September 28, 2018

The Honorable Rick Scott Governor, State of Florida Plaza Level 05, The Capitol 400 South Monroe Street Tallahassee, Florida 32399-0001

The Honorable Joe Negron President, The Florida Senate Room 409, The Capitol 404 South Monroe Street Tallahassee, Florida 32399-1100

The Honorable Richard Corcoran Speaker, Florida House of Representatives Room 420, The Capitol 402 South Monroe Street Tallahassee, Florida 32399-1300

Dear Governor Scott, President Negron and Speaker Corcoran:

Pursuant to section 380.512, Florida Statutes, I am pleased to submit the Florida Communities Trust (FCT) 2017-2018 Annual Report. Florida Communities Trust provides Florida Forever funding through grants awarded to assist local governments and eligible non-profit organizations in acquiring community-based parks, open space, greenways, and working waterfronts.

If you have questions regarding this report, please contact me or David Clark, Deputy Secretary for Land and Recreation, at 850-245-2044 or <a href="mailto:David.A.Clark@dep.state.fl.us.">David.A.Clark@dep.state.fl.us.</a>

Sincerely,

Noah Valenstein Secretary

Florida Communities Trust Letter from the Chair

Dear Floridians,

For more than a quarter century, the Florida Communities Trust (FCT) has established a rich legacy of partnership and preservation marked by a diverse array of parks, greenways, urban green spaces, public beach access points, wildlife habitats and working waterfronts. As perpetual stewards of over 600 project sites throughout Florida, FCT works to continually enhance local communities and recreational access for Floridians.

This past year, FCT assisted in the acquisition of Lake Dan Preserve, Phase 11, which will ensure preservation and protection of uplands and wetlands located in rural Hillsborough County. In addition to the conservation of the natural resources located on the property, this 1100-acre phased project site will be developed to provide multi-use passive recreation activities such as hiking, wildlife viewing, nature study and equestrian trail riding to the surrounding communities. As a result of Florida Forever funding awarded in Fiscal Year 2016-2017, FCT is working with local partners to acquire eleven additional project sites to safeguard Florida's fragile ecosystems while promoting access to outdoor recreation opportunities for persons with unique abilities.

Florida Communities Trust complements many grant programs administered by the Florida Department of Environmental Protection, including the Florida Recreation Development Assistance Program, Land and Water Conservation Fund and Recreational Trails Program. These grant programs help local communities leverage their resources and build interconnected community parks and preserves to better serve our citizens. Please take a few moments to review this report and learn of FCT continues to strengthen our communities.

Sine:

Davf6'A.6ark

Chair, Florida Communities Trust Governing Board Deputy Secretary, Land & Recreation

# FCT Parks and Open Space Program 1990-2018 Projects

## Florida Communities Trust

### What is Florida Communities Trust?

Florida Communities Trust (FCT) is a multi-faceted program housed within the Florida Department of Environmental Protection. Florida Communities Trust was first funded in 1991 under Preservation 2000 as a funding source for local communities to buy land for the protection of natural and cultural resources and public access for recreational opportunities.

Today, FCT administers the Parks and Open Space and Stan Mayfield Working Waterfronts competitive (SMWW) Programs. two grant programs that provide funding governments and non-profit organizations to assist local land conservation efforts. The Parks and Open Space program helps local communities meet the challenges of growth, supporting viable community development and protecting natural resources and open space. The Stan Mayfield Working Waterfronts program acknowledges the importance of the traditional seafood harvesting and aquaculture industries in Florida.

Projects funded by FCT have fostered cultural and historical preservation, trail system development and public access to water. Florida Communities Trust also furthers, the cutdoor recognition, patural recognitions.

Bay Drive Park FCT# 11-026-FF11, Flagler County

furthers the outdoor recreation, natural resource protection and working waterfront needs identified in local government comprehensive plans.

