2. *Economic Development and Job Creation*

Focus on Job Growth and Retention
Reduce Taxes
Regulatory Reform

3. *Public Safety*

Protect our communities by ensuring the health, welfare, and safety of our citizens.

The Commission's Long Range Program Plan (LRPP) aims to commit the agency's existing resources to ensuring public safety and providing victims' services for the citizens of this State in an effective and efficient manner. The Commission's highest priority is to ensure public safety, consistent with the Governor's priorities.

All five of the Commission's goals link to the Governor's third priority, ***Public Safety - Protect our communities by ensuring the health, welfare, and safety of our citizens.***

- GOAL 1 To select appropriate individuals for parole.
- GOAL 2 To ensure informed decision-making by the Commission and Board.
- GOAL 3 To guarantee timely decisions.
- GOAL 4 To ensure informed decision-making (RCR *Without a Hearing* cases).
- GOAL 5 To ensure informed decision-making (RCR *With a Hearing* cases).

The Commission performs a vital role in Florida's criminal justice system by preserving the autonomy needed in post release decisions affecting inmates and ex-offenders.

Commissioners preside over approximately 36 hearings annually. During these public proceedings, the Commissioners make a variety of determinations regarding parole, conditional medical release, conditional release, and addiction recovery release supervision.

Additionally, the Commission operates as the administrative and investigative arm of the Clemency Board and reports directly to the Governor and Cabinet. The Coordinator is appointed by the Board, is the official custodian of records, provides verification of eligibility and Board actions, and prepares the agenda, orders, and certificates. The Office of Clemency Investigations conducts comprehensive, confidential investigations for the Board on clemency applicants.

Trends & Conditions Statement

Workload Hours by Activity FY 2015-16

The purpose of the Post-Incarceration Enforcement and Victims' Rights Program is:

- To provide victims and victims' families an opportunity to participate in the decision-making process of the Commission and Board;
- To set conditions of supervision for releasees to provide maximum assurance of public safety;
- To ensure swift and certain responses when releasees willfully and substantially violate conditions of their supervision; and
- To provide accurate information to the Commission and Board.

The Commission's LRPP for FY 2017-18 through FY 2021-22 is a five-year plan based on established and proposed goals and objectives. In the development of the LRPP, the Commission reviewed and evaluated the services and activities funded in the current year to determine their effectiveness and efficiency. The Commission as it exists today has a multitude of duties.

Created in 1941, the Commission is a constitutionally authorized, quasi-judicial, decision-making body. Article IV, Section 8(c) of the Florida Constitution, provides that there may be created by law "a parole and probation commission" with the power to supervise persons on probation and grant paroles or

conditional releases to persons under sentences for crime (section 20.32, Florida Statutes). Since that time, the Legislature has added the administration of conditional medical release, control release, conditional release, addiction recovery release supervision, and the administration of the capital clemency case counsel list to the Commission's primary duties and responsibilities.

These diverse functions provide the means for fulfilling the Commission's public safety duties: to protect the public by administering parole, conditional medical release, control release, conditional release, and addiction recovery release supervision. In accordance with statutes and case law, maintaining control over this criminal population is contingent upon the attentive and timely completion of reviews, investigations, and hearings. Many of the services provided are aimed at controlling offenders during the post-incarceration phase of their sentences and to facilitate their successful transition back into society. However, if the releasee fails to abide by the conditions of their supervision, the Commission takes swift and certain action appropriate to the violation by means of the revocation process.

In performing its clemency responsibilities, the Commission acts as the investigative arm of the Governor and Cabinet, sitting as the Board of Executive Clemency, and provides administrative support in all clemency matters, including the RCR process.

To carry out the agency's statutorily mandated responsibilities, the Commission will be requesting \$145,327 in recurring funds to support the basic information technology operational needs of the Commission.

Chapter 2009-81, Laws of Florida, required the Commission to transfer all of its Information Technology (IT) resources to the Department of Corrections (Department) by July 1, 2009. This resulted in the Commission, through a Service Level Agreement, becoming a customer of the Department for all of its IT services necessary for the successful operation of the Commission.

