INTRODUCTORY SECTION

CHIEF FINANCIAL OFFICER
JIMMY PATRONIS
STATE OF FLORIDA

February 28, 2024

Citizens of the State of Florida
The Honorable Ron DeSantis, Governor
The Honorable Kathleen Passidomo, President of the Senate
The Honorable Paul Renner, Speaker of the House of Representatives

To the Citizens of Florida, Governor DeSantis, President Passidomo, and Speaker Renner:

I am pleased to submit the State of Florida's Annual Comprehensive Financial Report (ACFR) for the fiscal year ended June 30, 2023, in accordance with Section 216.102(3), Florida Statutes (F.S.). This report is prepared in accordance with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

Management assumes full responsibility for the completeness and reliability of the information contained in this report based upon a comprehensive framework of internal control. The objective of internal control is to provide reasonable, rather than absolute, assurance that the financial statements are free of material misstatements. The concept of reasonable assurance ensures that the costs do not exceed the benefits derived.

The Auditor General has issued an opinion on the state's financial statements for the fiscal year ended June 30, 2023. The independent auditor's report is located at the front of the financial section of this report.

Management's Discussion and Analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

PROFILE OF THE STATE

Florida's Constitution divides the governmental structure of the state into three independent branches. The Legislative Branch has exclusive lawmaking power for the state. The Executive Branch, consisting of the Governor, Cabinet, and their agencies, administers the laws made by the Legislature. The Governor shares executive power and responsibility with the Cabinet, which is composed of the Attorney General, Chief Financial Officer, and Commissioner of Agriculture. The Judicial Branch interprets the law and applies the Constitution. The organizational chart following this letter provides an overview of the state's structure. Florida's government provides a range of services to its citizens including education, health and family services, transportation, public safety, law and corrections, natural resources and environmental protection.

The financial reporting entity of the state includes the primary government as well as component units for which the state is either financially accountable or a relationship exists with the state such that exclusion would cause the financial statements to be misleading. Refer to Note 1 to the financial statements for a listing of Florida's component units and the Financial Section of the report to obtain an overview of their financial positions.

Florida's budget is prepared using the processes set forth in Chapter 216, F.S. The major phases of the budget process are detailed in the Other Required Supplementary Information Section of this report. Florida law strictly prohibits overspending and requires budgetary control to be maintained at the individual appropriation account level.

ECONOMIC CONDITION

Florida recorded its third year of above-average growth in General Revenue Fund collections when the state's fiscal year ended on June 30, 2023. Following two-years of strong-double-digit growth in revenues, growth patterns began a welcome return to normal patterns in the 2022-23 fiscal year, signaling an economy approaching full recovery from the pandemic's immediate aftermath. The same as last year, Florida's near-term economic outlook is now largely linked to the future health of the national economy.

This linkage means that a greater focus necessarily falls on the national economic projections. Unfortunately, these projections are still far from clear-cut. Along with the economic disruption that continues today from the tight labor market and elevated inflation, considerable

uncertainty exists regarding the impact on Florida from current geopolitical events, national fiscal policy decisions and future Federal Reserve actions. In December 2023, a survey conducted by the National Association for Business Economics (NABE) showed participants expect "...growth to slow to 1% between the fourth quarter of 2023 and the fourth quarter of 2024." When asked what the greatest downside risk to the U.S. economy in 2024 would be, 42 percent of the panelists believed too much monetary policy tightness was the biggest risk, considering both probability of occurrence and potential impact. Twenty-six percent cited the broadening of war in Ukraine and the Middle East.

As this report is put to bed, significant economic ups and downs are occurring almost daily, some of which provide conflicting messages about the future. In October 2023, war between Israel and Hamas broke out, ultimately leading to disruption in the Red Sea as Houthi rebels from Yemen—an Iran-backed group in support of Hamas—conducted a series of attacks on commercial vessels in those crucial shipping lanes. In December 2023, the United States launched an international naval operation (Operation Prosperity Guardian) that, by January 2024, led to targeted air strikes against the Houthi rebels. Currently, a resolution to this conflict is not in sight. Continued escalation into a broader regional conflict will likely lead to higher transportation and energy costs which would increase inflationary pressures.

December 2023 also saw Federal Open Market Committee (FOMC) hold rates to a targeted range between 5.25 percent and 5.50 percent, 100 basis points higher than this time last year. In its statement, the FOMC indicated that it will continue to monitor "...a wide range of information, including readings on labor market conditions, inflation pressures and inflation expectations, and financial and international developments," in formulating the best monetary policy path to returning inflation to 2 percent. Forty-seven percent of NABE participants anticipate that core personal consumption expenditure (PCE) inflation will not decline to a year-over-year rate of 2 percent until 2025. The Legislative Office of Economic and Demographic Research (EDR) reports that, "S&P Global considers some weakening of economic conditions necessary to bring down the still unacceptably high levels of inflation to the Federal Reserve's objective of 2% within an acceptable timeframe. In their view, this requires a period of below trend growth, referred to as a growth recession, to cool off the economy and reduce wage pressures on inflation." Except for the January events, all of this information informed the new forecasts adopted by the state's Economic Estimating Conference (Conference) in December 2023.

Several metrics from the Florida Economic Forecast stand out. One measure for assessing the economic health of states is the year-to-year change in real Gross Domestic Product (GDP); this is the gain or loss in all goods and services produced or exchanged within a state. According to the latest revised data, Florida's quarterly GDP movements have generally performed better than the nation as a whole since the beginning of the pandemic. Buffeted by a series of economic shocks, the state's GDP dipped to near zero (0.4 percent) in fiscal year 2019-20, bounced back to 4.7 percent in fiscal year 2020-21, and surged to 7.0 percent in fiscal year 2021-22, more than double the pre-pandemic-year growth rate and exceeding the prior peak growth rate of 6.6 percent in fiscal year 2004-05. The state's economy expanded by 4.4 percent in fiscal year 2022-23, but the Conference expects growth to decelerate to 2.8 percent and 1.1 percent over the current and next fiscal years as businesses and consumers transition from a high inflation environment to a high interest rate environment. Beginning in fiscal year 2025-26, the economy will grow at a more characteristic 1.9 – 2.0 percent per year.

Normally, personal income growth is another important gauge of the state's economic health; however, its changes have been in stark contrast to GDP, driven largely by the ebb and flow of federal dollars into Florida households and businesses due to the pandemic. Buttressed during the early part of the pandemic by an infusion of federal dollars, the final growth rate for the state's 2020-21 fiscal year was 10.3 percent. It fell to slightly less robust 6.6 percent at the end of the 2021-22 fiscal year when some of the extra federal support ended. Personal income growth then accelerated to 7.9 percent in fiscal year 2022-23 as workers and employers chased historic levels of inflation and leveraged the tight labor market into better paying opportunities. Largely on the continuing strength of wage growth, the Conference expects still high growth of 6.3 percent in fiscal Year 2023-24, followed by a nearly matching year at 6.4 percent growth. After three additional years of above 5 percent growth (the 2025-26, 2026-27 and 2027-28 fiscal years), annual growth rates begin to stabilize at 4.7 percent.

The key measures of employment are job growth and the unemployment rate. Along with the nation and the world, the job market in Florida experienced an unprecedented contraction in the second quarter of 2020 when a large part of the Florida economy either shut down or sent workers home to slow the spread of Coronavirus. Employment dropped by almost 1.3 million jobs from February 2020 to April 2020, a loss of 14.1 percent of the pre-pandemic jobs. In fiscal year 2021-22, Florida jobs moved above the 2018-19 level, registering growth of 6.6 percent, the highest rate since the inception of the series in 1990. The 2022-23 fiscal year was again strong, recording the second highest job growth rate since the 1990s, +4.7 percent. The Conference expects growth to decelerate to 2.5 percent in fiscal year 2023-24, 1.7 percent in fiscal year 2024-25 and 1.4 percent in fiscal year 2025-26 as the nation's economy softens due to the Federal Reserve's efforts to fight persistently elevated inflation. Job growth stabilizes at this percentage level through fiscal year 2028-29 before declining to 1.2 percent for the remainder of the forecast.

Florida's unemployment rate had been below 4.0 percent from January 2018 through February 2020. With the onset of the pandemic, the unemployment rate spiked to 14.1 percent in May 2020, handily surpassing the prior peak rate of 10.9 percent reached during the Great Recession (the first four months of 2010). Three years later, Florida's monthly unemployment rate had dropped to 2.7 percent for the entire 2022-23 fiscal year, not far from the lowest recorded rate in modern times: the first half of 2006 when it was 2.4 percent. Given the Federal Reserve's actions to cool off the economy through higher interest rates, the Conference expects the unemployment rate to start an upward

drift—hitting 3.0 percent in fiscal year 2023-24. The rate ultimately reaches 4.3 percent in fiscal year 2026-27, after which it slightly retreats and then plateaus at 4.0 percent. The Conference assumes the “full employment” unemployment rate is about 4.0 percent.

Two areas of the state’s economy indirectly benefited from the Federal Reserve’s actions to protect the wider economy from the worst of the pandemic effects, but with a future payback: real estate and construction. Throughout the worst of the crisis, these economic sectors thrived as the federal funds rate neared zero and pushed interest rates to historic lows. By the second quarter of the 2021 calendar year, single-family starts were 63.0 percent higher than the same period in the prior year, while multi-family starts were 83.8 percent higher. Growing by almost 24.0 percent, total private housing starts reached a 16-year high of 251,500 units in fiscal year 2021-22, yet they were still far from the housing boom peak of over 272,000 units in fiscal Year 2004-05. The timing is important to the 2021-22 result—over the course of that year, the conventional mortgage rate had risen slightly from the prior year to 3.88 percent. The Federal Reserve’s series of interest rate hikes to tame inflation had just begun (March 2022), but continued steadily through July 2023. As reported by the Mortgage Bankers Association, the 30-Year fixed rate mortgage reached 6.50 percent in the second quarter of the 2023 calendar year, and edged up to 7.00 percent in the third quarter. Moving in step, starts contracted by 14.6 percent in fiscal year 2022-23, and the Conference projects the slump to continue with a loss of 2.1 percent this year and 12.4 percent in fiscal year 2024-25. After leveling off in fiscal year 2025-26, starts lose ground for several more years before anemic growth resumes. At the end of the ten-year forecast period, total private housing starts achieve only 67.9 percent of the peak in fiscal Year 2004-05, but still surpass the projections in the pre-pandemic forecast. Reflecting the overall constraints in the construction industry, construction employment finally exceeds its fiscal year 2005-06 peak level in fiscal year 2028-29, 23 years later. Affected by many of the same factors, the existing home market entered its third year of contraction in fiscal year 2023-24. Even so, prices were higher than expected as many existing homeowners stayed out of the market, thereby limiting supply. Among other issues, they found it increasingly difficult to give up lower-interest mortgages on their current homes with the purpose of purchasing new homes in the high-interest environment.

Finally, Florida’s tourism-sensitive economy was particularly vulnerable to the longer-term effects of the pandemic. The total number of tourists declined nearly 70.0 percent from the prior year in the second quarter of 2020. After that dramatic drop, tourism managed to recover gradually, buttressed by the increased number of domestic visitors travelling to Florida by air or car. It took two years to reach recovery from this pandemic in domestic visitors and three years in Canadian visitors, while international visitors are still at depressed levels. Total visitors, growing by 39.0 percent, surpassed the pre-pandemic peak by the end of fiscal year 2021-22, albeit with a different composition. After 2.5 percent in fiscal Year 2022-23, the Conference expects another strong period of growth (6.4 percent) during fiscal year 2023-24, after which the annual growth rate moderates from 4.9 percent in fiscal year 2024-25 to 2.9 percent in the latter half of the forecast period. While the new forecast levels never exceed the pre-pandemic forecast levels for those years, they come close in the latter part of the 10-year forecast horizon.

Based on these economic factors, the state’s Revenue Estimating Conference met on January 16, 2024, to adopt a new forecast for the General Revenue Fund. Through December 2023, collections across all sources were running \$1.26 billion or 6.0 percent above the forecast since the beginning of the fiscal year. Given the economic uncertainties going forward, the Conference added \$1.59 billion to the estimate for the current year (fiscal year 2023-24), but moderated the increase going forward. The projected growth in fiscal year 2024-25 over the prior forecast is \$585.5 million, yielding a two-year combined increase of \$2.18 billion. These changes reflect increases over the previous estimates of 3.5 percent in fiscal year 2023-24 and 1.2 percent in fiscal year 2024-25.

ACKNOWLEDGEMENTS

Preparation of the ACFR requires a significant investment of time and resources of fiscal and accounting personnel throughout the state. We appreciate all the contributions made to this effort.

Sincerely,

Jimmy Patronis
Chief Financial Officer

INDEPENDENT AUDITOR'S REPORT

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Florida, as of and for the fiscal year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the State's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the reports of other auditors, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Florida, as of June 30, 2023, and the respective changes in financial position and cash flows thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of:

- The Prepaid College Program Fund, which is a major enterprise fund and represents 28 percent and 4 percent, respectively, of the assets and revenues of the business-type activities.
- The Florida Turnpike System, which represents 79 percent and 85 percent, respectively, of the assets and revenues of the Transportation major enterprise fund.
- The Hurricane Catastrophe Fund, which is a major enterprise fund and represents 27 percent and 11 percent, respectively, of the assets and revenues of the business-type activities.
- The College Savings Plan and the trust fund maintained by the State Board of Administration to account for the investments of the Public Employee Optional Retirement Program, which collectively represent 6 percent of the assets and 4 percent of the revenues/additions of the aggregate remaining fund information.
- The Florida Retirement System Trust Fund maintained by the State Board of Administration to account for the assets and investment income of the Florida Retirement System Defined Benefit

Pension Plan which represent 90 percent and 78 percent, respectively, of the assets and revenues/additions of the Pension and Other Employee Benefits Trust Funds.

- The Florida Housing Finance Corporation, Citizens Property Insurance Corporation, component units related to the State's universities and colleges, and certain other funds and entities that, in the aggregate, represent 59 percent and 36 percent, respectively, of the assets and revenues of the discretely presented component units.

The financial statements for the above-listed funds and entities were audited by other auditors whose reports have been furnished to us, and our opinions, insofar as they relate to the amounts included for these funds and entities, are based solely on the reports of the other auditors.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the ***Auditor's Responsibilities for the Audit of the Financial Statements*** section of our report. We are required to be independent of the State of Florida and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the State of Florida's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the State of Florida's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the State of Florida's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that **Management's Discussion and Analysis** on pages 19 through 25 and the **Budgetary Comparison Schedules** on pages 193 through 197, **Budget to GAAP Reconciliation** on page 198, **Budgetary Reporting** on pages 199 through 200, **Schedule of Proportionate Share and Schedule of State Contributions** for pension on pages 202 through 205, **Schedule of Changes in Net Pension Liability and Schedule of State Contributions** on pages 206 through 207, **Schedule of Changes in Other Postemployment Benefits Liability** on pages 208 through 209, and **Information About Infrastructure Assets Reported Using the Modified Approach** on pages 210 through 211 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State of Florida's basic financial statements. The combining and individual fund statements and related budgetary comparison schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of

management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS by us and other auditors. In our opinion, based on our audit, the procedures performed as described above, and the reports of the other auditors, the combining and individual fund statements and related budgetary comparison schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual comprehensive financial report. The other information comprises the Introductory Section on pages 6 through 9, and the Statistical Section on pages 299 through 333, but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information appears otherwise to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 28, 2024, on our consideration of the State of Florida's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, administrative rules, regulations, contracts, and grant agreements and other matters included under the heading **INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the State of Florida's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the State of Florida's internal control over financial reporting and compliance.

Respectfully submitted,

Sherrill F. Norman, CPA
Tallahassee, Florida

MANAGEMENT’S DISCUSSION AND ANALYSIS

The information contained in the Management’s Discussion and Analysis (MD&A) introduces the basic financial statements and provides an analytical overview of the State of Florida’s (the state’s) financial activities and performance for the fiscal year ended June 30, 2023 (fiscal year 2022-23). Please read the MD&A in conjunction with the state’s financial statements that are presented in the Financial Section of this Annual Comprehensive Financial Report (ACFR).

Financial Statements Overview

The state’s basic financial statements are comprised of the following elements:

Government-wide Financial Statements

Government-wide financial statements provide both long-term and short-term information about the state's overall financial condition. Changes in the state’s financial position may be measured over time by increases and decreases in the Statement of Net Position. Information on how the state’s net position changed during the fiscal year is presented in the Statement of Activities. Financial information for the state’s component units is also presented.

Fund Financial Statements

Fund financial statements for governmental and proprietary funds focus on individual parts of the state, reporting the state's operations in more detail than the government-wide financial statements. Fund financial statements for fiduciary funds are also included to provide financial information related to the state’s fiduciary activities.

Notes to the Financial Statements

Notes to the financial statements provide additional information that is essential to the full understanding of the government-wide and fund financial statements. Refer to Note 1 to the financial statements for more information on the elements of the financial statements. Table 1 below summarizes the major features of the basic financial statements.

	Government-wide	Fund Financial Statements		
	Financial Statements	Governmental Funds	Proprietary Funds	Fiduciary Funds
Scope	Entire state government (except fiduciary funds) and the state’s component units	Activities of the state that are not proprietary or fiduciary	Activities of the state that are operated similar to private businesses	Instances in which the state is the trustee or agent for someone else’s resources
Required financial statements	<ul style="list-style-type: none"> • Statement of net position • Statement of activities 	<ul style="list-style-type: none"> • Balance sheet • Statement of revenues, expenditures, and changes in fund balances 	<ul style="list-style-type: none"> • Statement of net position • Statement of revenues, expenses, and changes in net position • Statement of cash flows 	<ul style="list-style-type: none"> • Statement of fiduciary net position • Statement of changes in fiduciary net position
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
Type of asset, liability, and deferred outflow/inflow information	<ul style="list-style-type: none"> • All assets and liabilities, both financial and capital, and short-term and long-term • All deferred outflows and deferred inflows of resources 	<ul style="list-style-type: none"> • Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included • All deferred outflows and deferred inflows of resources 	<ul style="list-style-type: none"> • All assets and liabilities, both financial and capital, and short-term and long-term • All deferred outflows and deferred inflows of resources 	<ul style="list-style-type: none"> • All assets and liabilities, both financial and capital, and short-term and long-term • All deferred outflows and deferred inflows of resources
Type of inflow/outflow information	All revenues and expenses during the year, regardless of when cash is received or paid	<ul style="list-style-type: none"> • Revenues for which cash is received during or soon after the end of the year • Expenditures when goods or services have been received and payment is due during the year or soon thereafter 	All revenues and expenses during the year, regardless of when cash is received or paid	All revenues and expenses during the year, regardless of when cash is received or paid

Condensed Government-wide Financial Statements and Overall Financial Analysis

Statement of Net Position

Table 2 below presents the state's Condensed Statement of Net Position as of June 30, 2023, and 2022, derived from the government-wide Statement of Net Position. The state's net position at the close of the fiscal year was \$112.2 billion for governmental activities and \$26.6 billion for business-type activities which was a combined total of \$138.8 billion for the primary government. The three components of net position include net investments in capital assets; restricted; and unrestricted. The largest component, totaling \$97.3 billion as of June 30, 2023, reflects net investments in capital assets. The state uses these capital assets to provide services to the citizens and businesses in the state; consequently, this component of net position is not available for future spending. Restricted net position is the next largest component, totaling \$25.4 billion as of June 30, 2023. Restricted net position represents resources that are subject to external restrictions, constitutional provisions, or enabling legislation on how they can be used.

Governmental activities reflect an unrestricted net position of \$15.2 billion at June 30, 2023, an increase of \$7.4 billion over the prior year. The increase in the unrestricted net position over that reported in prior years is explained in the Major Fund Analysis, Governmental Funds section that follows.

Business-type activities reflect a restricted net position of \$11.3 billion at June 30, 2023, a decrease of \$5.9 billion over the prior year. The increase in the restricted net position over that reported in prior years is explained in the Major Fund Analysis, Proprietary Funds section that follows.

Table 2: Condensed Statement of Net Position

	As of June 30					
	(in millions)					
	Governmental Activities		Business-type Activities		Total Primary Government	
	2023	2022	2023	2022	2023	2022
Current and other assets	\$ 67,793	\$ 63,963	\$ 37,967	\$ 37,403	\$ 105,760	\$ 101,366
Capital and right to use assets, net	89,520	85,836	17,984	17,120	107,504	102,956

Statement of Activities

Table 3 presents the state's Condensed Statement of Activities for fiscal year 2022-23 and fiscal year 2021-22, as derived from the government-wide Statement of Activities. Over time, increases and decreases in the net position measure whether the state's financial position is improving or deteriorating. The state's total net position increased during the fiscal year by \$5.4 billion. The net position of governmental activities increased by \$10.5 billion, and the net position of business-type activities decreased by \$5 billion. The majority of the \$17.7 billion increase in total program expenses for governmental activities relates to a \$5.9 billion increase in Human Services expenses and \$5.6 billion increase in Education expenses, while the largest increase in business-type activities expenses is the \$9.8 billion increase in Hurricane Catastrophe fund program expenses. Refer to the Major Fund Analysis section for information regarding the increase in revenues from governmental activities.

Major Fund Analysis

Governmental Funds

The state's governmental funds reported a combined ending fund balance of \$53.3 billion at June 30, 2023, a \$8.3 billion or 18.3 percent increase from the prior year. Revenues increased by \$6.6 billion or 5.5 percent, other financing sources and uses decreased by \$876.5 million or 27.3 percent, and expenditures increased by \$17.7 billion or 18.1 percent. Overall increases in revenues and expenditures were primarily attributable to an increase in taxes, fees and charges.

General Fund - This fund reported a fund balance of \$34 billion at June 30, 2023, an increase of \$6.2 billion or 22.7 percent. The increase in net position was primarily due to an increase in taxes and investment earnings.

Natural Resources, Environment, and Growth Management - This fund reported a fund balance of \$6.6 billion at June 30, 2023, an increase of \$747 million or 12.7 percent. The increase in net position was primarily due to an increase in the receipt of documentary stamp tax distributions.

Transportation - This fund reported a fund balance of \$2.1 billion at June 30, 2023, an increase of \$231 million or 12.2 percent. The increase in fund balance was primarily due to an increase in investment earnings of \$241 million.

Proprietary Funds

The state's proprietary funds report combined ending net position of \$26.6 billion at June 30, 2023, of which \$14.5 billion is the net investment in capital assets and \$11.3 billion is restricted for specific purposes. The remaining \$0.8 billion was unrestricted and available for purposes of the various funds. Information is provided below regarding major funds with significant variances relative to the prior year.

Transportation - This fund reported net position of 15.3 billion at June 30, 2023, an increase of \$855 million or 5.9 percent. The increase in net position was primarily due to an increase in contributions to support road construction and other capital projects.

Lottery - This fund reported net position of \$44.1 million at June 30, 2023, an increase of \$11.6 million or 36 percent. The increase in net position was primarily due to ticket sales surpassing operating expenses and transfers to the Educational Enhancement Trust Fund (EETF). The increase resulted in a \$25.7 million increase in restricted for future prizes or special prize promotions and a \$14.2 million decrease in unrestricted net position.

Reemployment Assistance - This fund reported restricted net position of \$3.1 billion at June 30, 2023, an increase of \$1.3 billion or 68 percent. The increase in restricted net position was primarily due to a decrease in reemployment assistance claims.

Hurricane Catastrophe Fund - The restricted net position at June 30, 2023, totaled \$2.9 billion, a decrease of \$8 billion or 73 percent. The decrease in the Fund's net position is primarily a result of including the outstanding obligations for Hurricane Ian losses. The Hurricane Catastrophe fund's net position of \$2.9 billion includes the net position of the Florida Optional Reinsurance Assistance Program Premium fund, amounting to \$144.7 million.

Prepaid College Program - The restricted net position at June 30, 2023, totaled \$4.9 billion, an increase of \$821 million or 20 percent. The growth in net position and revenues can be attributed to investment gains driven by the overall rise in the financial markets. Meanwhile, the reduction in expenses is primarily a result of an increase in the discount rate employed by the actuary for calculating the present value of the Prepaid Plan's liabilities and receivables.

General Fund Budget Variances

Budgeted expenditures are based on revenues estimated by the Revenue Estimating Conference and other sources. Original expenditures are budgeted for less than total expected available resources. There was a \$8 billion increase between the original and final estimated revenues. Final budgeted total expenditures increased by \$568.2 million from the original budget. Variances between the original and final budget or between the final budgeted and actual amounts are not expected to significantly affect future services or liquidity. For additional information on the budget variances, refer to the Budgetary Comparison Schedule for the General Fund in the Other Required Supplementary Information section of the ACFR.

Capital Assets including Lease and Subscription-Based Information Technology (SBITA) Assets

Capital Asset Activity

At June 30, 2023, the state reported \$89.5 billion in net capital assets for governmental activities and \$18 billion in net capital assets for business-type activities. Net capital assets for governmental and business-type activities increased from fiscal year

2021-22 to fiscal year 2022-23 by approximately 2.9 percent. The increase is primarily due to the capitalization of construction costs for infrastructure projects. Capitalized infrastructure projects include additions to and/or enhancements of roadways and bridges on the state's highway system. Construction commitments by the Florida Department of Transportation were approximately \$17.4 billion. Construction commitments by other state agencies for major projects including office buildings and correctional facilities increased by approximately \$343.3 million compared to the prior year. Net capital assets also include leased assets and subscription-based information technology arrangements (SBITAs), net of amortization, totaling \$822 million and \$317 million, respectively. Refer to Note 6 in the notes to the financial statements for additional information on leased assets and SBITA assets. Refer to Note 7 to the financial statements for information on capital assets and Note 9 to the financial statements for information on construction commitments.

Long-term Debt Activity

Total bonded debt outstanding decreased by \$1.0 billion, or approximately 5.6 percent, from the prior fiscal year to a total of \$16.9 billion at June 30, 2023 due to new debt issued being less than scheduled amortization and debt service payments. The majority of the outstanding bonded debt serves to finance educational facilities (\$6.7 billion), the Florida Hurricane Catastrophe Fund (\$3.5 billion) and transportation (\$6.0 billion). New and refinanced bonded debt issues for 2023 totaled \$1 billion. Availability payment agreements contracts outstanding decreased from the prior year by \$115 million or 4.3 percent to a total of \$2.6 billion. The annual debt service requirements decreased from \$2.1 billion in 2022 to \$1.7 billion in 2023. The annual debt service payment experienced a notable reduction of almost \$400 million or 19 percent. This decline can be mainly attributed to the completion of the final milestone payment for the I-4 P3 in FY 2022. The annual debt service is projected to decrease to approximately \$1.6 billion through Fiscal Year 2024 to approximately \$794 million in FY2033.

Pursuant to the provisions of GASB Statement No. 68 – *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*, the State of Florida recorded \$7.8 billion in pension liabilities for the defined benefit plans it administers for the fiscal year ended June 30, 2022. The \$7.8 billion includes the State's proportionate share of the liability for the Florida Retirement System Pension Plan, the Retiree Health Insurance Subsidy Program, and the Florida National Guard Supplemental Retirement Benefit Plan. (See Note 8 to the Financial Statements for further information.)

Pursuant to the provisions of GASB Statement No. 75 - *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, the State of Florida recorded \$5.5 billion in other postemployment benefits liabilities for the fiscal year ended June 30, 2023. This resulted in a decrease of \$1.8 billion or 25 percent. (See Note 8 to the Financial Statements for further information.)

The state maintained its credit ratings during the past year. During the fiscal year ended June 30, 2023, all three major rating agencies (Standard & Poor's Rating Services, Fitch Ratings and Moody's Investors Services) rated the state in the highest rating category and have affirmed the state's AAA general obligation rating and stable outlooks. The state's benchmark debt ratio decreased in Fiscal Year 2023 to 2.93 percent and is projected to remain below the 6 percent policy target for the foreseeable future.

Section 11 of Article VII of the State Constitution authorizes the state to issue general obligation bonds or revenue bonds to finance or refinance fixed capital outlay projects authorized by law. General obligation bonds are secured by the full faith and credit of the state and payable from specified taxes. Revenue bonds are payable solely from specified revenues. The responsibility to issue most state bonds rests with the Division of Bond Finance of the State Board of Administration. However, certain quasi-governmental entities also incur debt and are reported as part of the primary government. See the *State of Florida 2023 Debt Report* for more detailed information about the state's debt position. The report can be found at www.sbafla.com/bondfinance or by contacting the Division of Bond Finance, 1801 Hermitage Boulevard, Suite 200, Tallahassee, Florida 32308, (850) 488-4782. Additional information on long-term debt is also found in Notes 6b, 8, 10, 11, 12 and 13 to the financial statements and the Statistical Section of this report.

Infrastructure Accounted for Using the Modified Approach

The state elected to use the modified approach to account for roadways, bridges, and other infrastructure assets of the State Highway System. Under this approach, the Florida Department of Transportation (FDOT) committed to maintain these assets at levels established by FDOT and approved by the Florida Legislature. No depreciation expense is reported for these assets, nor are amounts capitalized in connection with improvements that lengthen the lives of such assets, unless the improvements also increase their service potential. FDOT maintains an inventory of these assets and performs periodic assessments to establish that predetermined condition levels are being maintained. The condition assessments performed during fiscal year 2022-23 show that the roadways and bridges of the State Highway System are being maintained at or near FDOT standards. These condition assessments were consistent with condition assessments conducted during past years. In addition, FDOT makes annual estimates of the amounts that must be expended to maintain the roadways and bridges included on the State Highway System at the predetermined condition levels. These estimates are based on the FDOT five-year plan that is revised as projects are added, deleted, adjusted, or postponed. Refer to the Other Required Supplementary Information of the ACFR for information on FDOT's established condition standards, recent condition assessments, and other information on infrastructure reported on the modified approach.

Economic Factors

With a transition to a more stable economic environment that is nearing completion, many of the key metrics used to gauge the health of the overall economy were calming to normal growth patterns as the state's fiscal year ended June 30, 2023. After two years of double-digit increases, General Fund tax collections came in 7.5 percent higher than the prior fiscal year. Florida's experience differs notably from other states which collectively saw small growth in their General Funds (+0.9 percent across all states). Even so, signs of economic disruption were still evident, with varied impacts on household savings, the elevated use of credit, the continued normalization of spending on services and away from taxable goods, and strong inflationary pressures on households. Nonetheless, final state revenue collections exceeded prior expectations which had assumed a mild recession in the first and second quarters of the 2023 calendar year that failed to materialize. Ultimately, the annual growth rates for the General Fund are expected to go through a multiyear period of adjustment prior to stabilizing at the 2.8 percent annual growth projected for the long run.

Just over one-half (53.5 percent) of the year-over-year net increase in General Fund receipts (total revenue minus refunds) came from the gain in sales tax collections. Over the past 19 years, this revenue source's share of the fund has changed from a 70.6 percent in fiscal year 2004-05 to 75.6 percent in fiscal year 2022-23, which means that even a small percentage increase in collections from the prior year translates into a nontrivial dollar gain. As the economy continued to normalize in the post-pandemic world, total sales tax liability increased 7.2 percent from fiscal year 2021-22 to fiscal year 2022-23, with all but one of the state's six sales tax categories used for reporting purposes (consumer nondurables, tourism and recreation, autos and accessories, other durables, construction and building investment, and business investment) showing positive growth over the prior year. This equates to a \$2.72 billion increase from the fiscal year 2021-22 level for this source, of which \$1.76 billion flowed through to the General Fund after taking account of other revenue adjustments. Because the state's Revenue Estimating Conference had previously expected the underlying economic disruption to erode some of the potential sales tax growth, the final strength of that gain to the General Fund came as a windfall of \$419.4 million or 1.2 percent over the anticipated level for the year. There are several reasons why this occurred, but one is particularly problematic. The initial response to inflation is an increase in sales tax collections that reflects the higher prices. Persistent inflation conditions, however, ultimately suppress collections as consumers begin to spend more money on non-taxable necessities like food and healthcare. The precise turning point between the two conditions is difficult to predict.

Several revenue sources continued to perform better than expected, still benefiting from the lingering effects of government actions to provide relief and support during the first crucial stages of the pandemic. Among these sources, collections of both the documentary stamp and intangibles taxes rely predominantly on activity in the state's real estate market. To provide an important firewall between the turmoil in the economy at-large and the financial system, the Federal Reserve aggressively instituted rate cuts to near-zero percent, backstopped credit markets and created new facilities to buy corporate debt. One result was record low interest rates that set off a surge of home buying and refinancing that began in the last quarter of fiscal year 2019-20. Two years later, the Federal Reserve initiated a series of interest rate hikes to tame accelerating inflation (March 2022). The impact on mortgage rates and construction loans was felt throughout the 2022-23 fiscal year, with total Documentary Stamp Tax collections dropping -27.9 percent from the prior year's supercharged level. This was still \$229.8 million higher than expected for the year, with the General Fund benefiting by \$120.4 million. Reflecting a slightly different aspect of the market, intangibles tax collections, which entirely benefit the General Fund, ultimately lost 38.0 percent over its prior year level—although, collections were still higher than expected by \$39.2 million as refinancing activity showed some resilience in the early stages of the high-interest rate environment.

Setting a record since the original implementation of the tax in 1972, corporate income tax collections grew an astonishing 46.7 percent over the prior year. According to the Federal Reserve Bank of St. Louis, underlying profits remained high, and corporations were able to pass higher input costs fully onto consumers. In a follow-up analysis released by the Federal Reserve Bank of Kansas City, the authors suggested that “anticipatory price-setting, in which firms expect higher costs of production in the near future and thus raise prices on the goods they produce today” may have led to greater price increases than needed. To the extent that companies were able to maintain these higher prices as inflation began to stabilize and cool, corporate profits continued to increase. Even though the state's Revenue Estimating Conference had assumed that the 2022-23 fiscal year would have robust double-digit growth, corporate income tax receipts came in even stronger than expected, providing \$349.1 million of the gain to the estimate for the year. Going forward, corporate profits is one of the few areas where the outlook has unambiguously weakened throughout the new economic forecast. While economic profits for corporations grew by stronger than expected 5.3 percent in the 2022-23 fiscal year, the forecast is markedly softer in the 2023-24 and 2024-25 fiscal years, with economic profits turning negative.

In addition to sales tax and corporate income tax which were addressed above, two other General Fund sources showed material growth over the prior year: insurance premium tax and earnings on investments. In total, seven of the 17 active revenue sources, posted year-over-year gains. Of the 10 sources that lost ground during the year, the most significant have already been discussed (documentary stamp tax and intangibles taxes). The remainder (severance taxes, beverages taxes and licenses, pari-

mutuel taxes, counties' Medicaid share, service charges, tobacco taxes, highway safety licenses and fees, and article V fees) did not have material dollar losses. Revenue sharing from the Seminole Tribe of Florida—which typically comprises the 18th revenue source—was suspended during this period.

The Revenue Estimating Conference last met in January 2024 to revise the General Fund forecast for fiscal years 2023-24 and 2024-25. After coming in nearly \$1.26 billion over estimate since the beginning of the current fiscal year, the Conference added a similar amount (\$1.59 billion) to the overall forecast for the 2023-24 fiscal year. Even at that, relative to actual collections in fiscal year 2022-23, the new forecast for fiscal year 2023-24 has a decline of -0.2 percent due to the net effect of legislative changes, the forecast adjustments, and the diminishing impact from Hurricane Ian recovery efforts. The projected growth in fiscal year 2024-25 over the prior forecast is \$585.5 million, yielding a two-year combined increase of \$2.18 billion. These changes reflect increases over the previous estimates of 3.5 percent in fiscal year 2023-24 and 1.2 percent in fiscal year 2024-25.

As a buffer against any future emergencies and to control recurring spending commitments, the latest General Revenue Outlook shows that there will be \$10.83 billion in unallocated general revenue remaining at the end of the current fiscal year. In addition, the state's major reserve for emergencies, the Budget Stabilization Fund, has a planned balance of \$4.14 billion. The fund balance is now at the highest recorded level in its history. In addition, the Legislature created the Emergency Preparedness and Response Fund during the 2022 Regular Session as a primary source of funding for preparing or responding to a disaster declared by the Governor as a state of emergency. Between the three funds, reserves total \$15.79 billion or 33.4 percent of the state's estimated General Fund tax collections for the current year (after payment of refunds). This level is materially higher than the analysis included in the state's Long-Range Financial Outlook adopted in September 2023. According to that document, the state will not have a budget gap in the upcoming fiscal year (2024-25), meaning the projected revenues will meet all anticipated needs. At the time the report was adopted by the state's Legislative Budget Commission, the projected surplus of revenues over needs for fiscal year 2024-25 was \$7.03 billion, but 57.8 percent of this was nonrecurring dollars.

GOVERNMENTAL FUND FINANCIAL STATEMENTS

Major Funds

GENERAL FUND

This fund is the State's primary operating fund. It accounts for the financial resources and transactions not accounted for in other funds.

NATURAL RESOURCES, ENVIRONMENT, AND GROWTH MANAGEMENT

This fund accounts for operations of various programs, such as air pollution control, water quality assurance, ecosystem management, and marine resources conservation.

PUBLIC EDUCATION

This fund includes internal reporting funds administered by the Department of Education to operate education-related programs.

HEALTH AND FAMILY SERVICES

This fund includes internal reporting funds used to operate various health and family service-related programs, such as health care, elder affairs, and public assistance.

TRANSPORTATION

This fund includes the internal reporting special revenue funds used to account for the administration of the maintenance and development of the State highway system and other transportation-related projects.

Nonmajor Governmental Funds

Nonmajor governmental funds are presented, by fund type, beginning on page 215.

**RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS TO
THE STATEMENT OF NET POSITION
FOR THE FISCAL YEAR ENDED JUNE 30, 2023
(in thousands)**

Total fund balances for governmental funds \$ 53,270,898

Amounts reported for governmental activities in the Statement of Net Position are different because:

Capital assets and leased assets used in governmental activities reported in governmental funds are not financial resources and therefore are not reported in the funds.

