Florida Communities Trust Letter from the Chair

Dear Floridians,

During the past 23 years, Florida Communities Trust (FCT) and its local partners have established a rich legacy of partnership and preservation with a diverse array of parks, greenways, urban green spaces, public beach access points and wildlife habitats. FCT continues to play a key role in meeting the needs of Floridians by investing in their communities and by incentivizing better comprehensive planning.

This year, FCT funds helped local governments acquire important properties including the City of Niceville's 67-acre addition to Turkey Creek Walk, St. Lucie County's 24-mile addition to Roberts Preserve and Pinellas County's more than 400-acre addition to Brooker Creek Preserve Wilde Lands. FCT complements other grant programs administered by the Florida Department of Environmental Protection including Florida Recreation Development Assistance Program, Land and Water Conservation Fund and the Recreation Trails Program.

Please take a few moments to learn more about Florida Communities Trust and the important work it is doing in communities throughout our great state. You may also find more information about the program by visiting www.floridacommunitiestrust.org.

Sincerely,

Herschel T. Vinyard Jr.
Chair, Florida Communities Trust Governing Board
Secretary, Florida Department of Environmental Protection

FLORIDA COMMUNITIES TRUST

What is the Florida Communities Trust?

Florida Communities Trust (FCT) is a multi-faceted program housed within the Florida Department of Environmental Protection's (DEP) Office of Operations. FCT began in 1991 under Preservation 2000 as a funding resource for local communities to buy land for the protection of natural and cultural resources, and the grant provision of recreational opportunities.

Over the last five years, FCT has been given a second grant program dedicated to the protection of Florida's traditional working waterfronts and has placed greater emphasis on stewardship and management oversight of a diverse collection of local and regional parks and working waterfronts. Today, FCT administers the Parks and Open Space and Stan Mayfield Working Waterfronts Programs, two competitive grant programs that have provided funding to local governments and non-profit organizations to assist them with their local land conservation efforts. Projects funded by FCT have fostered cultural and historical preservation, trail system development and public access to water. FCT has also furthered the outdoor recreation, natural resource protection and working waterfront needs identified in local government comprehensive plans.

representative of the development industry.

FCT is governed by a five-member board that includes the Secretary of DEP (who serves as permanent chair) and four members of the public appointed by the Governor. Appointees to the Board include a former elected official of a metropolitan municipality, a former elected official of a county, a representative of an environmental non-profit organization and a

FLORIDA COMMUNITIES TRUST MISSION AND ACCOMPLISHMENTS

Meeting Community Challenges

FCT helps communities further the goals of their local government land use plans through land acquisition and innovative non-regulatory solutions to the challenges inherent in the land planning process. After a project has been acquired, FCT continues to offer assistance, providing guidance with park development and management oversight through annual stewardship reporting and site visits.

The Spirit of Partnership

FCT is dedicated to working with communities across the state to acquire lands for recreation, open spaces and working waterfronts, fostering responsible stewardship of those lands once they have been purchased. While land acquisition grant funds are the result of partnerships between FCT and local communities, the projects often encourage local governments to work together during the acquisition process, and thereafter, for management of the properties as well. These joint efforts make it possible for communities to stretch state and local dollars further than they could on their own, distribute project management responsibilities and preserve locally significant lands.

Funding for the Trust

FCT is funded through the *Florida Forever* program and is the only state land acquisition program available exclusively for locally-selected projects. Once a project has been purchased, the grant recipient, not the state, holds title to the lands. Each recipient is then responsible for land stewardship and implementing a formal management plan which must be approved by FCT.

Promoting Economic Revitalization

Projects funded by FCT encourage ecotourism and often help spur economic revitalization in communities. The grant application process gives consideration to projects located in areas with special economic needs, including Florida Main Street Districts, designated low-income communities, Rural Areas of Critical Economic Concern and designated urban infill areas.

Preserving Florida's Cultural Gems

While the majority of FCT's projects protect precious natural resources, many also have historical and cultural value. Special emphasis is placed on preserving historical resources and has helped Florida's communities save dozens of sites with significance at the local, state and national levels.

