AGENCY MISSION AND GOALS

JUSTICE ADMINISTRATIVE COMMISSION

Mission: *Provide Superior Services*

To support the entities we serve and Florida's judicial system with fiscal controls, best practices, and exemplary service.

The Justice Administrative Commission (JAC) administratively serves Florida's Offices of State Attorney, Public Defender, Capital Collateral Regional Counsel, Guardian ad Litem Program, and Criminal Conflict and Civil Regional Counsel; and provides compliance and financial review of the court appointed attorney and due process costs.

Priority #1 Goal:

Provide quality administrative services.

STATEWIDE GUARDIAN AD LITEM

Mission: *"I am for the Child"*

Goals:

- *To assure that every child has a voice in court.*
- *Using quantitative and qualitative data, demonstrate that Guardian ad Litem (GAL) advocacy correlates with improved outcomes for children in the dependency system.*
- *To implement a consistent core program of evidence based training for GAL volunteers which strengthens their ability to address the needs of the children they represent.*
- *To advance the mission alignment and operational relationships among and between the Office of the Executive Director, the local Non-Profit Boards, and the Foundation.*
- *To apply learned facts surrounding equity and diversity and seamlessly integrate those into practice and program execution by all advocates at all levels.*

Priority #1 Goal:

To provide effective advocacy and improved outcomes for all of Florida's abused, abandoned, and neglected children.

Priority #2 Goal:

Advocate for timely permanency for children.

AGENCY MISSION AND GOALS

STATEWIDE GUARDIAN AD LITEM

Priority #3 Goal:

Increase number of volunteer advocates for children.

STATE ATTORNEY

Mission: *Seeking Justice for Florida*

"The prosecutor is the representative, not of an ordinary party in a controversy, but of sovereignty whose obligation to govern impartially is as compelling as its obligation to govern at all; and whose interest, therefore, in a criminal prosecution is not that it win a case, but that justice shall be done."

*Justice Southerland
Berger vs U.S. 295 U.S. 78 (1935)*

Priority #1 Goal:

To pursue justice through prosecution of all criminal cases presented to the State Attorney over the next five years in an effective, efficient and timely manner.

Priority #2 Goal:

To recruit and retain qualified and experienced Assistant State Attorneys to handle the increased caseloads and sophisticated prosecutions on behalf of the people of the State of Florida.

PUBLIC DEFENDER

Mission: *Protect the rights of the indigent accused under the United States Constitution, Florida Constitution, and fulfill obligations and responsibilities under Chapters 27, 394, and 985, Florida Statutes; the Criminal, Juvenile, and Appellate Rules of Procedure; and the Florida Rules of Professional Conduct.*

Priority #1 Goal:

Provide fair and equitable salaries and benefits for employees to improve retention, reduce attorney turnover, and ensure continuity of legal representation.

Priority #2 Goal:

Establish standard caseloads for felony attorneys at 200 cases per year, misdemeanor attorneys at 400 cases per year, and juvenile attorneys at 250 cases per year.

AGENCY MISSION AND GOALS

PUBLIC DEFENDER APPELLATE

Mission: *Protect the rights of the indigent accused under the United States Constitution, Florida Constitution, and fulfill obligations and responsibilities under Chapters 27, 394, and 985, Florida Statutes; the Criminal, Juvenile, and Appellate Rules of Procedure; and the Florida Rules of Professional Conduct.*

Priority #1 Goal:

Provide fair and equitable salaries and benefits for employees to improve retention, reduce turnover, and ensure continuity of legal representation.

Priority #2 Goal:

Establish reasonable caseloads for appellate attorneys and process appeals in a timely manner.

CAPITAL COLLATERAL REGIONAL COUNSEL

Capital Collateral Regional Counsel (CCRC) Purpose: To provide legal representation for individuals who have received the death penalty and for whom state laws provide post-conviction reviews of their judgement of conviction and sentences.

Mission: *Assure capital justice*

Chapter 27 Part IV, Florida Statutes and Rules 3.851 and 3.852 of the Florida Rules of Criminal Procedure govern the CCRC's responsibility for collecting and analyzing public records of all assigned post-death penalty conviction cases, investigating each case, and providing legal representation within state and federal courts performing post-conviction review.

Goal:

To assure justice prevails, on a timely basis, by providing competent legal representation and a fair hearing during state and federal court post-conviction review processes.

OFFICES OF CRIMINAL CONFLICT AND CIVIL REGIONAL COUNSELS (OCCRC)

Mission: *Protect constitutional and statutory rights in a cost effective manner.*

Priority #1 Goal:

To ensure cases are processed in a timely and cost effective manner.

AGENCY OBJECTIVES

JUSTICE ADMINISTRATIVE COMMISSION

Goal 1 Objective 1:

Accurately and efficiently process transactions for JAC, and, on behalf of, the 49 agencies we administratively serve.

Goal 1 Objective 2:

Review court appointed counsel and due process vendor invoices for compliance with contractual and statutory requirements, as well as the Department of Financial Services' rules and regulations.

STATEWIDE GUARDIAN AD LITEM

Priority #1 Goal:

To provide effective advocacy and improved outcomes for all of Florida's abused, abandoned, and neglected children.

Priority #2 Goal:

Advocate for timely permanency for children.

Priority #3 Goal:

Increase number of volunteer advocates for children.

STATE ATTORNEY

Goal 1 Objective:

Maximize the number and percentage of habitual and violent felony offenders who receive enhanced sentences.

Goal 2 Objective:

Reduce Assistant State Attorney turnover rate by increasing entry-level and mid-level salaries.

AGENCY OBJECTIVES

PUBLIC DEFENDER

Goals 1 & 2 Objective:

Provide quality representation to all appointed clients and thereby protect the constitutional and statutory rights of all citizens.

PUBLIC DEFENDER APPELLATE

Goals 1 & 2 Objective:

Provide quality representation to all appointed clients and thereby protect the constitutional and statutory rights of all citizens.

CAPITAL COLLATERAL REGIONAL COUNSEL (CCRC)

Goal 1 Objective:

To competently achieve the completion of death penalty post-conviction review by state and federal courts.

OFFICES OF CRIMINAL CONFLICT AND CIVIL REGIONAL COUNSELS (OCCRC)

Goal 1 Objective:

Appeals: File initial appellate briefs within 30 days of receipt of record.

Criminal: Close misdemeanor cases within 120 days of appointment.

Dependency: In cases where there is either an adjudication or a withhold of adjudication, file a case plan to be approved by the court within 90 days of appointment.

**AGENCY SERVICE OUTCOMES AND

Outcome: Number of transactions processed on behalf of agencies administratively served.

Baseline/Year 2017-18	FY 2019-20	FY 2020-21	FY 2021-22	FY 2022-23	FY 2023-24

PRIMARY SERVICE OUTCOMES

Outcome: Average number of children represented.

<u>Baseline</u>					
FY 2017/18	FY2019/20	FY2020/21	FY2021/22	FY2022/23	FY2023/24
25,326	27,957	29,414	30,871	32,328	32,328

Explanation: The baseline number is the average of 12 months of point-in-time data, from July 1 of one year to June 30 of the next. The average number of children represented per month in FY 17/18 was 25,326.

Point-in-time monthly counts and averages of those counts significantly understate the total number of children served by the Program in a given year, because such counts are not cumulative. **During FY 17/18, the Guardian ad Litem Program actually represented a total of 39,562 individual children.**

The number of children needing guardians ad litem has historically exceeded Program resources. Recent trends, including a dramatic increase in the number of children in out-of-home care and excessive turnover in certain classes within the Program related have negatively affected the Program’s ability to reach more children. However, the 2017 Florida Legislature appropriated funds for stabilizing the workforce through salary adjustments for critical classes. The results of this action have been positive.

**AGENCY SERVICE OUTCOMES AND
PERFORMANCE PROJECTION TABLES**

STATEWIDE GUARDIAN AD LITEM

For FY 16-17 as compared to FY 17-18, turnover has gone down significantly in the Recruiter and the Senior Child Advocate Manager classes, and is down in the Child Advocate Manager class:

CLASS TITLE	TURNOVER REDUCTION BETWEEN FY 16-17 AND FY 17-18 BY PERCENTAGE REDUCTION
CHILD ADVOCATE MANAGER	5%
SENIOR CHILD ADVOCATE MANAGER	41%
VOLUNTEER RECRUITER	52%

The Program has taken and continues to take steps to improve its capacity to provide quality representation and reach additional children. The estimates above represent a multi-year plan to reach all children. The Program anticipates a modest increase in the number of children represented in the next fiscal year, as the GAL Program received resources to stabilize its workforce, which was designed to have a greater impact on the quality of advocacy than the quantity. In the 2019/2020 fiscal year through 2024, the Program will, through realignment of resources, continued partnerships with counties and local foundations and businesses, the expanded use of pro bono attorneys, and requests for additional funding (when needed) endeavor to reach the remaining children.

Outcome: Average percent of children represented.

<u>Baseline</u>					
FY 2017/18	FY2019/20	FY2020/21	FY2021/22	FY2022/23	FY2023/24
79%	86%	91%	95%	100%	100%

Explanation: The percentages reflected in the chart above show the proportion of ALL children in the dependency system served and projected to be served by the GAL Program. The FY 17/18 baseline was 79 percent, within one percent of the target. This small deviation from the target is due to the sharp increases year over year in the number of children in the dependency system.

The Program has taken and continues to take steps to improve its capacity to serve additional children. The estimates above represent a multi-year plan to reach all children. STATEWIDE GUARDIAN AD LITEM

Outcome: Percent of cases closed with Permanency Goal achieved

Baseline					
FY 2017/18	FY2019/20	FY2020/21	FY2021/22	FY2022/23	FY2023/24
79.72%	71%	72%	73%	74%	80%

Explanation: A key outcome measure for children is achievement of permanency through reunification with family, adoption, or a permanent guardianship arrangement. Court supervision and case management by the Department of Children and Families (DCF), Community Based Care Lead Agencies and Case Management Agencies is terminated when permanency is achieved.

