## I. INTRODUCTION

### A. BACKGROUND

Section 112.665(1)(d), Florida Statutes, provides that the Department of Management Services (DMS or department) shall:

"Issue, by January 1 annually, a report to the President of the Senate and the Speaker of the House of Representatives, which report details division activities, findings, and recommendations concerning all governmental retirement systems. The report may include legislation proposed to carry out such recommendations;"

Within DMS, the Local Retirement Section (section) of the Division of Retirement (division), issues this annual report. This is the 32<sup>nd</sup> annual report published since the establishment of the local government retirement systems review function, pursuant to section 112.63, Florida Statutes, to ensure that local government retirement plans are funded on an actuarially sound basis. The number of defined benefit local government retirement plans has increased from 355 in 1981 to 492 in 2012.

The section monitors and oversees 492 municipal and special district retirement plans and school boards' early retirement programs for actuarially sound funding (67 of which are closed to new members). These plans provide retirement, death, and/or disability benefits to 78,975 retirees, beneficiaries, DROP participants, and vested terminated participants. Active plan membership for municipalities and special districts retirement plans is 102,636. School board early retirement program active plan membership is 8,631. Total plan assets were valued at approximately \$23.8 billion for the municipalities and special districts, and \$63.7 million for the school boards' early retirement programs, as of September 30, 2012.

In addition to publishing the "Local Government Retirement Systems Annual Report," other specific responsibilities of the section include the following:

- Review and comment on actuarial valuations, impact statements, and reports submitted by local governments, special districts, and school boards;

- Determine if actuarial reports are timely, complete, accurate, and based on reasonable assumptions;
- Gather and catalog data to maintain a computerized data information system on all public employee retirement systems;
- Cooperate with local retirement systems on matters of mutual concern by providing technical assistance when requested;
- Provide a fact sheet for each local government defined benefit pension plan summarizing the plan's actuarial status, to be posted on the department's website;
- Issue a report to the Department of Economic Opportunity (Special District Information Program) regarding special district pension plans and their compliance with the local government and state-administered retirement provisions as required by section 112.665(1)(f), Florida Statutes; and,
- Adopt reasonable rules to administer the provisions of Chapter 112, Part VII, Florida Statutes.

## **B. SCOPE OF REPORT**

In compliance with section 112.665, Florida Statutes, this report:

1. Details the activities of the division in overseeing the provisions of Chapter 112, Part VII, Florida Statutes;
2. Highlights the status of local government retirement systems; and
3. Provides inventories of municipalities, special districts, and school boards and the types of retirement options offered by those entities; and, also provides data from the section's computerized information system.

## Footnotes

- (1) Some pension systems purchase annuities from insurance companies at the time of an employee's retirement. Following retirement, these individuals are not reported to the section.
- (2) Depending on the individual retirement system, all or some of the annual contributions could be borne by the local government sponsor, the employees, or other sources (such as state disbursements through Chapters 175 or 185, Florida Statutes, for eligible fire and police pension plans).
- (3) This percentage is calculated by dividing the aggregate Annual Required Contributions by the aggregate Sponsor Payrolls for all plans. The percentage of payroll actually contributed may be higher than the reported amount. This may be attributed to several contribution practices: the total required annual contribution is not normally paid in a lump sum at the beginning of a plan year, so an interest factor must be applied; sponsors contribute the amount determined by multiplying the contribution rate and the applicable payroll; the contributions to a police or fire plan from state revenues may exceed the required annual contribution, or a plan sponsor may elect to pay in excess of the minimum requirement.
- (4) The benefits provided by the various school boards' early retirement programs are available only to employees who reach age 50 and complete 25 years of service, and who are not eligible for normal retirement. Several school boards further limit the age and service requirements. Included in the total amount reported are employees who currently fail, or in the future will fail, to satisfy the requirements for benefit eligibility. The actuarial valuation process determines the liability and cost for the employees who are, or who become, eligible for the benefit from among each applicable board's total employee population.
- (5) There may be additional school board programs for which sufficient data is not yet available.

Florida's local government retirement plans had mixed results in 2012. The number of active employees in municipal and special district defined benefit plans changed by -3.67 percent, but the number of retirees, beneficiaries, Deferred Retirement Option Program (DROP) participants, and vested terminees changed by +11.79 percent. Covered employees' payroll changed by -3.04 percent and contributions made to those retirement plans changed by +11.56 percent. The average annual retiree pension for municipal and special district retirement plans is now \$25,109. Asset values for local government retirement plans changed by -0.64 percent to \$23.8 billion.

Florida's school board early retirement programs measurements also had mixed results in 2012. Active employee membership changed by +0.21 percent, while school board early retirement plan retirees and vested terminees changed by +1.67 percent. The average annual retiree supplemental pension is now \$4,977. Asset values for school board plans changed +8.44 percent.