Page 19 of the Service Level Agreement states, "Beginning July 1, 2009, the Provider will invoice the Customer on a quarterly basis with the delivery,

Trends & Conditions Statement

installation, and implementation of the service. The Customer agrees to pay the Provider quarterly, with payments made by journal transfer beginning July 1, 2009. A lump sum appropriation of \$303,887 for payment to the Provider has been allocated for IT services. Payments are for any costs associated with the provision of enhanced technology services for the Customer or for costs associated with upgrading the Customer's existing technology resources to meet the Provider's equipment standards." The current amount of \$303,887 provided to the Department for all of the Commission's IT services, is no longer adequate funding to perform all of the Commission's needed IT services.

These additional funds provide for the Department to maintain existing support levels with allocated staff necessary to meet the Commission's IT needs. The Commission requires hardware to be updated to ensure capability of running current versions of software. Upgrades to the Commission's applications and server infrastructure are also necessary to ensure that the platforms are hosted on supported platforms. A lack of funding for basic operational IT needs, applications and programming services, and computers capable of running current operations systems, would result in the Commission not being able to fulfill its responsibility of ensuring public safety and providing victim assistance. Without adequate funding, the Commission would not be able to retain vital information. Funding of this issue would meet the basic operational IT needs for the Commission.

Victims' Services

Victim assistance is a key tenet of the Commission's mission and is considered vitally important. Article I, Section 16(b) of Florida's Constitution, and sections 947.06 and 960.001, Florida Statutes, address the need to protect the rights of victims of crime and the need for victims' input in the criminal justice process. Victims' Services provides direct, personal assistance to crime victims and their families, assuring their opportunity to participate in the parole, conditional medical release, control release, conditional release, addiction recovery release supervision, and clemency processes.

Victims' Services staff strive to reduce victimization through education and by providing and fostering an environment of compassion, dignity, and respect. They

use this platform to: inform victims of their right to be heard and participate in the parole, conditional medical release, control release, conditional release, addiction recovery release supervision, and clemency processes; educate victims about the parole, conditional medical release, control release, conditional release, addiction recovery release supervision, and clemency processes; provide advance notice to victims of upcoming parole, conditional medical release and clemency proceedings; personally greet victims; provide a separate waiting area; and accompany them during hearings. A toll-free telephone number is also available for support or information before, during, and after the hearing process.

On June 30, 2016, there were 20,907 clemency cases pending, with most requiring victim input. Furthermore, there were approximately 4,545 inmates with parole eligible cases as of June 30, 2016, in which victim input would also be appropriate.

Victim input plays a critical role in assisting the Commission and Board to make informed decisions. Great effort must be spent trying to locate victims, who may have relocated, changed their names through marriage or have been out of contact with the criminal justice system for many years. Employing trained, professional staff to assist victims of crimes ensures that the victim's rights are protected and that he or she is not subjected to further victimization as a result of a release or clemency hearing decision.

During the 2010 Florida Legislative Session, SB 200, a victim-friendly bill was passed and became law on July 1, 2010 (Chapter No. 2010-95). The new law amended sections 947.16, 947.174, and 947.1745, Florida Statutes, giving the Commission authority to increase the interval between parole consideration re-interviews from within five years to within seven years for parole eligible offenders who were convicted of murder, attempted murder, sexual battery, or attempted sexual battery, or who are serving a 25-year minimum mandatory sentence under section 775.082, Florida Statutes. Currently, Victims' Services comprise 6% of the Commission's workload with central and field office staff providing 20,205 victim assists during FY 2015-16.

During the 2013 Legislative Session, HB 685, an additional victim-friendly bill was passed and became

Trends & Conditions Statement

law on July 1, 2013. The new law amended sections 947.16, 947.174, and 947.1745, Florida Statutes, giving the Commission authority to increase the interval between parole consideration re-interviews from within two years to within seven years for parole eligible offenders who were convicted of specified crimes. The Commission's mission is to provide for public safety with goals that seek to ensure the safety of Florida's citizens, and to do so in an effective and efficient manner. Lengthening the time between subsequent interview dates for those inmates who pose the greatest risk to the public and who are not expected to receive parole in the near future reduces further victimization and trauma to crime victims and their families.

