Executive Summary

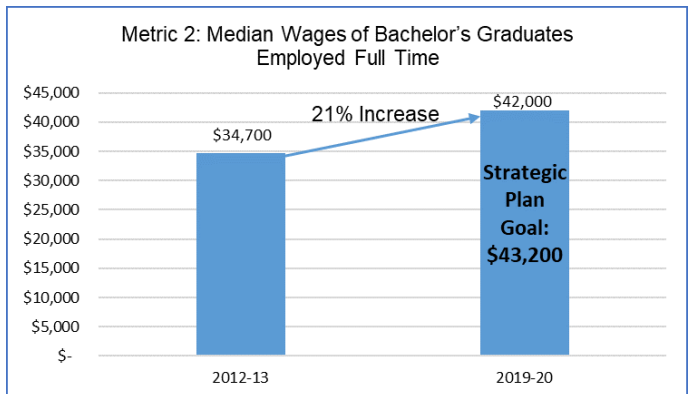

In January 2014, the Board of Governors adopted the Performance-Based Funding Model. Proviso language in the General Appropriations Act directed the Board of Governors to allocate performance funds based on certain metrics. In 2015, section 1001.92, F.S. related to State University System Performance-Based Incentives was created in the implementing bill and created again in 2016 in House Bill 7029 (Ch. 2016-237, L.O.F.). In September 2016, the Board created Regulation 5.001 Performance-Based Funding. Since the implementation of the model, funding significantly increased in the first four years and has remained level over the last five years.

Fiscal Year	State Investment	Institutional Investment	Total
2014-15	\$100,000,000	\$100,000,000	\$200,000,000
2015-16	\$150,000,000	\$250,000,000	\$400,000,000
2016-17	\$225,000,000	\$275,000,000	\$500,000,000
2017-18	\$245,000,000	\$275,000,000	\$520,000,000
2018-19	\$265,000,000	\$295,000,000	\$560,000,000
2019-20	\$265,000,000	\$295,000,000	\$560,000,000
2020-21	\$265,000,000	\$295,000,000	\$560,000,000
2021-22	\$265,000,000	\$295,000,000	\$560,000,000
2022-23	\$265,000,000	\$295,000,000	\$560,000,000

In the nine years since the Performance-Based Funding Model was implemented, Metrics 1 through 6, and 8a have shown significant improvements while the University Access Rate Metric remains consistent with Florida’s population. Metrics 5 and 4, related to retention and graduation rates are showing improvement and nearing their strategic plan goals.

Metrics 6 and 2, related to degrees and employment after graduation are also showing great improvement. The statewide average for Metric 6 has surpassed the strategic plan goal.

There are two metric changes to this year’s Performance-Based Funding (PBF) Model approved by the Board in November 2021. First, Metric 1, Percent of Bachelors Graduates Employed

There are two metric changes to this year's Performance-Based Funding (PBF) Model approved by the Board in November 2021. First, Metric 1, Percent of Bachelors Graduates Employed or Enrolled 1 Year after Graduation, changed the wage threshold from \$25,000 to \$30,000 and changed the 10-point benchmark goal from 72.8% to 80% to align with the Strategic Plan. Second, Metric 4, Four-Year Graduation Rate, changed the 10-point benchmark goal from 50% to 65% to align with the Strategic Plan. The tables below shows how Metric 1 and 4 scores were impacted by the changes. PBF scores will need to be normalized for one year in order to not unfairly penalize universities.¹

After scores are normalized, there are three universities that will be required to present and complete a student success plan in order to receive the state portion of their allocations. FGCU's score has dropped two consecutive years. NCF and FL Poly have scored below 70 points. The three institutions will be required to present a student success plan to the Board for consideration at the

¹ See page 17 for full details on normalizing scores.

September 2022 meeting. The plan should specify activities and strategies for improving the institution’s performance metrics. If the plans are approved, FGCU shall receive up to 50% of its state’s investment at the time of approval; NCF and FL Poly shall receive up to 25% of its state’s investment at the time of approval. The Board will monitor each institutions’ progress on implementing the activities and strategies specified in the plans. Monitoring reports for each institution will be considered by the Board at the March 2023 meeting. If it is determined that the institution is making satisfactory progress on implementing the plan, FGCU shall receive up to the balance of its state’s investment; NCF and FL Poly shall receive up to the balance of 50% of their state’s investment. Any institution that fails to make satisfactory progress shall not have its eligible amount of state’s investment restored.

Univ.	Eligible Allocation
FGCU	\$11,427,087
FL Poly	\$2,132,910
NCF	\$1,814,987

Any state investment funds remaining shall be distributed to the top three scoring institutions (FIU, UF and USF) based on the total number of points of the top three scoring eligible institutions.

Did COVID-19 Impact the Data?

In looking at two of the metrics, there is no clear evidence that the COVID-19 pandemic impacted the data. For Metric 1, Bachelors Graduates Employed or Enrolled 1 Year after Graduation, the numerator and denominator were both higher than the preceding year, thus indicating that SUS students were able to find a job or continue their education in 2020. Metric 5, Academic Progress Rate (2nd Year Retention), data is down slightly from the previous year, but still higher than 2 years ago. Non-Florida students’ retention was flat, showing no evidence that non-Florida students were not able to return to school in Florida.

- ✓ The Performance-Based Funding Model continues to be an effective way to significantly improve goals identified in the Board’s 2025 Strategic Plan.

Performance-Based Funding Model: Allocation Methodology

- ❖ Top 3 (including ties) receive 100% of their allocation of state investment.
- ❖ Universities with a score the same or higher as the previous year receive 100% of their allocation of the state investment.
- ❖ If a university's score decreases for 2 consecutive years, the university may receive up to 100% of their allocation of the state investment after presenting/completing a student success plan:
 - The university must present a student success plan to the Board, if the plan is accepted by the Board, the university may receive up to 50% of their allocation in September
 - If goals are met, the university may receive up to the balance of their allocation of the state investment 6 months after the student success plan is presented (March)
- ❖ Universities scoring below 70 points could receive up to 50% of the state investment after presenting/completing a student success plan:
 - The university must present a student success plan to the Board, if the plan is accepted by the Board, the university may receive up to half of their allocation in September
 - If goals are met, the university may receive up to the balance of half of their allocation of the state investment 6 months after the student success plan is presented (March)
 - Any institution that fails to make satisfactory progress shall not have its 50 percent of the state's investment restored, and any state investment funds remaining shall be distributed to the top three scoring institutions (including ties) based on the total number of points of the top three scoring eligible institutions.
- ❖ The remaining 50 percent of each institution's state's investment shall be distributed to the top three scoring institutions (including ties) based on the total number of points of the top three scoring eligible institutions.

*Actual Score / Normalized Score

Drop (2 years): FGCU

If a university's score decreases for 2 consecutive years, the university may receive up to 100% of their allocation of the state investment after presenting/ completing a student success plan.

Score below 70: FL Poly, NCF

If a university's score is lower than 70 points, the university may receive up to 50% of their allocation of the state investment after presenting/ completing a student success plan.

Watch List: FAMU, FAU, UWF

If any of these universities scores decrease again next year, the university may receive up to 100% of their allocation of the state investment after presenting/ completing a student success plan.

Universities on the watch list have a drop in score for 1 year.

Top 3: FIU, UF, USF

The remaining funds of each institutions' state's investment shall be distributed to the top three scoring institutions based on the total number of points of the top three scoring eligible institutions.
