FLORIDA DEPARTMENT OF EDUCATION
Temporary Special Duty – General Pay Additives Implementation Plan
For Fiscal Year 2022-23

In accordance with rule authority established in 60L-32.0012, Florida Administrative Code, the Florida Department of Education has used existing rate and salary appropriations to grant pay additives when warranted based on the duties and responsibilities of the position. The requested additives are justified for reasons such as establishing lead worker duties, temporary duties due to vacancies and absent coworkers, and when temporarily assigning duties that are not customarily assigned to the position.

Pay additives are a valuable management tool which allows agencies to compensate employees for identified additional duties which are not permanent in nature.

Leadworker Duties

The agency requests approval to approve this additive for employees who are assigned limited supervisory responsibilities that include directing the work of employees having the same or similar duties in the same work unit. The duties may also include distributing work, maintaining a balanced workload among employees, keeping records, and defining work priorities. The duties do not include evaluating performance or administering disciplinary actions, and do not justify reclassification.

Temporary Special Duties (General)

The agency requests approval to approve this additive when an employee has been assigned temporary duties and responsibilities not customarily assigned to the position. The agency's review shall include the duties being assigned the position, the additive amount, and compliance with the applicable collective bargaining agreement.

Temporary Special Duties (Absent Coworker)

The agency requests approval to approve this additive when the employee is assigned the duties and responsibilities of a coworker who is absent from work due to authorized FMLA or authorized military leave.

Competitive Area Differential

The agency requests to continue to approve this additive for specific positions with similar duties and responsibilities when it has been determined that recruitment, turnover, or competitive pay problems exist in a defined geographic region or county(ies).

For these pay additive scenarios addressed in this plan, the additive will begin on the first day of special duties being assumed and continue for up to 90 days. After this 90-day period, the agency will reassess the need for the additive and address accordingly.

During fiscal year 2020-21, the agency did not implement a temporary special duty additive (general), which would fall within the scenario described above.

Baccalaureate Enrollment and Graduation Expectations (Projections)

Florida College System and State University System

August 2021

Section 1001.02, Florida Statutes, *General powers of State Board of Education*, includes the following requirement.

(2) The State Board of Education has the following duties:

(v) To develop, in conjunction with the Board of Governors, and periodically review for adjustment, a coordinated 5-year plan for postsecondary enrollment, identifying enrollment and graduation expectations by baccalaureate degree program, and annually submit the plan to the Legislature as part of its legislative budget request.

In response to this requirement, the State Board of Education, in conjunction with the Board of Governors, submits the attached enrollment and graduation projections for baccalaureate degree programs in the Florida College and State University Systems.

The Florida Department of Education calculated the enrollment and graduation projections using an exponential triple smoothing algorithm accounting for historical enrollment and graduation data. The methodology used was consistent for all programs, except newly approved programs with no historical data. For these programs, projections provided by the institution were used for the available years. 2025-26 projections for newly approved programs were calculated using the projections provided by the college due to the lack of historical data. The projections included are for active programs that have been approved by the State Board of Education.

The Florida Department of Education also consulted with the Office of the Board of Governors, resulting in the attached information for the State University System institutions.

SUS Baccalaureate Degree Trends and Estimates

This data is provided to the Florida College System staff in response to their request related to Section, 1001.02, Florida Statutes.

The actual data are bachelor's degrees awarded within the State University System by discipline (shown by six-digit CIP code). The mathematical estimates are based only on the five year average annual change, and not any approved policy, strategic decision, or enrollment factors. The methodology used to estimate out-year projections are progressively conservative and designed to smooth volatile (defined as annual change of ±10% of the 2020-21 total) trends. If the average annual change is not within a ±10% range of the 2020-21 value, then the enrollment estimates are held constant at the 2020-21 level. Note: Institutions began reporting program enrollment and degrees awarded using the CIP 2020 taxonomy for the 2019-20 academic year.

The trends shown below may be impacted by this reporting change.

SUS Baccalaureate Degree Trends and Estimates

This data is provided to the Florida College System staff in response to their request related to Section, 1001.02, Florida Statutes.

The actual data are bachelor's degrees awarded within the State University System by discipline (shown by six-digit CIP code). The mathematical estimates are based only on the five year average annual change, and not any approved policy, strategic decision, or enrollment factors. The methodology used to estimate out-year projections are progressively conservative and designed to smooth volatile (defined as annual change of ±10% of the 2020-21 total) trends. If the average annual change is not within a ±10% range of the 2020-21 value, then the enrollment estimates are held constant at the 2020-21 level. Note: Institutions began reporting program enrollment and degrees awarded using the CIP 2020 taxonomy for the 2019-20 academic year.

The trends shown below may be impacted by this reporting change.

SUS Baccalaureate Enrollment Trends and Estimates

This data is provided to the Florida College System staff in response to their request related to Section, 1001.02, Florida Statutes.

The actual data are enrollments within the State University System by discipline (shown by six-digit CIP code). The mathematical estimates are based only on the five year average annual change, and not any approved policy, strategic decision, or enrollment factors. The methodology used to estimate out-year projections are progressively conservative and designed to smooth volatile (defined as annual change of $\pm 10\%$ of the 2020-21 total) trends. If the average annual change is not within a $\pm 10\%$ range of the 2020-21 value, then the enrollment estimates are held constant at the 2020-21 level. Note: Institutions began reporting program enrollment and degrees awarded using the CIP 2020 taxonomy for the 2020-21 academic year. The trends shown below may be impacted by this reporting change.

SUS Baccalaureate Enrollment Trends and Estimates

This data is provided to the Florida College System staff in response to their request related to Section, 1001.02, Florida Statutes.

The actual data are enrollments within the State University System by discipline (shown by six-digit CIP code). The mathematical estimates are based only on the five year average annual change, and not any approved policy, strategic decision, or enrollment factors. The methodology used to estimate out-year projections are progressively conservative and designed to smooth volatile (defined as annual change of ±10% of the 2020-21 total) trends. If the average annual change is not within a ±10% range of the 2020-21 value, then the enrollment estimates are held constant at the 2020-21 level. Note: Institutions began reporting program enrollment and degrees awarded using the CIP 2020 taxonomy for the 2020-21 academic year. The trends shown below may be impacted by this reporting change.

Action	48150000

1. GENERAL

1.1 Are Columns A01, A04, A05, A91, A92, A93, A94, A95, A96, A36, A10, IA1, IA4, IA5, IA6, IP1, IV1, IV3 and NV1 set to TRANSFER CONTROL for DISPLAY status and MANAGEMENT CONTROL for UPDATE status for both the Budget and Trust Fund columns (no trust fund files for narrative columns)? Is Column A02 set to TRANSFER CONTROL for DISPLAY status and MANAGEMENT CONTROL for UPDATE status for the Trust Fund Files (the Budget Files should already be on TRANSFER CONTROL for DISPLAY and MANAGEMENT CONTROL for UPDATE)? Are Columns A06, A07, A08 and A09 for Fixed Capital Outlay (FCO) set to TRANSFER CONTROL for DISPLAY status only (UPDATE status remains on OWNER)? (CSDI or Web LBR Column Security)	Y				
1.2 Is Column A03 set to TRANSFER CONTROL for DISPLAY and UPDATE status for both the Budget and Trust Fund columns? (CSDI)	Y				

AUDITS:

1.3 Have Column A03 budget files been copied to Column A12? Run the Exhibit B Audit Comparison Report to verify. (EXBR, EXBA)	Y				
1.4 Have Column A03 trust fund files been copied to Column A12? Run Schedule I (SC1R, SC1 or SC1R, SC1D adding column A12) to verify.	Y				
1.5 Has Column A12 security been set correctly to ALL for DISPLAY status and MANAGEMENT CONTROL for UPDATE status for Budget and Trust Fund files? (CSDR, CSA)	Y				

TIP The agency should prepare the budget request for submission in this order: 1) Copy Column A03 to Column A12, and 2) Lock columns as described above. A security control feature included in the LAS/PBS Web upload process requires columns to be in the proper status before uploading to the portal.

2. EXHIBIT A (EADR, EXA)

2.1 Is the budget entity authority and description consistent with the agency's LRPP and does it conform to the directives provided on page 57 of the LBR Instructions?	Y				
2.2 Are the statewide issues generated systematically (estimated expenditures, nonrecurring expenditures, etc.) included?	Y				
2.3 Are the issue codes and titles consistent with <i>Section 3</i> of the LBR Instructions (pages 15 through 27)? Do they clearly describe the issue?	Y				

3. EXHIBIT B (EXBR, EXB)

		Program or Service (Budget Entity Codes)				
Action		48150000				
3.1	Is it apparent that there is a fund shift where an appropriation category's funding source is different between A02 and A03? Were the issues entered into LAS/PBS correctly? Check D-3A funding shift issue 340XXX0 - a unique deduct and unique add back issue should be used to ensure fund shifts display correctly on the LBR exhibits.	N/A N/A				
AUDITS:						
3.2	Negative Appropriation Category Audit for Agency Request (Columns A03 and A04): Are all appropriation categories positive by budget entity and program component at the FSI level? Are all nonrecurring amounts less than requested amounts? (NACR, NAC - Report should print "No Negative Appropriation Categories Found")	Y Y				
3.3	Current Year Estimated Verification Comparison Report: Is Column A02 equal to Column B07? (EXBR, EXBC - Report should print "Records Selected Net To Zero")	Y				
TIP	Generally look for and be able to fully explain significant differences between A02 and A03.					
TIP	Exhibit B - A02 equal to B07: Compares Current Year Estimated column to a backup of A02. This audit is necessary to ensure that the historical detail records have not been adjusted. Records selected should net to zero.					
TIP	Requests for appropriations which require advance payment authority must use the sub-title "Grants and Aids". For advance payment authority to local units of government, the Aid to Local Government appropriation category (05XXXX) should be used. For advance payment authority to non-profit organizations or other units of state government, a Special Categories appropriation category (10XXXX) should be used.					
4. EXHIBIT D (EADR, EXD)						
4.1	Is the program component objective statement consistent with the agency LRPP, and does it conform to the directives provided on page 61 of the LBR Instructions?	Y				
4.2	Is the program component code and title used correct?	Y				
TIP	Fund shifts or transfers of services or activities between program components will be displayed on an Exhibit D whereas it may not be visible on an Exhibit A.					
5. EXHIBIT D-1 (ED1R, EXD1)						
5.1	Are all object of expenditures positive amounts? (This is a manual check.)	Y				
AUDITS:						
5.2	Do the fund totals agree with the object category totals within each appropriation category? (ED1R, XD1A - Report should print "No Differences Found For This Report")	Y				
5.3	FLAIR Expenditure/Appropriation Ledger Comparison Report: Is Column A01 less than Column B04? (EXBR, EXBB - Negative differences [with a \$5,000 allowance] need to be corrected in Column A01.)	Y				
5.4	A01/State Accounts Disbursements and Carry Forward Comparison Report: Does Column A01 equal Column B08? (EXBR, EXBD - Differences [with a \$5,000 allowance at the department level] need to be corrected in Column A01.)	N, FSDB				

		Program or Service (Budget Entity Codes)				
Action		48150000				
TIP	If objects are negative amounts, the agency must make adjustments to Column A01 to correct the object amounts. In addition, the fund totals must be adjusted to reflect the adjustment made to the object data.					
TIP	If fund totals and object totals do not agree or negative object amounts exist, the agency must adjust Column A01.					
TIP	Exhibit B - A01 less than B04: This audit is to ensure that the disbursements and carry/certifications forward in A01 are less than FY 2020-21 approved budget. Amounts should be positive. The \$5,000 allowance is necessary for rounding.					
TIP	If B08 is not equal to A01, check the following: 1) the initial FLAIR disbursements or carry forward data load was corrected appropriately in A01; 2) the disbursement data from departmental FLAIR was reconciled to State Accounts; and 3) the FLAIR disbursements did not change after Column B08 was created. Note that there is a \$5,000 allowance at the department level.					
6. EXHIBIT D-3 (ED3R, ED3) (Not required in the LBR - for analytical purposes only.)						
6.1	Are issues appropriately aligned with appropriation categories?	Y

7.7	Does the issue narrative thoroughly explain/justify all Salaries and Benefits amounts entered into the Other Salary Amounts transactions (OADA/C)? 7.11	When appropriate are there any 160XXX0 issues included to delete positions placed in reserve in the LAS/PBS Position and Rate Ledger (e.g. unfunded grants)? Note: Lump sum appropriations not yet allocated should <u>not</u> be deleted. (PLRR, PLMO)	N/A

7.13	Has the agency included a 160XXX0 issue and 210XXXX and 260XXX0 issues as required for lump sum distributions?	N/A				
7.14	Do the amounts reflect appropriate FSI assignments?	Y				
7.15	Are the 33XXXX0 issues negative amounts only and do not restore nonrecurring cuts from a prior year or fund any issues that net to a positive or zero amount? Check D-3A issues 33XXXX0 - a unique issue should be used for issues that net to zero or a positive amount.	N/A

7.23	Have FCO appropriations been entered into the nonrecurring column (A04)? (GENR, LBR4 - Report should print "No Records Selected For Reporting" or a listing of D-3A issue(s) assigned to Debt Service (IOE N) or in some cases State Capital Outlay - Public Education Capital Outlay (IOE L))	Y				
7.24	Has narrative been entered for all issues requested by the agency? Agencies do not need to include narrative for startup issues (1001000, 2103XXX, etc.) that were not input by the agency. (NAAR, BSNR)	Y				

		Program or Service (Budget Entity Codes)				
Action		48150000				
7.25	Has the agency entered annualization issues (260XXX0) for any issue that was partially funded in Fiscal Year 2021-22? Review Column G66 to determine whether any incremental amounts are needed to fully fund an issue that was initially appropriated in Fiscal Year 2021-22. Do not add annualization issues for pay and benefit distribution issues, as those annualization issues (26AXXX) have already been added to A03.	N/A				
TIP	Salaries and Benefits amounts entered using the OADA/C transactions must be thoroughly justified in the D-3A issue narrative. Agencies can run OADA/OADR from STAM to identify the amounts entered into OAD and ensure these entries have been thoroughly explained in the D-3A issue narrative.					
TIP	The issue narrative must completely and thoroughly explain and justify each D-3A issue. Agencies must ensure it provides the information necessary for the OPB and legislative analysts to have a complete understanding of the issue submitted. Thoroughly review pages 65 through 70 of the LBR Instructions.					
TIP	Check BAPS to verify status of budget amendments. Check for reapprovals not picked up in the General Appropriations Act. Verify that Lump Sum appropriations in Column A02 do not appear in Column A03. Review budget amendments to verify that 160XXX0 issue amounts correspond accurately and net to zero for General Revenue funds.					
TIP	If an agency is receiving federal funds from another agency the FSI should = 9 (Transfer - Recipient of Federal Funds). The agency that originally receives the funds directly from the federal agency should use FSI = 3 (Federal Funds).					
TIP	If an appropriation made in the FY 2021-22 General Appropriations Act duplicates an appropriation made in substantive legislation, the agency must create a unique deduct nonrecurring issue to eliminate the duplicated appropriation. Normally this is taken care of through line item veto.

Office of the Inspector General 24-Month Status Report # F-1920DOE-033 on Report # A-1718-004	8/5/2020	Division of Vocational Rehabilitation (DVR) Center for Independent Living of South Florida (CILSF)	Finding 1. The Center for Independent Living of South Florida (CILSF) policies and procedures need improvements. Recommendation: We recommend the CILSF update its policies and procedures so they do not conflict with contract terms, each other, or the federal regulations.	Management response 6/28/2020: The agency has hired a HR consultant, formed an Adhoc committee to address those concerns. Progress was made and initial first drafts for a number of policies were in the process of being reviewed for revision for the whole board. The virus threw the entire agency into a state of flux. On March 12th, the agency switched to working remotely and have been focused on identifying how to deliver our services and identifying methods to report that information to our funders in an acceptable manner. In addition, our board struggled as well. With over half our board in the high-risk category their energy has continued to be focused on maintaining their health and well-being. For example, our April meeting was cancelled due to not having sufficient members for a quorum. Thankfully our members have started to stabilize and it is the agency's expectation that there will be a fully updated P & P in Oct. of this year. Anticipated Completion Date: 10/28/2020

SCIL also implemented a new Mileage Tracking Reimbursement form.</p> <p>At the request of VR and the SCIL management team; On 10/8/2020 at the SCIL Board Meeting a SCIL credit card was voted on and approved. 		Consumer Service Record (CSR)s		
		Independent Living Plan (ILP)		CIL management response: CIL concur that there were three consumer service records (4%) that did not have signed and dated eligibility documentation before or at the time of the development of the IL plan or services and that currently there is not a specific eligibility determination statement in the CSR. CIL has always documented (but not signed) an individual' s disability prior to the person becoming a consumer and developing an ILP or waiver. This is done at the information and referral (IR) level and notated and dated in a contact note that is merged into the consumer record if and when the individual becomes a consumer and signs all applicable documentation. Our IR procedures specifically state that disability is established before they are referred to any CIL program for services. We will develop and implement a separate eligibility determination form

As for the second part of the recommendation, CIL currently develops IL plans prior to or at the same time that services are rendered. However, in some instances the plan may be developed with the consumer over the phone, initiating services, with the signing of the ILP occurring in the future when staff meet face-to-face with the consumer. Best practice is to assure that the signed and dated plan indicates plan creation concurrent with or prior to services rendered.

Fiscal Year 2022-23 LBR Technical Review Checklist

Department/Budget Entity (Service): EDUCATION/DIVISION OF VOCATIONAL REHABILITATION
Agency Budget Officer/OPB Analyst Name: Roger Godwin

A "Y" indicates "YES" and is acceptable, an "N/J" indicates "NO/Justification Provided" - these require further explanation/justification (additional sheets can be used as necessary), and "TIPS" are other areas to consider.

	Program or Service (Budget Entity Codes)
Action	48160000

1. GENERAL

1.1 Are Columns A01, A04, A05, A91, A92, A93, A94, A95, A96, A36, A10, IA1, IA4, IA5, IA6, IP1, IV1, IV3 and NV1 set to TRANSFER CONTROL for DISPLAY status and MANAGEMENT CONTROL for UPDATE status for both the Budget and Trust Fund columns (no trust fund files for narrative columns)? Is Column A02 set to TRANSFER CONTROL for DISPLAY status and MANAGEMENT CONTROL for UPDATE status for the Trust Fund Files (the Budget Files should already be on TRANSFER CONTROL for DISPLAY and MANAGEMENT CONTROL for UPDATE)? Are Columns A06, A07, A08 and A09 for Fixed Capital Outlay (FCO) set to TRANSFER CONTROL for DISPLAY status only (UPDATE status remains on OWNER)? (CSDI or Web LBR Column Security)	Y				
1.2 Is Column A03 set to TRANSFER CONTROL for DISPLAY and UPDATE status for both the Budget and Trust Fund columns? (CSDI)	Y				

AUDITS:

1.3 Have Column A03 budget files been copied to Column A12? Run the Exhibit B Audit Comparison Report to verify. (EXBR, EXBA)	Y				
1.4 Have Column A03 trust fund files been copied to Column A12? Run Schedule I (SC1R, SC1 or SC1R, SC1D adding column A12) to verify.	Y				
1.5 Has Column A12 security been set correctly to ALL for DISPLAY status and MANAGEMENT CONTROL for UPDATE status for Budget and Trust Fund files? (CSDR, CSA)	Y				
TIP The agency should prepare the budget request for submission in this order: 1) Copy Column A03 to Column A12, and 2) Lock columns as described above. A security control feature included in the LAS/PBS Web upload process requires columns to be in the proper status before uploading to the portal.					

2. EXHIBIT A (EADR, EXA)

2.1 Is the budget entity authority and description consistent with the agency's LRPP and does it conform to the directives provided on page 57 of the LBR Instructions?	Y				
2.2 Are the statewide issues generated systematically (estimated expenditures, nonrecurring expenditures, etc.) included?	Y				
2.3 Are the issue codes and titles consistent with <i>Section 3</i> of the LBR Instructions (pages 15 through 27)? Do they clearly describe the issue?	Y				

	Program or Service (Budget Entity Codes)
Action	48160000

3. EXHIBIT B (EXBR, EXB)

3.1	Is it apparent that there is a fund shift where an appropriation category's funding source is different between A02 and A03? Were the issues entered into LAS/PBS correctly? Check D-3A funding shift issue 340XXX0 - a unique deduct and unique add back issue should be used to ensure fund shifts display correctly on the LBR exhibits.	N/A				
-----	---	-----	--	--	--	--

AUDITS:

3.2	Negative Appropriation Category Audit for Agency Request (Columns A03 and A04): Are all appropriation categories positive by budget entity and program component at the FSI level? Are all nonrecurring amounts less than requested amounts? (NACR, NAC - Report should print "No Negative Appropriation Categories Found")	Y				
-----	--	---	--	--	--	--

3.3	Current Year Estimated Verification Comparison Report: Is Column A02 equal to Column B07? (EXBR, EXBC - Report should print "Records Selected Net To Zero")	Y				
-----	--	---	--	--	--	--

TIP Generally look for and be able to fully explain significant differences between A02 and A03.

TIP Exhibit B - A02 equal to B07: Compares Current Year Estimated column to a backup of A02. This audit is necessary to ensure that the historical detail records have not been adjusted. Records selected should net to zero.

TIP Requests for appropriations which require advance payment authority must use the sub-title "Grants and Aids". For advance payment authority to local units of government, the Aid to Local Government appropriation category (05XXXX) should be used. For advance payment authority to non-profit organizations or other units of state government, a Special Categories appropriation category (10XXXX) should be used.

4. EXHIBIT D (EADR, EXD)

4.1	Is the program component objective statement consistent with the agency LRPP, and does it conform to the directives provided on page 61 of the LBR Instructions?	Y				
-----	--	---	--	--	--	--

4.2	Is the program component code and title used correct?	Y				
-----	---	---	--	--	--	--

TIP Fund shifts or transfers of services or activities between program components will be displayed on an Exhibit D whereas it may not be visible on an Exhibit A.

-----	---	---	--	--	--	--

5.3	FLAIR Expenditure/Appropriation Ledger Comparison Report: Is Column A01 less than Column B04? (EXBR, EXBB - Negative differences [with a \$5,000 allowance] need to be corrected in Column A01.)	Y

		Program or Service (Budget Entity Codes)				
Action		48160000				
TIP	If objects are negative amounts, the agency must make adjustments to Column A01 to correct the object amounts. In addition, the fund totals must be adjusted to reflect the adjustment made to the object data.					
TIP	If fund totals and object totals do not agree or negative object amounts exist, the agency must adjust Column A01.					
TIP	Exhibit B - A01 less than B04: This audit is to ensure that the disbursements and carry/certifications forward in A01 are less than FY 2020-21 approved budget. Amounts should be positive. The \$5,000 allowance is necessary for rounding.					
TIP	If B08 is not equal to A01, check the following: 1) the initial FLAIR disbursements or carry forward data load was corrected appropriately in A01; 2) the disbursement data from departmental FLAIR was reconciled to State Accounts; and 3) the FLAIR disbursements did not change after Column B08 was created. Note that there is a \$5,000 allowance at the department level.

7.6	Does the salary rate request amount accurately reflect any new requests and are the amounts proportionate to the Salaries and Benefits request? Note: Salary rate should always be annualized.	N/A				
7.7	Does the issue narrative thoroughly explain/justify all Salaries and Benefits amounts entered into the Other Salary Amounts transactions (OADA/C)? 7.10	Do the 160XXX0 issues reflect budget amendments that have been approved (or in the process of being approved) and that have a recurring impact (including Lump Sums)? Have the approved budget amendments been entered in Column A18 as instructed in Memo #22-001?	N/A N/A				
7.11	When appropriate are there any 160XXX0 issues included to delete positions placed in reserve in the LAS/PBS Position and Rate Ledger (e.g. unfunded grants)? Note: Lump sum appropriations not yet allocated should <u>not</u> be deleted. (PLRR, PLMO)	N/A

7.20	Does the General Revenue for 160XXXX (Adjustments to Current Year Expenditures) issues net to zero? (GENR, LBR1)	Y				
7.21	Does the General Revenue for 180XXXX (Intra-Agency Reorganizations) issues net to zero? (GENR, LBR2)	N/A

(GENR, LBR4 - Report should print "No Records Selected For Reporting" or a listing of D-3A issue(s) assigned to Debt Service (IOE N) or in some cases State Capital Outlay - Public Education Capital Outlay (IOE L))	N/A				

		Program or Service (Budget Entity Codes)				
Action		48160000				
7.24	Has narrative been entered for all issues requested by the agency? Agencies do not need to include narrative for startup issues (1001000, 2103XXX, etc.) that were not input by the agency. (NAAR, BSNR)	Y				
7.25	Has the agency entered annualization issues (260XXX0) for any issue that was partially funded in Fiscal Year 2021-22? Review Column G66 to determine whether any incremental amounts are needed to fully fund an issue that was initially appropriated in Fiscal Year 2021-22. Do not add annualization issues for pay and benefit distribution issues, as those annualization issues (26AXXXX) have already been added to A03.	N/A				
TIP	Salaries and Benefits amounts entered using the OADA/C transactions must be thoroughly justified in the D-3A issue narrative. Agencies can run OADA/OADR from STAM to identify the amounts entered into OAD and ensure these entries have been thoroughly explained in the D-3A issue narrative.					
TIP	The issue narrative must completely and thoroughly explain and justify each D-3A issue. Agencies must ensure it provides the information necessary for the OPB and legislative analysts to have a complete understanding of the issue submitted. Thoroughly review pages 65 through 70 of the LBR Instructions.					
TIP	Check BAPS to verify status of budget amendments. Check for reapprovals not picked up in the General Appropriations Act. Verify that Lump Sum appropriations in Column A02 do not appear in Column A03. Review budget amendments to verify that 160XXX0 issue amounts correspond accurately and net to zero for General Revenue funds.					
TIP	If an agency is receiving federal funds from another agency the FSI should = 9 (Transfer - Recipient of Federal Funds). The agency that originally receives the funds directly from the federal agency should use FSI = 3 (Federal Funds).					
TIP	If an appropriation made in the FY 2021-22 General Appropriations Act duplicates an appropriation made in substantive legislation, the agency must create a unique deduct nonrecurring issue to eliminate the duplicated appropriation. Normally this is taken care of through line item veto.

Comprehensive Functional Assessments occurred after the client's individualized plan was developed and signed. Recommendation: We recommend the Division clarify requirements for the recording of CFAs through its program manual and its contracts to better direct CRP case managers completing the CFAs. We recommend DBS monitor the CRPs to ensure the needs assessments are completed prior to the plans. DBS may also consider conducting training and technical assistance following these adjustments to ensure services rendered to older blind clients are offered through consistent application of assessment tools.	DBS management response: Concur. The action items to be taken are as follows: 1. Clarify requirements: * Update program manual to match correct language. * Update AWARE pages for CFA reporting consistency. 2. Contract monitoring: * The contract Management and Compliance Team provides monthly reviews of client assessments and valid plans. However, beginning 1/1/2021, the team will begin to review and monitor the dates of completed assessments to ensure alignment with the Program Manual. 3. Technical Assistance: * Draft memo clarifying requirements (to include updated language) and AWARE changes. * Set up training via TEAMS review updates and requirements.

DBS should also consider developing a monitoring tracking system that displays the timing of its monitoring process to include scheduled visits, summarized results of visits, findings identified, and the dates corrective actions were implemented and completed.	DBS management response: Concur. The action items to be taken are as follows: 1. the contract Monitoring and Compliance Team will finalize and send monitoring reports and results to CRPs for the 2020-21 fiscal year. 2. Department/Budget Entity (Service): Education, Blind Services, Division of
Agency Budget Officer/OPB Analyst Name: Alicia Bevis

A "Y" indicates "YES" and is acceptable, an "N/J" indicates "NO/Justification Provided" - these require further explanation/justification (additional sheets can be used as necessary), and "TIPS" are other areas to consider.

	Program or Service (Budget Entity Codes)			
Action	48180000			

1. GENERAL				
1.1 Are Columns A01, A04, A05, A91, A92, A93, A94, A95, A96, A36, A10, IA1, IA4, IA5, IA6, IP1, IV1, IV3 and NV1 set to TRANSFER CONTROL for DISPLAY status and MANAGEMENT CONTROL for UPDATE status for both the Budget and Trust Fund columns (no trust fund files for narrative columns)? Is Column A02 set to TRANSFER CONTROL for DISPLAY status and MANAGEMENT CONTROL for UPDATE status for the Trust Fund Files (the Budget Files should already be on TRANSFER CONTROL for DISPLAY and MANAGEMENT CONTROL for UPDATE)? Are Columns A06, A07, A08 and A09 for Fixed Capital Outlay (FCO) set to TRANSFER CONTROL for DISPLAY status only (UPDATE status remains on OWNER)? (CSDI or Web LBR Column Security)	Y			
1.2 Is Column A03 set to TRANSFER CONTROL for DISPLAY and UPDATE status for both the Budget and Trust Fund columns? (CSDI)	Y			
AUDITS:				
1.3 Have Column A03 budget files been copied to Column A12? Run the Exhibit B Audit Comparison Report to verify. (EXBR, EXBA)	Y			
1.4 Have Column A03 trust fund files been copied to Column A12? Run Schedule I (SC1R, SC1 or SC1R, SC1D adding column A12) to verify.	Y			
1.5 Has Column A12 security been set correctly to ALL for DISPLAY status and MANAGEMENT CONTROL for UPDATE status for Budget and Trust Fund files? (CSDR, CSA)	Y			
TIP The agency should prepare the budget request for submission in this order: 1) Copy Column A03 to Column A12, and 2) Lock columns as described above. A security control feature included in the LAS/PBS Web upload process requires columns to be in the proper status before uploading to the portal.				
2. EXHIBIT A (EADR, EXA)				
2.1 Is the budget entity authority and description consistent with the agency's LRPP and does it conform to the directives provided on page 57 of the LBR Instructions?	Y			
2.2 Are the statewide issues generated systematically (estimated expenditures, nonrecurring expenditures, etc.) included?	Y			
2.3 Are the issue codes and titles consistent with <i>Section 3</i> of the LBR Instructions (pages 15 through 27)? Do they clearly describe the issue?	Y			
3. EXHIBIT B (EXBR, EXB)				

		Program or Service (Budget Entity Codes)			
Action		48180000			
3.1	Is it apparent that there is a fund shift where an appropriation category's funding source is different between A02 and A03? Were the issues entered into LAS/PBS correctly? Check D-3A funding shift issue 340XXX0 - a unique deduct and unique add back issue should be used to ensure fund shifts display correctly on the LBR exhibits.	N/A,N/A			
AUDITS:					
3.2	Negative Appropriation Category Audit for Agency Request (Columns A03 and A04): Are all appropriation categories positive by budget entity and program component at the FSI level? Are all nonrecurring amounts less than requested amounts? (NACR, NAC - Report should print "No Negative Appropriation Categories Found")	Y,Y			
3.3	Current Year Estimated Verification Comparison Report: Is Column A02 equal to Column B07? (EXBR, EXBC - Report should print "Records Selected Net To Zero")	Y

TIP	Requests for appropriations which require advance payment authority must use the sub-title "Grants and Aids". For advance payment authority to local units of government, the Aid to Local Government appropriation category (05XXXX) should be used. AUDITS:					
5.2	Do the fund totals agree with the object category totals within each appropriation category? (ED1R, XD1A - Report should print "No Differences Found For This Report")	Y			
5.3	FLAIR Expenditure/Appropriation Ledger Comparison Report: Is Column A01 less than Column B04? (EXBR, EXBB - Negative differences [with a \$5,000 allowance] need to be corrected in Column A01.)	Y

		Program or Service (Budget Entity Codes)			
Action		48180000			
TIP	If objects are negative amounts, the agency must make adjustments to Column A01 to correct the object amounts. In addition, the fund totals must be adjusted to reflect the adjustment made to the object data.

