## **I. Purpose**

Section 216.0153, Florida Statutes, requires the Department of Environmental Protection (DEP) and the Department of Management Services (DMS) to provide a report to the Governor and Legislature by October 1 of each year that lists real property disposition candidates. The annual report includes state-owned land and buildings compiled by DEP and DMS for disposition.

Previous reports can be found on the [DEP Disposition of State Lands and Facilities Reports Page](#).

This year improvements to FL-SOLARIS were completed which automate many of the surplus reporting requirements including on demand surplus reports and charts in FL-SOLARIS Land Inventory Tracking System (LITS) and current surplus information available to the public on the [FL-SOLARIS Public Interface](#).

### **Disposition Process**

State-owned property must go through a specific process before it can be disposed, pursuant to Article X, Section 18, Florida Constitution, Chapters 253 and 259, Florida Statutes, and Chapter 18-2, Florida Administrative Code. The steps vary depending on the agency owning the land and whether the property is conservation land or non-conservation land.

### **Interagency Collaboration**

As the statewide custodian of real property information, DEP is responsible for development and maintenance of the comprehensive inventory system for all state-owned real property, known as the Florida State Owned Lands and Records Information System (FL-SOLARIS). DEP works closely with DMS in a collaborative effort to assure that the inventory system is able to report on all lands and facilities owned, leased, otherwise occupied, disposed and/or in the surplus process by all state agencies, water management districts, universities and colleges. DEP also works closely with the Department of Revenue and has entered into a Memorandum of Agreement outlining the sharing of tax data essential for FL-SOLARIS inventory reconciliation. DEP and the Department of Financial Services, County Property Appraisers Associations, Department of Education and Department of Transportation were represented on the FL-SOLARIS Executive Management Team in order to guide the successful development and implementation of the FL-SOLARIS comprehensive real property database, which became fully operational in February 2013.

DEP, together with DMS, maintains more than 600 individual FL-SOLARIS user accounts for 78 state agencies, water management districts, colleges and universities and is available to assist all agency users with updating and maintaining the inventory.

### **Scope of the October 2015 Disposition Report**

This annual report lists state-owned property with the potential for disposition in the various reports of Attachment A in four categories:

- a) Candidate for Disposition – Identifying Activities: Previously included as part of the Active Category, this includes properties that have been identified by the current manager as no longer needed and unmanaged properties that may be available for surplus pending a completed review.
- b) Candidate for Disposition – Government Noticing Activities: Previously included as part of the Active Category, this includes parcels that are in the noticing process or noticing has been completed and responses are being reviewed and evaluated.
- c) Disposition – Process Review Activities: Previously included as part of the Active Category, this includes premarketing evaluations and approvals, available for sale to the public, actively being marketed for sale or available for exchange only.
- d) Disposition – In Process: Previously included as part of the Under Contract/In Negotiations, this includes property that is under contract.

Two additional attachments in this report (Attachments B and C) show transactions occurring during the last fiscal year. The Sales Report of Board of Trustees property and the Sales Report of Non-Board of Trustees property (Attachment B) itemize each of the properties sold, and Board of Trustees Land (Leases) Release Activity Report (Attachment C) is a list of properties for which the management lease has been transferred from one state agency or government entity to another or was moved into the surplus process.

For the purpose of this report, the terms “buildings” and “facilities” are used interchangeably. Chapter 2010-280, Laws of Florida, requires agencies to submit facility information to DMS before July 1 of each year. DMS worked closely with the agencies in using the information gathered to identify additional disposition candidates. State agencies submitted facility information through the FL-SOLARIS Facility Inventory Tracking System (FITS). Agencies identified 86 facilities as candidates for disposition. (Attachment A – 2015 Facilities). The 86 facilities are situated on less than 10 different parcels of land.

