Report Name	Florida Boating Improvement Program Report		
State Statutory Authority or Chapter Law	s. 206.606(1)(b)3., F.S.		
First Year Report Required	1999		
Most Recent Amendment, if any, of Report Requirement	2010		
Due Date for Report	February 1		
Report Frequency <i>(annual, biannual, or provide other timing)</i>	Annual		
Report Recipient(s)	Required to make available on agency website		
Is report information publicly available elsewhere? <i>(if so, provide alternative availability of information required by the report)</i>	No		
Modify or Repeal Report <i>(modification includes but is not limited to recommended consolidation of multiple reports, repeal of report but adding certain information to another report, changing due dates, changing information, etc.)</i>	Modify to remove or revise the list of counties with unmet needs and revise to include a list of unfunded projects due to a lack of financial resources.		
Rationale to Support Recommendation of Modification or Repeal	The county portion of the vessel registration fees no longer goes through the State and the program now includes more than just counties. Additionally, listing the unfunded projects shows applicants that the minimum scoring was met but the project was left unfunded.		
Provide any necessary statutory changes	The commission shall prepare and make available on its Internet website an annual report outlining the status of its Florida Boating Improvement Program, including the projects funded, and <u>the projects that were not funded due to a lack of resources</u> <del>a list of counties whose needs are unmet due to insufficient financial resources from vessel registration fees.</del>
