

**Approved Audit Plan
For Fiscal Year 2020-2021
and
Long-Term Audit Plan for
Fiscal Years 2022-2026**

**Prepared by
Office of Inspector General**

J. Timothy Beirnes, CPA, Inspector General

SOUTH FLORIDA WATER MANAGEMENT DISTRICT

MEMORANDUM

To: Governing Board Members

From: J. Timothy Beirnes, CPA, Inspector General,
Office of Inspector General

Date: December 8, 2020

A handwritten signature in blue ink, appearing to be "JTB", is written over the "From:" field.

Subject: Approved Audit Plan for Fiscal Year 2020-2021

I am pleased to present our Approved Audit Plan for Fiscal Year 2020-2021. The development of the plan was shaped using a systematic approach to help us decide what audits need to be done. The planning process helps us to develop the theme for our audits and identify an appropriate mix of various types of audits. The audit plan helps us to determine how we can best allocate our resources and capitalize on our individual strengths.

Effective audit planning is crucial to the success of the Inspector General's Office. Our planning process involves understanding our responsibility, recapping where we have been, and identifying the auditable universe and the risks associated with various programs and activities. The Internal Audit Charter requires the Audit and Finance Committee to approve the final annual audit plan. The audit plan was approved by the Audit and Finance Committee on November 8, 2020.

Our Guidance

The first step in our current planning process was to ask ourselves what is the Inspector General Office's mandate. Our mandate to perform audits is clearly specified in Section 20.055 F.S., *Agency Inspectors General*. It states that in carrying out our audit mandate we should:

1. Review and evaluate the internal controls that ensure fiscal accountability.
2. Review post audit sampling of payments and accounts, where appropriate.
3. Advise in the development of performance measures for evaluating District programs.
4. Conduct financial, compliance, electronic data processing and performance audits of the District.

While the scope and assignment of audits is entirely left to the discretion of the Inspector General, the statute provides that the agency head may, at any time, direct the Inspector General to perform an audit of a program function or organizational unit. In the past, we received a number of requests from both the Governing Board and District staff to perform necessary Inspector General projects. Therefore, executing our work plan necessitates flexibility to accommodate special requests and investigations.

Our Planning Approach

Each year the District prepares a five-year Strategic Plan to guide management and staff in fulfilling the District's mission. The Strategic Plan for 2021-2026 is the product of the yearly planning cycle, which is the approach to establishing priorities, allocating resources, implementing projects, and providing accountability. The budget process then allocates resources to accomplish the planned activities.

Our audit planning process began with reviewing the Strategic Plan for 2021-2026 and the FY 2020-2021 Budget to identify those programs, activities and functions that we consider present potential risk to the District. In addition to specific programs, we also focused on identifying processes that are critical to the planning cycle that affect all programs.

The audit plan reflects a consideration of risk and its relationship to the District's mission and objectives. The most ubiquitous risks to the District's mission revolve around spending, operations, data integrity and reliability, disaster recovery/contingency planning, regulatory compliance, and public perception. Some District programs, such as our many restoration projects, depend on land acquisition and construction processes, which represent high risks due to the mere magnitude of the financial resources to be consumed. Others, such as regulation, have inherent risks that are not necessarily related to program expenditures or dollar magnitude but rather represent high risk due to the nature of the function where consistency, objectivity, integrity, and strict adherence to rules and regulations are essential.

Our audit planning process is designed to provide sufficient coverage over time to reach all significant programs, activities, and functions. Thus, the audit plan also includes the Approved Long-Term Audit Plan for Fiscal Years 2022 through 2026, which itemizes the audit projects we envision for the audit planning cycle over the next five years. The Long-Term Audit Plan will be updated annually to reflect a rolling five-year outlook of future audit projects and to incorporate modifications as needed to reflect the Governing Board's and management's audit priorities.

During FY 2020-2021, we will continue to use our best judgment in prioritizing audit activities so as to be responsive to the most immediate needs of the District's Governing Board and executive management. The approved work plan for FY 2020-2021 provides audit projects for specific District programs, as well as, audits of processes that affect all District programs.

