FLORIDA'S NATIONAL AND INTERNATIONAL LEADERSHIP ROLE

Florida plays an active role with the National Association of Insurance Commissioners (NAIC) and the International Association of Insurance Supervisors (IAIS). The NAIC is the U.S. standard-setting and regulatory support organization created and governed by the chief insurance regulators from the 50 states, the District of Columbia and five U.S. territories.

Through the NAIC, state insurance regulators establish standards and best practices, conduct peer review, and coordinate their regulatory oversight. NAIC staff supports these efforts and represents the collective views of state regulators domestically and internationally. NAIC members, together with the central resources of the NAIC, form the national system of state-based insurance regulation in the U.S.

The IAIS is the principal international organization of insurance supervisors, engaged in creating international standards and guidelines on insurance supervision, and encouraging members to implement the standards. The International Association of Insurance Supervisors (IAIS) represents insurance regulators and supervisors of more than 200 jurisdictions constituting 97% of the world's insurance premiums.

In 2019, Florida's Insurance Commissioner, David Altmaier, served as the Vice President of the National Association of Insurance Commissioners (NAIC), President-Elect for 2020, and served as President of the NAIC in 2021.

Florida continues to lead an efforts to execute a consistent application of best practices for the financial and regulatory oversight of insurers operating in the U.S., while also helping facilitate the NAIC's strategic priorities.

OIR-21-01M: Guidance for Behavioral Health Care Services Coverage and Access

OIR issued this Informational Memorandum to all health insurers and health maintenance organizations authorized to do business in Florida to notify health entities of the passage of House Bill 701, which was signed into law on June 21, 2021 by Governor Ron DeSantis, and provide guidance regarding new disclosure requirements. Access to necessary behavioral health care services is an important part of health care and the legislation enhances awareness regarding the rights and resources Floridians have to behavioral health care services.

Insurers are advised that Chief Financial Officer (CFO) Jimmy Patronis announced a new Mental Health Care Service webpage on the DFS website, which aims to provide resources and assistance to mental health services for consumers. All health entities are encouraged to review their practices and procedures regarding access to behavioral health care services to ensure they are compliant with state and federal requirements.

HURRICANE SEASON 2021

The 2021 Hurricane Season brought three named storms into north Florida. Early in the season brought Tropical Storm Elsa, which was the most noteworthy storm of the season for the Florida coast. Elsa passed near the western Florida Keys and the Dry Tortugas early on July 6th and then moved offshore and parallel to southwestern and west-central Florida through early July 7th. Since Elsa was a relatively compact storm, the strongest winds remained offshore and wind damage was mostly minor across the Florida Keys and central and southern Florida. However, there were some reports of downed trees and flooded streets in Key West, southwestern Florida, and the Tampa Bay area. Numerous tree damage was also reported near the landfall location in Taylor County. In preparation for Tropical Storm Elsa, and in response to Governor Ron DeSantis' Declaration of Emergency, OIR issued a notice to all health insurers, managed care organizations, and other health entities indicating that such entities must comply with the provisions of [Section 252.358, Florida Statutes](#), which allows for early prescription refills in the event that the Governor issues an Executive Order declaring a State of Emergency or when a county Emergency Operations Center (EOC) is activated.

Tropical Storm Elsa was followed by Tropical Storm Fred, which made landfall on August 16th on the St. Joseph Peninsula, just northwest of Cape San Blas, in the Florida Panhandle, and Tropical Storm Mindy which made landfall on September 9th near St. Vincent Island.

INSURANCE MARKET TRENDS

In this section, market trends and conditions are assessed against a variety of criteria, which may include market concentration, coverage availability, residual markets, premium volume, premium rates, and company financial condition.

LIFE AND HEALTH INSURANCE

Health Insurance

In plan year 2020, ten health insurance companies offered individual market products on and off the federal Patient Protection and Affordable Care Act (PPACA) Exchange in Florida. This is an increase of one over 2019. In addition, several insurers have continued to expand their offerings to include additional counties resulting in more consumer choice and increased competition.

