#### LONG RANGE PROGRAM PLAN

Justice Administration Tallahassee, Florida

September 30, 2012

Jerry L. McDaniel, Director Office of Policy and Budget Executive Office of the Governor 1701 Capitol Tallahassee, Florida 32399-0001

JoAnne Leznoff, Staff Director House Appropriations Committee 221 Capitol Tallahassee, Florida 32399-1300

Terry Rhodes, Staff Director Senate Budget Committee 201 Capitol Tallahassee, FL 32399-1300

#### Dear Directors:

Pursuant to Chapter 216, Florida Statutes, the Long Range Program Plan (LRPP) for the Department of Justice Administration is submitted in the format prescribed in the budget instructions. The information provided electronically and contained herein is a true and accurate presentation of our mission, goals, objectives and measures for the Fiscal Year 2013-14 through Fiscal Year 2017-18. The internet website address that provides the link to the LRPP located on the Florida Fiscal Portal is www.justiceadmin.com. This submission is being provided by me as Executive Director of the Justice Administrative Commission on behalf of all agencies within the Department.

Sincerely,

Alton L. "Rip" Colvin, Jr.

#### JUSTICE ADMINISTRATIVE COMMISSION

Mission: Provide Superior Services

The mission of the Justice Administrative Commission is to be responsible stewards of taxpayer dollars, while providing the highest quality service to the 49 judicial entities we serve, by ensuring compliance with Florida Statutes and Generally Accepted Accounting Principles.

The Justice Administrative Commission (JAC) administratively serves the offices of State Attorneys, Public Defenders, Capital Collateral Regional Counsels, Criminal Conflict and Civil Regional Counsels, the Statewide Guardian ad Litem Program, and the Clerks of Court Operations Corporation; and provides compliance and financial review of the court appointed attorney due process costs.

### **Priority #1 Goal:**

Provide quality administrative services.

### STATEWIDE GUARDIAN AD LITEM

**Mission:** The Florida Guardian ad Litem Program is a partnership of community volunteer advocates and professional staff providing a powerful voice on behalf of Florida's abused, abandoned or neglected children, advocating for the child's best interest, as our only interest.

### **Long Range Operational Goals**

- To assure that every child has a voice in court.
- Using quantitative and qualitative data, to demonstrate that Guardian ad Litem (GAL) advocacy correlates with improved outcomes for children in the dependency system.
- To implement a consistent core program of evidence-based training for GAL volunteers which strengthens their ability to address the needs of the children they represent.
- To advance the mission alignment and operational relationships among and between the Office of the Executive Director, the Circuits, the local Non-Profit Boards, and the Foundation.

### **Priority #1 Goal:**

To provide effective advocacy and improved outcomes for all of Florida's abused, abandoned, and neglected children.

### STATEWIDE GUARDIAN AD LITEM

### **Priority # 2 Goal:**

Advocate for timely permanency for children.

# **Priority #3 Goal:**

Increase number of volunteer advocates for children.

# **CLERKS OF COURT OPERATIONS CORPORATION**

**Mission:** Excellence in Clerks of Court Budget Administration

# **Priority #1 Goal:**

To request and receive Legislative Appropriations to fund Florida's 67 Clerks of Court workloads, and provide timely and effective court related services.

#### STATE ATTORNEY

**Mission:** Seeking Justice for Florida

"The prosecutor is the representative, not of an ordinary party in a controversy, but of sovereignty whose obligation to govern impartially is as compelling as its obligation to govern at all; and whose interest, therefore, in a criminal prosecution is not that it win a case, but that justice shall be done."

Justice Southerland
<u>Berger vs U.S.</u> 295 U.S. 78 (1935)

### **Priority # 1 Goal:**

To pursue justice through prosecution of all criminal cases presented to the State Attorney over the next five years in an effective, efficient and timely manner.

### **Priority # 2 Goal:**

To recruit and retain qualified and experienced Assistant State Attorneys to handle the increased caseloads and sophisticated prosecutions on behalf of the people of the State of Florida.

#### PUBLIC DEFENDER

**Mission:** Protect constitutional rights

#### **PUBLIC DEFENDER**

### **Priority #1 Goal:**

Provide equitable salaries for employees to improve retention and reduce attorney turnover.

# **Priority # 2 Goal:**

Establish standard caseload for misdemeanor attorneys at 400 cases per year; felony attorneys at 200 per year; and juvenile attorneys at 250 per year.

#### PUBLIC DEFENDER APPELLATE

**Mission:** Protect constitutional rights

# **Priority # 1 Goal:**

Provide equitable salaries for employees to improve retention.

### **Priority # 2 Goal:**

Process appeals in a timely manner.

### CAPITAL COLLATERAL REGIONAL COUNSEL

Capital Collateral Regional Counsel (CCRC) Purpose: To provide legal representation for state inmates who have received the death penalty and for whom state laws provide post-conviction reviews of their sentence.

Mission: Assure capital justice

Chapter 27 Part IV and the Florida Rules of Criminal Procedure 3.850/3.851. CCRCs are responsible for collecting and analyzing public records of all assigned post-death penalty conviction cases, investigating each case and providing legal representation within state and federal courts performing post-conviction reviews.

### **Priority #1 Goal:**

To assure justice prevails, on a timely basis, by providing competent legal representation and a fair hearing during state and federal court post-conviction review processes.

# OFFICES OF CRIMINAL CONFLICT AND CIVIL REGIONAL COUNSELS (OCCCRC)

**Mission:** Protect constitutional and statutory rights in a cost effective manner.

# OFFICES OF CRIMINAL CONFLICT AND CIVIL REGIONAL COUNSELS (OCCCRC)

**Priority** # 1 Goal: *To ensure cases are processed in a timely and cost effective manner.* 

#### AGENCY OBJECTIVES

#### JUSTICE ADMINISTRATIVE COMMISSION

# **Goal 1 Objective 1:**

Accurately and efficiently process transactions for JAC, and, on behalf of, the 49 agencies we administratively serve.

### **Goal 1 Objective 2:**

Review court appointed counsel and due process vendor invoices for compliance with contractual and statutory requirements, as well as the Department of Financial Services' rules and regulations.

#### STATEWIDE GUARDIAN AD LITEM

### **Goal 1 Objective:**

Represent all children under Court supervision as reported by the Department of Children and Families.

### Goal 2 Objective:

Provide representation for children until permanency is achieved.

# Goal 3 Objective 1:

Increase number of new volunteers.

### Goal 3 Objective 2:

Increase volunteer base.

# **CLERKS OF COURT OPERATIONS CORPORATION**

### Goal 1 Objective:

To timely prepare and provide credible justifications for Clerks' Legislative Budget Requests.

### **STATE ATTORNEY**

#### Goal 1 Objective:

Maximize the number and percentage of habitual and violent felony offenders who receive enhanced sentences.

### Goal 2 Objective:

Reduce Assistant State Attorney turnover rate by increasing entry-level and mid-level salaries.

#### AGENCY OBJECTIVES

### **PUBLIC DEFENDER**

# Goals 1 - 2 Objective:

Provide quality representation to all appointees and protect the constitutional and statutory rights of all citizens through effective legal representation of court appointed clients.

#### PUBLIC DEFENDER APPELLATE

# Goals 1 – 2 Objective:

Provide quality representation to all appointees and protect the constitutional and statutory rights of all citizens through effective legal representation of court appointed clients.

### CAPITAL COLLATERAL REGIONAL COUNSEL (CCRC)

# Goal 1 Objective:

To competently achieve the completion of death penalty post-conviction review by state and federal courts.

# OFFICES OF CRIMINAL CONFLICT AND CIVIL REGIONAL COUNSELS (OCCCRC)

### Goal 1 Objective:

Appeals: File initial appellate briefs within 30 days of receipt of record. Criminal: Close misdemeanor cases within 120 days of appointment. Dependency: In cases where there is either an adjudication or a withhold of adjudication, file a case plan to be approved by the court within 90 days of appointment.

# JUSTICE ADMINISTRATIVE COMMISSION

Outcome: Number of transactions processed.

Baseline/ Year					
2011-12	FY 2013-14	FY 2014-15	FY 2015-16	FY 2016-17	FY 2017-18
366,371	370,035	373,735	377,472	381,247	385,060

Outome: Number of invoices processed.

Baseline/ Year 2011-12	FY 2013-14	FY 2014-15	FY 2015-16	FY 2016-17	FY 2017-18
55,253	55,806	56,364	56,927	57,496	58,071

### STATEWIDE GUARDIAN AD LITEM

### PRIMARY SERVICE OUTCOMES

Outcome: Average number of children represented.

<u>Baseline</u>					
FY 2011/2012	FY2013/14	FY2014/15	FY2015/16	FY2016/17	FY2017/18
21,847	22,972	25,137	27,302	29,467	31,630

Explanation: This number is a percent of children who are assigned representation by GALs, divided by the number of children, in-home and out-of-home, in the dependency system. The total number of children in the dependency system is not expected to grow and thus is held constant at 31,630.

Outcome: Average percent of children represented.

<u>Baseline</u>					
FY 2011/12	FY2013/14	FY2014/15	FY2015/16	FY2016/17	FY2017/18
69%	73%	79%	87%	93%	100%

Explanation: Showing the average percent of children represented gives the reader an understanding of the number of children we represent as a percent of the whole number needing representation. It is important to show the number and percent of children represented in order to give a more accurate picture of this measure. This will allow for

# STATEWIDE GUARDIAN AD LITEM

expansion on a phased-in basis over a five-year period, until such time as 100% of all children in the dependency system are represented.

Outcome: Percent of cases closed with Permanency Goal achieved.

Baseline					
FY 2011/12	FY2013/14	FY2014/15	FY2015/16	FY2016/17	FY2017/18
63.4%	67%	68%	70%	72%	74%

Explanation: A key outcome measure for children is achievement of true permanency, either through adoption, reunification with family, or a permanent guardianship arrangement. These are true permanency outcomes and, in each case, supervision by the Department of Children and Families (DCF) is terminated when those goals are achieved. Ideally, a GAL should not discharge off of an assigned case short of achieving that permanency although that desired result is not always achieved. Improvement in that result over time is highly desired and in the best interest of children.

