| TYP SYS                               | Type of Retirement System.   |
| Valuation Date                        | The month/day/year on which the financial data in the actuarial valuation is based.  |
| Florida Statute Chapter               | 112.664(1)(a) – uses RP-2000 Combined Healthy Participant Mortality Tables, by gender, with generational projection by Scale BB.*<br><br>112.664(1)(b) – uses same mortality assumption as 112.664(1)(a) but using an assumed discount rate equal to 200 basis point (2.00%) less than plan’s assumed rate of return.*<br><br>Valuation Basis – same assumptions used in plan’s valuation. |
| Discount Rate                         | Rate used to discount the liabilities. Same as assumed rate-of-return on assets. In some cases where there was a change in discount rate, the Net Pension Liability may have been calculated with the discount rate prior to the change.   |
| Pension Liability                     | Actuarial Accrued Liability measured using the appropriate assumptions as specified above in 112.664(1)(a) and (1)(b), and the Traditional Entry Age Normal Cost method.   |
| Total Market Value of Assets          | The market value of assets, including DROP Accounts.   |
| Net Pension Liability                 | Pension Liability less Assets.   |
| Years Assets Sustain Benefit Payments | Assuming no future contributions from any source, the number of years the market value of assets will be sufficient based on expected retirement benefits. The number of years will vary based on the Florida Statute Chapter assumption.  |
| Total Dollar Contribution             | Required contribution from all sources (i.e., employee and sponsor). Contribution will vary based on the Florida Statute Chapter assumption.   |

## Appendix I – Inventory of School Board Early Retirement Programs

Sections 1012.685 and 1012.87, Florida Statutes, allow school boards and community colleges to supplement the early retirement income payable from the FRS to retiring school personnel. The benefits provided are usually equal to the amount of the reduction in monthly benefits resulting from retirement under the FRS prior to age 62. The participant must have applied for FRS early retirement, in addition to the many other requirements, to be eligible for the early retirement benefit.

The following is an inventory of reporting school board early retirement programs with their effective dates and a brief description of the plan:
