Introduction

The following objectives set the parameters for this study.

Primary Objectives

- Objective 1: To determine the overall impact of tourism in Indian River County during three seasons (Winter, Spring and Summer).
- Objective 2: To assess current county tourism characteristics during three seasons and provide recommendations for the future based on demographic and travel-related trends.
- Objective 3: To assess tourists' satisfaction levels with Indian River County at different times throughout the year.

Secondary Objective

- Objective 1: To assess different market segments based on trip purpose and provide recommendations for the future based on these findings and travel trends.

Methods for Collecting Data

The respondents included tourists who visited one of thirteen sites in Indian River County. Surveying began on January 15, 2001 and continued until October 1, 2001. During the research phase, each of the sites were visited at least twice. Contact with visitors was made by independent interviewers hired by PMR, Inc., Gainesville, FL.

Interviewers worked in either teams of two or as an individual. They were instructed to approach every fifth person, alternating males and females. A quota was established for each site and season. Quotas ranged from 15 to 50 completed surveys. Business and leisure visitors who traveled from outside the county were included in the sample. The intercept interview was an eight page questionnaire that was administered through a personal interview.

A map of the county was provided ensuring accuracy of respondents answers regarding spending in the area.

Six-hundred surveys were completed.

Conclusions

There are a few main conclusions that have come out of this study. They will be presented in the following areas:

- Primary market segment(s)
- Economic impact

Primary Market Segments

Primary Purpose of Trip

1. Visiting Friends and Relatives (VFR) are the first largest market segment, they spend the most (\$539.05/trip) and participate in the most amount of activities in the county (average 4.3 activities); Half of the VFR segment stay in private residences, while half stay in commercial accommodations. VFRs are most likely to be first time visitors and are highly satisfied with tourism opportunities in the county
2. Outdoor recreationists are the second largest market segment, but spend the third greatest amount of money (\$277.10) and they participate in an average of 3.6 activities each trip. They tend to stay in commercial accommodations. Typically, they are younger, employed full time and usually Florida residents.
3. Festival and event visitors are the third largest segment, they spend \$276.73 per trip and come to Indian River County an average of 19 times each year. Typically, they are in-state residents, spend moderate amounts of money and stay in commercial accommodations one third of the time. They also stay in condos or apartments more frequently than other segments.
4. Beach visitors are the fourth largest segment but they spend the second largest amount of money, they tend to stay in resorts for approximately one week, are middle income families from both Florida and out-of-state and participate in the second greatest number of activities while in the community.
5. The shopping visitor is typically a Florida resident, who is loyal to the area (most frequent number of previous visits) stays in commercial accommodations, spends the least amount of money, participates in the fewest number of activities and has the lowest satisfaction scores.

Day trippers vs. Overnighters

1. Day trippers spend 1/5th the amount that overnight visitors do.
2. Day trippers come an average of 21 times a year and spend \$108 each time for a total of \$2,268.
3. Day trippers participate in half the activities in the county as that of overnight visitors.
4. Day trippers tend to be Florida residents and coming to the county to attend a festival or event or shopping.
5. Although day trippers do not contribute to the "bed tax" - they are still a substantial segment to tourism in IRC.

Repeat Visitors vs. First timers

1. Repeat visitors stay longer but spend less. They tend to be Florida residents, stay in commercial accommodations, stay short number of nights, and spend almost half as much as first timers. However, this segment also comes to the county approximately 13 times each year. Therefore, this is a substantial segment. Over a year they spend on average \$4,958.
2. First time visitors spend more money on a single trip although they stay a shorter amount of time and only visit once a year.

Florida Residents vs. Out-of-State residents

1. Florida residents are the larger of the two markets, they tend to visit on average 19 times a year for attending festivals/events, shopping and outdoor recreation. They spend about 1/6th as much as out-of-state residents on each trip (\$191.67), but due to the frequency of travel to the county, their overall spending is much greater at \$3,641.67. Florida residents who visit Indian River County tend to be retired with high incomes.
2. Out-of-state residents are a slightly smaller market, yet they spend more money per trip than Florida residents (\$632.91). Although it is only once a year, it is still a substantial amount. This market tends to participate in more activities per trip and be more satisfied overall with their vacation.

Likely to Return vs. Unsure or Not Likely to Return Visitor

1. Those who are highly likely to return are more likely to be Florida residents, participate in an average of 3.5 activities per trip, stay in a variety of commercial accommodations, visit purpose is to shop, participate in outdoor recreation and visit a festival or event. This market is somewhat older, with moderate income levels, and employed full time. This market visits the county an average of 13 times a year. They are extremely loyal visitors.
2. Those who indicated that they were unsure or not likely to return tended to be out-of-state visitors, typically employed full time or retired, with high income levels. They tend to spend similarly to those likely to return, but only come an average of three times a year. This market is slightly more satisfied with aspects of the county and tend to have come to the county to visit friends and relatives or go to the beach.

Economic Impact

Observation: Local impact is enhanced by tourist's participation in more than just one primary attraction or event. Claims of high local impact are enhanced by evidence that tourists also attend attractions and events, stay in local hotels, and eat in local restaurants. The more events or attractions that the tourist participates in during their visit, the more economic impact they tend to have on the community.

1. Based on reported actual expenditures at the time the visitors were interviewed, and extrapolating to an estimated 554,000 visitors a year, it is estimated that about \$120 million of added value occurred to Indian River County, attributable to tourists. This accounts for an estimated 3,513 jobs.
2. Based on reported estimated expenditures that the visitors expected to spend on their trip, and extrapolating to an estimated 554,000 visitors a year, it is estimated that about \$154.4 million of added value occurred to Indian River county, attributable to tourists. This accounts for an estimated 4,540 jobs.

Recommendations

Observation: Indian River County has a large number of repeat visitors (~80%). This is a positive indicator since only those satisfied with a destination tend to return to it. It is usually much easier to get a visitor to come back, than it is to attract new visitor. Indian River County seems to have accomplished this loyalty challenge. A likely partial explanation for the tourist loyalty is the ~23% who are visiting friends or relatives and the perception of high quality outdoor areas (beaches, parks, the inlet, fishing areas, etc.) and attractive festivals/events.

1. While growth occurs in the repeat-visitor realm, it is also important to attract new visitors. From the feedback gleaned from this study, it appears that one opportunity exists to promote in the in-Florida market. We recommend a promotional campaign targeted to those markets located in the more congested, developed and generally less pristine counties of South Florida and perhaps from the cities of Brevard county to the north. The campaign could encourage the opportunity to escape to (Indian River County) a quieter, coastal scenic area where you can enjoy walking on the beach, fishing, swimming and relaxing. Concentrate on factors where previous visitors report high satisfaction and 98% say they are likely to return. Also highlight Indian River County as an attractive alternative for potential tourists who are from more congested areas.
2. Given the probability that new visitors introduced to Indian River County will return, incentives to "discover" the area should be offered. We recommend *packaged getaway weekends* combining accommodations and events such as Dodgers games or other sports events, fishing or shopping day itineraries, and "try retirement" for two or three days in Indian River County (since half the existing tourist market is 50+

years old) as another possible idea. We also recommend that the Chamber of Commerce continue to advertise in FLA-USA, Inc.'s promotional brochures.

In addition, continued advertising in South Florida regional magazines or travel sections of newspapers with some of these promotional themes would continue to generate awareness of the area, and present alternatives for weekend, holiday weekend or week long regional travelers:

3. Given the scenic and somewhat unique natural appeal of Indian River County, and the high satisfaction scores attributed to outdoor water-based recreation assets, there is opportunity for partnerships with other agencies or organizations and/or government such as the Florida Park Service. We recommend combining activities such as "take a kid fishing" or "family fishing/birdwatching/beach-combing," with workshops or seminars on beach or inlet fishing techniques, and maritime equipment shows could attract interest from new visitors. Events like this could be scheduled during Dodger's spring training season when sports/outdoor writers could help attract new prospects.

It is important that new visitors know how to locate public beach access, boat ramps and parking areas. Good signage will facilitate this and proactively reduce frustration among coastal visitors.

Additional promotion and advertising to attract golfers and their companions might be effective. It is likely that the combination of attending festivals/events, fishing, golfing and perhaps a Dodger's game, would be a highly attractive package, either for specific tourists interested in all or part of a package that could appeal to multiple members of a travel party.

4. Examining the visitors who said they were unsure or not likely to return revealed a potential market segment to grow the numbers of younger visitors. This market complained that there were not enough sit-down restaurants, that the area was too quiet and that there were not enough activities or nightlife.

Clerk of the Circuit Court & Comptroller

1801 27th Street

Vero Beach, FL 32960

Telephone: (772) 226-1516

March 10, 2023

To the Citizens of Indian River County
and the Honorable Members of the
Board of County Commissioners:

The Annual Comprehensive Financial Report of Indian River County, Florida for the fiscal year ending September 30, 2022, is respectfully submitted. State law requires that every general-purpose government publish a complete set of audited financial statements within nine months of the close of each fiscal year. This report was prepared by the Comptroller Division under the supervision of the Clerk of the Circuit Court and Comptroller. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the Comptroller Division and is contingent upon the internal control established for this purpose.

The County has established a comprehensive internal control framework designed to ensure that the assets of the County are protected from loss, theft or misuse and to certify that the financial records and data used for preparing the financial statements are in conformity with generally accepted accounting principles (GAAP) as applicable to governmental entities. The internal control system is designed to provide reasonable, rather than absolute, assurance that these objectives are met. The idea of reasonable assurance recognizes two aspects: 1) the cost of internal control should not exceed the anticipated benefits; and 2) the valuation of the costs and benefits require estimates and judgment by management. All internal control evaluations take place within this framework. We believe the County's internal controls adequately safeguard its assets and provide reasonable assurance of properly recorded financial transactions.

Section 218.39, Florida Statutes, requires an annual audit of local governments. The unmodified opinion of the auditors (Rehmann Robson, LLC) on the County's financial statements for the year ending September 30, 2022 has been included in this report. The independent auditors' report is located at the front of the financial section of this report. The audit was also designed to meet the requirements of *Government Auditing Standards*, the Florida Single Audit Act, Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and Chapter 10.550, Rules of the Auditor General.

Readers of this report are encouraged to read Management's Discussion and Analysis (MD&A), which provides basic financial information about the County and an overview of the County's activities. The MD&A immediately follows the independent auditors' report.

Profile of Indian River County

Indian River County, established on June 29, 1925 by an act of the Florida Legislature, is located on the central Atlantic coast of Florida, approximately 100 miles southeast of Orlando and 135 miles north of Miami. The County is bordered by Brevard County to the north, St. Lucie County to the south, and Osceola and Okeechobee Counties on the west. There are approximately 100 miles of waterfront land in the County, including 23 miles of Atlantic beaches.

The City of Vero Beach is the seat of County government. Indian River County is a non-charter county established under the Constitution and the Laws of the State of Florida. It is governed by a five member Board of County Commissioners (Board) elected at large from the five districts within the County. A County Administrator is appointed by the Board and is responsible for implementing the policies set forth by the Board. The Administrator is charged with the proper fiscal management of the resources of the County as well. In addition to the Board, there are five elected Constitutional Officers serving specific governmental functions: Clerk of the Circuit Court and Comptroller, Property Appraiser, Sheriff, Supervisor of Elections and Tax Collector. Although the majority of the funding for all Constitutional Officers is part of the County's General Fund, the Board does not have direct responsibility for their operations. Each office is run separately within each of its respective legal guidelines.

Indian River County provides a full range of services including, but not limited to: construction and maintenance of roadways, sidewalks and other infrastructure, fire rescue/emergency services, law enforcement, library services, traffic operations and control, parks and recreational services, golf course, human services, building inspections, licenses and permits, water/sewer utility services, and refuse collection and disposal.

The Clerk of the Circuit Court and Comptroller (Clerk), Sheriff, and Supervisor of Elections submit proposed operating budgets to the Board prior to May 1. The Florida Department of Revenue receives budgets from the Property Appraiser prior to June 1 and from the Tax Collector prior to August 1. Once these budgets are approved, they are forwarded to the Board. The Clerk submits a budget for his court-related functions to the Florida Clerks of Court Operations Corporation (CCOC) prior to June 1. These operating budgets include proposed expenditures and the sources to finance them as set forth in Section 28.36, Florida Statutes.

Constitutional Officers, all departments controlled by the Board of County Commissioners, and outside State and local agencies submit their proposed budgets to the Office of Management and Budget for assistance, review and compilation. The County Administrator then reviews all the budgets of the County departments, state agencies and nonprofit organizations, and makes his budget recommendations to the Board of County Commissioners in July of each year. The Board then holds public workshops to review the tentative budget by fund on a departmental level.

During September, public hearings are held pursuant to Section 200.065, Florida Statutes, in order for the Board to receive public input on the tentative budget. At the end of the last public hearing, the Board enacts a resolution to legally adopt (at the fund level) the budgets for all governmental fund types. The budgets legally adopted by the Board set forth the anticipated revenues by source and the appropriations by function. Budgets for Enterprise and Internal Service funds are adopted on a basis consistent with generally

accepted accounting principles. Management is authorized to transfer budgeted amounts between objects and departments in any fund as long as the total appropriations of a fund are not exceeded. Board approval to amend the budget is required when unanticipated revenues are received that management wishes to have appropriated, thereby increasing the total appropriations of a fund. Appropriations for the County lapse at the close of the fiscal year. Unexpended ongoing project costs may be appropriated in the new fiscal year through a budget amendment.

This Annual Comprehensive Financial Report includes the funds of the primary government (the Board of County Commissioners, the Clerk of the Circuit Court and Comptroller, the Property Appraiser, the Sheriff, the Supervisor of Elections and the Tax Collector), and the blended component units consisting of the Emergency Services District and the Solid Waste Disposal District. These component units were included because generally accepted accounting principles require that organizations which are fiscally dependent on the County and that financially benefit from the relationship with the County be reported with the primary government (the County) as the reporting entity. The fiduciary component unit of the Other Postemployment Benefits (OPEB) Trust Fund is also included because the OPEB plan is administered through a trust and the primary government (the County) has assumed the obligation to make contributions to the OPEB plan.

This Annual Comprehensive Financial Report does not include the Indian River County School District, the Indian River Mosquito Control District or the Indian River County Hospital District.

Local Economy

Indian River County's estimated population of 165,559 was a 2.38% increase over the previous year and ranks 31st in population size of Florida's 67 counties. While the population of the County has been steadily increasing, so has the median age of residents living here. Indian River County is ranked sixth among Florida counties by percent of population ages 65 and older with 31.6%. Nationally, average ages have risen due to the increasing age of the baby boomer generation as well as the increase in life expectancy for all Americans. In addition, Florida continues to be a popular destination for retirees.

Historically, Indian River County's economy was made up of agriculture (citrus and cattle), construction and tourism. Those industries have now been complemented with an increase in health care and information technology firms, light manufacturing, wholesale and retail trade and service sector jobs. Piper Aircraft, Inc., whose headquarters for aircraft research, development and manufacturing operations are located in Vero Beach, is the largest manufacturing employer in the area. CVS Pharmacy operates a distribution center, which provides the distribution of products to all CVS locations in the southern half of Florida. Local government, healthcare and food/beverage retail chains are the County's major employers. The unemployment rate continues to decrease from 4.6% in 2021 to 3.1% in 2022.

The Atlantic beaches and the Indian River, along with the comfortable climate, provide the basis for a year-round tourism industry. Residents can enjoy public resources at any of the many beautiful County parks and conservation areas, the Sebastian Inlet State Park or the Pelican Island National Wildlife Refuge. The County's public golf course, Sandridge Golf Club, is comprised of two 18-hole championship courses earning the distinction as one of the finest public golf destinations in the entire state of Florida.

During fiscal year 2022, Indian River County continued to experience positive economic activity with property tax values increasing from \$20.6 billion in 2021 to \$23.4 billion in 2022. Tourism has increased as evidenced by the rise in tourist tax collections which are up 23.8%, reaching an all-time high. Construction activity, another significant sector for the local economy, did see a 22.4% decrease in the number of new construction permits issued in 2022. This follows a record year in 2021, where the County saw its highest number of new construction permits issued in the last ten years.

Please see the Statistical Section schedules 6 and 17 for additional information.

Long Term Financial Planning and Major Initiatives

Chapter 163 Florida Statutes and Florida Administrative Code Rule 9J-5 requires each local government to have a Comprehensive Land Use Plan. An important part of this plan is the Capital Improvements Plan (CIP) which evaluates the need for public facilities in support of the Future Land Use Element, to estimate the costs of improvements for which local government has fiscal responsibility, to analyze the fiscal capacity of the local government to finance and construct improvements, and to adopt financial policies to guide the funding and construction of the improvements. The CIP is updated annually and encompasses a period of five years. Listed below are some major projects included in the current CIP along with the source of funding and estimated costs:

- ❖ Sandridge Golf Club Clubhouse/Special Events Expansion - The existing single-story clubhouse was built in 1992 and consists of a café, pro shop, bathrooms and staff offices. The estimated \$5 million project includes a brand new, state of the art facility which will provide all the existing amenities, as well as special event spaces and a commercial grade kitchen. Funding will be provided by user fees and supported borrowing.
- ❖ Moorhen Marsh Low Energy Aquatic Plant System (Moorhen Marsh) - The project consists of construction of a regional County stormwater/canal water treatment facility that will use managed aquatic plants to remove nitrogen and phosphorus from the Indian River Farms Water Control District North Relief Canal water and is part of the County's program to reduce the flow of nutrients into the Indian River Lagoon. Moorhen Marsh will be the County's sixth regional nutrient removal facility. The \$11.0 million facility is funded by optional sales tax, as well as a St. John's River Water Management District Cost Share Grant and a Department of Environmental Protection State legislative grant.
- ❖ Indian River Boulevard Resurfacing from 53rd Street to the Merrill Barber Bridge - The \$4.5 million project includes milling and resurfacing, widening the shoulder to guarantee a minimum 5 foot wide bike lane, ADA sidewalk return improvements and interconnect improvements for hardening and resiliency. Funding is provided by a Florida Department of Transportation Small County Outreach Program (SCOP) grant and gas taxes.
- ❖ Emergency Operations Center (EOC) Expansion - A two-story, 10,000 square foot building located on the north side of the existing EOC will be constructed at an estimated cost of \$8.7 million. The expansion will provide office space for Fire Rescue administration as well as bunk rooms and kitchen facilities to enhance 24-hour full EOC activations.

- ❖ North County Library Expansion - The original library was constructed in 1990 and expanded in 2002. Due to substantial population growth in the area, and a need for more extensive children’s services, a 2,800 square foot addition will modify the existing story room and expand it into a makerspace/lab. This makerspace/lab inspires integrative learning in science, technology, engineering, arts and mathematics (STEAM). In addition, two small conference rooms will be included and other ancillary improvements to support the expansion. The \$2.3 million expansion will be funded by optional sales tax, library impact fees, and donations.
- ❖ Solid Waste Disposal District High Pressure Skid System - The project will replace the current “low-pressure” landfill gas flare skid with a “high-pressure” system, convert the mechanical relays to a programmable logic controller, and install a new flare that is properly sized for current and future needs. Also included is the construction of a new landfill gas pipeline. The \$1.0 million project is funded from the landfill closure escrow account established per Florida Department of Environmental Protection (FDEP) requirements. The project will support the provision of landfill gas to be purchased by the Indian River Eco District for the production of electricity and/or conversion to renewable natural gas.

Major projects or initiatives that were completed during fiscal year 2022 are listed below:

- ❖ 58th Avenue from North of 57th Street to 85th Street/CR510 Full Depth Reclamation Project - The \$7.3 million project consisted of reconstructing the roadway, widening the shoulders, drainage improvements, utility adjustments, intersection improvements and signalization.
- ❖ Indian River County Courthouse and Parking Garage Improvements - The Courthouse roof was replaced in conjunction with a seal and wall restoration project at a cost of \$1.5 million. The Courthouse parking garage rehabilitation consisted of two phases and included garage roof repairs and stairs refurbishment.
- ❖ Roseland Elevated Storage Tank Conversion and Pump Station - The \$2.3 million conversion of the tank to a storage and re-pump station provides remote storage and repumping to the North Roseland service area.
- ❖ Building/Fire Prevention Department Renovations - The renovations addressed security, health and safety deficiencies within these spaces, as well as functionality improvements to reduce crowded waiting areas, internal work flow impediments, long lines and other barriers to efficiency at a cost of \$1.0 million.

Relevant Financial Policies

In accordance with Section 218.415, Florida Statutes, the County has adopted an investment policy, which guides the investment of County surplus funds. This policy establishes investment objectives, maturity and liquidity requirements, portfolio composition, risk and diversification requirements, and authorized investments. The primary objectives of investment activities are to preserve capital and maintain sufficient liquidity to meet anticipated cash flow needs. The secondary objective is to obtain competitive returns on the investment of County surplus funds.

On September 23, 2008, the County established the OPEB (Other Postemployment Benefits) Trust. An OPEB investment policy was approved by the Board of County Commissioners in February 2009. The objective of the policy was to provide short-term and long-term investment guidelines. This policy also outlines the same criteria as noted in the County's investment policy, as well as including performance measures. The County's policy is to fund the annual OPEB obligation.

The County's goal is to maintain an overall fund balance equal to 30% of the annual budget in all of its taxing funds, which provides a three month cushion for operating expenses. The three month reserve is necessary due to the timing of property tax levies in the State of Florida. Although the fiscal year begins in October, property tax monies are not typically received until mid to late December, which would require the County to operate in a deficit position for the first two months of the fiscal year without this reserve. Reserve funds are needed in order to allow the County to respond to events, such as hurricanes or other emergencies, without facing serious financial burdens. County policy is to maintain fund balance levels and prohibit the use of fund balance to fund recurring expenditures. Information on the County's fund balance policy can be found in County Note 17.

During fiscal year 2022, the County implemented Governmental Accounting Standards Board (GASB) Statement No. 87, *Leases*. The objective of this Statement is to better meet the informational needs of financial statement users by improving accounting and financial reporting for leases by governments.

Awards and Acknowledgments

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Indian River County for its Annual Comprehensive Financial Report for the fiscal year ending September 30, 2021. This was the 39th consecutive year that the County has received this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Indian River County also received the GFOA's Award for Outstanding Achievement in Popular Annual Financial Reporting for the fiscal year ending September 30, 2021. This was the seventh consecutive year the County has received this award. This program was developed by the GFOA to encourage and assist governments to extract information from the Annual Comprehensive Financial Report to produce a high-quality report specifically designed to be readily accessible and easily understandable to the general public and other interested parties without a background in public finance.

In addition, Indian River County also received the GFOA's Distinguished Budget Presentation Award for its annual budget document for the 2021-2022 fiscal year. This was the 31st consecutive year that the County has received this prestigious award. In order to qualify

for the Distinguished Budget Presentation Award, the County's budget document had to be judged proficient as a policy document, financial plan, operations guide, and communications device.

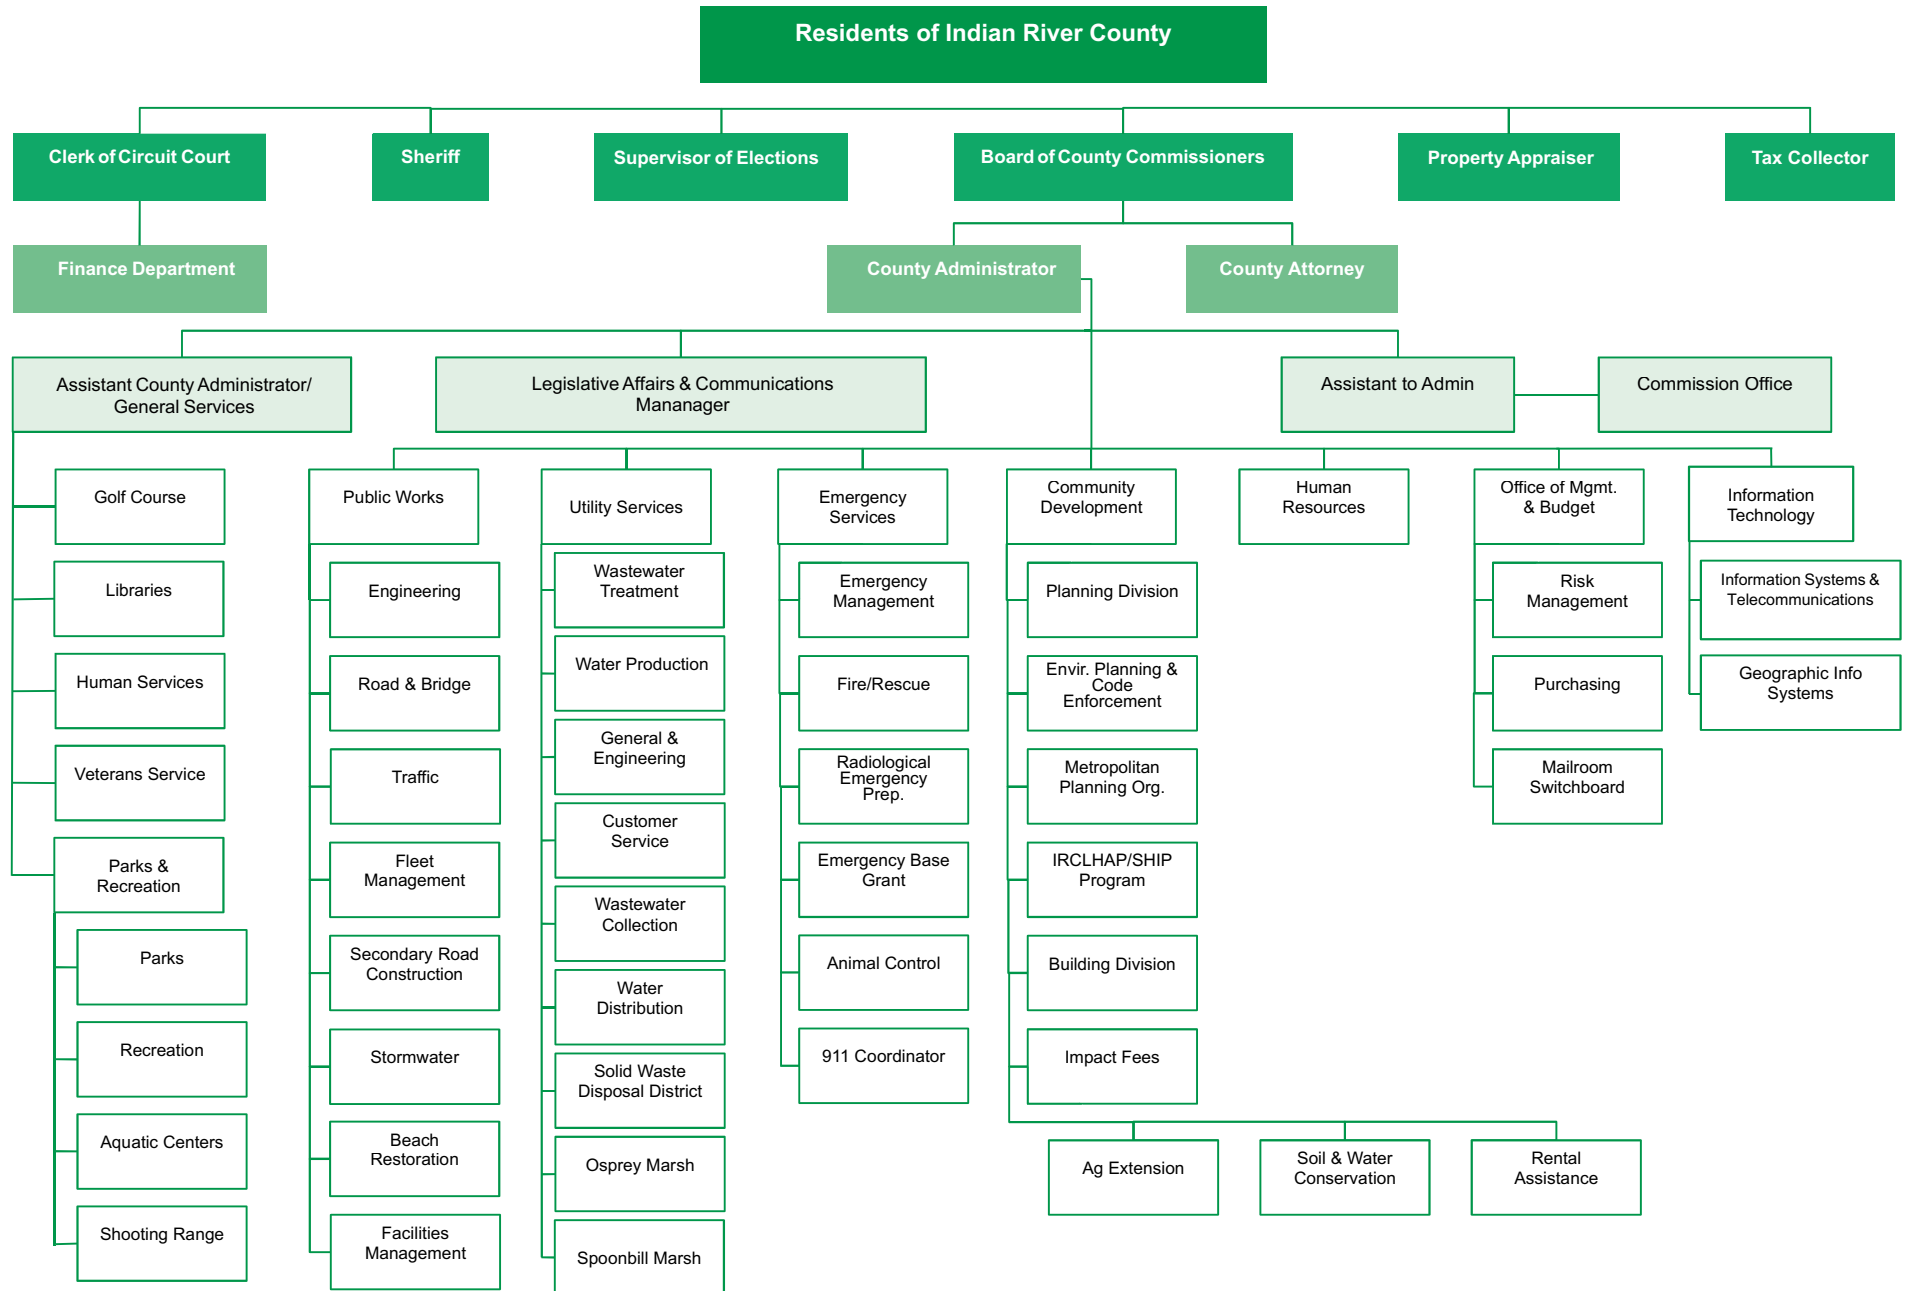

I would like to thank the entire staff of the Comptroller Division for their invaluable assistance in the preparation of this report. I would also like to thank the Board of County Commissioners and their staff, and the other Constitutional Officers for their personal interest and support in planning and conducting the financial operations of the County in a responsible and progressive manner. Finally, thanks to the citizens for the trust you continue to place in your County and those who work to serve you.

Respectfully submitted,

INDEPENDENT AUDITORS' REPORT

March 9, 2023

The Honorable Board of County Commissioners
and Constitutional Officers
Indian River County, Florida

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of **Indian River County, Florida** (the "County"), as of and for the year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the County, as of September 30, 2022, and the respective changes in financial position, and, where applicable, cash flows thereof, and the budgetary comparisons for the general fund and each major special revenue fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis of Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Independent Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the County and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Independent Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the schedules for the pension and other postemployment benefit plans, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The combining and individual fund statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual comprehensive financial report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

The Honorable Board of County Commissioners
Indian River County, Florida
March 9, 2023
Page 4

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated March 9, 2023, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the County's internal control over financial reporting and compliance.

OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements are composed of three elements: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The Statement of Net Position presents information on all of the County's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position.

Indian River County, Florida
Management's Discussion and Analysis
For the Year Ended September 30, 2022

Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The Statement of Activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected grant revenue and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, public safety, physical environment, transportation, economic environment, human services, culture and recreation, and court related functions. The major business-type activities include a water and sewer utility, a solid waste disposal district, a golf course, and a building department.

The government-wide financial statements include not only the Board of County Commissioners (BCC), but also the Clerk of the Circuit Court and Comptroller, Property Appraiser, Sheriff, Supervisor of Elections and Tax Collector. The government-wide financial statements can be found on pages 23-25 of this report.

Fund financial statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financial requirements.

Indian River County, Florida
Management's Discussion and Analysis
For the Year Ended September 30, 2022

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financial decisions. Both the governmental fund Balance Sheet and the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains numerous individual governmental funds. Information is presented separately in the governmental fund Balance Sheet and in the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balances for the general fund, special revenue funds, and capital projects fund. All are considered to be major funds. Data from the remaining governmental funds are combined into a single, aggregated presentation.

Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements located behind the notes to the financial statements. The combining statements for the nonmajor governmental funds can be found on pages 123-168 of this report.

The County adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget. The basic governmental fund financial statements can be found on pages 26-37 of this report.

Proprietary funds. The County maintains *two* different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for its water and sewer utility, solid waste disposal district, golf course, and building department. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the County's various functions. The County uses internal service funds to account for fleet management, self-insurance, and information technology. Because these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Indian River County, Florida
Management's Discussion and Analysis
For the Year Ended September 30, 2022

Proprietary fund financial statements provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the water and sewer utility, solid waste disposal district, golf course, and building department, which are considered to be major funds of the County. Conversely, internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements behind the notes to the financial statements on pages 169-173 of this report. The basic proprietary fund financial statements can be found on pages 39-45 of this report.

Fiduciary funds. Fiduciary funds of the County include the custodial fund and the other postemployment benefit trust fund (OPEB Trust). The custodial fund accounts for resources held in a custodial capacity for the benefit of parties outside the government. The Indian River County OPEB Trust holds the assets of the County's other postemployment benefits. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The basic fiduciary fund financial statements can be found on pages 46-47 of this report.

Notes to the financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 49-115 of this report.

Other information

In addition to the basic financial statements and accompanying notes, this report also contains required supplementary information concerning Indian River County's progress in funding its obligations to provide other postemployment benefits to its employees, as well as information regarding the County's proportionate share of its pension liability. Required supplementary information can be found on pages 116-122 of this report.

Government-wide financial analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the County, assets and deferred outflows of resources exceeded liabilities and deferred inflows by \$1,160.0 at the close of the fiscal year.

Governmental Activities

In governmental activities, the decrease in restricted net position was mainly due to a decrease in net position restricted for capital projects. The decrease in capital projects restricted net position was mainly caused by higher expenses for road projects. The increase in net investment in capital assets was a result of completed construction projects and decreased outstanding debt. The decrease in deferred inflows of resources and increase in other liabilities and deferred outflows of resources was due to an increase in the net pension liability.

Business-type Activities

In business-type activities, the increase in net investment in capital assets was due to an increase in capital purchases and decreasing outstanding debt. The decrease in deferred inflows of resources and increase in other liabilities and deferred outflows of resources was due to an increase in the net pension liability.

**Indian River County, Florida
Management's Discussion and Analysis
For the Year Ended September 30, 2022**

By far, the largest portion of the County's net position (75% or \$871.4) reflects its investment in capital assets (e.g., land, buildings and improvements, infrastructure, equipment, and intangibles), less any related outstanding debt used to acquire those assets. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported as net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

A portion of the County's net position (17% or \$196.9) represents resources that are subject to external restrictions on how they may be used. The remaining balance of the unrestricted net position (8% or \$91.7) may be used to meet the government's ongoing obligations to its citizens and creditors.

 Management's Discussion and Analysis
 For the Year Ended September 30, 2022

Governmental Activities

- Overall program revenues increased \$4.8 mainly due to increases in operating and capital grants and contributions. These grants were for recovery from the COVID-19 pandemic, beach restoration and road projects.
- Overall general revenues increased by \$10.6. There was a \$6.0 increase in property tax collections, as a result of increased property tax values. There was a \$4.9 increase in sales taxes and a \$1.4 increase in franchise fees, both due to the improving economy. These increases were offset by a \$1.7 decrease in other revenues, the majority of which was due to decreased investment market values.

Indian River County, Florida
 Management's Discussion and Analysis
 For the Year Ended September 30, 2022

- The governmental activities expenses were \$14.4 higher in 2022 than in 2021. This was mainly due to increases in general government (\$5.7), public safety (\$17.1), and transportation (\$1.5) expenses due to increased pension expense, that were offset by decreases in economic environment (\$2.8) and human services (\$7.0) expenses due to the reductions in coronavirus related expenses.

Business-type Activities

Business-type activities net position increased by \$4.1. Key elements of this increase are as follows:

- Overall program revenues increased \$9.2. This was due to a \$5.3 increase in charges for services and \$3.9 increase in capital grants and contributions. As the local economy began to improve from the pandemic, solid waste had increases in assessments and landfill charges; the building department had increases in permit revenue; the golf course had increases in rounds played; and the water and sewer department had increases in utilities sales revenues. The increase in capital grants and contributions was mainly due to a state grant for the septic to sewer project and well as increased developer contributions to the water and sewer system.
- Other revenues decreased \$2.0 due to decreased investment market values.

**Indian River County, Florida
Management's Discussion and Analysis
For the Year Ended September 30, 2022**

- Overall expenses were \$7.3, or 11%, higher in 2022 than in 2021. The water and sewer utilities expenses were \$5.1 or 12.3% higher in 2022 than in 2021 mainly due to an increase in personal services and renewal and replacement projects. The solid waste expenses were \$1.3 or 7.5% higher in 2022 than in 2021 due to increased other contractual and landfill closure costs. The golf course had \$0.3 or 10% higher expenses in 2022 than in 2021 due to increased operating expenses. The building department had \$0.6 or 12.5% higher expenses in 2022 than in 2021 due to increases in personnel costs.

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

Governmental funds

Unassigned fund balance may serve as a useful measure of the County's net resources available for spending at the end of the fiscal year. Of the total fund balance, 27% (\$71.8) constitutes unassigned fund balance, which is available for spending at the County's discretion.

The remainder of fund balance is presented in classifications that comprise a hierarchy based primarily on the extent to which the County is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. The County had fund balances in 1) a nonspendable category for inventories, prepaid items, and advances to other funds (\$1.4), 2) a restricted category for resources that are either restricted externally by creditors, grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation (\$176.7), 3) a committed category for constraints imposed by approval of ordinances and contracts by the Board of County Commissioners (\$3.4), and 4) an assigned category for constraints by the County's intent to use for specific purposes (\$12.7).

Indian River County, Florida
Management's Discussion and Analysis
For the Year Ended September 30, 2022

The two largest restricted amounts are in the Impact Fees Fund with a \$36.5 restricted fund balance and the Optional Sales Tax Fund with an \$84.2 restricted fund balance. Sixty-seven percent of the Impact Fees Fund (\$24.3) and forty-eight percent of the Optional Sales Tax Fund (\$40.3) is slated for major road expansions throughout the County in fiscal year 2023. The Optional Sales Tax Fund is a principal funding source in the five year Transportation Capital Improvement Program.

The County's governmental funds reported a combined fund balance of \$266.0, which is an increase of \$3.6 over the prior year of \$262.4. Contributing factors to the \$3.6 increase in fund balance are:

- Fund balance in the General Fund increased by \$11.0. This was due to increased property and sales taxes.
- Fund balance in the Impact Fees Fund increased by \$5.0 due to increased impact fee collections.
- Fund balance in the Emergency Services District Fund increased by \$1.6 mainly due to an increase in tax revenues because of increasing home values.
- Fund balance in the Beach Restoration Fund decreased by \$6.3 due to expenditures for the Sector 3 beach renourishment project.
- Fund balance in the American Rescue Plan Fund increased by \$0.1 due to interest earnings.
- Fund balance in the Optional Sales Tax Fund decreased by \$13.3 due to increased expenditures for capital road and stormwater projects.

Proprietary funds

Unrestricted net position at the end of the year amounted to \$20.6 in the Solid Waste Disposal District (SWDD) Fund, \$1.7 in the Golf Course Fund, \$79.1 in the County Utilities Fund and \$3.2 in the County Building Fund. Other factors concerning the finances of these funds have already been addressed in the discussion of the County's business-type activities.

GENERAL FUND BUDGETARY HIGHLIGHTS

During the year there was a \$21.0 increase in operating appropriations between the original and final amended budget. The main components of the increase are as follows:

- \$17.0 grant appropriations and prior year rollovers for the Senior Resource Association (SRA) to provide County-wide public transportation
- \$1.5 for capital improvements
- \$0.6 for Sheriff's office request of encumbered, but unspent, fiscal year 2021 funds
- \$0.1 for interlocal agreement for pre-trial services

Actual expenditures were \$18.0 lower than anticipated for the following reasons:

- \$11.8 in SRA grant costs not yet expended
- \$1.5 in unspent funds for the 58th Avenue Ballfields renovations, Jones Pier, and other recreational improvements
- \$0.6 in unspent professional and other contractual services
- \$1.0 in unspent salary and benefits expenditures

The General Fund Statement of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual is shown on page 33.

- An increase in infrastructure due to the completion of the 58th Avenue full depth reclamation project.
- An increase in construction-in-progress due to the Moorhen Marsh stormwater project and the 58th and 66th Avenue road expansion projects.

Governmental activities major decreases occurred in buildings and improvements as a result of increasing depreciation on existing assets.

Business-type activities major increases were in construction in progress due to the North County water and sewer phase 2 and South County Water Treatment plant improvements.

Business-type activities' only major decrease occurred in buildings and improvements and equipment as a result of increasing depreciation on existing assets.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The effects of inflation have played a major role in cost escalation. The Consumer Price Index - South Urban (CPI) for May 2022 reached 9.2%, climbing to rates not seen in 40 years. This has resulted in projected increases in fuel, electricity, chemicals, contracted services, and building materials. With inflation rates increasing, ongoing supply chain issues, and labor shortages, the County intends to closely monitor for impacts these factors will play on the budget. The approved budget includes funding to address these increases, but there remains uncertainty regarding the longer-term price levels.

The County continues to focus on catching up on deferred maintenance and capital item replacement in the proposed budget. Funding for these items was drastically reduced to absorb the funding reduction during the previous economic downturn. While a concerted effort has been made to catch up on these items over the last several years, a substantial amount of work remains. The approved budget, which is the fourth year into the original five-year plan, includes \$9,705,533 in funding for these projects.

The approved budget for fiscal year 2023 is \$451,964,531, a decrease of \$90,319,319 or 16.7% from the prior fiscal year. It should be noted that this is an increase of \$23,911,619 or 5.6% from the beginning budget of \$428,052,912 for fiscal year 2022. However, this is still 4.3% below the approved fiscal year 2007 budget of \$472,420,328.

The fiscal year 2023 taxroll is approximately \$2.78 billion or 13.5% higher than fiscal year 2022. Although this change in taxable values is positive, there is some uncertainty regarding future years' taxroll growth as inflation, labor shortages, and supply chain issues continue to plague the current economy.

The fiscal year 2023 millage rates remain unchanged from fiscal year 2022. The General Fund millage rate is 3.5475, the M.S.T.U. millage rate is 1.1506, and the Emergency Services District millage rate is 2.3531. The Aggregate millage rate increased 0.0060 mills or 0.10% to 6.1286 mills. This specific rate is not paid by any taxpayer, but is rather an average millage rate required to be shown for comparison purposes.

Within the Solid Waste Disposal District Fund, proposed residential assessment rates are increasing by \$11.87 or 8.8% to \$147.49 per Equivalent Residential Unit. Commercial rates are increasing by \$7.55 or 15.8% to \$55.19 per Waste Generation Unit (WGU). The proposed readiness-to-use fee is \$32.84 per WGU, an increase of \$3.33 or 11.3%.

As recommended in the Comprehensive Water, Wastewater, and Reclaimed Water Rate Study, an annual CPI adjustment of 3.0% for fiscal year 2023 was recommended for the Utilities Fund. In addition, eight streetlighting district assessments are increasing as a result of higher electric rates through Florida Power & Light.

Construction of the new Sandridge Golf Course Clubhouse is scheduled for commencement in the upcoming fiscal year. In order to stay competitive with surrounding courses, provide funding for contract maintenance costs, and offset the Clubhouse cost, there will be an increase of \$2 in 9-hole rates and \$4 in 18-hole rates. The increase in rates is expected to generate an additional \$304,861, which will support funding for the new facility. Even after these increases, Sandridge rates will remain lower than most courses in the area.

Indian River County, Florida
Reconciliation of Total Governmental Fund Balances
to Net Position of Governmental Activities
September 30, 2022

Total governmental fund balances	\$ 266,055,063
Amounts reported for governmental activities in the statement of net position are different because:	
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.	657,933,462
Long-term liabilities, including bonds payable (\$3,189,501), accrued compensated absences (\$15,877,106) leases payable (\$997,325), and accrued pollution remediation costs (\$1,610,000), are not due and payable in the current period and, therefore, not reported in the funds.	(21,673,932)
On the governmental fund statements, a net pension or OPEB plan liability is not recorded until an amount is due and payable and the plan's fiduciary net position is not sufficient for payment of those benefits. On the statement of net position, the County's proportionate share of the net pension liability (\$151,595,578) of the cost-sharing defined benefit pension plans in which the County participates is reported. The County's net OPEB liability (\$5,460,005) of the single employer defined benefit plan is also reported on the statement of net position. Additionally, deferred outflows (\$43,073,483) and deferred inflows (\$6,675,557) related to pensions and deferred outflows (\$7,002,061) and deferred inflows (\$5,645,526) related to OPEB are also reported.	(119,301,122)
Special assessments, ambulance services, and state and federal grant receivables, are not available to pay for current period expenditures and, therefore, are reported as unavailable revenue in the funds.	19,329,097
Accrued interest receivable is not recognized in the current period because the resources are not available and, therefore, not reported in the funds.	162,847
Internal service funds are used by management to charge the costs of certain activities, such as insurance, fleet, and information technology services, to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position.	<u>28,665,564</u>
Net position of governmental activities	<u>\$ 831,170,979</u>

Indian River County, Florida
Reconciliation of the Statement of Revenues,
Expenditures, and Changes in Fund Balances of Governmental Funds
to the Statement of Activities
For the Year Ended September 30, 2022

Net change in fund balances - total governmental funds	\$	3,646,491
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlay as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.		
Expenditures for capital assets	68,773,769	
Less current year loss on assets	(189,143)	
Less current year depreciation/amortization	<u>(26,741,120)</u>	41,843,506
Payments of bond and note principal, pollution remediation, and leases costs are expenditures in the governmental funds, but the payment reduces long-term liabilities in the statement of net position.		
Bond principal payment	305,000	
Lease payments	(421,932)	
Pollution remediation costs	<u>(30,000)</u>	(146,932)
Changes in accrued compensated absences do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.		
		(852,387)
Governmental funds report interest expenditures based on when they are paid. The statement of activities reports these expenses as they are incurred. This is the net number of the prior year and current year accrual.		
Deferred charge on refunding amortization expense	(7,278)	
Accrued lease interest expense	<u>212</u>	(7,066)
Governmental funds report contributions in defined benefit pension plans as expenditures. However, in the statement of activities, the amount contributed to defined benefit pension plans reduces future net pension liabilities and is reported as part of deferred outflows of resources.		
		(4,222,353)
In the statement of activities, pension expense is recorded for the County's proportionate share of collective pension expense of the cost-sharing defined benefit plans in which the County participates. Also included in the statement of activities is the County's OPEB expense for the single employer defined benefit plan.		
		423,061
Internal service funds are used by management to charge the costs of insurance, fleet and information technology services to individual funds. The net costs of the internal service funds are reported in governmental activities.		
		5,181,471
Governmental funds report non-exchange transactions when the applicable eligibility requirements have been met and resources are available. However, in the statement of activities, non-exchange transactions are recognized when the eligibility requirements are met. This is the net number of the prior year and current year accrual.		
		826,341
Some interest revenues reported in the statement of activities do not provide current financial resources, therefore, are not reported as revenues in governmental funds. This is the net number of the prior year and current year accrual.		
		<u>117,646</u>
Change in net position of governmental activities	\$	<u><u>46,809,778</u></u>

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Indian River County, Florida, (the County) is a political subdivision of the State pursuant to Article VIII, Section 1(a) of the Constitution of the State of Florida. Created on June 29, 1925 by an act of Legislature, separating it from St. Lucie County. The County encompasses approximately 497 square miles of land with an estimated population of 165,559. The County is governed by the Board of County Commissioners and five elected constitutional officers (Clerk of the Circuit Court and Comptroller, Property Appraiser, Sheriff, Supervisor of Elections, and Tax Collector) in accordance with state statutes and regulations. The constitutional officers maintain separate accounting records and budgets from the Board of County Commissioners. The Constitution of the State of Florida, Article VIII, Section 1(d) created the constitutional officers and Article VIII, Section 1(e), created the Board of County Commissioners.

The financial statements of the County have been prepared in accordance with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the standard-setting body for governmental accounting and financial reporting. The GASB periodically updates its codification of the existing Governmental Accounting and Financial Reporting Standards which, along with subsequent GASB pronouncements (Statements and Interpretations), constitutes GAAP for governmental units.

A. Reporting Entity

The concept underlying the definition of the reporting entity is that elected officials are accountable to their constituents for their actions. The reporting entity's financial statements should allow users to distinguish between the primary government (the County) and its component units. However, some component units, because of the closeness of their relationships with the County, should be blended as though they are part of the County. As required by generally accepted accounting principles, the financial reporting entity consists of: (1) the primary government (the County), (2) organizations for which the County is financially accountable, and (3) other organizations for which the nature and significance of their relationship with the County are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The County is financially accountable if it appoints a voting majority of the organization's governing body and (a) it is able to impose its will on that organization or (b) there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the County.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

A. Reporting Entity - Continued

The County may be financially accountable if an organization is fiscally dependent on the County regardless of whether the organization has (a) a separately elected governing board, (b) a governing board appointed by a higher level of government, or (c) a jointly appointed board. Based on these criteria, management determined that the Solid Waste Disposal District and the Emergency Services District were the only organizations that should be included in the County's financial statements as blended component units.

Blended Component Units

Solid Waste Disposal District (SWDD) - Created pursuant to County Ordinance 87-67, the Board of County Commissioners serves as the governing body for and has operational responsibility over the SWDD. The Board also sets the non ad valorem assessment fees for the SWDD. Although legally separate, the SWDD is appropriately blended as a proprietary fund type (enterprise) component unit into the primary government.

Emergency Services District (EMS) - Created pursuant to County Ordinance 90-25, the Board of County Commissioners serves as the governing body for and has operational responsibility over the EMS. The Board also sets the millage rate for the EMS. Although legally separate, the EMS is appropriately blended as a governmental fund type (special revenue) component unit into the primary government.

Fiduciary Component Unit

The *Indian River County Other Postemployment Benefits Trust (OPEB Trust)* is a single-employer defined benefit postemployment healthcare trust established and administered by Indian River County to provide healthcare benefits for eligible retirees. The OPEB Trust is included as a fiduciary component unit of the County because (1) the OPEB Trust is a legally separate entity; (2) the Board of County Commissioners acts as the OPEB Board of Trustees; and (3) the County makes contributions to the OPEB Trust on behalf of its participants.

B. Measurement Focus and Basis of Accounting

The basic financial statements of the County are composed of the following:

- Government-wide financial statements
- Fund financial statements
- Notes to the financial statements

1. Government-wide Financial Statements

Government-wide financial statements display information about the reporting government as a whole, except for its fiduciary activities. These statements include separate columns for the governmental and business-type activities of the primary government (including its blended component units). Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely, to a significant extent, on fees and charges for support.

Government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Under the accrual basis of accounting, revenues, expenses, gains, losses, assets, deferred outflows/inflows of resources, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets, and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of GASB Statement 33 - *Accounting and Financial Reporting for Nonexchange Transactions*.

Program revenues include charges for services, special assessments, and payments made by parties outside of the reporting government's citizenry if that money is restricted to a particular program. Program revenues are netted with program expenses in the statement of activities to present the net expense of each program.

Amounts paid to acquire capital assets are capitalized as assets in the government-wide financial statements, rather than reported as expenditures. Issuance of long-term debt is recorded as a liability in the government-wide financial statements, rather than as an other financing source. Amounts paid to reduce long-term indebtedness of the reporting government are reported as a reduction of the related liability, rather than as an expenditure.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. The County chooses to eliminate the indirect costs between governmental activities to avoid a "doubling up" effect. However, interfund services provided and used, such as the sale of gas and diesel from Fleet Management to the government, are not eliminated in the statement of activities.

2. Fund Financial Statements

The underlying accounting system of the County is organized and operated on the basis of separate funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balance, revenues and expenditures or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

Fund financial statements for the primary government's governmental, proprietary, and fiduciary funds are presented after the government-wide financial statements. These statements display information about major funds individually and nonmajor funds in the aggregate for governmental and enterprise funds.

Governmental Funds

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 45 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. Franchise fees, sales taxes, gas taxes, operating and capital grants, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable only when the County receives cash.

Under the current financial resources measurement focus, only current assets, deferred outflows of resources, current liabilities and deferred inflows of resources are generally included on the balance sheet. The reported fund balance is considered to be a measure of "available spendable resources". Governmental funds operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net fund balance. Accordingly, they are said to present a summary of sources and uses of "available spendable resources" during a period.

B. Measurement Focus and Basis of Accounting - Continued

2. Fund Financial Statements - Continued

Governmental Funds - Continued

Non-current portions of special assessments due to governmental funds are reported on their balance sheets in spite of their spending measurement focus. Non-current portions of special assessment receivables are offset by deferred inflows of resources.

Because of their spending measurement focus, expenditure recognition for governmental fund types excludes amounts represented by non-current liabilities. Since they do not affect fund balances, such long-term amounts are not recognized as governmental fund type expenditures or fund liabilities.

Amounts expended to acquire capital assets are recorded as expenditures in the year that resources were expended, rather than as fund assets. The issuance of long-term debt is recorded as an other financing source rather than as a fund liability. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Proprietary Funds

The County's enterprise funds and internal service funds are proprietary funds. In the fund financial statements, proprietary funds are presented using the accrual basis of accounting. Revenues are recognized when they are earned and expenses are recognized when the related goods or services are delivered. In the fund financial statements, proprietary funds are presented using the economic resources measurement focus. This means that all assets, deferred outflows of resources, liabilities and deferred inflows of resources (whether current or non-current) associated with their activity are included on their balance sheets. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in total net position.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Proprietary fund operating revenues, such as charges for services and premiums charged to the County and employees under various insurance programs, result from exchange transactions associated with the principal activity of the fund.

2. Fund Financial Statements - Continued

Proprietary Funds - Continued

Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as subsidies, taxes, and investment earnings result from nonexchange transactions or ancillary activities. Principal operating expenses include salary and benefits, cost of sales and services, claims, and insurance premiums. All revenues and expenses not meeting these definitions are reported as non-operating revenues and expenses.

Amounts paid to acquire capital assets are capitalized as assets in the fund financial statements, rather than reported as expenditures. Issuance of long-term debt is recorded as a liability in the fund financial statements, rather than as an other financing source. Amounts paid to reduce long-term indebtedness are reported as a reduction of the related liabilities, rather than as an expense.

