting the needs of a vibrant, rapidly growing state. In its attention to the rules of practice and procedure, the supreme court will ensure that Florida courts are responsive to the complex needs of Floridians.

Outcome: Clearance rate.

Baseline FY 2002-03	FY 2011-12	FY 2012-13	FY 2013-14	FY 2014-15	FY 2015-16
97.5%	Indeterminate	Indeterminate	Indeterminate	Indeterminate	Indeterminate

Note: Due to the continued impact of budget cuts, clearance rates for fiscal year 2011-12 to 2015-16 cannot be predicted at this time.

Objective 2: The district courts of appeal of Florida will provide the opportunity for thoughtful review of decisions of lower tribunals by multi-judge panels. District courts of appeal will correct harmful errors and ensure that decisions are consistent with our rights and liberties. The process contributes to the development, clarity, and consistency of the law.

Outcome: Clearance rate.

F	Baseline FY 2002-03	FY 2011-12	FY 2012-13	FY 2013-14	FY 2014-15	FY 2015-16
	99.3%	Indeterminate	Indeterminate	Indeterminate	Indeterminate	Indeterminate

Note: Due to the continued impact of budget cuts, clearance rates for fiscal year 2011-12 to 2015-16 cannot be predicted at this time.

Objective 3: Florida trial courts will protect and declare the rights and responsibilities of the people, uphold and interpret the law, and provide a forum for the just and peaceful resolution of legal and factual disputes.

Outcome: Clearance rate.

Baseline FY 2002-03	FY 2011-12	FY 2012-13	FY 2013-14	FY 2014-15	FY 2015-16
92.2%	Indeterminate	Indeterminate	Indeterminate	Indeterminate	Indeterminate

Notes:

Due to the continued impact of budget cuts, clearance rates for fiscal year 2011-12 to 2015-16 cannot be predicted at this time.

Beginning in FY 2004-2005, all county court cases were included with circuit court cases in the calculation of clearance rate for all trial courts. The judicial branch has combined the services titled Circuit Courts and County Courts under Court Operations - Trial Courts, as a result of Revision 7 implementation.

Trends and Conditions Statement

The State Courts System's long-range program plan provides the strategic direction, organizational framework, and context for the judicial branch budget. The planning process used to develop the plan relies on careful consideration of the actions needed to address the external as well as internal forces and conditions that may impact the court's capabilities in fulfilling the mission. The planning process assesses court issues and priorities, and reviews and justifies programs, services, and activities that will be used to implement priority-based resource allocation decisions.

Florida's state courts serve all of Florida's residents, visitors, businesses, and governmental institutions, either directly or indirectly. A number of external and internal trends contribute to the scope and complexity of challenges facing the courts as they endeavor to fulfill their mission in service to these constituencies.

External Conditions and Forces Impacting Florida Courts

State Economy and Budget - The national recession that began in December, 2007, as dated by the National Bureau of Economic Research, continued well into 2009 and as of July, 2010, has not been determined to be definitively ended. More recent data suggests that even if the recession is determined to have ended in the third quarter of 2009, the nation may experience a "double-dip" recession as recovery efforts falter and the economy, driven by a moribund housing market, shrinks back into recession. At any rate, regardless of technical determinations, the nation remains in the worst economic crisis since the Great Depression.

The economy of Florida is measurably worse than the national average. As measured by the state's gross domestic product (GDP), Florida's economy is among the worst in the nation. According to the Florida Economic Estimating Conference "Florida's real growth in GDP ranked it 48th in the nation in 2008 with an outright decline of -1.6%. By way of comparison, Florida ranked 2nd in the nation in 2005."

As measured by employment, the unemployment rate in Florida as of July, 2010, was 11.5%, two percent higher than the national rate of 9.5%. This equates to 1.1 million unemployed people in the state and a ranking of 5th worst in the country for its unemployment rate. Even more troublesome, 49 of Florida's 67 counties had double-digit unemployment rates.

The most significant driver of the slump is the depressed housing market. The Economic Estimating Conference report continues: "For Arizona, Nevada and Florida, losses in the construction sector accounted for a significant portion of the decline – it subtracted more than one percentage point from real GDP growth in each of these states."

The July, 2010, forecast of the Economic Estimating Conference is not encouraging: "The Florida economy is unlikely to turn around until new construction comes back to life, and that won't happen until the inventory is reduced. With the meltdown in the mortgage market and the subsequent credit crunch, housing starts went into a significant decline that showed little improvement until this year. A strong rebound does not occur until Fiscal Year 2011-12; however, it lasts through the remainder of the planning horizon."

Nota Bene: The forecasts of the Economic Estimating Conference, above, as well the Florida Revenue Estimating Conference, discussed below, do not factor in any effects related to the BP oil spill.

