# Florida Department of Children and Families Temporary Special Duty – General Pay Additives Implementation Plan Fiscal Year 2021-2022

Pursuant to Section 110.2035(7)(b), F.S., this is the Florida Department of Children and Families (DCF) written plan for implementing temporary special duties – general pay additives for Fiscal Year 2021-22. DCF requests approval to continue long-standing pay additives. The agency is not requesting any additional rate or appropriations for these additives.

In accordance with previous rule authority in 60L-32.0012, Florida Administrative Code, the agency has used existing rate and salary appropriations to grant pay additives when warranted based on the duties and responsibilities of the position. The requested additives are justified for reasons such as the need to recruit and retain employees with key skills and the specialized training required to perform the duties.

Pay additives are a valuable management tool which allows agencies to recognize and compensate employees for identified duties without providing a permanent pay increase.

The Department of Children and Families submits the following plan granting a temporary special duty pay additive of 5 percent of the employee's base rate of pay to:

#### **Certified Nursing Assistant Pay Additive**

All employees in the Human Services Worker I, Human Services Worker II, and Unit Treatment and Rehabilitation Specialist classes who work within the 13-1E, 13-1W, 32N, or 32S living areas at the Northeast Florida State Hospital or the Specialty Care Unit and Medical Services Unit at Florida State Hospital. Such additive may be awarded only during the time the employees work within those living areas at the Northeast Florida State Hospital.

The Career Service positions within two of these living areas require incumbents to possess a Certified Nursing Assistant (CNA) license and the other two living areas where it is preferred that incumbents possess a CNA license. The individuals served on these living areas are medically complex, in addition to being diagnosed with severe and persistent mental illness. In order to provide care for these complex and multi-medical problem individuals, an extensive skill set above that of the regular direct care staff is required. The staff providing care in these areas have received extensive training and have passed both a written and practical exam in order to be licensed as a CNA by the State of Florida.

Florida State Hospital (FSH) has two residential units (Specialty Care Unit and Medical Services Unit) where the majority of residents are medically complex in addition to being diagnosed with severe and persistent mental illness. In order to provide care for these multi-medical problem individuals, an extensive skill set above that of the regular direct care staff is preferred, although not required. Staff who hold a CNA license have received extensive training and have passed both a written and practical exam in order to be licensed as a CNA by the State of Florida. The justification is as follows:

- 1. This pay additive is necessary for employee retention in these work locations. The additional training and extensive skills of a CNA which are also in demand by outside nursing homes, medical hospitals, and numerous other facilities. The agency requests approval to offer this pay additive to employees who are hired into these units.
- 2. This additive will be in effect from the first day the employee is assigned to one of the designated living areas.
- 3. This additive will be effective until the employee leaves that position/designated living area.

- 4. NEFSH employees will receive a five percent (5%) pay additive. For FSH, these employees will receive this pay additive in addition to the Temporary Special Duty additive described below.
- 5. For NEFSH, includes a total of <u>110</u> F.T.E. Career Service positions in the following classifications:
  - Human Service Worker I
  - Human Service Worker II

For FSH, includes a total of <u>182</u> F.T.E. Career Service positions in the following classifications:

- Human Service Worker I
- Human Service Worker II
- Unit Treatment and Rehabilitation Specialist
- 6. At NEFSH, this additive has been provided for at least the past <u>14+</u> years.
- 7. The annual cost at NEFSH is approximately \$<u>136,802.52</u>. The annual cost at FSH is approximately \$<u>249,278.09</u>.
- 8. The classes included in this plan are represented by AFSCME Council 79. Article 25, Section 1 of the AFSCME agreement states, "Pay shall be in accordance with the Fiscal Year <u>2020-21</u> General Appropriations Act and other provisions of state law." DCF has a past practice of providing these pay additives to bargaining unit employees.