Fiduciary Funds

The fiduciary funds financial statements include financial information for the custodial fund and the other postemployment benefit trust fund. The custodial fund of the County primarily represents assets held by the County in a custodial capacity for other individuals or governments. The other postemployment benefits trust fund (OPEB Trust) accounts for activities of the OPEB Trust, which accumulates resources for health insurance benefit payments for current retirees and for current employees upon their retirement. The custodial and OPEB Trust fund statements are presented using the accrual basis of accounting.

C. Basis of Presentation

GASB Statement 34, *Basic Financial Statements - and Management's Discussion and Analysis - For State and Local Governments* sets forth minimum criteria (percentage of the assets, liabilities, deferred outflows/inflows of resources, revenues or expenditures/expenses of either fund category and the governmental and enterprise combined) for the determination of major funds. The County has used GASB 34 minimum criteria for major fund determination and has also electively disclosed funds that either had debt outstanding or specific community focus as major funds. The nonmajor funds are combined in a column in the fund financial statements and detailed in the combining section.

4. Fiduciary Funds

Custodial Fund - The Custodial Fund is used to account for assets held in a custodial capacity by the County for other governmental units, individuals and businesses. 5. Non-current Governmental Assets/Liabilities

GASB Statement 34 requires non-current governmental assets, such as land and buildings, and non-current governmental liabilities, such as general obligation bonds and leases, be reported in the governmental activities column in the government-wide Statement of Net Position.

D. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position or Fund Balances

1. Cash and Investments

Cash reported on the financial statements includes bank deposits, cash on hand, certificates of deposit, money market accounts, and all highly liquid investments with maturities of ninety days or less when purchased. Investments consist of U.S. Treasury Securities, U.S. Government Agency Securities, Florida PRIME Fund, the Florida Trust Day to Day Fund (FLTRUST), the Florida Short Term Asset Reserve (FLSTAR) and the Florida Cooperative Liquid Assets Securities System (FLCLASS). Investments are reported at market value based upon the custodian bank's valuation. The FLCLASS, FLSTAR and FLTRUST values are presented at Net Asset Value (NAV), which reflects fair value. The Florida PRIME is valued at amortized cost. Refer to Note 3C, Investments, for further information on individual investments.

The County maintains a cash and investment pool that is available for use by all funds. Earnings from the pooled investments are allocated to the respective funds based on applicable cash participation by each fund. The investment pool is managed such that all participating funds have the ability to deposit and withdraw cash as if they were demand deposit accounts. Therefore, all balances representing participants' equity in the investment pools are classified as cash and investments for financial statement purposes. In addition, longer-term investments are held by several of the County's funds and are reported as restricted cash on these statements. Cash and investments of the constitutional officers are maintained in separate accounts, but have been combined with the Board's cash and investments for financial statement purposes. When restricted and unrestricted resources are available, expenses are paid first from restricted resources.

2. Allowance for Doubtful Accounts

The County provides an allowance for water and sewer and ambulance services accounts receivables that may become uncollectible. At September 30, 2022, the allowance for water and sewer services was \$424,493 and the allowance for ambulance services was \$261,307. No other allowances for doubtful accounts are maintained since other accounts receivable are considered collectible as reported at September 30, 2022.

3. Receivables and Payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as “due to/from other funds.” Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as “internal balances.” All receivables are shown net of allowance for doubtful accounts. Water and sewer receivables in excess of 120 days and ambulance services receivables in excess of 180 days for self-pay accounts and 365 days for commercial insurance accounts comprise the trade accounts receivable allowance for doubtful accounts.

4. Inventories

Inventories are valued at cost, which approximates market, using the “first-in, first-out” method of accounting, with the exception of the Golf Course and Fleet Internal Service Fund’s inventories, which are valued using the average cost method of accounting. Inventories of all funds are recorded as expenditures (expenses) when consumed rather than when purchased.

5. Prepays and Other Assets

Prepaid items in the governmental funds represent prepayments for services that will be used in future periods. The County’s policy is to record the expenditure for the services when they are used rather than when the cash is disbursed.

6. Restricted Net Position

Certain resources of the County are classified as restricted net position on the statement of net position because their use is limited either by law through constitutional provisions or enabling legislation; or by restrictions imposed externally by creditors, grantors, contributors, or laws or regulations of other governments. In a fund with both restricted and unrestricted net position, qualified expenses are considered to be paid first from restricted net position and then from unrestricted net position. Further information on the restrictions can be found in Note 18.

7. Capital Assets

Capital assets, which include land, buildings and improvements, equipment, infrastructure (e.g., roads, bridges, right-of-ways, water and sewer distribution systems, beach restoration, stormwater systems and similar items), and intangible assets (e.g. software, easements, and right-to-use), are reported in the applicable governmental or business-type activities column in the government-wide financial statements. The County defines capital assets as assets with an initial, individual cost of \$1,000 or more and an estimated useful life in excess of one year. Except for roads and bridges constructed prior to October 1, 1981, assets are recorded at historical cost. Roads and bridges constructed prior to October 1, 1981 are reported at estimated historical cost. Donated capital assets, donated works of art, historical treasures and similar assets, as well as capital assets that are received in a service concession arrangement are reported at original acquisition value.

Transfers of capital assets within the County are recorded at their carrying value at the time of the transfer. The costs of normal maintenance and repairs that do not add to the value of the asset nor materially extend its useful life are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

The Board holds legal title to the capital assets used in the operations of the Board, Clerk of the Circuit Court and Comptroller, Property Appraiser, Supervisor of Elections and Tax Collector, and is accountable for them under Florida Law.

The Sheriff is accountable for and thus maintains capital asset records pertaining only to equipment used in his operations. These assets have been combined with the Board's governmental activities capital assets in the statement of net position.

Buildings and improvements, equipment, intangible, and infrastructure assets of the primary government, as well as the component units, are depreciated using the straight-line method over the following estimated useful lives:

8. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The County reports the deferred charge on refundings in the amount of \$65,499 in this category on the government-wide Statement of Net Position. A deferred charge on refundings results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of financial position may report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County reports unavailable revenue, which arises under the modified accrual basis of accounting, on the governmental funds balance sheet in the total amount of \$19,491,944. The sources of the unavailable revenue are special assessments on road paving, ambulance service billings, state and federal grants, investment and interest earnings. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

In addition to the above deferred items, there are deferred outflows and inflows items related to pensions as calculated in accordance with GASB Statement 68, *Accounting and Financial Reporting for Pensions*. These deferred outflows and inflows will be recognized as adjustments to pension expense in future reporting years.

8. Deferred Outflows/Inflows of Resources - Continued

Also, there are deferred outflows and inflows items related to OPEB as calculated in accordance with GASB Statement 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. Detail on the composition of the deferred inflows and outflows related to pensions and OPEB are further discussed in Notes 14 and 15.

The final deferred inflows are related to leases. The amounts are recognized at the inception of leases in which the County is the lessor. The deferred inflow of resources is recorded in an amount equal to the corresponding lease receivable plus certain additional amounts received from the lessee at or before the commencement of the lease term that relate to future periods, less any lease incentives paid to, or on behalf of, the lessee at or before the commencement of the lease term. The inflow of resources is recognized in a systematic and rational manner over the term of the lease. Refer to Note 16 for additional details regarding leases.

9. Pensions/Net Pension Liability

The County participates in both the Florida Retirement System (FRS), which operates a defined benefit and compensation plan, and the Health Insurance Subsidy Program (HIS Program), which is a defined benefit plan. For purposes of measuring the net pension liability, deferred outflows and inflows of resources related to pensions, pension expense, and fiduciary net position are determined on the same basis as the FRS. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

The net pension liability represents the County's proportionate share of the net pension liability of the cost-sharing pension plans in which it participates. This proportionate amount represents a share of the present value of projected benefit payments to be provided through the cost-sharing pension plan to current active and inactive employees. The benefit payments are attributable to those employees past periods of service, less the amount of the cost-sharing pension plans' fiduciary net position. See Note 14 for additional information.

10. Net Other Postemployment Benefits (OPEB) Liability or Asset

For purposes of measuring the net OPEB liability (or asset), deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the County's Retiree Benefits Plan and additions to/deductions from the County's fiduciary net position have been determined on the same basis as they are reported by the County. For this purpose, the County recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments that have a maturity at the time of the purchase of one year or less, which are reported at cost.

11. Unearned Revenues

Unearned revenues represent revenues, which are available but unearned. At September 30, 2022, the total amount of unearned revenues reported on the statement of net position for the governmental activities is \$24,991,117 and for the business-type activities is \$2,111,011.

12. Accrued Compensated Absences

The County accrues accumulated unpaid vacation and sick leave when earned by the employee. The current portion is the amount estimated to be used in the following year. The non-current portion is the amount estimated to be used in subsequent fiscal years. Both the current and non-current estimated accrued compensated absences amounts for governmental funds are maintained separately and represent a reconciling item between the fund and government-wide presentations.

13. Obligation for Bond Arbitrage Rebate

Pursuant to Section 148(f) of the U. S. Internal Revenue Code, the County must rebate to the United States Government the excess of interest earned from the investment of certain debt proceeds and pledged revenues over the yield rate of the applicable debt. The County uses the "revenue reduction" approach in accounting for rebatable arbitrage. This approach treats excess earnings as a reduction of revenue. The County has no arbitrage liability outstanding as of September 30, 2022.

14. Landfill Closure Costs

Under the terms of current state and federal regulations, the Solid Waste Disposal District (SWDD) is required to place a final cover on closed landfill areas, and to perform certain monitoring and maintenance functions for a period of up to thirty years after closure. The SWDD recognizes these costs of closure and post-closure maintenance over the active life of each landfill area, based on landfill capacity used during the period. Required obligations for closure and post-closure costs are recognized in the Solid Waste Disposal District Enterprise Fund.

15. Unamortized Bond Discounts and Premiums

Bond discounts and premiums associated with the issuance of proprietary fund revenue bonds are amortized according to the straight-line method over the remaining life of the bonds. For financial reporting, unamortized bond discounts and premiums are netted against the applicable long-term debt.

16. Capital Contributions

The capital contributions accounted for in the proprietary fund types represent contributions from other funds, developers, state and federal grant programs, and impact fees charged to new customers for their anticipated burden on the existing system. The contributions amount is reported after non-operating revenues and expenses on the Statement of Revenues, Expenses, and Changes in Fund Net Position in accordance with GASB Statement 33. Capital contributions for the governmental funds are reported on the Statement of Activities in accordance with GASB Statement 34 and represent contributions of capital assets from developers and state agencies.

17. Leases

The County is a lessee for noncancellable leases of land, buildings and equipment. A lease liability and an intangible right-to-use asset are recognized in the government-wide financial statements. The lease liability is initially measured at the present value of the payments expected to be made during the lease term. The lease asset is initially measured as the initial amount of lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial costs, and is amortized on a straight-line basis over its useful life.

17. Leases - Continued

The County is a lessor for noncancellable leases of cellular towers and office space. A lease receivable and a deferred inflow of resources are recognized in the Government-wide, Governmental Fund, and Proprietary Fund financial statements. The lease receivable is initially measured at the present value of payments expected to be received during the lease term. The lease receivable is then reduced by the principal portion of the lease payments. The deferred inflow of resources is measured as the initial amount of the lease receivable, adjusted for prepaid lease payments received at lease inception. Subsequently, the deferred inflow of resources is recognized over the life of the lease term.

Key estimates and judgments related to leases include the determination of the (1) discount rate, (2) lease term, and (3) lease payments. The County monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability. Additional information is provided in Note 16.

18. New Accounting Pronouncement

The County implemented Governmental Accounting Standards Board (GASB) Statement No. 87, *Leases*. The objective of this Statement is to better meet the informational needs of financial statement users by improving accounting and financial reporting for leases by governments. See Note 16 for further information on leases.

NOTE 2 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Budgets and Budgetary Accounting

The County uses the following procedures in establishing the budgetary data:

(1) The constitutional officers submit, at various times, to the Board and to certain divisions within the Florida Department of Revenue and the Florida Clerks of Court Operations Corporation, a proposed operating budget for the following fiscal year. The operating budget includes proposed expenditures and the means of financing them, as set forth in Chapter 129 of the Florida Statutes.

NOTE 2 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY - Continued

Budgets and Budgetary Accounting - Continued

(2) The Department of Revenue, State of Florida, has the final authority on the operating budgets for the Tax Collector and the Property Appraiser included in the General Fund.

(3) Constitutional officers, all departments controlled by the Board, and outside state and local agencies submit their proposed budgets to the Office of Management and Budget for assistance, review and compilation. The County Administrator then reviews all County departments, state agencies and nonprofit organization's budgets and makes his budget recommendation to the Board.

(4) On or before July 15 of each year, the County Administrator and the Director of the Office of Management and Budget, as the Board's designated budget officer, submit to the Board a tentative budget for the ensuing fiscal year. The tentative budget includes proposed expenditures and the means of financing them. The Board then holds workshops to review the tentative budget by fund on a departmental level.

(5) During September, public hearings are held pursuant to Section 200.065 of the Florida Statutes in order for the Board to receive public input on the tentative budget. At the end of the last public hearing, the Board enacts ordinances to legally adopt the budgets at the fund level. The budgets legally adopted by the Board set forth the anticipated revenues by source and the appropriations by function.

(6) Formal budgetary integration on an object level is used as a management control device for the governmental and proprietary funds of the County. Management is authorized to transfer budgeted amounts between objects and departments in any fund as long as management does not exceed the total appropriations of a fund. Board approval to amend the budget is only required when unanticipated revenues are received that management wishes to have appropriated, thereby increasing the total appropriations of a fund.

(7) Budgets for the governmental and proprietary fund types are adopted on a basis consistent with generally accepted accounting principles.

(8) Appropriations for the County lapse at the close of the fiscal year. Unexpected ongoing project costs may be appropriated in the new fiscal year through a budget amendment.

A. Deposits

At September 30, 2022, the carrying amount of the primary government’s deposits, including \$16,548,156 in the Custodial Fund, was \$87,114,087, and the bank balance was \$92,490,953. The County’s policy requires all deposits with financial institutions to be 100% insured by federal depository insurance or by collateral provided by qualified public depositories to the State Treasurer, in accordance with Chapter 280, Florida Statutes, also known as the Florida Security for Public Deposits Act. The Act established a Trust Fund, maintained by the State Treasurer, which is a multiple financial institution pool with the ability to assess its member financial institutions for collateral shortfalls if a member fails.

B. Accrued Interest

Interest earnings on U.S. Treasury Notes and government agency bonds are recorded in the cash and investment pools and then allocated to each fund based on each fund’s average monthly balance. As of September 30, 2022, accrued interest for the County’s portfolio totaled \$483,088. The remaining accrued interest is reflected in utilities and road paving assessments.

Fair Value Measurement

The County categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of assets, as determined by the County's investment advisors. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The County's fair value measurements for U.S. Treasuries and U.S. Agencies are categorized as Level 2 and are valued by the County's custodian bank using independent pricing services based on the type of asset.

The pricing services may use valuation models or matrix pricing, which consider benchmark yields, reported trades, broker/dealer quotes, benchmark securities, bids or offers, and reference data. Florida PRIME is valued at amortized cost. There are no restrictions or limitations on withdrawals, however, Florida PRIME may, on the occurrence of an event that has material impact on liquidity or operations, impose restrictions on withdrawals for up to 48 hours. The County's investments in the Florida Cooperative Liquid Assets Securities Systems (FLCLASS), Florida Short Term Asset Reserve (FLSTAR) and the Florida Trust Day to Day Fund, all external local government investment pools organized under the laws of the State of Florida, are presented at Net Asset Value (NAV), which reflects fair value. The objectives of the FLCLASS, FLSTAR and Florida Trust are to generate investment income while maintaining safety and liquidity. There were no unfunded commitments as of September 30, 2022. Investments may be redeemed weekly/daily based on similar investments of other clients.

Interest Rate Risk

The County's investment policy limits interest rate risk by attempting to match investment maturities with known cash needs and anticipated cash flow requirements. All investments must have stated maturities of ten (10) years or less and no more than 25% of the portfolio shall be invested in instruments with stated final maturities greater than five (5) years. The portfolio shall have securities with varying maturity and at least 10% of the portfolio shall be invested in readily available funds. All constitutional officers with the exception of the Tax Collector and Clerk of Circuit Court and Comptroller (Clerk) follow this policy. The Tax Collector's policy is to limit maturities to 24 months or less. The Clerk's policy is to limit maturities to three years or less and maintain at least 50% of the portfolio in readily available funds.

Credit Risk

Florida Statutes Section 218.415 limit investments to the following:

1. Direct obligations of the United States Treasury;
2. Florida PRIME;
3. Florida Local Government Investment Trust Funds (Florida Trust);
4. Interest-bearing time deposits or savings in qualified public depositories as defined in Section 280.02 Florida Statutes;

Concentration Risk

The Indian River County Board of County Commissioners, the Clerk of the Circuit Court and Comptroller, and the Tax Collector follow their own investment policies. The policies have established asset allocation and issuer limits to reduce concentration of credit risk. Their investments are stated at fair value.

The County's investment policy does not allow for more than 20% of the entire portfolio to be invested in any one issuer, with the exception of United States Treasury Obligations and state authorized pools. No more than 10% of the portfolio may be placed in certificates of deposit (CD) and no more than \$6.5 million of the portfolio may be placed in certificates of deposit with any one financial institution. No more than 10% of the entire cash and investment portfolio may be placed in any one money market fund, mutual fund, or intergovernmental investment pool.

Pledge of Revenues - The principal and interest on the Series 2001 bonds are payable from and secured by a first lien upon and pledge of the following, together with any investment income realized on any funds held under the Resolution, except the Cost of Issuance Account and the Rebate Fund:

1. Payments received by the County from the State of Florida pursuant to Section 212.20, Florida Statutes; and
2. The Fourth Cent Tourist Development Tax levied by the County in Ordinance No. 2000-029, enacted pursuant to Section 125.0104(3)(1), Florida Statutes; and
3. Eighty-six percent (86%) of the Local Government Half-Cent Sales Tax distributed to the County, pursuant to Chapter 218, Part VI, Florida Statutes.

The foregoing are collectively referred to herein as the “pledged revenues”. These revenue streams are pledged for the remaining term of the bonds and are listed on Schedule 25 in the statistical section.

The Fourth Cent Tourist Development Tax and the Local Government Half-Cent Sales Tax pledged to the payment of debt service on the Series 2001 bonds were automatically released as pledged revenue for the Series 2001 bonds immediately following the April 1, 2021 principal payment on the Series 2001 bonds.

On February 26, 2019, the County elected a partial redemption of the bonds outstanding and maturing on 2021 and 2031. The principal amount of the redeemed bonds totaled \$1,125,000. The net economic gain was \$91,579 and will be amortized over the remaining life of the debt. The unamortized balance as of September 30, 2022 is \$65,499 and is reflected as a deferred outflow of resources on the government-wide Statement of Net Position.

The current principal and interest payments of \$475,375 represent 95% of the State subsidy pledged revenues. The total principal and interest remaining to be paid on the bonds is \$4,067,250.

NOTE 12 - PROVISION FOR CLOSURE COSTS

Current regulations of the U.S. Environmental Protection Agency (EPA) and the Florida Department of Environmental Protection (FDEP) require the Solid Waste Disposal District (SWDD) to place a final cover on closed landfill areas, and to maintain those areas for up to thirty years after closure. The SWDD annually obtains updated and revised estimates of total future closure and post-closure costs from its consulting engineers. The SWDD recognizes the expenses associated with the final closure and post-closure maintenance of the landfill areas over the active life of those areas. The provision for closure costs reported in the financial statements as operating expense represents the portion of these estimated future outlays which are allocable to the current year based on the amount of capacity used.

The total unrecognized closure and post-closure costs are approximately \$11.4 million. These costs will be recognized in future periods as the remaining capacity is filled. The County’s policy is to fund 100% of the current year’s allocation (based upon the consulting engineers’ report) of both closure and post-closure care.

Required closure and post-closure sub-accounts:

	Capacity Used	Estimated Closing	Amount
<u>Closure Costs</u>			
Class I - Segment III, Cell II	16%	2030	\$ 5,027,752
Construction and Demolition	92%	2028	1,199,866
<u>Post-closure Costs</u>			
Class I - Segments I and II	N/A	N/A	2,363,435
Construction and Demolition	N/A	N/A	129,488
Total account balance at 9/30/22			\$ 8,720,541

All amounts recognized are based on what it would cost to perform all closure and post-closure functions in current dollars. Actual costs may be different due to inflation, deflation, changes in technology, or changes in laws and regulations. The SWDD is required by FDEP to annually show proof of ability to finance closure and post-closure costs. The SWDD is making annual deposits to a closure and post-closure cost escrow account to provide for the financing of future closure-related expenses. At September 30, 2022, \$8,705,429 was on deposit at the Florida Cooperative Liquid Assets Securities System (FLCLASS) and \$15,112 was on deposit in the County’s Operating account.

A summary of changes in the landfill closure liability account is as follows:

	Balance 10/1/2021	Deposits	Withdrawals	Balance 09/30/22
Closure and long-term care costs	\$ 7,506,025	\$ 2,022,338	\$ (807,822)	\$ 8,720,541

Of the \$8,720,541 liability for closure and long-term care costs, management estimates that \$1,000,000 will be due and payable within one year.

NOTE 13 - POLLUTION REMEDIATION

In accordance with GASB Statement 49, *Accounting and Financial Reporting for Pollution Remediation Obligations*, a consultant evaluated two sites to assess pollution remediation liabilities. The consultant calculated for each site an expected value (EV) estimate for pollution remediation based on three plausible mitigation scenarios. An obligating event occurred at each of the following sites requiring the County (using the consultant’s services) to attempt to accrue a liability for pollution remediation. The liability totaled \$1,683,000 at September 30, 2022 for both sites. Of the \$1,683,000 liability for pollution remediation, management estimates that \$136,533 will be due and payable within one year. The pollution remediation obligation is an estimate and subject to changes resulting from price increases and reductions, technology, and changes in applicable laws or regulations. There are no estimated recoveries that would reduce the liability.

Governmental Activities

South Gifford Road closed landfill - The nature of the pollution remediation obligation is chlorinated solvent contamination. The consultant will conduct monitoring, bioremediation and reporting with the FDEP. The amount of the estimated year end liability is \$1,610,000 and will be paid from the Optional Sales Tax Fund.

NOTE 14 - RETIREMENT PLAN

General Information: All of the County's employees participate in the Florida Retirement System (FRS). As provided by Chapters 121 and 112, Florida Statutes, the FRS provides two cost sharing, multiple-employer defined benefit plans administered by the Florida Department of Management Services, Division of Retirement, including the FRS Pension Plan (Pension Plan) and the Retiree Health Insurance Subsidy (HIS Program). Under Section 121.4501, Florida Statutes, the FRS also provides a defined contribution plan (Investment Plan) alternative to the FRS Pension Plan, which is administered by the State Board of Administration (SBA). As a general rule, membership in the FRS is compulsory for all employees working in a county, state university, community college, or a participating city or special district within the State of Florida. The FRS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefits are established by Chapter 121, Florida Statutes, and Chapter 60S, Florida Administrative Code. Amendments to the law can be made only by an act of the Florida State Legislature.

The State of Florida annually issues a publicly available financial report that includes financial statements and required supplementary information for the FRS. The latest available report may be obtained by writing to the State of Florida Division of Retirement, Department of Management Services, P.O. Box 9000, Tallahassee, Florida 32315-9000, or from the web site: www.dms.myflorida.com/workforce_operations/retirement/publications.

Pension Plan - Continued

Benefits Provided: Benefits under the Pension Plan are computed on the basis of age, average final compensation, and service credit. For Pension Plan members enrolled before July 1, 2011, Regular class members who retire at or after age 62 with at least six years of credited service or 30 years of service regardless of age are entitled to a retirement benefit payable monthly for life, equal to 1.6% of their final average compensation based on the five highest years of salary for each year of credited service. Vested members with less than 30 years of service may retire before age 62 and receive reduced retirement benefits.

Special Risk class members (sworn law enforcement officers, firefighters, and correctional officers) who retire at or after age 55 with at least 6 years of credited service, or with 25 years of service regardless of age, are entitled to a retirement benefit payable monthly for life equal to 3% of their final average compensation based on the 5 highest years of salary for each year of credited service.

Senior Management Service class members who retire at or after age 62 with at least 6 years of credited service or 30 years of service regardless of age are entitled to a retirement benefit payable monthly for life, equal to 2% of their final average compensation based on the 5 highest years of salary for each year of credited service.

Elected Officers' class members who retire at or after age 62 with at least 6 years of credited service or 30 years of service regardless of age are entitled to a retirement benefit payable monthly for life, equal to 3% (3.33% for judges and justices) of their final average compensation based on the 5 highest years of salary for each year of credited service.

For Plan members enrolled on or after July 1, 2011, the vesting requirement is extended to 8 years of credited service for all these members and increasing normal retirement to age 65 or 33 years of service regardless of age for Regular, Senior Management Service, and Elected Officers' class members, and to age 60 or 30 years of service regardless of age for Special Risk class members. Also, the final average compensation for all these members will be based on the eight highest years of salary.

As provided in Section 121.101, Florida Statutes, if the member is initially enrolled in the Pension Plan before July 1, 2011 and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is 3% per year. If the member is initially enrolled before July 1, 2011 and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost-of-living adjustment is determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by 3%.

NOTE 14 - RETIREMENT PLAN - Continued

Pension Plan - Continued

Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

In addition to the above benefits, the DROP program allows eligible members to defer receipt of monthly retirement benefit payments while continuing employment with a FRS employer for a period not to exceed 60 months after electing to participate. Deferred monthly benefits are held in the FRS Trust Fund and accrue interest. There are no required contributions by DROP participants.

Contributions: The State of Florida establishes contribution rates for participating employers and employees in section 121.71 Florida Statutes. Effective July 1, 2011, the FRS became a contributory plan for all members, except DROP participants, whereby members contribute 3% and employers pay a rate based upon each member's employment class. Classes and rates in effect at July 1, 2021 were: Regular class 11.91%, Special Risk 27.83%, Senior Management 31.57%, DROP 18.60%, and Elected Official class 57.00%. Included in these rates is a health insurance subsidy of 1.66%. Employer contributions to the FRS are based on a percentage of covered payroll that has been actuarially determined as an amount, when combined with the 3% employee contributions, is expected to finance the cost of benefits earned by employees during the year with an additional amount to finance any unfunded accrued liability.

The County's actuarial contribution to FRS under the Pension Plan for the year ended September 30, 2022, was \$15,947,661. Employee contributions for September 30, 2022 were \$2,786,881. Both employer and employee contributions were equal to 100% of the required contribution.

Pension Liabilities, Pension Expense, and Deferred Outflow of Resources and Deferred Inflow of Resources Related to Pension Plan: At September 30, 2022, the Division of Retirement calculated the County's liability of \$134,613,856 for the FRS plan for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2022. The County's proportionate share of the net pension liability was based on a projection of the County's long-term share of contributions to the Pension Plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2022, the County's proportionate share was 0.3618% for the FRS Pension Plan. This was an increase of 0.0075% from its proportionate share measured as of June 30, 2021.

The County anticipates that the pension liability will be liquidated in the following manner: General Fund 54 percent, Emergency Services District Fund 32 percent, Enterprise Funds 7 percent, and the remaining 7 percent is by the Other Governmental Funds and Internal Service Funds.

For the year ended September 30, 2022, the County's calculated total of actuarially determined pension expense was \$8,326,851. In addition, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Actuarial Assumptions: The total pension liability in the July 1, 2022 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Valuation date:	July 1, 2022
Measurement date:	June 30, 2022
Discount rate:	6.70%
Long-term expected rate of return:	6.70%, net of pension plan investment expense, including inflation
Inflation:	2.40%
Salary increase:	3.25%, including inflation
Mortality:	PUB-2010 base table, projected generationally with Scale MP-2018
Actuarial cost method:	Individual Entry Age

The actuarial assumptions that determined the total pension liability used in the July 1, 2022 valuation were based on the results of an actuarial experience study for the period July 1, 2013 through June 30, 2018.

The following changes in actuarial assumptions occurred in 2022:

- The long-term expected rate of return decreased from 6.80% to 6.70%.

Long-Term Expected Rate of Return: The long-term expected rate of return on pension plan investments are not based on historical returns, but instead are based on a forward-looking capital market economic model. The allocation policy's description of each class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based upon a consistent set of underlying assumptions and includes an adjustment for the inflation assumption. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

Strategic Investments	3.8%	6.2%	5.9%	7.8%
Total	<u>100%</u>			
Assumed inflation-mean			2.4%	1.3%

Discount Rate for Pension Plan: The discount rate used to measure the total pension liability was 6.70%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that the County's contributions will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Pension Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees if future experience follows assumptions and the actuarially determined contribution is contributed in full each year. Therefore, the discount rate for calculation of the total pension liability is equal to the long-term expected rate of return.

Sensitivity of the County's Proportionate Share of the Net Position Liability to Changes in the Discount Rate for the Pension Plan: The following presents the County's proportionate share of the net pension liability (NPL) of the Pension Plan calculated using the discount rate of 6.70%. Also presented is what the County's proportionate share of the FRS plan NPL would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current rate:

	1% Decrease (5.70%)	Current Discount Rate (6.70%)	1% Increase (7.70%)

Retiree Health Insurance Subsidy (HIS) Program

Plan Description: The HIS Program is a cost-sharing, multiple-employer, defined benefit pension plan established to provide a monthly subsidy payment to retired members of any state-administered retirement system. It was established under Section 112.363, Florida Statutes. Benefits are not guaranteed and are subject to annual legislative appropriation. In the event legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or canceled. The HIS Program is administered by the Florida Department of Management Services, Division of Retirement.

Benefits Provided: For the fiscal year ended September 30, 2022, eligible retirees and beneficiaries received a monthly HIS Program payment of \$5 for each year of creditable service completed. The payments are at least \$30 but not more than \$150 per month. To be eligible to receive a HIS Program benefit, a retiree under a state-administered retirement system must provide proof of health insurance coverage, which may include Medicare.

Contributions: The HIS Program is funded by required contributions from FRS participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended September 30, 2022, the HIS Program contribution rate was 1.66%. There are no employee contributions required. The County contributed 100% of its statutorily required contributions for the current and preceding three years. HIS Program contributions are deposited in a separate trust fund from which payments are authorized. The County's actuarial contributions to the HIS Program totaled \$1,661,617 for the fiscal year ended September 30, 2022.

Pension Liabilities, Pension Expense, and Deferred Outflow of Resources and Deferred Inflow of Resources Related to HIS Program: At September 30, 2022, the Division of Retirement calculated the County's liability of \$28,533,117 for its proportionate share of the HIS Program's net pension liability. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2022. At June 30, 2022, the County's proportionate share was 0.2694% for the HIS Program. This was an increase of 0.0073% from its proportionate share measured as of June 30, 2021.

For the year ended September 30, 2022, the County recognized pension expense of \$972,211. In addition, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

<u>Description</u>	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 866,049	\$ 125,548

The deferred outflows of resources related to HIS Program totaling \$425,965 resulting from County contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ended September 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to HIS Program will be recognized in pension expense as follows:

Actuarial Assumptions: The total pension liability for the HIS Program in the July 1, 2022 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Valuation date:	July 1, 2022
Measurement date:	June 30, 2022
Discount rate:	3.54%
Long-term expected rate of return:	N/A
Municipal bond rate:	3.54%
Inflation:	2.40%
Salary increase:	3.25% average, including inflation
Mortality:	PUB-2010 base table, projected generationally with Scale MP-2018
Actuarial cost method:	Individual Entry Age

The actuarial assumptions that determined the total HIS Program pension liability used in the July 1, 2022 valuation were based on the results of an actuarial experience study for the period July 1, 2013 through June 30, 2018. The following changes in actuarial assumptions occurred in 2022:

- The municipal rate used to determine the total pension liability increased from 2.16% to 3.54%.
- The demographic assumptions for the Special Risk class were updated to reflect plan changes due to HB5007, HB689, and SB838.
- The election assumption for vested terminated members was updated from 20% to 50% to reflect recent experience.

Discount Rate for HIS Program: In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS Program is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate. The single equivalent discount rate is equal to the municipal bond rate selected by the plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index.

Retiree Health Insurance Subsidy (HIS) Program - Continued

Long-term Expected Rate of Return: As stated above, the HIS Program is essentially funded on a pay-as-you-go basis. As such, there is no assumption for a long-term expected rate of return on a portfolio, no assumptions for cash flows into and out of the pension plan, or assumed asset allocation.

Sensitivity of the County's Proportionate Share of the Net Position Liability to Changes in the Discount Rate for the HIS Program: The following presents the County's proportionate share of the Net Pension Liability (NPL) of the HIS Program calculated using the discount rate of 3.54%. Also presented is what the County's proportionate share of the HIS Program NPL would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current rate:

	1% Decrease (2.54%)	Current Discount Rate (3.54%)	1% Increase (4.54%)
County's proportionate share of NPL	\$ 32,644,229	\$ 28,533,117	\$ 25,131,257

HIS Plan Fiduciary Net Position: Detailed information regarding the HIS Program's fiduciary net position is available in the separately issued FRS Pension Plan and Other State-Administered Systems Annual Comprehensive Financial Report. Box 9000, Tallahassee, Florida 32315-9000 or by email at rep@dms.myflorida.com, or by telephone toll free at (877) 377-1737 or (850) 488-5706.

Total Pension Liability - FRS Pension and HIS Program Combined

At September 30, 2022, the Division of Retirement calculated the County's total liability of \$163,146,973 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2022. At June 30, 2022, the County's total proportionate share was 0.6312%. This was an increase of 0.0148% from its proportionate share measured as of June 30, 2021.

FRS Investment Plan

Plan Description: The County contributes to the Investment Plan, a defined contribution pension plan, for its eligible employees electing to participate in the Investment Plan. The Investment Plan is administered by the State Board of Administration (SBA), and is reported in the SBA's annual financial statements and in the State of Florida Annual Comprehensive Financial Report. As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS defined benefit plan. County employees already participating in DROP are not eligible to participate in this program.

Benefits Provided: Service retirement benefits are based upon the value of the member's account upon retirement. Employers and employee contributions, including amounts contributed to individual member's accounts, are defined by law, but the ultimate benefit depends in part on the performance of investment funds. Benefit terms, including contribution requirements, for the Investment Plan are established and may be amended by the Florida Legislature.

For all membership classes, employees are immediately vested in their own contributions and are vested after one year of service for employer contributions and investment earnings. Nonvested employer contributions are placed in a suspense account for up to five years. If the employee returns to FRS-covered employment within the five year period, the employee will regain control over his/her account. If the employee does not return within the five-year period, the employee will forfeit the accumulated account balance. For fiscal year ended September 30, 2022, the information for the amount of forfeitures was unavailable from the SBA; however, management believes that these amounts, if any, would be immaterial to the County.

If an accumulated benefit obligation for service credit originally earned under the Pension Plan is transferred to the Investment Plan, the member must have the years of service required for Pension Plan vesting (including the service credit represented by the transferred funds) to be vested for these funds and the earnings on the funds.

After termination and applying to receive benefits, the member may rollover vested funds to another qualified plan, structure a periodic payment under the Investment Plan, receive a lump-sum distribution, leave the funds invested for future distribution, or any combination of these options. Disability coverage is provided; the member may either transfer the account balance to the FRS Pension Plan when approved for disability retirement to receive guaranteed lifetime monthly benefits under the FRS Pension Plan, or remain in the Investment Plan and rely upon that account balance for retirement income.

FRS Investment Plan - Continued

Contributions: Cost of administering the Investment Plan, including the FRS Financial Guidance Program, are funded through an employer contribution of .06% of payroll and by forfeited benefits of Investment Plan members. The Investment Plan is funded with the same employer and employee contribution rates that are based on salary and membership class as the FRS defined benefit plan. Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances to various approved investment choices.

Allocations to the investment member's accounts during the 2021-2022 fiscal year are based on a percentage of gross compensation by class as follows: Regular class 9.30%, Special Risk class 17.00%, Senior Management Service class 10.67%, and County Elected Officers' class 14.34%. This includes the employee contribution of 3%.

The County's Investment Plan contributions and pension expense totaled \$3,086,781 for fiscal year ended September 30, 2022. Employee contributions totaled \$563,548 for the same period.

NOTE 15 - OTHER POSTEMPLOYMENT BENEFITS PLAN (OPEB)

A. Plan Description

On September 23, 2008, the Board of County Commissioners approved resolution number 2008-163, establishing an irrevocable trust (OPEB Trust) to separately identify assets accumulated to pay OPEB benefits for eligible retirees. The OPEB Trust includes the Board of County Commissioners and the five constitutional officers (Clerk of the Circuit Court and Comptroller, Property Appraiser, Sheriff, Supervisor of Elections, and Tax Collector). The resolution also established the Board of County Commissioners as trustees of the OPEB Trust and the authority for the trustees to amend the benefit provisions.

The OPEB Trust is a single-employer defined benefit plan (OPEB Plan). The OPEB Plan subsidizes the cost of health care for employees hired prior to February 1, 2006 and their eligible dependents according to the provisions of the substantive plan (the plan as understood by the employer and plan members). Employees hired on or after February 1, 2006, will not be eligible for any subsidy, regardless of the years of service or Medicare eligibility.

Active participants as well as retirees are subject to the same benefits and rules. Retired employees are permitted to remain covered under the County's medical and life insurance plans as long as they pay a premium applicable to the coverage elected. This conforms to the minimum required of Florida governmental employers per Florida Statute 112.0801. The retiree has the option to continue with the County group health plan or elect Medicare Advantage Plan.

The implicit rate subsidy applies to health and life insurance coverage since the premiums charged are based upon a blending of younger active employees and older retired employees. Health insurance monthly premiums, effective October 1, 2021, range from \$257 for single coverage Medicare participants to \$1,297.50 for family coverage. Life insurance is available to retirees at a flat rate of \$.75 per \$1,000 of coverage (to a maximum of \$20,000 until the age of 70). After 70, the maximum amount of life insurance is \$10,000.

NOTE 15 - OTHER POSTEMPLOYMENT BENEFITS PLAN (OPEB) - Continued

A. Plan Description - Continued

The County subsidizes the cost of the health premiums for each retiree based upon their years of service and employment date (as mentioned above); a 2% discount is given for each year of service based upon the following table:

Hired Before 2/1/2006				Hired On or After 2/1/2006
Retirement Date	Service	Under Age 65	Retiree or Spouse Medicare Eligible***	
Before 1/31/2009**	Less than 15 years	No Subsidy	20% Subsidy*	No Subsidy
	At least 15 years	2% per Year of Service (maximum of 40%)	Additional 20% Subsidy (maximum of 60%)*	
On or After 1/31/2009**	Less than 15 years	No Subsidy	No Subsidy	
	At least 15 years	2% per Year of Service (maximum of 40%)	Subsidy Ceases	

*Additional Subsidy will be paid to Medicare Eligible retirees regardless of which plan they are enrolled in (County's medical plan or Medicare Advantage Plan) and regardless of whether they become Medicare Eligible before or after October 1, 2004.

**Employees who commit by June 1, 2008 to retire before January 31, 2009 will receive subsidy as if retired before June 1, 2008.

***Effective May 1, 2016 and prospectively, subsidy does not cease until both Retiree and Spouse are Medicare eligible.

At October 1, 2021, the date of the latest actuarial valuation, plan participation consisted of:

Active participants	1,565
Retired participants	<u>543</u>
Total participants	<u><u>2,108</u></u>

There are two classes of participants at October 1, 2021:

Regular and senior management	1,357

Total participants	<u><u>2,108</u></u>

The average employer's contribution was \$719 per employee, approximately 1.13% of current payroll. Financial statements for the OPEB Trust are included in this report and can be found on pages 46-47. A separate, stand-alone financial report is not issued by the County. The OPEB Trust investments can be found in Note 3D.

B. Contributions and Funding Policy

The Board of County Commissioners, in concert with the OPEB Board of Trustees, has the authority to establish and amend the funding policy of the OPEB Plan. The OPEB Trust is advance funded by the County. For the year ended September 30, 2022 the County contributed \$1.1 million to the qualifying OPEB Trust. Plan members benefit payments totaled \$3.1 million. The County anticipates that the OPEB liability will be liquidated in the following manner: General Fund 53 percent, Emergency Services District Fund 31 percent, Enterprise Funds 7 percent, Internal Service Funds 1 percent, and the remaining 8 percent is by the Other Governmental Funds. It is the County's policy to base future OPEB Trust contributions on the annual required contribution (ARC) in subsequent annual actuarial reports. Custodial and individual fund administrative fees are paid from the portfolio dividend and interest income.

C. Net OPEB Liability

The County's net OPEB liability was measured as of October 1, 2021 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. Roll-forward reports were completed at fiscal year-end. The components of the net OPEB liability of the County at September 30, 2022, were as follows:

Total OPEB liability	\$ 34,934,061
Plan fiduciary net position	<u>(28,937,442)</u>
County's net OPEB liability	<u>\$ 5,996,619</u>

Plan fiduciary net position as a percentage of the total OPEB liability	82.83%
---	--------

D. Actuarial Methods and Assumptions

The total OPEB liability was determined by an actuarial valuation as of October 1, 2021, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Methods and Assumptions Used to Determine Net OPEB Liability:

Actuarial Cost Method	Entry age normal
Inflation	2.25%
Discount Rate	6.00%
Salary Increases	3.4% to 7.8%, including inflation, varies by plan type and years of service.
Retirement Age	Experience-based table of rates that are specific to the plan and type of eligibility condition.
Mortality	Mortality tables used in the July 1, 2020 actuarial valuation of the Florida Retirement System. They are based on the results of a statewide experience study covering the period 2013 through 2018.

E. Discount Rate - Continued

Calculation of the Single Discount Rate - Continued

The Single Discount Rate (SDR) is equivalent to applying these two rates to the benefits that are projected to be paid during the different time periods. The SDR reflects (1) the long-term expected rate of return on OPEB Plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits) and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of this valuation the expected rate of return on OPEB Plan investments is 6.00%, the municipal bond rate is 4.40%; and the resulting SDR is 6.00%. The County has adopted a broadly diversified investment portfolio composition consisting of equity, debt, and cash. Asset allocations are divided between short-term and long-term investments. Short-term asset allocations include cash and investments with maturities of 180 days or less. Long-term asset allocations range from 0-60% for equities, 0-60% for fixed income securities, and 0-100% for cash.

The County has a policy and a track record of depositing the full amount of the Actuarially Determined Contribution developed under the Entry Age Method. Consequently, the plan's fiduciary net position is projected to be sufficient to pay benefits and the resulting SDR is 6.00%.

F. Sensitivity of Net OPEB Liability

Regarding the sensitivity of the net OPEB liability to changes in the SDR, the following presents the plan's net OPEB liability, calculated using a SDR of 6.00%, as well as what the plan's net OPEB liability would be if it were calculated using a SDR that is 1% lower or 1% higher:

NOTE 17 - FUND BALANCE

GASB Statement 54, *Fund Balance Reporting and Governmental Funds Type Definitions*, requires the fund balance for governmental funds to be reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

A. Categories

There are five categories of fund balance for governmental funds under Statement 54:

Nonspendable - Amounts that cannot be spent because they are not in spendable form or are legally or contractually required to remain intact.

Restricted - Use of these resources is based on the constraints imposed externally by creditors, grantors, contributors, or laws and regulations of other governments; or imposed by law through constitutional provisions or enabling legislation.

Committed - Amounts whose use is constrained by the approval of a County ordinance by the Board of County Commissioners. This category also includes existing resources on hand to satisfy the obligations that arise from contractual obligations entered into by the Board of County Commissioners.

Assigned - The Board of County Commissioners is the governing body authorized to assign fund balance amounts to be used for specific purposes. This assignment is done through the budget approval and amendment process. Amounts appropriated to eliminate a budgetary deficit in a subsequent year are reported in this category as well.

Unassigned - Residual amounts in the general fund that do not meet any of the other fund balance classifications.

B. Fund Balance Policy

On September 21, 2010, the County approved a Fund Balance and Reserve Policy that set forth the following reserves of fund balance in the General, Transportation, and Emergency Services District Funds:

Emergency/Disaster Relief Reserve - A balance of no less than 5% of budgeted operating expenditures for the current fiscal year will be reserved only for the purpose of responding to natural and man-made disasters. Disasters include: hurricanes, tropical storms, floods, wildfires, or terrorist activities. These funds can only be used to respond and provide relief after such a disaster. Funds will be replenished over a five-year period after the completion of the recovery from the disaster.

NOTE 17 - FUND BALANCE - Continued

B. Fund Balance Policy - Continued

Budget Stabilization Reserve - A balance of no less than 5% of budgeted operating expenditures for the current fiscal year will be reserved only for the purpose of revenue declines or unfunded mandates from the state and federal governments. Funds utilized due to revenue declines will be replenished over a five-year period. Funds utilized for unfunded mandates or unanticipated expenditures cannot be used for more than a three-year period and must be replenished within five-years after the three-year period.

At September 30, 2022, reserve amounts for those funds were:

	Disaster Relief	Budget Stabilization	Total
General Fund	\$ 8,250,000	\$ 8,250,000	\$ 16,500,000
Transportation Fund	1,000,000	1,000,000	2,000,000
Emergency Services District Fund	2,600,000	2,600,000	5,200,000
Total	\$ 11,850,000	\$ 11,850,000	\$ 23,700,000

The General Fund reserves are included in the unassigned fund balance on the balance sheet. The Transportation Fund reserves are included in the assigned fund balance and the Emergency Services District Fund reserves are included in the restricted fund balance on the balance sheet. Emergency/Disaster Relief and Budget Stabilization Reserve amounts may only be revised by the Board of County Commissioners.

Minimum Fund Balance - The approved fund balance policy dictates the County’s attempt to maintain a minimum fund balance in the General, Transportation, and Emergency Services District funds of 20% of budgeted annual operating expenditures. The minimum fund balance level may be revised by the County Administrator or his designee.

C. Spending Hierarchy

For all governmental funds, when restricted, committed, assigned, and unassigned fund balances are combined in a fund, qualified expenditures are paid first from restricted or committed fund balance, as appropriate, then assigned and finally unassigned fund balances.

The CDBG Neighborhood Stabilization Program Fund and the Metropolitan Planning Organization Fund, both nonmajor governmental funds, had a deficit in fund balance of \$49,747 and \$9,641 respectively. These fund balance deficits will be eliminated by grant proceeds in fiscal year 2023.

NOTE 18 - NET POSITION

A. Net Position Restricted by Enabling Legislation

The government-wide statement of net position for the primary government reports \$196,881,031 of restricted net position, of which \$98,958,790 is restricted by enabling legislation.

NOTE 19 - RISK MANAGEMENT

NOTE 19 - RISK MANAGEMENT - Continued

General Liability, Property, Worker’s Compensation and Medical - Continued

All departments of the County participate in the program. Payments are made by various funds to the Self Insurance Fund based on past experience and actual estimates of the amounts needed to pay current year claims. The County purchases excess insurance to cover claims in excess of the amounts listed above. There is a 5% deductible per location for property damages arising due to a hurricane under the reinsurance policy.

The County is also self insured for medical claims covering employees and their eligible dependents. As required by Section 112.081, Florida Statutes, retirees and their eligible dependents are provided the same health care coverage as is offered to active employees; however, the retirees are responsible for payment of the premiums. Medical claims are paid from premiums contributed by employees, retirees and by the County. Premiums and contributions are determined by projected claims based on historical and actuarial experience. The self insurance medical plan assumes all risk for claims, other than worker’s compensation, up to \$300,000 per occurrence.

The claims liability of \$10,361,233 reported at September 30, 2022, is based on the requirements of generally accepted governmental accounting standards, which require that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements, and the amount of the loss can be reasonably estimated. Estimates for claims incurred but not reported are actuarially determined and recorded. Based on the actuary’s report, \$3,292,000 will be liquidated over the next twelve months.

Changes in the fund’s claim liability amount during the current and prior three fiscal years are as follows:

	Balance at Fiscal Year Beginning	Claims and Changes in Estimates	Claims Payments	Balance at Fiscal Year End
2018-2019	\$ 8,439,000	\$ 25,995,950	\$ (26,180,950)	\$ 8,254,000
2019-2020	8,254,000	23,627,530	(23,937,530)	7,944,000
2020-2021	7,944,000	29,700,049	(28,234,444)	9,409,605
2021-2022	9,409,605	23,325,116	(22,373,488)	10,361,233

Included in the charges to other funds is an amount to fund future catastrophic losses not actuarially determined and at September 30, 2022, unrestricted net position of \$25,187,256 has been designated for this purpose.

NOTE 20 - COMMITMENTS AND CONTINGENCIES

A. Litigation

Various suits and claims are currently pending against the County. It is impossible for the County to accurately quantify the exposure involved given the jury's latitude in assessing compensatory and punitive damages, and the court's latitude in awarding attorney's fees. The County intends to vigorously defend against these lawsuits and believes it has a good chance of prevailing on their merits. The County is contingently liable with respect to lawsuits and other claims incidental to the ordinary course of its operations. In the opinion of management and based on the advice of legal counsel, the ultimate disposition of lawsuits will not have a material adverse effect on the financial position of the County.

B. Contracts and Other Commitments

The County has various contracts and commitments outstanding at September 30, 2022. In the General Fund, contracts are for janitorial services, beach park landscape and custodial maintenance, legislative consulting services and external auditing services. In the Special Revenue Funds, contracts include resurfacing from 53rd Street to the Merrill Barber Bridge, beach profile surveys and monitoring, 6th Avenue pavement reclamation and resurfacing, several conservation area improvements as well as a variety of other road paving and drainage projects. In the Capital Projects Fund, contracts are for intersection improvements at State Road 60 and 43rd Avenue, 66th Avenue roadway improvements from 49th to 69th Street, Moorhen Marsh Low Energy Aquatic Plant System, and several sidewalk and road improvement projects throughout the County. In the Enterprise Funds, contracts are for golf course maintenance, South County Water Treatment Plant improvements, Countywide meter replacement program, Roseland elevated storage tank conversion, pump station and water transmission main, North County Water and Sewer Project Phase II, and various other water and sewer projects. In the Internal Service Funds, contracts are for benefit administration services and GIS aerial imagery.

General	\$ 1,912,359	\$ (607,200)	\$ 1,305,159

Total	\$ 139,406,774	\$ (72,964,534)	\$ 66,442,240

C. Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies. If any expenditures are disallowed as a result of these audits, the claims for reimbursement to the grantor agency would become a liability of the County. In the opinion of management, any such adjustments would not be significant.

NOTE 21 - SUBSEQUENT EVENTS

On November 8, 2022, a referendum was approved by County voters to issue up to \$50,000,000 in general obligation bonds for the purchase and preservation of environmentally sensitive lands within the County. It is anticipated that debt issuance will occur in fiscal year 2023, with debt payments to begin in fiscal year 2024.

All taxes are due and payable on November 1 of each year or as soon thereafter as the assessment roll is certified and delivered to the Tax Collector. All unpaid taxes become delinquent on April 1 following the year in which they are assessed. Discounts are allowed for early payment at the rate of 4% in the month of November, 3% in the month of December, 2% in the month of January and 1% in the month of February. The taxes paid in March are without discount.

(1) On or prior to June 1 following the tax year, certificates are sold for all delinquent taxes on real property. After the sale, tax certificates bear interest of 18% per year or at any lower rate bid by the buyer. Application for a tax deed on any unredeemed tax certificates may be made by the certificate holder after a period of two years. Unsold certificates are held by the County.

Delinquent taxes on personal property bear interest of 18% per year until the tax is satisfied either by seizure and sale of the property or by the seven year statute of limitations. The County does not accrue its portion of the County-held certificates due to the immaterial amount.

Total property tax collections differ from actual collections reported on Schedule 5 due to the exclusion of interest earnings on collections of \$9,234.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

March 9, 2023

The Honorable Board of County Commissioners
and Constitutional Officers
Indian River County, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial statements contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of **Indian River County, Florida** (the "County"), as of and for the year ended September 30, 2022, and the related notes to the financial statements, collectively comprise the County's basic financial statements and have issued our report thereon dated March 9, 2023.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

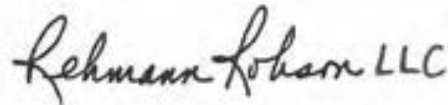

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion.

The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

In connection with our audit, we did not note any special district component units that failed to provide the necessary information for proper reporting in accordance with Section 218.39(3)(b), Florida Statutes. Management has provided the specific information required by Section 218.39(3)(c) in the Statistical Section of the Annual Comprehensive Financial Report.

Additional Matters

Section 10.554(1)(i)3., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material, but which warrants the attention of those charged with governance. Indian River County, Florida

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of **Indian River County, Florida** (the "County") as of and for the year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the County's basic financial statements. We issued our report thereon dated March 9, 2023, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards and state projects is presented for purposes of additional analysis as required by *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements of Federal Awards (Uniform Guidance)*, and Chapter 10.550, Rules of the Auditor General, and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditure of federal awards and state projects is fairly stated in all material respects in relation to the basic financial statements as a whole.

Indian River County, Florida
Notes to Schedule of Expenditures of Federal Awards and State Projects
For the Fiscal Year Ended September 30, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies and presentation of the Single Audit Report of Indian River County, Florida, (the County) have been designed to conform to generally accepted accounting principles as applicable to governmental units. This includes the reporting and compliance requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and other applicable guidance.

A. Reporting Entity

The reporting entity consists of Indian River County, the primary government, and each of its component units. The County includes a Schedule of Expenditures of Federal Awards and State Projects in the Compliance Section.

B. Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus. The Schedule of Expenditures of Federal Awards and State Projects is maintained on a modified accrual basis of accounting for governmental funds and a full accrual basis for proprietary funds, which is explained further in the notes to the financial statements. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, and other applicable guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

C. Program Clusters

The Uniform Guidance defines a cluster of programs as a grouping of closely related programs that share common compliance requirements. According to this definition, similar programs deemed to be a cluster of programs are tested accordingly.

D. Contingencies

Grant revenue amounts received by the County are subject to audit and adjustment by the grantor agencies. Such audits may result in requests for reimbursement by the grantor agency. Any adjustments to grant funding are recorded in the year the adjustment occurs.

NOTE 2 - INDIRECT COST RATES

In the absence of a negotiated federal indirect cost rate, the County has elected to use a de minimis rate of 10% of modified total direct costs.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR
FEDERAL PROGRAM AND MAJOR STATE PROJECT AND ON INTERNAL CONTROL
OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE AND
CHAPTER 10.550, RULES OF THE AUDITOR GENERAL**

March 9, 2023

Honorable Board of County Commissioners
and Constitutional Officers
Indian River County, Florida

Report on Compliance for Each Major Federal Program and State Project

Opinion on Each Major Federal Program and State Project

We have audited the compliance of Indian River County, Florida (the "County") with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement*, and the requirements described in the Department of Financial Services' *State Projects Compliance Supplement*, that could have a direct and material effect on each of the County's major federal programs and state projects for the year ended September 30, 2022. The County's major federal programs and state projects are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs and state projects for the year ended September 30, 2022.