Approved Audit Plan FY 2020-2021

December 8, 2020

Page 3 of 3

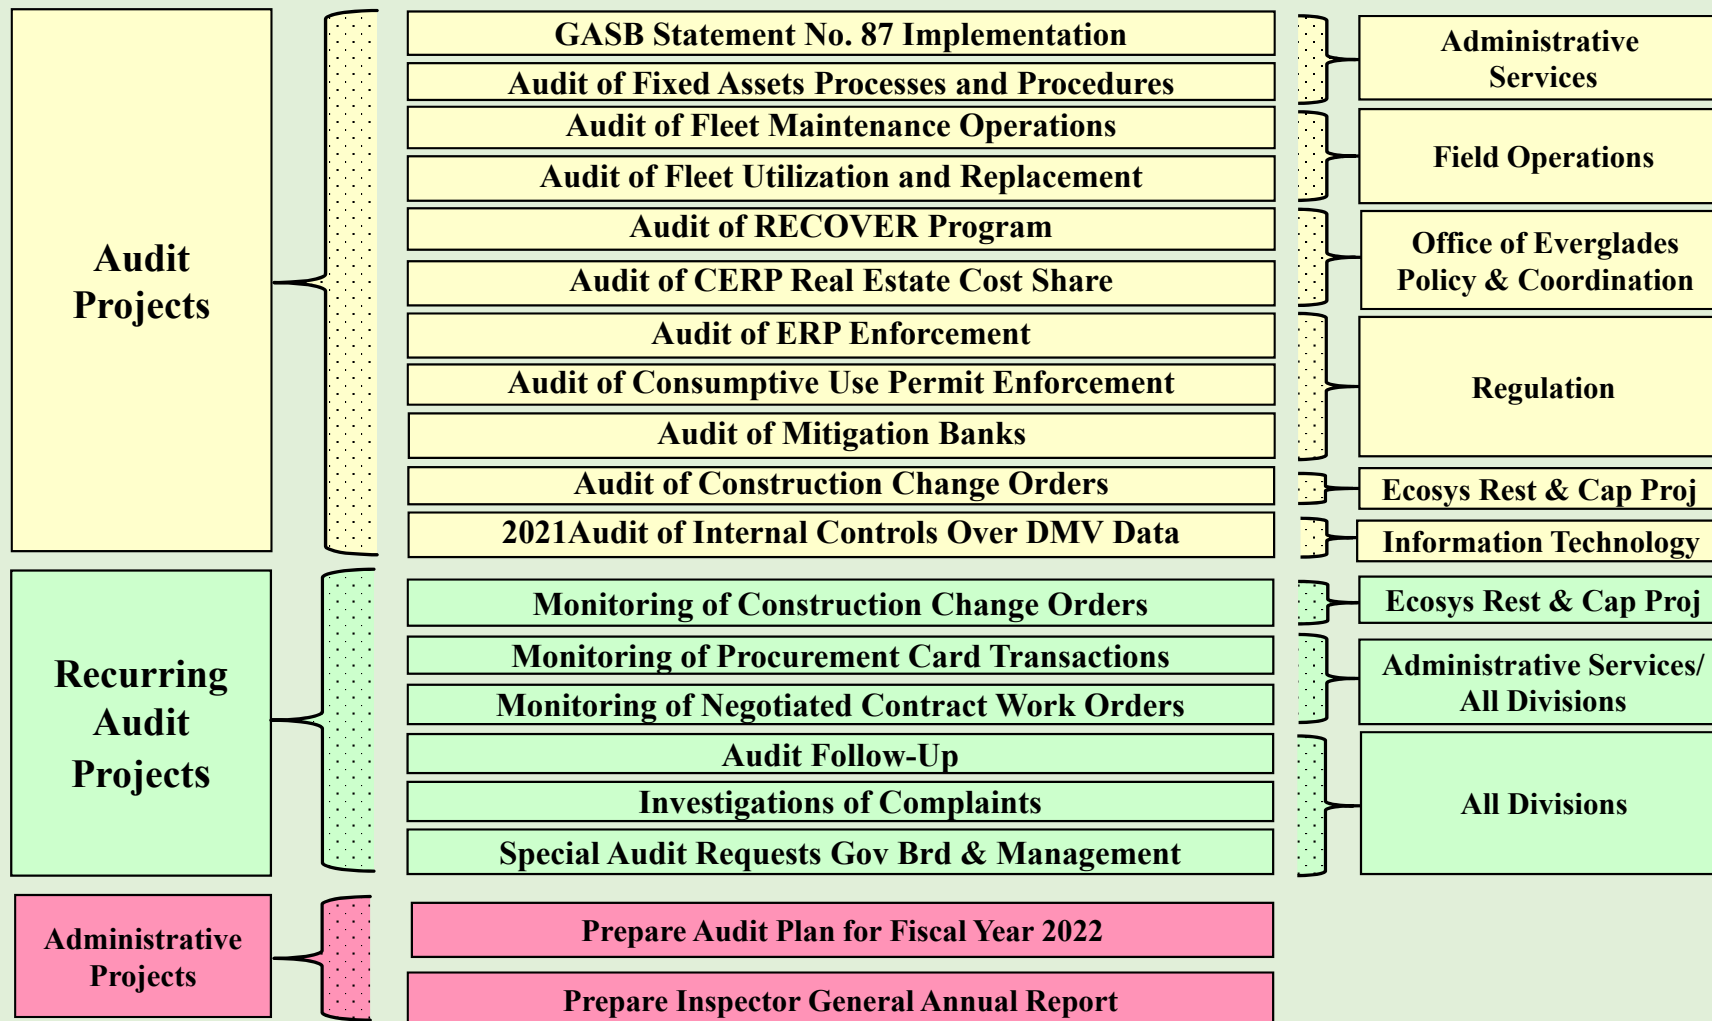

Provision is also made for following up on the status of implementing prior audit recommendations as required by *Government Auditing Standards* and the District's *Internal Audit Charter*. Additionally, the audit plan provides flexibility to investigate Whistle-blower complaints and for special audit requests from the Governing Board and senior District management.

The attached schedules present the Approved Audit Plan for Fiscal Year 2020-2021 and the Approved Long-Term Audit Plan for Fiscal Years 2022 – 2026.

Approved Audit Projects FY2020-2021

Divisions

South Florida Water Management District
Office of Inspector General
Approved Audit Plan for Fiscal Year 2020-2021

Division	Bureau/ Section	Project Title	Background	Objectives	Rational for Audit	Estimated Resources
Audit Projects						Hours
Administrative Services	Finance	GASB Statement No. 87 Implementation	The Governmental Accounting Standards Board (GASB) recently issued Statement No. 87 establishing standards of accounting and financial reporting for leases by lessees and lessors. The requirements apply to financial statements of all state and local governments. The new statement will affect accounting for the District's real estate, building and equipment leases as well as Dispersed Water Management agreements. GASB 87 will be effective for the District's 2021 fiscal year. Due to the complexity of the new standard and the number of District lease agreements, implementing the new standard will require a significant amount of time by various District staff.	This project will entail assisting Finance with implementation of GASB 87 and provide a pre-audit of the final analysis to determine whether the standard has been properly implemented. It will also entail coordinating with the District accounting firm, RSM to ensure that the new standard is properly implemented.	Many other governments are incurring considerable expense to hire consultants to assist with implementing GASB 87. The IG assistance with help avoid incurring such expense.	200