Land and other nondepreciable assets	22,980,206	
Nondepreciable infrastructure	59,912,874	
Buildings, equipment and other depreciable assets	7,533,266	
Accumulated depreciation	(5,100,464)	
Construction work in progress	2,245,071	
		87,570,953
Right to use subscriptions	333,424	
Non-amortizable leased assets	—	
Right to use leased assets	771,337	
Accumulated amortization	(174,633)	
		930,128

Long-term liabilities are not due and payable in the current period and therefore are not reported in the funds.

Compensated absences	(857,739)	
Subscription liabilities	(288,969)	
Installment purchases/leases/public-private partnership agreements	(3,502,381)	
Claims payable	(3,272,302)	
Bonds payable	(9,866,406)	
Certificates of participation payable	(35,356)	
Pension liability	(5,252,432)	
Other postemployment benefits	(7,578,337)	
Due to other governments	(322,482)	
Other	(22,350)	
		(30,998,754)

Deferred amounts on refunding are reported in the Statement of Net Position as deferred outflows or deferred inflows of resources (to be amortized as interest expense) but are not reported in the funds. (58,576)

Deferred amounts for pension-related items are reported in the Statement of Net Position as deferred outflows or deferred inflows of resources (to be amortized as pension expense) but are not reported in the funds. 1,363,082

Deferred amounts for other postemployment items are reported in the Statement of Net Position as deferred outflows or deferred inflows of resources (to be amortized as pension expense) but are not reported in the funds. (3,548,667)

Accrued interest payable on bonds that is not recognized on the fund statements but is recognized on the Statement of Net Position. (330)

Assets (receivables) not available to provide current resources are offset with deferred inflows of resources in the fund statements. The reduction of the deferred inflow and recognition of revenue increases net position in the Statement of Net Position. 2,975,197

Internal service funds are used to report activities that provide goods and services to other funds or agencies within the state. Therefore, the excess of assets over liabilities of the internal service funds are included as governmental activities on the Statement of Net Position.

674,145

Net position of governmental activities \$ 112,178,076

The notes to the financial statements are an integral part of this statement.

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES
IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2023**

(in thousands)

Net change in fund balance - total governmental funds		\$	8,281,688
Internal service funds are used by management to charge the costs of goods or services to other funds and agencies within the state. Therefore, the net revenue (expense) of the internal service funds is reported with governmental activities.			27,877
Governmental funds report capital outlays and leases as expenditures. However, in the Statement of Activities the cost of these assets are allocated over the estimated useful lives of the assets and reported as depreciation and amortization expense. The amount by which capital outlay and lease expenditures exceeded depreciation and amortization in the current period.			
Capital outlay and lease expenditures	1,872,631		
Subscription expenditures	333,424		
Lease expenditures	765,867		
Capital asset transfers, net	(127,292)		
Depreciation and amortization expense	(462,436)		
			2,382,194
In the Statement of Activities, the gain or (loss) on the sale of assets is reported whereas in the governmental funds only the proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balances by the cost of the assets sold.			(54,233)
In the Statement of Activities, some revenues are recognized that do not provide current financial resources and are not recognized as revenues in the governmental funds until available, i.e., deferred inflows of resources, unavailable revenue.			(466,471)
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.			
Increase in compensated absences	95,138		
Decrease in accrued interest	(21,945)		
Increase in claims payable	915,980		
Decrease in other postemployment benefits	(406,295)		
Decrease in net pension related items	(84,232)		
Decrease in due to other governments	(17,497)		
Increase in other liabilities	(15)		
			481,134
The incurrence of long-term debt (e.g., bonds) and leases provides current financial resources to governmental funds, while the repayments of the principal of long-term debt and the payment of leases consumes the current financial resources of governmental funds. Neither transaction has any effect on net position. Also, governmental funds report the effect of premiums, discounts, deferred amounts on refundings when debt is issued, whereas these amounts are deferred and amortized in the Statement of Activities.			
Bond proceeds and leases issued	(239,466)		
Refunding bond proceeds	(426,367)		
Financing agreement proceeds (leases and subscriptions issued)	(1,387,945)		
Repayment of bonds	1,031,626		
Repayment of leases/installment purchase contracts/certificates of participation	213,902		
Payment to refunded bond escrow agent	426,367		
Amortization of bond premium	178,390		
Amortization of amount deferred on refunding of debt	2,217		
Other	4,000		
			(197,276)
Change in net position of governmental activities		\$	<u>10,454,913</u>

The notes to the financial statements are an integral part of this statement.

PROPRIETARY FUND FINANCIAL STATEMENTS

Major Funds

TRANSPORTATION

This fund primarily accounts for operations of the Florida Turnpike Enterprise which includes the Florida Turnpike System.

LOTTERY

This fund accounts for state lottery operations, which include sale of lottery tickets, payment of lottery prizes, and transfers to the Education Enhancement Trust Fund.

FLORIDA HURRICANE CATASTROPHE FUND

This fund, administered by the State Board of Administration, is used to help cover insurers' losses in the event of a hurricane disaster. This fund accounts for operations of the Florida Hurricane Catastrophe Fund, the Reinsurance to Assist Policyholders Program, and the Florida Optional Reinsurance Assistance Program each created to help cover insurer losses in the event of a hurricane disaster.

PREPAID COLLEGE PROGRAM

This fund, administered by the State Board of Administration, is used to account for payments from purchasers of the Florida Prepaid College Program, a blended component unit. This program was created to provide a medium through which the cost of state post-secondary education may be paid in advance of enrollment at a rate lower than the projected corresponding costs at the time of enrollment.

REEMPLOYMENT ASSISTANCE

This fund accounts for the receipt of monies for and payment of unemployment compensation benefits.

Nonmajor Enterprise Funds

Nonmajor enterprise funds are presented on page 256.

Internal Service Funds

Internal service funds are presented on page 263.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The State of Florida's (the state's) financial reporting entity includes the primary government (i.e., legislative agencies, the Governor and Cabinet, departments and agencies, commissions and boards of the Executive Branch, and various offices relating to the Judicial Branch) and its component units.

Component units, as defined in Governmental Accounting Standards Board (GASB) Codification Section 2100, *Defining the Financial Reporting Entity*, and Section 2600, *Reporting Entity and Component Unit Presentation and Disclosure*, are legally separate organizations for which the elected officials of the state are financially accountable. Financial accountability is the ability of the state to appoint a voting majority of an organization's governing board and to impose its will upon the organization. When the state does not appoint a voting majority of an organization's governing body, GASB standards require inclusion in the financial reporting entity if: (1) an organization is fiscally dependent upon the state because its resources are held for the direct benefit of the state or can be accessed by the state and (2) the potential exists for the organization to provide specific financial benefits to, or impose specific financial burdens on the state. In addition, component units can be other organizations for which the nature and significance of their relationship with the state are such that exclusion would cause the state's financial statements to be misleading.

Blended Component Units

A component unit is reported as blended when either (1) the component unit's governing body is substantively the same as the governing body of the state, *and* (a) there is a financial benefit or burden relationship between the governing body of the state and the component unit, *or* (b) management of the governing body of the state has operational responsibility for the component unit, *or* (2) the component unit provides services entirely, or almost entirely, to the state or otherwise exclusively, or almost exclusively, benefits the state, *or* (3) the component unit's outstanding debt is expected to be repaid entirely or almost entirely with resources of the state.

The following component units provide services entirely or almost entirely to the primary government, or have outstanding debt that is expected to be paid entirely or almost entirely with state resources:

- Career Source Florida, Inc.
- Corrections Foundation, Inc.
- Florida Board of Governors
- Florida Citrus Commission (Department of Citrus)
- Florida Clerks of Court Operations Corporation
- Florida Commission on Community Service (Volunteer Florida)
- Florida Department of Transportation Financing Corporation*
- Florida Engineers Management Corporation
- Florida Prepaid College Board
- Florida School for the Deaf and the Blind
- Florida Surplus Lines Service Office
- Florida Water Pollution Control Financing Corporation
- Inland Protection Financing Corporation
- Prescription Drug Monitoring Program Foundation*
- Space Florida
- State Board of Administration (SBA)
- State Board of Education (SBE)
- Wireless Emergency Telephone System

Blended component units that are considered major funds are reported in separate columns in the fund financial statements. Other blended component units that are considered non-major funds are reported with other funds in the appropriate columns in the fund financial statements. In addition, the financial data for some blended component units are reported in more than one fund type, some of which are considered major and others that are considered non-major. Refer to Section D of this note for more information on the determination criteria for major funds and a list of major funds and fund types.

* The state's financial statements do not include amounts relating to these component units. The assets of these component units at June 30, 2023, are approximately \$1.9 million.

Discretely Presented Component Units

Component units that are not blended are discretely presented. In the government-wide financial statements, discrete presentation entails reporting component unit financial data in a column separate from the financial data of the state.

In addition, financial data for discretely presented component units that are considered major are reported in separate columns in the basic financial statements for component units. Discretely presented component units that are considered non-major are combined and reported in one column in the component unit financial statements and are aggregated by type in the combining statements. The state's financial statements are reported for the fiscal year ended June 30, 2023. The state's component units' financial statements are reported for the most recent fiscal year for which an audit report is available. Some component units have a fiscal year other than June 30. Accordingly, amounts reported by the state as due from and to component units on the statement of net position may not agree with amounts reported by the component units as due from and to the state. Refer to Section D of this note for more information on major fund determination and presentation. The state's discretely presented component units are grouped into the following categories:

State Universities and Colleges. State universities and colleges receive funding from the state. The State University System is governed by the Florida Board of Governors. The Florida College System is governed by the State Board of Education. Each university and college is administered by a local board of trustees. All state universities and colleges have a June 30 year-end. Component units included in this category are:

State Universities

Major:

- University of Florida¹

Non-major:

- Florida Agricultural and Mechanical University
- Florida Atlantic University
- Florida Gulf Coast University
- Florida International University
- Florida Polytechnic University
- Florida State University
- New College of Florida
- University of Central Florida
- University of North Florida
- University of South Florida
- University of West Florida

Florida College System Institutions

Non-major:

- Broward College
- Chipola College
- College of Central Florida
- Daytona State College
- Eastern Florida State College
- Florida Gateway College
- The College of the Florida Keys
- Florida State College at Jacksonville
- Florida SouthWestern State College
- Gulf Coast State College
- Hillsborough Community College
- Indian River State College
- Lake-Sumter State College
- Miami Dade College
- North Florida College
- Northwest Florida State College
- Palm Beach State College
- Pasco-Hernando State College
- Pensacola State College
- Polk State College
- Santa Fe College

- Seminole State College of Florida
- South Florida State College
- St. Johns River State College
- St. Petersburg College
- State College of Florida, Manatee-Sarasota
- Tallahassee Community College
- Valencia College

¹ Significant transactions occurring during the 2022-23 fiscal year between the University of Florida and the state totaled \$1.3 billion. These funds represent state appropriated funds to the University of Florida.

Florida Housing Finance Corporation (Major). Pursuant to Section 420.504, Florida Statutes (F.S.), this corporation was created as an entrepreneurial public corporation organized to provide and promote public welfare by administering the governmental function of financing or refinancing housing and related facilities in Florida. This entity has a December 31 year-end. Significant transactions occurring during the 2022-23 fiscal year between the Florida Housing Finance Corporation and the state included revenues of state documentary stamp taxes totaling \$291 million.

Citizens Property Insurance Corporation (Major). Pursuant to Section 627.351(6), F.S., this corporation was created to provide certain residential property and casualty insurance coverage to qualified risks in the state under specified circumstances. This entity has a December 31 year-end. For additional information, refer to Note 17D.

Water Management Districts. Pursuant to Section 373.069, F.S., these districts were created to provide for the management and conservation of water and related land resources. In addition, the general regulatory and administrative functions of these districts are either fully or in part financed by general appropriations. Water management districts have a September 30 year-end. Component units included in this category are:

Non-major:

- Northwest Florida Water Management District
- St. Johns River Water Management District
- South Florida Water Management District
- Southwest Florida Water Management District
- Suwannee River Water Management District

Other. Additional discretely presented component units of the state include various foundations and not-for-profit organizations. The fiscal year-ends of these component units may vary. Component units included in this category are:

Non-major:

- Commission for Florida Law Enforcement Accreditation, Inc.*
- Enterprise Florida, Inc.
- Florida Agricultural Museum*
- Florida Agriculture Center and Horse Park Authority*
- Florida Agriculture in the Classroom, Inc.*
- Florida Alliance to End Human Trafficking*
- Florida Birth-Related Neurological Injury Compensation Plan
- Florida Board of Governors Foundation, Inc.*
- Florida Concrete Masonry Education Council*
- Florida Corrections Accreditation Commission, Inc.*
- Florida Education Foundation, Inc.*
- Florida Education Fund, Inc.
- Florida Foundation for Correctional Excellence*
- Florida Fund for Minority Teachers, Inc.*
- Florida Healthy Kids Corporation
- Florida is for Veterans, Inc.*
- Florida Mobile Home Relocation Corporation*
- Florida State Fair Authority
- Florida Telecommunications Relay, Inc.*
- Florida Tourism Industry Marketing Corporation, Inc.
- Florida Veterans Foundation, Inc.*
- Florida Virtual School

- Forestry Arson Alert Association, Inc.*
- Friends of Florida State Forests, Inc.*
- Higher Educational Facilities Financing Authority
- Prison Rehabilitative Industries and Diversified Enterprises, Inc. (PRIDE)
- South Florida Regional Transportation Authority
- The Florida College System Foundation, Inc.*
- The Florida Endowment Foundation for Vocational Rehabilitation, Inc.
- Triumph Gulf Coast, Inc.
- Wildlife Alert Reward Association*
- Wildlife Foundation of Florida, Inc.*

*The state's financial statements do not include amounts relating to several component units. The assets and revenues relating to these component units totaled \$124 million and \$40 million, respectively. These amounts represent less than one percent of total aggregate component unit assets and revenues.

Joint Ventures

A joint venture is an organization that results from a contractual arrangement and that is owned, operated, or governed by two or more participants as a separate and specific activity subject to joint control, in which the participants retain (1) an ongoing financial interest or (2) an ongoing financial responsibility. Financial data for the state's joint ventures are not included in its statements. The state's joint ventures include the following:

Apalachicola-Chattahoochee-Flint River Basin (ACFRB) Commission. Section 373.69, F.S., provides for the creation of an interstate administrative agency to promote interstate comity, remove causes of present and future controversies, equitably apportion the surface waters of the ACFRB, and engage in water planning. Operational funding required by the Commission is equally shared among the party states.

Board of Control for Southern Regional Education. Section 1000.32, F.S., promotes the development and maintenance of regional education services and facilities in the southern states to provide greater educational advantages and facilities for the citizens in the region. The states established a joint agency called the Board of Control for Southern Regional Education to submit plans and recommendations to the states from time to time for their approval and adoption by appropriate legislative action for the development, establishment, acquisition, operation, and maintenance of educational facilities in the region.

Regional Planning Councils. Sections 186.501 through 186.513, F.S., the "Florida Regional Planning Council Act," provide for the creation of regional planning agencies to assist local governments in resolving their common problems. The regional planning councils are designated as the primary organizations to address problems and plan solutions that are of greater-than-local concern or scope. Participants in these councils are required by statutes to contribute to the support of these programs.

Southern States Energy Compact. Section 377.711, F.S., enacted this compact into law joining the State of Florida and other states to recognize that the proper employment and conservation of energy, and the employment of energy-related facilities, materials, and products can assist substantially in the industrialization of the South and the development of a balanced economy in the region. The State of Florida appropriates funds to support Florida's participation in the compact.

Interstate Commission of Nurse Licensure Compact Administrators. Section 464.0095, F.S., enacted this compact into law joining the State of Florida and other states with the general purpose to facilitate the states' responsibility to protect the public's health and safety with regard to nurse licensure and regulation. This compact is additionally purposed with facilitating the exchange of information among party states in the areas of nurse regulation, investigation, and adverse actions, promote compliance with the laws governing the practice of nursing, and decrease redundancies in the consideration and issuance of nurse licenses.

Related Organizations

Organizations for which the state is accountable because the state appoints a voting majority of the board, but for which the state is not financially accountable, are deemed "related organizations." The state's related organizations include certain transportation authorities, hospital districts, tourism oversight district, port authorities, aviation authorities and a financing corporation. The state is not financially accountable for any of these organizations; therefore, applicable financial data is not included in the state's financial statements.

Contact

Financial statements of the component units that issue separate statements and other financial statement-related information may be obtained from:

Department of Financial Services
Bureau of Financial Reporting
Statewide Financial Reporting Section
200 East Gaines Street
Tallahassee, Florida 32399-0364
Telephone: (850) 413-5511
Department Website: <http://www.myfloridacfo.com>

Joint ventures may be contacted directly for their financial statements.

B. Basic Financial Statements

The state's financial statements have been prepared in accordance with generally accepted accounting principles as prescribed by GASB. The basic financial statements of the state, including its component units, are presented in the required format discussed below.

Government-wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from its discretely presented component units.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable to a specific function. Some functions may include administrative overhead that is essentially indirect expenses of other functions. The state currently does not allocate those indirect expenses to other functions. Program revenues include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function; (2) grants and contributions that are restricted to meeting the operational requirements of a particular function; and (3) grants and contributions that are restricted to meeting the capital requirements of a particular function. Taxes and other items not included in program revenues are reported in general revenues.

Fund Financial Statements

Separate fund financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

C. Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned, while expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as they become susceptible to accrual, generally when they are both measurable and available. Revenues collected within 60 days of the end of the current fiscal year are considered available, with the exception of certain tax revenues, which are considered available when collected within 30 days of year-end. For governmental funds, certain long-term liabilities, such as compensated absences, due within 60 days of the end of the current fiscal year are expected to be liquidated with expendable financial resources and are recognized within the applicable governmental fund. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, expenditures for insurance and similar services extending over more than one fiscal year generally are accounted for as expenditures of the fiscal year of acquisition. Further, principal and interest on general long-term debt are recognized when due.

D. Basis of Presentation

Major Funds

GASB Codification Section 2200, *Annual Comprehensive Financial Report*, sets forth minimum criteria (percentage of the total assets and deferred outflows of resources, total liabilities and deferred inflows of resources, revenues, or expenditures/expenses for either fund category or the governmental and enterprise funds combined) for the determination of major funds. GASB Codification Section 2200 further requires that the reporting government's main operating fund (the General Fund) always be reported as a major fund. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. The non-major funds are combined in a column in the fund financial statements and detailed in the combining statements. The state reports the following major funds:

Major Governmental Funds

General Fund – a fund that accounts for the financial resources of the state, except those required to be accounted for in another fund. This is the state's primary operating fund.

Natural Resources, Environment, and Growth Management – a special revenue fund that accounts for the operations of various programs such as air pollution control, water quality assurance, ecosystem management, and marine resources conservation. Transfers from other funds, pollutant tax collections, and federal grants are its major sources of revenue.

Public Education – a special revenue fund that includes funds used to operate education-related programs. Significant sources of revenue for this fund are federal grants, transfers from the Florida Lottery, and utility taxes.

Health and Family Services – a special revenue fund that includes funds used to operate various health and family service-related programs such as health care, elder affairs, and public assistance. Federal grants are the predominant sources of revenue for this fund.

Transportation – a special revenue fund that accounts for the maintenance and development of the state highway system and other transportation-related projects. It accounts for federal grants, motor fuel and aviation fuel taxes, automobile registration fees, and other revenues that are used for transportation purposes.

Major Business-type Funds

Transportation – an enterprise fund that primarily accounts for operations of Florida's Turnpike System.

Lottery – an enterprise fund that accounts for state lottery operations, which include sale of lottery tickets, payment of lottery prizes, and transfers to the Educational Enhancement Trust Fund.

Florida Hurricane Catastrophe Fund – an enterprise fund that accounts for operations of the Florida Hurricane Catastrophe Fund, which was created to help cover insurer losses in the event of a hurricane disaster. The Hurricane Catastrophe Fund also accounts for reinsurance programs created to reimburse participating insurer losses in the event of a hurricane disaster.

Prepaid College Program – an enterprise fund that accounts for payments from purchasers of the Florida Prepaid College Program. This program was created to provide a medium through which the cost of state post-secondary education may be paid in advance of enrollment at a rate lower than the projected corresponding costs at the time of enrollment.

Reemployment Assistance – an enterprise fund that accounts for contributions, benefit payments, grants, loans, and investments for the Unemployment Compensation Fund, which was created to pay reemployment assistance benefits to eligible individuals.

Fund Types

Additionally, the state reports the following fund types:

Internal Service Funds

These proprietary-type funds are primarily used to report activities that provide goods or services to other funds or agencies within the state, rather than to the general public. Internal service funds are classified into the following categories:

- **Employee Health and Disability** – includes funds that account for state employee health and disability plans.

- **Data Centers** – includes funds that account for services provided by data processing centers operated by various agencies.
- **Communications and Facilities** – includes funds that primarily account for services provided by the Department of Management Services such as those related to the construction, operation, and maintenance of public facilities, and management and operation of the SUNCOM (state communication) Network.
- **Other** – includes funds that account for services provided to other state agencies such as legal services, records management, and community services (inmate work squads).

Fiduciary Fund Types

Fiduciary funds are used to report assets held in a trustee or agency capacity for others; therefore, cannot be used to support the state's own programs.

Private-Purpose Trust Funds – funds that are used to report trust arrangements under which principal and income benefit individuals, private organizations, or other governments including funds accounting for unclaimed property, federally guaranteed higher education loans, contributions to a college savings plan, and various others.

Pension and Other Employee Benefits Trust Funds – funds that are used to report resources that are required to be held in trust for the members and beneficiaries of the state's pension plans and other employee benefit plans.

Custodial Funds – funds that are used to report fiduciary activities that are not required to be reported in pension (and other employee benefit) trust funds, investment trust funds, or private-purpose trust funds. For example, these funds account for asset and liability balances related to retiree health care, taxes collected and held by the Department of Revenue for other entities, and student funds held by the Florida School for the Deaf and the Blind.

Investment Trust Funds – funds that are used to report the external portion of investment pools reported by the state.

E. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position/Fund Balance

Cash and Cash Equivalents

The state's cash includes cash on hand and on deposit in banks, including demand deposits, certificates of deposit, and time deposits. Most deposits are held by financial institutions qualified as public depositories under Florida law. Cash equivalents are short-term, highly liquid investments. For the purposes of GASB Codification Section 2450, *Cash Flows Statements*, pooled investments with the State Treasury are considered cash equivalents. Details of deposits are included in Note 3.

Investments

Florida Statutes authorize the state to invest in various instruments. The state reports investments in accordance with GASB Codification Section I50, *Investments*.

Investments with the State Treasury are reported at fair value which is obtained from independent pricing service providers. Independent pricing service providers use quoted market prices when available and employ various, sometimes proprietary, multifactor models for determining a security's fair value if it is not available from quoted market prices. Some securities, including U.S. government, municipal bonds, and mortgage-backed and asset-backed securities, are priced using evaluated bid prices. Evaluated bid prices are determined by taking bid prices and adjusting them by an evaluated adjustment factor derived from the independent pricing service's multifactor model. If values are not available using the above methods, secondary methods such as non-evaluated mid-price and bid price are used. If no source of values is available, cost or last available price from any source is used, or other pricing methodology as directed by the State Treasury.

Investments managed by the State Board of Administration (SBA) are reported in various funds. Investments of the Debt Service Escrowed Fund, which meet the requirements of a legal or in-substance defeasance, are reported at cost. Investments of the Local Government Surplus Funds Trust Fund are reported based on amortized cost. Other investments managed by the SBA, including those related to the state's defined benefit and defined contribution pension plans, are reported at fair value at the reporting date.

For SBA-managed investments, fair values are obtained or estimated in accordance with the Global Pricing Guidelines established with the SBA's custodian, BNY Mellon Bank. BNY Mellon Bank uses a variety of independent pricing vendors and designates certain vendors as the primary source based on asset type, class or issue. BNY Mellon Bank monitors prices supplied by primary sources and may use a supplemental price source or change the primary price source if any of the following occurs:

- The price of a security is not received from the primary price source.
- The primary price source no longer prices a particular asset type, class, or issue.
- The SBA or its portfolio investment manager challenges a price and BNY Mellon Bank reviews the price with the vendor, who agrees that the price provided by that vendor may not be appropriate.
- The price from the primary source exceeds BNY Mellon Bank's price tolerance checkpoints and results in a vendor comparison review where another source is deemed to be more appropriate by the BNY Mellon Bank.

When a portfolio includes securities or instruments for which BNY Mellon Bank does not receive fair value information from its vendor price sources, BNY Mellon Bank uses a "non-vendor price source." Examples include, but are not limited to, limited partnerships or similar private investment vehicles that do not actively trade through established exchange mechanisms; other private placements where there is limited or no information in the market place; and unique fixed income and equity instruments. The SBA does not provide direction regarding the substitution of prices in such instances where securities or instruments are in the portfolio of an investment manager appointed by the SBA. In such cases where the SBA directed the purchase of such securities or instruments, BNY Mellon may obtain the non-vendor prices by contacting the SBA only if it is not commercially reasonable to directly obtain the non-vendor price information from the broker of record, as identified by the SBA.

For private market investments, where no readily ascertainable market value exists (including limited partnerships, hedge funds, directly-owned real estate, and real estate pooled funds), fair values for the individual investments are based on the net asset value (capital account balance) at the closest available reporting period, as communicated by the general partner and/or investment manager, adjusted for subsequent contributions and distributions. The valuation techniques vary based upon investment type and involve a certain degree of judgment. The most significant input into the net asset value of an entity is the value of its investment holdings. The net asset value is provided by the general partner and/or investment manager and reviewed by management.

Annually, the financial statements of all private market investments are audited by independent auditors. Private market investments in which the SBA has a controlling interest are also required to be valued annually by independent, licensed external appraisers selected by an appraisal management company retained by the SBA.

All derivative financial instruments are reported at fair value in the statements of net position. The instruments are adjusted to fair value at least monthly, with valuation changes recognized in investment earnings. Gains and losses are recorded in the statements of changes in net position as "net increase (decrease) in fair market value" during the period.

Because of the inherent uncertainty of the valuation using pricing methodologies other than the quoted market prices, the estimated fair values may differ from the values that would have been used had a ready market existed.

Investment detail is included in Note 3.

Inventories

Inventories primarily consist of expendable supplies. Inventories are recorded according to the consumption method as expenditures when consumed. At the end of the fiscal year, inventory is reported as an asset and identified in fund balance as non-spendable. The method used to determine the cost of inventories varies by agency responsible for the inventories.

Capital Assets

Capital assets are real, personal, and intangible property, as well as intangible right-to-use lease assets, that have a cost equal to or greater than an established capitalization threshold and have an estimated useful life extending beyond one year. For additional information, refer to Note 7.

Deferred Outflows of Resources

A consumption of net assets by the government that is applicable to a future reporting period is presented as a deferred outflow of resources.

Long-term Liabilities

Refer to Note 6 for information on leases and subscription-based information technology arrangements (SBITAs); Note 8 for information on pension and other postemployment benefit (OPEB) liabilities; Note 10 for information on bonds payable and certificates of participation; Note 11 for information on installment purchases; Note 12 for public-private partnership agreements and availability payment arrangements; and Note 13 for changes in long-term liabilities.

Leases and Subscription Obligations

The State has both leases under which it is obligated as a lessee and leases for which it is a lessor.

Leases and Subscription-Based Information Technology Arrangements (SBITAs) are included in capital assets and long-term liabilities on the Statement of Net Position.

An intangible right-to-use asset represents the State's right to use an underlying asset for the lease or SBITA term. Lease obligations represent the State's liability to make lease payments arising from lease agreements or SBITA agreements. Intangible right-to-use assets and lease obligations are recognized based on the present value of lease payments over the lease term, where the initial term exceeds twelve months. Residual value guarantees and the value of an option to extend or terminate a lease are reflected to the extent it is reasonably certain to be paid or exercised. Variable payments based on future performance or usage are not included in the measurement of the lease obligation. Intangible right-to-use assets are amortized using a straight-line basis over the shorter of the lease term or useful life of the underlying asset.

The State is a lessor for non-cancelable leases of land and land improvements, buildings, and equipment. Rental income arising from leases as a lessor is included as a receivable and deferred inflow of resources at the commencement of the lease and revenue is recognized on a straight line basis over the lease term. For additional information, refer to Note 4.

At the commencement of the leases, the lease receivables are measured at the present value of payments expected to be received during the lease term. Subsequently, the lease receivables are reduced by the principal portion of lease payments received. The deferred inflows of resources are initially measured as the amounts of the lease receivables, adjusted for lease payments received at or before the lease commencement dates. Subsequently, the deferred inflows of resources are recognized as revenue over the life of the lease terms.

Key estimates and judgments include how the state determines the discount rate it uses to discount the expected lease receipts to present value, lease term, and lease receipts.

- a. The state uses its estimated incremental borrowing rate as the discount rate for leases.
- b. The lease terms include the noncancelable periods of the leases.
- c. Lease receipts included in the measurement of the lease receivables are composed of fixed payments from the lessees.

The state monitors changes in circumstances that would require a remeasurement of its leases, and will remeasure the lease receivables and deferred inflows of resources if certain changes occur that are expected to significantly affect the amounts of the lease receivables. Lease detail is included in Note 6.

At the commencement of each lease and subscription, the liability is measured at the present value of payments expected to be made during the term. Subsequently, the lease and subscription liabilities are reduced by the principal portions of payments made. The RTU lease and subscription assets are measured as the initial amount of the individual liabilities, adjusted for payments made at or before the lease and subscription commencement dates, plus certain initial direct costs. Subsequently, the RTU lease and subscription assets are amortized on a straight-line basis over their useful lives.

Key estimates and judgments related to leases and subscriptions include how the state determines the discount rate it uses to discount the expected lease and subscription payments to present value, lease and subscription term, and lease and subscription payments.

- The interest rate charged by the lessor is used as the discount rate. When an interest rate charged by the lessor is not provided, the estimated incremental borrowing rate is used as the discount rate for leases and subscriptions.
- The lease terms include the noncancelable period of the leases and subscriptions and option years that the state is reasonably certain to exercise. Lease and subscription payments included in the measurement of the lease and subscription liabilities are composed of fixed payments and purchase option prices that the state is reasonably certain to exercise.

The state monitors changes in circumstances that would require a remeasurement of its leases and will remeasure the lease assets and liabilities if certain changes occur that are expected to significantly affect the amount of the lease liabilities. Lease and subscription assets are reported with capital assets and lease and subscription liabilities are reported with long-term debt on the statement of net position.

For additional information, refer to Note 6.

Compensated Absences Liability

Employees earn the right to be compensated during absences for vacation and illness as well as for unused special compensatory leave earned for hours worked on legal holidays and other specifically authorized overtime. Compensated absences for annual leave are recorded as a liability when the benefits are earned. Compensated absences for sick leave are calculated based on the vesting method. Within the limits established by law or rule, the value of unused leave benefits will be paid to employees upon separation from state service. The amounts reported for compensated absences are based on current year-end salary rates and include employer Social Security and Medicare tax and pension contributions at current rates.

Deferred Inflows of Resources

A deferred inflow of resources is an acquisition of net assets by the government that is applicable to a future reporting period.

Components of Net Position

The government-wide statement of net position classifies net position into the following categories: (1) net investment in capital assets, (2) restricted, and (3) unrestricted. The “net investment in capital assets” component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. “Restricted” net position is reported when constraints are placed on net position that are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation. “Unrestricted” net position consists of net position that does not meet the definition of “restricted” or “net investment in capital assets.” When both restricted and unrestricted resources are to be used for the same purpose, the agency responsible for administering the resources determines the flow assumption used to identify the portion of expenses paid from restricted resources. At June 30, 2023, the government-wide statement of net position reported a restricted net position of \$25.4 billion, of which \$10.36 billion is restricted by enabling legislation.

Components of Fund Balance

Nonspendable fund balance includes amounts that cannot be spent. This includes activity that is not in a spendable form such as inventories, prepaid amounts, and long-term portion of loans and notes receivable, net, unless the proceeds are restricted, committed or assigned. Additionally, activity that is legally or contractually required to remain intact, such as a principal balance in a permanent fund, is considered to be nonspendable.

Restricted fund balance has constraints placed upon the use of the resources either by an external party, such as the Federal Government, or imposed by law through a constitutional provision or enabling legislation.

Committed fund balance includes amounts that can be used only for the specific purposes determined by a formal action of the state’s highest level of decision-making authority, the Legislature and the Governor, i.e., through legislation passed into law. Commitments may only be modified or rescinded by equivalent formal, highest-level action.

Unassigned fund balance is the residual amount of the General Fund not included in the three categories described above. Also, any remaining deficit fund balances within the other governmental fund types are reported as unassigned.

When an expenditure is incurred for purposes for which both restricted and unrestricted resources are available, it is the state’s general policy to use restricted resources first. When expenditures are incurred for which unrestricted (committed or unassigned) resources are available, and amounts in any of these unrestricted classifications could be used, it is the state’s general policy to spend committed resources first. However, the agency responsible for administering the resources determines the flow assumption used to identify the portion of expenses paid from restricted resources.

Fund Balances Classifications and Special Revenue by Purpose – GASB Codification Section 2200, *Annual Comprehensive Financial Report*, requires presentation of governmental fund balances and special revenue fund revenues by specific purpose. In the basic financial statements, the fund balance classifications are presented in the aggregate. The table presented below displays further detail of nonspendable fund balance and appropriation of resources existing at June 30, 2023 (in thousands).

	General Fund	Natural Resources, Environment, and Growth Management	Public Education	Health and Family Services	Transportation	Nonmajor Governmental Funds	Total
Fund balances:							
Nonspendable:							
Inventory and Prepaid Items	\$ 10,070	\$ 897	\$ —	\$ 35,203	\$ 12,673	\$ 140,223	\$ 199,066
Long-term Receivables and Advances	9,534	—	—	—	—	—	9,534
Permanent Fund Principal	—	—	—	—	—	15	15
Total	19,604	897	—	35,203	12,673	140,238	208,615
Restricted:							
Grantors/Contributors	611	78,366	—	132,625	—	51,594	263,196
Enabling Legislation	71,521	6,875	119,254	450,899	50	269,784	918,383
Constitutional Provision	—	59,931	738,329	—	—	711	798,971
Creditors	8	2,171	850,109	—	—	978,305	1,830,593
Federal Government	35,921	3,052,049	34,252	139,511	—	360,335	3,622,068
Total	108,061	3,199,392	1,741,944	723,035	50	1,660,729	7,433,211
Committed:	598,683	3,443,205	693,094	1,754,763	2,103,696	4,751,793	13,345,234
Unassigned:	33,288,240	—	(1,004,402)	—	—	—	32,283,838
Total Fund Balances	\$ 34,014,588	\$ 6,643,494	\$ 1,430,636	\$ 2,513,001	\$ 2,116,419	\$ 6,552,760	\$ 53,270,898

Section 215.32(2)(b)4.a., F.S., provides that the unappropriated cash balances from selected trust funds may be authorized by the Legislature for transfer to the Budget Stabilization Fund and the General Revenue Fund through the General Appropriation Act. The amounts indicated below were identified in the State's 2023 General Appropriations Act as being unappropriated June 30, 2023, cash balances that are to be transferred to and from the funds indicated during the 2023-24 fiscal year (in thousands).

	General Fund	Natural Resources, Environment, and Growth Management	Public Education	Health and Family Services	Transportation	NonMajor Governmental Funds	Total
Transfer to (from) Fund	\$ 35,000	\$ —	\$ —	\$ (35,000)	\$ —	\$ —	\$ —
Transfer from Non-Governmental Funds	5,000	—	—	—	—	—	5,000
Total	\$ 40,000	\$ —	\$ —	\$ (35,000)	\$ —	\$ —	\$ 5,000

F. Interfund Activity and Balances

The effect of interfund activities, except those between funds reported as governmental activities and funds reported as business-type activities, has been eliminated from the government-wide statements. In the fund financial statements, transfers represent flows of assets without equivalent flows of assets in return or a requirement for repayment. Transfers are recorded when a fund receiving revenue provides it to the fund which expends the resources. Transfers between funds are made to accomplish various provisions of law.

Interfund receivables and payables have been eliminated from the statement of net position, except for the residual amounts due between governmental and business-type activities.

For additional information, refer to Note 14.

G. Nonmonetary Transactions

The state participates in various activities that are, in part, represented by nonmonetary transactions. Examples include nonmonetary assistance in the form of Federal grants, such as vaccines, Electronic Benefit Transfer cards for food assistance, and donated food commodities. The state also acts as an agent for the United States Department of Agriculture in the distribution of donated food commodities to qualifying organizations outside the state's reporting entity. The fair value of these items is reported in the governmental fund financial statements.

State Attorneys and Public Defenders of the State of Florida are furnished certain office space and other services by counties under the provisions of Chapter 29, F.S. Some counties also provide certain facilities and services to other officers and staff of the judicial branch. The value of the facilities and services provided by the counties is not reported as revenue.

H. Operating and Non-Operating Revenues

Proprietary funds distinguish operating from non-operating revenues. Operating revenues are typically derived from providing goods or services and include all transactions involved in delivering those goods or services. These revenues are a direct result of exchange-type transactions associated with the principal activity of the fund. Cash flow resulting from capital and related financing, noncapital financing, and investment activities are considered non-operating for reporting purposes.

I. Budget Stabilization Fund

The State Constitution mandates the creation and maintenance of a Budget Stabilization Fund, in an amount not less than 5 percent nor more than 10 percent of the last complete fiscal year's net revenue collections for the General Revenue Fund. Monies in the Budget Stabilization Fund may be transferred to the General Revenue Fund to offset a deficit therein or to provide emergency funding, including payment of up to \$38 million with respect to certain uninsured losses to state property. Monies in this fund are constitutionally prohibited from being obligated or otherwise committed for any other purposes, in accordance with Section 216.222, F.S. Any withdrawals from the Budget Stabilization Fund must be restored from general revenues in five equal annual installments, commencing in the third fiscal year after the expenditure, unless the Legislature establishes a different restoration schedule, in accordance with Section 215.32, F.S.