## Temporary Special Duty Additive

The Specialty Care Unit (SCU) at Florida State Hospital (FSH) is a 168 bed residential unit which serves a diverse population of individuals requiring mental health treatment as well as geriatric and long term care. This geriatric population is frequently composed of individuals with a variety of medically complex conditions in addition to their primary diagnosis of mental illness. Thirty-four (34) beds within this geriatric population are certified as a 'distinct part' by the Centers for Medicare and Medicaid Services and require significant health care resources. The distinction of certification offers a higher degree of state and federal agency oversight for provision of care. The higher level of care required for the resident population also offers great challenges in terms of staffing the unit. Employees hired frequently request transfer to another residential unit soon after hire, creating a perpetual staffing shortage that has been difficult to stabilize. All employees in the Human Services Worker I, Human Services Worker II, and Unit Treatment and Rehabilitation Specialist classes who work within the Specialty Care Unit at the Florida State Hospital. Such additive may be awarded only during the time those employees work within the Specialty Care Unit at the Florida State Hospital. The justification is as follows:

- 1. This pay additive is necessary in order for employee retention in these work locations. The agency requests approval to offer this pay additive to employees who are hired into these units.
- 2. The employees will receive a five percent (5%) pay additive.
- 3. This additive will be effective until the employee leaves the position/designated area.
- 4. Includes a total of <u>163</u> F.T.E. Career Service positions in the following classifications:
  - Human Service Worker I
  - Human Service Worker II
  - Unit Treatment & Rehabilitation Specialist
- 5. This additive was previously approved and provided for the past <u>14+</u> years for positions under the original agreement/implementation plan.
- 6. Annual cost is approximately \$216,579.33.

7. The classes included in this plan are represented by AFSCME Council 79. Article 25, Section 1 of the AFSCME Agreement states "Pay shall be in accordance with the Fiscal Year <u>2020-21</u> General Appropriations Act and other provisions of state law." DCF has a past practice of providing these pay additives to bargaining unit employees.

The Medical Services Unit (MSU) at FSH provides in-patient, emergency, out-patient, ancillary, and after-hours partial pharmacy services to residents of FSH and the Developmentally Disabled Defendant Program with the Agency for Persons with Disabilities. The individuals served in this unit are medically unstable and require inpatient medical care, in addition to being diagnosed with severe and persistent mental illness. In-patient medical care is provided on a 24-bed medical ward and is staffed with a full-time physician, registered nurses and direct services staff across three shifts. All employees in the Human Services Worker I and Human Services Worker II classes who work within the Medical Services Unit at the Florida State Hospital. Such additive may be awarded only during the time those employees work within the Medical Services Unit at the Florida State Hospital. The justification is as follows:

- 1. This pay additive is necessary in order for employee retention in these work locations. The agency requests approval to offer this pay additive to employees who are hired into these units.
- 2. The employees will receive a five percent (5%) pay additive.
- 3. This additive will be effective until the incumbent leaves the position/designated area.
- 4. Includes a total of <u>19</u> F.T.E. Career Service positions in the following classifications:
  - Human Service Worker I
  - Human Service Worker II
- 5. Annual cost is approximately \$22,698.69.
- 6. The classes included in this plan are represented by AFSCME Council 79. Article 25, Section 1 of the AFSCME Agreement states "Pay shall be in accordance with the Fiscal Year <u>2020-21</u> General Appropriations Act and other provisions of state law." DCF has a past practice of providing these pay additives to bargaining unit employees.

#### Child Protective Investigation Weekend Unit Pay Additive

Child Protective Investigations is an area responsible for conducting investigations regarding allegations of abuse, neglect, abandonment and/or special conditions for children; Collects information through interviews with the children, parents, relatives, neighbors, and other parties associated with the case; and engages families, identifies needs and determines the level of intervention needed to include voluntary services or court ordered dependency services; provides services linkages to agency and community resources based on needs assessment. Employees in these positions were required to be on-call and work weekends which causes an unstable work week and increase workload; this created a high turnover rate and recruitment difficulties. All employees in Child Protective Investigator, Senior Child Protective Investigator and support staff classes who work in a weekend unit. Such additive may be awarded only during the time such employees work in a weekend unit. The justification is as follows:

- 1. This pay additive is necessary for employee retention in these units. Offering additional compensation for working in a "weekend unit" has significantly improved morale and retention.
- 2. These additives will be in effect from the first day the incumbent is assigned to the position.
- 3. This additive will be effective until the employee leaves that position, or the position is moved to standard workweek schedule.
- 4. The employees will receive a five percent (5%) pay additive.