Administrative Services	Finance	Audit of Fixed Assets Processes and Procedures	The District has established policies, procedures, and process for acquiring, safeguarding, transferring, and disposing of fixed assets. The policies incorporate requirements specified in Florida Statutes. Assets are recorded in the SAP system and periodic physical inventories are performed.	Provide an independent review of the District's asset management processes and procedures for fixed assets; including a comparison of the District's procedures to industry best practices in order to identify potential improvements.	The fixed asset field staff and fixed asset accounting staff were consolidated into a single organizational unit. The audit will identify best practices for potential improvements to incorporate into District practices.	460
Field Operations	Field Operations: Regions 1 Regions 2 Regions 3	Audit of Fleet Maintenance Operations	The District operates and maintains a fleet of approximately 900 vehicles and heavy equipment units. District field station staff perform a significant portion of the fleet maintenance and repairs, with support from vendors for certain types of repairs (e.g., body work).	Objectives of this audit will include: 1) Assessing the effectiveness and efficiency of the vehicle maintenance function. 2) Examining the vehicle utilization and replacement cycle process.	The last audit regarding fleet operations was performed in FY2013.	530
Field Operations	Field Operations: Regions 1 Regions 2 Regions 3	Audit of Fleet Utilization and Replacement	The District manages a fleet of approximately 900 vehicles and equipment pieces. The District's field station staff are the predominate users of these vehicles and equipment. The Field Operations Division is responsible for maintenance, utilization, retirement, and replacement of a majority of the vehicles and equipment.	Audit objectives will include the following: 1) Analyzing the process for assigning and utilizing vehicles and whether the fleet size is appropriate to carryout the District's mission. 2) Determining whether disposing of low utilization equipment, and renting as needed, would be more cost efficient. 3) Determining whether vehicles are purchased via state and other government contracts. 4) Analyzing the process for retiring and replacing older vehicles/equipment and whether the process is in accordance with District established guidelines.	The last audit of Fleet utilization was performed in FY 2015. The previous audit revealed that approximately 20% of the District's fleet, at that time, had already reached the District's replacement criteria in terms of mileage, age, and operating hours. This audit will assess the current status of vehicle utilization, retirements, replacements.	460