The Budget Stabilization Fund had \$3.14 billion in cash at June 30, 2023. During fiscal year 2022-23, The Lawton Chiles Endowment Fund (LCEF) was mostly liquidated, and \$410 million was transferred from the LCEF to the Budget Stabilization Fund. There were no disbursements made from the Budget Stabilization Fund.

THIS PAGE INTENTIONALLY LEFT BLANK

NOTE 2 - ACCOUNTING AND REPORTING CHANGES

A. Accounting and Reporting Changes

The state implemented GASB Statement No. 91, *Conduit Debt Obligations*, to introduce a single method to report conduit debt obligations, eliminating the option for issuers to report conduit debt obligations as their own liabilities. The statement defines a conduit debt obligation as a debt instrument issued in the name of a state or local government (the issuer) for the benefit of a third party that is primarily liable for repayment of the debt instrument (third-party obligor). A conduit debt obligation must have all the following characteristics:

- a. It involves at least three parties: an issuer, a third-party obligor, and a debt holder or a debt trustee.
- b. Its issuer and the third-party obligor are not within the same financial reporting entity.
- c. The debt obligation is not a parity bond of the issuer or cross-collateralized with other debt of the issuer.
- d. The third-party obligor or its agent—not the issuer—ultimately receives the proceeds from the debt issuance.
- e. The third-party obligor—not the issuer—is primarily responsible for the payment of all amounts associated with the debt obligation (debt service payments).

The state implemented GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). A PPP is defined as an arrangement in which a government (the transferor) contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction. The statement also provides guidance for accounting and financial reporting for availability payment arrangements (APAs). As defined in the Statement, an APA is an arrangement in which a government compensates an operator for services that may include designing, constructing, financing, maintaining, or operating an underlying nonfinancial asset for a period of time in an exchange or exchange-like transaction.

The state implemented GASB Statement No. 96, *Subscription-Based Information Technology Arrangements (SBITA)*, which defines SBITAs and provides uniform guidance for accounting and financial reporting for transactions that meet that definition. Under this Statement, a government is required to recognize a subscription liability and an intangible right-to-use asset for contracts that meet the definition of a SBITA. SBITAs provide governments with access to vendors' IT software and associated tangible capital assets for subscription payments without granting governments perpetual license or title to the IT software and associated tangible capital assets. A SBITA differs from a traditional technology arrangement covered by existing guidance in that it allows temporary use that ends when the subscription expires. Examples of SBITAs include Software as a Service (SaaS), Platform as a Service (PaaS), and Infrastructure as a Service (IaaS). Any contract that meets this definition should be accounted for under the SBITA guidance, unless specifically excluded in the Statement.

The state implemented paragraphs 18-22 and 23-25 of Statement No. 99, *Omnibus 2022*, which addresses practice issues that have been identified during implementation and application of certain GASB Statements. Statement No. 99:

- a. Clarifies in paragraphs 18-22 the provisions in GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements* related to the determination of the term of a PPP, recognition and measurement of installment payments, and the transfer of the underlying PPP asset.
- b. Explains in paragraphs 23-25 the provisions in GASB Statement No. 96, *Subscription-Based Information Technology Arrangements (SBITA)* related to the subscription term of a SBITA and the option to terminate, short-term SBITAs, and recognition requirements for subscription liability for SBITAs other than short-term SBITAs.

The adoption of paragraphs 18-22 and 23-25 of this Statement was done in conjunction with the adoption of GASB Statement No. 94 and 96

The state implemented GASB Statement No. 100, *Accounting Changes and Error Corrections – An Amendment of GASB Statement No. 62*, which establishes new requirements and clarifications for three types of accounting changes: changes in accounting principles, changes in accounting estimates, and changes to or within the reporting entity. The statement also addresses corrections of errors in previously issued financial statements.

B. Fund Balance and Net Position Reclassifications and Restatements

Fund balances and Net position at June 30, 2023 have been adjusted as follows (in thousands):

NOTE 3 - DEPOSITS AND INVESTMENTS

A. Deposits

At June 30, 2023, the state's deposits in financial institutions totaled approximately \$4.3 billion for primary government and \$3.5 billion for discretely presented component units.

1. Custodial Credit Risk

The custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the state will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The state mitigates custodial credit risk by generally requiring public funds to be deposited in a bank or savings association that is designated by the Chief Financial Officer (CFO) as authorized to receive deposits in the state and meets the collateral requirements as set forth in Chapter 280, Florida Statutes (F.S.).

The CFO determines the collateral requirements and collateral pledging level for each Qualified Public Depository (QPD) following guidelines outlined in Section 280.04, F.S., and Department of Financial Services Rules, Chapter 69C-2, Florida Administrative Code. Collateral pledging levels include 25, 50, 110, and 150 percent of a QPD's average daily deposit balance, or, if needed, an amount as prescribed by the CFO. Section 280.13, F.S., outlines eligible types of collateral including direct obligations of the United States (U.S.) Government, federal agency obligations fully guaranteed by the U.S. Government, certain federal agency obligations, state and local government obligations, corporate bonds, and letters of credit issued by a Federal Home Loan Bank. Also, with the CFO's permission, eligible collateral includes collateralized mortgage obligations, real estate mortgage investment conduits and securities or other interests in any open-end management investment company registered under the Investment Company Act of 1940. However, the portfolio of the investment company must be limited to direct obligations of the U.S. Government and to repurchase agreements fully collateralized by such direct obligations of the U.S. Government, and the investment company must take delivery of such collateral either directly or through an authorized custodian.

In accordance with Section 280.08, F.S., if a QPD defaults, losses to public depositors are first satisfied with any applicable depository insurance, followed by demands of payment under any letters of credit or sale of the defaulting QPD's collateral. If necessary, any remaining losses are to be satisfied by assessments against the other participating QPDs according to a statutory based ratio.

At June 30, 2023, the following deposits were not secured pursuant to Chapter 280, F.S., and were exposed to custodial credit risk because they were uninsured and (1) uncollateralized, (2) collateralized with securities held by the pledging financial institution, or (3) collateralized with securities held by the pledging financial institution's trust department or agent but not in the state's name (in thousands).

Schedule of Deposits with State Treasury Exposed to Custodial Credit Risk As of June 30, 2023

Custodial Credit Risk	Bank Statement Balance (in U.S. \$)	
	Primary Government	Component Units
(1)	\$ 3,605,874	\$ 426,963
(2)	—	208,696
(3)	—	—
Total deposits subject to custodial credit risk	\$ 3,605,874	\$ 635,659

2. Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of a deposit. Under Section 215.47, F.S., and subject to the limitations and conditions of the State Constitution or of the trust agreement relating to a trust fund, moneys available for investment by the State Board of Administration (SBA) may be invested in fixed income obligations or stocks denominated in foreign currency. The SBA has developed a total fund investment policy for the investment of assets in the Florida Retirement System (FRS) Pension Trust Fund that sets ranges on investments by asset class. Under the FRS Pension Trust Fund investment policy statement approved by SBA Trustees effective January 17, 2023, foreign and domestic equity securities are included in the global equity asset class. The FRS Pension Trust Fund has a target allocation to global equities of 53% with a policy range from 45-70%, but within this range there is no limit on the amount of foreign

equity securities that are denominated in foreign currency. The FRS Pension Trust Fund is not limited to holding securities in foreign currency only in the global equity asset class. All asset classes may hold non-U.S. securities, depending on portfolio guidelines. The Lawton Chiles Endowment Fund (LCEF) previously had an investment policy that allowed foreign and domestic equity securities in the global equity asset class, but this fund was almost fully liquidated during the fiscal year ended June 30, 2022, and only contains residual balances. The Florida Prepaid Program's comprehensive investment plan limits investment in foreign equities to 30% of total equities, with the target for total equities to be 70% of the actuarial reserve. In all cases, Florida law limits the exposure to foreign securities held outside of commingled funds to 50% of the total fund. The investment plans may be modified in the future if the SBA or Florida Prepaid adopts changes. This investment activity in foreign investments resulted in deposits in foreign currency as of June 30, 2023, as illustrated in the following schedule (in thousands):

**Schedule of Investments with State Board of Administration

B. Investments

At June 30, 2023, the state's investments reported in governmental and business-type activities and fiduciary funds totaled \$317.7 billion, consisting of pooled investments with the State Treasury in the amount of \$64.4 billion and other investments in the amount of \$253.3 billion. The State Treasury also had holdings at June 30, 2023, of \$4.4 billion for discretely presented component units in total. These investments are not reported as part of the primary government and may be different from the amounts reported by some component units due to different reporting periods. Other investments for discretely presented component units, excluding those investments held by SBA, totaled \$25.6 billion.

Pooled Investments with the State Treasury

Unless specifically exempted by statute, all cash of the state must be deposited in the State Treasury. The State Treasury, in turn, fully invests the funds to maximize earnings. In addition, the State Treasury may invest funds of any board, association, or entity created by the State Constitution, or by law. As a result, pooled investments with the State Treasury contain deposits from funds and component units of the reporting entity (internal portion) as well as deposits from certain legally separate organizations outside the reporting entity (external portion). The external portion of pooled investments with the State Treasury is reported in a governmental external investment pool.

Pooled investments with the State Treasury are not registered with the Securities and Exchange Commission. Oversight of the pooled investments with the State Treasury is provided by the Treasury Investment Committee per Section 17.575, F.S. The authorized investment types are set forth in Section 17.57, F.S.

Redemptions are on a dollar in/dollar out basis adjusted for distributed income. The fair value of the pooled investments with the State Treasury is determined at fiscal year-end for financial reporting purposes.

The State Treasury does not contract with an outside insurer in order to guarantee the value of the portfolio, or the price of shares redeemed.

Per Section 17.61(1), F.S., the State Treasury shall invest all general revenue funds, trust funds, all agency funds of each state agency, and of the judicial branch. As a result, state agencies and the judicial branch are considered involuntary participants in pooled investments with the State Treasury. The total involuntary participation as of June 30, 2023, was \$62.4 billion or 91% of the pool.

At year-end, the condensed financial statements for the Investment Pool maintained by the State Treasury were as follows (dollars in thousands):

*The coupon rate in effect at June 30, 2023, is reported. If a security is discounted, the purchase yield is reported.

The State Treasury records, as an investment, funds credited to the state’s account in the Federal Unemployment Compensation Trust Fund pursuant to Section 904 of the Social Security Act. The fund is drawn upon primarily to pay reemployment assistance benefits. This money is pooled with deposits from other states and is managed by the Federal Government. No disclosures can be made of specific securities owned.

The schedule below discloses the detail of the State Treasury holdings at fair value at June 30, 2023, as well as reconciliation to the basic financial statements (in thousands):

**Schedule of Pooled Investments with State Treasury

**The SPIA Revolving Account is included as cash and cash equivalent by the agencies.

Other Investments

Other investments in various funds of the state are primarily managed by the SBA. The largest of these funds managed by the SBA is the FRS Pension Trust Fund (Defined Benefit Pension Fund), whose total investments represented 73.3% of total other investments at June 30, 2023. Investments in the FRS Investment Plan Trust Fund (Defined Contribution Pension Fund) represents 5.7% of total other investments, while investments in the Florida Hurricane Catastrophe Fund and the Florida Prepaid College Trust Fund represented another 5.9% and 5.7%, respectively, of total other investments. Section 215.47, F.S., allows the SBA to invest funds in a range of instruments, including security lending agreements, reverse repurchase agreements, and alternative investments (including limited partnerships and hedge funds).

Florida Prepaid Investment Plan
Securities Pledged as Collateral for Futures Contracts
As of June 30, 2023

Investment Type	Fair Value
U.S. guaranteed obligations	\$ 415
Total	<u>\$ 415</u>

In addition, cash and foreign currency required to open futures and swap contracts (i.e., initial margin) in the FRS Pension Trust Fund may be pledged as collateral with the SBA's futures and swap counterparties. Pursuant to these types of contracts, and pending foreign currency contracts and commitments to purchase (TBAs), the FRS Pension Trust Fund agrees to receive or pay to the broker an amount of cash equal to the daily fluctuation in the value of the contract. Such receivables and payables are known as variation margin. All initial and variation margin amounts held by counterparties, and the variation margins held by the FRS Pension Trust Fund as of June 30, 2023, are included in "Accounts receivable" and in "Accounts payable and accrued liabilities", respectively, on the Statement of Fiduciary Net Position. These amounts are presented in the table below (in thousands):

FRS Pension Trust Fund
Cash and Foreign Currency Pledged as Collateral for Futures and Swaps Contracts
As of June 30, 2023

	Fair Value
Margin receivable from counterparties:	
Futures contracts	\$ 46,003
Swap contracts	10,111
Foreign currency contracts	1,370
Commitments to purchase (TBAs)	3,017
Total margin receivable	\$ 60,501
Margin payable to counterparties:	
Futures contracts	\$ 1,344
Swap contracts	1,314
Total margin payable	\$ 2,658

The Florida Prepaid Investment Plan also held open futures positions at June 30, 2023. Similar to the FRS Pension Trust Fund, Florida Prepaid pays to or receives from the broker a variation margin (i.e., an amount of cash) equal to the daily fluctuation in the value of the futures contract. All variation margin amounts held by counterparties, and the variation margins held by the Florida Prepaid Program and Investment Plan as of June 30, 2023, are included in "Accounts receivable" and in "Accounts payable and accrued liabilities", respectively, on the Statement of Fiduciary Net Position. These amounts are presented in the table below (in thousands):

Florida Prepaid Investment Plan
Cash and Foreign Currency Pledged as Collateral for Futures and Swaps Contracts
As of June 30, 2023

	Fair Value
Margin receivable from counterparties:	
Futures contracts	\$ 151
Commitments to purchase (TBAs)	140
Total margin receivable	\$ 291
Margin payable to counterparties:	
Futures contracts	\$ 23
Swap contracts	22
Commitments to purchase (TBAs)	140
Total margin payable	\$ 185

The FRS Pension Trust Fund also held short positions in investments at June 30, 2023. Short investment positions are reported as liabilities on the Statement of Fiduciary Net Position. The schedule below presents the short investment positions at fair value at June 30, 2023 (in thousands):

**FRS Pension Trust Fund
Short Investment Position
As of June 30, 2023**

Investment Type	Fair Value
Federal agencies	\$ (147,560)
Total	\$ (147,560)

The SBA issued a separate report (financial statements and notes) pertaining to the Local Government Surplus Funds Trust Fund (an external investment pool) within the state’s Investment Trust Fund for the period ended June 30, 2023. This report may be obtained from the Chief Operating & Financial Officer, State Board of Administration of Florida, 1801 Hermitage Boulevard, Suite 101, Tallahassee, Florida 32308, (850) 488-4406.

Component Units

The schedule below discloses other investments reported at fair value, as of June 30, 2023, for discretely presented component units and a reconciliation to the basic financial statements (in thousands). Those investments held with the State Treasury as of June 30, 2023, are excluded.

**Schedule of Other Investments
For Discretely Presented Component Units
As of June 30, 2023**

Investment type	Fair Value
Certificates of deposit	\$ 57,373
Commercial paper	21,986
Repurchase agreements	476
Money market funds	418,838
U.S. guaranteed obligations	4,246,116
Federal agencies	922,959
Domestic bonds & notes	6,991,090
International bonds & notes	804,679
Domestic stocks	1,396,512
International stocks	867,053
Real estate investments	241,701
Mutual funds	2,990,398
Investment agreements	6,582,888
Total other investments for all types	\$ 25,542,069
Reconciliation of fair value to the basic financial statements:	
Other investments	\$ 18,647,283
Restricted investments	8,819,002
Less SBA Investments*	(1,924,217)
Total other investment for component units	\$ 25,542,069

*Investment types for component units with investments held by SBA are disclosed on the Schedule of Other Investments on page 82.

At June 30, 2023, 60.51% of total other investments for discretely presented component units belonged to the following major component units: Florida Housing Finance Corporation, University of Florida, and Citizens Property Insurance Corporation.

1. Credit Risk and Concentration of Credit Risk of Debt Securities

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Concentration of credit risk is the risk of loss attributed to the magnitude of the state’s investment in a single issuer.

Pooled Investments with the State Treasury

The State Treasury follows the investment guidelines set forth in Section 17.57, F.S., for reducing exposure to investment credit risk. The State Treasury’s rated debt investments as of June 30, 2023, were rated by the nationally recognized statistical rating organizations (NRSRO) Standard and Poor’s (S&P) and Moody’s, and the ratings are presented below using the applicable rating scale (in thousands):

**State Treasury

		<u>\$ 66,937,609</u>						

¹ The remaining \$2,807,439 (in thousands) reported for Pooled Investments with State Treasury is comprised primarily of investments with the U.S. Treasury Unemployment Compensation Funds Pool.

²

Long-term ratings are presented except for "A-1" and "P-1", which are a short-term ratings for S&P and Moody's, respectively.

³ Collateral underlying the repurchase agreements was not rated.

⁴ U.S. guaranteed obligations and collateral for repurchase agreements which are explicitly guaranteed by the U.S. government do not require disclosure of credit quality.

The State Treasury's investment policies allow for unlimited investments in U.S. obligations and certain Federal Agency obligations. For other investments, the investment policies address concentration of credit risk by placing limits on amounts invested per issuer (taking into account the maturity date and duration of the investment). In addition, the policies also address limits on certain investments by credit ratings. Limits on amounts invested are expressed in dollar amounts per issuer and also in total amounts per investment type as a percentage of the investment pool's market value. As of June 30, 2023, more than five percent of the State Treasury's investment pool is invested in the Federal National Mortgage Association (FNMA). These investments are approximately 7 percent of the State Treasury's investments pool.

Other Investments

The SBA, in compliance with Section 215.47, F.S., has adopted certain investment policies with regard to credit risk of debt securities. Investment policies vary by fund or portfolio. Below are the investment policies and credit risk disclosures for the FRS Pension Trust Fund, which constitute the primary portion of other investments.

FRS Pension Trust Fund – Investments are generally managed through individual portfolios within various asset classes, as listed below. Some of the individual portfolios have slightly different restrictions on credit quality.

Short-term Portfolio – Securities must be high quality at the time of purchase. For short-term investment ratings, this is defined as the highest applicable rating from one of the NRSROs. For long-term investment ratings, this is defined as a minimum rating of A from one of the NRSROs. Securities of a single issuer are generally limited to 5% of the market value of the portfolio (excluding U.S. Treasuries and Agencies).

Generally, securities in other major portfolios, such as the Mortgage Index Portfolio, Intermediate Aggregate Less MBS Index Portfolio and the Core Portfolio, should be rated investment grade by at least one of the NRSROs at the time of purchase allowing a very small allocation to below investment grade (down to BB-/Ba3) for the Core Portfolio. Securities for a single issuer are generally limited to 5% of the fair value of the portfolio (excluding U.S. Treasuries and Agencies).

Mortgage Index Portfolio – Securities are generally limited to those issued by the Government National Mortgage Association (GNMA), FNMA, and FHLMC. No specific credit rating criteria are listed.

Intermediate Aggregate Less MBS Index Portfolio and the Core Portfolio – These portfolios allow U.S. Treasuries, U.S. Government agencies, corporate, mortgage and asset backed securities, foreign sovereign debt, and municipals.

Lending Portfolios – Under investment policy guidelines in effect for the FRS Pension Trust Fund, eligible cash collateral investments are:

- Tri-party qualified repurchase agreement transactions collateralized by U.S. Treasury bills, notes, bonds, and/or strips, U.S. Government Agency securities, U.S. Government Agency mortgage-backed securities, and U.S. equity securities. Collateral consisting of U.S. Treasury and Government Agencies must maintain a market value of at least 102% of the market value of the securities subject to being repurchased. Collateral consisting of U.S. equities must maintain a market value of at least 107% of the market value of the securities subject to being repurchased,
- Money market mutual funds regulated by SEC rule 2a-7 and rated the highest applicable rating by at least one NRSRO and
- U.S. Treasury bills, notes, and bonds.

Security lending investments that were purchased prior to the policy guidelines established in December 2008 are being held to maturity in existing lending portfolios.

Florida Prepaid College Program Lending Program – Short-term obligations should be limited to obligations rated in the highest rating category by at least two NRSROs or, if only rated by one NRSRO, rated at the time of purchase in the highest rating category by that NRSRO (S&P A-1, Moody's P-1, Fitch F1 or equivalent). A "short-term obligation" means any eligible security or instrument (other than a repurchase agreement) which has an original maturity of 397 days or less at the time of purchase or has a put that entitles the holder to receive the principal amount at specified intervals not exceeding 397 days. With respect to bonds and other long-term obligations, investment is limited to obligations backed by the United States Government and have a maximum maturity of 762 days. A "long-term obligation" means any eligible security or instrument (other than a repurchase agreement) which has a remaining maturity of greater than 397 days at the time of purchase and is not subject to a demand feature in 397 days or less.

The FRS Pension Trust Fund did not hold any investments with a single issuer representing 5% or more of the fund's fair market value at June 30, 2023. The schedule below discloses credit quality ratings on investments held in the FRS Pension Trust Fund at June 30, 2023 (in thousands):

**FRS Pension Trust Fund

Swaps		(6,178)							
Total investments		\$ 187,294,817							

¹S&P ratings were primarily used. If S&P did not provide a rating or did not provide the rating with the greatest degree of credit risk, then Moody's ratings were used. If neither rating agency issued a rating, the security was listed as "NR" (not rated). Long-term ratings are presented except for commercial paper and money market funds.

²All FRS investments are included in this schedule, including security lending collateral investments.

³Federal agency TBAs and mortgage-backed securities are classified as "NR" because they do not have explicit credit ratings on individual securities.

⁴U.S. guaranteed obligations and repurchase agreements collateralized by securities explicitly guaranteed by the U.S. Government do not require disclosure of credit quality.

All futures, and swaps contracts held by the FRS Pension Trust Fund and the Florida Prepaid Investment Plan at June 30, 2023, were exchange traded, thereby minimizing counterparty credit risk through the use of futures and swaps clearing merchants and clearing houses. The FRS Pension Trust Fund may enter into contracts that allow for close-out netting with certain counterparties. In the event of default or early termination, the contract permits the non-defaulting party the right to close-out all transactions in a single net settlement to one net amount payable by one counterparty to the other. The aggregate fair value of non-exchange traded derivative instruments subject to close-out netting totaled \$-2.9 million as of June 30, 2023.

Counterparty credit ratings related to credit risk for forward foreign currency exchange contracts held in the FRS Pension Trust Fund at June 30, 2023, are listed below (in thousands):

FRS Pension Trust Fund
Forward Foreign Currency Exchange Contract Counterparty Credit Ratings
As of June 30, 2023

Counterparty Credit Rating (Long / Short) ¹		Receivable Fair Value	Payable Fair Value	Net Unrealized Gain (Loss) ²

¹S&P ratings were primarily used. If S&P did not provide a rating or did not provide the rating with the greatest degree of credit risk, then Moody's ratings were used. If neither rating agency issued a rating, the security was listed as "NR" (not rated). Long-term ratings are presented except for commercial paper and money market funds.

²All investments are included in this schedule, including security lending collateral investments. Fair value is presented for all investments, except for repurchase agreements and money market funds, which are presented at cost.

³These columns include several commingled domestic bonds and notes funds/mutual funds and one international bonds and notes mutual fund with fair values of approximately \$3.8 billion and \$23.1 million, respectively, that do not carry credit ratings.

⁴U.S. guaranteed obligations and collateral for repurchase agreements, which are explicitly guaranteed by the U.S. government, do not require disclosure of credit quality.

Component Units

Investment policies with regard to credit risk of debt securities vary from component unit to component unit. In addition, investment policies vary among Universities’ direct support organizations. Investment policies may be obtained separately from component units. Presented below are reported credit quality ratings for debt securities of major component units (in thousands). Amounts shown below represent only that portion of debt investments required to be disclosed by component units reporting under the GASB reporting model.

Major Component Units Credit Quality Ratings As of June 30, 2023

*State of Florida major component units do not have any investments subject to concentration of credit risk.

2. Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the state will not be able to recover the value of investment or collateral securities that are in the possession of an outside party.

Pooled Investments with the State Treasury

The State Treasury’s custodial risk policy states that securities must be held in an account in the state’s name. As required by negotiated trust and custody contracts, many of the state’s investments were held in the state’s name by the Treasury’s custodial financial institution at June 30, 2023. Investments that were uninsured and unregistered, and held by the counterparty, or by its trust department but not in the state’s name, included the following (in thousands):

State Treasury Custodial Credit Risk As of June 30, 2023	
	<u>Fair value</u>
Invested security lending collateral:	
Repurchase agreements	\$ 1,240,809
Federal agencies	317,483
Bonds and notes - domestic	184,159
Total	\$ 1,742,451

Other Investments

The SBA’s custodial credit risk policy states that custodial credit risk will be minimized through the use of trust accounts maintained at top tier third party custodian banks. To the extent possible, negotiated trust and custody contracts shall require that all deposits, investments, and collateral be held in accounts in the SBA’s name, or in the case of certain foreign investments, in an omnibus client account, but separate and apart from the assets of the custodian banks. This policy applies to

investments evidenced by cash or securities, and does not apply to investments evidenced by contractual agreements such as alternative or real estate investments, cleared derivative instruments (futures, options and swaps), external investment pools or open-ended mutual funds. These types of investments are not exposed to custodial credit risk because their existence is not evidenced by securities that exist in physical or book entry form. As required by negotiated trust and custody contracts, many of the state's investments were held in the state's name or in the case of certain foreign investments, in an omnibus client account, by the SBA's custodial financial institutions at June 30, 2023. Investments that were uninsured and unregistered, with securities held by the counterparty, or by its trust department, but not in the SBA's name, included the following (in thousands):

3. Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of debt investments.

Pooled Investments with the State Treasury

Through its investment policy, the State Treasury manages its exposure to interest rate risk by limiting either the maturities or durations of the various investment strategies used for the investment pool. The maximum effective weighted duration allowed is in the Long Duration portfolio: six (6) years or the benchmark's effective duration if higher. In addition, the security lending portfolio manages exposure to interest rate risk by limiting the maximum weighted average maturity gap. The maximum weighted average maturity gap is defined as the difference between the weighted average days to maturity of the portfolio minus the weighted average days to maturity of the liabilities (loans). The maximum weighted average maturity gap for security lending portfolios is 30 days.

Presented below is the interest rate risk table for the debt investments with the State Treasury (in thousands). Investment types related to debt portfolios are presented using effective weighted duration. Investment types related to the security lending collateral portfolio are presented using weighted average maturity.

Debt Investments

***The remaining \$2,807,439 (in thousands) reported for Pooled Investments with State Treasury is comprised of investments with the U.S. Treasury Unemployment Compensation Funds Pool.

Other Investments

The SBA manages its exposure to interest rate risk through various investment policies. Policies and interest rate risk disclosures for debt investments within the FRS Pension Trust Fund are presented below.

Investments authorized by Section 215.47, F.S., are managed through individual portfolios within various asset classes. The individual portfolios may have different policies regarding interest rate risk. Major types of debt portfolios are listed below.

Short-term Portfolio – Weighted average maturity to final maturity date (WAL) is limited to 120 days and weighted average time to coupon reset (WAM) is limited to 60 days. For securities without a fixed interest rate, the next coupon reset date is used as the maturity for the reset WAM calculation.

Mortgage Index Portfolio – Portfolio duration should be similar to the duration of the mortgage-related fixed income market and should remain within plus or minus 0.25 years of the Barclays Capital U.S. MBS Index duration. Swaps and/or Agency debentures may contribute no more than 25% of the portfolio's total duration.

Intermediate Aggregate Less MBS Index Portfolio – Portfolio duration should remain within plus or minus 0.25 years of the Barclays Capital U.S. Intermediate Aggregate Bond Index duration less the MBS Index component. Interest rate swaps and interest rate futures, on a net basis, may contribute no more than 25% of the portfolio's total duration.

Core Portfolios – Portfolio duration should remain within plus or minus 0.50 years of the Barclays Capital U.S. Intermediate Aggregate Bond Index duration. Interest rate swaps and interest rate futures, on a net basis, may contribute no more than 25% of the portfolio's total duration.

The Core Portfolio contains certain investments, known as collateralized mortgage obligations (CMOs), which are more sensitive to interest rate changes than other debt instruments. Examples of CMO securities that qualify as “highly interest rate sensitive” include interest-only (IOs), principal-only (POs), and inverse floaters (INVs). IO and PO securities are transactions that involve the separation of the interest and principal components of a security. They are highly sensitive to prepayments by mortgagors, which increase the value of a PO and decrease the value of an IO. INVs have an inverse relationship to a benchmark rate, and the coupon payment is adjusted as the interest rate changes. If the benchmark interest rate decreases, the coupon rate increases and vice versa, which allows the bondholder to benefit from declining interest rates. Similar to an IO, an interest-only inverse floater's value increases as interest rates rise.

Security Lending Portfolios – Investment policy guidelines in effect for the FRS Pension Trust Fund allow investment in:

- Tri-party qualified repurchase obligations, with a term to repurchase not to exceed 45 calendar days that are fully collateralized by U.S. Treasury bills, notes, bonds and/or strips, U.S. Government Agency securities, U.S. Government Agency mortgage-backed securities, and U.S. equity securities,
- Money market mutual funds regulated by SEC rule 2a-7, and
- U.S. Treasury bills, notes, and bonds maturing within 92 days or less.

Security lending investments that were purchased prior to the investment policy guidelines established in December 2008, are still held in the FRS Pension Trust Fund lending programs, and are slowly paying down. For investments that had floating interest rates, interest rate reset dates were used to calculate the WAM.

For the Florida Prepaid lending program, investment policy guidelines state that the maximum rate sensitivity is 60 days. The “rate sensitivity” of a security or instrument shall mean (a) in the case of a fixed rate security or instrument (i) the date on which final payment is due or (ii) the principal amount can be recovered through demand (if applicable) or (b) in the case of a floating or variable rate security or instrument, the shorter of the period of time remaining until either (i) the next readjustment of the interest rate or (ii) the principal amount can be recovered through demand (if applicable).

Presented in the following schedule is the interest rate risk table for the FRS Pension Trust Fund (in thousands). Investment types related to debt portfolios are presented using effective weighted duration. Investment types related to short-term and securities lending collateral portfolios are presented using weighted average maturity.

¹Investments sold short are reported as liabilities on the Statement of Fiduciary Net Position.

Presented below are interest rate risk schedules for all debt-related investments managed by the SBA (excluding the FRS Pension Trust Fund), as of June 30, 2023 (in thousands). Certain investment types may be presented using two or more interest rate risk methods if the investment types are managed using different techniques. For example, if investments are purchased to match scheduled debt payments, to coincide with Lottery prize payouts, or are entirely client directed investments, the investments are presented using the segmented time distribution method. If investments are in a portfolio that contains weighted average maturity restrictions, the investments are presented using this method. If investments are subject to certain restrictions on duration, then that method is used. Individual investments are only included in one of the following three methods scheduled below.

**Debt Investments Managed by SBA (except FRS Pension Trust Fund)
That Use Segmented Time Distribution Method

4. Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment.

Pooled Investments with the State Treasury

The State Treasury does not have any investments in foreign currency. State law and investment policy do not authorize investments in foreign currency related to State Treasury investment operations.

Other Investments

The FRS Pension Trust Fund, the LCEF, and the Florida Prepaid College Program had exposure to foreign currency risk at June 30, 2023. These funds are managed primarily by the use of “asset classes”.

The FRS Pension Trust Fund investment policy, approved and effective on January 17, 2023, by the Trustees, limits the global equity asset class (including domestic and foreign equities) to a policy range of 45-70% and a target allocation of 53%. All asset classes may hold non-U.S. securities, depending on portfolio guidelines. Within the global equity asset class, the FRS Pension Trust Fund also holds units in international equity commingled funds. The FRS Pension Trust Fund owns only a portion of the overall investment in the funds, which are also owned by other investors. Exchange-traded funds (ETFs) are investment funds that hold assets such as stocks or bonds and are traded on the stock exchanges. Participatory notes (P-notes) allow the FRS Pension Trust Fund to participate in certain foreign equity markets where direct participation is not possible due to local government regulations, tax policies, or other reasons. The FRS Pension Trust Fund’s unit holdings in the overall investments or notes themselves may be valued in U.S. dollars, but a portion of the underlying assets are exposed to foreign currency risk in various currencies. Within the alternative investment asset class, the FRS Pension Trust owns an interest in several alternative investment commingled funds (primarily limited partnerships) with other investors and, therefore, owns only a portion of the overall investment in the funds. The alternative investment funds denominated in foreign currency are presented in the foreign currency risk table below by currency. For the alternative investment funds denominated in U.S. dollars, some of the underlying investments may be exposed to foreign currency risk in various currencies. Alternative investments with potential exposure to foreign currency risk totaled approximately \$40.0 billion as of June 30, 2023.

The LCEF fund was almost fully liquidated by the end of the fiscal year ended June 30, 2023, and only held a small amount of illiquid stock exposed to foreign currency risk.

The Florida Prepaid Program’s comprehensive investment plan limits investment in foreign equities to 30% of total equities, with the target for total equities to be 70% of actuarial reserve. The Florida Prepaid Program also holds units in international equity commingled funds.

In all cases, Florida law limits the total exposure to foreign securities outside of commingled funds to 50% of the total fund. There is no requirement that this exposure to foreign currency be hedged through forward currency contracts, although some investment managers use them in many cases.

Presented below in U.S. dollars are the FRS Pension Trust Fund investments exposed to foreign currency risk as of June 30, 2023, listed in total, by currency (in thousands).

FRS Pension Trust Fund

In addition to the investments presented above, the FRS Pension Trust Fund and the Florida Prepaid Investment Plan hold positions in futures contracts that are subject to foreign currency risk. A futures contract is an agreement between two parties, a buyer and a seller, to exchange a particular good for a particular price at a particular date in the future, all of which are specified in a contract common to all participants in a market on an organized futures exchange. Upon entering into a futures contract, collateral is deposited with the counterparty, in the SBA's name (or Florida Prepaid's name), in accordance with the initial margin requirements of the counterparty. Futures contracts are marked to market daily by the board of trade or exchange on which they are traded. The resulting gain/loss is received/paid the following day until the contract expires. The frequency of cash flows depends upon specified collateral and margin limits mutually agreed upon by the SBA (or Florida Prepaid) and the third-party counterparty. The margin payments are exposed to foreign currency risk. The FRS Pension Trust Fund's futures contract positions at June 30, 2023, that have exposure to foreign currency risk are presented below (values in thousands):

¹Futures denominated in U.S. dollars are based on an index that converts the foreign issues to U.S. dollar equivalents at currency market exchange rates.

The FRS Pension Trust Fund did not hold any positions in option or swap contracts that were exposed to foreign currency risk at June 30, 2023.

The FRS Pension Trust Fund, Florida Prepaid Program and Investment Plan also enter into foreign currency exchange contracts which are agreements to exchange the currency of one country for the currency of another country at an agreed-upon price and settlement date. Currently, there are two types of foreign currency contracts being utilized by the FRS Pension Trust Fund. Spot currency contracts are valued at spot (traded) currency rates and are used primarily for trade settlement and currency repatriation. Forward currency contracts are valued at interpolated forward rates and may be used to mitigate currency risk for changes in value associated with foreign holdings, payables and/or receivables. On the Statement of Fiduciary Net Position, individual forward currency contract positions are recorded as net in Other investments, and spot currency contracts are recorded as receivables and payables. In addition, such contracts may be used to seek additional value independent of underlying equity assets. The Florida Prepaid Plans may also use both spot and forward currency contracts, but only the Investment Plan currently utilizes forward currency contracts. All of the contracts are subject to foreign currency risk. A schedule of the FRS Pension Trust Fund's foreign currency exchange contracts outstanding at June 30, 2023, is presented below, by currency (in thousands):

Component Units

Component unit information regarding foreign currency risk was unavailable.

5. Security Lending

Pooled Investments with the State Treasury

Section 17.61(1), F.S. authorizes the State Treasury to participate in a security lending program. Agents of the State Treasury loan securities, including U.S. government and federally guaranteed obligations, bonds, and notes to broker/dealers for collateral with a simultaneous agreement to return the collateral for the same securities in the future. Collateral for loaned securities cannot be less than 100 percent of the fair value of the underlying security plus accrued interest. Such collateral may consist of cash or government securities. Cash collateral is invested by the agent in investments authorized by Section 17.57, F.S. Maturities of investments made with cash collateral generally are not matched to maturities of the securities loaned because security loan agreements are generally open-ended with no fixed expiration date. The collateral under security lending agreements (including accrued interest) exceeded the fair value of the securities underlying those agreements (including accrued interest) on June 30, 2023. If a situation occurs where an agent does not receive collateral sufficient to offset the fair value of any securities lent, or the borrowers fail to return the securities or fail to pay the State Treasury for income distributions by the securities' issuers while the securities are on loan, the agent is required to indemnify the State Treasury for any losses that might occur. The State Treasury received \$1,743,158,256 cash collateral and \$5,607,109,879 non-cash collateral for securities loaned to others. Since the State Treasury does not have the ability to pledge or sell non-cash collateral securities, any non-cash portion of the collateral is not reported on the balance sheet. Securities held with others under security lending agreements with cash collateral totaled \$1,701,313,877. Securities held with others under security lending agreements with non-cash collateral totaled \$5,482,477,231. Security lending asset and liability balances are allocated at fiscal year end and reported among all participating funds of the primary government.

The securities held with others under security lending agreements as of June 30, 2023, are as follows (in thousands):

State Treasury Investments on Loan Under Security Lending Agreements As of June 30, 2023

<u>Securities on Loan for Cash Collateral, by Security Type</u>	Fair Value of Securities on Loan*
U.S. guaranteed obligations	\$ 1,454,496
Federal agencies	2,118
Domestic bonds and notes	167,075
International bonds and notes	77,625
Total securities on loan for cash collateral	1,701,314
<u>Securities on Loan for Non-Cash Collateral, by Security Type</u>	
U.S. guaranteed obligations	5,477,182
Domestic bonds and notes	5,051
International bonds and notes	244
Total securities on loan for non-cash collateral	5,482,477
Total securities on loan	\$ 7,183,791

*The fair value equals the carrying value of the investments on loan.