Basis for Opinion on Each Major Federal Program and State Project

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and Chapter 10.550, Rules of the Auditor General. Our responsibilities under those standards, the Uniform Guidance, and Chapter 10.550 are further described in the Independent Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the County and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program and state project. Our audit does not provide a legal determination of the County's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the County's federal programs and state projects.

Independent Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the County's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the County's compliance with the requirements of each major federal program and state project as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, the Uniform Guidance, and Chapter 10.550, Rules of the Auditor General, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the County's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of the County's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Independent Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Purpose of this Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and Chapter 10.550, Rules of the Auditor General. Accordingly, this report is not suitable for any other purpose.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Independent Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Supervisor of Elections and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Board's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Independent Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Board's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Board's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated March 9, 2023, on our consideration of the Board's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Board's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Board's internal control over financial reporting and compliance.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Board of County Commissioners (Board) is a County agency and a local governmental entity pursuant to Article VIII, Section 1(e) of the Constitution of the State of Florida. For financial statement and reporting purposes, the Board does not meet the definition of a legally separate organization and is not considered to be a component unit. The Board is considered to be a part of the primary government of Indian River County. The financial statements contained herein represent the financial transactions of the Board only.

The following is a summary of the significant accounting principles and policies used in the preparation of the accompanying financial statements.

A. Reporting Entity

The concept underlying the definition of the reporting entity is that elected officials are accountable to their constituents for their actions. The reporting entity's financial statements should allow users to distinguish between the primary government (the Board) and its component units. However, some component units, because of the closeness of their relationship with the Board, should be blended as though they are part of the Board. Otherwise, most component units should be discretely presented. As required by generally accepted accounting principles, the financial reporting entity consists of: (1) the primary government (the Board), (2) organizations for which the Board is financially accountable, and (3) other organizations for which the nature and significance of their relationship with the Board are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The Board is financially accountable if it (a) serves as the governing body of the legally separate organization and there is a financial burden/benefit relationship or management has operational responsibility of the organization, (b) the organization provides almost exclusive service or benefit to the primary government, or (c) total debt of the organization is repayable almost entirely from the resources of the primary government. Based on these criteria, management determined that the Solid Waste Disposal District and the Emergency Services District were the only organizations that should be included in the Board's financial statements as blended component units.

Blended Component Units

Solid Waste Disposal District (SWDD) - Created pursuant to County Ordinance 87-67, the Board of County Commissioners serves as the governing body for and has operational responsibility over the SWDD. The Board also sets the non ad valorem assessment fees for the SWDD. Although legally separate, the SWDD is appropriately blended as a proprietary fund type (enterprise) component unit into the primary government.

A. Reporting Entity - Continued

Blended Component Units - Continued

Emergency Services District (EMS) - Created pursuant to County Ordinance 90-25, the Board of County Commissioners serves as the governing body for and has operational responsibility over the EMS. The Board also sets the millage rate for the EMS. Although legally separate, the EMS is appropriately blended as a governmental fund type (special revenue) component unit into the primary government.

Fiduciary Component Unit

The *Indian River County Other Postemployment Benefits Trust (OPEB Trust)* is a single-employer defined benefit postemployment healthcare trust established and administered by Indian River County to provide healthcare benefits for eligible retirees. The OPEB Trust is included as a fiduciary component unit of the Board because (1) the OPEB Trust is a legally separate entity; (2) the Board of County Commissioners acts as the OPEB Board of Trustees; and (3) the Board makes contributions to the OPEB Trust on behalf of its participants.

B. Fund Financial Statements

The underlying accounting system of the Board is organized and operated on the basis of separate funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balances, revenues and expenditures or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

Fund financial statements for the Board's governmental, proprietary, and fiduciary funds are presented. Governmental accounting standards set forth minimum criteria (percentage of the assets plus deferred outflows of resources, liabilities plus deferred inflows of resources, revenues or expenditures/expenses of either fund category and the governmental and enterprise combined) for the determination of major funds. These statements display information about major funds individually and nonmajor funds in the aggregate for governmental and enterprise funds. The Statement of Fiduciary Net Position presents assets held by the Board in a custodial capacity for other individuals or organizations.

See Note 16 for more information on the spending hierarchy of fund balances in the fund financial statements.

Governmental Funds

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Board considers revenues to be available if they are collected within 45 days after the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. Franchise fees, sales taxes, gas taxes, operating and capital grants, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable only when cash is received by the Board.

Under the current financial resources measurement focus, only current assets, deferred outflows of resources, current liabilities, and deferred inflows of resources are generally included on the balance sheet. The reported fund balance is considered to be a measure of available spendable resources. Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in fund balances. Accordingly, they are said to present a summary of sources and uses of “available spendable resources” during a period.

Long-term receivables are reported on their balance sheets in spite of their spending measurement focus. Advances and notes to other funds are offset as nonspendable fund balance. See Note 16 for more information on the categories and descriptions of fund balances in the fund financial statements.

Because of their spending measurement focus, expenditure recognition for governmental fund types excludes amounts represented by non-current liabilities. Since they do not affect net current assets, such long-term amounts are not recognized as governmental fund type expenditures or fund liabilities.

B. Fund Financial Statements - Continued

Governmental Funds - Continued

Amounts expended to acquire capital assets are recorded as expenditures in the year that resources were expended, rather than as fund assets. The proceeds of long-term debt are recorded as an other financing source rather than as a fund liability. Debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Proprietary Funds

The Board's enterprise and internal service funds are proprietary funds. In the fund financial statements, proprietary funds are presented using the accrual basis of accounting. Revenues are recognized when they are earned and expenses are recognized when the related goods or services are delivered. In the fund financial statements, proprietary funds are presented using the economic resources measurement focus. This means that all assets, deferred outflows of resources, liabilities, and deferred inflows of resources (whether current or non-current) associated with their activity are included on their balance sheets. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in total net position.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Proprietary fund operating revenues, such as charges for services and premiums charged to the Board and employees under various insurance programs, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as subsidies, taxes, and investment earnings result from non-exchange transactions or ancillary activities. Principal operating expenses include salary and benefits, cost of sales and services, claims, and insurance premiums. All revenues and expenses not meeting these definitions are reported as non-operating revenues and expenses.

Amounts paid to acquire capital assets are capitalized as assets in the proprietary fund financial statements, rather than reported as an expense. Proceeds of long-term debt are recorded as a liability in the proprietary fund financial statements, rather than as an other financing source. Amounts paid to reduce long-term indebtedness are reported as a reduction of the related liabilities, rather than as an expense.

Fiduciary Funds

The fiduciary financial statements include financial information for the Custodial Fund and the Other Postemployment Benefits Trust Fund. The Custodial Fund of the Board primarily represents assets held by the Board in a custodial capacity for other individuals or governments. The Other Postemployment Benefits Trust Fund (OPEB Trust) accounts for activities of the OPEB Trust, which accumulates resources for health insurance benefit payments for current retirees and for current employees upon their retirement. The Custodial and OPEB Trust Fund statements are presented using the accrual basis of accounting.

Governmental Major Funds

General Fund - The General Fund is the general operating fund of the Board. It is used to account for all financial resources, except those accounted for and reported in another fund.

Impact Fees Fund - The Impact Fees Fund accounts for the receipt of various impact fees. Funds are used for the construction of roads and bridges, correctional, public safety, library, park, public building, and solid waste facilities. Funds are also used for administrative expenditures of monitoring the aforementioned activities.

Emergency Services District Fund - The Emergency Services District Fund accounts for the expenditures of providing fire protection and advanced life support to the County. Ad valorem taxes are the primary source of revenue.

Beach Restoration Fund - The Beach Restoration Fund accounts for the expenditures of funds to preserve and improve County beaches. Funds are provided by the levy of a local tourist development tax.

American Rescue Plan Fund - The American Rescue Plan Fund accounts for expenditures incurred for recovery from the health and economic impacts from COVID-19. Funding is provided from the American Rescue Plan stimulus package.

Optional Sales Tax Fund - The Optional Sales Tax Fund accounts for revenue generated by the local option one-cent sales tax and some capital grants that use the local option one-cent sales tax as matching funds. Monies are used for various capital projects.

C. Cash and Investments

Cash reported on the financial statements includes bank deposits, cash on hand, certificates of deposit, money market accounts, and all highly liquid investments with maturities of ninety days or less when purchased. Investments consist of U.S. Treasury Securities, U.S. Government Agency Securities, the Florida Cooperative Liquid Assets Securities System (FLCLASS) investment pool, the Florida Trust Day to Day Fund (FLTRUST), and the FL Short Term Asset Reserve (FLSTAR). Investments are reported at market value based upon the custodian bank's valuation. The FLCLASS, FLTRUST and FLSTAR values are measured at the net asset value per share determined by the pool. Refer to Note 3C, Investments, for further information on individual investments.

The Board maintains a cash and investment pool that is available for use by all funds. Earnings for the pooled investments are allocated to the respective funds based on applicable cash participation by each fund. The investment pool is managed such that all participating funds have the ability to deposit and withdraw cash as if they were demand deposit accounts. Therefore, all balances representing participants' equity in the investment pools are classified as cash and investments for financial statement purposes. In addition, longer-term investments are held by several of the Board's funds and are, therefore, reported as current restricted cash and investments on these statements. When restricted and unrestricted resources are available, expenses are paid first from restricted resources.

D. Allowance for Doubtful Accounts

The Board provides an allowance for water and sewer and ambulance service accounts receivables that may become uncollectible. At September 30, 2022, the allowance for water and sewer was \$424,493 and for ambulance services was \$261,307. No other allowances for doubtful accounts are maintained since other accounts receivable are considered collectible as reported at September 30, 2022.

E. Due from Other Governments

This account represents funds due from state and federal agencies for monthly revenue shares and grant reimbursements. It also includes excess fees due from the County's constitutional officers at September 30, 2022.

F. Inventories

Inventories are valued at cost, which approximates market, using the “first-in, first-out” method of accounting, with the exception of the Golf Course and Fleet Internal Service Fund’s inventories which are valued using the average cost method of accounting. Inventories of all funds are recorded as expenditures (expenses) when consumed rather than when purchased.

G. Prepaids and Other Assets

This account represents prepayments for services that will be used in future periods. The Board’s policy is to record the expenditure for the services when they are used rather than when the cash is disbursed.

H. Capital Assets

Capital assets, which include land, buildings and improvements, equipment, infrastructure (e.g., roads, bridges, right-of-ways, water and sewer distribution systems, beach restoration, stormwater systems and similar items), and intangible assets (e.g. software, easements, and right-to-use), are reported in the applicable governmental or business-type activities column in the government-wide financial statements. The Board defines capital assets as assets with an initial, individual cost of \$1,000 or more and an estimated useful life in excess of one year. Except for roads and bridges constructed prior to October 1, 1981, assets are recorded at historical cost. Roads and bridges constructed prior to October 1, 1981 are reported at estimated historical cost. Donated capital assets, donated works of art, historical treasures and similar assets, as well as capital assets that are received in a service concession arrangement are reported at original acquisition value. Transfers of capital assets within the Board are recorded at their carrying value at the time of the transfer. The costs of normal maintenance and repairs that do not add to the value of the asset nor materially extend its useful life are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

The Board holds legal title to the capital assets used in the operations of the Board, Clerk of the Circuit Court and Comptroller, Property Appraiser, Supervisor of Elections and Tax Collector, and is accountable for them under Florida Law.

H. Capital Assets - Continued

Capital assets used by the Board’s governmental funds are reported in the financial statements of the County. Capital assets of the Board’s enterprise and internal service funds are reported in the Proprietary Funds’ financial statements.

Land, buildings and improvements, equipment, intangible, and infrastructure assets of the primary government, as well as the component units, are depreciated, or amortized as in the case of intangible assets, using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings and improvements	10 - 50
Machinery and equipment	3 - 10
Utility distribution systems	25 - 50
Road and bridge infrastructure	20 - 50
Fiberoptics	20
Software	3 - 5
Beach preservation infrastructure	7
Stormwater infrastructure	30

I. Deferred Outflows/Inflows of Resources

Deferred outflows of resources represent a consumption of net assets that applies to future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred inflows of resources represent an acquisition of net assets that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until then.

Deferred inflows of resources, reported on the Balance Sheet for Governmental Funds, are unavailable revenues. The sources of the unavailable revenues are special assessments on road paving, ambulance service billings, investment interest earnings, and state and federal grant revenues.

Both deferred inflows and outflows related to pensions are calculated in accordance with GASB Statement 68, *Accounting and Financial Reporting for Pensions*. These deferred resources appear on the Statement of Fund Net Position for Proprietary Funds.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

I. Deferred Outflows/Inflows of Resources - Continued

The deferred outflows and inflows are an aggregate of various pension items and will be recognized as adjustments to pension expense or net pension liability in future reporting years. There are also deferred outflows and inflows of items related to Other Postemployment Benefits (OPEB) as calculated in accordance with GASB Statement 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. Further information and detail on the composition of these items is discussed in Notes 13 and 14 respectively.

Also reported are deferred inflows related to leases. The amounts are recognized at the inception of leases in which the Board is the lessor. The deferred inflow of resources is recorded in an amount equal to the corresponding lease receivable plus certain additional amounts received from the lessee at or before the commencement of the lease term that relate to future periods, less any lease incentives paid to, or on behalf of, the lessee at or before the commencement of the lease term. The inflow of resources is recognized in a systematic and rational manner over the term of the lease. Refer to Note 15 for additional details regarding leases.

J. Pensions/Net Pension Liability

In the Statement of Fund Net Position for Proprietary Funds, net pension liability represents the Board's proportionate share of the net pension liability of the cost-sharing pension plans in which it participates. This proportionate amount represents a share of the present value of projected benefit payments to be provided through the cost-sharing pension plan to current active and inactive employees. The benefit payments are attributable to those employees past periods of service, less the amount of the cost-sharing pension plans' fiduciary net position.

The Board participates in both the Florida Retirement System (FRS), which operates a defined benefit and compensation plan, and the Health Insurance Subsidy Program (HIS Program), which is a defined benefit plan. For purposes of measuring the net pension liability, deferred outflows and inflows of resources related to pensions, pension expense, and fiduciary net position are determined on the same basis as the FRS. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

K. Other Postemployment Benefits Trust Fund (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Board's Retiree Benefits Plan and additions to/deductions from the Board's fiduciary net position have been determined on the same basis as they are reported by the Board. For this purpose, the Board recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments that have a maturity at the time of purchase of one year or less, which are reported at cost.

L. Landfill Closure Costs

Under the terms of current state and federal regulations, the Solid Waste Disposal District (SWDD) is required to place a final cover on closed landfill areas, and to perform certain monitoring and maintenance functions for a period of up to thirty years after closure. The SWDD recognizes these costs of closure and post-closure maintenance over the active life of each landfill area, based on landfill capacity used during the period. Required obligations for closure and post-closure costs are recognized in the Solid Waste Disposal District Enterprise Fund.

M. Unearned Revenues

In governmental and proprietary fund financial statements, unearned revenues represent revenues which are available but not earned.

N. Accrued Compensated Absences

The Board does not report compensated absences in the governmental fund statements since they are not current liabilities payable from available spendable resources. They are reported in the government-wide financial statements of the County. Proprietary fund types accrue compensated absences in the period they are earned.

O. Obligation for Bond Arbitrage Rebate

Pursuant to Section 148(f) of the U.S. Internal Revenue Code, the Board must rebate to the United States Government the excess of interest earned from the investment of certain debt proceeds and pledged revenues over the yield rate of the applicable debt. The Board has no arbitrage liability outstanding as of September 30, 2022.

P. Leases

The Board is a lessee for noncancellable leases of equipment. A lease liability and an intangible right-to-use asset are recognized in the County's government-wide financial statements. The lease liability is initially measured at the present value of the payments expected to be made during the lease term. The lease asset is measured as the initial amount of lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial costs, and is amortized on a straight-line basis over its useful life.

The Board is a lessor for noncancellable leases of cellular towers and office space. A lease receivable and a deferred inflow of resources are recognized in the County's government-wide financial statements, and Proprietary Fund financial statements. The lease receivable is initially measured at the present value of payments expected to be received during the lease term. The lease receivable is then reduced by the principal portion of the lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for prepaid lease payments received at lease inception. Subsequently, the deferred inflow of resources is recognized over the life of the lease term.

Key estimates and judgments related to leases include the determination of the (1) discount rate, (2) lease term, and (3) lease payments. The Board monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability. Additional information is provided in Note 15.

Q. New Accounting Pronouncement

The Board implemented Governmental Accounting Standards Board (GASB) Statement No. 87, *Leases*. The objective of this Statement is to better meet the informational needs of financial statement users by improving accounting and financial reporting for leases by governments.

NOTE 2 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

The Board uses the following procedures in establishing the budgetary data reflected in the financial statements:

1. The constitutional officers submit, at various times, to the Board and to certain divisions within the Florida Department of Revenue and the Florida Clerks of Court Operations Corporation, a proposed operating budget for the following fiscal year. The operating budget includes proposed expenditures and the means of financing them, as set forth in Chapter 129 of the Florida Statutes.
2. The Department of Revenue, State of Florida, has the final authority on the operating budgets for the Tax Collector and the Property Appraiser included in the General Fund.
3. Constitutional officers, all departments controlled by the Board, and outside state and local agencies submit their proposed budgets to the Office of Management and Budget for assistance, review, and compilation. The County Administrator then reviews all County departments, state agencies, and nonprofit organization's budgets and makes the budget recommendation to the Board.
4. On or before July 15 of each year, the County Administrator and the Director of the Office of Management and Budget, as the Board's designated budget officer, submit to the Board a tentative budget for the ensuing fiscal year. The tentative budget includes proposed expenditures and the means of financing them. The Board then holds workshops to review the tentative budget by fund on a departmental level.
5. During September, public hearings are held pursuant to Section 200.065 of the Florida Statutes in order for the Board to receive public input on the tentative budget. At the end of the last public hearing, the Board enacts resolutions to legally adopt the budgets at the fund level for all governmental and proprietary fund types. The budgets legally adopted by the Board set forth the anticipated revenues by source and the appropriations by function.
6. Formal budgetary integration on an object level is used as a management control device for the governmental and proprietary funds of the Board. Management is authorized to transfer budgeted amounts between objects and departments in any fund as long as management does not exceed the total appropriations of a fund. Board approval to amend the budget is only required when unanticipated revenues are received that management wishes to have appropriated, thereby increasing the total appropriations of a fund.

B. Accrued Interest

Interest earnings on U.S. Treasury Notes and government agency bonds are recorded in the cash and investment pools and then allocated to each fund based on each fund's average monthly balance. As of September 30, 2022, accrued interest for the Board's portfolio totaled \$483,088 and was allocated to the funds based on their average monthly balance for September. The remaining accrued interest is reflected in utilities and road paving assessments.

Fair Value Measurement

The Board categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset, as determined by the Board's investment advisors. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The Board's fair value measurements for U.S. Treasuries and U.S. Agencies are categorized as Level 2 and are valued by the Board's custodial bank using independent pricing services based on the type of asset. The pricing services may use valuation models or matrix pricing, which consider benchmark yields, reported trades, broker/dealer quotes, benchmark securities, bids or offers, and reference data.

The Board's investments in the Florida Cooperative Liquid Assets Securities Systems (FLCLASS), Florida Trust Day to Day Fund (FLTRUST) and the Florida Short Term Asset Reserve (FLSTAR), external local government investment pools organized under the laws of the State of Florida, are presented at Net Asset Value, which reflects fair value. The objectives of the FLCLASS, FLTRUST and FLSTAR are to generate investment income while maintaining safety and liquidity. There were no unfunded commitments as of September 30, 2022. Investments may be redeemed weekly/daily based on similar investments of other clients.

Interest Rate Risk

The Board's investment policy (last amended on December 15, 2020) limits interest rate risk by attempting to match investment maturities with known cash needs and anticipated cash flow requirements. All investments must have stated maturities of ten (10) years or less and no more than 25% of the portfolio shall be invested in instruments with stated final maturities greater than five (5) years. The portfolio shall have securities with varying maturity and at least 10% of the portfolio shall be invested in readily available funds.

Florida Statutes, Section 218.415 and the Board's investment policy limit investments to the following:

1. Direct obligations of the United States Treasury;
2. Any intergovernmental investment pool, with the exception of SBA pools, authorized pursuant to the Florida Interlock Cooperation Act as provided in Florida Statute 163.01;
3. Florida Local Government Investment Trust Funds;
4. Interest-bearing time deposits or savings in qualified public depositories as defined in Section 280.02, Florida Statutes;
5. Federal agencies and instrumentalities;
6. Securities of, or other interests in, any open-end or closed-end management-type investment company or investment trust registered under the Investment Company Act of 1940, 15 U.S.C. ss. 80a-1 et seq., as amended from time to time, provided that the portfolio of such investment company or investment trust is limited to obligations of the United States Government or any agency or instrumentality thereof and to repurchase agreements fully collateralized by such United States Government obligations, and provided that such investment company or investment trust takes delivery of such collateral either directly or through an authorized custodian;
7. Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency;
8. Repurchase agreements with a term of one year or less collateralized by direct obligations of the United States Government which have maturities of three (3) years or less and a market value 103% or more of the repurchase amount.

Concentration Risk

The Board's cash and investment policy has established asset allocation and issuer limits to reduce concentration of credit risk in the Board's cash and investment portfolio. The Board's cash and investment policy does not allow for more than 20% of the entire portfolio to be invested in any one issuer, with the exception of United States Treasury Obligations and state authorized pools. No more than 10% of the portfolio may be placed in certificates of deposit and no more than \$6.5 million of the portfolio may be placed in certificates of deposit with any one financial institution. No more than 10% of the entire cash and investment portfolio may be placed in any one money market fund, mutual fund, or intergovernmental investment pool.

Custodial Credit Risk

The Board's investment policy pursuant to Section 218.415 (18), Florida Statutes, requires securities to be registered and held with a third party custodian. All securities purchased, as well as all collateral obtained, by the Board shall be held in the name of the Board. The securities must be held in an account separate and apart from the assets of the financial institution. As of September 30, 2022, the Board's investment portfolio in U.S. Treasuries, U.S. Agencies, and money market funds was held by The Bank of New York/Mellon. Additional investments include the FLCLASS which was held by Fifth Third Bank, the FLTRUST which was held by UMB Bank, and FLSTAR which was held by JP Morgan Chase & Co.

D. OPEB Trust

The contribution for the year ended September 30, 2022 was \$1,111,473. The cash balance in the OPEB Trust at September 30, 2022 was \$73,791. The investments are reported at fair value based upon market-close price on the last business day of each month.

The Board approved a separate investment policy for the OPEB Trust assets on February 3, 2009 (last amended on December 4, 2018). The Board adopted a broadly diversified portfolio composition consisting of equity, debt, and cash and investments. Asset allocations are divided between short term and long term investments. Short term asset allocations include cash and investments with maturities of 180 days or less. Long term asset allocations range from 0-60% for equities, 0-60% for fixed income securities, and 0-100% for cash and investments.

For the fiscal year ended September 30, 2022, the annual money-weighted rate of return on investments, net of investment expense, was (12.27%). The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

NOTE 4 - PROPERTY TAX REVENUES

Taxable values for all property are established as of January 1, which is the date of lien, for the fiscal year starting October 1. Property tax revenues recognized for the 2021-2022 fiscal year were levied in October 2021. All taxes are due and payable on November 1 or as soon as the assessments roll is certified and delivered to the Tax Collector. Discounts are allowed for early payment at the rate of 4% in November, 3% in December, 2% in January, and 1% in February. Taxes paid in March are without discount. 3. Eighty-six percent (86%) of the Local Government Half-Cent Sales Tax distributed to the Board, pursuant to Chapter 218, part VI, Florida Statutes.

The foregoing are collectively referred to herein as the “pledged revenues”. The Fourth Cent Tourist Development Tax and the Local Government Half-Cent Sales Tax pledged to the payment of debt service on the Series 2001 bonds were automatically released as pledged revenue for the Series 2001 bonds immediately following the April 1, 2021 principal payment on the Series 2001 bonds.

On February 26, 2019, the Board elected a partial redemption of the bonds outstanding and maturing on 2021 and 2031. The principal amount of the redeemed bonds totaled \$1,125,000. The net economic gain was \$91,579 and will be amortized over the remaining life of the debt. The unamortized balance as of September 30, 2022 is \$65,499 and is reflected as a deferred outflow of resources on the government-wide Statement of Net Position.

The current principal and interest payments of \$475,375 represent 95% of the State subsidy pledged revenue. The total principal and interest remaining to be paid on the bonds is \$4,067,250.

NOTE 11 - PROVISION FOR CLOSURE COSTS

Current regulations of the U.S. Environmental Protection Agency (EPA) and the Florida Department of Environmental Protection (FDEP) require the Solid Waste Disposal District (SWDD) to place a final cover on closed landfill areas, and to maintain those areas for up to thirty years after closure. The SWDD annually obtains updated and revised estimates of total future closure and post-closure costs from its consulting engineers. The SWDD recognizes the expenses associated with the final closure and post-closure maintenance of the landfill areas over the active life of those areas. The provision for closure costs reported in the financial statements as operating expense represents the portion of these estimated future outlays which are allocable to the current year based on the amount of capacity used.

The total unrecognized closure and post-closure costs are approximately \$11.4 million. These costs will be recognized in future periods as the remaining capacity is filled. The Board's policy is to fund 100% of the current year's allocation (based upon the consulting engineers' report) of both closure and post-closure care. Required closure and post-closure sub-accounts:

	Capacity Used	Estimated Closing	Amount
<u>Closure Costs</u>			
Class I - Segment III, Cell II	16%	2030	\$ 5,027,752
Construction and Demolition	92%	2028	1,199,866
<u>Post-closure Costs</u>			
Class I - Segments I and II	N/A	N/A	2,363,435
Construction and Demolition	N/A	N/A	129,488
Total account balance at 9/30/22			<u>\$ 8,720,541</u>

All amounts recognized are based on what it would cost to perform all closure and post-closure functions in current dollars. Actual costs may be different due to inflation, deflation, changes in technology, or changes in laws and regulations. The SWDD is required by FDEP to annually show proof of ability to finance closure and post-closure costs. The SWDD is making annual deposits to a closure and post-closure costs account to provide for the financing of future closure-related expenses. At September 30, 2022, \$8,705,429 was on deposit at the Florida Cooperative Liquid Assets Securities System (FLCLASS) and \$15,112 was on deposit in the Board's operating account.

NOTE 11 - PROVISION FOR CLOSURE COSTS - Continued

A summary of changes in the landfill closure liability account is as follows:

	Balance 10/1/2021	Deposits	Withdrawals	Balance 9/30/2022
Closure and long-term care costs	\$ 7,506,025	\$ 2,022,338	\$ (807,822)	\$ 8,720,541

Of the \$8,720,541 liability for closure and long-term care costs, management estimates that \$1,000,000 will be due and payable within one year.

NOTE 12 - POLLUTION REMEDIATION

In accordance with GASB Statement 49, Accounting and Financial Reporting for Pollution Remediation Obligations, a consultant evaluated two sites to assess pollution remediation liabilities. The consultant calculated for each site an expected value (EV) estimate for pollution remediation based on three plausible mitigation scenarios. An obligating event occurred at each of the following sites requiring the Board (using the consultant’s services) to attempt to accrue a liability for pollution remediation. The liability totaled \$1,683,000 at September 30, 2022 for both sites. Of the \$1,683,000 liability for pollution remediation, management estimates that \$136,533 will be due and payable within one year. The pollution remediation obligation is an estimate and subject to changes resulting from price increases and reductions, technology, and changes in applicable laws or regulations. There are no estimated recoveries that would reduce the liability.

Governmental Funds

South Gifford Road closed landfill - The nature of the pollution remediation obligation is chlorinated solvent contamination. The consultant will conduct monitoring, bioremediation and reporting with the FDEP. The amount of the estimated year end liability is \$1,610,000 and will be paid from the Optional Sales Tax Fund.

The Board does not report the liability for pollution remediation in the governmental fund statements since they are not current liabilities payable from available spendable resources. The liability is reported in the government-wide financial statements of the County.

Total governmental funds liability: \$1,610,000

NOTE 13 - RETIREMENT PLAN

General Information: All of the Board's employees participate in the Florida Retirement System (FRS). As provided by Chapters 121 and 112, Florida Statutes, the FRS provides two cost sharing, multiple employer defined benefit plans administered by the Florida Department of Management Services, Division of Retirement, including the FRS Pension Plan (Pension Plan) and the Retiree Health Insurance Subsidy (HIS Program). Under Section 121.4501, Florida Statutes, the FRS also provides a defined contribution plan (Investment Plan) alternative to the Pension Plan, which is administered by the State Board of Administration (SBA). As a general rule, membership in the FRS is compulsory for all employees working in a county, state university, community college, or a participating city or special district within the State of Florida. The FRS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefits are established by Chapter 121, Florida Statutes, and Chapter 60S, Florida Administrative Code. Amendments to the law can be made only by an act of the Florida State Legislature.

The State of Florida annually issues a publicly available financial report that includes financial statements and required supplementary information for the FRS. The latest available report may be obtained by writing to the State of Florida Division of Retirement, Department of Management Services, P.O. Box 9000, Tallahassee, Florida 32315-9000, or from the web site: www.dms.myflorida.com/workforce_operations/retirement/publications.

Pension Plan

Plan Description: The Pension Plan is a cost-sharing multiple-employer defined benefit pension plan, with a Deferred Retirement Option Program (DROP) for eligible employees.

Benefits Provided: Benefits under the Pension Plan are computed on the basis of age, average final compensation, and service credit. For Pension Plan members enrolled before July 1, 2011, Regular Class members who retire at or after age 62 with at least six years of credited service or 30 years of service regardless of age are entitled to a retirement benefit payable monthly for life. The benefit is equal to 1.6% of their final average compensation based on the 5 highest years of salary, for each year of credited service. Vested members with less than 30 years of service may retire before age 62 and receive reduced retirement benefits.

Special Risk class members (sworn law enforcement officers, firefighters, and correctional officers) who retire at or after age 55 with at least 6 years of credited service, or with 25 years of service regardless of age, are entitled to a retirement benefit payable monthly for life equal to 3.0% of their final average compensation based on the 5 highest years of salary for each year of credited service.

Senior Management Service class members who retire at or after age 62 with at least 6 years of credited service or 30 years of service regardless of age are entitled to a retirement benefit payable monthly for life, equal to 2.0% of their final average compensation based on the 5 highest years of salary for each year of credited service.

Elected Officers' class members who retire at or after age 62 with at least 6 years of credited service or 30 years of service regardless of age are entitled to a retirement benefit payable monthly for life, equal to 3.0% (3.33% for judges and justices) of their final average compensation based on the 5 highest years of salary for each year of credited service.

For Plan members enrolled on or after July 1, 2011, the vesting requirement is extended to 8 years of credited service for all these members and increasing normal retirement to age 65 or 33 years of service regardless of age for Regular, Senior Management Service, and

Elected Officers' class members, and to age 60 or 30 years of service regardless of age for Special Risk class members. Also, the final average compensation for all these members will be based on the 8 highest years of salary.

Pension Plan - Continued

As provided in Section 121.101, Florida Statutes, if the member is initially enrolled in the Pension Plan before July 1, 2011 and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is 3% per year. If the member is initially enrolled before July 1, 2011 and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost-of-living adjustment is proportion of 3% determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by 3%. Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

In addition to the above benefits, the DROP program allows eligible members to defer receipt of monthly retirement benefit payments while continuing employment with a FRS employer for a period not to exceed 60 months after electing to participate. Deferred monthly benefits are held in the FRS Trust Fund and accrue interest. There are no required contributions by DROP participants.

Contributions: The State of Florida establishes contribution rates for participating employers and employees in section 121.71 Florida Statutes. Effective July 1, 2011, the FRS became a contributory plan for all members, except DROP participants, whereby members contribute 3% and employers pay a rate based upon each member's employment class. Classes and rates in effect at July 1, 2022 were: Regular Class 11.91%, Special Risk 27.83%, Senior Management 31.57%, DROP 18.60%, and Elected Official Class 57.00%. Included in these rates is a health insurance subsidy of 1.66%. Employer contributions to the FRS are based on a percentage of covered payroll that has been actuarially determined as an amount, when combined with the 3% employee contributions, is expected to finance the cost of benefits earned by employers during the year with an additional amount to finance any unfunded accrued liability.

The Board's actuarial contribution to FRS under the Pension Plan for the year ended September 30, 2022, was \$8,602,257. Employee contributions for September 30, 2022 were \$1,319,823. Both employer and employee contributions were equal to 100% of the required contribution.

Pension Liabilities, Pension Expense, and Deferred Outflow of Resources and Deferred Inflow of Resources Related to Pension Plan: At September 30, 2022, the Division of Retirement calculated the Board's liability of \$71,110,359 for the FRS plan for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2022. The Board's proportionate share of the net pension liability was based on a projection of the Board's long-term share of contributions to the Pension Plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2022, the Board's proportionate share was 0.191115% for the FRS Pension Plan. This was an increase of 0.000891% from its proportionate share measured as of June 30, 2021.

For the year ended September 30, 2022, the Board's calculated total increase of actuarially determined pension expense was \$4,339,113. Of this amount, the Board recognized \$589,035 in the enterprise funds and \$88,994 in the internal service funds. In addition, the Board's calculated deferred outflows of resources and deferred inflows of resources related to pensions from the following sources were:

<u>Description</u>	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 3,377,331	\$ -

The deferred outflows of resources related to pensions totaling \$2,287,059 resulting from Board contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ended September 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal Year Ending September 30:	Amount Recognized
2023	\$ 4,256,231
2024	1,606,077
2025	(1,437,348)
2026	12,506,069
2027	668,750
Total	\$ 17,599,779

Actuarial Assumptions: The total pension liability in the July 1, 2022 actuarial valuation was determined using the following actuarial assumption, applied to all periods included in the measurement:

Valuation date:	July 1, 2022
Measurement date:	June 30, 2022
Discount rate:	6.70%
Long-term expected rate of return:	6.70%, net of pension plan investment expense, including inflation
Inflation:	2.40%
Salary increase:	3.25%, including inflation
Mortality:	PUB-2010 base table, projected generationally with Scale MP-2018
Actuarial cost method:	Individual Entry Age

The actuarial assumptions that determined the total pension liability used in the July 1, 2022 valuation were based on the results of an actuarial experience study for the period July 1, 2013 through June 30, 2018.

Pension Plan - Continued

The following changes in actuarial assumptions occurred in 2022:

- The long-term expected rate of return decreased from 6.80% to 6.70%.

Long-Term, Expected Rate of Return: The long-term expected rate of return on pension plan investments are not based on historical returns, but instead are based on a forward-looking capital market economic model. The allocation policy's description of each class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based upon a consistent set of underlying assumptions and includes an adjustment for the inflation assumption. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Annual Arithmetic Return	Compound Annual (Geometric) Return	Standard Deviation
Cash	1%	2.6%	2.6%	1.1%
Fixed Income	19.8%	4.4%	4.4%	3.2%
Global Equity	54.0%	8.8%	7.3%	17.8%
Real Estate (Property)	10.3%	7.4%	6.3%	15.7%
Private Equity	11.1%	12.0%	8.9%	26.3%
Strategic Investments	3.8%	6.2%	5.9%	7.8%
Total	100%			
Assumed inflation-mean			2.4%	1.3%

Discount Rate for Pension Plan: The discount rate used to measure the total pension liability was 6.70%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that the Board's contributions will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Pension Plans' fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees if future experience follows assumptions and the actuarially determined contribution is contributed in full each year. Therefore, the discount rate for calculation of the total pension liability is equal to the long-term expected rate of return.

Retiree Health Insurance Subsidy (HIS Program)

Plan Description: The HIS Program is a cost-sharing, multiple-employer, defined benefit pension plan established to provide a monthly subsidy payment to retired members of any state-administered retirement system. It was established under Section 112.363, Florida Statutes. Benefits are not guaranteed and are subject to annual legislative appropriation. In the event legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or canceled. The HIS Program is administered by the Florida Department of Management Services, Division of Retirement.

Benefits Provided: For fiscal year ended September 30, 2022, eligible retirees and beneficiaries received a monthly HIS Program payment of \$5 for each year of creditable service completed. The payments are at least \$30 but not more than \$150 per month. To be eligible to receive a HIS Program benefit, a retiree under a state-administered retirement system must provide proof of health insurance coverage, which may include Medicare.

Contributions: The HIS Program is funded by required contributions from FRS participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended September 30, 2022, the HIS Program contribution rate was 1.66%. There are no employee contributions required. The Board contributed 100% of its statutorily required contributions for the current and preceding 3 years. HIS Program contributions are deposited in a separate trust fund from which payments are authorized. The Board's actuarial contributions to the HIS Program totaled \$958,085 for the fiscal year ended September 30, 2022.

Pension Liabilities, Pension Expense, and Deferred Outflow of Resources and Deferred Inflow of Resources Related to HIS Program: At September 30, 2022, the Division of Retirement calculated the Board's liability of \$16,082,406 for its proportionate share of the HIS Program's net pension liability. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2022. At June 30, 2022, the Board's proportionate share was 0.151841% for the HIS Program. This was an increase of 0.002450% from its proportionate share measured as of June 30, 2021.

Actuarial Assumptions: The total pension liability for the HIS Program in the July 1, 2022 actuarial valuation was determined using the following actuarial assumption, applied to all periods included in the measurement:

Valuation date:	July 1, 2022
Measurement date:	June 30, 2022
Discount rate:	3.54%
Long-term expected rate of return:	N/A
Municipal bond rate:	3.54%
Inflation:	2.40%
Salary increase:	3.25%, average, including inflation
Mortality:	PUB-2010 base table, projected generationally with Scale MP-2018
Actuarial cost method:	Individual Entry Age

The actuarial assumptions that determined the total HIS Program pension liability used in the July 1, 2022 valuation were based on the results of an actuarial experience study for the period July 1, 2013 through June 30, 2018. The following changes in actuarial assumptions occurred in 2022:

- The municipal rate used to determine the total pension liability increased from 2.16% to 3.54%
- The demographic assumptions for the Special Risk Class were updated to reflect plan changes due to HB5007, HB689, and SB838.
- The election assumption for vested terminated members was updated from 20% to 50% to reflect recent experience.

Discount Rate for HIS Program: In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS Program is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate. The single equivalent discount rate is equal to the municipal bond rate selected by the plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index.

FRS Investment Plan

Plan Description: The Board contributes to the Investment Plan, a defined contribution pension plan, for its eligible employees electing to participate in the Investment Plan. The Investment Plan is administered by the State Board of Administration (SBA), and is reported in the SBA's annual financial statements and in the State of Florida Annual Comprehensive Financial Report. As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS defined benefit plan. Board employees already participating in DROP are not eligible to participate in this program.

NOTE 13 - RETIREMENT PLAN - Continued

FRS Investment Plan - Continued

Benefits Provided: Service retirement benefits are based upon the value of the member's account upon retirement. Employers and employee contributions, including amounts contributed to individual member's accounts, are defined by law, but the ultimate benefit depends in part on the performance of investment funds. Benefit terms, including contribution requirements, for the Investment Plan are established and may be amended by the Florida Legislature.

For all membership classes, employees are immediately vested in their own contributions and are vested after one year of service for employer contributions and investment earnings. Non-vested employer contributions are placed in a suspense account for up to 5 years. If the employee returns to FRS-covered employment within the five year period, the employee will regain control over his/her account. If the employee does not return within the 5-year period, the employee will forfeit the accumulated account balance. For fiscal year ended September 30, 2022, the information for the amount of forfeitures was unavailable from the SBA; however, management believes that these amounts, if any, would be immaterial to the Board.

If an accumulated benefit obligation for service credit originally earned under the Pension Plan is transferred to the Investment Plan, the member must have the years of service required for Pension Plan vesting (including the service credit represented by the transferred funds) to be vested for these funds and the earnings on the funds.

After termination and applying to receive benefits, the member may rollover vested funds to another qualified plan, structure a periodic payment under the Investment Plan, receive a lump-sum distribution, leave the funds invested for future distribution, or any combination of these options. Disability coverage is provided; the member may either transfer the account balance to the FRS Pension Plan when approved for disability retirement to receive guaranteed lifetime monthly benefits under the FRS Pension Plan, or remain in the Investment Plan and rely upon that account balance for retirement income.

Contributions: Cost of administering the Investment Plan, including the FRS Financial Guidance Program, are funded through an employer contribution of .06% of payroll and by forfeited benefits of Investment Plan members. The Investment Plan is funded with the same employer and employee contribution rates that are based on salary and membership class as the FRS defined benefit plan. Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances to various approved investment choices.

This includes the employee contribution of 3%. The Board's Investment Plan contributions and pension expense totaled \$1,382,905 for fiscal year ended September 30, 2022. Employee contributions totaled \$294,066 for the same period.

NOTE 14 - OTHER POSTEMPLOYMENT BENEFITS PLAN (OPEB)

A. Plan Description

On September 23, 2008, the Board of County Commissioners approved resolution number 2008-163, establishing an irrevocable trust (OPEB Trust) to separately identify assets accumulated to pay OPEB benefits for eligible retirees. The OPEB Trust includes the Board of County Commissioners and the five constitutional officers (Clerk of the Circuit Court and Comptroller, Property Appraiser, Sheriff, Supervisor of Elections, and Tax Collector). The resolution also established the Board of County Commissioners as trustees of the OPEB Trust and the authority for the trustees to amend the benefit provisions. The OPEB Trust is a single-employer defined benefit plan (OPEB Plan). The OPEB Plan provides an explicit subsidy for the cost of health care for employees hired prior to February 1, 2006 and their eligible dependents according to the provisions of the substantive plan (the plan as understood by the employer and plan members). Employees hired on or after February 1, 2006, will not be eligible for any subsidy, regardless of the years of service or Medicare eligibility.

Active participants as well as retirees are subject to the same benefits and rules. Retired employees are permitted to remain covered under the Board's medical and life insurance plans as long as they pay a premium applicable to the coverage elected. This conforms to the minimum required of Florida governmental employers per Florida Statute 112.0801. The retiree has the option to continue with the Board group health plan or elect a Medicare Advantage Plan.

The implicit rate subsidy applies to health and life insurance coverage since the premiums charged are based upon a blending of younger active employees and older retired employees. Monthly health insurance premiums, effective October 1, 2021, range from \$257 for single coverage Medicare participants to \$1,297.50 for family coverage. Life insurance is available to retirees at a flat rate of \$.75 per \$1,000 of coverage (to a maximum of \$20,000 until the age of 70). After 70, the maximum amount of life insurance is \$10,000.

NOTE 14 - OTHER POSTEMPLOYMENT BENEFITS PLAN (OPEB) - Continued

A. Plan Description - Continued

The Board subsidizes the cost of the health insurance premiums for each retiree based upon their years of service and employment date (as mentioned above); a 2% discount is given for each year of service based upon the following table:

Hired Before 2/1/2006				Hired On or After 2/1/2006
Retirement Date	Service	Under Age 65	Retiree or Spouse Medicare Eligible***	
Before 1/31/2009**	Less than 15 years	No Subsidy	20% Subsidy*	No Subsidy
	At least 15 years	2% per Year of Service (maximum of 40%)	Additional 20% Subsidy (maximum of 60%)*	
On and After 1/31/2009**	Less than 15 years	No Subsidy	No Subsidy	
	At least 15 years	2% per Year of Service (maximum of 40%)	Subsidy Ceases	

*Additional Subsidy will be paid to Medicare Eligible retirees regardless of which plan they are enrolled in (County's medical plan or Medicare Advantage Plan) and regardless of whether they become Medicare Eligible before or after October 1, 2004.

**Employees who commit by June 1, 2008 to retire before January 31, 2009 will receive subsidy as if retired before June 1, 2008.

***Effective May 1, 2016 and prospectively, subsidy does not cease until both Retiree and Spouse are Medicare eligible.

B. Contributions and Funding Policy

The Board of County Commissioners, in concert with the OPEB Board of Trustees, has the authority to establish and amend the funding policy of the OPEB Plan. The OPEB Trust is advance funded by the Board. For the year ended September 30, 2022, the Board contributed \$1.1 million to the qualifying OPEB Trust. The average employer's contribution was \$719 per employee, approximately 1.13% of current payroll. Plan members receiving benefits contributed \$3.1 million. It is the Board's policy to base future contributions on the annual required contribution (ARC) in subsequent annual actuarial reports. The contributions are paid by the fund(s) by which the participant is employed. Custodial and individual fund administrative fees are paid from the portfolio dividend and interest income.

Interim roll-forward reports were completed at the end of the fiscal year. The components of the net OPEB liability of the County at September 30, 2022, were as follows:

Total OPEB liability	\$ 34,934,061

F. Discount Rate

Calculation of the Single Discount Rate

GASB Statement No. 74 includes a specific requirement for the discount rate that is used for the purpose of the measurement of the Total OPEB Liability. This rate considers the ability of the fund to meet benefit obligations in the future. To make this determination, employer contributions, employee contributions, benefit payments, expenses and investment returns are projected into the future. The Plan Net Position (assets) in future years can then be determined and compared to its obligation to make benefit payments in those years. As long as assets are projected to be on hand in a future year, the assumed valuation discount rate is used. In years where assets are not projected to be sufficient to meet benefit payments, the use of a municipal bond rate is required, as described in the following paragraph.

The Single Discount Rate (SDR) is equivalent to applying these two rates to the benefits that are projected to be paid during the different time periods. The SDR reflects (1) the long-term expected rate of return on OPEB Plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits) and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of this valuation the expected rate of return on OPEB Plan investments is 6.00%, the municipal bond rate is 4.40%; and the resulting SDR is 6.00%. The County has adopted a broadly diversified investment portfolio composition consisting of equity, debt, and cash. Asset allocations are divided between short-term and long-term investments. Short-term asset allocations include cash and investments with maturities of 180 days or less. Long-term asset allocations range from 0-60% for equities, 0-60% for fixed income securities, and 0-100% for cash.

The County has a policy of depositing at least the full amount of the Actuarially Determined Contribution developed under the Entry Age Method. Consequently, the plan's fiduciary net position is projected to be sufficient to pay benefits and the resulting SDR is 6.00%.

NOTE 16 - FUND BALANCE

GASB Statement 54 - Fund Balance Reporting and Governmental Funds Type Definitions requires the fund balance for governmental funds to be reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

A. Categories

There are five categories of fund balance for governmental funds under GASB Statement 54:

Nonspendable - Amounts that cannot be spent because they are not in spendable form or are legally or contractually required to remain intact.

Restricted - Use of these resources is based on the constraints imposed externally by creditors, grantors, contributors, or laws and regulations of other governments; or imposed by law through constitutional provisions or enabling legislation.

Committed - Amounts whose use is constrained by the approval of a Board ordinance by the Board of County Commissioners. This category also includes existing resources on hand to satisfy the obligations that arise from contractual obligations entered into by the Board of County Commissioners.

Assigned - The Board of County Commissioners is the governing body authorized to assign fund balance amounts to be used for specific purposes. This assignment is done through the budget approval and amendment process. Amounts appropriated to eliminate a budgetary deficit in a subsequent year are reported in this category as well.

Unassigned - Residual amounts in the general fund that do not meet any of the other fund balance classifications.

B. Fund Balance Policy

On September 21, 2010, the Board approved a Fund Balance and Reserve Policy that set forth the following reserves of fund balance in the General, Transportation, and Emergency Services District Funds:

NOTE 16 - FUND BALANCE - Continued

B. Fund Balance Policy - Continued

Emergency/Disaster Relief Reserve - A balance of no less than 5% of budgeted operating expenditures for the current fiscal year will be reserved only for the purpose of responding to natural and man-made disasters. Disasters include hurricanes, tropical storms, floods, wildfires, or terrorist activities. These funds can only be used to respond and provide relief after such a disaster. Funds will be replenished over a five-year period after the completion of the recovery from the disaster.

Budget Stabilization Reserve - A balance of no less than 5% of budgeted operating expenditures for the current fiscal year will be reserved only for the purpose of revenue declines or unfunded mandates from the state and federal governments. Funds utilized due to revenue declines will be replenished over a five-year period. Funds utilized for unfunded mandates or unanticipated expenditures cannot be used for more than a three-year period and must be replenished within five-years after the three-year period.

At September 30, 2022, reserve amounts for those funds were:

	Disaster Relief	Budget Stabilization	Total
General Fund	\$ 8,250,000	\$ 8,250,000	\$ 16,500,000
Transportation Fund	1,000,000	1,000,000	2,000,000
Emergency Services District Fund	2,600,000	2,600,000	5,200,000
Total	\$ 11,850,000	\$ 11,850,000	\$ 23,700,000

The General Fund reserves are included in the unassigned fund balance on the balance sheet. The Transportation Fund reserves are included in the assigned fund balance and the Emergency Services District Fund reserves are included in the restricted fund balance on the balance sheet. The Emergency/Disaster Relief and Budget Stabilization Reserve amounts may only be revised by the Board of County Commissioners.

Minimum Fund Balance - The approved fund balance policy dictates the Board's attempt to maintain a minimum fund balance in the General, Transportation, and Emergency Services District funds of 20% of budgeted annual operating expenditures. The minimum fund balance level may be revised by the County Administrator or his designee.

NOTE 16 - FUND BALANCE - Continued

C. Spending Hierarchy

For all governmental funds, when restricted, committed, assigned, and unassigned fund balances are combined in a fund, qualified expenditures are paid first from restricted or committed fund balance, as appropriate, then assigned and finally unassigned fund balances.

D. Fund Balance Deficit

At September 30, 2022, the Beach Restoration Fund, a major Governmental Fund, had a deficit in fund balance of \$5,841,494. The CDBG Neighborhood Stabilization Program Fund and the Metropolitan Planning Organization Fund, both nonmajor Governmental Funds, had a deficit in fund balance of \$9,641 and \$49,747 respectively. These fund balance deficits should be eliminated by grant proceeds in fiscal year 2023.

NOTE 17 - RISK MANAGEMENT

General Liability, Property, Worker’s Compensation and Medical

The Board is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets, errors or omissions, injuries to employees, and natural disasters. The Board established a Self Insurance Fund (an internal service fund) to account for and finance its uninsured risk of loss. Under this program, the Self Insurance Fund provides coverage up to the retention amounts listed below:

	10/01/2020 to 9/30/2022	10/01/2017 to 9/30/2020
Worker’s Compensation	\$ 650,000	\$ 650,000

NOTE 17 - RISK MANAGEMENT - Continued

General Liability, Property, Worker’s Compensation and Medical - Continued

All departments of the Board participate in the program. Payments are made by various funds to the Self Insurance Fund based on past experience and actual estimates of the amounts needed to pay current year claims. The Board purchases excess insurance to cover claims in excess of the amounts listed above. There is a 5% deductible per location for property damages arising due to a hurricane under the reinsurance policy.

The Board is also self-insured for medical claims covering employees and their eligible dependents. As required by Section 112.081, Florida Statutes, retirees and their eligible dependents are provided the same health care coverage as is offered to active employees; however, the retirees are responsible for payment of the premiums. Medical claims are paid from premiums contributed by employees, retirees, and by the Board. Premiums and contributions are determined by projected claims based on historical and actuarial experience. The self-insurance medical plan assumes all risk for claims, other than worker’s compensation, up to \$300,000 per occurrence. The Board has purchased a reinsurance policy to cover claims in excess of these limits.

The claims liability of \$10,361,233 reported at September 30, 2022, is based on the requirements of generally accepted governmental accounting standards, which require that a liability for claims be reported if information is available prior to the issuance of the financial statements, and the amount of the loss, can be reasonably estimated. Estimates for claims incurred but not reported are actuarially determined and recorded. Based on the actuary’s report, \$3,292,000 will be liquidated over the next twelve months.

Changes in the fund’s claims liability amount during the current and prior three fiscal years are as follows:

	Balance at Fiscal Year Beginning	Claims and Changes in Estimates	Claims Payments	Balance at Fiscal Year End
2018-2019	\$ 8,439,000	\$ 26,495,950	\$ (26,680,950)	\$ 8,254,000
2019-2020	8,254,000	23,627,530	(23,937,530)	7,944,000
2020-2021	7,944,000	29,700,049	(28,234,444)	9,409,605
2021-2022	9,409,605	23,325,116	(22,373,488)	10,361,233

Included in the charges to other funds is an amount to fund future catastrophic losses not actuarially determined; and at September 30, 2022, unrestricted net position of \$25,187,256 has been designated for this purpose.

A. Litigation

Various suits and claims are currently pending against the Board. It is impossible for the Board to accurately quantify the exposure involved given the jury's latitude in assessing compensatory and punitive damages, and the court's latitude in awarding attorney's fees. The Board intends to vigorously defend against these lawsuits and believes it has a good chance of prevailing on their merits. The Board is contingently liable with respect to lawsuits and other claims incidental to the ordinary course of its operations. In the opinion of management and based on the advice of legal counsel, the ultimate disposition of lawsuits will not have a material adverse effect on the financial position of the Board.

B. Contracts and Other Commitments

The Board has various contracts and commitments outstanding at September 30, 2022. In the General Fund, contracts are for janitorial services, beach park landscape and custodial maintenance, legislative consulting services and external auditing services. In the Special Revenue Funds, contracts include resurfacing from 53rd Street to the Merrill Barber Bridge, beach monitoring and profile surveys, 6th Avenue Pavement Reclamation & Resurfacing, several conservation area improvements as well as a variety of other road paving and drainage projects. In the Capital Projects Fund, contracts are for intersection improvements at State Road 60 and 43rd Avenue, 66th Avenue roadway improvements from 49th Street to 69th Street, Moorhen Marsh Low Energy Aquatic Plant System, and several sidewalk and road improvement projects throughout the County. In the Enterprise Funds, contracts are for golf course maintenance, South County Water Treatment Plant improvements, Countywide meter replacement program, North County Water and Sewer Project Phase II, and various other water and sewer projects. In the Internal Service Funds, contracts are for benefit administration services and GIS aerial imagery.

B. Contracts and Other Commitments - Continued

A summary of these projects at September 30, 2022, is as follows:

	Total Contract Price	Total Paid as of September 30, 2022	Remaining Balance at September 30, 2022
General	\$ 1,912,359	\$ (607,200)	\$ 1,305,159
Special Revenue	24,334,287	(8,172,902)	16,161,385

Total	\$ 139,406,774	\$ (72,964,534)	\$ 66,442,240

C. Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies. If any expenditures are disallowed as a result of these audits, the claims for reimbursement to the grantor agency would become a liability of the Board. In the opinion of management, any such adjustments would not be significant.

NOTE 19 - SUBSEQUENT EVENTS

On November 8, 2022, a referendum was approved by County voters to issue up to \$50,000,000 in general obligation bonds for the purchase and preservation of environmentally significant lands in the County. It is anticipated that debt issuance will occur in fiscal year 2023, with debt payments to begin in fiscal year 2024.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

March 9, 2023

The Honorable Board of County Commissioners
Indian River County, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial statements contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the fund financial statements of each major fund and the aggregate remaining fund information of the **Indian River County, Florida Board of County Commissioners** (the "Board"), as of and for the year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the Board's fund financial statements and have issued our report thereon dated March 9, 2023.