Promoting Education

Education is an important part of conserving our resources, and with that in mind, FCT places a priority on projects with educational aspects, awarding points during competitive selection to those projects providing for onsite interpretative signs, educational classes and even environmental education centers.

Land Management and Stewardship

FCT continues to place a priority on land management and park development, which complements DEP's role as Florida's lead agency for environmental management and stewardship. Over the last 23 years, FCT has helped to acquire approximately 580 local and regional parks in various stages of development. While title is held by the local communities that receive funding, the deeds contain restrictions giving FCT management oversight. FCT grant recipients are also required to follow management plans and park development timelines, approved by FCT staff as part of the acquisition process.

As part of the ongoing effort to confirm proper stewardship and management at FCT parks, DEP staff conducted site visits during this last year. These visits reinforced awareness of the land management and park development requirements, and rewarded grant recipients who have fully developed their parks and who have demonstrated commitment to accomplishing successful outcomes by offering a relaxed stewardship reporting requirement from annual reporting to a five-year interval.

2014 Florida Forever Grant Application Cycle

In fiscal year 2013-14, FCT did not receive *Florida Forever* funds for acquisition. However, staff continued their efforts to preserve land for parks, open space and working waterfronts with funding received in prior years.

Conclusion

DEP staff and FCT Governing Board members will continue working with Florida's communities to strengthen relationships, encourage wise land management practices and assure all community responsibilities are met at each FCT-funded park to help to preserve more land for Florida's future parks, open spaces and working waterfronts.

CLOSINGS AND REIMBURSEMENTS

2013 - 2014

Brooker Creek Preserve Wilde Lands

Recipient: Pinellas County
Project Number: 11-020-FF1
FCT Grant: \$2,294,311.18
Local Match: \$3,743,349.82
Acres: 439.936

At approximately 8,700 acres, Brooker Creek Preserve is the largest natural area in Pinellas County. It consists primarily of forested wetlands and pine flatwoods.

Bordered by dense urban development, the Preserve provides both a unique refuge for native flora and fauna as well as an opportunity for citizens to explore the natural beauty of wild Florida.

The Preserve also serves to protect a significant portion of the Brooker Creek Watershed. A complex of hiking and equestrian trails provide visitors an opportunity to explore the Preserve's many ecosystems.

Roberts Preserve (North Fork)

Recipient: St. Lucie County
Project Number: 11-054-FF11
FCT Grant: \$403,868.50
Local Match: \$418,568.50
Acres: 24.25

The North Fork Phase IV Project was acquired by St. Lucie County as part of multi-agency efforts to protect the natural resources along and within the North Fork of the St. Lucie River. The 24 acre addition to the previous three FCT phases completes a significant gap within the

corridor. To date, more than 3,000 acres have been preserved along the North Fork and Ten Mile Creek by the City of Port St. Lucie, St. Lucie County, South Florida Water Management District, Audubon, DEP (Conservation and Recreation Lands Program) and DEP (FCT).

Proposed public use facilities include a self-guiding interpretive trail, canoe/kayak launch, picnic pavilion, wildlife observation platform, wildlife blind, shuffleboard court and parking area. The acquisition will provide an important connection and trailhead for a proposed 9.5 mile trail within the 18 mile long North Fork greenway.

Benefits of the project include the elimination of an ornamental plant nursery along the shores of a State Aquatic Preserve, eliminating the potential for groundwater contamination of herbicides, pesticides and fertilizers. A proposed reconnection of a historic oxbow will improve the overall water quality by

improving dissolved oxygen levels, while providing recreational use. The acquisition removes the residential development of the site with a potential of 50 individual homes adjacent to an Outstanding Florida Water. The project will protect important habitat along 1.2 miles of shoreline along the North Fork of the St. Lucie River.