FY2018-2019 SMWW Applicant Homosassa, FL

Florida Communities Trust is governed by a five-member board that includes the Secretary of the Department of Environmental Protection or designee and four members of the public appointed by the Governor. Appointees to the Board include a former elected official of a metropolitan municipality, a former elected official of a county, a representative of an environmental non-profit organization and a representative of the development industry.

## Mission and Aecomplishments

## **Promoting Community**

Florida Communities Trust helps communities further the goals of its local government land use plans through land acquisition and innovative, non-regulatory solutions to the challenges inherent in the land-planning process. After a project has been acquired, FCT stewardship continues in perpetuity through a formal agreement, providing guidance with park development and management oversight through annual stewardship reporting and site visits.

Miramar Pineland Natural Area Monthly Nature Tots Program

Funding for FCT is currently provided through the Florida Forever program. Once a project has been purchased, the grant recipient, not the State, holds title to the lands. Each

recipient is then responsible for land stewardship and implementing a formal management plan that must be approved by FCT. All FCT properties include a Board of Trustees 'reverter' or 'spring' clause to protect the State's interests in perpetuity.

## Linking Urban Populations with Natural Areas

Florida Communities Trust is dedicated to working with communities across the state to acquire lands for recreation, open spaces, working waterfronts and fostering responsible stewardship of those lands once acquired. The quality of life, environmental quality, as well as the viability and vitality of the urban areas of this state are directly linked to urban open space and greenways. The creation of greenways and restoration of urban lakes, rivers, and watersheds in the urban areas of this state are necessary to link populated areas with natural areas.

#### Miramar Pineland ESL Addition, FCT# 01-118-FF1, Broward County

The Miramar Pineland Natural Area Addition is adjacent to an existing protected site. In 2003, Florida Communities Trust funded the purchase of 53 acres, which is included in the 98 acres known as the Miramar Pineland Natural Area. Over \$5.5 million in FCT funding along with \$8.3 million of local match was used to purchase the property. The Miramar Pineland Natural Area is one of the larger natural areas managed by Broward County.

The project site is characterized by stands of large slash pine trees intermixed with patches of dense oak and large sections of open wet prairie. A variety of raptors use the open areas and adjacent canal for foraging and the tall tree canopy for roosting, while the common ground dove, rufous-sided towhee, loggerhead shrike, killdeer, yellowthroat, and warbler prefer the low, open vegetation of the shrubby areas. In addition, during the spring, hundreds of nighthawks have been known to gather over the project site in preparation for their northern migration. Numerous other species of wildlife occur in this type of habitat.

Local high school students assist with removal of exotic plants

Disturbance caused by illegal dumping and off-road vehicles was evident on the project site, however, after a perimeter fence was installed, the scars left by off-road vehicles began to heal and illegal dumping ceased. Miramar Pineland Natural Area provides outdoor recreational opportunities while enhancing the health and well-being of the local and urban residents.

## **Expansion of Green Spaces and Enhancement of Recreation Areas**

Projects funded by FCT provide land for recreational opportunities to enhance the health and well-being of the residents of this state.

#### PEAR Park, FCT# 03-086-FFJ, Lake County

Palatlakaha Environmental and Agricultural Reserve (PEAR) Park is located along the Palatlakaha River in Lake County, Florida and encompasses 318 acres. The park is divided into two distinct sections consisting of the passive wildlife conservation area, and the "Gateway", which is a combination of active recreation and natural areas. Funding from FCT totaling \$2,362,500, along with the local match of \$791,655, helped the County acquire 51 acres of this community park.

Today the site consists of several miles of trails to explore, observation pavilions, picnic facilities, a nature center, various gardens including a community garden and a butterfly demonstration area. The park also offers numerous active recreational amenities including ballfields, a playground, exercise trail, and tennis courts to name only a few. There are large nature areas that provide habitat for wildlife and many educational opportunities. Several educational opportunities involve the history of the agricultural practices of the area, plant and animal identification, habitat types and restoration programs, upland and wetland marsh identification and native plantings.