<u>Foreclosures</u> - The most salient feature of the economic downturn has been the frequency of home foreclosures, which are seen as both a contributor and a result of the poor economy. From 2005-06 to 2008-09 the number of foreclosures actions filed in Florida circuit courts increased approximately 600%, from less than 60,000 to more than 400,000 cases annually. Although the number of Florida mortgages in various stages of default continues to be very high, the number of foreclosure filings declined at a moderate level over the final quarter of FY 2009-10. This decline is projected to continue at a slow pace. However, the effects of the BP oil spill have not been factored into this forecast.

<u>Technology</u> – Increased reliance on information technology to communicate and transact business has brought increased pressure on the courts to utilize technology in the conduct of court business. For several years Florida courts have experimented with systems that permit electronic transmission of court documents among courts and litigants, known as "e-filing." The electronic transmission and storage of court records offers a qualitative leap forward in terms of both speed and cost. In addition there is a growing expectation that people should be able to respond to juror summonses online and to communicate with the courts without having to physically appear at the courthouse. The Florida Legislature has mandated statewide implementation of electronic filing.

While funding remains a significant obstacle to implementation of electronic access to the courts, this initiative is moving forward rapidly.

Shortage of Court Staff - There is an increasingly limited pool of workers, such as court managers, court reporters, court interpreters, and strategizers with the unique skills required in the court environment. Personnel with expertise in information in technology are in high demand. The National Center for State Courts cites the growing shortage of court administrators and staff as a critical trend facing state courts. The limited pool of uniquely qualified applicants, along with competitive state and national salaries has resulted in: difficulty recruiting well qualified applicants; salary and benefit structures that are not competitive with local and state governments; and the continued loss of experienced employees to other government entities for higher pay. These issues are also exacerbated by the recent budget downturns.

<u>Security</u> - Threats against judges, court officers, and court facilities will continue to require enhanced capacity to provide for the physical security of court facilities, their immediate area, and judicial personnel.

<u>Caseload Factors</u> - Currently there are 599 circuit judges and 322 county judges to handle cases flowing through the trial court system. The six divisions of court in which these cases are filed are circuit criminal, circuit civil, circuit family court, circuit probate, county criminal, and county civil. Total statewide filings from all divisions for fiscal year 2008-09 were 4,628,260 (1,190,986 in circuit court and 3,437,274 in county court). These totals represent an 8% increase in circuit court filings and a 1% decrease in county court filings from fiscal year 2007-08. The total number of cases disposed statewide for fiscal year 2008-09 was 4,515,194.

In fiscal year 2006-07 and fiscal year 2007-08, circuit civil filings experienced significant growth. That trend continued in fiscal year 2008-09 with a 31% increase in filings from fiscal year 2007-08. The driving force behind this growth is in real property/mortgage foreclosure cases and to a lesser extent, contract and indebtedness cases. When comparing fiscal year 2008-09 to fiscal year 2007-08, real property/mortgage foreclosure and contract and indebtedness cases have risen 42% and 28%, respectively. Since fiscal year 2006-07, real property/mortgage foreclosure cases have risen over 250% while contract and indebtedness cases increased by 65%.

County civil filings increased by 4% from fiscal year 2007-08 to fiscal year 2008-09. Included in county civil are any matters involving claims up to \$15,000, which includes auto loan defaults and financial issues associated with mortgage foreclosures where the complaint is less than \$15,000. These claims, along with civil traffic infractions were the driving force behind the division's growth.

While caseloads involving children and families have not increased in the way foreclosure and other civil caseloads have, child and family cases remain among the most pressing and important matters attended to by our courts. Family Court filings include Domestic Relations, Juvenile Delinquency, Juvenile Dependency, and Termination of Parental Rights. In Fiscal Year 2008-09 Florida's court accepted 335,854 family cases.

Internal Conditions Affecting Florida Courts Capabilities

Funding:

Effective in Fiscal Year 2009-10, nearly all court functions began to be exclusively supported by a new trust fund, the State Courts Revenue Trust Fund. (Only a relatively small amount of general revenue is currently appropriated for trial court judicial salaries.) The result of this shift in funding is that the state courts system receives approximately 90% of its funding through trust and 10% through general revenue compared with general revenue funding of 92% in Fiscal Year 2008-09. The State Courts Revenue Trust Fund offers the court system a reliable, stable source of revenue that has a chance to grow over time and to offer the branch greater budget flexibility. However, the spike in mortgage foreclosure filings is responsible for 80 percent of the branch's State Courts Revenue Trust Fund revenues; since these filings will, at some point, return to normal levels, this revenue source represents only a temporary solution for court funding.