As the numbers of children in the dependency system have increased, the time to permanency has also increased, preventing cases from closing and impacting the average number of children represented by the Program. For children removed in June 2017, statewide, 39.2% achieved permanency within the statutorily mandated goal of 12 months. The percentage of children whose cases closed with permanency achieved or case stable was 79.72% for FY 17/18. This reflects the strain on the system created by increased numbers of children in care and resulting high caseloads.

Outcome: Number of new volunteers certified as a GAL.

Baseline					
FY 2017/18	FY2019/20	FY2020/21	FY2021/22	FY2022/23	FY2023/24
2,592	2,800	2,800	2,800	2,800	3,000

Explanation: The Program first topped its goal of more than 10,000 volunteers statewide in February 2016. For all 12 months of FY 17/18, the average number of volunteers was 11,049. The actual number of total volunteers on June 30, 2018 was 11,041. During FY 17/18, 2,592 new volunteers were certified.

During the coming year, the GAL Program will continue its aggressive volunteer recruitment efforts. This will be done in partnership with the Program’s Direct-Support Organization, as well as through the use of VOCA funding and National CASA grants.

Social media is a relatively new strategy for the Guardian ad Litem Program. With the addition of a Social Media Director, the Florida Guardian ad Litem (GAL) plans to develop an operating strategy for the management of digital media, which will incorporate social media platforms, mobile device, and multimedia technology marketing. This multidimensional strategy will reinforce the GAL program’s brand through engagement and awareness through four key components: increasing recruitment of volunteers; informing the public about GAL program activities and initiatives; strengthening the program’s community of volunteers, organizational personnel and

**AGENCY SERVICE OUTCOMES AND
PERFORMANCE PROJECTION TABLES**

STATEWIDE GUARDIAN AD LITEM

partners; and engaging Floridians in championing children in the dependency system, the GAL program and its advocacy volunteers. Implementing a digital media strategy will enable the GAL program to grow in the current social, digital, and multimedia technology era.

The Florida Legislature appropriated \$331,000 for extraordinary volunteer travel expenses in 2018. These funds are being used to reimburse volunteers for travel when children are placed outside of their home counties. Because the price of gas can be a barrier to visiting children and staying on cases for children who are far removed, the GAL program expects these funds to encourage volunteers to remain on cases despite the need to drive long distances.

Outcome: Average number of volunteers.

Baseline					
FY 2017/18	FY2019/20	FY2020/21	FY2021/22	FY2022/23	FY2023/24
11,049	11,500	11,750	12,000	12,500	13,000

Explanation: This number includes a small proportion of volunteers who do not carry a caseload but rather perform administrative and office work for the program (called “non-certified”). The Program’s goal is to maintain at least 10,000 volunteers at all times, and develop innovative ways to improve retention. For FY 17/18, the average number of volunteers was 11,049. The average number of certified volunteers in FY 17/18 was 10,348.

The Program is also starting a GAL Alumni initiative to keep volunteers engaged even after they decide to take a break from carrying child representation cases. These volunteers may get engaged through time limited projects, contribution of special skills and fund raising for local program support.

STATEWIDE GUARDIAN AD LITEM PROGRAM (GAL)

GAL Program Goal #1: *To provide effective advocacy and improved outcomes for all of Florida's abused, abandoned or neglected children.*

A. Since the 2009 passage of legislation allowing the appointment of “surrogate parents” to act in the place of a parent in educational decision making and in safeguarding a child’s rights under the Individuals with Disabilities Education Act, volunteer Guardians ad Litem have increasingly volunteered and been trained to serve as “educational advocates” for the children they represent. During FY 17/18, there were 6,138 total volunteers serving as educational surrogates. Between 2012 and 2018, the percentage of GAL volunteers trained as educational advocates has risen from 12% to 53%. This means that almost half of all GAL volunteers across the state can represent the best interests of their assigned children not only in the court room and within the child welfare system, but also in the educational setting, where many of these children struggle due to multiple moves, learning or physical disabilities and mental health issues.

B. The Florida Statewide Guardian ad Litem Program was chosen for a 2017-2018 National CASA (Court Appointed Special Advocates) Association Youth Advocacy Grant aimed at improving outcomes for the state’s abused and neglected youth ages 14+ living in rural parts of our State.

This is the fourth year the Program has won the \$40,000 grant, which distributes funds from the U.S. Department of Justice, Office of Juvenile Justice and Delinquency Prevention, for the purpose of increasing the number of maltreated youth who are assigned a volunteer guardian ad litem to advocate for their best interests.

The GAL Program uses the grant funds to continue its Fostering Futures Training Initiative, which focuses on advocacy and mentoring for older youth by providing them with volunteers specifically trained to serve as the one significant adult relationship they need to help them transition to adulthood. Florida’s GAL has already demonstrated success in mentoring a population of older youth who have clean arrest records and delinquency records. The new grant award was based on the Florida Program’s success from 2014 to 2017. Of the 1,881 youth served during that time through the Fostering Futures Initiative, 99% of them had clean arrest and delinquency records.

C. Research shows that children with GAL volunteers are more likely to pass all courses, less likely to have poor conduct in school, and less likely to be expelled than those who do not. In addition, these children have better controls against deviant behavior, they value achievement, and work out conflict better with others.

GAL Program Goal #1: *To provide effective advocacy and improved outcomes for all of Florida's abused, abandoned or neglected children.*

Studies show children with a GAL volunteer are half as likely to enter foster care, and if they do enter foster care, they spend less time in care. They receive more services and are also more likely to have a positive view of the future. If parental rights are terminated, they are more likely to be adopted.

STATE ATTORNEYS

Goal #1: *To pursue justice through prosecution of all criminal cases presented to the State Attorney over the next five years in an effective, efficient and timely manner.*

CAPITAL COLLATERAL REGIONAL COUNSELS (CCRC)

Public safety includes protecting Floridian's Constitutional rights to a fair, equitable and timely judicial process especially when the death penalty is involved. The CCRCs are statutorily created to provide post-conviction legal services to limit the potential for any citizen to be wrongfully convicted and sentenced to death and to meet Supreme Court requirements for competent death penalty reviews. This helps the State of Florida and its judiciary system assure the public that its United States' and Florida Constitutional protections are safe.

TRENDS AND CONDITIONS

JUSTICE ADMINISTRATIVE COMMISSION

Pursuant to s. 43.16, F.S., the Justice Administrative Commission (JAC) maintains a central state office providing administrative services and assistance to 49 judicial-related offices (JROs), including the Offices of State Attorney, Public Defender, Criminal Conflict and Civil Regional Counsel, Capital Collateral Regional Counsel, and Guardian ad Litem Program. While the JAC administratively serves these JROs, the JAC does not supervise, direct, or control the JROs it serves.

Additionally, the JAC provides compliance and financial review of bills for services provided by private court-appointed attorneys representing indigent citizens and associated due process vendors.

The JAC priorities were determined after consulting with the JROs and related legislative actions. Over the next five years, the JAC will continue to review its priorities with our stakeholders and make modifications as necessary.

The JAC strives to maintain employees who are highly skilled, motivated, productive, and ethical. JAC's core values are exemplary service, adaptability, honesty, integrity, and diversity, as well as respectful and ethical conduct.

STATEWIDE GUARDIAN AD LITEM

The Guardian ad Litem Program was established in Florida in 1980 as a county-based program under the jurisdiction of the courts, to represent the best interests of abused, abandoned or neglected children involved in dependency proceedings. On January 1, 2004, the Statewide Guardian ad Litem Office was created to provide the infrastructure to increase functionality and standardization among the existing programs. Section 39.8296, Florida Statutes, establishes the State Office as an independent entity within the Justice Administrative Commission. There is a single statewide program with local offices in each of Florida's 20 judicial circuits.

The GAL Statewide Office has oversight responsibility for providing legal, operational and technical assistance to all guardian ad litem and attorney ad litem programs within the judicial circuits. Responsibilities include collecting, reporting and tracking reliable case data, reviewing the programs in Florida and in other states, developing statewide performance measures and standards, developing a training program, reviewing various funding sources, and developing methods to improve delivery of program services.

Since 2004, an annual report has been filed each year which describes the environment, issues and strategies employed to address the GAL's basic mission to represent all dependent children, as defined within Chapter 39 of the Florida Statutes. Annual reports may be viewed at the Guardian ad Litem Program's website, at <http://guardianadlitem.org/about-us/annual-reports-long-range-program-plans/>. Reviewers are invited to read the reports and contact the Statewide Office with any questions.

