September 19, 2016

Florida Citrus Commission Bartow, Florida

Submitted herewith is the Annual Financial Report of the Florida Department of Citrus for the year ending June 30, 2016. This report has been prepared in conformance with generally accepted accounting principles as prescribed in pronouncements of the Governmental Accounting Standards Board except as outlined in Note A.4. Every effort has been made to ensure that all financial transactions were conducted and records maintained in a complete and accurate manner.

Revenue and expenditures for the current fiscal year as compared to last fiscal year are presented below. Details of these figures can be found in the attached financial report and accompanying statements.

ANNUAL REPORT JUNE 30, 2016

EXECUTIVE SUMMARY

The mission of the Florida Department of Citrus is to maximize consumer demand for Florida citrus products to ensure the sustainability and the economic well-being of the Florida citrus grower, the citrus industry, and the state of Florida. The department conducts marketing and promotional campaigns for Florida citrus products; establishes minimum maturity and quality standards for citrus fruits; regulates the practices used in harvesting, grading, packing, and processing citrus fruits; conducts scientific research supporting citrus products; and conducts economic and marketing research.

The Citrus Commission sets the annual assessment on each box of citrus going into the channels of trade. Historically, citrus advertising assessments have fully funded operations. However, the orange crop for Fiscal Year 2014-15 dropped below 100 million boxes for the first time in 49 years due to the continued challenge of citrus greening, or HLB. Additionally, growers are faced with increasing production costs in order to sustain their groves in the battle against citrus greening. The Florida Citrus Commission and FDOC have provided some relief to growers in the form of assessment rate reductions in the last three years. The downward trend in crop projections continued in 2015-16 with the season ending at 81.6 million boxes of oranges and 10.85 million boxes of grapefruit. These factors combined resulted in reduced revenue to the department and, at the request of the industry, necessitated reductions in staff at the end of the 2015-16 fiscal year.

MARKETING

The main activity of the department continues to be marketing and promotion of Florida citrus products, executing marketing initiatives in the United States, Canada, Europe, and Asia. The majority of domestic marketing programs focus on Florida Orange Juice with some programs aimed at fresh fruit while the majority of international programs promote fresh Florida Citrus, particularly grapefruit.

In 2015-16, domestic marketing programs focused on highlighting the nutrition, origin and premium value of Florida Orange Juice and fresh Florida Citrus. These messages were relayed to our target audience of millennial moms through the public relations programs, including paid advertising, social media, website activations, videos, earned media placements and blogger engagements. The department moved away from buying digital ads on titles (i.e. fitness.com, cookinglight.com) to a more cost efficient means of delivering key messages to millennial moms regardless of what sites they visit. The department also developed content that was much more relevant and engaging for the audience with "mom tips" that helped increase web traffic by 57 percent, garnered more than 650 million impressions, 7.5 million clicks at an efficient \$0.30 per click rate. On social media, "mom tips" helped garner 8.5 million paid social impressions and more than 500,000 social media engagements.

At the retail level, the department moved away from coupon incentives at the request of the industry and started to focus on nutrition messaging to support the brands' retail activations included digital and in-store point-of-sale materials at Kroger, Publix, Winn Dixie, Food Lion, Safeway, Target and Meijer.

As the sugar content of 100% orange juice continues to be a hot topic among consumers and the media, the FDOC ramped up existing issues management programs and created new activities aimed at talking to influencers such as registered dietitians and credentialed experts one-on-one and in food/agriculture spaces. In light of the continued challenge of citrus greening, programs were also put in place to educate consumers on the disease as well as combat issues related to its possible solutions.

At the international level, the FDOC conducted retail and public relations activities, in association with agency partners, in Japan, South Korea, Canada and Europe. While the majority of these activities concentrated on fresh grapefruit, the FDOC promoted 100% orange juice in Canada and South Korea as well.

The FDOC marketing strategy in Japan for 2015-16 focused on highlighting the health benefits, great taste and premium quality of Florida Grapefruit. The FDOC also focused on educating consumers of the seasonality of Florida Grapefruit, with January through spring serving as "peak season" when the fruit tastes and looks its best. This strategy included a variety of tactics, including public relations and retail marketing. One example is FDOC's partnership with actress Saki Aibu, who became a spokesperson for Florida Grapefruit. Aibu traveled to Florida for a grove photo and video shoot. This footage was featured throughout the season in point of sales materials in stores, on the Florida Grapefruit website, in magazine advertorials, in transit ads and at a press event. This partnership garnered more than 56 billion earned media impressions.