A total of 313 municipal and special district pension plans offer participants a DROP plan.

### **Data Collection**

Included in the Data Collection section is information relating to defined benefit pension plans' finances, benefits, market value of assets, active employee and retired memberships, funding methods and assumptions, and funding ratios. This section also includes inventories of municipal, special district, and school board retirement plans.

## B. LOCAL GOVERNMENT RETIREMENT SYSTEMS FACTS & TRENDS

The section collects and retains information on the benefits Florida's local government defined benefit plans provide. The information collected includes data such as the retirement benefit accrual rate, the formula for determining the normal retirement benefit, the number of years included in the average final compensation determination, the vesting requirement, the normal retirement requirement, any offering of cost-of-living adjustments, death and disability benefit descriptions, early retirement provisions, and other benefit-related information. From this data (as of September 30, 2012), the following information identifies benefits and other statistical information:

### 1. Local Government Retirement Systems by Employee Group As of September 30, 2012

\* A city may operate several plans for general employees, police officers, firefighters, elected officials, and utility employees; or there may be various combinations of these plans. There are 410 incorporated cities in Florida, with 337 sponsoring at least one type of retirement system (defined benefit or defined contribution). As of September 30, 2012, the section's count of municipal defined benefit retirement systems (including special district, county, and school board early retirement plans) is 492.

**2. Number of Defined Benefit Pension Plans  
Five Years Ended September 30, 2012**

**3. Municipal & Special District Retirement Systems' Active Employees

**4. Municipal & Special District Retirement Systems'

**5. Percentage of Plans Offering Cost of Living Adjustments (COLAs)  
Five Years Ended September 30, 2012**

**6. Percentage of Plans Offering Disability Benefits  
Four Years Ended September 30, 2012 \***

\* Data unavailable before 2009.

**7. Percentage of Plans Offering Early Retirement Benefits  
Five Years Ended September 30, 2012**

**8. Local Government Retirement Systems'  
Benefit Accrual Rates \*  
as of September 30, 2012**

\* The product of the retirement benefit rate or annual accrual rate, the number of years of service, and the member's average final compensation determines the member's benefit. Current local retirement plan data shows that the annual retirement benefit rate for all local retirement plans ranges from 1 percent to 5 percent. The most common benefit accrual rates are between 2 and 4 percent, and also variable accrual rates. The variable retirement benefit rates vary with service credit dates, hire dates, employee contribution (if variable), or the particular benefit program (if options are presented).