The individual health insurance market in Florida consisted of approximately 800,000 consumers when PPACA originated in 2010. It has since grown to nearly two million consumers in 2020 – an increase of nearly 200,000 consumers compared to 2019. Another 1.8 million Floridians had coverage through the group health insurance market.

While there was some fluctuation in individual rates, average rates for Plan Year 2020 were stable as the average change compared to 2019 was 0 percent.

Total premiums for the major medical market exceeded \$23.5 billion in 2020 with approximately \$12.5 billion in the individual market and \$11.0 billion in the group market.

Medicare Supplement Insurance

Medicare supplement insurance is coverage for services that original Medicare does not cover, such as copayments, coinsurance, and deductibles. Consumers have many options as 44 Medicare supplement carriers wrote new business during 2020. Market share has remained concentrated with the top four carriers accounting for approximately 87 percent of 2020 enrollment. Medicare supplement plans are facing increased competition from Medicare Advantage products which often offer a lower premium. In 2020, there were a total of 930,647 enrollees in Medicare supplement plans down 1.1 percent from 2019. Direct premiums earned were \$2.3 billion.

Life Insurance

In 2020, the number of in-force life insurance policies in Florida increased by 60,053 to 8,109,604. The overall total premium earned for Florida's life insurance market was \$10.7 billion down 1.2 percent from 2019. \$8.1 billion was paid in death benefits which was a 10.3 percent increase from the prior year. The life insurance market in Florida remains competitive with 259 companies issuing policies in 2020 and the top five companies accounting for under 24 percent of the Florida market.

Annuities

Annuity considerations (premium) leveled off after strong increases in recent years. Considerations were down 3.2 percent in 2020 after a 15.4 increase in 2019 and a 14.5 percent increase in 2018. Total annuity considerations for 2020 were \$21.9 billion while the total benefits provided were \$6.7 billion.

Long-Term Care Insurance

Nationally, long-term care insurance premiums have been rising. OIR continues to address this issue by approving rates for insurers that are phased-in incrementally to reduce the impact of rate increases with subsequent periods of time where policyholders are guaranteed no further increases. The length of the implementation period and the subsequent rate guarantee period is often dependent on the size of the increase and the age of the product. In addition, OIR has required companies to offer policyholders a range of benefit options aimed toward mitigating the impact of the rate increase.

Long-term care direct premiums continue to grow, largely due to pricing as opposed to market growth. New business direct premiums for 2020 were \$7.5 million and represent a little over one percent of total premium. The number of covered lives continued its slow decline as covered lives have decreased by 2.4 percent compared to 2019. Losses continued to exceed premiums by a wide margin indicating the challenges that currently exist on a national scale will likely continue. In 2020, total direct premiums earned were \$713 million with direct losses of \$986 million.

PROPERTY AND CASUALTY INSURANCE

Homeowners' Insurance

Florida's homeowners' insurance market continued to grow in 2021, with 7.1 million policies in force. 72 percent or 5.14 million of the policies in force covered by the Florida domestic market. The number of policies written by Citizens Property Insurance Corporation; the state's homeowners' insurer of last resort rose to 11 percent of the total market share. The remaining 17 percent of policies in force was written by foreign insurers. During 2021 many insurers experienced increased reinsurance costs. Based on reinsurance cost data collected from the Annual Reinsurance Data Call, on average, insurers bought 16.6 percent more reinsurance coverage with an increased cost of approximately 52 percent from 2020.

The Florida insurance market is facing significant challenges due to the frequency and severity of claims. These challenges are largely due to increased litigation, exacerbated by higher catastrophe claim losses as a result of multiple hurricanes over the past several years, and rising reinsurance costs as a result of a hardening reinsurance market. To address these challenges, Governor DeSantis signed SB 76 with an effective date of July 1, 2021 and SB 2D with an effective date of May 26, 2022.

Private Passenger Auto Insurance

Florida's private passenger auto market continued to grow and remain competitive in 2020, with almost 18 million licensed drivers and almost \$21 billion in direct written premium in 2020. The top five insurer groups comprise 75 percent of the direct written premium in 2020.