Note that there is a \$5,000 allowance at the department level.				
6. EXHIBIT D-3 (ED3R, ED3) (Not required in the LBR - for analytical purposes only.)					
6.1	Are issues appropriately aligned with appropriation categories?	Y

7.7	Does the issue narrative thoroughly explain/justify all Salaries and Benefits amounts entered into the Other Salary Amounts transactions (OADA/C)? Amounts entered into OAD are reflected in the Position Detail of Salaries and Benefits section of the Exhibit D-3A. (See pages 93 through 95 of the LBR Instructions.)	N/A			
7.8	Does the issue narrative include the Consensus Estimating Conference forecast, where appropriate?	Y

7.11	When appropriate are there any 160XXX0 issues included to delete positions placed in reserve in the LAS/PBS Position and Rate Ledger (e.g. unfunded grants)? Note: Lump sum appropriations not yet allocated should <u>not</u> be deleted. (PLRR, PLMO)	N/A

7.15	Are the 33XXXX0 issues negative amounts only and do not restore nonrecurring cuts from a prior year or fund any issues that net to a positive or zero amount? Check D-3A issues 33XXXX0 - a unique issue should be used for issues that net to zero or a positive amount.	N/A			
7.16	Do the issue codes relating to special <i>salary and benefits</i> issues (e.g., position reclassification, pay grade adjustment, overtime/on-call pay, etc.) have an "A" in the fifth position of the issue code (XXXXAXX) and are they self-contained (not combined with other issues)? (See pages 26 and 90 of the LBR Instructions.)	N/A			
7.17	Do the issues relating to <i>Information Technology (IT)</i> have a "C" in the sixth position of the issue code (36XXXXCX) and are the correct issue codes used (361XXC0, 362XXC0, 363XXC0, 24010C0, 30010C0, 33011C0, 160E470, or 160E480)?	N/A

7.24	Has narrative been entered for all issues requested by the agency? Agencies do not need to include narrative for startup issues (1001000, 2103XXX, etc.) that were not input by the agency. (NAAR, BSNR)	N/A			

		Program or Service (Budget Entity Codes)				
Action		48180000				
7.25	Has the agency entered annualization issues (260XXX0) for any issue that was partially funded in Fiscal Year 2021-22? Review Column G66 to determine whether any incremental amounts are needed to fully fund an issue that was initially appropriated in Fiscal Year 2021-22. Do not add annualization issues for pay and benefit distribution issues, as those annualization issues (26AXXXX) have already been added to A03.	N/A				
TIP	Salaries and Benefits amounts entered using the OADA/C transactions must be thoroughly justified in the D-3A issue narrative. Agencies can run OADA/OADR from STAM to identify the amounts entered into OAD and ensure these entries have been thoroughly explained in the D-3A issue narrative.					
TIP	The issue narrative must completely and thoroughly explain and justify each D-3A issue. Agencies must ensure it provides the information necessary for the OPB and legislative analysts to have a complete understanding of the issue submitted. Thoroughly review pages 65 through 70 of the LBR Instructions.					
TIP	Check BAPS to verify status of budget amendments. Check for reapprovals not picked up in the General Appropriations Act. Verify that Lump Sum appropriations in Column A02 do not appear in Column A03. Review budget amendments to verify that 160XXX0 issue amounts correspond accurately and net to zero for General Revenue funds.					
TIP	If an agency is receiving federal funds from another agency the FSI should = 9 (Transfer - Recipient of Federal Funds). The agency that originally receives the funds directly from the federal agency should use FSI = 3 (Federal Funds).					
TIP	If an appropriation made in the FY 2021-22 General Appropriations Act duplicates an appropriation made in substantive legislation, the agency must create a unique deduct nonrecurring issue to eliminate the duplicated appropriation. Normally this is taken care of through line item veto.

Are Columns A06, A07, A08 and A09 for Fixed Capital Outlay (FCO) set to TRANSFER CONTROL for DISPLAY status only (UPDATE status remains on OWNER)? (CSDI or Web LBR Column Security)	Y				
1.2 Is Column A03 set to TRANSFER CONTROL for DISPLAY and UPDATE status for both the Budget and Trust Fund columns? (CSDI)	Y

TIP	Requests for appropriations which require advance payment authority must use the sub-title "Grants and Aids". For advance payment authority to local units of government, the Aid to Local Government appropriation category (05XXXX) should be used. 7.14	Do the amounts reflect appropriate FSI assignments?	Y				
7.15	Are the 33XXXX0 issues negative amounts only and do not restore nonrecurring cuts from a prior year or fund any issues that net to a positive or zero amount? Check D-3A issues 33XXXX0 - a unique issue should be used for issues that net to zero or a positive amount.	N/A				
7.16	Do the issue codes relating to special <i>salary and benefits</i> issues (e.g., position reclassification, pay grade adjustment, overtime/on-call pay, etc.) have an "A" in the fifth position of the issue code (XXXXAXX) and are they self-contained (not combined with other issues)? (See pages 26 and 90 of the LBR Instructions.)	N/A				
7.17	Do the issues relating to <i>Information Technology (IT)</i> have a "C" in the sixth position of the issue code (36XXXXCX) and are the correct issue codes used (361XXC0, 362XXC0, 363XXC0, 24010C0, 30010C0, 33011C0, 160E470, or 160E480)?	N/A

7.24	Has narrative been entered for all issues requested by the agency? Agencies do not need to include narrative for startup issues (1001000, 2103XXX, etc.) that were not input by the agency. (NAAR, BSNR)	Y				

		Program or Service (Budget Entity Codes)				
Action		4819000				
7.25	Has the agency entered annualization issues (260XXX0) for any issue that was partially funded in Fiscal Year 2021-22? Review Column G66 to determine whether any incremental amounts are needed to fully fund an issue that was initially appropriated in Fiscal Year 2021-22. Do not add annualization issues for pay and benefit distribution issues, as those annualization issues (26AXXXX) have already been added to A03.	Y				
TIP	Salaries and Benefits amounts entered using the OADA/C transactions must be thoroughly justified in the D-3A issue narrative. Agencies can run OADA/OADR from STAM to identify the amounts entered into OAD and ensure these entries have been thoroughly explained in the D-3A issue narrative.					
TIP	The issue narrative must completely and thoroughly explain and justify each D-3A issue. Agencies must ensure it provides the information necessary for the OPB and legislative analysts to have a complete understanding of the issue submitted. Thoroughly review pages 65 through 70 of the LBR Instructions.					
TIP	Check BAPS to verify status of budget amendments. Check for reapprovals not picked up in the General Appropriations Act. Verify that Lump Sum appropriations in Column A02 do not appear in Column A03. Review budget amendments to verify that 160XXX0 issue amounts correspond accurately and net to zero for General Revenue funds.					
TIP	If an agency is receiving federal funds from another agency the FSI should = 9 (Transfer - Recipient of Federal Funds). The agency that originally receives the funds directly from the federal agency should use FSI = 3 (Federal Funds).					
TIP	If an appropriation made in the FY 2021-22 General Appropriations Act duplicates an appropriation made in substantive legislation, the agency must create a unique deduct nonrecurring issue to eliminate the duplicated appropriation. Normally this is taken care of through line item veto.

7.17	Do the issues relating to <i>Information Technology (IT)</i> have a "C" in the sixth position of the issue code (36XXXXCX) and are the correct issue codes used (361XXC0, 362XXC0, 363XXC0, 24010C0, 30010C0, 33011C0, 160E470, or 160E480)?	N/A				
7.18	Are the issues relating to <i>major audit findings and recommendations</i> properly coded (4A0XXX0, 4B0XXX0)?	N/A				
7.19	Does the issue narrative identify the strategy or strategies in the Five Year Statewide Strategic Plan for Economic Development?	Y				
AUDIT:						
7.20	Does the General Revenue for 160XXXX (Adjustments to Current Year Expenditures) issues net to zero? (GENR, LBR1)	N/A				
7.21	Does the General Revenue for 180XXXX (Intra-Agency Reorganizations) issues net to zero? (GENR, LBR2)	N/A				
7.22	Does the General Revenue for 200XXXX (Estimated Expenditures Realignment) issues net to zero? (GENR, LBR3)	N/A

7.24	Has narrative been entered for all issues requested by the agency? Agencies do not need to include narrative for startup issues (1001000, 2103XXX, etc.) that were not input by the agency. (NAAR, BSNR)	Y				

		Program or Service (Budget Entity Codes)				
Action		48200200				
7.25	Has the agency entered annualization issues (260XXX0) for any issue that was partially funded in Fiscal Year 2021-22? Review Column G66 to determine whether any incremental amounts are needed to fully fund an issue that was initially appropriated in Fiscal Year 2021-22. Do not add annualization issues for pay and benefit distribution issues, as those annualization issues (26AXXXX) have already been added to A03.	Y				
TIP	Salaries and Benefits amounts entered using the OADA/C transactions must be thoroughly justified in the D-3A issue narrative. Agencies can run OADA/OADR from STAM to identify the amounts entered into OAD and ensure these entries have been thoroughly explained in the D-3A issue narrative.					
TIP	The issue narrative must completely and thoroughly explain and justify each D-3A issue. Agencies must ensure it provides the information necessary for the OPB and legislative analysts to have a complete understanding of the issue submitted. Thoroughly review pages 65 through 70 of the LBR Instructions.					
TIP	Check BAPS to verify status of budget amendments. Check for reapprovals not picked up in the General Appropriations Act. Verify that Lump Sum appropriations in Column A02 do not appear in Column A03. Review budget amendments to verify that 160XXX0 issue amounts correspond accurately and net to zero for General Revenue funds.					
TIP	If an agency is receiving federal funds from another agency the FSI should = 9 (Transfer - Recipient of Federal Funds). The agency that originally receives the funds directly from the federal agency should use FSI = 3 (Federal Funds).					
TIP	If an appropriation made in the FY 2021-22 General Appropriations Act duplicates an appropriation made in substantive legislation, the agency must create a unique deduct nonrecurring issue to eliminate the duplicated appropriation. Normally this is taken care of through line item veto.

Action	48200300

1. GENERAL

1.1 Are Columns A01, A04, A05, A91, A92, A93, A94, A95, A96, A36, A10, IA1, IA4, IA5, IA6, IP1, IV1, IV3 and NV1 set to TRANSFER CONTROL for DISPLAY status and MANAGEMENT CONTROL for UPDATE status for both the Budget and Trust Fund columns (no trust fund files for narrative columns)? Is Column A02 set to TRANSFER CONTROL for DISPLAY status and MANAGEMENT CONTROL for UPDATE status for the Trust Fund Files (the Budget Files should already be on TRANSFER CONTROL for DISPLAY and MANAGEMENT CONTROL for UPDATE)? Are Columns A06, A07, A08 and A09 for Fixed Capital Outlay (FCO) set to TRANSFER CONTROL for DISPLAY status only (UPDATE status remains on OWNER)? (CSDI or Web LBR Column Security)	Y				
1.2 Is Column A03 set to TRANSFER CONTROL for DISPLAY and UPDATE status for both the Budget and Trust Fund columns? (CSDI)	Y				

AUDITS:

1.3 Have Column A03 budget files been copied to Column A12? Run the Exhibit B Audit Comparison Report to verify. (EXBR, EXBA)	Y				
1.4 Have Column A03 trust fund files been copied to Column A12? Run Schedule I (SC1R, SC1 or SC1R, SC1D adding column A12) to verify.	Y				
1.5 Has Column A12 security been set correctly to ALL for DISPLAY status and MANAGEMENT CONTROL for UPDATE status for Budget and Trust Fund files? (CSDR, CSA)	Y				

TIP The agency should prepare the budget request for submission in this order: 1) Copy Column A03 to Column A12, and 2) Lock columns as described above. A security control feature included in the LAS/PBS Web upload process requires columns to be in the proper status before uploading to the portal.

2. EXHIBIT A (EADR, EXA)

2.1 Is the budget entity authority and description consistent with the agency's LRPP and does it conform to the directives provided on page 57 of the LBR Instructions?	Y				
2.2 Are the statewide issues generated systematically (estimated expenditures, nonrecurring expenditures, etc.) included?	Y				
2.3 Are the issue codes and titles consistent with <i>Section 3</i> of the LBR Instructions (pages 15 through 27)? Do they clearly describe the issue?	Y				

3. EXHIBIT B (EXBR, EXB)

		Program or Service (Budget Entity Codes)			
Action		48200300			
3.1	Is it apparent that there is a fund shift where an appropriation category's funding source is different between A02 and A03? Were the issues entered into LAS/PBS correctly? Check D-3A funding shift issue 340XXX0 - a unique deduct and unique add back issue should be used to ensure fund shifts display correctly on the LBR exhibits.	N/A, N/A			
AUDITS:					
3.2	Negative Appropriation Category Audit for Agency Request (Columns A03 and A04): Are all appropriation categories positive by budget entity and program component at the FSI level? Are all nonrecurring amounts less than requested amounts? (NACR, NAC - Report should print "No Negative Appropriation Categories Found")	Y, Y			
3.3	Current Year Estimated Verification Comparison Report: Is Column A02 equal to Column B07? (EXBR, EXBC - Report should print "Records Selected Net To Zero")	Y			
TIP	Generally look for and be able to fully explain significant differences between A02 and A03.				
TIP	Exhibit B - A02 equal to B07: Compares Current Year Estimated column to a backup of A02. This audit is necessary to ensure that the historical detail records have not been adjusted. Records selected should net to zero.				
TIP	Requests for appropriations which require advance payment authority must use the sub-title "Grants and Aids". For advance payment authority to local units of government, the Aid to Local Government appropriation category (05XXXX) should be used. For advance payment authority to non-profit organizations or other units of state government, a Special Categories appropriation category (10XXXX) should be used.				
4. EXHIBIT D (EADR, EXD)					
4.1	Is the program component objective statement consistent with the agency LRPP, and does it conform to the directives provided on page 61 of the LBR Instructions?	Y			
4.2	Is the program component code and title used correct?	Y			
TIP	Fund shifts or transfers of services or activities between program components will be displayed on an Exhibit D whereas it may not be visible on an Exhibit A.				
5. EXHIBIT D-1 (ED1R, EXD1)					
5.1	Are all object of expenditures positive amounts? (This is a manual check.)	Y			
AUDITS:					
5.2	Do the fund totals agree with the object category totals within each appropriation category? (ED1R, XD1A - Report should print "No Differences Found For This Report")	Y			
5.3	FLAIR Expenditure/Appropriation Ledger Comparison Report: Is Column A01 less than Column B04? (EXBR, EXBB - Negative differences [with a \$5,000 allowance] need to be corrected in Column A01.)	Y			
5.4	A01/State Accounts Disbursements and Carry Forward Comparison Report: Does Column A01 equal Column B08? (EXBR, EXBD - Differences [with a \$5,000 allowance at the department level] need to be corrected in Column A01.)	Y			

		Program or Service (Budget Entity Codes)			
Action		48200300			
TIP	If objects are negative amounts, the agency must make adjustments to Column A01 to correct the object amounts. In addition, the fund totals must be adjusted to reflect the adjustment made to the object data.				
TIP	If fund totals and object totals do not agree or negative object amounts exist, the agency must adjust Column A01.				
TIP	Exhibit B - A01 less than B04: This audit is to ensure that the disbursements and carry/certifications forward in A01 are less than FY 2020-21 approved budget. Amounts should be positive. The \$5,000 allowance is necessary for rounding.				
TIP	If B08 is not equal to A01, check the following: 1) the initial FLAIR disbursements or carry forward data load was corrected appropriately in A01; 2) the disbursement data from departmental FLAIR was reconciled to State Accounts; and 3) the FLAIR disbursements did not change after Column B08 was created. Note that there is a \$5,000 allowance at the department level.				
6. EXHIBIT D-3 (ED3R, ED3) (Not required in the LBR - for analytical purposes only.)					
6.1	Are issues appropriately aligned with appropriation categories?	Y

7.10	Do the 160XXX0 issues reflect budget amendments that have been approved (or in the process of being approved) and that have a recurring impact (including Lump Sums)? Have the approved budget amendments been entered in Column A18 as instructed in Memo #22-001?	N/A, N/A			
7.11	When appropriate are there any 160XXX0 issues included to delete positions placed in reserve in the LAS/PBS Position and Rate Ledger (e.g. unfunded grants)? Note: Lump sum appropriations not yet allocated should <u>not</u> be deleted. (PLRR, PLMO)	N/A			
7.12	Does the issue narrative include plans to satisfy additional space requirements when requesting additional positions?	N/A			
7.13	Has the agency included a 160XXX0 issue and 210XXXX and 260XXX0 issues as required for lump sum distributions?	N/A			
7.14	Do the amounts reflect appropriate FSI assignments?	Y			
7.15	Are the 33XXXX0 issues negative amounts only and do not restore nonrecurring cuts from a prior year or fund any issues that net to a positive or zero amount? Check D-3A issues 33XXXX0 - a unique issue should be used for issues that net to zero or a positive amount.	N/A			
7.16	Do the issue codes relating to special <i>salary and benefits</i> issues (e.g., position reclassification, pay grade adjustment, overtime/on-call pay, etc.) have an "A" in the fifth position of the issue code (XXXXAXX) and are they self-contained (not combined with other issues)? (See pages 26 and 90 of the LBR Instructions.)	N/A			
7.17	Do the issues relating to <i>Information Technology (IT)</i> have a "C" in the sixth position of the issue code (36XXXXCX) and are the correct issue codes used (361XXC0, 362XXC0, 363XXC0, 24010C0, 30010C0, 33011C0, 160E470, or 160E480)?	N/A			
7.18	Are the issues relating to <i>major audit findings and recommendations</i> properly coded (4A0XXX0, 4B0XXX0)?	N/A			
7.19	Does the issue narrative identify the strategy or strategies in the Five Year Statewide Strategic Plan for Economic Development?	Y

7.20	Does the General Revenue for 160XXXX (Adjustments to Current Year Expenditures) issues net to zero? (GENR, LBR1)	N/A			
7.21	Does the General Revenue for 180XXXX (Intra-Agency Reorganizations) issues net to zero? (GENR, LBR2)	N/A

7.24	Has narrative been entered for all issues requested by the agency? Agencies do not need to include narrative for startup issues (1001000, 2103XXX, etc.) that were not input by the agency. (NAAR, BSNR)	Y			

		Program or Service (Budget Entity Codes)			
Action		48200300			
7.25	Has the agency entered annualization issues (260XXX0) for any issue that was partially funded in Fiscal Year 2021-22? Review Column G66 to determine whether any incremental amounts are needed to fully fund an issue that was initially appropriated in Fiscal Year 2021-22. Do not add annualization issues for pay and benefit distribution issues, as those annualization issues (26AXXXX) have already been added to A03.	Y			
TIP	Salaries and Benefits amounts entered using the OADA/C transactions must be thoroughly justified in the D-3A issue narrative. Agencies can run OADA/OADR from STAM to identify the amounts entered into OAD and ensure these entries have been thoroughly explained in the D-3A issue narrative.				
TIP	The issue narrative must completely and thoroughly explain and justify each D-3A issue. Agencies must ensure it provides the information necessary for the OPB and legislative analysts to have a complete understanding of the issue submitted. Thoroughly review pages 65 through 70 of the LBR Instructions.				
TIP	Check BAPS to verify status of budget amendments. Check for reapprovals not picked up in the General Appropriations Act. Verify that Lump Sum appropriations in Column A02 do not appear in Column A03. Review budget amendments to verify that 160XXX0 issue amounts correspond accurately and net to zero for General Revenue funds.				
TIP	If an agency is receiving federal funds from another agency the FSI should = 9 (Transfer - Recipient of Federal Funds). The agency that originally receives the funds directly from the federal agency should use FSI = 3 (Federal Funds).				
TIP	If an appropriation made in the FY 2021-22 General Appropriations Act duplicates an appropriation made in substantive legislation, the agency must create a unique deduct nonrecurring issue to eliminate the duplicated appropriation. Normally this is taken care of through line item veto.

Action	48220400				

1. GENERAL

1.1 Are Columns A01, A04, A05, A91, A92, A93, A94, A95, A96, A36, A10, IA1, IA4, IA5, IA6, IP1, IV1, IV3 and NV1 set to TRANSFER CONTROL for DISPLAY status and MANAGEMENT CONTROL for UPDATE status for both the Budget and Trust Fund columns (no trust fund files for narrative columns)? Is Column A02 set to TRANSFER CONTROL for DISPLAY status and MANAGEMENT CONTROL for UPDATE status for the Trust Fund Files (the Budget Files should already be on TRANSFER CONTROL for DISPLAY and MANAGEMENT CONTROL for UPDATE)? Are Columns A06, A07, A08 and A09 for Fixed Capital Outlay (FCO) set to TRANSFER CONTROL for DISPLAY status only (UPDATE status remains on OWNER)? (CSDI or Web LBR Column Security)	Y				
1.2 Is Column A03 set to TRANSFER CONTROL for DISPLAY and UPDATE status for both the Budget and Trust Fund columns? (CSDI)	Y				

AUDITS:

1.3 Have Column A03 budget files been copied to Column A12? Run the Exhibit B Audit Comparison Report to verify. (EXBR, EXBA)	Y

TIP	Exhibit B - A02 equal to B07: Compares Current Year Estimated column to a backup of A02. This audit is necessary to ensure that the historical detail records have not been adjusted. Records selected should net to zero.				
TIP	Requests for appropriations which require advance payment authority must use the sub-title "Grants and Aids". For advance payment authority to local units of government, the Aid to Local Government appropriation category (05XXXX) should be used. For advance payment authority to non-profit organizations or other units of state government, a Special Categories appropriation category (10XXXX) should be used.

4.1	Is the program component objective statement consistent with the agency LRPP, and does it conform to the directives provided on page 61 of the LBR Instructions?	Y			
4.2	Is the program component code and title used correct?	Y			
TIP	Fund shifts or transfers of services or activities between program components will be displayed on an Exhibit D whereas it may not be visible on an Exhibit A.				
5. EXHIBIT D-1 (ED1R, EXD1)					
5.1	Are all object of expenditures positive amounts? (This is a manual check.)	Y

5.3	FLAIR Expenditure/Appropriation Ledger Comparison Report: Is Column A01 less than Column B04? (EXBR, EXBB - Negative differences [with a \$5,000 allowance] need to be corrected in Column A01.)	Y			
5.4	A01/State Accounts Disbursements and Carry Forward Comparison Report: Does Column A01 equal Column B08? (EXBR, EXBD - Differences [with a \$5,000 allowance at the department level] need to be corrected in Column A01.)	N, FSDB			
TIP	If objects are negative amounts, the agency must make adjustments to Column A01 to correct the object amounts. In addition, the fund totals must be adjusted to reflect the adjustment made to the object data.				
TIP	If fund totals and object totals do not agree or negative object amounts exist, the agency must adjust Column A01.				
TIP	Exhibit B - A01 less than B04: This audit is to ensure that the disbursements and carry/certifications forward in A01 are less than FY 2020-21 approved budget. Amounts should be positive. The \$5,000 allowance is necessary for rounding.				

		Program or Service (Budget Entity Codes)			
Action		48250300			
TIP If B08 is not equal to A01, check the following: 1) the initial FLAIR disbursements or carry forward data load was corrected appropriately in A01; 2) the disbursement data from departmental FLAIR was reconciled to State Accounts; and 3) the FLAIR disbursements did not change after Column B08 was created. Note that there is a \$5,000 allowance at the department level.

6.1	Are issues appropriately aligned with appropriation categories?	Y

7.10	Do the 160XXX0 issues reflect budget amendments that have been approved (or in the process of being approved) and that have a recurring impact (including Lump Sums)? Have the approved budget amendments been entered in Column A18 as instructed in Memo #22-001?	N/A N/A			
7.11	When appropriate are there any 160XXX0 issues included to delete positions placed in reserve in the LAS/PBS Position and Rate Ledger (e.g. unfunded grants)? Note: Lump sum appropriations not yet allocated should <u>not</u> be deleted. (PLRR, PLMO)	N/A

7.23	Have FCO appropriations been entered into the nonrecurring column (A04)? (GENR, LBR4 - Report should print "No Records Selected For Reporting" or a listing of D-3A issue(s) assigned to Debt Service (IOE N) or in some cases State Capital Outlay - Public Education Capital Outlay (IOE L))	N/A			
7.24	Has narrative been entered for all issues requested by the agency? Agencies do not need to include narrative for startup issues (1001000, 2103XXX, etc.) that were not input by the agency. (NAAR, BSNR)	Y			
7.25	Has the agency entered annualization issues (260XXX0) for any issue that was partially funded in Fiscal Year 2021-22? Review Column G66 to determine whether any incremental amounts are needed to fully fund an issue that was initially appropriated in Fiscal Year 2021-22. Do not add annualization issues for pay and benefit distribution issues, as those annualization issues (26AXXXX) have already been added to A03.	N/A			
TIP	Salaries and Benefits amounts entered using the OADA/C transactions must be thoroughly justified in the D-3A issue narrative. Agencies can run OADA/OADR from STAM to identify the amounts entered into OAD and ensure these entries have been thoroughly explained in the D-3A issue narrative.				
TIP	The issue narrative must completely and thoroughly explain and justify each D-3A issue. Agencies must ensure it provides the information necessary for the OPB and legislative analysts to have a complete understanding of the issue submitted. Thoroughly review pages 65 through 70 of the LBR Instructions.				

	Program or Service (Budget Entity Codes)			
Action	48250300			

TIP	Check BAPS to verify status of budget amendments. Check for reapprovals not picked up in the General Appropriations Act. Verify that Lump Sum appropriations in Column A02 do not appear in Column A03. Review budget amendments to verify that 160XXX0 issue amounts correspond accurately and net to zero for General Revenue funds.				
TIP	If an agency is receiving federal funds from another agency the FSI should = 9 (Transfer - Recipient of Federal Funds). The agency that originally receives the funds directly from the federal agency should use FSI = 3 (Federal Funds).				
TIP	If an appropriation made in the FY 2021-22 General Appropriations Act duplicates an appropriation made in substantive legislation, the agency must create a unique deduct nonrecurring issue to eliminate the duplicated appropriation. Normally this is taken care of through line item veto.

BFCO management and Kid's Hope Alliance did not meet the average daily attendance goal. Recommendation: We recommend Kid's Hope Alliance strive to meet the average daily attendance goal for both sites in accordance with the application. This could be accomplished by enhancing marketing and awareness activities for this grant program in order to raise parental awareness whose youth would benefit from the program. Current queries and calculations return inconsistent data and reports; Versa Analytics is not operational; and the Versa system could be enhanced. Recommendation: We recommend BEC and DTI determine the required calculations and subsequent queries based on the needs of the program office, validate the calculations, and maintain documentation of the calculations and queries for future use. We recommend BEC and DTI cross-train team members on the Versa system and the certification process in the event a team member departs from the agency and is no longer available to perform the needed We recommend BEC partner with DTI to develop custom reports based on select original Logi reports, which then could be provided routinely to BEC to assist them in tracking production on a daily, weekly, monthly, and quarterly basis. We additionally recommend BEC and DTI engage in discussions with the Versa vendor regarding the inability to use the Versa Analytics tool purchased as part of the contract. We recommend BEC conduct a cost analysis for enhancing the Versa system in order to make key dates visible to users. We also recommend BEC and DTI consider continuation of the previous request for quote to procure the services of an IT professional to assess the Versa system and BEC business processes and produce a gap analysis to identify areas where system enhancements could better support the business processes and ensure competent, reliable data and reports.	BEC management response 4/1/2021: Concur. The BEC will coordinate with our development team in DTI to cross train team members on required calculations and subsequent queries. The BEC will also partner with our development team in STI to develop custom reports to assist in tracking production per the OIG recommendation. Additionally , the BEC will explore the functionality of the Versa Analytics Program with our development team in DTI and Tyler Technologies. Finally, BEC and Educator Quality leadership will explore conducting a business analysis with a third party to identify potential areas for enhancement.

BEC did not process all applications within statutory timeframes.</p> <p>Recommendation: We recommend BEC and DTI determine the required calculations and subsequent queries based on the needs of the program office, validate the calculations, and maintain documentation of the calculations and queries for future use. We recommend BEC ensure all applications are processed in the time frame allotted by the Florida Statutes and decrease the time between the date the applications are eligible for evaluation and the date assigned to a specialist. We recommend BEC conduct a cost analysis for enhancing the Versa system in order to assign applications more efficiently and timely.</p> <p>We recommend BEC cross train team members on the certification process in the event additional staff is needed to process applications timely when application numbers surge. Finally, we recommend BEC consider moving District Issue Requests without associated background screening results to the release queue until the background screening results are appropriately provided and the application can be processed.</p> <p>Finding 3. Security Controls - User Access Per Florida Administrative Code Rule 74-2.003, each agency shall ensure that access to information technology (IT) resources is limited to authorized users, processes, or devices, and to authorized activities and transactions.</p> <p>Recommendation: We recommend that BEC improve security controls related to user access to ensure the continued protection of confidential data.</p>	<p>BEC Management response 4/1/2021: Concur. During the period of time audited, the BEC was in the process of clearing a backlog of educator certification applications, which resulted in evaluation times greater than 90 days. Since that time, process changes, and system enhancements have been implemented that reduce the BEC's processing time. At this time, all evaluation queues are well within the 90 day statutory requirement. BEC will consult with DTI to produce a cost analysis for enhancing the Versa System to assign applications more efficiently to further reduce our processing time.</p> <p>Consistent with OIG recommendation, BEC has also started the process of cross training a backup unit of evaluators to process educator certification applications when application numbers surge. This backup unit is comprised of staff from the contact center, the operations section, and the district support section.</p> <p>BEC Management response 4/1/2021: Concur. Per OIG Recommendation, the BEC will implement a new business process to ensure appropriate access privileges.</p>

<p>Office of the Inspector General Report # A-2021DOE-028 A-2021DOE-029</p>	<p>4/1/2021</p>	<p>The Department of Education (DOE) Bureau of Educator Certification (BEC)</p> <p>Acronyms:</p> <p>Office of the Inspector General (OIG)</p> <p>Division of Technology and Innovation (DTI)</p>	<p>Observation: Communication Section The Bureau of Educator Certification (BEC) offers technical assistance and support to applicants and district partners through the bureau's communication section. This section is comprised of 16 positions: a manager; a staff assistant; a records technician; two supervisors; 8 program specialist I positions; and 3 program specialist II positions.</p> <p>The communications section serves as the primary contact for applicants to receive information specific to their application, including the status of their applications. The BEC communications section also handles contacts regarding general certification information. Applicants may contact BEC in three ways:</p> <ul style="list-style-type: none"> • Telephone service - applicants may call a toll free hotline to speak with a customer service representative Monday through Friday (8:00 am - 4:30 pm) during normal department workdays; • Email service - applicants can send BEC email communications using a contact entry form on the BEC website; and • In-person service - applicants may schedule an office visit at DOE headquarters. <p><u>Calls:</u> Telephone calls are received through the Elite Multichannel phone system (EMC) and calls are directed to program specialists logged into the phone system. The EMC system prompts a call log page at the end of each call, requiring the specialist to manually select a call category and sub-category to document the reason for the call. This entry generates data for the work code report. Upon completion of the call, the specialist documents the reason for the call in the contact history module within Versa.</p>	<p>OIG Response: The BEC call center serves as a front line for BEC and the department. In order for BEC leadership to make decisions that will positively impact applicants, call center agents, management, and the overall public image of BEC and the department, BEC should have access to comprehensive call center metrics using real time and historical data. Ensuring that these metrics align with the application cycles, analyzing available data, and making decisions based on these metrics, the BEC communications team can create a culture of continuous data-driven improvement.</p> <p>We recommend that BEC identify the data and metrics that would best serve their needs and work with DTI to find a mechanism for obtaining that data either internally developed or purchased. Whether it is in the form of a reporting module, email reports, or a call center dashboard, the information should be easily accessible for management. Call centers are often reactionary to outside events (such as a growing backlog in processing applications), and management should have the ability to use data to identify and address these events.</p> <p>Additionally, BEC can enhance call subcategories in their call tracking module to assist BEC leadership in identifying areas of concern, capturing events of significance, and making needed improvements.</p>

Office of the Inspector General Report # A-1920DOE-028 A-1920DOE-029	4/1/2021	The Department of Education (DOE) Bureau of Educator Certification (BEC) Acronyms: Office of the Inspector General (OIG) Division of Technology Information (DTI)	<p>In addition to the work code report, BEC utilizes a daily call statistics report, which reflects the call volume and time spent daily on the phones as well as the average call times for each agent. However, this data is not readily accessible by BEC communications leadership and must be requested from DTI. The report was not available prior to April 25, 2019.</p> <p><u>Call Time Per Agent:</u> We utilized the call statistic data to review call times per agent. We noted the call statistic data reflects calls by employee for a singular day. BEC currently does not have the report capability to review multiple agents throughout multiple days on the same report for trend analysis. Using the IDEA software, we merged all call reports by agent from April 25, 2019, through February 25, 2020, and calculated the average call time by agent per month. The data only identified one agent, a now former BEC employee, with an average call time per month over 10 minutes.</p> <p><u>Call Volume and Categories:</u> Utilizing the work code report data, we reviewed call volumes from January 1, 2019, through February 29, 2020. We determined the highest call volumes occurred in January (9,997 calls), April (9,722 calls), June (9,721 calls) and July 2019 (8,966 calls). The majority of the calls, 66.2%, were categorized as calls from applicants regarding the status of their file. The next most common category was Miscellaneous with 9.1% of calls logged during our scope.</p>	We also recommend BEC consider enhancing the current applicant Versa interface so applicants can easily retrieve information regarding their current application status through an online portal. This could alleviate the bulk of the calls to the call center where applicants are simply checking the status of their application. Ultimately, BEC could conduct a cost benefit analysis to determine if it would be more cost effective and efficient to outsource the call center and email contact center for routine calls and emails.