Since FY 2004-05, the Commission has been awarded a Victims of Crime Act (VOCA) grant, administered through the Office of the Attorney General's Bureau of Advocacy and Grants Management. In September 2016, the Commission was awarded a VOCA grant in the amount of \$115,750.24 for FY 2016-17, an increase in funding of \$55,193. The Commission will be requesting additional budgetary authority for \$55,193 to continue providing services to victims of crime.

Parole

The Commission administers parole (Chapters 947, 948, and 949, Florida Statutes), a discretionary prison release, which allows an inmate who has been granted parole to serve the remainder of his prison sentence outside of the confines of the institution. Once released, the parolee is subject to strict conditions of supervision set by the Commission. The Commission monitors the parolee's progress through supervision reviews and conducts revocation hearings when alleged violations are reported. If a parolee is found to have willfully and substantially violated the terms and conditions of his supervision, the Commission may return the parolee to prison.

Inmates eligible for parole are those who committed:

1. a first-degree murder, a felony murder, or the crime of making, possessing, throwing, projecting, placing, or discharging a destructive device (or the attempt of) prior to May 25, 1994;
2. all other capital felonies prior to October 1, 1995;
3. a continuing criminal enterprise (violation of s. 893.20, F.S.) prior to June 17, 1993;

4. a murder of a law enforcement officer (and other specified officers) prior to January 1, 1990;
5. a murder of a justice or judge prior to October 1, 1990;
6. any felony prior to October 1, 1983, or those who elected to be sentenced "outside the guidelines" for felonies committed prior to July 1, 1984;
7. any habitual felony offender sentenced prior to October 1, 1988.
8. attempted murder of a LEO engaged in the lawful performance of their duties between October 1, 1988 and October 1, 1995.

Some inmates will not be eligible for consideration until the year 2020 or beyond. On June 30, 2016, there were 4,545 inmates who were eligible for parole and 502 releasees on parole supervision. In FY 2015-16, the Commission made 1,237 parole determinations and granted parole to 24 inmates.

The Commission exceeded its projected goal of 90% for the reporting period by 6%, with 24 of 25 paroled inmates successfully completing their supervision without revocation within the first three years of release.

Conditional Medical Release

In 1992, the Florida Legislature created the Conditional Medical Release Program (section 947.149, Florida Statutes), a discretionary release allowing the Commission to release inmates on supervision who are "terminally ill" or "permanently incapacitated," and who are not a danger to themselves or others. The Department is charged with the responsibility of recommending to the Commission cases to be considered for conditional medical release. Upon release, the offender is subject to conditions of supervision set by the Commission. The Commission monitors the offender's progress through periodic medical reviews and conducts revocation hearings when alleged violations are reported. This supervision can be revoked, and the offender returned to prison if the Commission determines that a willful and substantial violation has occurred. The Commission may return the offender to custody if his or her medical or physical condition improves. The Department has recommended 107 inmates for release in the past three fiscal years. The Commission granted release to 52, or 49%, of those recommended by the Department. In FY 2015-16, the Commission granted 29 of the 51 inmates recommended by the Department

Trends & Conditions Statement

for conditional medical release, or 57%.

Conditional Release

In 1988, the Florida Legislature created the Conditional Release Program (section 947.1405, Florida Statutes) and placed it under the administration of the Commission. This program is a non-discretionary release program and requires mandatory post-prison supervision for inmates who are sentenced for certain violent crimes and who have served a prior felony commitment at a state or federal correctional institution, or who are sentenced as habitual offenders, violent habitual offenders, violent career criminals, or designated sexual predators.

Inmates who are subject to conditional release and have completed their incarceration are supervised for the remainder of their sentences. These offenders are subject to strict conditions of supervision set by the Commission. The Commission monitors their progress through supervision reviews and conducts revocation hearings when alleged violations are reported. If a conditional releasee is found to have willfully and substantially violated the conditions of supervision, the Commission may return the offender to prison. On June 30, 2016, there were 3,123 releasees on conditional release supervision, and in FY 2015-16 the Commission set terms and conditions for 5,377 releasees.