Outcome: Number of new volunteers certified as a GAL.

<u>Baseline</u>					
FY 2011/12	FY2013/14	FY2014/15	FY2015/16	FY2016/17	FY2017/18
2,416	4,715	5,003	5,219	5,579	5,870

Outcome: PROPOSED REVISED: Number of volunteers on June 30.

<u>Baseline</u>					
FY 2011/12	FY2013/14	FY2014/15	FY2015/16	FY2016/17	FY2017/18
8,520	11,204	11,493	11,782	12,070	12,359

#### CLERKS OF COURT OPERATIONS CORPORATION

**Outcome Measure:** The percentage of primary\* Clerk budget related products required in law, produced on time and in accordance with the requirements of law.

Baseline Year 2010	FY 2013-14	FY 2014-15	FY 2015-16	FY 2016-17	FY 2017-18
100%	100%	100%	100%	100%	100%

<sup>\*</sup>Primary products include the Clerks of Court Operations Corporation (CCOC) Legislative Budget Request (LBR); any required Budget Amendment Requests (BARs) to the Legislative Budget Commission and "Summarized Action Plans" identifying Clerks' unmet performance standards and response plans.

### LINKAGE TO GOVERNOR'S PRIORITIES

# PRIORITY #1 – ACCOUNTABILITY BUDGETING

### JUSTICE ADMINISTRATIVE COMMISSION (JAC)

**Objective 1:** Accurately and efficiently process transactions for JAC, and, on behalf of, the 49 agencies we administratively serve.

**Objective 2:** Review court appointed counsel and due process vendor invoices for compliance with contractual and statutory requirements, as well as the Department of Financial Services' rules and regulations.

# STATEWIDE GUARDIAN AD LITEM (GAL)

Governor Rick Scott has established priorities for his administration to better serve Floridians. As shown below, direct linkages exist between the priorities of Governor Scott and the goals set out in this plan.

**GAL Program Goal #1:** To provide effective advocacy and improved outcomes for all of Florida's abused, abandoned or neglected children.

**GAL Program Goal # 2:** Advocate for timely permanency for children.

# **CLERKS OF COURT OPERATIONS CORPORATION (CCOC)**

The CCOC is charged by state statute to be accountable for providing credible Legislative Budget Requests to the state, administering the allocation of final appropriations to 67 Clerks' offices and providing Clerks and the state with credible financial and performance measurement status reports during the fiscal year. The CCOC operates with sophisticated and comprehensive budgeting and metrics based monitoring systems to justify budget requests, monitor and manage fiscal year trust fund balances and track Clerks' office financial and performance results. CCOC systems expertly monitor approved court related performance standards and provide highly credible accountability reports on financial, operational and performance results.

### **STATE ATTORNEYS**

**Goal # 1**: To pursue justice through prosecution of all criminal cases presented to the State Attorney over the next five years in an effective, efficient and timely manner.

### **PUBLIC DEFENDERS**

**Goal # 1:** Provide quality representation to all appointees.

#### LINKAGE TO GOVERNOR'S PRIORITIES

# PUBLIC DEFENDERS APPELLATE

**Goal # 1:** *Process appeals in a timely manner.* 

#### CAPITAL COLLATERAL REGIONAL COUNSELS (CCRC)

CCRC Middle and South utilize a sophisticated and integrated budget, operations and performance accountability system. This system allows CCRCs to prepare credible, detailed Legislative Budget Requests, track financial and operational performance results during the fiscal year and provide state required reports. This system provides the means by which CCRC operations can be transparent.

The CCRC system produces internal budget and performance management oriented "metrics" during the fiscal year. These metrics help CCRC offices to monitor cost efficiency, employee productivity and performance results objectives. In addition, CCRCs can use the metrics to provide timely responses to Governor's Office and Legislative staff and member questions related to any aspect of CCRC operations, financial status and performance results.

# OFFICE OF CRIMINAL CONFLICT AND CIVIL REGIONAL COUNSELS (OCCCRC)

**Goal:** *To insure cases are processed in a timely and cost effective manner.* 

# PRIORITY #2 – REDUCE GOVERNMENT SPENDING

### JUSTICE ADMINISTRATIVE COMMISSION (JAC)

**Objective 1:** Accurately and efficiently process transactions for JAC, and, on behalf of, the 49 agencies we administratively serve.

**Objective 2:** Review court appointed counsel and due process vendor invoices for compliance with contractual and statutory requirements, as well as the Department of Financial Services' rules and regulations.

### STATEWIDE GUARDIAN AD LITEM (GAL)

**GAL Program Goal # 3**: *Increase number of volunteer advocates for children.* 

#### LINKAGE TO GOVERNOR'S PRIORITIES

# CLERKS OF COURT OPERATIONS CORPORATION (CCOC)

The CCOC uses its administrative and budget systems to continually track costs per case processed (i.e. unit costs) in each of Florida's ten (10) judicial system courts. The CCOC uses Peer Groups to compare unit costs across like sized Clerks' offices. This data is used to help each Clerk's office to review average unit costs in their Peer Group and find ways to maintain or lower their unit costs over time. The CCOC also encourages the use of technology to help Clerk employees to increase their productivity and avoid the necessity of adding staff to respond to increasing court case workloads. The focus is to lessen the impact of cost drivers on Clerk budgets.

### PRIORITY #3 – REGULATORY REFORM

# PRIORITY #4 - FOCUS ON JOB GROWTH AND RETENTION

#### STATE ATTORNEYS

**Goal # 2:** Recruiting and retaining Assistant State Attorneys to effectively and efficiently handle the heavy caseloads and sophisticated prosecutions on behalf of the people of the State of Florida.

### PRIORITY #5 - WORLD CLASS EDUCATION

# PRIORITY #6 – REDUCE TAXES

# PRIORITY #7 – PHASE OUT FLORIDA'S CORPORATE INCOME TAX

#### TRENDS AND CONDITIONS STATEMENTS

### JUSTICE ADMINISTRATIVE COMMISSION (JAC)

Pursuant to s. 43.16, F.S., the Justice Administrative Commission (JAC) maintains a central state office providing administrative services and assistance to Florida's Offices of State Attorney, Public Defender, Capital Collateral Regional Counsel, and Criminal Conflict and Civil Regional Counsel. The JAC also provides administrative services and assistance to Florida's Guardian ad Litem Program and the Clerks of Court Operations Corporation.

Additionally, the JAC is charged with the responsibility of providing compliance and financial review of the court appointed counsel due process costs.

The JAC priorities were determined after consulting with the agencies we administratively serve and related legislative actions. Over the next five years, the JAC will continue to review its priorities with our stakeholders and make modifications as necessary.

The JAC strives to maintain employees who are highly skilled, motivated, productive, and ethical. JAC's core values are teamwork, efficiency, accuracy, and customer service.

### STATEWIDE GUARDIAN AD LITEM

The Guardian ad Litem Program was established in Florida in 1980 to represent the best interests of abused, abandoned or neglected children involved in court proceedings. There are 20 local Guardian ad Litem programs in the 20 judicial circuits in Florida. On January 1, 2004, the *Statewide* Guardian ad Litem Office was created to provide the infrastructure to increase functionality and standardization among the existing programs. Since then, an annual report has been filed each year which describes the environment, issues and strategies employed to address our basic mission to represent all dependent children, as defined within Chapter 39 of the Florida Statutes. Our next annual report will be filed in February 2012. Reviewers are invited to read that report and contact the Statewide Office with any questions. Our vision is to provide effective advocacy for all of Florida's abused, abandoned or neglected children. In an effort to fulfill our vision, we are leveraging state, county and private funds to meet the needs of the children we represent.

Chapter 39, Florida Statutes, addresses proceedings relating to abused, abandoned or neglected children and requires the appointment of a guardian ad litem for every child. Section 39.8296, Florida Statutes, created the State Office as an independent entity within the Justice Administrative Commission.

The State Office has oversight responsibility for and provides technical assistance to all guardian ad litem and attorney ad litem programs located within the judicial circuits. Responsibilities include collecting, reporting and tracking reliable case data, reviewing the programs in Florida and in other states, developing statewide performance measures and

### STATEWIDE GUARDIAN AD LITEM

standards, forming a training committee and developing a training program, reviewing various funding sources, and developing methods to improve delivery of program services.

Our outcome measures will be affected by the following emerging trends and economic conditions:

- The deficiencies in the overall economy and reduced State Funding resources for all agencies continue to impact our ability to achieve full representation as required by state statutes. Between FY 2007/08 and FY 2011-12, the Program's budget was reduced over 14%. This resulted in the termination of a large number of staff and therefore a reduction in the number of children the Program was able to represent. For fiscal years 2009/10 and 2010/11, and 2011/12 funding levels did stabilize, thus stemming the losses of children represented. For fiscal year 2012/13 an additional \$1.8 million in non-recurring dollars has improved our ability to increase our volunteer base and once again work toward ensuring that every child currently assigned to a GAL staff person will be re-assigned to a volunteer. We believe that a volunteer assigned to every child is critical to the protection of a child's best interests and by June 30, 2013, our plan is to ensure that all of our currently assigned children have that community resource. This plan lays out a five-year strategy to ensure that all children assigned to the Program has a volunteer advocate by the end of FY 2017-18.
- Our long range plan is to achieve full representation within the next 5 years, but the continuing pressures on the economy will continue to make that challenging. The program requested \$3.9 million in funding for expansion for FY 2012-13, but was awarded \$1.8 million in non-recurring funds. Therefore, the Program has adjusted proposed targets to resources available in FY 2012-13, and requested for FY 2013-14. The plan continues to call for a five-year phase-in of volunteer representation for all children in the dependency system, to meet the mandates of Chapter 39.
- In many Circuit based offices, we are unable to add additional volunteers because we don't have the staff to support them. By June 2013, we will have maximized the number of volunteers our current staff can support in all of our Circuit Offices (with the exception of our Miami office where an additional year will be required to fully utilize staff in that office). Additional funding will be necessary to fund volunteer growth beyond the end of the current fiscal year. The Guardian ad Litem Program is requesting such funding in its Legislative Budget Request for FY 2013-14.
- Due to the continuing problems with the economy, the Program continues to experience a reduction in the resources provided by county governments, grants and our non-profits. The counties, while obligated by statute to provide facilities and communications for the Program, have in some cases provided additional support to the Program, including staff. Because of a reduction in county funding, some circuits

### STATEWIDE GUARDIAN AD LITEM

have already lost county resources and it is unknown how many more counties will reduce their support to the Program and in what amounts. The Program's LRPP goals do not currently reflect any reduction in county resources.

