I. EXECUTIVE SUMMARY

Requirement and Purpose

The 2012 State Facilities Inventory (SFI) provides summary-level information of state-owned facilities, as prescribed in section 216.0152, Florida Statutes. The SFI is a collection of facility information provided to the Department of Management Services (DMS) by state agencies, the judicial branch, water management districts (WMD), and Florida colleges and universities. Each state government entity verified and submitted the information provided in this report, and each entity is responsible for the accuracy of the information provided.

The complete 2012 inventory, including facility names, location, space type, operating costs, and other pertinent information is available on the DMS Division of Real Estate Development and Management website: (http://www.dms.myflorida.com/business_operations/real_estate_development_management/facilities_management/state_facilities_inventory_tracking).

Facilities Inventory System

Since 1985, DMS has maintained a program to collect information on state-owned facilities. Section 216.0152, Florida Statutes, originally required that DMS collect information on state agency facilities over 3,000 square feet. This original inventory consisted of approximately 4,000 facilities.

In the 2010 Legislative Session, extensive changes were made to sections 216.0152 and 216.0153, Florida Statutes. Section 216.0152, Florida Statutes, now requires agencies to report to DMS information on all state-owned facilities, regardless of size. Statute now requires any agency of the state, the judicial branch, and the water management districts to report facility information to DMS, increasing the scope of the SFI from 4,000 facilities to approximately 20,000 facilities.

Statute has expanded the facility data elements DMS is required to collect from state government entities. In past inventory reports, DMS collected only basic facility information, such as the building address and square footage. DMS now receives detailed information, including but not limited to, operating expenses, space uses, tax roll-assessed values, building restrictions and lease revenues. This information helps DMS and state government entities conduct strategic analyses of state-owned assets.