**South Florida Water Management District
Office of Inspector General
Approved Audit Plan for Fiscal Year 2020-2021**

Division	Bureau/ Section	Project Title	Background	Objectives	Rational for Audit	Estimated Resources
Office of Everglades Policy & Coordination	Office of Federal Policy & Coordination	Audit of RECOVER Program	RECOVER is an arm of the Comprehensive Plan (CERP) responsible for linking science and the tools of science to a set of system-wide planning, evaluation and assessment tasks. RECOVERS' objectives are to (1) Evaluate and assess Comprehensive Plan performance, (2) Refine and improve the plan during the implementation period, and (3) Ensure that a system-wide perspective is maintained throughout the restoration program.	We will review the original agreement for RECOVER and determine where the District and U.S. Army Corps of Engineers' are today in terms of expenditures and expected deliverables and the future course for the program.	RECOVER is a function of Everglades Restoration, the District's largest program.	460
Office of Everglades Policy & Coordination	Office of Federal Policy & Coordination	Audit of Comprehensive Everglades Restoration Program (CERP) Real Estate Cost Share	The Water Resources Development Act of 2000 (WRDA 2000) established the framework for the Comprehensive Everglades Restoration Plan (CERP). WRDA 2000 required integration of Federal and State projects and activities related to CERP and provides for 50/50 cost sharing between the Federal (USACE) and the non-Federal Local Sponsor (SFWMD). The District is providing most of the land and some of the engineering and construction cost while the USACE will incur a larger portion of the engineering and construction cost. Programmatic costs are also cost shared 50/50.	Examinee the District's process for preparing In-Kind Credit Requests to ensure the District is requesting credit for all eligible costs related to the CERP Project. The audit will also assess whether adequate supporting documentation is maintained for such expenditures.	Failure to claim credit for eligible expenditures that may have been overlooked would result in additional cost to the District.	900
Regulation	Environmental Resources and Regulatory Support	Audit of Environmental Resource Permit (ERP) Permit Enforcement	An Environmental Resource Permit is required for development or construction activities to prevent flooding, protect the water quality of Florida's lakes and streams from stormwater pollution, and protect wetlands and other surface waters. The District is mandated by provisions of Chapter 373, F.S. to provide periodic compliance inspections for ERPs. The Environmental Resource and Regulatory Support Bureau is tasked with providing compliance and enforcement services relating to both permitted and non-permitted projects.	Determine whether the Environmental Resources and Regulatory Support Bureau's enforcement activities ensure compliance with state laws, regulations, and individual ERP permits.	The ERP enforcement process has not been previously audited. This audit will address whether current enforcement processes and resources are sufficient to ensure compliance with state laws, regulations, and individual ERP permits	460
Regulation	Water Use	Audit of Consumptive Water Use Permit Compliance (CUP) Enforcement	A consumptive water use permit allows the holder to withdraw a specified amount of water from the ground aquifers, a canal, lake, or river for reasonable-beneficial uses. The permits set limits on how much water can be withdrawn at each location in the aquifer or from surface water. Water use compliance staff monitor the use of water to make sure the permit's limiting conditions are met. On-location site inspections also help determine compliance and document project activities, withdrawal facilities, and unpermitted uses of water.	Determine whether Regulation's Water Use Bureau is sufficiently ensuring that permit holders are complying with the limiting conditions of their water use permits and whether compliance with the limiting conditions specified in water use permits are sufficiently monitored and enforced.	The consumptive water use enforcement process was previously audited in FY 2007. This audit will address whether current enforcement processes and resources are sufficient to ensure compliance with water use permits.	460

