Executive Summary

The 2023 State Facilities Inventory (SFI) and Disposition of State Lands annual reports provide summary-level information of state-owned facilities and lands, as required in sections 216.0152 and 216.0153, Florida Statutes (F.S.).

Section 216.0152(1), F.S., requires the Department of Management Services (DMS) develop and maintain an automated inventory of all facilities owned, leased, rented, or otherwise occupied or maintained by a state agency, the judicial branch, or water management districts (WMDs).

Section 216.0153(3), F.S., requires the Department of Environmental Protection (DEP) Division of State Lands to annually submit a report listing state owned property recommended for disposition, including a report of recommended surplus buildings from DMS. This report shall include specific information that documents the valuation and analysis process used to identify the specific state-owned real property recommended for disposition. The report shall be submitted to the Governor, the President of the Senate, and the Speaker of the House of Representatives.

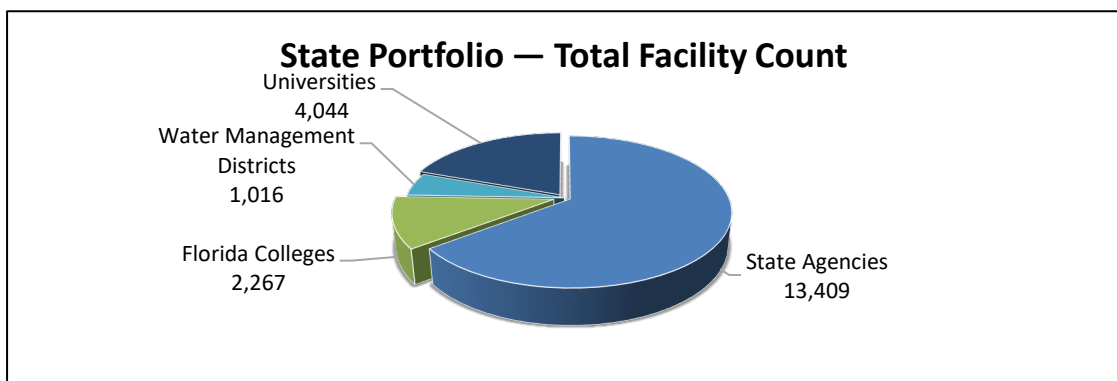

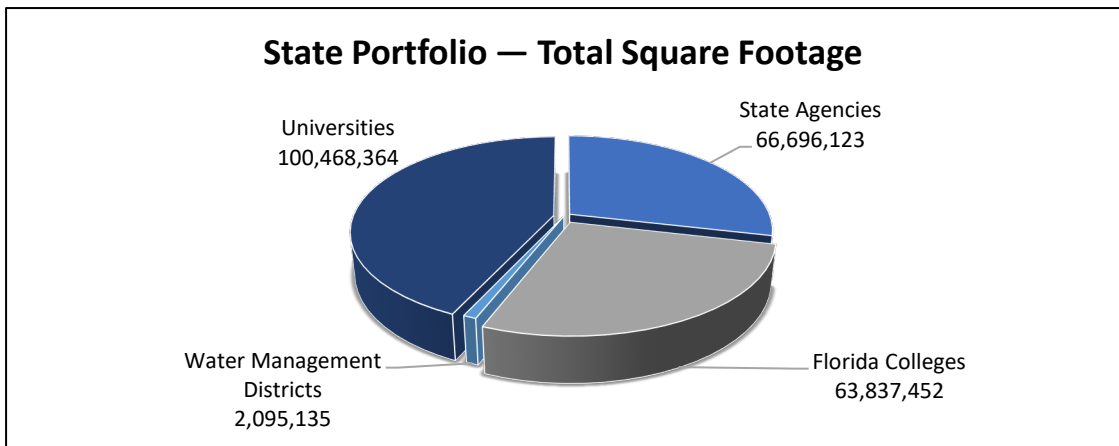

Summary of Owned Inventory

Section 216.0152, F.S., defines a facility as buildings, structures, and building systems, but does not include transportation facilities of the state transportation system.