Return on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Board's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Board's internal control. Accordingly, we do not express an opinion on the effectiveness of the Board's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Return on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Board's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion.

The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Board's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CLERK OF THE CIRCUIT COURT AND COMPTROLLER

INDEPENDENT AUDITORS' REPORT

March 9, 2023

The Honorable Jeffrey R. Smith
Clerk of the Circuit Court and Comptroller
Indian River County, Florida

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying fund financial statements of the major fund and the aggregate remaining fund information of the ***Indian River County, Florida Clerk of the Circuit Court and Comptroller*** (the "Clerk"), as of and for the year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the Clerk's fund financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the major fund, and the aggregate remaining fund information of the Clerk, as of September 30, 2022, and the respective changes in financial position, and the budgetary comparisons for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Reporting Entity

As discussed in Note 1, the financial statements referred to above present only the ***Indian River County, Florida Clerk of the Circuit Court and Comptroller*** and do not purport to, and do not, present fairly the financial position of Indian River County, Florida as of September 30, 2022, and the changes in its financial position for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Basis of Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Independent Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Clerk and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Clerk's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Independent Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Clerk's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

The Honorable Jeffrey R. Smith
Clerk of the Circuit Court and Comptroller
March 9, 2023
Page 2

- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Clerk's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 9, 2023, on our consideration of the Clerk's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Clerk's internal control over financial reporting and compliance.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Clerk of the Circuit Court and Comptroller (Clerk) is a County agency and a local governmental entity pursuant to Article VIII, Section 1(d) of the Constitution of the State of Florida. For financial statement and reporting purposes, the Clerk does not meet the definition of a legally separate organization and is not considered to be a component unit. The Clerk is considered to be a part of the primary government of Indian River County.

Court-related expenditures are funded through filing fees, service charges, court costs and fines assessed to parties using the court system. Under 2013-44, Laws of Florida, revenue collected by the Clerk is retained by the County and remitted to the Florida Department of Revenue based upon various formulas determined by Florida Clerks of Court Operations Corporation. Non-court expenditures are funded by the Board of County Commissioners for both the finance and recording (board meeting recordings) departments. Additional non-court revenues include various fees assessed for the recording of documents, passports, marriage licenses and court reporter services. Both court and non-court operations are reported in these financial statements.

The financial statements contained herein represent the financial transactions of the Clerk of the Circuit Court and Comptroller only. The format of the Clerk's statements has been prepared in accordance with the presentation requirements of GASB 34 for fund financial statements.

The following is a summary of the significant accounting principles and policies used in the preparation of the accompanying financial statements.

A. Description of Funds

For reporting purposes, the accounting records are organized into the following two fund types: governmental funds and a fiduciary fund.

Governmental Funds

General Fund - The General Fund, which is a governmental fund, is used to account for all revenues and expenditures applicable to the general (both court and non-court) operations of the Clerk which are not accounted for in another fund. All financial resources, which are not accounted for and reported in another fund, are recorded in the General Fund. The governmental fund measurement focus is based upon determination of financial position and changes in financial position (sources, uses and balances of financial resources) rather than upon net income determination.

Notes To Financial Statements
Year Ended September 30, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

A. Description of Funds - Continued

Special Revenue Fund - The Special Revenue Fund accounts for the proceeds from recording fees to be used for modernizing the Clerk's public records systems, subsidizing court-related operational needs and program enhancements, and adding access to public records (by charging a computer usage fee).

Fiduciary Fund

Custodial Fund - The Custodial Fund is used to account for assets held by the Clerk in a trustee capacity or as an agent. These funds cannot be used to support the Clerk's own programs.

B. Basis of Accounting, Measurement Focus and Presentation

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Expenditures are recorded at the time liabilities are incurred. Revenues are recorded when received or when they are considered both measurable and available. The Clerk only considers revenue to be available if collected within the current fiscal year, except for Title IV-D grant revenue. This grant revenue is subject to accrual and has been recognized as revenue of the current fiscal period. Revenues collected in excess of expenditures are not considered earned and are reflected as liabilities. The fiduciary fund is accounted for on the accrual basis.

C. Budgetary Requirements

State statutes require the Clerk to prepare the budget in two parts: the budget relating to the State court system and the budget relating to the requirements of the Clerk as Clerk to the Board of County Commissioners, County auditor, and custodian of all County funds and other County-related duties. The budget relating to the State court system is prepared by the Clerk and submitted to the Florida Clerks of Court Operations Corporation (CCOC) by May 1 of each year (for consolidation to the Florida Legislative Budget Commission by August 1). The budget relating to the requirements of the Clerk as Clerk to the Board of County Commissioners is prepared prior to May 1 and is reviewed, modified if required, and approved by the Board by October 1. Both budgets are adopted on a basis consistent with generally accepted accounting principles.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

C. Budgetary Requirements - Continued

The budget legally adopted by the Clerk must be balanced; that is, the total of estimated receipts, including funding from the Board, shall equal the total estimated expenditures. Management is authorized to transfer budgeted amounts between objects and departments in any fund as long as management does not exceed the total appropriations of a fund.

D. Cash

Cash reported on the financial statements includes bank deposits, cash on hand, certificates of deposit, money market accounts, and all highly liquid investments with maturities of ninety days or less when purchased.

E. Prepaid Items

This account represents prepayments for services that will be used in future periods. The Clerk's policy is to record the expenditure for the services when they are used rather than when the cash is disbursed.

F. Capital Assets

Acquisitions of equipment are recorded as expenditures at the time of purchase for governmental fund financial statements. Tangible personal property used by the Clerk in operations is reported in the financial statements of the County. Refer to the County-wide note on capital assets for capitalization threshold, depreciation methodology and useful lives.

G. Leases

The Clerk is a lessee for noncancellable leases of equipment. A lease liability and an intangible right-to-use lease asset are recognized in the County's government-wide financial statements. The lease liability is initially measured at the present value of the payments expected to be made during the lease term. The lease asset is measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial costs, and is amortized on a straight-line basis over its useful life. Key estimates and judgments related to leases include the determination of the (1) discount rate, (2) lease term, and (3) lease payments.

G. Leases - Continued

The Clerk monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability. Additional information is provided in Note 7.

H. Compensated Absences

The Clerk accrues a liability for employees' rights to receive compensation for future absences when certain conditions are met. The Clerk does not, nor is legally required to, accumulate expendable, available financial resources to liquidate this obligation. Accordingly, the liability for compensated absences is not reported in the Clerk's financial statements. Additional information on the liability is reflected in Note 6.

K. Fund Balance

GASB Statement 54 - *Fund Balance Reporting and Governmental Funds Type Definitions* was implemented as of October 1, 2009. Categories for fund balance are as follows: nonspendable, restricted, committed, assigned, and unassigned. For more information, see the County-wide note on fund balance.

NOTE 3 - PENSION PLAN

Florida Retirement System

Plan Description: The Clerk's employees participate in the Florida Retirement System (FRS), a cost-sharing, multiple-employer public employee retirement system, administered by the Florida Department of Management Services (DMS). Benefit provisions are established and may be amended by state statute. A financial report is available from the DMS website at www.dms.myflorida.com or by mail at Florida Division of Retirement, PO Box 9000, Tallahassee, FL 32315-9000.

Effective July 1, 2011, the FRS became a contributory plan for all members, except DROP participants, whereby members contribute 3% and employers pay a rate based upon each member's employment class. Classes and rates in effect at July 1, 2022 were: regular class 11.91%, senior management class 31.57%, DROP class 18.60%, and elected official class 57.00%. Included in these rates is a health insurance subsidy of 1.66%.

Employees elect participation in either the defined benefit plan (Pension Plan) or the defined contribution plan (Investment Plan). If the employee enrolled in the FRS Pension Plan prior to July 1, 2011, normal retirement is age 62 with 6 years of service or 30 years of service, regardless of age. If the employee enrolled in the FRS Pension Plan on or after July 1, 2011, normal retirement is age 65 with 8 years of service or 33 years of service, regardless of age.

Under the Pension Plan, early retirement is available before reaching normal retirement age and will be subject to an early-retirement reduction of 5% for each year your age at retirement is under your normal retirement age. For those employees who elect participation in the Investment Plan rather than the Pension Plan, vesting occurs after one year of service. Participants have access to the full value of their vested account balance when they leave FRS employment, regardless of age. These participants receive a defined contribution for self-direction in an investment product with a third party administrator selected by the State Board of Administration.

Benefits Provided: Retirement benefits are determined by age, years of service, the average of the highest 5 or 8 fiscal years of pay, membership class and the payment option selected at retirement. For further information concerning the FRS and contribution rates, please read the County-wide note on pension plans.

Contributions: Employer contributions to the FRS are based on a percentage of covered payroll that has been actuarially determined as an amount, when combined with employee contributions, is expected to finance the cost of benefits earned by employees during the year with an additional amount to finance any unfunded accrued liability.

NOTE 3 - PENSION PLAN - Continued

Florida Retirement System - Continued

For the year ended September 30, 2022, the Clerk's actuarial contribution to FRS under the Pension Plan was \$434,364 and the Health Insurance Subsidy (HIS Program) was \$64,214. Employee contributions for both plans were \$95,636. Both employer and employee contributions were equal to 100% of the required contribution for each year.

Pension Liabilities: At September 30, 2022, the Division of Retirement calculated the Clerk's liability of \$3,947,104 for the FRS plan and \$1,179,745 for the HIS Program, for a total of \$5,126,849 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2022. The Clerk's proportionate share of the net pension liability was based on a projection of the Clerk's long-term share of contributions to the Pension Plan relative to the projected contributions of all participating employers, actuarially determined. At September 30, 2022, the Clerk's proportion was .010608% for the FRS Pension Plan and .011138% for the HIS Program.

Discount Rate for Pension Plan: The discount rate used to measure the total pension liability was 6.70%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that the Clerk's contributions will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plans' fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Clerk's Proportionate Share of the Net Position Liability to Changes in the Discount Rate for the Pension Plan: The following presents the Clerk's proportionate share of the net pension liability (NPL) of the Pension Plan calculated using the discount rate of 6.70%. Also presented is what the Clerk's proportionate share of the FRS plan NPL would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current rate:

	1% Decrease (5.70%)	Current Discount Rate (6.70%)	1% Increase (7.70%)
Clerk's proportionate share of NPL	\$ 6,826,245	\$ 3,947,104	\$ 1,539,800

Indian River County, Florida
Clerk of the Circuit Court and Comptroller
 Notes To Financial Statements
 Year Ended September 30, 2022

NOTE 3 - PENSION PLAN - Continued

Florida Retirement System - Continued

Discount rate for the HIS Program: In general, the discount rate for calculating the pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS Program is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate. The single equivalent discount rate is equal to the municipal bond rate selected by the plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index.

Sensitivity of the Clerk's Proportionate Share of the Net Position Liability to Changes in the Discount Rate for the HIS Program: The following presents the Clerk's proportionate share of the NPL of the HIS Program calculated using the discount rate of 3.54%. Also presented is what the Clerk's proportionate share of the HIS Program NPL would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current rate:

	<u>1% Decrease (2.54%)</u>	<u>Current Discount Rate (3.54%)</u>	<u>1% Increase (4.54%)</u>
Clerk's proportionate share of NPL	\$ 1,349,725	\$ 1,179,745	\$ 1,039,090

Refer to the County-wide note for actuarial assumptions (including the investment rate of return), pension liability on financial statements, and an explanation of pension expense components. The pension liability is not reported in the financial statements of the Clerk since they are not payable from available spendable resources. It is reported in the financial statements of the County by the fund which normally pays the personnel service costs of the employee.

NOTE 4 - OTHER POSTEMPLOYMENT BENEFITS

The Clerk participated in the Indian River County Other Postemployment Benefits Trust (OPEB Trust). The Clerk's 2022 annual contribution of \$28,916 was funded by: the Board of County Commissioners in the amount of \$5,373; non-court operations in the amount of \$4,050; court operations in the amount of \$18,290 and special revenue funds in the amount of \$1,203. This contribution was considered part of a total contribution determined by the OPEB Trust actuary. Further information on the OPEB Trust can be found in the County-wide financial statements and in the County notes.

Various excess catastrophe insurance policies with a commercial carrier are also in force for claims exceeding the amount chargeable against the Self Insurance Fund. The Clerk participated in the County’s self-insurance program during the fiscal year at an annual cost of \$714,073. Further details of this self-insurance program are discussed in the County-wide financial statements and County-wide note on risk management.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING
STANDARDS

March 9, 2023

The Honorable Jeffrey R. Smith
Clerk of the Circuit Court and Comptroller
Indian River Clerk, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial statements contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the fund financial statements of the major fund and the aggregate remaining fund information of the **Indian River County, Florida Clerk of the Circuit Court and Comptroller** (the "Clerk"), as of and for the year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the Clerk's fund financial statements and have issued our report thereon dated March 9, 2023.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Clerk's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Clerk's internal control. Accordingly, we do not express an opinion on the effectiveness of the Clerk's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

The Honorable Jeffrey R. Smith
Clerk of the Circuit Court and Comptroller
March 9, 2023

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Clerk's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion.

The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Clerk's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

PROPERTY APPRAISER

INDEPENDENT AUDITORS' REPORT

March 9, 2023

The Honorable Wesley Davis
Property Appraiser
Indian River County, Florida

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying fund financial statements of the major fund of the **Indian River County, Florida Property Appraiser** (the "Property Appraiser"), as of and for the year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the Property Appraiser's fund financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the major fund, of the Property Appraiser, as of September 30, 2022, and the respective changes in financial position, and the budgetary comparisons for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Reporting Entity

As discussed in Note 1, the financial statements referred to above present only the Indian River County, Florida Property Appraiser and do not purport to, and do not, present fairly the financial position of Indian River County, Florida as of September 30, 2022, and the changes in its financial position for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Basis of Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Independent Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Property Appraiser and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Property Appraiser's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Independent Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Property Appraiser's internal control. Accordingly, no such opinion is expressed.

The Honorable Wesley Davis
Property Appraiser
March 9, 2023
Page 3

- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Property Appraiser's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated March 9, 2023, on our consideration of the Property Appraiser's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Property Appraiser's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Property Appraiser's internal control over financial reporting and compliance.

The following is a summary of the significant accounting principles and policies used in the preparation of the accompanying financial statements.

A. Description of Funds

For reporting purposes, the accounting records are organized on the basis of governmental funds.

Governmental Fund

General Fund - The General Fund, which is a governmental fund, is used to account for all revenues and expenditures applicable to the general operations of the Property Appraiser. All financial resources, which are not accounted for and reported in another fund, are recorded in the General Fund. The governmental fund measurement focus is based upon determination of financial position and changes in financial position (sources, uses and balances of financial resources) rather than upon net income determination.

B. Basis of Accounting, Measurement Focus and Presentation

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Expenditures are recorded at the time liabilities are incurred. Revenues are recorded when received or when they are considered both measurable and available. Revenues collected in excess of expenditures are not considered earned and are reflected as liabilities.

C. Budgetary Requirements

State statutes require the Property Appraiser to prepare an annual budget, which clearly reflects the revenues available to his office and the functions for which money is to be expended. The budgeted revenues and expenditures are subject to the review and approval of the Department of Revenue. Management is authorized to transfer budgeted amounts between objects and departments as long as management does not exceed the total appropriations of a fund. Department of Revenue approval is only required when unanticipated revenues are received that management wishes to have appropriated, thereby increasing the total appropriations. The budget is prepared on a basis consistent with generally accepted accounting principles.

D. Capital Assets

Acquisitions of equipment are recorded as expenditures at the time of purchase for governmental fund financial statements. Tangible personal property used by the Property Appraiser in operations is reported in the financial statements of the County. Refer to the County-wide note on capital assets for capitalization threshold, depreciation methodology and useful lives.

E. Leases

The Property Appraiser is a lessee for a noncancellable lease of equipment. A lease liability and an intangible right-to-use asset are recognized in the County's government-wide financial statements. The lease liability is initially measured at the present value of the payments expected to be made during the lease term. The lease asset is measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial costs, and is amortized on a straight-line basis over its useful life. Key estimates and judgements related to leases include the determination of the (1) discount rate, (2) lease term, and (3) lease payments. The Property Appraiser monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability. Additional information is provided in Note 7.

F. Compensated Absences

The Property Appraiser accrues a liability for employees' rights to receive compensation for future absences when certain conditions are met. The Property Appraiser does not, nor is legally required to, accumulate expendable available financial resources to liquidate this obligation. Accordingly, the liability for compensated absences is not reported in the Property Appraiser's financial statements. Additional information on the liability is reflected in subsequent Note 6.

G. Transfer Out

In accordance with Florida Statutes, all revenues in excess of expenditures as of year-end are owed to the Board of County Commissioners and other governments. These "excess fees" totaled \$205,749 at September 30, 2022, and are included as due to other governments on the balance sheet. Of this amount, \$187,687 was owed to the Board of County Commissioners and is reported as Transfers to Board of County Commissioners on the Statement of Revenues, Expenditures and Changes in Fund Balances.

H. Fund Balance

GASB Statement 54 - *Fund Balance Reporting and Governmental Funds Type Definitions* was implemented as of October 1, 2009. This Statement requires the fund balance for governmental funds to be reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Categories for fund balance are as follows: nonspendable, restricted, committed, assigned, and unassigned. For more information, see the County-wide note on fund balance.

I. New Accounting Pronouncement

The Property Appraiser implemented Governmental Accounting Standards Board (GASB) Statement No. 87, *Leases*. The objective of this Statement is to better meet the informational needs of financial statement users by improving accounting and financial reporting for leases by governments.

NOTE 2 - CASH

Deposits

At September 30, 2022, the carrying amount of the Property Appraiser's deposits was \$246,520 and the bank balance was \$258,486. All deposits with financial institutions were 100% insured by federal depository insurance or by collateral provided by qualified public depositories to the State Treasurer in accordance with Section 280.01, Florida Statutes, also known as the Florida Security for Public Deposits Act. The Property Appraiser adopted the Board of County Commissioners' investment policy. This policy requires the Property Appraiser's office to follow the above state law (governing custodial credit risk) for cash deposits. Refer to the County-wide note on cash and investments for the definition of custodial credit risk.

NOTE 3 - PENSION PLAN

Florida Retirement System

Plan Description: The Property Appraiser's employees participate in the Florida Retirement System (FRS), a cost-sharing, multiple-employer public employee retirement system, administered by the Florida Department of Management Services (DMS). Benefit provisions are established and may be amended by state statute. A financial report is available from the DMS website at www.dms.myflorida.com or by mail at Florida Division of Retirement, PO Box 9000, Tallahassee, FL 32315-9000.

Effective July 1, 2011, the FRS became a contributory plan for all members, except DROP participants, whereby members contribute 3% and employers pay a rate based upon each member's employment class. Classes and rates in effect at July 1, 2022 were: regular class 11.91%, senior management class 31.57%, DROP class 18.60%, and elected official class 57.00%. Included in these rates is a health insurance subsidy of 1.66%.

Employees elect participation in either the defined benefit plan (Pension Plan) or the defined contribution plan (Investment Plan). If the employee enrolled in the FRS prior to July 1, 2011, normal retirement is age 62 with 6 years of service or 30 years of service, regardless of age. If the employee enrolled in the FRS on or after July 1, 2011, normal retirement is age 65 with 8 years of service or 33 years of service, regardless of age.

NOTE 3 - PENSION PLAN - Continued

Florida Retirement System - Continued

Under the Pension Plan, early retirement is available before reaching normal retirement age and will be subject to an early-retirement reduction of 5% for each year your age at retirement is under your normal retirement age. For those employees who elect participation in the Investment Plan rather than the Pension Plan, vesting occurs after one year of service. Participants have access to the full value of their vested account balance when they leave FRS employment, regardless of age. These participants receive a defined contribution for self-direction in an investment product with a third party administrator selected by the State Board of Administration.

Benefits Provided: Retirement benefits are determined by age, years of service, the average of the highest 5 or 8 fiscal years of pay, membership class and the payment option selected at retirement. For further information concerning the FRS and contribution rates, please read the County-wide note on pension plans.

Contributions: Employer contributions to the FRS are based on a percentage of covered payroll that has been actuarially determined as an amount, when combined with employee contributions, is expected to finance the cost of benefits earned by employees during the year with an additional amount to finance any unfunded accrued liability.

For the year ended September 30, 2022, the Property Appraiser's actuarial contributions to FRS under the Pension Plan were \$337,616 and the Health Insurance Subsidy (HIS Program) were \$40,167. Employee contributions for both plans were \$63,481. Both employer and employee contributions were equal to 100% of the required contribution for each year.

Pension Liabilities: At September 30, 2022, the Division of Retirement calculated the Property Appraiser's liability of \$2,851,442 for the FRS plan and \$693,773 for the HIS Program, for a total of \$3,545,215 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2022. The Property Appraiser's proportionate share of the net pension liability was based on a projection of the Property Appraiser's long-term share of contributions to the Pension Plan relative to the projected contributions of all participating employers, actuarially determined. At September 30, 2022, the Property Appraiser's proportionate share was .007663% for the FRS Pension Plan and .006550% for the HIS Program.

NOTE 3 - PENSION PLAN - Continued

Florida Retirement System - Continued

Discount Rate for Pension Plan: The discount rate used to measure the total pension liability was 6.70%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that the Property Appraiser's contributions will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plans' fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Property Appraiser's Proportionate Share of the Net Position Liability to Changes in the Discount Rate for the Pension Plan: The following presents the Property Appraiser's proportionate share of the Net Pension Liability (NPL) of the Pension Plan calculated using the discount rate of 6.70%. Also presented is what the Property Appraiser's proportionate share of the FRS plan NPL would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current rate:

	1% Decrease (5.70%)	Current Discount Rate (6.70%)	1% Increase (7.70%)
Property Appraiser 's proportionate share of NPL	\$ 4,931,373	\$ 2,851,442	\$ 1,112,372

Discount rate for the HIS Program: In general, the discount rate for calculating the pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS Program is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate. The single equivalent discount rate is equal to the municipal bond rate selected by the plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index.

Sensitivity of the Property Appraiser's Proportionate Share of the Net Position Liability to Changes in the Discount Rate for the HIS Program: The following presents the Property Appraiser's proportionate share of the NPL of the HIS Program calculated using the discount rate of 3.54%. Also presented is what the Property Appraiser's proportionate share of the HIS Program NPL would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current rate:

Refer to the County-wide note for actuarial assumptions (including the investment rate of return), pension liability on financial statements, and an explanation of pension expense components. The pension liability is not reported in the financial statements of the Property Appraiser since they are not payable from available spendable resources. It is reported in the financial statements of the County by the fund which normally pays the personnel service costs of the employee.

NOTE 4 - OTHER POSTEMPLOYMENT BENEFITS

The Property Appraiser participated in the Indian River County Other Postemployment Benefits Trust (OPEB Trust). The Property Appraiser's 2022 annual contribution of \$15,639 was funded by the Board of County Commissioners as part of a total contribution determined by the OPEB Trust actuary. Further information on the OPEB Trust can be found in the County-wide financial statements and in the County notes.

NOTE 5 - RISK MANAGEMENT

Indian River County maintains a risk management program that provides for coverage of risks of loss related to torts, theft of, damage to and destruction of assets, errors or omissions, injuries to employees, natural disasters, and medical and life insurance coverage for employees and their eligible dependents. Various excess catastrophe insurance policies with a commercial carrier are also in force for claims exceeding the amount chargeable against the Self Insurance Fund. The Property Appraiser participated in the County's self-insurance program during fiscal year 2022 at an annual cost of \$381,661. Further details on the self-insurance program are discussed in the County-wide financial statements and County notes.

They are reported in the financial statements of the County.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

March 9, 2023

The Honorable Wesley Davis
Property Appraiser
Indian River Property Appraiser, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial statements contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the fund financial statements of the major fund of the **Indian River County, Florida Property Appraiser** (the "Property Appraiser"), as of and for the year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the Property Appraiser's fund financial statements and have issued our report thereon dated March 9, 2023.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Property Appraiser's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Property Appraiser's internal control. Accordingly, we do not express an opinion on the effectiveness of the Property Appraiser's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

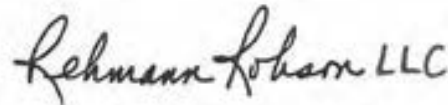

The Honorable Wesley Davis
Property Appraiser
March 9, 2023

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Property Appraiser's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Property Appraiser's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Accountants' Responsibility

SHERIFF

INDEPENDENT AUDITORS' REPORT

March 9, 2023

The Honorable Eric Flowers
Sheriff
Indian River County, Florida

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying fund financial statements of the major fund and the remaining fund information of the **Indian River County, Florida Sheriff** (the "Sheriff"), as of and for the year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the Sheriff's fund financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the major fund, and the remaining fund information of the Sheriff, as of September 30, 2022, and the respective changes in financial position, and the budgetary comparisons for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Reporting Entity

As discussed in Note 1, the financial statements referred to above present only the Indian River County, Florida Sheriff and do not purport to, and do not, present fairly the financial position of Indian River County, Florida as of September 30, 2022, and the changes in its financial position for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Basis of Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Independent Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Sheriff and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Sheriff's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Independent Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Sheriff's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

The Honorable Eric Flowers
Sheriff
March 9, 2023
Page 3

- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Sheriff's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated March 9, 2023, on our consideration of the Sheriff's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Sheriff's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Sheriff's internal control over financial reporting and compliance.

Notes To Financial Statements
Year Ended September 30, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Sheriff is a County agency and a local governmental entity pursuant to Article VIII, Section 1(d) of the Constitution of the State of Florida. For financial statement and reporting purposes, the Sheriff does not meet the definition of a legally separate organization and is not considered to be a component unit. The Sheriff is considered to be a part of the primary government of Indian River County. The financial statements contained herein represent the financial transactions of the Sheriff only. The format of the Sheriff's statements has been prepared in accordance with the presentation requirements of GASB 34 for fund financial statements.

The following is a summary of the significant accounting principles and policies used in the preparation of the accompanying financial statements.

A. Description of Funds

For reporting purposes, the accounting records are organized into the following fund type: governmental funds.

Governmental Funds

General Fund - The General Fund, which is a governmental fund, is used to account for all revenues and expenditures applicable to the general operations of the Sheriff, which are not accounted for in another fund. All financial resources, which are not accounted for and reported in another fund, are recorded in the General Fund. The governmental fund measurement focus is based upon determination of financial position and changes in financial position (sources, uses and balances of financial resources) rather than upon net income determination.

Special Revenue Fund - The Special Revenue Fund accounts for the proceeds of specific revenue sources that are legally restricted, committed or assigned for public safety such as police education, special purpose equipment, jail commissary, and special law enforcement activities.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

B. Basis of Accounting, Measurement Focus and Presentation

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Expenditures are recorded at the time liabilities are incurred. Revenues are recorded when received or when they are considered both measurable and available. Revenues collected in excess of expenditures are not considered earned and are reflected as liabilities. The fiduciary fund is reported on an accrual basis.

C. Budgetary Requirements

State statutes require the Sheriff to submit a proposed budget to the Board of County Commissioners by May 1 of each year. The budget reflects the estimated amounts of all proposed expenditures for operating and equipping the Sheriff's office and jail. Capital improvements for these buildings are funded by the Board. The budget is prepared on a basis consistent with generally accepted accounting principles. After review and approval of the budget by the Board, the Sheriff is authorized to transfer budgeted amounts between objects and departments as long as it does not exceed the total appropriations approved by the Board. Increases in the total budget are subject to the review and approval of the Board. The budgeted revenues and expenditures in the accompanying financial statements reflect all amendments approved by the Board of County Commissioners.

D. Compensated Absences

The Sheriff accrues a liability for employees' rights to receive compensation for future absences when certain conditions are met. The Sheriff does not, nor is legally required to, accumulate expendable, available financial resources to liquidate this obligation. Accordingly, the liability for compensated absences is not reported on the Sheriff's financial statements. Additional information on the liability is reflected in subsequent Note 8.

E. Transfer Out

In accordance with Florida Statutes, all general fund revenues in excess of expenditures as of year-end are owed to the Board of County Commissioners. The September 30, 2022 amount totaled \$577,989 and was reported as a transfer to the Board of County Commissioners at year end. This amount represents \$462,150 in general fund revenues and \$115,839 in special revenue fund revenues. This transfer is also reported as due to other governments on the balance sheet.

F. Fund Balance

GASB Statement 54 - *Fund Balance Reporting and Governmental Funds Type Definitions* was implemented as of October 1, 2009. This Statement requires the fund balance for governmental funds to be reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Categories for fund balance are as follows: nonspendable, restricted, committed, assigned, and unassigned. For more information, see the County-wide note on fund balance.

G. New Accounting Pronouncement

The Sheriff implemented Governmental Accounting Standards Board (GASB) Statement No. 87, *Leases*. The objective of this Statement is to better meet the informational needs of financial statement users by improving accounting and financial reporting for leases by governments.

NOTE 2 - CASH

Deposits

At September 30, 2022, the carrying amount of the Sheriff's deposits was \$4,949,020 and the bank balance was \$5,184,793. All deposits with financial institutions were 100% insured by federal depository insurance or by collateral provided by qualified public depositories to the State Treasurer in accordance with Section 280.01, Florida Statutes, also known as the Florida Security for Public Deposits Act.

The Sheriff's office has elected not to adopt a formal investment policy and selects the alternative investment guidelines as provided by Florida Statutes 218.415, subsection 17. Refer to the County-wide note on cash and investments for the definition of custodial credit risk.

NOTE 3 - CAPITAL ASSETS

Equipment used by the Sheriff in operations is reported in the financial statements of the County. State law requires the Sheriff to account for all tangible property used by the Sheriff. A summary of changes in capital assets is as follows:

Refer to the County-wide note on capital assets for capitalization threshold, depreciation and amortization methodology and useful lives.

NOTE 4 - INVENTORIES

Inventories are valued at cost, which approximates market, using the "first-in, first-out" method of accounting. The costs of inventory are recorded as an expenditure when consumed rather than when purchased. Inventory of the Sheriff represents law enforcement gear, miscellaneous clothing and store items.

NOTE 5 - PENSION PLAN

Florida Retirement System

Plan Description: The Sheriff's employees participate in the Florida Retirement System (FRS), a cost-sharing, multiple-employer public employee retirement system, administered by the Florida Department of Management Services (DMS). Benefit provisions are established and may be amended by state statute. A financial report is available from the DMS website at www.dms.myflorida.com or by mail at Florida Division of Retirement, PO Box 9000, Tallahassee, FL 32315-9000.

NOTE 5 - PENSION PLAN - Continued

Florida Retirement System - Continued

Effective July 1, 2011, the FRS became a contributory plan for all members, except DROP participants, whereby members contribute 3% and employers pay a rate based upon each member's employment class. Classes and rates in effect at July 1, 2022 were: regular class 11.91%, special risk 27.83%, senior management class 31.57%, DROP class 18.60%, and elected official class 57.00%. Included in these rates is a health insurance subsidy of 1.66%. Employees elect participation in either the defined benefit plan (Pension Plan) or the defined contribution plan (Investment Plan). If the employee enrolled in the FRS prior to July 1, 2011, normal retirement is age 62 with 6 years of service or 30 years of service, regardless of age. If the employee enrolled in the FRS on or after July 1, 2011, normal retirement is age 65 with 8 years of service or 33 years of service, regardless of age.

Under the Pension Plan, early retirement is available before reaching normal retirement age and will be subject to an early-retirement reduction of 5% for each year your age at retirement is under your normal retirement age. For those employees who elect participation in the Investment Plan rather than the Pension Plan, vesting occurs after one year of service. Participants have access to the full value of their vested account balance when they leave FRS employment, regardless of age. These participants receive a defined contribution for self-direction in an investment product with a third party administrator selected by the State Board of Administration.

Benefits Provided: Retirement benefits are determined by age, years of service, the average of the highest 5 or 8 fiscal years of pay, membership class and the payment option selected at retirement. For further information concerning the FRS and contribution rates, please read the County-wide note on pension plans.

Contributions: Employer contributions to the FRS are based on a percentage of covered payroll that has been actuarially determined as an amount, when combined with employee contributions, is expected to finance the cost of benefits earned by employees during the year with an additional amount to finance any unfunded accrued liability.

For the year ended September 30, 2022, the Sheriff's actuarial contributions to FRS under the Pension Plan were \$6,093,573 and the HIS Program were \$541,829. Employee contributions were \$920,706. Both employer and employee contributions were equal to 100% of the required contribution for each year.

NOTE 5 - PENSION PLAN - Continued

Florida Retirement System - Continued

Pension Liabilities: At September 30, 2022, the Division of Retirement calculated the Sheriff's liability of \$52,716,832 for the FRS plan and \$9,578,415 for the HIS Program, for a total of \$62,295,247 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2022. The Sheriff's proportionate share of the net pension liability was based on a projection of the Sheriff's long-term share of contributions to the Pension Plan relative to the projected contributions of all participating employers, actuarially determined. At September 30, 2022, the Sheriff's proportionate share was .141681% for the FRS Pension Plan and .090434% for the HIS Program.

Discount Rate for Pension Plan: The discount rate used to measure the total pension liability was 6.70%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that the Sheriff's contributions will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Pension Plans' fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees.

Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Sheriff's Proportionate Share of the Net Position Liability to Changes in the Discount Rate for the Pension Plan: The following presents the Sheriff's proportionate share of the net pension liability (NPL) of the Pension Plan calculated using the discount rate of 6.70%. Also presented is what the Sheriff's proportionate share of the FRS plan NPL would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current rate:

	<u>1% Decrease (5.70%)</u>	<u>Current Discount Rate (6.70%)</u>	<u>1% Increase (7.70%)</u>
Sheriff's proportionate share of NPL	\$ 91,170,137	\$ 52,716,832	\$ 20,565,294

Indian River County, Florida
Sheriff
Notes To Financial Statements
Year Ended September 30, 2022

NOTE 5 - PENSION PLAN - Continued

Florida Retirement System - Continued

Discount rate for the HIS Program: In general, the discount rate for calculating the pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS Program is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate. The single equivalent discount rate is equal to the municipal bond rate selected by the plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index.

Sensitivity of the Sheriff's Proportionate Share of the Net Position Liability to Changes in the Discount Rate for the HIS Program: The following presents the Sheriff's proportionate share of the NPL of the HIS Program calculated using the discount rate of 3.54%. Also presented is what the Sheriff's proportionate share of the HIS Program NPL would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current rate:

	1% Decrease (2.54%)	Current Discount Rate (3.54%)	1% Increase (4.54%)
Sheriff's proportionate share of NPL	\$ 10,958,493	\$ 9,578,415	\$ 8,436,429

Refer to the County-wide note for actuarial assumptions (including the investment rate of return), pension liability on financial statements, and an explanation of pension expense components. The pension liability is not reported in the financial statements of the Sheriff since they are not payable from available spendable resources. It is reported in the financial statements of the County by the fund which normally pays the personnel service costs of the employee.

NOTE 6 - OTHER POSTEMPLOYMENT BENEFITS

The Sheriff participated in the Indian River County Other Postemployment Benefits Trust (OPEB Trust). The Sheriff's 2022 annual contribution of \$475,656 was funded by the Board of County Commissioners as part of a total contribution determined by the OPEB Trust actuary. Further information on the OPEB Trust can be found in the County-wide financial statements and County notes.

NOTE 7 - RISK MANAGEMENT

Indian River County maintains a risk management program that provides for coverage of risks of loss related to torts, theft of, damage to and destruction of assets, errors or omissions, injuries to employees, natural disasters, and medical and life insurance coverage for employees and their eligible dependents. Various excess catastrophe insurance policies with a commercial carrier are also in force for claims exceeding the amount chargeable against the Self Insurance Fund. The Sheriff participated in the County's self-insurance program during fiscal year 2022 at an annual cost of \$4,863,772. Further details on this self-insurance program are disclosed in the County-wide financial statements and County notes.

NOTE 8 - LONG-TERM LIABILITIES

Changes in Long-Term Liabilities

The following is a schedule of changes in long-term liabilities as of September 30, 2022:

	Beginning Balance 10/01/21	Additions	Deletions	Ending Balance 09/30/22
Accrued Compensated Absences	<u>\$ 9,022,400</u>	<u>\$ 5,423,020</u>	<u>\$ 4,125,643</u>	<u>\$ 10,319,777</u>

Of the \$10,319,777 liability for accrued compensated absences, management estimates that \$4,109,656 will be due and payable within one year. The long-term liabilities are not reported in the financial statements of the Sheriff since they are not payable from available spendable resources. They are reported in the County-wide financial statements and County notes.

NOTE 9 - LEASES

The Sheriff is a lessee for noncancellable leases of buildings and equipment. A lease liability and an intangible right-to-use lease asset are recognized in the County's government-wide financial statements. The lease liability is measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial costs, and is amortized on a straight-line basis over its useful life. Key estimates and judgements related to leases include the determination of the (1) discount rate, (2) lease term, and (3) lease payments. The Sheriff monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

NOTE 9 - LEASES - Continued

The Sheriff is involved in several lease agreements as lessee that qualify as long-term lease agreements. Below is a summary of the agreements. These agreements qualify as intangible, right-to-use assets and not a financed purchase, as the Sheriff will not own the asset at the end of the contract term and the noncancelable term of the agreement surpasses one year.

<u>Asset Type</u>	<u>Remaining Term of Agreements</u>
Copiers	38 months
Mail Machine	2 years
Office Space	27 months

NOTE 9 - LEASES - Continued

Leases payable activity for the year ended September 30, 2022, was as follows:

	Beginning Balance*	Additions	Deductions	Ending Balance	Due Within One Year
Leases payable	\$ 229,236	\$ -	\$ (79,159)	\$ 150,077	\$ 83,322

*The Sheriff implemented the provisions of GASB Statement No. 87, *Leases*, in the current year. In accordance with this Statement, leases payable have been added to the beginning balances shown above and a corresponding lease asset has been recorded for the same amount.

NOTE 10 - COMMITMENTS AND CONTINGENCIES

Various suits and claims are currently pending against the Sheriff. It is impossible for the Sheriff to accurately quantify the exposure involved given the jury's latitude in assessing compensatory and punitive damages, and the court's latitude in awarding attorney's fees. The Sheriff intends to vigorously defend against these lawsuits and believes he has a good chance of prevailing on their merits. In the opinion of management and based on the advice of legal counsel, the ultimate disposition of these lawsuits will not have a material adverse effect on the financial position of the Sheriff.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

March 9, 2023

The Honorable Eric Flowers
Sheriff
Indian River County, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial statements contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the fund financial statements of the major fund and the remaining fund information of the **Indian River County, Florida Sheriff** (the "Sheriff"), as of and for the year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the Sheriff's fund financial statements and have issued our report thereon dated March 9, 2023.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Sheriff's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Sheriff's internal control. Accordingly, we do not express an opinion on the effectiveness of the Sheriff's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

The Honorable Eric Flowers
Sheriff
March 9, 2023

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Sheriff's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion.

The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Sheriff's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Supervisor of Election's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Independent Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Supervisor of Election's internal control. Accordingly, no such opinion is expressed.

The Honorable Leslie Swan
Supervisor of Elections

- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Supervisor of Election's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated March 9, 2023, on our consideration of the Supervisor of Election's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Supervisor of Election's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Supervisor of Election's internal control over financial reporting and compliance.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Supervisor of Elections is a County agency and a local governmental entity pursuant to Article VIII, Section 1(d) of the Constitution of the State of Florida. For financial statement and reporting purposes, the Supervisor of Elections does not meet the definition of a legally separate organization and is not considered to be a component unit. The Supervisor of Elections is considered to be a part of the primary government of Indian River County. The financial statements contained herein represent the financial transactions of the Supervisor of Elections only. The format of the Supervisor of Elections' statements has been prepared in accordance with the presentation requirements of GASB 34 for fund financial statements.

The following is a summary of the significant accounting principles and policies used in the preparation of the accompanying financial statements.

A. Description of Funds

The accounting records are organized for reporting purposes on the basis of governmental funds.

Governmental Fund

General Fund - The General Fund, which is a governmental fund, is used to account for all revenues and expenditures applicable to the general operations of the Supervisor of Elections. All financial resources, which are not accounted for and reported in another fund, are recorded in the General Fund. The governmental fund measurement focus is based upon determination of financial position and changes in financial position (sources, uses and balances of financial resources) rather than upon net income determination.

B. Basis of Accounting, Measurement Focus and Presentation

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Expenditures are recorded at the time liabilities are incurred. Revenues are recorded when received in cash or when they are considered both measurable and available. Revenues collected in excess of expenditures are not considered earned and are reflected as liabilities.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

C. Budgetary Requirements

State statutes require the Supervisor of Elections to submit a proposed budget to the Board of County Commissioners by May 1 of each year. After review and approval of the budget by the Board, the Supervisor of Elections is authorized to transfer budgeted amounts between objects and departments as long as it does not exceed the total appropriations approved by the Board. Increases in the total budget are subject to the review and approval of the Board.

The budgeted revenues and expenditures in the accompanying financial statements reflect all amendments approved by the Board of County Commissioners. The budget is prepared on a basis consistent with generally accepted accounting principles.

D. Prepaid Items

Deposits in the governmental funds represent prepayments for services that will be used in future periods. The Supervisor of Elections' policy is to record the expenditure for the services when they are used rather than when the cash is disbursed.

E. Capital Assets

Acquisitions of equipment are recorded as expenditures at the time of purchase for governmental fund financial statements. Tangible personal property used by the Supervisor of Elections in operations is reported in the financial statements of the County. Refer to the County-wide note on capital assets for the capitalization threshold, depreciation methodology and useful lives.

F. Leases

The Supervisor of Elections is a lessee for noncancellable leases of equipment. A lease liability and an intangible right-to-use lease asset are recognized in the County's government-wide financial statements. The lease liability is initially measured at the present value of the payments expected to be made during the lease term. The lease asset is measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial costs, and is amortized on a straight-line basis over its useful life. Key estimates and judgements related to leases include the determination of the (1) discount rate, (2) lease term, and (3) lease payments.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

F. Leases - Continued

The Supervisor of Elections monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability. Additional information is provided in Note 7.

G. Compensated Absences

The Supervisor of Elections accrues a liability for employees' rights to receive compensation for future absences when certain conditions are met. The Supervisor of Elections does not, nor is legally required to, accumulate expendable, available financial resources to liquidate this obligation. Accordingly, the liability for compensated absences is not reported on the Supervisor of Elections' financial statements. Additional information on the liability is reflected in subsequent Note 6.

H. Transfer Out

In accordance with Florida Statutes, all general fund revenues in excess of expenditures as of year-end are owed to the Board of County Commissioners and other governments. This unspent budget totaled \$9,648 and was reported as a transfer to the Board of County Commissioners. These transfers are also reflected as due to other governments on the balance sheet.

I. Fund Balance

GASB Statement 54 - *Fund Balance Reporting and Governmental Funds Type Definitions* was implemented as of October 1, 2009. This Statement requires the fund balance for governmental funds to be reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Categories for fund balance are as follows: nonspendable, restricted, committed, assigned, and unassigned. For more information, see the County-wide note on fund balance.

J. New Accounting Pronouncement

The Supervisor of Elections implemented Governmental Accounting Standards Board (GASB) Statement No. 87, *Leases*. The objective of this Statement is to better meet the informational needs of financial statement users by improving accounting and financial reporting for leases by governments.

NOTE 2 - CASH

Deposits

At September 30, 2022, the carrying amount of the Supervisor of Elections' deposits was \$4,091 and the bank balance was \$141,653. All deposits with financial institutions were 100% insured by federal depository insurance or by collateral provided by qualified public depositories to the State Treasurer in accordance with Section 280.01, Florida Statutes, also known as the Florida Security for Public Deposits Act.

The Supervisor of Elections has adopted the Board of County Commissioners' investment policy. This policy requires the Supervisor of Elections' office to follow the above state law (governing custodial credit risk) for cash deposits. Refer to the County-wide note on cash and investments for the definition of custodial credit risk.

NOTE 3 - PENSION PLAN

Florida Retirement System

Plan Description: The Supervisor of Elections' employees participate in the Florida Retirement System (FRS), a cost-sharing, multiple-employer public employee retirement system, administered by the Florida Department of Management Services (DMS). Benefit provisions are established and may be amended by state statute. A financial report is available from the DMS website at www.dms.myflorida.com or by mail at Florida Division of Retirement, PO Box 9000, Tallahassee, FL 32315-9000.

Effective July 1, 2011, the FRS became a contributory plan for all members, except DROP participants, whereby members contribute 3% and employers pay a rate based upon each member's employment class. Classes and rates in effect at July 1, 2022 were: regular class 11.91%, senior management class 31.57%, DROP class 18.60%, and elected official class 57.00%. Included in these rates is a health insurance subsidy of 1.66%.

Employees elect participation in either the defined benefit plan (Pension Plan) or the defined contribution plan (Investment Plan). If the employee enrolled in the FRS prior to July 1, 2011, normal retirement is age 62 with 6 years of service or 30 years of service, regardless of age. If the employee enrolled in the FRS on or after July 1, 2011, normal retirement is age 65 with 8 years of service or 33 years of service, regardless of age.

NOTE 3 - PENSION PLAN - Continued

Florida Retirement System - Continued

Under the Pension Plan, early retirement is available before reaching normal retirement age and will be subject to an early-retirement reduction of 5% for each year your age at retirement is under your normal retirement age. For those employees who elect participation in the Investment Plan rather than the Pension Plan, vesting occurs after one year of service. Participants have access to the full value of their vested account balance when they leave FRS employment, regardless of age. These participants receive a defined contribution for self-direction in an investment product with a third party administrator selected by the State Board of Administration.

Benefits Provided: Retirement benefits are determined by age, years of service, the average of the highest 5 or 8 fiscal years of pay, membership class and the payment option selected at retirement. For further information concerning the Florida Retirement System and contribution rates, please read the County-wide note on pension plans.

Contributions: Employer contributions to the FRS are based on a percentage of covered payroll that has been actuarially determined as an amount, when combined with employee contributions, is expected to finance the cost of benefits earned by employees during the year with an additional amount to finance any unfunded accrued liability.

For the year ended September 30, 2022, the Supervisor of Elections' actuarial contribution to FRS under the Pension Plan were \$122,351 and the HIS Program were \$11,968. Employee contributions were \$20,323. Both employer and employee contributions were equal to 100% of the required contribution for each year.

Pension Liabilities: At September 30, 2022, the Division of Retirement calculated the Supervisor of Elections' liability of \$1,023,608 for the FRS plan and \$205,046 for the HIS Program, for a total of \$1,228,654 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2022. The Supervisor of Elections' proportionate share of the net pension liability was based on a projection of the Supervisor of Elections' long-term share of contributions to the Pension Plan relative to the projected contributions of all participating employers, actuarially determined. At September 30, 2022, the Supervisor of Elections' proportionate share was .002751% for the FRS Pension Plan and .001936% for the HIS Program.

NOTE 3 - PENSION PLAN - Continued

Florida Retirement System - Continued

Discount Rate for Pension Plan: The discount rate used to measure the total pension liability was 6.70%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that the Supervisor of Elections' contributions will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plans' fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Supervisor of Elections' Proportionate Share of the Net Position Liability to Changes in the Discount Rate for the Pension Plan: The following presents the Supervisor of Elections' proportionate share of the net pension liability (NPL) of the Pension Plan calculated using the discount rate of 6.70%. Also presented is what the Supervisor of Elections' proportionate share of the FRS plan NPL would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current rate:

	1% Decrease (5.70%)	Current Discount Rate (6.70%)	1% Increase (7.70%)
Supervisor of Elections's proportionate share of NPL	\$ 1,770,259	\$ 1,023,608	\$ 399,318

Discount rate for the HIS Program: In general, the discount rate for calculating the pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS Program is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate. The single equivalent discount rate is equal to the municipal bond rate selected by the plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index.

Sensitivity of the Supervisor of Elections' Proportionate Share of the Net Position Liability to Changes in the Discount Rate for the HIS Program: The following presents the Supervisor of Elections' proportionate share of the NPL of the HIS Program calculated using the discount rate of 3.54%. Also presented is what the Supervisor of Election's proportionate share of the HIS Program NPL would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current rate:

Supervisor of Election's proportionate share of NPL	\$ 234,589	\$ 205,046	\$ 180,599

Refer to the County-wide note for actuarial assumptions (including the investment rate of return), pension liability on financial statements, and an explanation of pension expense components. The pension liability is not reported in the financial statements of the Supervisor of Elections since they are not payable from available spendable resources. It is reported in the financial statements of the County by the fund which normally pays the personnel service costs of the employee.

NOTE 4 - OTHER POSTEMPLOYMENT BENEFITS

The Supervisor of Elections participated in the Indian River County Other Postemployment Benefit Trust (OPEB Trust). The Supervisor of Election's 2022 annual contribution of \$4,411 was funded by the Board of County Commissioners as part of a total contribution determined by the OPEB Trust actuary. Further information on the OPEB Trust can be found in the County-wide financial statements and County notes.

NOTE 5 - RISK MANAGEMENT

Indian River County maintains a risk management program that provides for coverage of risks of loss related to torts, theft of, damage to and destruction of assets, errors or omissions, injuries to employees, natural disasters, and medical and life insurance coverage for employees and their eligible dependents. Various excess catastrophe insurance policies with a commercial carrier are also in force for claims exceeding the amount chargeable against the Self Insurance Fund. The Supervisor of Elections participated in the County's self-insurance program during fiscal year 2022 at an annual cost of \$91,382.

The liability for accrued compensated absences is not reported in the financial statements of the Supervisor of Elections since it is not payable from available spendable resources. The liability is reported in the financial statements of the County.

NOTE 7 - LEASES

The Supervisor of Elections is involved in an agreement as a lessee that qualifies as a long-term lease agreement. INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

March 9, 2023

The Honorable Leslie Swan
Supervisor of Elections
Indian River County, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial statements contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the fund financial statements of the major fund of the **Indian River County, Florida Supervisor of Elections** (the "Supervisor of Elections"), as of and for the year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the Supervisor of Elections' fund financial statements and have issued our report thereon dated March 9, 2023.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Supervisor of Elections' internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Supervisor of Elections' internal control. Accordingly, we do not express an opinion on the effectiveness of the Supervisor of Elections' internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

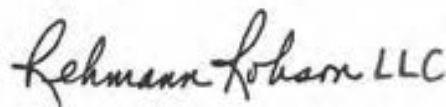

The Honorable Leslie Swan
Supervisor of Elections
March 9, 2023
Page 2

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Supervisor of Elections' financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Supervisor of Elections' internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

TAX COLLECTOR

INDEPENDENT AUDITORS' REPORT

March 9, 2023

The Honorable Carole Jean Jordan
Tax Collector
Indian River County, Florida

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying fund financial statements of the major fund and the remaining fund information of the **Indian River County, Florida Tax Collector** (the "Tax Collector"), as of and for the year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the Tax Collector's fund financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the major fund, and the remaining fund information of the Tax Collector, as of September 30, 2022, and the respective changes in financial position, and the budgetary comparisons for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Reporting Entity

As discussed in Note 1, the financial statements referred to above present only the **Indian River County, Florida Tax Collector** and do not purport to, and do not, present fairly the financial position of Indian River County, Florida as of September 30, 2022, and the changes in its financial position for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Basis of Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Independent Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Tax Collector and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Tax Collector's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Independent Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Tax Collector's internal control. Accordingly, no such opinion is expressed.

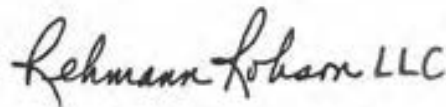

The Honorable Carole Jean Jordan
Tax Collector

- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Tax Collector's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated March 9, 2023, on our consideration of the Tax Collector's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Tax Collector's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Tax Collector's internal control over financial reporting and compliance.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Tax Collector is a County agency and a local governmental entity pursuant to Article VIII, Section 1(d) of the Constitution of the State of Florida. For financial statement and reporting purposes, the Tax Collector does not meet the definition of a legally separate organization and is not considered to be a component unit. The Tax Collector is considered to be a part of the primary government of Indian River County. The financial statements contained herein represent the financial transactions of the Tax Collector only. The format of the Tax Collector's statements has been prepared in accordance with the presentation requirements of GASB 34 for fund financial statements.

The following is a summary of the significant accounting principles and policies used in the preparation of the accompanying financial statements.

A. Description of Funds

The accounting records are organized for reporting purposes on the basis of governmental funds and a fiduciary fund.

Governmental Fund

General Fund - The General Fund, which is a governmental fund, is used to account for all revenues and expenditures applicable to the general operations of the Tax Collector. All financial resources, which are not accounted for and reported in another fund, are recorded in the General Fund. The governmental fund measurement focus is based upon determination of financial position and changes in financial position (sources, uses and balances of financial resources) rather than upon net income determination.

Fiduciary Fund

Fiduciary Fund - The Fiduciary Fund of the Tax Collector is the Custodial Fund, which is used to account for assets held by the Tax Collector as an fiduciary. The Custodial Fund does not involve measurement of results of operations. These funds cannot be used to support the Tax Collector's own programs.

B. Basis of Accounting, Measurement Focus and Presentation

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Expenditures are recorded at the time liabilities are incurred. Revenues are recorded when received or when they are considered both measurable and available. Revenues collected in excess of expenditures are

not considered earned and are reflected as liabilities. The fiduciary fund is reported on an accrual basis.

C. Budgetary Requirements

State statutes require the Tax Collector to prepare an annual budget that clearly reflects the revenues available to the office and the functions for which money is to be expended. The budgeted revenues and expenditures are subject to the review and approval of the Department of Revenue.

Management is authorized to transfer budgeted amounts between objects and departments as long as management does not exceed the total appropriations of a fund. Department of Revenue approval is only required when unanticipated revenues are received that management wishes to have appropriated, thereby increasing the total appropriations of a fund. The budget is prepared on a basis consistent with generally accepted accounting principles.

D. Cash and Investments

Cash and investments includes cash on hand, bank deposits, certificates of deposit, money market accounts, and short term investments with original maturities of ninety days or less from the date of acquisition.

E. Prepaid Items

This account represents prepayments for services that will be used in future periods. The Tax Collector's policy is to record the expenditure for the services when they are used rather than when the cash is disbursed.

F. Capital Assets

Acquisitions of equipment are recorded as expenditures at the time of purchase for governmental fund financial statements. Tangible personal property used by the Tax Collector in operations is reported in the financial statements of the County. Refer to the County-wide note on capital assets for capitalization threshold, depreciation methodology and useful lives.

G. Leases

The Tax Collector is a lessee for noncancellable leases of buildings and equipment. A lease liability and an intangible right-to-use asset are recognized in the County's government-wide financial statements. The lease liability is initially measured at the present value of the payments expected to be made during the lease term. The lease asset is measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial costs, and is amortized on a straight-line basis over its useful life. Key estimates and judgements related to leases include the determination of the (1) discount rate, (2) lease term, and (3) lease payments. The Tax Collector monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability. Additional information is provided in Note 8.

H. Unearned Revenues

Unearned revenues represent revenues which are available but not earned. The amount reported on the Tax Collector's balance sheet of \$92,182 represents prepaid vehicle registrations.