## **II. Findings**

### **State-Owned Inventory for Disposition**

For this report, state-owned property is categorized as either owned by the Board of Trustees of the Internal Improvement Trust Fund (Board of Trustees, or BOT as shown on Attachment A) or other state property (non-Board of Trustees). Due to the number of properties listed, the various reports which are provided in Attachment A can be found on the [DEP Disposition of State Lands and Facilities Reports Page](#).

There are various reports that use the new categories or surplus statuses that were discussed above (see *Scope of the October 2015 Disposition Report*). It should be noted that the size of many of the properties on the list is based on what was reported to the Department of Revenue by county property appraisers and has not been verified with a survey. Similarly, most-values shown are the result of the county property appraisers’ mass valuation techniques, not appraisals on the individual properties. This should be considered in giving weight to the sizes and values reported.

***Board of Trustees State-Owned Land and Facility Dispositions***

As of June 30, 2015, the report contains a total of 443 properties that are candidates for disposition or in the disposition process, containing an estimated 4,315 acres with an estimated value of \$34.4 million. These values do not reflect possible revenue, as all values are estimated or based on assessed value provided by county property appraisers and may not reflect the actual appraised value of the facility if taken to market. In addition, many of the properties may be leased by state universities, Florida College System institutions or state agencies. These numbers will constantly change due to ongoing evaluations, newly identified surplus properties, property re-leased to agencies, universities and Florida College System institutions in the noticing process, ongoing negotiations and dispositions of property.

***Non-Board of Trustees State-Owned Land and Facility Dispositions***

Each of the state's five water management districts holds title to lands and has a process for disposing of lands determined to be no longer needed for district purposes. Their surplus lands processes are similar to the trustees' process.

The information for this report is provided to DEP by each water management district. Due to ongoing evaluations, negotiations and dispositions, parcels change from category to category, such as from 'Candidate for Disposition – Identifying Activities' to 'Disposition – In Process.'

Other than property owned by the Department of Transportation and the various water management districts, most state land is titled to the Board of Trustees. There are some exceptions and this year's report includes a property owned by the Department of Agriculture and Consumer Services which is listed with a 'Disposition – Process Review Activities' status and a 'Being Marketed' detailed status in the non-Board of Trustees lands data.

**Sales Reports of Board of Trustees and Non-Board of Trustees Property**

Since July 1, 2014, 26 Board of Trustees properties have been disposed of and are listed in Attachment B. Two were transferred, with no consideration received, three were exchanges of property and 21 were sales. The two transfers consisted of properties that reverted to Pinellas and Madison counties due to restrictions in the deed requiring that they revert to the Grantor if no longer used for a highway patrol station. Total revenue received was \$60,320,837 and 7.94 acres of land valued at \$ 3,360,000 was received through the exchanges. Since July 1, 2014, 24 non-Board of Trustees properties have been disposed of and are listed in Attachment B. The total revenue received was \$1,388,021 and 2,881.41 acres of land.

**Board of Trustees Land (Leases) Release Activity**

Prior to a parcel of state-owned land being declared surplus to the state's needs, it is first offered to universities, Florida College System institutions and state agencies for lease per Section 253.034(14), Florida Statutes. If it is placed under a management lease to one of these entities, it goes no further in the disposition process. The entity then becomes responsible for use and maintenance of the property. Management leases are used for state agencies, local governments or other programs regardless of whether the property is a park, recreational trail, forest, wildlife conservation area or state office building. If the parcel is not needed by any one of the entities, it continues in the disposition process. The listing in Attachment C illustrates

recent lease transactions that resulted in a parcel being transferred to another entity to manage or was moved into the surplus process.

### **III. Attachment A: State-Owned Inventory for Disposition**

There are seven reports which provide details of the state-owned inventory for disposition as of June 30, 2015:

1. [LITS BOT Land Data](#)
2. [LITS BOT Land Totals](#)
3. [LITS BOT Land Charts](#)
4. [LITS Non-BOT Land Data](#)
5. [LITS Non-BOT Land Totals](#)
6. [LITS Non-BOT Land Charts](#)
7. [FITS Facility Data](#)

All of these reports are listed under Attachment A on the [DEP Disposition of State Lands and Facilities Reports Page](#).