**South Florida Water Management District
Office of Inspector General
Approved Audit Plan for Fiscal Year 2020-2021**

Division	Bureau/ Section	Project Title	Background	Objectives	Rational for Audit	Estimated Resources
Regulation	Environmental Resources and Regulation Support	Audit of Mitigation Banks	The District currently has permitted 15 mitigation banks. The mitigations requires regular monitoring to ensure compliance with permit requirements. Also mitigation banks require establishing trust funds to provide for perpetual maintenance of the mitigation bank properties. The perpetual maintenance is funded through trust fund investment earnings.	Examine the process for monitoring mitigations banks to ensure compliance with permit requirements. Audit objective will also examine the process for monitoring trust funds established for perpetual maintenance and the sufficiency of investment earnings to cover on-going maintenance expenses.	If the current low interest rate environment presents for an extended period of time, the perpetual maintenance funds may be at risk of principle erosion and eventual depletion of the trust funds that pay for the on-going maintenance expenses.	440
Ecosystem Restoration and Capital Projects	Engineering and Construction	Audit of Construction Change Orders	District is executing large construction contract for restoration projects. Most contractors are selected through a fixed sealed bid process. Change orders can potentially add to the already significant cost of these projects resulting in projects running over budget.	Determine that change orders are negotiated in accordance with contract terms and conditions. The audit will also include verifying cumulative change order amounts as a percentage of original contracts and compare such to industry averages.	The District's various environmental restoration projects entails executing many large construction contracts. These contracts are generally awarded through a fix bid process. Change orders for these contracts can potentially add significant additional cost to projects. Controlling change order costs are essential to ensuring projects are completed on time and within budget.	440
Information Technology	IT Operations Section	2021 Audit of Internal Controls Over DMV Data	District employee's driving records are received monthly from the Florida Department of Highway Safety and Motor Vehicles (DMV). The data is reviewed by the Occupational Safety manager for current driver license suspensions, and other major infractions, for those employees authorized to drive District vehicles. The data is received pursuant to a Memorandum of Understanding (MOU) with the DMV.	Determine whether District internal controls related to the drivers license information received from the DMV are sufficient to ensure that DMV records are adequately protected from unauthorized access, distribution, use, modification, or disclosure.	Section VI. A. of the MOU requires the District to complete this audit to ensure proper and authorized use and dissemination of the DMV data.	50

Division	Bureau/ Section	Project Title	Background	Objectives	Rational for Audit	Estimated Resources
Recurring Audit Projects						
Ecosystem Restoration and Capital Projects	Engineering and Construction	Monitoring of Construction Change Orders	District is executing large construction contract for restoration projects. Most contractors are selected through a fixed sealed bid process. Change orders can potentially add to the already significant cost of these projects resulting in projects running over budget.	On an on-going basis, periodically verifying cumulative change order amounts as a percentage of original construction contracts and compare such to industry averages.	The District's various environmental restoration projects entails executing many large construction contracts. These contracts are generally awarded through a fix bid process. Change orders for these contracts can potentially add significant additional cost to projects. Controlling change order costs are essential to ensuring projects are completed on time and within budget.	220
Administrative Services	Procurement	Monitoring of Procurement Card Transactions	The District issues procurement cards to certain District employees to provide an efficient payment method for small purchases. The Procurement Department manages the program.	Periodically examine procurement card transactions to ensure that they are: 1) Appropriate District expenditures. 2) Contain adequate supporting documentation. 3) Properly recorded in the accounting records.	Although procurement cards are used to pay for small purchases, they represent a significant number of transactions annually.	150
Administrative Services	Procurement/ All Bureaus	Monitoring of Negotiated Contract Work Orders	The District engages firms for various types of services under work order type contracts. Firms are prequalified through a Request for Proposal (RFP) or Request for Qualifications (RFQ) process and work orders are negotiated with the prequalified firms as services are needed.	Periodically select a sample of contracts to ensure that work orders are properly negotiated in a manner that maintains the District's best interest.	The work order contract approach provides significant efficiency to the procurement process; however, it also increases the risk that staff may not represent sufficient diligence in negotiation the best possible cost for the District. Continuous audit oversight of negotiated work orders will assist in mitigate this risk.	180
All Divisions	All Bureaus	Audit Follow-Up	Generally Accepted Government Audit Standards require follow-up regarding the implementation status of pervious audit findings and recommendations.	Verify that recommendations in prior audit reports have been appropriately implemented in a timely manner and provide a written report to the Executive Management team and the Governing Board.	Follow-up on previous audit recommendations is required by Government Auditing Standards and the District's Internal Audit Charter.	160
All Divisions	All Bureaus	Investigate Whistle- Blower and Other Complaints	The Office of Inspector General periodically receives Whistle-Blower complaints. Our office has a statutory responsibility to investigate these complaints and issue a report of our findings and conclusions.	Review each complaint to assess its validity. Whistle-blower complaints are received intermittently during the year.	The IG is responsible for performing investigations per Section 20.055, F. S., and the District's <i>Internal Audit Charter</i> .	1000
All Divisions	All Bureaus	Audit Requests from Governing Board and Senior District Staff	The Inspector General's Office will entertain requests for audit and investigations from Governing Board and Senior District Staff on an as needed basis.	As specified in the Inspector General Act & District Policy (Internal Audit Charter)	Provides flexibility in the audit plan to accommodate special requests for audits and investigations from the Governing Board and senior management that arise throughout the year.