***Turkey Creek Walk Phase IV
Ruckel Parcel***

Recipient: City of Niceville

Project Number: 11-015-FF11

FCT Grant: \$122,880.52

Local Match: \$40,960.18

Total Acres: 67.02

Acquired in 2014, Turkey Creek originates on federally protected reservation land. This land is part of Eglin Air Force Base, formally known as the Choctawhatchee Natural Forest which was established in 1908. The property has protected plants and animals, is spring fed and joins to Juniper Creek, which is approximately one-mile north. This acquisition, made possible by a FCT Parks and Open Space Grant, creates a buffer to ensure commercial and residential developments will not encroach upon the military reservation. Moreover, this purchase helps protect the water quality and flow of more than 150,000 gallons per minute of fresh water distributing daily from this stream into Boggy Bayou.

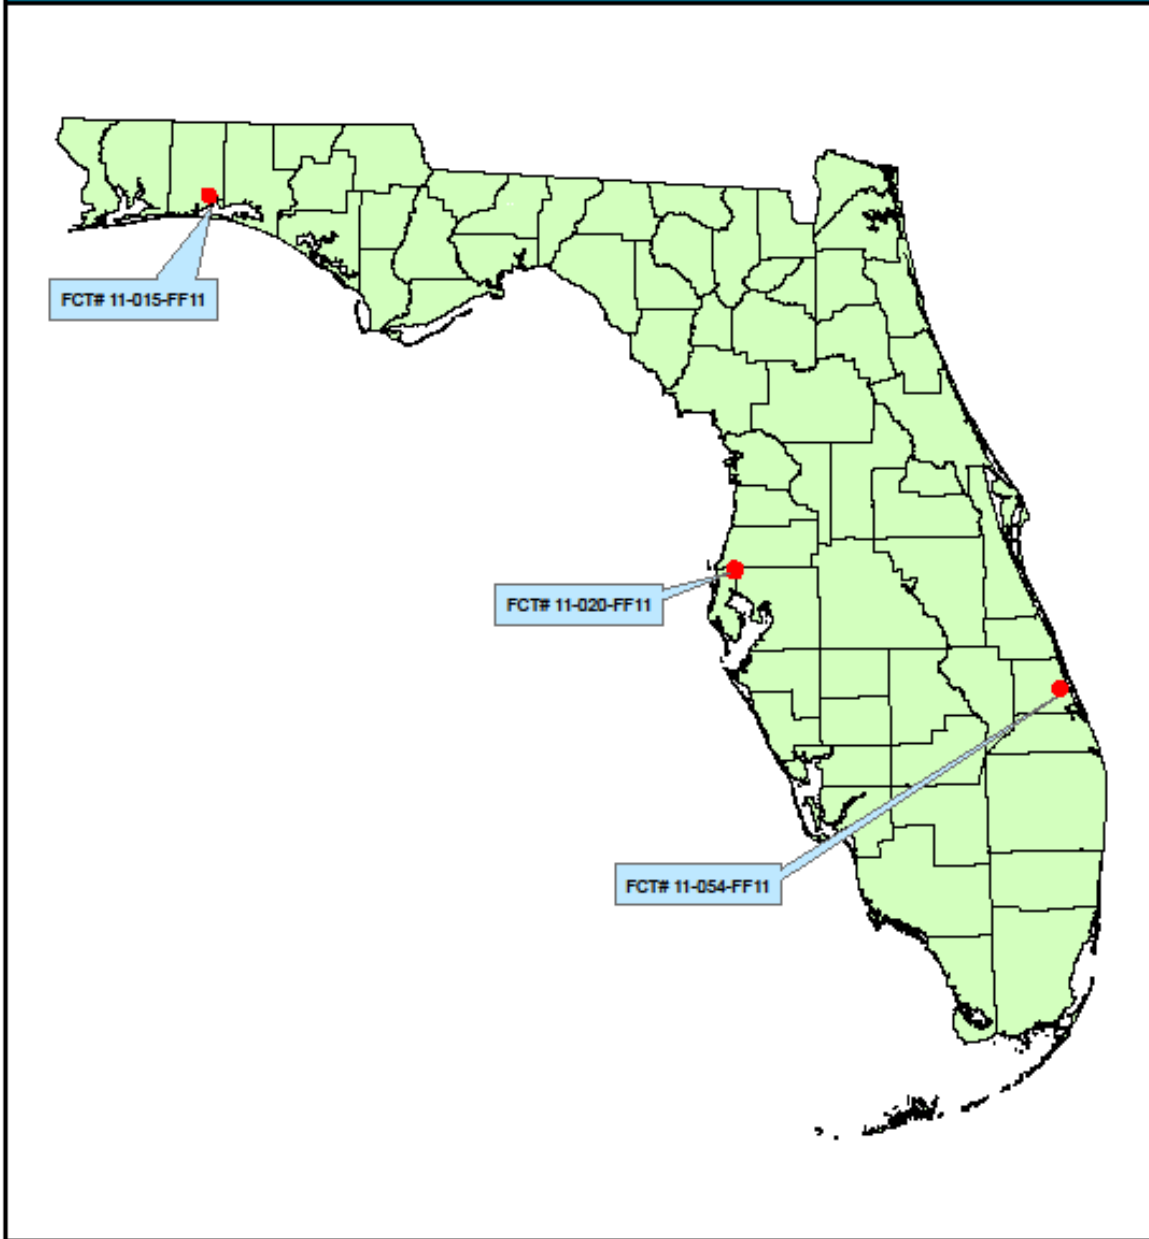

The City of Niceville is committed to providing recreation activities such as swimming, canoeing, kayaking, hiking and authentic outdoor educational opportunities on this base buffer parcel. The City is working in coordination with local schools, Eglin's Jackson Guard Forest Station, state and federal environmental organizations and the public to keep Turkey Creek in its natural state forever.

FLORIDA COMMUNITIES TRUST BOARD MEMBERS

Herschel T. Vinyard Jr.

On January 3, 2011, Governor Rick Scott appointed Mr. Herschel T. Vinyard Jr. as Secretary of the Florida Department of Environmental Protection. Appointed to lead one of the most diverse state agencies in Florida, Secretary Vinyard oversees Florida's environmental regulatory programs; the acquisition, conservation and management of public lands; and the protection of Florida's water resources through DEP's water quality efforts and oversight of the state's five water management districts.

Secretary Vinyard's top priorities for the agency include creating a more consistent and efficient regulatory process, ensuring the protection of Florida's diverse water bodies and maintaining the state's legacy of an award-winning state park system. Secretary Vinyard brings more than 20 years of experience in environmental law and business management to DEP.