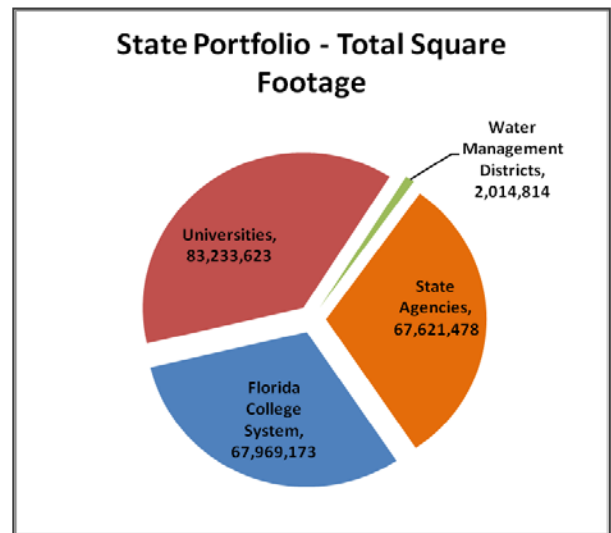

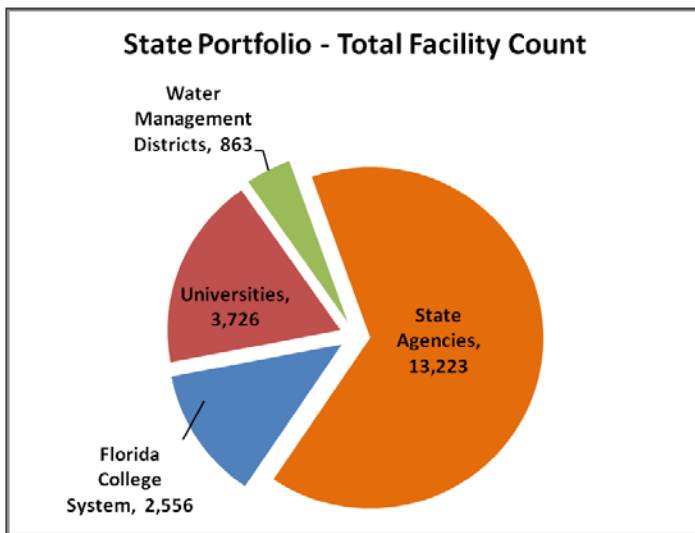

Section 216.0153, Florida Statutes, requires the Department of Environmental Protection to create a comprehensive database of all state-owned real property. This system, the Florida State Owned Lands and Records Information System (FL-SOLARIS), is comprised of two major components, the Facility Inventory Tracking System (FITS) and the Land Inventory Tracking System (LITS). FL-SOLARIS (FITS) provides the ability to use web forms to edit and view owned facilities. Lease data migration and data extract functionality were added in April 2012. In June and July 2012, all facility data was successfully verified and entered at a 100 percent success rate, allowing for our annual snapshot of facility data and year-end processing to be successfully completed. FL-SOLARIS (LITS) is expected to go into production in February 2013 and will provide similar functionality related to owned land.

II. SUMMARY OF OWNED INVENTORY

Section 216.0152, Florida Statutes, defines a facility as “*buildings, structures, and building systems, but does not include transportation facilities of the state transportation system.*” In the 2012 SFI instructions to the agencies, DMS further defined a facility as any constructed asset with a permanent roof.

Agencies reported the following in FL-SOLARIS:

- The State of Florida owns 20,368 structures totaling 220,839,088 square feet. This portfolio includes facilities owned by state agencies, water management districts, the Florida College System, and the Statewide Board of Governors (universities).

- State agencies own 13,223 facilities, totaling 67,621,478 square feet.
 - Agencies own facilities in all 67 counties with Alachua County having the most in count (1,624), Leon County having the most in square footage (28,682,335), and Glades County the fewest in both count (48) and square footage (39,475).
 - Agencies reported 555 candidates for disposition, totaling nearly 3 million square feet.
 - The average age of all agency-owned facilities is 29 years, and there is approximately \$669 million in identified capital improvement projects¹.
 - Agencies reported approximately \$311 million in operating expenses for this reporting cycle and \$142 million in utility expenses.

¹ Capital Improvement Projects include known needed repairs or upgrades such as building envelope, HVAC and plumbing improvements.

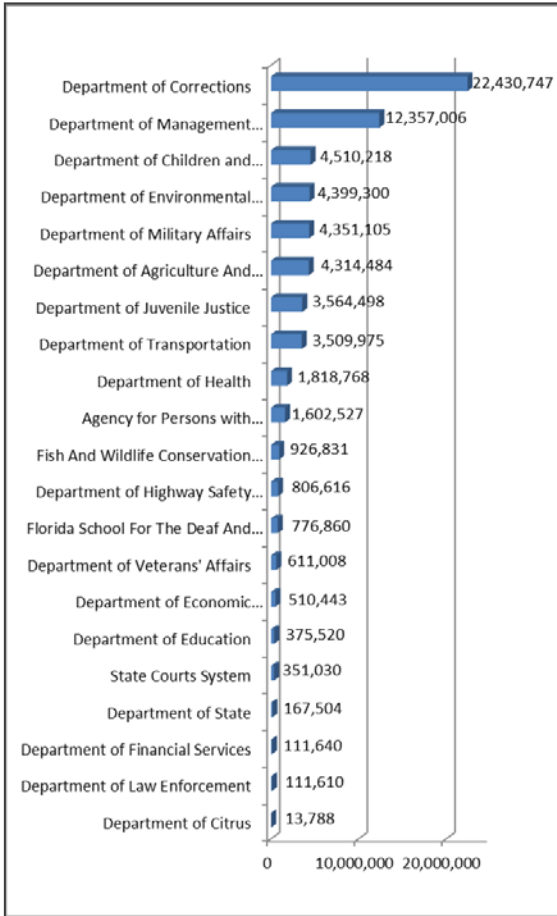

State-Owned Portfolio

The following table summarizes state government entity by total number of facilities and total square footage for all space types. It also provides the percentage of the total inventory based on the total number of facilities and the total square footage of all facilities.

