Executive Summary

In January 2014, the Board of Governors adopted the Performance-Based Funding Model. Proviso language in the General Appropriations Act directed the Board of Governors to allocate performance funds based on certain metrics. In 2015, Section 1001.92, F.S. related to State University System Performance-Based Incentives was created in the implementing bill and created again in 2016 in House Bill 7029 (Ch. 2016-237, L.O.F.). In September 2016, the Board created Regulation 5.001 Performance-Based Funding. Since the implementation of the model, funding has significantly increased.

Fiscal Year	State Investment	Institutional Investment	Total
2014-15	\$100,000,000	\$100,000,000	\$200,000,000
2015-16	\$150,000,000	\$250,000,000	\$400,000,000
2016-17	\$225,000,000	\$275,000,000	\$500,000,000
2017-18	\$245,000,000	\$275,000,000	\$520,000,000
2018-19	\$265,000,000	\$295,000,000	\$560,000,000
2019-20	\$265,000,000	\$295,000,000	\$560,000,000

Year 6 of the Performance-Based Funding Model shows significant improvements in metric scores as well as overall scores of the institutions. In the six years since the Performance-Based Funding Model was implemented, metrics 1 through 6, 8a, and 9 have shown significant improvements while the University Access Rate Metric remains consistent with Florida's population. Specifically, Metrics 4 and 9 have shown great improvements:

The lowest institutional score for Year 6 is 67 and the highest score for Year 6 is 95. The average score is 84 points, which is an increase of 14 points in the last 4 years. Showing the most significant gains from the previous year, UCF's score increased by 11 points; UNF's score increased by 10 points; UWF's score increased by 8 points; and FGCU and USF's scores increased by 6 points. Six out of the eleven universities scored 10 points in at least half of the metrics (UF: 8 metrics, UWF: 7 metrics, USF: 6 metrics, and FSU, FAU, FGCU: 5 metrics).

While nearly every institution is showing strong improvements in graduation rates, FSU ranks the highest with a 71.5% four-year graduation rate. The overall SUS four-year graduation rate is now 52.6%, reaching the strategic plan goal of 50%. Due to statutory changes to the Bright Futures Scholarship, every university scored 10 points in metric 3, significantly reducing the net tuition and fees per 120 credit hours. More university students in Florida are earning Bachelor's Degrees without excess hours; 7 institutions scored 10 points in this metric (up from 5 institutions in the previous year). The continuous improvements made in metrics 3 and 9 show meaningful reductions in the costs to the university students. The Performance-Based Funding Model has proven to be an effective way to significantly improve goals identified in the Board's 2025 Strategic Plan.

Performance Funding Model

Allocation Methodology Changes for 2019:

- ❖ Eliminate the bottom 3 requirement
- ❖ Must have at least 51 points to receive institutional investment.
- ❖ Top 3 (including ties) receive 100% of their allocation of state investment.
- ❖ Universities that increase their score over the last year receive 100% of their allocation of the state investment. The 2018 scores will be the baseline.
- ❖ If a university's score decreases or stays the same for 2 consecutive years, the university may receive up to 100% of their allocation of the state investment after presenting/completing a student success plan:
 - The university must present a student success plan to the Board, if the plan is accepted by the Board, the university may receive up to 50% of their allocation in August/September
 - If goals met, the university may receive up to the balance of their allocation of the state investment 6 months after the student success plan is presented (March)
- ❖ Starting with the 2021-22 appropriation, schools below 70 could receive up to 50% of the state investment after presenting/completing a student success plan:
 - The university must present a student success plan to the Board, if the plan is accepted by the Board, the university may receive up to half of their allocation in August/September
 - If goals are met, the university may receive up to the balance of their allocation of the state investment 6 months after the student success plan is presented (March)
- ❖ Any state investment not allocated shall be distributed to the top three scoring universities (including ties) based on the total number of points of the top three scoring universities.

Notes:

¹ If a university's score decreases or stays the same for 2 consecutive years, the university may receive up to 100% of their allocation of the state investment only after presenting/completing a student success plan

² Each university contributed a portion of their institutional budget, for a total of \$295 million, to be allocated based on performance. Universities that scored 51 points or higher receive their full institutional funding restored.