Other Investments

Through the SBA, various funds, including the FRS Pension Trust Fund and the Florida Prepaid College Program participate in security lending programs during the fiscal year ended June 30, 2023. Initial collateral requirements for securities on loan range from 100% to 105%, depending on the lending agent, the type of security lent and the type of collateral received. The SBA had received and invested approximately \$1.4 billion in cash and \$7.2 billion in U.S. government and federal agency securities as collateral for the lending programs as of June 30, 2023. At June 30, 2023, the collateral held for the security lending transactions exceeded the fair value of the securities underlying the agreements (including accrued interest). Most security lending programs have indemnity clauses requiring the lending agent to assume borrower's risk from default. The FRS Pension Trust Fund also participated indirectly in security lending through investments in three commingled funds that do not offer borrower indemnification. The Fund receives a proportionate share of the security lending income generated from these activities. The SBA does not have the ability to pledge or sell the non-cash collateral securities, so the non-cash portion is not reported on the balance sheet or the Statement of (Fiduciary) Net Position. Maturities of investments made with cash collateral generally are not matched to maturities of the securities loaned because security loan agreements are generally open-ended with no fixed expiration date. As such, investments made with cash collateral are primarily in short-term investments. However, investments purchased for some security lending programs included investments with final maturities of six months or more

representing a range of approximately 2% to 17% of total collateral invested. There are no restrictions on the amount of securities that can be loaned at one time to one borrower for most funds.

At June 30, 2023, the collateral re-investment portfolios for the FRS Pension Trust Fund was primarily reinvested in selected money market funds in order to maximize earnings and reduce risk. The portfolios contain some legacy securities that will remain until they are either sold or mature. At June 30, 2023, there were four lending agents, including the two master custodians and two third-party agents.

The schedule below discloses the fair value and carrying value of investments on loan at June 30, 2023 (in thousands):

**Schedule of Other Investments on Loan Under Security Lending Agreements
As of June 30, 2023**

Securities on Loan for Cash Collateral, by Security type	Fair value of Securities on Loan ¹

Total securities on loan	\$ 6,290,648	\$ 2,030,054	\$ 8,320,702

¹ The fair value of debt securities on loan includes accrued interest.

6. Derivatives

A derivative instrument is defined as a financial instrument or other contract that has all of the following characteristics:

- a. Settlement factors – It has (1) one or more reference rates and (2) one or more notional amounts or payment provisions or both. These terms determine the amount of the settlement or settlements and, in some cases, whether or not a settlement is required.
- b. Leverage – It requires no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors.
- c. Net Settlement – Its terms require or permit net settlement, it can readily be settled net by a means outside the contract, or it provides for delivery of an asset that puts the recipient in a position not substantially different from net settlement.

Derivative instruments consisted of futures, forward currency contracts, and swaps. Although allowed in the FRS Pension Trust Fund, no options were traded during the fiscal year ended June 30, 2023.

Pooled Investments with the State Treasury

Pursuant to the State Treasury's established investment policy guidelines, interest rate futures are used as part of the investment strategy related to interest rate risk, duration adjustments, and yield curve strategies. Although put and call options on any security are permitted under the State Treasury's investment guidelines, interest rate futures were the only type of derivative held as of June 30, 2023. The State Treasury did not utilize derivatives for hedging activities during the fiscal year ending June 30, 2023. All of the State Treasury investment derivatives were reported at fair value in the accompanying financial statements as of June 30, 2023.

A summary of investment derivatives traded in the State Treasury is presented below (in thousands):

	Notional (in U.S. \$)	Changes in Fair Value		Fair Value at June 30, 2023	
		Classification	Amount	Classification	Amount
State Treasury					
Investment derivatives:					
Futures	\$ 225,774	Investment Income	\$ 1,595	Receivable/(Payable)	\$ (1,861)

This schedule includes both long and short positions.

See section 1E of Note 1 to these financial statements regarding State Treasury's securities pricing policies and independent pricing services methodologies related to securities not available on quoted market pricing exchanges.

Other Investments

The SBA has established investment policy guidelines for each investment portfolio. Pursuant to these guidelines, derivative investment instruments are authorized to be used as tools for managing risk or executing investment strategies more efficiently than could otherwise be done in cash markets, and may only be used as part of a prudent investment process. Various derivative investment instruments are used as part of the investment strategy to hedge against interest rate risk, currency risk in foreign markets, default risk, and mortgaged-backed security prepayment risk, and to effectively manage exposure to domestic and international equities, bonds, and real estate markets.

A futures contract is an agreement between a buyer and a seller to exchange a particular good for a particular price at a particular date in the future, all of which are specified in a contract common to all members in a market on an organized futures exchange. Upon entering into a futures contract, collateral (cash and/or securities) is deposited with the counterparty, in SBA's name, in accordance with the initial margin requirements of the counterparty. Futures contracts are marked to market daily by the board of trade or exchange on which they are traded. The resulting gain/loss is received/paid the following day until the contract expires. The frequency of cash flows depends on specified collateral and margin limits mutually agreed upon by the SBA and third-party counterparty. Future contracts involve, to varying degrees, risk of loss in excess of the variation margin disclosed in the Statement of Fiduciary Net Position. Losses may arise from future changes in the value of the underlying instrument.

An option gives the buyer a stipulated privilege of buying or selling a stated property, security, or commodity at a given price (strike price) within a specified time (for an American-style option, at any time prior to or on the expiration date). A securities option is a negotiable contract in which the seller (writer), for a certain sum of money called the option premium, gives the buyer the right to demand within a specified time the purchase (call) from or sale (put) to the option seller of a specified number of bonds, currency units, index units, or shares of stock, at a fixed price or rate, called the strike price. There were no option contracts traded during the fiscal year ended June 30, 2023.

A forward currency contract is a contractual obligation, typically over-the-counter, traded between two parties to exchange a particular good or instrument (i.e., currency) at a set price on a future date. The buyer of the forward agrees to pay the price and take delivery of the good or instrument and is said to be "long" the forward contract, while the seller of the forward, or "short", agrees to deliver the good or instrument at the agreed price on the agreed date.

A swap is a contractual agreement to exchange a stream of periodic payments utilizing a central clearing house, whereby, each party in the transaction enters into a contract with the central counterparty. These agreements may be over-the-counter or exchange-traded. Upon entering into a swap contract through a clearing house, collateral is deposited with the counterparty, in

SBA’s name, in accordance with the initial margin requirements of the counterparty. Swaps are available in and between all active financial markets. Examples include:

Interest rate swap – An agreement between two parties where one stream of future interest payments is exchanged for another based on a specified principal amount. Interest rate swaps often exchange a fixed payment for a floating payment that is linked to an interest rate.

Credit default swap – An agreement that allows one party to “buy” protection from another party for losses that might be incurred as a result of default by a specified reference credit (or credits). The “buyer” of protection pays a premium for the protection, and the “seller” of protection agrees to make a payment to compensate the buyer for losses incurred if a defined credit event occurs.

A summary of investment derivatives traded in the FRS Pension Trust Fund is presented below. As of June 30, 2023, all of the SBA investment derivatives were reported at fair value (in thousands).

	Notional (in U.S. \$)	Increase/(Decrease) in Fair Value		Fair Value at June 30, 2023

¹ The total notional values of long and short debt futures positions were \$12.9 million and \$3.4 million, respectively.

7. Commitments

Each year the FRS Pension Trust Fund enters into a number of agreements that commit the Fund, upon request, to make additional investment purchases (i.e., capital commitments) up to predetermined amounts over certain investment time periods. The unfunded capital commitments for private equity, real estate and strategic investments not reported on the FRS Pension Trust Fund Statement of Fiduciary Net Position totaled \$17.2 billion as of June 30, 2023.

8. Fair Value Hierarchy

The state categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are unadjusted quoted prices in active markets for identical assets. Level 2 inputs are either directly or indirectly observable for an asset (including quoted prices for similar assets), which may include inputs in markets that are not considered to be active. Level 3 inputs are significant unobservable inputs.

The categorization of investments within the hierarchy is based upon the pricing transparency of the instrument and should not be perceived as the particular investment's risk.

Pooled Investments with the State Treasury

Securities classified in Level 1 are valued using quoted prices from the custodian bank's primary external pricing vendors.

Securities classified in Level 2 are evaluated prices from the custodian bank's primary external pricing vendors. The pricing methodology involves the use of evaluation models such as matrix pricing, which is based on the securities' relationship to benchmark quoted prices. Other evaluation models use actual trade data, collateral attributes, broker bids, new issue pricings and other observable market information.

Debt and equity securities classified as Level 3 are valued with prices from the custodian bank's external pricing vendors or an alternative pricing source, utilizing inputs such as stale prices, cash flow models, broker bids, or cost. Cost or book value may be used as an estimate of fair value when there is a lack of an independent pricing source.

Certain investments, such as money market funds and repurchase agreements, are not included in the table, because they are carried at cost and not priced at fair value. Unemployment compensation funds are not included in the table, because this money is pooled with deposits from other states and is managed by the Federal Government. No disclosures can be made of specific securities owned.

At June 30, 2023, the State Treasury had the following recurring fair value measurements (in thousands):

Investments and Derivative Instruments Measured at Fair Value As of June 30, 2023

Investments by fair value level	Total	Level 1	Level 2	Level 3
Commercial paper	\$ 314,695	\$ —	\$ 314,695	\$ —

Other Investments

Equity securities classified in Level 1 of the fair value hierarchy are valued using quoted prices at June 30 (or the most recent market close date if the markets are closed on June 30) in active markets from the custodian bank's primary external pricing vendors, which utilize primary exchanges.

Debt securities classified in Level 2 are valued using evaluated prices from the custodian bank's external pricing vendors. The pricing methodology involves the use of evaluation models such as matrix pricing, which is based on the securities' relationship to benchmark quoted prices. Other evaluation models use actual trade data, collateral attributes, broker bids, new issue pricings and other observable market information.

Equity securities classified as Level 2 are valued using evaluated prices provided by the custodial bank's external pricing vendors, or alternative pricing source, such as investment managers, if information is not available from the custodial bank's external pricing vendors.

Debt and equity securities classified as Level 3 are valued using prices from the custodian bank's external pricing vendors or an alternative pricing source, utilizing inputs such as stale prices, cash flow models, or broker bids. Cost or book value may be used as an estimate of fair value when there is a lack of an independent pricing source.

Derivative instruments classified in Level 1 of the fair value hierarchy are valued using exchange traded prices as provided by the custodian bank's external pricing vendors. Derivative instruments classified as Level 2 receive clearing house prices, which are based on models that reflect the contractual terms of the derivative instruments.

Private equity funds and real estate direct investments classified as Level 3 are valued using external appraisals as described in the footnotes for the *Additional GASB 72 Required Disclosures* table, footnotes 13 and 15, respectively. Other private equity funds are measured at net asset value (NAV).

Certain investments, such as money market funds, repurchase agreements and U.S. guaranteed State and Local Government Series (SLGS) securities are not reported at fair value in the tables below because they are carried at cost and not priced at fair value. Additionally, U.S. guaranteed securities in the Debt Service Escrowed Fund and all investments of the Local Government Surplus Funds Trust Fund are not included at fair value in the tables below because they are carried at cost and amortized cost, respectively. See page 85 for information to obtain the Local Government Surplus Funds Trust Fund investment detail. Commingled investments are measured at the NAV per share (or its equivalent).

The FRS Pension Trust Fund had the following fair value measurements as of June 30, 2023 (in thousand):

¹ *Commingled International Equity Funds.* The five funds in this group are primarily invested in publicly traded international equity securities, and two of these funds also focus on emerging markets. Each are valued at the NAV of units held at the end of the period based upon the fair value of the underlying investments. Two funds within this strategy are redeemable daily, two funds are redeemable monthly, and the remaining fund is currently in the liquidation process with a residual balance remaining.

² *Commingled Real Estate Investment Funds.* The nine funds in this group consist primarily of real estate investments owned directly or through partnership interests located in the United States. These investments include multi-family, industrial, retail, office, apartments and mortgage loans on income producing property. Each are valued at the NAV of units held at the end of the period based upon the fair value of the underlying investments. Eight funds within this strategy are eligible for redemption quarterly, and the remaining fund is subject to contractual lock-up restrictions and not currently eligible for redemption.

³ *Activist Equity Funds.* The four funds in this group invest in public companies with the intent to effect positive change through influencing management. The funds may be structured with a focus on specific domestic or foreign geographic regions. These investments are valued at the NAV per share. One fund (approximately 34% of this strategy) is currently eligible for redemption monthly. Another fund (approximately 29% of this strategy) is eligible for redemption in six months due to annual lock-up restrictions. The remaining two funds (approximately 37% of this strategy) are subject to contractual lock-up restrictions and are not currently eligible for redemption.

⁴ *Diversifying Strategies (Managed Futures) Hedge Funds.* The three funds that make up this group primarily trade equity and commodity futures, but can also participate in indexes, rates and currencies across global markets. These funds use a systematic approach and focus on trends in price and other market signals. These investments are valued at the NAV per share. The funds within this strategy are no longer subject to contractual lock-up restrictions and are eligible for redemption within one month or less.

⁵ *Equity Long/Short Hedge Funds.* Consisting of three funds, this strategy invests both long and short, primarily in U.S. and global stocks that are mispriced by the markets. These managers vary in their use of short selling, leverage and definitions of growth or value. These funds are valued at the NAV per share. The funds within this strategy are no longer subject to contractual lock-up restrictions and are eligible for redemption within three months or less.

⁶ *Event Driven Hedge Funds.* The two funds in this group seek to gain an advantage from pricing inefficiencies that may occur in the onset or aftermath of a corporate action or related event. These investments are valued at the NAV per share. Both funds within this strategy are subject to contractual lock-up restrictions and not currently eligible for redemption.

⁷ *Global Macro Hedge Funds.* Consisting of two funds, which base their holdings (such as long and short positions in various equity, fixed income, currency, and futures markets) primarily on overall economic and political view of various countries. These funds are valued at the NAV per share. Both funds within this strategy are no longer subject to contractual lock-up restrictions and are eligible for redemption within one month.

⁸ *Multi-Strategy Hedge Funds.* The five funds in this group aim to diversify risks and reduce volatility by combining other strategies. These strategies are typically a mix of Equity Long/Short, Event-Driven, Opportunistic Debt and Relative Value. These funds are valued at the NAV per share. Four funds (approximately 78% of this strategy) are currently eligible for redemption within three months due to quarterly redemption restrictions. One fund (approximately 22% of this strategy) is eligible for redemption biennially (for each commitment) with the next redemption in five months.

⁹ *Opportunistic Debt Hedge Funds.* Consisting of three funds that pursue various strategies and asset classes, with an emphasis on mispriced debt or equity of companies in distress. These managers vary in their focus on early versus late stage situations, senior versus subordinated levels on the capital structure and non-traditional areas including high yield bonds and Emerging Markets debt, and may also pursue relative value and arbitrage strategies with various debt instruments. These funds are valued at the NAV per share. Two funds in this strategy are eligible for redemption within three months due to quarterly redemption restrictions, and the remaining fund is currently in the redemption process.

¹⁰*Relative Value Hedge Funds.* Consisting of one fund, this strategy focuses on benefiting from valuation discrepancies that may be present in related financial instruments by simultaneously purchasing (long) or selling (short) these instruments. These investments are valued at the NAV per share. The one fund in this strategy is no longer subject to contractual lock-up restrictions and eligible for redemption within three months.

¹¹*Insurance funds.* The seven funds in this group invest primarily in reinsurance contracts and insurance-linked securities. These investments are the valued at NAV per share. One fund (approximately 27%) has varying restrictions due to underlying investment funds and redeemable within one to three months. Three funds (approximately 56%) are eligible for redemption within seven months or less due to biannual redemptions restrictions. The remaining three funds (approximately 17%) are not eligible for redemption due to contractual lock-up restrictions.

¹²*Private Debt/Credit Opportunity Funds.* There are 75 private debt/credit funds investing primarily in Distressed, Mezzanine and Loans with some exposure to Special Situations. The fair value of these funds has been determined using the NAV at June 30, 2023 or one quarter in arrears adjusted for current quarter cash flows. These funds are not eligible for redemption. Distributions are received as underlying investments within the funds are liquidated, which on average can occur over the span of five to ten years.

¹³*Private Equity funds.* There are 257 private equity funds investing primarily in Leveraged Buyouts funds, Venture Capital funds, Secondary funds and Growth funds with some exposure to Special Situations, Diversifying Strategies and GP Investments. The fair value of 256 funds has been determined using the NAV at June 30, 2023, or one quarter in arrears adjusted for current quarter cash flows. The fair value of the remaining 1 fund (approximately 1% of the value of these investments) is based on external appraisals at June 30, 2023, and classified as Level 3. These funds are not eligible for redemption. Distributions are received as underlying investments within the funds are liquidated, which on average can occur over the span of five to ten years.

¹⁴*Private Real Asset Funds.* There are 107 real asset funds, 72 of which invest in real estate assets such as commercial office buildings, retail properties, multi-family residential properties, developments or hotels. In addition, the funds may be structured with a focus on specific geographic domestic or foreign regions. The remaining 35 funds invest in infrastructure, timberland, transportation and commodities. The fair value of these funds has been determined using the NAV at June 30, 2023, or one quarter in arrears adjusted for current quarter cash flows. These funds are not eligible for redemption. Distributions are received as underlying investments within the funds are liquidated, which on average can occur over the span of five to ten years.

¹⁵*Direct Real Estate Investments.* There are 86 direct owned/joint venture real estate assets that are valued based on annual external and/or quarterly internal appraisals and are classified as Level 3.

The schedule below discloses the fair value measurements for all other funds managed by the SBA (excluding the FRS Pension Trust Fund) at June 30, 2023, (in thousands):

¹*Commingled Domestic Bonds and Notes Funds:* One Treasury Inflation-Protected Securities (TIPS) fund, six domestic bonds and notes funds and two stable value funds are considered to be commingled in nature. The TIPS fund seeks long-term real total return and is designed to keep pace with inflation. The six domestic bonds and notes funds utilize various investment strategies such as short/intermediate duration, index/benchmark tracking, high-yield, and corporate/government investment grade debt. The two stable value funds consist of fixed income securities and wrap contracts, and focus on the preservation of capital by retaining the value of investment with limited volatility. Each fund is valued at the NAV of units held at the end of the period, based upon the fair value of the underlying investments.

²*Commingled Domestic Equity Funds:* Five domestic equity funds are considered to be commingled in nature. The domestic equity funds utilize various investment strategies such as index/benchmark tracking, small/mid cap, and large cap growth/value seeking appreciation and income. Each fund is valued at the NAV of units held at the end of the period, based upon the fair value of the underlying investments.

³*Commingled International Equity Fund:* One international equity fund is considered to be commingled in nature. The fund invests in a portfolio of international equity securities whose total rates of return will approximate as closely as practicable the capitalization weighted total rates of return of the markets in certain countries for equity securities traded outside the United States. The fund is valued at the NAV of units held at the end of the period, based upon the fair value of the underlying investments.

⁴*Commingled Real Asset Funds:* These two funds consist of various investments such as commodities, real estate, floating rate loans, energy industry Master Limited Partnerships, global infrastructure and agriculture. Each fund is valued at the NAV of units held at the end of the period, based upon the fair value of the underlying investments.

Component Units

Securities classified in Level 1 of the fair value hierarchy are valued using quoted prices in active markets from the custodian bank's primary external pricing vendors.

Securities classified in Level 2 are evaluated prices from the custodian bank's primary external pricing vendors, or alternative pricing source, such as investment managers, if information is not available from the primary vendors. The pricing methodology involves the use of evaluation models such as matrix pricing, which is based on the securities' relationship to benchmark quoted prices. Other evaluation models use actual trade data for similar securities, collateral attributes, broker bids, new issue pricings and other observable market information.

Securities classified as Level 3 are valued with prices from the custodian bank's external pricing vendors or an alternative pricing source, utilizing cash flow models.

Certain investments, such as commercial paper, repurchase agreements, money market funds, and various investment agreements, are not included in the table, because they are carried at cost and not priced at fair value.

The schedule below discloses the fair value measurements for major component units at June 30, 2023, (in thousands):

Total investments measured at fair value	\$ 5,439,956			

¹International equity: This category included an investment in a foreign-based publicly-traded company focused on providing law enforcement with new tools and technology.

²Real estate investments: This category includes an investment in the form of real estate with donor restrictions. The real estate is held at fair value less estimated costs to sell.

³Hedge Funds: This category includes an investment in a hedge fund in which the fund manager is authorized to invest in a broad spectrum of securities that include, but are not limited to the following: equity and debt securities, currency, commodities, foreign debt, options, futures and swaps.

⁴Private Equity Funds: This category includes investments in several limited partnership funds that invest in equity securities and debt of private companies.

NOTE 5 – TAXES AND TAX ABATEMENTS

A. Taxes

Florida levies neither a personal income tax nor an ad valorem tax on real or tangible personal property. Taxes are, however, one of the principal sources of financing state operations. A schedule of tax revenues by major tax type for each applicable major governmental fund, and for nonmajor governmental funds in the aggregate, is presented below (in thousands):

	General Fund	Natural Resources, Environment, and Growth Management	Public Education	Health and Family Services	Transportation	Nonmajor Governmental Funds	Total
Sales and use tax	\$ 40,589,893	\$ —	\$ —	\$ —	\$ —	\$ —	\$ 40,589,893
Fuel taxes:							
Motor fuel tax	—	—	—	—	3,094,117	—	3,094,117

Total other taxes	1,935,842	—	—	847,413	—	331,349	3,114,604
Total	\$ 54,259,527	\$ 314,130	\$ 1,376,398	\$ 847,413	\$ 3,128,212	\$ 346,829	\$ 60,272,509

	Sales and Use Tax
Governmental fund statements	\$ 40,589,893
Government-wide accruals	50,707
Government-wide statements	\$ 40,640,600

B. Tax Abatements

For financial reporting purposes, a tax abatement is defined as an agreement between the government and an individual or entity through which the government promises to forgo tax revenues and the individual or entity promises to take a specific action after the agreement has been entered into that contributes to economic development or otherwise benefits the government or its citizens. As of June 30, 2023, tax abatement programs are as follows:

Program Name	Entertainment Industry Sales Tax Exemption Program	Community Contribution Tax Credit Program
Program Purpose	The purpose of this program is to encourage the use of this state as a site for filming, for the digital production of films, and to develop and sustain the workforce and infrastructure for film, digital media, and entertainment production.	Encourage donations and local private support of projects that provide housing opportunities for persons with special needs or home ownership opportunities for low-income or very low income families.
Taxes being abated	Sales and Use Tax	Corporate Income Tax; Insurance Premium Tax; Sales and Use Tax Refund
Authority under which abatements are entered	s. 288.1258, F.S.	s. 212.08(5)(p); s. 220.183; and s. 624.5105, F.S.
Criteria to be eligible to receive abatements and commitment of the taxpayer	Applicants must be a production company producing specified types of content in Florida. For the purposes of this section, “qualified production company” means any production company that has submitted a properly completed application to the Department of Revenue and that is subsequently qualified by the Office of Film and Entertainment.	A taxpayer must apply for approval and be issued an approval letter by the State. A community contribution by a person must be in the following form: (a) Cash or other liquid assets; (b) Real property, including 100 percent ownership of a real property holding company; (c) Goods or inventory; or (d) Other physical resources identified by the State.
How taxes are reduced	Tax Exemption	Tax credit against corporate income or insurance premium tax; sales tax refund
How amount of abatement is determined	Point of sale exemption on items used as an integral part of the production process in Florida, including production equipment, set design and construction, props, wardrobe, and real estate rental.	The credit is equal to 50 percent of the value of the donation, with a limit of \$200,000 per year. For the credits under this authorized program maximum amount limitation is totaling \$14,000,000.
Provisions for recapturing abated taxes	Revocation of certificate and any taxes exempted are due with interest and penalty.	If erroneous credits are discovered during an audit of the taxpayer's books and records the amount of tax offset by the credit will be assessed.
Type of commitments other than taxes	N/A	N/A
Total tax revenues reduced during fiscal year (in thousands)	\$37,658	\$14,000

Tax abatement programs, continued:

Program Name	Florida Scholarship Funding Organizations Program	Hope Scholarship Credit
Program Purpose	Allows taxpayers to make private, voluntary contributions to nonprofit scholarship-funding organizations and receive dollar for dollar tax credit against specific Florida taxes.	The Hope Scholarship Program provides a public-school student who was subjected to an incident of violence or bullying at school the opportunity to apply for a scholarship to attend an eligible private school rather than remain in an unsafe school environment.
Taxes being abated	Sales and Use Tax, Corporate Income Tax, Severance Taxes, Insurance Premium Tax	Sales and Use Tax
Authority under which abatements are entered	s. 1002.395, F.S.	s. 212.1832 and s. 1002.40, F.S.
Criteria to be eligible to receive abatements and commitment of the taxpayer	Qualifying business entity shall apply to the department for approval of an allocation of statewide cap to ensure credits do not exceed the cap. The Department will approve applications and issue an approval letter. Taxpayer must make the contribution to the Scholarship Funding Organization by the end of the tax year to earn the credit on the return.	Applicants must purchase or register a motor vehicle qualifying for the Hope Scholarship Program in Florida and may designate \$105 of the state sales tax due at the time of purchase or registration to an eligible nonprofit scholarship-funding organization (SFO) participating in the Program. If the state sales tax due is less than \$105, the designated amount would be the state sales tax due. Motor vehicle dealers, private tag agencies, and county tax collectors receiving contributions must remit the contributions directly to the designated nonprofit scholarship-funding organization and tax a credit on their sales and use tax return for the amount of the contributions.
How taxes are reduced	Tax Credit	Tax Credit
How amount of abatement is determined	Contribution is made to qualifying Scholarship Funding Organization	Contribution is paid to a qualifying scholarship-funding organization for use in the Hope Scholarship Program.
Provisions for recapturing abated taxes	If erroneous credits are discovered during an audit of the taxpayer's books and records the amount of tax offset by the credit will be assessed.	If erroneous credits are discovered during an audit of the taxpayer's books and records the amount of tax offset by the credit will be assessed.
Type of commitments other than taxes	N/A	N/A
Total tax revenues reduced during fiscal year (in thousands)	\$348,442	\$74,935

Tax abatement programs, continued:

Program Name	Capital Investment Tax Credit	Contaminated Site Credit
Program Purpose	Attract and grow capital-intensive industries in the state.	To promote voluntarily rehabilitation of brownfield sites or sites contaminated with dry-cleaning solvent.
Taxes being abated	Corporate Income Tax; Premium Tax arising from the project	Corporate Income Tax
Authority under which abatements are entered	s. 220.191, F.S.	s. 220.1845 and s. 376.30781, F.S.
Criteria to be eligible to receive abatements and commitment of the taxpayer	<p>Applicants must establish a qualified project certified by the State and meet minimum capital investment, job creation and wage requirements.</p> <p>(1) The business has to be a high-impact sector business; (2) The business has to build or expand a facility within Florida; (3) The business has to incur construction or expansion costs of at least \$25 million; (4) The business has to create and maintain at least 100 new jobs within Florida; and (5) The business has to be approved by the Department of Economic Opportunity.</p>	Participants must meet applicable eligibility criteria and enter either a Voluntary Cleanup Agreement or a Brownfield Site Rehabilitation Agreement.
How taxes are reduced	Tax Credit	Tax Credit
How amount of abatement is determined	An annual credit may be claimed for up to 20 years in an annual amount up to 5 percent of the eligible capital costs generated by a qualifying project. The annual tax credit shall not exceed specified percentages of the annual tax liability.	The credit is 50 percent of rehabilitation costs, up to \$500,000 per site, per year. To encourage completion of site rehabilitation the applicant may claim an additional 25 percent of the total site rehabilitation costs, not to exceed \$500,000, in the final year of cleanup. To encourage the construction of affordable housing an applicant meeting applicable requirements may claim an additional 25 percent of the total site rehabilitation costs, not to exceed \$500,000.
Provisions for recapturing abated taxes	If erroneous credits are discovered during an audit of the taxpayer's books and records the amount of tax offset by the credit will be assessed.	If erroneous credits are discovered during an audit of the taxpayer's books and records the amount of tax offset by the credit will be assessed.
Type of commitments other than taxes	N/A	N/A
Total tax revenues reduced during fiscal year (in thousands)	\$75,335	\$18,835

Tax abatement programs, continued:

Program Name	Research and Development Tax Credit	Qualified Target Industry Tax Refund Program
Program Purpose	To encourage target industry business in the State.	To encourage the growth of higher-wage jobs and a diverse economic base by providing state tax refunds to qualified target industry businesses that originate or expand in the state or that relocate to the state.
Taxes being abated	Corporate Income Tax	Sales and Use Tax, Corporate Income Tax, Intangible Personal Property Tax, Excise Tax, Ad Valorem Tax, Insurance premium tax, Communication services tax.
Authority under which abatements are entered	s. 220.196, F.S.	s. 288.106, F.S.
Criteria to be eligible to receive abatements and commitment of the taxpayer	Taxpayer must claim and be allowed a research credit against federal income tax for qualified research expenses under Section 41, Internal Revenue Code, and also meet the definition of a target industry business as defined in Section 288.106, F.S.	Applicants must be a new or expanding business in Florida, create a minimum number of new full-time jobs within one or more of Florida's designated targeted industries and meet minimum wage requirements.
How taxes are reduced	Tax Credit	Tax Credit or Refund
How amount of abatement is determined	The Florida credit is equal to 10 percent of the amount of qualified research expenses incurred in Florida and allowed under s. 41, IRC, which exceeds the base amount, defined as the average of the qualified research expenses incurred in Florida for the four tax years prior to the calendar year for which the credit is determined. The Florida credit may be prorated if the total credits applied for by all applicants exceed the credit cap (currently \$9 million)	Demonstrate minimum Florida job creation, maintenance and wages paid.
Provisions for recapturing abated taxes	If erroneous credits are discovered during an audit of the taxpayer's books and records the amount of tax offset by the credit will be assessed.	Revocation of certification and interest, penalties, attorneys' fees and expenses. A qualified target industry business that fraudulently claims a refund under this section commits a felony of the third degree and is liable for repayment of the amount of the refund plus a mandatory penalty.
Type of commitments other than taxes	N/A	N/A
Total tax revenues reduced during fiscal year (in thousands)	\$10,354	\$11,209

Tax abatement programs, continued:

Program Name	Professional Sports Franchises	Major League Baseball Spring Training Baseball Franchises
Program Purpose	To attract and retain professional sports franchises by assisting with facility construction and or renovation.	To attract and retain major league baseball franchises and spring training programs.
Taxes being abated	Sales and Use Tax	Sales and Use Tax
Authority under which abatements are entered	s. 220.181, F.S.	s. 288.11621, F.S. and s. 288.11631, F.S.
Criteria to be eligible to receive abatements and commitment of the taxpayer	Applicants must meet minimum statutory requirements to be certified and receive funding. Eight governmental entities have been certified and are currently receiving funding. Complete renovations and/or construction of the sports facility as described in the original application.	Applicants must meet minimum statutory requirements to be certified and receive funding. A total of eleven governmental entities have been certified and are currently receiving funding. (Originally, the spring training program was included in s. 288.1162, F.S. A total of ten governmental entities were certified in 2001 and 2006, respectively.)
How taxes are reduced	Tax Refund	Tax Refund
How amount of abatement is determined	The Florida Department of Economic Opportunity shall serve as the state agency for screening applicants for state funding under s. 212.20, F.S. and for certifying an applicant as a facility for the new or retained professional sports franchise.	The Florida Department of Economic Opportunity is responsible for certifying eligible applicants and determining allowable refund amounts.
Provisions for recapturing abated taxes	If erroneous credits are discovered during an audit of the taxpayer's books and records the amount of tax offset by the credit will be assessed.	If erroneous credits are discovered during an audit of the taxpayer's books and records the amount of tax offset by the credit will be assessed.
Type of commitments other than taxes	N/A	N/A
Total tax revenues reduced during fiscal year (in thousands)	\$16,000	\$10,667

Tax abatement programs, continued:

Program Name	Salary Tax Credit	New Worlds Reading Program
Program Purpose	Provides a credit against insurance premium taxes and fees for up to 15% of the salary of employees of the insurer meeting certain conditions.	To instill a love of reading by providing high-quality, free books to students in kindergarten through grade 5 who are reading below grade level and to improve the literacy skills of students in kindergarten through grade 12.
Taxes being abated	Insurance Premium Tax	Sales and Use Tax, Corporate Income Tax, Severance Taxes, Insurance Premium Tax
Authority under which abatements are entered	s. 624.509(5), F.S. and s. 624.509(6), F.S.	s.1003.485, F.S.
Criteria to be eligible to receive abatements and commitment of the taxpayer	Eligibility of credits claimed for employee's salary is determined by 1) employees must perform insurance related activities, 2) Employees are located within Florida and 3) are covered by Chapter 443, F.S, Reemployment Assistance.	Qualifying business entity shall apply to the department for approval of an allocation of statewide cap to ensure credits do not exceed the cap. The Department will approve applications and issue an approval letter. Taxpayer must make the contribution to the Scholarship Funding Organization by the end of the tax year to earn the credit on the return.
How taxes are reduced	Tax Credit applied for on Tax return	Tax Credit applied for on Tax return
How amount of abatement is determined	Any taxpayer who has received prior approval from the Governor's Office of Tourism, Trade, and Economic Development for its community contribution to any revitalization project undertaken by an eligible sponsor, shall be allowed a credit of 50 percent of the contribution. The total annual credit under this section applied against the tax due under Section 624.509 or 624.510, F.S., for a calendar year, may not exceed \$200,000. The valuation of the contribution determined by the Governor's Office of Tourism, Trade and Economic Development shall be used in the computation of the credit.	Monetary contribution is made to qualifying Organization.
Provisions for recapturing abated taxes	If erroneous credits are discovered during an audit of the taxpayer's books and records the amount of tax offset by the credit will be assessed.	If erroneous credits are discovered during an audit of the taxpayer's books and records the amount of tax offset by the credit will be assessed.

Program Name	Rural Area of Opportunity Building Materials Sales Tax Refund
Program Purpose	Provides refund of sales tax on building materials used in a rural area of opportunity.
Taxes being abated	Sales and Use Tax
Authority under which abatements are entered	s. 212.08(5)(b), F.S. and s. 212.08(5)(q), F.S.
Criteria to be eligible to receive abatements and commitment of the taxpayer	Property owners, lessees of lessors shall be eligible to apply for a sales tax refund on the purchase of building materials or pest control services or the rental of tangible personal property on new construction projects located within a Rural Area of Opportunity. Refund applicant must show building materials purchased have been used for the rehabilitation of real property located in a rural area of opportunity. The application must be filed with the Department of Economic Opportunity.
How taxes are reduced	Refund of sales and use tax.
How amount of abatement is determined	Building materials are used to rehabilitate real property located in a rural area of opportunity.
Provisions for recapturing abated taxes	If erroneous refunds are discovered during an audit of the taxpayer's books and records the amount of tax refunded will be assessed.
Type of commitments other than taxes	N/A
Total tax revenues reduced during fiscal year (in thousands)	\$5,713

The state had additional tax abatement programs, each amounting to less than \$5 million in revenue and estimated to be reduced in fiscal year 2022-23. In total, these programs resulted in \$20.3 million in estimated tax abatements and include the New Markets Tax Credit, Redevelopment Products, Enterprise Zone Property Credit, New and Expanding Business, Florida AMT Credit, Professional Golf Hall of Fame Facility, Rural Job Tax Credit Program, Hazardous Waste Facility Credit, Emergency Excise Tax Credit, Brownfield Redevelopment Bonus Tax Refund, Rural Jobs Credit, Urban High-Crime Area Job Tax Credit Program, and Enterprise Zone Jobs Credit, Entertainment Industry Financial Incentive Program, Florida Renew Prod Credit, Strong Family, and Florida Renew Tech Credit.

NOTE 6 - LEASES AND SUBSCRIPTION OBLIGATIONS**A. Right to Use Leased Assets**

The state enters into leases for land, buildings, copiers, and equipment. Certain leases can be short-term or renewable at the option of the state, and are accounted for appropriately per GASB Statement No. 87, Leases. As of June 30, 2023, there were no leases with variable payments not included in the measurement of the lease liability, and none of the leases contained residual value guarantees. Leased assets are amortized on a straight-line basis over the life of the lease. Amortization expense charged for the fiscal year ended June 30, 2023 for the state's governmental, business-type activities, and component units were \$133.7 million, \$5.3 million, and \$3.5 million, respectively.

For details on Right to Use Lease Assets, refer to Note 7 - Capital Assets.

Amortization for the remaining lease term as of June 30, 2023, is shown below (in thousands):

Fiscal Year Ending June 30	Governmental Activities	Business-type Activities	Component Units
2024	\$ 119,418	\$ 7,188	\$ 90,270
2025	98,613	6,509	90,270
2026	83,343	6,245	90,270
2027	67,790	5,973	90,270
2028	52,172	5,874	90,270
2029-2033	163,367	17,226	267,236
2034-2038	62,035	7,820	—
2039-2043	33,506	6,698	—
2044-2048	33,446	6,178	—
2049-2053	33,367	4,841	—
Total Amortization	<u>\$ 747,057</u>	<u>\$ 74,552</u>	<u>\$ 718,586</u>

B. Subscription Assets

Subscription assets are amortized on a straight-line basis over the life of the subscription. Amortization expense charged for the fiscal year ended June 30, 2023 for the state's governmental, business-type activities, and component units were \$52.9 million, \$899 thousand, and \$5.8 million, respectively.

Amortization for the remaining subscription term as of June 30, 2023, is shown below (in thousands):

Fiscal Year Ending June 30	Governmental Activities	Business-type Activities	Component Units
2024	\$ 88,897	\$ 1,248	\$ 32,911
2025	86,505	999	32,911
2026	81,292	112	32,911
2027	57,797	32	32,911
2028	—	—	13,757
2029-2032	—	—	55,030
Total Amortization	<u>\$ 314,491</u>	<u>\$ 2,391</u>	<u>\$ 200,431</u>

C. Lease Receivables

The state leases land, buildings and equipment to third parties with various terms and interest rates. As of June 30, 2023, the state's governmental activities, business-type activities, and component unit receivables for lease payments totaled \$13.9 million, \$18.7 million, and \$151.4 million, respectively.