Education (DOE)

We reviewed the subcategories for the top two categories. For the File Status category, the majority of calls (76%) were subcategorized as "Status of Application/Certificate" (51,614 calls). The Miscellaneous category did not have any subcategories with all the calls being logged as "default."

We noted that the subcategories capture the basic reasons for the call. However, enhancement of the call subcategories could assist BEC leadership in identifying areas of concern, capturing events that may be of significance, or providing insight into potential improvements. For example, updating "status of application/certificate" to something slightly more nuanced such as "status of application/certificate – within 30 days" and "status of application/certificate – within 60 days" would allow leadership to identify at what time frames applicants begin to get concerned about the status of their application and brainstorm possible solutions.

Using subcategories in Miscellaneous to capture system issues, or any out of the ordinary event of importance would provide BEC historical knowledge that could be beneficial to BEC management in identifying trends that may need to be addressed. The lack of access to call data limits the ability of BEC management to track call trends and use the data to better streamline the function of the communications team. While the daily report does give supervisors a tool to view staff efficiency on a given day, not having the ability to view the activity over a period of time limits their ability to identify trends, pinpoint issues, and adjust efforts accordingly.

Department/Budget Entity (Service): Public Schools
Agency Budget Officer/OPB Analyst Name: Alicia Bevis/Shelby Cecil

A "Y" indicates "YES" and is acceptable, an "N/J" indicates "NO/Justification Provided" - these require further explanation/justification (additional sheets can be used as necessary), and "TIPS" are other areas to consider.

Action	48250400

1. GENERAL

1.1 Are Columns A01, A04, A05, A91, A92, A93, A94, A95, A96, A36, A10, IA1, IA4, IA5, IA6, IP1, IV1, IV3 and NV1 set to TRANSFER CONTROL for DISPLAY status and MANAGEMENT CONTROL for UPDATE status for both the Budget and Trust Fund columns (no trust fund files for narrative columns)? Is Column A02 set to TRANSFER CONTROL for DISPLAY status and MANAGEMENT CONTROL for UPDATE status for the Trust Fund Files (the Budget Files should already be on TRANSFER CONTROL for DISPLAY and MANAGEMENT CONTROL for UPDATE)? Are Columns A06, A07, A08 and A09 for Fixed Capital Outlay (FCO) set to TRANSFER CONTROL for DISPLAY status only (UPDATE status remains on OWNER)? (CSDI or Web LBR Column Security)	Y				
1.2 Is Column A03 set to TRANSFER CONTROL for DISPLAY and UPDATE status for both the Budget and Trust Fund columns? (CSDI)	Y				

AUDITS:

1.3 Have Column A03 budget files been copied to Column A12? Run the Exhibit B Audit Comparison Report to verify. (EXBR, EXBA)	Y				
1.4 Have Column A03 trust fund files been copied to Column A12? Run Schedule I (SC1R, SC1 or SC1R, SC1D adding column A12) to verify.	Y				
1.5 Has Column A12 security been set correctly to ALL for DISPLAY status and MANAGEMENT CONTROL for UPDATE status for Budget and Trust Fund files? (CSDR, CSA)	Y				
TIP The agency should prepare the budget request for submission in this order: 1) Copy Column A03 to Column A12, and 2) Lock columns as described above. A security control feature included in the LAS/PBS Web upload process requires columns to be in the proper status before uploading to the portal.					

2. EXHIBIT A (EADR, EXA)

2.1 Is the budget entity authority and description consistent with the agency's LRPP and does it conform to the directives provided on page 57 of the LBR Instructions?	Y				
2.2 Are the statewide issues generated systematically (estimated expenditures, nonrecurring expenditures, etc.) included?	Y				
2.3 Are the issue codes and titles consistent with <i>Section 3</i> of the LBR Instructions (pages 15 through 27)? Do they clearly describe the issue?	Y				

3. EXHIBIT B (EXBR, EXB)

		Program or Service (Budget Entity Codes)				
Action		48250400				
3.1	Is it apparent that there is a fund shift where an appropriation category's funding source is different between A02 and A03? Were the issues entered into LAS/PBS correctly? Check D-3A funding shift issue 340XXX0 - a unique deduct and unique add back issue should be used to ensure fund shifts display correctly on the LBR exhibits.	Y, Y				
AUDITS:						
3.2	Negative Appropriation Category Audit for Agency Request (Columns A03 and A04): Are all appropriation categories positive by budget entity and program component at the FSI level? Are all nonrecurring amounts less than requested amounts? (NACR, NAC - Report should print "No Negative Appropriation Categories Found")	Y, Y				
3.3	Current Year Estimated Verification Comparison Report: Is Column A02 equal to Column B07? (EXBR, EXBC - Report should print "Records Selected Net To Zero")	Y				
TIP	Generally look for and be able to fully explain significant differences between A02 and A03.					
TIP	Exhibit B - A02 equal to B07: Compares Current Year Estimated column to a backup of A02. This audit is necessary to ensure that the historical detail records have not been adjusted. Records selected should net to zero.					
TIP	Requests for appropriations which require advance payment authority must use the sub-title "Grants and Aids". For advance payment authority to local units of government, the Aid to Local Government appropriation category (05XXXX) should be used. For advance payment authority to non-profit organizations or other units of state government, a Special Categories appropriation category (10XXXX) should be used.					
4. EXHIBIT D (EADR, EXD)						
4.1	Is the program component objective statement consistent with the agency LRPP, and does it conform to the directives provided on page 61 of the LBR Instructions?	Y				
4.2	Is the program component code and title used correct?	Y				
TIP	Fund shifts or transfers of services or activities between program components will be displayed on an Exhibit D whereas it may not be visible on an Exhibit A.					
5. EXHIBIT D-1 (ED1R, EXD1)						
5.1	Are all object of expenditures positive amounts? (This is a manual check.)	Y				
AUDITS:						
5.2	Do the fund totals agree with the object category totals within each appropriation category? (ED1R, XD1A - Report should print "No Differences Found For This Report")	Y				
5.3	FLAIR Expenditure/Appropriation Ledger Comparison Report: Is Column A01 less than Column B04? (EXBR, EXBB - Negative differences [with a \$5,000 allowance] need to be corrected in Column A01.)	Y				
5.4	A01/State Accounts Disbursements and Carry Forward Comparison Report: Does Column A01 equal Column B08? (EXBR, EXBD - Differences [with a \$5,000 allowance at the department level] need to be corrected in Column A01.)	Y, FSDB has unique carry forward authority that generates this exception every year				

		Program or Service (Budget Entity Codes)				
Action		48250400				
TIP	If objects are negative amounts, the agency must make adjustments to Column A01 to correct the object amounts. In addition, the fund totals must be adjusted to reflect the adjustment made to the object data.					
TIP	If fund totals and object totals do not agree or negative object amounts exist, the agency must adjust Column A01.					
TIP	Exhibit B - A01 less than B04: This audit is to ensure that the disbursements and carry/certifications forward in A01 are less than FY 2020-21 approved budget. Amounts should be positive. The \$5,000 allowance is necessary for rounding.					
TIP	If B08 is not equal to A01, check the following: 1) the initial FLAIR disbursements or carry forward data load was corrected appropriately in A01; 2) the disbursement data from departmental FLAIR was reconciled to State Accounts; and 3) the FLAIR disbursements did not change after Column B08 was created. Note that there is a \$5,000 allowance at the department level.

7.11	When appropriate are there any 160XXX0 issues included to delete positions placed in reserve in the LAS/PBS Position and Rate Ledger (e.g. unfunded grants)? Note: Lump sum appropriations not yet allocated should <u>not</u> be deleted. (PLRR, PLMO)	N/A

		Program or Service (Budget Entity Codes)				
Action		48250400				
7.25	Has the agency entered annualization issues (260XXX0) for any issue that was partially funded in Fiscal Year 2021-22? Review Column G66 to determine whether any incremental amounts are needed to fully fund an issue that was initially appropriated in Fiscal Year 2021-22. Do not add annualization issues for pay and benefit distribution issues, as those annualization issues (26AXXXX) have already been added to A03.	Y				
TIP	Salaries and Benefits amounts entered using the OADA/C transactions must be thoroughly justified in the D-3A issue narrative. Agencies can run OADA/OADR from STAM to identify the amounts entered into OAD and ensure these entries have been thoroughly explained in the D-3A issue narrative.					
TIP	The issue narrative must completely and thoroughly explain and justify each D-3A issue. Agencies must ensure it provides the information necessary for the OPB and legislative analysts to have a complete understanding of the issue submitted. Thoroughly review pages 65 through 70 of the LBR Instructions.					
TIP	Check BAPS to verify status of budget amendments. Check for reapprovals not picked up in the General Appropriations Act. Verify that Lump Sum appropriations in Column A02 do not appear in Column A03. Review budget amendments to verify that 160XXX0 issue amounts correspond accurately and net to zero for General Revenue funds.					
TIP	If an agency is receiving federal funds from another agency the FSI should = 9 (Transfer - Recipient of Federal Funds). The agency that originally receives the funds directly from the federal agency should use FSI = 3 (Federal Funds).					
TIP	If an appropriation made in the FY 2021-22 General Appropriations Act duplicates an appropriation made in substantive legislation, the agency must create a unique deduct nonrecurring issue to eliminate the duplicated appropriation. Normally this is taken care of through line item veto.

	Program or Service (Budget Entity Codes)				
Action	48250500				

1. GENERAL

1.1 Are Columns A01, A04, A05, A91, A92, A93, A94, A95, A96, A36, A10, IA1, IA4, IA5, IA6, IP1, IV1, IV3 and NV1 set to TRANSFER CONTROL for DISPLAY status and MANAGEMENT CONTROL for UPDATE status for both the Budget and Trust Fund columns (no trust fund files for narrative columns)? Is Column A02 set to TRANSFER CONTROL for DISPLAY status and MANAGEMENT CONTROL for UPDATE status for the Trust Fund Files (the Budget Files should already be on TRANSFER CONTROL for DISPLAY and MANAGEMENT CONTROL for UPDATE)? Are Columns A06, A07, A08 and A09 for Fixed Capital Outlay (FCO) set to TRANSFER CONTROL for DISPLAY status only (UPDATE status remains on OWNER)? (CSDI or Web LBR Column Security)	Y				
1.2 Is Column A03 set to TRANSFER CONTROL for DISPLAY and UPDATE status for both the Budget and Trust Fund columns? (CSDI)	Y				

AUDITS:

1.3 Have Column A03 budget files been copied to Column A12? Run the Exhibit B Audit Comparison Report to verify. (EXBR, EXBA)	Y				
1.4 Have Column A03 trust fund files been copied to Column A12? Run Schedule I (SC1R, SC1 or SC1R, SC1D adding column A12) to verify.	Y				
1.5 Has Column A12 security been set correctly to ALL for DISPLAY status and MANAGEMENT CONTROL for UPDATE status for Budget and Trust Fund files? (CSDR, CSA)	Y				

TIP The agency should prepare the budget request for submission in this order: 1) Copy Column A03 to Column A12, and 2) Lock columns as described above. A security control feature included in the LAS/PBS Web upload process requires columns to be in the proper status before uploading to the portal.

2. EXHIBIT A (EADR, EXA)

2.1 Is the budget entity authority and description consistent with the agency's LRPP and does it conform to the directives provided on page 57 of the LBR Instructions?	Y				
2.2 Are the statewide issues generated systematically (estimated expenditures, nonrecurring expenditures, etc.) included?	Y				
2.3 Are the issue codes and titles consistent with <i>Section 3</i> of the LBR Instructions (pages 15 through 27)? Do they clearly describe the issue?	Y				

3. EXHIBIT B (EXBR, EXB)

		Program or Service (Budget Entity Codes)				
Action		48250500				
3.1	Is it apparent that there is a fund shift where an appropriation category's funding source is different between A02 and A03? Were the issues entered into LAS/PBS correctly? Check D-3A funding shift issue 340XXX0 - a unique deduct and unique add back issue should be used to ensure fund shifts display correctly on the LBR exhibits.	N/A, N/A				
AUDITS:						
3.2	Negative Appropriation Category Audit for Agency Request (Columns A03 and A04): Are all appropriation categories positive by budget entity and program component at the FSI level? Are all nonrecurring amounts less than requested amounts? (NACR, NAC - Report should print "No Negative Appropriation Categories Found")	Y, Y				
3.3	Current Year Estimated Verification Comparison Report: Is Column A02 equal to Column B07? (EXBR, EXBC - Report should print "Records Selected Net To Zero")	Y				
TIP	Generally look for and be able to fully explain significant differences between A02 and A03.					
TIP	Exhibit B - A02 equal to B07: Compares Current Year Estimated column to a backup of A02. This audit is necessary to ensure that the historical detail records have not been adjusted. Records selected should net to zero.					
TIP	Requests for appropriations which require advance payment authority must use the sub-title "Grants and Aids". For advance payment authority to local units of government, the Aid to Local Government appropriation category (05XXXX) should be used. For advance payment authority to non-profit organizations or other units of state government, a Special Categories appropriation category (10XXXX) should be used.					
4. EXHIBIT D (EADR, EXD)						
4.1	Is the program component objective statement consistent with the agency LRPP, and does it conform to the directives provided on page 61 of the LBR Instructions?	Y				
4.2	Is the program component code and title used correct?	Y				
TIP	Fund shifts or transfers of services or activities between program components will be displayed on an Exhibit D whereas it may not be visible on an Exhibit A.					
5. EXHIBIT D-1 (ED1R, EXD1)						
5.1	Are all object of expenditures positive amounts? (This is a manual check.)	Y				
AUDITS:						
5.2	Do the fund totals agree with the object category totals within each appropriation category? (ED1R, XD1A - Report should print "No Differences Found For This Report")	Y				
5.3	FLAIR Expenditure/Appropriation Ledger Comparison Report: Is Column A01 less than Column B04? (EXBR, EXBB - Negative differences [with a \$5,000 allowance] need to be corrected in Column A01.)	Y				
5.4	A01/State Accounts Disbursements and Carry Forward Comparison Report: Does Column A01 equal Column B08? (EXBR, EXBD - Differences [with a \$5,000 allowance at the department level] need to be corrected in Column A01.)	Y				

		Program or Service (Budget Entity Codes)				
Action		48250500				
TIP	If objects are negative amounts, the agency must make adjustments to Column A01 to correct the object amounts. In addition, the fund totals must be adjusted to reflect the adjustment made to the object data.					
TIP	If fund totals and object totals do not agree or negative object amounts exist, the agency must adjust Column A01.					
TIP	Exhibit B - A01 less than B04: This audit is to ensure that the disbursements and carry/certifications forward in A01 are less than FY 2020-21 approved budget. Amounts should be positive. The \$5,000 allowance is necessary for rounding.					
TIP	If B08 is not equal to A01, check the following: 1) the initial FLAIR disbursements or carry forward data load was corrected appropriately in A01; 2) the disbursement data from departmental FLAIR was reconciled to State Accounts; and 3) the FLAIR disbursements did not change after Column B08 was created. Note that there is a \$5,000 allowance at the department level.					
6. EXHIBIT D-3 (ED3R, ED3) (Not required in the LBR - for analytical purposes only.)						
6.1	Are issues appropriately aligned with appropriation categories?	Y				
TIP	Exhibit D-3 is not required in the budget submission but may be needed for this particular appropriation category/issue sort. Exhibit D-3 is also a useful report when identifying negative appropriation category problems.					
7. EXHIBIT D-3A (EADR, ED3A) (Required to be posted to the Florida Fiscal Portal)						
7.1	Are the issue titles correct and do they clearly identify the issue? (See pages 15 through 27 of the LBR Instructions.)	Y				
7.2	Does the issue narrative adequately explain the agency's request and is the explanation consistent with the LRPP? (See pages 65 through 68 of the LBR Instructions.)	Y				
7.3	Does the narrative for Information Technology (IT) issue follow the additional narrative requirements described on pages 67 through 69 of the LBR Instructions?	N/A

7.5	Does the issue narrative explain any variances from the Standard Expense and Human Resource Services Assessments package? Is the nonrecurring portion in the nonrecurring column? (See pages E.4 through E.5 of the LBR Instructions.)	N/A, N/A				
7.6	Does the salary rate request amount accurately reflect any new requests and are the amounts proportionate to the Salaries and Benefits request? Note: Salary rate should always be annualized.	N/A				
7.7	Does the issue narrative thoroughly explain/justify all Salaries and Benefits amounts entered into the Other Salary Amounts transactions (OADA/C)? Amounts entered into OAD are reflected in the Position Detail of Salaries and Benefits section of the Exhibit D-3A. (See pages 93 through 95 of the LBR Instructions.)	N/A				
7.8	Does the issue narrative include the Consensus Estimating Conference forecast, where appropriate?	Y

7.11	When appropriate are there any 160XXX0 issues included to delete positions placed in reserve in the LAS/PBS Position and Rate Ledger (e.g. unfunded grants)? Note: Lump sum appropriations not yet allocated should <u>not</u> be deleted. (PLRR, PLMO)	N/A				
7.12	Does the issue narrative include plans to satisfy additional space requirements when requesting additional positions?	N/A				
7.13	Has the agency included a 160XXX0 issue and 210XXXX and 260XXX0 issues as required for lump sum distributions?	N/A				
7.14	Do the amounts reflect appropriate FSI assignments?	Y				
7.15	Are the 33XXXX0 issues negative amounts only and do not restore nonrecurring cuts from a prior year or fund any issues that net to a positive or zero amount? Check D-3A issues 33XXXX0 - a unique issue should be used for issues that net to zero or a positive amount.	N/A				
7.16	Do the issue codes relating to special <i>salary and benefits</i> issues (e.g., position reclassification, pay grade adjustment, overtime/on-call pay, etc.) have an "A" in the fifth position of the issue code (XXXXAXX) and are they self-contained (not combined with other issues)? (See pages 26 and 90 of the LBR Instructions.)	N/A				
7.17	Do the issues relating to <i>Information Technology (IT)</i> have a "C" in the sixth position of the issue code (36XXXXCX) and are the correct issue codes used (361XXC0, 362XXC0, 363XXC0, 24010C0, 30010C0, 33011C0, 160E470, or 160E480)?	N/A

7.21	Does the General Revenue for 180XXXX (Intra-Agency Reorganizations) issues net to zero? (GENR, LBR2)	N/A				
7.22	Does the General Revenue for 200XXXX (Estimated Expenditures Realignment) issues net to zero? (GENR, LBR3)	N/A				
7.23	Have FCO appropriations been entered into the nonrecurring column (A04)? (GENR, LBR4 - Report should print "No Records Selected For Reporting" or a listing of D-3A issue(s) assigned to Debt Service (IOE N) or in some cases State Capital Outlay - Public Education Capital Outlay (IOE L))	N/A				
7.24	Has narrative been entered for all issues requested by the agency? Agencies do not need to include narrative for startup issues (1001000, 2103XXX, etc.) that were not input by the agency. (NAAR, BSNR)	Y				

		Program or Service (Budget Entity Codes)				
Action		48250500				
7.25	Has the agency entered annualization issues (260XXX0) for any issue that was partially funded in Fiscal Year 2021-22? Review Column G66 to determine whether any incremental amounts are needed to fully fund an issue that was initially appropriated in Fiscal Year 2021-22. Do not add annualization issues for pay and benefit distribution issues, as those annualization issues (26AXXXX) have already been added to A03.	Y				
TIP	Salaries and Benefits amounts entered using the OADA/C transactions must be thoroughly justified in the D-3A issue narrative. Agencies can run OADA/OADR from STAM to identify the amounts entered into OAD and ensure these entries have been thoroughly explained in the D-3A issue narrative.					
TIP	The issue narrative must completely and thoroughly explain and justify each D-3A issue. Agencies must ensure it provides the information necessary for the OPB and legislative analysts to have a complete understanding of the issue submitted. Thoroughly review pages 65 through 70 of the LBR Instructions.					
TIP	Check BAPS to verify status of budget amendments. Check for reapprovals not picked up in the General Appropriations Act. Verify that Lump Sum appropriations in Column A02 do not appear in Column A03. Review budget amendments to verify that 160XXX0 issue amounts correspond accurately and net to zero for General Revenue funds.					
TIP	If an agency is receiving federal funds from another agency the FSI should = 9 (Transfer - Recipient of Federal Funds). The agency that originally receives the funds directly from the federal agency should use FSI = 3 (Federal Funds).					
TIP	If an appropriation made in the FY 2021-22 General Appropriations Act duplicates an appropriation made in substantive legislation, the agency must create a unique deduct nonrecurring issue to eliminate the duplicated appropriation. Normally this is taken care of through line item veto.

Is Column A02 set to TRANSFER CONTROL for DISPLAY status and MANAGEMENT CONTROL for UPDATE status for the Trust Fund Files (the Budget Files should already be on TRANSFER CONTROL for DISPLAY and MANAGEMENT CONTROL for UPDATE)? Are Columns A06, A07, A08 and A09 for Fixed Capital Outlay (FCO) set to TRANSFER CONTROL for DISPLAY status only (UPDATE status remains on OWNER)? (CSDI or Web LBR Column Security)	Y				
1.2 Is Column A03 set to TRANSFER CONTROL for DISPLAY and UPDATE status for both the Budget and Trust Fund columns? (CSDI)	Y				

AUDITS:

1.3 Have Column A03 budget files been copied to Column A12? Run the Exhibit B Audit Comparison Report to verify. (EXBR, EXBA)	Y				
1.4 Have Column A03 trust fund files been copied to Column A12? Run Schedule I (SC1R, SC1 or SC1R, SC1D adding column A12) to verify.	Y				
1.5 Has Column A12 security been set correctly to ALL for DISPLAY status and MANAGEMENT CONTROL for UPDATE status for Budget and Trust Fund files? (CSDR, CSA)	Y				
TIP The agency should prepare the budget request for submission in this order: 1) Copy Column A03 to Column A12, and 2) Lock columns as described above. A security control feature included in the LAS/PBS Web upload process requires columns to be in the proper status before uploading to the portal.					

2. EXHIBIT A (EADR, EXA)

2.1 Is the budget entity authority and description consistent with the agency's LRPP and does it conform to the directives provided on page 57 of the LBR Instructions?	Y				
2.2 Are the statewide issues generated systematically (estimated expenditures, nonrecurring expenditures, etc.) included?	Y				
2.3 Are the issue codes and titles consistent with <i>Section 3</i> of the LBR Instructions (pages 15 through 27)? Do they clearly describe the issue?	Y				

3. EXHIBIT B (EXBR, EXB)

		Program or Service (Budget Entity Codes)				
Action		48250600				
3.1	Is it apparent that there is a fund shift where an appropriation category's funding source is different between A02 and A03? Were the issues entered into LAS/PBS correctly? Check D-3A funding shift issue 340XXX0 - a unique deduct and unique add back issue should be used to ensure fund shifts display correctly on the LBR exhibits.	N/A, N/A				
AUDITS:						
3.2	Negative Appropriation Category Audit for Agency Request (Columns A03 and A04): Are all appropriation categories positive by budget entity and program component at the FSI level? Are all nonrecurring amounts less than requested amounts? (NACR, NAC - Report should print "No Negative Appropriation Categories Found")	Y,Y				
3.3	Current Year Estimated Verification Comparison Report: Is Column A02 equal to Column B07? (EXBR, EXBC - Report should print "Records Selected Net To Zero")	Y				
TIP	Generally look for and be able to fully explain significant differences between A02 and A03.					
TIP	Exhibit B - A02 equal to B07: Compares Current Year Estimated column to a backup of A02. This audit is necessary to ensure that the historical detail records have not been adjusted. Records selected should net to zero.					
TIP	Requests for appropriations which require advance payment authority must use the sub-title "Grants and Aids". For advance payment authority to local units of government, the Aid to Local Government appropriation category (05XXXX) should be used. For advance payment authority to non-profit organizations or other units of state government, a Special Categories appropriation category (10XXXX) should be used.					
4. EXHIBIT D (EADR, EXD)						
4.1	Is the program component objective statement consistent with the agency LRPP, and does it conform to the directives provided on page 61 of the LBR Instructions?	Y				
4.2	Is the program component code and title used correct?	Y				
TIP	Fund shifts or transfers of services or activities between program components will be displayed on an Exhibit D whereas it may not be visible on an Exhibit A.					
5. EXHIBIT D-1 (ED1R, EXD1)						
5.1	Are all object of expenditures positive amounts? (This is a manual check.)	Y				
AUDITS:						
5.2	Do the fund totals agree with the object category totals within each appropriation category? (ED1R, XD1A - Report should print "No Differences Found For This Report")	Y				
5.3	FLAIR Expenditure/Appropriation Ledger Comparison Report: Is Column A01 less than Column B04? (EXBR, EXBB - Negative differences [with a \$5,000 allowance] need to be corrected in Column A01.)	Y				
5.4	A01/State Accounts Disbursements and Carry Forward Comparison Report: Does Column A01 equal Column B08? (EXBR, EXBD - Differences [with a \$5,000 allowance at the department level] need to be corrected in Column A01.)	N, FSDB				

		Program or Service (Budget Entity Codes)				
Action		48250600				
TIP	If objects are negative amounts, the agency must make adjustments to Column A01 to correct the object amounts. In addition, the fund totals must be adjusted to reflect the adjustment made to the object data.					
TIP	If fund totals and object totals do not agree or negative object amounts exist, the agency must adjust Column A01.					
TIP	Exhibit B - A01 less than B04: This audit is to ensure that the disbursements and carry/certifications forward in A01 are less than FY 2020-21 approved budget. Amounts should be positive. The \$5,000 allowance is necessary for rounding.					
TIP	If B08 is not equal to A01, check the following: 1) the initial FLAIR disbursements or carry forward data load was corrected appropriately in A01; 2) the disbursement data from departmental FLAIR was reconciled to State Accounts; and 3) the FLAIR disbursements did not change after Column B08 was created. Note that there is a \$5,000 allowance at the department level.					
6. EXHIBIT D-3 (ED3R, ED3) (Not required in the LBR - for analytical purposes only.)						
6.1	Are issues appropriately aligned with appropriation categories?	Y

7.25	Has the agency entered annualization issues (260XXX0) for any issue that was partially funded in Fiscal Year 2021-22? TIP	Salaries and Benefits amounts entered using the OADA/C transactions must be thoroughly justified in the D-3A issue narrative. Agencies can run OADA/OADR from STAM to identify the amounts entered into OAD and ensure these entries have been thoroughly explained in the D-3A issue narrative.					
TIP	The issue narrative must completely and thoroughly explain and justify each D-3A issue. Agencies must ensure it provides the information necessary for the OPB and legislative analysts to have a complete understanding of the issue submitted. Thoroughly review pages 65 through 70 of the LBR Instructions.					
TIP	Check BAPS to verify status of budget amendments. Check for reapprovals not picked up in the General Appropriations Act. Verify that Lump Sum appropriations in Column A02 do not appear in Column A03. Review budget amendments to verify that 160XXX0 issue amounts correspond accurately and net to zero for General Revenue funds.					
TIP	If an agency is receiving federal funds from another agency the FSI should = 9 (Transfer - Recipient of Federal Funds). The agency that originally receives the funds directly from the federal agency should use FSI = 3 (Federal Funds).					
TIP	If an appropriation made in the FY 2021-22 General Appropriations Act duplicates an appropriation made in substantive legislation, the agency must create a unique deduct nonrecurring issue to eliminate the duplicated appropriation. Normally this is taken care of through line item veto.

Fiscal Year 2022-23 LBR Technical Review Checklist

Department/Budget Entity (Service): Education / Workforce Education
Agency Budget Officer/OPB Analyst Name: Alicia Bevis

A "Y" indicates "YES" and is acceptable, an "N/J" indicates "NO/Justification Provided" - these require further explanation/justification (additional sheets can be used as necessary), and "TIPS" are other areas to consider.

	Program or Service (Budget Entity Codes)				
Action	48250800				

1. GENERAL

1.1 Are Columns A01, A04, A05, A91, A92, A93, A94, A95, A96, A36, A10, IA1, IA4, IA5, IA6, IP1, IV1, IV3 and NV1 set to TRANSFER CONTROL for DISPLAY status and MANAGEMENT CONTROL for UPDATE status for both the Budget and Trust Fund columns (no trust fund files for narrative columns)? Is Column A02 set to TRANSFER CONTROL for DISPLAY status and MANAGEMENT CONTROL for UPDATE status for the Trust Fund Files (the Budget Files should already be on TRANSFER CONTROL for DISPLAY and MANAGEMENT CONTROL for UPDATE)? Are Columns A06, A07, A08 and A09 for Fixed Capital Outlay (FCO) set to TRANSFER CONTROL for DISPLAY status only (UPDATE status remains on OWNER)? (CSDI or Web LBR Column Security)	Y				
1.2 Is Column A03 set to TRANSFER CONTROL for DISPLAY and UPDATE status for both the Budget and Trust Fund columns? (CSDI)	Y				

AUDITS:

1.3 Have Column A03 budget files been copied to Column A12? Run the Exhibit B Audit Comparison Report to verify. (EXBR, EXBA)	Y				
1.4 Have Column A03 trust fund files been copied to Column A12? Run Schedule I (SC1R, SC1 or SC1R, SC1D adding column A12) to verify.	Y				
1.5 Has Column A12 security been set correctly to ALL for DISPLAY status and MANAGEMENT CONTROL for UPDATE status for Budget and Trust Fund files? (CSDR, CSA)	Y				

TIP The agency should prepare the budget request for submission in this order: 1) Copy Column A03 to Column A12, and 2) Lock columns as described above. A security control feature included in the LAS/PBS Web upload process requires columns to be in the proper status before uploading to the portal.

