## EXECUTIVE SUMMARY

Section 120.74, Florida Statutes, 2015, requires agencies to prepare a Regulatory Plan that: 1) reports on laws enacted in the past twelve months that create or modify an agency's duties or authority; 2) reports on other laws expected to be implemented by the agency before the following July; 3) provides an update of the prior year's Regulatory Plan identifying rulemaking not initiated by July of the current reporting year; and 4) reports on rulemaking not initiated for laws previously reported as requiring rulemaking.

This Regulatory Plan identifies 14 laws enacted in the 12 months preceding October 1, 2015, that create or modify the Department's duties or authority. Of these, none require the Department to implement the law by rulemaking, 5 must otherwise be implemented by rulemaking and the remaining 9 can be implemented without rulemaking. (corrected paragraph)

This report identifies no other laws expected to be implemented by rulemaking before July 2016.

This report identifies 50 rules listed in the Department's 2014 Regulatory Plan for which rulemaking was not initiated (notice of rule development for new or amended rules/notice of proposed rule for repeals) by July of this year. None of these rules implemented laws which required the Department to implement the law by rulemaking.

This report identifies no rules previously reported as requiring rulemaking for which rulemaking has not been initiated.

**(NOTE REGARDING CORRECTION – the October 1, 2015, Regulatory Plan identified section 2015-102, Laws of Florida, as requiring the Department to implement the law by rule. However, the 2016 Legislative Session resulted in the enactment of section 2016-241, Laws of Florida, which repealed that rulemaking requirement. Therefore, the second paragraph above was revised and the entry on the first page of the following table identifying section 2015-102, Laws of Florida, as requiring implementation via rule is also revised to reflect the 2016 legislation.**

**No other changes have been made to any other portion of the October 1, 2015, Regulatory Plan.)**