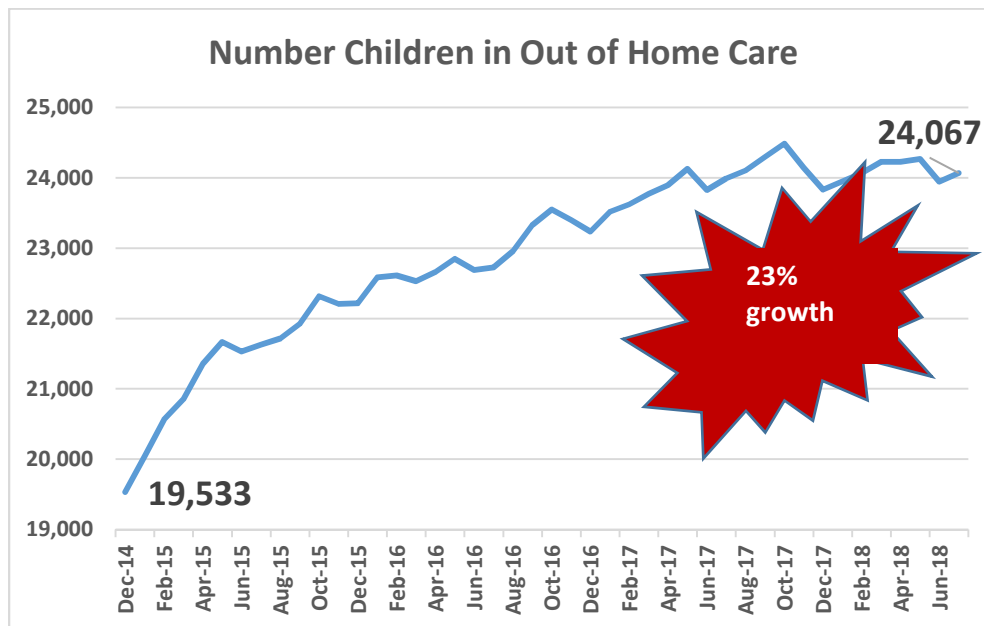

TRENDS AND CONDITIONS

STATEWIDE GUARDIAN AD LITEM

The GAL Program has historically sought increasing resources to serve ever larger segments of all dependent children. However, guided by independent studies the Program determined in FY 17-18 the most effective way to serve dependent children was to stabilize the Program's workforce, which was negatively affected by low salaries and high caseloads leading to high turnover. The Florida Legislature responded by appropriating special pay adjustments for the five classes of GAL employees most directly affected by turnover and high caseloads. As noted earlier, the results of these increases have been to reduce turnover in key front line classes.

The more significant trend affecting the ability of the GAL Program to fulfill its mission is the steadily increasing number of children in out-of-home care. DCF statistics show the number of children in out-of-home care has increased 23% between January 2015 and July 2018. At the beginning of this period, a greater-than-average number of children were being taken into care; more recent data show that the large number of children in out-of-home care is due to children staying in the system longer, and not reaching permanency.

Permanency indicators reflect that permanency within 12 months of removal has been on a downward trend since the beginning of 2012. At that time, the average for return home within 12 months was 51.5% of children removed from their home. At the beginning of 2015, 45% of children removed achieved permanency within 12 months. Now, that number is 39.2%, below the national standard. Likewise, the number of children achieving permanency with 24 months has been declining during the same period. This causes cases to be open longer and caseloads to grow as new children are removed from their homes. Additionally, recent DCF Dashboard data indicates that more than 36% of all children in out-of-home care are placed out of their home counties, and almost 20% are placed out of their home circuits.

TRENDS AND CONDITIONS

STATEWIDE GUARDIAN AD LITEM

These conditions have the following impacts on GAL representation:

- When children stay in the system longer, their cases take longer to close and as a result, the GAL Program either cannot take on new children coming into care, or is appointed to new children, raising caseloads to a level where quality of service is affected.
- The longer children stay in the system, the greater the risk of disruptions in placements and other negative outcomes which require more intense advocacy and a greater expenditure of GAL resources.
- When more than 36% of children are placed out of their home counties, GALs must travel farther, spend more time, and incur greater expense to provide effective, well-informed advocacy unique to each child.
- The overburdened nature of the system negatively affects recruitment and retention of GAL volunteers resulting in the Program representing fewer children.

The GAL Program cannot predict when the numbers of children will begin to decrease. For this reason, the GAL Program continues to seek efficiencies and innovative methods and funding sources to increase quality of service and numbers of children represented. Much emphasis has been placed on recruitment of attorneys to provide pro bono service in the area of appellate practice. This initiative pairs the GAL Program with the Florida Bar Association, Appellate Section, and has succeeded much more than anticipated, with the initiative earning high honors and a money award from the Davis Productivity Award program in 2018. The GAL Program estimates that pro bono attorneys have contributed hundreds of thousands of dollars in high quality legal expertise on behalf of dependent children. A related project, “FAWL in Love with GAL” has coupled the GAL Program with the Florida Association of Women Lawyers (FAWL) to mentor and advise older youth on legal and life issues that arise when preparing for transition to independence.

GAL is also enhancing its employee and volunteer capacity through the Equity and Diversity Awareness Project. This Project is designed to refine program procedures, decisions and advocacy so they are driven by applicable state statutes, best practices, facts concerning diversity and equity, and the Florida Guardian ad Litem Program’s inherent earnest compassion for the best interest of Florida’s children engaged in the dependency court system. The aim of the Project is to ensure that unjustified bias (unintended, intentional and institutional or individual) has no place in the process of work with children and families. GAL expects that advocates will maximize their impact on the outcomes for children when they are equipped with a comprehensive sensitivity to the role of cultural and economic dynamics and how they are involved, and impact the families and communities we work within.

TRENDS AND CONDITIONS

STATEWIDE GUARDIAN AD LITEM

The Guardian ad Litem Program is seeking additional funding for FY 19-20 and has prepared legislative budget issues to address pressing needs. These issues are as follows:

1. Workload: Increase Staff for Child Representation - \$3,830,146 with 64 new FTEs – This issue will address workload needs primarily in the Circuits hardest hit by increases in out of home care populations.
2. GAL Professional Certification for Child Advocate Managers - \$669,638 with 3 new FTEs – This issue will create a certification program for GAL professional child advocate managers, to ensure a level of training and professionalism consistent with that already in place for child welfare case managers and protective investigators.
3. Recurring Reimbursement for Extraordinary GAL Advocate Expenses - \$331,262 – This issue will make recurring the appropriation authorized by the 2017 legislature for extraordinary volunteer travel associated with their duties as volunteer guardians.
4. Budget Realignment: OPS Attorneys to FTE - 18.50 new (budget neutral) FTEs – This no cost issue will allow the Program to convert 18.5 OPS attorney positions to Full Time Equivalent positions.
5. Align GAL Attorney Benefits with All Other State Entities - \$240,513 – This issue will authorize the GAL Program to give benefits to all attorney positions consistent with those afforded attorneys in all other state agencies.
6. IT: Server End of Life - \$158,896 – This issue will allow the GAL Program to replace servers that have reached the end of their useful life.
7. Realign Budget Authority – Voices for Children - \$53,000 – This issue is a technical issue to place funds in the right category.
8. Voices for Children Contractual Support - \$150,000 – This issue provides additional contractual support for the Voices for Children Foundation.
9. Pay Adjustments for Field Managers - \$457,617 – This issue addresses pay inequities for managers in the field.

TRENDS AND CONDITIONS

STATE ATTORNEYS

AGENCIES PRIMARY RESPONSIBILITIES AND STATUTORY AUTHORITY

Pursuant to Article V, Section 17 of the Constitution of the State of Florida, the State Attorney is charged with being the Chief Prosecuting Officer of all criminal trial courts in his/her respective circuit and shall perform all other duties prescribed by general law. Chapter 27 and 29 of the Florida Statutes and the Florida Rules of Criminal Procedure further elaborate upon the duties of the State Attorney. The State Attorney, with the aid of appointed assistants and staff shall appear in the circuit and county courts within his/her judicial circuit and prosecute or defend on behalf of the state, all suits, applications, or motions, civil and criminal, in which the state is a party.

Consistent with and necessary to the performance of these duties is the requirement that the State Attorney provide personnel and procedures for the orderly, efficient and effective investigation, intake and processing of all felony, misdemeanor, criminal traffic, and juvenile delinquency cases referred by law enforcement, other state, county and municipal agencies and the general public. In addition, the State Attorney must provide personnel and procedures for the orderly, efficient and effective intake and processing of several statutorily mandated civil actions.

There is a State Attorney elected for each of the twenty judicial circuits. These circuits vary greatly from a population of less than 200,000 to populations of over 2,000,000. The geographic area covered by each circuit may be limited to one county or as many as seven counties with multiple offices.

AGENCY PRIORITIES AND THEIR APPLICATIONS

The State Attorneys' priorities are to pursue justice through prosecution effectively, efficiently and in a timely manner for all criminal cases presented to or investigated by the State Attorney. In addition, these priorities include representing the State of Florida efficiently and effectively in all civil suits, motions or actions in which the state is a party or civil actions which are mandated by the Florida Statutes.

PUBLIC DEFENDERS

Public Defenders protect the constitutional and statutory rights of all citizens through the effective legal representation of court appointed clients, pursuant to Chapters 27, 394, and 985, Florida Statutes; the Criminal, Juvenile, and Appellate Rules of Procedure; and the Rules of Professional Conduct.

TRENDS AND CONDITIONS

PUBLIC DEFENDERS

Public Defenders carry out their mission to provide legal representation of court appointed clients through the following two program areas:

CRIMINAL TRIAL COURT - Represent appointed clients arrested for or charged with a felony, violation of probation or community control, misdemeanor, criminal traffic offense, criminal contempt, violation of a municipal or county ordinance, and juveniles alleged to be delinquent. Provide representation in other proceedings as appointed by the court.

CIVIL TRIAL COURT - Represent appointed clients subject to involuntary commitment under the Florida Mental Health Act or as a sexually violent predator pursuant to Chapters 394 and 916, Florida Statutes; and appointments pursuant to civil contempt.

The Public Defender's goal is to provide quality representation to all appointed clients. "Quality representation" cannot be defined or measured in wins and losses, and therefore requires performance measures that have been developed to demonstrate quality of the work in other ways (e.g., time for case resolution, cases per attorney, and attorney retention rates).

The following goals have been established in an effort to carry out the Public Defender mission.

1. Provide quality representation to all appointed clients.
2. Establish standard caseload for misdemeanor attorneys of 400 cases per year.
3. Establish standard caseload for felony attorneys of 200 cases per year.
4. Establish standard caseload for juvenile attorneys at 250 cases per year.
5. Provide equitable and fair salaries and benefits for employees to reduce employee turnover and improve retention.

PUBLIC DEFENDER APPELLATE

The Public Defenders of Florida carry out their mission to provide legal representation of court appointed clients through the appellate court program.