- 5. Includes a total of <u>66</u> F.T.E. Career Service positions in the following classifications:
  - Senior Child Protective Investigator
  - Child Protective Investigator
  - Support Staff Positions
- 6. This additive has been provided for the past <u>5</u> years.
- 7. Annual cost is approximately \$134,669.45.
- 8. The classes included in this plan are represented by AFSCME Council 79. The relevant collective bargaining agreement language states as follows: "Increases to base rate of pay and salary additives shall be in accordance with state law and the Fiscal Year <u>2020-21</u> General Appropriations Act." See Article 25, Section 1 (B) of the AFSCME Agreement. We would anticipate similar language in future agreements. DCF has a past practice of providing these pay additives to bargaining unit employees.

#### Abuse Hotline Weekend Unit Pay Additive

Abuse Hotline is an area operating 24 hours a day, 7 days a week and is responsible for receiving and assessing allegations of abuse, neglect or abandonment of children, and abuse, neglect of exploitation of vulnerable adults. The Hotline determines if the information meets statutory criteria for an investigation of referral to an appropriate agency. Employees enter abuse reports in the appropriate information system and research appropriate information systems to determine prior history to assist in the safety and risk assessment of alleged victim. All Adult Registry Counselors who work in a weekend unit at the Abuse Hotline. Such additive may be awarded only during the time such employees work in a weekend unit. The justification is as follows:

- 1. This pay additive is necessary in order for employee retention in these units. Offering additional compensation for working in a "weekend unit" has significantly improved morale and retention.
- 2. These additives will be in effect from the first day the incumbent is assigned to the position.
- 3. These additives will be effective until the incumbent leaves that position or the position is moved to standard workweek schedule.
- 4. The employees will receive a five percent (5%) pay additive.
- 5. Includes a total of <u>48</u> F.T.E. Career Service positions in the following classifications:
   Abuse Registry Counselor
- 6. These pay additives have been provided for the past <u>6</u> years.
- 7. Annual Cost approximately \$<u>148,351.75</u>.
- 8. The classes included in this plan are represented by AFSCME Council 79. The relevant collective bargaining agreement language states as follows: "Increases to base rate of pay and salary additives shall be in accordance with state law and the Fiscal Year <u>2020-21</u> General Appropriations Act." See Article 25, Section 1 (B) of the AFSCME Agreement. We would anticipate similar language in future agreements. DCF has a past practice of providing these pay additives to bargaining unit employees.

3) If your agency's Legislative Budget Request does not conform to the long range financial outlook with respect to the revenue estimates (from your Schedule I) or budget drivers, please explain the variance(s) below.

The Department of Children and Families identified needs for the Legislative Budget Request associated with its mission and statutory mandates. Following the identification of needs the department analyzed its ability to meet those needs utilizing existing resources (base budget) and resource requests above base (state and federal funds). Utilizing that planning/funding frame the department prioritized its Legislative Budget Request. Differences between the department's request and the Long Range Financial Outlook are related to differences in the planning/funding frame utilized by the department and the those preparing the Long Range Financial Outlook.

Auditor Ge 2020-170	eneral	2019-2020	Financial Management	organization's internal controls related to the allocation of costs for FDCF employees performing functions directly related to certain Federal programs were appropriately designed and operating effectively.	FDCF concurs with this recommendation and will either require the vendor to provide an independent service auditor's report or perform internally an evaluation of the internal controls related to the WebRMS Application to ensure internal controls are appropriately designed and operating effectively. The service organization is a for-profit organization that specializes in the provision of cost allocation services. FDCF has used this vendor for the past 20 plus years to provide its RMS and webRMS services, which are used by other states and is known by the U.S. Department of Health and Human Services, Division of Cost Allocation.