### CLERKS OF COURT OPERATIONS CORPORATION (CCOC)

## Agency Primary Responsibilities Required in Law Trends and Conditions And 5 Year Strategies

**CCOC PRIMARY ACTIVITIES:** These are tied to the CCOC's Legislative Budget Request for its Corporation operations. The Corporation has three (3) primary activities / responsibilities.

Activity 1: Develop and justify a CCOC Legislative Budget Request (LBR) and allocate annual Appropriation Act budget authority to 67 Clerks' offices.

Activity 2: During each fiscal year, monitor, analyze and respond to Clerks' Trust Fund and Clerks' approved budget and performance results issues.

Activity 3: Provide education, training and technical assistance to Clerks' Offices.

**Qualifier:** The CCOC was not in the Appropriations process previous to SFY 2009-10. Due to the passage of a new unit-cost based budgeting system and associated requirements in law for SFY 2010-11, the CCOC did not have approved performance standards for SFY 2009-10.

CCOC Activity / Responsibility 1.0

Develop and justify a CCOC Legislative Budget Request (LBR) and allocate annual Appropriation Act budget authority to 67 Clerks offices

The 2009 Legislative Session required the CCOC to develop and use a new budget process that includes submitting Legislative Budget Requests, calculating core Clerk Service total and unit service costs and comparing Clerks' budgets and actual unit costs within Clerk Peer Groups.

### CLERKS OF COURT OPERATIONS CORPORATION (CCOC)

This new process necessitates the development and use of budget systems and tools that are state of the art for Clerks' operations and the State of Florida's budget process. In particular, the use of unit costing for the purpose of building budget requests, comparing expenditure patterns across organization and then releasing appropriated funds on a quarterly basis requires a much more sophisticated budget process than previously existed in State of Florida budgeting.

The CCOC is developing a professional budget process in response to requirements in law and in consultation with multiple state stakeholders including the Legislature, the Supreme Court, the Department of Financial Services and the Auditor General's Office. This is a multi-year challenge that requires careful CCOC planning, design and execution to assure the operations of 67 different sized Clerks' offices with differing operational and administrative capacities are properly funded to provide essential court services.

The creation of credible CCOC Legislative Budget Requests is essential to maintain a well-balanced court system that depends on properly funded Clerk operations as much as appropriate funding for Judges, State Attorneys, Public Defenders and Court Administration.

The CCOC began building the basics for newly required budgeting capacities in 2009, resulting in a SFY 2010-11 budget for Clerks that, for the first time, was based on unit costs for each of their core services.

## **Year 1: SFY 2013-14**

The CCOC will focus primarily on the following strategies:

- 1. Implement a refined set of Peer Groups for the 2013-14 LRPP and LBR submission.
- 2. <u>Continue to develop and refine the CCOC SQL database</u> to produce critical Trust Fund, and Clerk budget and performance related data/information that will enhance LBR credibility and provide critical answers during each Legislative Session and during the fiscal year.
- 3. <u>Further develop the CCOC staff capacities to support CCOC Council members and Clerks as the 67 Clerk budgets are submitted, approved and submitted to the Legislature as a Legislative Budget Request.</u>
- 4. <u>Further develop the CCOC's "Unit-Cost Analysis" (UCA) System</u> to understand why individual Clerk's Office unit costs are significantly higher or lower than averages for a Clerk's Peer Groups; and to use UCA information in the CCOC's LBR process. The UCA system includes the identification and analysis of key cost drivers affecting Clerk budgets individually and in different Peer Groups.

### **CLERKS OF COURT OPERATIONS CORPORATION (CCOC)**

- 5. <u>Further develop CCOC "Budget Trend Reports (BTRs)"</u> that will assist the CCOC and Clerk's Offices to observe and respond to budget trends that affect Clerk budget requests and managing changing budget conditions during a fiscal year.
- 6. <u>Further develop the CCOC web-site</u> to make the CCOC Budget Request process more efficient for Clerks via on-line, interactive transmissions to and from the CCOC and discuss budget condition change issues and options during a fiscal year.
- 7. Evaluate the effectiveness of the current Legislative budgeting requirements for Clerks in an effort to provide critical and useful data/information to the Legislature with minimum workload impacts on Clerks. Provide the Legislature with a report on the status/effectiveness of the Clerks' budgeting process.
- 8. Review the impact of actions that reduce revenue collections such as State attorney case diversions and use of community service.
- 9. Promote actions that increase revenue collection results.
- 10. Review the use of technology as a tool to help Clerk offices seek efficiencies and cost savings.

## **Year 2: SFY 2014-15**

The CCOC will focus primarily on the following strategies:

- Continue to develop the SQL server database capacities to anticipate budget related trends
  and prepare CCOC LBRs that are increasingly credible and useful to the Legislature in its
  budget deliberations.
- 2. <u>Continue to create and use enhanced CCOC web-site capacities</u> to communicate more efficiently with state stakeholders and Clerks on budget related issues and issue resolution options.
- 3. <u>Develop more sophisticated budget trend analysis models</u> to be better able to justify LBRs to the Legislature and manage changing budget conditions over time.
- 4. Continue to <u>develop CCOC staff capacities</u> to support the Council and Clerks in preparing and approving budgets.

### CLERKS OF COURT OPERATIONS CORPORATION (CCOC)

- 5. <u>Review core service related performance measures</u> and reporting frequencies to increase their value for the Legislature while minimizing the workload impacts on Clerks' Office.
- 6. Review the results of 2010-11 changes to the Clerk Peer Groups related to the capacities to logically analyze and respond to significant core service unit cost differences.

## **Year 3: SFY 2015-16**

The CCOC will focus primarily on the following strategies:

- 1. Continue to enhance the <u>SQL</u> server database to provide functional data to Clerks and the CCOC and the Legislature as issues evolve and new and different types of data/information is requested.
- 2. Better understand and incorporate conclusions on the <u>impact of actors outside the control</u> <u>of the Clerks' offices</u> on budget revenue collections and spending pressures.
- 3. Continue to develop the <u>CCOC web-site</u> to be more functional and efficient in the development and implementation of LBRs and Appropriations Act authority.
- 4. Continue to <u>develop CCOC staff capacities</u> to support the Council and Clerks in preparing and approving budgets.

## **Year 4: SFY 2016-17**

The CCOC will focus primarily on the following strategies:

- 1. Continue to add sophistications to the SQL server database system.
- 2. Continue to improve the <u>CCOC LBR process</u> based on Legislative feed-back and expectations.
- 3. Continue to <u>develop CCOC staff capacities</u> to support the Council and Clerks in preparing and approving budgets.

### **Year 5: SFY 2017-18**

- 1. Continue to add sophistications to the SQL server database system.
- 2. Improve CCOC web-based capacities to make the LBR process more efficient for Clerks

### CLERKS OF COURT OPERATIONS CORPORATION (CCOC)

and CCOC.

3. <u>Improve the CCOC/Clerk Peer Group capacities</u> to identify options for lowering costs and maximizing revenues within Peer Group counties.

CCOC Activity / Responsibility 2.0
During each fiscal year, monitor, analyze and respond to
Clerks' Trust Fund and approved budget implementation issues.

The revenue sources that fund the Clerks' Operations Trust Fund have been significantly affected by Legislative actions and the recession over the last few years. Court fees were increased but the revenues were diverted to the General Revenue Fund and other trust funds. In addition, the Clerks' Operations Trust Fund must transmit an administrative fee of 8% of all revenues collected to the General Fund. And, the Trust Fund must retain 5% of collected revenues which acts as a required reserve.

Economic conditions indicate a slow recovery over the next five years. By 2016-17, Florida's economic indicators are likely to show numbers for housing inventories, personal income growth, gross domestic product for Florida, and unemployment finally reaching pre-Great Recession normal ranges. Over the next five years, the Clerks' revenues will be affected changes in the numbers of foreclosure cases in the system, upon which filing fees are paid. The Clerks' Operations Trust Fund also must set aside funds for paying the above mentioned 8% administrative fee to the State General Revenue Fund.

Because of these revenue related trends and conditions, the CCOC must monitor and analyze the Clerks' Operations Trust Fund carefully to determine its capacity to fully support the Legislative Budget Requests for SFY 2013-14 through SFY 2015-16. As much time as possible is required to alter Clerk budgets if administrative fee transfers, required reserves or possible revenue shortfalls due to economic conditions appear to leave the Trust Fund with insufficient dollars to fully fund approved Clerk budgets.

The CCOC will closely monitor Operations Trust Fund trends to determine whether capacities indicate serious financial problems exist. If the trends indicate a need to increase Trust Fund revenues in the future above Legislative projections, then the CCOC is authorized in law to recommend to the Legislature a fine, fee, court costs, or service charge Schedule change.

### CLERKS OF COURT OPERATIONS CORPORATION (CCOC)

The CCOC, additionally, must monitor and analyze Clerk budget expenditures, workloads and court performance standards to assess capacities to efficiently and effectively serve the courts within budget authority. The CCOC is operationally focused on assuring funds are available to provide essential quantity and quality levels of service to the judicial system. The CCOC must be prepared to adjust approved budgets if there are shortfalls in revenue collections below appropriated amounts. Due to the existence of vastly different sized Clerks' budgets, it is imperative to know the impacts of possible spending reductions on the fixed and variable costs of Clerks' offices.

The CCOC is developing continually more sophisticated budget preparation, approval, issue resolution and amendment support systems and processes. Over the next five years, there will be significant increases in the capacities of the CCOC to meet its responsibilities during a fiscal year.