I. Compensated Absences

The Tax Collector accrues a liability for employees' rights to receive compensation for future absences when certain conditions are met. The Tax Collector does not, nor is legally required to, accumulate expendable available financial resources to liquidate this obligation. Accordingly, the liability for compensated absences is not reported on the Tax Collector's financial statements. Additional information on the liability is reflected in subsequent Note 7.

J. Transfer Out

In accordance with Florida Statutes, all revenues in excess of expenditures as of year-end are owed to the Board of County Commissioners and other governments. These "excess fees" totaled \$2,221,710 at September 30, 2022, and are included as due to other governments on the balance sheet. Of this amount, \$2,020,167 was owed to the Board of County Commissioners and is reported as Transfers to Board of County Commissioners on the Statement of Revenues, Expenditures and Changes in Fund Balances.

K. Fund Balance

GASB Statement 54 - *Fund Balance Reporting and Governmental Funds Type Definitions* was implemented as of October 1, 2009. This Statement requires the fund balance for governmental funds to be reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Categories for fund balance are as follows: nonspendable, restricted, committed, assigned, and unassigned. For more information, see the County-wide note on fund balance.

L. New Accounting Pronouncement

The Tax Collector implemented Governmental Accounting Standards Board (GASB) Statement No. 87, *Leases*. The objective of this Statement is to better meet the informational needs of financial statement users by improving accounting and financial reporting for leases by governments.

NOTE 2 - CASH AND INVESTMENTS

A. Deposits

All bank deposits with financial institutions were 100% insured by federal depository insurance or by collateral provided by qualified public depositories to the State Treasurer in accordance with Section 280.01, Florida Statutes, also known as the Florida Security for Public Deposits Act. At September 30, 2022, the carrying amount of the Tax Collector's deposits was \$4,405,029 and the bank balance was \$4,764,143.

B. Investments

At September 30, 2022, the Tax Collector had investments with a balance of \$2,801,869. The Florida Prime had a balance of \$1,278,488 and weighted average maturity of 21 days. The Florida Cooperative Liquid Assets Securities System (FLCLASS) had a balance of \$1,523,381 and a weighted average maturity of 68 days.

Fair Value Measurement

The Tax Collector's investments in FLCLASS, an external local government investment pool organized under the laws of the State of Florida, are presented at Net Asset Value (NAV), which reflects fair value. The objectives of FLCLASS are to generate investment income while maintaining safety and liquidity.

NOTE 2 - CASH AND INVESTMENTS - Continued

B. Investments - Continued

There were no unfunded commitments as of September 30, 2022. Investments may be redeemed weekly/daily based on similar investments of other clients. The Florida PRIME is valued at amortized cost. There are no restrictions or limitations on withdrawals, however, Florida PRIME may, on occurrence of an event that has a material impact on liquidity or operations, impose restrictions on withdrawals for up to 48 hours.

C. Deposit and Investment Policy

The Tax Collector last modified their investment and deposit policy in December 2020. This policy requires the Tax Collector's office to follow the above state law (governing custodial credit risk) for deposits and Section 218.415, Florida Statutes. Refer to the County-wide note on cash and investments for the definition of custodial credit risk.

Concentration Risk

The Tax Collector's cash and investment policy limits portfolio composition to the following maximum guidelines:

Local Government Surplus Funds Trust Fund (Florida Prime)	75%
Florida Trust Day to Day Fund (Florida Trust)	75%
Florida Cooperative Liquid Assets Securities System (FLCLASS)	75%
Direct Obligations of the U.S. Government	25%
Money Market, CD's, and Savings Accounts	95%
Securities & Exchange Commission Money Funds	25%
Bank Super NOW Accounts	95%
Bank Repo Agreements	25%
United States Government Agencies	25%

Interest Rate Risk

The Tax Collector will attempt to match investment maturities with known cash needs and anticipated cash flow requirements. Investments of current operating funds shall have maturities of no longer than twelve months and funds in excess of current operating needs may have maturities of no longer than twenty-four months.

Credit Risk

Florida Statutes authorize investments in certificates of deposit, savings accounts, the Local Government Surplus Funds Trust Fund administered by the Florida State Board of Administration; Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency, and direct obligations of the U.S. Treasury. At September 30, 2022 the Florida PRIME and FLCLASS held a rating of AAAM.

Custodial Credit Risk

All investments are held in the name of the Tax Collector, by the Tax Collector, with the exception of the FLCLASS, which was held by Fifth Third Bank; and the Florida PRIME, which was held by BNY Mellon.

NOTE 3 - INVENTORIES

Inventories are valued at cost, which approximates market, using the “first-in, first-out” method of accounting. The costs of general fund inventory are recorded as an expenditure when consumed rather than when purchased. Inventory of the Tax Collector, included in the general fund, represents postage and Sunpass transponders.

NOTE 4 - PENSION PLAN

Florida Retirement System

Plan Description: The Tax Collector’s employees participate in the Florida Retirement System (FRS), a cost-sharing, multiple-employer public employee retirement system, administered by the Florida Department of Management Services (DMS). Benefit provisions are established and may be amended by state statute. A financial report is available from the DMS website at www.dms.myflorida.com or by mail at Florida Division of Retirement, PO Box 9000, Tallahassee, FL 32315-9000.

Effective July 1, 2011, the FRS became a contributory plan for all members, except DROP participants, whereby members contribute 3% and employers pay a rate based upon each member’s employment class. Classes and rates in effect at July 1, 2022 were: regular class 11.91%, senior management class 31.57%, DROP class 18.60%, and elected official class 57.00%. Included in these rates is a health insurance subsidy of 1.66%.

NOTE 4 - PENSION PLAN - Continued

Florida Retirement System - Continued

Employees elect participation in either the defined benefit plan (Pension Plan) or the defined contribution plan (Investment Plan). If the employee enrolled in the FRS prior to July 1, 2011, normal retirement is age 62 with 6 years of service or 30 years of service, regardless of age. If the employee enrolled in the FRS on or after July 1, 2011, normal retirement is age 65 with 8 years of service or 33 years of service, regardless of age.

Under the Pension Plan, early retirement is available before reaching normal retirement age and will be subject to an early-retirement reduction of 5% for each year your age at retirement is under your normal retirement age. For those employees who elect participation in the Investment Plan rather than the Pension Plan, vesting occurs after one year of service. Participants have access to the full value of their vested account balance when they leave FRS employment, regardless of age. These participants receive a defined contribution for self-direction in an investment product with a third party administrator selected by the State Board of Administration.

Benefits Provided: Retirement benefits are determined by age, years of service, the average of the highest 5 or 8 fiscal years of pay, membership class and the payment option selected at retirement. For further information concerning the FRS and contribution rates, please read the County-wide note on pension plans.

Contributions: Employer contributions to the FRS are based on a percentage of covered payroll that has been actuarially determined as an amount, when combined with employee contributions, is expected to finance the cost of benefits earned by employees during the year with an additional amount to finance any unfunded accrued liability.

For the year ended September 30, 2022, the Tax Collector's actuarial contributions to FRS under the Pension Plan were \$357,500 and the Health Insurance Subsidy (HIS Program) were \$45,354. Employee contributions were \$72,846. Both employer and employee contributions were equal to 100% of the required contribution for each year.

Pension Liabilities: At September 30, 2022, the Division of Retirement calculated the Tax Collector's liability of \$2,964,511 for the FRS plan and \$793,732 for the HIS Program, for a total of \$3,758,243 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2022.

Indian River County, Florida
Tax Collector
Notes To Financial Statements
Year Ended September 30, 2022

NOTE 4 - PENSION PLAN - Continued

Florida Retirement System - Continued

The Tax Collector's proportionate share of the net pension liability was based on a projection of the Tax Collector's long-term share of contributions to the Pension Plan relative to the projected contributions of all participating employers, actuarially determined. At September 30, 2022, the Tax Collector's proportionate share was .007967% for the FRS Pension Plan and .007494% for the HIS Program.

Discount Rate for Pension Plan: The discount rate used to measure the total pension liability was 6.70%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that the Tax Collector's contributions will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plans' fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Tax Collector's Proportionate Share of the Net Position Liability to Changes in the Discount Rate for the Pension Plan: The following presents the Tax Collector's proportionate share of the net pension liability (NPL) of the Pension Plan calculated using the discount rate of 6.70%. Also presented is what the Tax Collector's proportionate share of the FRS plan NPL would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current rate:

	<u>1% Decrease (5.70%)</u>	<u>Current Discount Rate (6.70%)</u>	<u>1% Increase (7.70%)</u>
Tax Collector's proportionate share of NPL	\$ 5,126,918	\$ 2,964,511	\$ 1,156,482

Discount rate for the HIS Program: In general, the discount rate for calculating the pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS Program is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate. The single equivalent discount rate is equal to the municipal bond rate selected by the plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index.

Sensitivity of the Tax Collector's Proportionate Share of the Net Position Liability to Changes in the Discount Rate for the HIS Program: The following presents the Tax Collector's proportionate share of the NPL of the HIS Program calculated using the discount rate of 3.54%. Also presented is what the Tax Collector's proportionate share of the HIS Program NPL would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current rate:

	<u>1% Decrease (2.54%)</u>	<u>Current Discount Rate (3.54%)</u>	<u>1% Increase (4.54%)</u>
Tax Collector's proportionate share of NPL	\$ 908,095	\$ 793,732	\$ 699,099

Refer to the County-wide note for actuarial assumptions (including the investment rate of return), pension liability on financial statements, and an explanation of pension expense components. The pension liability is not reported in the financial statements of the Tax Collector since they are not payable from available spendable resources. It is reported in the financial statements of the County by the fund which normally pays the personnel service costs of the employee.

NOTE 5 - OTHER POSTEMPLOYMENT BENEFITS

The Tax Collector participated in the Indian River County Other Postemployment Benefits Trust (OPEB Trust). The Tax Collector paid their 2022 annual contribution of \$23,659 which was their part of the total contribution determined by the OPEB Trust actuary. Further information on the OPEB Trust can be found in the County-wide financial statements and County notes.

NOTE 6 - RISK MANAGEMENT

Indian River County maintains a risk management program that provides for coverage of risks of loss related to torts, theft of, damage to and destruction of assets, errors or omissions, injuries to employees, natural disasters, and medical and life insurance coverage for employees and their eligible dependents. Various excess catastrophe insurance policies with a commercial carrier are also in force for claims exceeding the amount chargeable against the Self Insurance Fund. The Tax Collector participated in the County's self-insurance program during fiscal year 2022 at an annual cost of \$639,086. Further details of this self-insurance program are discussed in the risk management note in the County-wide financial statements.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

March 9, 2023

The Honorable Carole Jean Jordan
Tax Collector
Indian River County, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial statements contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the fund financial statements of the major fund and the remaining fund information of the **Indian River County, Florida Tax Collector** (the "Tax Collector"), as of and for the year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the Tax Collector's fund financial statements and have issued our report thereon dated March 9, 2023.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Tax Collector's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Tax Collector's internal control. Accordingly, we do not express an opinion on the effectiveness of the Tax Collector's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

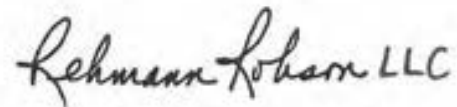

The Honorable Carole Jean Jordan
Tax Collector
March 9, 2023

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Tax Collector's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Tax Collector's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

4. **DESIGN.** It is further agreed by and between the Parties, that the final design plans, when mutually approved by the Parties in writing, shall be attached hereto as **Exhibit C** and shall thereafter become a part hereof for all intents and purposes, and shall specifically include a full and reasonably complete description of the physical facilities (real or personal) covered hereunder. The Parties agree that neither Party shall unreasonably withhold or delay approval of the final design plans. The County and the Club will have the right to approve the interim and final design plans for the Project, including, without limitation, the overall layout, space allocation, graphics, materials used, signage, and color scheme of the County Capital Improvements for the Premises. Such design shall be incorporated in a master design, development and construction plan (the "**Project Program**"), all elements of such Project Program for property owned by the County that is associated with or is part of the Project shall be subject to the written prior approval of the Club, which shall not be unreasonably withheld, delayed or conditioned.

5. **PROJECT BUDGET, FINANCE AND FUNDING.**

A. **Project Budget.** The project budget for the County Capital Improvements is set forth in **Exhibit D** (the "**Project Budget**"). The Project Budget sets forth the total amount of costs and expenses to be incurred for Completion of the Project. The costs and expenses set forth in the Project Budget include allocations for the design, development, construction, commissioning and delivery of the Premises for the beneficial use of the County Capital Improvements by and occupancy of the Club. The Project Budget contains all of the elements set forth in the Preliminary Plan, including, without limitation, permitting, design, engineering, construction, financing, build-out, furniture, equipment, fixtures, and all customary and traditional soft costs pertaining to a project of this nature; excluding land acquisition costs. The Project Budget may not be reduced without the written consent of both the County and the Club. The final Project Budget is subject to the written approval of the Club, which approval shall not be unreasonably withheld, delayed or conditioned. The Project Budget shall not include any costs and expenses arising from or relating to (i) the issuance of Project Bonds (defined below) by the County, including, without limitation, the costs and expenses of underwriters, investment bankers, attorneys, accountants and other professionals, underwriting discounts, and other costs of issuance of the Project Bonds, and (ii) any costs and expenses of the Club for retention of financial advisors, attorneys, accountants and other professionals, and similar costs.

B. **County Funding and Payment Obligation**

(1) **County Payment Obligation.** The Project Budget sets forth the general descriptions and approximate cost of the County Capital Improvements that will be the responsibility of and paid by the County; except for cost overruns related directly to the County

Capital Improvements for which the Club has the Club Payment Obligation set forth in **Section 5.C** below, the County shall be responsible for and remit any and all cost overruns arising from, in connection with or relating to the Project upon approval of the County's Board of County Commissioners (the "**County Payment Obligation**"). The County represents and warrants the proceeds from (i) the Project Bonds issued by the County pursuant to **Section 5.B.(2)**, and (ii) the Sinking Fund Deposits deposited pursuant to **Section 5.B.(3)**, shall be sufficient to fund the County Payment Obligation in its entirety; **provided, however,** if such funds are not sufficient to timely fund the County Payment Obligation, the Club covenants to advance up to one third or \$600,000 of its future contributions to the "Capital Improvements Fund" under, and as defined in, the Amended Agreement or the Amended and Restated Lease, as applicable, to supplement the sinking fund deficiency. The County agrees that such Club advances shall be credited against future payments set forth in **Exhibit F** of the Amended Agreement or the Amended and Restated Lease, as applicable. All funds derived from the net proceeds of the Project Bonds and the Sinking Fund Deposits will be deposited to a sub-account dedicated to the Project of the County's "Stadium Attractions Trust Fund" (the "**Trust Fund**"). These amounts deposited to the Trust Fund shall be used solely for the benefit of the Project.

- (2) **Project Bonds.** On or before on or before April 1, 2013, but no later than January 1, 2014, the County will issue certain capital revenue bonds or such other financial instruments or funds that the County may reasonably select at its option to finance and fund substantially all of its County Payment Obligation related to the Project (the "**Project Bonds**"). If appropriate and prior to receiving bond proceeds the County may use other sources to fund Project costs which will be reimbursed from the bond proceeds at the appropriate time. In connection with the issuance of the Project Bonds, the County shall engage the services of an underwriter/investment banker to achieve the lowest cost of financing and maximum proceeds from the Project Bonds. The County's underwriter/investment banker shall assist the County in preparation of a detailed financing plan (the "**Project Financing Plan**") to achieve the Project Bond proceeds. The basis of the Project Financing Plan shall be the financing plan assumptions, calculations and presentation set forth on **Exhibit E**. The Project Bonds shall be secured by a pledge of the County's "Tourist Development Tax Revenues." The Project Financing Plan will also incorporate a reasonable assumption as to an average annual growth rate concerning the

annual amount of such "Tourist Development Tax Revenues," based on historical experience, which the County is projected to receive during the term of the Project Bonds, and will also incorporate a structured principal amortization schedule on the Project Bonds to minimize any potential revenue shortfalls. The County shall maximize State Development Funds in compliance with Section 7.C. The Project Financing Plan shall be subject to the written approval of the Club, which shall not be unreasonably withheld, delayed or conditioned.

- (3) Sinking Fund Deposits. The County shall authorize and approve in accordance with Applicable Laws a three (3) year annual sinking fund allocation for the Project in the amount of \$2.2 million to complete the funding of the County Payment Obligation, the \$2.2 million deposits for which shall be made to the Trust Fund on (i) the day following execution and delivery of this Agreement, (ii) October 1, 2014, and (iii) October 1, 2015, or as funds are required by the Project (collectively, the "**Sinking Fund Deposit(s)**", and individually each a "**Sinking Fund Deposit**"). The County's authorization for the sinking fund and the remittance of the annual Sinking Fund Deposits shall mandate the allocation and disbursement of County monies to the Trust Fund through the Sinking Fund Deposits. The funding of the Sinking Fund Deposits shall have priority over all other County debt obligations other than senior lien debt service for the County's Series 2004 and Series 2010 debt obligations.

C. Club Funding and Payment Obligation. The Project Budget sets forth a description of the County Capital Improvements that will be the responsibility of and paid by the Club as construction is performed on such improvements ("**Club Payment Obligation**"). The Club Payment Obligation arises in connection with the addition of the player academy dormitory/sleeping rooms. The approximate cost of the player academy dormitory/sleeping rooms is \$3.9 million. The County and the Club shall establish procedures by which the Club shall remit funds for the Club Payment Obligation on a requisition-approval-payment basis pursuant to which all costs associated with such Club Payment Obligation are timely made. The Club also intends to update certain concession equipment for the Premises, with an estimated approximate value of \$2.1 million, which is not included in the Project Budget.

D. Modifications. The Parties recognize that a large portion of the Project will be financed with proceeds from the Project Bonds. Accordingly, the Parties agree to make best efforts to cooperate with one another in the County's qualification of the Project Bonds for tax exempt status under federal tax laws, and to provide all reasonable documents and/or modifications hereto necessary to accomplish the issuance of the Project Bonds; **provided, however**, that the Club shall not be obligated to incur out-of-pocket costs and expenses in connection with such cooperation.

B. Changes of Agreements with Architect and the Construction Manager and the Design Documents. The Club shall have the right to approve any Material Change to the Architect Agreement or the Construction Manager Agreement and the Preliminary Program. For purposes of this Agreement a material change ("**Material Change**") shall mean a change, modification or amendment which (i) involves a revision in the sum payable by County to the Architect in an amount in excess of \$50,000, or to the construction manager where the cost of work is in excess of \$50,000, or (ii) will result in a required revision of the Preliminary Program or the Project Program which materially affects the appearance or functionality of the Premises, including, without limitation, County Capital Improvements or which will materially modify public access to the County Capital Improvements or materially reduces the number of restrooms, or materially changes the number or configuration of seats, or which materially alters the LEED Certification Plan, if any, of the County Capital Improvements, or adds or eliminates significant elements from the County Capital Improvements described in the previously approved Preliminary Program or the Project Program, and any other change that materially affects the future public use of the County Capital Improvements.

C. Project Work Schedule. The Parties have prepared the Project Work Schedule setting forth the date that construction will start, and time parameters required so that Completion of the Project will occur on or before the Target Date, subject to extensions as a result of Force Majeure Event. Modifications of the Project Work Schedule which will require an extension of the Target Date to the Outside Date, or which are otherwise material, must be approved by the Club Representative, which approval will not be unreasonably withheld, delayed or conditioned. All County Capital Improvements work shall be performed by the construction manager in a good and workmanlike manner in conformity with the Project Program so that on the Completion Date the County Capital Improvements are in good working order and condition, in compliance with all Applicable Laws, suitable for occupancy, and ready for full and immediate use.

D. Labor and Employment Issues. The County shall cause the construction manager to administer any project labor agreement covering construction of the Project.

E. Insurance. The County will procure and maintain (from the funds allocated for the Project in the Trust Fund) the comprehensive "owner controlled" insurance program, a summary of which shall be prepared by the County, which shall set identify all insurance required to be maintained by or on behalf of the County and any trade contractor with respect to the Project at all times until final Completion of the Project, and for a period of three (3) years after the Completion Date. The Club and its Affiliates, officers, directors, members, employees, representatives and agents shall be named as additional insureds with respect to all such policies of insurance, with the exception of workers compensation, employer liability and professional services coverages.

7. ADDITIONAL OBLIGATIONS OF THE COUNTY. The County agrees to undertake the following obligations for the benefit of the Club and the development of the Premises:

A. Reasonable and Necessary Actions for Issuance of Project Bonds. The County further agrees to promptly take all reasonable and necessary actions as required by Applicable Laws, including, without limitation, amending relevant ordinances, to authorize, plan, implement and consummate the issuance of the Project Bonds.

B. Dedication of the Supplemental Parcel to the Premises. The County covenants that the Supplemental Parcel shall be used solely for the benefit of the Project and shall become part of the Premises.

C. State of Florida Development Funds. The stadium facility improvements grant made by the State of Florida to the County following the entering into the Agreement required by Florida Statute § 288.11621 and upon award and disbursement of said funds (the "**State Development Funds**") shall be used by the County solely for the funding of the Project, and shall not be used for any other purpose. By way of clarification, the State Development Funds shall not be used in any way for the improvement, development or construction of any other professional sports franchise facility located in Lee County, Florida. The County covenants that it shall make best efforts to maximize the receipt of the State Development Funds, including revision of County ordinances and other Applicable Laws which would facilitate funding of the County Payment Obligation in one (1) bond offering. The foregoing shall be incorporated to the County's Project Financing Plan.

D. Completion of County Capital Improvements. The County and the Club covenant that each will work in good faith to complete the design, construction, commissioning and delivery of the Premises to the Club for its beneficial use and occupancy. The County agrees to use all reasonable efforts to complete the Project on or before the Target Date, but no later than the Outside Date.

8. REPRESENTATIONS AND WARRANTIES OF THE COUNTY. The County hereby represents and warrants to the Club that:

A. Authorization, Validity and Enforceability. The County has all requisite power and authority to enter into this Agreement and to carry out the actions contemplated hereby. The execution, delivery, and performance by the County of this Agreement have been duly authorized and approved by all necessary County actions, all of which have been obtained and remain in effect. The County individual duly authorized to execute this Agreement on behalf of the County has so executed this Agreement. This Agreement constitutes, when executed, the valid and legally binding obligations of the County, enforceable against it in accordance with their respective terms, except as enforceability may be limited by applicable bankruptcy, insolvency, reorganization, moratorium or similar laws and subject to general principles of equity (regardless of whether such enforceability is considered in a proceeding in equity or at law).

B. No Conflicts. The execution, delivery and performance of this Agreement will not result in a violation of, in any material respect, of any provision of any other agreements, instruments, contracts, judgments or decrees to which the County is a party, or by which the County or its assets may be bound or affected, including, without

limitation, the County's organizational documents and any written rule, regulation or policy of the County.

C. No Violation Of Laws. Except as otherwise previously disclosed in writing to the Club, the County has complied in all material respects with all Applicable Laws with respect to the Premises and the County Capital Improvements or the transactions contemplated in and by this Agreement; and the County is not in default with respect to any judgment, Order, injunction or decree of any court, administrative agency, or other Governmental Authority which is in any respect material to the transactions contemplated in and by this Agreement. E. Site Possession And Title. The County holds good and marketable title to the Premises, and all land and land rights thereto, free and clear of all liens and encumbrances. No person other than the County has any right to possession of all or any portion of the Premises. To the best of the County's knowledge, no structure or improvement located on an adjacent parcel encroaches on the Premises. The County shall take all reasonable actions, at its sole cost and expense, to promptly eliminate any title defects. Except as expressly permitted under this Agreement, the County shall not create any lien, encumbrance, easement, license, right-of-way, covenant, condition or restriction which would encumber the Premises and materially diminish, impair or disturb the rights of the Club under this Agreement, the Amended Lease and/or the Amended and Restated Lease.

F. Environmental Matters. No activity of the County at the Premises has been or will be conducted in violation of any environmental law.

G. Notices Of Violations. To the knowledge of the County, the Premises and the use and operation thereof are in material compliance with all Applicable Laws. The County has not received any written notice from any Governmental Authority with respect to the Premises or any portion thereof or any buildings or improvements thereon that (i) relates to violations of any Applicable Laws, (ii) claims any defect or deficiency with respect to any of the Premises or any buildings or improvements thereon or (iii) requests the performance of any repairs, alterations or other work to or in any portion of the Premises or in the streets bounding the same.

The Premises consists of one or more lawfully separately subdivided parcels of property.

9. **REPRESENTATIONS AND WARRANTIES OF THE CLUB**. The Club hereby represents and warrants to the County that:

A. Organization, Authority And Location. The Club is duly organized, validly existing and in good standing under the laws of Delaware. The Club has all requisite partnership power and authority to enter into this Agreement. The principal place of business and the principal assets of the Club and of each of its Affiliates are located in Hennepin County, Minnesota.

B. Authorization, Validity And Enforceability. All consents and approvals of any third person required in connection with the execution of this Agreement have been obtained. This Agreement, when executed, shall constitute the valid and legally binding obligation of the Club enforceable against it in accordance with its terms, except as enforceability may be limited by applicable bankruptcy, insolvency, reorganization, moratorium or similar laws and subject to general principles of equity (regardless of whether such enforceability is considered in a proceeding in equity or at law).

C. No Conflicts. The execution, delivery and performance of this Agreement will not result in a violation of, in any material respect, any provision of any other agreements, instruments, contracts, judgments or decrees to which the Club is a party or by which the Club or its assets may be bound or affected, including, without limitation, the Club's organizational documents, nor will the execution, delivery and performance of this Agreement result in the breach of or constitute a default under any loan or credit agreement, or other agreement or instrument to which the Club is a party or by which the Club or its assets may be bound or affected.

D. No Violation Of Laws. Except as otherwise disclosed in writing by the Club to the County, the Club has received no written notice as of the date of execution of this Agreement asserting any noncompliance in any material respect by the Club with Applicable Laws; and the Club is not in default with respect to any judgment, Order, injunction or decree of any court, administrative agency, or other Governmental Authority which is in any respect material to the transactions contemplated in and by this Agreement.

There are no outstanding judgments against the Club.

10. **HOLD HARMLESS AND INSURANCE.** To the extent permitted under Florida Statute §768.28 the County agrees to indemnify, defend, save and hold the Club, and its respective Affiliates (including parent, brother-sister and other entities under common control with the Club), and their respective members, partners, owners, managers, officers, employees, agents, representatives and other persons or entities acting on behalf of the Club, harmless from any and all damages, liabilities, claims, demands, expenses and costs of every kind and nature, including reasonable costs of investigation, reasonable attorney's fees at trial or appellate level, and all court costs arising out of injury to or death of persons and damage to any and all property, including loss of use thereof, resulting from or in any manner arising out of, or in connection with, the design and construction of the Project, including claims brought by any person relating to compliance with federal or state disability laws or requirements. In the event such indemnification is limited by any law (including, without limitation, Florida Statute § 768.28), the Party so limited shall furnish a general liability insurance policy with a company and in an amount reasonably satisfactory to the Party to be indemnified. The County shall provide that the Club is an additional insured under all policies of insurance relating to the Project, including, without limitation, insurance required of all contractors, consultants, subcontractors and others contracting in connection with the Project.

11. **TAXES.** It is the intent and understanding of the Parties that the leasehold interest held by the Club pursuant to this Agreement shall be exempt from ad valorem taxation pursuant to Chapter 196.199, Florida Statutes for so long as such statutory exemption remains in effect.

12. **COUNTY DEFAULT/REMEDIES.** It is understood that the County has agreed to undertake certain obligations set forth in this Agreement in order to induce the Club not to elect an early termination of the Conditional Lease and further to induce the Club to enter into a new thirty (30) year lease for the Premises pursuant to the Amended and Restated Lease. It is further agreed that the Club will sustain substantial economic damages if the County would fail to fulfill one or more of the obligations set forth herein. Accordingly, the Parties agree that the Club shall be entitled to receive the following remedies in the event that one or more of the following defaults shall occur:

A. **County Defaults.** The County shall have defaulted on its obligations set forth herein (individually and collectively referred to as "**County Default**") if any of the following occurs:

- (i) The County fails to select the Architect(s), engineer(s) and construction firm(s), which are approved by the Club on or before March 6, 2013; or
- (ii) The County fails to establish and deposit sufficient monies (together with interest earnings) to pay one hundred percent (100%) of the Project Budget allocated to the County Payment Obligation for the County Capital Improvements (this amount excludes the Club Payment Obligation) in accordance with the Project Financing Plan as provided in **Section 5.B.(2)**

- (iii) The County does not complete the Project and commission the Premises for full use and enjoyment by the Club on or prior to February 1, 2016.

B. County Default Remedies. Upon the occurrence of a County Default, the following remedies shall be available to the Club:

- (i) The Club may elect, by written notice delivered to the County within sixty (60) days from the date on which a County Default shall have occurred, to terminate this Agreement, and all obligations of the Club under this Agreement, and/or terminate the Amended and Restated Lease, and all obligations of the Club under the Amended and Restated Lease, and upon such terminations the applicable agreement shall be voided and of no further effect; and

C. Completion Default. In the event the County fulfills the obligations set forth in **Section 12.A** above, but the Completion of the Project by the County fails to occur by either (i) the Target Date, or (ii) the Outside Date, the County shall have defaulted in its obligation to the Club ("**Completion Default**").

D. Completion Default Remedies: Target Date. Upon the occurrence of a Completion Default by failing to achieve Completion of the Project on or before the Target Date, the following remedies shall be available to the Club:

- (i) the Club shall be relieved of the obligation to make lease payments until Completion of the Project under both or either of the Amended Agreement and the Amended and Restated Lease.

E. Completion Default Remedies - Outside Date. Upon the occurrence of a Completion Default by the Outside Date, the following remedies shall be available to the Club:

- (i) The Club shall be released of its obligation to make lease payments under the Amended Agreement, and any other agreement arising in connection with the Premises, from and after the Outside Date; and
- (ii) The County shall pay the Club a sum of money to compensate the Club for the loss of revenue the Club would have received but for the Completion Default related to the Target Date ("**Lost Revenue**"). Lost Revenue shall be calculated for each calendar year (maximum of three (3) years) after the Target Date and shall be paid to the Club on or before February 1 of each calendar year in which any Completion Default has not been cured by the County. The amount of Lost Revenue to be paid to the Club shall be calculated (for each year in which the Completion Default has not been cured by February 1 thereof) by adding together the following four (4) revenue elements:

- (1) Lost Ticket Revenue: since the attendance capacity of the new Major League Stadium component of the Project would allow the Club to sell a minimum of 1,000 additional attendee tickets, the Parties agree that the amount of incremental lost ticket revenue will be calculated as follows: the average ticket priced charged per attendee for a Club Spring Training game for the Spring Training season played in the Premises (as defined in the Amended Agreement) multiplied by the number 1,000; plus
 - (2) Lost Sponsorship Revenue: the incremental amount of lost sponsorship revenue derived from the Project including, without limitation, the sale of advertising and naming rights that the Club would have received by playing in the new Major League Stadium; plus
 - (3) Suite Revenue: the amount of incremental Lost Revenue the Club would have received from the rental of suites that are included in the design plan for the new Major League Stadium; and plus
 - (4) Parking Revenue: the amount of incremental net parking revenue the Club would have received from playing in the new Major League Stadium.
- (iii) The Club shall have the right to terminate this Agreement, the Amended Agreement and/or the Amended and Restated Lease if the County has not cured the Completion Default within one (1) calendar year of the Target Date.

13. GENERAL PROVISIONS

A. Governing Law. This Agreement shall be governed by, construed and enforced in accordance with the laws of the State of Florida.

B. Further Assurances. The Parties agree to execute and deliver any instruments in writing, necessary to carry out any agreement, term, condition or assurance in this Agreement, whenever the occasion shall arise and request for such instrument shall be made.

C. Remedies Cumulative. The specified remedies to which the Parties may resort under the terms of this Agreement are cumulative and not intended to be exclusive of any other remedies or means of redress to which the Parties may be lawfully entitled in case of any breach or threatened breach by either Party of any provision or provisions of this Agreement.

D. Entire Agreement and Amendment. This Agreement, in addition to the Amended Agreement and the Amended and Restated Lease, contains the entire agreement and understanding between the Parties. There are no oral understandings, terms or conditions and neither Party has relied on any representation, express or implied, not

contained in this Agreement or the simultaneous or prior writings heretofore. All prior understandings, terms or conditions are deemed to merge in this Agreement, and this Agreement cannot be changed or supplemented orally, but only by an agreement in writing and signed by the Party against whom enforcement of any waiver, change, modification or discharge is sought.

E. Severalty. If any provisions of this Agreement shall be declared invalid or unenforceable by a court of competent jurisdiction, the remainder of this Agreement shall continue in full force and effect.

F. Force Majeure. A "**Force Majeure Event**" is any event that (a) restricts or prevents performance by either Party under this Agreement, (b) is not within the reasonable control of the Party affected or caused by the default or negligence of the affected Party and (c) cannot be overcome or avoided by the exercise of due care. Force Majeure Events include, but not limited to, failure of a Party to perform due to drought, flood, earthquake, storm, fire, lightning, epidemic, war, terrorism, acts of other Governmental Authorities (except with respect to the grant and remittance of State Development Funds), civil disturbances, sabotage, work stoppages (i.e. strikes), accident or curtailment of supply, unavailability of construction materials or replacement equipment beyond the affected Party's control, inability to obtain and maintain Permits from any Governmental Authority for the Project (except Permits issued by the County or as to which the County has oversight or control), restraint by court Order, and changes in Applicable Laws (excluding laws or ordinances enacted by the County) that affect performance under this Agreement. Except for the obligation of each Party to make payments of amounts owed to the other Party, each Party is excused from performance and will not be considered to be in default with respect to any obligation if performance cannot occur due to a Force Majeure Event; **provided, however**, such performance shall be excused only for the period to include declaration of emergency and clean-up of the Force Majeure Event, and the Party assisting the Force Majeure Event shall promptly and in good faith recommence performance of its obligations hereunder. Neither Party shall be relieved of its obligations under this Agreement solely because of increased costs or other adverse economic consequences that may be incurred through the performance of such obligations. If a Party's ability to perform its obligation under this Agreement is affected by a Force Majeure Event, the Party claiming such inability shall (i) promptly notify the other Party of the Force Majeure Event and its cause and confirm the same in writing within five (5) Business Days of its discovery, (ii) promptly supply such available information about the Force Majeure Event and its cause as reasonably may be requested by the other Party and (iii) initiate reasonable efforts to remove the cause of the Force Majeure Event or to lessen its effect. The suspension of performance arising from a Force Majeure Event shall be of no greater scope and no longer duration than reasonably necessary. The excused Party shall use its reasonable efforts to remedy its inability to perform. A single Force Majeure Event in Lee County, Florida shall not excuse the failure of the County to meet the Outside Date with respect to Completion of the Project, and shall not limit or otherwise affect the rights of the Club with respect thereto.

I. Waiver. No action taken pursuant to or related to this Agreement, including, without limitation, any investigation by or on behalf of a Party, shall be deemed to constitute a waiver by the Party taking such action of compliance with any representation, warranty, condition or agreement in this Agreement. A Party's exercise of or failure to exercise any such right or remedy shall not prevent the concurrent or

subsequent exercise of any other right or remedy. A Party's delay or failure to exercise or enforce any rights or remedies shall not constitute a waiver of any such rights, remedies or obligations. No Party shall be deemed to have waived any default unless such waiver is expressly set forth in an instrument signed by such Party. If a Party waives in writing any default, then such waiver shall not be construed as a waiver of any covenant or condition set forth in this Agreement, except as to the specific circumstances described in such written waiver. Neither payment of a lesser amount than the sum due hereunder nor endorsement or statement on any check or letter accompanying such payment shall be deemed an accord and satisfaction, and the other Party may accept the same without prejudice to the right to recover the balance of such sum or to pursue any other remedy.

THIS CONDITIONAL STADIUM LEASE AGREEMENT ("Lease"), is made and entered into on this [] day of June, 2012 ("**Signature Date**") by and between **LEE COUNTY**, a political subdivision and charter county of the State of Florida, ("**County**"), and **MINNESOTA TWINS, LLC**, a Delaware limited liability company (f/k/a Minnesota Twins, a Minnesota general partnership) ("**Club**") (collectively, the County and the Club are referred to herein as the "**Parties**" and individually, each a "**Party**").

PREAMBLE

WHEREAS, the Club and the County entered into a certain Stadium Lease Agreement dated May 25, 1989 ("**Original Agreement Date**"), for the lease of the Lee County Sports Complex, a Major League Baseball Spring Training (defined below) and Minor League baseball facility in Lee County, Florida (the "**Original Agreement**"), for a period of twenty (20) years commencing with the calendar year 1991, inclusive; and

WHEREAS, the Club and the County amended and restated the Original Agreement pursuant to that an Amended and Restated Stadium Lease Agreement dated August 3, 2004 ("**Amendment Date**"), for the purposes of, among other things, (i) reflecting the Parties' then current course of business dealings, and (ii) to establish an ongoing relationship between the Club and the County for an extended lease term that terminates (subject to renewals) upon the completion of the Club's 2020 Spring Training season ("**Amended Agreement**"); and

WHEREAS, the Club and the County desire to apply for State Development Funds pursuant to Section 288.11621, Florida Statutes, which among other requirements mandates that the Club and the County enter into a lease agreement, such as this Conditional Stadium Lease Agreement, for stadium facility improvements which would be funded in part by such State Development Funds; and

WHEREAS, the Amended Agreement provides that the County and Club will meet on a periodic basis to review the design, specifications, quality and other attributes of the Leased Premises (as defined below) in comparison to all Major League Baseball Spring Training stadiums recently constructed or renovated; and

WHEREAS, the County and the Club have met and are continuing to meet to discuss the improvements and/or expansion necessary for the Leased Premises to be brought to current Major League Baseball Spring Training standards and the County has engaged a consultant for such purpose; and

WHEREAS, in anticipation of the completion of the County's consultant's study and report to the County, which the Parties anticipate will result in the execution and delivery by the County and the Club of a Spring Training Development Agreement (as defined below) for implementation of agreed upon improvements and/or expansion based upon the findings and recommendations by the consultant, the Parties have negotiated this Lease, subject to terms and conditions set forth herein; and

NOW, THEREFORE, in consideration of the Preamble recitals above, each of which is incorporated by reference herein as an essential term hereof, the covenants and promises herein contained, and other good and valuable consideration, the receipt and sufficiency of which are acknowledged by the Parties, **THE PARTIES HERETO AGREE AS FOLLOWS**:

1. CONDITIONAL LEASE AGREEMENT AND TERM.

- (A) **CONDITIONAL LEASE AGREEMENT.** This Lease is expressly conditioned upon those certain conditions precedent as outlined in **Section 14(A)** and **(B)**, herein. As provided in **Section 15**, each Party has the right to terminate this Lease if one or more of the conditions precedent for the respective Party are not met. Upon any such termination, the Amended Agreement shall remain the operative Agreement between the Parties for its Term and any Renewal Terms as may be elected by the Club.

Pursuant to the Original Agreement and the Amended Agreement, the Club has, beginning with the 1991 Major League Baseball Spring Training season, engaged in Major League Baseball Spring Training exclusively at the Lee County Sports Complex at and in the "Leased Premises," as defined in those agreements. This Lease shall become effective on the Signature Date, and the "Term" (as set out below) of this Lease shall commence on February 1, 2014 or February 1, 2015, as set forth in **Section 1(B)** below. The Amended Agreement shall govern the rights, duties and obligations of the Parties with respect to the Leased Premises prior to the commencement of the Term hereunder; **provided, however**, that the exercise of rights under this Lease shall not be precluded by the continuing effectiveness of the Amended Agreement.

- (B) **TERM.** The County shall make best efforts to complete all County Capital Improvements (as defined in **Section 5(D)**) on or before February 1, 2014, but if the County Capital Improvements are not completed by February 1, 2014, the County Capital Improvements shall not be completed later than February 1, 2015. Upon completion of the County Capital Improvements, and all requirements for occupancy of the Leased Premises have been met, the Club shall enjoy the full beneficial occupancy of the Leased Premises under the terms of this Lease and any further supplementing or replacement Lease(s), which Lease(s) shall amend and restate the Amended Agreement and continue without interruption for a period of thirty (30) continuous years from and after either (i) February 1, 2014 through January 31, 2044 or (ii) February 1, 2015 through January 31, 2045, depending on the date occupancy is provided to the Club ("**Term**"), except as may be provided for otherwise herein. This Lease may also be extended at the option of the Club for two (2) separate, but consecutive, periods of ten (10) years each (each, a "**Renewal Term**"). In order to exercise (i) the first ten (10) year Renewal Term, the Club must provide written notice to the County of such option exercise at least one

(1) year prior to expiration of the Term, and (ii) the second ten (10) year Renewal Term, the Club (A) must have exercised the first ten (10) year Renewal Term, and (B) must provide written notice to the County of such option at least one (1) year prior to the expiration of the first Renewal Term.

2. **LEASED PREMISES.** In consideration of and pursuant to the covenants, agreements, and conditions set forth herein, the County does hereby (i) lease, let, demise, and rent unto the Club, and the Club does hereby rent and lease from the County, the following (the "**Leased Premises**" or the "**Premises**"), and (ii) grant the further rights set forth below:

"**Spring Training Development Agreement**" shall mean the mutually agreed upon spring training development agreement to be entered into by and between the County and the Club, to be attached to this Lease (as amended) once executed and delivered as **Exhibit C**, for the development, construction and improvement of the Lee County Sports Complex as such complex exists prior to and upon the execution and delivery of this Lease. The terms and conditions of which are incorporated by reference to this Lease;
- (B) The right to utilize on an exclusive basis for the purpose of conducting Spring Training and all Major League Baseball activities and operations, all improvements and appurtenances located on the Premises for the period of time each year as described above;
- (C) Throughout the Term and any Renewal Term, the right to use the Leased Premises for its events and activities, player training and rehabilitation programs, player development activities or operations, including without limitation, any instructional league and organizational meetings, events and activities, and all other similar events related to the operations of Club or its affiliates professional baseball activities, (the "**Club's Exclusive Baseball Activities**");

- (F) During the Term and any Renewal Term, and for so long as same has not been terminated by reason of a default by the Club, the Club may conduct professional baseball activities by itself and in conjunction with organizations other than Club including, without limitation, activities for Spring Training and Minor League operations. The Club shall not be required to share the Leased Premises, for any reason, with any third party unless provided in this Lease or in a separate written amendment to this Lease; and
- (G) Uninterrupted access to and egress from the Leased Premises and any other improvements from time to time located on the Leased Premises including, without limitation, access to and egress from all areas owned, licensed or otherwise controlled by the County that are reasonably necessary for the Club to exercise its rights and perform its obligations under this Lease, subject only to the right of the County during times declared by the State of Florida and the County to be a public emergency, to restrict access, egress and/or use of all or portions of the Leased Premises to serve as temporary staging areas or for such other purposes as the County declares necessary and expedient to protect the public's safety, health and welfare.

3. **LEASE PAYMENTS.** As consideration for this Lease and as rent due to the County for the lease of the Leased Premises to the Club, the Club use of same, the Club agrees to pay to the County a guaranteed annual Lease payment for each year during the Term and any Renewal Term (i) beginning on February 1, 2014 or February 1, 2015, whichever date occupancy is provided to the Club, the amount of Three Hundred Thousand Dollars (\$300,000.00), plus applicable state sales tax, with periodic incremental percentage increases to be discussed and mutually agreed upon by the Parties. Three Hundred Thousand Dollars is the guaranteed

base with consideration not to exceed Five Hundred Thousand Dollars (\$500,000.00) plus applicable state sales tax, based on improvements agreed upon in the final Development Agreement and the availability of finance to make such improvement. Such payments shall be made to the County no later than June 1 of each year during the Term and any Renewal Term.

4. **OPERATING MAINTENANCE.**

- (A) Throughout the Term and any Renewal Term, and except as otherwise expressly provided herein, the County shall, at its sole expense, provide all cleaning, repair and operational maintenance services for the Leased Premises in conformity with high quality industry standards, including the playing and practice fields located thereon at no expense to the Club. For purposes of this Lease, cleaning, repair and operational maintenance services shall mean those ordinary cleaning, maintenance and repair services necessary to keep the Premises in first-class good and working condition and are ordinary and recurring expenses for current repair and maintenance that do not improve an asset or add to its useful life, including, without limitation, painting, waterproofing and any expenditures that would otherwise be treated as capital in accordance with generally acceptable accounting principles but become necessary (a) as a result of the County's failure to conduct appropriate operational maintenance services pursuant to this **Section 12(A)**, or (b) to maintain the Leased Premises in good working order.
- (B) The Leased Premises shall be maintained by the County pursuant to the terms of this Lease and in accordance with the highest level of practiced professional baseball standards. The maintenance of the athletic fields located at the Leased Premises shall include, without limitation, fertilization, weed and vegetation control, and pest control and shall be done after normal game and Club practice hours to ensure minimum interruption with Club activities.

5. **CAPITAL IMPROVEMENTS.**

- (A) The County and the Club shall establish an account ("**Capital Improvements Fund**") for mutually agreed upon capital improvement projects to benefit the Leased Premises. No later than January 1 of each calendar year during the Term and any Renewal Term, the County and the Club shall contribute funds to the Capital Improvements Fund to include any County naming rights funds from the Club in accordance with the schedule of contributions to the Capital Improvements Fund to be determined in conjunction with the Spring Training Development Agreement and added to this Lease.
- (B) The County shall be financially responsible for and undertake capital improvements to the Leased Premises in accordance with the terms herein

and in conformity with highest quality Major League Baseball industry standards. For purposes of this Lease, capital improvements shall mean those improvements that restore an asset or add to its useful life, or relate to assets having a useful life of more than twelve (12) months, in accordance with generally accepted accounting principles but shall expressly exclude capital expenditures to concession and novelty equipment, portable concession units, and equipment owned solely by the Club.

- (C) The Club shall provide to the County annually by January 1 a list of those capital improvements reasonably anticipated to be needed in the following fiscal year (October 1 to September 30.) The County shall provide the Club an estimate of the cost of the capital improvements on such list no later than February 15th of the applicable year. The Club shall have thirty (30) days to review the estimates and submit a final list of reasonable capital improvements for the following fiscal year to the County. The County shall complete all items on the final list submitted by the Club to the extent the costs of such items are payable from the Capital Improvements Fund. In the event that the actual cost of capital improvements agreed upon by the Parties for the then current year exceeds the total amount contributed to the Capital Improvements Fund by the Parties, the Parties shall negotiate in good faith to agree upon any additional contributions to the Capital Improvements Fund to be paid by the Club and the County. The County shall annually, by January 1 of each year during the Term and all Renewal Terms, provide to the Club a written accounting and description of any and all capital improvements made to the Leased Premises and allocate the costs and expenses between direct County expenditures and those expenditures of the Capital Improvements Fund. The Capital Improvements Fund shall be reconciled in the same report.

- (D) In addition to the County's contributions to the Capital Improvements Fund, and as the primary inducement for the Club to enter into this Lease, the County hereby agrees to (i) negotiate, execute and deliver to the Club a mutually agreed upon Spring Training Development Agreement on or before February 1, 2013, and (ii) complete the entirety of the improvement and expansion project described in the Spring Training Development Agreement, that will be developed by the Parties on or before February 1, 2014, but in any event not later than February 1, 2015 (the "**County Capital Improvements**"). The County Capital Improvements shall be completed in their entirety, in conformity with the Spring Training Development Agreement, no later than February 1, 2015. Except as may be specifically provided otherwise herein, and with respect to the State of Florida Development Funds, all costs and expenses related to the County Capital Improvements shall be the sole responsibility of the County and shall not be deducted from nor otherwise credited against the Capital

Improvements Fund. The Club has, by way of clarification and without limitation, such rights of participation, inspection and approval with respect to the County Capital Improvements as set forth in the Spring Training Development Agreement, and such rights are incorporated by reference herein.

The Parties agree that they will work diligently together in good faith to complete construction and delivery to the Club of the County Capital Improvements for its beneficial use and occupancy.

6. **USE.**

- (A) During the Term and any Renewal Term, the Club shall be entitled to peacefully have and enjoy the exclusive use of the Leased Premises during Spring Training without unreasonable interruption or interference by the County or any person claiming by, through and under the County, except to the extent that concurrent rights to use the Leased Premises may be exercised or granted to others by the County hereunder in accordance with the provisions of this **Section 6**. At any time throughout the Term and any Renewal Term, during Spring Training, the Club use shall be exclusive and the County may not use the Leased Premises for any purpose. Outside of Spring Training, the County has the right to use, or permit third parties to use the Leased Premises for any event so long as (a) such use would not interfere with the Club's Exclusive Baseball Activities, and/or (b) such use would not materially impair the condition of a playing field on the Leased Premises such that the field condition would no longer meet professional baseball standards, and/or (c) such use would not interfere with the Club's Exclusive Use Areas. In any case, the County shall notify the Club of any such use and the Club shall have the right to object to any such use if the Club determines that (i) such use would interfere with the Club's Exclusive Baseball Activities, and/or (ii) such use would materially impair the condition of a playing field on the Leased Premises such that the field condition would no longer meet professional baseball standards, and/or (iii) such use would interfere with the Club's Exclusive Use Areas.
- (B) The County may use any of the facilities in the Leased Premises for the following public purposes subject to and in accordance with the provisions of this Lease: (i) the exhibition, presentation and broadcasting (or other transmission) of other amateur or professional sporting events, (ii) exhibitions and tournaments, (iii) musical performances, (iv) theater performances and other forms of live entertainment, (v) public ceremonies, (vi) fairs, markets, fireworks displays, shows, or other public or private exhibitions and activities related thereto, and (vii) pre-scheduled meetings and other similar activities in the conference area(s), training center, and auditorium.

7. **OPERATIONS.** The Parties hereby agree that the exclusive use of the Leased Premises by the Club during Spring Training includes operational jurisdiction over the various service providers, subcontractors, and other persons or entities who may be involved or working at the Leased Premises, but shall not include operational jurisdiction over any County employees unless expressly agreed by the Parties. Accordingly, the Club shall manage the agreed upon operations for the Spring Training games, including ticket sales and distribution of tickets. The Club shall endeavor in good faith to cooperate with other parties using the Leased Premises, including the County, when managing personnel on the Leased Premises during Spring Training or otherwise in accordance with this Lease.
8. **ASSIGNMENT/SUBLEASE.** The rights granted to the Club pursuant to this Lease shall not be assigned, except with the prior written consent of the County; **provided, however,** that any assignment or transfer pursuant to the sale of all or substantially all of the assets and/or ownership interest of the Club shall not require County's consent hereunder. The Club shall have the right of first refusal to sublease the Leased Premises to a professional baseball Minor League program as previously provided herein, provided such sublessee consents in writing to be bound by the provisions of this Lease. The County shall have the right to approve such sublessee and sublease agreement, provided that such approval shall not be unreasonably withheld.
9. **TAXES.** The County represents and warrants that (1) as of the date hereof, it has and shall continue to have throughout the Term and any Renewal Term, all ownership interests in the leased property, (2) as such, has the full authority to grant the Club the rights provided hereunder, and (3) this Lease has been entered into for the public purpose of promoting tourism, gainful employment and economic growth in the County and the State of Florida. It is the intent and understanding of the Parties that the leasehold interest held by the Club pursuant to this Lease shall be exempt from ad valorem taxation pursuant to Chapter 196.199, Florida Statutes. If, for any reason during the Term and any Renewal Term, all or any portion of its the leasehold interest or other rights or benefits held by the Club under this Lease becomes subject to ad valorem taxation, such tax shall be paid by the County as provided by law.
10. **INSURANCE.**
 - (A) Each Party shall maintain insurance with a company or companies reasonably acceptable to the other, which company or companies shall have at least an A- Best rating. Each Party agrees to maintain insurance policies as follows:
 - (1) Workers' compensation insurance in an amount not less than is required by Florida law;
 - (2) Commercial general liability insurance, including property damage with a limit of \$1,000,000, or such other amount as the Parties may

determine is reasonably prudent based upon any changes in circumstances.

11. **DISPUTES.** The Parties agree to attempt to settle by mediation any dispute or controversy that may arise between the Club and the County regarding operation, maintenance and the rights or duties hereunder of either Party, as hereafter provided, and the mediator will determine the controversy in accordance with the laws of the State of Florida as applied to the facts as found. Notwithstanding the foregoing, any controversy arising between the Parties with respect to a Party's exercise of termination rights, any monetary sums due and owing including, but not limited to, Lease payments and other monetary liabilities shall not be mediated and each Party shall have available to it all other remedies available at law or in equity.
 - (A) In any case hereunder in which it shall become necessary to resort to mediation, such mediation by the Parties shall be conducted as provided for in this **Section 11.**
 - (B) The Party desiring mediation shall give written notice thereof to the other Party, specifying in such notice, the specific question or questions to be mediated.
 - (C) Within fifteen (15) days after service of such notice each Party shall provide the other with the names of at least three (3) persons to act as a mediator in the matter. The mediator will be selected by the Parties within fifteen (15) days following the exchange of names by mutual agreement. The mediator shall meet with the Parties at all participants' convenience and mediate the matter. If unsuccessful, the Parties may then utilize all lawfully available means to resolve the issue.

12. **SUSPENSION OF PLAY.** If for any reason beyond the control of the Parties, including without limitation, as a result of any act of nature or force majeure, national emergency, state of war, or because of a labor strike, lock-out, or other cause of similar nature, the Leased Premises are unavailable for Spring Training in any of the years covered under the terms of this Lease, this Lease shall be regarded as suspended for the period of unavailability without liability to either Party, and the Term or any Renewal Term, shall be extended for one (1) additional calendar year so long as the period of unavailability is no more than one (1) Spring Training period during the Term or any Renewal Term. If the Leased Premises shall be unavailable for more than one (1) Spring Training period during the Term or any Renewal Term, the Club shall have the right to terminate this Lease without any further liability owed by the Club to the County. In connection with this application and as a condition of any award of funding under Florida Statutes Section 288.11621(2)(a)(2), the Club must agree to reimburse the State of Florida for the funds expended by the County for the costs of the improvements to the Leased Premises that the County received from the State of Florida if the Club relocates before the Term of this Lease expires, accordingly the Club hereby covenants and agrees with the County that it will reimburse the State of Florida for the State Development Funds expended by the County for the improvements to the Leased Premises that the County has received from the State of Florida and expended in connection with the Leased Premises in accordance with the Spring Training Development Agreement, if the Club relocates to another facility and such relocation is not a consequence of the Club's exercise of its termination rights herein.

Florida Statute 288.11621(2)(a)(4.)

Minnesota Twins spring training attendance will continue to attract paid attendance well above the minimum threshold specified. The official attendance of the 2023 season was 103,023. In 2022 official attendance was 45,055 due to the MLB lockout and work stoppage there which led to an abbreviated nine-game regional schedule. In 2020 and 2021 the official attendance was 69,998 and 34,718 for the respective seasons due to COVID protocols which limited total stadium capacity. The 2019 official total attendance was 121,798.

