EXECUTIVE SUMMARY

Section 120.74, Florida Statutes, requires agencies to prepare a Regulatory Plan that:

- 1) reports on laws enacted in the past twelve months that create or modify an agency's duties or authority
- 2) reports on other laws expected to be implemented by the agency before that following July
- 3) provides an update of the prior year's Regulatory Plan identifying rulemaking not initiated by July of the current reporting year
- 4) reports on rulemaking not initiated for laws previously reported as requiring rulemaking

This Regulatory Plan identifies several sections of Laws of Florida from the 2017 Legislative Session that create or modify the department's duties or authority and whether these sections require rulemaking to implement them. These sections apply to the following program offices at the department: Office of Child Welfare, Substance Abuse and Mental Health, and Economic Self-Sufficiency. The department also outlined the Florida Administrative Rules that will be updated and amended before July 2018. The program offices with planned administrative rule amendments are Office of Child Welfare, Substance Abuse and Mental Health, Economic Self-Sufficiency, Office of Child Care Regulation, and Office of Appeal Hearings.

This report certifies that there are no updates to last year's report, and that there are no rulemaking notices on last year's report that was not initiated before July 1, 2017.