The following are schedules of future minimum payments to be received by year by the state as of June 30, 2023 (in thousands):

Year Ending June 30	Governmental Activities		Business-type Activities		Component Units	
	Principal	Interest	Principal	Interest	Principal	Interest
2024	\$ 3,341	\$ 384	\$ 1,374	\$ 384	\$ 49,407	\$ 590
2025	2,062	337	3,377	337	14,736	585
2026	2,068	289	3,388	289	14,736	579
2027	2,076	239	3,399	239	14,732	573
2028	355	206	582	206	14,736	568
2029-2033	1,943	410	3,182	785	73,672	2,755
2034-2038	2,052	140	3,360	268	73,672	2,614
2039-2043	—	—	—	—	73,672	2,473
2044-2048	—	—	—	—	73,671	2,330
2049-2053	—	—	—	—	73,671	2,198
Total Lease Receivable	\$ 13,897	\$ 2,005	\$ 18,662	\$ 2,508	\$ 476,705	\$ 15,265

For the fiscal year ended June 30, 2023, the state's governmental activities and component units recognized \$3.2 million and \$22.3 million in lease revenue, respectfully. For the fiscal year ended June 30, 2023, the component units recognized \$3 million in interest income, respectfully.

D. Deferred Inflows

The total deferred inflow of resources associated with these leases will be recognized as revenue over the lease term. As of June 30, 2023, the balance of the governmental activities, business-type activities, and component units deferred inflow of resources was \$13.8 million, 183.5 million, and \$534.9 million, respectively.

Deferred inflows of resources for the remaining lease term as of June 30, 2023, is shown below (in thousands):

Fiscal Year Ending June 30	Governmental Activities	Business-type Activities	Component Units
2024	\$ 3,613	\$ 12,236	\$ 58,844
2025	3,612	12,236	58,844
2026	3,605	12,236	58,844
2027	374	12,236	58,844
2028	374	12,236	58,844
2029-2033	1,874	61,181	240,731
2034-2038	369	61,181	—
Total Deferred inflows	\$ 13,821	\$ 183,542	\$ 534,951

E. Principal and Interest Requirements for Lease Liability

The state routinely leases land, buildings and equipment in lieu of purchasing assets. As of June 30, 2023, the state's governmental activities, business-type activities, and component units for lease liabilities totaled approximately \$692.9 million, \$77.7 million, \$788.5 million, respectively.

The following is a schedule by fiscal year of principal and interest payments due for lease payments as of June 30, 2023 (in thousands):

Fiscal Year Ending June 30	Governmental Activities		Business-type Activities		Component Units	
	Principal	Interest	Principal	Interest	Principal	Interest
2024	\$ 119,755	\$ 8,580	\$ 9,057	\$ 703	\$ 85,037	\$ 71
2025	101,113	5,172	9,585	503	24,222	63
2026	83,630	4,000	8,850	311	24,221	66
2027	64,290	3,100	8,457	124	24,221	63
2028	49,789	2,545	9,248	871	24,221	61
2029-2033	142,128	5,408	15,450	175	121,106	270
2034-2038	54,526	1,776	5,214	279	121,106	208
2039-2043	25,995	1,286	1,834	18	121,106	147
2044-2048	25,924	1,278	10,008	919	121,106	86
2049-2053	25,838	1,273	—	—	121,106	37
Total lease liabilities	\$ 692,988	\$ 34,418	\$ 77,703	\$ 3,903	\$ 787,452	\$ 1,072

F. Principal and Interest Requirements for Subscription Liability

As of June 30, 2023, the state's governmental activities, business-type activities, and component units for subscription liabilities totaled approximately \$314.6 million, \$2.4 million, \$105.8 million, respectively.

The following is a schedule by fiscal year of principal and interest payments due for lease payments as of June 30, 2023 (in thousands):

Fiscal Year Ending June 30	Governmental Activities		Business-type Activities		Component Units	
	Principal	Interest	Principal	Interest	Principal	Interest
2024	\$ 50,436	\$ 8,809	\$ 910	\$ 56	\$ 27,637	\$ 12
2025	105,212	5,391	729	34	30,120	10
2026	88,663	4,209	529	23	30,120	8
2027	68,631	3,298	310	11	30,120	6
2028	1,615	57	—	—	30,121	4
Total subscription liabilities	\$ 314,557	\$ 21,764	\$ 2,478	\$ 124	\$ 148,118	\$ 40

G. Deferred Outflows

The total deferred outflow of resources associated with these leases will be recognized as expense over the lease term. As of June 30, 2023, the balance of the component unit deferred outflow of resources was \$202 thousand.

Deferred outflows of resources for the remaining lease term as of June 30, 2023, is shown below (in thousands):

Fiscal Year Ending June 30	Governmental Activities	Business-type Activities	Component Units
2024	\$ —	\$ —	\$ 20
2025	—	—	20
2026	—	—	20
2027	—	—	20
2028	—	—	20
2029-2033	—	—	102
2034-2038	—	—	—
Total Deferred outflows	\$ —	\$ —	\$ 202

NOTE 7 - CAPITAL ASSETS

Capital assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend the assets' lives are not capitalized.

For financial statement purposes, the state reports capital assets under the following categories and has established a reporting capitalization threshold for each category. Applicable capital assets are amortized or depreciated over the appropriate estimated useful lives using the straight-line method.

Capital Asset Category	Financial Statement Capitalizing Threshold	Estimated Useful Life (in Years)
Right to use subscriptions	\$1,500,000	Shorter of subscription term or useful life*
Right to use leased assets	\$1,500,000	Shorter of lease term or useful life*
Land and other nondepreciable assets	Capitalize all	Not depreciable
Nondepreciable infrastructure	Capitalize all	Not depreciable
Construction work in progress	\$100,000 when work is completed	Not depreciable
Buildings, equipment, and other depreciable assets		
Buildings and building improvements	\$100,000	5 - 50
Infrastructure and infrastructure improvements (depreciable)	\$100,000	3 - 50
Leasehold improvements	\$100,000	2 - 15
Intangible assets	\$4,000,000	2 - 30
Furniture and equipment	\$5,000 and \$250 for non-circulated books	2 - 25
Works of art and historical treasures	Items capitalized as of June 30, 1999, remain capitalized; capitalize unless considered a collection	5 - 50
Library resources	\$25	5 - 50
Other capital assets	\$5,000	3 - 20

* Useful life for right to use lease and subscription assets are the same amount of time as the tangible asset categories.

The state has elected to use the modified approach for accounting for its roadways, bridges, and other infrastructure assets included in the State Highway System. Under this approach, the Department of Transportation has made the commitment to maintain these assets at levels established by the Department of Transportation and approved by the Florida Legislature. No depreciation expense is reported for such assets, nor are amounts capitalized in connection with improvements that lengthen the lives of such assets, unless the improvements also increase their service potential. The Department of Transportation maintains an inventory of these assets and performs periodic condition assessments to establish that the predetermined condition level is being maintained. In addition, the Department of Transportation makes annual estimates of the amounts that must be expended to maintain these assets at the predetermined condition levels. Refer to the Other Required Supplementary Information for additional information on infrastructure using the modified approach.

Not included in the reported capital assets are the irreplaceable collections at various historic sites and museums throughout the state. For example, the Museum of Florida History, located in Tallahassee, currently has artifacts illustrating the history of Florida since the arrival of human beings on the peninsula. It also has access to collections that include Florida upland and underwater archaeology, Florida archives, and Florida and Spanish colonial numismatics.

Depreciation and amortization expense charged to functions of governmental activities for the year ended June 30, 2023, is as follows (in thousands):

	Depreciation Expense	Amortization Expense	Depreciation and Amortization Expense
General Government	\$ 84,304	\$ 79,367	\$ 163,671
Education	9,097	569	9,666

NOTE 8 - PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS

A. Pensions

The Florida Department of Management Services (Department) is part of the primary government of the State of Florida and is responsible for administering the Florida Retirement System (FRS) Pension Plan and Other State-Administered Systems. For the fiscal year ended June 30, 2023, the Department administered three defined benefit plans, two defined contribution plans, a supplemental funding of defined benefit plans for municipal police officers and firefighters, and various general revenue funded pension programs. Beginning with the fiscal year ended June 30, 2014, the Department issues a publicly-available, audited annual comprehensive financial report (ACFR) that includes financial statements, notes and required supplementary information for each of the pension plans which it administers. Detailed information about the plans is provided in the FRS ACFR which is available online or by contacting the Department.

Copies of this report, as well as the plans' actuarial valuations, can be obtained from the Department of Management Services, Division of Retirement (Division), Bureau of Outreach and Audit, P.O. Box 9000, Tallahassee, Florida 32315-9000; by telephone toll free at 877-377-1737 or 850-488-5706; by email at REP@dms.fl.gov; or at the Division's website (www.frs.myflorida.com).

1. Defined Benefit Plans

The Florida Retirement System

The FRS is a cost-sharing multiple-employer public-employee retirement system with two primary plans – the FRS defined benefit pension plan (Pension Plan) and the FRS Investment Plan. The FRS Pension Plan was created in Chapter 121, Florida Statutes (F.S.), effective December 1, 1970, by consolidating and closing these existing plans to new members: the Teachers' Retirement System (Chapter 238, F.S.), the State and County Officers and Employees' Retirement System (Chapter 122, F.S.), and the Highway Patrol Pension Trust Fund (Chapter 321, F.S.). In 1972, the Judicial Retirement System (Chapter 123, F.S.) was closed and consolidated into the FRS. The FRS was created to provide a defined benefit pension plan for participating public employees. The FRS was amended in 1998 to add the Deferred Retirement Option Program (DROP) under the defined benefit plan and amended in 2000 to provide the Investment Plan as a defined contribution plan alternative to the defined benefit plan for FRS members effective July 1, 2002. The FRS Investment Plan is an integrated defined contribution plan administered by the State Board of Administration (SBA). Effective July 1, 2007, the Institute of Food and Agricultural Sciences (IFAS) Supplemental Retirement Program, established under Section 121.40, F.S., was consolidated under the FRS Pension Plan as a closed retirement plan. Participation in the IFAS Supplemental Retirement Program does not constitute membership in the FRS.

Chapter 121, F.S., also provides for nonintegrated, optional retirement programs in lieu of the FRS to certain members of the Senior Management Service Class (SMSC) employed by the state, state elected officials who chose SMSC membership in lieu of Elected Officers' Class membership (EOC), and faculty and other specified positions in the State University System and Florida College System institutions. Provisions relating to the FRS are also contained in Chapter 112, F.S.

Membership

FRS membership is compulsory for eligible employees filling a regularly established position in a state agency, county agency, state university, state college, or district school board, unless restricted from FRS membership under Sections 121.053 or 121.122, F.S., or allowed to participate in a non-integrated defined contribution plan in lieu of FRS membership. Participation by cities, municipalities, special districts, charter schools, and metropolitan planning organizations, although optional, is generally irrevocable after election to participate is made. Members hired into certain positions may be eligible to withdraw from the FRS altogether or elect to participate in the non-integrated optional retirement programs in lieu of the FRS except faculty of a medical college in a state university who are required to participate in the State University System Optional Retirement Program (SUSORP). Retirees initially reemployed in regularly established positions on or after July 1, 2010, may not participate in the FRS except for defined contribution plan retirees employed in a regularly established position on or after July 1, 2017. FRS Pension Plan retirees remain ineligible for renewed membership.

Retirees initially reemployed in regularly established positions on or after July 1, 2010, may not participate in the FRS except for defined contribution plan retirees employed in a regularly established position on or after July 1, 2017. Retirees of the FRS Investment Plan, the SUSORP, the State Community College System Option Retirement Program (SCCSORP), and the Senior Management Service Optional Annuity Program (SMSOAP) who are initially reemployed on or after July 1, 2010, and who are

employed in a regularly established position on or after July 1, 2017, will be enrolled in the FRS Investment Plan, SUSORP, or SCCSORP based upon the position held as renewed members on or after July 1, 2017.

FRS Pension Plan retirees remain ineligible for renewed membership

There are five general classes of membership, as follows:

- *Regular Class* – Members of the FRS who do not qualify for membership in the other classes.
- *Senior Management Service Class* – Members in senior management level positions in state and local governments who fill compulsory and designated positions participate in the Senior Management Service Class (SMSC). Members of the EOC may also elect to participate in the SMSC in lieu of the EOC.
- *Special Risk Class* – Members who are employed as law enforcement officers, firefighters, firefighter trainers, fire prevention officers, state fixed-wing pilots for aerial firefighting surveillance, correctional officers, emergency medical technicians, paramedics, community-based correctional probation officers, youth custody officers (from July 1, 2001, through June 30, 2014), certain health-care related positions within state forensic or correctional facilities, or specified forensic employees of a medical examiner’s office or a law enforcement agency, and meet the criteria to qualify for this class.
- *Special Risk Administrative Support Class* – Former Special Risk Class members who are transferred or reassigned to nonspecial risk law enforcement, firefighting, emergency medical care, or correctional administrative support positions within an FRS special risk-employing agency.
- *Elected Officers’ Class* – Members who are elected state or county officers and the elected officers of cities and special districts that choose to place their elected officials in this class.

Vesting

Beginning July 1, 2001, through June 30, 2011, the FRS Pension Plan provided for vesting of benefits after six years of creditable service for members working on or after July 1, 2001, and initially enrolled before July 1, 2011. Members not actively working in a position covered by the FRS Pension Plan on July 1, 2001, must return to covered employment for up to one work year to be eligible to vest with less service than was required under the law in effect before July 1, 2001. Members initially enrolled on or after July 1, 2011, vest after eight years of creditable service. Members are eligible for normal retirement when they have met the requirements listed below. Early retirement may be taken any time after vesting within 20 years of normal retirement age; however, there is a 5% benefit reduction for each year prior to the normal retirement age.

- *Regular Class, Senior Management Service Class, and Elected Officers’ Class Members* – For members initially enrolled in the FRS Pension Plan before July 1, 2011, six or more years of creditable service and age 62, or the age after completing six years of creditable service if after age 62. Thirty years of creditable service regardless of age before age 62.

For members initially enrolled in the FRS Pension Plan on or after July 1, 2011, eight or more years of creditable service and age 65, or the age after completing eight years of creditable service if after age 65. Thirty-three years of creditable service regardless of age before age 65.

- *Special Risk Class and Special Risk Administrative Support Class Members* – For members initially enrolled in the FRS Pension Plan before July 1, 2011, six or more years of Special Risk Class service and age 55, or the age after completing six years of Special Risk Class service if after age 55. Twenty-five years of special risk service regardless of age before age 55. A total of 25 years of service including special risk service and up to four years of active-duty wartime service and age 52. Without six years of Special Risk Class service, members of the Special Risk Administrative Support Class must meet the requirements of the Regular Class.

For members initially enrolled in the FRS Pension Plan on or after July 1, 2011, eight or more years of Special Risk Class service and age 60, or the age after completing eight years of Special Risk Class service if after age 60. Thirty years of special risk service regardless of age before age 60. Without eight years of Special Risk Class service, members of the Special Risk Administrative Support Class must meet the requirements of the Regular Class.

Benefits

The Florida Legislature establishes and amends the benefit terms of the FRS Pension Plan. Benefits under the FRS Pension Plan are computed on the basis of age, average final compensation, creditable years of service, and accrual value per year by membership class. Members are also provided in-line-of-duty or regular disability and survivors' benefits. Members must terminate employment and apply for retirement benefits. Pension benefits of eligible retirees and annuitants are increased each July 1 by a cost-of-living adjustment. If the member is initially enrolled in the FRS Pension Plan before July 1, 2011, and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is 3% per year. If the member is initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. This individually calculated annual cost-of-living adjustment is a proportion of 3% determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by 3%. FRS Pension Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

The DROP became effective July 1, 1998, subject to provisions of s. 121.091(13), F.S. The DROP allows FRS Pension Plan members who reach eligibility for normal retirement to retire while continuing employment with an FRS employer while deferring receipt of monthly benefit payments. As of June 5, 2023, when Senate Bill 7024 was signed into law, all eligible members may elect to participate in the DROP for a maximum of 96 calendar months (up from 60 calendar months) and authorized instructional personnel may extend his or her DROP participation for up to 24 additional calendar months beyond their initial 96-month participation period but their authorized extended DROP participation must conclude at the end of a school year.

During DROP participation, monthly retirement benefits remain in the FRS Trust Fund and accrue interest until the member terminates FRS employment to finalize retirement. As of June 30, 2023, the FRS Trust Fund held in trust \$2,745,616,982 in accumulated benefits for 30,093 DROP participants. Of these 30,093 DROP participants, 28,480 were active in the DROP with balances totaling \$2,491,783,327. The remaining participants were no longer active in the DROP and had balances totaling \$253,833,655 to be processed after June 30, 2023.

Administration

The Division administers the FRS Pension Plan. The SBA invests the assets of the FRS Pension Plan held in the FRS Trust Fund. Costs of administering the FRS Pension Plan are funded from earnings on investments of the FRS Trust Fund. Reporting of the FRS Pension Plan is on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when the obligation is incurred.

Contributions

All participating employers must comply with statutory contribution requirements. Section 121.031(3), F.S., requires an annual actuarial valuation of the FRS Pension Plan, which is provided to the Legislature as guidance for funding decisions. Employer and employee contribution rates are established in s. 121.71, F.S. Employer contribution rates under the uniform rate structure (a blending of both the FRS Pension Plan and Investment Plan rates) are recommended by the actuary but set by the Legislature. Statutes require that any unfunded actuarial liability (UAL) be amortized within 30 plan years; however, all UAL bases are being amortized within 20 years. Pursuant to s. 121.031(3)(f), F.S., any surplus actuarial amounts available to offset total retirement system costs are to be amortized over a 10-year rolling period on a level-dollar basis. The balance of legally required reserves for the FRS Pension Plan at June 30, 2023, was \$186,357,365,968. These funds were reserved to provide for total current and future benefits, refunds, and administration of the FRS Pension Plan.

The table below presents FRS employer contribution rates. Rates indicated are uniform rates for all FRS members and include UAL contribution rates. These rates do not include a 1.66% contribution rate for the Retiree Health Insurance Subsidy (HIS) Program and a 0.06% assessment for the administration of the FRS Investment Plan and the educational program available to all FRS members. In addition, the Fiscal Year 2022-2023, statutory employer rates do not include the 3.00% mandatory employee contribution for all membership classes except for members in the DROP.

Membership Class	Uniform Employer Rates Recommended by Actuarial Valuation as of July 1, 2022 for Fiscal Year 2022-2023	July 1, 2022 Statutory Rates (Ch. 121, F.S.)
Regular	11.25%	10.19%
Senior Management Service	38.62%	29.85%
Special Risk	27.74%	26.11%
Special Risk Administrative Support	48.36%	36.93%
Elected Officers - Judges	47.72%	42.05%
Elected Officers - Legislators/Attorneys/Cabinet	89.39%	66.07%
Elected Officers - County	74.39%	55.28%
DROP - applicable to members from all of the above classes or plans	16.94%	16.94%

Employee eligibility, benefits, and contributions by class are as previously described. Employees not filling regular established positions and working under the other personal services or temporary status are not covered by the FRS.

Retiree Health Insurance Subsidy (HIS) Program

The HIS Program is a non-qualified cost-sharing multiple-employer defined benefit pension plan established under Section 112.363, F.S. The Florida Legislature establishes and amends the contribution requirements and benefit terms of the HIS Program. The benefit is a monthly payment to assist retirees of state-administered retirement systems in paying their health insurance premium costs and is administered by the Division. For the fiscal year ended June 30, 2023, eligible retirees and beneficiaries received a monthly HIS payment equal to the number of years of creditable service completed at the time of retirement multiplied by \$5. The payments are at least \$30 but not more than \$150 per month, pursuant to Section 112.363, F.S. To be eligible to receive a HIS benefit, a retiree under a state-administered retirement system must provide proof of eligible health insurance coverage, which can include Medicare.

The HIS Program is funded by required contributions from FRS employers as set by the Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended June 30, 2023, the contribution rate was 1.66% of payroll pursuant to Section 112.363, F.S. The state contributed 100% of its statutorily required contributions for the current and preceding two years. HIS contributions are deposited in a separate trust fund from which HIS payments are authorized. HIS benefits are not guaranteed and are subject to annual legislative appropriation. In the event the legislative appropriation or available funds fail to provide full subsidy benefits to all participants, the legislature may reduce or cancel HIS payments.

The Florida National Guard Supplemental Retirement Benefit Plan

The Florida National Guard Supplemental Retirement Benefit Plan (National Guard Benefit) is a single-employer, non-qualified defined benefit pension plan established under Section 250.22, F.S., and is administered by the Division. The Florida Legislature establishes and amends the plan. Florida National Guard retirees must have at least 30 years of Florida National Guard service. Normal retirement is at age 62 with early retirement available beginning at age 60. The monthly benefit is equal to 50% of the federal military pay table for the highest rank held while in the Florida National Guard less the benefit received from the Federal Government for military service. The benefit amount is recalculated whenever the federal military pay table is increased or the federal benefit is increased by a cost-of-living adjustment. The benefit is payable for the lifetime of the retiree without a survivor benefit option. The table below shows the number of employees covered by the benefit terms as of June 30, 2023.

Active Members	12,317
Retirees	726
Terminated Vested Members	505
Total	13,548

The National Guard Benefit is funded by an annual appropriation from General Revenue by the Legislature. Any appropriated funds not obligated for benefit payments owed at June 30 each year revert to the General Revenue Fund.

Pension Amounts for Defined Benefit Pension Plans***Net Pension Liability***

At June 30, 2023, the State reported a total liability of \$7,795,207,941 for its proportionate share of the net pension liabilities of the defined benefit, multiple-employer cost-sharing pension plans and its single-employer, non-qualified pension plan. The table below presents the fiduciary net position for the FRS and HIS plans as well as the State's proportion and proportionate share as of the measurement date of June 30, 2022, and the fiduciary net position of the National Guard Benefit as of the measurement date of June 30, 2023:

	<u>FRS Pension Plan</u>	<u>HIS</u>	<u>National Guard Benefit</u>	<u>Total</u>
Plan total pension liability (A)	\$ 217,434,441,000	\$ 11,126,965,688	\$ 609,412,914	
Plan fiduciary net position (B)	(180,226,404,807)	(535,368,479)	—	
Plan net pension liability (A-B)	37,208,036,193	10,591,597,209	609,412,914	
State's proportion	15.548909091 %	13.221342140 %	100.00 %	
State's proportionate share	<u>\$ 5,785,443,722</u>	<u>\$ 1,400,351,305</u>	<u>\$ 609,412,914</u>	<u>\$ 7,795,207,941</u>

The State's proportion of the net pension liability for FRS Pension Plan and HIS was based on contributions paid to the plans by the State relative to the contributions paid by all participating employers. The table below shows the change in proportion since the prior measurement date:

	<u>FRS</u>	<u>HIS</u>
State's proportion at prior measurement date, June 30, 2021	16.203571589%	13.711565539%
State's proportion at measurement date, June 30, 2022	<u>15.548909091%</u>	<u>13.221342140%</u>
Increase / (decrease) in proportion	<u>-0.654662498%</u>	<u>-0.490223399%</u>

The table below shows the changes in National Guard Benefit net pension liability for the fiscal year ended June 30, 2023:

National Guard Benefit

Changes in Net Pension Liability	Total Pension Liability (a)	Increase (Decrease) Plan Fiduciary Net Position (b)	Net Pension Liability (a) - (b)

Balances as of June 30, 2023	\$ 609,412,914	\$ —	\$ 609,412,914

Actuarial Methods and Assumptions

The FRS Actuarial Assumption Conference is responsible for setting the assumptions used in the funding valuations of the defined benefit pension plan pursuant to s. 216.136(10), F.S. The Department determines the assumptions in the valuations for GASB Statement No. 67 reporting purposes. The FRS Pension Plan's GASB Statement No. 67 valuation is performed annually. The HIS program has a valuation performed biennially that is updated for GASB reporting in the year a valuation is not performed. The most recent experience study for the FRS Pension Plan was completed in 2019 for the period July 1, 2013, through June 30, 2018. Because the HIS Program is funded on a pay-as-you-go basis, no experience study has been completed

for that program. The actuarial assumptions that determined the total pension liability for the HIS Program were based on certain results of the most recent experience study for the FRS Pension Plan.

The total pension liability for each of the defined benefit plans was determined by an actuarial valuation as of the measurement date of July 1, 2021, using the Individual Entry Age Normal actuarial cost method. Inflation increases for the FRS Pension Plan and the HIS is assumed at 2.40%. Payroll growth for both plans is assumed at 3.25%.

Both the discount rate and the long-term expected rate of return used for FRS Pension Plan investments is 6.70%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that contributions from participating employers will be made at the statutorily required rates. Based on these assumptions, the plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return and was applied to all periods of projected benefit payments to determine the total pension liability.

Because the HIS Program uses a pay-as-you-go funding structure, a municipal bond rate of 3.54% was used to determine the total pension liability for the program. Mortality assumptions for both plans were based on the Generational PUB-2010 with Projection Scale MP-2018 tables.

There were no changes in benefit terms for FRS that affected the total pension liability since the prior measurement date. There were no changes in benefit terms for HIS that affected the total pension liability since the prior measurement date. There were no changes between the measurement date and the reporting date which significantly impact the State’s proportionate share of the net pension liability, deferred outflows, deferred inflows and pension expense for either FRS Pension Plan or HIS.

The following changes in actuarial assumptions occurred in 2022:

- FRS Pension Plan: The long-term expected rate of return decreased from 6.80% to 6.70%.
- HIS: The municipal rate used to determine total pension liability increased from 2.16% to 3.54%.

The long-term expected rate of return on FRS Pension Plan investments was determined using a forward-looking capital market economic model, which includes an adjustment for the inflation assumption. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	1.0%	2.6%
Fixed income	19.8%	4.4%
Global equity	54.0%	8.8%
Real estate (property)	10.3%	7.4%
Private equity	11.1%	12.0%
Strategic investments	3.8%	6.2%
	100.0%	

The National Guard Benefit has not had a formal actuarial experience study performed. Due to the pay-as-you-go nature of the program, full actuarial valuations will be conducted in even-numbered years. Liabilities for odd-numbered years will be developed based on the results of a full actuarial valuation using standard actuarial roll-forward techniques. The total pension liability was determined by an actuarial valuation as of the valuation date, July 1, 2022, using the Individual Entry Age Normal actuarial cost method. Liabilities originally calculated as of the actuarial valuation date have been recalculated as of a later GASB measurement date using standard actuarial roll forward procedures. The annual increase for the net Florida National Guard benefit reflects the projected effect on the benefit of a 2.4% inflation increase assumption for the total Florida plus federal benefit and a 2.0% increase assumption for the federal portion of the benefit¹.

¹Varied by service; separate tables for officer and enlisted can be obtained from the Division, Bureau of Outreach and Audit.

Because the National Guard Benefit uses a pay-as-you-go funding structure, a municipal bond rate of 3.65% was used to determine the total pension liability for the program. Mortality assumptions for the plan were based on the Generational PUB-2010 with Projection Scale MP-2018 tables.

There were no changes in benefit terms to the National Guard Benefit that affected the total pension liability since the prior measurement date.

The following change in actuarial assumptions occurred in 2023 for the National Guard Benefit:

- The municipal bond rate used to determine total pension liability increased from 3.54% to 3.65%.

Sensitivity Analysis

The following tables demonstrate the sensitivity of the net pension liability to changes in the discount rate. The sensitivity analysis shows the impact to the State’s proportionate share of the FRS and HIS plan’s net pension liability and the National Guard Benefit net pension liability if the discount rate was 1.00% higher or 1.00% lower than the current discount rate.

<i>FRS Pension Plan</i>			<i>HIS</i>		
1% Decrease 5.70%	Current Discount Rate 6.70%	1% Increase 7.70%	1% Decrease 2.54%	Current Discount Rate 3.54%	1% Increase 4.54%
\$10,005,527,114	\$5,785,443,722	\$2,256,951,862	\$1,602,116,869	\$1,400,351,305	\$1,233,394,461

<i>National Guard Benefit</i>		
1% Decrease 2.65%	Current Discount Rate 3.65%	1% Increase 4.65%
\$740,440,960	\$609,412,914	\$510,451,756

Pension Expense and Deferred Outflows / (Inflows) of Resources

In accordance with GASB Statement No. 68, paragraphs 54 and 71, changes in the net pension liability are recognized in pension expense in the current measurement period, except as indicated below. For each of the following, a portion is recognized in pension expense in the current measurement period, and the balance is amortized as deferred outflows or deferred inflows of resources using a systematic and rational method over a closed period, as defined below:

- Differences between expected and actual experience with regard to economic and demographic factors – amortized over the average expected remaining service life of all employees that are provided with pensions through the pension plan (active and inactive employees).
- Changes of assumptions or other inputs – amortized over the average expected remaining service life of all employees that are provided with pensions through the pension plan (active and inactive employees).
- Changes in proportion and differences between contributions and proportionate share of contributions – amortized over the average expected remaining service life of all employees that are provided with pensions through the pension plan (active and inactive employee).
- Differences between expected and actual earnings on pension plan investments – amortized over five years.

The average expected remaining service life of all employees provided with pensions through the pension plans at June 30, 2022, was 5.5 years for FRS Pension Plan and 6.4 years for HIS.

The State's proportionate share of the components of collective pension expense and deferred outflows and inflows of resources reported in the pension allocation schedules for the measurement date year ended June 30, 2022, are presented below for each plan.

FRS Pension Plan

	Recognized in Expense Reporting Period Ending June 30, 2023	Recognition Period	Deferred Outflows of Resources	Deferred Inflows of Resources
Service cost	\$ 409,818,319	Current	\$ —	\$ —
Interest cost	2,178,734,152	Current	—	—

<i>Total</i>	<u>\$ 42,631,379</u>		<u>\$ 266,024,719</u>	<u>\$ (378,793,252)</u>

The average expected remaining service life of all employees provided with pensions through the National Guard defined benefit single-employer plan at June 30, 2023, was 17.6 years. The State’s pension expense and deferred outflows and deferred inflows of resources reported for the fiscal year ended June 30, 2023, are presented below for the plan.

National Guard Benefit Plan

	Recognized in Expense Reporting Period Ending June 30, 2023	Recognition Period	Deferred Outflows of Resources	Deferred Inflows of Resources
Service cost	\$ 14,546,315	Current	\$ —	\$ —
Interest cost	21,533,911	Current	—	—
Effect of economic/demographic gains or losses (difference between expected and actual experience)	5,710,249	17.6 years	43,686,530	(33,227,163)
Effect of assumptions changes or inputs	11,148,045	17.6 years	320,064,727	(570,834,744)
Administrative expenses	48,200	Current	—	—
<i>Total</i>	<u>\$ 52,986,720</u>		<u>\$ 363,751,257</u>	<u>\$ (604,061,907)</u>

Deferred outflows of resources related to contributions paid subsequent to the measurement date as shown in the tables above will be recognized as a reduction of the net pension liability in the reporting period ended June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension expense will be recognized as follows:

Reporting Period Ending June 30,	FRS Pension Plan Expense	HIS Expense	National Guard Benefit Expense
2024	\$ 224,322,802	\$ (50,151,014)	\$ 16,858,294
2025	21,172,622	(34,186,985)	16,384,965
2026	(210,903,780)	(28,118,162)	13,706,390
2027	910,448,436	(33,024,790)	4,228,820
2028	35,696,520	(41,166,256)	2,048,139
Thereafter	—	(17,038,134)	(293,537,258)
<i>Total</i>	<u>\$ 980,736,600</u>	<u>\$ (203,685,341)</u>	<u>\$ (240,310,650)</u>

Payables to the Pension Plans

The State reported payables of 100.0 million to the FRS Pension Plan, and 3.5 million to the HIS Program as of June 30, 2023, for legally required contributions to the plans.

2. Defined Contribution Programs

FRS Investment Plan

The SBA administers the defined contribution plan officially titled the FRS Investment Plan. The Florida Legislature establishes and amends the contribution requirements and benefit terms of the plan. Retirement benefits are based upon the value of the member's account upon retirement. The FRS Investment Plan provides vesting after one year of service regardless of membership class. If an accumulated benefit obligation for service credit originally earned under the FRS Pension Plan is transferred to the FRS Investment Plan, the years of service required for vesting under the Pension Plan (including the service credit represented by the transferred funds) is required to be vested for these funds and the earnings on the funds. The employer pays a contribution as a percentage of salary that is deposited into the individual member's account. Effective July 1, 2011, there is a mandatory employee contribution of 3.00%. The FRS Investment Plan member directs the investment from the options offered under the plan. Costs of administering the plan, including the FRS Financial Guidance Program, are funded through an employer assessment of 0.06% of payroll and by forfeited benefits of plan members. After termination and applying to receive benefits, the member may rollover vested funds to another qualified plan, structure a periodic payment under the FRS Investment Plan, receive a lump-sum distribution, or leave the funds invested for future distribution. Upon receiving a distribution, other than a de minimis distribution or required minimum distribution, the member is a retiree. Disability coverage is provided for total and permanent disability (non-duty or line of duty); the employer pays an employer contribution to fund the disability benefit which is deposited in the FRS Trust Fund. The member may either transfer the account balance to the FRS Pension Plan when approved for disability retirement to receive guaranteed lifetime monthly benefits under the FRS Pension Plan or remain in the FRS Investment Plan and rely upon that account balance for retirement income. Survivor benefit coverage is provided to the surviving spouse or dependent children of members who die in line of duty; the employer pays an employer contribution to fund the survivor benefit which is deposited in the FRS Trust Fund. The member's account balance must be transferred to the FRS Pension Plan when approved for survivor benefits to receive guaranteed lifetime monthly benefits under the FRS Pension Plan for the surviving spouse or on behalf of the dependent children until the youngest unmarried dependent child reaches age 18, or up to age 25 if unmarried and enrolled as a full-time student.

State University System Optional Retirement Program (SUSORP)

Section 121.35, F.S., created the SUSORP for eligible State University System faculty, administrators, and administrative and professional staff. The Florida Legislature establishes and amends the contribution requirements and benefit terms of the program. This program is designed to aid universities in recruiting employees who may not remain in the FRS long enough to vest. The SUSORP is a defined contribution plan that, upon signing an investment contract, provides full and immediate vesting of all contributions paid on behalf of the participants to the participating provider companies to invest as directed by the participant to provide retirement and death benefits. Employees in eligible positions are compulsory participants in the SUSORP unless they elect FRS membership. Faculty in a college of medicine with a faculty practice plan are mandatory SUSORP participants and cannot elect FRS membership.

The employing universities were statutorily required to contribute 5.15% of the participants' gross monthly compensation from July 2022, through June 2023. In accordance with Section 121.35, F.S., 0.01% of the employer contribution rate was used for the administration of the SUSORP program and 5.14% was distributed to the provider companies designated by the participant. SUSORP members are not eligible to receive HIS Payments from the HIS Trust Fund. There is a HIS component included in the employer's contribution deposited in the members' accounts. Effective July 1, 2011, there is a mandatory employee contribution of 3.00%. A participant may contribute by salary reduction an additional amount not to exceed the percentage contributed by the university. In addition to the employer funding to the participants' accounts, the employing universities are required to make a contribution as a percent of covered payroll that is transferred to the FRS Trust Fund to help amortize any UAL. The required UAL contribution rate for fiscal year 2022-23 was 4.23%.

Senior Management Service Optional Annuity Program (SMSOAP)

Section 121.055, F.S., created the SMSOAP as an optional retirement program alternative for state members of the SMSC. Employees in eligible state positions may make an irrevocable election to participate in the SMSOAP in lieu of the FRS. The Florida Legislature establishes and amends the contribution requirements and benefit terms of the program and closed the program to new members effective July 1, 2017.

The SMSOAP is a defined contribution plan that, upon signing an investment contract, provides full and immediate vesting of all contributions paid on behalf of the participants to the participating provider companies. Participants direct the investment of contributions to provide retirement and death benefits. Employers were required to contribute 6.27% of covered payroll from

July 2022 through June 2023. The employers’ contributions were paid to the provider companies designated by the participant. Effective July 1, 2011, there is a mandatory employee contribution of 3.00%. A participant may contribute by salary reduction or deduction an additional amount not to exceed the percentage contributed by the employer. In addition to the employer funding to the participants’ accounts, the state agencies are required to make a contribution as a percent of covered payroll that is transferred to the FRS Trust Fund to help amortize the UAL. The required UAL contribution rate for fiscal year 2022-23 was 22.15%.

Pension Amounts for Defined Contribution Plans

As of June 30, 2023, the State reported the following pension amounts related to the defined contribution plans:

Reporting Period Ended June 30, 2023	FRS Investment Plan	Optional Retirement Plan	Optional Annuity Program
<i>Pension Expense</i> ^{1,2} \$	107,317,523 \$	3,184,000 \$	53,915
<i>Forfeitures</i>	5,798,120	—	—
<i>Pension Liability</i>	9,322,004	14,493	—

¹ Pension expense excludes the required UAL which is recognized in the Defined Benefit Pension Plan as contributions.

² The amount of forfeitures is not reflected in pension expense recognized by the State and is used to offset administrative costs.

B. Other Postemployment Benefits (OPEB)

The Division of State Group Insurance (DSGI) within the Department is responsible for administering the State Employees' Group Health Insurance Program. The program covers retired employees and is considered another postemployment benefits plan.