To respond to expected Trust Fund challenges and manage changing budget conditions, the CCOC will focus on the following during the next five years:

## **Activity 2.0 Five Year Strategy**

## **Year 1: SFY 2013-14**

- 1. The CCOC will utilize its database automation capacities to monitor and analyze workload projections, expenditure trends, revenue collections and performance enhancements to be aware of any problematic trends.
- 2. E-filing systems will be analyzed for use in Clerks' offices previously unable to implement it, to reduce cost pressures.

## **Year 2: SFY 2014-15**

- The CCOC will further enhance its budget analysis tools and techniques for use in smaller Clerks' offices that have fewer capacities to amend budgets and respond to workload pressures.
- 2. CCOC web site will be further enhanced to incorporate integrated and interactive capacities to allow Clerks' offices and the CCOC to coordinate budget preparation, produce budget reports, respond to budget issue needs and coordinate technical assistance initiatives on a timelier and more efficient manner.

## Year 3: SFY 2015-16

1. Continue building Web-based capacities to collect, retrieve and analyze critical budget

### CLERKS OF COURT OPERATIONS CORPORATION (CCOC)

and performance related data for minimizing costs and maximizing revenues and meeting performance standards.

2. Continue to develop "Unit Cost Analysis" (UCA) capacities to support Clerks' in the managing of their budgets from year to year and during a fiscal year.

## **Year 4: SFY 2016-17**

- 1. Continued enhancement of automated tools for Clerks offices to use in managing budgets and achieving output and outcome quantity and quality level objectives.
- 2. Further develop automated, integrated web site capacities for supporting CCOC and Clerk budget preparation, management and reporting.

## Year 5: SFY 2017-18

- 1. Identify budget management needs for smaller, medium and larger Clerks offices and build tools and processes that can help offices to manage situations that result in serious budget challenges affecting court related operations during a fiscal year.
- **2.** Improve "unit cost analysis" capacities within Peer Groups to isolate strategies that can be shared between and among Clerks' offices.

CCOC Activity / Responsibility 3.0
Provide education, training and technical assistance to Clerks' Offices to meet their constitutional duties.

Section 28.35 (2) (f) F.S. charges the CCOC with "developing and conducting clerk education programs."

With the 2009 Legislative requirement for Clerks to be part of the Legislative Appropriations process, the CCOC and Clerks had to develop new budgeting processes, responsibilities and professional skills. The Legislature, in the creation of the CCOC also provided that the Corporation would be responsible for all training of the Clerks' offices to better perform their constitutional duties.

Additionally, the 2009 changes in law require the inclusion of Legislative Appropriation Committees, the Department of Financial Services, the Supreme Court, the Office of

### **CLERKS OF COURT OPERATIONS CORPORATION (CCOC)**

Economic and Demographic Research, the Auditor General, the Department of Revenue and the Justice Administrative Commission in setting up and operating new budget systems in the CCOC and in Clerk's offices.

The CCOC process for preparing the SFY 2013-14 Legislative Budget Request includes the use of sophisticated unit costing related budget tools, revised budget instructions, a budget hearing process focused on individual Clerk's Office Budget Requests as well as Clerk Peer Group budget request comparisons. Additionally, Clerks are charged with maximizing the collection of local revenues. This unique Clerks' budgeting process requires significant education, training and technical assistance being available for CCOC staff as well as Clerks' office staff.

Florida's 67 Clerks' offices vary dramatically in size, from less than 10 employees, including the Clerk, to hundreds depending, of course, on county population and related court activity levels. This fact affects staff capacities within Clerk's offices to understand and operate under these new budget requirements and expectations.

The CCOC must provide much more sophisticated budget request development and execution related education and training than in the past. Clerks' offices must be able to better understand the principles, practice and implications of unit costing, Peer Group comparisons, revenue projections and enhancements, expenditure analyses and efficiency achievements, workload forecasting and standards, and best practice transfers.

This requires multi-year CCOC strategies to build CCOC and Clerks' office budgeting capacities to assure the State of Florida that Clerks' operations are maximizing revenues, minimizing costs, intelligently processing work and maximizing performance on behalf of Florida's court system.

The CCOC will build strategies for supporting Clerks' offices in conjunction with Clerks' offices, with the Florida Association of Clerks of Courts and with state stakeholders.

## **Activity 3.0 Five Year Strategy**

### Year 1: SFY 2013-14

1. The CCOC will continue to provide education and training to Clerks and their offices for them to fulfill their Constitutionally required duties more efficiently and effectively.

### CLERKS OF COURT OPERATIONS CORPORATION (CCOC)

- The CCOC will create more sophisticated Peer Group data and strategy sharing to allow more rapid accumulation of budgeting and performance enhancement skills in Clerks' offices.
- 3. The CCOC will further develop the capacities of its web site to be used to provide educational and training opportunities for Clerks' offices.
- 4. The CCOC will coordinate with individual Clerks and organizations such as the Association of Clerks and state courts office on acquiring subjects and subject matter for Clerks' office education and training experiences, individually or collectively.

### **Year 2: SFY 2014-15**

The CCOC will continue to provide education and training to Clerks and their offices for them to more efficiently and effectively meet their constitutional duties.

- 1. CCOC "Budget Education and Training" programs will continue to focus on cost minimization and revenue enhancement strategies for Clerks' offices of every size.
- 3. Peer Group best practice sharing will be emphasized.

## **Year 3: SFY 2015-16**

- 1. The CCOC will continue to provide education and training to Clerks and their offices for them to more efficiently and effectively meet their constitutional duties.
- 2. Special CCOC education and training will focus on individual offices where capacities to minimize costs and enhance revenues and performance appears to be most possible.
- 3. The CCOC will continue to provide education and training on the CCOC budgeting tools, systems and processes developed in previous years.
- 4. The CCOC will identify critical budget issues and provide education and training on how to resolve them in some/all Clerks' offices.

## **Year 4: SFY 2016-17**

1. The CCOC will continue to provide education and training to Clerks and their offices for them to more efficiently and effectively meet their constitutional duties.

### CLERKS OF COURT OPERATIONS CORPORATION (CCOC)

- 2. The CCOC will further develop education and training tools using internet capacities and opportunities and new automation tools, processes and systems that have been built during the previous few years.
- 3. The CCOC will continue to identify critical constitutional issues and budget related issues and provide education and training on resolution options.

### **Year 5: SFY 2017-18**

- 1. Improve internet/web based training and education capacities to support Clerks' Offices.
- 2. Improve revenue collection maximization training, tools and techniques.

### OTHER EXTERNAL ISSUES

The budget related skill sets required to do CCOC work are quite sophisticated. The CCOC is the first state funded organization to implement a true unit-cost budgeting system. Preparation of unit cost-based Legislative Budget Requests, justifying them and then implementing the Appropriations Act requirements and authorizations, meeting Legislative expectations for budget system implementation and then administering the Clerks' Trust Fund and responding to budget condition changes during a fiscal year is quite challenging.

### **STATE ATTORNEYS**

## AGENCIES PRIMARY RESPONSIBILITIES AND STATUTORY AUTHORITY

Pursuant to Article V, Section 17 of the Constitution of the State of Florida, the State Attorney is charged with being the Chief Prosecuting Officer of all criminal trial courts in his/her respective circuit and shall perform all other duties prescribed by general law. Chapter 27 and 29 of the Florida Statutes and the Florida Rules of Criminal Procedure further elaborate upon the duties of the State Attorney. The State Attorney, with the aid of appointed assistants and staff shall appear in the circuit and county courts within his/her judicial circuit and prosecute or defend on behalf of the state, all suits, applications, or motions, civil and criminal, in which the state is a party.

### **STATE ATTORNEYS**

Consistent with and necessary to the performance of these duties is the requirement that the State Attorney provide personnel and procedures for the orderly, efficient and effective investigation, intake and processing of all felony, misdemeanor, criminal traffic, and juvenile delinquency cases referred by law enforcement, other state, county and municipal agencies

and the general public. In addition, the State Attorney must provide personnel and procedures for the orderly, efficient and effective intake and processing of several statutorily mandated civil actions.

There is a State Attorney elected for each of the twenty judicial circuits. These circuits vary greatly from a population of less than 200,000 to populations of over 2,000,000. The geographic area covered by each circuit may be limited to one county or as many as seven counties with multiple offices.

#### AGENCY PRIORITIES AND THEIR APPLICATIONS

The State Attorneys' priorities are to pursue justice through prosecution effectively, efficiently and in a timely manner for all criminal cases presented to or investigated by the State Attorney. In addition, these priorities include representing the State of Florida efficiently and effectively in all civil suits, motions or actions in which the state is a party or civil actions which are mandated by the Florida Statutes.

## JUSTIFICATION OF OUTCOMES WITH IMPACTS RELATING TO DEMAND AND FISCAL IMPLICATIONS

The true test of any agency will be to meet the goals and objectives within the constraints of state and county appropriations and budgetary restrictions. State Attorneys' duties and obligations have not only increased in the criminal justice system but have now extended into the civil courtrooms which has resulted in increased workloads of serious and sophisticated criminal and civil referrals.

In addition, Assistant State Attorneys and staff must be compensated at a sufficient level within the competing markets of other government agencies and the private sector to help reduce turnover and provide a more stable, efficient and productive staff.

Simply put, there is a direct correlation between public safety concerns and the legislative budget appropriations to the State Attorneys. Citizens of Florida should be able to feel safe in the comfort of their homes or in the economics of their businesses.

### CHANGES THAT REQUIRE LEGISLATIVE ACTION

There are no activity or performance measure changes this year that require Legislative action.

### **PUBLIC DEFENDERS**

The Public Defender protects the constitutional and statutory rights of all citizens through the effective legal representation of court appointed clients, pursuant to Chapter 27, Florida Statutes.

The Public Defenders of Florida carry out their mission to provide legal representation of court appointed clients through the following two program areas:

CRIMINAL TRIAL COURT - Represent appointed clients arrested for or charged with a felony, violation of probation or community control, misdemeanor, criminal traffic offense, criminal contempt, violation of a municipal or county ordinance, and juveniles alleged to be delinquent. Provide representation in other proceedings as appointed by the court.