In his previous role as Director of Business Operations at BAE Systems Southeast Shipyards, the world's second largest defense contractor, Secretary Vinyard was responsible for strategic planning, business development and regulatory and government affairs. He also served on a number of professional and civic associations that drew upon his expertise in environmental and complex business practices, including board service on the Jacksonville Port Authority, the Jacksonville Regional Chamber of Commerce and the Manufacturers Association of Florida.

During his decade in private practice at Smith, Hulsey and Busey, one of Florida's most well-respected law firms, Secretary Vinyard counseled clients in state and federal environmental compliance and permitting. He also served as a chair of the environmental and land use law section of the Jacksonville Bar Association. Secretary Vinyard received his undergraduate and law degrees from Louisiana State University.

FLORIDA COMMUNITIES TRUST BOARD MEMBERS

Greg Jones

Mr. Gregory Jones has close to 15 years in experience in resort development and management in state of Florida. He is currently the Senior Project Manager for WCI Communities Inc. (NYSE:WCIC) Lost Key Golf & Beach Club & Marina and Yacht Club located in Perdido Key, Florida. During the last decade he has been actively involved in developing a balance between sustainable growth in his community while establishing a healthy environment to ensure a long term habitat plan for the endangered Perdido Key Beach Mouse. In addition, in his tenor Mr. Jones has been an active participant of local community efforts by currently residing on the Tourism Development Council and West End Advisory Boards for Escambia County in addition to a current board member on four community residential boards. Mr. Jones fills the required appointment of a representative of the development community.