**IV. Attachment B: Sales Report of Board of Trustees and Non-Board of Trustees Property**

## **I. EXECUTIVE SUMMARY**

The 2015 State Facilities Inventory (SFI) and Disposition of State Lands Annual Reports provide summary-level information of state-owned facilities and lands, as stipulated in sections 216.0152 and 216.0153, Florida Statutes.

Since 1985, the Department of Management Services (DMS) has maintained a program to collect information on state-owned facilities. Section 216.0152, Florida Statutes, originally required that DMS collect information on state agency facilities more than 3,000 square feet. This original inventory consisted of approximately 4,000 facilities.

During the 2010 Legislative Session, extensive changes were made to sections 216.0152 and 216.0153, Florida Statutes. Section 216.0152, Florida Statutes, required agencies, the judicial branch and the water management districts to report to DMS information on all state-owned facilities, regardless of size. This increased the scope of the report from 4,000 facilities to approximately 20,199 facilities. These changes required DMS, every three years, to submit to the Governor, Senate President and Speaker of the House of Representatives a report detailing facilities inventory. Section 216.0153, Florida Statutes, requires the Department of Environmental Protection (DEP) and DMS to annually submit to the Governor, Senate President and Speaker of the House of Representatives a report that lists the state-owned real property and facilities recommended for disposition.

Section 216.0153, Florida Statutes, also required DEP create a comprehensive database of all state-owned real property. This system, the Florida State Owned Lands and Records Information System (FL-SOLARIS), is comprised of two major components, the Facilities Inventory Tracking System (FITS) and the Land Inventory Tracking System (LITS). The FL-SOLARIS (FITS) provides the ability to use Web forms to edit and view owned facilities and allows users to extract and validate lease information. The FL-SOLARIS (FITS) went into production in October 2011; and FL-SOLARIS (LITS) went into production in February 2013.

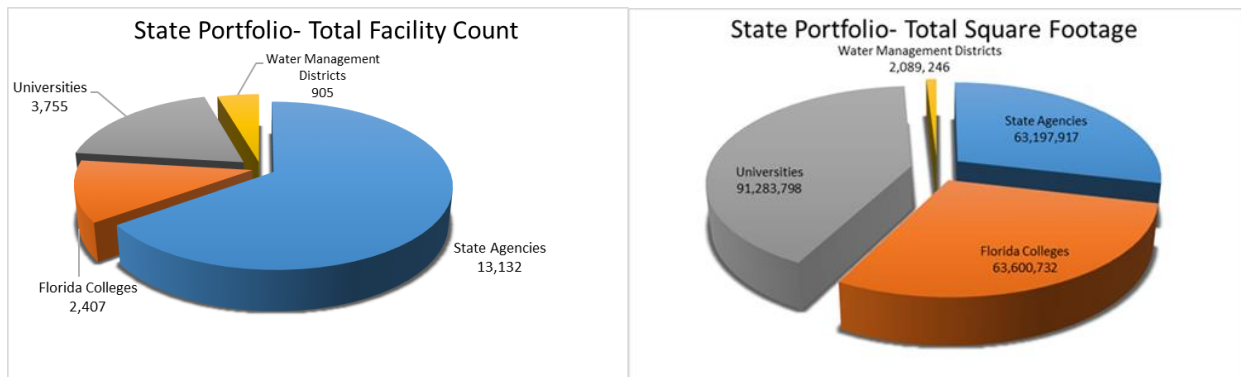

Chapter 2013-152, Laws of Florida, modified section 216.0152, Florida Statutes, and incorporated DEP's Disposition of State Lands and Facilities Report as part of the SFI. The reports are published annually by Oct. 1.

## II. SUMMARY OF OWNED INVENTORY

Section 216.0152, Florida Statutes, defines a facility as “buildings, structures, and building systems, but does not include transportation facilities of the state transportation system.” In the 2013 SFI instructions to the agencies, DMS further defined a facility as any constructed asset with a permanent roof.