As of June 30, 2023, agencies reported the following in the Florida State Owned Lands and Records Information System (FL-SOLARIS):

- The State of Florida owns 20,736 structures totaling 233,865,789 square feet. This portfolio includes facilities owned by state agencies, WMDs, the Florida College System, the State University System of Florida, and the Board of Governors (BOG).
- In 2023, the state owned 124 (0.6%) more facilities and 1,684,408 (0.73%) more square feet than in 2022. State agencies own 13,409 facilities throughout Florida’s 67 counties, totaling 67,464,838 square feet.
 - Alachua County has the most facilities (1,716) and Miami-Dade County has the most square footage (30,513,436). Glades County has the fewest facilities (58), and Indian River County has the least square footage (238,204).
 - Agencies reported eight candidates for disposition, totaling more than 29,408 square feet.
 - Agency-owned facilities are, on average, 35 years old (as reported by agencies), and there are approximately \$840 million in reported capital improvement projects. Agencies reported \$264.5 million in operating expenses and \$119.1 million in utility expenses for this reporting cycle.

State-Owned Portfolio

State-Owned Facilities Deficiency Summary

Building deficiencies refer to any known building repair or improvement. The table below identifies the number of agency-reported deficiencies by category and includes an estimated cost. For a full list of agency-reported facility deficiencies, see Appendix 1.

Deficiency Category	Number of Deficiencies by Category	Sum of Estimated Cost (\$)
Code and Licensure	121	\$17,880,970.56
Electrical	369	\$67,326,410.88
Envelope	420	\$187,442,368.28
General	644	\$44,497,293.70
HVAC	442	\$92,956,296.37
Interior	736	\$115,627,046.64
Plumbing	262	\$42,636,284.12
Roofing	530	\$67,524,008.13
Site	272	\$25,112,967.95
Special	239	\$109,011,249.89
Structure	315	\$70,293,611.86
Total	4,350	\$840,308,478.38

State-Owned Facilities Suitable for Emergency Shelters

As identified in section 252.385, F.S., it is the intent of the Legislature that Florida has safe public hurricane evacuation shelter space throughout the state. DMS is required to compile a list of state-owned facilities, listed by county and municipality, that have unoccupied space suitable to use as emergency shelters during a storm or catastrophic event. Suitable facilities must have at least 2,000 square feet of net floor area in a single room or in a combination of rooms. Each of the rooms must be at least 400 square feet. The list is updated annually by May 31.

See Appendix 2 for the list of identified vacant space suitable to use as emergency shelters.

State-Owned Facilities Disposition

The table below identifies the number of agency-reported candidates for disposition by space type and includes associated gross square footage. For a full list of agency-reported facilities recommended for disposition, see Appendix 3.

Predominant Space Type	Facility County by Space Type	Gross Square Footage
Recreational	1	12,415
NOC	2	8,049
Office	2	4,870
Workshop	1	3,240
Unenclosed structure	2	834
Total	8	29,408

The table below identifies the number of agency-reported facilities disposed of by surplus process by space type and includes associated gross square footage. For a full list of agency-reported facilities Disposed of by Surplus Process, see Appendix 4.

Predominant Space Type	Facility County by Space Type	Gross Square Footage
Educational	4	139,499
Recreational	1	309
Unenclosed Structure	1	848
Utility	1	24
Total	7	140,680

Next Steps

The SFI continues to improve as agencies report data. SFI and the enhanced features of FL-SOLARIS provide a more accurate picture of the needs of state-owned facilities, supporting the strategic use of appropriated funding. Additionally, the ongoing collaboration between DMS and DEP provides for improved, comprehensive analysis of reported data that facilitates fact-based, data-driven decision-making on the state's valuable real property assets.