CIVIL TRIAL COURT - Represent appointed clients subject to Baker Act proceedings regarding involuntary commitment pursuant to Chapter 394 or 916, Florida Statutes; clients subject to commitment under the Jimmy Ryce Act pursuant to Chapter 916, Florida Statutes; and appointments pursuant to civil contempt.

The Public Defender's goal is to provide quality representation to all appointees. Because "quality representation" cannot be defined or measured in wins and losses, this program is not necessarily conducive to performance measurement. The measures that have been developed are designed to determine the quality of the work in other ways, i.e. time of case resolution, cases per attorney and attorney experience. The following goals have been established in an effort to carry out the Public Defender mission.

- 1. Provide quality representation to all appointees.
- 2. Establish standard caseload for misdemeanor attorneys of 400 cases per year.
- 3. Establish standard caseload for felony attorneys of 200 cases per year.
- 4. Establish standard caseload for juvenile attorneys at 250 cases per year.
- 5. Provide equitable salaries for employees to improve retention.

### PUBLIC DEFENDER APPELLATE

APPELLATE COURT – Represent appointed clients on appeal.

The Public Defender protects the constitutional and statutory rights of all citizens through the effective representation of court appointed clients. The Public Defenders' goal is to provide quality representation to all appointees. The measures that have been developed are designed to determine the quality of the work i.e. case resolution, adherence to standardized number of cases per attorney and attorney experience.

The following goals have been established in an effort to carry out the Public Defender mission.

### PUBLIC DEFENDER APPELLATE

- 1. Provide quality representation to all appointees.
- 2. Establish standard caseload for appellate attorneys at 2.5 capital appeals or 40 weighted non-capital records per year.
- 3. Provide equitable salaries for employees to improve retention.

### CAPITAL COLLATERAL REGIONAL COUNSELS (CCRC)

## Capital Collateral Regional Counsel Middle and South Regions Focus Areas, Trends and Conditions and Issues

### **CCRC Statutory Responsibilities:**

<u>State Approved Program:</u> Legal Representation <u>CCRC Approved Service:</u> Legal Representation

### **CCRC GOAL:**

To pursue completion of post-conviction legal counsel duties in a timely manner while maintaining high legal representation standards.

This is responsive to the Governor's and Legislature's desire to lessen the time it takes to bring post-conviction cases to closure. It also helps assure inappropriately sentenced inmates receive altered sentences as soon as possible.

## THE CCRC'S PROFESSIONAL FOCUS

CCRCs strive to meet professional standards for providing post-conviction legal services by competently working all cases assigned by the Florida Supreme Court in as cost and operationally efficient and timely manner as possible.

## CCRC MIDDLE AND SOUTH'S LONG RANGE PROGRAM PLAN STORY

**CCRC Focus Areas** indicate where CCRC attention is critical to achieve its professional, operational, financial and results oriented standards and expectations.

### CAPITAL COLLATERAL REGIONAL COUNSELS (CCRC)

**Trends and conditions** provide an overview of current and trending challenges.

**External issues** indicate the pressures and factors that are outside the control of the CCRCs yet have an impact on CCRCs' ability to meet its responsibilities and challenges.

**Internal issues** describe operational pressures and factors that are under the control of CCRCs as responsibilities and challenges are being addressed. These issues can be impacted by external issues.

The LRPP provides the foundation logic for CCRC budget requests presented to the Governor and Legislature.

### **CCRC FOCUS AREA 1:**

Meet State & Federal Court Expectations for Competent Representation in Post-Conviction/Death Penalty Cases

### 1.0 Trends and Conditions:

The primary reasons for providing legal counsel to persons sentenced to death are (1) the public wants to be sure that the sentence is deserved and (2) when it is upheld, there is a societal desire for timely justice, especially for the sake of the victims' families. The trend over the last number of years is that there are increasing concerns about these perspectives.

The Florida Supreme Court initially reviews all death sentences imposed in Florida's Circuit Courts for any indication of an overt mistake during the trial and/or sentencing. In the past, this initial review resulted in a reversal of the trial or death sentence in well over 75 % of the cases. Recently, the Florida Supreme Court's reversal rate is less than 20 % on direct appeal after sentencing. If a death sentence is not altered by the Florida Supreme Court on direct appeal, then CCRCs are assigned the case for further review. This trend will likely result in many more cases being assigned to the CCRCs over the next five years.

The Florida Supreme Court instructed Judicial Circuit judges to accelerate its evidentiary hearing process for post-conviction cases. This will expedite the case hearing process and increase workload pressures for CCRCs and other legal system parties.

The Florida Supreme Court has explicitly indicated to the Florida Legislature that the CCRC model for providing post-conviction legal representation is their preferred choice. This is due to their demands for experienced legal representation to avoid case progress disruptions and competency challenges.

### CAPITAL COLLATERAL REGIONAL COUNSELS (CCRC)

## Related External Issue 1.1 Meeting court standards for professional legal representation.

If a court suspects legal representation incompetence, the process shuts down and the delays lengthen. There is an expectation of thorough case analysis, the presentation of issues with good legal basis, and the ability to understand and work efficiently and effectively in cases involving the unique nature of the death penalty.

Therefore, competent and ethical death row legal counsel can facilitate the process and provide greater assurances to society that justice is being carried out.

## Related External Issue 1.2: Economic downturn causing budget revenue shortfalls, budget cuts and experienced staff losses.

Representing capital collateral (death penalty) cases requires exceptional legal skills and case presentation experience, especially in the federal court system, that is beyond those that most lawyers attain.

The budget cuts over five years have reduced CCRCs' budget approximately 21.5 % below FY 2007-08. If additional budget reductions of 5% occur in FY 2013-14, it is likely that 5 lawyers and 4 investigators will be laid off (about 20% of CCRC case staffing). The loss of highly experienced and competent lawyers and investigators reduces the capacity of the CCRC offices to handle workloads. This would severely compromise CCRCs ability to meet court standards. Additionally, the resulting loss of positions would require the CCRCs to reduce the number of cases in Middle and South regional offices by 15%. These cases would be transferred to the Registry, which results in a cost shift instead of a savings. The costs per case are unlimited when conducted by Registry lawyers. The Florida Auditor General's Office 2007 report concluded that the CCRCs are more cost effective than Legal Registry lawyers who also are assigned post-conviction cases to represent affected parties in state and federal courts. If the CCRC budgets are cut, cases may be reassigned to the Registry. This is likely to cost more than would have been the case if cuts in CCRC budgets had not occurred allowing the CCRCs to continue the case work.

## Related Internal Issue 1.3: CCRC efforts to retain experienced professional staff to meet court expectations for competent representation.

Providing competent post-conviction legal counsel requires gathering, storing and analyzing case related public records, investigating cases, preparing and filing issues and providing legal representation within the state and federal courts. CCRC work tasks are described later in the Long Range Program Plan. Keeping caseloads at reasonable levels is important to retain staff over a longer period of time. The loss of FTEs due to annual budget cuts increases the workloads on the remaining FTEs which causes additional work place strains.

### CAPITAL COLLATERAL REGIONAL COUNSELS (CCRC)

CCRCs have made excellent progress in attracting, training and keeping post-conviction law experienced attorneys. Currently, 96% of CCRC attorneys have greater than 3 years experience in post conviction law. Almost 78% of CCRC attorneys have greater than 5 years experience. Lowering staff turnover rates has been a priority.

### **CCRC FOCUS AREA 2:**

Respond to increasing CCRC caseloads, state law and court rulings.

### 2.0 Trends and Conditions

CCRC caseloads, as assigned by the Florida Supreme Court, typically increase annually. In FY 2010-11, the caseload was 172. In FY 11-12 it was 179. In 2012-13 the CCRC workload is expected to be 182. In 2013-14, the caseload projection is 185.

The State and federal court systems are focusing more attention on issues related to death penalty review cases. Their dockets reflect a growing interest in conducting more evidentiary hearings on these issues. This trend is expected to continue into FY 2013-14.

The CCRCs do case trial records research, investigate case backgrounds and issues, produce a filing raising critical issues for state and federal court consideration and provide legal representation in the state and federal courts when issues are heard. When a death warrant is signed by the Governor, the CCRCs have an accelerated requirement to do final state and federal court reviews of the sentence within a short 30-60 day period.

in 2009-10 in 2010-11 in 2011-12 in 2012-13 in 2013-14

### **External Issue 2.1:** Have the capacity to meet increasing workloads

# Death warrants: 1 1 1 3 6 # of active cases: 172 179 182 185

Death warrants require accelerated representation in both state and federal courts. CCRCs usually must re-allocate limited resources to respond within a 60 day period to state and federal court process requirements.

For each warrant, two teams of lawyers and investigators are required due to the limited time allowed. The four lawyers involved work an average 70-80 hours a week for up to two months on each warrant. These are significant workloads for CCRCs.

### CAPITAL COLLATERAL REGIONAL COUNSELS (CCRC)

Over the next five years, the number of warrants is projected to increase when compared to the previous five years.

### **External Issue 2.2:** Be able to meet legal representation requirements of law.

State and federal law requires CCRCs, within 365 days, to analyze cases and produce a 3.851 filing with the courts on any issues deemed critical to court review of the death sentence. This is to avoid delays in processing the cases as they are assigned to the CCRCs.

Courts will then schedule hearings on one or more issues per case and require CCRCs to present their findings and discuss their issues. State and federal courts set their own calendars throughout the post-conviction legal process and CCRCs respond. CCRCs can request delays, but rarely do so as they try to keep the cases progressing to meet Legislative / Gubernatorial expectations. Over the last three state fiscal years, over 97% of all motions filed by CCRCs were timely filed without requests for extensions. However, the latest Auditor General's Report to the Legislature comparing CCRCs with private Registry indicated that the private registry attorneys only filed 63% of their motions in a timely fashion.

## External Issue 2.3: Be able to respond to increased workloads generated by recent Supreme Court decisions.

Over the past number of years, there have been numerous legal challenges to the process of executing death penalty sentenced inmates. These challenges resulted in federal and state courts slowing death penalty case processing

Recent Supreme Court decisions have settled many of the issues and cases will progress through the state and federal systems at a faster pace than previously. This trend is likely to continue at an even faster pace in the next five years.