2. EXHIBIT A (EADR, EXA)

2.1 Is the budget entity authority and description consistent with the agency's LRPP and does it conform to the directives provided on page 57 of the LBR Instructions?	Y				
2.2 Are the statewide issues generated systematically (estimated expenditures, nonrecurring expenditures, etc.) included?	Y				
2.3 Are the issue codes and titles consistent with <i>Section 3</i> of the LBR Instructions (pages 15 through 27)? Do they clearly describe the issue?	Y				

3. EXHIBIT B (EXBR, EXB)

		Program or Service (Budget Entity Codes)				
Action		48250800				
3.1	Is it apparent that there is a fund shift where an appropriation category's funding source is different between A02 and A03? Were the issues entered into LAS/PBS correctly? Check D-3A funding shift issue 340XXX0 - a unique deduct and unique add back issue should be used to ensure fund shifts display correctly on the LBR exhibits.	N/A N/A				
AUDITS:						
3.2	Negative Appropriation Category Audit for Agency Request (Columns A03 and A04): Are all appropriation categories positive by budget entity and program component at the FSI level? Are all nonrecurring amounts less than requested amounts? (NACR, NAC - Report should print "No Negative Appropriation Categories Found")	Y Y				
3.3	Current Year Estimated Verification Comparison Report: Is Column A02 equal to Column B07? (EXBR, EXBC - Report should print "Records Selected Net To Zero")	Y				
TIP	Generally look for and be able to fully explain significant differences between A02 and A03.					
TIP	Exhibit B - A02 equal to B07: Compares Current Year Estimated column to a backup of A02. This audit is necessary to ensure that the historical detail records have not been adjusted. Records selected should net to zero.					
TIP	Requests for appropriations which require advance payment authority must use the sub-title "Grants and Aids". For advance payment authority to local units of government, the Aid to Local Government appropriation category (05XXXX) should be used. For advance payment authority to non-profit organizations or other units of state government, a Special Categories appropriation category (10XXXX) should be used.					
4. EXHIBIT D (EADR, EXD)						
4.1	Is the program component objective statement consistent with the agency LRPP, and does it conform to the directives provided on page 61 of the LBR Instructions?	Y				
4.2	Is the program component code and title used correct?	Y				
TIP	Fund shifts or transfers of services or activities between program components will be displayed on an Exhibit D whereas it may not be visible on an Exhibit A.					
5. EXHIBIT D-1 (ED1R, EXD1)						
5.1	Are all object of expenditures positive amounts? (This is a manual check.)	Y				
AUDITS:						
5.2	Do the fund totals agree with the object category totals within each appropriation category? (ED1R, XD1A - Report should print "No Differences Found For This Report")	Y				
5.3	FLAIR Expenditure/Appropriation Ledger Comparison Report: Is Column A01 less than Column B04? (EXBR, EXBB - Negative differences [with a \$5,000 allowance] need to be corrected in Column A01.)	Y				
5.4	A01/State Accounts Disbursements and Carry Forward Comparison Report: Does Column A01 equal Column B08? (EXBR, EXBD - Differences [with a \$5,000 allowance at the department level] need to be corrected in Column A01.)	N, FSDB				

		Program or Service (Budget Entity Codes)				
Action		48250800				
TIP	If objects are negative amounts, the agency must make adjustments to Column A01 to correct the object amounts. In addition, the fund totals must be adjusted to reflect the adjustment made to the object data.					
TIP	If fund totals and object totals do not agree or negative object amounts exist, the agency must adjust Column A01.					
TIP	Exhibit B - A01 less than B04: This audit is to ensure that the disbursements and carry/certifications forward in A01 are less than FY 2020-21 approved budget. Amounts should be positive. The \$5,000 allowance is necessary for rounding.					
TIP	If B08 is not equal to A01, check the following: 1) the initial FLAIR disbursements or carry forward data load was corrected appropriately in A01; 2) the disbursement data from departmental FLAIR was reconciled to State Accounts; and 3) the FLAIR disbursements did not change after Column B08 was created. Note that there is a \$5,000 allowance at the department level.					
6. EXHIBIT D-3 (ED3R, ED3) (Not required in the LBR - for analytical purposes only.)						
6.1	Are issues appropriately aligned with appropriation categories?	Y				
TIP	Exhibit D-3 is not required in the budget submission but may be needed for this particular appropriation category/issue sort. Exhibit D-3 is also a useful report when identifying negative appropriation category problems.					
7. EXHIBIT D-3A (EADR, ED3A) (Required to be posted to the Florida Fiscal Portal)						
7.1	Are the issue titles correct and do they clearly identify the issue? (See pages 15 through 27 of the LBR Instructions.)	Y				
7.2	Does the issue narrative adequately explain the agency's request and is the explanation consistent with the LRPP? (See pages 65 through 68 of the LBR Instructions.)	Y				
7.3	Does the narrative for Information Technology (IT) issue follow the additional narrative requirements described on pages 67 through 69 of the LBR Instructions?	Y				
7.4	Are all issues with an IT component identified with a "Y" in the "IT COMPONENT?" field? If the issue contains an IT component, has that component been identified and documented?	Y Y				
7.5	Does the issue narrative explain any variances from the Standard Expense and Human Resource Services Assessments package? Is the nonrecurring portion in the nonrecurring column? (See pages E.4 through E.5 of the LBR Instructions.)	N/A N/A				
7.6	Does the salary rate request amount accurately reflect any new requests and are the amounts proportionate to the Salaries and Benefits request? Note: Salary rate should always be annualized.	N/A				
7.7	Does the issue narrative thoroughly explain/justify all Salaries and Benefits amounts entered into the Other Salary Amounts transactions (OADA/C)? Amounts entered into OAD are reflected in the Position Detail of Salaries and Benefits section of the Exhibit D-3A. (See pages 93 through 95 of the LBR Instructions.)	N/A				
7.8	Does the issue narrative include the Consensus Estimating Conference forecast, where appropriate?	Y				
7.9	Does the issue narrative reference the specific county(ies) where applicable?	Y				

		Program or Service (Budget Entity Codes)			
Action		48250800			
7.10	Do the 160XXX0 issues reflect budget amendments that have been approved (or in the process of being approved) and that have a recurring impact (including Lump Sums)? Have the approved budget amendments been entered in Column A18 as instructed in Memo #22-001?	N/A N/A			
7.11	When appropriate are there any 160XXX0 issues included to delete positions placed in reserve in the LAS/PBS Position and Rate Ledger (e.g. unfunded grants)? Note: Lump sum appropriations not yet allocated should <u>not</u> be deleted. (PLRR, PLMO)	N/A			
7.12	Does the issue narrative include plans to satisfy additional space requirements when requesting additional positions?	N/A			
7.13	Has the agency included a 160XXX0 issue and 210XXXX and 260XXX0 issues as required for lump sum distributions?	N/A			
7.14	Do the amounts reflect appropriate FSI assignments?	Y			
7.15	Are the 33XXXX0 issues negative amounts only and do not restore nonrecurring cuts from a prior year or fund any issues that net to a positive or zero amount? Check D-3A issues 33XXXX0 - a unique issue should be used for issues that net to zero or a positive amount.	N/A			
7.16	Do the issue codes relating to special <i>salary and benefits</i> issues (e.g., position reclassification, pay grade adjustment, overtime/on-call pay, etc.) have an "A" in the fifth position of the issue code (XXXXAXX) and are they self-contained (not combined with other issues)? (See pages 26 and 90 of the LBR Instructions.)	N/A			
7.17	Do the issues relating to <i>Information Technology (IT)</i> have a "C" in the sixth position of the issue code (36XXXXCX) and are the correct issue codes used (361XXC0, 362XXC0, 363XXC0, 24010C0, 30010C0, 33011C0, 160E470, or 160E480)?	N/A			
7.18	Are the issues relating to <i>major audit findings and recommendations</i> properly coded (4A0XXX0, 4B0XXX0)?	N/A			
7.19	Does the issue narrative identify the strategy or strategies in the Five Year Statewide Strategic Plan for Economic Development?	Y			
AUDIT:					
7.20	Does the General Revenue for 160XXXX (Adjustments to Current Year Expenditures) issues net to zero? (GENR, LBR1)	Y			
7.21	Does the General Revenue for 180XXXX (Intra-Agency Reorganizations) issues net to zero? (GENR, LBR2)	N/A			
7.22	Does the General Revenue for 200XXXX (Estimated Expenditures Realignment) issues net to zero? (GENR, LBR3)	Y			
7.23	Have FCO appropriations been entered into the nonrecurring column (A04)? (GENR, LBR4 - Report should print "No Records Selected For Reporting" or a listing of D-3A issue(s) assigned to Debt Service (IOE N) or in some cases State Capital Outlay - Public Education Capital Outlay (IOE L))	N/A			
7.24	Has narrative been entered for all issues requested by the agency? Agencies do not need to include narrative for startup issues (1001000, 2103XXX, etc.) that were not input by the agency. (NAAR, BSNR)	Y			

		Program or Service (Budget Entity Codes)				
Action		48250800				
7.25	Has the agency entered annualization issues (260XXX0) for any issue that was partially funded in Fiscal Year 2021-22? Review Column G66 to determine whether any incremental amounts are needed to fully fund an issue that was initially appropriated in Fiscal Year 2021-22. Do not add annualization issues for pay and benefit distribution issues, as those annualization issues (26AXXXX) have already been added to A03.	N/A				
TIP	Salaries and Benefits amounts entered using the OADA/C transactions must be thoroughly justified in the D-3A issue narrative. Agencies can run OADA/OADR from STAM to identify the amounts entered into OAD and ensure these entries have been thoroughly explained in the D-3A issue narrative.					
TIP	The issue narrative must completely and thoroughly explain and justify each D-3A issue. Agencies must ensure it provides the information necessary for the OPB and legislative analysts to have a complete understanding of the issue submitted. Thoroughly review pages 65 through 70 of the LBR Instructions.					
TIP	Check BAPS to verify status of budget amendments. Check for reapprovals not picked up in the General Appropriations Act. Verify that Lump Sum appropriations in Column A02 do not appear in Column A03. Review budget amendments to verify that 160XXX0 issue amounts correspond accurately and net to zero for General Revenue funds.					
TIP	If an agency is receiving federal funds from another agency the FSI should = 9 (Transfer - Recipient of Federal Funds). The agency that originally receives the funds directly from the federal agency should use FSI = 3 (Federal Funds).					
TIP	If an appropriation made in the FY 2021-22 General Appropriations Act duplicates an appropriation made in substantive legislation, the agency must create a unique deduct nonrecurring issue to eliminate the duplicated appropriation. Normally this is taken care of through line item veto.

Is Column A02 set to TRANSFER CONTROL for DISPLAY status and MANAGEMENT CONTROL for UPDATE status for the Trust Fund Files (the Budget Files should already be on TRANSFER CONTROL for DISPLAY and MANAGEMENT CONTROL for UPDATE)? Are Columns A06, A07, A08 and A09 for Fixed Capital Outlay (FCO) set to TRANSFER CONTROL for DISPLAY status only (UPDATE status remains on OWNER)? (CSDI or Web LBR Column Security)	Y				
1.2 Is Column A03 set to TRANSFER CONTROL for DISPLAY and UPDATE status for both the Budget and Trust Fund columns? (CSDI)	Y				

AUDITS:

1.3 Have Column A03 budget files been copied to Column A12? Run the Exhibit B Audit Comparison Report to verify. (EXBR, EXBA)	Y				
1.4 Have Column A03 trust fund files been copied to Column A12? Run Schedule I (SC1R, SC1 or SC1R, SC1D adding column A12) to verify.	Y				
1.5 Has Column A12 security been set correctly to ALL for DISPLAY status and MANAGEMENT CONTROL for UPDATE status for Budget and Trust Fund files? (CSDR, CSA)	Y				
TIP The agency should prepare the budget request for submission in this order: 1) Copy Column A03 to Column A12, and 2) Lock columns as described above. A security control feature included in the LAS/PBS Web upload process requires columns to be in the proper status before uploading to the portal.					

2. EXHIBIT A (EADR, EXA)

2.1 Is the budget entity authority and description consistent with the agency's LRPP and does it conform to the directives provided on page 57 of the LBR Instructions?	Y				
2.2 Are the statewide issues generated systematically (estimated expenditures, nonrecurring expenditures, etc.) included?	Y				
2.3 Are the issue codes and titles consistent with <i>Section 3</i> of the LBR Instructions (pages 15 through 27)? Do they clearly describe the issue?	Y				

3. EXHIBIT B (EXBR, EXB)

		Program or Service (Budget Entity Codes)				
Action		48400600				
3.1	Is it apparent that there is a fund shift where an appropriation category's funding source is different between A02 and A03? Were the issues entered into LAS/PBS correctly? Check D-3A funding shift issue 340XXX0 - a unique deduct and unique add back issue should be used to ensure fund shifts display correctly on the LBR exhibits.	N/A N/A				
AUDITS:						
3.2	Negative Appropriation Category Audit for Agency Request (Columns A03 and A04): Are all appropriation categories positive by budget entity and program component at the FSI level? Are all nonrecurring amounts less than requested amounts? (NACR, NAC - Report should print "No Negative Appropriation Categories Found")	Y,Y				
3.3	Current Year Estimated Verification Comparison Report: Is Column A02 equal to Column B07? (EXBR, EXBC - Report should print "Records Selected Net To Zero")	Y				
TIP	Generally look for and be able to fully explain significant differences between A02 and A03.					
TIP	Exhibit B - A02 equal to B07: Compares Current Year Estimated column to a backup of A02. This audit is necessary to ensure that the historical detail records have not been adjusted. Records selected should net to zero.					
TIP	Requests for appropriations which require advance payment authority must use the sub-title "Grants and Aids". For advance payment authority to local units of government, the Aid to Local Government appropriation category (05XXXX) should be used. For advance payment authority to non-profit organizations or other units of state government, a Special Categories appropriation category (10XXXX) should be used.

		Program or Service (Budget Entity Codes)				
Action		48400600				
TIP	If objects are negative amounts, the agency must make adjustments to Column A01 to correct the object amounts. In addition, the fund totals must be adjusted to reflect the adjustment made to the object data.					
TIP	If fund totals and object totals do not agree or negative object amounts exist, the agency must adjust Column A01.					
TIP	Exhibit B - A01 less than B04: This audit is to ensure that the disbursements and carry/certifications forward in A01 are less than FY 2020-21 approved budget. Amounts should be positive. The \$5,000 allowance is necessary for rounding.					
TIP	If B08 is not equal to A01, check the following: 1) the initial FLAIR disbursements or carry forward data load was corrected appropriately in A01; 2) the disbursement data from departmental FLAIR was reconciled to State Accounts; and 3) the FLAIR disbursements did not change after Column B08 was created. Note that there is a \$5,000 allowance at the department level.

		Program or Service (Budget Entity Codes)				
Action		48400600				
7.25	Has the agency entered annualization issues (260XXX0) for any issue that was partially funded in Fiscal Year 2021-22? TIP	Salaries and Benefits amounts entered using the OADA/C transactions must be thoroughly justified in the D-3A issue narrative. Agencies can run OADA/OADR from STAM to identify the amounts entered into OAD and ensure these entries have been thoroughly explained in the D-3A issue narrative.					
TIP	The issue narrative must completely and thoroughly explain and justify each D-3A issue. Agencies must ensure it provides the information necessary for the OPB and legislative analysts to have a complete understanding of the issue submitted. Thoroughly review pages 65 through 70 of the LBR Instructions.					
TIP	Check BAPS to verify status of budget amendments. Check for reapprovals not picked up in the General Appropriations Act. Review budget amendments to verify that 160XXX0 issue amounts correspond accurately and net to zero for General Revenue funds.					
TIP	If an agency is receiving federal funds from another agency the FSI should = 9 (Transfer - Recipient of Federal Funds). The agency that originally receives the funds directly from the federal agency should use FSI = 3 (Federal Funds).					
TIP	If an appropriation made in the FY 2021-22 General Appropriations Act duplicates an appropriation made in substantive legislation, the agency must create a unique deduct nonrecurring issue to eliminate the duplicated appropriation. Normally this is taken care of through line item veto.

The "Notwithstanding the provisions of s.216.043, the integrated, comprehensive budget request shall include:" is interpreted to mean "in lieu of" the CIP requirements.				
18.2	Are the CIP-4 and CIP-5 forms submitted when applicable (see CIP Instructions)?					
18.3	Do all CIP forms comply with CIP Instructions where applicable (see CIP Instructions)?					
18.4	Does the agency request include 5 year projections (Columns A03, A06, A07, A08 and A09)?					
18.5	Are the appropriate counties identified in the narrative?					
18.6	Has the CIP-2 form (Exhibit B) been modified to include the agency priority for each project and the modified form saved as a PDF document?					
TIP	Requests for Fixed Capital Outlay appropriations which are Grants and Aids to Local Governments and Non-Profit Organizations must use the Grants and Aids to Local Governments and Non-Profit Organizations - Fixed Capital Outlay major appropriation category (140XXX) and include the sub-title "Grants and Aids". These appropriations utilize a CIP-B form as justification.

General Guidelines

The Schedule IV-B contains more detailed information on information technology (IT) projects than is included in the D-3A issue narrative submitted with an agency's Legislative Budget Request (LBR). The Schedule IV-B compiles the analyses and data developed by the agency during the initiation and planning phases of the proposed IT project. A Schedule IV-B must be completed for all IT projects when the total cost (all years) of the project is \$1 million or more.

Schedule IV-B is not required for requests to:

- Continue existing hardware and software maintenance agreements,
- Renew existing software licensing agreements that are similar to the service level agreements currently in use, or
- Replace desktop units ("refresh") with new technology that is similar to the technology currently in use.
- Contract only for the completion of a business case or feasibility study for the replacement or remediation of an existing IT system or the development of a new IT system.

Documentation Requirements

The type and complexity of an IT project determines the level of detail an agency should submit for the following documentation requirements:

- Background and Strategic Needs Assessment
- Baseline Analysis
- Proposed Business Process Requirements
- Functional and Technical Requirements
- Success Criteria
- Benefits Realization
- Cost Benefit Analysis
- Major Project Risk Assessment
- Risk Assessment Summary
- Current Information Technology Environment
- Current Hardware/Software Inventory
- Proposed Technical Solution
- Proposed Solution Description
- Project Management Planning

Compliance with s. 216.023(4)(a)10, F.S. is also required if the total cost for all years of the project is \$10 million or more.

A description of each IV-B component is provided within this general template for the benefit of the Schedule IV-B authors. These descriptions and this guidelines section should be removed prior to the submission of the document.

Sections of the Schedule IV-B may be authored in software applications other than MS Word, such as MS Project and Visio. Submission of these documents in their native file formats is encouraged for proper analysis.

The Schedule IV-B includes two required templates, the Cost Benefit Analysis and Major Project Risk Assessment workbooks. For all other components of the Schedule IV-B, agencies should submit their own planning documents and tools to demonstrate their level of readiness to implement the proposed IT project. It is also necessary to assemble all Schedule IV-B components into one PDF file for submission to the Florida Fiscal Portal and to ensure that all personnel can open component files and that no component of the Schedule has been omitted.

Submit all component files of the agency's Schedule IV-B in their native file formats to the Office of Policy and Budget and the Legislature at IT@LASPBS.STATE.FL.US. Reference the D-3A issue code and title in the subject line.

II. Schedule IV-B Business Case – Strategic Needs Assessment

A. Background and Strategic Needs Assessment

Purpose: To clearly articulate the business-related need(s) for the proposed project.

1. Business Need

Establish a statewide threat assessment database for use by all public K-12 schools

Following the tragedy at Marjory Stoneman Douglas High School on February 14, 2018, the Office of Safe Schools identified a need to establish a Statewide Threat Assessment Database (Database) based on the recommendations of the Statewide Threat Assessment Database Workgroup (Workgroup) and pursuant to the requirements outlined in section [1001.212](#)(13), F.S. It is the intent that all schools and school districts will use the Database to report behavioral threat assessment data whether directly into the system or through connectivity to a local system.

Collect and document key information from the standard statewide behavioral threat assessment instrument

The Workgroup finds that behavioral threat assessment teams at each public school and public charter school should collect and document key information from the standard statewide behavioral threat assessment instrument as part of their assessment and that this instrument should serve as the basis for the Database.

Report quantitative data on its activities to the Office of Safe Schools

The project would further support the requirement in s. 1006.07(7)(f) that school districts report quantitative data on its activities to the Office of Safe Schools in accordance with guidance from the Office and shall utilize the threat assessment database developed pursuant to s. 1001.212(13) upon the availability of the Database.

Analytical support and data governance

The budget request further includes analytical and data governance support personnel to support system data quality; analytics review of the physical site security assessments in support of s. 1001.212(5), F.S. and the behavioral threat assessments quantitative data in support of s. 1006.07(7)(f), F.S.; user roles and permissions; and ensure the system adheres to Florida Cyber Security Standards (60GG-2, F.A.C).

2. Business Objectives

- Create a new web-based cloud platform for collecting threat assessment data to conform to the statewide behavioral threat assessment instrument developed by the Office of Safe Schools.
- Configure access to allow authorized public school personnel to enter information related to any threat assessment conducted at their respective schools.
- Collect and analyze quantitative data on security and threat assessments.
- Create a secured Application Programming Interface (API) w/ the Florida School Safety Portal.
- Compliance with Florida's Cybersecurity Standards, located in Florida Administrative Code Rules 60GG-2.001-2.006.
- Compliance with the Federal Educational Rights and Privacy Act (FERPA) and Health Insurance Portability and Accountability Act (HIPAA).

NOTE: For IT projects with total cost in excess of \$10 million, the business objectives described in this section must be consistent with existing or proposed substantive policy required in s. 216.023(4)(a)10, F.S.

B. Baseline Analysis

Purpose: To establish a basis for understanding the business processes, stakeholder groups, and current technologies that will be affected by the project and the level of business transformation that will be required for the project to be successful.

1. Current Business Process(es)

NOTE: If an agency has completed a workflow analysis, include through file insertion or attachment the analyses documentation developed and completed by the agency.

The statewide behavioral threat assessment instrument was developed by the Office of Safe Schools for use by all public schools, including charter schools, to address early identification, evaluation, early intervention, and student support (s.1001.212, F.S.).

The statewide behavioral threat assessment instrument includes the following:

- An assessment of the threat, which includes an assessment of the student, family, and school and social dynamics.
- An evaluation to determine if the threat is transient or substantive.
- The response to a substantive threat, which includes the school response and the role of law enforcement agencies.
- The response to a serious substantive threat, including mental health and law enforcement referrals.
- Ongoing monitoring to assess implementation of safety strategies.
- Training for members of threat assessment teams established under s. 1006.07(7) and school administrators regarding the use of the instrument.

The current format of the behavioral threat assessment instrument is comprised of forms provided via word document posted on the Office of Safe Schools' webpage and is not integrated into any statewide database.

Districts are required to adopt policies for the establishment of threat assessment teams at each school whose duties include the coordination of resources and assessment and intervention with individuals whose behavior may pose a threat to the safety of school staff or students consistent with the model policies developed by the Office of Safe Schools. These threat assessment teams are required to report quantitative data on its activities to the Office of Safe Schools in accordance with guidance from the office and shall utilize the threat assessment database developed pursuant to s. 1001.212(13) upon the availability of the database (s. 1006.07(7), F.S.). School districts currently collect quantitative threat assessment data from each school and manually report the number of transient and substantive threats to the Office of Safe Schools.

NOTE: If the agency has completed a workflow analysis with sufficient detail and narrative explanation, this analysis may be submitted in lieu of completing this documentation requirement.

2. Assumptions and Constraints

It is the intent that all schools and school districts will use the Database to report behavioral threat assessment data and transfer behavioral threat assessment data whether directly into the system or through API connectivity to a local system.

Proposed Business Process

Requirements

Purpose: To establish a basis for understanding what business process requirements the proposed solution must meet in order to select an appropriate solution for the project.

1. Proposed Business Process Requirements

The Database must be implemented in a cloud-based environment to collect data elements as listed in the threat assessment instrument, within the school district that the student resides. In order to facilitate a statewide behavior assessment solution, this database should have the following core functionality:

Generate standard and customize reports;

- Include workflows for routing and approving threat assessments;
- Ability to move threat assessment data from one district to another district;
- Web-based interfaces for users to add or edit threat assessment and response data as needed;
- Secured Application Programming Interface (API) connecting to the Florida School Safety Portal;
- Ability to upload or connect current staff and student information; and
- Provision of online support capabilities, training and assistance for users in various media platforms.

The Database must allow state and local agencies to share information and records with one another, as long as the information is reasonably necessary to ensure access to services or to ensure the safety of the student or others while remaining in compliance with federal privacy laws.

Finally, it is critical to consolidate the threat assessment data within current tools leveraged by threat assessment teams to simplify and ensure efficient processes when protecting students in Florida.

2. Business Solution Alternatives

The department examined three alternatives to meet the business goals of the statewide threat assessment database solution:

- Develop a custom solution in-house
- Outsource a stand-alone custom solution
- Deploy a Commercial Off-the-shelf COTS solution

3. Rationale for Selection

In considering the advantages and disadvantages of each alternative, the department also considered the following factors in making a selection:

- Usability
- Maintainability
- Scalability
- Data management
- Security
- Cost
- Risk

4. Recommended Business Solution

The department recommends outsourcing a custom solution within a current solution used by the threat assessment team. An outsourced custom solution within an existing tool will provide the Office of Safe Schools flexibility to ensure that the unique requirements for this solution are met through a usable, cost efficient, and secure solution.

NOTE: For IT projects with total cost in excess of \$10 million, the project scope described in this section must be consistent with existing or proposed substantive policy required in s. 216.023(4) (a) 10, F.S.

C. Functional and Technical Requirements

Purpose: To identify the functional and technical system requirements that must be met by the project.

Include through file insertion or attachment the functional and technical requirements analyses documentation developed and completed by the agency.

See attached report: “*Statewide Threat Assessment Database Workgroup Recommendations Report (2019)*”

III. Success Criteria

Purpose: To identify the critical results, both outputs and outcomes, that must be realized for the project to be considered a success.

V. Schedule IV-B Major Project Risk Assessment

Purpose: To provide an initial high-level assessment of overall risk incurred by the project to enable appropriate risk mitigation and oversight and to improve the likelihood of project success. The risk assessment summary identifies the overall level of risk associated with the project and provides an assessment of the project's alignment with business objectives.

NOTE: All multi-year projects must update the Risk Assessment Component of the Schedule IV-B along with any other components that have been changed from the original Feasibility Study.

The Risk Assessment Tool and Risk Assessment Summary are included in Appendix B on the Florida Fiscal Portal and must be completed and submitted with the agency's Schedule IV-B. After answering the questions on the Risk Assessment Tool, the Risk Assessment Summary is automatically populated.

Section 1001.212, Florida Statutes

Introduction

In the wake of the tragic shooting at Marjory Stoneman Douglas High School that took the lives of 17 Florida students and educators, the 2018 Florida Legislature passed, and the Governor signed, Senate Bill 7026, known as the Marjory Stoneman Douglas High School Public Safety Act. This legislation introduced sweeping changes to Florida law designed to increase school safety. These changes included creating the Office of Safe Schools within the Department of Education (“department”), establishing the Marjory Stoneman Douglas High School Public Safety Commission, providing the FortifyFL mobile suspicious activity reporting tool to districts, and requiring safe-school officers to be assigned to all public schools.

Senate Bill 7026 also required each district school board to establish threat assessment teams at all public schools for coordination of resources and intervention with individuals whose behavior may pose a threat to the safety of students and staff. Threat assessment teams are required to include persons with expertise in counseling, instruction, school administration, and law enforcement. Districts have discretion to add other school or community-based partners to the team, as needed. In 2019, the requirement to have a threat assessment team at each school was expanded to include all charter schools.

In addition, Senate Bill 7026 required the Department of Education, in coordination with the Department of Law Enforcement, to provide a centralized integrated data repository and data analytics resources to school districts in order to improve access to information. The repository was required to integrate data from social media, the Department of Children and Families, the Department of Law Enforcement, the Department of Juvenile Justice, and local law enforcement. To satisfy this requirement, the Department of Education created the Florida Schools Safety Portal, which provides threat assessment teams with access to information from several sources to facilitate the threat assessment process. The Department of Education also procured a social media monitoring tool, which is available to school districts at no cost.

In 2019, the Florida Legislature passed, and the Governor signed, Senate Bill 7030, which implemented recommendations made by the Marjory Stoneman Douglas High School Public Safety Commission. Senate Bill 7030 required the Department of Education to develop a standardized, statewide behavioral threat assessment instrument for use by all public schools, including charter schools, for the purpose of addressing early identification, evaluation, early intervention and student support. The Office of Safe Schools adopted the Comprehensive School Threat Assessment Guidelines (CSTAG) Threat Assessment and

Response Protocol as Florida's standardized behavioral threat assessment instrument. All public schools are required to use the CSTAG when conducting a threat assessment.

The CSTAG is an evidence-based threat assessment model developed by Dr. Dewey Cornell and the University of Virginia that is viewed nationally as the most thorough and comprehensive model for performing threat assessments in schools. During the summer of 2019, the Department of Education brought Dr. Cornell to Florida where he provided training in the CSTAG process to representatives from almost all school districts in a train-the-trainer format.

Senate Bill 7030 created section 1001.212(13), F.S., which directs the Florida Department of Education's Office of Safe Schools to establish a Statewide Threat Assessment Database Workgroup, composed of members appointed by the department, to complement the work of the department and the Department of Law Enforcement associated with the centralized integrated data repository and data analytics resources initiative and to make recommendations regarding the development of a statewide threat assessment database. The database must allow authorized school personnel to enter information related to any threat assessment conducted at their respective schools using the instrument developed by the Office of Safe Schools, and must provide such information to authorized personnel in each school district and public school and to appropriate stakeholders.

Section 1001.212(13), F.S., requires the workgroup to provide a report by December 31, 2019, with recommendations that include, but need not be limited to:

- a. Threat assessment data that should be required to be entered into the database.
- b. School district and public school personnel who should be allowed to input student records to the database and view such records.
- c. Database design and functionality, to include data security.
- d. Restrictions and authorities on information sharing, including:
 1. Section 1002.22, F.S., and other applicable state laws.
 2. The Family Educational Rights and Privacy Act (FERPA), 20 U.S.C. § 1232g, 42 C.F.R. part 2; the Health Insurance Portability and Accountability Act (HIPAA), 42 U.S.C. § 1320d-6, 45 C.F.R. part 164, subpart E; and other applicable federal laws.
 3. The appropriateness of interagency agreements that will allow law enforcement to view database records.
- e. The cost to develop and maintain a statewide online database.
- f. An implementation plan and timeline for the workgroup recommendations.

A. Threat assessment data that should be required to be entered into the database.

Senate Bill 7030 established an August 1, 2019 deadline for the Florida Department of Education's Office of Safe Schools to develop a standardized, statewide behavioral threat assessment instrument for use by all public schools, including charter schools, for the purpose of addressing early identification, evaluation, early intervention and student support. In meeting this requirement, the Office of Safe Schools adopted the Comprehensive School Threat Assessment Guidelines (CSTAG) Threat Assessment and Response Protocol as Florida's standardized behavioral threat assessment instrument. The CSTAG instrument is attached at Exhibit A.

The CSTAG leads threat assessment teams through a process framed within a 5-step "School Threat Assessment Decision Tree" from evaluating threats or behaviors that may pose a threat to implementing and monitoring a safety plan. Each step throughout this process is critical in determining the seriousness of the threat and appropriate responses that should be considered. The decision tree is summarized below:

Step 1 – Evaluate the threat.

- The first step is for the threat assessment team to obtain a detailed account of the threat by interviewing the person who made the threat, the intended victim, and other witnesses.
- In evaluating the threat, the team should consider the circumstances in which the threat was made and the person's intentions. The key question is whether there is a communication of intent to harm someone or behavior suggesting an intent to harm someone else?
- If the answer to the question is no, then there is not a threat and the rest of the decision tree does not need to be completed. Even if no threat is present, concerning statements or behaviors may still merit attention, intervention, or services, as determined by the threat assessment team.
- If the answer to the question is yes, then proceed to Step 2.

Step 2 – Attempt to resolve the threat as transient.

- A transient threat is one where there is not a sustained intent to harm. Transient threats are often made in the heat of the moment and may be an expression of humor, rhetoric, anger, or frustration that can be easily resolved with an apology, retraction, or explanation by the person who made the threat.
- The critical question in determining if a threat is transient is whether the person intends to carry out the threat.
- If a threat is determined to be transient, it should be quickly resolved. The threat assessment team may require disciplinary action and/or refer to school or community-based resources, as appropriate.
- If the threat cannot be resolved as transient, then the team must proceed to Step 3.

Step 3 – Respond to a substantive threat.

- A substantive threat is one where an intent to harm someone is present or not clear. When in doubt, a threat should be considered substantive.
- Substantive threats may be serious, meaning a threat to hit, fight, or beat up someone else, or very serious, meaning a threat to kill, rape, or cause very serious injury with a weapon.
- All substantive threats require threat assessment teams to take immediate action to protect others, reduce the risk of violence, and manage the situation, including:
 - Taking precautions to protect potential victims;
 - Warning the intended victim and parents;
 - Looking for ways to resolve conflict; and
 - Disciplining the student, when appropriate.