Public Defenders protect the constitutional and statutory rights of all citizens through the effective legal representation of court appointed clients, pursuant to Chapters 27, 394, and 985, Florida Statutes; the Criminal, Juvenile, and Appellate Rules of Procedure; and the Rules of Professional Conduct.

The measures developed for this program are designed to determine the quality of the work by examining case resolution, adherence to a standardized number of cases per attorney, and attorney retention rates.

TRENDS AND CONDITIONS

PUBLIC DEFENDER APPELLATE

The following goals have been established in an effort to carry out the Public Defender mission.

1. Provide quality representation to all appointed clients.
2. Establish standard reasonable caseloads for appellate attorneys at 2.5 capital appeals or 40 weighted non-capital records per year.
3. Provide equitable and fair salaries and benefits for employees to reduce turnover and improve retention.

Capital Collateral Regional Councils (CCRCs) Focus Areas, Trends and Conditions and Issues

CCRC Statutory Responsibilities:

State Approved Program: Legal Representation **CCRC Approved Service:** Legal Representation

CCRC GOAL

To pursue completion of postconviction legal counsel duties in a timely manner while maintaining high legal representation standards.

This is responsive to the Governor's and Legislature's desire to lessen the time it takes to bring postconviction cases to closure. It also helps assure inappropriately sentenced inmates receive altered sentences as soon as possible.

THE CCRC'S PROFESSIONAL FOCUS

CCRCs strive to meet professional standards for providing postconviction legal services by competently working all cases assigned by the Florida Supreme Court in as cost and operationally efficient and timely manner as possible.

THE CCRC's LONG RANGE PROGRAM PLAN STORY

CCRC Focus Areas indicate where CCRC attention is critical to be accountable and achieve its professional, operational, financial and results oriented standards and expectations.

CCRC FOCUS AREA 1
Meet State & Federal Court Expectations for Competent Representation in Postconviction/Death Penalty Cases

1.0 Trends and Conditions

The primary reasons for providing legal counsel to persons sentenced to death are (1) the public wants to be sure that the sentence is deserved and (2) when it is upheld, there is a societal desire for timely justice, especially for the sake of the victims' families. The trend over the last number of years is that there are increasing concerns about these perspectives.

For many years, the Florida Supreme Court has explicitly indicated to the Florida Legislature that the CCRC model for providing postconviction legal representation is its preferred choice. This is due to the Court's demands for experienced legal representation to avoid case progress disruptions and competency challenges. In response to the Court's concerns, the 2013 Florida Legislature passed the Timely Justice Act recreating the CCRC-North office. During committee meetings and debate on the floor, the Legislature concurred with the Court's preference for the CCRC model.

The Florida Supreme Court initially reviews all death sentences imposed in Florida's circuit courts for any indication of a constitutional error during the trial and/or sentencing. Recently, the Florida Supreme Court's reversal rate increased substantially due to *Hurst v. Florida* and *Hurst v. State* on direct appeal after sentencing. The reversal rate returned to a more normal 20% after the *Hurst* decision impacts concluded.

Once a conviction and sentence of death has been affirmed on direct appeal, the Court appoints one of the three Capital Collateral Regional Counsels (CCRCs) to represent the defendant in his/her postconviction appeals. The CCRCs provide representation in both the state and federal courts until relief is granted or the sentence of death is carried out. Recent decisions in the state and federal courts have greatly impacted the death penalty system as a whole, and postconviction practitioners in particular.

TRENDS AND CONDITIONS

CAPITAL COLLATERAL REGIONAL COUNSELS

On January 12, 2016, the United States Supreme Court announced its decision in *Hurst v. Florida* ruling that Florida's death penalty system was unconstitutional because it permitted the judge, rather than the jury, to find the facts necessary to impose a death sentence. The ruling in *Hurst v. Florida* caused major delays in court activity throughout the state as the circuit courts awaited a decision from the Florida Supreme Court regarding the implications of the *Hurst* decision.

On October 14, 2016, the Florida Supreme Court released its opinion in *Hurst v. State*. In applying the United States Supreme Court's decision in *Hurst v. Florida* to the state *Hurst* case, the Florida Supreme Court found that the state's 2012 death penalty sentencing procedures were unconstitutional based upon the Sixth and Eighth Amendments, as well as the Florida Constitution's right to a trial by jury. Additionally, and perhaps most importantly, the Court determined that the decision in *Hurst v. Florida* required "that all critical findings necessary before the trial court may consider imposing a sentence of death must be found unanimously by the jury."

The "critical findings" that must be found unanimously include the existence of each aggravating factor, (such as an especially heinous, atrocious or cruel act), which has been proven beyond a reasonable doubt; that the aggravators are sufficient, and the aggravating factors outweigh the mitigating circumstances. Even if the jury unanimously finds the "critical factors" exist, the jury must still unanimously recommend death, and can recommend a life sentence even if the jury determines that the first three critical findings exist.

While the decision in *Hurst v. State* clarified Florida's death penalty procedure to an extent, the reach of the decision to those inmates on Florida's death row remained an outstanding issue. As a consequence, the next issue to be considered by the Florida Supreme Court was the issue of retroactivity.

On December 22, 2016, the Florida Supreme Court held that all death sentenced inmates whose court decisions were not "final" when the seminal United States Supreme Court's decision in *Ring v. Arizona* was decided and released on June 24, 2002, would be entitled to review pursuant to its decision in *Hurst v. State* and those whose cases were "final" prior to that date would not be entitled to review.

The *Hurst* related decisions caused a spike in all CCRCs' 2015-16 and 2016-17 workloads. This was primarily because the CCRCs were required to produce a 3.851 or state habeas petition for every one of their cases.

Related External Issue 1.1 Meeting court standards for professional legal representation.

In all, the CCRCs have filed over 200 *Hurst* related petitions over the past two fiscal years challenging the constitutionality of Florida's death sentencing system and its applicability to

TRENDS AND CONDITIONS

CAPITAL COLLATERAL REGIONAL COUNSELS

their clients whose sentences were both pre-*Ring* and post-*Ring*. As of July 1, 2018, 130 cases statewide have been granted *Hurst* relief and returned to the circuit courts for resentencing. Even if only 50% of the defendants are resentenced to death, the CCRCs will have about 65 cases returning for continued representation in the postconviction process.

Additionally, the State Attorneys testified before the House Judiciary Committee on February 15, 2017 that because of the pending *Hurst* decision, 313 possible death penalty cases were on hold, sixty-six (66) of which were immediately ready for trial. The full number will be staggered into future years.

Between the returning *Hurst* “relief” cases and the State Attorney backlog cases, over 450 cases are positioned to increase CCRC workloads. Even if only 50% of these cases are assigned to the CCRCs, there will be a major workload increase of over 225 cases coming over the next few years. If it turns out to be only 25% that are assigned to CCRCs, even that would be another 112 cases added to CCRC workloads. Each additional case, regardless of source, requires legal research, case investigations, and legal work by attorneys to produce 3.851 legal filings, plus the need to prepare for and conduct evidentiary hearings. Later, CCRCs must process any appeals that occur.

In addition to these factors, there is the distinct likelihood that more death warrants will be signed for those cases that were not granted *Hurst* relief. Each warrant requires an accelerated review of case issues before either the Florida Supreme Court or the United States Supreme Court make their final decision regarding the sentence of death. This strains CCRC workloads due to the fact each warrant may require a response in as little as 27 days but no more than 45 days.

With the return of *Hurst* related cases after the new sentencing proceedings, the flood of backlogged cases and the assignment of new cases entering the court system in 2019-20 and beyond, CCRC workloads in 2019-20, 2020-21 and 2021-22 will steadily increase.

Related External Issue 1.2 Budget Reduction Impact

Representing capital collateral (death penalty) cases requires exceptional legal skills and case presentation experience, especially in the federal court system, which is well beyond that attained by most lawyers.

If additional budget reductions of 10% occur in FY 2019-20 (an over \$1 million cut for North, Middle and South CCRC regions), it is likely that 7 lawyers and 5 investigator positions will be cut (about 20% of CCRC case staffing) as well as cutting hundreds of thousands of dollars in case support cost spending. The loss of highly experienced and competent lawyers and investigators reduces the ability of the CCRC offices to handle workloads. This would substantially affect particularly the recently recreated CCRC-North’s ability to accept new cases. Also, a 10% budget cut would severely compromise CCRCs’ ability to meet stringent Florida

TRENDS AND CONDITIONS

CAPITAL COLLATERAL REGIONAL COUNSELS

Supreme Court postconviction legal representation standards set by rule 3.112 (k) of the Florida Rules of Criminal Procedures. Additionally, a reduced capacity likely will make it difficult to meet state performance standards.

The costs per case are unlimited when conducted by Registry lawyers. The Florida Office of the Auditor General's 2007 report concluded that the CCRCs are more cost effective than Legal Registry lawyers. Both CCRC and Registry lawyers are assigned postconviction cases to represent affected parties in state and federal courts. If the CCRC budgets are cut, cases will be reassigned to the Registry. This is likely to cost more than would have been the case if cuts in CCRC budgets had not occurred allowing the CCRCs to continue the case work.

Related Internal Issue 1.3 CCRC efforts to retain experienced professional staff to meet court expectations for competent representation.

Providing competent postconviction legal counsel requires gathering, storing and analyzing case related public records, investigating cases, preparing and filing issues and providing legal representation within the state and federal courts. CCRC work tasks are described later in the Long Range Program Plan. Keeping caseloads at reasonable levels is important to retain staff over a longer period of time.

CCRCs had made excellent progress in attracting, training and keeping attorneys experienced in capital appeals. Currently, 56% of all CCRC attorneys have more than 5 years' experience in postconviction litigation. Additionally, over 54% of CCRC lead attorneys have greater than 15 years of postconviction experience. Lowering staff turnover rates has been a priority in order to meet legislatively mandated performance measures as well as state and federal guidelines for timeliness. However, turnover rates have increased significantly over the last two years. Uncertainty over the impact of the *Hurst* decisions, retirement and salary issues resulted in increased turnover rates. Over the last two years the aggregate CCRCs turnover rate was 41%.