In addition to working more cases, this trend is the basis for more state court appeals and federal court actions by the CCRCs as indicated previously.

### **External Issue 2.4:** Be able to respond to changes in Court policies and procedures

For the past ten (10) years, the Florida Supreme Court has reversed many Circuit Courts who have summarily denied post-conviction motions without granting an evidentiary hearing. The court has made it very clear that the Circuit courts should grant evidentiary hearings on a broad range of claims, leading to a significant increase in the number of issues raised by CCRCs that are granted an evidentiary hearing.

### CAPITAL COLLATERAL REGIONAL COUNSELS (CCRC)

This has led to a slight increase in the costs of legal representation and case preparation, but it has also decreased delay in the post-conviction process. Cases that were previously reversed and remanded for an evidentiary hearing after a summary denial are now being considered by the Circuit courts in a timely fashion. The 2-3 year delay caused when the Florida Supreme Court reversed the case, simply because the Circuit court failed to consider issues when they were first raised, rarely occurs, thereby increasing the efficiency of the overall post-conviction process.

The number of cases being decided slowed to a trickle while the trial and appellate courts awaited clarification from the Florida Supreme Court on the constitutionality of lethal injections. In April 2008, the U.S. Supreme Court ruled that lethal injections are constitutional.

The Florida Supreme Court and Florida Legislature also issued new rules relating to mental retardation and DNA issues further slowing case progress. During the 2006-07 fiscal year, then Governor Bush issued a moratorium on death penalty warrants and created a commission to review the problems associated with the Angel Diaz execution. This led to numerous challenges.

Final decisions by the U.S. & Florida Supreme Courts (FSC) led to increases in Death warrant activity and federal court actions requiring additional CCRC responses.

On July 10, 2010, the Florida Supreme Court expanded filing requirements for the CCRC cases in federal court. This adds to CCRC workload pressures. And recently, the FSC charged Circuit Courts to expedite the evidentiary hearing process which also adds to CCRC workload pressures.

Internal Issue 2.5: Be able to maintain attorney workloads at reasonable levels to continually provide competent legal representation and keep cases progressing on a timely basis through the court systems.

The CCRCs have case teams (1 lead attorney, 1 second attorney, 1 investigator and ½ support position). The number of cases per lead attorney was 12 in FY 2009-10. In FY 2011-12, it was 13.2. In 2012-13 it is projected to be 14. The Spangenburg Report of 1999 and the American Bar Association recommended a caseload of less than 6 per attorney. Continued loss of FTEs and rate in future budgets will increase these ratios.

The ability of attorneys, investigators and support staff to competently perform their case related work tasks determines the ability of the case to proceed in a timely manner and with a level of competency acceptable to the courts.

### CAPITAL COLLATERAL REGIONAL COUNSELS (CCRC)

### **CCRC FOCUS AREA 3:**

Keeping CCRC costs as low as possible while still providing competent representation and still meeting the Florida Supreme Court's professional standards.

### 3.0 Trends and Conditions:

The CCRCs have focused on producing consistently high quality work at low costs. The Auditor General, as charged by the Legislature, completed its analysis of CCRC financial and operating performance compared to private registry lawyers who are funded in the Appropriations Act to perform the same duties as CCRCs. It is an optional source of legal services for post-conviction case representation.

The Auditor General's "Report" to the Legislature indicated the following for FY 2005-06 which was the last full year's statistics available when the report was compiled. Even though this Report is now dated, current circumstances remain similar.

- 1. Average cost per case for legal representation: \$15,117 (CCRC) vs. \$18,579 Registry.
- 2. Average per hour cost for attorney time: \$ 38 (CCRC) vs. \$ 100 Registry
- 3. Average per hour cost for investigators: \$ 26 (CCRC) vs. \$ 40 Registry
- 4. Average cost per 3.851 court filing of issues: \$ 17,033 (CCRC) vs. \$ 18,359 Registry
- 5. Average cost per court evidentiary hearing on issues: \$17,325 (CCRC) vs. \$24,589 Registry
- 6. Average cost per appellate representation in courts: \$ 12,237 (CCRC) vs. \$ 17,263 Registry
- 7. Number of cases worked: 169 (CCRC) vs.153 Registry
- 8. There is a potential that the CCRCs will have 173 cases in FY 2011-12, while the estimate for the Registry is likely to be closer to 125.

These cost/case ratios appear relatively consistent from year to year. Since 2007-08, State appropriations for most state agencies including CCRCs resulted in budget reductions, but reimbursement levels for private Registry attorneys remained unchanged.

### External Issue 3.1: The number of death warrants signed by the Governor

As indicated, there was a slow down in death penalty cases progressing through the court systems in the past few years. The recent court rulings that are now accelerating the pace and the CCRC requirements to respond in a 30 – 60 day period is costly. There was one death warrant issued in FY 2007-08 and 5 in FY 2008-09. Many more are possible in the future. Each death warrant response costs CCRCs between \$ 20,000 - \$ 35,000.

### CAPITAL COLLATERAL REGIONAL COUNSELS (CCRC)

## CCRC FOCUS AREA 4: The Time It Takes To Complete Capital Cases in the Judicial System

### 4.0 Trends and Conditions

The time it takes to properly investigate a case is affected by the ability to locate documents, interview original trial witnesses, and family members, search for other crime witnesses not involved in the original trial, interview inmates and develop investigative results for legal analysis and case preparation.

The combination of records analysis and investigative information gathering, the preparation of motions and strategies for legal representation in both the state and federal courts and the development of issues for presentation in court is characteristically completed in one (1) year.

### **Internal Issue 4.1:** Conducting legal representation on a timely basis

The **2007 Auditor General's Report** documented the total processing time for cases from the point of being assigned to the CCRC and Private Registry law firms until their completion. There are three primary stages involved. This description of stages is still valid.

<u>The first stage</u> is from the date of Florida Supreme Court assignment until all case processing is completed in the Florida Circuit Court. During the total time (100 % of it) spent on average in this stage of a case's progress through the entire system, the Auditor General validated that CCRCs only accounted for 21 % of it. The rest (79 %) of the time it took to complete this stage was controlled by non-CCRC parties in the court system.

The second stage is from the beginning of the "appeals" process in the State courts until there is a court ruling on the appeal. During the total time (100 % of it) spent on average in this stage of a case's progress through the entire system, the Auditor General validated that CCRCs only accounted for 18.4 % of it. The rest (81.6 %) of the time it took to complete this stage was controlled by non-CCRC parties in the court system.

<u>The third stage</u> is from the beginning of the case processing in the Federal court system until its conclusion. During the total time (100 % of it) spent on average in this stage of a case's progress through the entire system, the Auditor General validated that CCRCs only accounted for 13.6 % of it. The rest (86.4 %) of the time it took to complete this stage was controlled by non-CCRC parties in the court system.

### CAPITAL COLLATERAL REGIONAL COUNSELS (CCRC)

The Auditor General verified that CCRCs are not delaying case progress through the state and federal court systems.

### External Issue 4.2: Inability to progress cases due to non-CCRC delays.

The time it takes for the State and Federal courts to hear cases is a major factor affecting the time it takes for cases to progress through the judicial system. Judges set the timelines for scheduling case hearings. This can be affected by court caseloads and backlog conditions.

Judges must carefully consider case issues and motions before scheduling hearings on those that have merit. It is then the responsibility of the CCRC and a prosecuting attorney to be prepared to participate in the scheduled hearing(s).

At times, the court will grant hearing delays upon a legitimate request by CCRCs, Registry attorneys or prosecuting attorneys. The trend in the increased timeliness of court hearings is due in part to the increased frequency of status conferences by the trial courts required under the new rules promulgated by the Florida Supreme Court.

Also, it is not unusual for death row inmate cases represented by Registry attorneys to be sent to a CCRC by the Supreme Court for representation following the issuance of a death warrant. A CCRC normally has no familiarization with the case assigned and must devote more staff than average to provide as competent representation as possible in the time allowed.

## **Internal Issue 4.3:** Being able to retain experienced support staff, investigators and attorneys.

As in Focus Area 1, retaining experienced staff in all areas of CCRC operations affects the ability to efficiently represent cases in the state and federal courts. In FY 2011-12, the CCRCs, combined, had 28 lawyers, 17 investigators, 6 case processing staff and 5 administrative staff.

CCRCs have become quite efficient in their work efforts as verified by the 2007 Auditor General's Report, and confirmed by the Florida Supreme Court in its written comments to the Florida Legislature praising the CCRC model in 2007 through 2011. Prior years of budget cuts and the resulting loss of highly skilled attorneys presents a major challenge to CCRC capacities to perform at levels expected by the courts.

## **CCRC FOCUS AREA 5: CCRC Operational Improvements**

### CAPITAL COLLATERAL REGIONAL COUNSELS (CCRC)

The ability to achieve performance standards also is affected by CCRC capacities to improve it operations and administration.

### **Internal Issue 5.1:** Being able to continually improve CCRC systems and processes.

The CCRC's ability to help investigators and attorneys search case records more efficiently improved significantly over the past few years. The implementation of advanced technology to scan, store and retrieve records, for instance, reduced attorney time required for case analysis. It also reduced the need for paper storage space and will reduce the requirements for expensive square footage office space.

CCRCs will continue to introduce technology enhancements such as installing search engines that can help scan records for client information much more quickly than in the past. In addition, newer & faster computers will be available to increase productivity throughout the office.

## **Internal Issue 5.2:** Being able to continually improve administrative and management processes.

CCRCs also are developing improved and more efficient capacities to monitor and evaluate their planning, budgeting and performance and accountability responsibilities. Administrative systems are being integrated to allow the office to administer more efficiently. The production of Long Range Program Plans, budgets and financial and operating performance measures in a much more time efficient, integrative and accurate manner is also being realized.