Agencies reported the following in FL-SOLARIS (FITS) as of June 30, 2015:

- The State of Florida owns 20,199 structures totaling 220,171,693 square feet. This portfolio includes facilities owned by state agencies, water management districts, the Florida College System, and the State University System of the Florida Board of Governors (BOG).
- State agencies own 13,132 facilities, totaling 63,197,917 square feet.
  - Agencies own facilities in all 67 counties, with Alachua County having the most in count (1,619), Miami-Dade County having the most in square footage (29,614,234), and Glades County the fewest in both count (48) and square footage (86,340).
  - Agencies reported 246 candidates for disposition, totaling over 1.2 million square feet. Of those, only six were newly reported for 2015.
  - The average age of all agency-owned facilities is 31 years, and there are approximately \$842 million in reported capital improvement projects.
  - Agencies reported approximately \$289.9 million in operating expenses for this reporting cycle and \$121.4 million in utility expenses.

### State-Owned Portfolio

The following table summarizes state government entities by the total number of facilities and total square footage for all space types. The table also provides the percentage of the total inventory based on the total number of facilities and the total square footage of all facilities.

Government Entity	Facility Count	Facility Count as a Percent of Total Inventory	Gross Square Footage	Square Footage as Percent of Total Inventory
<b>State Agencies</b>	<b>13,132</b>	<b>65.01%</b>	<b>63,197,917</b>	<b>28.70%</b>
Agency for Persons with Disabilities	420	2.08%	1,556,895	0.71%

## State-Owned Facilities by Space Type

The table below lists the total number of facilities and total gross square footage of the state's portfolio by predominant space type. As the table illustrates, the most predominant space type is educational.<sup>1</sup>

Predominant Space Type	Facility Count by Space Type	Gross Square Footage
Educational	5,939	146,212,327
Penal	4,616	25,041,211
NOC	1,977	3,368,973
Unenclosed structure	1,204	7,845,282
Utility	1,196	1,003,863
Unconditioned Storage	1,193	1,671,280
Office	1,035	16,973,268
Residential	897	7,057,580
Agricultural	765	2,938,599
Recreational	494	1,114,521
Conditioned Storage	248	847,936
Not Listed- Blank	171	1,088,030
Workshop	165	656,525
Labs	76	1,086,379
Armory	54	1,134,300
Museum/Exhibits	52	207,115
Gym/Exercise/Sports Venue	51	799,441
Food Services	29	251,111
Medical care	17	678,091
Conference Center	10	92,372
Data Center	10	103,489
<b>Grand Total</b>	<b>20,199</b>	<b>220,171,693</b>

<sup>1</sup> The definition of NOC is Not Otherwise Classified.

## State-Owned Facility Operating and Utility Expenses by Space Type

The table below depicts the total *reported* spend by state government entities on operating expenses and utilities by space type. <sup>2</sup>