- 26.4% for beach and shoreline improvements
- 20% for sports facilities

Since 1982, the Lee County Board of County Commissioners has collected a tourist development tax under the authority of Chapter 125.0104, Florida Statutes.

Initially a 2% tax on short-term accommodations, Lee County Ordinance 82-33 has been amended several times, with an additional 1% levy added in March of 1988 and another 2% added in January 2006.

- a) Fifty-three and six-tenths percent (53.6%) of the receipts of the Tourist Development Tax shall be placed into a trust fund to be used for tourist advertising and promotion for Lee County.
- b) Twenty percent (20%) of the receipts of the Tourist Development Tax shall be placed into the trust fund to be used to acquire, construct, extend, enlarge, remodel, repair, improve, maintain, operate or promote one or more publicly-owned and operated convention centers, sports stadiums, sports arenas, (including funding Sports Development and the Development's tourism related activities) coliseums, auditoriums or museums (funds will not be used for any museum general maintenance) within the boundaries of the County and for those other lawful purposes authorized by Sections 125.0104(5)(a) 1.,2.,3., and (b), 125.0104(3)(1), Florida Statutes, except as noted in Subparagraph c) below.

D. The revenues to be derived from the Tourist Development Tax may be used as authorized herein and Section 125.0104, Florida Statutes. In the event bonds are issued by the County for any of the purposes enumerated by the Tourist Development Plan, the amount of Tourist Development Tax receipts used to pay debt service on such bonds may exceed the percentages provided for the purpose for which such bonds were issued; provided, however, the annual debt service on such bonds (less any projected federal direct subsidy payments), together with any other obligations of the County which were issued to finance improvements for the same purpose and which are secured by the Tourist Development Tax, must not exceed in each fiscal year in which bonds and other obligations are outstanding, the amount of Tourist

Development Tax receipts provided in the Tourist Development Plan for such purpose which are projected by the County to be received in each such fiscal year and, in the case of a facility described in Section Six.A.1.b) hereof, the revenues projected to be received by the County from the use of such facility in each such fiscal year and the amount of moneys anticipated to be received from the State of Florida in each fiscal year pursuant to Sections 288.11621, 288.1162 and 212.20, Florida Statutes. 2. Each dealer, as defined in Section 212.06, Florida Statutes, and this Ordinance shall secure, maintain, and keep for a period of three (3) years a complete record of rooms or other lodging, that

was leased, rented, or granted license to use, occupy or enter upon living quarters, sleeping or housekeeping accommodations in hotels, apartment houses, roominghouses, tourist or trailer camps or real property, by said dealer, together with gross receipts from such sales, and other pertinent records and documents as may be required by the Clerk of Court for the reasonable administration of this Ordinance; and all such records which are located or maintained in this state shall be open for inspection by the Internal Audit Department of the Clerk of Court at all reasonable hours at such dealer's place of business located in Lee County. Any dealer who maintains such books and records at a point outside this County must make such books and records available for inspection by the Internal Audit Department of the Clerk of Courts in Lee County, Florida. Any dealer subject to the provisions of this Ordinance, who violates these provisions, is guilty of a misdemeanor of the second degree, punishable as provided in Section 775.082 or Section 775.083, Florida Statutes.

3. Enforcement investigations include the examination of documents from any of the following, including but not limited to:
 - a) any person;
 - b) any community;

 - f) association approval of guests to rent or lease;
 - g) guest gate entry passes;
 - h) guest golf and/or tennis membership records, and
 - i) other guest amenity records such as pool and community center passes.
4. The Internal Audit Department of the Clerk of Courts shall send written notification, at least thirty (30) days prior to the date an auditor is scheduled to begin an audit, informing the dealer of the audit. The Internal Audit Department of the Clerk of Courts is not required to give thirty (30) days prior notification of a forthcoming audit in any instance in which the dealer requests an emergency audit.
5. Such written notification shall contain:
- a) The proximate date on which the auditor is scheduled to begin the audit.
 - b) A reminder that all of the records, receipts, invoices, and related documentation of the taxpayer must be made available to the auditor.

c) Any other requests or suggestions the Internal Audit Department may deem necessary.

6. Only records, receipts, invoices and related documentation which are available to the auditor when such auditor begins shall be deemed acceptable for the purposes of conducting such audit.

H. All taxes collected under this Ordinance shall be remitted to the Internal Audit Department of the Clerk of Court. In addition to criminal sanctions, the Clerk is empowered, and it shall be its duty, when any tax becomes delinquent or is otherwise in jeopardy under this Ordinance, to issue a warrant for the full amount of the tax due or estimated to be due, with the interest, penalties, and cost of collection, directed to all and singular the sheriffs of the state, and shall record the warrant in the public records of the County, and thereupon the amount of the warrant shall become a lien of any real or personal property of the taxpayer in the same manner as a recorded judgment. The Internal Audit Department of the Clerk may issue a tax execution to enforce the collection of taxes imposed by this Ordinance and deliver it to the Sheriff. The Sheriff shall thereupon proceed in the same manner as prescribed by law for executions and shall be entitled to the same fees for his services in executing the warrant to be collected. The Clerk may also have a writ of garnishment to subject any indebtedness due to the delinquent dealer by a third person in any goods, money, chattels, or effects of the delinquent dealer in the hands, possession, or control of the third person in the manner provided by law for the payment of the tax due. Upon payment of the execution, warrant, judgment, or garnishment, the department shall satisfy the lien of record within thirty (30) days.

I. Pursuant to Section 213.24(3) and Section 125.0104, Florida Statutes, a fee shall be imposed to offset the extraordinary costs incurred by the Clerk of Court for enforcement, administration and payment agreements incurred due to late payment of a collection event.

1. "Collection Event" means failure by a taxpayer to:
 - a) timely file a complete return;
 - b) timely pay the full amount of tax reported on a return;
 - c) timely pay the full amount due resulting from an audit after all appeal rights have expired or the result has been finally determined; or
 - d) respond to attempts to contact the dealer.

The fee shall be equal to ten percent (10%) of the total amount of tax, penalty, and interest which remains unpaid after ninety (90) days. The fee shall be imposed in addition to the taxes, fees, penalties, and interest prescribed by law.

J. Tax revenues may be used only in accordance with the provision of Section 125.0104, Florida Statutes.

K. A total of three percent (3%) of said tax collected each month herein shall be retained by the Clerk of the Circuit Court for costs of administration by the Clerk of Courts. The remainder of the tax collected shall be distributed to the County on a monthly basis.

L. The County assumes responsibility for auditing the records and accounts of dealers and assessing, collecting, and enforcing payment of delinquent Tourist Development Taxes. The County adopts any and all powers and authority granted to

the State of Florida in Section 125.0104, Florida Statutes, and Chapter 212, Florida Statutes, and as further amended or incorporated therein to determine the amount of the tax, penalties and interest to be paid by each dealer and to enforce payment of such tax, penalties, and interest by, but not limited to, distress warrants, writ of garnishments and criminal penalties as provided in Chapter 212, Florida Statutes.

M. An action may not be brought to contest an assessment of any tax, interest or penalty assessed under this Ordinance more than sixty (60) days after the date the assessment becomes final. An action may not be brought to contest a denial of refund of any tax, interest or penalty paid under this Ordinance more than sixty (60) days after the date the denial becomes final.

SECTION TEN: PERSONAL LIABILITY

Any dealer who exercises a taxable privilege hereunder and who willfully fails or refuses to charge and collect from the person paying any rental or lease the taxes herein provided, either by himself or through his agents or employees, shall be, in addition to being personally liable for the payment of the tax, guilty of a misdemeanor of the second degree, punishable as provided in Section 775.082, Section 775.083, or Section 775.084, Florida Statutes.

Any dealer who, after the Clerk's delivery of a written notice to the dealers last known address specifically alerting the dealer of the requirement to register the dealer's business as a dealer, intentionally fails to register the business; and any dealer who, after the clerk's delivery of a written notice to the dealer's last known address specifically alerting the dealer of the requirement to collect tax on specific transactions, intentionally fails to collect such tax, shall, in addition to the other penalties provided by law, be liable for a specific penalty of one hundred percent (100%) of any unreported or any uncollected tax or fee and, upon conviction, for fine and punishment as provided in Section 775.082 or 775.083, Florida Statutes. Delivery of written notice may be made by certified mail, or by the use of such other method as is documented as being necessary and reasonable under the circumstances. The civil and criminal penalties imposed herein for failure to comply with a written notice alerting the dealer of the requirement to register the business as a dealer or to collect tax on specific transactions shall not apply if the dealer timely files a written challenge to such notice in accordance with procedures established by the department by rule or the notice fails to clearly advise that failure to comply with or timely challenge the notice will result in the imposition of the civil and criminal penalties imposed herein.

The rental property owner is ultimately responsible to ensure the required filing of tax returns and payment of taxes owed regardless of any agreement with an agent to collect, report and/or remit the tax.

SECTION ELEVEN: REFUSAL TO COLLECT TAX

No dealer shall advertise or hold out to the public in any manner, directly or indirectly, that he will absorb all or any part of the tax, or that he will relieve the person paying the rental of the payment of all or any part of the tax, or that the tax will not be added to the rental or lease consideration, or when added, that it or any part thereof will be refunded or refused, either directly, or indirectly, by any method whatsoever. Any dealer who willfully violates any provision of this subsection shall be guilty of a misdemeanor of the second degree, punishable as provided in Section 775.082, Section 775.083, or Section 775.084, Florida Statutes.

In the opinion of Locke Lord LLP, Bond Counsel, based on an analysis of existing law and assuming among other matters, compliance with certain covenants, interest on the Series 2015D Bonds is excluded from gross income for federal income tax purposes under the Internal Revenue Code of 1986. Interest on the Series 2015D Bonds is not a specific preference item for purposes of the federal individual or corporate alternative minimum taxes, although such interest is included in adjusted current earnings when calculating corporate alternative minimum taxable income. Interest on the Series 2015C Bonds is included in the gross income of the owners of the Series 2015C Bonds for federal income tax purposes. Bond Counsel is also of the opinion that the Bonds and the interest thereon are exempt from taxation under the existing laws of the State of Florida, except as to estate taxes and taxes imposed by Chapter 220, Florida Statutes, on interest, income or profits on debt obligations owned by corporations, as defined therein. Bond Counsel expresses no opinion regarding any other tax consequences related to the ownership or disposition of, or the accrual or receipt of interest on, the Bonds. See "TAX MATTERS" herein.

5.3.2 Except as: i) described in Section 5.3.7; or ii) otherwise agreed in writing by the LLC in its sole and absolute discretion, the County's right to use the Facility shall not extend to the Exclusive Use Areas.

5.3.3 In order to maximize the use of the Facility during times other than the Spring Training Season and for early coordination of the next year's calendar, the LLC and the County shall meet annually during the month of September. Notwithstanding the annual meeting discussed herein, each and every time that the County plans to make a formal bid/proposal for a sporting event that is to be held twelve (12) months or more after the date of the bid/proposal, the County shall first work collaboratively with the LLC prior to making the bid/proposal to develop a tentative plan for use of the Facility taking into consideration scheduled Team Events. If the tentative plan for the use of the Facility is acceptable to the LLC, the County may make the formal bid/proposal and the LLC shall reserve such dates for the County until such time that County notifies the LLC that the bid/proposal was accepted or rejected. The County shall notify the LLC of the acceptance or rejection of the bid/proposal within five (5) Business Days of receiving notice of acceptance or rejection.

5.3.3.1 The Director of FD&O shall attend the first ten (10) annual meetings in order for the LLC and the County to jointly review event scheduling processes, procedures and priorities as established in Sections 5.3 and 5.4 hereto, and to identify and define improvements, changes and updates to those processes, procedures and priorities. The Director of FD&O and the LLC shall have the ability to adopt mutually agreed upon amendments, changes and/or updates to the event scheduling processes, procedures and priorities established in Sections 5.3 and 5.4 herein by written agreement executed by the LLC and the Director of FD&O.

5.3.4 The County may request the scheduling of an event at any time with a minimum of ninety (90) days notice for any County Event that requires the LLC to restore the Buffer Area subject to the provisions of Section 5.5.3, and sixty (60) days notice for all other requests. The LLC will review the request in accordance to the provisions of this Article 5. Within thirty (30) days thereafter, the LLC will notify the County of approval, or rejection of all or a part of the schedule based on "pre-existing scheduled" or "generally known but not yet specifically scheduled" Team Events, or based on scheduled Third Party Events. In the event County's schedule is rejected in whole or in part, the County may submit a revised schedule, or upon the request of the County, the LLC shall coordinate a meeting date and time to review and revise the proposed schedule with the County. The County shall provide reasonable advance notice to the LLC of the cancellation of any County Event on the schedule. The LLC has the sole and absolute right to deny requests for County Events during the Spring Training Season. Additionally, the parties acknowledge and it is expressly understood that the foregoing shall not constitute; (i) an agreement by the County to indemnify the LLC, (ii) a waiver of sovereign immunity, (iii) a waiver of any right or defense that County has under Section 768.28, Florida Statutes, or any other statute, nor (iv) consent to be sued by third parties.

5.3.5.4 County Events Staged by Others. In the event any non-governmental entity is involved in staging a County Event, the County will cause such entity to procure commercial liability insurance coverage for such County Event to be provided by insurance companies acceptable to the LLC, with minimum policy limits of One Million Dollars (\$1,000,000.00) per occurrence or such other policy limits as are reasonably requested by the LLC based on the nature of any such County Event, naming the LLC, and its designees, as additional named insureds, and the County will cause proof of such insurance to be provided to the LLC upon demand.

5.3.5.5 Payment. Within thirty (30) days of receipt of an invoice and supporting documentation, County shall remit payment to the LLC for any damage occurring during County Events, whether or not such damage is caused by the County, its designee, its invitees, or someone other than the LLC, unless precluded by Section 5.3.5.3(1) or (2). The LLC is required to provide County with notice of such damage within seventy-two (72) hours after the conclusion of the County Event and allow County to inspect and document said damage upon request.

5.3.5.6 Admission Fees. If the County determines that an admission charge or other fee is to be charged, the LLC will collect such admission or fee and apply it to

amounts due from the County to the LLC for LLC Management Fees. If gross revenues from admissions or fees from any County Event do not exceed (net of taxes) the amount due to the LLC, the County shall remit to the LLC the additional funds due for such County Event within thirty (30) days following the County's receipt of a written invoice and supporting documentation substantiating the amount due. In the event that such gross revenues from admissions or fees from any County Event exceed (net of taxes) the amount due to the LLC, the LLC shall remit to the County the difference between such gross revenues and the amount due to the LLC and documentation substantiating the amount remitted, within thirty (30) days following the County Event.

5.3.5.7 Use Restrictions. In no event shall the County be permitted to use the Facility in a manner that (a) causes, or may be reasonably expected to cause, any material damage to any playing surface or any part of the Facility; (b) interferes with use of the Exclusive Use Areas; or (c) involves a promotional sponsorship which requires the on-Site sale of a product with which the LLC has an exclusive sale or concession agreement consistent with the requirements of Section 11.1 hereof. Other than as set forth in this Agreement, County shall not grant any professional baseball team the right to use or play at the Facility.

5.3.5.8 Use of Team Personal Property. The County shall not use either Team's Personal Property or equipment in connection with County's use of the Facility for County Events, or otherwise, without the express written consent of such Team. The County shall reimburse the LLC for any Personal Property or Equipment owned by the Teams or any of their affiliates, concessionaires, licensees or employees, that is damaged during a County Event or by a third party to the extent such third party use was specifically authorized or permitted by the County, within thirty (30) days of receipt of substantiating documentation.

5.3.6 Use for Post Disaster Recovery Efforts. In the event of a declared federal, state, or local emergency as allowed by law (a "Declared Emergency") County shall have the right to use the Facility, but not including the Exclusive Use Areas, for County determined post disaster recovery purposes.

5.3.6.1 The LLC will not enter into any agreements, event permits or other contracts specifically obligating the Facility for use during or after a period of Declared Emergency, without the County's prior written approval which may be granted or denied in the County's sole and absolute discretion.

5.3.6.2 LLC and the County shall, at the time of any Declared Emergency use, enter into a County Event license agreement which shall contain the same liability provision as set forth in Section 5.3.5.3 herein and which includes the following language: "County shall be responsible for the costs of any damage to the Facility caused by its use".

5.3.7 Shelter Use During Declared Emergency. In the event of an emergency requiring the use of emergency shelters for the homeless pursuant to Florida Statutes §288.1166, the County shall have the right to designate and use all, or portions of the Facility, including the Exclusive Use Areas as determined by County in its sole and absolute discretion, as a shelter for

the homeless pursuant to Florida Statutes §288.1166. County shall execute a license agreement for said emergency use with the specific provisions contained in Section 5.3.5.3 and 5.3.6.2. The County's right to use the Facility for an emergency shelter pursuant to Florida Statutes §288.1166 shall not apply to the extent:

A. The Facility is otherwise contractually obligated for a previously scheduled specific Team Event that is to be held despite the declaration of emergency; or

B. The County determines that its existing homeless assistance centers are sufficient to provide emergency shelter for the homeless during the period of a declared federal, state or local emergency.

5.3.8 County Responsibility For Security During Emergency Use. During County's emergency use of the Facility as described in Sections 5.3.6 and 5.3.7 herein, the County shall be solely responsible for performing and funding the security requirements for the County's use, consistent with the requirements of the LLC described in Section 5.2 herein, as to the licensed portions of the Facility.

5.4 Third-Party Events.

5.4.1 Applications and requests for Third-Party Events shall be accepted any time within a one (1) year period of the date of the proposed Third-Party Event, provided they do not interfere with Team Events or approved and scheduled County Events. Third-Party Events cannot be scheduled more than one year in advance without County's express written approval which may be granted or denied by County only if there is a conflict with an anticipated, but yet to be scheduled, County Event. Once a Third Party Event is scheduled, it can only be rescheduled or cancelled with the consent of the Third-Party Event applicant.

5.4.2 The LLC shall use the form of the County Event license agreement described in Section 5.3.5 for Third Party Events except: 1) the LLC shall be entitled to charge a license fee for the use of the Facility; 2) the LLC shall be entitled to charge for admission, participation and related fees and charges in connection with the operation of any Third Party Events at the Facility; and 3) if the Third Party Event is not sponsored by a governmental entity, the LLC shall require the Third Party provide insurance and indemnification provisions as set forth in Sections 5.4.2.1 and 5.4.2.2 below.

5.4.2.1 The LLC shall require commercial liability insurance coverage for such Third Party Event to be provided by insurance companies acceptable to the County, with minimum policy limits of One Million Dollars (\$1,000,000.00) per occurrence or such other policy limits as are reasonably requested by the County based on the nature of any such Third Party Event. The County shall be a named additional insured, and the LLC will cause proof of such insurance to be provided to the County upon demand.

5.4.2.2 For each Third Party Event, the Third Party Event operator shall protect, defend, reimburse, indemnify and hold the LLC and County, and their respective agents, designees, employees, and elected officials free and harmless at all times from and against all

claims, liability, expenses, losses, costs, fines, damages or causes of action of every kind and character, including attorney's fees and costs, whether at trial or appellate levels or otherwise, arising during, as a result of, or in connection with the operator's use of the Facility. The Third Party operator assumes the risk associated with the use of the Facility and agrees to hold the LLC and County, and their respective agents, designees, employees, and elected officials free and harmless at all times from and against all claims, liability, expenses, losses, costs, fines, damages or causes of action of every kind and character, including attorney's fees and costs, whether at trial or appellate levels or otherwise, due to their acts, errors or omissions resulting in bodily injury, including death, or damage to third party operator's property incident to or in connection with the third party operator's use of the Facility.

5.5 Buffer Area.

5.5.1 The County and the City intend that the Buffer Area be used only for parking when the remainder of the parking areas (pervious and non-pervious) are insufficient to meet the predicted parking demand. As such, the Interlocal Agreement limits the use of the Buffer Area for parking to forty (40) days per year (the "Buffer Area Year") unless extended by mutual agreement of the City and the County. The Buffer Area Year will commence on January 7 annually and continue through to January 6 of the following year. The LLC has sole responsibility for allocating the use of the Buffer Area during the Buffer Area Year, but agrees to allocate the use of the Buffer Area according to the following allocation priorities.

5.5.1.1 First priority shall be for Major League Spring Training Home Games. On any day during Spring Training Season that does not have a scheduled Major League Spring Training Home Game, the LLC shall manage the parking in such a way that the Buffer Area will only be opened for parking use if all other parking areas are predicted to be full.

5.5.1.2 The remainder of the forty (40) days shall be allocated on a first reserved-first use basis to any Team Event, County Event or Third Party Event that provides written justification of why the remainder of the Parking Areas are insufficient to meet its expected parking demand, as well as any other information to support the request (such as anticipated economic or community impact of the event).

5.5.1.3 At such time that the forty (40) days is exhausted or is expected to be exhausted during the duration of an event, the LLC may approve the license agreement contingent upon obtaining approval from the City for the additional days of use of the Buffer Area. Using the justification provided by the event applicant, the LLC and/or the applicant shall seek that approval from the City on behalf of the event applicant with the County's approval hereunder.

5.5.2 The LLC shall be responsible for restoring the Buffer Area to its pre-Spring Training Season condition whereby the wear and tear and damage caused by its use as a parking area is no longer visible, and the Buffer Area is vegetated to a non-playable pasture condition. The Buffer Area shall be restored to such non-playable pasture condition no later than April 15th, annually, or at the conclusion of the Spring Training Season, whichever is later.

5.5.3 The LLC shall be responsible for preparing the Buffer Areas for regulation league play no later than 30 days prior to any applicable scheduled County Event, but no earlier than April 30th annually.

5.5.4 Notwithstanding the above, the County shall be responsible for reimbursing the LLC for any damage to the Buffer Area following a County Event in accordance to Section 5.3 above.

6.5 Miscellaneous.

6.5.1 **Liability for Financing.** Nothing herein shall be construed to make the LLC or the Teams liable to the County for the payment of any County Bonds or financing, and the LLC's rights and obligations hereunder shall be independent of the County's obligations under such County Bonds or financing. The LLC agrees to cooperate with the issuance of any County Bonds, including without any limitation, providing any disclosure of the LLC's public information reasonably required for purposes of the offering documents for such County Bonds.

6.5.2 Payment Adjustments.

6.5.2.1 If, at the time of issuance of County Bonds, the LLC makes the Interest Election to increase the Team Improvement Areas Fee payments, such adjustments shall be payable over twenty-eight (28) years using the same proportionate payment distribution allocation as set forth in this Article 6.

6.5.5 The LLC shall be responsible for, and shall timely pay, all on-Site and off-Site municipal and utility service costs due in order to operate and maintain the Facility

including, but not limited to, water, sewer, garbage and trash collection and such other costs and impositions as may be assessed or levied by a municipal taxing authority or utility service provider against the Facility or Site.

6.5.6 In the event the LLC pays any amount that is less than the amount stipulated to be paid under this Agreement, such payment shall be considered to be made only on account of the stipulated amount. No endorsement or statement on any check or letter shall be deemed an accord and satisfaction. The County may accept any check or payment without prejudice to County's right to recover the balance due or to pursue any other remedy available to County pursuant to this Agreement or under the law.

6.6 **Tax Indemnification.** The LLC shall indemnify and hold County harmless from and against the payment of any and all sales tax due to the State of Florida or any department or agency thereof in connection with the payments described in this Article 6, together with all interest, fines, penalties, costs or other charges thereon, regardless of when, or the party against whom, the same may be assessed or imposed.

Notwithstanding the preceding sentence, to the extent that any Capital Improvements, paid for by the LLC, have useful lives that are not reasonably expected (as of the date of installation) to extend beyond the Term, such Capital Improvements shall be disregarded. Useful lives may, at the County's request, be determined by independent appraisal.

ARTICLE 7

REPAIR AND MAINTENANCE AND COSTS OF OPERATION

7.1 **Generally.** Except as otherwise expressly provided herein, the LLC shall be solely responsible for all costs of, and the performance of, all of the Repair and Maintenance and operation of the Facility, as required to keep the Facility in good condition at all times, on a year-round basis.

7.2 **Repair and Maintenance.** With respect to the LLC's performance of Repair and Maintenance, the LLC agrees as follows.

7.2.1 Repair and Maintenance shall be performed on a regular, scheduled routine basis as is reasonably required to prevent deterioration of the Facility and extend the useful life of the capital assets. Standards of Repair and Maintenance for the MLB amenities, including, but not limited to, the Stadium and Team facilities, shall be similar to first-class MLB

facilities and standards of Repair and Maintenance for the remainder of the improvements shall be consistent with public recreation facilities in Palm Beach County.

7.2.2 All Repair and Maintenance shall be performed in a good and workmanlike fashion, utilizing good quality materials, supplies, components and replacement parts that are of equal or better quality than the quality of those being repaired or replaced, with all reasonable efforts made to preserve the aesthetics of the Facility consistent with the respective Repair and Maintenance standard for the improvement.

7.2.6 The LLC shall routinely inspect the Facility and Site to ensure that there are no conditions which present a safety issue or hazard to any persons, including but not limited to visitors and players. If such a condition is found, it is the LLC's sole responsibility to immediately protect the area from use, to provide warning of the condition as may be reasonably necessary in order to ensure the safety of persons at the Facility, and to perform all work required to restore the area to a safe condition within a reasonable period of time, provided, however, that the LLC may seek reimbursement, if applicable, for Emergency R/R Projects for Public Use Improvements as set forth in Article 10 of this Agreement. The existence or non-existence of a right to reimbursement does not alter or limit the LLC's obligations to inspect, identify, secure, and/or correct all conditions that present a safety issue or constitute a hazard to persons at the Facility and Site.

7.2.7 The LLC shall provide FD&O with a bi-monthly report of all Facility Repair and Maintenance that was performed to Public Use Improvements during the preceding two months and all Facility Repair and Maintenance scheduled for Public Use Improvements during the upcoming two months no later than the twenty-fifth (25th) day of each even numbered month (February, April, etc.). The LLC shall provide the County with access to the Facility to perform routine maintenance inspections.

7.2.8 The LLC shall not voluntarily create, cause, or permit to be created any lien or encumbrance on the Facility and/or Site. In the event that a construction lien is filed against the Facility, the Site, other County property, or the City Park Property, in connection with any work performed by or on behalf of the LLC, the LLC shall satisfy such claim, or transfer same to security, within forty-five (45) Days from the date of notice of such filing. In the event that the LLC fails to satisfy or transfer such claim within said forty-five (45) Day period, County may do so and thereafter charge the LLC, and the LLC shall promptly pay to

County upon demand all costs incurred by County in connection with the satisfaction or transfer of such claim, including reasonable attorney's fees. Further, the LLC agrees to indemnify, defend, and save County harmless from and against any damage or loss incurred by County as a result of any such construction lien.

7.3 The LLC shall assume all of County's continuing obligations pursuant to the Reclaimed Water Agreement.

7.4 Inspection and Failure to Perform.

7.4.1 The County shall have the right, but not the obligation, to inspect the Site and Facility at reasonable times, upon reasonable request, or, at such time as the County has reason to believe that an emergency situation exists at the Facility and/or Site, to observe whether the LLC is performing its Repair and Maintenance obligations pursuant to this Agreement. If, in the County's reasonable opinion, the LLC has not performed its Repair and Maintenance obligations pursuant to the terms hereinabove, the County shall provide written notice to the LLC stating the basis for such opinion, and the LLC shall have thirty (30) days from the date of receipt of such notice during which to perform such Repair and Maintenance as required hereunder, or to notify the County that it disagrees with the County's opinion. If the LLC disagrees with the County opinion, the LLC and County agree to utilize the dispute resolution process identified in Article 18 of this Agreement.

7.4.2 The LLC shall permit County, or its representatives or agents to schedule and conduct visits of the Site and Facility as reasonably required to enable County to fulfill its insurance and/or restoration obligations pursuant to Articles 16 and 17 of this Agreement.

7.4.3 The County Representative shall visit the Site pursuant to Article 7 and Article 10 of this Agreement to observe the condition of the Facility solely for the purposes of determining whether the Repair and Maintenance is being performed consistent with the requirements of Sections 7.2.1, 7.2.2, 7.2.4 and 7.4 herein, and for determining placement and/or costs for the R/R Project spreadsheet pursuant to Article 10 of this Agreement.

7.4.4 The County Site visits authorized herein do not in any way eliminate, change, reduce, modify, transfer, or diminish the LLC's sole responsibility for: 1) the on-going operation of the Facility; 2) the assessment of the condition of the Site and Facility; and 3) the performance of corrective action, including but not limited to, Repair and Maintenance, as required to maintain the Site and the Facility in a safe condition. The LLC shall not be entitled to rely on any comments, recommendations, reports or the results of the County Representative or the County agents' Site visits, in lieu of conducting its own independent assessment and evaluation of the condition of the Site and the Facility.

7.4.5 The County shall coordinate all scheduled inspections pursuant to this Section 7.4 with the LLC to prevent interference with any scheduled use of the Site.

ARTICLE 8

8.1 Licensing, Regulatory and Safety Inspections.

8.1.1 All corrective work required at the Facility will be performed and funded as either Repair and Maintenance or an R/R Project.

8.1.2 For funding purposes, if the corrective work is not Repair and Maintenance, and it addresses a construction flaw or failure or other issue and such construction item cannot be resolved by the LLC pursuant to Section 13.1.1 or Section 13.1.2 of the Developer Agreement, then such corrective work shall be deemed a County R/R Project for Public Use Improvements and an LLC Project for non-Public Use Improvements.

8.1.3 The LLC's Repair and Maintenance responsibilities set forth in Section 7.1 and its R/R Project responsibilities set forth in Article 10, includes performing all emergency Repair and Maintenance and/or R/R Project work or other corrective action required to address hazardous or unsafe conditions arising from, or related to, licensing, permitting, inspection, audit, safety or regulatory requirements concerning the Site, Facility, and the LLC's operations, business, and/or use of the same, including but not limited to, any City, County, State, Federal, OSHA or BOC law, rules, regulations, ordinances, or other requirements. This includes, but is not limited to corrective work arising in anticipation of, or as a result of an inspection, audit, licensing or regulatory requirement or other compliance-related event.

8.1.4 The LLC shall be solely responsible for funding any Repair and Maintenance required to correct any condition, hazard, defect, flaw or failure, or other issue or condition arising from, or related to, licensing, permitting, inspection, audit, safety or regulatory requirements concerning the Site, Facility, and the LLC's operations, business, and/or use of the same.

8.1.5 The LLC's performance of corrective work required by Section 8.1.2 which otherwise meets the requirements of a County R/R Project is expressly subject to funding by County, pursuant to the processes and procedures set forth in Article 10 hereto.

8.1.6 Any corrective work required by Section 8.1.2 or Section 8.1.3 which otherwise meets the requirements of an LLC R/R Project, shall be reflected on the R/R Project Schedule as an LLC R/R Project, including, but not limited to, any corrective work required to comply with the requirements of any environmental permit or approval including monitoring and/or correcting groundwater issues, and such shall be funded and performed by the LLC pursuant to the processes and procedures set forth in Article 10 hereto.

8.2 ADA.

8.2.1 Pursuant to the terms of the Developer Agreement, the LLC is providing services as defined therein throughout the design and construction of the Facility and the Loop Trail, and the LLC has the responsibility of designing and constructing the Facility and the Loop Trail to be compliant with the requirements of the ADA. The LLC acknowledges that the LLC is

solely responsible for ensuring the Facility and Loop Trail are designed and constructed in accordance to the requirements of the ADA pursuant to the Developer Agreement.

8.2.2 The LLC is solely responsible for all ADA compliance requirements and all ADA complaints, litigation, claims or lawsuits, of whatsoever kind or nature, regardless of whether arising during the development of the Facility and prior to occupancy, or thereafter, and including claims from the Teams, guests, players, invitees, contractors, agents, or any other person or entity, and including, but not limited to, claims, litigation or lawsuits involving the Site, the Facility, the Loop Trail, Personal Property used at the Facility, and Capital Improvements, and regardless of whether arising from Facility design, use and operation, access or other issues.

8.2.3 The LLC shall advise the County of any change in law or regulation which may impact the compliance status of the Facility, and shall present the County with a plan for bringing the Facility into compliance. The LLC has the obligation to implement reasonable operating accommodations to achieve ADA compliance, but to the extent that modifications to the Facility are required, they will be considered Capital Improvements.

ARTICLE 9

CAPITAL IMPROVEMENTS

9.1 Capital Improvements.

9.1.1 All Capital Improvements proposed by the LLC to be made to the Facility shall require the prior written consent of the County in each instance, which consent shall not be unreasonably withheld, conditioned or delayed. If approved in writing by the County, all Capital Improvements proposed by the LLC to be made to the Facility shall be undertaken, performed and 100% funded by the LLC. The County shall have no obligation to reimburse or pay the LLC for any LLC Capital Improvement. In addition, all Capital Improvements shall be assumed to be LLC R/R Projects for the purposes of determining responsibility for funding the R/R Projects for the Capital Improvements, unless the County agrees, in its sole discretion, to accept the R/R responsibility for a Capital Improvement. If the County agrees to accept the R/R responsibility for a Capital Improvement, it shall be made as an affirmative statement included in the written approval for the Capital Improvement at which time it will become binding on the County.

9.1.2 The LLC shall submit detailed plans and specifications prepared by a design professional licensed in the State of Florida for all such Capital Improvements to the County for County's written approval prior to commencing work on same, including the estimated project cost. The County's review of the LLC's proposed improvements shall be limited to the determination of whether the improvements are consistent with the terms of this Agreement and that the improvements do not interfere with or reduce the public's access to the Facility.

9.1.3 County shall provide a written response within ten (10) business days after receipt of request by the LLC, failing which County shall be deemed to have consented to

such plans and specifications. Notwithstanding the foregoing, the County may request that the County be provided with additional time to provide the LLC with a written response as to whether the improvements restrict public access and are consistent with this Agreement.

9.1.4 All work done by the LLC shall be performed in a good and workmanlike manner using good quality materials and supplies and shall be diligently prosecuted to completion strictly in accordance with the approved plans and specifications. The LLC shall obtain all development approvals and permits from the appropriate regulatory agencies prior to commencing any Capital Improvements and shall perform all such Capital Improvements in compliance with all applicable laws, ordinances and regulations.

9.1.5 The LLC is solely responsible for all required licensing, safety inspections, Repair and Maintenance, and operation of all Capital Improvements, if applicable.

RENEWAL/REPLACEMENT PROJECTS

10.1 Renewal/Replacement (R/R) Projects.

10.1.1 The County and LLC have jointly determined the need for establishing and funding a program to address R/R Projects in order to ensure that age, use and deterioration of the Facility does not adversely impact its use or the cost to maintain the Facility. The R/R Project Schedule shall project, at a minimum, R/R Project requirements for the upcoming Budget Year and the next nine (9) Budget Years thereafter. The R/R Project Schedule shall address the requirements of the Facility and shall contain two sections; County R/R Projects and LLC R/R Projects.

10.1.1.1 The County is responsible for funding 100% of the County R/R Projects for Public Use Improvements when they are included in the Approved R/R Project Schedule.

10.1.1.2 The LLC is responsible for funding 100% of the LLC R/R Projects as identified on the Approved R/R Project Schedule.

10.1.2 No later than January 15 of each year, the LLC shall submit to County, its proposed R/R Project Schedule for review. No later than May 31, the LLC will be notified of County Staff's recommendation for funding of County R/R Projects as part of the County staff's recommended annual capital budget request. No later than October 1, the LLC shall be notified of the appropriations for the Approved R/R Project Schedule.

10.1.2.1 The first R/R Project Schedule shall be submitted no later than January 15 of the year following the first Full Spring Training Season played at the Facility. The R/R Project Schedule shall include each and every item with a fixed asset number whether physically tagged or not, its projected year for renewal or replacement and the estimate cost of the renewal or replacement task.

10.1.2.2 For each subsequent annual submittal, the R/R Project Schedule shall be updated to reflect any changes made necessary as a result of mid-year modifications, differing physical field conditions which may accelerate or extend the replacement year, and/or updated project estimate. The LLC shall submit, with the updated R/R Project Schedule, a detailed written narrative for each and every R/R Project that was not included in the Approved R/R Project Schedule, providing an explanation as to why such R/R Project had previously not been included in the R/R Project Schedule. Within fourteen (14) days after the County's receipt of the updated R/R Project Schedule, representatives of FD&O and the LLC shall meet at the Facility ("On Site Meeting") in order to review and discuss the updated R/R Project Schedule and agree upon any changes to the updated R/R Project Schedule.

10.1.2.3 The County and the LLC both agree to cooperate in the development of the updated R/R Project Schedule so that the R/R Projects are undertaken in a timely manner to ensure that the asset is renewed/replaced prior to material degradation of the utility/appearance of the asset, while recognizing periodic financial constraints of the County and the LLC. Material degradation of an asset occurs when; 1) the asset's condition is or may cause damage or increased costs to renew/replace other assets, 2) the asset's condition represents a hazardous condition that may increase liability, and/or 3) the asset has deteriorated in utility and appearance or has failed or is likely to fail.

10.1.3 The LLC shall have an obligation to implement and fund the Approved R/R Project Schedule for each Budget Year, subject to County reimbursement, pursuant to this Article 10, to the LLC for its expenditures towards County R/R Projects on the Approved R/R Project Schedule.

10.1.4 The LLC must perform the Approved County R/R Projects within the funding amount identified on the Approved R/R Project Schedule, unless an increase in County R/R Project funding is approved in writing by the County prior to the LLC issuing a contract or purchase order pursuant to Section 10.4. Approved expenditures will be reimbursed in accordance to the terms and conditions set forth below.

10.1.5 The County's obligation to fund or reimburse the LLC for County R/R Projects in any Budget Year is limited to those County R/R Projects that are reflected on the Approved R/R Project Schedule.

10.2 Mid - Year Modifications to Approved R/R Project Schedule.

10.2.1 The LLC shall have the right to request mid-year modifications to the Approved R/R Project Schedule only for an Emergency R/R Project by submitting a written request for a mid-year modification. Such request for modification shall include the scope, cost, schedule for implementation and the justification for the Emergency R/R Project. The justification for the Emergency R/R Project shall specifically indicate why the Emergency R/R Project cannot wait until the next funding cycle. The request shall also identify whether any or all of the implementation procedures need to be waived.

10.2.2 Notwithstanding the above, the LLC has the absolute obligation to immediately respond to emergencies, and/or situations that may pose a danger to the health and/or safety of persons or that may impact the integrity of the Facility.

10.3 R/R Project Reserves. The R/R Project Reserve was established pursuant to Section 8.4.7 of the Developer Agreement and contains cost savings, if any, accomplished during the construction of the Facility and allocated to the LLC R/R Project Reserve and the County R/R Project Reserve in order to fund the initial R/R Project obligations of County and the LLC. The County and the LLC will each first use their respective R/R Project Reserves to fund their respective R/R obligations pursuant to this Agreement until the R/R Project Reserves are exhausted. The parties acknowledge that the R/R Project Reserves are a small portion, if any, of the funding that will be required to fund each party's R/R obligations pursuant to this Agreement.

10.4 Implementation of R/R Projects.

10.4.1 All R/R Projects shall be performed in a good and workmanlike manner using good quality materials and supplies, and components and replacement parts that are of equal or better quality than the quality of those being repaired or replaced and shall be performed through completion. The LLC shall obtain all development approvals and permits from the appropriate regulatory agencies prior to commencing any R/R Projects and shall perform all such R/R Projects in compliance with all applicable laws, regulations and ordinances. The LLC shall obtain the advance approval of the Art in Public Places Administrator for any R/R Project that involves Art.

10.4.2 The LLC shall use its standard purchasing practices for all contracts/purchase orders entered into in connection with R/R Projects; provided that all purchases are undertaken and awarded by a competitive process. Unless the LLC has included qualification based criteria in the bid and the LLC can reasonably demonstrate that the low bidder did not meet those qualification criteria, the only justifications for not choosing the low bidder are either: 1) an award to the next lowest bidder in order to contract with a Palm Beach County certified SBE vendor and the SBE vendor's bid does not exceed the low bidder's price by ten percent (10%), or 2) an award to the next lowest bidder in order to contract with a bidder meeting the Palm Beach County's definition of local business and the local business's bid does not exceed the low bidder's price by five (5) percent. Preferences are not cumulative and in the event of a conflict, the SBE preference is of higher priority.

10.4.2.1 Qualification Based Selection Criteria. When necessary, the LLC may use qualification based selection criteria as a pre-bid step or as part of a competitive selection provided that the qualification based selection criteria is objective, directly responsive to the work, and does not limit competition among qualified bidders.

10.4.2.2 Projects in Excess of \$200,000. The LLC shall obtain a payment and performance bond in conformity to the requirements of Florida Statute § 255.05 on the County's most current form and from a surety meeting the County's requirements for all projects in excess of \$200,000, or such monetary limit as in effect at the time of the R/R Project.

10.4.3 For each and every project designated as a County R/R Project on the Approved R/R Project Schedule and prior to the LLC entering into a contract or purchase order for any individual R/R Project, the LLC shall submit; 1) the scope of work that was used as the basis for the bid, 2) a bid tabulation sheet that sets forth the vendor/contractor name and bid amount for each bid response ("R/R Project Bid Tabulation Sheet"), and 3) a copy of the LLC's proposed contract or purchase order which identifies the final scope of work to be purchased and a copy of the vendor's/contractor's insurance certificate naming the County as an additional insured. Within seven (7) days of the County's receipt of the foregoing, the County will issue a purchase order to the LLC in the amount of the intended awardee's bid plus an additional five percent (5%) contingency ("R/R Purchase Order").

10.4.4 For any County R/R Projects, the same requirements and process set forth above in this Section 10.4 shall apply and be used in connection with the reimbursement to the LLC of the costs and expenses incurred by the LLC for all design, testing lab and construction services agreements as well as any permit fees paid to a governmental entity.

10.4.5 Requests for payment against R/R Purchase Orders shall be made at intervals determined by the LLC, but no more frequently than semi-monthly. Requests for payment against R/R Purchase Orders shall be made by the LLC to the County and shall include; 1) the R/R Purchase Order number, 2) a copy of the vendor's/contractor's request for payment or invoice, and 3) evidence of payment by the LLC. For the purposes of this Section, a copy of a check written by the LLC or a bank statement indicating electronic payment details including vendor's/contractor's name, shall constitute evidence of payment. Any request for payment which includes a request for use of contingency funds, shall include a copy of the change order issued by the LLC to the vendor/contractor and shall specifically identify: 1) the scope of work included in the change order; 2) the amount of the change order; 3) the new total contract amount; and 4) an explanation of the reason for the change order. Any final payment request against each R/R Purchase Order shall be marked accordingly. Once the County has received a request or payment on an R/R Purchase Order, together with the foregoing documentation ("R/R Payment Request"), the County shall within five (5) business days from receipt of the R/R Payment Request review the request and notify the LLC if such request is complete or deficient. If the R/R Payment Request is deficient the LLC shall resubmit its R/R Payment Request to the County and the County shall within five (5) business days from receipt of the subsequent R/R Payment Request review such submittal and notify the LLC if such submittal is complete or deficient. This process shall continue until such time as the County receives a complete R/R Payment Request. Once the County receives a complete R/R Payment Request, the County shall make payment against the R/R Purchase Order within twenty-one (21) Days.

ARTICLE 11

REVENUE STREAMS

11.1 **Generally.** The LLC shall be entitled to receive and to retain all revenue streams, now known or hereafter devised, in connection with the year-round operation of the Facility for any and all events at the Facility, except for County Events pursuant to Section 5.3 or as may otherwise be set forth in a written agreement for use of the Facility. Notwithstanding anything herein to the contrary, the LLC shall not enter into any contracts or agreements

regarding the Facility that extend beyond the expiration of the Term of this Agreement. Additionally the LLC shall not enter into any agreements including, but not limited to, sponsorship agreements or donor agreements in exchange for naming rights, containing language that prohibits County from using, or providing incompatible products at no cost or charge to its event participants during a County Event, or in any way that restricts the promotional or advertising opportunities at County Events. The County acknowledges that the sale of products incompatible with the LLC's agreements is prohibited. Furthermore, the LLC shall include language in each and every contract or agreement regarding the Facility that the LLC enters into, that such contract or agreement is not binding upon the County and may be terminated in the event this Agreement is terminated. Without limiting the foregoing, the provisions of Sections 11.2 through 11.6 more specifically address certain revenue streams.

11.2 Ticket Sales. The LLC shall set ticket prices and entry fees for all events at the Facility, other than County Events, and shall be entitled to receive all revenue collected by the LLC. The LLC shall have the right to fix the charges for tickets in its sole discretion; provided, however, that the LLC's ability to charge admission, and the amount of any admission charges, shall be subject to all MLB Rules and Regulations, and any applicable Minor League rules, guidelines, regulations, requirements, directives and/or policies, as the same now exists or may be amended or adopted in the future. No direct or indirect ticket surcharges, franchise fees, charges, taxes, or, without limitation, other fees may be instituted or imposed by the County for admissions to baseball-related events at the Facility without the LLC's prior written consent, which consent may be withheld or conditioned in the LLC's sole discretion.

11.3 Parking. Except for County Events as set forth below, all revenues from all sources, including parking shall be retained by the LLC. The fees to be charged for such parking shall be determined by the LLC in its sole discretion. For County Events, the County shall only be charged the cost to prepare, manage and/or administer the parking for the County Event, and in no case shall the County be charged for the use of the Parking Areas.

11.4 Concessions. The LLC, or its designees, shall be the exclusive concessionaires and shall sell all concession items at all events held in and at the Facility and designated parking areas and retain all Concession Revenues, including Concession Revenues from all County Events. Subject to MLB Rules and Regulations, such concession stand items shall include but shall not be limited to, in the LLC's sole discretion, all foods, beverages (alcoholic and non-alcoholic), scorecards, programs, yearbooks, vending machines, merchandise, including but not limited to novelty items carrying the LLC's or one or both of the Teams' logos or the logo of any other Major League Club or Minor League Club, as well as any interactive games, video games, batting or pitching cages and other entertainment-oriented retail or food service items, including, without limitation, any Spring Training Season related promotions and advertising, and any event-related activities scheduled by the LLC. The LLC's rights hereunder shall include, without limitation, the exclusive right to vend concession and novelty items from permanent or portable concession units located at the Facility, and, to the extent permitted by law, on public streets and ways abutting any portion of the Facility or the immediately adjacent parking areas. To the extent of the County's jurisdiction, the County agrees to deny any other person or entity the right to sell concessions, and novelty, food and beverage, and retail items in or at the Facility.

11.5 Advertising/Broadcasting.

11.5.1 All revenues received by the LLC from all advertising, promotions or sponsorships (including without limitation scoreboard/message center advertising during any of the events or activities at the Facility, annual billboard signage (e.g., outfield fence, concourses and other advertising signage at the Facility), marquee signage, naming rights, advertising rights and, without limitation, other rights with regard to the name of the Facility or any part thereof shall be the sole property of the LLC for the Term of the Agreement.

11.5.2 The LLC shall have and control all naming rights to the Facility and all parts thereof, but agrees "of the Palm Beaches" shall be added to the end of the name for the Facility. Naming rights shall not be subject to termination by the County until the date of the expiration of the Term or the earlier termination thereof. If necessary, the County shall assist the LLC in obtaining any permits or licenses required under the laws or regulations of any government authority and necessary to the scoreboard message center and billboard advertising. The County shall also not unreasonably withhold its approval of any such permits or licenses required under its laws or regulations, if necessary. Notwithstanding anything to the contrary in this Agreement, any advertising, signage, sponsorship or naming rights shall comply with all MLB Rules and Regulations.

11.5.3 The LLC shall receive all revenue from their respective radio broadcast, cablecast, televising, or other video and/or audio means of broadcasting or transmitting any or all portions of any games played by the Teams or any other Major League Clubs, Minor League Clubs, or any other teams, and the County shall not participate, in any manner, in determining when or whether said games shall be televised, cablecast or broadcast. The County will not directly or indirectly charge or impose special fees, permits or hook-up expenses to the LLC or its broadcasters, cable casters or telecasters. If any provisions of this Agreement conflict with any provisions of any agreement between Major League Baseball and any national rights holder (each such agreement a "National Rights Agreement"), the National Rights Agreement shall in all respects control.

11.6 Other Revenue. Except as otherwise provided in Section 5.3, the LLC shall be entitled to any and all fees from third-parties for use of the Facility during the Term, as well as any other monies, without limitation, generated pursuant to other revenue streams not enumerated above, provided however, that any agreements with other entities requiring construction, alteration, and related permitting approvals shall require the prior written consent of the County and shall require the LLC to enter into a written agreement with such entity.

ARTICLE 12 **TOURIST PROMOTION**

12.1 County Tourism Identity Logo and County Seal.

12.1.1 The County shall provide the LLC with the form of the County Seal and the Tourism Identity Logo upon request. County shall provide the LLC with copies of any update or revision to the County Seal and/or Tourism Identity Logo, and within ninety (90) days

thereafter, the LLC shall update its marketing and promotional materials, including the County Seal or Tourism Identity Logo pursuant to Section 12.1.2 herein, to the newest version.

12.1.2 Unless precluded by MLB Rules and Regulations or the design of the Facility, the LLC will place the County's Tourism Identity Logo or County Seal, at the County's election, which shall be no larger than three (3) feet in diameter, in a visible location inside the stadium at the Facility.

12.1.3 Prior to the start of the Championship Season, the LLC shall cause the Teams to coordinate the placement and content of marketing services and promotions within each Home City MLB Stadium with the TDC. It is understood, however, that the exact placement and content of such marketing services and promotions will not be such to adversely impact either the stadium aesthetics or the Teams' baseball operations, and shall be in all instances subject to MLB Rules and Regulations. There shall be no changes to the colors of the Tourism Identity Logo or the County Seal used in such marketing services and promotions unless approved in advance by the TDC Representative and the County.

12.1.4 The LLC further agrees to place an appropriate County dedication plaque near the entrance of the stadium at the Facility.

12.1.5 The LLC shall cause the Teams to use the County Seal and County Tourism Identity Logo in all in-County marketing efforts, except for those marketing efforts that do not include any graphics, print or visual media and excluding merchandise and on-Site signage.

12.1.6 Notwithstanding anything in this Agreement to the contrary, in the event that the MLB Rules and Regulations preclude (i) the County from exercising the rights granted in this Article 12, and/or (ii) the LLC from performing its obligations as set forth in this Article 12, then the LLC shall provide the County with an alternative marketing tool that provides the County with benefits that are of equal or greater value to those that are provided for in this Article 12 and that are acceptable to the County in the County's reasonable discretion.

12.2 Astros' Obligations.

12.2.1 As additional consideration for the use of the Team Improvement Areas, the LLC shall cause the Astros to annually provide tourism marketing and promotional services for the Facility valued at no less than \$500,000 annually, at the Astros' Home City MLB Stadium or to the Astros' Home City audience.

12.2.2 Three months prior to the start of the Spring Training Season, the LLC shall cause the Astros to present a draft promotional plan, including the content, proposed placement and then current value of the materials and promotion to be provided in the Home City, to the TDC to come to a mutually agreeable plan.

12.2.3 This plan may be inclusive of social media channel strategy, digital promotions on Team websites, broadcast radio strategy for the radio networks and multi-lingual stations, broadcast television, traditional hospitality, ticketing and public relations opportunities

for in-home market entertainment of potential business to business clients, e.g., travel agents, meeting planners, along with any local charity connections the Team is supporting, print programs, line-up cards, and welcome center materials to be used at Florida Welcome Centers for the drive market. A list of marketing assets that may be included in the promotional plan is attached hereto as **Exhibit F**.

12.2.4 For Major League Spring Training Home Games of the Astros, the LLC shall cause the Astros' radio rights holders to provide a minimum of one (1) live drop-in announcement promoting tourism in Palm Beach County. The TDC will provide factual talking points related to leisure traveler points of interest that can be used by game announcing personalities during the radio broadcast. The Tourist Development Council will provide for television broadcasts of Major League Spring Training Home Game including video content and "B" roll of tourism assets throughout Palm Beach County. The TDC shall submit the content required for all drop-in announcements by February 15th of each year.

12.2.5 In the event the Astros and the TDC cannot reach agreement on the promotional plan, the LLC shall cause the Astros to attend dispute resolution with County pursuant to Article 18 for the sole purpose of resolving the dispute on the content, placement and value of the services.

12.3 Nationals' Obligations.

12.3.1 As additional consideration for the use of the Team Improvement Areas, the LLC shall cause the Nationals to annually provide tourism marketing and promotional services for the Facility valued at no less than \$500,000 annually, at the Nationals' Home City MLB Stadium or to the Nationals' Home City audience.

12.3.2 Three months prior to the start of the Spring Training Season, the LLC shall cause the Nationals to present a draft promotional plan, including the content, proposed placement and then current estimated value of the materials and promotion to be provided in the Home City, to the TDC to come to a mutually agreeable plan.

12.3.3 This plan may be inclusive of social media channel strategy, digital promotions on Team websites, broadcast radio strategy for the radio networks and multi-lingual stations, broadcast television, traditional hospitality, ticketing and public relations opportunities for in-home market entertainment of potential business to business clients, e.g., travel agents, meeting planners, along with any local charity connections the team is supporting, print programs, line-up cards, and welcome center materials to be used at Florida Welcome Centers for the drive market. A list of marketing assets that may be included in the promotional plan is attached hereto as **Exhibit F**.

12.3.4 For Major League Spring Training Home Games of the Nationals, the LLC shall cause the Nationals' radio rights holders to provide a minimum of one (1) live drop-in announcement promoting tourism in Palm Beach County. The TDC will provide factual talking points related to leisure traveler points of interest that can be used by game announcing personalities during the radio broadcast. The Tourist Development Council will provide for television broadcasts of Major League Spring Training Home Game including video content and

"B" roll of tourism assets throughout Palm Beach County. The TDC shall submit the content required for all drop-in announcements by February 15th of each year.

12.3.5 In the event the Nationals and the TDC cannot reach agreement on the promotional plan, the LLC shall cause the Nationals to attend dispute resolution with County pursuant to Article 18 for the sole purpose of resolving the dispute on the content, placement and value of the services.

12.4 County's Obligation to Promote. The County shall use reasonable efforts to promote the presence of the Teams' baseball operations and to promote the sale of tickets to all events at the Facility, by all reasonable methods incidental with its regular tourist promotion activities.

ARTICLE 13

TRANSFER OF TEAM OWNERSHIP/ ASSIGNMENT OF AGREEMENT

13.1 Assignment and Transfer of Interests. Except as permitted by Section 13.2, the LLC Parties may not assign, convey, or transfer this Agreement, or any interest in this Agreement, nor may a Team assign, convey or transfer its interest in the LLC without the prior, written consent of the Florida Department of Economic Opportunity ("DEO") and the County, provided such consent shall not be unreasonably withheld. The County shall not assign this Agreement without the written consent of the LLC.