CCRCs continue to monitor their public records, investigation and legal counsel process activities and work tasks to isolate areas where efficiencies may be enhanced. The tasks involved in each of these processes are as follow:

The purpose is to be able to perform the following CCRC work activities and task in the most efficient way possible,

### 1.0 Public Records

- 1.1. Review existing records that are available
- 1.2. Generate a file on the death row client
- 1.3 Review additional public records
- 1.4. Litigate public records issues if they are not forthcoming

### 2.0 Investigations

- 2.1. Develop client history
- 2.2. Identify witnesses and experts who may provide critical information
- 2.3. Develop a strategy for locating and pursuing witnesses and experts
- 2.4. Obtain evidence

### CAPITAL COLLATERAL REGIONAL COUNSELS (CCRC)

### 3.0 Legal Counsel

- 3.1. Visit client
- 3.2 Analyze witness information
- 3.3. Draft and publish or transmit the 3.851 motion documents
- 3.4. Prepare other motions as appropriate
- 3.5. Participate in evidentiary hearing(s)
- 3.6. Draft post-hearing orders and pleadings
- 3.7. Review court decisions
- 3.8. Prepare for and participate in state court appeals/Habeas Corpus
- 3.9. Prepare and file a petition for Certiorari to the U.S. Supreme Court
- 3.10 Prepare for and participate in Federal Habeas Corpus proceedings
- 3.11 Conduct or attend evidentiary and/or other hearings
- 3.12 Prepare for and participate in Circuit Court of Appeal
- 3.13 Prepare and file a Petition for Certiorari to the U.S. Supreme Court

In FY 2012-13 and into FY 2013-14, the CCRCs will be implementing additional budget management capacities that will allow "unit cost" efficiency analysis and performance evaluations. In FY 2011-12, Middle and South CCRCs plan to further develop their "unit costing" budget systems to build in automatic management reports that will document cost trends, help identify efficiency improvement candidates and better manage scarce resources needed to perform effectively and meet judicial system standards.

The current measures identify "output measures that clearly indicate what CCRCs do and how much of it is done annually. These measures can be divided by CCRC budgets and actual expenditures to identify relevant "unit costs". This allows the LRPP to focus on measures that are critical to budget decision-making and judging CCRC plans and annual performance.

The combination of "output" and "outcome" measures can appropriately integrate financial, operational and results measures to tell the full CCRC story. The CCRC annual budget can be directly integrated with the CCRC Long Range Program Plan with these measures. The Auditor General's Report found currently authorized measures to be appropriate for telling the post-conviction legal representation story due to the availability of valid and reliable data, their ability to be collected and their ability to be integrated with financial data.

### **Internal Issue 5.3: Information Technology**

The CCRCs are currently working with the Florida Department of Corrections to implement a video conferencing system. When this system is operational, it will produce cost savings for CCRCs by reducing travel expenses to the two prisons that house CCRC clients. Additionally, it will increase the productivity levels of CCRC attorneys and investigators.

### TRENDS AND CONDITIONS

### OFFICES OF CRIMINAL CONFLICT AND CIVIL REGIONAL COUNSELS

The Offices of Criminal Conflict and Civil Regional Counsels ("the Office of Regional Counsel") protect the constitutional rights of all citizens through the cost efficient and effective legal representation of court appointed clients pursuant to Chapter 27, Florida Statutes.

The Offices of Regional Counsel carries out its mission to provide legal representation of court appointed clients in four (4) specific areas:

- A. CRIMINAL TRIAL COURT The Office of Regional Counsel represents appointed clients arrested for or charged with a felony, violation of probation or community control, misdemeanor, criminal traffic offense, criminal contempt, violation of a municipal or county ordinance, and juveniles alleged to be delinquent when the Public Defender has declared a conflict of interest or is otherwise prohibited by law from representation. Additionally, The Office of Regional Counsel represents appointed clients seeking correction, reduction, or modification of a sentence under 3.800, Florida Rules of Criminal Procedure and appointed clients seeking post conviction relief under rule 3.850, Florida Rules of Criminal Procedure when the Public Defender has declared a conflict of interest or is otherwise prohibited by law from representation.
- **B. CIVIL TRIAL COURT** The Office of Regional Counsel represents appointed clients pursuant to Chapter 39, Florida Statutes, where a petition seeks a dependency or termination of parental rights action. The Office of Regional Counsel also represents appointed clients pursuant to Chapter 63, Florida Statutes, where a petition seeks a termination of parental rights action.
- C. CIVIL (PROBATE, GUARDIANSHIP and MENTAL HEALTH DIVISIONS) TRIAL COURT The Regional Counsels provide representation to:
  - Clients subject to the Tuberculosis Control Act pursuant to Chapter 392, Florida Statutes
  - Clients subject to the developmental disabilities law pursuant to Chapter 393, Florida Statutes
  - Clients subject to the Florida Mental Health Act ("Baker Act") proceedings regarding involuntary civil commitment pursuant to Chapter 394, Florida Statutes, when the public defender has a conflict
  - Clients subject to involuntary commitment under the Jimmy Ryce Act, pursuant to Chapter 394, Part 5, Florida Statutes
  - Clients subject to a Hal S. Marchman Alcohol and Other Drug Services Act of 1993 ("Marchman Act") pursuant to Chapter 397, Florida Statutes
  - Clients subject to involuntary civil commitment and removal of civil rights pursuant to the Adjust Protective Services Act, Chapter 415, Florida Statutes

### TRENDS AND CONDITIONS

### OFFICES OF CRIMINAL CONFLICT AND CIVIL REGIONAL COUNSELS

- Clients requiring removal of disabilities of nonage pursuant to Chapter 743, Florida Statutes
- Clients subject to involuntary civil commitment and removal of civil rights pursuant to the Florida Guardianship Law, Chapter 744, Florida Statutes
- Children and families in need of state services pursuant to Chapter 984, Florida Statutes
- **D. CRIMINAL AND CIVIL APPELLATE COURTS** The Office of Regional Counsel represents appointed clients on appeals. These appeals result from cases where the Office of Public Defender had a conflict, from cases handled by court-appointed counsel, or from cases handled by the Office of Regional Counsel at the trial court level.

The goal of the Office of Regional Counsel is to provide quality representation to all clients. Because "quality representation" cannot be defined or measured in wins and losses; therefore, the Office of Regional Counsel is proposing performance measures that are designed to determine the quality of the work in other ways.

The following goal has been established in an effort to carry out the Offices of Criminal Conflict and Civil Regional Counsels' mission:

To insure cases are processed in a timely and cost effective manner.

	_Statewide Guardian ad Litem	
<b>Measure:</b>	All Performance Measures	
Action (check one):		
Data Sources and Mothe	dology	
Data Sources and Methodology:  The data source for these measures are numbers tracked by each of the 20 Guardian ad Litem offices residing in the 20 judicial circuits. Each office records and reports, as of the last day of the month, data needed to assess Program performance and to determine whether standards are met.		
Validity: The methodology for collemeasures is an accurate approximately	ecting and reporting the data supporting all performance proach to data collection.	
	and consistent. Although minor issues remain regarding data els confident that the process is dependable and will result in m year to year.	

Department:Justice Administration Program:Clerks of Court Service/Budget Entity:Clerks of Court Operations Corporation (CCOC) Measure: # of work products produced in support of Clerks' Budget Requests analyses and CCOC Legislative Budget Requests.		
Action (check one):		
Requesting revision to approved performance measure. Change in data sources or measurement methodologies. Requesting new measure. Backup for performance measure		
Data Sources and Methodology: The source for this measure is sections 28.35 and 28.36 F.S.		
Validity: A primary function of the CCOC is to receive and assess 67 Clerk Budget Requests to the CCOC, provide assessments of those requests to the CCOC Council and support the Council in their decisions to approve 67 Clerk budgets in their annually submitted Legislative Budget Request.		
Reliability: The CCOC has a file on each of the 67 Clerks' Budget Requests and final allocated budgets.		

Program:	
Action (check one):	
<b>Data Sources and Methodology:</b> The source for this measure is section 28.36 F.S. which increased the CCOC authority and responsibility to analyze and report on budget related conditions and work with Clerks' offices to resolve budget related issues as they arise during the fiscal year.	
A primary role for this type Appropriations Act and me performance of Clerks' off provide status reports and a	e CCOC to perform as a Budget Office on behalf of the State. The of office is to assist in the implementation of the General set Legislative expectations related to the funding and sices. During a budget implementation year, the CCOC will assessments on a variety of budget conditions, identify and added issues, manage the Clerks' Operations Trust Fund and and Legislative requests.
<b>Reliability:</b> The CCOC documents the	se outputs as created and has workload survey results.

	Justice Administration
	Clerks of Court

Department: Program: Service/Budget Entity: Measure: Pero	Justice Administration State Attorneys, First - Twentieth Judicial Circuits State Attorneys, First - Twentieth Judicial Circuits cent of offenders who qualify for enhanced sentencing for
	m state attorneys requested enhanced sentencing
Action (check one):	m state attorneys requested emidneed senteneng
_ 1 5	
<b>Data Sources and Metho</b> 1. List and describe the data source 2. Provide description of the metho 3. Provide explanation of the proces	(s) for the performance measure. dology used to collect the data and calculate the result.

The State Attorneys use case management databases to capture information from source documents for all referrals received. New case information is entered in the system and updated, as the cases move forward, to automatically record and track the information used to compute this measure. Files are maintained for each case record along with the original source documents, allowing the database information to be verified against the source documentation. The resulting number is calculated by taking the number of offenders whose sentences are enhanced by the court and dividing by the number of offenders for whom the State Attorney requested enhanced sentencing.

#### Validity:

Provide explanation of the validity of the performance measure, including an explanation of the methodology used to determine validity and the reason such methodology was used.

Case management systems are enhanced as needed to ensure that all necessary information is captured and can be audited for accuracy. The number reported is accurate; however, it is statistically insignificant when considered in the totality of State Attorney workload, and if reported alone, has no meaning.

#### **Reliability:**

Provide explanation of the methodology used to determine reliability and the reason such methodology was used. Include a statement of the reliability of the performance measure (the extent to which the measuring procedure yields the same results on repeated trials ensuring data is complete and sufficiently error free).

Data entered into the case management system is continually updated and monitored for accuracy. Audit reports are run on a regular basis to ensure reliability of data. The same data entered into the case management system is checked for results consistent with source documents.