FLORIDA COMMUNITIES TRUST BOARD MEMBERS

Ruth Stanbridge

Ms. Ruth Stanbridge grew up in Indian River County and served as a county commissioner from 1998-2002. She was appointed as the Indian River County Historian in 1997 and owns a small historical and environmental research and grant writing firm in Vero Beach.

Ms. Stanbridge has an extensive background dealing with environmental and growth management issues. She served for 35 years in the Florida Game and Freshwater Fish Commission's Vero Beach Biological Field Office. She was appointed to the Indian River County Planning and Zoning Commission in 1983, at a time when the county's first Comprehensive Land Use Plan was being developed. She was appointed by former Governor Jeb Bush to the Florida Greenways and Trails Council and served as the vice-chair of the Health and Human Service subcommittee for the Florida Association of Counties.

Ms. Stanbridge received the Indian River Lagoon National Estuary Program's Leadership Award in 2002, the Marine Resource Council's Outstanding Elected Official Award in 2001 and Indian River County's Woman of the Year Award in 1983. In 2001, the U.S. Department of the Interior presented her with a Refuge Hero special commendation for her work on preserving, restoring and expanding Pelican Island National Wildlife Refuge, the first National Wildlife Refuge. Her book, *Special Places: A First Field Guide*, a guide to the natural and historical resources of Indian River and south Brevard counties, was published in 2005. Ms. Stanbridge and her husband, Bill, have been married for more than 40 years and have two daughters and two grandsons.

FLORIDA COMMUNITIES TRUST BOARD MEMBERS

Erick Lindblad

Mr. Erick Lindblad has served as the Executive Director of the Sanibel- Captiva Conservation Foundation since 1986. He has been instrumental in the Foundation's acquisition of more than 1,900 acres of wildlife preserve areas on and around Sanibel and Captiva and has been involved in a variety of land management activities. In addition, the Foundation has an established nature center, native plant nursery, marine laboratory and ongoing programs in environmental education, sea turtle conservation and natural resource policy.

As part of his commitment to the sustainable development of southwest Florida, Mr. Lindblad served on Conservation 20/20, Lee County's Conservation Land Acquisition and Stewardship Advisory Council and the Land Management Subcommittee. He was appointed by the Lee County Board of County Commissioners to serve as the County's representative on the Babcock Ranch, Inc. Board, which oversees the management of the state's 71,000-acre Babcock Ranch Preserve in Lee and Charlotte counties.

Prior to his tenure at the Sanibel-Captiva Conservation Foundation, Mr. Lindblad was the director of Newfound Harbor Marine Institute at Seacamp on Big Pine Key, Florida, from 1979 to 1986. He graduated in 1974 from Millikin University in Illinois with a Bachelor of Arts degree in Biology.

FLORIDA COMMUNITIES TRUST
2013-2014 ANNUAL REPORT

RICK SCOTT, Governor
HERSCHEL T. VINYARD JR., Secretary

3900 Commonwealth Boulevard
Tallahassee, Florida 32399-3000
(850) 245-2555
www.floridacommunitiestrust.org

SEPTEMBER 2014

Section 380.512, Florida Statutes, requires the Florida Communities Trust to submit to the Governor, the Speaker of the House of Representatives, the President of the Senate and the minority leaders of the House of Representatives and the Senate, within three months after the end of its fiscal year, a complete and detailed report setting forth the following:

- (1) Its operations and accomplishments;
- (2) Its receipts and expenditures during the fiscal year, in accordance with the categories or classifications the trust establishes for its operating and capital outlay purposes.
- (3) Its assets and liabilities at the end of its fiscal year and the status of reserve, special or other funds;
- (4) An evaluation of the effectiveness of the projects undertaken in carrying out this part;
- (5) Identification of additional funding, legislation, or other resources required to carry out the objectives of this part more effectively; and
- (6) An account of any other trust or department duties established by this part.