While the site encompasses several active and passive recreational opportunities, it also promotes community partnerships through the creation of a community garden and a memorial tree farm where the community can come and plant a tree in memory

of a loved one who has passed away and watch it grow as the years pass. PEAR Park is a well-planned use of land for the protection of natural resources while giving several opportunities for citizens and visitors to enjoy the state's natural resources.

## **Preserving Florida's Unique Heritage**

The majority of FCT's projects protect precious natural resources but many of them also have historical and cultural value. Special emphasis is placed on preserving historical resources and has helped Florida's communities save dozens of sites with significance at the local, state and national levels.

Shingle Creek, FCT# 98-065-PBA; 01-143-FF1; 03-029-FFJ; 06-015-FF6, Osceola County

Shingle Creek is a scenic waterway that slices through the growing urbanization of Osceola County and serves as headwaters to the Kissimmee Chain of Lakes, and ultimately, the Everglades. It is not only home to a host of a natural communities and listed species but is historically the first place of settlement in the County. With the acquisition of four Florida Communities Trust project sites - the Steffee, Babb, St. Clair, and Ruba Sites - Osceola County and the City of Kissimmee created a regional park that is managed for conservation, outdoor

recreation and enhancement of natural resources. FCT funding of \$11 million helped acquired more than 289 acres encompassing this project site.

Shingle Creek Regional Park provides a unique glimpse "back in time" to Osceola County's rich ecological, historical and cultural heritage in the midst of bustling, rapidly urbanizing residential, tourist and commercial areas. Shingle

Creek has played a critical role in the lives of the County's residents and visitors, from the original Seminole Indian Tribe inhabitants, to the County's early settlers in the 1800s, to today's tourists along the Interstate 1-92 corridor. In addition to the beautiful, winding blackwater creek, the

corridor also includes orange groves, improved pasture, slash pine-mesic oak flat woods, longleaf pine, oak hammocks, bald cypress swamps, tupelo gum swamp and floodplain marsh wetlands. Many amenities have been developed throughout the park which include nature trails, canoe launches, picnic areas, renovation of the historic farm museum, playgrounds, dog park, primitive camp sites and parking. Also, many educational programs and events are held at this site every year. Educational programs include tours along Shingle Creek and several themed events for the general public which draws thousands of people each year.

## **Promoting Education**

Education is an important part of resource conservation. To that end, FCT places a priority on projects with educational aspects, awarding points during competitive selection to those projects providing for onsite interpretative signs, educational classes and even environmental education centers.

#### Minnehaha Park Canal Property, FCT# 95-053-P56, City of Maitland (Orange County)

The Minnehaha Park Canal Property is 2 acres located on the south shore of Lake Minnehaha and is bordered by Nina Canal on the west and Minnehaha Park on the south and east. The area contains primarily wetland vegetation and hosts a variety of wetland species. The property

has been developed with the intent to enhance passive and environmental education opportunities for visitors to the adjacent Minnehaha Park. The site was acquired to provide additional passive recreational resources to the public and to ensure that the project site is managed and developed in a manner consistent with the protection of its delicate ecosystem.

Development activities that have been completed on the site include the following: a 425-linear foot boardwalk adjacent to the Nina Canal and Lake Minnehaha, picnic pavilion, and interpretive signage in four locations along the boardwalk that outline various subjects relating to wetland plant species.

## Fiscal Year 2016-2017 Florida Forever "Unique Abilities" Grant Application Cycle

Florida Communities Trust received a direct appropriation in Fiscal Year 2016-2017 for projects that met FCT criteria and promoted access to outdoor recreation opportunities for persons with unique abilities. This appropriation of \$10 million will fund eleven additional FCT projects throughout Florida. FCT Staff also began work on two new projects in Brevard and Flagler Counties to encumber the remaining Florida Forever funds from Fiscal Year 2010-2011.