Auditor General 2020-170	2019-2020	Financial Management	for a protective investigations cost objective, resulting in costs being charged to the incorrect Federal program.	FDCF concurs with this recommendation and is currently in the process of transitioning from a quarterly manual input of cost allocation statistics to an automated quarterly cost allocation statistical upload into the GRANTS system to eliminate the risk of error. In the interim, FDCF will enhance supervisory review procedures to ensure that accurate allocation percentages are input to the GRANTS system.
Auditor General 2020-170	2019-2020	Financial Management	program grants were not always incurred during the authorized period of performance.	FDCF concurs with this recommendation. FDCF will work with our various Federal agencies to discuss challenges with respect to period of performance. In addition, FDCF is taking steps to ensure expenditures are identified in the appropriate period where the benefit to the state was realized.
Auditor General 2020-170	2019-2020	Financial Management	process Income Eligibility and Verification System (IEVS) data exchange responses.	Regarding the identified cases where the Income Eligibility and Verification System data exchanges were not processed timely, the Department concurs. Due to the overall volume of data exchanges for the Economic Self-Sufficiency Program, and the inability of the FLORIDA System to integrate data, the Department will establish an extensive project management component to determine system enhancements and identify process improvements to ensure data exchanges are processed timely. Furthermore, the Department is actively working a request for funds from the Florida Legislature to improve system and data integration and the overall functionality of the Department's information technology systems.

Auditor General 2020-090	2019-2020	Community Connection to Economic Self- Sufficiency (ACCESS) Integrity Online System (AIO) to store and the information needed to aid in fraud prevention. However, as similarly noted in our report No. 2016-046, AIO application controls were not sufficient to ensure the completeness, accuracy, and validity of AIO data, nor could the Department demonstrate whether user access privileges to the AIO were timely deactivated upon an employee's separation from Department employment.	The Department acknowledges the limitations of the AIO system and agrees that the system needs replacing to ensure data input controls are seamlessly incorporated into our processes. In response to this need, we have submitted a Legislative Budget Request to gain funding for a full system replacement. In the interim, we will continue to take additional measures to ensure better control and monitoring of the AIO by adding additional requirements to our monthly monitoring of the AIO, which will ensure any errors found are corrected. Additionally, to better ensure the security of data, we have added an additional level of control of granting and terminating access for OPBI staff to the AIO. A monthly monitoring of OPBI users will be conducted by AIO system administrators to ensure the user list is current. In addition, we have added a tracking component of all OPBI AIO users to track granted and terminated user access.	
Auditor General 2020-090	2019-2020	improvement to ensure the confidentiality, integrity, and availability of Department data and related information technology resources.	The Department acknowledges the limitations of the AIO system and agrees that the system needs replacing to ensure data input controls are seamlessly incorporated into our processes. In response to this need, we have submitted a Legislative Budget Request to gain funding for a full system replacement. In the interim, we will continue to take additional measures to ensure better controls related to logging and monitoring of the AIO system by tracking AIO access on a spreadsheet and monitoring the user roster monthly.	

Auditor General 2020-090	2019-2020	Public Benefits Integrity	investigations of referrals received regarding	OPBI drafted and disseminated correspondence to all OPBI investigative staff in November 2019 to reinforce this practice and will continue discussing this practice during upcoming conference calls. Additionally, in January 2020, a training tool will be developed for OPBI investigators to ensure the reasons for the delays are documented in the FLORIDA System. Additionally, beginning in January 2020, the statewide monitoring process will include a review of FLORIDA system notations to determine if a case is beyond the 10- working day requirement to ensure the delay is documented.
Auditor General 2020-090	2019-2020	Public Benefits Integrity	The Department did not always properly complete tracking logs of investigation interviews performed at Disaster Supplemental Nutrition Assistance Program events for Hurricanes Irma and Michael.	The Department will update the 2020-2021 D-SNAP plan to reflect the use of the D-SNAP Tracking log. The D-SNAP tracking log will also be reviewed and updated to ensure that only the required fields are captured. Additionally, training will be held prior to any future D- SNAP event to ensure employees are informed of how to complete the log during a D-SNAP event.
Auditor General 2020-090	2019-2020	Public Benefits Integrity	Department procedures for timely identifying and writing off eligible public assistance claims continue to need enhancement.	From February 2018 until November 2019, OPBI created and completed a request for approval to write- off claims due to bankruptcy. The request is currently pending with the Florida Department of Financial Services for approval. Additionally, OPBI will conduct quarterly reviews of claims subject to write-off to ensure all claim types are written off.