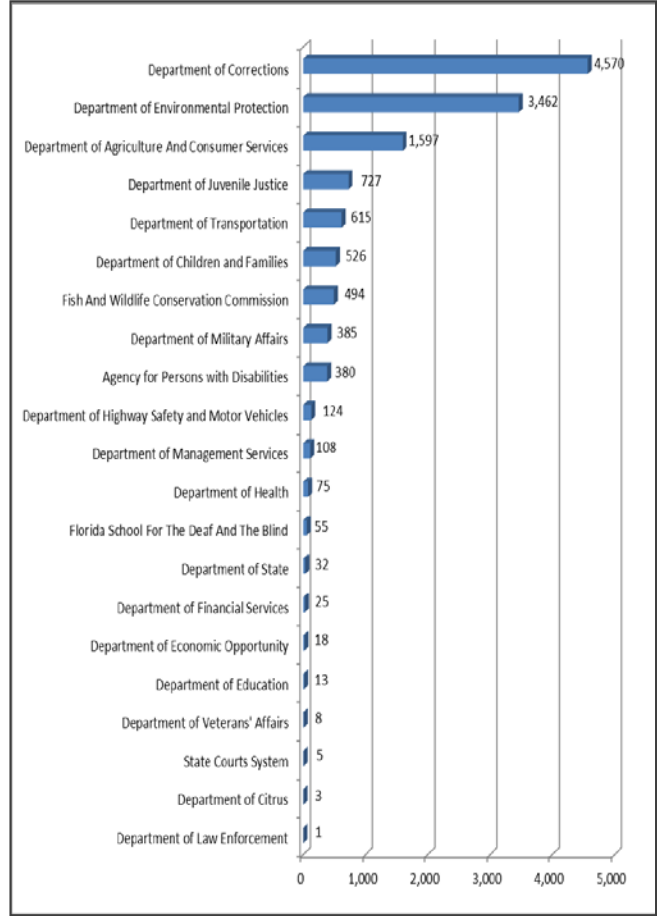

State Agency	Facility Count	Facility Count as Percent of Total Inventory	Gross Square Footage	Square Footage as a Percent of Total Inventory
State Agencies	13,223	64.92%	67,621,478	30.62%
Agency for Persons with Disabilities	380	1.87%	1,602,527	0.73%

State-Owned Facility Portfolios by Size

The chart below displays each state government entity's square footage footprint as a percentage of the total inventory.

Owned Facilities by Square Footage

All Other Agencies includes:

- Agency for Persons with Disabilities
- Department of Citrus
- Department of Economic Opportunity
- Department of Education
- Department of Financial Services
- Department of Health
- Department of Highway Safety and Motor Vehicles
- Department of Law Enforcement
- Department of State
- Department of Veterans' Affairs
- Fish And Wildlife Conservation Commission
- State Courts System