Myers-Stickel Property
FCT# 16-012-UA17, St. Lucie County
(Unique Abilities Project)

City Center Barrier Free Park FCT# 16-015-UA17, City of Freeport (Unique Abilities Project)

## Conclusion

Florida Communities Trust will continue working with Florida's communities to strengthen relationships, encourage appropriate land management practices and assure all community responsibilities are met at each FCT funded project site, helping to preserve more land for Florida's future parks, open spaces and working waterfronts.

## Park Happenings

## St. Marks Headwaters Leon County FCT# 05-011-FFS

Acres -160.52 Total Project Cost - \$1,525,475.00 Grant Award - \$915,285.00 Local Match - \$610,190.00

The St. Marks Headwaters project is located in eastern Leon County and is adjacent to a

previously acquired FCT site. The 160-acre project helps buffer the headwaters of the St. Marks River from encroaching residential development. The St. Marks Headwaters Greenway will be managed in ways that will maintain and improve water quality by limiting development in the headwaters area and reducing non-point pollution. The St. Marks River is a designated Outstanding Florida Water and the project includes intact bottomland forests, freshwater marshes and sinkholes. Recreational elements include hiking and equestrian nature trails, wildlife observation platform, and picnic pavilion.

Park Grand Opening - January 24, 2018

## Closings and Reimbursements

# Lake Dan Preserve, Phase II Hillsborough County FCT # 11-046-FF11

Acres -421.94 Project Cost- \$12,309,209.24 Grant Award - \$6, 154,604.64

Local Match - \$6, 154,604.64

The Lake Dan Preserve, Phase II project consists of pine flatwoods, scrubby flatwoods, bay heads, cypress swamps, freshwater marshes, wet prairie, a natural lake (Lake Dan), and improved

pasture. Approximately 290 acres (67%) of the project site has natural habitat with approximately 140 acres (33%) of improved pasture with some impacted wetlands. Most of the native areas are in good condition through consistent prescribed burning. Several listed species (Gopher Tortoise, Florida Sandhill Crane) have been seen on the site. The project will be managed to maximize the quality of the natural areas.

Much of the shoreline of Lake Dan has been cleared of vegetation. This has increased non-point source pollution of the lake through run-off across exposed soil. Some of the cypress swamps have been rim ditched and/or interconnected to increase drainage. Restoration of the wetland areas will consist of backfilling the rim ditches and contouring the surrounding land to a more natural grade, then installing native transitional upland and wetland vegetation that is consistent with the species composition of undisturbed transitional habitats within the project site. Restoration plans include returning the improved pasture to native upland habitats, which include pine flatwoods and scrubby flatwoods.

An educational kiosk will be located where the trail from the Pinellas County side crosses onto the project. The project will have a system of nature trails that interconnect the project with Phase I and adjacent trail systems, as well as one or more picnic structures/pavilion and a scenic overlook will be located on or near the northwest shore of Lake Dan

Expenditures for Land Acquisition Activities (Parks and Open	·
Space)	\$(3,484,898.31)
Expenditures for Land Acquisition Activities (Stan Mayfield	ΦO
Working Waterfronts) LESS 2017-2018 EXPENDITURES	\$0
LEGS 2017-2010 EXPENDITORES	\$(3,484,898.31)
6/30/2018 YEAR END BALANCE	\$14.940.746.08

## Florida Communities Trust Board Members

### **David Clark**

David Clark is the Deputy Secretary of Land and Recreation at the Florida Department of Environmental Protection (DEP). He first began his tenure with DEP in 2004, where he worked in the Division of State Lands and then the Office of Cabinet Affairs until 2010. After four years in the U.S. Army as an officer with the 82nd Airborne Division, America's Guard of Honor, David returned to DEP in 2014, serving as both Director of Cabinet Affairs and Deputy Director of State Lands. From 2016 to 2017, David served DEP as the Director of State Lands, a position confirmed by the Governor and Cabinet. David's leadership experience in the Army, his tenure at DEP, and

his education, which includes a real estate license and degrees in business administration and accounting, assist him in leading the Florida State Park System and the Division of State Lands. In his time at DEP, David has worked closely with Florida's cabinet agencies and numerous stakeholders, including the military and environmental groups, to accomplish many strategic acquisitions that have helped ensure the protection of Florida's land and water resources while balancing recreational opportunities.