13.2 Conditions for Approval of Transfer of Team Ownership.

13.2.1 Nothing herein shall prohibit or in any way prevent an owner of an interest in a Team (including its successors and assigns) from transferring all or any part of its respective ownership interest in the Team, at any time, subject, however, to the continuing obligations of the Team pursuant to this Agreement and the Guaranty set forth in Section 16.7 herein. In addition thereto, the Team itself, at any time, shall have the absolute and unconditional right to transfer its assets, inclusive of the asset representing the MLB franchise and the Team's ownership interest in the LLC, (provided no interest in the LLC shall be transferred separately from the asset representing the MLB franchise to another Major League Club unless such separate transfer otherwise meets the requirements of this Agreement), and provided the entity assuming the obligations of the transferring Team, or an Affiliate of such entity, meets the net worth requirements of the Guaranty set forth in Section 16.7. Transfer of Team ownership (either by transfer of ownership interest or sale of the MLB franchise by the Team) in no way releases, extinguishes or alters the LLC's responsibilities pertaining to the Operative Agreements. Provided the transferring entity is not in default of the Operative Agreements at the time of transfer, a transfer of an MLB franchise above and execution of the assignment and assumption agreement, shall release, extinguish and forever discharge the obligations of the transferring ownership entity for any matter attributable to the transferring entity under the Operative Agreements from and after the date of transfer. The County agrees to provide any new owner, or potential acquirer of the Team or its assets (either by transfer of ownership interest or sale of the MLB franchise, or interest in the LLC by the Team) with an estoppel certificate within fifteen (15) Business Days of receipt of written request from the LLC,

setting forth the status of the Operative Agreements and any default(s) under the Operative Agreements, and if so, summarizing such default(s).

13.2.2 Nothing herein shall prohibit or in any way prevent an owner of an interest in the LLC, including its successors and assigns, from transferring all or any part of its ownership interest in the LLC, at any time, to an Affiliate, provided that each Guaranty always remains in full force and effect. In addition thereto, a Team (or Teams), (or its Affiliate), may assign or transfer its interest in the LLC (or the LLC, itself, may assign or transfer its interest in the Operative Agreements), to another Major League Club (or Major League Clubs) only with DEO's prior written consent, which consent shall not be unreasonably withheld, provided the following conditions have been satisfied: 1) the proposed Club assignee(s) can demonstrate equal or greater attendance records at its current Spring Training Season facility, averaged over the last three (3) Spring Training Seasons, as compared to the assignor Team(s); 2) the assignee Team(s) assumes 100% of the assignor's Team(s) obligations pursuant to the Operative Agreements beginning from the date of execution of this Agreement; 3) the assignee Team(s) meets the net worth or fair value of equity requirements of the Guaranty set forth in Section 16.7, and 4) the assignee Team(s) executes an Agreement and a Guaranty in the same form as this Agreement and the Guaranty incorporated herein by reference in Section 16.7, specifically relating back to the respective, original Agreement and Guaranty execution dates; 5) the Major League Club(s) assignee(s), assuming the obligations of the assignor Team(s), must not be terminating early or breaching an existing agreement funded in whole or in part by State funds, including, but not limited to funds obtained pursuant to sections 288.11621 and 288.11631 of the Florida Statutes and 6) the resulting assignment or transfer must result in two separate Major League Clubs agreeing to continually use the Facility for their Spring Training Home Games for the balance of the Term of, and in keeping with, this Agreement. Provided such assignor Team(s) is not in default of the Operative Agreements at the time of transfer, such transfer shall release, extinguish and forever discharge the obligations of the transferring/assignor Team(s) for any matter attributable to the transferring/assignor Team(s) under the Operative Agreements from and after the date of transfer or assignment. The County agrees to provide any such new owner, or potential acquirer of any interest in the LLC or its assets, with an estoppel certificate within fifteen (15) Business Days of receipt of written request from the LLC, setting forth the status of the Operative Agreements and any default(s) under the Operative Agreements, and if so, summarizing such default(s).

13.2.3 A Team may enter into written sub-use agreement(s) with other Major League Clubs for periodic uses of the Facility. Any such sub-use agreement shall in no way release or extinguish the obligations of the LLC pursuant to this Agreement or the obligations of the Teams pursuant to this Agreement and the Guaranty executed by the Teams as set forth in Section 16.7 herein.

13.3 Managers. The present managers of the LLC (Arthur Fuccillo and Giles Kibbe) shall have the absolute right without condition or restriction, to transfer their interests and/or responsibilities in the LLC to Affiliate entities or individuals. The County will be provided notice within thirty (30) days of such transfer.

ARTICLE 14
TAXES

14.1 Generally. The parties agree that the use of the Facility is as a sports facility with permanent seating and as a stadium. The parties reasonably believe that the Facility, the LLC's interest therein and operation thereof, are presently immune from Ad Valorem and/or real estate taxes as the Site and the Facility are owned by County. Provided the Facility is used primarily as a public sports facility, the County and the LLC agree to reasonably cooperate together in: 1) maintaining or obtaining an Ad Valorem and/or real estate tax immunity throughout the Term, and 2) challenging or contesting any real estate taxes, Ad Valorem assessments or similar real estate taxes that impact the LLC's interest in or operation of, the Facility. Notwithstanding the above, the LLC shall have sole liability and responsibility for all Ad Valorem or real estate taxes or assessments that are imposed or assessed against the Site, the Facility, the LLC's interest therein, and/or the LLC's operation thereof, except as otherwise set forth in Section 14.2. The LLC shall have sole responsibility and liability for all lawful taxes, assessments, licenses and charges on the operations at the Facility including, but not limited to, all lawful taxes, assessments, licenses and/or charges on Personal Property and Capital Improvements located at the Facility, as well as on goods, merchandise, equipment and property owned by the LLC and/or the Teams and located in or about the Facility for which an exemption is not available. It is the parties express intention that the LLC shall have sole liability for back taxes, penalties, fines or fees that may result from an audit or review of the LLC's operations at the Facility. This provision shall in no way be construed as restricting the County or the LLC from contesting the legality of any tax or assessment and the County agrees to use good faith efforts to assist the LLC in contesting any such tax, imposition or assessment.

14.2 It is the intent of the County to not have the LLC be financially impacted by the assessment of Ad Valorem taxes. If, in the future, any Ad Valorem real property taxes are imposed or assessed against the Site, the Facility, the LLC's interest therein and/or the LLC's operation thereof the County agrees to pay all such Ad Valorem real property taxes when due. The County's obligation to pay the Ad Valorem taxes pursuant to this Section 14.2, is solely contingent on; 1) the LLC providing evidence of the tax bill (if applicable) to the County within 5 working days of receipt, and 2) the City of West Palm Beach agreeing to reimburse the County for Ad Valorem taxes due to the City pursuant to Section 35 of the Interlocal Agreement. If necessary to meet the intent of this provision, the parties will agree to alternative arrangements to meet said intent.

ARTICLE 15
LITIGATION AND INDEMNITY

15.1 Litigation. The LLC shall be responsible for the defense of all litigation, hearings, claims, demands or suits, including appeals, or other liability, arising as a result of the development, operation, or use of the Site, Facility, and City Park, including such litigation, claims, demands, suits and proceedings where the County has been named as a Defendant or Respondent, to the extent such litigation, claim, demand or suit, concerns any obligation or duty of the LLC concerning the Site, Facility, and City Park, under any of the Operative Agreements

and/or the Due Diligence and Planning Services Agreement. This includes, but is not limited to, claims, demands, accidents or injuries, suits, or other liability involving personal injuries at the Facility, including, but not limited to, driveways, sidewalks, entrances and exits from the Site and Facility. Notwithstanding the above, the LLC shall not be responsible for the defense of any taxpayer challenge to County or governmental funding of the Site, Facility and/or City Park. The County agrees to be responsible for all litigation, hearings, claims, demands or actions, including appeals, or other liability, to the extent and limits provided in Florida Statutes, Section 768.28, arising solely from the actions of the County's employees. The parties acknowledge that the foregoing shall not; 1) constitute an agreement by the County to indemnify the LLC; 2) be construed as a waiver of sovereign immunity, 3) constitute a waiver of any defense the County may have under Section 768.28, Florida Statutes, or any other statutes, or 4) constitute consent to be sued by third parties.

15.2 Indemnification.

15.2.1 The "County Indemnified Parties" means the County, including each of its respective agents, employees and elected officials.

15.2.1.1 The LLC agrees to protect, defend, reimburse, indemnify and hold County Indemnified Parties free and harmless at all times from and against any and all claims, liability, expenses, losses, costs, fines and damages (including attorney's fees at trial and appellate levels) and causes of action of every kind and character against, or in which County is named or joined, for any damage to property or the environment, economic losses, or bodily injury (including death) incurred or sustained by any Person, arising out of, or in incident to, or in connection with; (i) the use and operation of the Facility and all driveways, sidewalks, walkways, entrances and exits from the Site and Facility, (ii) any act or omission of the LLC Parties, (iii) the LLC's performance, non-performance or purported performance under this Agreement, and/or (iv) the condition of the Facility and Site caused by the LLC's failure to adequately repair and maintain the Facility and Site.

15.2.1.3 In case County shall be made a party to any litigation commenced against the LLC Parties or by the LLC Parties against any third party related to the LLC Parties' activities or obligations pursuant to this Agreement, then the LLC shall protect and hold harmless and pay all costs and reasonable attorney's fees incurred by County in connection with such litigation, and any appeals thereof.

15.2.1.4 The foregoing indemnification shall not apply to the extent any claims, liability, expenses, losses, fines and damages arises from the negligent or willful acts of the County Indemnified Parties.

This shall include Premises and Operations; Personal and Advertising Injury; Independent Contractors; Products and Completed Operations; Contractual Liability; Liquor Liability; and Athletic Participation coverage.

C. **Automobile Liability.** Coverage will include all licensed, over-the-road vehicles owned or used by the Team with minimum limits of no less than \$1,000,000.00 per accident.

16.2 LLC Insurance. The LLC shall secure and maintain, or shall cause to be secured and maintained, during the Term, at no cost to the County, the following coverages covering its operations hereunder, provided, however, that if the obligations are met by an Umbrella Policy, such policy shall be as broad as the primary:

A. **Workers' Compensation.** Insurance covering all LLC employees meeting statutory limits in compliance with the applicable state and federal laws.

B. **Commercial General Liability.** Coverage shall have minimum limits of \$5,000,000 per occurrence and \$10,000,000 in the aggregate for Bodily Injury Liability and Property Damage Liability, which limit can be evidenced by any combination of primary and excess coverage. This shall include Premises and Operations; Personal and Advertising Injury; Independent Contractors; Products and Completed Operations; Contractual Liability; Liquor Liability; and Athletic Participation coverage.

C. **Automobile Liability.** Coverage will include all licensed, over-the-road vehicles owned or used by the LLC with minimum limits of no less than \$1,000,000.00 per accident.

D. **Property Insurance for LLC Restoration Areas.** The LLC shall insure the LLC Restoration Areas against damage or destruction by fire, flood, hurricanes, tornadoes, terrorism or other casualty under a standard "all risk" insurance policy. Insurance shall be for one hundred percent (100%) replacement value. In the event of a casualty, the LLC shall be responsible for paying the deductible.

16.3 Additional Requirements.

16.3.1 All insurance policies must be issued by an insurance carrier with an A.M. Best rating of A- and Class VII or better.

16.3.2 The LLC shall cause the County to be listed as an additional insured (and not as a named insured) for claims arising in connection with the LLC's operations on the Commercial General Liability Policy (using ISO Form CG2010 10 101 or its equivalent) and the Automobile Policy. The Additional Insureds shall include "Palm Beach County Board of County Commissioners, a Political Subdivision of the State of Florida, its Officers, Employees and Agents", c/o Property & Real Estate Management Division, 2633 Vista Parkway, West Palm Beach, FL 33411-5605. All liability insurance policies must provide Cross Liability coverage (separation of insureds or severability of interest provisions). Coverage for the County as an additional insured shall apply on a primary basis irrespective of any other insurance, whether collectible or not, in connection with the operations of the LLC. No policy shall contain a self-insured retention, but may have a deductible.

16.3.3 Current valid insurance policies meeting the requirements herein identified shall be maintained during the Term. Renewal certificates shall be sent by the LLC to the County as soon as practicable after the policy is renewed. There shall also be a ten (10) day notification to the County in the event of cancellation of any stipulated insurance coverage.

16.4 County Insurance. The County shall secure and maintain during the Term the following coverage:

A. Property Insurance. The County shall insure the Facility against damage or destruction by fire, flood, hurricanes, tornadoes, terrorism or other casualty under a standard "all risk" insurance policy ("Damage"), except as otherwise set forth in Section 17.2. Insurance shall be for one hundred percent (100%) replacement value. County shall be responsible for paying deductible costs, except that in the event the damage by fire or by other casualty is due to any fault or neglect of the LLC, then the LLC shall be responsible for paying a reasonable deductible, not to exceed One Hundred Thousand Dollars (\$100,000.00) in the aggregate.

B. Renewal. Current valid insurance policies meeting the requirements herein identified shall be maintained by the County during the Term. Renewal certifications shall be sent by the County to the LLC as soon as practicable after the policy is renewed. There shall also be a ten (10) day notification to the LLC in the event of cancellation of any stipulated insurance coverage.

C. Other Insurance. Without waiving the right to sovereign immunity as provided by Florida Statutes §768.28, County shall maintain, during the entire term hereof, self-insurance coverage or third-party insurance coverage for comprehensive general liability and automobile liability in the amount of Two Hundred Thousand Dollars (\$200,000) per person and Three Hundred Thousand Dollars (\$300,000) per incident or occurrence and Worker's Compensation insurance covering all County employees in accordance with Florida Statutes Chapter 440. In the event the Legislature should change the County's exposure by statute above or below the sums insured against, the County shall maintain insurance to the extent of that

exposure. Upon request by the LLC, the County shall provide a statement or certificate of insurance evidencing its insurance, and/or self-insurance coverage.

16.5 Waiver of Sovereign Immunity. The County acknowledges the waiver of sovereign immunity for liability in tort contained in Florida Statutes §768.28 and acknowledges that such statute permits actions at law against the County to recover damages in tort for money damages up to the amounts set forth in such statute for injury or loss of property, personal injury, or death caused by the negligence or wrongful act or omission of an employee of County while acting within the scope of the employee's office or employment under circumstances in which County, if a private person, would be liable under the general laws of this State.

16.6 Waiver of Subrogation. The County and the LLC each hereby waive any and all rights of recovery against each other and their respective agents and employees for loss or damage to each other arising from any cause insured against under any policy of insurance required to be carried by such waiving party to the extent of all proceeds recovered thereunder.

16.7 Guaranty. The full and unconditional performance of the obligations of the LLC set forth in this Agreement is guaranteed by the Teams, pursuant to the Astros' Guaranty and the Nationals' Guaranty, which are attached to the **Developer Agreement as Exhibits I-1 and I-2** and incorporated herein by reference. Any attempt by a Team to rescind or terminate its Guaranty to this Agreement shall constitute a material breach of this Agreement, excluding an authorized transfer or assignment as set forth in Article 13. Each Guaranty is an unconditional, absolute, irrevocable, general and continuing guaranty.

16.8 Notification to County. In the event of: 1) a life threatening or dangerous incident or injury where the LLC is made aware that medical attention was sought and occurred within a Public Use Improvement of the Facility, and/or; 2) any claim or action that names the County or alleges that the County has responsibility in whole or in part, the LLC shall notify the County's Risk Management Department and provide general information concerning the claim and cooperate with the County in investigating and taking such action as may be appropriate.

ARTICLE 17 **DAMAGE/DESTRUCTION OF FACILITY**

17.1 Casualty Loss.

17.1.1 If all, or any portion of the Facility, other than the LLC Restoration Areas, is damaged or destroyed by fire, flood or other casualty (a "Casualty Loss"), the County, shall fund the repair and restoration of that portion of the Facility to the greater of the condition existing immediately prior to such Casualty Loss or the condition required by Law, provided, however, that County is under no obligation to fund the repair and restoration of any work in regard to the LLC Restoration Areas, and provided that County is under no obligation to fund the repair or restoration of any property damage resulting from deviations from County's standard design and construction policies that are identified in **Exhibit F to the Developer Agreement**.

17.1.2 In advance of a named tropical storm or other local public service announcements of sustained winds in excess of 45 mph, the LLC has the responsibility and

obligation for taking reasonable measures to prepare the Facility as if it was the owner of the Site and Facility. Particularly, the LLC shall be responsible for securing personal property, ensuring that all building openings are closed, installing wind protection devices that were purchased with funding from the Program Budget, and for removing construction materials and any other temporary equipment that may otherwise be stored on the Site. Within 48 hours of a wind event concluding, the LLC has the responsibility and obligation to; i) evaluate the site for damage to the Facility which is the financial responsibility of the County pursuant to Section 17.1.1, and ii) contact the County's Representative to review the evaluation described in i) above, and for instructions for mitigating further damage to the Facility and proceeding with the repair and restoration of the Facility.

17.1.3 If, in the LLC's good-faith judgment, there is substantial interruption with the operation of the LLC's activities at the Facility as a result of a Casualty Loss which requires the LLC to temporarily utilize other facilities, or cancel scheduled events at the Facility, the LLC shall schedule spring training activities and the games of the Teams at other facilities and the LLC's obligations under this Agreement, including payment of the fees set forth in Article 6 herein, shall be temporarily suspended until the County has performed its obligation to fund the repair and restoration of the Facility as required in Section 17.1.1 to permit the intended use hereunder. The County, the LLC, and the Teams agree to use good faith efforts to apply any applicable benefits and proceeds under any applicable insurance policies received for the Facility to restore the Facility to a usable condition in the shortest period of time. In addition, the Teams agree, after thoroughly evaluating all player and visitor safety issues, and determining that it is safe to do so, to resume the use of the Facility for Spring Training in advance of the entire restoration being completed. If the Facility repair and restoration is not or will not be funded by County as required in this Article 17 within three (3) years of the date of the Casualty Loss, then the LLC will have the option to terminate this Agreement. The LLC shall provide written notice of termination pursuant to this Section 17.1.3 to the County, and upon such termination, the County and the LLC shall be relieved of their obligations hereunder, except as expressly provided herein to the contrary in this Agreement.

17.1.4 Upon receipt of County funding pursuant to Section 17.1.1 or 17.1.3, the LLC shall perform the repair and restoration diligently and expeditiously to the greater of the condition existing immediately prior to such Casualty Loss or the condition required by Law.

17.2 LLC Restoration Areas.

17.2.1 The repair and restoration of the LLC Restoration Areas following a Casualty Loss shall be the sole responsibility of the LLC. The LLC shall repair, restore and rebuild the LLC Restoration Areas as is required in order to resume use of the Facility for its intended use. County may consider, but is not required, to temporarily suspend the LLC's fee obligations pursuant to Article 6 of this Agreement in the event of a Casualty Loss to the LLC Restoration Areas.

17.2.2 All property damaged or destroyed as a result of deviations from County's standard design and construction policies identified in **Exhibit F to the Developer Agreement**, shall be considered LLC Restoration Areas for the purposes of determining

financial responsibility for claims including, but not limited to, damage to personal property, damage to the Facility, all property insurance claims and deductible costs and financial responsibility for repairs or restorations to property resulting from said deviations.

17.2.3 All property damaged or destroyed as a result of the LLC adding to, modifying, or using a structure in a manner other than its intended use, or without first seeking any and all approvals and permits for the addition, modification, or use shall be considered LLC Restoration Areas for the purposes of determining financial responsibility for claims including, but not limited to, damage to personal property, damage to the Facility, all property insurance claims and deductible costs and financial responsibility for repairs or restorations to property resulting from said deviations. For clarity, this Section 17.2.3 is not intended as an exemplification of Section 17.2.2.

ARTICLE 18

DISPUTE RESOLUTION

18.1 Dispute Resolution. The LLC and the County agree to make every reasonable effort to resolve any dispute under this Agreement prior to either party's proceeding to file a lawsuit due to a default by the other party. Accordingly, in the event of a dispute related to the performance of either the LLC or the County under this Agreement, the LLC and the County agree not to file a lawsuit until they have engaged in an expedited dispute resolution mediation process, the parameters of which are to be agreed upon by the parties. The process is initiated by delivery of written notice to the other party, setting forth the subject of the dispute, claim or controversy and the relief requested. Within ten (10) days after the receipt of the foregoing notice, the other party shall deliver a written response to the initiating party's notice. The initial mediation sessions shall be within thirty (30) days from the initiating notice. The parties agree to share equally in the costs and expenses of the mediation and to each bear their own attorneys fees and costs. The parties may mutually agree to extend the timeframes set forth in this Section.

ARTICLE 19

CONDITIONS PRECEDENT

19.1 Conditions Precedent. The obligations of the County under this Agreement are expressly subject to each of the following conditions precedent having been satisfied;

A. The full execution and effectiveness of the Operative Agreements, including, specifically, the effectiveness of the Interlocal Agreement without the need for a referendum pursuant to Section 2-31(27)(f) of the City Code of Ordinances. For clarity, in the event a referendum is required and the referendum passes, then the condition precedent set forth in Section 19.1(A) will remain unsatisfied. If a referendum is required and fails, then said condition precedent shall be deemed satisfied as long as said referendum occurs within the timeframe set forth herein or any extension agreed to by the parties; and

- B. The County's receipt of the Funding Certification Letter; and
- C. The approval of this Agreement by Major League Baseball, if required.

19.2 Failure of Conditions Precedent. The parties may agree to an additional amount of time for compliance with Conditions Precedent, or failing an agreed upon extension of time, may terminate the Developer Agreement pursuant to Article 10 therein, and this Agreement shall terminate simultaneously therewith pursuant to Section 10.5 of the Developer Agreement. Article 17 of the Developer Agreement shall apply to determine the reimbursement obligations of the LLC upon termination for failure of conditions precedent.

ARTICLE 20 **TERMINATION**

20.1 Termination by LLC.

20.1.1 The LLC shall have the right to terminate this Agreement, as follows:

A. For any reason prior to the sale of the County Bonds as set forth in Section 10.2 (A) of the Developer Agreement, subject to repayment of One Hundred Percent (100%) of the Actual Costs paid to the LLC pursuant to the Developer Agreement and the Due Diligence and Planning Services Agreement; or

B. Pursuant to the Interest Election, subject to the LLC reimbursing the County fifty percent (50%) of the Actual Costs paid to the LLC pursuant to the Due Diligence Agreement and this Agreement. Notwithstanding the prior sentence, if the election occurs after all conditions precedent to issuance of County Bonds have been fulfilled except that a referendum is required pursuant to Section 2-31(27)(f) of the City Code of Ordinances, and the election occurs during or after a Referendum Period, then the LLC shall reimburse the County 100% of the Actual Costs at the date of termination.

C. If the conditions precedent set forth in Section 19.1 are not satisfied or waived by March 1, 2016, then the provisions of Section 19.2 shall control the right to termination.

20.1.2 In the event of termination pursuant to this Section 20.1, payment by the LLC to the County shall be made to County within thirty (30) days of receipt of substantiated bills from County.

20.1.3 In the event that the LLC desires to terminate this Agreement pursuant to this Section 20.1, the LLC shall deliver to the County a written notice of termination, which shall be effective on the Effective Termination Date.

20.2 Termination by County.

20.2.1 The County shall have the right to terminate this Agreement if the conditions precedent set forth in Section 19.1 are not satisfied or waived by March 1, 2016. The provisions of Section 19.2 shall apply to the County termination pursuant to this Section 20.2.1.

20.2.2 In the event that the County desires to terminate this Agreement pursuant to this Section 20.2, the County shall deliver to the LLC a written notice of termination, which shall be effective on the Effective Termination Date.

ARTICLE 21

21.1 Events of LLC's Default. The following shall be "Events of LLC's Default":

A. B. The failure of the LLC in the performance of any material obligations under this Agreement, except for the payment obligation set forth in Article 6, provided that the County has provided the LLC with written notice of such failure, specifying with detail, the nature of such failure, and such failure is not cured within thirty (30) days following the receipt by the LLC of such written notice from the County, or, provided that such failure cannot be cured within such thirty (30) day period, if the LLC does not commence to cure such failure within such thirty (30) day period and thereafter diligently pursue the cure of such failure to completion; or

C. The failure of the LLC to make any payment obligation set forth in Article 6, provided that the County has provided the LLC with written notice of such failure, specifying with detail, the nature of such failure, and such failure is not cured within forty-five (45) days following the receipt by the LLC of such written notice from the County.

21.2 Events of County's Default. ARTICLE 22
REMEDIES

22.1 County Remedies for Events of LLC's Default.

22.1.1 Upon an Event of LLC's Default, for which a specific remedy is not set forth in this Agreement, County shall have the right to: (1) grant the LLC a reasonable period of time within which to cure such default during which time the LLC shall utilize the LLC's best efforts, including bringing suit, to remedy such default; or (2) seek dispute resolution pursuant to Article 18 herein to resolve said dispute, or (3) subject to the requirements of Section 18.1, bring an action for specific performance.

22.1.2 In the event the LLC fails to make a payment due as set forth in Section 21.1(C), the County shall have the right to: (1) grant the LLC an additional reasonable period of time within which to make the payment, with interest as set forth in Article 6; (2) seek performance pursuant to the Guaranty of each Team as set forth in Section 16.7; or (3) if such payment remains unpaid for ninety (90) days following the date of the notice of failure to pay pursuant to Section 21.1(C), terminate this Agreement by written notice to the LLC and the Teams, effective on the later to occur of (a) the Effective Termination Date, or (b) the 10th day after the last day of the Spring Training Season occurring in the calendar year during which such written notice is delivered to the LLC and the Teams.

22.2 LLC Remedies For Events of County Default. Upon an Event of County Default, for which a specific remedy is not set forth in this Agreement, the LLC shall have the right to: (1) grant the County a reasonable period of time within which to cure such default during which time the County shall utilize the County's best efforts, including bringing suit, to remedy such default; or (2) seek dispute resolution pursuant to Article 18 herein to resolve said dispute, or (3) subject to the requirements of Section 18.1, bring an action for specific performance. In the event the LLC is unable to obtain specific performance of this Agreement for any reason, the LLC shall have such other remedies as available by law or in equity as a result of such default.

22.3 Section 288.11631, Florida Statutes.

22.3.1 Florida Statute, section 288.11631 is intended to provide a process for the retention of spring training baseball franchises within the State that are funded with State incentive funding. The LLC Parties and the County acknowledge that the amount of State incentive funding provided by the State for this Facility is based on the continual use of the Facility by two separate spring training baseball franchises for the entire length of the Term.

22.3.2 If both Teams simultaneously fail to play each and every of their Major League Spring Training Home Games at the Facility, through no fault of the County or the State, and not as otherwise permitted by this Agreement, or pre-approved in writing by the County, then unless the provisions of Section 22.3.7 below apply, both Teams shall be deemed to have Relocated pursuant to section 288.11631(2)(a)2, Florida Statutes, and thus, materially breached this Agreement, and, as such, the Teams, jointly and severally, shall reimburse the State for the

total amount of State distributions expected to be paid from the date of Relocation through the final maturity of the County Bonds, pursuant to section 288.11631, Florida Statutes.

22.3.3 In the event that during the Term of this Agreement, either one of the Teams fails to play each and every of its Major League Spring Training Home Games at the Facility, through no fault of the County or the State, and not as otherwise permitted by this Agreement or pre-approved in writing by the County, then unless the provisions of Section 22.3.7 below apply, such Team shall be deemed to have relocated ("1st Relocating Team"). The 1st Relocating Team agrees that relocation constitutes a material breach of this Agreement and the 1st Relocating Team agrees to reimburse the State 60% of the total amount of State distributions expected to be paid from the date of breach through the final maturity of the County Bonds, pursuant to section 288.11631, Florida Statutes.

22.3.4 Subsequently, if the remaining Team fails to play each and every of its Major League Spring Training Home Games at the Facility, through no fault of the County or the State, and not as otherwise permitted by this Agreement, or pre-approved in writing by the County, then unless the provisions of Section 22.3.7 below apply, such Team shall be deemed to have relocated ("2nd Relocating Team"). The 2nd Relocating Team agrees that relocation constitutes a material breach of this Agreement and the 2nd Relocating Team agrees to reimburse the State 40% of the total amount of State distributions expected to be paid from the date of breach through the final maturity of the County Bonds, pursuant to section 288.11631, Florida Statutes.

22.3.5 A breach of the Statute shall be considered to have occurred when a Team becomes a Relocating Team pursuant to Section 22.3.2, 22.3.3 or 22.3.4.

22.3.6 All obligations to reimburse the State that are described in this Agreement shall be enforceable by the State, and are secured by the Guaranties executed by each of the Teams as required by Section 16.7 herein.

22.3.7 Notwithstanding Sections 22.3.2 through 22.3.4 above, if a Team(s) or a Relocating Team is able to find a new Major League Club(s) to relocate to the Facility and play that replacement club's Major League Spring Training Home Games at the Facility, and such Major League Club is approved by the State as provided in Section 13.2.2, then the Team (s) shall be only responsible for that pro-rated portion of the repayment obligation imposed by Section 22.3.2 through Section 22.3.4, as applicable, for the period from the date such Team is deemed to have relocated, and continuing until the first day of the month that the replacement Major League Club plays its first Major League Spring Training Home Game at the Facility and not the entirety of the obligations set forth in Section 22.3.2 and Section 22.3.4 above; provided, however, that there is a completed assignment or transfer that satisfies all conditions of Section 13.2.2 of this Agreement. If a Team or Teams relocate, as defined in Section 22.3.2 through 22.3.4, then until such time as two separate Major League Clubs are both fully obligated as required by this Agreement, inclusive of the Guaranties hereto, the repayment obligations set forth in this Section shall apply.

22.3.8 The State, by and through DEO and DEO's successors and assigns, is a third party beneficiary of this Agreement and the Guaranties to this Agreement which are incorporated herein by reference. The State and DEO shall have standing in any action at law or in equity: 1) relating to, and/or to seek and/or compel performance of, the obligations imposed by Section 5.1.2 and/or Section 22.3 herein; and 2) relating to, and/or pursuant to, the Guaranty executed by each Team, in the same manner, to the same extent, and according to the same terms and provisions as are applicable to the County pursuant to each Guaranty. DEO shall have the right to enforce any reimbursement obligations owed to the State as the same are set forth herein or in law. This section 22.3.8 is cumulative with, and shall in no way limit, the State or DEO's other rights and remedies under law.

ARTICLE 23 **REPRESENTATIVES**

The County's Representative or liaison during the performance of this Agreement shall be the Director of FD&O, or such other person who may be designated by the County in writing from time to time. 24.1 Generally. The LLC has submitted to County a copy of its non-discrimination policy which is consistent with the above paragraph, as contained in R-2014-1421, as amended, or in the alternative, if the LLC does not have a written non-discrimination policy or one that conforms to the County's policy, it has acknowledged through a signed statement provided to County that the LLC will conform to the County's non-discrimination policy as provided in R-2014-1421, as amended.

ARTICLE 27 **SURRENDER OF FACILITY**

27.1 Return of Facility. At the termination of this Agreement, the LLC shall return the Facility to its original or subsequently improved condition (ordinary wear and tear, insured casualty, loss or damage by fire, elements or other causes, approved changes in design, or

installation of Capital Improvements excepted), and return to the County all equipment and personal property of the County, in each case after inspection of the Facility, which inspection shall be made jointly by the County and the LLC. Promptly after such inspection at the termination of any occupancy, if any repairs to the Facility or the County's equipment or personal property are deemed to be necessary which result from the Facility and all of the County's equipment and personal property not being maintained to a standard that is consistent with the standards of maintenance for similar types of public recreation facilities that include public amenities in Palm Beach County, the LLC shall have the option to: (i) make necessary repairs; or (ii) pay to the County any damages due for damage to the Facility or to personal property (ordinary wear and tear, insured casualty, loss or damage by fire, elements or other causes, approved changes in design, or installation of Capital Improvements excepted), except to the extent said damage was caused by the assigns, agents, employees or officers of the County. In the event that the LLC and the County cannot agree on repairs to be made pursuant to subsection (i) or the amount of damage pursuant to subsection (ii), the LLC and the County agree to expeditiously submit the matter to dispute resolution pursuant to Article 18 of this Agreement.

27.2 Disposition of Non-County Property. The LLC shall have the right, upon termination of this Agreement, and within sixty (60) days thereafter, to remove from the Facility all movable property which is not permanently affixed to the structure and which is not owned by the County, and all concession equipment, all retail, restaurant food service, and catering equipment, fixtures and fit-out, and satellite television equipment, not owned by the County, whether or not such items are deemed movable and whether or not they are permanently affixed to the structure; provided, however, that the LLC will give the County thirty (30) days notice prior to such proposed removal of items, not owned by the County, permanently affixed to the structure; and provided further that the LLC's removal of such items shall not materially adversely affect the structural integrity of the Facility, in the opinion of a neutral third-party State of Florida-licensed engineer who will review such proposed removal at the LLC's and County's joint expense. The LLC agrees to repair any damage caused by such removal to the County's reasonable satisfaction. The LLC shall not remove any property which was placed on, constructed at, or affixed to, the Facility as a replacement or addition of property initially owned by the County.

ARTICLE 28

FORCE MAJEURE

Except as otherwise provided herein, neither party shall be in default under, or breach of, this Agreement to the extent it is unable to perform due to an event of Force Majeure, provided however, that the parties must comply with the requirements of Article 17. For the purpose of this Agreement, "Force Majeure" shall mean and include any act of God, accident, fire, riot or civil commotion, act of public enemy, failure of transportation facilities, enactment, rule, order or act of government or governmental instrumentality (whether domestic or international and whether federal, state or local (except in the case of a rule, order or act by Palm Beach County), or the international equivalent thereof), failure of technical facilities, or any other cause of any nature whatsoever beyond the control of the parties (excluding a strike, lockout, or other labor dispute involving Major League Baseball) which was not avoidable in the exercise of reasonable

care and foresight. The party claiming the occurrence of a Force Majeure event shall promptly notify the other party of such occurrence, and the likely duration and termination thereof. If a Force Majeure causes a Team to fail to play an entire Full Spring Training Season or more at the Facility, this Agreement shall be automatically extended beyond the Term for an additional period of time equal to the amount of time the Team failed to play its Major League Spring Training Home Games at the Facility due to that Force Majeure.

ARTICLE 29 LABOR DISPUTE

In the event of a lockout, strike, or other labor dispute involving Major League Baseball ("Labor Dispute"), the LLC will continue to be obligated to provide Repair and Maintenance, Renewal and Replacement and Capital Improvements to the Facility, but the LLC will be permitted to scale down its operations of the Facility until such time as the Labor Dispute is resolved and the LLC can commence Major League Baseball operations at the Facility. Notwithstanding the foregoing, in the event of a Labor Dispute which prevents the LLC from using the Facility for a Full Spring Training Season, this Agreement shall be automatically extended beyond the initial Term for an additional Full Spring Training Season.

ARTICLE 30 MORE FAVORABLE TERMS

30.1 New Major League Clubs in Palm Beach County. If, at any time during the Term, the County directly or indirectly enters into an agreement with another Major League Club for the operation and use of another stadium, other than renovation and/or redevelopment of the Roger Dean Stadium operated by Jupiter Stadium, Ltd., and any renewal, restatement, extension, amendment or renegotiation of the First Restated Sports Facility Use Agreement with Jupiter Stadium Ltd., (R2011-0694) as further described below, which agreement includes among its terms the right to play more than two (2) Spring Training Season home games in the County during any Spring Training Season, the County shall provide the LLC with a copy of such agreement. If the LLC reasonably believes that the terms of such agreement are more favorable than the corresponding term(s) contained herein, the LLC shall have no longer than 21 days from the time that the LLC is provided such an agreement to so notify the County. In such event the more favorable terms shall be substituted for the corresponding term(s) of this Agreement for the remainder of the Term, retroactive to the date the County entered into the agreement with the other Major League Club. Notwithstanding the foregoing, in the event such more favorable terms would impact the then applicable tax status of the County Bonds, the LLC shall not be entitled to such more favorable terms.

30.2 First Restated Sports Facility Use Agreement with Jupiter Stadium, Ltd. In the event the County renews, restates, extends, amends or renegotiates the First Restated Sports Facility Use Agreement with Jupiter Stadium, Ltd., (R2011-0694) (the "Renewed Use Agreement") during the Term hereof, the County shall provide the LLC with a copy of the Renewed Use Agreement. If the LLC reasonably believes that any of the terms of the Renewed Use Agreement are more favorable than the corresponding term(s) contained herein, the LLC shall have no longer than 21 days from the time the LLC is provided a copy of the Renewed Use

Agreement to notify the County. In such event, the more favorable terms shall be substituted for the corresponding term(s) of this Agreement for the remainder of the Term, retroactive to the date the County enters into the Renewed Use Agreement. Notwithstanding the foregoing, Section 5.1.2, Section 5.5 (Buffer Area), Article 6 (Use Fees), Article 19 (Conditions Precedent), and Article 20 (Termination) shall be excluded from this Article 30. Article 13 (Transfer), Section 16.7 (Guaranty) and Article 22 (Remedies) shall be excluded insofar as any interest, right or remedy of the State or DEO. In the event such more favorable terms would impact the then applicable tax status of the County Bonds or impacts the interests or rights of State herein, the LLC shall not be entitled to such more favorable terms.

30.3 The parties hereto acknowledge that the provisions of this Article 30 shall not apply to any Developer Agreement for the Roger Dean Stadium operated by Jupiter Stadium, Ltd.

30.4 Notwithstanding anything in this Article 30 to the contrary, the Parties hereto may not alter this Agreement in any way that reduces, harms, or otherwise impacts the rights of State herein without express written consent from State.

ARTICLE 31 **INSPECTOR GENERAL**

County has established the Office of the Inspector General in Palm Beach County Code, Section 2-421 - 2-440, as may be amended. The Inspector General's authority includes but is not limited to the power to review past, present and proposed County contracts, transactions, accounts and records, to require the production of records, and to audit, investigate, monitor, and inspect the activities of the LLC, its officers, agents, employees, and lobbyists in order to ensure compliance with contract requirements and detect corruption and fraud. Failure to cooperate with the Inspector General or interfering with or impeding any investigation shall be a violation of Palm Beach County Code, Section 2-421 - 2-440, and punished pursuant to Section 125.69, Florida Statutes, in the same manner as a second degree misdemeanor.

ARTICLE 32 **PUBLIC RECORDS**

32.1 County Access to Records. The LLC shall maintain adequate records to justify all charges, expenses and costs incurred in estimating and performing the obligations of the LLC hereunder for three (3) years, or such longer period of time as required by law, after the termination or completion of this Agreement. The County shall have access in Palm Beach County to such books, records, and documents as required in this Section for the purpose of inspection or audit during normal business hours, at the LLC's place of business, provided that (a) the County notifies the LLC no less than Thirty (30) Days prior to the date of such inspection or audit, and (b) the number of such inspections or audit shall be limited to one (1) per calendar year. The LLC agrees to make available to the County, at the County's request, and at the County's sole cost and expense, all documents and materials pertaining to the obligations of the LLC and the operation of the Facility as required by this Section 32.1, if after three (3) years, then still in the possession of the LLC.

32.2 Public Access to Records. As applicable and legally required, the LLC shall comply with the requirements of §119.0701, Florida Statutes, as amended. Specifically, to the extent required by §119.0701, Florida Statutes the LLC shall:

A. Keep and maintain public records that ordinarily and necessarily are required by the County in order to perform the services as provided under this Agreement.

B. Maintain all public records in a readily accessible, organized format consistent with the requirement of identifying, retrieving and providing prompt and frequent access to records.

C. Provide the public with access to public records on the same terms and conditions that the County is by law required to furnish, and at a cost that does not exceed the cost provided in Florida Statutes, Chapter 119 or as otherwise provided by law.

D. Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements pursuant to Florida Statute are not disclosed, including but not limited to, records that are exempt pursuant to § 255.047, Florida Statutes and §125.0104(9), Florida Statutes, except as may be authorized by law.

E. Redact part of a record if an exemption applies to part of a record, while producing the remainder of the record and providing the statutory exemption citation that exempts the portion of the record.

F. If responding that an entire record is exempt, respond by stating the basis of the exemption and providing the statutory exemption citation.

G. If requested, provide in writing and with particularity the reasons for the conclusion that the record is exempt or confidential.

H. Meet all requirements for retaining public records and transfer, at no cost, to the County all public records in possession of the LLC upon termination of the Agreement and destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. All records stored electronically must be provided to County in a format that is compatible with the information technology systems of County.

32.3 Breach of Agreement. Failure of the LLC to comply with the requirements of Section 32.2 herein shall be a material breach of this Agreement.

33.2 Approval of Major League Baseball. This Agreement shall not be effective until such time as all applicable MLB Approvals have been obtained, which approvals may be withheld in their sole and absolute discretion. In all respects, this Agreement shall be subject to the then current rules and regulations of Major League Baseball. Notwithstanding anything in the foregoing to the contrary, the LLC represents and warrants that the only MLB Approval required for this Agreement to be effective is the receipt of a no-objection letter from the BOC.

No rights, exclusivities or obligations involving the Internet or any interactive or on-line media (as defined by the applicable MLB Entities) are conferred by this Agreement, except as are specifically approved in writing by the applicable MLB Entities. In the event that any act or omission of the LLC, the Astros and/or the Nationals to comply with the MLB Rules and Regulations affects the rights of the County under this Agreement or deprives the County of the benefits of this Agreement, the parties will work in good faith to amend the terms of this Agreement to neutralize the effect. The LLC agrees in any event that if compliance by it with MLB Rules and Regulations results in a failure of the LLC to fulfill its obligations under this Agreement, the County and DEO may enforce remedies for the LLC's failure to fulfill its obligations as provided in this Agreement.

33.4 Territory. The territory within which the County is granted rights is limited to, and nothing herein shall be construed as conferring on the County (or any other party) rights in areas outside of, the Spring Training territory of the Astros or the Spring Training territory of the Nationals, as the case may be, each as established and amended from time to time pursuant to the MLB Rules and Regulations.

34.15.2 The obligation of the County to pay any amounts required under this Agreement shall constitute a revenue obligation of the County payable solely from legally available non-ad valorem revenues of the County and shall not in any way be construed to be a debt of the County in contravention of applicable constitutional, statutory or charter limitations or requirements concerning the creation of indebtedness of the County. Neither the County, the State of Florida, nor any political subdivision or agency thereof shall be obligated to pay any sums due under this Agreement from compelled levy of ad valorem or other taxes, and neither the full faith and credit nor the taxing power of the County, the State of Florida or any political subdivision or agency thereof are pledged for payment of such sums due under this Agreement.

No party shall be considered the author of this Agreement since the parties hereto have participated in extensive negotiations and drafting and redrafting of this document to arrive at a final agreement. Thus, the terms of this Agreement shall not be strictly construed against one party as opposed to the other party based upon who drafted it. In the event that any article, paragraph, sentence, clause, or provision hereof is held by a court of competent jurisdiction to be invalid, such shall not affect the remaining portions of this Agreement and the same shall remain in full force and effect.

ARTICLE 8
PROGRAM COST ESTIMATE and PROGRAM BUDGET

8.1 Creation of a Program Cost Estimate.

8.1.1 The LLC shall create a Program Cost Estimate. Prior to the issuance of the County Bonds, the LLC shall submit the form and structure of the Program Cost Estimate for approval by the County. The County's approval shall be for compliance with the requirements of this Agreement as well as the form and practicality of monitoring and implementation throughout the term of the development of the Facility.

8.1.3 The LLC shall designate which Consultant will be responsible for the management of the Program Cost Estimate and the Program Budget.

8.2 The Consultant identified to create and manage the Program Cost Estimate and the Program Budget shall maintain a separate budget with detailed expenditures relating to the development of City Park and the City Park Improvements.

8.3 Cost Overruns.

The LLC will be responsible for Cost Overruns, except to the extent: (a) the County imposes a program requirement in excess of the Minimum Requirements that results in a Cost Overrun; or (b) the County breaches any of the Operative Agreements or any agreements relating to bond financing for the Program, which breach results in a Cost Overrun. In the event that either of the foregoing causes occurs, the County shall pay a proportionate share of any such Cost Overrun, which proportion shall be equal to the extent to which the Cost Overrun was caused by the County. Any payment by the LLC for Cost Overruns shall be not be deemed a payment for use of any portion of the Facility, but rather an equity contribution.

8.4 Cost Savings

8.4.1 The County and the LLC shall use good faith efforts to achieve Cost Savings through the various stages of the Program and shall allocate the Cost Savings as set forth herein.

8.4.2 The County and the LLC will work together throughout the design of the Facility to ensure; 1) the design and specifications reflect the materials typically installed in professional sports stadium facilities, 2) that quantities of features are generally comparable to other professional stadium facilities, 3) that Public Use Improvements are designed to County standards where comparable standards exist, 4) that any recycled and/or re-used materials are considered, when appropriate, and that 5) specified building equipment and materials are of types and installation details typical to South Florida. The County shall conduct design reviews to ensure consistency with the above listed requirements and to identify opportunities for Pre-Construction Cost Savings as follows:

- A.** The LLC shall invite County to participate in any meetings it believes appropriate to facilitate the identification of Cost Savings. The County shall be allowed to participate in any meetings and/or discussions that the County believes appropriate to facilitate Cost Savings.
- B.** The LLC will provide County with electronic access to design submittals (schematic design, design development, construction documents and corresponding cost estimates) and provide County with copies of the design submittals as requested by County. The LLC shall work with County, including meeting with County and inviting County to design review meetings, in order to facilitate County review of design submittals, including plans, specifications and schedules. The LLC shall provide County with written reports detailing all comments resulting from such interim submittal reviews. The County shall review and provide comments to the LLC upon receipt of the estimates of probable construction cost as prepared by the Contractor. The County may make recommendations to advise the LLC where the estimate of probable construction cost could be reduced in order to achieve Pre-Construction Cost Savings.
- C.** The LLC shall review all comments of County as it relates to the design submittals and probable construction costs to ensure the LLC addresses each comment and incorporate changes approved by the LLC, if any, into the Program Cost Estimate.
- D.** Pre-Construction Cost Savings will be identified and allocated no later than the time of County Bond approval by the County.

8.4.3 Pre-Construction Cost Savings will be shared between the County and the LLC, on a pro rata basis of the total cost of the Program over the term of this Agreement. The County's share will be calculated based upon the combined State and County's contribution to reduce the Budgeted Amount. The LLC's share shall reduce the LLC's total payment obligation to County as set forth in Section 6.5.2 of the Sports Facility Use Agreement, which shall be applied proportionately to reduce all Team Improvement Areas Fee payments, during the term of the Sports Facility Use Agreement.

8.4.4 The LLC shall implement the Sales Tax Recovery Program pursuant to the policies and procedures set forth in **Exhibit E** attached hereto. It shall be the responsibility of the Program Representative to seek the advance approval of the County Representative on whether a commodity is eligible for purchase pursuant to the Sales Tax Recovery Program. The Program Representative will be responsible for processing all Sales Tax Recovery Change Orders and Sales Tax Recovery PO's. The County will respond within ten (10) business days of receipt of properly completed Sales Tax Recovery PO's. To the extent that the County receives any proceeds in accordance with Section 2.1.13 of **Exhibit E** hereto, the County agrees that said proceeds shall be utilized to replace any commodity purchased under the Sales Tax Recovery Program, unless otherwise agreed to by the County and the LLC.

8.4.5 All savings resulting from participation in the Sales Tax Recovery Program will be credited to the Program Contingency in the Program Cost Estimate.

8.4.6 The Parties acknowledge that the costs of any particular line item for Services will vary from the number identified in the Program Cost Estimate. If the contracted cost of the particular Service is less than that identified in the Program Cost Estimate, then the LLC shall credit the difference to the Program Contingency ("Buy-Out Savings"). If the contracted cost of the particular Service is more than identified in the Program Cost Estimate, then the LLC shall first debit the Program Contingency, and once the Program Contingency is exhausted, the difference will be considered a Cost Overrun.

8.4.7 Construction Savings shall be deposited into the R/R Project Reserve and allocated one-third (1/3) to the County R/R Project Reserve and two-thirds (2/3) to the LLC's R/R Project Reserve, to provide initial funding for Renewal/Replacement Projects pursuant to the Sports Facility Use Agreement. To the extent the savings relate to facilities financed with the proceeds of County Bonds the interest on which is excluded from gross income of the holders thereof for federal income tax purposes (the "Tax-Exempt Bonds"), the County will seek an opinion of Bond Counsel to the effect that such application of the proceeds of such Tax-Exempt Bonds shall not, in and of itself cause interest on the Tax-Exempt Bonds to be included in the gross income of the holders thereof for federal income tax purposes.

8.5 Change Orders

8.5.1 The LLC shall provide County with a monthly report listing of all FBs, CCPs, Contingency Use, CCDs, and Change Orders with sufficient details to enable County's review of each of the above, for consistency with the terms of this Agreement.

8.5.3 The LLC is required to obtain County approval on any Change Order that: 1) significantly changes the general scope, extent or character of the Program or its design including, but not limited to, changes in size or character of construction; 2) modifies specified equipment and/or substitutes materials in Public Use Improvements; and/or 3) changes the Art component, which Change Orders may be granted or denied in County's discretion. County may review other Program changes as deemed appropriate in County's discretion.

ARTICLE 9 COMPENSATION FOR SERVICES

9.1 The County shall timely pay any and all Actual Costs required to be paid by it to the LLC pursuant to the terms of this Agreement, which payments shall be made in accordance with the provisions of this Agreement.

9.2 The County shall only be required to pay for Actual Costs not exceeding the Budgeted Amount, retroactive from February 3, 2015. Except as otherwise provided in Section 8.3 for Cost Overruns attributable to County, under no circumstance shall the County pay for any other costs of the Program.

9.3 Requisition Process

9.3.1 On or before the fifth (5th) Day of each month, the LLC shall be entitled to submit to the County a payment certification and requisition for Actual Costs incurred, which shall include a copy of the Consultants or Contractor application for payment, certified by the LLC and the applicable Consultant or Contractor in accordance with the requirements of **Exhibit G** attached hereto. The LLC agrees to deliver to the County such back-up materials as the County may reasonably require, and which the LLC has reasonable access to obtain. Unless the County disputes all or a portion of any charge set forth in said payment certification and requisition, the County shall make payments to the LLC in the amounts due to: (a) the Consultant, pursuant to each Consultant Contract; and (b) the Contractor, pursuant to each Construction Contract; within 30 days from the date of receipt of a complete payment certification and requisition from the LLC. The Contractor's application for payment must also be accompanied by the Affidavit set forth in Section 9.3.2 below. To the extent that the County disputes all or part of the payment requested by the payment certification and requisition, the County shall make partial payment of the non-disputed amount and provide notice of the disputed amount and reason for the dispute to the LLC within ten (10) days of receipt of the payment certification and requisition. Said notice shall be considered the initial notice of the dispute resolution procedure set forth in Section 14.1 hereof, and the parties agree to follow the dispute resolution procedure to resolve any such payment disputes.

9.3.2 With each payment certification and requisition submitted to the County, the LLC shall deliver to the County from each Contractor(s) or Consultant(s) for which payment is requested, as the case may be, fully executed Affidavit of Disbursement of Previous Payments in the amount of the immediately prior payment for the applicable Contractor or Consultant, as the case may be, excepting any claims that remain in dispute. The County shall not release payment for any portion of the Services performed by the Consultant(s) or the Contractor(s), as the case may be, unless the payment certification and requisition submitted to the County is accompanied by the Affidavit of Disbursement of Previous Payments for the Consultant(s) or the Contractor. However, the County may, but shall not be required to, make payments on account of the respective Construction Contract or Consultant's Contract without such affidavit, if the Contractor or Consultant presents to the LLC, and the LLC presents to the County, a consent of surety to such payment, from the Contractor's or Consultant's surety, in form acceptable to the County.

9.4 The receipt of such payment by the LLC is hereby deemed to be a condition precedent to the LLC's obligation to transmit payments to the Consultant(s) or the Contractor(s). In the event that the County fails to make payment to the LLC in the entire amount of any payment certification and requisition submitted by the LLC, the LLC shall only be obligated to transmit payment to the Consultant(s) or the Contractor(s) in the amount actually received from the County. Notwithstanding the above, the receipt of payment from County is not a condition

precedent to the extent the payment request represents payment to a Consultant(s) or Contractor(s) attributable to a Cost Overrun payable by the LLC pursuant to Section 8.3 herein.

9.5 Upon receipt of payment from the County with respect to any payment certification and requisition, the LLC shall transmit payment to the Consultant or the Contractor, in the exact amount received from the County within five (5) Business Days from the date of the LLC's receipt of such payment from the County.

Notwithstanding the prior sentence, and for the avoidance of confusion, nothing herein shall be interpreted as precluding the County from exercising any rights it may have under the Guaranties set forth in **Exhibits I-1 and I-2** hereto.

13.1.1 In the event that the LLC requires the Contractor to perform any obligation under the Construction Contract, and the Contractor fails to do so, or performs in a deficient or nonconforming manner, the LLC shall issue notice to the Contractor, requiring the Contractor to perform, correct or replace the Work, or the applicable portion thereof, in accordance with the

13.4 Notwithstanding anything contained herein, the County may, at its sole option, pursue recovery against a Consultant and/or Contractor as set forth in Section 13.1.1 or 13.1.2 for County damages, in collaboration with, or in place of, the LLC. Notwithstanding the above, it is acknowledged by the County, however, that except for those provisions intended to survive the termination of this Agreement as set forth in Section 10.4 hereof, such liability to the County shall cease at the same time as the Contractor's liability to the LLC ceases pursuant to the Construction Contract.

13.5 All parties hereto recognize that the LLC is a limited liability company whose sole managers as of the Effective Date are Arthur Fuccillo and Giles Kibbe. All parties hereto agree that no present or future manager or member of this LLC shall have any liability or obligation

All parties further agree that no present or future manager or member shall directly or indirectly have any liability or obligation under any related agreement or agreement entered into in connection herewith, nor under any related understanding or undertaking, except if and to the extent such manager or member shall have executed an agreement expressly agreeing to such liability. No party to this Agreement shall name or serve any manager or member in any proceeding, suit or claim in violation of this paragraph. The County shall make direct purchases of all materials and equipment purchased for, or to be incorporated into the Facility, as requested by the LLC and confirmed by the County Representative to be eligible for the Program. All direct purchases of materials and equipment shall be made by the County with funding from the Budgeted Amount specifically allocated for the construction of the Facility, which is a capital improvement project, the construction of which is subject to the County's competitive procurement requirements. In order to avail itself to this exemption, the County requires the LLC to contractually obligate the Contractor(s) to implement the following procedures:

2.1 County Furnished Materials

2.1.1 The Construction Manager shall include Florida State Sales and other applicable taxes in its bid for material, supplies, and equipment.

The LLC reserves the right to require the Construction Manager to assign some or all of its subcontracts or other agreements with material suppliers directly to County. Any materials purchased by County pursuant to such an assignment of a material supply subcontract or agreement of a material supply subcontract or agreement shall be referred to as "County Furnished Materials" and the responsibilities of both County and Construction Manager relating to such County Furnished Materials shall be governed by the terms and conditions of these Special Conditions, which shall take precedence over other conditions and terms of the Contract Documents where inconsistencies or conflicts exist. In addition, the County's standard terms and conditions associated with purchase ordered materials will be applicable to all County Furnished Materials.