Department:	Justice Administration
Program:	State Attorneys, First – Twentieth Judicial Circuits
Service/Budget Entity:	State Attorneys, First – Twentieth Judicial Circuits
Measure:	Number of post conviction relief responses or Habeas
	Corpus responses

Action (check one):

	Requesting revision to approved performance measure.
	Change in data sources or measurement methodologies.
	Requesting new measure.
$\boxtimes$	Backup for performance measure.

#### **Data Sources and Methodology:**

- 1. List and describe the data source(s) for the performance measure.
- 2 .Provide description of the methodology used to collect the data and calculate the result.
- 3. Provide explanation of the procedure used for measurement.

The State Attorneys use case management databases to capture information from source documents for all referrals received. New case information is entered in the system and updated, as the cases move forward, to automatically record and track the information used to compute this measure. Files are maintained for each case record along with the original source documents, allowing the database information to be verified against the source documentation. The number of post conviction relief responses is derived from the total number recorded in the case management system.

#### Validity:

Provide explanation of the validity of the performance measure, including an explanation of the methodology used to determine validity and the reason such methodology was used.

Case management systems are enhanced as needed to ensure that all necessary information is captured and can be audited for accuracy. The number reported is accurate, however, it is statistically insignificant when considered in the totality of State Attorney workload and if reported alone, has no meaning. This measure should be eliminated as the numbers are captured in cases referred, which better reflect the State Attorney workload.

#### **Reliability:**

Provide explanation of the methodology used to determine reliability and the reason such methodology was used. Include a statement of the reliability of the performance measure (the extent to which the measuring procedure yields the same results on repeated trials ensuring data is complete and sufficiently error free).

Data entered into the case management system is continually updated and monitored for accuracy. Audit reports are run on a regular basis to ensure reliability of data. The same data entered into the case management system is checked for results consistent with source documents.

Data Sources and Methodology: Each Public Defender Office has a different method of collecting data and caseload numbers. The Florida Public Defender Coordination Office is the data collection point for Public Defenders to submit all the collected data. The data is compiled and reviewed and sent back to each Public Defender office to proof for accuracy. The Florida Public Defender Association has a standing committee charged with developing standards and implementation practices for data collection. As of yet, there is no officially adopted methodology for the association to review the accuracy of the data.		
Validity: Only as good as the data input in each office.		
<b>Reliability:</b> Ten years of looking at the compiled data, there is very little variation by year by each circuit.

OTAL BUDGET FOR AGENCY (Total Activities + Pass Throughs + Reversions) - Should equal Section I above. (4)			1,249,298,059	
SCHEDULE XI/EXHIBIT VI: AGENCY-LEVEL UNIT COST SUMMAR	Υ			

<sup>(1)</sup> Some activity unit costs may be overstated due to the allocation of double budgeted items.
(2) Expenditures associated with Executive Direction, Administrative Support and Information Technology have been allocated based on FTE. Other allocation methodologies could result in significantly different unit costs per activity.
(3) Information for FCO depicts amounts for current year appropriations only. Additional information and systems are needed to develop meaningful FCO unit costs.
(4) Final Budget for Agency and Total Budget for Agency may not equal due to rounding.

<u>Activity:</u> A set of transactions within a budget entity that translates inputs into outputs using resources in response to a business requirement. Sequences of activities in logical combinations form services. Unit cost information is determined using the outputs of activities.

<u>Actual Expenditures</u>: Includes prior year actual disbursements, payables and encumbrances. The payables and encumbrances are certified forward at the end of the fiscal year. They may be disbursed between July 1 and December 31 of the subsequent fiscal year. Certified forward amounts are included in the year in which the funds are committed and not shown in the year the funds are disbursed.

Appropriation Category: The lowest level line item of funding in the General Appropriations Act which represents a major expenditure classification of the budget entity. Within budget entities, these categories may include: salaries and benefits, other personal services (OPS), expenses, operating capital outlay, data processing services, fixed capital outlay, etc. These categories are defined within this glossary under individual listings. For a complete listing of all appropriation categories, please refer to the ACTR section in the LAS/PBS User's Manual for instructions on ordering a report.

<u>Baseline Data:</u> Indicators of a state agency's current performance level, pursuant to guidelines established by the Executive Office of the Governor in consultation with legislative appropriations and appropriate substantive committees.

**<u>Budget Entity:</u>** A unit or function at the lowest level to which funds are specifically appropriated in the appropriations act. "Budget entity" and "service" have the same meaning.

<u>D3-A:</u> A legislative budget request (LBR) exhibit which presents a narrative explanation and justification for each issue for the requested years.

**Demand**: The number of output units which are eligible to benefit from a service or activity.

**Estimated Expenditures:** Includes the amount estimated to be expended during the current fiscal year. These amounts will be computer generated based on the current year appropriations adjusted for vetoes and special appropriations bills.

<u>Fixed Capital Outlay:</u> Real property (land, buildings including appurtenances, fixtures and fixed equipment, structures, etc.), including additions, replacements, major repairs, and renovations to real property which materially extend its useful life or materially improve or change its functional use, and including furniture and equipment necessary to furnish and operate a new or improved facility.

<u>Indicator:</u> A single quantitative or qualitative statement that reports information about the nature of a condition, entity or activity. This term is used commonly as a synonym for the word "measure."

<u>Information Technology Resources:</u> Includes data processing-related hardware, software, services, telecommunications, supplies, personnel, facility resources, maintenance, and training.

Input: See Performance Measure.

<u>Judicial Branch:</u> All officers, employees, and offices of the Supreme Court, district courts of appeal, circuit courts, county courts, and the Judicial Qualifications Commission.

<u>LAS/PBS</u>: Legislative Appropriation System/Planning and Budgeting Subsystem. The statewide appropriations and budgeting system owned and maintained by the Executive Office of the Governor.

<u>Legislative Budget Commission:</u> A standing joint committee of the Legislature. The Commission was created to: review and approve/disapprove agency requests to amend original approved budgets; review agency spending plans; issue instructions and reports concerning zero-based budgeting; and take other actions related to the fiscal matters of the state, as authorized in statute. It is composed of 14 members appointed by the President of the Senate and by the Speaker of the House of Representatives

<u>Legislative Budget Commission (cont.)</u> to two-year terms, running from the organization of one Legislature to the organization of the next Legislature.

<u>Legislative Budget Request</u>: A request to the Legislature, filed pursuant to s. 216.023, Florida Statutes, or supplemental detailed requests filed with the Legislature, for the amounts of money an agency or branch of government believes will be needed to perform the functions that it is authorized, or which it is requesting authorization by law, to perform.

Long-Range Program Plan: A plan developed on an annual basis by each state agency that is policy-based, priority-driven, accountable, and developed through careful examination and justification of all programs and their associated costs. Each plan is developed by examining the needs of agency customers and clients and proposing programs and associated costs to address those needs based on state priorities as established by law, the agency mission, and legislative authorization. The plan provides the framework and context for preparing the legislative budget request and includes performance indicators for evaluating the impact of programs and agency performance.

<u>Narrative:</u> Justification for each service and activity is required at the program component detail level. Explanation, in many instances, will be required to provide a full understanding of how the dollar requirements were computed.

**Nonrecurring**: Expenditure or revenue which is not expected to be needed or available after the current fiscal year.

Outcome: See Performance Measure.

**Output**: See Performance Measure.

<u>Outsourcing:</u> Describes situations where the state retains responsibility for the service, but contracts outside of state government for its delivery. Outsourcing includes everything from contracting for minor administration tasks to contracting for major portions of activities or services which support the agency mission.

<u>Pass Through:</u> Funds the state distributes directly to other entities, e.g., local governments, without being managed by the agency distributing the funds. These funds flow through the agency's budget; however, the agency has no discretion regarding how the funds are spent, and the activities (outputs) associated with the expenditure of funds are not measured at the state level. *NOTE: This definition of "pass through" applies ONLY for the purposes of long-range program planning.* 

<u>Performance Ledger:</u> The official compilation of information about state agency performance-based programs and measures, including approved programs, approved outputs and outcomes, baseline data, approved standards for each performance measure and any approved adjustments thereto, as well as actual agency performance for each measure

**Performance Measure:** A quantitative or qualitative indicator used to assess state agency performance.

Input means the quantities of resources used to produce goods or services and the demand for those goods and services.

Outcome means an indicator of the actual impact or public benefit of a service.

**Output** means the actual service or product delivered by a state agency.

<u>Policy Area:</u> A grouping of related activities to meet the needs of customers or clients which reflects major statewide priorities. Policy areas summarize data at a statewide level by using the first two digits of the ten-digit LAS/PBS program component code. Data collection will sum across state agencies when using this statewide code.

<u>Primary Service Outcome Measure</u>: The service outcome measure which is approved as the performance measure that best reflects and measures the intended outcome of a service. Generally, there is only one primary service outcome measure for each agency service.

<u>**Privatization**</u>: Occurs when the state relinquishes its responsibility or maintains some partnership type of role in the delivery of an activity or service.

**Program:** A set of activities undertaken in accordance with a plan of action organized to realize identifiable goals based on legislative authorization (a program can consist of single or multiple services). For purposes of budget development, programs are identified in the General Appropriations Act for FY 2001-2002 by a title that begins with the word "Program." In some instances a program consists of several services, and in other cases the program has no services delineated within it; the service is the program in these cases. The LAS/PBS code is used for purposes of both program identification and service identification. "Service" is a "budget entity" for purposes of the LRPP.

**Program Purpose Statement:** A brief description of approved program responsibility and policy goals. The purpose statement relates directly to the agency mission and reflects essential services of the program needed to accomplish the agency's mission.

<u>Program Component:</u> An aggregation of generally related objectives which, because of their special character, related workload and interrelated output, can logically be considered an entity for purposes of organization, management, accounting, reporting, and budgeting.

**Reliability**: The extent to which the measuring procedure yields the same results on repeated trials and data are complete and sufficiently error free for the intended use.

**Service**: See Budget Entity.

**<u>Standard</u>**: The level of performance of an outcome or output.

<u>Validity</u>: The appropriateness of the measuring instrument in relation to the purpose for which it is being used.

<u>Unit Cost</u>: The average total cost of producing a single unit of output - goods and services for a specific agency activity.