Addiction Recovery

The Florida Legislature created the Addiction Recovery Supervision Program (section 944.7431, Florida Statutes) in 2001 and placed it under the Commission's administration. This program requires mandatory post-prison supervision for offenders released from a state correctional facility who are convicted of a crime committed on or after July 1, 2001, and have a history of substance abuse or addiction or have participated in any drug treatment, and have not been convicted of a disqualifying offense. Upon release, the offender is subject to strict conditions of supervision set by the Commission. The Commission monitors the offender's progress and conducts revocation hearings when alleged violations are reported. If the Commission finds the offender willfully and substantially violated the terms and conditions of supervision, the Commission may return the offender to prison. During FY 2015-16, 1,059 offenders were placed in the program. As of

June 30, 2016, there were 275 offenders on addiction recovery supervision.

Control Release

The Florida Legislature created the Control Release Authority (section 947.146, Florida Statutes) in 1989 with the members of the Commission acting as the release authority. When active, control release is utilized as a prison population management tool to keep it at less than 99% of the total capacity. Currently, the Commission is not reviewing the inmate population for discretionary release under this authority as there are sufficient prison beds to house the current prison population. Today, a small number of control releasees remain under supervision. The Commission monitors their progress through supervision reviews and conducts revocation hearings when alleged violations are reported. This supervision can be revoked, and the offender returned to prison if the Commission finds a willful and substantial violation has occurred.

Revocations

The revocation process is essential to the Commission's mission to ensure public safety and comprises 27% of the agency's workload. The violation process begins when law enforcement or the Department notifies the Commission that an offender under supervision has allegedly violated one or more conditions of their supervision. The Revocations Unit is responsible for reviewing these reported violations and preparing a warrant for a Commissioner's signature; updating the National Crime Information Center/Florida Crime Information Center databases; responding to requests from law enforcement agencies; and coordinating the extradition of out-of-state violators. In FY 2015-16, there were 2,122 warrants issued by the Commission.

Revocation hearings are quasi-judicial fact-finding hearings conducted by a Commission Investigator. They are held for offenders who are under parole, conditional medical release, control release, conditional release, or addiction recovery release supervision. These hearings include parole preliminary hearings, final revocation hearings, bond hearings, and courtesy interstate probable cause hearings for the Department. Revocation hearings include testimony from witnesses and are usually held at the county jail. In FY 2015-16, 100% of revocation hearings were completed by the

Trends & Conditions Statement

Commission within 90 days of the final hearing.

The Revocations Unit conducts an in-depth analysis of hearing and waiver packages prepared by Commission Investigators and docketed the cases for final Commission action. Docketing and processing cases for Commission action includes review of supervision eligibility and supervision violations. In FY 2015-16, 1,835 revocation events were docketed.

Clemency

The Governor and members of the Cabinet sit as the Clemency Board and set forth the Rules of Executive Clemency. The Commission operates as the administrative and investigative arm of the Board. Clemency is a constitutionally authorized process. The forms of clemency include: full pardon; pardon without firearm authority; pardon for misdemeanor; commutation of sentence; remission of fines and forfeitures; specific authority to own, possess, or use firearms; restoration of civil rights; restoration of alien status under Florida law; and capital case (death penalty) reviews.

Under the Florida Constitution, when a person is convicted of a felony, they lose the right to vote, serve on a jury, hold public office, and possess a firearm. Administered by the Commission, the clemency process provides the means through which an offender may have some or all of their rights restored. The clemency process also provides a means by which the Board may consider an offender for relief from punishment. Persons seeking or being considered today for clemency relief are either incarcerated, released from a correctional facility, or have completed their term of supervision. An individual may apply for commutation of sentence through a request for review as set forth in the Rules of Executive Clemency.

The type of clemency investigation conducted by the Commission primarily depends on the severity and nature of the offense and the form of clemency relief being sought. The Commission's website provides detailed information regarding the list of offenses that determine the processing category. The depth and scope of each investigation vary by type, and each type has a different waiting period after completion of sentence.