Step 4 – Conduct a safety evaluation for a very serious substantive threat.

- In addition to the immediate precautions listed above in Step 3, serious substantive threats require further investigation and interventions. A student making a very serious substantive threat may be briefly placed elsewhere or suspended pending completion of the following:
 - Screening the student for mental health services and referral as needed;
 - Contacting law enforcement to investigate evidence of planning and preparation or criminal activity; and
 - Developing a safety plan that reduces risk and addresses student needs. The plan should include review of Individual Educational Plan if the student is already receiving special education services and further assessment if there is a possible disability.

Step 5 – Implement and monitor the safety plan.

- The safety plan should be documented and should include regular contact with the student. Threat assessment teams should continue to monitor whether the plan is working and revise as needed.

As behavioral threat assessment teams work through the process, key information should be collected and documented as part of the assessment. Depending on the nature of the threat, this information may include completion of some or all of the CSTAG tool, such as:

- Threat Report – includes initial summary information that begins the threat assessment process.
- Assessment Findings – includes a review of various sources of information and relevant findings, as needed. Sources of information reviewed by the team may include, but are not limited to:
 - Prior threats
 - Prior disciplinary records
 - Academic records (grades, attendance, assignments, etc.)
 - Special education records (Individual Education Plan or Section 504 Plans)
 - Other records (social media, etc.)
 - Records from other schools

- Health or mental health records (school or community-based providers)
- Records from outside agencies (social services or mental health)
- Law enforcement records (adult and juvenile criminal history, contacts, firearm purchases, etc.)
- Employment records (grievances, disciplinary actions, Title IX, etc.)
- Interviews – notes from interviews include key information obtained from interviews of the student or person making the threat, the intended victims or target of the threat and other witnesses.
- Key Observations – Factors for consideration are presented in a checkbox format that is designed to help teams assess whether a threat is transient or substantive.
- Threat Classification – No threat, transient, serious or very serious substantive.
- Observations Suggesting Need for Intervention – This is used as needed for intervention planning. The factors to consider are listed in a checkbox format that helps teams identify possible interventions to assist the subject and reduce risk.
- Threat Response – list of actions taken in response to a threat. This may also include notes on actions recommended, but for some reason not completed or implemented.
- Case Plan Summary – This section is used to summarize how the case was resolved and may include any plans for further actions.
- Mental Health Assessment – Generally conducted in cases involving a very serious substantive threat, although may be completed in other cases as determined by the threat assessment team. The purpose of the mental health assessment is to maintain the safety and well-being of the student and others. The goal of the mental health assessment is to determine the student’s treatment and referral needs, and to identify strategies or interventions that may reduce the risk of violence.
- Behavior Intervention Plan – Only done as needed. These plans are designed to identify behaviors impeding learning of the student or others and strategies to respond to those problematic behaviors and to support positive behaviors.

Recommendation: The CSTAG Threat Assessment Response Protocol attached at Exhibit A has been provided to school districts and is available to districts on the Office of Safe Schools’ website. The CSTAG protocol should serve as the basis for the statewide threat assessment database. The workgroup recommends that information required by the CSTAG protocol should be required to be entered into the database for all threats reported to threat assessment teams, including those that are transient or determined not to be a threat. As described above, all parts of the CSTAG instrument are not required in all cases.

B. School district and public school personnel who should be allowed to input student records to the database and view such records.

Senate Bill 7026 required the establishment of threat assessment teams at each school, which must include persons with expertise in counseling, instruction, school administration, and law enforcement. In 2019, this requirement was expanded to require threat assessment teams at charter schools. In some cases, particularly those involving serious and very serious substantive threats, the assessment process may involve higher-level consultation with select school district administration, as well as others representing

other perspectives of threat assessment expertise. Some districts have established dedicated district-level threat assessment teams to facilitate this process.

Recommendation: Due to the sensitive nature of information reviewed, collected, and discussed through the work of the threat assessment teams, careful consideration must be taken in determining those involved with inputting and viewing student records as part of the threat assessment database. Access to these records should be limited in order to protect student privacy and limit opportunities for exposure of sensitive information. Therefore, the workgroup recommends that the ability to input information or view records in the statewide threat assessment database should be limited to members of a school or district-level threat assessment team that are considered school officials, as defined by the Federal Educational Rights and Privacy Act (FERPA). Members of the threat assessment team that are not school or district employees, such as law enforcement officers or mental health professionals, can qualify as school officials if certain conditions are met. This recommendation is consistent with the structure of the Florida Schools Safety Portal, access to which is also limited to members of a school or district-level threat assessment team.

C. Database design and functionality, to include data security.

Recommendation: From a design standpoint, the workgroup recommends that the database be implemented in a cloud-based environment to collect data elements as listed in the threat assessment instrument, within the school district that the student resides. In order to facilitate a statewide behavior assessment solution, this database should have the following core functionality:

- Generate standard and customize reports;
- Workflows for routing and approving threat assessments;
- Ability to move threat assessment data from one district to another district;
- Web-based interfaces for users;
- Ability to add, delete and edit threat assessment and response data as needed;
- Secure Application Programming Interface (API) connecting to the Florida School Safety Portal;
- Ability to upload or connect current staff and student information; and
- Provision of online support capabilities, training and assistance for users in various media platforms.

In order to secure the data within the database, the solution should be compliant with Florida's Cybersecurity Standards, located in Florida Administrative Code Rules 60GG-2.001-2.006. These rules are modeled after the National Institute of Standards and Technology (NIST) Framework for Improving Critical Infrastructure Cybersecurity, Version 1.1, and the Federal Information Security Management of 2002 (44 U.S.C. § 3541 et seq.). The rules establish minimum standards used by state agencies to secure and protect information technology resources and consist of five high-level functions: identify, protect, detect, respond, and recover. In addition, the workgroup recommends the development of

standardized data access and use agreements for members of threat assessment teams to sign before getting access to the database, which will acknowledge their duties to protect information consistent with FERPA and other applicable laws.

D. Restrictions and authorities on information sharing.

Threat assessment teams should determine on a case-by-case basis when it is necessary to review records and gather additional information in order to get a complete picture of what is driving a person's behavior and to determine what interventions are needed. A records review should be conducted in all cases of very serious substantive threats, and may be valuable in other cases as determined by the team.

Depending on the type of record at issue, there are many federal and state laws which affect the threat assessment team's ability to access and share information. These considerations may inform decisions made on the front end about what information should be documented in the threat assessment record. However, once information is added to the CSTAG instrument, access and disclosure of the threat assessment record must comply with the Federal Educational Rights and Privacy Act (FERPA)¹, as discussed below.

1. Section 1002.22, F.S. and other applicable state laws.

Changes made to Florida law as a part of Senate Bill 7026 allow for broad information sharing among agencies and local partners that provide services to students. Section 1006.07(7), F.S., states:

(d) Notwithstanding any other provision of law, all state and local agencies and programs that provide services to students experiencing or at risk of an emotional disturbance or a mental illness, including the school districts, school personnel, state and local law enforcement agencies, the Department of Juvenile Justice, the Department of Children and Families, the Department of Health, the Agency for Health Care Administration, the Agency for Persons with Disabilities, the Department of Education, the Statewide Guardian Ad Litem Office, and any service or support provider contracting with such agencies, may share with each other records or information that are confidential or exempt from disclosure under chapter 119 if the records or information are reasonably necessary to ensure access to appropriate services for the student or to ensure the safety of the student or others. All such state and local agencies and program shall communicate, collaborate, and coordinate efforts to serve such students.

¹ For purposes of this report, the workgroup assumed that the majority of threat assessments done in the school context will be in situations where a student is the subject of the assessment, but this may not always be the case. The CSTAG protocol is applicable to threats by non-students. While FERPA does not apply to threat assessment records that are not directly related to a student, the workgroup recommends that all records entered into the statewide database be subject to the same privacy protections. This will allow for consistency in the handling of records and limits the potential exposure of sensitive information.

Section 1006.07(7)(d), F.S. (emphasis added). Thus, state and local agencies are directed to work together to serve students who are experiencing or at risk of an emotional disturbance or mental illness. In addition, the workgroup reads this section to permit these entities to share information and records with one another, as long as the information is reasonably necessary to ensure access to services or to ensure the safety of the student or others, no matter what restrictions may be stated elsewhere in state law.² Agencies sharing information must still comply with federal laws, which will be discussed in detail in the next section.

Section 1002.22(2), F.S., states that the rights of students and their parents with respect to education records created, maintained, or used by public educational institutions and agencies shall be protected in accordance with FERPA, 20 U.S.C. § 1232g, and the implementing regulations issued pursuant thereto. FERPA is a federal law that governs access to and re-disclosure of all education records, including the CSTAG instrument anticipated to be maintained in the statewide threat assessment database. Notably, Florida provides for a private right of action for parents and students to seek injunctive relief if they believe FERPA has been violated. § 1002.22(4), F.S.

2. The Family Educational Rights and Privacy Act (FERPA), 20 U.S.C. § 1232g, 42 C.F.R. part 2; the Health Insurance Portability and Accountability Act (HIPAA), 42 U.S.C. § 1320d6, 45 C.F.R. part 164, subpart E; and other applicable federal laws.

While Florida law allows for broad information sharing among agencies in order to promote safety and provide services to students, state agencies and local entities that maintain records governed by federal law must still comply with those requirements. The federal restrictions on information sharing that are likely to impact the threat assessment process are outlined below.

FERPA: Education records maintained by school districts provide much of the information relevant to a threat assessment where the subject is a student. FERPA provides parents and eligible students (those who are 18 or older or attend a postsecondary institution) the right to review educational records, to limit disclosure of those records, and to challenge the information contained in those records. 20 U.S.C. § 1232g, 34 C.F.R. Part 99. FERPA applies to all educational institutions or agencies that receive federal funds from any program administered by the U.S. Department of Education.

FERPA applies only to education records and information derived from those records. “Education records” are defined as records that are (1) directly related to a student and (2)

² State laws governing the privacy of records include, but are not limited to: § 39.00145 and § 39.202, Fla. Stat. (relating to child welfare records); § 394.463 and § 394.4615, Fla. Stat. (relating to mental health records); § 395.3025, Fla. Stat. (relating to hospital records); § 456.057, Fla. Stat. (relating to medical records), § 456.059, Fla. Stat. (relating to communications to a psychiatrist), and § 985.04 and § 943.053, Fla. Stat. (relating to juvenile criminal history records).

maintained by an educational agency or institution or by a party acting for the agency or institution. 34 C.F.R. § 99.3 (definition of “education records”). This encompasses most records held by school districts, such as grades, transcripts, course schedules, and disciplinary records. In most cases, student health and mental health records also qualify as education records.

Law enforcement unit records, which are created and maintained by the educational agency’s or institution’s law enforcement unit for a law enforcement purpose, are excluded from the definition of education records under FERPA. 34 C.F.R. §§ 99.3 (definition of “education records”) and 99.8. Records that meet this definition can be disclosed without consent. However, if the law enforcement unit records are maintained by a different unit at the school, or used for a non-law enforcement purpose (such as discipline), those records would be treated as education records subject to FERPA disclosure requirements.

All education records that contain personally identifiable information (PII) are subject to FERPA restrictions on access and disclosure. First, keep in mind that PII contained in education records can be disclosed with the consent of the parent or eligible student. Otherwise, generally, education records cannot be disclosed without consent of the parent or eligible student. However, an educational agency or institution may disclose PII from an education record without consent, if the disclosure meets one of the exceptions listed in 20 U.S.C. § 1232(g)(b) and (h)-(j) and 34 C.F.R. § 99.31. The exceptions most relevant to threat assessment are:

- **School Officials:** Educational agencies or institutions may disclose PII without consent to other school officials within the agency or institution that have a legitimate educational interest in the information. 34 C.F.R. § 99.31(a)(1). Information disclosed under this exception may only be used for the purpose for which the disclosure was made. Educational agencies and institutions must explain who is considered a school official and must explain how they define “legitimate educational interest” in an annual FERPA notification to parents and eligible students. 34 C.F.R. § 99.7(a)(3)(iii). Members of a threat assessment team who are not school or district employees (such as mental health professionals or law enforcement officers) may qualify as school officials if they:
 - Perform an institutional service or function for which the agency or institution would otherwise use employees;
 - Are under the direct control of the agency or institution with respect to the use and maintenance of education records;
 - Are subject to the requirements in § 99.33(a) that the personally identifiable information (PII) from education records may be used only for the purposes for which the disclosure was made and are also subject to requirements governing the re-disclosure of PII from education records.
- **Court Order or Subpoena:** Educational agencies and institutions may disclose PII from education records without consent in order to comply with judicial orders and

lawfully issued subpoenas. In most cases, an educational agency or institution is required to make a “reasonable effort” to notify the parent or eligible student of the order or subpoena before compliance. 34 C.F.R. § 99.31(a)(9).

- **Health or Safety Emergency:** Educational agencies or institutions may disclose PII from education records without consent if the disclosure is in connection with a health or safety emergency. 34 C.F.R. § 99.31(a)(10). If the school or district determines there is an articulable and significant threat to the health or safety of a student or others, and that one or more parties, including the parents of an eligible student, need education records (or PII contained in those records) in order to protect the student or others, then the school or district may disclose that information without consent. 34 C.F.R. § 99.36(a). This exception is limited to the period of the emergency and does not allow for a blanket release of information.

IDEA: The Individuals with Disabilities Education Act (IDEA) provides privacy protections for students with disabilities. The protections in IDEA Part B and C generally align with FERPA, and in some cases, directly adopt FERPA into the regulations. 34 C.F.R. §§ 300.610-627, 34 C.F.R. §§ 303.401-417.

HIPAA: Generally, HIPAA does not apply to medical or mental health records maintained by a school or district. The Health and Insurance Portability and Accountability Act (HIPAA) Privacy Rule governs the use and disclosure of an individuals’ protected health information (PHI). However, HIPAA only applies to “covered entities,” which are defined as health plans, health care clearing houses, and health care providers who conduct certain financial and administrative transactions electronically, such as billing and fund transfers, as well as business associates of those covered entities that are contracted to perform some of the covered entity’s functions. 45 C.F.R. § 160.103 (definition of “covered entity”). Most school districts and K-12 schools are not covered entities. Even where they do meet the definition of a covered entity, schools generally do not maintain records that are considered PHI. The HIPAA regulations state that if health information is maintained in records that meet the definition of “education records” under FERPA, those records are excluded from the definition of “protected health information.” 45 C.F.R. § 160.103.

While HIPAA does not apply to most elementary and secondary schools, it does apply to other agencies that are covered entities, such as the Department of Children and Families and the Agency for Health Care Administration, as well as local managing entities, behavioral health providers, hospitals, and private medical offices. These entities must comply with the HIPAA Privacy Rule with respect to any identifiable information it has about those to whom they provide or pay for health care, and these restrictions may inform what these entities can disclose to threat assessment teams. PHI can be disclosed to the individual who is the subject of the information or to a minor’s parent, when such disclosure is not inconsistent with state or other law. 45 C.F.R. § 164.502(g)(3).

HIPAA permits the disclosure of PHI with the patient’s or the patient’s parent or legal representative’s consent. PHI may also be disclosed without consent for treatment, payment, and healthcare operations, which includes care coordination. 45 C.F.R. §§

164.501, 164.506. Additional exceptions that allow the release of PHI without consent include:

- **Court Order or Subpoena:** A covered entity may disclose PHI in the course of any judicial or administrative proceeding in response to a court order or an order of an administrative tribunal. PHI may also be disclosed in response to a subpoena or discovery request, or other lawful process, without an order, if the covered entity receives assurance that reasonable efforts were made to provide notice to the person who was the subject of the PHI or notice that reasonable efforts have been made to secure a protective order. 45 C.F.R. § 164.512(e).
- **Serious Threat to Health or Safety:** A covered entity may use or disclose PHI if the entity, in good faith, believes that the use or disclosure is necessary to prevent or lessen a serious and imminent threat to the health or safety of a person or the public, and disclosure is to a person or persons reasonably able to prevent or lessen the threat, including the target of the threat. 45 C.F.R. § 164.512(j). Disclosure under this exception is also permitted based on reliance on a credible representation from a person with apparent knowledge or authority that the disclosure of information is necessary to prevent or lessen a serious and imminent threat to the health and safety of the patient or others and where the disclosure is to persons reasonably able to prevent or lessen the threat. 45 C.F.R. § 164.512(j)(4).
- **Law Enforcement Purposes:** A covered entity may disclose PHI for a law enforcement purpose to a law enforcement official under the following circumstances: (1) as required by law (including court orders, court-ordered warrants, subpoenas) and administrative requests; (2) to identify or locate a suspect, fugitive, material witness, or missing person; (3) in response to a law enforcement official's request for information about a victim or suspected victim of a crime; (4) to alert law enforcement of a person's death, if the covered entity suspects that criminal activity caused the death; (5) when a covered entity believes that protected health information is evidence of a crime that occurred on its premises; and (6) by a covered health care provider in a medical emergency not occurring on its premises, when necessary to inform law enforcement about the commission and nature of a crime, the location of the crime or victims, and the perpetrator of the crime. 45 C.F.R. § 164.512(f).

While HIPAA privacy regulations may limit what information the threat assessment team has access to, it is important to understand that once the information is in the hands of the school, HIPAA no longer applies. For example, mental health records maintained by a private physician are subject to HIPAA requirements. If those same records are provided to a school counselor or other school officials in connection with the development of an Individualized Education Plan, the copy maintained by the school would constitute an education record governed by FERPA that may be available to the threat assessment team. The copy of that record maintained by the school is an education record governed by FERPA, and not HIPAA.

A person who knowingly uses a unique health identifier, obtains individually identifiable health information relating to an individual, or discloses individually identifiable health information to another person is subject to penalties under federal law, including substantial fines and prison time. 42 U.S.C. § 1320d-6. In order for this section to apply, the information must be maintained by a covered entity and then obtained or disclosed without authorization. While other agencies will need to comply with HIPAA in order to lawfully provide information to threat assessment teams, as discussed above, once the school has information lawfully provided by a HIPAA covered entity, the record maintained by the school is subject to FERPA regulations. Thus, section 42 U.S.C. § 1320d-6 should not affect access to the statewide threat assessment database.

Substance Abuse Records: Substance abuse patient records are subject to a higher level of protection under federal law. These records can only be disclosed without consent for (a) medical emergencies where prior consent cannot be obtained; (b) for research; or (c) for audit and evaluation. 42 C.F.R. § 2.51-2.53. Records may also be released in response to a subpoena, but only where a court has issued an order compelling disclosure. 42 C.F.R. § 2.61. No general health and safety exception is provided. Threat assessment teams would likely need a court order to access substance abuse records. Such an order would, presumably, inform circumstances under which the team could disclose the information in those records to others. Given the heightened protections on these records, threat assessment teams should work with their legal counsel to determine whether any such information should be included in the threat assessment record.

Medicaid Records: Information concerning Medicaid program applicants and beneficiaries is also subject to additional federal restrictions. The use and disclosure of such information is limited to “purposes directly connected with the administration of the plan.” 42 C.F.R. § 431.301. Those purposes are defined as (a) establishing eligibility; (b) determining the amount of medical assistance; (c) providing services for beneficiaries; and (d) conducting or assisting an investigation, prosecution, or civil or criminal proceeding related to the administration of the plan. The law also allows for a release of information in an emergency situation or pursuant to a subpoena, provided certain requirements are met. 42 C.F.R. § 431.306(d), (f). Again, given the heightened restriction on these records, consultation with counsel regarding these records is recommended.

Law Enforcement Data: It is vital that threat assessment teams have strong relationships with local law enforcement agencies that serve their community and the surrounding area, as law enforcement officers have access to a wealth of information that is beneficial to the threat assessment process. The best source of information is generally local Records Management Systems or Computer-Aided Dispatch data, which show all law enforcement contact with an individual or those that live with them.

Law enforcement officers can also access a number of databases through the Florida Schools Safety Portal, including FortifyFL (mobile suspicious activity reporting tool), DAVID (driver and vehicle information), and CCIS (court record information). Additional resources are available through officers’ connection to CJNet, including the Florida Safe

Families Network (child welfare information), corrections and juvenile justice information, and intelligence information. Law enforcement officers can also access the Florida Crime Information Center (FCIC) and the National Crime Information Center (NCIC), which provide criminal justice information and criminal history record information, such as arrest records, juvenile records, incarceration information, judicial records, and expunged or sealed information.

With the required agreements in place, authorized members of a school or district-based threat assessment team can obtain criminal history information for juveniles. Florida law provides that upon a preliminary determination by the threat assessment team that a student poses a threat of violence to himself or others, or exhibits significantly disruptive behavior or need for assistance, authorized members of threat assessment teams may obtain criminal history record information on a juvenile. §§ 985.04(1), 1006.07(c), F.S. Information disclosed under this section may only be used for the purpose for which the disclosure was made. Section 985.04 F.S. requires a memorandum of understanding (MOU) in order to share information, and MOUs should be amended, if they have not been already, to allow for sharing information with non-enforcement members of the threat assessment team.

There is not a similar statute that allows for the sharing of criminal history information concerning adults. Law enforcement agencies, including the Florida Department of Law Enforcement, Department of Juvenile Justice, and local police or sheriff's offices, must comply with the Federal Bureau of Investigation's Criminal Justice Information Services (CJIS) Security Policy, which provides guidance for the creation, viewing, modification, transmission, dissemination, storage and destruction of criminal justice information, which encompasses all FBI-provided data necessary for law enforcement and civil agencies to perform their missions, including criminal history record information (CHRI). In Florida, this information is primarily housed in the FCIC/NCIC databases. Officers reviewing this information in the context of working with a threat assessment team can only share information from these sources with non-law enforcement members of the team that would otherwise be available to the public. If the same information is obtained from other sources, such as the underlying police reports, court records, or other databases that do not have the same limitations as a search from FCIC/NCIC, then the officer may share that information with the threat assessment team. For this reason, officers serving on threat assessment teams must be careful with respect to what information is shared with the team and documented in the threat assessment record.

3. The appropriateness of interagency agreements that will allow law enforcement to view database records.

The completed CSTAG instrument is considered an education record, subject to FERPA requirements for access and disclosure. The workgroup recommends that the ability to input information and to view records contained in the statewide threat assessment database be limited to school officials with a legitimate educational interest in the information, which is consistent with FERPA regulations. Law enforcement officers serving on threat assessment teams may not be school or district employees, but can still be

considered school officials if they perform an institutional service or function for which the agency or institution would otherwise use employees; are under the direct control of the agency or institution with respect to the use and maintenance of education records; and are subject to FERPA requirements concerning disclosure and re-disclosure of records.

A law enforcement officer serving on a threat assessment team who has access to student education records as a school official is subject to FERPA’s restrictions on re-disclosure. Generally, this prohibits the officer from sharing information learned in the threat assessment process with others, including his employing law enforcement agency, unless the officer has consent or another FERPA exception is present, such as an emergency situation. There is no FERPA exception that allows for general access to student records by law enforcement agencies. Therefore, it is not appropriate to enter into an interagency agreement allowing such access to the statewide database.

In order to comply with federal law, the workgroup recommends that access to the statewide database be limited to members of school or district threat assessment teams that meet the definition of “school officials.” Members of the team who may not be school or district employees, such as mental health professionals and law enforcement officers, may meet this definition if certain conditions are met. Agreements allowing law enforcement officers who do not meet this definition to view database records must require consent or another FERPA exception.

E. The cost to develop and maintain a statewide online database.

A request for information was issued on October 30, 2019 and the workgroup received 15 responses by the due date. Based on the responses, implementing the solution will cost approximately \$4,000,000 with an estimated maintenance cost of \$2,000,000 per year.

Additional Recommendations to Consider

The Statewide Threat Assessment Database Workgroup used a number of timely resources to further inform recommendations relevant to this work. Of these, the following are most appropriate to include:

- **Marjory Stoneman Douglas High School Public Safety Commission’s Report from November 1, 2019.**

The Commission explained that the information most relevant to the threat assessment process is housed in databases maintained by local law enforcement entities, local school districts, and mental health providers. As noted by the Commission, it is not possible to include all of these information-rich local databases in the Florida School Safety Portal to be available to all members of the threat assessment team. However, the Commission felt it imperative that local teams establish procedures to ensure that all relevant information is obtained so that information important to the decision-making process is included. For this reason, the Commission recommended that “law enforcement agencies consider committing a dedicated analyst familiar with data gathering to conduct the research necessary for an effective threat assessment process.”

The Statewide Threat Assessment Database Workgroup recommends that a similar structure be established for school district personnel as well. While it is important to allow districts to maintain flexibility in designing threat assessment processes that will work with their individual districts, this should be considered a best practice. Ideally, school districts should identify key school and/or district personnel, to work in concert with a local law enforcement analyst and be allowed full access to all the information on the student or subject being assessed for analysis purposes.

- **Arapahoe High School Shooting: Lessons Learned on Information Sharing, Threat Assessment and Systems Integrity Report from January 2016**

The *Arapahoe High School Shooting: Lessons Learned on Information Sharing, Threat Assessment and Systems Integrity (January 2016)* report supports the case for having key school and/or district personnel look at all the information available for someone posing a threat of harm to self or others. In this report, it was recommended that an information vortex coordinator (from the threat assessment team) be assigned to every threat assessed student; the information vortex coordinator should be noted in the student's profile within the student information system so that when a concern arises, all teachers and other staff can easily identify and communicate with the assigned coordinator. In addition, “it should be the proactive duty of the information vortex coordinator to continue to seek out and evaluate information about a threat assessed student and recall the threat assessment team if new risk or threat factors are revealed.” The workgroup

recommends that the designation of an “information vortex coordinator” be considered a best practice for districts.

- **U.S. Secret Service National Threat Assessment Center (NTAC) Report from July 2018**

The NTAC’s *Enhancing School Safety Using a Threat Assessment Model* and the CSTAG both advocate for threat evaluators who can apply an “investigative, skeptical, inquisitive mindset.” A best practice would be having district personnel who are not directly connected to students, but who have the ability to collect all information and connect the dots, as part of the threat assessment process in order to preserve the integrity of the assessment.

Conclusion

The Department of Education understands the importance of the threat assessment process in identifying and addressing risks posed by potential offenders with intentions to harm themselves or others. A key component of this effort involves a multifaceted team of school- and district-level experts to weigh the totality of information surrounding a potential threat and collectively establish an assessment based on the information available. From conclusions drawn, decisions are made which guide the team in identifying supports and preventing the possibility of harm. The development and use of a statewide threat assessment database will enhance the efforts of individual threat assessment teams to expeditiously and efficiently evaluate all relevant information surrounding concerning and threatening behaviors, allowing for timely implementation of appropriate measures to alleviate threats. Through statewide consistency, we are better able to protect students and staff across the state of Florida.

Threat Assessment Protocol

THREAT ASSESSMENT AND RESPONSE PROTOCOL®

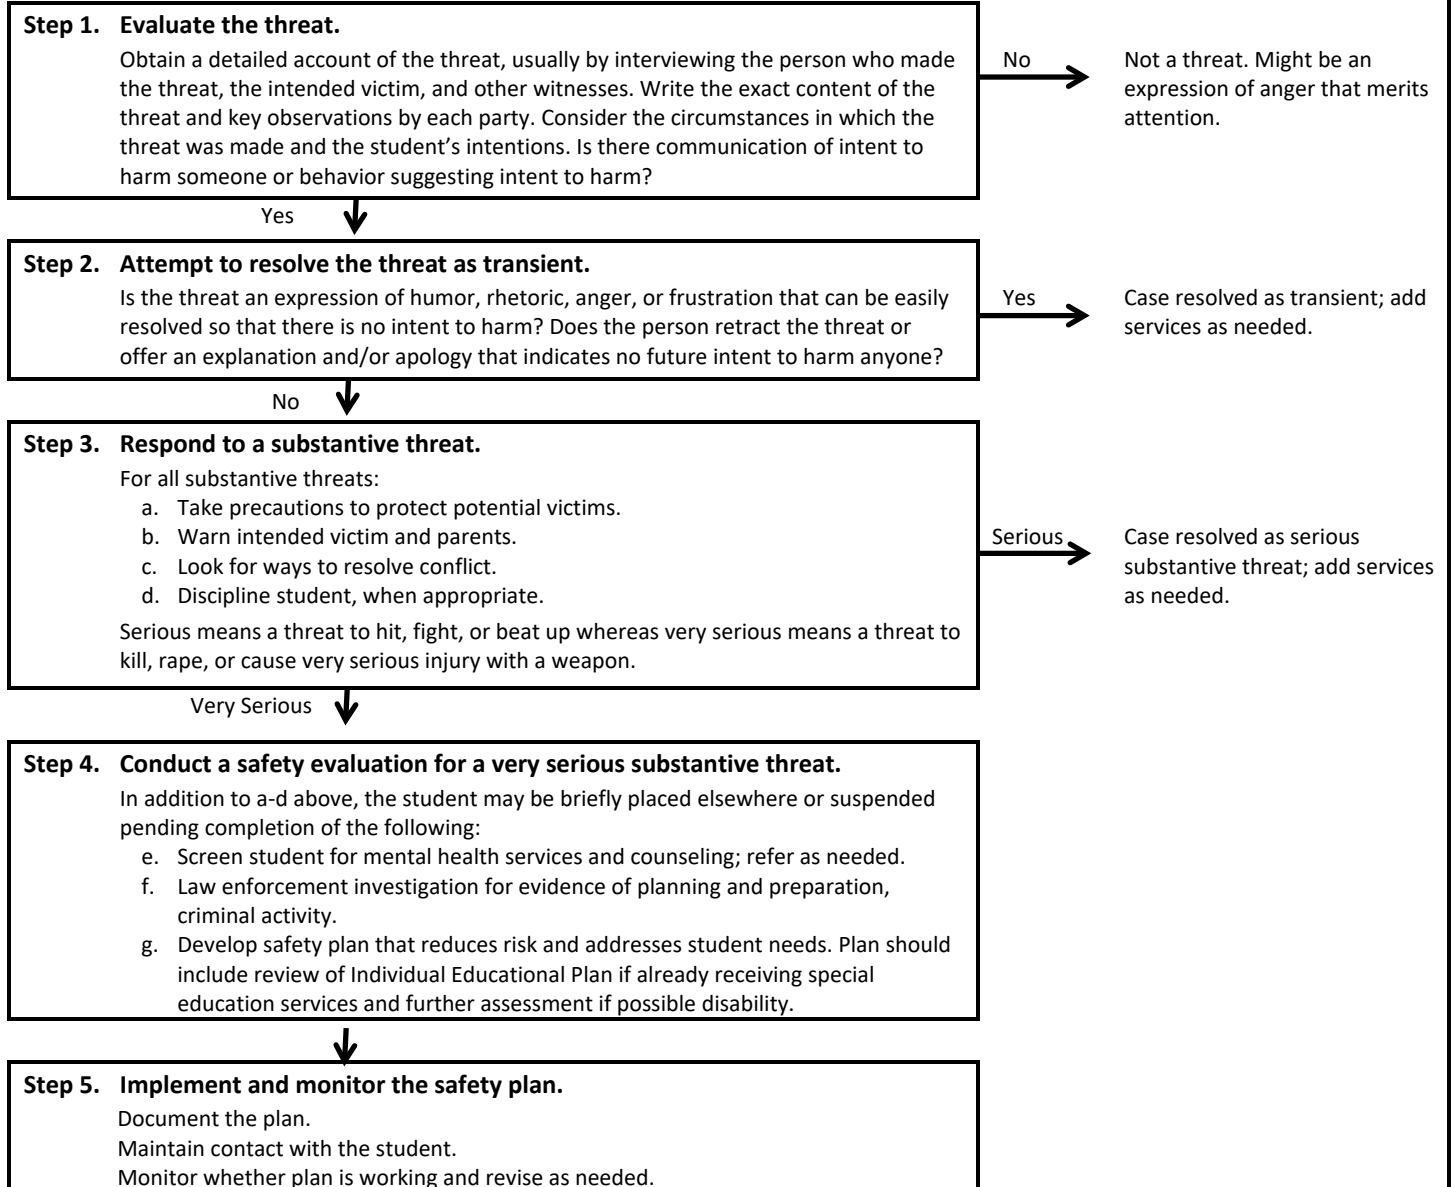

Comprehensive School Threat Assessment Guidelines

OVERVIEW

A threat is a communication of intent to harm someone that may be spoken, written, gestured, or expressed in some other form, such as via text messaging, email, or other digital means. An expression of intent to harm someone is considered a threat regardless of whether it is communicated to the intended target(s) and regardless of whether the intended target is aware of the threat. Threats may be implied by behavior that an observer would reasonably regard as threatening, planning, or preparing to commit a violent act. When in doubt, treat the communication or behavior as a threat and conduct a threat assessment. Threats that are not easily recognized as harmless (e.g., an obvious joke that worries no one) should be reported to the school administrator or other team members. The administrator or another team member makes a preliminary determination of the seriousness of the threat. The student, targets of the threat, and other witnesses should be interviewed to obtain information using this protocol. A *transient* threat means there is no sustained intent to harm and a *substantive* threat means the intent is present (or not clear) and therefore requires protective action. This form is a guide for conducting a threat assessment, but each case may have unique features that require some modification.