## Lynda Bell

Lynda Bell served on the Miami-Dade County Commission from 2010-2014 where she was the Vice Chair from 2012-2014. She has chaired the Finance Committee, the Value Adjustment Board, the Sports Commission and the Port of Miami Committee. Lynda was also active on both Florida Association of Counties and National Association of Counties.

Prior to serving on the County Commission, Lynda served as a Councilwoman, Vice Mayor and the first and only female Mayor of the city of Homestead. She has been recognized for her many accomplishments, including the "In the

Company of Women" award in the governmental category. She received the "I am Blessed" award, was recognized by the Association of Public Administrators with the "Woman of Distinction" award, won the Chamber of Commerce "Athena" award, and was given the Miami-Dade Farm Bureau Advocacy award.

Serving FCT as the Former Elected Official of a County Government, Lynda has a Bachelor's of Science in Supervision and Management from Miami-Dade College School of Business and has been married to Mark Bell for 33 years. They have three daughters and 12 grandchildren and have resided in Homestead, Fla., for 38 years.

## **VACANT**

Former Elected Official of a Metropolitan Municipal Government

## **Greg Jones**

Gregory Jones has over 18 years of experience in resort development and management in the State of Florida. He is currently the Senior Project Manager for WCI Communities Inc., a Lennar Company. During the last decade, he has been actively involved in developing a balance between sustainable growth in his community while establishing a healthy environment to ensure a long-term habitat plan for the endangered Perdido Key Beach Mouse. In addition, Gregory has been an active participant of local community efforts by currently residing on the Tourism Development Council and West End Advisory Boards

for Escambia County in addition to serving as a current board member on six community residential boards. Gregory serves on the FCT Board as Representative of the Development Industry.

### **Erick Lindblad**

Erick Lindblad has served as the Executive Director of the Sanibel-Captiva Conservation Foundation (SCCF) since 1986. He has been instrumental in SCCF's acquisition of over 2,000 acres of Wildlife Preserve areas on and around Sanibel and Captiva. In 2002, he oversaw the establishment of SCCF's Marine Laboratory.

Erick has coordinated and actively participated in land management activities including invasive non-native plant control, prescribed burning (Division of

Forestry Burn Manager Certification), gopher tortoise management and surface water management projects. Land acquisition has been accomplished by a variety of means, including fee simple, bargain sale, development agreement and donation.

As part of his commitment to the sustainable development of Southwest Florida, Erick served on Conservation 20/20, Lee County's Conservation Land Acquisition and Stewardship Advisory Council and the Land Management Subcommittee. He also was appointed by the Lee County Board of County Commissioners to serve as the county's representative on the first Babcock Ranch Inc. Board, which worked to develop the initial management plan for the state's 71,000-acre Babcock Ranch Preserve in Lee and Charlotte Counties.

He served on the Board of the International Osprey Foundation, the Caloosahatchee River Citizens Association and the Charlotte Harbor National Estuary Program Technical Advisory Committee.

Erick has served on various City of Sanibel committees over the years including the Budget Review Committee, Wildlife Committee, Interior Wetlands Study Committee, and the Algae Task force. He was awarded the Walter Klie Lifetime Achievement Award from the Sanibel-Captiva Islands Chamber of Commerce and Citizen of the year by The Committee of the Islands. In 2014 SCCF was awarded Florida Conservation Organization of the Year by the Florida Wildlife Federation.

Prior to his tenure at SCCF, he served as Director of Newfound Harbor Marine Institute at Seacamp on Big Pine Key, FL from 1979 to 1986. He graduated in 1974 from Millikin University in Illinois with a B.A. in Biology.

He and his wife Ellen have two children and 5 grandsons.