The Commission assists the Board in the orderly processing of matters placed before the Board for consid-

eration and action. The Commission conducts comprehensive, confidential investigations for applicants utilizing records and databases of state and federal courts, and multiple criminal justice agencies. The referral, assignment, and approval of all cases processed by the Commission are generated and managed by the clemency database. These detailed investigations provide a broad picture of the applicant's history and activities, which assist the Board in making informed decisions.

Information is also available on the clemency page of the Commission's website (www.fcor.state.fl.us/clemencyOverview.shtml) including application forms and instructions. Individuals may also check to see whether their rights have been granted. If granted, a copy of the certificate may be printed directly from the website. As of July 31, 2016, there have been 1,228,827 RCR website searches, 149,037 RCR certificates located, 86,504 RCR certificates printed, and 377,065 RCR certificates available. The Commission provides the Board's action to the Florida Department of State on a daily basis so that it may use the information for verification purposes with the Central Voter Registration Database.

Restoration of Civil Rights (RCR) investigations are classified as follows: *Without a Hearing* and *With a Hearing*. *Without a Hearing* investigations are those where offenders, depending on the offense of conviction, are eligible for consideration only after five years have passed since the date of completion of all sentences and conditions of supervision imposed for all felony convictions, if no crimes have been committed, and if the applicant has not been arrested for a misdemeanor or felony for the five years prior to the date the application is being reviewed. *With a Hearing* investigations are those where offenders with more serious offenses are eligible for consideration only after seven years have passed since the date of completion of all sentences and conditions of supervision imposed for all felony convictions.

Currently, there are 64 FTEs, full or part time, and 15 full or part time OPS staff that complete clemency cases. As of July 1, 2016, there were 20,907 pending clemency cases. The Commission is requesting \$500,000 in recurring OPS funding to address the clemency workload to complete cases and ensure that accurate eligibility determinations are made in a timely

Trends & Conditions Statement

manner. This request aligns with the Governor's public safety priority of protecting our communities by ensuring the health, welfare, and safety of our citizens.

GOAL ONE

The Commission's first goal is to select individuals for parole who will succeed as law-abiding citizens. The Commission conducts a thorough review of an inmate's record when determining whether or not to release an inmate on parole.

The Commission reviews the circumstances and seriousness of the offense, as well as the inmate's prior criminal record, education, employment history, risk assessment evaluations, disciplinary record and program participation while incarcerated, substance abuse history, and any other information that would impact a release decision. Commission Investigators interview the inmate at the institution, review the entire institutional record and the inmate's release plan, and provide the Commission with an investigative report. The Department provides mental health records upon request.

When considering an inmate for parole, the Commission is required to make a finding that there is a reasonable probability that the inmate will be law-abiding, will not become a public charge, and that his or her release will be compatible with his or her own welfare and the welfare of society. The Commission sets the term and conditions of supervision for those released on parole. The conditions are intended to protect the public and to facilitate the parolee's successful reintegration into society. The inmate must agree to the term and conditions of supervision in order to be paroled. If the parolee willfully and substantially violates the conditions of supervision, the Commission may revoke supervision and return the offender to prison.

The Commission also furthers this goal through the analysis of parole revocation data to identify common factors among this population of offenders that may have contributed to their inability to successfully transition into the community. This information aids the Commission in making future parole determinations and in assisting correctional probation officers in supervising parolees.

The Commission exceeded its projected goal of 90% in FY 2015-16 for goal one. Twenty-four of 25 inmates

paroled during the reporting period successfully completed their supervision without revocation within the first three years of release.

GOAL TWO

The Commission's second goal is to ensure informed decisions are made by placing cases before the Commission and Board that have no factual errors. The objective of this goal is to ensure that the Commission and Board have the most complete and accurate information upon which to base their decisions. "Complete information" means that staff has obtained, or attempted to obtain, all relevant information necessary. "Accurate information" means that the information presented has been verified, or there is a statement in the report or investigation as to the reason the information could not be verified. "Factual errors" are defined as an omission of information or reporting incorrect information. These errors do not include typographical errors.