State-Owned Facilities by County

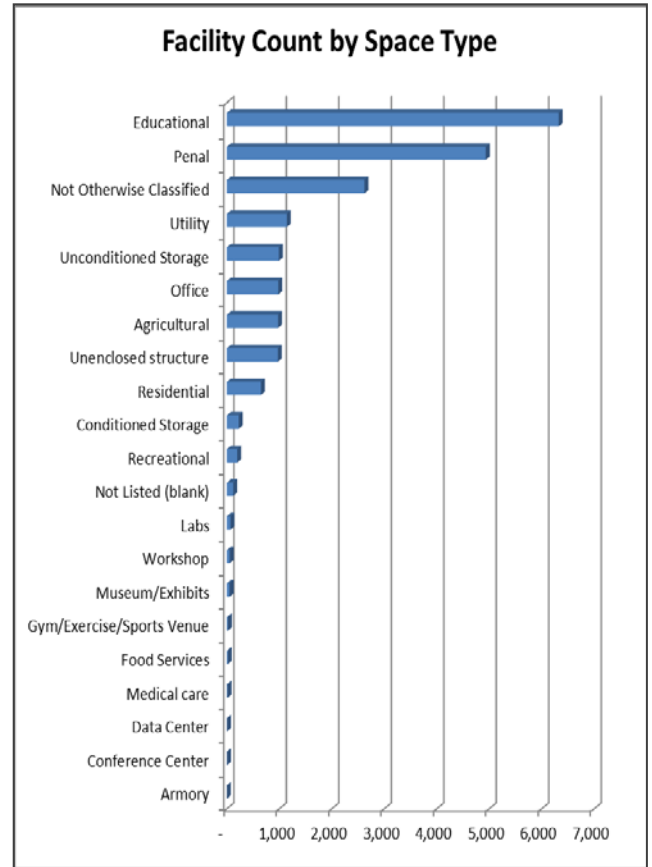

The table below lists facilities by county, facility count, and total gross square footage.

County	Facility Count	Total Gross SF	County	Facility Count	Total Gross SF
Alachua	1,624	24,281,902	Lee	387	6,067,710
Baker	203	1,052,719	Leon	950	28,682,335

State-Owned Facilities by Space Type

The table below lists the total number of facilities and total gross square footage of the state's portfolio by predominant space type. As the tables illustrate, the most widely used space type is educational.

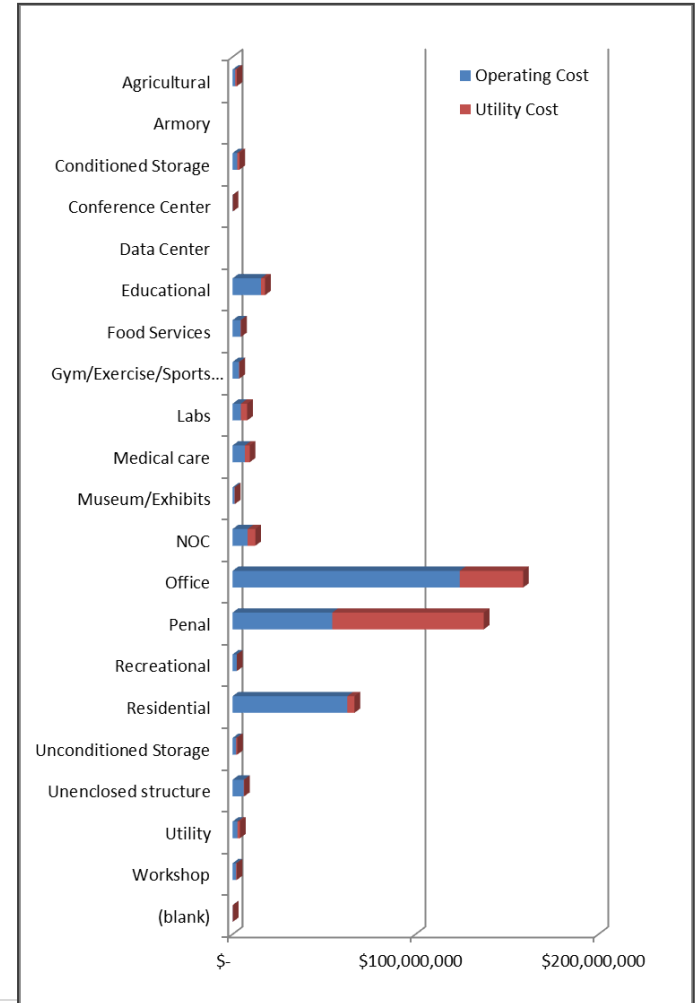

Predominant Space Type	Facility Count by Space Type	Gross SF
Armory	1	120
Conference Center	5	54,413
Data Center	5	87,823
Medical care	13	654,293
Food Services	17	135,085
Gym/Exercise/Sports Venue	20	536,360
Museum/Exhibits	53	221,897
Workshop	55	221,367
Laboratory	68	953,529
Not Listed (blank)	119	940,613
Recreational	196	360,519
Conditioned Storage	225	2,984,542
Residential	649	3,865,933
Unenclosed structure	972	6,329,226
Agricultural	977	3,110,007
Office	978	17,087,594
Unconditioned Storage	991	1,467,922
Utility	1,144	1,027,731
Not Otherwise Classified	2,620	5,966,506
Penal	4,935	25,704,144
Educational	6,325	149,129,464
Grand Total	20,368	220,839,088

State-Owned Facility Operating and Utility Expenses by Space Type

The chart below depicts the total spent by state government entities on operating expenses by space type. This chart excludes partially reported cost data for the Board of Governors (universities), Florida College System, and Water Management Districts.

