### Florida Department of Citrus 2020-21 Legislative Budget Request

#### **Schedule I Narrative**

#### **5% Reserves**

The Department of Citrus recommends an exclusion from the reserve requirement. The Department of Citrus is a 100% trust fund, supported by assessments on each box of citrus as they enter channels of trade. Collections are cyclical in nature, based on the timing and quantity of fruit entering markets. Our internal operating procedures require an overall reserve of 3% of our operating budget at the beginning of each year. In addition, each program director is required to reserve a portion of their program funds until the danger of a freeze or other potential crop reduction passes. These funds may be released to program activity in February, if revenue projections support it.

### **Management and Administrative Costs**

Management and Administrative costs of the Department of Citrus support core functions as approved by the Florida Citrus Commission. All administrative costs are absorbed by the Citrus Advertising Trust Fund.

### **Section III – Adjustments**

- \$6,600 Accounts Payable not certified forward
- \$516,224 Prior year (Sept. 2018) certified forward reversions
- (\$440,775) certified forward paid in foreign currency funded through the SPIA
- (\$1,058,373) Current year expenditures paid in foreign currency funded through SPIA
- \$630 Due to DOR, Year End Adjustment
- (\$2,046)-Write-off of Grants Receivable
- \$2 Rounding Adjustment

#### **Section IB**

The Department of Citrus Trust Fund is restricted by enabling legislation under Chapter 601 of the Florida Statutes. Specifically, F.S. 601.02 (5) states that "...It is the intent of the Legislature that all funds collected under this chapter and the interest accrued on such funds are consideration for a social contract between the state and the citrus growers of the state whereby the state must hold such funds in trust and inviolate and use them only for the purposes prescribed in this chapter."

### **Revenue Estimating Methodology**

Revenue estimates for Fiscal Year 2019-20 and 2020-21 are based on the following methodology:

The assessment rates for all varieties of citrus are set at the October meeting of the Florida Citrus

Commission, following the first USDA crop estimate of the season. The rates for the 2018-19 season are used to estimate 2019-20 revenue, as we anticipate those rates will remain in effect for one more year. During Fiscal 2017-18, a \$0.03 rate abatement was applied to the box rate for most varieties, which was carried forward to FY 2018-19, and FY 2019-20. The rates used to estimate Fiscal year 2020-21 have been increased to reflect rates with potential increase to be determined in October 2020.

For Fiscal 2019-20, the box forecast for Oranges is based on the First USDA Citrus crop forecast, which will be announced on October 10, 2019. The same crop size is used for Fiscal 2020-21. A schedule of Estimated Boxes and Revenue is attached.

The projected grant revenues are based on anticipated grant awards. Estimated interest earnings are based on prior year average interest rates and projected cash balance in the trust fund.

CERTIFICATION: The Department of Citrus certifies this to be the most accurate estimate of revenues at this time. OPM will be notified on any significant revenue changes that occur prior to the Governor's Budget Recommendations being issued.

## STATE OF FLORIDA DEPARTMENT OF CITRUS SUPPLEMENT TO SCHEDULE I

USDA Foreign Agricultural Service (FAS) Market Access Program (MAP) Agriculture

Trade Promotion Program (ATP)

The federal Targeted Export Assistance (TEA) program was created in the 1985 Farm Bill. By authorizing export promotional assistance, TEA was intended to provide economic relief to U.S. commodities and directly counteract unfair practices overseas. The Food, Agriculture, Conservation and Trade Act of 1990 established the Market Access Program (MAP), which replaced the TEA Program, to encourage the development, maintenance and expansion of commercial export markets for U.S. agricultural commodities through cost-share assistance to eligible trade organizations that implement market promotion activities. These two programs have been effective weapons against unfair competition for U.S. agriculture.

The Foreign Agricultural Service (FAS) administers the Market Access Program, as they previously did the TEA program. FAS authorizes both branded and generic export promotion, and the vast majority of U.S. agriculture in virtually all fifty states now participates in the program. By stimulating foreign interest in products of U.S. origin, FAS is enlarging overall world demand in ways that will endure and assist U.S. agriculture well into the future.

The Florida Department of Citrus (FDOC), on behalf of the Florida Citrus industry, is eligible for MAP funding in order to counter or offset the adverse effect of unfair trading practices of foreign countries on the export of citrus and citrus products. The FDOC budget for international marketing relies heavily on funding from this FAS program. Activity plans are developed at the FDOC with input from overseas advertising and promotion staff, exporters, importers and government agricultural officials. Execution of these plans is performed by these professional agencies in the countries in which FDOC/FAS programs operate.

FDOC's participation in the Market Access Program, and previously in the TEA program, helped the Florida Citrus industry expand market share and increase exports throughout the 1980s and 1990s. Since 2004, despite falling production and exports, MAP funding has helped the Florida Citrus industry sustain high prices and consumer preference in the face of challenging crop conditions resulting from hurricanes and disease. This will ensure that overseas markets for Florida Citrus will be able to expand again once production limitations are diminished. The schedule attached identifies the number of cartons of Florida Grapefruit shipped, F.O.B. prices, and FAS funding.

The FDOC ,on behalf of the Florida Citrus industry, was awarded funds through the FAS Agriculture Trade Promotion Program (ATP). The ATP program is a three year program (2019-2021) designed to help U.S. agricultural exporters develop new makets in an effort to mitigate the adverse effects of tariff barriers implemented by other countries. After the United States imposed a 25 percent tariff on steel imports and a 10 percent tariff on aluminum imports from several countries including Canada, the Canadian government

chose to impose retaliatory tariffs of their own on several products including orange juice imported from the United States, which included Florida product. While only Florida Orange Juice in Canada has been affected by the tariffs, the ATP program allowed the FDOC to consider the needs of Florida Citrus and to propose programs that would have the most impact within Canada and in other markets. With this in mind, the FDOC identified two markets and products where there is room for significant opportunity and growth: Fresh Florida Oranges in Canada and Florida Orange Juice in South Korea. A Fresh Florida Orange program in Canada will create a new opportunity to support a Florida Citrus product not targeted by the tariff while increased programming in South Korea, specifically for Florida Orange Juice, will grow market access for the same product affected by the Canadian tariff.

| SCHEDULE XI/EXHIBIT VI: AGENCY-LEVEL UNIT COST SUMM   | ARY                 |                  |                              |                         |  |
| 1) Some activity unit costs may be overstated due to the allocation of double budgeted items.   |                     |                  |                              |                         |  |

<sup>(1)</sup> Some activity unit costs may be overstated due to the allocation of double budgeted items.

(2) Expenditures associated with Executive Direction, Administrative Support and Information Technology have been allocated based on FTE. Other allocation methodologies could result in significantly different unit costs per activity.

(3) Information for FCO depicts amounts for current year appropriations only. Additional information and systems are needed to develop meaningful FCO unit costs.

(4) Final Budget for Agency and Total Budget for Agency may not equal due to rounding.