A threat assessment is not a crisis response. If there is indication that violence is imminent (e.g., person has a firearm at school or is on the way to school to attack someone), a crisis response is appropriate. Take immediate action such as calling 911 and follow the school crisis response plan.

School Threat Assessment Decision Tree*

*This 5-step decision tree is a revision of the original 7-step decision tree for the Virginia Student Threat Assessment Guidelines that retains the same information and procedures in a more condensed format.

THREAT REPORT	
<p>A threat is an expression of intent to harm someone that may be spoken, written, gestured, or communicated in some other form, such as via text message or email. Threats may be explicit or implied, directed at the intended target or communicated to a third party. Behavior that suggests a threat such as weapon carrying, fighting, or menacing actions should be investigated to determine whether a threat is present.</p> <p>The process is designed for assessment of threats to harm others and is not intended for individuals who have only threatened to harm themselves. Only a small percentage of cases require both threat assessment and suicide assessment, and in those cases, the team should supplement this form with their choice of a standard suicide assessment protocol.</p>

MENTAL HEALTH ASSESSMENT

Virginia Student Threat Assessment Guidelines[®]

A mental health assessment is usually conducted in cases involving a very serious substantive threat. The purpose of the mental health assessment is to maintain the safety and well-being of the student and others. Therefore, the assessment has two objectives:

1. *Treatment and referral needs.* Assess the student's present mental state and determine whether there are urgent mental health needs that require attention, such as risk of suicide, psychosis, or rage. Beyond these immediate needs, consider whether there are other treatment, referral, or support needs.
2. *Threat reduction.* Gather information on the student's motives and intentions in making the threat in order to understand why the threat was made and identify relevant strategies or interventions that have the potential to reduce the risk of violence.

Subject Interview (Person who made threat or engaged in threatening behavior)

Subject Name		See records and additional information obtained by threat assessment team to supplement this assessment.
Person(s) Conducting Interview		Location, Date of Interview

Usually the interview can begin by asking "Do you know why I want to talk to you?" and after the subject has responded, "Let me explain the purpose of our meeting today." Use these questions as a guide to interview the person making the threat. Ask other questions as appropriate. Try to use open-ended questions rather than leading questions. Adjust spacing below as needed.

Review of threat

1. What happened that made others worried that you wanted to harm someone? What exactly did you say or do that made them worried? What did you mean by that?
2. I know you must have had reasons to say (or do) that; can you explain what led up to it?
3. How would you do it? (carry out the threat) (Probe for details of any planning or preparation.) Where did the idea come from?
4. What could happen that would make you want to do it? (carry out the threat)
5. What would happen if you did do it? (review both effects on intended victims and consequences for student)
6. What do you think the school should do in a situation in which a person makes a threat like this?
7. What were you feeling then? How do you feel now?
8. How do you think (the person threatened) felt?

Relationship with intended victim(s)

1. How long have you known this person?
2. What has happened in the past between you and this person?
3. What do you think this person deserves?
4. Do you see any way that things could be improved between you and this person?

Family support

1. Whom do you live with? Are there family members you don't live with? Have there been any changes in the past year?
2. Whom in your home are you close to?
3. How well do your parents/guardians know you?
4. Where do you go after school? Where are your parents/guardians at this time? How much do they keep track of where you are or what you are doing?
5. How strict are your parents/guardians? What do they do if you do something they don't want you to do? When was the last time you got in trouble with them? What was the worst time?
6. How will your parents/guardians react (or how did they react) when they found out about this situation?

Stress and trauma

1. What kinds of things have been going on with you lately? What sorts of things have you worried about?

Mood

1. What has your mood been like the past few weeks? Have you felt down or depressed at times? How bad has it been? 1. Have you had any unusual experiences lately, such as hearing things that others cannot hear or seeing things that others cannot see?

2. Have you felt like someone was out to get you or wanted to harm you? Have you had any other fears that seem strange or out of the ordinary?

3. Do you have any abilities or powers that others do not have, such as ESP or reading minds?

4. Have you felt numb or disconnected from the world, or like you were somehow outside your body?

Note and inquire about any other symptoms of mental disorder.

3. Have you ever had to use a knife with someone? What happened?
4. What do you think would happen if you did use a knife with (name of victim)?

Bullying

Bullying is broadly defined and may include teasing, social exclusion, or other forms of humiliation in addition to physical threats of violence. The student may not use the term "bully," and may be reluctant to admit being the victim of bullying behavior, so be prepared to rephrase questions and probe for victim experiences.

1. Is there anyone who has threatened you recently? Is there anyone who makes you feel afraid? (Ask about sexual threats if appropriate to situation.)
2. Is there anyone who has teased you or picked on you recently? Is there anyone who has beat you up or pushed you around? How about at home?

In response to any positive answer, follow up for more information: How often does it happen? What have you tried to do about it? Did you let any adult know about this, and if so, what happened? Parent/Guardian Interview

It is important that the interviewer find ways to convey respect for the parent, starting from the initial contact and throughout the interview. Also, it should be evident that the interviewer is interested in understanding and helping the parent's child; otherwise, the parent may regard the interview as an investigation designed to uncover evidence of wrongdoing by the student or incompetence by the parent. Mental Health Assessment Report Template

Identifying Information

Give the student's name, gender, age, grade, school, and other relevant identifying information.

Reason for Referral

State that this evaluation was requested by the school principal because the student made a threat of violence that was judged to be a very serious, substantive threat. Describe the threat, including the exact statement or threatening behavior, and where and when it took place.

Sources of Information

Describe or list the sources of information used in this report, including information from team interviews with the student, witnesses, and parents, as well as any relevant records or psychological tests.

Major Findings

Describe how the child presented and any important aspects of his or her mental state, including any indications or markers of mental disorder requiring further evaluation or referral. Identify any stresses, conflicts, or unmet needs that affect the child's functioning or bear on the threat incident.

Review the child's understanding of the threat and its meaning from his or her perspective. Note whether the child has a history of violent or aggressive behavior, and any findings from the assessment that raise concerns about the child's potential for violence, such as access to firearms, peer encouragement to fight, drug use, or inadequate home supervision.

Conclusions

In general, the mental health professional should not be expected to make a definitive statement that a child is or is not dangerous; such statements go beyond current knowledge in the field of risk assessment. The report may identify risk factors and protective factors, and express concerns where there appear to be compelling risk factors.

The report should present recommendations aimed at reducing the risk of violence, and they might convey the degree of concern about the potential for violence in general terms, recognizing that a precise measure of risk is not feasible. In all cases, the goal is to reduce the risk of violence rather than to predict violence.

Recommendations may include a wide range of strategies, but should address both any immediate safety needs to protect potential victims and broader efforts to resolve conflicts or problems that precipitated the threat.

There are two basic types of recommendations. First are recommendations for school behavior support, which are actions to be taken at school. The report should identify any signs of disability that would indicate the need for further assessment, child study, or special education evaluation. Second, if appropriate, the report may propose other recommendations for the parents to consider implementing outside of school, such as seeking community-based services for their child.

1. Introduction

The Project Management Plan (PMP) provides the guidelines for managing the Florida Department of Education (FDOE), Division of Technology and Innovation, Threat Assessment Database Project. It is a “living” document that contains the key project management plans. The document is due at initiation of the project, updated and delivered as needed over the duration of the project.

The Project Management Plan is organized into the following sections:

- Introduction
- Project Charter
- Scope Management Plan
- Work Breakdown Structure (WBS)
- Resource Breakdown Structure (RBS)
- Master Project Schedule
- Schedule Management Plan
- Work Management Plan
- Spending Plan
- Communication Plan
- Risk Management Plan
- Issue Management Plan
- Quality Management Plan
- Change Management Plan
- Procurement Management Plan

2. Project Charter

The Project Charter for the Florida Department of Education (FDOE), Division of Technology and Innovation, Threat Assessment Database Project formally: authorizes the project to exist and/or to continue; documents initial requirements that satisfy stakeholder needs; and, it recognizes the project manager role and gives the project manager the authority to "get the job done." This plan is effective at initiation of the project.

2.1 Overview

The Office of Safe Schools has identified a need to establish a standardized, statewide behavioral threat assessment instrument database based on the recommendations of the Statewide Threat Assessment Database Workgroup and pursuant to the requirements outlined in section 1001.212(13), F.S.

The Department of Education will consider a customized cloud solution with anticipated cost savings during the procurement process.

2.2 Project Charter

The Project Charter is organized into the following sections:

- Introduction
- Business Need
- Strategic Goals
- Project Scope
- Budget Estimate and Summary Project Schedule
- Assumptions and Constraints
- Project Team and Stakeholders
- Critical Success Factors
- Project Approvals

3. Scope Management Plan

The purpose of the Scope Management Plan is to provide the scope framework for the project. This plan documents the scope management approach; scope definition; scope statement; the project's work breakdown structure; roles and responsibilities as they pertain to project scope; scope verification; and, scope change control.

The Scope Management Plan is organized into the following sections:

- Introduction
- Project Overview
- Scope Management Approach
- Scope Definition
- Project Scope Statement
- Work Breakdown Structure
- Team Member Roles and Responsibilities
- Scope Verification
- Scope Control

3.1 Scope Management Plan

The scope for this project is defined by the Scope Statement and the Work Breakdown Structure (WBS). Scope management will be the sole responsibility of the Project Manager.

The Project Manager, Project Sponsor and Stakeholders will establish and approve documentation for measuring project scope which includes deliverable quality checklists and work performance measurements.

Proposed scope changes may be initiated by the Project Manager, Project Sponsor, Stakeholders or any member of the project team. All change requests will be submitted to the Project Manager who will then evaluate the requested scope change. Upon acceptance of the scope change request the Project Manager will submit the scope change request to the Project Sponsor and the Change Control Board for review and approval.

Upon approval of scope changes by the Change Control Board and Project Sponsor, the Project Manager will update all project documents and communicate the scope change to all stakeholders. Based on feedback and input from the Project Manager and Stakeholders, the Project Sponsor is responsible for the acceptance of the final project deliverables and project scope.

4. Work Breakdown Structure

The work required to complete this project will be subdivided into sub-deliverables, work packages, and activities. This will allow the Project Manager to more effectively manage the project's scope as the project team works on the tasks necessary for project completion.

The project will be organized in phases and coincides with the Project Management Institute, Project Management Institute's *A Guide to the Project Management Body of Knowledge (PMBOK® Guide) – Fourth Edition* standards for project management. The phases are: Initiation; Planning; Execution; Monitoring & Controlling; and, Closing. Each of these phases is then subdivided further down to work packages.

The installation, deployment, acceptance testing, launch, and training will be provided by the Vendor. A WBS will be developed after the selected vendor provides the solution.

5. Resource Breakdown Structure

The Project Management Institute's *A Guide to the Project Management Body of Knowledge (PMBOK® Guide) – Fourth Edition* defines a Resource Breakdown Structure (RBS) as a hierarchical list of resources related by function and resource type that is used to facilitate planning and controlling of project work.

The current Resource Breakdown Structure (RBS) for the project is as follows:

- Executive Sponsor - 1
- Project Sponsor – 1
- Project Manager – 1
- Technical Lead - 1
- Quality Assurance Analyst – 2 - (provided by Office School Safety)
- Business Analyst – 1 - Pending procurement

6. Master Project Schedule

The Master Project Schedule describes all project activities that will occur for the duration of the project. The Project Management Office (PMO) at DOE requires all Projects to be maintained in the Department's project management SharePoint site, including a Microsoft Project® project plan. It is organized in accordance with the Project parent and child activities and lays out all key actions, start and end dates, milestones, and percentage complete for the overall project.

7. Schedule Management Plan

The purpose of the Schedule Management Plan is to define the approach the project team will use in creating the project schedule. This plan will also include how the team will monitor the project schedule and manage changes after the baseline schedule has been approved. This includes identifying, analyzing, documenting, prioritizing, approving or rejecting, and publishing all schedule-related changes.

The Schedule Management Plan will be organized into the following sections:

- Schedule Management Approach
- Work Breakdown Structure
- Schedule Control
- Schedule Changes
- Scope Changes

Schedule Management Approach

This section will provide a general framework for the approach which will be taken to create the project schedule. This includes the scheduling tool/format, schedule milestones, and schedule development roles and responsibilities.

Schedule Tool/Format

Project schedules will be created using Microsoft Project.

Activity definition will identify the specific work packages which must be performed to complete each deliverable. Activity sequencing will be used to determine the order of work packages and assign relationships between project activities. Activity duration estimating will be used to calculate the number of work periods required to complete work packages.

Resource estimating will be used to assign resources to work packages in order to complete schedule development.

Schedule Milestones

Once a preliminary schedule has been developed, it will be reviewed by the project team and any resources tentatively assigned to project tasks. The project team and resources must agree to the proposed work package assignments, durations, and schedule. Once this is achieved the Project Sponsor will review and approve the schedule and it will then be baselined.

The following will be designated as milestones for the project schedule:

- Completion of scope statement, Work Breakdown Structure (WBS) and Resource Breakdown Structure (RBS).

- Baseline project schedule.
- Approval of final project budget.
- Project kick-off.
- Approval of roles and responsibilities.
- Requirements definition approval.
- Completion of data mapping/inventory.
- Project implementation.
- Acceptance of final deliverables.

Project Manager Roles and Responsibilities

The Project Manager will take responsibility for overall project management and will work with the Project Sponsor to coordinate activities such as:

- Closely monitoring the deliverable status.
- Developing, maintaining, and meeting the approved project schedule.
- Presenting written status of the schedule, deliverables, issue resolution, risk mitigation, and action items.
- Notifying the Project Sponsor in writing of any potential delays or issues that may impact scope, cost, or schedule as soon as becoming aware of the problem.
- Tracking, analyzing, and resolving all material issues resulting from the delivery of the project solution.

Project Sponsor Roles and Responsibilities

The Project Sponsor will be responsible for the following:

- Serve as the primary point of contact for the Project Manager, confirm the project work plan and facilitate issue resolution.
- Provide kick-off meeting facility and identify and invite participants.
- Provide the team with working space facilities, including internet connectivity, access to required technology.
- Provide meeting rooms and equipment such as projectors as needed.
- Actively participate in all project working sessions and management meetings.
- Monitor and ensure resolution of all issues.
- Approve status reports and communications prior to distribution.
- Approve all deliverables.

Work Breakdown Structure

The Project Management Institute's *A Guide to the Project Management Body of Knowledge (PMBOK® Guide) – Fourth Edition* describes the Work Breakdown Structure (WBS) as "a deliverable-oriented hierarchical decomposition of the work to be executed by the team".

The WBS for the Threat Assessment Database Project will be organized by phase as follows: Initiation; Planning; Execution; Monitoring & Controlling; and Closing.

Schedule Control

The project schedule will be reviewed and updated as necessary on a weekly basis with actual start, actual finish, and completion percentages which will be provided by task owners.

The Project Manager is responsible for holding weekly schedule updates/reviews; determining impacts of schedule variances; and, submitting schedule change requests.

The project team is responsible for participating in weekly schedule updates/reviews; communicating any changes to actual start/finish dates to the Project Manager; and participating in schedule variance resolution activities as needed.

The Project Sponsor will maintain awareness of the project schedule status and review/approve any schedule change requests submitted by the Project Manager.

Reporting

The progress of, and changes to the project schedule, will be reported in accordance with the project's Communications Plan.

Schedule Changes

If any member of the project team determines that a change to the schedule is necessary, the Project Manager and team will meet to review and evaluate the change. The Project Manager and project team must determine which tasks will be impacted, variance as a result of the potential change, and any alternatives or variance resolution activities they may employ to see how they would affect the scope, schedule, and resources.

If, after this evaluation is complete, the Project Manager determines that any change will exceed the established boundary conditions, then a schedule change request must be submitted.

Submittal of a schedule change request to the Project Sponsor for approval is required if either of the two following conditions is true:

- The proposed change is estimated to reduce the duration of an individual work package by 10% or more, or increase the duration of an individual work package by 10% or more.
- The change is estimated to reduce the duration of the overall baseline schedule by 10% or more, or increase the duration of the overall baseline schedule by 10% or more.

- Any change requests that **do not meet** these thresholds may be submitted to the project manager for approval.

Change Control Process

After acceptance of the Project Schedule draft, proposed changes will be reported to the Project Sponsor in accordance with the project change management process in the project's Change Management Plan. Proposed changes will be justified, including impact on scope, cost, risks and quality.

Emergency schedule changes must be reported immediately to the Project Sponsor. Such changes may be implemented more quickly than provided for in the change management process or the weekly reporting process, but such changes will be subject to the same reporting and approval process "after the fact" as they would if the changes had processed normally.

The issues management and risk management processes will be used to initially identify issues or risks which may impact the schedule. Should the issue or risk be determined to require a change to the schedule, the change management process will be used to document the required change and obtain authorization to make such a change. Both the Project Sponsor and the Project Manager can request changes to the project schedule.

All change requests will be vetted through the change management process. The

Change Management process and will include an assessment of the impact of the proposed schedule changes on the project. Impacts to scope, cost, risk and quality will also be evaluated in order to provide a basis for accepting and approving a change.

Once the change request has been reviewed and approved the Project Manager is responsible for adjusting the schedule and communicating all changes and impacts to the project team, Project Sponsor, and stakeholders. The Project Manager must also ensure that all change requests are archived in the project records repository.

Scope Changes

A scope change is defined as a change to the original boundaries of the project which changes the budget, schedule and/or contract requirements. Scope changes will be identified at the start of the change management process.

Approvals

Any changes in the project scope, which have been approved by the Project Sponsor, will require the project team to evaluate the effect of the scope change on the current schedule.

If the Project Manager determines that the scope change will significantly affect the current project schedule, he may request that the schedule be re-baselined in consideration of any changes which need to be made as part of the new project scope. The Project Sponsor must review and approve this request before the schedule can be re-baselined.

8. Work Management Plan

The purpose of the Work Management Plan is to define all project tasks and responsibilities, including technical tasks and management tasks, as well as projected and actual start and end dates for all project activities.

The original Work Management Plan was organized into the following sections and described a Modernization and Application Improvement project:

- Introduction
- Project Overview
- Approach and Methodology
- Management Procedures
- Implementation Tasks
- Operational Tasks
- Team Member Roles and Responsibilities
- Information Technology Policies

9. Spending Management Plan

This section presents the project spending plan and the high level project schedule for the Threat Assessment Database Project.

9.1 Spending Plan

The Threat Assessment Database Project to be funded for the 2022-23 fiscal year. The table below shows the cost of the project projected for 2022-23.

Table 1: Summary Spending Plan

Other Services	Ed Tech	\$ 125,300
Lease\Other Expenses	Expense	\$ 26,763
Total		\$ 3,510,000

10. Communication Plan

The Communication Plan describes the planned and periodic communications between the Threat Assessment Database Project Team members and the Department, as well as project communication between the Threat Assessment Project Team and various stakeholders, such as the project sponsors, control agencies, users, and support/service partners.

The Communication Plan is organized into the following sections:

- Introduction
- Roles and Responsibilities
- Communication Types
- Communication Management

The Communication Plan is filed for reference in the Project Documentation Folder.

11. Risk Management Plan

This section presents the Risk Management Plan for the Threat Assessment Database Project. A Risk Management Plan provides a systematic process of identifying, analyzing, and responding to project risk throughout the life of the project.

10.1 Risk Definition

A risk is an uncertain event or condition that, if it occurs, has a positive or negative effect on the project's objectives.

10.2 Risk Management Plan

The Risk Management Plan is organized into the following sections:

- Risk Management Strategy
- Risk Management Database
- Risk Breakdown Structure

Risks are reported separately in the SharePoint site.

Risk Management Strategy

This section describes the risk identification processes employed for this project, the risk assessment method, risk response options, and the risk management database development and maintenance.

Risk Identification Process

Risks are identified by analyzing each phase of the project and its deliverables using a Risk Breakdown Structure of risk types and sources. The Risk Breakdown Structure was adapted from the project management literature for the Threat Assessment Database Project.¹ The risks will be described in terms of the cause(s), risk, and effect or impact.

The initial identification of risks was made by the Threat Assessment Database Project Sponsor and the Project Manager. Subsequent input for identifying new risks will include the Threat Assessment Database Project Team, subject matter experts and other stakeholders. All parties will assist in identifying risks on an ongoing basis.

Risk Assessment

Risks are assessed based on their probability of occurrence, project impact, and corresponding rank. The following tables show the values used for assigning probability, impact, and rank.

¹ David Hillson, *Managing Risks in Projects* (Surrey, England: Gower Publishing Ltd., 2009), 33.

Risk Probability		
Low	< 30%	unlikely to occur
Medium	31% - 50%	may occur
High	51% - 80%	probably will occur
Very High	> 80%	very likely to occur

Risk Impact			
	<u>Cost Increase</u>	<u>Scope Change</u>	<u>Schedule Increase</u>
Minor	< 5%	Barely	< 5%
Moderate	5% - 8%	Minor areas of deliverable(s)	5% - 10%
Serious	9% - 10%	Major areas of deliverable(s)	11% - 15%
Critical	> 10%	Failure to complete deliverable or failure to achieve project objective	>15%

Probability x Impact Rank				
	<u>Minor</u>	<u>Moderate</u>	<u>Serious</u>	<u>Critical</u>
Low	Low(1)	Low(1)	Medium(2)	High(3)
Medium	Low(1)	Medium(2)	Medium(2)	High(3)
High	Low(1)	Medium(2)	High(3)	High(3)
Very High	Low(1)	High(3)	High(3)	Very High(4)

Risk Response Options

Risk responses are planned using four basic risk response options:

- Accept – take the risk without special action or contingency because proactive action is either not possible or cost-effective.
- Avoid – take proactive action to eliminate the risk to the project.
- Mitigate – take proactive action to reduce the probability and/or impact of the risk.
- Transfer – involve another person or party in acting on the risk and in so doing share the management of the risk.

The initial risk responses will be planned by the Threat Assessment Database Project Team and the Project Sponsor. Input from Threat Assessment Database subject matter experts and the other stakeholders will be solicited.

The Project Sponsor will approve the risk responses, which will be assigned to risk owners who will be responsible for implementing proactive responses. All parties will assist in planning risk responses on an ongoing basis.

Risk Management Database Development and Maintenance

The risk descriptions, assessments, and responses are documented in the Risk Management Database, which is contained in the Project Workbook (see Section 3 for a sample). The risk response information includes the action to be taken by the risk owner, planned and actual completion dates, notes on the current status, and a closure date.

The initial development of the Risk Management Database will be completed by the Threat Assessment Database Project Team. The Risk Management Database will be updated on an ongoing basis by the Threat Assessment Database Project Manager using the weekly project status meetings, status reports, and other relevant sources.

The Threat Assessment Database Project Team will use the Risk Management Database as the system of record and store it in the Threat Assessment Database SharePoint site. The Project Manager will add any new risks identified to the Weekly Status Report under Action Items. These items will be discussed with Project Sponsor and Threat Assessment Database Project Team in the weekly status meeting. The Threat Assessment Database Project Manager will validate the item and enter it as needed into the Risk Management Database in the Project Workbook, and update the Project Workbook and upload it to the Threat Assessment Database Project SharePoint site.

The Project Sponsor will approve the initial version of the Risk Management Database, as well as any subsequent versions submitted with the Updated Project Management Documents at phase ends.

Risk Management Responsibilities

The responsibility for managing risk is shared between the Threat Assessment Database Project Team, Project Sponsor, subject matter experts, and other stakeholders. The following table summarizes the responsibilities in the risk management process.

Risk Activity	Responsibility
Identify risks	<p>All – Threat Assessment Database Project Team, Project Sponsor, subject matter experts, and other stakeholders.</p> <p>Initial identification was made by the Project Sponsor and Project Manager.</p>

12. Issue Management Plan

This section presents the Issue Management plan for the Threat Assessment Database Project. The Issue Management Plan describes how project issues will be managed, evaluated, escalated, and integrated into the project throughout the life of the project.

12.1 Issue Definition

An issue is a point or matter in question or in dispute, or a point or matter that is not settled and is under discussion or over which there are opposing views or disagreements. An issue is generally expressed as a statement of concern or as a need having one or some combination of the following characteristics:

- The resolution is in question or lacking agreement among stakeholders
- It is highly visible or involves external stakeholders such as requests or directives from control agencies
- It has critical deadlines or timeframes that cannot be missed
- It can result in an important decision or resolution for which the rationale and activities must be captured for historical purposes
- It has critical deadlines that may impede project progress.

Please note: An issue is a situation which has occurred or will definitely occur, as opposed to a risk which is a potential event. Items that are “normal” day-to-day tasks related to a person’s normal job duties are not considered issues or action items.

12.2 Issue Management Plan

The Issue Management Plan is organized into the following sections:

- Issue Management Strategy
- Issue Escalation

The DOE PMO requires that all issues be recorded in SharePoint and maintained there for history.

Issue Management Strategy

This section describes the issue identification processes employed for this project, the issue assessment process, issue management responsibilities, and the issue management database development and maintenance.

Issue Identification Process

Issues will be identified as any point or matter in question or in dispute, or a point or matter that is not settled and under discussion or over which there are opposing views or disagreements. By definition, an issue is a problem that will impede the progress of the project if it cannot be totally resolved by the project team. This will include issues that are software, data and/or hardware related.

The initial identification of issues will be made by the Threat Assessment Database Project Sponsor and the Project Manager. Subsequent input for identifying new issues will include the Threat Assessment Database Project Team, subject matter experts and other stakeholders. All parties will assist in identifying issues on an ongoing basis.

Issue Assessment Process

Issues will be managed through the following process:

- **Identification:** Issues (and action items) may arise from a variety of project activities; e.g., status meetings, deliverable reviews, code analyses, workgroup meetings, stakeholder requests, etc. Any project team member may identify an issue. Issues cited in meetings shall be documented in the meeting minutes. Issues cited through other project activities shall be reported to the Threat Assessment Database Project Manager via e-mail. Prospective issues shall be entered by the Threat Assessment Database Project Manager into the Issues Management Database.
- **Validation:** The prospective issue will be compared with the Issue Management Database to ensure that it does not duplicate an existing issue. If the prospective issue is not a duplicate, it will be reviewed with the validation criteria, which include: negative impact to scope, schedule, cost, or quality; negative impact to staff or infrastructure resources; negative impact to relationships with stakeholders; users; or, sponsors; missed commitment or due date. If the review with the validation criteria shows that the prospective issue is valid, it will be assigned to the appropriate project team member for analysis and handling. If the validation check shows that the prospective issue is not valid, it will be marked as Invalid and given a resolution date.
- **Assigning:** The project team member assigned to the issue will proceed to address the issue as needed analyzing it further to document impacts, following up as needed, and reporting a status in the weekly Threat Assessment Database Project Status Meeting on Fridays.

Issue Management Database Development and Maintenance

The issue descriptions, status, and resolution are documented in SharePoint. The issue response information includes the action to be taken by the issue owner, planned and actual completion dates, notes on the current status, and a closure date. SharePoint will be updated weekly as needed by the Threat Assessment Database Project Manager using the weekly project status meetings, status reports, and other relevant sources.

The Threat Assessment Database Project Team will use SharePoint as the system of record. The Project Manager will add any new issues identified to SharePoint. These items will be discussed with Project Sponsor and Threat Assessment Database Project Team in the weekly status meeting.

Issue Management Responsibilities

The responsibility for managing issues is shared between the Threat Assessment Database Project Team, Project Sponsor, subject matter experts, and other stakeholders. The following table summarizes the responsibilities in the issue management process.

Issue Activity	Responsibility
Identify issues	All – Threat Assessment Database Project Team, Project Sponsor, subject matter experts, and other stakeholders. Initial identification will be made by the Project Sponsor and Project Manager.
Validate issues	All – Threat Assessment Database Project Team, Project Sponsor, subject matter experts, and other stakeholders.
Assign issues	Threat Assessment Database Project Manager, Project Sponsor, and Project Manager.
Approve issue responses	Project Sponsor.
Develop Issue Management Database	Project Manager and Threat Assessment Database Project Team.
Maintain Issue Management Database	Project Manager.
Develop or take issue response actions	Issue Owner.
Manage issue responses	Project Manager, Threat Assessment Database Project Team.
Report issues	Project Manager, Threat Assessment Database Project Team.

Issue Escalation

The project governance structure will be used to resolve potential conflicts and disputes that may arise during the project. It is also necessary to understand the different levels and types of issues that may arise during this project. If an issue results in a conflict and the Threat Assessment Database Project Manager and the Issue Owner are unable to agree upon a decision, the issue shall be escalated in the following manner and order:

1. Issues should be addressed at the lowest level possible.
2. Attempts to resolve issues must be made by appropriate parties prior to escalation.
3. The issue owner, as identified by the issue tracker, completes the **Issue Submission Form** with a brief issue write-up identifying the issue, concerns, and positions of involved parties.
4. The issue owner schedules a meeting to discuss with involved parties.
5. The issue is ENTERED on the Issue Register for tracking.
6. The issue owner provides the issue write-up at least 24 hours prior to meeting.
7. The meeting is held and if resolution is reached, resolution decision and action items are documented and provided to involved parties.
8. If resolution is not reached, action items are identified and follow up meeting planned (this group has up to one week to resolve or notice of automatic escalation to next level of management is triggered).
9. Once escalation need is identified, notice is sent to the next levels of management including the Project Sponsor.
10. Issue review process repeats at the next level of management.

Issue Submission Form

The Issue Submission Form is use to create documentation of all issues in order to provide a traceable record and history for future reference.

13. Quality Management Plan

Introduction

The purpose of the Quality Management Plan is to describe how quality will be managed throughout the lifecycle of the Threat Assessment Database Project. It documents the necessary information required to effectively manage project and includes the processes and procedures for ensuring quality planning, assurance, and control are all conducted. All Florida Department of Education (FDOE) stakeholders should be familiar with how quality will be planned, assured, and controlled.

The Quality Assurance Plan is being developed during the Project Planning and Definition Phase and is a supporting document to the Project Management Plan.

This document is organized into the following sections:

- Introduction
- Approach
- Quality Planning
- Quality Assurance
- Quality Control
- Quality Control Measurements
- Team Member Roles and Responsibilities
- Deliverables and Acceptance Criteria
- Appendices

Approach

This section describes the approach the Threat Assessment Database Project Team will use for managing quality throughout the project's life cycle. Quality will be planned into the Threat Assessment Database Project beginning in the first phase of the project in order to prevent unnecessary rework, waste, cost, and time overruns throughout the project. It will establish the activities, processes, and procedures for ensuring quality products throughout the project. This plan will:

- Ensure quality is planned
- Define how quality will be managed
- Define quality standards and quality assurance activities
- Define quality control activities
- Describe how quality will be measured

In order to be successful, this project will need to meet its quality objectives by using an integrated development and quality approach to define and perform testing during development activities.