2.1.2 Material suppliers shall be selected by the Construction Manager awarded the contract by the competitive bid process. Supply contracts shall be awarded by the Construction Manager to the supplier whose bid/proposal is most advantageous to the LLC, price and other factors considered.

The Construction Manager shall include the price for all construction materials in its bid. County purchasing of construction materials, if selected, will be administered on a deductive Change Order basis.

2.1.3 To enable the LLC to realize savings of Sales Tax on selected tangible personal property needed for this Program, the Construction Manager will provide to the LLC a list of all intended suppliers, vendors, and materialmen for consideration as County Furnished Materials. The Construction Manager shall submit price quotes from the vendors, as well as a description of the materials to be supplied, quantities and prices. The Construction Manager will evaluate the list to recommend direct purchases where those direct purchases will result in Sales Tax Savings to the

LLC. The LLC will either accept or reject the Construction Manager's recommendations and purchases will be made according to County procedures.

2.1.4 Construction Manager shall identify materials with a minimum agreed upon goal which the County will furnish through the County Furnished Materials clause, and might furnish materials worth far more than that amount. Therefore, the provision by the Construction Manager for support, clerical, and administrative services detailed in that clause is part of this contract.

In a timely manner, Construction Manager shall prepare County Purchase Order Forms specifically identify the materials which County may, in its discretion, elect to purchase directly.

Construction Manager shall include copies of vendors' quotations.

2.1.5 The following procedure, which is a waiver of the Palm Beach County Procurement Code, shall be used for the implementation of this program.

Construction Manager shall prepare County Purchase Orders (hereinafter "Purchase Orders") for items of material which the County chooses to purchase directly. Once the Purchase Order has been prepared and executed, it shall be issued directly to the vendor by the County. Pursuant to the Purchase Order, the vendor will provide the required quantities of material at the price established in the vendor's quote to the Construction Manager, less any sales tax associated with such price. Promptly upon issuance of each Purchase Order by the County, Construction Manager shall verify the purchase of the items in accordance with the terms of the Purchase Order and in a manner to assure timely delivery of items. Palm Beach County's Director of Purchasing or his designated representative shall be the approving authority for the County on Purchase Orders in conjunction with County Furnished Materials. The Purchase Order shall require that the supplier provide the required shipping and handling insurance. The Purchase Order shall also require the delivery of the County Furnished Materials on the delivery dates provided by the Construction Manager. The Vendor shall issue its invoice, for all materials supplied pursuant to a County Purchase Order, directly to Palm Beach County.

2.1.6 In conjunction with or prior to the execution of the Purchase Orders by the suppliers, the Construction Manager shall execute and deliver to the Program Representative LLC who will forward to the County one or more deductive Change Orders, in accordance with General Conditions referencing the full value of all County-Furnished Materials to be provided by each supplier from whom the County elected to purchase material directly, plus all sales taxes associated with such materials in Construction Manager's bid to County, plus savings to Construction Manager in the cost of Payment and Performance Bonds associated with such County Furnished Materials.

2.1.7 All shop drawings and submittals shall be made in accordance with the General Conditions.

2.1.8 Construction Manager shall be fully responsible for all matters relating to the receipt of materials furnished by County in accordance with these Special Conditions including, but not

limited to, verifying correct quantities, verifying documents of orders in a timely manner, coordinating purchases providing and obtaining all warranties and guarantees required by the Contract Documents, inspection and acceptance of the goods at the time of delivery, and loss or damage to equipment and materials following acceptance of items by the County due to the negligence of the Construction Manager. The Construction Manager shall coordinate delivery schedules, sequence of delivery, loading orientation, and other arrangements normally required by the Construction Manager for the particular materials furnished. The Construction Manager shall provide all services required for the unloading, handling and storage of materials through installation. The Construction Manager agrees to indemnify and hold harmless the County from any and all claims of whatever nature resulting from non-payment of goods to suppliers arising from the actions of the Construction Manager.

2.1.9 As County Furnished Materials are delivered to the jobsite, the Construction Manager shall visually inspect all shipments from the suppliers, and approve the vendor's invoice for material delivered. The Construction Manager shall assure that each delivery of County Furnished Materials is accompanied by documentation adequate to identify the Purchase Order against which the purchase is made. This documentation may consist of a delivery ticket and an invoice from the supplier conforming to the Purchase Order together with such additional information as the County or LLC may require. The Construction Manager will then forward the documentation to the County through the LLC.

2.1.10 The Construction Manager shall insure that County Furnished Materials conform to the specifications, and determine prior to incorporation into the Work if such materials are patently defective, and whether such materials are identical to the materials ordered and match the description on the bill of lading. If the Construction Manager discovers defective or non-conformities in County Furnished Materials upon such visual inspection, the Construction Manager shall not utilize such nonconforming or defective materials in the Work and instead shall promptly notify the County of the defective or nonconforming condition so that repair or replacement of those materials can occur without any undue delay or interruption to the Program. If the Construction Manager fails to perform such inspection and otherwise incorporates into the Work such defective or nonconforming County Furnished Materials, the condition of which it either knew or should have known by performance of an inspection, Construction Manager shall be responsible for all damages to County resulting from Construction Manager's incorporation of such materials into the Program, including liquidated or delay damages.

2.1.11 The Construction Manager shall maintain records of all County Furnished Materials incorporated into the Work from the stock of County Furnished Materials in its possession. The Construction Manager shall account monthly to the County through the LLC for any County Furnished Materials delivered into the Construction Manager's possession, indicating portions of all such materials which have been incorporated into the Work.

2.1.12 The Construction Manager shall be responsible for obtaining and managing all warranties and guarantees for all materials and products as required by the Contract Documents. All repair, maintenance or damage-repair calls shall be forwarded to the Construction Manager for resolution with the appropriate supplier, vendor, or Subcontractor.

2.1.13 Notwithstanding the transfer of County Furnished Materials by the County to the Construction Manager's possession, the County shall retain legal and equitable title to any and all County Furnished Materials although the Construction Manager shall maintain both Builders Risk and Inland Marine/Transit insurance on said Materials and the Loss Payee endorsement on said policies shall read "Palm Beach County Board of County Commissioners".

2.1.14 The transfer of possession of County Furnished Materials from the County to the Construction Manager shall constitute a bailment for the mutual benefit of the County and the Construction Manager. The County shall be considered the bailor and the Construction Manager the bailee of the County Furnished Materials. County Furnished Materials shall be considered returned to the County for purposes of their bailment at such time as they are incorporated into the Program or consumed in the process of completing the Program.

2.1.15 The County shall in no way be liable for any interruption or delay in the Program, for any defects or other problems with the Program, or for any extra costs or time resulting from any delay in the delivery of, or defects in, County Furnished Materials.

2.1.16 On a monthly basis, Construction Manager shall be required to review invoices submitted by all suppliers of County Furnished Materials delivered to the Program sites during that month and either concur or object to the County's issuance of payment to the suppliers, based upon Construction Manager's records of materials delivered to the Site and any defects in such materials.

2.1.17 In order to arrange for the prompt payment to the suppliers, the Construction Manager shall provide to the County a list indicating the acceptance of the goods or materials within 15 days of receipt of said goods or materials. The list shall include a copy of the applicable Purchase Order, invoices, delivery tickets, written acceptance of the delivered items, and such other documentation as may be reasonable required by the County. Upon receipt of the appropriate documentation, the County shall prepare a check drawn to the supplier based upon the receipt of data provided. This check will be released, delivered and remitted directly to the supplier. The Construction Manager agrees to assist the County to immediately obtain partial or final release of waivers as appropriate. The County shall not make any payment without the appropriate Contractor's concurrence and approval, which shall be delivered to the County by the Program Representative.

2.1.18 The County shall be entitled to the benefits of any discounts attributable to the early payment of vendor invoices for materials furnished by the County pursuant to these Specifications.

2.1.19 The material supplier may be required to provide a Supply Bond in the amount of 100% of the purchase order price. The bond shall be from a qualified surety company authorized to do business in the State of Florida and acceptable to the County. If the supply bond is required the cost of the bond will be added to the amount of the purchase order. The premium cost for the surety bond should not be included in the bid price. Verifying that a designated material supplier can furnish a supply bond will be the responsibility of the Construction Manager.

PAYMENT AND PERFORMANCE AND CONSTRUCTION GENERAL GUARANTY

This RESTATED PAYMENT, PERFORMANCE AND CONSTRUCTION GENERAL GUARANTY (this "Guaranty") is made as of the 20th day of October, 2015, by the Houston Astros, LLC, a Texas Limited Liability Company (the "Guarantor"), in favor of PALM BEACH COUNTY, a political subdivision of the State of Florida (the "County"), and its successors and assigns, and the State of Florida (the "State"), by and through the Florida Department of Economic Opportunity ("DEO"), and its successors and assigns.

RECITALS:

County is contemporaneously herewith entering into the First Restated Developer Agreement (the "Developer Agreement") and the First Restated Sports Facility Use Agreement (the "Sports Facility Use Agreement"), to provide for the construction, development and operation of the baseball spring training facility (the "Facility"), each dated as of the date hereof, and each entered into by and between County and HW Spring Training Complex, LLC, a Florida Limited Liability Company (the "LLC"), and the Sports Facility Use Agreement also being entered into by the Houston Astros, LLC, a Texas Limited Liability Company (the "Astros" or "Team") and the Washington Nationals Baseball Club, LLC, a Washington, DC Limited Liability Company (the "Nationals" or "Team") as to Sections 5.1.2, Article 13, Section 16.7 and Section 22.3 thereof, and on March 10, 2015 County entered into a Due Diligence and Planning Services Agreement R-2015-0358 with the LLC, (collectively, the Sports Facility Use Agreement, the Developer Agreement and the Due Diligence and Planning Services Agreement are referred to as the "County Documents").

In order to induce County to enter into the County Documents and in consideration of the foregoing premises and for other good and valuable consideration, the receipt and legal sufficiency of which is hereby acknowledged, and further, in order to induce DEO to certify the County pursuant to section 288.11631, Florida Statutes, Guarantor hereby agrees for the benefit of County and its successors and assigns and the State, and its successors and assigns, as follows:

1. Incorporation of Recitals. The recitals set forth above are true and correct and are incorporated herein as if set forth in full.
2. Defined Terms. Capitalized terms used herein shall have the meaning set forth herein. Unless the context otherwise requires and except as otherwise provided herein, capitalized terms used herein that are not defined herein shall have the meaning assigned to such terms in the County Documents.
3. Effective Date. The Effective Date of this Guaranty shall be March 10, 2015.

4. Due Diligence Guaranty. The Guarantor entered into a Due Diligence and Planning Services Guaranty on March 10, 2015 contemporaneously with the Due Diligence and Planning Services Agreement R-2015-0358. This Guaranty replaces and terminates the Due Diligence and Planning Services Guaranty provided by Guarantor, and as a result, the Effective Date of this Guaranty has been made retroactive to the date of the Due Diligence and Planning Services Guaranty.

5. Payment, Performance, Construction and Operation Guaranty. Guarantor hereby unconditionally, absolutely, generally, continually, and irrevocably guarantees to County, and DEO as to the rights and interests of DEO pursuant to the County Documents, all obligations imposed by the County Documents, including, without limitation, the planning, design and permitting of the Project and the completion of construction of the Facility and operation of the Facility pursuant to the County Documents and the payment and performance of all liabilities, obligations and duties imposed on the LLC under each of the County Documents (collectively "the Obligations") as if Guarantor had executed each such County Document in place of the LLC. As this Guaranty replaces and terminates the Due Diligence Guaranty described in Section 4, this Guaranty shall have a commencement date of March 10, 2015 and shall apply to any Obligations from that date forward. This Guaranty shall not terminate until the payment of all sums and performance of all Obligations, except that, to the extent this Guaranty guarantees performance of Obligations which survive the termination of the County Documents, then this Guaranty shall continue to remain in full force and effect.

6. Security. Guarantor has provided a statement from an independent Certified Public Accounting Firm or other independent third-Person (entity) experienced in appraising sports organizations and properties (an "Appraisal Firm"), certifying or opining that the Guarantor has a current net worth or fair value of equity in excess of One Hundred Million and No/100 Dollars (\$100,000,000). At least once every five years thereafter until expiration of this Guaranty, Guarantor shall provide an updated letter to the County from one of the above possible sources, re-certifying or opining that the Guarantor has a then current net worth or fair value of equity in excess of One Hundred Million and No/100 Dollars (\$100,000,000). Additionally, in any year that a statement as described above, is not due to County, the Guarantor shall provide a statement from an Appraisal Firm or Certified Public Accounting Firm in the form of a letter on letterhead, stating that there have been no material adverse changes in the financial position of the Guarantor that would affect the previously certified minimum net worth or fair value of equity statement set forth above during the last year. Notwithstanding the foregoing, Guarantor shall not be in default or breach of this Section so long as (a) one of the Teams (as defined in the County Documents) has a net worth or fair value of equity of at least One Hundred Million and No/100 Dollars (\$100,000,000); or (b) the Teams together have a net worth or fair value of equity of at least One Hundred Million and No/100 Dollars (\$100,000,000). If the aggregate net worth or fair value of equity of both Teams together is equal to an amount less than One Hundred Million and No/100 Dollars (\$100,000,000), then the Teams will be required, for as long a period as such condition shall exist, to provide one or more irrevocable letters of credit in the amount equal to the difference between the combined aggregate stated net worth or fair value of equity of the Teams and One Hundred Million Dollars (\$100,000,000.00) in the form required by and consistent with Palm Beach County Policy and Procedure Memorandum No. CW-F-055 ("Letter of Credit").

7. Letter of Credit or Payment Bond. Guarantor may, at any time, present a Letter of Credit or Payment Bond in the amounts and according to the requirements set forth above in paragraph 6, instead of providing the CPA Firm or other Person (entity) certification described in paragraph 6, and thereafter Guarantor shall be obligated to maintain either a Letter of Credit or Payment Bond as security for the Guaranty in the amounts as set forth above and consistent with Palm Beach County Policies and Procedures.
8. Proprietary Business Information. To the extent permitted by law, this Guaranty does not provide County with access to any proprietary business or financial information of the Teams.
9. Governing Law. This Guaranty shall be governed by and construed in accordance with the laws of the State of Florida.
10. Severability. If any provision of this Guaranty should be held to be invalid or unenforceable, the validity and enforceability of the remaining provisions of this Guaranty shall not be affected thereby.
11. Successors and Assigns. This Guaranty shall inure to the benefit of County and County's successors and assigns and DEO, and DEO's successors and assigns, under any of the County Documents in accordance with the terms thereof, and shall be binding upon Guarantor and its successors and assigns.
12. Waiver of Jury Trial. GUARANTOR HEREBY WAIVES TRIAL BY JURY IN ANY ACTION, PROCEEDING, OR COUNTERCLAIM BROUGHT BY COUNTY AGAINST GUARANTOR ON ANY MATTERS ARISING OUT OF OR IN ANY WAY CONNECTED WITH THIS GUARANTY.
13. Acceptance of Performance. County agrees to accept performance by Guarantor of all or any of the Obligations to be performed by the LLC under the County Documents with the same force and effect as though performed by the LLC thereunder.
14. Unconditional, Absolute, Irrevocable General and Continuing Guaranty. The obligations of Guarantor under this Guaranty shall be unconditional, absolute, irrevocable, general, and continuing, irrespective of the genuineness, validity, regularity or enforceability of the County Documents or any security which may have been given therefor or in connection therewith or any other circumstances which might otherwise constitute a legal or equitable discharge of a surety or guarantor. This Guaranty and the obligations of Guarantor hereunder shall not be affected, impaired, modified or released by reason of; (a) the making by the LLC of any assignment for the benefit of creditors or the bankruptcy or insolvency of the LLC, (b) any action taken by the LLC in any bankruptcy or insolvency proceeding, including, without limitation, disaffirmance or rejection of the County Documents, (c) any default by the LLC or a Team under the County Documents, (d) the liquidation or dissolution of the LLC, (e) any change in or termination of Guarantor's relationship to the LLC, (f) the enforcement by County or DEO of any of its rights under the County Documents, (g) the sale, conveyance, transfer or assignment

by the LLC, of all or any portion of its interest under the County Documents, including, but not limited to, any assignment to an Affiliate of the LLC as authorized by the County Documents, or (h) the transfer by an owner of an interest in the LLC, including its successors and assigns, of all or any part of its ownership interest in the LLC, at any time, to an Affiliate; it being agreed that in the event of any of the foregoing, the liability of Guarantor hereunder shall continue hereunder as if such event had not occurred. County and the LLC, without notice to or consent by Guarantor, may at any time or from time to time enter into such extensions, expansions, amendments, assignments, subleases, or other covenants with respect to the County Documents as they may deem appropriate or desirable, including, without limitation, an expansion of the performance obligations and Guarantor shall not be released thereby, but shall continue to be fully liable for the payment and performance of all obligations as so extended, expanded, amended, assigned, sublet, or otherwise modified.

15. Primary Liability; Performance Guaranty. The liability of Guarantor under this Guaranty shall be primary, direct and immediate, and not conditional or contingent upon pursuit by County or DEO of any remedies it may have against the LLC or any other Person with respect to the County Documents or any other agreement, whether pursuant to the terms thereof or by law or pursuant to any other security agreement or guaranty, except for pursuit by County of its remedies against the issuer of the Letter of Credit or Payment Bond securing this Guaranty. Guarantor and County each acknowledge and agree that this Guaranty is a guaranty of performance in respect to the Obligations. Any one or more successive or concurrent actions may be brought hereon against Guarantor with respect to the Obligations, either in the same action or proceeding, if any, brought against the LLC or any other person or entity, or in separate actions as often as County, or DEO, may deem advisable. Guarantor may be joined in any action against the LLC in connection with the County Documents. Recovery may be had by County or DEO against Guarantor in any action against Guarantor without County or DEO first pursuing or exhausting any remedy or claim against the LLC or any other person or entity, as the case may be, or their respective successors or assigns (except for pursuit by County of its remedies against the issuer of the Letter of Credit or Payment Bond securing this Guaranty) and Guarantor hereby waives any right it may have to require that County seek recovery against any other Person before seeking recovery against Guarantor (except for pursuit by County of its remedies against the issuer of the Letter of Credit or Payment Bond securing this Guaranty). Until termination of this Guaranty in accordance with the provisions hereof, the liability of Guarantor under this Guaranty shall continue after (i) any assignment or transfer by the LLC, or any successor thereof, of any of its interests under the County Documents or (ii) any assignment or transfer by County, or any successor thereof, of any of its interests under the County Documents.

16. Waiver of Presentment, Protest and Notices. Guarantor hereby expressly waives: (a) presentment and demand for payment and protest of nonpayment; (b) notice of acceptance of this Guaranty and of presentment, demand and protest; (c) notice of all indulgences under the County Documents; (d) demand for observance or performance of, or enforcement of, any terms and provisions of this Guaranty or the County Documents; (e) notices of default by or to the LLC under the County Documents; and (f) all other notices and demands otherwise required by law which Guarantor may lawfully waive.

17. No Subrogation. Guarantor shall not enforce any right of subrogation it may now or hereafter have against the LLC by reason of any payments or acts of performance by Guarantor

in compliance with the obligations of Guarantor hereunder, and Guarantor shall not enforce any remedy which Guarantor now or hereafter shall have against the LLC by reason of any one or more payments or acts of performance in compliance with the obligations of Guarantor hereunder unless and until all of the Obligations of Guarantor have been fully discharged, performed and satisfied, whereupon Guarantor shall have such subrogation rights as may be allowed under applicable law.

18. No Setoff. No setoff, counterclaim or cross-claim, reduction or diminution of any obligation or any defense of any kind or nature (other than performance of the Obligations) shall be available to Guarantor in any action or proceeding brought by County or DEO to enforce the Obligations provided, however, that the foregoing shall not be deemed a waiver of the right of Guarantor to assert any compulsory counterclaim arising, from a claim brought by County or DEO hereunder, nor shall the foregoing be deemed a waiver of or prejudice in any manner whatsoever, Guarantor's right to assert any claim which constitutes a defense, setoff, counterclaim or cross-claim of any nature whatsoever against County in any separate action or proceeding. Guarantor agrees that if at any time all or any part of any amounts at any time received by County or DEO from Guarantor or the LLC, or any other Person, as the case may be, for or with respect to the Obligations is or must be rescinded or returned by County or DEO by reason of any judgment or decree of any court having jurisdiction (including, without limitation, by reason of the insolvency, bankruptcy or reorganization of Guarantor or the LLC, or any other Person), then Guarantor's obligations hereunder shall, to the extent of the amount rescinded or restored, be deemed to have continued in existence notwithstanding such previous receipt by County or DEO and the obligation guaranteed hereunder which was to have been discharged by such rescinded or restored amount shall continue to be effective or reinstated, as the case may be, to the extent of such amount, whether or not this Guaranty has terminated, and the obligations of the Guarantor shall survive the termination hereof.

19. Joint and Several and Cumulative Rights and Remedies. The rights and remedies afforded to County and DEO in this Guaranty are cumulative and are not exclusive of any other right or remedy against Guarantor or any other Person provided by law, in equity or under any other agreement or instrument and all such rights and remedies may be exercised singly or concurrently. No delay or omission by County or DEO in exercising any such right or remedy shall operate as a waiver thereof. No waiver of any right or remedy hereunder shall be deemed made by County or DEO unless in writing and shall apply only to the particular instance specified therein and shall not impair the further exercise of such right or remedy or of any other right or remedy of County, and no single or partial exercise of any right or remedy hereunder shall preclude any other or further exercise thereof or of any other right or remedy. It is understood by the parties that other agreements similar to this Guaranty may, in County's or DEO's discretion, be executed and delivered by other Persons with respect to the County Documents. This Guaranty shall be joint and several and cumulative of any such agreements, and the liabilities and obligations of Guarantor hereunder shall in no event be affected or diminished by reason of such other agreements.

20. Entire Agreement. This Guaranty shall constitute the entire agreement of Guarantor with County with respect to Guarantor's guaranty of the Obligations.

RECITALS:

County is contemporaneously herewith entering into the First Restated Developer Agreement (the "Developer Agreement") and the First Restated Sports Facility Use Agreement (the "Sports Facility Use Agreement"), to provide for the construction, development and operation of the baseball spring training facility (the "Facility"), each dated as of the date hereof, and each entered into by and between County and HW Spring Training Complex, LLC, a Florida Limited Liability Company (the "LLC"), and the Sports Facility Use Agreement also being entered into by the Houston Astros, LLC, a Texas Limited Liability Company (the "Astros" or "Team") and the Washington Nationals Baseball Club, LLC, a Washington, DC Limited Liability Company (the "Nationals" or "Team") as to Sections 5.1.2, Article 13, Section 16.7 and Section 22.3 thereof, and on March 10, 2015 County entered into a Due Diligence and Planning Services Agreement R-2015-0358 with the LLC, (collectively, the Sports Facility Use Agreement, the Developer Agreement and the Due Diligence and Planning Services Agreement are referred to as the "County Documents").

In order to induce County to enter into the County Documents and in consideration of the foregoing premises and for other good and valuable consideration, the receipt and legal sufficiency of which is hereby acknowledged, and further, in order to induce DEO to certify the County pursuant to section 288.11631, Florida Statutes, Guarantor hereby agrees for the benefit of County and its successors and assigns and the State, and its successors and assigns, as follows:

1. Incorporation of Recitals. The recitals set forth above are true and correct and are incorporated herein as if set forth in full.
2. Defined Terms. Capitalized terms used herein shall have the meaning set forth herein. Unless the context otherwise requires and except as otherwise provided herein, capitalized terms used herein that are not defined herein shall have the meaning assigned to such terms in the County Documents.
3. Effective Date. The Effective Date of this Guaranty shall be March 10, 2015.

4. Due Diligence Guaranty. The Guarantor entered into a Due Diligence and Planning Services Guaranty on March 10, 2015 contemporaneously with the Due Diligence and Planning Services Agreement R-2015-0358. This Guaranty replaces and terminates the Due Diligence and Planning Services Guaranty provided by Guarantor, and as a result, the Effective Date of this Guaranty has been made retroactive to the date of the Due Diligence and Planning Services Guaranty.

5. Payment, Performance, Construction and Operation Guaranty. Guarantor hereby unconditionally, absolutely, generally, continually, and irrevocably guarantees to County, and to DEO as to the rights and interests of DEO pursuant to the County Documents, all obligations imposed by the County Documents, including, without limitation, the planning, design and permitting of the Project and the completion of construction of the Facility and operation of the Facility pursuant to the County Documents and the payment and performance of all liabilities, obligations and duties imposed on the LLC under each of the County Documents (collectively "the Obligations") as if Guarantor had executed each such County Document in place of the LLC. As this Guaranty replaces and terminates the Due Diligence Guaranty described in Section 4, this Guaranty shall have a commencement date of March 10, 2015 and shall apply to any Obligations from that date forward. This Guaranty shall not terminate until the payment of all sums and performance of all Obligations, except that, to the extent this Guaranty guarantees performance of Obligations which survive the termination of the County Documents, then this Guaranty shall continue to remain in full force and effect.

6. Security. Guarantor has provided a statement from an independent Certified Public Accounting Firm or other independent third-Person (entity) experienced in appraising sports organizations and properties (an "Appraisal Firm"), certifying or opining that the Guarantor has a current net worth or fair value of equity in excess of One Hundred Million and No/100 Dollars (\$100,000,000). At least once every five years thereafter until expiration of this Guaranty, Guarantor shall provide an updated letter to the County from one of the above possible sources, re-certifying or opining that the Guarantor has a then current net worth or fair value of equity in excess of One Hundred Million and No/100 Dollars (\$100,000,000). Additionally, in any year that a statement as described above, is not due to County, the Guarantor shall provide a statement from an Appraisal Firm or Certified Public Accounting Firm in the form of a letter on letterhead, stating that there have been no material adverse changes in the financial position of the Guarantor that would affect the previously certified minimum net worth or fair value of equity statement set forth above during the last year. If the aggregate net worth or fair value of equity of both Teams together is equal to an amount less than One Hundred Million and No/100 Dollars (\$100,000,000), then the Teams will be required, for as long a period as such condition shall exist, to provide one or more irrevocable letters of credit in the amount equal to the difference between the combined aggregate stated net worth or fair value of equity of the Teams and One Hundred Million Dollars (\$100,000,000.00) in the form required by and consistent with Palm Beach County Policy and Procedure Memorandum No. CW-F-055 ("Letter of Credit").

7. Letter of Credit or Payment Bond. 8. Proprietary Business Information. To the extent permitted by law, this Guaranty does not provide County with access to any proprietary business or financial information of the Teams.

The obligations of Guarantor under this Guaranty shall be unconditional, absolute, irrevocable, general and continuing, irrespective of the genuineness, validity, regularity or enforceability of the County Documents or any security which may have been given therefor or in connection therewith or any other circumstances which might otherwise constitute a legal or equitable discharge of a surety or guarantor. This Guaranty and the obligations of Guarantor hereunder shall not be affected, impaired, modified or released by reason of; (a) the making by the LLC of any assignment for the benefit of creditors or the bankruptcy or insolvency of the LLC, (b) any action taken by the LLC in any bankruptcy or insolvency proceeding, including, without limitation, disaffirmance or rejection of the County Documents, (c) any default by the LLC or a Team under the County Documents, (d) the liquidation or dissolution of the LLC, (e) any change in or termination of Guarantor's relationship to the LLC, (f) the enforcement by County or DEO of any of its rights under the County Documents, (g) the sale, conveyance, transfer or assignment

County and the LLC, without notice to or consent by Guarantor, may at any time or from time to time enter into such extensions, expansions, amendments, assignments, subleases, or other covenants with respect to the County Documents as they may deem appropriate or desirable, including, without limitation, an expansion of the performance obligations and Guarantor shall not be released thereby, but shall continue to be fully liable for the payment and performance of all obligations as so extended, expanded, amended, assigned, sublet, or otherwise modified.

15. Primary Liability; Performance Guaranty. The liability of Guarantor under this Guaranty shall be primary, direct and immediate, and not conditional or contingent upon pursuit by County or DEO of any remedies it may have against the LLC or any other Person with respect to the County Documents or any other agreement, whether pursuant to the terms thereof or by law or pursuant to any other security agreement or guaranty, except for pursuit by County of its remedies against the issuer of the Letter of Credit or Payment Bond securing this Guaranty. Guarantor and County each acknowledge and agree that this Guaranty is a guaranty of performance in respect to the Obligations. Any one or more successive or concurrent actions may be brought hereon against Guarantor with respect to the Obligations, either in the same action or proceeding, if any, brought against the LLC or any other person or entity, or in separate actions as often as County, or DEO, may deem advisable. Guarantor may be joined in any action against the LLC in connection with the County Documents. 1. **Preamble.** This Agreement authorizes the LLC to relocate solid waste (other than reclaimed sand and fines) which are unsuitable materials on which to support structural improvements. Should the LLC implement the relocation option, the requirements of this **Exhibit J**, including obtaining all required regulatory approvals, shall apply.

2. **Preparation of Studies.** The LLC shall commission a study(ies) which, at a minimum, will evaluate the volume and type of solid wastes which are to remain on-Site, taking into account the list of prohibited materials listed in item 3 below, the level of constituents which were identified in the Limited Site Assessment Report prepared by URS and may be contained in any solid waste to be retained or relocated, the proposed location(s) to receive the solid waste, the proposed method of placement (ie: burying, piling, etc); distance(s) between solid waste and water table, proposed fill cap, compaction methodology, and a list of all required regulatory permits and approvals (Study). The conclusion of the Study shall be a specific purpose plan for the retention and/or relocation of solid waste on the Site in a format, and with content, suitable to clearly explain the proposal to the public at large. Cost-Benefit Analysis of the Spring Training Franchises' Impact on Palm Beach County

August 6, 2023

Emanuel J. Perry
Executive Director
Palm Beach County Tourist Development Council
2195 Southern Blvd., Suite 500
West Palm Beach, FL 33406

Dear Mr. Perry,

Palm Beach County is undoubtedly the Major League Baseball (MLB) Spring Training Capital of Florida. Since 1998, Palm Beach County has been home to Roger Dean Chevrolet Stadium in Jupiter, which was the first baseball complex in Florida to host two (2) MLB teams for Spring Training. Today, Roger Dean Chevrolet Stadium is occupied by the Miami Marlins and St. Louis Cardinals. In 2017, Palm Beach County delivered Florida its second two (2) team MLB Spring Training Complex with the development of The Ballpark of The Palm Beaches. Located in West Palm Beach, The Ballpark of The Palm Beaches is the spring training home to the 2022 World Series Champion, Houston Astros and Washington Nationals. The Palm Beaches represent Florida's only county that maintains two, two-team complexes. In total, four (4) of the fifteen (15) MLB teams participating in Florida's Grapefruit League are playing baseball in Palm Beach County.

The Ballpark of The Palm Beaches' seating capacity is over 7,700 for a single game while Roger Dean Chevrolet Stadium's seating capacity reaches nearly 7,000 per game. Palm Beach County was home to 25% of Florida's spring training games in 2023. Between The Ballpark of The Palm Beaches and Roger Dean Chevrolet Stadium, a total of 59 spring training games were scheduled in The Palm Beaches from February 25th to March 26th, 2023. The total attendance for this spring training season equaled 238,014, which represents 68,270 unique attendees.

The Palm Beach County Sports Commission sourced Downs & St. Germain Research to conduct an economic impact study for the 2023 MLB Spring Training season taking place at Ballpark of The Palm Beaches and Roger Dean Chevrolet Stadium. Downs & St. Germain Research is a full-service market research firm based in Tallahassee, which was sourced by the Florida Sports

Foundation to produce an economic impact study on MLB Spring Training taking place in Florida's Grapefruit League in 2018.

In 2023, MLB Spring Training generated a total economic impact of \$79.5 million in Palm Beach County. The Ballpark of The Palm Beaches accumulated a total attendance of 106,912 over 30 games with an economic impact of \$40.2 million. Roger Dean Chevrolet Stadium amassed a total attendance of 131,102 over 29 games while spurring an economic impact of \$39.3 million.

Of those that attended MLB Spring Training baseball at The Ballpark of The Palm Beaches and Roger Dean Chevrolet Stadium, 53% were nonresidents. A total of 40% of attendees traveled from across the nation while 13% of the attendees traveled from across Florida. **MLB Spring Training was responsible for 55,200 room nights in Palm Beach County hotels, vacation rentals, and other paid accommodations.**

The attendance, economic impact, and tourism benefits can be influenced by many factors, but Palm Beach County is fortunate to have partnerships with the, Houston Astros, Washington Nationals, St. Louis Cardinals, and Miami Marlins. These teams represent vibrant travel markets that are important to Florida's economy. The Houston Astros won their second World Series Championship since The Ballpark of the Palm Beaches' opening, and their fan-base was motivated to celebrate this success. The Houston Astros represents one of two MLB teams from Texas, which is the third largest origin state for Florida visitors. Houston ranks as the 11th largest travel market for Florida. The Washington D.C. market is considered one of Florida's strongest origin markets, ranking six (6). Individuals from Washington D.C. and surrounding areas are seeking inspiration to visit the state. As one of the premier brands in Major League Baseball, the St. Louis Cardinals own a dedicated and loyal following from St. Louis and the surrounding Missouri towns, as well as the metro west Illinois area. The St. Louis Cardinals have one of the most faithful and active fan bases in sports and Palm Beach County is a routine spring vacation destination for these baseball enthusiasts across the Midwest. The Miami Marlins represent one of only two MLB franchises in Florida. The Miami Marlins created visitation to Palm Beach County through drive markets.

The Ballpark of The Palm Beaches in combination with Roger Dean Chevrolet Stadium transformed Palm Beach County into the premier destination for amateur baseball events. The nation's largest baseball tournaments are taking place in Palm Beach County, including some of the most admired brands in amateur baseball. These baseball tournaments are utilizing The Ballpark of The Palm Beaches and Roger Dean Chevrolet Stadium, creating year-round activity. In addition to baseball, The Ballpark of The Palm Beaches has the capability of hosting a multitude of other sports activities. The complex features five (5) multi-purpose fields, designed to FIFA

(Fédération Internationale de Football Association) soccer specifications. The multi-purpose fields are an ideal home for field sports, such as soccer, lacrosse, rugby, field hockey, flag and tackle football, and more. The economic benefits derived from amateur baseball tournaments and other sports activities are substantial.

Major League Baseball, and specifically, the, Houston Astros, Washington Nationals, St. Louis Cardinals, and Miami Marlins have been, and will continue to be an extremely beneficial investment for Palm Beach County and the state of Florida. The Palm Beach County Sports Commission looks forward to utilizing baseball as a catalyst in generating tourism, visitor spending, and hospitality-related jobs.

Sincerely,

George Linley

*Contracts status remains unchanged since the 2018 Annual Report

Written Evidence that the County Continues to Meet the Certification Criteria in Effect when the County was Certified Pursuant to Section 288.11631, F.S. (2015)

Criteria / F.S. Citation	2023 Status
<p>The County is responsible for the construction or renovation of the facility or holds title to the property</p> <p><i>(288.11631(2)(a)1 F.S.)</i></p>	<p>Palm Beach County: 1) is the property owner, as evidenced by Official Record Book 27905 Page 1956 of the public records of Palm Beach County, and 2) extended \$135M toward construction financing for the facility.</p>
<p>County has a signed agreement with a spring training franchise for the use of a facility and the agreement must, at a minimum, be equal to the length of the term of the bonds issued for the public purpose of constructing or renovating a facility for a spring training franchise</p> <p><i>(288.11631(2)(a)2 F.S.)</i></p>	<p>The 31-year term per Article 3.1 of the accompanying First Restated Sports Facility Use Agreement remains unchanged, as does the 30-year term of the County's special obligation bonds for the facility's construction. As a practical matter, because of the unfinished state of construction at the start of the 2017 MLB Spring Training season, MLB Spring Training at the facility is assured for at least 32 years in total, thru 2048.</p>
<p>The agreement must also require the franchise to reimburse the state for state funds expended by the County if the franchise relocates before the agreement expires</p> <p><i>(288.11631(2)(a)2 F.S.)</i></p>	<p>Article 22.3 of the accompanying First Restated Sports Facility Use Agreement contains language that requires each team to reimburse the state if the team relocates; this language in the Use Agreement was reviewed by DEO and deemed acceptable by DEO as meeting the requirements of F.S. 288.11631.</p>
<p>The County maintains its financial commitment to provide 50 percent or more of the funds to construct the facility</p> <p><i>(288.11631(2)(a)3 F.S.)</i></p>	<p>Palm Beach County has contributed \$135M towards the construction cost of the facility, which is estimated to exceed \$155M at final completion. Hence, the commitment far exceeds the required 50 percent funding requirement.</p>
<p>The facility will attract paid attendance of at least 50,000 persons annually to the spring training games</p> <p><i>(288.11631(2)(a)4 F.S.)</i></p>	<p>The Palm Beach County Sports Commission reports a combined total attendance of 106,912 during the 2023 Spring Training season at the Ballpark of the Palm Beaches. See attached certification from HW's General Manager (Page 4 of 4 hereto) that paid attendance exceeded 50,000.</p>
<p>The facility for a spring training franchise is located in a county that levies a tourist development tax under s. 125.0104.</p> <p><i>(288.11631(2)(a)5 F.S.)</i></p>	<p>Palm Beach County's tourist development tax can be found in the Palm Beach County Code Section 17-111 through 17-125. Section 17-117 allocates a portion of the tax to professional sports franchise facilities.</p>

Criteria / F.S. Citation (Cont.)	2022 Status
<p>Anticipated effect on the economy of the local community where the facility is to be constructed or renovated <i>(288.11631(2)(b)1 F.S.)</i></p>	<p>Although the construction closeout process remains in progress, current projections indicate a total capital investment exceeding \$155M upon final completion.</p> <p>Refer to the Economic Impact letters and documentation prepared by the Palm Beach County Tourist Development Council and Sports Commission that accompanies this Annual Report for detailed information that is responsive to this provision.</p>
<p>Potential for the facility to be used as a multiple purpose, year around facility <i>(288.11631(2)(b)3 F.S.)</i></p>	<p>Beyond the MLB Spring Training season, the facility has come to host an array of public and private events throughout each year consisting of, but not necessarily limited to, amateur sporting tournaments, family entertainment opportunities and support of non-profit activities. A listing of the most notable events accommodated over the prior one year period is provided as the final pages of the accompanying Economic Impact Analysis. A perimeter multi-use trail is also accessible daily for public use, and a contiguous City of West Palm Beach public park (separately funded but related to the overall delivery of the facility) is in daily use by the general public. The facility has solidified its place in the community as a year-round venue for public service and entertainment.</p>
<p>The location of the facility in a brown field, an enterprise zone, a community redevelopment area, or other area of targeted development or revitalization included in an urban infill redevelopment plan. <i>(288.11631(2)(b)9 F.S.)</i></p>	<p>Development of this former landfill site as a facility for a spring training franchise rid the property of approximately 449,000 cubic yards of waste material that presented unknown environmental impacts and posed an eyesore for the community</p> <p>New construction starts, revitalization activity to previously improved properties, real estate listings for undeveloped and/or vacant parcels, and rising taxable values of real property in the vicinity of the complex continue, which indicates how the facility remains an agent for positive change in the community.</p>

In the opinion of Locke Lord LLP and The Law Offices of Carol D. Ellis, P.A., Co-Bond Counsel, based upon an analysis of existing law and assuming, among other matters, compliance with certain covenants, interest on the Series 2023A Bonds is excluded from gross income for federal income tax purposes under the Internal Revenue Code of 1986, as amended (the "Code"). Interest on the Series 2023A Bonds will not be included in computing the alternative minimum taxable income of individuals. For tax years beginning after December 31, 2022, however, interest on the Series 2023A Bonds will be included in the "adjusted financial statement income" of certain corporations that are subject to the alternative minimum tax under Section 55 of the Code. Additionally, in the opinion of Co-Bond Counsel, based upon an analysis of existing law, interest on the Series 2023B Bonds is included in gross income for federal income tax purposes under the Code. Under existing law, Co-Bond Counsel is also of the opinion that the Series 2023 Bonds and the interest thereon are exempt from taxation under the existing laws of the State of Florida, except as to estate taxes and taxes imposed by Chapter 220, Florida Statutes, on interest, income or profits on debt obligations owned by corporations, as defined therein. Co-Bond Counsel expresses no opinion regarding any other tax consequences related to the ownership or disposition of, or the accrual or receipt of interest on, the Bonds. See "TAX MATTERS" herein.

USE, OCCUPANCY AND OPERATION

5.1 Grant of Use and Occupancy.

5.1.1 The County hereby grants to the Limited Partnership the exclusive right to use, occupy and operate, and permit all third-parties to use and to occupy, the Facility for all lawful purposes, provided, however, that the primary purpose is a professional sports training facility, and to retain all revenues derived from the operation of the Facility and any applicable off-Site parking, for the entirety of the Term, subject to the provisions of this Agreement. Further, the County shall not further restrict the Limited Partnership's use or rental of the Facility in any manner that is not otherwise prohibited in Palm Beach County generally, as of the date hereof.

5.1.2 The Limited Partnership shall cause the Teams to play and the Teams agree to play all of their respective Major League Spring Training Home Games in the Facility during the Spring Training Season of each year during the Term, except (a) to the extent that a Force Majeure Event renders the Facility temporarily unusable or unsuitable to conduct Major League Spring Training Home Games, subject to the requirements of Article 17 herein, or (b) to the extent the MLB requires the Teams play Major League Spring Training Home Games elsewhere. If MLB requires either one or both of the Teams to play an entire Full Spring Training Season elsewhere, the Term of this Agreement shall be extended by one year. If MLB requires one or both of the Teams to play elsewhere for longer than an entire Full Spring Training Season and such requirement is not the result of Sections 17, 24, 28, or 29 permitting the Teams to do so hereunder, the Team(s) shall be deemed to have Relocated and subject to the provisions of Sections 22.3.2 through 22.3.4 as applicable.

5.1.3 The rights to use the Facility shall be in accordance with the following order of priority: 1) the Limited Partnership and the Teams on an exclusive basis for Spring Training Season unless otherwise authorized pursuant to Section 5.3 herein; 2) the Limited Partnership and the Teams for PDL Club Home Games; 3) the Limited Partnership and the Teams for a Team Event; 4) the County for a Tourism Enhancement Event; 5) local non-profit organization for a Community Event and 6) other entities for Commercial Events. Once an event is approved and scheduled by the Limited Partnership, that event cannot be cancelled as a result of a subsequently requested Team, Tourism Enhancement, Community or Commercial Event, without the express written approval of the entity that is currently scheduled, which permission may be granted or denied in the sole and absolute discretion of that entity. If a scheduling conflict exists between multiple Tourism Enhancement Events, the County will determine prioritization.

5.1.4 The Limited Partnership shall be solely responsible for managing and scheduling all events, including, without limitation, all Major League Spring Training Home Games, PDL Club Home Games, Team Events, Tourism Enhancement Events, Community Events and Commercial Events pursuant to the requirements of this Agreement. Tourism Enhancement Events, Community Events and Commercial Events may be scheduled in advance subject to the availability of the Facility and the execution of a written license agreement for the use of the Facility by the parties as described in Articles 5.3 and 5.4 herein, respectively. Limited Partnership has a duty to cooperate in good faith with the County in accommodating and scheduling Tourism Enhancement Events pursuant to Section 5.3.1 of this Agreement.

5.1.5 Notwithstanding anything provided herein, throughout the Term, the Limited Partnership will have year-round, 24-hour access to the Exclusive Use Areas (including during Tourism Enhancement Events, Community Events and Commercial Events), and the

County shall not authorize or grant any other Person (including any other Major League Club) the right or license to use, occupy or conduct business from the Exclusive Use Areas, except, however, that the County shall be entitled to use and permit others to use the Exclusive Use Areas as set forth in Section 5.3.7 and 5.3.9.

5.1.6 Throughout the Term, the Limited Partnership shall be granted, for the Limited Partnership and their invitees, access to and egress from the Facility, and the right to enter the Facility to the extent reasonably necessary for the Limited Partnership to exercise its rights and perform its obligations under this Agreement.

5.1.7 The County covenants and warrants that so long as no default exists under this Agreement after the expiration of any applicable notice and cure periods, the Limited Partnership, shall lawfully and quietly hold, occupy and enjoy the Facility during the Term hereof, without molestation or hindrance by the County or any party claiming through or under the County, expressly subject to the terms, limitations and conditions contained in this Agreement.

5.2 Security Requirements for the Facility.

5.2.1 The Limited Partnership shall provide adequate supervision and security and shall strictly enforce all rules, regulations, and safety procedures that are required by law or regulation and usual and customary for spring training facilities, or established by the Limited Partnership and that are required in general for the safe and orderly use of the Facility. At all times the Facility shall be under the control, supervision and security of the Limited Partnership.

5.2.2 The Limited Partnership shall be responsible for determining and implementing the appropriate staffing, security and service levels required to manage each and every activity at the Facility, including, but not limited to, the level of security support, police support, on-Site medical support, traffic control, and parking management support necessary, taking into consideration the anticipated crowds, whether alcoholic beverages will be available, and other criteria to assess the staffing and support requirements for each event and activity.

5.2.3 It shall be the responsibility of the Limited Partnership to assure that the use of the Facility is conducted in such a manner so as not to interfere with the use of adjacent properties beyond the boundaries of the Site, excluding any established rights that apply to off-Site parking.

5.2.4 The Limited Partnership shall take reasonable precautions to prevent nuisances originating from the Facility. The Parties acknowledge that the use contemplated by this Agreement (during daytime and/or at night) includes lighting, crowd noise, music and other activities associated with baseball or the reasonable use of a baseball stadium. Notwithstanding same, the Limited Partnership has the sole responsibility for, and shall respond to and defend any third party claims, actions, etc. concerning nuisances originating from the Facility.

5.3 County Rights of Use.

5.3.1 The County shall have the right to schedule and use the Facility for Tourism Enhancement Events at times during the calendar year other than the Spring Training

Season, subject to the provisions of this Article 5. The County shall not have the right to schedule and use the Facility for Tourism Enhancement Events during the Spring Training Season, but may request the Limited Partnership to authorize the County's use of the Facility during the Spring Training Season, which use may be granted or denied in the Limited Partnership's sole and absolute discretion. The County's right to use the Facility is subject to the terms and conditions of the license agreement described in Section 5.3.5 and availability of the Facility as set forth in Section 5.3.4.

5.3.2 Except as: i) described in Section 5.3.7; or ii) otherwise agreed in writing by the Limited Partnership in its sole and absolute discretion, the County's right to use the Facility for Tourism Enhancement Events shall not extend to the Exclusive Use Areas.

5.3.3 In order to maximize the use of the Facility during times other than the Spring Training Season and for early coordination of the next year's calendar, the Limited Partnership and the TDC shall meet annually during the month of September, unless otherwise agreed by the Parties. Notwithstanding the annual meeting discussed herein, each and every time that the TDC or the Sports Commission plans to make a formal bid/proposal for a sporting event, the TDC or Sports Commission shall first work collaboratively with the Limited Partnership prior to making the bid/proposal to develop a tentative plan for use of the Facility taking into consideration scheduled Team Events. If the tentative plan for the use of the Facility is acceptable to the Limited Partnership, the TDC or Sports Commission may make the formal bid/proposal and the Limited Partnership shall reserve such dates for the TDC or Sports Commission until such time that TDC or Sports Commission notifies the Limited Partnership that the bid/proposal was accepted or rejected. The TDC or Sports Commission shall notify the Limited Partnership of the acceptance or rejection of the bid/proposal within five (5) Business Days of receiving notice of acceptance or rejection. Notwithstanding anything in this Agreement to the contrary, the rights set forth in this Section 5.3.3 shall supersede those set forth in Section 5.3.4.

5.3.3.1 The Director of FD&O, or designee, shall attend the meetings between the Limited Partnership and the TDC for the first ten (10) calendar years of the Term in order for the Limited Partnership and the County to jointly review event scheduling processes, procedures and priorities as established in Sections 5.3 and 5.4 hereto, and to identify and define improvements, changes and updates to those processes, procedures and priorities. The Director of FD&O and the Limited Partnership shall have the ability to adopt mutually agreed upon amendments, changes and/or updates to the event scheduling processes, procedures and priorities established in Sections 5.3 and 5.4 herein by written agreement executed by the Limited Partnership and the Director of FD&O.

5.3.4 The County may request the scheduling of a Tourism Enhancement Event at any time with a minimum of sixty (60) Days' notice for any Tourism Enhancement Event. The Limited Partnership will review the request in accordance to the provisions of this Article 5. Within thirty (30) Days thereafter, the Limited Partnership will notify the County of approval, or rejection of all or a part of the schedule based on "pre-existing scheduled" or "generally known but not yet specifically scheduled" Team Events, or based on scheduled Community Events or Commercial Events. In the event the County's schedule is rejected in whole or in part due to pre-existing scheduled events, the County may submit a revised schedule, or upon the request of the

County, the Limited Partnership shall coordinate a meeting date and time to review and revise the proposed schedule with the County. The County shall provide reasonable advance notice to the Limited Partnership of the cancellation of any Tourism Enhancement Event on the schedule. The Limited Partnership has the sole and absolute right to deny requests for Tourism Enhancement Events during the Spring Training Season. Events requested outside of Spring Training Season will be evaluated and responded to as set forth in this Section 5.3.4.

5.3.5 The Limited Partnership shall develop a standard form event license agreement for Tourism Enhancement Events or Community Events which includes a standard fee structure for such events. The form of the event license agreement shall be agreed upon by the Parties. The event license agreement shall include standard provisions consistent with the provisions of Sections 5.3.5.1 through 5.3.5.8 herein.

5.3.5.1 Negotiating Fees and Costs for Tourism Enhancement Events and Community Events. The Limited Partnership and the respective TDC Agencies shall negotiate in good faith a reasonable fee for use of the Facility and for the Limited Partnership Management Fees associated with the event that the TEE Operator shall have to pay to hold its event at the Facility. The Limited Partnership and the TDC Agency shall take into account the size and duration of an event, and any other factors the Limited Partnership or TDC Agency deems necessary to determine a reasonable cost. For Community Events not already under separate agreement, the Limited Partnership shall take the same approach by negotiating with the local community representative to determine the reasonable cost of the event to be paid by the event operator.

5.3.5.2 Failure of Negotiations. If the parties fail to successfully negotiate a reasonable fee for a Tourism Enhancement Event or a Community Event, then the Limited Partnership shall only be allowed to charge the following:

5.3.5.2.1 License Fee. The Limited Partnership shall not charge a license or use fee for the Facility for a Tourism Enhancement Event or a Community Event.

5.3.5.2.2 Limited Partnership Management Fees. The Limited Partnership may charge Limited Partnership Management Fees, if the Limited Partnership has developed a standardized fee structure under this section. Annually, on or before January 15th, the Limited Partnership shall develop a standard fee structure for Limited Partnership Management Fees and submit the fee structure to the TDC. The TEE Operator shall be responsible for paying all Limited Partnership Management Fees. If Limited Partnership fails to submit the standard fee structure by January 15th of a given year, the Limited Partnership will be bound by the fee structure set forth in the last year it was provided to the TDC. The same methodology shall apply to Community Events, and the community representative can request from the TDC the latest standard fee structure it received from the Limited Partnership to determine the Limited Partnership Management fees due for the Community Event.

5.3.5.3 Liability. The Limited Partnership shall include in the event license agreement provisions that require the TEE Operator or the Community Event operator to

provide indemnification and insurance as set out in this section and in 5.3.5.4 below. For each Tourism Enhancement Event or Community Event, the TEE Operator or Community Event operator shall protect, defend, reimburse, indemnify and hold the Limited Partnership and the County, and their respective agents, designees, employees, and elected officials free and harmless at all times from and against all claims, liability, expenses, losses, costs, fines, damages or causes of action of every kind and character, including attorney's fees and costs, whether at trial or appellate levels or otherwise, arising during, as a result of, or in connection with the TEE Operator's or Community Event operator's use of the Facility. The TEE Operator or Community Event operator assumes the risk associated with the use of the Facility and agrees to hold the Limited Partnership and the County, and their respective agents, designees, employees, and elected officials free and harmless at all times from and against all claims, liability, expenses, losses, costs, fines, damages or causes of action of every kind and character, including attorney's fees and costs, whether at trial or appellate levels or otherwise, due to their acts, errors or omissions resulting in bodily injury, including death, or damage to the TEE Operator's or Community Event operator's property incident to or in connection with the TEE Operator's or Community Event operator's use of the Facility.

5.3.5.4 Insurance. The Limited Partnership shall require commercial liability insurance coverage from the TEE Operator for each Tourism Enhancement Event or from the event operator for a Community Event, with minimum policy limits of One Million Dollars (\$1,000,000.00) per occurrence or such other policy limits as are reasonably determined by the Limited Partnership based on the nature of any such Tourism Enhancement Event or Community Event. The County shall be a named additional insured, and the Limited Partnership will cause proof of such insurance to be provided to the County upon demand.

5.3.5.5 Payment. Limited Partnership shall include in the event license agreement a provision that requires that within thirty (30) Days of receipt of an invoice and supporting documentation, TEE Operator or Community Event operator shall remit payment to the Limited Partnership for any damage occurring during Tourism Enhancement or Community Events. The Limited Partnership will provide TEE Operator or Community Event operator with notice of such damage within seventy-two (72) hours after the conclusion of the Tourism Enhancement or Community Event and allow the TEE Operator or Community Event operator to inspect and document said damage upon request.

5.3.5.6 Admission Fees. If the event operator determines that an admission charge or other fee is to be charged, the Limited Partnership may collect such admission or fee and apply it to amounts due from the TEE Operator or the Community Event operator to the Limited Partnership.

5.3.5.7 Use Restrictions. In no event shall the TEE Operator or Community Event operator be permitted to use the Facility in a manner that (a) causes, or may be reasonably expected to cause, any material damage to any playing surface or any part of the Facility; (b) interferes with use of the Exclusive Use Areas; or (c) involves a promotional sponsorship which requires the on-Site sale of a product with which the Limited Partnership has an exclusive sale or concession agreement consistent with the requirements of Section 11.1 hereof.

Other than as set forth in this Agreement, the County shall not grant any professional baseball team the right to use or play at the Facility.

5.3.5.8 Use of Team Personal Property. The Team's Personal Property or equipment shall not be used during a Tourism Enhancement Event or Community Event without the express written consent of such Team. The event license agreement shall provide that the TEE Operator or the Community Event Operator shall reimburse the Limited Partnership for any Personal Property or Equipment owned by the Teams or any of their affiliates, concessionaires, licensees or employees that is damaged during a Tourism Enhancement Event or Community Event.

5.3.6 Use for Post Declared Emergency Efforts. In the event of a declared federal, state, or local emergency as allowed by law (a "Declared Emergency"), the County shall have the right to use the Facility, but not including the Exclusive Use Areas, for County-determined purposes.

5.3.6.1 The Limited Partnership will not enter into any agreements, event permits or other contracts specifically obligating the Facility for use during or after a period of Declared Emergency, without the County's prior written approval which may be granted or denied in the County's sole and absolute discretion.