Predominant Space Type	Facility Count	Gross SF	Operating Cost	Average Operating Cost/SF	Utility Cost	Avg. Utility Cost/SF
Agricultural	968	3,094,102	\$ 1,530,823	\$ 0.49	\$ 802,268	\$ 0.26
Armory	1	120		\$ -		\$ -
Conditioned Storage	217	2,929,572	\$ 2,599,037	\$ 0.89	\$ 1,155,495	\$ 0.39
Conference Center	4	17,742	\$ 85,407	\$ 4.81	\$ 40,812	\$ 2.30
Data Center	2	46,105		\$ -		\$ -
Educational	203	1,590,425	\$ 15,524,812	\$ 9.76	\$ 2,304,071	\$ 1.45
Food Services	14	123,750	\$ 4,418,571	\$ 35.71	\$ 287,897	\$ 2.33
Gym/Exercise/Sports Venue	5	58,035	\$ 3,614,019	\$ 62.27	\$ 143,082	\$ 2.47
Labs	63	892,639	\$ 4,527,971	\$ 5.07	\$ 3,483,412	\$ 3.90
Medical care	12	645,350	\$ 6,740,699	\$ 10.45	\$ 2,649,730	\$ 4.11
Museum/Exhibits	49	201,092	\$ 1,100,691	\$ 5.47	\$ 227,690	\$ 1.13
NOC	2,111	5,278,866	\$ 8,207,141	\$ 1.55	\$ 4,249,267	\$ 0.80
Office	902	16,127,926	\$ 124,189,343	\$ 7.70	\$ 34,675,689	\$ 2.15

State-Owned Facility Deficiency Summary

A building deficiency is any known building repair or improvement. Examples include chiller replacements or roof repairs. The table below identifies the number of agency-reported deficiencies by category and an estimated cost. Data reported includes three universities and three water management districts.

For a full list of agency-reported facility deficiencies, see **Appendix 1 - Facility Deficiencies as of June 30, 2012.**

Deficiency Category	Number of Deficiencies by Category	Estimated Cost of Deficiencies
Code and Licensure	255	\$26,720,147
Electrical	334	\$47,130,042
Envelope	530	\$178,460,600
General	564	\$26,332,804
HVAC	618	\$124,945,189
Interior	1,030	\$112,684,893
Plumbing	319	\$22,436,240
Roofing	1,008	\$60,933,475
Site	344	\$22,951,529
Special	172	\$22,594,713
Structure	204	\$23,417,104
Grand Total	5,378	\$668,606,736

State-Owned Facilities Suitable for Emergency Shelter

As identified in section 252.385, Florida Statutes, it is the intent of the Legislature that Florida does not have a deficit of safe public hurricane evacuation shelter space in any region of the state. DMS is required to compile a list of state-owned facilities, listed by county and municipality, that have unoccupied space suitable for use as an emergency shelter during a storm or catastrophic event. Suitable facilities have at least 2,000 square feet of net floor area in a single room or in a combination of rooms having a minimum of 400 square feet in each room. This list is updated by May 31 of each year and included in the SFI.

See **Appendix 2 – State-Owned Facilities Suitable for Emergency Shelter** for the list of identified vacant space suitable for emergency shelter.

Judicial Branch - Fourth District Court of Appeal - Palm Beach County

III. NEXT STEPS

The SFI has changed dramatically over the past two years with the addition of new agency-reported facilities and data elements. FL-SOLARIS is proving to be a valuable tool for all agencies with data improving each year. Agencies utilized the new tool for the 2012 data validation requirement and made great progress toward providing a more accurate picture of the state's owned portfolio. DMS continues to work with agencies to develop better analysis of reported data to make fact-based, data-driven decisions on managing the state's valuable assets.