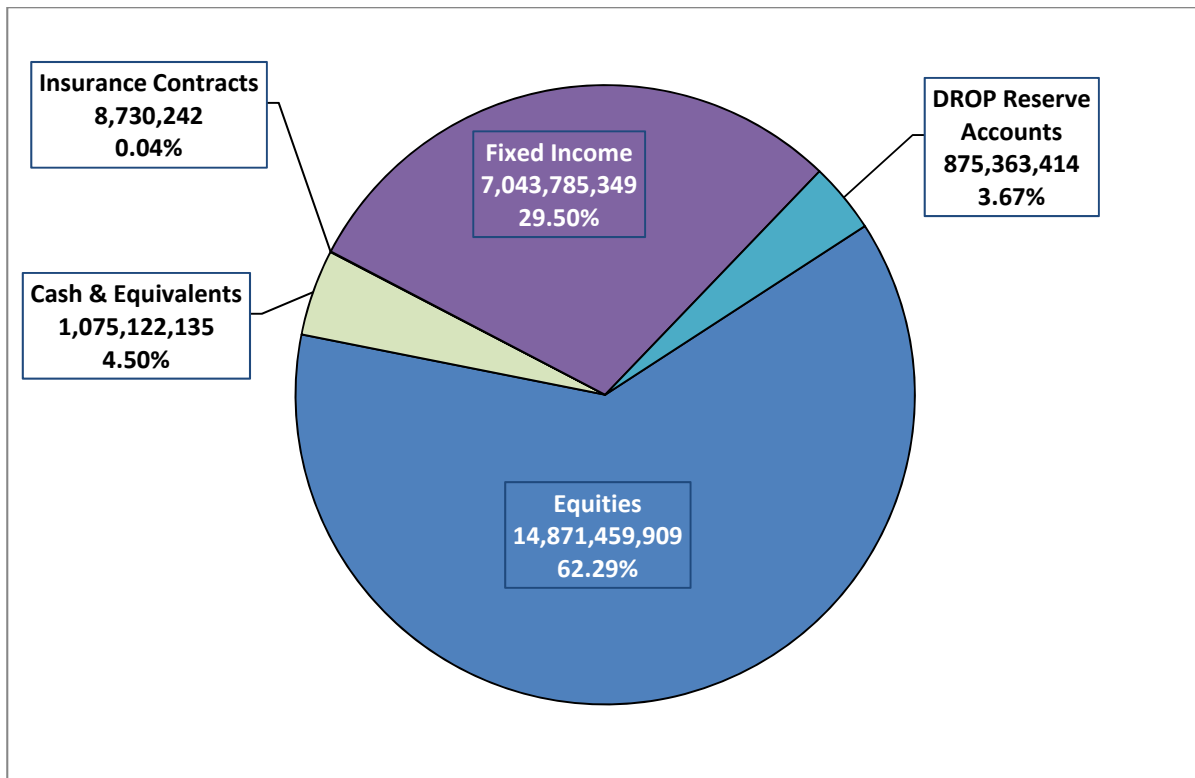

**9. Frequency of Average Final Compensation (AFC) Periods  
as of September 30, 2012**

APPENDIX B

BENEFIT DATA

The Benefit Data listing is in two parts because two "form types" are required by the software system to capture all the applicable information.

Each defined benefit plan will be listed with information on "Benefit Data - Form Type C" first. This first print-out includes such information as annual benefit accrual rate, number of years used in computing AFC, normal retirement age, normal form of benefit payment, whether there is a vesting provision, and whether there is an automatic COLA in the plan. Each defined benefit plan is then again presented under a heading "Added Benefit Data - Form Type G", which includes information on disability, death, and early retirement benefit provisions.

- ERP = Early Retirement Program

Retirement Benefit

Percent of Average Final Compensation (AFC), Average Monthly Earnings (AME), Final Average Compensation (FAC), or Average Annual Earnings (AAE) which is earned with each year of service.

Retirement Benefit Description

The usual formula for determining what a final benefit at retirement would be is to multiply (1), (2), and (3) where:

- (1) = percent of AFC earned each year
- (2) = AFC, AME, FAC, or AAE
- (3) = service credit (years of service)

AFC

The number of years used in determining the AFC, e.g., "05" could be either average of best 5 years service or last 5 years of service.

- 99 = Career average
- AL = All years of service used
- VR = Varies - may vary with hire date

Normal Retirement Age YR

Normal retirement age

Normal Retirement Age Description

Describe requirement for full pension, e.g., attained age of 65 years with 10 years of service (65 w/10 SC).

Normal Form of Benefit N

Number of type of benefit - option 1, 2, 3, 4, or 5 (see below)

Normal Form of Benefit Description

There are five types of benefit payment forms:

1. Life Annuity
2. Life Annuity w/10 years certain
3. Joint and survivor
4. Single Sum
5. Other

V  
S

Vesting  
Y - Yes  
N - No  
P - Partial

A "yes" response indicates that prior to completion of normal retirement age and credit, members have rights to benefit computed on years of service.

"No" indicates members must complete requirements (i.e., 30 years of service) or lose all rights to any benefits.

"Partial" indicates a vesting schedule (i.e., 20% of benefit with 3 years of service, 40% with 6 years of service, etc.).

COL

Indicates whether the plan has an automatic cost-of-living provision for retirees.  
YES  
NO or blank = Not Available

## **SCHOOL BOARD EARLY RETIREMENT PROGRAMS (ERP)**

Sections 1012.685 and 1012.87, F.S., allow school boards and community colleges to supplement the early retirement income payable from the FRS to retiring school personnel. The benefits provided are usually equal to the amount of the reduction in monthly benefits resulting from retirement under the FRS prior to age 62. The participant must have applied for FRS early retirement, in addition to the many other requirements, to be eligible for the early retirement benefit.

The following is an inventory of reporting school board early retirement programs with their effective dates and a brief description of the plan:

<b>School Board District</b>	<b>Effective Date</b>	<b>Plan Description</b>
Alachua County	01/01/84	Provides for benefits after participant is credited with at least 25 years of FRS service, and has attained age 55 to 61.
Hillsborough County (Closed)	08/01/84	Provides for benefits after completing 25, 26 or 27 years of FRS service, and attaining age 55, but less than age 60.
Martin County (Closed)	07/01/89	Provides for benefits on or after attaining age 51 and completing 25 years of service. Participant must retire within two (2) years of becoming eligible for the supplemental benefit to receive any benefits from this plan.
Miami-Dade County (Closed)	07/01/84	Provides for benefits upon retirement at any time on or after attaining age 55, but before the age of 62, and upon completion of 25, 26 or 27 years of FRS service.
Monroe County (Closed)	07/01/92	Provides for benefits on or after the attainment of age 55, but before age 62, and the completion of 25, but less than 30, years of creditable service.
Pasco County	07/01/83	Provides for benefits to participants who are at least age 50 but less than age 62 and with 25 or more years of service.