The types of cases reviewed for errors include non-RCR clemency investigations, cases considered for release, and revocation hearings. The Commissioners and the Board identify errors in the reports and investigations for the various types of cases reviewed. These errors are tabulated and expressed as a percentage of the total number of cases that are placed before the Commission and the Board. Targeting the error rate through performance measures allows the Commission to thoroughly evaluate errors and improve the release, revocation, and non-RCR clemency process.

This goal remains a high priority of the agency because the Commission and Board are ultimately decision-making bodies. The information provided to them by staff forms the basis of their decisions. Accordingly, their effectiveness as decision-makers is directly related to, or dependent in large part upon, the completeness and accuracy of the information provided.

The Commission addresses this priority by establishing clear policies and procedures, providing training, and completing Quality Assurance (QA) reviews. This ensures that staff produce a quality work product by having the Commission provide clear direction as to what is expected in the performance of their duties. Training provides detailed instruction on the correct procedures that must be followed when acting as a hearing officer in revocation proceedings or when acting

Trends & Conditions Statement

as an investigator on a clemency case. The QA reviews are conducted by regional administrators, supervisors, and central office staff.

The percent of cases placed before the Commission and Board containing no factual errors for FY 2015-16 was 99.8%, exceeding the goal of 98%.

GOAL THREE

The Commission's third goal is to guarantee timely decisions by ensuring that once the final revocation hearing has been held or waived for control release, conditional release and addiction recovery release supervision cases, the Commission will render its decision within 90 days. In FY 1999-2000, the baseline percentage of revocation cases determined by Commissioners within 90 days was 95%. In FY 2015-16, the percentage remains high at 100%.

The Commission achieved its goal and will strive to maintain this high level of performance.

GOALS FOUR & FIVE

The Commission's fourth and fifth goals focus on ensuring informed decisions are made by placing RCR cases before the Board containing no factual errors. RCR cases are categorized as RCR *Without a Hearing* and RCR *With a Hearing* investigations.

The objective of these goals is to ensure that the Board has the most complete and accurate information with which to base their decisions pertaining to RCR. "Complete information" means that staff has obtained or attempted to obtain all relevant information necessary for the Board to make an informed decision. "Accurate information" means that the information presented has been verified, or there is a statement in the report or investigation as to the reason the information could not be verified. "Factual errors" are defined as an omission of information, reporting incorrect information, or incorrectly determining eligibility. These errors do not include typographical errors.

The Commission acknowledges the significance and importance of the RCR process and providing quality investigative reports. Utilizing performance measures allows the Commission to evaluate the error rate of RCR cases and to improve the process. Errors are

identified in Executive Orders and investigations for the various types of RCR cases reviewed. These errors are tabulated and expressed as a percentage of the total number of RCR cases that are placed before the Board.

The Commission addresses this priority by establishing clear policies and procedures, providing training, completing QA reviews, and holding monthly clemency teleconferences. This ensures that staff produce a quality work product by providing clear direction as to what is expected in the performance of their duties. Training provides detailed instruction on the Rules of Executive Clemency and the correct procedures when conducting a clemency investigation. The QA reviews are conducted by regional administrators, supervisors, and central office staff. Monthly statewide clemency teleconferences address questions from the field staff, discuss policies and procedures, and allow Clemency Investigations' staff the opportunity to discuss any relevant issues.

The Commission met its projected goal of 99% by placing 99.6% of the RCR *With a Hearing* cases and exceeded its projected goal of 99% by placing 100% of the RCR *Without a Hearing* cases before the Board with no factual errors in FY 2015-16.

- Target Population Change Other (Identify)
- This Program/Service Cannot Fix the Problem
- Current Laws Are Working Against the Agency Mission

Explanation: The number of inmates released to parole was 23 in FY 13-14, 25 in FY 14-15, and 23 in FY 15-16. Therefore, the current standard of 34 parolees successfully completing their supervision without revocation within the first three years could not be met.

Management Efforts to Address Differences/Problems (check all that apply):

- Training Technology
- Personnel Other (Identify)

Recommendation: As the performance standard in FY 16-17 has been adjusted from 34 to 20 to reflect a decline in inmates paroled, the Commission recommends no change to the standard.