Auditor General 2020-090	2019-2020 General Services	Department controls over cellular telephones need enhancement to ensure that unused lines are appropriately terminated, the personal use of text messaging is discouraged, and the most economical usage plans are utilized.	Purchasing will now maintain a log of all suspended phone lines. Once a line has completed a single unbilled suspension period and if the line is still not utilized, it will be cancelled. Later, the program offices can request a new line of service if there is a need for one. Outreach to program offices to evaluate the need for both currently suspended lines and active lines with low or no usage has already begun and is ongoing. Moving forward, all new cellular device users will be provided with a copy of Children and Families Operating Procedure (CFOP) 70-6 outlining that personal use of a state cell phone is discouraged. Additionally, verbiage has been added to the bottom of the Cellphone Activation Form for each user to sign and date that they received a copy of the CFOP 70-6 and are aware that their state issued cell phones shall no be used for personal use and they may be financially responsible if it is used for anything other than official state business. In addition to reviewing call details for increasing usage plans, Purchasing will also begin reviewing call details for decreasing plans. In order to correct this issue immediately, Purchasing will review call details for users that are currently on the Verizon ""Unlimited Everything"" plan over a 3-month period. If the call minutes average less than 289 minutes a month, Purchasing will make a recommendation to reduce the plan down to the \$35.99 a month plan (Note that the Unlimited Everything plan is \$51 a month). Going forward, we will review the call details monthly and make any necessary recommendations on plan changes. Outreach to Program Offices to recommend downgrading plans has already begun and is ongoing.

Auditor General 2020-090	2019-2020 General		The Department did not always accurately record the value or condition of donated motor vehicles.	The Office of General Services has reviewed records for the 44 motor vehicles in question and has updated the acquisition cost for those vehicles to fair market value. The acquisition costs for those vehicles were obtained by using Kelly Blue Book values. In order to avoid future findings concerning this matter, CFOP 40-2 (Vehicle Management) has been updated to include the language under DFS Rule 69I-72.003, Florida Administrative Code. The updated operating procedure is anticipated to be published by February 28, 2020.

TIP	If objects are negative amounts, the agency must make adjustments to Column A01 to						
	correct the object amounts. In addition, the fund totals must be adjusted to reflect the						
	adjustment made to the object data.						
TIP	If fund totals and object totals do not agree or negative object amounts exist, the agency						
	must adjust Column A01.						
TIP	Exhibit B - A01 less than B04: This audit is to ensure that the disbursements and						
	carry/certifications forward in A01 are less than FY 2019-20 approved budget. Amounts						
	should be positive. The \$5,000 allowance is necessary for rounding.						
TIP	If B08 is not equal to A01, check the following: 1) the initial FLAIR disbursements or carry						
	forward data load was corrected appropriately in A01; 2) the disbursement data from						
	departmental FLAIR was reconciled to State Accounts; and 3) the FLAIR disbursements did						
	not change after Column B08 was created. Note that there is a \$5,000 allowance at the

7.25	Has the agency entered annualization issues (260XXX0) for any issue that was partially funded in Fiscal Year 2020-21? Review Column G66 to determine whether any incremental amounts are needed to fully fund an issue that was initially appropriated in Fiscal Year 2020-21. Do not add annualization issues for pay and benefit distribution issues, as those annualization issues (26AXXX) have already been added to A03.	-					
TIP	Salaries and Benefits amounts entered using the OADA/C transactions must be thoroughly justified in the D-3A issue narrative. Agencies can run <b>OADA/OADR</b> from STAM to identify the amounts entered into OAD and ensure these entries have been thoroughly explained in the D-3A issue narrative.	NA	NA	NA	NA	NA	NA
TIP	The issue narrative must completely and thoroughly explain and justify each D-3A issue. Agencies must ensure it provides the information necessary for the OPB and legislative analysts to have a complete understanding of the issue submitted. Thoroughly review pages 66 through 70 of the LBR Instructions.						
TIP	Check BAPS to verify status of budget amendments. Check for reapprovals not picked up in the General Appropriations Act. Verify that Lump Sum appropriations in Column A02 do not appear in Column A03. Review budget amendments to verify that 160XXX0 issue amounts correspond accurately and net to zero for General Revenue funds.