Quality Management Approach Overview

Objective

The primary objective of this Quality Management Plan is to ensure that the project deliverables are completed with an acceptable level of quality. This plan discusses the quality standards by which the development of deliverables is managed to ensure:

- Consistency with the practices and standards of the FDOE Enterprise Project Management Methodology
- Ensure the quality of the system development process, project artifacts, and project products to School Choice and its stakeholder meet their requirements

Components of the Quality Management Plan

The following is a brief explanation of each of the components of the quality assurance plan and these must be performed to ensure that the deliverables meet the customer quality requirements

Quality Planning (QP)

Quality planning determines quality policies and procedures relevant to the project for both project deliverables and project processes, defines who is responsible for what, and documents compliance

Quality Assurance (QA)

Quality assurance activities focus on the processes being used to manage and deliver the solution and evaluate overall project performance on a regular basis. Quality assurance is a method to ensure the project will satisfy the quality standards and will define and record quality reviews, test performance, and customer acceptance. It includes process/protocols, forms, templates, best practices, guidance and training.

Quality Control (QC)

Quality Control is the process of Inspection. Quality control activities are performed on the project products continually to verify that project deliverables are of high quality and meet quality standards. Quality control also helps uncover causes of unsatisfactory results and establish lessons learned to avoid similar issues in this and other projects. It includes process reviews, document/quality reviews and various types of audits, adaptive process improvement and monitoring/reporting

Quality Control Measurements

A Quality Control Log will be used to track the status of deliverables that have been formally submitted to the client, and to ensure that, when a deliverable is either rejected or accepted conditionally, that the reasons the deliverable were not approved are captured and resolved.

14. Change Management Plan

The purpose of the Change Management Plan is to define the process for managing change document and document the necessary information required to effectively manage project change from project inception to delivery.

The Change Management Plan is created during the Planning Phase of the project. Its intended audience is the project manager, project team, project sponsor and any senior leaders whose support is needed to carry out the plan. The Change Management Plan is organized into the following sections:

- Introduction
- Change Management Process
- Change Request Form
- Evaluating Change Requests
- Authorizing Change Requests
- Team Member Roles and Responsibilities

Change Management Process

This section provides the Change Management process, which establishes an orderly and effective procedure for tracking the submission, coordinating, reviewing, evaluating, categorizing, and approving the release of all changes to the project's baselines.

Change Request Process Stages

- **Change Request Initiation:** Project change requests will be documented in writing and must identify cost, schedule, need for the requested changes, and be clearly labeled as a project change request. Scope changes must be also be clearly identified in the request. The Project Manager will assign a change request number.
- **Change Impact Estimation:** Each project change request must be reviewed by the Project Manager and Project Team to decide whether to proceed with the requested changes. An evaluation of the impact of project change requests to determine impact on scope, schedule, and cost and any other necessary details will be performed. For those change requests that impact scope, schedule, or cost, a written estimate based on this evaluation will be submitted.
- **Approvals and Acceptance:** The Project Sponsor may approve or decline the change request. Only those project change requests that have been approved in writing will be considered authorized changes to the project.

Change Request Process Flow Requirements

The change request (CR) process flow is outlined in the table below:

Table 2. Change Request Process Flow Steps

Stage	Step	Description
Initiation	Generate CR	A submitter completes a CR Form and sends the completed form to the Project Manager
Initiation	Log CR Status	The Project Manager enters the CR into the CR Log. The CR's status is updated throughout the CR process as needed.
Impact Estimation	Evaluate CR	Project personnel review the CR and provide an estimated level of effort to process, and develop a proposed solution for the suggested change
Approval	Authorize	Approval to move forward with incorporating the suggested change into the project/product
Approval	Implement	If approved, make the necessary adjustments to carry out the requested change and communicate CR status to the submitter and other stakeholders

Change Request Form

The Project Manager will submit a formal change request to the Change Management Board using the **Threat Assessment Database Change Request Form**.

A sample copy of the Threat Assessment Database Change Request Form is provided in the table below:

Evaluating Change Requests/Evaluation Process

The Change Request Evaluation Process involves the following steps:

The Project Manager will submit a formal change request to the Change Management Board using the Threat Assessment Database Change Request Form. Any additional materials submitted with the change request will be noted as attachments.

The Project Manager will determine how much time it will take to analyze the change request.

The analysis will include the business benefit, implications of not making the change, impacts to the project (including budget, schedule, and/or contract requirements), as well as alternatives.

The change request will be reviewed by the Project Sponsor.

Authorizing Change Requests/Change Management Board

The Change Management Board (CMB) is comprised of the following members: Project Sponsor, Executive Sponsor, QA, and Technical Lead.

The Change Management Board responsibilities and authority are as follows:

- Approve change requests
- Monitor system configuration control
- Approve contract negotiations / changes

The Change Management Board (CMB) will meet as necessary to review change requests.

Authorization Process

The Change Request Authorization Process involves the following steps:

The Project Manager will present the analysis to the CMB for their guidance and direction. All project change requests impacting cost, schedule or scope must be referred to the CMB for approval.

a. If the CMB decides to proceed with the change or an alternative, then the Project Sponsor will inform the Project Manager in writing. Based on the resolution or recommended course of action, the Project Manager will make any required adjustments to the budget, schedule, and/or contract.

b. If the CMB not to proceed with the change or an alternative, then the Project Sponsor will inform the Project Manager in writing. The CMB can close a change request, but suggest that it be reviewed later.

The Project Manager will include a review of open change requests at the Weekly Project Status Review.

Team Member Roles and Responsibilities

The Project Management Institute’s *A Guide to the Project Management Body of Knowledge (PMBOK® Guide) – Fourth Edition* defines a responsibility assignment matrix (RAM), also known as RACI or RASCI matrix, as a tool that describes the various roles of project team members in completing tasks or deliverables for a project or business process. The following table identifies the roles and responsibilities, to be performed by onsite staff, associated with the listed tasks/activities.

15. Procurement Management Plan

The purpose of the Procurement Management Plan is to define the procurement requirements for the project and how it will be managed from developing procurement documentation through contract closure and identify the items to be procured, the types of contracts to be used in support of this project, the contract approval process, and decision criteria.

The Procurement Management Plan is organized into the following sections:

- Introduction
- General Procurement Approach
- Procurement Definition
- Staff Augmentation Procedures
- Hardware/Software Purchasing
- Northwest Regional Data Center (NWRDC) Services Request Procedures or Cloud Solution Procedures
- Procurement Risks
- Procurement Risk Management
- Cost Determination
- Procurement Constraints
- Contract Manager
- Vendor Management

Introduction

The Florida Department of Management Services' Division of State Purchasing (State Purchasing) has created a *Guidebook to Public Procurement* to provide direction in the purchase of commodities and contractual services pursuant to Section 287.057, Florida Statutes. The Florida Department of Management Services' created the guidebook by integrating Florida Statutes and Rules that govern Public Procurement with best practices in procurement from across the state.

The Department of Management Services' revises the *Guidebook to Public Procurement* each year to reflect the most current procurement practices. All Project Purchases and Contracts must adhere to these Guidelines.

The Project Sponsor will provide oversight and management for all procurement activities under this project. The Project Manager will work with the project team to identify and procure all

Threat Assessment Database

items needed for the successful completion of the project, and will coordinate with the Purchasing and Contracting Division to draft and assemble all relevant forms and paperwork for Project Sponsor review, approval, and submission. The contracts and purchasing division will review the procurement and coordinate follow-up activities with the Project Sponsor and Project Manager to process the procurement to award.

General Procurement Approach

For general procurement of contract staff support, goods, and services which are readily available via State approved Vendors a Request for Quote (RFQ) is preferred. For more complex procurements of non-standard goods and services, an Invitation for Negotiation (ITN) is usually recommended, especially if detailed discussions need to be held to define the final deliverable and pricing. The Purchasing and Contracting Division have all the forms for processing either of these approaches and acts in a consultative manner to ensure that the best course of action based on requirements.

Procurement Definition

The purpose of procurement definition is to describe, in specific terms, what items will be procured and under what conditions. Additionally, project schedules usually affect procurement deadlines and are needed by certain times to ensure timely project completion. It is critically important that sufficient time is spent in defining the requirement such that all business needs are identified and specific deliverables defined that will meet those needs. The Business Analysts on the project usually performs this task.

Staff Augmentation Procedures

One of the most common procurements made by the Project is procurement of Staff required to execute the Project Plan.

Staff augmentation of information technology contractors will be effected by using State term contracts. State term contracts are written between the Department of Management Services and the specified contractor(s) and contain language that allows state agencies and other eligible users to purchase the defined commodities and contractual services according to pre-negotiated terms.

In the event where a State Term Contract has more than one contractor, an agency may issue a Request for Quotes (RFQ) to the State Term Contract contractors offering the commodities or contractual services to either seek additional competition or to determine whether a price term or condition more favorable to the agency is available. § 287.056(2), Florida Statutes, and Rule 60A-1.043(2), Florida Administrative Code.

An RFQ is “an oral or written request for written pricing or services information from a State Term Contract vendor for commodities or contractual services available on a State Term Contract from that vendor.” § 287.012(23), Florida Statutes.

If the agency has received quotes from multiple vendors, the agency shall document that it based its decision upon best value. If the agency requested less than two quotes, the agency shall document its justification for that decision. Rule 60A-1.043(3), Florida Administrative Code.

Contracts and Purchasing will notify the Project Sponsor of personnel offered from Staffing Vendors in response to an RFQ for a particular Position Description (PD). The Project Sponsor will set up interviews with a designated interview team based on the PD who will screen the candidates. The result of these interviews will be identification in rank order of the top candidates so that a selection and offer can be made.

Procurement Risks

All procurement activities carry some potential for risk which must be managed to ensure project success. All risks will be managed in accordance with the project's Risk Management Plan; there are specific risks which pertain specifically to procurement which must be considered:

- Unrealistic schedule and cost expectations for vendors
- Manufacturing capacity capabilities of vendors
- Conflicts with current contracts and vendor relationships
- Configuration management for upgrades and improvements of purchased technology
- Potential delays in shipping and impacts on cost and schedule
- Questionable past performance for vendors
- Potential that final product does not meet required specifications

These risks are not all-inclusive and the standard risk management process of identifying, documenting, analyzing, mitigating, and managing risks will be used.

Project Risk Management

Project risks will be managed in accordance with the project's Risk Management Plan. However, for risks related specifically to procurement, there must be additional consideration and involvement. Project procurement efforts involve external organizations and potentially

affect current and future business relationships as well as internal supply chain and vendor management operations. Because of the sensitivity of these relationships and operations the Project Manager will include a designated representative from the contracting department in all project meetings and status reviews if feasible.

Additionally, any decisions regarding procurement actions must be approved by the Project Sponsor or, in his absence, the Executive Project Sponsor before implementation. Any issues concerning procurement actions or any newly identified risks will immediately be communicated to the project's contracting department point of contact as well as the Project Sponsor.

Cost Determination

For procurements seeking goods and/or services from an outside vendor, costs are usually provided in response to a Request for Quote (RFQ), Request for Proposal (RFP) or a Request for Bid (RFB). Vendors submit quotes, proposals, or bids which describe the costs of the good or service in detail to aid the customer in their decision making. Costs are almost always used as part of the procurement decision criteria but may be prioritized differently depending on the organization.

Procurement Constraints

There are several constraints that must be considered as part of the project's procurement management plan. These constraints will be included in the RFQ and communicated to all vendors in order to determine their ability to operate within these constraints. These constraints apply to several areas which include schedule, cost, scope, resources, and technology:

- **Schedule:** Project schedule is not flexible and the procurement activities, contract administration, and contract fulfillment must be completed within the established project schedule.
- **Cost:** Project budget has contingency and management reserves built in; however, these reserves may not be applied to procurement activities. Reserves are only to be used in the event of an approved change in project scope or at management's discretion.
- **Scope:** All procurement activities and contract awards must support the approved project scope statement. Any procurement activities or contract awards which specify work which is not in direct support of the project's scope statement will be considered out of scope and disapproved.
- **Resources:** All procurement activities must be performed and managed with current personnel. No additional personnel will be hired or re-allocated to support the procurement activities on this project.
- **Technology:** Parts specifications have already been determined and will be included in the statement of work as part of the RFQ. While proposals may include suggested

alternative material or manufacturing processes, parts specifications must match those provided in the statement of work exactly.

Contracts Manager

The Project Sponsor acts as the Contracts Manager for the Project.

The Contract Manager tasks are identified below:

1. Procurement Tool completed and approved by Technical Contact (this includes vendor list and evaluation team).
2. Technical Contact requests the creation and approval of a Purchase Requisition via the Contract Manager.
 - a. Contract Manager verifies with the Technical Contact any missing information
 - b. Contract Manager creates the Requisition in *MyFloridaMarketPlace* (MFMP) and it is routed through the approval process. Technical Contact is given the Purchase Order (PO) Number once it is assigned in the system.
3. Once the requisition is approved, the Contract Manager will send confirmation to the Technical Contact stating that the requisition is fully approved and has been assigned a Purchase Order (PO) number.
4. Technical Contact determines the start date and hardware and software needs and finds office space for contractor to work on assigned tasks.
5. Contract Manager creates the contract folder and files the following documents:
 - a. Contract cover sheet
 - b. Purchase Order
 - c. Contract management check list
 - d. RFQ or SOW
 - e. Resume
 - f. Disclosure statement
 - g. Drug-free work place form
 - h. References
 - i. Skills matrix
 - j. Vendor response

The Contract Manager provides HR Liaison with Purchase Order Number, DBS, Grant and EO information that will be needed to be entered into the Contractor Tracking System (CTS) when contract staff is processed in

Vendor Management

The Project Manager is ultimately responsible for managing vendors. In order to ensure the timely delivery and high quality of products from vendors the Project Manager, or his/her designee will meet weekly when needed with the contract and purchasing department and each vendor to discuss the progress for each procured item. The meetings can be in person or by teleconference.

The purpose of these meetings will be to review all documented specifications for each product. This forum will provide an opportunity to review each item's development or the service provided in order to ensure it complies with the requirements established in the project specifications. It also serves as an opportunity to ask questions or modify contracts or requirements ahead of time in order to prevent delays in delivery and schedule. The Project Manager will be responsible for scheduling this meeting on a weekly basis until all items are delivered and are determined to be acceptable.

The purpose of this engagement was to determine whether technology contracts conform to enterprise standards, applicable frameworks, and legal and regulatory requirements and effectively manage risk related to the provision of Information Technology (IT) services. During this engagement, we noted that, in general, the department’s technology contracts appropriately addressed security and risk management requirements. We reviewed information security language including the confidentiality of data, breaches, change control, and background screenings. We also reviewed the contract templates and selected IT contracts and agreements to determine whether they included the appropriate risk management requirements, language regarding the management and ownership of data, and language detailing what occurs when service is not fully rendered. Upon review of the contract templates and sampled IT contracts and agreements, we identified areas of improvement in the areas of background screenings, retrieval of data, and destruction of data. We also provided recommendations to the Division of Technology and Innovation and the Office of Contracts and Procurements.</p>

We recommend the department:

*Add a section to the contract template and applicable procurement instrument that specifically states background checks will occur prior to the contractors or vendors beginning work if the contractor or vendor will have access to department IT environments;

*Establish policies and procedures related to background screenings, which include the identification of disqualifying criteria for individuals who will have access to the department's environment;

* Add a placeholder to the contract template and related to the destruction of data upon the conclusion of the contract or when there is no longer a need to store the data;

* Following the termination of any contract in accordance with the provisions of said contract, require the contractor to:

a. Return promptly to the department all physical copies of confidential data in the contractor's possession or in the possession of its representatives; and

b. Destroy all electronic copies of such confidential data, information, and notes including electronic copies prepared by the contractor or any of its representatives, in a manner that ensures the same may not be retrieved or undeleted; and

* Consider creating and implementing a contract template specific to IT which contains the recommendations above and conforms to enterprise standards, applicable frameworks, legal and regulatory requirements, and effectively manages risk related to the provision of IT services.

Consulting Results: The consulting engagement focused on the inclusion of Information Security and Risk Management provisions in the department's standard contract template as well as the four selected information technology (IT) contracts or agreements. We determined that the sampled department technology contracts follow the standard department contract template. The contract template is broken up into five sections:
* Attachment A: Detailed Description of Performance Duties
* Attachment B: Payment Terms and Schedule
* Attachment C: Standard Terms and Conditions
* Attachment D: Audit Requirements
* Attachment E: Minority Subcontractors

Utilization Summary:

Background Screening Language:

Upon review of the department 's contract template, we determined the template does not clearly state that a background screening must be conducted prior to any contractor accessing the department's environment. Per Attachment C, section XXXII (32), of the contract template, "A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid on a contract to provide any goods or services to a public entity, may not submit a bid on a contract with a public entity for the construction or repair of a public building or public work, may not submit bids on leases of real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity in excess of the threshold amount provided in s. 287.017, F.S., for CATEGORY TWO for a period of thirty-six (36) months from the date of being placed on the convicted vendor list."

Code (F.A.C.)

Section XXXVII (37) of the template also states, "Contractors, providers, and partners employed by the Department or acting on behalf of the Department shall comply with Florida Administrative Code (F.A.C.) 74.2, and fully comply with all information technology security policies. Contractors, providers, and partners employed by the Department or acting on behalf of the Department will fully comply with 60GG-2 Information Technology Standards." .” Per F.A.C. 74-2.002 (1)(f)(9) and 60GG-2, it is the responsibility of each agency to perform back-ground checks and ensure that a background investigation is performed on all individuals hired as IT workers with access to information processing facilities, or who have system, database, developer, network, or other administrative capabilities for systems, applications, or servers with risk categorization of moderate-impact or higher. Due to these positions normally having privileged access, in addition to the agency required background check, a federal criminal history check must be conducted in tandem.

Upon review of each sampled contract’s security language, we determined all four contracts included the Attachment C language noted above. However, three of the four sampled contracts or agreements did not clearly state that a background check must be conducted prior to a contractor accessing the department’s environment. The Florida Safe Schools Assessment Tool (FSSAT) contract was the only sample contract, "The Contractor shall be required to submit a resume and Level II background screening to the Department for all Information Technology staff augmentation employees. Such employees will be approved by the Department in writing prior to employee beginning work on this contract."

We noted this language differs from the F.A.C. 74-2 and 60GG-2 requirements for the agency to conduct background checks on individuals hired as IT workers. It additionally does not include a requirement that the background checks screen for felony convictions for the following crimes as identified in the F.A.C. 74-2 and 60GG-2:

- a. Computer related IT crimes;
- b. Identity Theft crimes;
- c. Financially-related crimes, such as; fraudulent practices, false pretenses and fraud, credit card crimes;
- d. Forgery and counterfeiting;
- e. Violations involving checks and drafts;
- f. Misuse of medical or personnel records; and,
- g. Theft.

Lack of contract language specifying the requirement for all contractors and vendors to undergo a background screening prior to accessing the department's IT environment could expose the department's confidential data to unnecessary risk. By not specifying this requirement, the department risks entering into business with entities that may not appear on the convicted vendors list but employs individuals with criminal records who should not have access to confidential information.

Recommendation:

We recommend the department add a section to the contract template and applicable procurement instrument that specifically states background checks should occur prior to the contractors or vendors beginning work if the contractor or vendor will have access to department IT environments. We recommend that the department establish policies and procedures related to background screenings, which include the identification of disqualifying criteria for individuals who will have access to the department's environment.

Data Retrieval and Disposal

We reviewed the contract template to identify language regarding the management and ownership of data and how that data will be retrieved in the event that a contract expires or is voided. The contract template includes Section XII (12) which details the circumstances for which intellectual property will be solely owned by the State of Florida. F.A.C. 74-2.003(4) (c) includes the necessary procedures for sanitization of any media device that may contain confidential or exempt information.

The information must be rendered unusable, unreadable, indecipherable, and unable to be retrieved or reconstructed. This section also requires the documentation of the procedures taken for sanitization whether it be done via software to overwrite data on computer media, degaussing, or physically destroying media. However, neither Section XII (12) nor the F.A.C. clearly addresses how data should be retrieved or destroyed at the conclusion of the contract.

Upon review of the sampled contract's security language, we determined that three of the four contracts do not clearly state how data will be retrieved from the contractor or vendor at the conclusion of the agreement. The exception was the NWRDC service agreement. Both the department and NWRDC hold their own disaster recovery plans that include information regarding the retrieval of data. We additionally noted that the sampled contracts contain language that requires the department to destroy the vendor's data and return licensed software; however, the contracts do not stipulate that the vendor or contractor should destroy the department's data upon conclusion of the agreements.

For example, Section 7(c) Effect of Termination of the Alliance-Aware software contract requires the licensee (the department) to “immediately cease all use of the Aware software, the associated User documentation and Technical Documentation in whatever form or media embodied, and any other materials related to Aware Software, destroy all such software and materials if they exist in electronic form or, alternatively, return them to Alliance; certify in writing that no copies thereof remain in Licensee’s possession or under its control.” There is no such clause regarding any department data that may be in the possession of the contractor.

Lack of contract language specifying how data is retrieved upon conclusion of an agreement could result in the department being unable to retrieve usable data upon the conclusion of the contract. This could lead to the loss of mission critical data and possible monetary damages. In addition, lack of contract language specifying when and how data is to be disposed upon the conclusion of a contract, or when the data is no longer useful, could lead to potential breaches or the inadvertent release of confidential information. Though our contract template states that the department will be the sole owner of anything produced as a result of any contract, the inability to retrieve critical data stored in a proprietary system could adversely affect business continuity.

Recommendation:

Since the contract template is used department-wide and not every contract will include IT requirements, we recommend a placeholder be added to the template and applicable procurement instrument regarding the ownership and retrieval of data.

The Department of

Surplus Computer Hard
Drive Disposal
Processes
At Selected State
Agencies

Finding- Security Controls-Physical Access
Our audit procedures disclosed that certain security controls related to physical access at the Department of Education (DOE) need improvement to ensure that agency information is protected. We are not disclosing specific details of the issues in this report to avoid the possibility of compromising those agencies' information. However, we have notified appropriate management of the specific issues.

Recommendation: We recommend that DOE management improve security controls related to physical access to ensure the continued protection of agency information.

Finding- Surplus Computer Hard Drive Sanitization and Disposal Procedures and Documentation

Our evaluation of formal and informal DOE policies and procedures found that, while the policies and procedures provided guidance for the sanitization and disposition of surplus computers, including requiring the completion of a certification form, they did not require sufficiently detailed records be maintained to document and track the sanitization and disposition process. Recommendation: We recommend that DOE management establish comprehensive policies and procedures for the surplus computer hard drive sanitization and disposition process and ensure that agency records appropriately account for and evidence the sanitization and disposition of all surplus computer hard drives.

Management response 8/10/2020:
DOE concurs with the finding. The department has corrected this issue by securing access to surplus computers and hard drives awaiting sanitization and disposal to only staff requiring access for these assigned job responsibilities, in a secured room.

Management response 8/10/2020:
DOE concurs with the recommendation and as such, the Division of Technology and Innovation has revised the Standard Operating Procedures (Media Sanitization Procedures) to account for and evidence the sanitization and disposition of all surplus hard drives.

Finding 1. Administration of Statutory
Responsibilities. The Department's
implementation of the school safety and security
requirements of the Marjory Stoneman Douglas
High School Public Safety Act did not promote
the Office as the central
repository for compliance oversight in all
matters regarding school safety and security as
provided in State law.

Recommendation: We recommend that
Department management consult with the
Legislature and identify the resources and
actions needed to ensure that the school safety
and security responsibilities assigned to the
Office by the Act are executed in accordance
with legislative intent.

Response: FDOE does not concur with
this finding and has already
exhaustively demonstrated the
inaccuracy of this finding during the
audit process. It is to say the least
troubling that this finding persists.
This finding demonstrates a
fundamental misunderstanding of state
agency operations. Moreover, this
finding under estimates the necessity
for FDOE's "all hands on deck"
approach to implementation of the
Marjory Stoneman Douglas High
School Public Safety Act during fiscal
(school) year 2018-2019.
Follow-up to FDOE response: The
point of our finding was that the plain
language of the Act assigns
responsibilities to the Office of Safe
Schools, as the central repository for
compliance oversight in all matters
regarding school safety and security.

The subsequent funding of additional
Office staff demonstrates the
legislative intent of the Act and Office

throughout the report, we recognize
the Department wide efforts to
implement the school safety and
security responsibilities assigned to
the Office by the Act. Nevertheless,
some statutory duties assigned to the

were otherwise administered by other

Consequently, the finding and related

While we recognize Office efforts to ensure that security risk assessments were completed by all schools, Office records did not demonstrate that the methods utilized were reliable, not withstanding the Department's subsequent efforts to remediate this finding with the inclusion of school MSID numbers to improve the Office's ability to assess school compliance with completing the FSSAT.

The Department disagreed that Section 1001.212(5), Florida Statutes, requires the Office to review every school-level assessment to verify compliance with each standard and to make recommendations for each school site and that such a reading of the statute would undermine local responsibility and control over school sites. Notwithstanding, a strict construction of Section 1001.212(5), Florida Statutes, requires the Office to review and provide recommendations on all school security risk assessments. Recognizing this challenge, the Legislature, in the same subsection, authorized the Office to contractually engage security personnel, consulting engineers, architects, or other safety and security experts the Department deems necessary for safety and security consultant services. Additionally, it is unclear how providing recommendations regarding security risk assessments would undermine local responsibility and control over school sites.

Response: FDOE does not concur with

the university developmental lab

allocated funds the same as a school
Some categorical allocations within
the FEFP provide a minimum amount,
much the same as the School Safety
and Security Grant. The Safe Schools
Allocation allocates \$161,956,019 to
school districts, and each school
district first receives \$250,000 with
the remaining balance allocated on the
crime index and full-time equivalent
students. The Reading Allocation
allocates \$130,000,000 to school
districts, and each school district first
receives \$115,000 with the remaining
balance allocated on Base Funding.
The Mental Health Assistance
Allocation allocates \$69,237,286, and
each district receives \$100,000 with

allocations, the university
developmental lab schools are
allocated funds the same as school
districts.

				<p>Follow-up to management's response: Department management indicated in their written response that this finding would be a matter for the Legislature to consider, not the Department, and that the allocation methodology for the school safety and security grants was consistent with the Florida Education Finance Program (FEFP) practice of considering each university laboratory school as a school district for allocating categorical funds within the FEFP. Notwithstanding the Department's response, this methodology resulted in two State universities, each with two lab schools, receiving for each campus the same \$100,000 minimum allocation as 13 public school districts with multiple campuses. Consequently, the finding and related recommendation stand as presented for future consideration by the Department and others, should additional school safety and security grants become available.</p>

In addition, Department management should take steps to ensure that Department records evidence the comparison of security enhancements requested in school safety and security grant applications to items identified in school security risk assessments.</p>	<p>Response: FDOE does not concur with this finding and, like findings 1 and 5, this finding seems to suggest that OSS should operate in a vacuum divorced from those FDOE staff who are charged with ensuring compliance with other state laws. The review of the School Safety and Security grants was a collaborative effort with the OSS, Office of Grants Management, Office of Funding and Financial Reporting and others familiar with fixed capital outlay. Training and support was provided by OSS to the FDOE team managing the grant regarding navigation of FSSAT; running reports in the tool; and locating information to cross reference with the request for applications (RFA). Reviews of applications were conducted under the state standards for contracts and grants management to determine costs to be reasonable, As the auditor states, the costs outlined in district applications for the grant did not always align with the recommendation section of the FSSAT. However, FDOE vehemently disagrees with the need for this finding and its fundamental oversight that district FSSAT assessments were reviewed in their entirety and compared to their submitted grant application. In other words, the applications were not and should not be just limited to the recommendation section of the FSSAT.</p>

The applicable standard during the review process was that the cost outlined in the district’s application would align with district determined needs, which could be described in different narrative sections of the FSSAT. Our review considered all of the narratives included in the FSSAT assessment, not only the recommendation section. Moreover, additional context is necessary to understand both the implement sprint that occurred before commencement of the 2018-2019 school year and continual improvements since then. 2018 was the first year schools were required to complete this comprehensive security risk assessment when the Act became law on March 9 of that year. Schools were required to complete the school security risk assessments by August 1. Considerable time was devoted to assist school districts in completing the assessment that would enable their application to move forward through the approval process and award the funds necessary to begin the upgrade of school security infrastructures. In the following grant cycles, additional instructions and guidance have been provided to the schools to assist in their completion of the annual assessment. Additionally, checklists or tools have also been developed for the application process to assist schools in cross-walking school needs and where those needs are indicated in the FSSAT. These same tools are utilized by FDOE staff to review the applications.

Similar to the review of the School Safety and Security Grants, the creation and review of the request for application (RFA) for the Coach Aaron Feis Guardian Program (Guardian Program) applications was a collaborative effort between the OSS. Initially, the \$67 million in funding appropriated for this program appeared to provide approximately \$1 million for each district for the 2018-19 fiscal year. While most applications did not request funds even close to the \$1 million, a few estimated costs over this amount. Considering the wide variation of needs and interest in the Guardian Program, the Department determined the most appropriate manner to provide for those needs would be allow each applicant to design the program to accommodate local needs and create a proposed budget.</p> <p>This method was consistent with the unique relationships that exist in local communities between schools and law enforcement and allowed sufficient flexibility for the individual applicants to determine how they would construct the program within the statutory guidelines and the necessities of the local community. Moreover, this allowed FDOE to be consistently responsive to feedback from the Commission.</p>

For that reason, the FDOE did not create an allocation schedule for each prospective applicant. Instead, FDOE reviewed the applicants' budgetary request in comparison to the available amount of funds, leading to both efficient, appropriate and locally driven uses of the funds, all while maintaining a healthy fund balance for future growth of the program. Because FDOE was able to fully fund each proposed budget, the process through which decisions were made for determining how the funds would be approved were based on each line item requested and whether or not the request was reasonable, allowable, and necessary for meeting the demands of the project. If one of these categories was not met, the request was denied. This process ensures the proposed costs are authorized under the terms and conditions of the grant. That methodology was consistent throughout our approval process, and often times, staff had to communicate with the requestor that they needed to adjust their budget to ensure each item. Additionally, with the request for application documents, specific items were clearly listed indicating items that were unallowable, as well as providing guidance as to the purpose of the funding (for screening and training related costs and providing a one-time stipend of \$500 to qualified Guardians). If the criteria was met and the funds were available, it would have been wrong for us to deny the requests. When requests did not meet criteria, they were denied.

Finding 9. Florida Schools Safety Portal. The Florida Schools Safety Portal (FSSP) was launched 243 days after the December 1, 2018, statutory deadline and, contrary to State law, the Office did not participate in the development of the FSSP. Additionally, the FSSP did not significantly improve threat assessment team

While the application process involved approving a projected estimate of funding based on the scope of work presented in the application, no actual funds were provided until the grantee provided invoices or receipts for items approved and actually purchased. This portion of the process involved a collaborative effort between the OSS, the Office of Grants Management, and the Comptroller's Office in reviewing items approved, as well as verifying the amount requested for reimbursement.

We respectfully disagree with the finding that the office had not established a methodology to allocate funds to this program, due in part to the fact that there was no finding that any sum awarded was excessive or of an unreasonable amount. This is further evidenced by the fact that \$4,811,722.45 of the appropriated funds were returned to the treasury. In effect, this finding is criticizing FDOE for successfully balancing local control and fiscal responsibility.

Response: FDOE does not concur with this finding and this finding is being made in a vacuum without regards to other state and federal data privacy laws. In May 2018, the Department established three multi-agency workgroups that would work together to facilitate building the centralized integrated data repository, now known as the Florida Schools Safety Portal, or FSSP.

Finding 10. Youth Mental Awareness and Assistance Training Program. Department records did not evidence Department monitoring activities to determine whether youth mental health awareness and assistance training program deliverables were provided in accordance with grant agreement terms and conditions or whether all school district personnel were appropriately and timely trained. Recommendation: We recommend that Department management enhance program monitoring to ensure that deliverables are being provided in accordance with grant agreement terms and conditions and all school district personnel are being appropriately and timely trained.

finding, we also note that the FSSP does not provide all the data elements or analytic components required by Section 1001.212(6), Florida Statutes. Consequently, the finding and related recommendation stand as presented.