Predominant Space Type	Facility Count	Gross Square Footage	Operating Cost	Average Operating Cost/ Square Foot	Utility Cost	Average Utility Cost/Square Foot
Agricultural	765	2,938,599	\$2,919,780	\$0.99	\$923,577	\$0.31
Armory	54	1,134,300	\$5,002,263	\$4.41	\$1,834,194	\$1.62
Conditioned Storage	248	847,936	\$1,724,947	\$2.03	\$722,499	\$0.85
Conference Center	10	92,372	\$104,814	\$1.13	\$45,701	\$0.49
Data Center	10	103,489	\$277,829	\$2.68	\$77,876	\$0.75
Educational	5,939	146,212,327	\$18,437,597	\$0.13	\$2,795,091	\$0.02
Food Services	29	251,111	\$9,725,253	\$38.73	\$411,051	\$1.64
Gym/Exercise/Sports Venue	51	799,441	\$5,608,887	\$7.02	\$187,322	\$0.23
Labs	76	1,086,379	\$2,870,658	\$2.64	\$2,389,296	\$2.20
Medical care	17	678,091	\$10,834,636	\$15.98	\$2,580,933	\$3.81
Museum/Exhibits	52	207,115	\$512,924	\$2.48	\$240,434	\$1.16
NOC	1,977	3,368,973	\$8,187,213	\$2.43	\$5,591,693	\$1.66
Office	1,035	16,973,268	\$86,064,640	\$5.07	\$27,081,856	\$1.59
Penal	4,616	25,041,211	\$46,300,447	\$1.85	\$69,611,755	\$2.78
Recreational	494	1,114,521	\$2,613,457	\$2.34	\$402,519	\$0.36
Residential	897	7,057,580	\$77,963,111	\$11.05	\$3,659,634	\$0.52
Unconditioned Storage	1,193	1,671,280	\$2,634,755	\$1.58	\$682,939	\$0.41
Unenclosed structure	1,204	7,845,282	\$1,425,333	\$0.18	\$225,200	\$0.03
Utility	1,196	1,003,863	\$2,801,446	\$2.79	\$1,337,221	\$1.33
Workshop	165	656,525	\$3,649,114	\$5.56	\$517,979	\$0.79
Not Listed- Blank	171	1,088,030	\$237,569	\$0.22	\$156,930	\$0.14
<b>Grand Total</b>	<b>20,199</b>	<b>220,171,693</b>	<b>\$289,896,672</b>	<b>\$1.32</b>	<b>\$121,425,701</b>	<b>\$0.55</b>

<sup>2</sup> If an agency did not report a space type for their facility, the space type is listed as "Not Listed – Blank."

## State-Owned Facility Deficiency Summary

A building deficiency is any known building repair or improvement. Examples of a building deficiency include chiller replacements or roof repairs. The table below identifies the number of agency-reported deficiencies by category and an estimated cost. For a full list of agency-reported facility deficiencies, see **Appendix 1 - Facility Deficiencies as of June 30, 2015.**

Deficiency Category	Number of Deficiencies by Category	Sum of Estimated Costs
Code and Licensure	333	\$163,384,608.01
Electrical	487	\$49,337,288.57
Envelope	596	\$170,765,197.89
General	561	\$29,721,669.32
HVAC	642	\$117,962,089.69
Interior	1011	\$109,593,047.26
Plumbing	354	\$22,226,451.52
Roofing	1,051	\$64,835,176.28
Site	402	\$56,231,429.29
Special	224	\$31,526,290.84
Structure	275	\$26,679,700.54
<b>Grand Total</b>	<b>5,936</b>	<b>\$842,262,949.21</b>

## **State-Owned Facilities Suitable for Emergency Shelter**

As identified in section 252.385, Florida Statutes, it is the intent of the Legislature that Florida not have a deficit of safe public hurricane evacuation shelter space in any region of the state. The Department of Management Services is required to compile a list of state-owned facilities, listed by county and municipality, that have unoccupied space suitable for use as an emergency shelter during a storm or catastrophic event. Suitable facilities must have at least 2,000 square feet of net floor area in a single room or in a combination of rooms having a minimum of 400 square feet in each room. This list is updated by May 31 of each year and included in the SFI.

See **Appendix 2 – State-Owned Facilities Suitable for Emergency Shelter** for the list of identified vacant space suitable for emergency shelter.

### **III. NEXT STEPS**

The SFI has changed dramatically over the past four years with the addition of new agency-reported facilities and data elements. The FL-SOLARIS (FITS) is proving to be a valuable tool for all agencies, with data integrity improving each year. Agencies utilized the enhanced features of FL-SOLARIS (FITS) for the 2015 data validation requirement and made great progress toward providing a more accurate picture of the state-owned portfolio. The Department of Management Services continues to work cooperatively with DEP to enhance the functionality of FL-SOLARIS (FITS) and with agencies to develop better analysis of reported data to make fact-based, data-driven decisions on managing the state's valuable real property assets.