Plan Description

The DSGI Other Postemployment Benefits Plan (OPEB Plan) is a multiple-employer defined benefit plan which provides healthcare benefits to retired state and university employees in accordance with Section 110.123, Florida Statutes (F.S.). Pursuant to the provisions of Section 112.0801, F.S., all public employers that offer benefits through a group insurance plan shall allow their retirees and their eligible dependents the option to continue participation in the plan during retirement. As a part of normal retirement, a retiree has 60 days after separation to elect post-retirement health coverage. After 60 days, they are no longer entitled to benefits. A retiree is defined as any officer or employee who retires under a State retirement system or State optional annuity or retirement program or is placed on disability retirement and who begins receiving retirement benefits immediately after retirement from employment. In addition, any officer or employee who retires under the Florida Retirement System Investment Plan is considered a “retiree” if he or she meets the age and service requirements to qualify for normal retirement or has attained the age of 59.5 years and has the years of service required for vesting. The law also requires the claims experience of the retirees under 65 group to be combined with the claims experience of active employees for premium determination and the premium offered to retired employees to be no more than the premium applicable to active employees. As a result, the state implicitly subsidizes the premium rates paid by retirees due to increasing health care costs with age and the commingling of the claims experience in a single risk pool with a single premium determination for active employees and retirees under age 65.

There are six participating employers including, the primary government of the state and 14 discretely presented component units which are reported as one employer in the valuation, along with five other governmental entities. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75. Benefit provisions as described by Section 110.123, F.S., and contributions, can be amended by the Florida Legislature. The Governor’s recommended budget and the General Appropriations Act provide for a premium level necessary for funding the program each year on a pay-as-you-go basis.

Benefits Provided

The benefits provided are the same as those provided for active employees. Spouses and dependents of eligible retirees are also eligible for medical coverage. All non-OPS employees of the State are eligible to receive postemployment health care benefits. Four types of health plans are offered to eligible participants:

- Standard statewide Preferred Provider Organization (PPO) Plan.
- High Deductible PPO Plan.
- Standard Health Maintenance Organization (HMO) Plan.
- High Deductible HMO Plan.

HMO coverage is available only to those retirees who live or work in the HMO's service area. The four PPO and HMO options are considered managed-care plans and have specific provider networks.

Employees covered by benefit terms

At valuation date of July 1, 2022, there were 183,991 employees covered by the OPEB Plan, as shown in the following table:

Active members	127,265
No coverage active members	22,773
Retired and inactive members	<u>33,953</u>
Total employees	<u><u>183,991</u></u>

There are currently zero inactive plan members entitled to but not yet receiving benefits because the OPEB Plan does not provide a vested termination benefit.

Contributions

Retirees participating in the group insurance plans offered by the State of Florida are required to contribute 100% of the premiums. The State of Florida implicitly subsidizes the healthcare premium rates paid by retirees by allowing them to participate in the same health plan offered to active employees. Retirees under age 65 pay the same premium amounts as applicable to the active employees. Retirees over age 65 are included in the overall risk pool but pay a lesser premium amount than is applicable to active employees because Medicare is the primary payer. Retirees are required to enroll in the Federal Medicare (Medicare) program for their primary coverage as soon as they are eligible.

Note that the projected post-65 employee contributions for the fully-insured HMO plan are assumed to cover the entire cost of the program.

Total OPEB Liability

As of June 30, 2023, the State reported a total OPEB liability of \$7,843,255,855 of which the State (primary government) and its component units reported \$5,455,077,227 and \$2,388,178,628, respectively, for its proportionate share of the total OPEB liability measured as of June 30, 2022. The table below presents the State and its component units proportion change since the prior measurement date:

	<u>State</u>	<u>Component Units</u>
Proportion at prior measurement date, June 30, 2021	69.275951409651 %	30.724048590349 %
Proportion at measurement date, June 30, 2022	69.551182925169 %	30.448817074831 %
Increase / (Decrease) in proportion	<u>0.275231515518 %</u>	<u>(0.275231515518)%</u>

Actuarial Assumptions and Other Inputs

The total OPEB liability was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Valuation date	July 1, 2022
Measurement date	June 30, 2022
Actuarial cost method	Entry age normal
Amortization method	The recognition period for the changes in assumption and proportionate share is 8 years
Actuarial value of assets	N/A
Inflation	2.60%
Salary Increases	Varies by FRS Class
Discount rate	4.09%
Healthcare cost trend rates	10.31% for PPO and 7.53% for HMO for 2022, decreasing to 8.10% and decreasing to 6.44%, respectively, by 2024, then decreasing to 4.04% for PPO and HMO by 2075 and holding going forward.
Retirees' share of benefit-related costs	100% of projected health insurance premiums for retirees
Medical aging factors	4% per year prior to age 65 3% per year between ages 65 and 75 2% per year between ages 75 and 85 0% per year thereafter
Marital status	80% assumed married, with male spouses 3 years older than female spouses
Health care participation (HMO)	43% participation assumed, with 25% electing spouse coverage. Members who elected no coverage as actives are assumed to elect coverage in the same proportion as active members with coverage
Health care participation (PPO)	43% participation assumed, with 35% electing spouse coverage. Members who elected no coverage as actives are assumed to elect coverage in the same proportion as active members with coverage

The discount rate of 4.09% was based on a 20-year S&P Municipal Bond Index as of the measurement date. The discount rate changed from 2.18% for the opening balance as of June 30, 2021 to 4.09% as of June 30, 2022 actually resulting in an overall increase in total OPEB liability.

Mortality rates were based on the Pub-2010 mortality tables with fully generational improvement using Scale MP-2018.

All demographic assumptions remain consistent with those used for the Florida Retirement System July 1, 2021 Actuarial Valuation with adjustments for demographic differences. The demographic assumptions were based on the 2019 Experience Study prepared by Milliman. These assumptions are reasonable for valuing the retiree health costs of the Program.

The healthcare trends used in this valuation are based on long term healthcare trends generated by the Getzen Model. The Getzen Model is the result of research sponsored by the Society of Actuaries and completed by a committee of economists and actuaries. Medical trend rates consistent with the August 2022 Report on the Financial Outlook of the Plan along with information from the Getzen Model and actuarial judgment were used in the June 30, 2022 Actuarial Valuation. The trend rates for the HMO self-insured and fully insured option were blended to create a single trend assumption for retirees electing HMO coverage. The first five trend rates were developed using the claims and administrative cost information from the August 2022 Report on the Financial Outlook of the Plan.

Retirees participating in the group insurance plans offered by the State of Florida are required to contribute 100% of the premiums. Retiree contributions were not as high as expected based on the expected increases from July 1, 2015, to July 1, 2017. As such, the net implicit subsidy gap further widened and costs increased.

Changes in Total OPEB Liability (in thousands)

See chart below for details.

Changes in Total OPEB Liability	State	Component Units	Total
Reporting period ending June 30, 2022	\$ 7,302,127	\$ 3,238,509	\$ 10,540,636
Changes for the year:			
Service cost	374,937	164,144	539,081
Interest	166,602	72,937	239,539
Changes of benefit terms	—	—	—
Differences between expected and actual experience	(363,244)	(159,025)	(522,269)
Changes of assumptions or other inputs	(1,926,088)	(843,222)	(2,769,310)
Benefit payments	(127,759)	(56,662)	(184,421)
Changes of proportionate shares to the total OPEB liability and difference between the actual benefit payments and expected benefit payments	28,503	(28,503)	—
Other changes	—	—	—
Net changes	(1,847,049)	(850,331)	(2,697,380)
Reporting period ending June 30, 2023	\$ 5,455,078	\$ 2,388,178	\$ 7,843,256

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following table demonstrates the sensitivity of the total OPEB liability to changes in the discount rate. The sensitivity analysis shows the impact to the state's proportionate share of the total OPEB liability if the discount rate was 1.00% higher or 1.00% lower than the current discount rate (expressed in thousands):

	1% Decrease 3.09%	Current Discount Rate 4.09%	1% Increase 5.09%
State	\$ 6,479,659	\$ 5,455,078	\$ 4,645,475
Component Units	2,877,111	2,388,178	2,006,753
Total	\$ 9,356,770	\$ 7,843,256	\$ 6,652,228

Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following table demonstrates the sensitivity of the total OPEB liability to changes in the healthcare cost trend rates. The sensitivity analysis shows the impact to the state's proportionate share of the total OPEB liability if the healthcare cost trend rates were 1.00% higher or 1.00% lower than the current healthcare cost trend rate (expressed in thousands):

	1% Decrease	Current Healthcare Cost Trend Rate	1% Increase
State	\$ 4,566,557	\$ 5,455,078	\$ 6,613,066
Component Units	1,965,994	2,388,178	2,947,575
Total	\$ 6,532,551	\$ 7,843,256	\$ 9,560,641

OPEB Expense and Deferred Outflows/Inflows of Resources Related to OPEB

For the fiscal year ended June 30, 2023, the State of Florida recognized OPEB expense of \$203,152,000 and \$88,938,000 for primary governments and the component units respectively. At June 30, 2023, the State of Florida reported deferred outflows of resources and deferred inflows of resources related to OPEB for state primary governments and component units from the following sources (expressed in thousands):

	State		Component Units	
	Deferred Outflows	Deferred Inflows	Deferred Outflows	Deferred Inflows
Differences between expected and actual experience	\$ —	\$ (596,609)	\$ —	\$ (261,189)
Changes of assumptions or other inputs	630,773	(3,564,217)	276,146	(1,560,379)
Changes of proportionate shares and difference between the actual benefit payments and expected benefit payments	39,199	(402,713)	402,713	(39,199)
Transactions subsequent to the measurement date	140,471	—	61,483	—
Total	\$ 810,443	\$ (4,563,539)	\$ 740,342	\$ (1,860,767)

Amounts reported as deferred outflows of resources related to OPEB resulting from transactions subsequent to the measurement date as shown in the table above will be recognized as a reduction of the total OPEB liability in the reporting period ending June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows (expressed in thousands):

Year Ending June 30,	State	Components Units	Total
2024	\$ (840,398)	\$ (233,997)	\$ (1,074,395)
2025	(840,394)	(234,001)	(1,074,395)
2026	(685,837)	(170,263)	(856,100)
2027	(605,499)	(134,177)	(739,676)
2028	(320,298)	(139,433)	(459,731)
Thereafter	(601,139)	(270,040)	(871,179)
Total	\$ (3,893,565)	\$ (1,181,911)	\$ (5,075,476)

NOTE 9 - COMMITMENTS AND CONDUIT DEBT OBLIGATIONS

A. Construction Commitments

Road and bridge construction projects, supervised by the Department of Transportation, are included in the Department of Transportation work program, which is updated during each budget cycle. As of June 30, 2023, the Department had available approximately \$17.4 billion in budget authority committed on executed contracts arising from both current and prior year projects. Other major construction commitments of the State of Florida at June 30, 2023, totaled \$1.5 billion. Refer to Note 7 for additional disclosures relating to construction in progress. Construction commitments for component units totaled \$6.1 billion.

B. Florida Ports Financing Commission Revenue Bonds

Section 320.20, Florida Statutes, obligates the state to remit annually \$25 million to a designated trustee for the purpose of repaying the debt on certain Florida Ports Financing Commission revenue bonds. The Florida Ports Financing Commission is not part of the state's reporting entity. These revenue bonds do not create or constitute a legal obligation or debt of the state. Funding for the annual remittance comes from the State of Florida, Department of Transportation's portion of motor vehicle registration fees, which was \$891,349,509 for the fiscal year ended June 30, 2023. The table below represents the Florida Ports Financing Commission revenue bonds outstanding as of June 30, 2023:

Series	Amount
2021	\$ 50,980,000
2021 (Intermodal)	66,890,000
Total	\$ 117,870,000

C. Conduit Debt Obligations

In December 2014, Space Florida entered into a multi-phase agreement with a company, facilitating financing for the sale and leaseback of personal and real property, with a maximum value of \$250,000,000. As of September 30, 2022, the outstanding balance for Space Florida-assisted financing stood at \$196,737,722. The repayment mechanism involves the utilization of proceeds generated from the lease of the personal property, and the loan is secured by the lease. Similarly, in September 2020, Space Florida entered into an agreement with an Orlando company to provide financing for the leasing of personal property, with a cap of \$75,000,000. As of September 30, 2022, the remaining payments under the lease agreement amounted to \$77,333,770. The debt will be repaid through fees charged by the lessee for equipment usage and is secured by the personal property involved. In March 2022, Space Florida entered into agreements with a company, referred to as the "Guarantor", to provide conduit debt for up to \$70,000,000 related to the construction and leaseback of property to the Guarantor. The repayment plan involves the assignment of fees charged to the Guarantor for equipment usage, and the debt is secured by the personal property of the Guarantor. The conduit debt proceeds are earmarked for the construction of the property, with Space Florida managing the construction project. As of September 30, 2022, Space Florida held \$4,209,720 in cash from the conduit debt to cover construction costs. The conduit debt transactions discussed above are limited obligation debts of Space Florida and are payable solely from the pledged revenues described in the respective debt agreements. Neither the faith nor credit, nor the taxing power of Space Florida, the State of Florida nor any subdivision thereof is pledged for the payment of the debts.

Florida Housing Finance Corporation (FHFC), a discretely presented component unit, issues bonds that provide financing for the acquisition, construction and rehabilitation for multifamily housing for low-income renters as conduit debt and, as such, both principal and interest are payable solely from the assets and income of the various programs which are pledged under the bond resolutions authorizing the specific issues. These issues do not constitute an obligation, either general or special, of FHFC, the State of Florida or any local government therein. Neither the faith, credit and revenues nor the taxing power of the State of Florida or any local government therein may be pledged to the payment of the principal or interest on the obligations. Properties financed from the bond issues are pledged as collateral, and the bonds are payable solely from payments on the underlying mortgage or promissory notes. Conduit debt and related assets reported for FHFC include \$1.3 and \$1.9 billion, respectively.

Florida Department of Transportation (FDOT) entered into an agreement with the U.S. Department of Transportation, which issued two loans pertaining to the Transportation Infrastructure Finance and Innovation Act of 1998 (TIFIA). The initial loan, amounting to \$170 million, was formalized on April 1, 2005, while the second loan, involving an amendment to the

original agreement and totaling \$100 million, was finalized on August 1, 2007. The purpose of the loans was to assist Miami-Dade County with the Miami Intermodal Center. This project included land acquisition, environmental remediation, a rental car facility, a people mover system connecting buildings at the Miami International Airport, and other costs. FDOT has limited commitment for the debt service. The TIFIA loan agreement stipulates that the loan is secured by customer facility charges imposed by Miami-Dade County on rental car customers of participating rental car companies and by contingent rent, which takes the form of an annual assessment imposed by the County in accordance with the Security Agreement. The aggregate amount of such no-commitment debt obligation outstanding at June 30, 2023, is \$147,338,236.

The Department of Children and Families (DCF) possesses two certificates of participation, with the total outstanding debt obligation reaching \$31,400,000 as of June 30, 2023.

D. Encumbrances

As of June 30, 2023, encumbrances for major and nonmajor governmental funds were (in thousands):

	General Fund	Natural Resources, Environment, and Growth Management	Public Education	Health and Family Services	Transportation	Nonmajor Governmental Funds	Total
Encumbrances:	<u>\$ 459,255</u>	<u>\$ 53,092</u>	<u>\$ 684,064</u>	<u>\$ 103,044</u>	<u>\$ 57,240</u>	<u>\$ 500,252</u>	<u>\$ 1,856,947</u>

NOTE 10 - BONDS PAYABLE AND CERTIFICATES OF PARTICIPATION

A. Bonds Payable

1. Outstanding Bonds

Bonds payable at June 30, 2023, are as follows (in thousands):

Bond Type	Original Amount	Amount Outstanding	Interest Rates	Annual Maturity To
Governmental Activities:				
Road and Bridge Bonds	\$ 2,181,355	\$ 1,768,915	2.000-5.000%	2050
DOT Financing Corporation Bonds	418,560	348,790	3.000-5.000%	2037
Federal Highway Reimbursement Bonds	242,110	191,395	5.000-5.000%	2032
SBE Capital Outlay Bonds	89,450	42,240	3.000-5.000%	2030
Lottery Education Bonds	999,855	416,530	3.000-5.000%	2032
Public Education Bonds	6,660,615	4,801,225	0.390-5.000%	2048
State University System Bonds	119,845	55,105	3.000-5.000%	2033
University Auxiliary Bonds	1,038,445	863,437	1.540-7.000%	2053
Inland Protection Bonds	24,820	5,795	5.000-5.000%	2024
Florida Forever Bonds	648,435	285,975	2.000-5.000%	2029
Water Pollution Control Bonds	214,220	137,140	2.100-2.600%	2030
Florida Facilities Pool Bonds	190,835	118,130	3.000-5.000%	2038
Seaport Investment Bonds	98,980	98,980	4.000-5.000%	2043
Everglades Restoration Bonds	176,600	105,300	3.000-5.000%	2035
	<u>13,104,125</u>	<u>9,238,957</u>		
Unamortized premiums (discounts) on bonds payable	—	750,561		
Total Bonds Payable	<u>\$ 13,104,125</u>	<u>\$ 9,989,518</u>		
Business-type Activities:				
Toll Facilities Bonds	\$ 5,573,985	\$ 3,207,295	1.750-5.500%	2052
Florida Hurricane Catastrophe Fund Bonds	3,500,000	3,500,000	1.258-2.154%	2031
	<u>9,073,985</u>	<u>6,707,295</u>		
Unamortized premiums (discounts) on bonds payable	—	211,808		
Total Bonds Payable	<u>\$ 9,073,985</u>	<u>\$ 6,919,103</u>		

2. Types of Bonds

Capital Outlay Bonds are issued to finance capital outlay projects of school districts and community colleges. The bonds mature serially and are secured by a pledge of a portion of the state-assessed motor vehicle license tax and by a pledge of the full faith and credit of the state.

Public Education Capital Outlay Bonds are issued to finance capital outlay projects of local school districts, community colleges, vocational technical schools, and state universities. The bonds, serial and term, are secured by a pledge of the state's gross receipts tax revenues and by a pledge of the full faith and credit of the state.

Road and Bridge Bonds are issued to finance the cost of acquiring real property, or the rights to real property for state roads, or to finance the cost of state bridge construction. The bonds, serial and term, are secured by a pledge of a portion of the state-assessed motor fuel tax revenues, and by a pledge of the full faith and credit of the state.

Lottery Bonds are issued to finance the costs of various local school district educational facilities. The bonds mature serially and are secured by a pledge of a portion of the lottery revenues transferred to the Educational Enhancement Trust Fund.

State University System Bonds are issued to construct university student life facilities. The bonds mature serially and are secured by a system pledge of Capital Improvement Fee revenues.

University Auxiliary Bonds are issued to construct university facilities, including primarily parking and student housing. The bonds, serial and term, are secured by university pledges of certain housing system revenues, parking system revenues, student fee assessments and indirect costs grant revenues.

Everglades Restoration Bonds are revenue bonds issued to finance the costs of acquisition and improvement of lands, water areas, and related property interests and resources for the purpose of implementing the Comprehensive Everglades Restoration Plan and to fund the Florida Keys Area of Critical State Concern protection program. The bonds mature serially and are secured by a pledge of documentary stamp tax revenues.

Florida Forever Bonds are issued to finance the cost of acquisition and improvements of lands, water areas, and related property interests and resources in the State of Florida for the purposes of restoration, conservation, recreation, water resource development, or historical preservation. The bonds mature serially and are secured by a pledge of documentary stamp tax collections.

Florida Facilities Pool Bonds are issued to provide funds for the acquisition and construction of facilities to be leased to state agencies. The bonds mature serially and are secured by a pledge of the revenues derived from the leasing and operations of these facilities.

Federal Highway Reimbursement Bonds are issued to finance projects eligible for federal-aid highway funds. The bonds mature serially and are secured by a pledge of all revenues received pursuant to Federal Aid Authorization that are legally available for the reimbursement of costs of Eligible Projects under Title 23 of the U.S. Code.

Seaport Investment Program Bonds are issued primarily to finance improvements at various seaports within the State of Florida. The bonds, serial and term, are secured by a first lien on the annual allocation of certain fees derived from motor vehicle title certificates to the Seaport Investment Program.

Toll Facilities Bonds are issued to provide construction funds for roads and bridges. Toll bonds, serial and term, are secured by a pledge of toll facility revenues.

Inland Protection Bonds are issued by the Inland Protection Financing Corporation (a blended component unit) for the purpose of financing the rehabilitation of petroleum contaminated sites. The bonds mature serially and are secured by a pledge of moneys derived from a wholesale excise tax primarily on petroleum products.

Department of Transportation Financing Corporation Bonds are issued by the Florida Department of Transportation Financing Corporation (a blended component unit) to finance the cost of certain projects within the Department of Transportation's adopted Work Program. The bonds mature serially and are secured by a pledge of moneys deposited in the State Transportation Trust Fund, consisting primarily of revenues derived from fuel taxes, federal aid and motor vehicle fees.

Florida Water Pollution Control Bonds are issued by the Florida Water Pollution Control Financing Corporation (a blended component unit) to fund loans to local governments to finance or refinance the cost of wastewater treatment and storm water management projects. The bonds, serial and term, are secured by a pledge of the loan payments from local governments.

Florida Hurricane Catastrophe Fund Bonds are issued by the State Board of Administration Finance Corporation. Post-event bonds are issued to maximize the Florida Hurricane Catastrophe Fund's (FHCF) ability to make payments to participating insurers for losses resulting from covered events (hurricanes) if the FHCF's cash balance is insufficient. The bonds mature serially and are primarily secured by emergency assessments. Pre-event bonds are also issued to provide the FHCF with a source of liquidity in order to timely reimburse participating insurers for losses relating to future covered events and are secured primarily by reimbursement premiums and investment earnings on any unspent proceeds.

3. Pledged Revenues

The table below contains information regarding revenues pledged to repay debt obligations (dollars in thousands). For each Bond Type, the table discloses Gross Revenue, Operating Expenses, Net Revenue Available for Debt Service, Principal, Interest, Coverage Ratio, Final Maturity, Remaining Debt Service, and Revenue Ratio. The Bond Types with Operating Expenses are considered self-supporting debt and are paid from the associated facilities being financed. If Operating Expenses are not shown, the bond type is considered to be Net Tax Supported debt and serviced by dedicated tax or fee revenues.

Bond Type	Revenue ²	Less Operating Expenses	Net Available for Debt Service	Debt Service			Coverage Ratio	Final Maturity	Remaining Debt Service	Revenue Ratio ³
				Principal	Interest	Total Debt Service				
Florida Turnpike (Toll Facility)	\$ 1,179,419	\$ 262,164	\$ 917,255	\$ 143,840	\$ 129,704	\$ 273,544	3.35	2052	\$4,541,850	77.77 %

¹Operating Expenses are not listed for various programs. For these programs, either no operating expenses reduce revenues available for debt service, or, in the case of the Lottery, include expenses unrelated to the operation of the program, such as payment of lottery prizes. Instead, for these programs, the revenue shown is the amount available to pay debt service.

²Refer to Note 10.A.2. for information on the sources of pledged revenues. University Auxiliary Bond revenues exclude CARES funds received by universities.

³Revenue Ratio is calculated as Net Available for Debt Service divided by Revenue.

⁴Florida Hurricane Catastrophe Bonds debt service is reduced by interest earnings on bond proceeds and bond proceeds used to repay principal. Interest earnings were greater than debt service in FY 2023, resulting in no debt service.

⁵All outstanding University of Central Florida Parking Bonds were defeased as of July 7, 2023, when sufficient funds were deposited with the escrow agent, in trust, and invested in allowable defeasance obligations for the purpose of paying all payments due on such bonds through their maturity or redemption dates.

⁶Interest payment excludes \$7.1 million of interest paid from proceeds of the 2021A Bonds.

⁷Florida Polytechnic Housing System had no revenues but did incur startup expenses in Fiscal Year 2022-23 because Residence Hall II was acquired in June 2023. The interest payment on the 2023A Bonds made on July 1, 2023, was paid from proceeds of the 2023A Bonds.

⁸All outstanding Water Pollution Control Bonds were defeased as of July 17, 2023, when sufficient funds were deposited with the escrow agent, in trust, and invested in allowable defeasance obligations for the purpose of paying all payments due on such bonds through their maturity dates.

4. State Debt Limitations

Section 215.98, F.S., establishes the ratio of tax-supported debt service to tax-supported revenues as the benchmark debt ratio for purposes of setting the state's legal debt margin. Under the policy, if the ratio exceeds 6%, additional tax-supported debt may be authorized only if the Legislature determines the additional debt is in the best interest of the state. If the ratio exceeds 7%, additional tax-supported debt may be authorized only if the Legislature determines it is necessary to address a critical state emergency. During the fiscal year 2022-23, the ratio remained below 6%.

5. Debt Service Requirements

Annual debt service requirements to amortize bonds at June 30, 2023, are as follows (in thousands):

Year Ending June 30	Primary Government ¹				
	Governmental Activities				
	General		Direct Borrowings and Direct Placements		Total
	Principal	Interest	Principal	Interest

6. Advance Refundings and Current Refundings

During the fiscal year ended June 30, 2023, the state took advantage of favorable conditions and issued bonds for the purpose of refunding previously issued bonds. The refundings of these bond series were made in order to obtain lower interest rates and the resulting savings in debt service payments over the life of the bonds. The economic gains obtained by these refundings are the differences between the present value of old debt service and new debt service requirements.

The proceeds of the current refundings were used to immediately call the refunded bonds or were deposited into irrevocable trusts and invested in direct obligations of the Federal government or in Special Purpose Investment Accounts with the State Treasury and used to call the refunded bonds within 90 days of the issuance date of the refunding bonds. The proceeds of the advance refundings are deposited into irrevocable trusts and invested in direct obligations of the Federal government and/or obligations guaranteed by the Federal government. The funds deposited along with the interest to be earned will be sufficient to meet the future principal and interest payments on the refunded bonds as they become due.

Bonds legally defeased through the consummation of refunding transactions are not included in Florida's outstanding debt. Irrevocable escrow accounts held by the State Board of Administration to service the refunded bonds are reported as agency funds. The following refundings occurred during the fiscal year.

Advance Refundings

Governmental Activities

None.

Business-type Activities

None.

Current Refundings

Governmental Activities

State of Florida, Department of Environmental Protection Everglades Restoration Revenue Refunding Bonds, Series 2022A in the amount of \$25,605,000 were used to refund \$28,925,000 of the State of Florida, Department of Environmental Protection Everglades Restoration Revenue Bonds, Series 2013A maturing in the years 2023 through 2032. The refunding resulted in debt savings of \$1,859,025, an economic gain of \$1,615,312, and a deferred gain on refunding of \$275,837.

State of Florida, Board of Governors, Florida State University Dormitory Revenue Refunding Bonds, Series 2023A in the amount of \$24,395,000, along with additional funds of \$314,673, were used to refund \$27,885,000 of the State of Florida, Board of Governors, Florida State University Dormitory Revenue Bonds, Series 2013A maturing in the years 2024 through 2033. The refunding resulted in debt savings of \$3,619,286 an economic gain of \$3,154,685, and a deferred gain on refunding of \$135,176.

State of Florida, Full Faith and Credit, State Board of Education Public Education Capital Outlay Refunding Bonds, 2023 Series A in the amount of \$168,330,000, along with additional funds of \$2,081,388, were used to refund \$196,935,000 of the State of Florida, Full Faith and Credit, State Board of Education Public Education Capital Outlay Refunding Bonds, 2013 Series C maturing in the years 2024 through 2034. The refunding resulted in debt savings of \$25,452,821, an economic gain of \$22,167,110, and a deferred gain on refunding of \$6,463,331.

State of Florida, Department of Transportation Seaport Investment Program Revenue Refunding Bonds, Series 2023 in the amount of \$98,980,000, along with additional funds of \$1,313,388, were used to refund \$108,295,000 of the State of Florida, Department of Transportation Seaport Investment Program Revenue Bonds, Series 2013 maturing in the years 2024 through 2038, 2041, and 2043. The refunding resulted in debt savings of \$17,133,853, an economic gain of \$11,918,007, and a deferred gain on refunding of \$4,006,970.

State of Florida, Board of Governors, Florida International University Parking Facility Revenue Refunding Bonds, Series 2023A in the amount of \$24,835,000, along with additional funds of \$378,775, were used to refund \$26,885,000 of the State of Florida, Board of Governors, Florida International University Parking Facility Revenue Bonds, Series 2013A maturing in the years 2024 through 2031, 2033, 2035, 2038, and 2043. The refunding resulted in debt savings of \$4,711,130 an economic gain of \$3,299,505, and a deferred loss on refunding of \$285,929.

State of Florida, Board of Governors, University of Florida Student Activity Revenue Refunding Bonds, Series 2023A in the amount of \$22,290,000, along with additional funds of \$383,615, were used to refund \$25,690,000 of the State of Florida, Board of Governors, University of Florida Student Activity Revenue Bonds, Series 2013 maturing in the years 2024 through 2033. The refunding resulted in debt savings of \$3,470,020 an economic gain of \$3,063,763, and a deferred gain on refunding of \$61,906.

State of Florida, Board of Governors, University of Florida Dormitory Revenue Refunding Bonds, Series 2023A in the amount of \$10,555,000, along with additional funds of \$224,131, were used to refund \$11,975,000 of the State of Florida, Board of Governors, University of Florida Dormitory Revenue Bonds, Series 2013A maturing in the years 2024 through 2031 and 2033. The refunding resulted in debt savings of \$985,565 an economic gain of \$849,022, and a deferred gain on refunding of \$5,986.

Business-type Activities

State of Florida, Department of Transportation Turnpike Revenue Refunding Bonds, Series 2023A in the amount of \$174,685,000, along with additional funds of \$18,347,941, were used to refund \$38,445,000 of the State of Florida, Department of Transportation Turnpike Revenue Refunding Bonds, Series 2013A maturing in the years 2024 and 2025 and \$167,225,000 of the State of Florida, Department of Transportation Turnpike Revenue Bonds, Series 2013C maturing in the years 2024 through 2043. The refunding resulted in debt savings of \$24,568,678 an economic gain of \$15,018,522, and a deferred loss on refunding of \$1,749,318.

Cash In-substance Defeasance

Governmental Activities

The State of Florida, Department of Environmental Protection Florida Forever Revenue Refunding Bonds, Series 2012A in the amount of \$19,205,000 maturing in the year 2023 were in-substance defeased on July 11, 2022, when a cash deposit of \$19,314,362 was made to the Sinking Fund. These funds were subsequently held uninvested in cash until used to redeem the Series 2012A Bonds on August 12, 2022.

7. Prior-year Defeased Bonds

In prior years, the state has deposited with escrow agents in irrevocable trusts amounts sufficient to meet the debt service requirements of certain bonds. These defeased bonds are not reported as outstanding debt. Irrevocable trusts established with the State Board of Administration are reported in an agency fund. The state did not have debt considered defeased at June 30, 2023.

8. Arbitrage Regulations

The state complies with federal arbitrage regulations.

9. Direct Interest

The state's bonds are issued for the creation or continuing existence of various programs. Interest is reported at June 30, 2023, in the following governmental activities as direct expenses on the Statement of Activities (in thousands):

<u>Governmental Activities</u>	<u>Interest</u>
Education:	
SBE Capital Outlay Bonds	\$ 1,132
Lottery Education Bonds	11,395
Public Education Bonds	123,560
State University System Bonds	1,885
University Auxiliary Bonds	24,300
Total Education	<u>162,272</u>
Natural Resources and Environment:	
Inland Protection Bonds	155
Everglades Restoration Bonds	3,393
Water Pollution Control Bonds	3,327
Florida Forever Bonds	8,489
Total Natural Resources and Environment	<u>15,364</u>
Transportation:	
Road and Bridge Bonds (Right of Way)	46,646
Seaport Investment Bonds	4,865
FDOT Financing Corporation Bonds	7,190
DOT Federal Highway Reimbursement Bonds	2,455
Total Transportation	<u>61,156</u>
Total Direct Interest	<u>\$ 238,792</u>

B. Certificates of Participation**1. Primary Government**

The state has issued certificates of participation in an original amount of \$527,180,000. The certificates of participation were issued by the Florida Correctional Finance Corporation, the South Florida Evaluation Treatment Center Financing Corporation, and the Florida Civil Commitment Center Financing Corporation. The certificates of participation's interest rates range from 2.000% - 5.000% and the last maturity date is November 1, 2040. The following is a schedule of future minimum principal and interest payments for certificates of participation for governmental activities at June 30, 2023 (in thousands):

Year Ending June 30	General		Total
	Principal	Interest	
2024	\$ 42,315	\$ 15,470	\$ 57,785
2025	44,430	13,302	57,732
2026	46,665	11,024	57,689
2027	34,710	8,990	43,700
2028	36,420	7,212	43,632
2029-2033	86,630	16,571	103,201
2034-2038	40,175	5,975	46,150
2039-2043	26,880	814	27,694
Total	358,225	79,358	437,583
Unamortized premiums (discounts)	42,012	—	42,012
Total certificates of participation payable	<u>\$ 400,237</u>	<u>\$ 79,358</u>	<u>\$ 479,595</u>

2. Component Units

Component units (South Florida Water Management District Leasing Corporation, USF Financing Corporation, The FAU Financing Corporation, and New College of Florida Development Corporation) have issued certificates of participation (original amount of \$695,005,000) primarily to finance academic and student facilities, and construction projects for Everglades restoration. The certificates of participation's interest rates range from 2 to 5.25% and the last maturity date is October 31, 2052. The following is a schedule of future minimum principal and interest payments for certificates of participation for component units at June 30, 2023 (in thousands):

Year Ending June 30	General		Direct Borrowings and Direct Placements		Total
	Principal	Interest	Principal	Interest	
2023	\$ 25,162	\$ 21,029	\$ 6,065	\$ 4,542	\$ 56,798

Total	473,166	209,775	112,155	36,443	831,539
Unamortized premiums (discounts)	35,779	—	—	—	35,779
Total certificates of participation payable	<u>\$ 508,945</u>	<u>\$ 209,775</u>	<u>\$ 112,155</u>	<u>\$ 36,443</u>	<u>\$ 867,318</u>

NOTE 11 - INSTALLMENT PURCHASES

Installment Purchases

The state has a number of installment purchase contracts primarily providing for the acquisition of buildings, furniture, and equipment. As of June 30, 2023, 100% of the state's installment purchase contracts for primary governmental activities were for buildings. Installment purchase contracts for component units consisted of 100% of furniture and equipment. The following is a schedule of future minimum installment purchase contract payments for the primary government and component units as of June 30, 2023 (in thousands):

Year Ending June 30	Primary Government

Less: Interest	(4,881)	(9,453)	(14,334)
Present value of future minimum payments	\$ 34,726	\$ 29,760	\$ 64,486

NOTE 12 - PUBLIC-PRIVATE PARTNERSHIPS AND AVAILABILITY PAYMENT ARRANGEMENTS**A. Availability Payment Arrangements**

Pursuant to Section 334.30, Florida Statutes, the Department of Transportation (Department) executed two 35-year, agreements in March and October of 2009 for the design, build, finance, operation and maintenance of the Interstate 595 Corridor and the PortMiami Tunnel, respectively. PortMiami payments consist of milestone payments during construction, a lump-sum final acceptance milestone payment after construction, and performance-based availability payments to be made during the 30-year operations and maintenance period. Interstate 595 payments involve final acceptance payments after construction and performance-based availability payments to be made during the 30-year operations and maintenance period. The Department executed a 40-year agreement in September 2014 for the design, build, finance, operation, and maintenance of 21 miles of the Interstate 4 Corridor in Seminole and Orange Counties. I-4 payments consist of a combination of periodic payments, final acceptance payment, and performance-based availability payments to be made during the operations and maintenance period. The payment schedule below includes the amounts for payments for the Interstate 595 Corridor, the PortMiami Tunnel, and the Interstate 4 Corridor. The annual availability payments for Interstate 595 Corridor and the PortMiami Tunnel are performance-based and are subject to change based on a fixed percentage as defined in their respective contracts and on the Consumer Price Index, which could impact the payment schedule. In October 2015, the Department executed a supplemental agreement with the I-595 concessionaire reflecting overall cost reductions for this project as a result of the concessionaire's debt refinancing. The annual availability payments for the Interstate 4 Corridor are performance-based with a portion of the payment that is level and another portion that is indexed based on the Consumer Price Index, which could impact the payment schedule. The lanes were open to traffic on Interstate 595 and PortMiami Tunnel in March and August 2014, respectively. On I-4, the general use lanes were open to traffic in December 2020, and the express lanes were open to traffic in February 2022.

The following is a schedule of future maximum payments for the primary government as of June 30, 2023 (in thousands):

Year Ending June 30	Primary Government		Totals
	Governmental Activities	Business-type Activities	
2024	\$ 142,058	\$ 25,947	\$ 168,005
2025	142,323	25,991	168,314
2026	144,495	26,200	170,695
2027	146,664	26,747	173,411
2028	149,060	27,227	176,287
2029-2033	786,268	144,702	930,970
2034-2038	849,390	160,923	1,010,313
2039-2043	933,939	179,055	1,112,994
2044-2048	352,394	49,995	402,389

2054-2058	71,621	10,523	82,144
Total	3,954,284	711,994	4,666,278
Less: Interest	(1,741,744)	(358,202)	(2,099,946)
Present value of future maximum payments	<u>\$ 2,212,540</u>	<u>\$ 353,792</u>	<u>\$ 2,566,332</u>

The Florida Department of Management Services (FDMS) entered an availability payment arrangement during the 2016 – 2017 fiscal year for servicing Healthcare Flexible Spending Accounts (HFSAs) and Health Savings Accounts (HSAs). The contract is a fixed fee contract with additional fees incurred based upon the total number of HFSAs and HSAs above an established threshold. The contract was renewed in August of 2021, and at the beginning of the 2022 - 2023 fiscal year had an estimated total payout of \$137 million remaining over five years.

B. Service Concession Agreements

The University of South Florida (University) entered into a service concession agreement for a total \$138 million during the 2016-2017 fiscal year, to construct, operate, and collect payments for student housing and retail facilities. The Tenant is entitled to all revenues and other income received from the lease of the housing facilities. The University is paid base rent annually as a distribution of the net operating surplus. Additionally, the University pays the Tenant a fee of \$300,000 per year for use of the dining facility. Service concession arrangement deferred inflows remaining as of June 30, 2023, were \$106 million. The dining facility fee liability remaining at year-end is \$4.6 million, of which \$27,922 is the current portion. The liability was determined using an annual discount of 6 percent.