In Europe, retail marketing and public relations programs focused on fresh Florida Grapefruit as a culinary ingredient and its premium quality. One example is FDOC's partnership with UK celebrity ambassador Gizzi Erskine for recipe development and a photoshoot. The partnership landed successful coverage in print, online and social media. This resulted in more than 62 media hits and nearly 5 million impressions. In France, one activation included sending a "Florida Box" to consumers, journalists and bloggers that highlights the attributes of Florida Grapefruit through recipes, information and more. This program resulted in 24 articles and 74.7 million impressions. Retail promotions in Europe included sampling demos as well as point-of-sale materials and giveaways. Activations also took place in Netherlands and Belgium.

In Canada, activations included both fresh Florida Grapefruit and Florida Orange Juice. FDOC's Canadian agency partner developed multiple Florida Grapefruit assets for use in social media and point of sale for the Canadian and European markets. These assets focused on Florida origin, premium quality and using Florida Grapefruit as a culinary ingredient. Grapefruit activations in Canada included a media event with celebrity chef ambassador Cory Vitiello, who led a cooking class. The event attracted 10 media members from the Food Network, Toronto Star, Canadian Living, Huffington Post and E! The event resulted in 12.2 million impressions. For Florida

Orange Juice in Canada, programs focused on similar messages and targets as the U.S. audience and included matte releases, media outreach and blogger activations. This included a partnership with Laura Berg, one of Canada's top ranked YouTube channels with 30 million views.

In South Korea, Florida Grapefruit activities focused on public relations and retail marketing of the Florida origin, premium quality and nutritional/beauty benefits. Activations included social media, food service, media outreach, use of a celebrity spokesperson and more. One activation took place at a home shopping network in South Korea. Focused on highlighting the Florida origin and aimed at increasing awareness of Florida Grapefruit's premium quality and taste, the program tapped into the country's unique home shopping trend. This resulted in sales of \$481,100 in one hour with a sales value per minute of \$4,150 which is higher than the sales value usually garnered by food products in TV home shopping. For Florida Orange Juice, activations included print, outdoor, elevator screen digital ads and more highlighting the Florida origin of which resulted in more than 350 million impressions.

ECONOMIC AND MARKET RESEARCH

Economic and market research is conducted to forecast and evaluate the Florida citrus outlook, future production trends, results of marketing programs, and consumer awareness of Florida citrus. In 2015-16, the department engaged in the collection, analysis and reporting of market research and production data, and provided periodic reports to citrus industry organizations and stakeholders. The department also performed activities related to the requirements set forth in F.A.C. Rule Chapter 20-3, "Citrus Fruits Dealers," including the publication of a weekly processors statistics report and the post estimate fruit price reports. The department also performed an economic analysis of incentives to plant citrus trees in Florida.

SCIENTIFIC RESEARCH

FDOC's scientific research programs now focus on the health benefits and quality of Florida citrus, with an emphasis on Florida Orange Juice. In 2015-16, the department focused on several projects, including nutritional component monitoring, essential oil treatment, pesticide residue monitoring, as well as clinical research on the effects of the hesperidin in OJ on cardiovascular health in adults at risk for cardiovascular disease and the effects of OJ on cognition in children. The department also collaborated with outside entities, including USDA and the CREC, on citrus-based projects and assisted marketing with nutrition-focused messaging and support of PR programs.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2016

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following summary of significant accounting policies of the Department of Citrus is presented to assist the reader in interpreting the financial statements. These policies should be viewed as an integral part of the accompanying financial statements.

1. Reporting Entity

The Department of Citrus is an agency of the State of Florida.

The powers and duties of the Department of Citrus are defined in Chapter 601, Florida Statutes (the Florida Citrus Code of 1949). The Department of Citrus is a corporate body with power to contract, and be contracted with, in order to carry out the provisions and requirements of this Chapter. Bartow, Florida, is designated as its official headquarters.

The Florida Citrus Commission is designated as the head of the Department and is composed of nine practical citrus persons appointed by the Governor, subject to confirmation by the Senate, for a three-year term. Six members shall be designated as grower members and three shall be designated as grower-handler members. The Commission administers the various laws which provide broad regulatory powers with respect to packing, processing, labeling, and handling of citrus fruits and products. The Commission also oversees domestic and international marketing activities.