CCRC FOCUS AREA 2

Respond to CCRC caseload issues, state law and court rulings.

2.0 Trends and Conditions

In 2017-18, the caseload was 177 due to the *Hurst* related cases being sent back to the circuit courts for resentencing. In 2018-19 it is projected to be 155. In 2019-20 the estimate is at least 166. Future years will continue to show caseload increases.

TRENDS AND CONDITIONS

CAPITAL COLLATERAL REGIONAL COUNSELS

The state and federal court systems are focusing more attention on issues related to death penalty review cases. Their dockets reflect a growing interest in conducting more evidentiary hearings on these issues based on rulings by the Florida Supreme Court.

The CCRCs perform case trial records research, investigate case backgrounds and issues, produce a filing raising critical issues for state and federal court consideration, and provide legal representation in the state and federal courts where issues are heard. When a death warrant is signed by the Governor, the CCRCs have an accelerated requirement to do final state and federal court reviews of the sentence within as little as 27 days.

External Issue 2.1 Have the capacity to meet increasing workloads

in 2013-14 in 2014-15 in 2015-16 in 2016-17 in 2017-18 in 2018-19

Death warrants: 3 1 1 0 3 4

Death warrants require accelerated representation in both state and federal courts. CCRCs usually must reallocate limited resources to respond within the 27 day period.

For each warrant, two teams of lawyers and investigators are often required due to the limited time allowed. The teams involved work an average 80–90 hours a week until the warrant of execution is carried out or relief is granted. These are significant workloads for CCRCs.

Now that the Hurst decisions are final, the number of warrants over the next five years is projected to increase steadily compared to the previous five years.

The Timely Justice Act, which became effective July 1, 2013, and was upheld by the Florida Supreme Court on June 12, 2014, makes it mandatory for the Governor to sign death warrants for capital defendants who have completed initial postconviction proceedings and had clemency.

CCRC faces the potential for extensive warrant litigation unprecedented in recent years. Such litigation could occur in concurrently multiple cases, affect many CCRC attorneys and staff, and have broad implications for CCRC resources and capabilities. Warrant litigation can be costly, is time intensive, and can require multiple attorneys and investigators to prepare a case to go through the state and federal system in as little as 27 days. The trend in the foreseeable future is for warrant signings to increase significantly and CCRCs must have the attorney and operational capacities to quickly respond to court requirements.

When CCRC-North was eliminated in 2003, private Registry attorneys were appointed to work all CCRC-North cases. This resulted in serious legal misrepresentation issues identified by the state and federal courts. Registry attorneys were often late in filing legal pleadings and had far less experience. The restoration of CCRC-North, effective in 2014, resulted in that office

TRENDS AND CONDITIONS

CAPITAL COLLATERAL REGIONAL COUNSELS

being appointed by the circuit courts to work warrant ready cases or other cases further along in the system. Currently, these comprise almost 25% of CCRC-North's cases. These cases produce huge workload burdens due to their length of time in the postconviction process and the requirement to work through very large files before each case can proceed or the warrant can be carried out. This unanticipated and unexpected burden of being the agencies of last resort for warrant eligible defendants will further strain the limited resources of the CCRCs.

External Issue 2.2 be able to meet legal representation requirements of law.

State and federal law requires CCRCs, within one year, to analyze cases and produce a 3.851 filing with the courts on any issues deemed critical to court review of the death sentence. This is to avoid delays in processing the cases as they are assigned to the CCRCs.

Courts will then schedule evidentiary hearings on one or more issues per case and require CCRCs to present their findings and argue their issues. State and federal courts set their own calendars throughout the postconviction legal process and CCRCs respond. CCRCs can request delays, but rarely do so as they try to keep the cases progressing to meet Legislative / Gubernatorial expectations. Since the inception of required performance measures, over 90% of all motions filed by CCRCs were timely filed without requests for extensions. However, the latest Auditor General's Report to the Legislature comparing CCRCs with private Registry indicated that the private registry attorneys only filed 63% of their motions in a timely fashion.

External Issue 2.3 be able to respond to changes in Court policies and procedures

The Florida Supreme Court has made it very clear that the Circuit courts should grant evidentiary hearings on a broad range of factual claims, leading to a significant increase in the number of issues raised by CCRCs that are granted an evidentiary hearing.

This has led to a slight increase in the costs of legal representation and case preparation, but it has also decreased delays in the postconviction process. Cases that were previously reversed and remanded for an evidentiary hearing after a summary denial are now being considered by the circuit courts in a timely fashion. The 2-3 year delay caused when the Florida Supreme Court reversed the case, simply because the circuit court failed to consider issues when they were first raised, occurs less often, thereby increasing the overall efficiency of the postconviction process.

During the 2013 Session, the Florida Legislature enacted the Timely Justice Act which addressed a variety of substantive changes in capital postconviction proceedings. Responding to legislative concerns, the Florida Supreme Court created the Capital Postconviction Proceedings Committee to look into possible substantive and procedural changes to the capital postconviction process.

TRENDS AND CONDITIONS

CAPITAL COLLATERAL REGIONAL COUNSELS

The Court specifically directed the Committee to conduct a comprehensive review of the postconviction process and to make recommendations as to whether Rule 3.851, or any other rule, should be amended to “improve the efficiency of capital postconviction proceedings.” See, Supreme Court Administrative Order 13-11. The Committee was further directed to seek input from the Criminal Procedure Rules Committee, the CCRCs, Attorney General’s Office and other stakeholders determined appropriate by the Committee.

On July 3, 2014, the Florida Supreme Court adopted most of the Committee’s recommendations and ordered several changes to the postconviction rules which had a substantial effect on the CCRCs.

First, the Court adopted increased and stricter standards for the qualifications required before an attorney can become a lead attorney in a capital postconviction case. These requirements will have the effect of adding additional years of experience before an attorney can handle capital postconviction matters as a lead attorney despite the fact that most CCRC attorneys have much broader experience in capital postconviction than private attorneys with many years of practice as a criminal attorney with a trial background. This additional requirement, adopted by the Court’s order, could cause problems if turnover in CCRC lead attorneys becomes an issue.

Second, the Court ordered that trial counsel in capital cases must retain all the original files, including all work product generated in the representation of the defendant at trial, which is counter to the practice in most jurisdictions where trial counsel routinely provided original files to postconviction counsel. The Court further ruled that postconviction counsel is permitted to view and inspect the files, but any copies provided by the trial counsel to the postconviction counsel would be at collateral counsel’s expense.

Capital cases are exceedingly complex and substantial and the files created by trial attorneys while performing their responsibilities are voluminous. In order to comply with the new rules imposed by the Court regarding trial attorney files, the CCRCs anticipate that the costs associated with copying the files will run into the thousands of dollars, a substantial increase over current costs, creating a further strain on CCRC resources.

Last, the Court also adopted a rule that any expert who is listed as a witness for an evidentiary hearing must submit a written report which shall be disclosed to opposing counsel prior to the hearing. Traditionally, the CCRCs have not required their experts to submit written reports as a cost saving measure, since the expert will be discussing their findings with counsel during the course of the case. The requirement imposed by the Court caused expert costs to increase since they will now be required to submit a written report prior to testifying. This will require the expert to put in more hours at an increased cost to the CCRCs.

TRENDS AND CONDITIONS

CAPITAL COLLATERAL REGIONAL COUNSELS

Internal Issue 2.4: Be able to maintain attorney workloads at reasonable levels to continually provide competent legal representation and keep cases progressing on a timely basis through the court systems.

The ability of attorneys, investigators and support staff to competently perform their case related work tasks determines the ability of the case to proceed in a timely manner.

CCRC FOCUS AREA 3
Keeping CCRC costs as low as possible and being accountable while still providing competent representation and still meeting the Florida Supreme Court's professional standards.

3.0 Trends and Conditions

CCRCs have focused on producing consistently high quality work at low costs. The Auditor General, as charged by the Legislature, completed its analysis of CCRC financial and operating performance compared to private registry lawyers who are funded in the Appropriations Act to perform the same duties as CCRCs. It is an optional source of legal services for postconviction case representation.

The Auditor General's "Report" to the Legislature indicated the following for FY 2005-06 which was the last full year's statistics available when the report was compiled. Even though this Report is now dated, current circumstances remain similar.

1. Average cost per case for legal representation: \$15,117 (CCRC) vs. \$18,579 Registry.
2. Average per hour cost for attorney time: \$38 (CCRC) vs. \$100 Registry
3. Average per hour cost for investigators: \$26 (CCRC) vs. \$40 Registry
4. Average cost per 3.851 court filing of issues: \$17,033 (CCRC) vs. \$18,359 Registry
5. Average cost per court evidentiary hearing on issues: \$17,325 (CCRC) vs. \$24,589 Registry
6. Average cost per appellate representation in courts: \$12,237 (CCRC) vs. \$17,263 Registry
7. Number of cases worked: 169 (in 2016-17: 202) (CCRC) vs. 153 Registry

These cost/case ratios appear relatively consistent from year to year.

External Issue 3.1 The number of death warrants signed by the Governor

As indicated, there was a slowdown in death penalty cases progressing through the court systems in the past few years. The recent court rulings that are now accelerating the pace and the CCRC requirements to respond to death warrants within as little as 27 days is costly. Over the years there have been as many as 5 warrants issued in one year to as few as 0. This

TRENDS AND CONDITIONS

CAPITAL COLLATERAL REGIONAL COUNSELS

is determined by the Governor. The Florida Supreme Court issues a list of warrant eligible cases. Currently, that list contains over 100 cases. With the passage of the Timely Justice Act, many more signed warrants are possible annually in the future. The average death warrant response costs CCRC between \$20,000 - \$30,000.