Equity and Access:

Justice requires that the court system be open and accessible to all, respect the dignity of every person and include judges and court staff that reflect the community's diversity. The court system must continue to conduct self-evaluations and advance efforts to eliminate from court operations bias that is based on: race; gender; ethnicity; age; disability, pursuant to Title II of the Americans with Disability Acts of 1990 (ADA); socioeconomic status; or any characteristic that is without legal relevance.

As courts continue to seek new efficiencies through the introduction of technologies, such as electronic filing and increased reliance on the Internet for the promulgation of court-related information, the needs of Floridians who are unable to access or use such technologies must be carefully considered and accommodated.

The ability to provide access requires that the courts network capabilities are fully funded and allow for statewide implementation. This network communication capacity is critical to support the move toward web-based applications and availability of court data both internally and external to the courts.

Independence and Interdependence:

The independence of the courts in the adjudication of cases and the administration of the court system is a cornerstone of American jurisprudence. It is equally important to recognize that the three branches of our government are jointly responsible for a well-functioning justice system. The judicial branch must demonstrate leadership by being organizationally responsive and administratively accountable, while ensuring that justice in Florida is accessible, fair, and effective; the legislative branch provides sufficient resources, to the extent it is able, in order to protect the independence and functioning of the judicial branch; and executive branch agencies collaborate with the courts to create effective partnerships in areas where both have unique but complementary roles, as in cases involving victims of crime, dependent or delinquent children, families in crisis, and persons with substance-abuse problems.

The transition to state funding has not lessened the importance of the courts' relationships at the local level. County funding and resources remain critical to the proper functioning of the trial courts; chief judges and trial court administrators will continue to work with their counties to ensure that the necessary county resources are available. Local inter-branch relations are complicated by the fact that the independently elected clerk of court has dual roles – providing services integral to judicial branch operations and performing executive branch functions for the county. The courts will need to work closely with the clerks to ensure that the proper flow of case maintenance functions and meaningful access to the courts for pro se litigants are maintained.

Accountability:

The judicial branch will be accountable to the people of Florida for the expenditure of public funds and the efficiency of judicial operations.

The viability of Florida's justice system depends on those who use the courts and what they think about how the courts do their work. Article II, section 19 of the Florida constitution requires that the judicial branch develop a quality management and accountability program. As the trial courts continue to change the way they do business as a result of the transition to state funding, the Commission on Trial Court Performance and Accountability will be key to guiding the branch's efforts to ensure proper management of and accountability for trial court services. Likewise, the Commission on District Courts of Appeal Performance and Accountability must continue to develop and implement a high quality performance measurement system for the district courts.

The capacity for implementing and sustaining performance and accountability mechanisms is critical to understanding and improving court performance. Trial courts, in particular, will need to continue to find ways to meet the increasing demand for improvement and accountability. Development of an electronic management system that encompasses functions such as case and resource management is extremely important.

Responsiveness:

The governance and management infrastructure of the courts must be responsive to the needs of the people.

Courts have always been involved in resolving disputes and solving problems. Nationally, courts have acknowledged an increasing number of diverse expectations for the courts' role in society and have responded by creating problem-solving courts exemplified by the drug courts and mental health courts.

The judicial branch in Florida recognizes that the administration of justice is its priority. Florida's unified court system must continue to identify and eliminate real or perceived bias in court access or operations and administer justice in all cases – whether it is assigning proper criminal sanctions in criminal cases, establishing that one person or entity owes another in civil cases, protecting vulnerable persons, rendering equity in domestic relations cases, assuring the integrity and credibility of judicial authority by enforcing court orders, or correcting harmful errors through the appellate system.

- 1. Statistics may fluctuate significantly from year to year due to many factors. The severity of the fluctuations is greater in the case types with low volume.
- 2. The "Clearance Rate" is a calculation of the number of cases disposed divided by the number of cases filed in the same year. The clearance rate has a reasonable ease of calculation, is a useful measure of the responsiveness of a court to the demand for services, and is nationally recognized as a measure of court performance.
- 3. Columns labeled as "Approved Standards" provide the final legislatively approved figures for the budget year identified.
- 4. The "Requested FY 2011-12" column corresponds to the official Judicial Branch Legislative Budget Request for FY 2011-12 and does not represent a goal for the court. It is simply an estimate of the amount of activity expected to occur during FY 2011-12. However, due to the continued impact of budget cuts, Requested FY 2011-12 cannot be predicted at this time.