4	Allstate	\$1,819,933,766	8.8%
5	USAA	\$1,496,473,009	7.2%

Flood Insurance

As conversations surrounding the federally-administered National Flood Insurance Program (NFIP) continue, OIR continued to prioritize the development of Florida's private flood insurance market. Alongside the NFIP, a thriving private insurance market provides wider, and in many cases, less expensive options to protect more US consumers, expand the awareness of the need for flood insurance, and spread the risk beyond the NFIP.

Florida is home to one of the largest, fastest growing private flood insurance markets in the U.S., with 33 eligible primary flood writers and more than 103,924 personal residential primary flood insurance policies in force as of December 31, 2021

Workers' Compensation Insurance

In 2020, 265 privately-owned insurers actively wrote workers' compensation insurance in Florida. In total, private sector insurers wrote \$2.83 billion in premium. Moreover, during 2020, 17 insurers entered the Florida workers' compensation market, either as new companies or by adding the workers' compensation line of business to their certificate of authority. During 2020, 11 insurers exited the Florida market. These new entrants and voluntary withdrawals had no disruptive impact on the marketplace, as should be the case in a competitive market.

The 2021 annual National Council of Compensation Insurance rate filing, submitted in late August, proposed a statewide average rate decrease of 4.9 percent. A public rate hearing was held on October 14, 2021, and the OIR approved a statewide overall rate level decrease of 4.9 percent, which took effect on January 1, 2022. Florida's rates are 71 percent below what the rates were prior to the 2003 reforms.

Medical Malpractice Insurance

Florida is and has historically ranked as the fourth largest U.S. state in terms of total medical malpractice premium, with roughly \$699 million in direct written premium for 2020.

Overall, Florida has a competitive medical malpractice insurance market. In 2020, Florida welcomed 14 new writers into the market. This helps promote a competitive marketplace, bolstering efforts to make sure reliable insurance products are available to Florida's medical professionals and entities at affordable prices.

EXAMINATIONS AND INVESTIGATIONS

OIR conducted a total of 807 market conduct preliminary investigations, investigations, and examinations during calendar year 2020. Potential violations that were investigated or examined related to: premium billing, policy rating, and underwriting errors; delays related to the timely payment of claims; failure to follow prescribed cancellation and nonrenewal practices; and the statutorily required examination of premium finance companies.

The OIR Market Regulation team looks for early indicators of market issues that may eventually affect solvency or harm consumers. State insurance regulators have many different tools at their disposal to deal with potential violations of state insurance statutes and regulations such as a preliminary investigation, an investigation, and either target or comprehensive market conduct examinations.

- Preliminary investigations consist of an informal communication with an insurer regarding a concern received by a policyholder or other stakeholder. Preliminary investigations are used to quickly review and resolve referrals that may not lend themselves to an in-depth investigation. Preliminary investigations are concluded within a few days of assignment. Depending on the outcome of the preliminary investigation, the matter can be closed, monitored over time to ensure compliance, or result in an investigation or examination of the insurer.
- Investigations are a formal communication with an insurer regarding a concern received by a policyholder, other stakeholder, or to monitor the resolution of self-reported insurer issues. Investigations are usually related to issues that can affect a large number of policyholders instead of an isolated issue pertaining to a single policyholder. Investigations rely on written communication between market regulation and the insurer to document, identify, and resolve alleged violations of the Florida Insurance Code. Depending on the outcome of the investigation, additional regulatory action may be taken by OIR.
- Examinations (target or comprehensive) are a formal, in-depth, technical review and sampling of an insurer's books and records to determine if the insurer's business practices are in compliance with the Florida Insurance Code. A target market conduct examination focuses on a specific line of business or a specific business practice. Target market conduct examinations are specific to the area of concern. A comprehensive market conduct examination will include a detailed review and sampling in all of the following areas: company operations and management; complaint handling; marketing and sales; producer licensing; policyholder service; underwriting and rating; and claims. Depending on the outcome of the examination, additional regulatory action may be taken by OIR.