CCRC FOCUS AREA 4 The Time It Takes To Complete Capital Cases in the Judicial System

4.0 Trends and Conditions

The time it takes to properly investigate a case is affected by the ability to locate documents, interview original trial witnesses, and family members, search for other crime witnesses not involved in the original trial, interview inmates and develop investigative results for legal analysis and case preparation.

The combination of records analysis and investigative information gathering, the preparation of motions and strategies for legal representation in both the state and federal courts and the development of issues for presentation in court is normally completed in one (1) year.

Internal Issue 4.1 Conducting legal representation on a timely basis

The **2007 Auditor General's Report** documented the total processing time for cases from the point of being assigned to the CCRC and Private Registry law firms until their completion. There are three primary stages involved.

The first stage is from the date of Florida Supreme Court assignment until all case processing is completed in the Florida Circuit Court. During the total time (100% of it) spent on average in this stage of a case's progress through the entire system, the Auditor General validated that CCRCs only accounted for 21% of it. The rest (79%) of the time it took to complete this stage was controlled by non-CCRC parties in the court system.

The second stage is from the beginning of the "appeals" process in the State courts until there is a court ruling on the appeal. During the total time (100% of it) spent on average in this stage of a case's progress through the entire system, the Auditor General validated that CCRCs only accounted for 18.4% of it. The rest (81.6%) of the time it took to complete this stage was controlled by non-CCRC parties in the court system.

The third stage is from the beginning of the case processing in the Federal court system until its conclusion. During the total time (100% of it) spent on average in this stage of a case's progress through the entire system, the Auditor General validated that CCRCs only

TRENDS AND CONDITIONS

CAPITAL COLLATERAL REGIONAL COUNSELS

accounted for 13.6% of it. The rest (86.4%) of the time it took to complete this stage was controlled by non-CCRC parties in the court system.

The Auditor General verified then and it is still accurate today that CCRCs are not delaying case progress through the state and federal court systems.

External Issue 4.2 Inability to progress cases due to non-CCRC delays.

The time it takes for the State and Federal courts to hear cases is a major factor affecting the time it takes for cases to progress through the judicial system. Judges set the timelines for scheduling case hearings. This can be affected by court caseloads and backlog conditions.

Judges must carefully consider case issues and motions before scheduling hearings on those that have merit. It is then the responsibility of the CCRC and a prosecuting attorney to be prepared to participate in the scheduled hearing(s).

At times, the court will grant hearing delays upon a legitimate request by the CCRC or prosecuting attorney. The trend in the increased timeliness of court hearings is due in part to the increased frequency of status conferences by the trial courts required under the new rules promulgated by the Florida Supreme Court.

Additionally, the problem continues of death row cases represented by private attorneys being sent to the CCRCs by circuit courts for representation once they become warrant eligible. A CCRC normally has no familiarization with the case assigned and must devote more staff than average to provide as competent representation as possible in the time allowed.

Internal Issue 4.3 Being able to retain experienced support staff, investigators and attorneys.

As in Focus Area 1, retaining experienced staff in all areas of CCRC operations affects the ability to efficiently represent cases in the state and federal courts. In 2015-16 as the CCRC North was getting re-established, the three counsels had a combined 40 lawyers, 18 investigators, 8 case processing staff and 8 administrative staff. In 2016-17, the three counsels had 41 lawyers, 19 investigators, 5 case processing staff and 12 administrative staff. In 2017-18 there were a combined 39 lawyers, 18 investigators, 7 case processing staff and 10 administrative staff.

CCRCs have become quite efficient in their work efforts as verified by the 2007 Auditor General's Report and confirmed by the Florida Supreme Court in its written comments to the Florida Legislature praising the CCRC model. The ability to achieve performance standards also is affected by CCRC capacities to improve its operations and administration.

CCRC FOCUS AREA 5 CCRC Operational Improvements

Internal Issue 5.1 Being able to continually improve CCRC systems and processes.

The CCRCs' ability to help investigators and attorneys search case records more efficiently improved significantly over the past few years. The implementation of advanced technology to scan, store and retrieve records, for instance, reduced attorney time required for case analysis. It also reduced the need for paper storage space and will reduce the requirements for expensive square footage office space.

The CCRCs have continued to introduce technology enhancements such as installing search engines that can help scan records for client information much more quickly than in previous years. In addition, newer and faster computers have been provided to CCRC lawyers which should increase their productivity. Currently, research is underway to utilize electronic case files.

Additionally, Box Net and high speed scanners allow the uploading of documents in a much more efficient manner from any mobile or office or court room locations. This saves time and allows attorneys and support staff to be much more efficient and productive.

At the same time it is imperative that CCRCs maintain document management systems and computer stations and servers, annually. Newer document management system capacities may be able to lower maintenance costs over time.

CCRC-Middle recently instituted a new case management system that increases case processing and legal representation efficiency and effectiveness. CCRC-Middle is migrating to Microsoft 365, which provides a more secure backup system for email and case related documents. This migration will ensure that the office will be able to operate without interruption, even in the event of a natural disaster that affects the usability of the physical office building for an extended period of time.

Internal Issue 5.2 Being able to continually improve administrative and management processes and accountability.

CCRCs also are developing improved and more efficient capacities to monitor and evaluate their planning, budgeting and performance and accountability responsibilities. Administrative systems are being integrated to allow the office to administer more efficiently. The production of Long Range Program Plans, budgets and financial and operating performance measures in a much more time efficient, integrative and accurate manner is also being realized.

CCRCs continue to monitor their public records, investigation and legal counsel process activities and work tasks to isolate areas where efficiencies may be enhanced.

TRENDS AND CONDITIONS

CAPITAL COLLATERAL REGIONAL COUNSELS

The purpose is to be able to perform the following CCRC work activities and tasks in the most efficient way possible:

1.0 Public Records

- 1.1. Review existing records that are available
- 1.2. Generate a file on the death row client
- 1.3. Review additional public records
- 1.4. Litigate public records issues if they are not forthcoming

2.0 Investigations

- 2.1. Develop client history
- 2.2. Identify witnesses and experts who may provide critical information
- 2.3. Develop a strategy for locating and pursuing witnesses and experts
- 2.4. Obtain evidence

3.0 Legal Counsel

- 3.1. Visit client
- 3.2. Analyze witness information
- 3.3. Draft and publish or transmit the 3.851 motion documents
- 3.4. Prepare other motions as appropriate
- 3.5. Participate in evidentiary hearing(s)
- 3.6. Draft post-hearing orders and pleadings
- 3.7. Review court decisions
- 3.8. Prepare for and participate in state court appeals/Habeas Corpus
- 3.9. Prepare and file a Petition for Certiorari to the U.S. Supreme Court
- 3.10. Prepare for and participate in Federal Habeas Corpus proceedings
- 3.11. Conduct or attend evidentiary and/or other hearings
- 3.12. Prepare for and participate in Circuit Court of Appeal arguments
- 3.13. Prepare and file a Petition for Certiorari to the U.S. Supreme Court

The CCRCs will continue implementing additional budget management capacities that will allow “unit cost” efficiency analysis and performance evaluations.

The current measures identify output measures that clearly indicate what CCRCs do and how much of it is done annually. These measures can be divided by CCRC budgets and actual expenditures to identify relevant unit costs. This allows the LRPP to focus on measures that are critical to budget decision-making and judging CCRC plans and annual performance.

The combination of output and outcome measures can appropriately integrate financial, operational and results measures to tell the full CCRC story. The CCRC annual budget can be directly integrated with the CCRC Long Range Program Plan with these measures. The Auditor General’s Report found currently authorized measures to be appropriate for telling the postconviction legal representation story due to the availability of valid and reliable data, their ability to be collected and their ability to be integrated with financial data.

TRENDS AND CONDITIONS

CAPITAL COLLATERAL REGIONAL COUNSELS

Internal Issue 5.3 Information Technology

During the 2017 legislative session, the CCRCs were provided with funds to upgrade their outdated information technology systems. The CCRCs have replaced antiquated computers, servers and printing systems with newer models designed to increase speed, accuracy and efficiency. Investigators have been equipped with electronic tablets for use on the road thereby decreasing the time necessary for investigators to take statements, prepare documents and forward them to the home office for review. Use of the tablets also prevents investigators from having to rely and wait on the home office to provide support and documents, allowing the investigator to see more witnesses in a shorter time therefore decreasing costs.

Additionally, the CCRCs have invested in advanced scanning and document systems that allow quicker retrieval of documents and reduce the need for storage space within the home office for paper records necessary for review. Historically, each client represented by the CCRCs generates approximately 40 bankers boxes of records which must be reviewed by the CCRC team assigned to that particular case. In the past, each document was stored in the offices of the CCRCs taking up thousands of square feet, which increased rental costs. The acquisition of advanced scanning systems has allowed the CCRCs to reduce the number of boxes by two-thirds, lessened the need for retail office space, and, thus, reduced rental costs. An added benefit is that document searches take less time, thereby, achieving legal team efficiencies. These initiatives to maintain and increase efficiencies are ongoing.

OFFICES OF CRIMINAL CONFLICT AND CIVIL REGIONAL COUNSELS

The Offices of Criminal Conflict and Civil Regional Counsels (“the Office of Regional Counsel”) protect the constitutional rights of all citizens through the cost efficient and effective legal representation of court appointed clients pursuant to Chapter 27, Florida Statutes.