Response: The Department does not concur with this finding. While we agree with the intent of the recommendation, we need to be clear that the Department has already met, exceeded and will continue to exceed the requirements set forth in law. The Department notes that in accordance with Section 1012.584, F.S., the Department's responsibility was to establish an evidence-based youth mental health awareness and assistance training program utilizing a national authority on youth mental health awareness and assistance to facilitate training, using a trainer awarded funds to the University of South Florida (USF), to build a train-the-trainer program to certify trainers in local school districts. USF used the grant funds to contract with the National Council for Behavioral Health, a national authority on youth mental health awareness, to provide the certification model program to train up to six Youth Mental Health First Aid (YMHFA) Train-the-Trainers in each school district (or a total of up to 450 instructors statewide based on districts' needs). The grant award to USF, established deliverables and

Indeed, while the statute established a beginning date, it does not provide a specified timeline as to when all school personnel are to be trained. In consideration of that circumstance, in March of 2019, the Department announced the release of a supplementary set of online training modules for districts to engage their personnel in addition to the YMHFA program.</p> <p>That having been said, the Department is acutely aware of the need for training personnel to recognize the signs of mental distress and overall mental health and worked to establish a program that would train the maximum number of individuals in the most competent and expedient manner. Our records show that during the initial 2018-19 school year, 705 YMHFA trainers were fully certified to teach the course and 16,013 school personnel were trained in YMHFA. As of June 30, 2020, using the most recent data, the Florida school districts have had 1,383 YMHFA trainers; 38,494 school personnel trained in YMHFA; and 148,976 school personnel who have completed the online training modules.</p>

Department management stated that the grant awarded to the USF established deliverables and that the Department reviewed and confirmed receipt of those deliverables. Notwithstanding, the point of our finding was not that the Department did not comply with State law but rather that Department records did not evidence Department monitoring activities to determine whether the USF complied with grant agreement terms and conditions or whether appropriate training was provided to all school personnel. Consequently, the finding and related recommendation stand as presented.</p>

1. GENERAL

1.1 Are Columns A01, A04, A05, A91, A92, A93, A94, A95, A96, A36, A10, IA1, IA4, IA5, IA6, IP1, IV1, IV3 and NV1 set to TRANSFER CONTROL for DISPLAY status and MANAGEMENT CONTROL for UPDATE status for both the Budget and Trust Fund columns (no trust fund files for narrative columns)? Is Column A02 set to TRANSFER CONTROL for DISPLAY status and MANAGEMENT CONTROL for UPDATE status for the Trust Fund Files (the Budget Files should already be on TRANSFER CONTROL for DISPLAY and MANAGEMENT CONTROL for UPDATE)? Are Columns A06, A07, A08 and A09 for Fixed Capital Outlay (FCO) set to TRANSFER CONTROL for DISPLAY status only (UPDATE status remains on OWNER)? (CSDI or Web LBR Column Security)	Y				
1.2 Is Column A03 set to TRANSFER CONTROL for DISPLAY and UPDATE status for both the Budget and Trust Fund columns? (CSDI)	Y				

AUDITS:

1.3 Have Column A03 budget files been copied to Column A12? Run the Exhibit B Audit Comparison Report to verify. (EXBR, EXBA)	Y				
1.4 Have Column A03 trust fund files been copied to Column A12? Run Schedule I (SC1R, SC1 or SC1R, SC1D adding column A12) to verify.	Y				
1.5 Has Column A12 security been set correctly to ALL for DISPLAY status and MANAGEMENT CONTROL for UPDATE status for Budget and Trust Fund files? (CSDR, CSA)	Y				
TIP The agency should prepare the budget request for submission in this order: 1) Copy Column A03 to Column A12, and 2) Lock columns as described above. A security control feature included in the LAS/PBS Web upload process requires columns to be in the proper status before uploading to the portal.					

2. EXHIBIT A (EADR, EXA)

2.1 Is the budget entity authority and description consistent with the agency's LRPP and does it conform to the directives provided on page 57 of the LBR Instructions?	Y				
2.2 Are the statewide issues generated systematically (estimated expenditures, nonrecurring expenditures, etc.) included?	Y				
2.3 Are the issue codes and titles consistent with <i>Section 3</i> of the LBR Instructions (pages 15 through 27)? Do they clearly describe the issue?	Y				

3. EXHIBIT B (EXBR, EXB)

		Program or Service (Budget Entity Codes)				
Action		48800000				
3.1	Is it apparent that there is a fund shift where an appropriation category's funding source is different between A02 and A03? Were the issues entered into LAS/PBS correctly? Check D-3A funding shift issue 340XXX0 - a unique deduct and unique add back issue should be used to ensure fund shifts display correctly on the LBR exhibits.	N/A N/A				
AUDITS:						
3.2	Negative Appropriation Category Audit for Agency Request (Columns A03 and A04): Are all appropriation categories positive by budget entity and program component at the FSI level? Are all nonrecurring amounts less than requested amounts? (NACR, NAC - Report should print "No Negative Appropriation Categories Found")	Y,Y				
3.3	Current Year Estimated Verification Comparison Report: Is Column A02 equal to Column B07? (EXBR, EXBC - Report should print "Records Selected Net To Zero")	Y				
TIP	Generally look for and be able to fully explain significant differences between A02 and A03.					
TIP	Exhibit B - A02 equal to B07: Compares Current Year Estimated column to a backup of A02. This audit is necessary to ensure that the historical detail records have not been adjusted. Records selected should net to zero.					
TIP	Requests for appropriations which require advance payment authority must use the sub-title "Grants and Aids". For advance payment authority to local units of government, the Aid to Local Government appropriation category (05XXXX) should be used. For advance payment authority to non-profit organizations or other units of state government, a Special Categories appropriation category (10XXXX) should be used.					
4. EXHIBIT D (EADR, EXD)						
4.1	Is the program component objective statement consistent with the agency LRPP, and does it conform to the directives provided on page 61 of the LBR Instructions?	Y				
4.2	Is the program component code and title used correct?	Y				
TIP	Fund shifts or transfers of services or activities between program components will be displayed on an Exhibit D whereas it may not be visible on an Exhibit A.					
5. EXHIBIT D-1 (ED1R, EXD1)						
5.1	Are all object of expenditures positive amounts? (This is a manual check.)	Y				
AUDITS:						
5.2	Do the fund totals agree with the object category totals within each appropriation category? (ED1R, XD1A - Report should print "No Differences Found For This Report")	Y				
5.3	FLAIR Expenditure/Appropriation Ledger Comparison Report: Is Column A01 less than Column B04? (EXBR, EXBB - Negative differences [with a \$5,000 allowance] need to be corrected in Column A01.)	Y				
5.4	A01/State Accounts Disbursements and Carry Forward Comparison Report: Does Column A01 equal Column B08? (EXBR, EXBD - Differences [with a \$5,000 allowance at the department level] need to be corrected in Column A01.)	N, FSDB				

		Program or Service (Budget Entity Codes)				
Action		48800000				
TIP	If objects are negative amounts, the agency must make adjustments to Column A01 to correct the object amounts. In addition, the fund totals must be adjusted to reflect the adjustment made to the object data.					
TIP	If fund totals and object totals do not agree or negative object amounts exist, the agency must adjust Column A01.					
TIP	Exhibit B - A01 less than B04: This audit is to ensure that the disbursements and carry/certifications forward in A01 are less than FY 2020-21 approved budget. Amounts should be positive. The \$5,000 allowance is necessary for rounding.					
TIP	If B08 is not equal to A01, check the following: 1) the initial FLAIR disbursements or carry forward data load was corrected appropriately in A01; 2) the disbursement data from departmental FLAIR was reconciled to State Accounts; and 3) the FLAIR disbursements did not change after Column B08 was created. Note that there is a \$5,000 allowance at the department level.					
6. EXHIBIT D-3 (ED3R, ED3) (Not required in the LBR - for analytical purposes only.)						
6.1	Are issues appropriately aligned with appropriation categories?	Y				
TIP	Exhibit D-3 is not required in the budget submission but may be needed for this particular appropriation category/issue sort. Exhibit D-3 is also a useful report when identifying negative appropriation category problems.

7.3	Does the narrative for Information Technology (IT) issue follow the additional narrative requirements described on pages 67 through 69 of the LBR Instructions?	Y				
7.4	Are all issues with an IT component identified with a "Y" in the "IT COMPONENT?" field? If the issue contains an IT component, has that component been identified and documented?	Y,Y				
7.5	Does the issue narrative explain any variances from the Standard Expense and Human Resource Services Assessments package? Is the nonrecurring portion in the nonrecurring column? (See pages E.4 through E.5 of the LBR Instructions.)	N/A N/A				
7.6	Does the salary rate request amount accurately reflect any new requests and are the amounts proportionate to the Salaries and Benefits request? Note: Salary rate should always be annualized.	N/A				
7.7	Does the issue narrative thoroughly explain/justify all Salaries and Benefits amounts entered into the Other Salary Amounts transactions (OADA/C)? Amounts entered into OAD are reflected in the Position Detail of Salaries and Benefits section of the Exhibit D-3A. (See pages 93 through 95 of the LBR Instructions.)	N/A

7.12	Does the issue narrative include plans to satisfy additional space requirements when requesting additional positions?	N/A				
7.13	Has the agency included a 160XXX0 issue and 210XXXX and 260XXX0 issues as required for lump sum distributions?	N/A				
7.14	Do the amounts reflect appropriate FSI assignments?	Y				
7.15	Are the 33XXXX0 issues negative amounts only and do not restore nonrecurring cuts from a prior year or fund any issues that net to a positive or zero amount? Check D-3A issues 33XXXX0 - a unique issue should be used for issues that net to zero or a positive amount.	N/A				
7.16	Do the issue codes relating to special <i>salary and benefits</i> issues (e.g., position reclassification, pay grade adjustment, overtime/on-call pay, etc.) have an "A" in the fifth position of the issue code (XXXXAXX) and are they self-contained (not combined with other issues)? (See pages 26 and 90 of the LBR Instructions.)	N/A				
7.17	Do the issues relating to <i>Information Technology (IT)</i> have a "C" in the sixth position of the issue code (36XXXXCX) and are the correct issue codes used (361XXC0, 362XXC0, 363XXC0, 24010C0, 30010C0, 33011C0, 160E470, or 160E480)?	N/A				
7.18	Are the issues relating to <i>major audit findings and recommendations</i> properly coded (4A0XXX0, 4B0XXX0)?	N/A				
7.19	Does the issue narrative identify the strategy or strategies in the Five Year Statewide Strategic Plan for Economic Development?	Y				
AUDIT:						
7.20	Does the General Revenue for 160XXXX (Adjustments to Current Year Expenditures) issues net to zero? (GENR, LBR1)	Y				
7.21	Does the General Revenue for 180XXXX (Intra-Agency Reorganizations) issues net to zero? (GENR, LBR2)	N/A				
7.22	Does the General Revenue for 200XXXX (Estimated Expenditures Realignment) issues net to zero? (GENR, LBR3)	Y				
7.23	Have FCO appropriations been entered into the nonrecurring column (A04)? (GENR, LBR4 - Report should print "No Records Selected For Reporting" or a listing of D-3A issue(s) assigned to Debt Service (IOE N) or in some cases State Capital Outlay - Public Education Capital Outlay (IOE L))	N/A				
7.24	Has narrative been entered for all issues requested by the agency? Agencies do not need to include narrative for startup issues (1001000, 2103XXX, etc.) that were not input by the agency. (NAAR, BSNR)	Y				

		Program or Service (Budget Entity Codes)				
Action		48800000				
7.25	Has the agency entered annualization issues (260XXX0) for any issue that was partially funded in Fiscal Year 2021-22? Review Column G66 to determine whether any incremental amounts are needed to fully fund an issue that was initially appropriated in Fiscal Year 2021-22. Do not add annualization issues for pay and benefit distribution issues, as those annualization issues (26AXXX) have already been added to A03.					
	TIP Salaries and Benefits amounts entered using the OADA/C transactions must be thoroughly justified in the D-3A issue narrative. Agencies can run OADA/OADR from STAM to identify the amounts entered into OAD and ensure these entries have been thoroughly explained in the D-3A issue narrative.	N/A				
	TIP The issue narrative must completely and thoroughly explain and justify each D-3A issue. Agencies must ensure it provides the information necessary for the OPB and legislative analysts to have a complete understanding of the issue submitted. Thoroughly review pages 65 through 70 of the LBR Instructions.					
	TIP Check BAPS to verify status of budget amendments. Check for reapprovals not picked up in the General Appropriations Act. Verify that Lump Sum appropriations in Column A02 do not appear in Column A03. Review budget amendments to verify that 160XXX0 issue amounts correspond accurately and net to zero for General Revenue funds.					
	TIP If an agency is receiving federal funds from another agency the FSI should = 9 (Transfer - Recipient of Federal Funds). The agency that originally receives the funds directly from the federal agency should use FSI = 3 (Federal Funds).					
	TIP If an appropriation made in the FY 2021-22 General Appropriations Act duplicates an appropriation made in substantive legislation, the agency must create a unique deduct nonrecurring issue to eliminate the duplicated appropriation. Normally this is taken care of through line item veto.

LBR 2021 | Appendix

This LBR appendix is in response to the 2020 Florida Legislature’s revisions to section 1011.90, Florida Statutes – see CS/SB72.

The SUS institutions instituted a hiring freeze in early 2020 in response to possible budget restrictions and a 6 percent holdback related to the pandemic that have impacted these trends. Natural faculty departures created open positions that were not able to be filled.

There is a misperception that a university faculty member is solely an instructor, which leads to misleading comparisons between faculty and administrator headcounts. Faculty have multiple responsibilities across instruction, research, public service, student support and administration, which is best measured by employee full-time equivalent (FTE) effort and why the headcount trends below may differ from the FTE trends.

Notes: Employee FTE is the portion of full-time effort assigned for the length of the contract. Employee activities are categorized into the following five categories: instruction and research, student support (e.g., student services, advising, libraries, financial aid, student health/centers, etc.), administration, service (e.g., health/medical centers, general public services, cooperative extension), and operational support (e.g., custodial services, computing support) based on financial accounts. Only includes state-funded employees. The denominators for these percentages includes all state-funded FTE regardless of pay plan designation. Other activity categories (not shown) include: Student Support, Services, and Operational Support.

Notes: Only includes state-funded employees. Pursuant to Board Regulation 9.006, Faculty includes all staff with a Faculty Pay Plan, or an OPS Adjunct Faculty, designation as defined by the institutions. An administrator is defined as an employee who has managerial responsibilities for the operations of departments, teams, units, projects, or programs. Administrators do not have a faculty pay plan designation as determined by each institution. Only two years of headcount data is available because the Board office recently developed a new employee classification system to better standardize the classification of institutional jobs. Five-year trends for headcounts will be available in the future.

Fiscal Year 2022-23 LBR Technical Review Checklist

Department/Budget Entity (Service): State University System / Education & General

Agency Budget Officer/OPB Analyst Name: Dale Bradley / Shelby Cecil

A "Y" indicates "YES" and is acceptable, an "N/J" indicates "NO/Justification Provided" - these require further explanation/justification (additional sheets can be used as necessary), and "TIPS" are other areas to consider.

Action	Program or Service (Budget Entity Codes)
	48900100

1. GENERAL

1.1 Are Columns A01, A04, A05, A91, A92, A93, A94, A95, A96, A36, A10, IA1, IA4, IA5, IA6, IP1, IV1, IV3 and NV1 set to TRANSFER CONTROL for DISPLAY status and MANAGEMENT CONTROL for UPDATE status for both the Budget and Trust Fund columns (no trust fund files for narrative columns)? Is Column A02 set to TRANSFER CONTROL for DISPLAY status and MANAGEMENT CONTROL for UPDATE status for the Trust Fund Files (the Budget Files should already be on TRANSFER CONTROL for DISPLAY and MANAGEMENT CONTROL for UPDATE)? Are Columns A06, A07, A08 and A09 for Fixed Capital Outlay (FCO) set to TRANSFER CONTROL for DISPLAY status only (UPDATE status remains on OWNER)? (CSDI or Web LBR Column Security)	Y				
1.2 Is Column A03 set to TRANSFER CONTROL for DISPLAY and UPDATE status for both the Budget and Trust Fund columns? (CSDI)	Y				

AUDITS:

1.3 Have Column A03 budget files been copied to Column A12? Run the Exhibit B Audit Comparison Report to verify. (EXBR, EXBA)	Y				
1.4 Have Column A03 trust fund files been copied to Column A12? Run Schedule I (SC1R, SC1 or SC1R, SC1D adding column A12) to verify.	Y				
1.5 Has Column A12 security been set correctly to ALL for DISPLAY status and MANAGEMENT CONTROL for UPDATE status for Budget and Trust Fund files? (CSDR, CSA)	Y				
TIP The agency should prepare the budget request for submission in this order: 1) Copy Column A03 to Column A12, and 2) Lock columns as described above. A security control feature included in the LAS/PBS Web upload process requires columns to be in the proper status before uploading to the portal.					

2. EXHIBIT A (EADR, EXA)

2.1 Is the budget entity authority and description consistent with the agency's LRPP and does it conform to the directives provided on page 57 of the LBR Instructions?	Y				
2.2 Are the statewide issues generated systematically (estimated expenditures, nonrecurring expenditures, etc.) included?	Y				
2.3 Are the issue codes and titles consistent with <i>Section 3</i> of the LBR Instructions (pages 15 through 27)? Do they clearly describe the issue?	Y				

3. EXHIBIT B (EXBR, EXB)

3.1 Is it apparent that there is a fund shift where an appropriation category's funding source is different between A02 and A03? Were the issues entered into LAS/PBS correctly? Check D-3A funding shift issue 340XXX0 - a unique deduct and unique add back issue should be used to ensure fund shifts display correctly on the LBR exhibits	N/A				
--	-----	--	--	--	--

AUDITS:

		Program or Service (Budget Entity Codes)				
Action		48900100				
3.2	Negative Appropriation Category Audit for Agency Request (Columns A03 and A04): Are all appropriation categories positive by budget entity and program component at the FSI level? Are all nonrecurring amounts less than requested amounts? (NACR, NAC - Report should print "No Negative Appropriation Categories Found")	Y				
3.3	Current Year Estimated Verification Comparison Report: Is Column A02 equal to Column B07? (EXBR, EXBC - Report should print "Records Selected Net To Zero")	Y				
TIP	Generally look for and be able to fully explain significant differences between A02 and A03.					
TIP	Exhibit B - A02 equal to B07: Compares Current Year Estimated column to a backup of A02. This audit is necessary to ensure that the historical detail records have not been adjusted. Records selected should net to zero.					
TIP	Requests for appropriations which require advance payment authority must use the sub-title "Grants and Aids". For advance payment authority to local units of government, the Aid to Local Government appropriation category (05XXXX) should be used. For advance payment authority to non-profit organizations or other units of state government, a Special Categories appropriation category (10XXXX) should be used.					
4. EXHIBIT D (EADR, EXD)						
4.1	Is the program component objective statement consistent with the agency LRPP, and does it conform to the directives provided on page 61 of the LBR Instructions?	Y				
4.2	Is the program component code and title used correct?	Y				
TIP	Fund shifts or transfers of services or activities between program components will be displayed on an Exhibit D whereas it may not be visible on an Exhibit A.					
5. EXHIBIT D-1 (ED1R, EXD1)						
5.1	Are all object of expenditures positive amounts? (This is a manual check.)	Y				
AUDITS:						
5.2	Do the fund totals agree with the object category totals within each appropriation category? (ED1R, XD1A - Report should print "No Differences Found For This Report")	Y				
5.3	FLAIR Expenditure/Appropriation Ledger Comparison Report: Is Column A01 less than Column B04? (EXBR, EXBB - Negative differences [with a \$5,000 allowance] need to be corrected in Column A01.)	Y				
5.4	A01/State Accounts Disbursements and Carry Forward Comparison Report: Does Column A01 equal Column B08? (EXBR, EXBD - Differences [with a \$5,000 allowance at the department level] need to be corrected in Column A01.)	Y				
TIP	If objects are negative amounts, the agency must make adjustments to Column A01 to correct the object amounts. In addition, the fund totals must be adjusted to reflect the adjustment made to the object data.					
TIP	If fund totals and object totals do not agree or negative object amounts exist, the agency must adjust Column A01.					
TIP	Exhibit B - A01 less than B04: This audit is to ensure that the disbursements and carry/certifications forward in A01 are less than FY 2020-21 approved budget. Amounts should be positive. The \$5,000 allowance is necessary for rounding.					

	Program or Service (Budget Entity Codes)
Action	48900100

TIP If B08 is not equal to A01, check the following: 1) the initial FLAIR disbursements or carry forward data load was corrected appropriately in A01; 2) the disbursement data from departmental FLAIR was reconciled to State Accounts; and 3) the FLAIR disbursements did not change after Column B08 was created. Note that there is a \$5,000 allowance at the department level.

6. EXHIBIT D-3 (ED3R, ED3) (Not required in the LBR - for analytical purposes only.)

6.1 Are issues appropriately aligned with appropriation categories? Y

TIP Exhibit D-3 is not required in the budget submission but may be needed for this particular appropriation category/issue sort. Exhibit D-3 is also a useful report when identifying negative appropriation category problems.

7. EXHIBIT D-3A (EADR, ED3A) (Required to be posted to the Florida Fiscal Portal)

7.1	Are the issue titles correct and do they clearly identify the issue? (See pages 15 through 27 of the LBR Instructions.)	Y				
7.2	Does the issue narrative adequately explain the agency's request and is the explanation consistent with the LRPP? (See pages 65 through 68 of the LBR Instructions.)	Y				
7.3	Does the narrative for Information Technology (IT) issue follow the additional narrative requirements described on pages 67 through 69 of the LBR Instructions?	N/A				
7.4	Are all issues with an IT component identified with a "Y" in the "IT COMPONENT?" field? If the issue contains an IT component, has that component been identified and documented?	N/A				
7.5	Does the issue narrative explain any variances from the Standard Expense and Human Resource Services Assessments package? Is the nonrecurring portion in the nonrecurring column? (See pages E.4 through E.5 of the LBR Instructions.)	N/A				
7.6	Does the salary rate request amount accurately reflect any new requests and are the amounts proportionate to the Salaries and Benefits request? Note: Salary rate should always be annualized.	N/A				
7.7	Does the issue narrative thoroughly explain/justify all Salaries and Benefits amounts entered into the Other Salary Amounts transactions (OADA/C)? Amounts entered into OAD are reflected in the Position Detail of Salaries and Benefits section of the Exhibit D-3A. (See pages 93 through 95 of the LBR Instructions.)	N/A				
7.8	Does the issue narrative include the Consensus Estimating Conference forecast, where appropriate?	Y				
7.9	Does the issue narrative reference the specific county(ies) where applicable?	N/A				
7.10	Do the 160XXX0 issues reflect budget amendments that have been approved (or in the process of being approved) and that have a recurring impact (including Lump Sums)? Have the approved budget amendments been entered in Column A18 as instructed in Memo #22-001?	N/A				
7.11	When appropriate are there any 160XXX0 issues included to delete positions placed in reserve in the LAS/PBS Position and Rate Ledger (e.g. unfunded grants)? Note: Lump sum appropriations not yet allocated should <u>not</u> be deleted. (PLRR, PLMO)	N/A				
7.12	Does the issue narrative include plans to satisfy additional space requirements when requesting additional positions?	N/A				
7.13	Has the agency included a 160XXX0 issue and 210XXXX and 260XXX0 issues as required for lump sum distributions?	N/A				

		Program or Service (Budget Entity Codes)				
Action		48900100				
7.14	Do the amounts reflect appropriate FSI assignments?	Y				
7.15	Are the 33XXXX0 issues negative amounts only and do not restore nonrecurring cuts from a prior year or fund any issues that net to a positive or zero amount? Check D-3A issues 33XXXX0 - a unique issue should be used for issues that net to zero or a positive amount.	N/A				
7.16	Do the issue codes relating to special <i>salary and benefits</i> issues (e.g., position reclassification, pay grade adjustment, overtime/on-call pay, etc.) have an "A" in the fifth position of the issue code (XXXXAXX) and are they self-contained (not combined with other issues)? (See pages 26 and 90 of the LBR Instructions.)	N/A				
7.17	Do the issues relating to <i>Information Technology (IT)</i> have a "C" in the sixth position of the issue code (36XXXXCX) and are the correct issue codes used (361XXC0, 362XXC0, 363XXC0, 24010C0, 30010C0, 33011C0, 160E470, or 160E480)?	N/A				
7.18	Are the issues relating to <i>major audit findings and recommendations</i> properly coded (4A0XXX0, 4B0XXX0)?	N/A				
7.19	Does the issue narrative identify the strategy or strategies in the Five Year Statewide Strategic Plan for Economic Development?	Y				
AUDIT:						
7.20	Does the General Revenue for 160XXXX (Adjustments to Current Year Expenditures) issues net to zero? (GENR, LBR1)	N/A				
7.21	Does the General Revenue for 180XXXX (Intra-Agency Reorganizations) issues net to zero? (GENR, LBR2)	N/A				
7.22	Does the General Revenue for 200XXXX (Estimated Expenditures Realignment) issues net to zero? (GENR, LBR3)	N/A				
7.23	Have FCO appropriations been entered into the nonrecurring column (A04)? (GENR, LBR4 - Report should print "No Records Selected For Reporting" or a listing of D-3A issue(s) assigned to Debt Service (IOE N) or in some cases State Capital Outlay - Public Education Capital Outlay (IOE L))	N/A				
7.24	Has narrative been entered for all issues requested by the agency? Agencies do not need to include narrative for startup issues (1001000, 2103XXX, etc.) that were not input by the agency. (NAAR, BSNR)	Y				
7.25	Has the agency entered annualization issues (260XXX0) for any issue that was partially funded in Fiscal Year 2021-22? Review Column G66 to determine whether any incremental amounts are needed to fully fund an issue that was initially appropriated in Fiscal Year 2021-22. Do not add annualization issues for pay and benefit distribution issues, as those annualization issues (26AXXXX) have already been added to A03.	N/A				
TIP	Salaries and Benefits amounts entered using the OADA/C transactions must be thoroughly justified in the D-3A issue narrative. Agencies can run OADA/OADR from STAM to identify the amounts entered into OAD and ensure these entries have been thoroughly explained in the D-3A issue narrative.					
TIP	The issue narrative must completely and thoroughly explain and justify each D-3A issue. Agencies must ensure it provides the information necessary for the OPB and legislative analysts to have a complete understanding of the issue submitted. Thoroughly review pages 65 through 70 of the LBR Instructions.					

	Program or Service (Budget Entity Codes)
Action	48900100

TIP	Check BAPS to verify status of budget amendments. Check for reapprovals not picked up in the General Appropriations Act. Verify that Lump Sum appropriations in Column A02 do not appear in Column A03. Review budget amendments to verify that 160XXX0 issue amounts correspond accurately and net to zero for General Revenue funds.	
TIP	If an agency is receiving federal funds from another agency the FSI should = 9 (Transfer - Recipient of Federal Funds). The agency that originally receives the funds directly from the federal agency should use FSI = 3 (Federal Funds).	
TIP	If an appropriation made in the FY 2021-22 General Appropriations Act duplicates an appropriation made in substantive legislation, the agency must create a unique deduct nonrecurring issue to eliminate the duplicated appropriation. Normally this is taken care of through line item veto.

1. GENERAL

1.1 Are Columns A01, A04, A05, A91, A92, A93, A94, A95, A96, A36, A10, IA1, IA4, IA5, IA6, IP1, IV1, IV3 and NV1 set to TRANSFER CONTROL for DISPLAY status and MANAGEMENT CONTROL for UPDATE status for both the Budget and Trust Fund columns (no trust fund files for narrative columns)? Is Column A02 set to TRANSFER CONTROL for DISPLAY status and MANAGEMENT CONTROL for UPDATE status for the Trust Fund Files (the Budget Files should already be on TRANSFER CONTROL for DISPLAY and MANAGEMENT CONTROL for UPDATE)? Are Columns A06, A07, A08 and A09 for Fixed Capital Outlay (FCO) set to TRANSFER CONTROL for DISPLAY status only (UPDATE status remains on OWNER)? (CSDI or Web LBR Column Security)	Y		
1.2 Is Column A03 set to TRANSFER CONTROL for DISPLAY and UPDATE status for both the Budget and Trust Fund columns? (CSDI)	Y		

AUDITS:

1.3 Have Column A03 budget files been copied to Column A12? Run the Exhibit B Audit Comparison Report to verify. (EXBR, EXBA)	Y		
1.4 Have Column A03 trust fund files been copied to Column A12? Run Schedule I (SC1R, SC1 or SC1R, SC1D adding column A12) to verify.	Y		
1.5 Has Column A12 security been set correctly to ALL for DISPLAY status and MANAGEMENT CONTROL for UPDATE status for Budget and Trust Fund files? (CSDR, CSA)	Y		

TIP The agency should prepare the budget request for submission in this order: 1) Copy Column A03 to Column A12, and 2) Lock columns as described above. A security control feature included in the LAS/PBS Web upload process requires columns to be in the proper status before uploading to the portal.

2. EXHIBIT A (EADR, EXA)

2.1 Is the budget entity authority and description consistent with the agency's LRPP and does it conform to the directives provided on page 57 of the LBR Instructions?	Y		
2.2 Are the statewide issues generated systematically (estimated expenditures, nonrecurring expenditures, etc.) included?	Y		
2.3 Are the issue codes and titles consistent with <i>Section 3</i> of the LBR Instructions (pages 15 through 27)? Do they clearly describe the issue?	Y		

3. EXHIBIT B (EXBR, EXB)

3.1 Is it apparent that there is a fund shift where an appropriation category's funding source is different between A02 and A03? Were the issues entered into LAS/PBS correctly? Check D-3A funding shift issue 340XXX0 - a unique deduct and unique add back issue should be used to ensure fund shifts display correctly on the LBR exhibits.	N/A

3.2	Negative Appropriation Category Audit for Agency Request (Columns A03 and A04): Are all appropriation categories positive by budget entity and program component at the FSI level? Are all nonrecurring amounts less than requested amounts? (NACR, NAC - Report should print "No Negative Appropriation Categories Found")	Y		
3.3	Current Year Estimated Verification Comparison Report: Is Column A02 equal to Column B07? (EXBR, EXBC - Report should print "Records Selected Net To Zero")	Y		
TIP	Generally look for and be able to fully explain significant differences between A02 and A03.			
TIP	Exhibit B - A02 equal to B07: Compares Current Year Estimated column to a backup of A02. This audit is necessary to ensure that the historical detail records have not been adjusted. Records selected should net to zero.			
TIP	Requests for appropriations which require advance payment authority must use the sub-title "Grants and Aids". For advance payment authority to local units of government, the Aid to Local Government appropriation category (05XXXX) should be used. For advance payment authority to non-profit organizations or other units of state government, a Special Categories appropriation category (10XXXX) should be used.

TIP	If objects are negative amounts, the agency must make adjustments to Column A01 to correct the object amounts. In addition, the fund totals must be adjusted to reflect the adjustment made to the object data.			
TIP	If fund totals and object totals do not agree or negative object amounts exist, the agency must adjust Column A01.			
TIP	Exhibit B - A01 less than B04: This audit is to ensure that the disbursements and carry/certifications forward in A01 are less than FY 2020-21 approved budget. Amounts should be positive. The \$5,000 allowance is necessary for rounding.

TIP	The issue narrative must completely and thoroughly explain and justify each D-3A issue. Agencies must ensure it provides the information necessary for the OPB and legislative analysts to have a complete understanding of the issue submitted. TIP	Check BAPS to verify status of budget amendments. Check for reapprovals not picked up in the General Appropriations Act. Verify that Lump Sum appropriations in Column A02 do not appear in Column A03. TIP	If an appropriation made in the FY 2021-22 General Appropriations Act duplicates an appropriation made in substantive legislation, the agency must create a unique deduct nonrecurring issue to eliminate the duplicated appropriation. Normally this is taken care of through line item veto.