2. Fund Accounting

The accounts of the Department of Citrus are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

Special revenue funds (a governmental fund type) are used to account for revenues which are legally restricted to expenditures for specific purposes. The Department currently has one special revenue fund, the Florida Citrus Advertising Trust Fund. The trust fund was created by Section 601.15(7), Florida Statutes, for the payment of expenditures for general overhead, administration, research and development, advertising, merchandising, public relations, and other associated marketing activities. An assessment per standard (1-3/5 bu.) box on grapefruit, oranges, and on other citrus varieties is levied by the Florida Citrus Commission in accordance with a sliding tax table. The assessment is effective August 1 for the ensuing year.

The general fixed assets account group is used to establish accounting control for general fixed assets.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

3. <u>Basis of Accounting</u>

Basis of accounting refers to when revenues, expenditures, transfers and the related assets and liabilities are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the nature of the measurement.

The governmental funds are accounted for using the modified accrual basis of accounting. Revenue is recognized when it becomes measurable and available to finance expenditures of the current period. Under the modified accrual basis of accounting, expenditures are recognized when the related fund liability is incurred.

4. <u>Basis of Presentation</u>

The financial statements of the Department of Citrus have been prepared in accordance with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB). Although GASB No. 34, *Basic Financial Statements and Management Discussion and Analysis for State and Local Governments*, eliminated the requirement to present account groups, the Department has elected to combine and present the fixed asset and long-term debt account groups.

The total column on the accompanying combined financial statement is captioned "memorandum only" to indicate that it is presented only to facilitate financial analysis. Inasmuch as the total column includes fund types and account groups that use different bases of accounting, data in this column does not present financial position in conformity with generally accepted accounting principles. Such data is not comparable to a consolidation.

5. Deposits and Investments

Cash deposits include demand deposit accounts and time deposit accounts. In addition, investments in the State Board of Administration investment pool are considered to be a cash equivalent. Cash equivalents are defined as short-term, highly liquid investments.

Unless specifically exempted by statute, all cash of the state must be deposited in the State Treasury. The State Treasury, in turn, keeps the funds fully invested to maximize interest earnings. Authorized investments include certificates of deposit in Florida banks and savings and loan associations, direct obligations of the United States Treasury, obligations of federal agencies, asset-backed or mortgage-backed securities, commercial paper, bankers' acceptances, medium term corporate obligations, repurchase agreements and commingled and mutual funds.

6. Inventories

Inventories of \$553,502 are expensed using the consumption method and are valued at cost determined on a first-in, first-out basis. Inventories consist mainly of promotional and display materials that support marketing activities.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

7. <u>Fixed Assets</u>

Buildings, furniture and equipment are recorded at historical cost. Land, which was donated, is recorded at the appraised value at the time it was donated. GASB No. 34 requires that the State have a policy on capitalization, depreciation, and useful lives of fixed assets. Fixed assets are recorded at cost and depreciated over the following useful lives:

Buildings 30 years Equipment 3-5 years Automobiles 5 years

8. <u>Compensated Absences</u>

Employees earn the right to be compensated during absences for vacation and illness. Within the limits established by law or rule, the value of unused leave benefits will be paid to employees upon separation from state service. The cost of leave benefits is normally recognized when payments are made to employees; however, the department has accrued a liability of \$326,419 as required by GASB. The current portion of the liability is \$97,061, of which \$3,799 will be paid out within sixty days of the fiscal year end. The remaining \$229,358 is recorded as a noncurrent liability.

The compensated absences amounts are based on June 30, 2016 salary rates and include employer social security and pension contributions at current rates.

B. CASH AND CASH EQUIVALENTS

Cash and cash equivalents totaling \$22,152,595 consist of pooled investments of \$21,736,123 (See Note C); cash held in the State Treasury, \$411,472; and local demand deposits, \$5,000.

C. POOLED INVESTMENTS WITH STATE TREASURY

Available monies are invested through the State Board of Administration pursuant to Section 215.44, Florida Statutes. Investments totaled \$21,736,123 and are stated at cost plus interest earned and reinvested. Interest earned on these investments during the fiscal year ended June 30, 2016, totaled \$250,760, an average rate of 1.43%. Total investment earnings for the year of \$250,827 included interest earned on local demand deposits.

D. **DUE FROM FEDERAL GOVERNMENT**

At June 30, 2016, \$1,058,883 is due from the United States Department of Agriculture/Foreign Agricultural Service. This balance represents marketing expenditures incurred by the Department of Citrus as of June 30, 2016, not yet reimbursed by the Foreign Agricultural Service program.