The Offices of Regional Counsel carries out its mission to provide legal representation of court appointed clients in four (4) specific areas:

A. CRIMINAL TRIAL COURT – The Office of Regional Counsel represents appointed clients arrested for or charged with a felony, violation of probation or community control, misdemeanor, criminal traffic offense, criminal contempt, violation of a municipal or county ordinance, and juveniles alleged to be delinquent when the Public Defender has declared a conflict of interest or is otherwise prohibited by law from representation. Additionally, The Office of Regional Counsel represents appointed clients seeking correction, reduction, or modification of a sentence under 3.800, Florida Rules of Criminal Procedure and appointed clients seeking post conviction relief under rule 3.850, Florida Rules of Criminal Procedure when the Public Defender has declared a conflict of interest or is otherwise prohibited by law from representation.

TRENDS AND CONDITIONS

OFFICES OF CRIMINAL CONFLICT AND CIVIL REGIONAL COUNSELS

B. CIVIL TRIAL COURT – The Office of Regional Counsel represents appointed clients pursuant to Chapter 39, Florida Statutes, where a petition seeks a dependency or termination of parental rights action. The Office of Regional Counsel also represents appointed clients pursuant to Chapter 63, Florida Statutes, where a petition seeks a termination of parental rights action.

C. CIVIL (PROBATE, GUARDIANSHIP and MENTAL HEALTH DIVISIONS) TRIAL COURT – The Regional Counsels provide representation to:

- Clients subject to the Tuberculosis Control Act pursuant to Chapter 392, Florida Statutes
- Clients subject to the developmental disabilities law pursuant to Chapter 393, Florida Statutes
- Clients subject to the Florida Mental Health Act (“Baker Act”) proceedings regarding involuntary civil commitment pursuant to Chapter 394, Florida Statutes, when the public defender has a conflict
- Clients subject to involuntary commitment under the Jimmy Ryce Act, pursuant to Chapter 394, Part 5, Florida Statutes
- Clients subject to a Hal S. Marchman Alcohol and Other Drug Services Act of 1993 (“Marchman Act”) pursuant to Chapter 397, Florida Statutes
- Clients subject to involuntary civil commitment and removal of civil rights pursuant to the Adjust Protective Services Act, Chapter 415, Florida Statutes
- Clients requiring removal of disabilities of nonage pursuant to Chapter 743, Florida Statutes
- Clients subject to involuntary civil commitment and removal of civil rights pursuant to the Florida Guardianship Law, Chapter 744, Florida Statutes
- Children and families in need of state services pursuant to Chapter 984, Florida Statutes

D. CRIMINAL AND CIVIL APPELLATE COURTS – The Office of Regional Counsel represents appointed clients on appeals. These appeals result from cases where the Office of Public Defender had a conflict, from cases handled by court-appointed counsel, or from cases handled by the Office of Regional Counsel at the trial court level.

The goal of the Office of Regional Counsel is to provide quality representation to all clients. Because “quality representation” cannot be defined or measured in wins and losses; therefore, the Office of Regional Counsel is proposing performance measures that are designed to determine the quality of the work in other ways.

The following goal has been established in an effort to carry out the Offices of Criminal Conflict and Civil Regional Counsels’ mission:

To ensure cases are processed in a timely and cost effective manner.

Explanation:

With the implementation of the Offices of Criminal Conflict and Civil Regional Counsel in FY 2007-08, and modifications made to s. 27.5304, F.S., in 2012 a reduction in the number of these cases occurred.

However, due to recent court decisions for life sentences for juveniles (Miller and Graham) and the death penalty sentencing phase (Hurst), the number of cases requesting amounts in excess of the flat fee are expected to increase due to the cases complexity.

Recommendations:
The Program is seeking a workload increase for FY 19-20 to address increases in the number of children in out of home care and resulting high caseloads and longer lengths of stay.

EXHIBIT III – ASSESSMENT OF PERFORMANCE MEASURES

Department:	Justice Administration		
Program:	Statewide Guardian ad Litem		
Service/Budget Entity:	Statewide Guardian ad Litem		
Measure:	Average percent of children represented		
Action:			
<input checked="checked" type="checkbox"/>	Performance Assessment of <u>Outcome</u> Measure	<input type="checkbox"/>	Revision of Measure
<input type="checkbox"/>	Performance Assessment of <u>Output</u> Measure	<input type="checkbox"/>	Deletion of Measure
<input type="checkbox"/>	Adjustment of GAA Performance Standards		

Approved Standard	Actual Performance Results	Difference (Over/Under)	Percentage Difference
80%	79%	(1%)	(1%)

Factors Accounting for the Difference:

<input type="checkbox"/> Competing Priorities	<input type="checkbox"/> Level of Training
<input type="checkbox"/> Previous Estimate Incorrect	
<input type="checkbox"/> Other (Identify)	

Explanation: Excessive turnover due to high caseloads and increasing numbers of dependent children prevented the Program from reaching the stated target, although the difference was only slightly over 1%.

External Factors (check all that apply):

<input type="checkbox"/> Resources Unavailable	<input type="checkbox"/> Technological Problems
<input type="checkbox"/> Legal/Legislative Change	<input type="checkbox"/> Natural Disaster
<input type="checkbox"/> Target Population Change	<input type="checkbox"/> Other (Identify)
<input type="checkbox"/> This Program/Service Cannot Fix The Problem	
<input type="checkbox"/> Current Laws Are Working Against The Agency Mission	

Explanation: When the numbers of children in out of home care increase, the system becomes strained and children take longer to reach permanency. This negatively affects the number of children that can be represented.

Explanation: The <i>Hurst</i> decision significantly increased the workloads on the same number of CCRC attorneys as before <i>Hurst</i> . This required more requests for extensions than in a normal year. These were routinely authorized and did not cause case scheduling problems for the courts. Please see LRPP issue narratives for more information on <i>Hurst</i> related CCRC impacts.

Explanation: The significant increase in appellate actions, 3.851 filings, grants of relief, and federal court actions for FY2017-2018 was directly due to the impact of the <i>Hurst</i> related decisions. As various cases moved through the state and federal courts, multiple pleadings had to be filed at each stage. Moreover, beginning in January of 2018, over a 10 day period, the Florida Supreme Court released 70 <i>Hurst</i> related decisions, which then triggered filing deadlines in the United States Supreme Court. As of July 1, 2018, the bulk of the <i>Hurst</i> related pleadings have been filed, and the number of <i>Hurst</i> related pleadings are expected to level out over Fiscal Year 2018-2019.

PERFORMANCE MEASURE VALIDITY AND RELIABILITY – LRPP EXHIBIT IV

**EXHIBIT IV – PERFORMANCE MEASURE VALIDITY AND
RELIABILITY**

Department: Justice Administration
Program: Justice Administrative Commission
Service/Budget Entity: Executive Direction/Support Services
Measure: Number of public records requests

Action (check one):

- Requesting revision to approved performance measure
- Change in data sources or measurement methodologies
- Requesting new measure
- Backup for performance measure

Data Sources and Methodology:

Requests for public records are received via phone request or email and each request is tracked in a database.

Validity:

All requests for public records are forwarded to the JAC Public Records Coordinator who is responsible for gathering the information and responding to the requestor.

Reliability:

The number of requests received are tracked and maintained in a public records database and may be queried.

**EXHIBIT IV – PERFORMANCE MEASURE VALIDITY AND
RELIABILITY**

Department: Justice Administration
Program: Justice Administrative Commission
Service/Budget Entity: Executive Direction/Support Services
Measure: Number of cases where registry lawyers request fees above the statutory caps

Action (check one):

- Requesting revision to approved performance measure
- Change in data sources or measurement methodologies
- Requesting new measure
- Backup for performance measure

Data Sources and Methodology:

Fee requests are tracked in the Justice Administrative Commission’s Court Appointed Attorney Tracking System (CAATS) and Hearings Database.

Validity:

Court appointed attorney and due process vendor invoices are processed in CAATS and motions for fees above the flat fee/statutory caps are maintained in the Hearings Database.

Reliability:

The number of transactions processed in CAATS and the number of motions requesting fees above flat fee/statutory caps are maintained in the Hearings Database and may be queried each year.

Measure: Number of budget, payroll, disbursement, revenue and financial reporting transactions reported

Action (check one):

- Requesting revision to approved performance measure
- Change in data sources or measurement methodologies
- Requesting new measure
- Backup for performance measure

Data Sources and Methodology:

Budget, disbursement, revenue and financial reporting transactions are recorded in FLAIR (Florida Accounting Information Resource) and payroll transactions are recorded in People First.

Validity:

Budget transactions (TR 20 allotments, TR 21 approved budget & TR 22 releases) are processed through FLAIR, disbursement transactions (TR 51 unencumbered disbursements, TR 70 encumbered disbursements) are processed through FLAIR, revenue transactions (TR 30 direct deposit receipts, TR 96 JT receipts) are processed through FLAIR, financial reporting transactions (TR 10 general accounting) are processed through FLAIR and payroll transactions are processed through People First.

Reliability:

The number of transactions processed in these systems may be queried each year.

EXHIBIT IV – PERFORMANCE MEASURE VALIDITY AND RELIABILITY

Department: _____ **Justice Administration** _____
Program: _____ **Statewide Guardian ad Litem** _____
Service/Budget Entity: _____ **Statewide Guardian ad Litem** _____
Measure: _____ **All Performance Measures** _____

Action (check one):

- Requesting revision to approved performance measures.
- Change in data sources or measurement methodologies.
- Requesting new measure.
- Backup for performance measure.

Data Sources and Methodology:

The data source for these measures are numbers tracked by each of the 20 Guardian ad Litem offices residing in the 20 judicial circuits. Each office records and reports, as of the last day of the month, data needed to assess Program performance and to determine whether standards are met. These data are recorded in the Program’s data system, Optima, and summarized in the Program’s monthly Representation Report and Scorecard. These reports are posted monthly on the Guardian ad Litem website: www.guardianadlitem.org

Validity:

The methodology for collecting and reporting the data supporting all performance measures is an accurate approach to data collection.

Reliability:

The methodology is sound and consistent. Although minor issues remain regarding data collection, the Program feels confident that the process is dependable and will result in consistent information from year to year.