- 1. Requesting the Approved Performance Measure, "Number of jurors who serve," be removed from Court Operations Trial Court. The budget related to this measure has been moved to the Clerks of Court.
- 2. Statistics may fluctuate significantly from year to year due to many factors. The severity of the fluctuations is greater in the case types with low volume.
- 3. The "Clearance Rate" is a calculation of the number of cases disposed divided by the number of cases filed in the same year. The clearance rate has a reasonable ease of calculation, is a useful measure of the responsiveness of a court to the demand for services, and is nationally recognized as a measure of court performance.
- 4. It is often impossible for county courts to reach a "Clearance Rate" of 100% due to factors such as defendants failing to appear, civil proceeding participants not following through after filings, etc.
- 5. At this point in time, all data are not available for trial court activity in FY 2009-10. Therefore, the "Prior Year Actual FY 2009-10" statistics are estimates based on the most available data.
- 6. Columns labeled as "Approved Standards" provide the final legislatively approved figures for the budget year identified.
- 7. The "Requested FY 2011-12" column corresponds to the official Judicial Branch Legislative Budget Request for FY 2011-12 and does not represent a goal for the court. It is simply an estimate of the amount of activity expected to occur during FY 2011-12. However, due to the continued impact of budget cuts, Requested FY 2011-12 cannot be predicted at this time.

Associated Activities Contributing to Performance Measures

LRPP Exhibit V

LRPP Exhibit V: Identification of Associated Activity Contributing to Performance Measures								
Measure Number	Approved Performance Measures for FY 2010-11 (Words)	Associated Activities Title						
1	Number of cases supported	SUPREME COURT LIBRARY						
2	Number of records maintained	COURT RECORDS AND CASE FLOW MANAGEMENT						
3	Number of square feet secured	SECURITY						
4	Number of square feet maintained	FACILITIES MAINTENANCE AND MANAGEMENT						
5	Number of cases disposed (all case types)	JUDICIAL PROCESSING OF CASES						
6	Number of contact hours	JUDICIAL AND COURT STAFF EDUCATION						
7	Number of professionals certified	PROFESSIONAL CERTIFICATIONS						
8	Number of analyses conducted	COURT OPERATIONS AND ACCOUNTABILITY						
9	Number of cases analyzed	CASE PROCESS ANALYSIS AND IMPROVEMENT						
10	Number of complaints disposed	DISPOSITION OF COMPLAINTS AGAINST THE JUDICIARY						

Judicial Branch State Court System

Judicial Branch – Florida State Courts System Long-Range Program Plan Fiscal Years 2011-12 through 2015-16

GLOSSARY OF TERMS

Circuit Court

The circuit courts of Florida protect and declare the rights and responsibilities of the people, uphold and interpret the law, and provide a forum for the just and peaceful resolution of legal and factual disputes. Circuit courts have general trial jurisdiction over matters not assigned by statute to the county courts and also hear appeals from county court cases. The jurisdiction of circuit courts includes original jurisdiction over civil disputes involving more than \$15,000; controversies involving the estates of decedent, minors, and persons adjudicated to be incapacitated; cases relating to juveniles; criminal prosecutions for felons; tax disputes; actions to determine the title and boundaries of real property; and suits for declaratory judgments. There are 20 circuit courts.

County Court

The county courts of Florida protect and declare the rights and responsibilities of the people, uphold and interpret the law, and provide a forum for the just and peaceful resolution of legal and factual disputes. The jurisdiction of the county courts extends to civil disputes involving \$15,000 or less. The majority of non-jury trials in Florida take place before one judge sitting as a judge of the county court. Most of the court's time is involved with traffic offenses, less serious criminal matters (misdemeanors), and relatively small monetary disputes. There are 67 county courts.

Florida District Court of Appeal

The District Courts of Appeal of Florida provide the opportunity for thoughtful review of decisions of lower tribunals by multi-judge panels. District Courts of Appeal correct harmful errors and ensure that decisions are consistent with rights and liberties. The process contributes to the development, clarity, and consistency of the law. There are five district courts of appeal.

Florida Supreme Court

The Supreme Court is the court of last resort in Florida. The Court clarifies Florida law, ensures that district court decisions throughout the state are consistent, and ensures that court decisions at all levels of the state courts are consistent with rights and liberties.

Judicial Qualifications Commission

The Judicial Qualifications Commission investigates and prosecutes Florida judges who are charged with misconduct or with having a mental or physical disability which seriously interferes with the performance of judicial duties and, when appropriate, recommends disciplinary action to the Supreme Court of Florida.

Office of the State Courts Administrator

The purpose of the Office of the State Courts Administrator is to assist the chief justice in the administrative supervision of Florida's appellate and trial courts and to support the chief judges in their role as managers of their respective courts by providing professional expertise and guidance to promote effective, efficient, and accountable court services for Florida's judicial branch.