C. Public-Private Partnerships

The State of Florida does not have any Public-Private Partnerships to report for the 2022 – 2023 fiscal year.

NOTE 13 - CHANGES IN LONG-TERM LIABILITIES

Changes in long-term liabilities for governmental activities during the fiscal year ended June 30, 2023, are as follows (in thousands):

	Balance July 1, 2022	Additions	Deletions	Balance June 30, 2023	Due Within One Year (Current)	Due Beyond One Year (Non-current)

¹Direct borrowings and direct placements have been separately identified due to the implementation of GASB Statement No. 88. Direct borrowings and direct placements for Governmental Activities include bond issuances from University Auxiliary Bonds.

²Direct borrowings and direct placements includes installment purchase contracts.

Long-term liabilities for governmental activities are generally liquidated by the applicable governmental funds and/or internal service funds. Specifically, the special revenue funds, capital projects funds, and/or internal service funds will liquidate the certificates of participation payable, and installment purchase contracts. The applicable special revenue funds and internal service funds will reduce deposits when such monies are earned. The governmental and internal services funds that account for

employees' salaries and wages will liquidate the compensated absences liabilities. The General Fund, Health and Family Services Fund, and the non-major special revenue fund will generally liquidate claims payable. The Public Education Fund will liquidate the advances due to the Unclaimed Property Trust Fund to the extent that the Unclaimed Property Trust Fund does not have sufficient assets to pay claimants requesting payment of unclaimed funds. The nonmajor special revenue funds will generally liquidate other liabilities. The Transportation-Governmental Fund will liquidate the availability payment arrangement agreements and due to other governments liabilities from annual appropriations. Refer to Note 12 for additional information on the public-private partnership agreements. The pension liability and the Other postemployment benefits (OPEB) related to all governmental funds are reported above. The pension liability is adjusted each year based upon investment performance and contributions received. The state does not currently fund the OPEB liability so it is non-liquidating. Refer to Note 8 for additional information on the pension liability and OPEB.

The Department of Management Services' outstanding \$118.1 million Florida Facilities Pool Bonds provide for acceleration in an event of a payment default, subject to request of the Trustee or the holders of not less than 25% of the outstanding bonds.

The Department of Management Services' outstanding \$326.8 million certificates of participation provide for acceleration and the surrender of the financed public and private correctional facilities (the projects) in the event of a default. Upon an event of default or an event of non-appropriation, the Corporation may terminate the lease, take possession of the projects, and accelerate the rent payments due for the current fiscal year. If the Corporation elects not to terminate the lease upon an event of default, it may exclude the Department, sell or lease certain equipment, and hold the Department liable for monetary damages. Additionally, following an event of non-appropriation, the lease automatically terminates, and the Department must immediately surrender all projects to the Trustee, who may then liquidate, rent, or lease the projects. The Trustee may also exercise all remedies available to the Corporation or cause the Corporation to pursue such remedies.

The Department of Children and Families' outstanding \$31.4 million certificates of participation provide for acceleration and the surrender of the financed forensic mental health and civil commitment facilities (the projects) in the event of a default. Upon an event of default or event of non-appropriation, the principal of all outstanding certificates may be accelerated at the request of the Trustee or the owners of a majority of the outstanding certificates. Upon an event of default or an event of nonappropriation, the Corporation may terminate the lease and require the Department to vacate, surrender, and transfer possession of the projects to the Corporation. Additionally, upon an event of default, without terminating the lease, it may take possession of the project, exclude the Department, and sublet the project. In each case the Department is liable for monetary damages. The Trustee may exercise all remedies available to the Corporation, and may take possession of the projects, or any portions thereof, and dispose of the Corporation's interest therein for the benefit of the owners of the outstanding certificates.

The State of Florida's governmental and business-type activities also have an unused line of credit in the amount of \$95,695,059 as of June 30, 2023.

Changes in long-term liabilities for business-type activities and component units during the fiscal year ended June 30, 2023, are as follows (in thousands):

¹Availability payment arrangements are included in the Installment purchases line of the Proprietary Funds Statements of Net Position.

As of June 30, 2023, Florida Hurricane Catastrophe Fund assets having a value of \$3.48 billion were pledged as collateral for the Series 2020A Bonds. The market value of the pledged assets is less than par due to market volatility; however, this does not create an event of default. This debt contains a provision that, in an event of default, the Trustee may, and upon written request of the holders of a majority of the aggregate principal amount of all outstanding parity obligations shall, declare the principal of all outstanding parity obligations to be due and payable immediately.

¹Direct borrowings and direct placements have been separately identified due to the implementation of GASB Statement No. 88.

²Leases are recorded separately in the Government-wide Statement of Net Position.

The University of Florida Shands Teaching Hospital and Clinic's outstanding \$119.6 million direct placement bonds provide that the principal of all outstanding direct placement bonds may be accelerated upon an event of default.

The University of South Florida Finance Corporation's \$247.6 million certificates of participation, including \$92 million of direct placements, provide that the outstanding principal may be accelerated upon an event of default.

The University of Central Florida Foundation, Inc.'s outstanding \$59.8 million long-term debt from direct placements are secured with collateral of capital assets used in operations and provide that in the event of default, all outstanding amounts may be accelerated.

The State's colleges and universities also have unused lines of credit of \$73.9 million as of June 30, 2023.

NOTE 14 - INTERFUND BALANCES AND TRANSFERS

NOTE 15 - RISK MANAGEMENT

A. State Risk Management Trust Fund

The State Risk Management Trust Fund (Fund) provides property insurance coverage for state buildings and contents against loss from fire, lightning, sinkholes, flood, and other hazards customarily insured by extended coverage. The property insurance program has a self-insured retention of \$2 million per occurrence for losses arising from all perils listed above except named windstorm and flood. The property insurance program also has a self-insured retention of \$2 million per occurrence for losses arising from named windstorm and flood, but with an additional annual aggregate self-insured retention of \$40 million. Commercial reinsurance is purchased for losses over the self-insured retention up to \$38.6 million per occurrence for named windstorm and \$40.2 million for flood losses through February 15, 2024, and \$255 million per occurrence for covered perils other than named windstorm and flood.

The Fund's estimated liability for unpaid property insurance claims at the fiscal year-end is determined by an actuarial method and includes an amount for losses incurred but not yet reported. The amount paid for property claim losses did not exceed the self-insured retentions for the last two fiscal years. Changes in the Fund's property insurance claims liability amount for the fiscal years ended June 30, 2022, and June 30, 2023, were as follows (in thousands):

Fiscal Year Ended	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimate	Claim Payments	Balance at Fiscal Year-end
June 30, 2022	\$ 1,312	\$ 3,349	\$ (2,744)	\$ 1,917
June 30, 2023	\$ 1,917	\$ 4,494	\$ (2,311)	\$ 4,100

The estimated liability for unpaid property insurance claims for the fiscal year ended June 30, 2023, does not include outstanding property claim loss payments resulting from Hurricane Ian that made landfall in the Fort Myers area on September 27, 2022, or from Hurricane Idalia that made landfall on Keaton Beach on August 31, 2023. Estimated unpaid losses for Hurricane Ian total \$23.7 million. Preliminary estimates of Hurricane Idalia losses total \$11.3 million.

The Fund also provides casualty insurance coverage for the risks of loss related to federal civil rights and employment actions, workers' compensation, court-awarded attorney fees, automobile liability, and general liability. The state is self-insured for all claims associated with liability risks and in-state workers' compensation coverage. The state purchases an insurance policy for out-of-state workers' compensation coverage.

The estimated liability for unpaid casualty insurance claims as of June 30, 2023, was \$1.12 billion. This amount was determined through an actuarial method based on historical paid and incurred losses and includes an amount for losses incurred but not yet reported. In addition, this amount includes the present value of workers' compensation indemnity claims liability of \$222.4 million, discounted using a 4 percent annual percentage rate per Section 625.091, Florida Statutes. The undiscounted workers' compensation indemnity claims liability is \$326.4 million.

Changes in the Fund's casualty insurance claims liability for the fiscal years ended June 30, 2022, and June 30, 2023, were as follows (in thousands):

Fiscal Year Ended	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimate	Claim Payments	Balance at Fiscal Year-end
June 30, 2022	\$ 1,165,147	\$ 107,078	\$ (138,054)	\$ 1,134,171
June 30, 2023	\$ 1,134,171	\$ 116,686	\$ (133,699)	\$ 1,117,158

Actual current year claims and changes in estimate for casualty lines of coverage for the fiscal year ended June 30, 2023, increased by \$9.6 million as compared to the previous fiscal year.

B. Employee and Retiree Health Insurance Funds

Employees and retirees may obtain health care services through participation in the state's group health insurance plan or through membership in a health maintenance organization plan under contract with the state. The state's risk financing activities associated with state group health insurance, such as the risks of loss related to medical and prescription drug claims, are administered through the State Employees Group Health Insurance Trust Fund, an internal service fund. It is the practice of the state not to purchase commercial coverage for the risks of losses covered by this program.

The program's estimated fiscal year-end liability includes an amount for claims that have been incurred but not reported, which is based on analyses of historical data performed by both the state and its contractors. Changes in claims liability amounts for the fiscal years ended June 30, 2022, and June 30, 2023, were as follows (in thousands):

Fiscal Year Ended	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimate	Claim Payments	Balance at Fiscal Year-end
June 30, 2022	\$ 239,586	\$ 2,617,811	\$ (2,574,408)	\$ 282,989
June 30, 2023	\$ 282,989	\$ 2,676,958	\$ (2,654,556)	\$ 305,391

During the year, for program operations, both employee and retiree participation in the state group health insurance program are accounted for in the State Employees Group Health Insurance Trust Fund. Retiree participation in the program is considered an Other Postemployment Benefit (OPEB) for purposes of this report. See Note 8, Section B regarding OPEB for additional information. Asset and liability balances related to retiree participation in the program as of June 30, 2023, were transferred from the State Employees Group Health Insurance Trust Fund and reported in Other Agency Funds in accordance with the requirements of GASB Codification Section P53, *Reporting Assets Accumulated for Defined Postemployment Benefits Other Than Pensions not Provided Through Trusts that Meet Specified Criteria*.

NOTE 16 - FLORIDA PREPAID COLLEGE PROGRAM

The Stanley G. Tate Florida Prepaid College Program (Program) was created in 1987 to provide a medium through which the costs of tuition, tuition differential fee, local fees, and dormitory residence may be paid in advance of enrollment in a state postsecondary institution at a rate lower than the projected corresponding cost at the time of actual enrollment. The Florida Prepaid College Board (Board) administers the Program, and the State of Florida guarantees the obligations of the Board to qualified beneficiaries if moneys in the Program are insufficient. The Program is accounted for in an enterprise fund. An actuarial study is performed to determine the Program's funding status. The actuarial present value of future contract benefits reflects the present value of estimated future contract benefits and expenses and is adjusted for the effects of projected tuition and fees increases, dormitory housing fees increases, and termination of contracts. Additional information as of June 30, 2023, is as follows (in millions):

Actuarial present value of future contract benefits, expenses payable, and near-term payables	\$9,434
Net position available (net of outstanding refund payments and unrealized gain/loss on security lending portfolio)	\$12,205
Net position as a percentage of future contract benefits and expenses obligation	129.4%

NOTE 17 - INSURANCE ENTERPRISES

The State of Florida has established multiple enterprises that provide insurance, reinsurance, and guarantee services. The primary risk exposures to the state relate to catastrophic hurricane losses, access to liquidity from credit markets, and ultimate dependence on public assessments.

A. FLORIDA HURRICANE CATASTROPHE FUND

The Florida Hurricane Catastrophe Fund (FHCF) was created in 1993 by the Florida Legislature, as a state fund administered by the State Board of Administration (SBA) to provide a source of reimbursement to most residential property insurers for catastrophic hurricane losses, thereby creating additional insurance capacity. Most admitted residential property insurers writing FHCF covered policies are required to purchase reimbursement coverage with the FHCF.

The reimbursement coverage covers a portion of hurricane losses in excess of an insurer's share of an industry wide retention, up to the lesser of either the statutory limit or the actual claims-paying capacity of the FHCF. For the contract year ended May 31, 2023, the industry retention for determining each insurer's retention was \$8.698 billion per hurricane for the two hurricanes with the largest losses and \$2.899 billion for each additional hurricane in the contract year. The aggregate coverage capacity for the contract year (in excess of retention) was \$17.0 billion. The statute requires that an actuarially indicated formula developed by an independent actuary be used to calculate the reimbursement premiums collected for the coverage.

The SBA is required to contract with each insurer writing covered policies in the state to reimburse the insurer for a specified percentage of losses from covered events in excess of the insurer's retention. The total obligation of the SBA with respect to all contracts covering a particular contract year is statutorily capped at the "actual claims-paying capacity" of the FHCF, defined by law as the sum of the balance of the fund as of December 31, of the contract year, plus any reinsurance purchased by the fund, plus the amount the SBA is able to raise through the issuance of revenue bonds. The FHCF estimates its claims-paying capacity twice a year in May and October based on reports of its financial advisor and bond underwriters, and these amounts are reviewed by the FHCF Advisory Council. The FHCF has a fiscal year end of June 30, and its reimbursement contracts expire on May 31. As of June 30, 2023, the FHCF had a net position of \$2.749 billion, including the net position of the State Board of Administration Finance Corporation (Corporation).

If available resources and pre-catastrophe debenture financing are not adequate to satisfy reimbursement claims, the Corporation may issue revenue bonds secured by emergency assessments. The SBA has the sole authority to direct the Florida Office of Insurance Regulation to levy assessments on most property and casualty insurance policy premiums on behalf of the FHCF. Aggregate assessments may not exceed 10% and assessments in relation to losses in one contract year may not exceed 6%. This assessment authority is not restricted by the assessments levied by either Citizens Property Insurance Corporation (Citizens), or the Florida Insurance Guaranty Association, Inc. (FIGA). As of June 30, 2023, the FHCF is not levying assessments.

Hurricane losses represent the estimated ultimate cost of all reported and unreported claims during the year that exceed the participating insurers' individual company retention levels. The estimates for current year and prior year losses are continually reviewed and adjusted as experience develops or new information becomes known and such adjustments are included in current operations. During the 2022 hurricane season, Hurricane Ian made landfall on September 28, 2022, in southwest Florida as a Category 4 hurricane. The estimated ultimate loss to the FHCF for this hurricane was \$10.0 billion as of June 30, 2023. During the 2018 hurricane season, the State of Florida experienced Hurricane Michael, which made landfall as a major Category 5 storm on October 10, 2018. As of June 30, 2023, the estimated ultimate loss to the FHCF for this hurricane was \$1.45 billion. Hurricane Irma, which occurred during the 2017 hurricane season, had an estimated ultimate loss as of June 30, 2023, of \$7.6 billion, which is a \$200 million decrease from prior year due to the mandatory commutation of Hurricane Irma losses that began on June 1, 2023. The estimated ultimate losses from these events are reflected in the FHCF's net position as of June 30, 2023, and no additional loss development for these storms was recognized during fiscal year ended 2023.

On September 16, 2020, the Corporation issued \$3.5 billion of pre-event Series 2020A Revenue Bonds to maximize the ability of the Fund to meet future obligations. The proceeds from these bonds may be used to pay for losses incurred from future covered events. Investment earnings on these funds, as well as reimbursement premiums, if necessary, are used to pay the debt service requirements of these bonds. The Series 2020A Revenue Bonds have maturities of \$1.25 billion on July 1, 2025, \$1.0 billion on July 1, 2027, and \$1.25 billion on July 1, 2030, bearing interest rates of 1.258%, 1.705%, and 2.154%, respectively.

In addition to the issuance of bonds, the FHCF has the authority to procure reinsurance for the purpose of maximizing the capacity of the fund. No reinsurance products were purchased for the contract year beginning June 1, 2022, or June 1, 2023.

B. REINSURANCE TO ASSIST POLICYHOLDERS PROGRAM

The Reinsurance to Assist Policyholders program (RAP) was created by the Florida Legislature under s. 215.5551, F.S., and became effective on May 26, 2022. The RAP program, which is for hurricane seasons 2022 & 2023, is administered by the SBA and provides a non-recurring total of \$2.0 billion in reinsurance coverage for most insurers participating in the FHCF. RAP insurers are reimbursed 90 percent of their covered losses from the two largest covered events in excess of their RAP retention, plus a 10 percent loss adjustment allowance. RAP insurers must participate in contract year 2022, unless the insurer has duplicative reinsurance coverage which requires the insurer to defer coverage to contract year 2023. \$466 million has been paid in FY 2023 to insurers participating in the program for the 2022 hurricane season for losses resulting from Hurricane Ian. Estimated ultimate losses to the RAP program for Hurricane Ian are projected to be \$886 million as of June 30, 2023.

C. FLORIDA OPTIONAL REINSURANCE ASSISTANCE PROGRAM

The Florida Optional Reinsurance Assistance program (FORA) was created by the Florida Legislature under s. 215.5552, F.S., and became effective on December 16, 2022. The FORA program, which is administered by the SBA, provides up to \$1.0 billion in non-recurring optional reinsurance coverage for the 2023 hurricane season to FHCF participants that select coverage and pay the required premiums. FORA insurers are reimbursed 100 percent of their covered losses from the two largest covered events in excess of their selected FORA retention. FORA insurers were required to pay premiums by July 1, 2023, to secure coverage for contract year 2023. Five insurers selected coverage and paid premiums for the FORA program. No FORA payments were made in FY 2023, as no covered hurricane events occurred between the program's effective date and June 30, 2023.

D. CITIZENS PROPERTY INSURANCE CORPORATION

Citizens Property Insurance Corporation (Citizens) was established on August 1, 2002, pursuant to s. 627.351(6), F.S., to provide certain residential and non-residential property insurance coverage to qualified risks in the State of Florida under circumstances specified in s. 627.351(6), F.S. This legislation was enacted such that property insurance be provided through Citizens to applicants who are in good faith entitled to procure insurance through the voluntary market, but are unable to do so. Citizens results from a combination of the Florida Residential Property and Casualty Joint Underwriting Association (the FRPCJUA) and the Florida Windstorm Underwriting Association (the FWUA). The FRPCJUA was renamed Citizens and the FWUA's rights, obligations, assets, liabilities, and all insurance policies were transferred to Citizens. Unlike private insurers offering coverage through the admitted market, Citizens is not required to obtain or to hold a certificate of authority issued by the Florida Department of Financial Services, Office of Insurance Regulation (the Office). Likewise, Citizens is not subject to Risk-Based Capital (RBC) requirements or required to have a pledged deposit on file with the State of Florida. For purposes of its tax-exempt status, Citizens is considered a political subdivision and an integral part of the State of Florida. As such, Citizens' operations may be affected by the legislative process.

Citizens operates pursuant to a Plan of Operation (the Plan) under the Act approved by the Financial Services Commission (the Commission) of the State of Florida. The Commission is composed of the Governor, the Chief Financial Officer, the Attorney General, and the Commissioner of Agriculture of the State of Florida.

Citizens is supervised by a Board of Governors (the Board) which consists of nine individuals who reside in the State of Florida. The Governor appoints three members. The Chief Financial Officer, the President of the Senate, and the Speaker of the House of Representatives each appoint two members of the Board. At least one of the two members appointed by each appointing officer must have a demonstrated expertise in the insurance industry. The Chief Financial Officer designates one of the appointees as the Board's chair. All Board members serve at the pleasure of their appointing officers.

Citizens' President and Chief Executive Officer (Executive Director) and senior managers are engaged by and serve at the pleasure of the Board. The Executive Director is subject to confirmation by the Florida Senate.

Pursuant to s. 627.351(6), F.S., all revenues, expenses, assets, and liabilities of Citizens shall remain divided into three separate accounts: the Personal Lines Account, the Commercial Lines Account, and the Coastal Account (collectively, the Accounts). A brief history of each account follows:

- *Personal Lines Account History* - The FRPCJUA began operations on January 21, 1993, after Hurricane Andrew, pursuant to s. 627.351(6), F.S., to provide certain residential property insurance coverage to qualified risks in the State of Florida for applicants who were in good faith entitled to procure insurance through the private market but were unable to do so. Residential property coverage consists of the types of coverage provided to homeowners, mobile homeowners, tenants, condominium unit owners, and similar policies. The policies provide coverage for all perils covered under a standard residential policy, subject to certain underwriting requirements. Such policies may exclude windstorm coverage on property within eligible areas. This portion of the FRPCJUA's activities became the Personal Lines Account under Citizens.

- *Commercial Lines Account History* - The Florida Property and Casualty Joint Underwriting Association (FPCJUA) was activated in early 1994 to provide commercial residential coverage (i.e., coverage for condominium associations, apartment buildings, and homeowner associations) to organizations unable to obtain such coverage from a private insurer. During 1995, legislation was enacted to transfer all obligations, rights, assets, and liabilities related to commercial residential coverage from the FPCJUA to the FRPCJUA. The legislation required that the premiums, losses, assets, and liabilities be accounted for separately from the FRPCJUA's personal residential business. This portion of the FRPCJUA's activities became the Commercial Lines Account (CLA) under Citizens. In 2006, the FPCJUA was re-activated to provide commercial non-residential wind-only coverage. In 2007, legislation was enacted which resulted in the transfer and assumption of the FPCJUA's commercial non-residential policies by Citizens. These policies were added to the CLA.
- *Coastal Account History* - The FWUA, which was a residual market mechanism for windstorm and hail coverage in select areas of the State of Florida, was created by an act of the Florida Legislature in 1970 pursuant to s. 627.351(2), F.S. FWUA was a Florida unincorporated association, the members of which were all property insurance companies holding a certificate of authority to provide property insurance coverage in the State of Florida. FWUA provided policies of windstorm insurance for property owners within the eligible areas who were unable to obtain such coverage from private insurers. Insured properties include personal residential, commercial residential, and commercial non-residential properties. This portion of the FWUA's activities became the High-Risk Account under Citizens. In 2007, Citizens received authority to issue multi-peril policies in the High-Risk Account. Pursuant to legislative changes during 2011, the High-Risk Account was renamed the Coastal Account.

The three separate accounts must be maintained as long as financing obligations entered into by the Florida Windstorm Underwriting Association or Residential Property and Casualty Joint Underwriting Association are outstanding, in accordance with the terms of the corresponding financing documents. If no such financing obligations remain outstanding or if the financing documents allow for combining of accounts, Citizen may consolidate the three separate accounts into a new account, to be known as the Citizens account, for all revenues, assets, liabilities, losses, and expenses of Citizens. The Citizens account, if established by Citizens, is authorized to provide coverage to the same extent as provided under each of the three separate accounts.

Criteria for defining the reporting entity are identified and described in the Governmental Accounting Standards Board's Codification of Governmental Accounting and Financial Reporting Standards, Sections 2100 and 2600. Application of these criteria determine potential component units for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the primary government's financial statements to be misleading or incomplete. Based on the application of these criteria, Citizens is a component unit of the State of Florida, and its financial activity is reported in the state's Annual Comprehensive Financial Report by discrete presentation.

Citizens has determined that it has no component units that should be included in its separately reported financial statements. However, the Florida Market Assistance Plan (FMAP) is a financially related entity. FMAP is a 501(c)(6) entity created by s. 627.3515, F.S. FMAP was created for the purpose of assisting in the placement of applicants who are unable to procure property or casualty insurance coverage from authorized insurers when such insurance is otherwise generally available. As provided in FMAP's enabling legislation, each person serving on the Board of Citizens also serves on the Board of FMAP. In addition, Citizens is required to fund any deficit incurred by FMAP in performing its statutory purpose. No such funding has taken place from FMAP inception through December 31, 2022.

E. FLORIDA INSURANCE GUARANTY ASSOCIATION, INC.

The Florida Insurance Guaranty Association, Inc. (FIGA), a not-for-profit corporation, was established by the Florida Legislature through the Florida Insurance Guaranty Association Act of 1970 (the Act). FIGA was created to provide a mechanism for the payment of covered claims of insolvent insurers and to assist in the detection and prevention of insurers' insolvencies. FIGA operates under the supervision and approval of a board of directors, comprised of five to nine persons, pursuant to s. 631.56, F.S. Seven persons are recommended by member insurers, unless Citizens Insurance Corporation represents one of the top ten writers of the residential property insurance market, in which case, six are recommended by member insurers. Two additional Board members, one recommended by Florida domestic members and the other by the Department of Financial Services (the Department). Recommendations to the Board are reviewed and subsequently appointed by the Department.

The members of FIGA are all insurers that hold a certificate of authority to provide property and casualty coverage in the State of Florida.

The funding of FIGA's activities is provided by distributions from the estates of insolvent insurers and assessments of members. The assessments are calculated and as considered necessary, levied against member insurers on the basis of direct written premiums in the State of Florida in the classes protected by the Act. FIGA obtains the amount of the direct written premiums, by company and by class of protection, to use as the basis for assessment calculations. The maximum regular assessment rate is 2%. In addition to the regular assessment, FIGA has the authority to levy an emergency assessment up to

an additional 4% of direct written premiums for the account specified in s. 631.55(2)(b), F.S., to pay covered claims of insurers rendered insolvent by the effects of a hurricane. FIGA also has the authority to work with an affected municipality, county, or financing conduit organization under Chapter 163, F.S., to issue tax-exempt bonds should the funding need arise for the account specified in s. 631.55(2)(b), F.S. FIGA's Board of Directors met on March 31, 2023, and adopted a resolution calling on the Florida Insurance Assistance Interlocal Agency (FIAIA) to issue tax-exempt revenue bonds in order to fund a claims payment assistance program for insurance companies declared insolvent as a result of hurricane damage. In June 2023, FIAIA issued \$608 million in Insurance Assessment Revenue Bonds, Series 2023A, for FIGA's assistance program. As secured collateral, FIGA has pledged and levied a 1% emergency assessment on direct written premiums that fall under the "All Other Account" and will remain in effect until all Series 2023A bonds have been paid.

FIGA's Board of Directors certified in 2021 and 2022 the need to assess each member insurer on the following:

Regular Assessments:

- .70% assessment was levied on all new or renewal policies with effective dates beginning January 1, 2022, through December 31, 2022.
- 1.30% assessment was levied on all new or renewal policies with effective dates beginning July 1, 2022, through June 30, 2023, and
- .70% assessment was levied on all new or renewal policies with effective dates beginning January 1, 2023, through December 31, 2023.

Emergency Assessments:

- 1.0% assessment was levied on all new or renewal policies with effective dates beginning October 1, 2023, and remains in effect until the bonds issued are no longer outstanding.

F. FLORIDA WORKERS' COMPENSATION INSURANCE GUARANTY ASSOCIATION, INC.

The Florida Workers' Compensation Insurance Guaranty Association, Inc. (FWCIGA), a not-for-profit corporation, was established by the Florida Legislature in 1997 as a merger of the workers' compensation account of the Florida Insurance Guaranty Association, Inc. and the Florida Self-Insurance Fund Guaranty Association. FWCIGA was created to provide a mechanism for the payment of covered claims of insolvent workers' compensation insurers and to assist in the detection and prevention of insurers' insolvencies. FWCIGA operates under the supervision and approval of a board of directors, comprised of eleven persons. Eight directors are recommended by member insurers pursuant to s. 631.912, F.S., and subsequently appointed by the Florida Department of Financial Services. The remaining three directors are the Florida Insurance Consumer Advocate, designee of the state's Chief Financial Officer and one person with commercial insurance experience appointed by the Governor.

The members of FWCIGA are all insurers that hold a certificate of authority to provide workers' compensation coverage in the State of Florida.

The funding of FWCIGA's activities is provided by distributions from the estates of insolvent insurers and assessments of members. The assessments are calculated and as considered necessary, levied against member insurers on the basis of workers' compensation direct written premiums in the State of Florida prior to reductions for discounts or credits for deductibles in a policy or by any premium adjustment to a retrospectively rated policy. FWCIGA obtains the amount of the direct written premiums, by company, to use as the basis for assessment calculations. The maximum assessment rate is 2% for insurance companies and self-insurance funds. In addition to the regular assessment, the Florida Legislature granted FWCIGA the authority to levy up to an additional 1.5% of direct written premiums if the 2% assessment is insufficient to make payments for the calendar year.

NOTE 18 - CONTINGENCIES

A. Federal Family Education Loan Program

The Florida Department of Education (FDOE) administers the Federal Family Education Loan Program (FFELP), 20 USC S. 1071 et. Seq. The primary purpose is to guarantee the repayment of principal and accrued interest of eligible student loans made by participating lenders under the FFELP.

The Higher Education Amendments of 1998 (the Amendments) were enacted on October 7, 1998, with a retroactive date of October 1, 1998, for most provisions. The Amendments changed the financial and reporting structure of guaranty agencies. Pursuant to the amendments, the FDOE established a Federal Student Loan Reserve Fund (Federal Fund) and a Guaranty Agency Operating Fund, as required, to account for the FFELP activities, 20 USC s. 1072a and s. 1072b.

The regulations for administering the program are found in Title 34 of the Code of Federal Regulations, Part 682. Student loans are issued by participating financial institutions to eligible students and their parents under FFELP. If a student loan guaranteed by FDOE defaults, the Federal Fund pays the lender for the defaulted student loan. The United States Department of Education (USDOE) is the program's reinsurer. Reinsurance amounts received from the USDOE to replenish the Federal Fund are currently 100%. Once the loan has defaulted, the FDOE begins collection activities with the borrower.

The passage of the Health Care and Education Reconciliation Act of 2010 ended the guarantor portion of the program after June 30, 2010. FDOE still manages the administrative and collection activities for the loans guaranteed by FDOE prior to July 1, 2010, as required by FFELP. The Federal Fund is used to account for assets held by FDOE (an agent for the federal government) and therefore is custodial in nature and is the property of USDOE. On June 30, 2023, approximately \$982.4 million of program loans were still outstanding from loans that had been made prior to the Program ending on June 30, 2010. The Net Guaranty Amount for FY22 & FY21 were \$1,181.8 million and \$1,350.5 million, respectively. In FY23, USDOE substituted the Net Guaranty Amount for the Original Principal Outstanding. The Net Guaranty Amount methodology includes the capitalized interest, as of the date claims were paid, in the outstanding balance of OSFA's loan portfolio. The amount of potential liability to the Federal Fund is indeterminable, due to FFELP being a 100% reinsurance program.

However, on March 27, 2020, the Coronavirus Aid, Relief, and Economic Security (CARES) Act provided temporary relief of USDOE owned federal student loans, as part of the COVID-19 emergency relief measures through suspension of loan payments, stopped collections on defaulted loans, and a 0% interest rate. On March 30, 2021, the COVID-19 emergency relief measures were expanded to include federal student loans made through the FFELP loans in default, with a retroactive start date of March 13, 2020. The USDOE announced the final extension to the student loan pause as of August 31, 2023, with the first payment due in October 2023. The impact of these conditions on the financial and operational functions of FFELP and the potential liability to the Federal Fund is indeterminable.

B. Federally Assisted Grant Programs

Medicaid Program - On July 29, 2016, AHCA posted amended outpatient Medicaid rates for state fiscal year 2016-2017 to its website. Those Medicaid reimbursement rate change forms were dated July 29, 2016 ("July 29 Rate Letters"). The Public Health Trust of Miami-Dade County, Florida filed its Petition for Formal Administrative Determination of Invalidity of Agency Statements and Existing Rule 59G-6.030 on October 31, 2016. The petition was then consolidated with other petitions that challenged the same issue. Petitioners alleged the July 29 Rate Letters and the methodology by which AHCA used to calculate the outpatient Medicaid rates are statements that constitute an unadopted rule. On February 13, 2017, the Division of Administrative Hearings (DOAH) issued an Order Extending Stay of Unadopted Rule Challenge and Rescheduling Final Hearing in Existing Rule Challenge. On February 23, 2017, the final hearing was held at DOAH. The Petitioners were unsuccessful, and the Agency prevailed. The hospitals filed an appeal. The appeal concluded and the Court entered an Order in favor of the Hospitals. At this time the Agency is attempting to calculate the impact of this challenge which could result in a net fiscal impact in excess of \$25 million.

Medicaid Program - On January 6, 2022, CMS issued a demand letter requesting repayment in the amount of \$270,896,313 for unallowable payments to Jackson Memorial Hospital under its LIP program for the State fiscal years 2010, through 2014. If AHCA is ultimately unsuccessful in its challenges, it may be required to return \$270,896,313 to the Federal Government. AHCA responded to the demand letter on January 21, 2022. On June 10, 2022, CMS issued a disallowance letter asserting the \$270,896,331 overpayment. Thereafter, on August 9, 2022, AHCA responded that it was requesting reconsideration of the disallowance. In September 2023, AHCA entered into a Global Settlement Agreement with HHS, its component CMS, and Jackson Health System to resolve the outstanding disallowances. AHCA agreed to pay \$159,828,825 by negative adjustment on line 10A of the Quarterly Expenditure Report for the quarter ending September 30, 2023. HHS and CMS agreed to discharge any and all claims and release and discharge AHCA and Jackson Health System from any and all claims arising out of this disallowance. Jackson Health agreed to pay AHCA \$122,840,368, plus interest in five equal

annual installments with the first installment no later than September 30, 2023, towards the total amount AHCA paid in the Global Settlement Agreement.

Medicaid Program – On June 10, 2022, CMS issued a disallowance letter asserting an overpayment of \$150,325,421 FFP for alleged unallowable payment to hospital and non-hospital federal qualified health center and county health department providers under its LIP program for June 30, 2014, through June 30, 2018 (DY 8-12). Thereafter, on August 9, 2022, AHCA responded that it was requesting reconsideration of the disallowance. On October 7, 2022, AHCA received notice that the reconsideration request was denied. On November 28, 2022, the Agency filed an appeal to the DAB. The matter was currently abated to allow for settlement discussions to begin. In September 2023, AHCA entered into a Global Settlement Agreement with HHS, its component CMS, and Jackson Health System to resolve the outstanding disallowances. AHCA agreed to pay \$150,325,421 in 5 installments by negative adjustment on Line 10B of AHCA’s Quarterly Expenditure Report beginning with the fourth quarter of Federal fiscal year 2023 and ending with the fourth quarter of Federal fiscal year 2027. HHS and CMS agreed to discharge any and all claims and release and discharge AHCA and Jackson Health System from any and all claims arising out of this disallowance. Jackson Health agreed to pay AHCA \$122,840,368, plus interest in five equal annual installments with the first installment no later than September 30, 2023, towards the total amount AHCA paid in the Global Settlement Agreement.

Medicaid Program - Two Plaintiffs, W.B. and A.W., both Medicaid recipients under the age of 21, by and through their parents and next friends, filed a putative class action lawsuit in the U.S. District Court for the Middle District of Florida. Plaintiffs contend that AHCA’s definition of “medical necessity” conflicts with requirements under the federal Medicaid Act for the provision of Medicaid services to recipients under the age of 21 (under the early and periodic screening, diagnostic, and testing, or “EPSDT”, provisions of the Medicaid Act). Plaintiffs seek to certify a class that would include all Medicaid recipients under the age of 21 in Florida, approximately 2.6 million individuals. Plaintiffs attack two aspects of AHCA’s process for determining whether requested services are appropriate: (1) AHCA’s reliance on its “medical necessity” definition which Plaintiffs contend is more restrictive than federal requirements; and (2) AHCA’s failure to defer in all matters to recommendations of treating professionals. AHCA is seeking dismissal and opposes class certification. On January 19, 2023, the parties filed a joint motion to stay proceedings for 90 days while AHCA engages in rulemaking that affects the case. On January 20, 2023, the Court granted the motion, and the case was stayed until April 20, 2023. The parties were ordered to participate in mediation while the case is stayed. The stay has been subsequently extended while the parties engage in settlement negotiations and the Agency engages in rulemaking. The parties’ next status report is due on January 10, 2024. At this time, the Agency has not determined the fiscal impact; however, it could likely exceed \$25 million.

Medicaid Program - This civil action was filed in the Southern District of Florida in 2013. The United States Department of Justice (USDOJ) alleges that AHCA, Department of Health, Department of Children and Families, and Agency for Persons with Disabilities violate Title II of the Americans with Disabilities Act by improperly placing Medicaid eligible medically complex persons under the age of 21 in nursing facilities or by serving that population in the community in a manner that places them allegedly at (imminent) risk of unnecessary institutionalization. The USDOJ filed an Amended Complaint on June 15, 2022, seeking declaratory and injunctive relief. The State filed its Motion to Dismiss on July 20, 2022. The Court denied the motion on March 2, 2023. A bench trial was held from May 8, 2023, to May 19, 2023. On July 14, 2023, Judge Middlebrooks issued a Memorandum Opinion and Order finding the State of Florida liable for violating Title II of the ADA and entering final judgment in favor of the United States and against the State of Florida. On the same day, the Court issued an Order of Injunction requiring the State to implement significant changes to its Medicaid Program. The State filed a notice of appeal to the Eleventh Circuit, where briefing is underway and oral argument has been scheduled for January 24, 2024. It is possible that the overall impact could exceed \$25 million annually in additional Medicaid payments if the State is not successful in its appeal.

C. Other

Skanska-Granite-Lane Joint Venture - The Florida Department of Transportation (Department) entered into a Concession Agreement with I-4 Mobility Partners OpCO LLC to serve as Concessionaire for the I-4 Ultimate Project, Contract No. E5W13. Concessionaire’s construction contractor for the project, Skanska-Granite-Lane Joint Venture (“SGL”) submitted a certified claim amount of \$378,717,175 on July 21, 2020 to the Department for increased labor and support costs; increased subcontract costs; increased material costs; and cumulative impacts, interference, and markup associated with this project. Damages in the range of \$25 to \$50 million are reasonably possible. The Department denied the claim. This matter was heard by the Dispute Resolution Board (DRB) with the Board’s recommendation being substantially favorable to the Department. SGL promptly rejected this finding. The Department also rejected this finding because it disagreed with the portion of the DRB recommendation favorable to SGL. It is expected that SGL will file suit in circuit court once Final Acceptance is granted. Final acceptance is now estimated to occur December 2023.