Department: Justice Administration
Program: Criminal Conflict and Civil Regional Councils
Service/Budget Entity: Regional Conflict Councils, 1st – 5th Regions
Measure: Annual percentage of briefs filed within 30 days of receipt of record

Action (check one):

- Requesting revision to approved performance measure
- Change in data sources or measurement methodologies
- Requesting new measure
- Backup for performance measure

Data Sources and Methodology:

The Criminal Conflict and Civil Regional Councils record all appellate cases appointed to offices in a case tracking database. Regional Council Offices will flag the cases where the appellate briefs are filed within the 30 days of receipt of record, and annually will record the percentage of appellate briefs filed within 30 days of receipt of record.

Validity: This performance measure produces a valid measurement of the Regional Councils' appellate briefs filed within 30 days of receipt of record which produces an outcome of quality representation in a cost effective manner.

Reliability: The data produced is reliable in that the percentage of appellate briefs filed within 30 days of receipt of record is reported accurately in Regional Councils' case tracking program.

**EXHIBIT IV - PERFORMANCE MEASURE VALIDITY
AND RELIABILITY**

Department:	Justice Administration
Program:	Criminal Conflict and Civil Regional Councils
Service/Budget Entity:	Regional Conflict Councils, 1st – 5th Regions
Measure:	Annual percentage of misdemeanor cases closed within 120 days of appointment

Action (check one):

- Requesting revision to approved performance measure
- Change in data sources or measurement methodologies
- Requesting new measure
- Backup for performance measure

Data Sources and Methodology:

The Criminal Conflict and Civil Regional Councils record all misdemeanor cases appointed to the Regional Council Offices in a case tracking database. The number of misdemeanor cases closed within 120 days of appointment will be counted and the percentage will be recorded annually.

Validity: This performance measure produces a valid measurement of the Regional Councils' annual percentage of misdemeanor cases closed within 120 days of appointment which produces an outcome of quality representation in a cost effective manner.

Reliability: The data produced is reliable in that the percentage of misdemeanor cases closed within 120 days of appointment is reported accurately in Regional Councils' case tracking program.

**EXHIBIT IV - PERFORMANCE MEASURE VALIDITY

Action (check one):

- Requesting revision to approved performance measure
- Change in data sources or measurement methodologies
- Requesting new measure
- Backup for performance measure

Data Sources and Methodology:

The Criminal Conflict and Civil Regional Counsels record the number of dependency cases that include an accepted case plan in a case tracking program. In cases where there is either an adjudication or a withhold of adjudication, a case plan approved by the court will be flagged and the percentage of accepted case plans filed within the timeframe will be recorded annually.

Validity: This performance measure produces a valid measurement of the Regional Counsels' percentage of approved case plans within 90 days of appointment, which produces an outcome of quality representation in a cost effective manner.

Reliability: The data produced is reliable in that the percentage of accepted case plans filed within 90 days of acceptance of case is reported accurately Regional Counsels' case tracking program.

GLOSSARY OF TERMS AND ACRONYMS

Activity: A set of transactions within a budget entity that translates inputs into outputs using resources in response to a business requirement. Sequences of activities in logical combinations form services. Unit cost information is determined using the outputs of activities.

Actual Expenditures: Includes prior year actual disbursements, payables and encumbrances. The payables and encumbrances are certified forward at the end of the fiscal year. They may be disbursed between July 1 and December 31 of the subsequent fiscal year. Certified forward amounts are included in the year in which the funds are committed and not shown in the year the funds are disbursed.

Appropriation Category: The lowest level line item of funding in the General Appropriations Act which represents a major expenditure classification of the budget entity. Within budget entities, these categories may include: salaries and benefits, other personal services (OPS), expenses, operating capital outlay, data processing services, fixed capital outlay, etc. These categories are defined within this glossary under individual listings. For a complete listing of all appropriation categories, please refer to the ACTR section in the LAS/PBS User's Manual for instructions on ordering a report.

Baseline Data: Indicators of a state agency's current performance level, pursuant to guidelines established by the Executive Office of the Governor in consultation with legislative appropriations and appropriate substantive committees.

Budget Entity: A unit or function at the lowest level to which funds are specifically appropriated in the appropriations act. "Budget entity" and "service" have the same meaning.

D3-A: A legislative budget request (LBR) exhibit which presents a narrative explanation and justification for each issue for the requested years.

Demand: The number of output units which are eligible to benefit from a service or activity.

Estimated Expenditures: Includes the amount estimated to be expended during the current fiscal year. These amounts will be computer generated based on the current year appropriations adjusted for vetoes and special appropriations bills.

Fixed Capital Outlay: Real property (land, buildings including appurtenances, fixtures and fixed equipment, structures, etc.), including additions, replacements, major repairs, and renovations to real property which materially extend its useful life or materially improve or change its functional use, and including furniture and equipment necessary to furnish and operate a new or improved facility.

Indicator: A single quantitative or qualitative statement that reports information about the nature of a condition, entity or activity. This term is used commonly as a synonym for the word "measure."

Information Technology Resources: Includes data processing-related hardware, software, services, telecommunications, supplies, personnel, facility resources, maintenance, and training.

Input: See Performance Measure.

Judicial Branch: All officers, employees, and offices of the Supreme Court, district courts of appeal, circuit courts, county courts, and the Judicial Qualifications Commission.

LAS/PBS: Legislative Appropriation System/Planning and Budgeting Subsystem. The statewide appropriations and budgeting system owned and maintained by the Executive Office of the Governor.

Legislative Budget Commission: A standing joint committee of the Legislature. The Commission was created to: review and approve/disapprove agency requests to amend original approved budgets; review

GLOSSARY OF TERMS AND ACRONYMS

agency spending plans; issue instructions and reports concerning zero-based budgeting; and take other actions related to the fiscal matters of the state, as authorized in statute. It is composed of 14 members appointed by the President of the Senate and by the Speaker of the House of Representatives **Legislative Budget Commission (cont.)** to two-year terms, running from the organization of one Legislature to the organization of the next Legislature.

Legislative Budget Request: A request to the Legislature, filed pursuant to s. 216.023, Florida Statutes, or supplemental detailed requests filed with the Legislature, for the amounts of money an agency or branch of government believes will be needed to perform the functions that it is authorized, or which it is requesting authorization by law, to perform.

Long-Range Program Plan: A plan developed on an annual basis by each state agency that is policy-based, priority-driven, accountable, and developed through careful examination and justification of all programs and their associated costs. Each plan is developed by examining the needs of agency customers and clients and proposing programs and associated costs to address those needs based on state priorities as established by law, the agency mission, and legislative authorization. The plan provides the framework and context for preparing the legislative budget request and includes performance indicators for evaluating the impact of programs and agency performance.

Narrative: Justification for each service and activity is required at the program component detail level. Explanation, in many instances, will be required to provide a full understanding of how the dollar requirements were computed.

Nonrecurring: Expenditure or revenue which is not expected to be needed or available after the current fiscal year.

Outcome: See Performance Measure.

Output: See Performance Measure.

Outsourcing: Describes situations where the state retains responsibility for the service, but contracts outside of state government for its delivery. Outsourcing includes everything from contracting for minor administration tasks to contracting for major portions of activities or services which support the agency mission.

Pass Through: Funds the state distributes directly to other entities, e.g., local governments, without being managed by the agency distributing the funds. These funds flow through the agency's budget; however, the agency has no discretion regarding how the funds are spent, and the activities (outputs) associated with the expenditure of funds are not measured at the state level. ***NOTE: This definition of "pass through" applies ONLY for the purposes of long-range program planning.***

Performance Ledger: The official compilation of information about state agency performance-based programs and measures, including approved programs, approved outputs and outcomes, baseline data, approved standards for each performance measure and any approved adjustments thereto, as well as actual agency performance for each measure

Performance Measure: A quantitative or qualitative indicator used to assess state agency performance.

Input means the quantities of resources used to produce goods or services and the demand for those goods and services.

Outcome means an indicator of the actual impact or public benefit of a service.

Output means the actual service or product delivered by a state agency.

GLOSSARY OF TERMS AND ACRONYMS

Policy Area: A grouping of related activities to meet the needs of customers or clients which reflects major statewide priorities. Policy areas summarize data at a statewide level by using the first two digits of the ten-digit LAS/PBS program component code. Data collection will sum across state agencies when using this statewide code.

Primary Service Outcome Measure: The service outcome measure which is approved as the performance measure that best reflects and measures the intended outcome of a service. Generally, there is only one primary service outcome measure for each agency service.

Privatization: Occurs when the state relinquishes its responsibility or maintains some partnership type of role in the delivery of an activity or service.

Program: A set of activities undertaken in accordance with a plan of action organized to realize identifiable goals based on legislative authorization (a program can consist of single or multiple services). For purposes of budget development, programs are identified in the General Appropriations Act for FY 2001-2002 by a title that begins with the word "Program." In some instances a program consists of several services, and in other cases the program has no services delineated within it; the service is the program in these cases. The LAS/PBS code is used for purposes of both program identification and service identification. "Service" is a "budget entity" for purposes of the LRPP.

Program Purpose Statement: A brief description of approved program responsibility and policy goals. The purpose statement relates directly to the agency mission and reflects essential services of the program needed to accomplish the agency's mission.

Program Component: An aggregation of generally related objectives which, because of their special character, related workload and interrelated output, can logically be considered an entity for purposes of organization, management, accounting, reporting, and budgeting.

Reliability: The extent to which the measuring procedure yields the same results on repeated trials and data are complete and sufficiently error free for the intended use.

Service: See Budget Entity.

Standard: The level of performance of an outcome or output.

Validity: The appropriateness of the measuring instrument in relation to the purpose for which it is being used.

Unit Cost: The average total cost of producing a single unit of output - goods and services for a specific agency activity.