Approved Long-Term Audit Plan for Fiscal Years 2022-2026**

Fiscal Year	Previous FY Audited	Project Number	Audit Project	Objectives
Audit Projects				
2022	2011	09-28	Audit of Operations and Maintenance's Inventory Processes and Procedures	Assess whether Operations and Maintenance's internal controls over consumable inventory are adequate and functioning properly.
	2011	10-01	Audit of Land Acquisition and Management Processes	Examine the land acquisition process which included the process used to prioritize, budget and purchase land for projects and conservation. This included examining the appraisal process which entailed focusing on the outside appraiser selection process
	2012	11-19	Audit of the District's ePermitting System	Determine the extent to which the following occur with ePermitting: <ul style="list-style-type: none"> · The system provides the desired operational and business needs · Physical computer assets are adequately safeguarded · Technical administrative support is adequate · User needs are being properly supported and measured · System contains adequate access controls to prevent unauthorized access.
	2013	12-16	Audit of Land Lease Compliance	Assess the effectiveness of the monitoring process in ensuring that lessees adhere to lease provisions.
	2015	13-22	Audit of Network Perimeter Security	Objectives of the audit will be to: <ul style="list-style-type: none"> · Provide an independent assessment relating to the network perimeter security, · Evaluate IT's preparedness in the event of an intrusion, · Identify issues that affect the security of the District's network, and · Determine whether the Identity Management System is fulfilling its' intended purpose and that administrative controls are sufficient.
	2016	15-17	Audit of Investment Management	Determine whether adequate internal controls related to investment management are in place and functioning properly to ensure that investment purchases are made in accordance with the Investment Policy and properly recorded in District financial records
	2017	16-06	Audit of the KRR Cost Share	Determine whether the District requested credit for all eligible KRRP restoration evaluation expenses and determine whether adequate supporting documentation is maintained for such expenditures
	2019	18-06	Audit of CERP Cost Share for OMRR&R Costs	Determining whether the District requested credit and reimbursement for all eligible OMRR&R related expenses for CERP and Non-CERP projects.
	2020	20-12	Audit of DMV File Security	Determine whether District internal controls related to the drivers license information received from the DMV are sufficient to ensure that DMV records are adequately protected from unauthorized access, distribution, use, modification, or disclosure.

Annually			Audit Plan for Next Fiscal Year	Prepare an annual work plan and submit it to the Audit and Finance Committee for approval in accordance with the Audit and Finance Committee Charter.
			Office of Inspector General Annual Report for Prior Fiscal Year	Prepare an annual report summarizing each audit and investigation completed during the year.
2022	2019	NA	Office of Inspector General Peer Review	Arrange for a peer review of the Inspector General Office, which will provide an evaluation of adherence to the professional standards. We plan to have the peer review performed through the Association of Local Governmental Auditors (ALGA) peer review program. The Office of Inspector General's last Peer Review was performed in FY 2019. Florida Statutes require Inspector General's to adhere to Government Auditing Standards established by the U.S. Government Accounting Office (GAO). Such standards require a peer review be performed every three years.