E. CHANGES IN GENERAL FIXED ASSETS

Changes during the year in general fixed assets are summarized below:

| | Balances <u>7/1/15</u> | Additions | Deletions | Balances 6/30/16 |
|--------------------------------|------------------------|-----------------|-----------|------------------|
| Fixed Assets at Cost | | | | |
| Land | \$ 60,000 | \$ 0 | \$ 0 | \$ 60,000 |
| Buildings | 3,554,990 | | 0 | 3,554,990 |
| Equipment & Autos | 2,203,702 | 59,739 | (132,713) | 2,130,728 |
| Other | 2,990 | 0 | 0 | 2,990 |
| Less: Accumulated Depreciation | | | | |
| Buildings | (765,224) | (141,620) | 0 | (906,844) |
| Equipment & Autos | (1,956,644) | (131,058) | 131,823 | (1,955,879) |
| Other | (2,990) | 0 | 0 | (2,990) |
| | \$ 3,096,824 | \$ (212,939) | \$ (890) | \$ 2,882,995 |

F. ACCOUNTS PAYABLE

Accounts payable of \$4,405,397, consist primarily of marketing, public relations and research expenditures incurred in the normal course of operation of the Department.

G. **DUE TO OTHER STATE AGENCIES**

Amounts payable to other state agencies, totaling \$474,413, consist of general revenue service charges due to the State of Florida, Chief Financial Officer, and amounts due to other State agencies for services provided.

H. CHANGES IN GENERAL LONG-TERM DEBT

Changes during the year in general long-term debt are summarized below:

| | Balance | | | Balance |
|----------------------|-----------|-----------|-------------|-----------|
| | 7/1/15 | Additions | Deletions | 6/30/16 |
| Compensated absences | \$359,389 | \$236,903 | (\$269,873) | \$326,419 |

The liability for compensated absences at June 30, 2016, was determined in accordance with the provisions of the Governmental Accounting Standards Board *Codification*, Section C60. The excess deletions over additions were due to the retirement and departure of several tenured employees.

I. COMMITTED FUND BALANCE

For fiscal years beginning after June 15, 2010, GASB No. 54, Fund Balance Reporting and Governmental Fund Types, requires government entities to present fund balance based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. The Department's fund balance of \$18,977,919 is classified as Restricted by Enabling Legislation because all funds in the Florida Citrus Advertising Trust Fund are constrained by Section 601.15(7), Florida Statutes (see Note A. 2.). The Department chooses to designate a portion of the restricted fund balance, currently \$15,477,919, to provide adequate funds to continue normal operations during periods of minimal tax collections, and to provide for rate stabilization in future years. The remainder of the committed fund balance is available in the subsequent year to fund program activities.

J. PRIOR PERIOD ADJUSTMENT

Adjustments were made to fund balance at July 1, 2015, totaling \$773,612. Accounts payable at June 30, 2015 were overstated by approximately \$773,612 due to recorded payables which did not materialize.

K. RETIREMENT PLANS

The Department does not administer a separate retirement plan for its employees. However, pursuant to Florida Statutes, all officers and salaried employees are, with minor exceptions, members of defined retirement plans administered by the Florida Department of Management Services, Division of Retirement. The retirement plans of the State of Florida consist of contributory and noncontributory benefit plans. The plans provide for retirement, death, and disability benefits and require contributions by employees and/or participating agencies at stated percentages of compensation set by law as determined from time to time by the State Legislature. The Department's contributions to the plans for the fiscal year ended June 30, 2016, totaled \$241,812; employee contributions total \$76,555. The plans' accounting and funding policies, actuarial present value of accumulated plan benefits, net assets available for benefits, and other plan-related matters are the responsibility of the Florida Department of Management Services, Division of Retirement, and are not computed on an individual agency basis.

L. EXTRAORDINARY ITEM

In 1999, the Department entered into two development loan contracts for the development of mechanical harvesting equipment. The contracts contained a forgiveness clause in the event the equipment became commercially unviable. The equipment is no longer commercially viable, and the contracts were both terminated in June 2015. The remaining balance on the loan of \$375,769 was expensed as an extraordinary expenditure as of June 30, 2015.

There were no extraordinary items in fiscal year 2015-16.

M. SUPPLEMENTAL SCHEDULES

To assist the reader in analysis of these statements, the following supplemental schedules are included:
