FLORIDA EDUCATION
FOUNDATION

Statutory Authority – Education is Our Business

The Florida Education Foundation is a 501(c)(3) not for profit charitable corporation established by Florida Statute 1001.24 to be the Direct Support Organization of the Florida Department of Education. The Foundation, established in 1985, was organized exclusively to receive, hold, invest and administer property and to make expenditures to or for the benefit of public pre-kindergarten through 12th grade education in Florida. The primary purpose of the Foundation is the enhancement of educational excellence in the public schools of Florida.

Mission

As a valued partner in public education and a direct support organization for the Florida Department of Education, the Florida Education Foundation invests in high achievement for every student to contribute to Florida's globally competitive workforce.

Vision

Every Florida student graduates from high school ready for post-secondary education and a career.

Values

Education and highest student achievement is key to success.

Equity for all students to graduate from high school ready to contribute to Florida.

Excellence in teaching, training and all educational outcomes.

Collaboration with business and communities to build strong partnerships and a stronger public education system.

Goals

The Florida Education Foundation fosters meaningful business involvement in schools by:

1. Providing resources for innovative and effective instruction and for scientifically based reading research.
2. Increasing direct participation of the business community in pre-kindergarten through 12th grade education.
3. Increasing the number of successful local programs and projects dedicated to improving student achievement.
4. Encouraging every student to be prepared to make informed, appropriate educational and vocational choices.

Summary Strategic Plan

Adopted by the FEF Board of Directors in 2015

The Florida Education Foundation Board of Directors and the Foundation supports the Florida Department of Education and highest student for all Florida students through:

1. Recognizing and supporting the development of teachers, learners and leaders.
2. Telling the story of Florida's education progress in preparing students for lifelong success.
3. Raising and managing financial resources to improve Florida's outcomes.

OUR BELIEFS

We believe all students have equal value and should have access to a quality education to prepare them for a brighter future.

WHERE WE WILL WORK

Standards and Accountability

Increasingly progressive standards and transparent accountability among schools, educators and students have been vital in the improvement of educational outcomes in Florida. Economic and technological factors demand more globally comparative educational outcomes for all students. Because standards and transparent accountability continue to inspire an environment in which the talents and capabilities of all learners are valued and respected, the Foundation will seek to strengthen the systems of standards and accountability in Florida and to lead in the advancement and evolution of these systems.

Closing the Achievement Gap

Florida's highest performing students depart public schools with myriad options for college and career. Our collective quality of life will improve, however, as we enable all learners to fulfill their talents and reach their full potential. The academic performance gap in Florida, like the nation, is pronounced in groupings of students by both race and by family income factors. Because successful educational outcomes for all students and student groups are vitally important to the future of our communities, our state, and our nation, the Foundation will endeavor to raise the academic performance of Florida's lower performing student groups and close the achievement gap.

Foundations for Achievement: Early Grades Reading

Studies often show a clear correlation between early reading preparation and long-term academic attainment. Based on standards of the National Assessment of Educational Progress (NAEP), more than 60 percent of Florida students in fourth grade are below proficient in reading, a vital skill for continued success in primary, secondary and postsecondary education. Other research indicates that reading deficiencies are higher in the United States comparative to other nations even before traditional public schooling age. Because of the importance of reading as a basis for all other learning, the Foundation will pursue systemic changes in improving the reading capabilities of Florida children through grade three.

THREE STRATEGIC INITIATIVES

For Standards and Accountability

Parents play a vital role in the success of their students. With the introduction of new standards, the Foundation recognized a gap in resources available to parents to assist them in understanding the new standards and strategies to help their children achieve success. The Foundation is partnering with the Department of Education to produce a website and other communication tools to empower parents and guardians to be leaders of learning in their homes and classrooms. The project is supported with gifts from AT&T, State Farm and GE. The site will help parents understand the learning objectives of each grade, strategies to partner with teachers, and the best role that they can play to create a culture of achievement with their children. The purpose of the site is to increase public and parent awareness of specific standards and expectations for each grade level in core academic subjects and to gain easy access to credible information regarding standards, school accountability and other topics relevant to supporting parents in supporting their children.

For Closing the Achievement Gap

Florida leads the nation in closing the achievement gap and maintains this as a goal. Yet, little research exists that provides insight as to the factors that contributed to at-risk students achieving success in school. The Foundation has partnered with the Department of Education and the Consortium for Policy Research in Education to construct a research project loosely modeled on the work of Jim Collins in *Good to Great*. Of 48,000 Florida 9th graders identified as at-risk of dropping out of school, about 10 percent earned a year's worth of college credit. About 1.4 percent earned Bright Futures scholarships. What can these students, who transformed from at-risk to at-college, teach us about improving the educational and life outcomes of at-risk students currently in Florida schools? If funded, outcomes of the study will be used to inform further work in helping older students in at-risk circumstances find motivation and support for high achievement. Funding is currently being sought to implement this research and to build a strategy around its results.

For Early Grades Reading

While there has been steady improvement in Florida's reading outcomes, we believe there are systemic improvements that can accelerate reading achievement even further. The Foundation has recently embarked on an exploratory project with the Department of Education to evaluate the systemic elements driving Florida's reading performance through grade 3. Research indicates that 80 percent of high school dropouts were struggling readers in 3rd grade. In Florida, only about 35 percent of readers in fourth grade are considered proficient. About 39 percent of fourth grade readers are below satisfactory. A research study on reading in Connecticut schools concluded that 95 percent of students could learn to read at grade level. Given the correlations between early reading and long-term outcomes, success in this sector presents a significant opportunity to enhance Florida's workforce profile.

STRATEGIC PLAN – PLANNING PERIOD 2019 - 2021

EXECUTIVE SUMMARY

The Able Trust develops the organization's strategic direction using a three year planning period. This strategic plan covers the 2019 – 2021 calendar years. The strategies as developed are extensively dependent on state laws, as the organization operates under Florida Statutes as a Direct Service Organization (DSO) of the Florida Department of Vocational Rehabilitation/Department of Education. The Board has much discretion within the statutory direction, which directs the organization to raise funds from various sources, to receive, hold and manage property (which would include investments), and to make expenditures for the benefit of rehabilitation programs approved by the Board of Directors. The statute further expands the discretion of the Board, authorizing expenditures to organizations, agencies, associations, individuals, and basically to any organization or Foundation operated for charitable, educational or scientific purposes – generally to any 501(c)(3) entity that addresses rehabilitation issues, be that funding of programs, education of key leaders and businesses, research, communications, and the development of its own internal programs, among other options.

Members of the Able Trust Board, Ambassadors and staff met on June 21 and September 20 to analyze data, the current environment and the resources of the organization to consider its direction for the next planning period. The June 21 session included a facilitated session on fundraising. Many ideas and concepts were brought to those sessions. The Board further reviewed the first draft of the executive summary at its December 2018 meeting. In this process, the following six areas were identified as strategic for The Able Trust for the planning period of calendar years 2019 – 2021. The Executive Summary of the Strategic Plan is presented below, with data and analysis in the sections that follow.

Strategy One: Sustainability of the organization: Critical to all future planning is the taking of actions that will assure the continuation of operations. Since the current Florida statutes call for the organization to cease operations in October of 2019, legislative action is necessary during the 2019 Florida legislative session to eliminate the sunset date. It is imperative that the sunset issue be resolved before October, thus the primary strategy of The Able Trust for the planning period is the dedication of resources to working with state legislators to allow the organization to continue its operations and the mission. For 2019, this means effective communications with legislators, including outcomes data and individual employment successes to help pass legislation removing the sunset language from the statutes. A full legislative team, along with Board members, Ambassadors and staff will continue their work in informing and building relationships with the legislative decision-makers, to assure passage of legislation to assure legal sustainability.

Strategy Two: Continuation of programs directed at youth and young adults: The Able Trust's High School High Tech (HSHT) program continues as the signature youth program of the organization, successfully serving Florida High School students with disabilities for 19 years. It is a program

producing excellent outcomes, is respected and supported by DVR/DOE and the communities it serves, and should be continued at 43 sites in the 40 counties where the program was available in 2018. In addition, The Able Trust should fully fund one new start-up program during school year 2019-2020 from its grant budget. The program will continue using the five national HSHT guideposts and a sixth communications guidepost, designed by The Able Trust. The Able Trust should also launch the first of its Leadership Academy programs for young workers with disabilities who wish to add to their employability (soft) skills to enhance their hard skills, to enable them to bring greater value to their employers and to increase their own satisfaction in their career pursuits. The curriculum for the Academy will be developed in 2019, with one training conducted by year end. This training will be targeted at young adults, early in their careers. Results of the 2019 Academy will guide continuation into future years.

Strategy 3: Work Experiences: Research, both formal and informal has clearly shown that work experiences – internships, mentoring, apprenticeships, job shadowing, part time seasonal work, etc. – are significant in identifying the most effective route to career decisions and a career path for all workers. Florida’s business and education leaders are identifying work experiences as the most important education activities for job and career goals. The Able Trust knows this is especially true for people with disabilities, who have additional challenges gaining entry into the world of work. All of the programs of The Able Trust that encourage and create work experiences should continue into the next planning period. This includes growing the effective Disability Employment Awareness Month (DEAM) program, continuing the emphasis on work experiences in the HSHT program, and prioritizing providing grants to organizations that include work experiences in their activities which assist their program participants in identifying a job and career path.

Strategy 4: Grant Program: The Able Trust has been known as a source of grant funding for employment and rehabilitation programs that serve Floridians with disabilities, and statutes require the continuation of such activity. Grants should continue to be offered in three categories: multi-year strategic grants, annual HSHT grants, and grants to other nonprofit organizations for education, communications and research purposes. An analysis of employment outcomes for the past four years for the funded rehabilitation organizations indicates that the multi-year grants produce a significantly larger number of employed participants than the general annual grants. In addition, the cost per individual employed for the longer term grants is far less. The Able Trust will increase its long term strategic grant support to two or three awards in FY 2020, and will add one funded HSHT program in FY 2020. The emphasis on longer term, larger grants will continue into years two and three of the planning period provided outcomes continue to support the strategy and funding remains available. Each funded workforce program must provide workforce experiences to at least 50% of the program participants, and clearly recognize The Able Trust as a champion funding organization in their promotional materials and in their communities.