Skanska USA Civil Southeast, Inc. -The Florida Department of Transportation (Department) signed a design-build contract (State Contract No. E3N5 1) with Skanska USA Civil Southeast, Inc (“Skanska”) to replace the Pensacola Bay Bridge on SR 30 (US 98). On July 8, 2021, Skanska submitted a non-certified claim to the Department for \$50.1 million in damages related to Hurricane Sally. The Department is evaluating the claim. On July 10, 2023, the parties entered into a

Memorandum of Agreement providing for Skanska to forego core repair costs and Department agreeing to pay reasonable premium costs that Skanska incurred expediting the repairs. The Department and Skanska also agreed to participate in a Dispute Resolution Board hearing for confirmation as to the reasonableness of the methodology to determine premium costs. Once concluded, the parties will negotiate the amount of the premium costs.

NOTE 19 - LITIGATION

Due to its size and broad range of activities, the State is involved in various, though sometimes routine, legal actions. The following are the significant loss contingencies associated with legal proceedings:

A. C&S Wholesale Grocers, Inc. v. Florida Department of Business and Professional Regulation, Division of Alcoholic Beverages and Tobacco, Case No. 2020-CA-565 (2nd Cir., Leon County); Case No. 1D22-3040 (Fla. 1st DCA)

C&S Wholesale Grocers, Inc., a wholesale dealer of cigarette and tobacco products, challenged the Department of Business and Professional Regulation's (DBPR) denial of a refund request for certain excise taxes and surcharges the Plaintiff paid on cigarettes for the period November 2016 through November 2019. Plaintiff alleged that these excise taxes and surcharges violate the Commerce Clause and the Equal Protection Clause of the U.S. Constitution by taxing different kinds of tobacco products disparately, without taxing or levying surcharges on cigars. Plaintiff sought declaratory and monetary relief totaling \$34,482,204. In September 2022, the circuit court entered a final judgement in favor of DBPR. In August 2023, the First District Court of Appeal *per curiam* affirmed the circuit court's decision and Plaintiff's motion for a written opinion is pending.

B. Christopher Alianiello, et. al, v. State of Florida, Department of Education, et. al, Case No. 2019-CA-1674 (2nd Cir. Leon County); Case No. 1D22-2807 (Fla. 1st DCA)

Plaintiffs, including current and former individual teachers, seek to maintain a class action suit against the Department of Education (DOE) and certain school districts. Plaintiffs allege DOE improperly authorized districts to withhold payroll taxes from awards under the Best and Brightest Teacher Scholarship Program. Plaintiffs raise several contract and tort claims, request declaratory relief, and seek damages of the difference between what they received and the full statutory scholarship amount. Estimated damages against DOE could exceed \$30 to \$35 million. In August 2022, the circuit court granted DOE's Motion to Dismiss Second Amended Complaint. An appeal is pending before the First District Court of Appeal.

NOTE 20 - DEFICIT FUND BALANCE AND NET POSITION**A. Governmental Funds**

The *Public Education Fund* has a deficit unassigned fund balance of approximately \$1,004.4 million. The deficit is primarily the result of establishing an advance (long-term liability) on potential future claims by the Department of Financial Services' *Unclaimed Property Trust Fund*. The Department of Financial Services pays claims as they are due from current remittances. If sufficient funds are not available to pay claims, requests are made by the Department of Financial Services to the Department of Education to return the amount of funds necessary to pay claims or funds are borrowed from the Department of Financial Services' *Trust Funds Control Fund* and repaid prior to year-end.

B. Proprietary Funds

The Lottery has a deficit unrestricted net position of approximately \$77.6 million. This deficit is the result of certain liabilities being recorded for reporting purposes only and being excluded from the calculation of transfers to the *Educational Enhancement Trust Fund* as well as undistributed depreciation on investments in excess of the available restricted for undistributed appreciation on restricted investment fund balance. This deficit does not affect the Lottery's ability to pay prizes or provide services.

The Enterprise Fund, *Space Florida*, has a deficit unrestricted net position of approximately \$140.1 million. This deficit is the result of the blended component unit's implementation of GASB No. 87, *Leases*. Prepaid expenses related to donated assets accounted for under previous guidance were removed with the implementation of GASB No. 87.

The Internal Service Fund, *Data Centers*, has a deficit net position of approximately \$14.4 million. This deficit is primarily due to long-term obligations, consisting mainly of a compensated absences liability and an accrual of pension and other post-employment benefit (OPEB) liabilities. The compensated absences liability will be liquidated on a pay-as-you-go basis. The pension and OPEB liabilities do not require cash flows and have no effect on the ability to provide services.

The Internal Service Fund, *Other*, has a deficit net position of approximately \$78.4 million. This deficit is primarily due to long-term obligations, consisting mainly of a compensated absences liability and an accrual of pension and OPEB liabilities. The compensated absences liability will be liquidated on a pay-as-you-go basis. The pension and OPEB liabilities do not require cash flows and have no effect on the ability to provide services.

The Internal Service Fund, *Employee Health and Disability*, has a deficit in net investment in capital assets as a result of the implementation of GASB No. 96, *Subscription-Based Information Technology Arrangements (SBITA)*. Liabilities for the SBITA exceeded the associated SBITA assets.

NOTE 21 - SUBSEQUENT EVENTS

A. Bonds

The following bonds for governmental activities and business-type activities of the primary government were either issued, sold, or defeased subsequent to June 30, 2023:

ISSUANCE OR SALE OF DEBT:

Agency/Bond	Series	Amount	Matures	Interest Rate
Governmental Activities:				
Board of Governors, University of Florida Research Revenue Bonds (Taxable)	2023A	\$ 10,680,000	07/01/2025-07/01/2034	5.000% - 5.000%
Board of Governors, University of Florida Research Revenue Bonds	2023B	\$ 39,150,000	07/01/2035-07/01/2053	4.000% - 5.000%
Board of Governors, University of North Florida Dormitory Revenue Bonds	2023A	\$ 80,925,000	11/01/2025-11/01/2053	5.000% - 5.000%
Full Faith and Credit, State Board of Education, Public Education Capital Outlay Refunding Bonds	2024 Series A	\$ 231,610,000	06/01/2025-06/01/2035	5.000% - 5.000%
Full Faith and Credit, Department of Transportation, Right- of-Way Acquisition and Bridge Construction Bonds	2024A	\$ 190,010,000	07/01/2024-07/01/2053	4.000% - 5.000%

CASH DEFEASANCE OF DEBT:

Agency/Bond/Series	Defeasance Date	Amount	Matures	Interest Rate
Governmental Activities:				
Board of Governors, University of Central Florida Parking Revenue Bonds, Series 2012A	7/7/2023	\$ 4,340,000	07/01/2024-07/01/2032	3.000% - 4.000%
Board of Governors, University of Central Florida Parking Revenue Refunding Bonds, Series 2018A	7/7/2023	\$ 900,000	7/1/2024	5.000% - 5.000%
Board of Governors, University of Central Florida Parking Revenue Refunding Bonds, Series 2019A	7/7/2023	\$ 4,225,000	7/1/2024-7/1/2029	5.000% - 5.000%
Full Faith and Credit, State Board of Education, Public Education Capital Outlay Refunding Bonds, 2020 Series D	7/12/2023	\$ 262,390,000	06/01/2024-06/01/2025	0.390%-0.550%
Water Pollution Control Reveune Refunding Bonds, Series 2019A	7/17/2023	\$ 137,140,000	1/15/2024-1/15/2030	2.100%-2.600%

B. Hurricanes

On August 30, 2023, Hurricane Idalia made landfall near Keaton Beach, Florida, as a Category 3 hurricane. As of December 31, 2023, the actuarial total loss estimate for the Florida Hurricane Catastrophe Fund (FHCF) was determined to be \$30 million for Hurricane Idalia.

Additionally, as of December 31, 2023, Hurricane Irma losses were commuted and no longer included in the actuarial total loss estimate of the fund. As of June 30, 2023, the unpaid loss reserve remains unchanged from what was reported in the financial statements of the FHCF fund.

C. Reinsurance to Assist Policyholders Program

The Reinsurance to Assist Policyholders program (RAP) requested and received \$15 million from the Executive Office of the Governor in November 2023 for RAP related to Hurricane Idalia losses. As of December 21, 2023, RAP insurers have been reimbursed \$2,821,355 for Hurricane Idalia under the RAP program.

D. Optional Reinsurance to Assist Policyholders Program

If claims exceed available monies, transfers from the General Revenue authorized by Executive Office of the Governor may not exceed \$1 billion. This included areas still recovering from Hurricane Ian and Hurricane Nicole. More than half of the counties impacted by Hurricane Idalia are fiscally constrained. Given the size, strength, and track of the hurricane, the preliminary cost of damages is estimated over \$1 billion. A portion of these costs will be covered by insurance and federal grant programs.

E. Other

On February 7, 2024, the First District Court of Appeal denied the motion for written opinion and issued the Mandate on February 26, 2024, related to the C&S Wholesale Grocers, Inc. v. Florida Department of Business and Professional Regulation, Division of Alcoholic Beverages and Tobacco, Case No. ID22-3040. This case is final.

OTHER REQUIRED SUPPLEMENTARY INFORMATION**BUDGETARY REPORTING****Budget Process**

Chapter 216, Florida Statutes (F.S.), promulgates the process used to develop the budget for the State of Florida. Each year, the head of each state agency and the Chief Justice of the Supreme Court for the Judicial Branch submit a final annual legislative budget request to the Governor and Legislature by October 15 as required in Section 216.023(1), F.S. Then, at least 30 days before the scheduled annual legislative session in each year, the Governor, as Chief Budget Officer, submits his recommended budget to each legislator.

The Governor also provides estimates of revenues sufficient to fund the recommended appropriations. Revenue estimates for the General Fund and selected trust funds are made by the Revenue Estimating Conference. This group includes members of the Executive and Legislative branches with forecasting experience who develop official information regarding anticipated state and local government revenues as needed for the state budgeting process. Revenue estimates for trust funds not projected by the Revenue Estimating Conference (consisting mainly of special revenue funds) are provided by state agencies. These estimates may be revised during the course of the Legislature's consideration and adoption of a final budget. These estimates, together with known available cash balances, are further considered by the Governor and the Chief Justice of the Florida Supreme Court during the preparation of annual release (spending) plans. Further adjustments to the original budget's trust fund revenue estimates may be made to conform agency revenue estimates to actual and projected revenue streams.

The Governor's recommended budget is considered and amended by the Legislature and a final appropriations bill is then approved by the Legislature (subject to the line-item veto power of the Governor and override authority of the Legislature); this bill then becomes the General Appropriations Act. The Governor and the Chief Justice of the Supreme Court may, under certain conditions and subject to the review and objection procedures set forth in Section 216.177, F.S., establish appropriations and corresponding releases for amounts not appropriated by the Legislature to agencies and the Judicial Branch, respectively. This includes appropriations for non-operating disbursements, such as the purchase of investments and the transfer of money between state funds.

If circumstances warrant, the head of a department or the Chief Justice of the Supreme Court may transfer appropriations (other than fixed capital outlay appropriations) but only to the extent of 5 percent of the original appropriation or \$250,000, whichever is greater, or within certain programs and between identical funding sources and specific appropriation categories. Transfers of general revenue appropriations in excess of 5 percent or \$250,000, whichever is greater, or for fixed capital outlay, or for transfers of general revenue appropriations not allowed within the departments' program flexibility may be approved by the Legislative Budget Commission. The Governor and the Chief Justice of the Supreme Court may approve changes of expenditure authority within any trust fund for agencies and the Judicial Branch, respectively, if the changes are less than \$1 million. The Legislative Budget Commission may approve trust fund changes in excess of \$1 million. At the end of the fiscal year, any balance of an operating appropriation which has not been disbursed but is expended (recorded as a payable) or contracted to be expended (recorded as a reserve for encumbrances in governmental fund types), may be carried forward into the next fiscal year. If these appropriations, however, have not been disbursed by September 30 they will revert pursuant to Section 216.301(1), F.S.

The Chief Financial Officer approves disbursements in accordance with legislative authorizations. The budget is controlled at the account code level, which is defined as an appropriation category (e.g., salaries and benefits), and funded within a budget entity. The Governor and the Chief Financial Officer are responsible for detecting conditions which could lead to a deficit in any agency's funds and reporting that fact to the Legislative Budget Commission and the Chief Justice of the Supreme Court. The Constitution of the State, Article VII, Section 1(d), states, "Provision shall be made by law for raising sufficient revenue to defray the expenses of the state for each fiscal period."

Budgetary Basis of Accounting

The budgetary basis of accounting required by state law differs materially from the basis used to report revenues and expenditures in accordance with generally accepted accounting principles (GAAP). Appropriations are made from funds that are prescribed by law. These legal basis fund types (known as state funds) are the General Revenue Fund, numerous trust funds, and the Budget Stabilization Fund. Certain moneys maintained outside of the State Treasury, known as local funds, are available to agencies for their operations. Because the funds are located in banks outside of the State Treasury, budgetary authority and the disbursement of these funds are not controlled by the Chief Financial Officer. For example, the State Board of Administration operates from such funds.

The state presents budgetary comparison schedules for the General Fund and major special revenue funds as part of the other required supplementary information. In addition, budgetary comparison schedules for non-major special revenue funds which have legally adopted annual budgets are presented with other combining and individual fund statements and schedules.

Budgetary basis revenues are essentially reported on a cash basis and include amounts classified by GAAP as other financing sources. Budgetary basis expenditures include disbursements, except those for prior year carry/certified forwards, plus current year payables and encumbrances which are carried/certified forward into the next fiscal year. They also include amounts classified by GAAP as other financing uses. State law requires prior year payables and encumbrances not carried/certified forward to be paid from the current year budget. The Lump Sum expenditure category presented in the budgetary comparison schedules is used as a budgetary tool to track moneys appropriated to a particular fund until subsequent allocations are made to other expenditure categories.

The presentation of budgetary comparison information for the major governmental fund for transportation excludes the State Transportation Trust Fund within the Department of Transportation because it accounts for projects of a multi-year nature, and comparison of actual annual expenditures to a multi-year appropriated amount is not meaningful. Appropriations are made in total the first year of a project even though they are released and expended over the period of construction for a project. For the fiscal year ended June 30, 2023, State Transportation Trust fund revenues and expenditures totaled \$3.12 billion and \$8.16 billion, respectively, with \$5.28 billion of net other financing sources.

Budget to GAAP Reconciliation

The budgetary comparison schedules for the General Fund and the major special revenue funds present comparisons of the original budget and final budget with actual revenues and expenditures on a budgetary basis. A budget to GAAP reconciliation is presented following the budgetary comparison schedules because accounting principles for budgetary basis differ significantly from those used to present financial statements in conformity with GAAP.

Total OPEB liability as a percentage of covered-employee payroll	147.85 %	138.17 %	165.59 %

*The State of Florida implemented GASB Statement No. 75 in Fiscal Year 2018; therefore, 10-year presentation is not available.

¹ For fiscal years 2017, 2018 and 2019, errors noted in the selection criteria for covered-employee payroll data previously presented for compliance with GASB 75 were noted and corrected.

Note to Required Supplementary Information

The Division of State Group Insurance's Other Postemployment Benefits Plan (OPEB) does not have assets accumulated in a trust that meets the criteria in Paragraph 4 of GASB Statement No. 75 to pay related benefits.

Potential factors that may significantly decrease/increase State's total OPEB liability reported as of June 30, 2022, include discount rate, inflation rate, salary increases, payroll growth, healthcare inflation, retiree contribution increase rate, medical aging factors, healthcare participation, healthcare cost trends, mortality rates, and other demographic assumptions.

An update to the mortality rate tables used and the repeal of the excise ("Cadillac") tax resulted in the significant decrease in OPEB liability for 2020. Other factors such as claims cost and premium rates, medical trend rates, and a change in active medical plan electives resulted in a slight decrease in OPEB liabilities.

OTHER REQUIRED SUPPLEMENTARY INFORMATION

INFORMATION ABOUT INFRASTRUCTURE ASSETS REPORTED USING THE MODIFIED APPROACH

Pursuant to GASB Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, the state has adopted an alternative process to record depreciation expense on selected infrastructure assets. Under this alternative method, referred to as the modified approach, the state expenses certain maintenance and preservation costs and does not report depreciation expense. Assets accounted for under the modified approach include approximately 12,162 centerline miles of roads and 7,270 bridges that the state is responsible for maintaining.

In order to utilize the modified approach, the state is required to:

- Maintain an asset management system that includes an up-to-date inventory of eligible infrastructure assets.
- Perform condition assessments of eligible assets and summarize the results using a measurement scale.
- Estimate each year the annual amount to maintain and preserve the assets at the condition level established and disclosed by the state.
- Document that the assets are being preserved approximately at, or above, the established condition level.

Condition and Maintenance Programs

Resurfacing Program: Road pavements require periodic resurfacing. The frequency of resurfacing depends on the volume of traffic, type of traffic, pavement material variability, and weather conditions. Resurfacing preserves the structural integrity of highway pavements and includes pavement resurfacing, pavement rehabilitation, and minor reconstruction.

The Florida Department of Transportation (FDOT) conducts an annual Pavement Condition Survey. Pavements are rated on a scale of 0 to 10 (with 10 being the best) in each of three criteria: ride smoothness, pavement cracking, and wheel path rutting. Ride smoothness is what the motorist experiences. It directly affects motor vehicle operation costs. Pavement cracking refers to the structural deterioration of the pavement, which leads to loss of smoothness and deterioration of the road base by water seepage if not corrected. Wheel path rutting refers to depressions in pavement caused by heavy use. Ride smoothness and wheel path rutting are measured mechanically using lasers. Pavement cracking which has been determined through visual observation by experienced survey crews is transitioning to a mechanically measured system for pavement cracking like ride smoothness and wheel path rutting.

The condition rating scales were set by a statewide committee of pavement engineers, so that a pavement segment receiving a rating less than 6.5 in any of the three rating criteria is designated a deficient pavement segment. In low-speed areas, the ride rating must drop to less than 5.5 before a pavement segment is considered deficient due to ride.

The FDOT standard is to ensure that 80% of the pavement on the State Highway System remains non-deficient.

Bridge Repair/Replacement Program: The FDOT Bridge Repair Program places primary emphasis on periodic maintenance and specified rehabilitation work activities on State Highway System bridge structures. The FDOT Bridge Replacement Program's primary focus is on the replacement of structurally deficient or weight restricted bridges on the State Highway System. In addition, the Bridge Replacement Program addresses bridges that require structural repair, but which are more cost effective to replace.

FDOT conducts bridge condition surveys using the National Bridge Inspection Standards to determine condition ratings. Each bridge is inspected at least once every two years. During the inspection process, the major components such as deck, superstructure, and substructure are assigned a condition rating. The condition rating ranges from 0 to 9. By FDOT policy, a rating of 8 to 9 is excellent. A rating of 6 to 7 is good. A rating of 5 indicates fair condition. A rating of 4 or less identifies bridges in poor condition, which requires programming these structures for major repairs or replacement, per FDOT policy. Per FDOT policy, bridges rated fair or poor do not meet performance standards.

The FDOT standard is to ensure that 90% of all department-maintained bridges meet performance standards.

Routine Maintenance Program: FDOT is responsible for managing and performing routine maintenance on the State Highway System to help preserve the condition of the system. Routine maintenance includes many activities, such as repairing highways, keeping up roadsides, responding to emergencies, maintaining signs, striping roadways, and keeping storm drains clear and structurally sound.

The quality and effectiveness of the routine maintenance program is monitored by periodic surveys, using the Maintenance Rating Program (MRP), which results in an annual assessment. The MRP has been used since 1985 to evaluate routine maintenance of the transportation system in five broad categories or elements. The five rating elements are roadway, roadside, vegetation/aesthetics, traffic services, and drainage. The MRP provides a maintenance rating of 0 to 100 for each category and overall.

The FDOT standard is to achieve and maintain an overall maintenance rating of 80.

FDOT determines its program needs based on a five-year plan. The needed amounts provided above are for estimated expenses and commitments relating to projects within the plan at the time of the budget request. The nature of a long-term plan is that it is continually changing. Projects are added, deleted, adjusted, or postponed. The differences between the needed and actual amounts above reflect these changes.

PERMANENT FUNDS

Funds in this category include those administered by the Fish and Wildlife Conservation Commission, used to support fish and wildlife conservation programs of the State, in accordance with Section 379.207, Florida Statutes. The primary source of the principal of the funds includes proceeds of gifts, grants, contributions, and the sale of lifetime licenses. Also included in this category are various private scholarship funds administered by the Department of Education and used to pay scholarship awards as specified by the contributors. Only the interest income received and accrued from the investments of these funds can be used. No disbursement is made from the principal of the funds.

NONMAJOR SPECIAL REVENUE FUNDS

EMPLOYMENT SERVICES

This fund includes internal reporting funds used for employee-service related programs of an administrative nature (non risk-related), such as workers' compensation, employment security, and labor market statistics.

GOVERNMENT ADMINISTRATION

This fund includes internal reporting special revenue funds primarily administered by the Department of State, Department of Management Services, and Department of Financial Services.

BUSINESS AND COMMUNITY DEVELOPMENT

This fund includes internal reporting special revenue funds primarily administered by the Executive Office of the Governor and the Department of Economic Opportunity.

REGULATION AND LICENSING

This fund includes internal reporting special revenue funds primarily administered by the Department of Business and Professional Regulation, Department of Highway Safety and Motor Vehicles, and Department of Financial Services.

TOBACCO SETTLEMENT

This fund includes internal reporting special revenue funds established to account for the settlement of *State of Florida, et al., v. American Tobacco Company, et al.*, Case No. 95-1466 AH, filed in the Fifteenth Judicial Circuit, in and for Palm Beach County Florida.

PUBLIC SAFETY

This fund includes internal reporting special revenue funds primarily administered by the Department of Law Enforcement, Department of Highway Safety and Motor Vehicles, Department of Legal Affairs, and Department of Military Affairs.

CORRECTIONS

This fund includes internal reporting special revenue funds administered by the Department of Corrections.

CONSUMER PROTECTION AND SAFETY

This fund includes internal reporting special revenue funds primarily administered by the Executive Office of the Governor, Department of Legal Affairs, Department of Revenue, and Department of Financial Services.

AGRICULTURE

This fund includes internal reporting special revenue funds administered by the Department of Agriculture and Consumer Services.

JUVENILE JUSTICE

This fund includes internal reporting special revenue funds administered by the Department of Juvenile Justice.

JUDICIAL SERVICES

This fund includes internal reporting special revenue funds primarily administered by the Justice Administrative Commission and the State Courts System.

MILITARY AND VETERANS' AFFAIRS

This fund includes internal reporting special revenue funds administered by the Department of Military Affairs and Department of Veterans' Affairs.

BLENDED COMPONENT UNITS

FLORIDA CLERKS OF COURT OPERATIONS CORPORATION
Pursuant to Section 28.35, Florida Statutes, this entity was created to recommend legislative changes in various court related fines, fees, service charges, and court costs, establish a process for reviewing and certification of proposed court-related budgets submitted by the clerks of court and establishing a system of uniform performance measures and standards for the clerks.

FLORIDA CITRUS COMMISSION

As authorized in Section 601.04, Florida Statutes, this entity was established to primarily promote the general welfare of the Florida citrus industry.

STATE BOARD OF ADMINISTRATION

This entity includes the following internal reporting special revenue funds administered by the State Board of Administration: Gas Tax Clearing Accounts and the Insurance Capital Build-up Program.

FLORIDA SCHOOL FOR THE DEAF AND THE BLIND

As authorized in Section 1002.36, Florida Statutes, this entity is a State-supported residential school for hearing-impaired and visually impaired students in preschool through 12th grade.

WIRELESS EMERGENCY TELEPHONE SYSTEM

As authorized in Section 365.172, Florida Statutes, this entity was established to promote a comprehensive statewide emergency telephone number system that will provide wireless telephone users with rapid direct access to public safety agencies.

CAREERSOURCE FLORIDA, INC.

This not-for-profit entity was created pursuant to Section 445.004, Florida Statutes, as the principal workforce policy organization for the State and the regional workforce boards.

FLORIDA WATER POLLUTION CONTROL FINANCING CORPORATION

Pursuant to Section 403.1837, Florida Statutes, this entity was created to finance the costs of water pollution control projects and activities described in Sections 403.1835 and 403.8532, Florida Statutes.

INLAND PROTECTION FINANCING CORPORATION

Pursuant to Section 376.3075, Florida Statutes, this entity was created to finance the rehabilitation of petroleum contamination sites pursuant to Sections 376.30-376.317, Florida Statutes, and the payment, purchase and settlement of reimbursement obligations of the Department of Environmental Protection pursuant to Section 376.3071(12), Florida Statutes.

FLORIDA SURPLUS LINES SERVICE OFFICE

Pursuant to Section 626.921, Florida Statutes, this entity was created to establish a system that would permit better access by consumers to approved unauthorized insurers.

CORRECTIONS FOUNDATION, INC.

This entity was organized to initiate developmental projects; raise funds; request and receive grants, gifts, and bequests; acquire, receive, hold, invest and administer securities, funds, or other property as authorized by Section 944.802, Florida Statutes.

NONMAJOR ENTERPRISE FUNDS

OTHER

This category includes various internal reporting enterprise funds, most of which regulate activities and are funded by the collection of fees.

FLORIDA ENGINEERS MANAGEMENT CORPORATION

This blended component unit was created for the benefit of the Department of Business and Professional Regulation and the Board of Professional Engineers for the purpose of providing administrative, investigative, and prosecutorial services as provided in Section 471.038, Florida Statutes.

SPACE FLORIDA

Pursuant to Section 331.302, Florida Statutes, this entity was created to promote aerospace business development by facilitating business financing, spaceport operations, research and development, workforce development, and innovative education programs.

INTERNAL SERVICE FUNDS

EMPLOYEE HEALTH AND DISABILITY

These funds are administered by the Department of Management Services and are used primarily to account for health and disability plans for employees of the state.

DATA CENTERS

These funds are used to account for services provided by data processing centers operated by various agencies.

COMMUNICATIONS AND FACILITIES

These funds are administered by the Department of Management Services primarily to account for services provided to other state agencies, such as those related to the construction, operation, and maintenance of public facilities, and management and operation of the SUNCOM (state communication) Network.

OTHER

These funds are administered by various agencies primarily to account for services provided to other state agencies, such as legal services, records management, and community services (inmate work squads).

PRIVATE-PURPOSE TRUST FUNDS

TRUST ESCROW ADMINISTRATION

These funds administered by the Department of Financial Services are used to account for trust arrangements under which principal and income benefit individuals, private organizations, or other governments.

UNCLAIMED PROPERTY

This fund includes the internal reporting funds administered by the Department of Financial Services that are used to account for unclaimed property pursuant to Section 717.123, Florida Statutes.

STUDENT LOAN GUARANTY RESERVE

This fund administered by the Department of Education is used to account for federally guaranteed loans to Florida citizens to pay for higher education.

COLLEGE SAVINGS PLAN

This fund, administered by the State Board of Administration, is used to account for contributions from participants of the College Savings Plan as authorized by Section 1009.981, Florida Statutes. Participant contributions are collected and invested in accordance with the Plan provisions and participant direction.

OTHER

This category includes other internal reporting funds administered by various agencies that are used to account for trust arrangements under which principal and income benefit individuals, private organizations, or other governments.

THIS PAGE INTENTIONALLY LEFT BLANK

NONMAJOR COMPONENT UNITS

WATER MANAGEMENT DISTRICTS

These districts were created in accordance with Section 373.069, Florida Statutes, to provide for the management and conservation of water and related land resources. Refer to Note 1 for additional information.

OTHER STATE UNIVERSITIES

This category includes 11 state universities. Refer to Note 1 for additional information.

FLORIDA COLLEGES

This category includes 28 Florida College System Institutions. Refer to Note 1 for additional information.

OTHER NONMAJOR COMPONENT UNITS

Other nonmajor component units include various foundations and not-for-profit organizations. Refer to Note 1 for additional information.

STATISTICAL SECTION

STATISTICAL SECTION

Table of Contents

This section of the State of Florida's ACFR provides additional detailed information for use in assessing the financial condition of the government.

	<u>PAGE</u>
Financial Trends - These schedules contain trend information to help assess how the state's financial position has changed over time.	
Schedule A-1 - Net Position by Component	300
Schedule A-2 - Changes in Net Position	302
Schedule A-3 - Fund Balances - Governmental Funds	306
Schedule A-4 - Changes in Fund Balances - Governmental Funds	308
Revenue Capacity - These schedules present information on the state's most significant revenue sources and can assist with evaluating the government's ability to produce its own-source revenues.	
Schedule B-1 - Revenue Base/Rate	310
Schedule B-2 - Principal Sales Tax Payers by Industry	312
Debt Capacity - These schedules may assist with an understanding of the state's outstanding debt and its ability to issue new debt.	
Schedule C-1 - Ratios of Outstanding Debt by Type	314
Schedule C-2 - Ratios of Net General Bonded Debt Outstanding	316
Schedule C-3 - Legal Debt Margin	317
Schedule C-4 - Pledged-Revenue Coverage	318
Demographic and Economic Information - These schedules include demographic and economic information to communicate the state's socioeconomic environment. These schedules can assist with evaluating financial statement information in context with this historical data as well as among governments.	
Schedule D-1 - Demographic and Economic Statistics	324
Schedule D-2 - Industry Sector Employment	326
Operating Information - These schedules include operating data to assist with understanding how information in the state's financial reports relate to services provided or activities performed by the state.	
Schedule E-1 - Full-time Equivalent State Employees by Function	328
Schedule E-2 - Operating Indicators by Function	330
Schedule E-3 - Capital Assets by Function	332

State direct sales tax rate ⁽²⁾	6.0%	6.0%	6.0%	6.0%	6.0%

Note: Taxable sales information is available for reporting on a calendar-year basis only.

(1) Taxable sales associated with communications services tax.

(2) The sales tax rate on non-residential electricity was 7.0% for utility service provided prior to July 1, 2014. For utility service on or after July 1, 2014, the state sales tax rate is 4.35%. The sales tax rate on communication services (nonresidential phone and all cable) was 6.8% from October 1, 2001, until August 1, 2010, when it was reduced to 6.65%. It was further reduced to 4.92% effective July 1, 2015. The sales tax rate on amusement machines is 4.0%. Farm equipment is tax-exempt. Rental, lease, or license of commercial real property is taxed at 5.5%. Retail sales of new mobile homes are taxed at 3%.

Note: Details regarding the state's outstanding debt can be found in Notes 6, 10, 11, 12, and 13 to the Financial Statements.

⁽¹⁾ Refer to Notes 12 and 13.

⁽²⁾ Due to the implementation of GASB Statement No. 87 - Leases, effective July 1, 2021, outstanding debt related to leases is no longer classified as capital leases and is separately reported. Additionally, due to the implementation of GASB Statement No. 96, Subscription-Based Information Technology Arrangements (SBITA), effective July 1, 2022, the State separately reported outstanding debt related to SBITAs. Refer to Note 6 - Leases and Subscription Obligations" for more detail.

⁽³⁾ Tax-supported revenues are comprised of State General Revenue receipts, including primarily sales and use tax revenues, and revenues generated from taxes specifically pledged for repayment of debt. See Schedule C-3 for a more complete description of tax-supported revenues.

⁽⁴⁾ Population data used in calculation of this ratio can be found in Schedule D-1.

Note: Details regarding the state's outstanding debt can be found in Notes 10 and 11 to the Financial Statements.

⁽¹⁾ Tax-supported revenues are comprised of State General Revenue receipts, including primarily sales and use tax revenues, and revenues generated from taxes specifically pledged for repayment of debt. See Schedule C-3 for a more complete description of tax-supported revenues.

⁽²⁾ Population data used in calculation of this ratio can be found in Schedule D-1.

**Legal Debt Margin
Last Ten Fiscal Years
(dollars in millions)**

Legal debt margin calculated for fiscal year 2022-2023:

Tax-supported revenues ⁽¹⁾	\$59,153
Debt limit ⁽²⁾	3,549
Debt applicable to limit:	
Aggregate debt service on tax-supported debt	<u>1,733</u>
Legal debt margin	<u><u>\$1,816</u></u>

	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023
Debt limit ⁽²⁾	\$2,022	\$2,121	\$2,255	\$2,337	\$2,463	\$2,572	\$2,471	\$2,851	\$3,362	\$3,549
Total debt applicable to limit	<u>1,887</u>	<u>1,971</u>	<u>2,053</u>	<u>2,178</u>	<u>2,295</u>	<u>1,989</u>	<u>2,263</u>	<u>2,041</u>	<u>2,116</u>	<u>1,733</u>
Legal debt margin	<u>\$ 135</u>	<u>\$ 150</u>	<u>\$ 202</u>	<u>\$ 159</u>	<u>\$ 168</u>	<u>\$ 583</u>	<u>\$ 208</u>	<u>\$ 810</u>	<u>\$1,246</u>	<u>\$1,816</u>
Total net debt applicable to the limit as a percentage of debt limit.	93.32 %	92.93 %	91.03 %	93.20 %	93.18 %	77.33 %	91.58 %	71.59 %	62.94 %	48.83 %

⁽¹⁾ For purposes of this Schedule C-3, tax-supported revenues are comprised of the general revenues of the state, including primarily sales and use tax receipts, and the specific state tax revenues pledged for payment of debt service. Tax-supported debt is debt secured by the full faith and credit of the state or payable from general revenue or specified state tax sources. As of June 30, 2023, the total outstanding balance of tax-supported debt was approximately \$12,178,800,000.

⁽²⁾ The state debt fiscal responsibility policy, Section 215.98, Florida Statutes, establishes the ratio of tax-supported debt service to tax-supported revenues as the benchmark debt ratio for purposes of setting the state's legal debt margin. Under the present policy, if the ratio exceeds 6%, additional tax-supported debt may be authorized only if the legislature determines the additional debt is in the best interest of the state. If the ratio exceeds 7%, additional tax-supported debt may be authorized only if the legislature determines it is necessary to address a critical state emergency. The 6% ratio has been used to determine the debt limit in this schedule.

Pledged-Revenue Coverage
Last Ten Fiscal Years
(dollars in thousands)

The schedules below contain information regarding revenues pledged to repay debt obligations. For each bond type, the schedules disclose Gross Revenue, Operating Expenses, Net Revenue Available for Debt Service, Principal, Interest, and Coverage Ratio. The bond types with operating expenses are considered self-supporting debt and are paid from the associated facilities being financed. If operating expenses are not shown, the bond type is considered to be Net Tax Supported Debt and serviced by dedicated tax or fee revenues.

**Industry Sector Employment
For Calendar Years 2022 and 2013
(in thousands)**

SCHEDULE D-2

Industry	Calendar Year 2022		Calendar Year 2013	
	Employment	Percentage of Total Employment ⁽¹⁾	Employment	Percentage of Total Employment ⁽¹⁾
Health Care and Social Assistance	1,205	12.70 %	979	12.77 %
Retail Trade	1,129	11.90 %	994	12.97 %
Accommodation and Food Services	1,005	10.59 %	841	10.97 %
Administrative and Waste Services	747	7.87 %	559	7.29 %
Professional and Technical Services	711	7.49 %	473	6.17 %
Local Government	705	7.43 %	702	9.16 %
Construction	601	6.33 %	366	4.77 %
Finance and Insurance	453	4.77 %	351	4.58 %
Manufacturing	411	4.33 %	325	4.24 %
Transportation and Warehousing	398	4.19 %	228	2.97 %
Total	7,365	77.62 %	5,818	75.90 %

Note: Privacy requirements prevent the state from obtaining and reporting specific information about the largest employers in the state's jurisdiction. Reporting by industry reveals the degree of concentration in the state's total employment base.

In December 2022, Florida's seasonally adjusted total nonagricultural employment was 9,620,100, an increase of 447,800 jobs (+4.9 percent) over the year. The industries gaining the most jobs over the year were professional and business services (+96,000 jobs); leisure and hospitality (+90,000 jobs); and trade, transportation, and utilities (+72,200 jobs). As of December 2022, with the exception of October 2022, Florida employers have added jobs for 32 months since May of 2020.

⁽¹⁾ "Employment" is being calculated based on average total employment by industry for each calendar year. Percentages of "Total" employment are based on the following:

	2022	2013
Total non-agricultural employment (in thousands)	9,423	7,585
Total agricultural employment (in thousands) - minus logging NAICS 1133	66	80
Total employment	9,489	7,665

Sources: Florida Department of Commerce, Bureau of Workforce Statistics and Economic Research, Quarterly Census of Employment and Wages Program (for agricultural employment) and the U.S. Bureau of Labor Statistics, Current Employment Statistics Program (for all other industry data).

Total	105,515	105,536	104,368	104,506	105,205	—	—

Note: FTE's are calculated based on a 40 hour work week. A numerical designator is based on 100% for a full-time employee (i.e., 1.00 point for a FTE working 40 hours). All others are prorated accordingly.

⁽¹⁾ In fiscal year 2015-16, a Legislative Budget Request from Department of Economic Opportunity was approved to combine the functions of Community Development with Housing.

⁽²⁾ In fiscal year 2018-19, reporting by federal function was changed to reporting by state function to mirror the primary government functions presented within the Government-Wide Statement of Activities financial statement of the State of Florida's Annual Comprehensive Financial Report.

⁽¹⁾ Beginning with fiscal year 2019, the count included state-owned buildings occupied by full-time equivalent State employees. Previously, the count included certain State-owned buildings not occupied by full-time equivalent employees.

⁽²⁾ Universities and colleges are presented in the ACFR as discretely presented component units of the state.

⁽³⁾ Beginning with fiscal year 2020, the count included state-owned buildings occupied by full-time equivalent State employees. Previously, the count included certain State-owned buildings not occupied by full-time equivalent employees.

⁽⁴⁾ During fiscal year 2022, nine Work Camps closed.

⁽⁵⁾ Acreage information includes a cumulative total of acres acquired through each program and by donations and exchanges. The Water Management Districts have acquired and hold title to lands through other programs that are not included in this schedule.

⁽⁶⁾ In fiscal year 2020, the COVID-19 pandemic caused the purchase increase of machinery and equipment.