Grants to non-profit organizations for education, communications and research purposes will continue to be budgeted for each year of the planning period. This will satisfy the statutory requirements for encouraging public and private support to enhance the employment of Floridians with disabilities, and use of funds to perform planning, research and policy development.

Strategy 5: Communications & Research: These two strategic areas are very closely connected, and must be considered together. The Able Trust has a charge to use some of its resources to provide for “education, communication and research purposes” Communications require good data to be effective, and the data must be supported and credible, which requires research that is statistically significant. Research will include completion of the longitudinal study of Able Trust grantee programs and the effectiveness of their activities in the first half of 2019, with results used in communications and program design. A statewide study of business leader perceptions on the hiring of people with disabilities will be scheduled for year 2 or 3 of the planning period. Three key audiences will be targets of Able Trust communications and research results; state policy-makers and their staff; Florida business leaders; and those policy-makers at the federal level that affect opportunities for workers with disabilities. In addition, the Able Trust will continue to maintain a public presence through public radio spots in the Florida major media markets, through publicity generated by grant awards, and through an effective use of print and social media.

During the first half of 2019, a formal communications plan for The Able Trust Alumni Association will be developed and implemented.

Strategy 6: Fundraising and Development: Since 2017 The Able Trust has adjusted its operations to comply with changes to its governing statutes, which affected its fundraising and development functions. The organization was required to account for private and public funds separately, while complying with ethical and legal obligations to assure that donor funds are used per donor requests. Private donations will continue to be directed to a non-profit entity with a similar mission to assure use as private donors direct, with donor-directed funds available to The Able Trust via a grant request process.

Per an analysis of past fundraising efforts, a restructure of the fundraising function is indicated. During calendar year 2019, fundraising will be directed to obtaining financial support for specific programs and activities. A consultant or fundraising entity will be hired to assist in the fundraising activities. During 2019, fundraising will be analyzed and a plan for years 2020 and 2021 will be developed, which will include an analysis of the ability to secure major endowments, and address the solicitation of donations from individuals and businesses.

Guiding Principles

In the process of developing and implementing the strategic direction of The Able Trust for the planning period 2019 - 2021, the following three questions will guide tactical decisions, as they did in the implementation of the 2016 - 2018 plan.

- I. How does this activity and use of our resources advance our mission – our litmus test? (How can The Able Trust be “Disproportionately Influential”?)
- II. Is this investment of our resources an investment in the change we desire? (Catalytic Philanthropy)
- III. Does this activity promote The Able Trust as a key player in Florida in a greater national movement of equal opportunities for successful employment for all people with disabilities?

Annual Report 2020-2021

Our primary project during this fiscal year involved funding and, to a degree, overseeing a Rate Study which was contracted with San Diego State University. We have met once with representatives of that university and representatives of the Division of Blind Services to set out the initial parameters of the study. While our funding covered the fiscal year from July 2020 till the end of June 2021, the actual study itself will not be completed until the end of the calendar year.

Essentially, this study aims to look at the current values of a variety of contracted services delivered by local agencies serving people who are blind, who have low vision or are deaf and blind. These current costs will be compared with a range of other parameters within the state and across the country to try to decide what changes seem appropriate to implement a system that optimizes the cost of services delivered by these agencies in a number of areas and to a range of populations.

The Blind Services Foundation also continued to spend time working on the project that we had funded over the previous two years. This project involved the development and assessment of a vocational tool designed to test the current work readiness of people who are blind or have low vision. There is a good deal of interest at the national level to adopt this tool for use across the country. It is also being employed in Canada and in Denmark and, within Florida during this fiscal year, more than fifty individuals have been evaluated. Additional work was also done this year to refine the tool and the manual which accompanies it. The Division of Blind Services also worked with the Department of Education to encourage the legislature to pass a law that would have allowed DOE to copyright the tool and pertinent additional documents and place it in the Creative Commons on the internet. This would have and, hopefully, will provide protection for the state while making the tool available to those who would like to use it.

The Blind Services Foundation has completely updated our web site this year. We have also prepared and approved a new brochure. We are currently at work on a new poster that we hope to use to increase our fund raising by encouraging various entities to display it.

The Blind Services Foundation continues to have a majority of its Board who are blind or have low vision. We meet four to five times a year and our budget committee develops and implements a budget each year. All of our meetings are open and are publicly noticed.

It is an honor for all of us to have the opportunity to serve people who are blind in this state with our work on the Foundation Board. We believe that the projects we have funded since our inception have done a lot to make the lives of people who are blind in Florida better! We appreciate the opportunity to serve!
