Florida Department of Citrus 2025-26 Legislative Budget Request

Schedule I Narrative

5% Reserves

The Department of Citrus recommends an exclusion from the reserve requirement for the portion of legislative budget that is funded from the Citrus Advertising Trust Fund (CATF) The CATF is funded through assessments on each box of citrus as they enter channels of trade. Collections are cyclical in nature, based on the timing and quantity of fruit entering markets. Our internal operating procedures require an overall reserve of 3% of our operating budget at the beginning of each year, in order to mitigate impact of crop reductions due to factors such as greening or freeze. These funds may be released to program activity in February, if revenue projections support it.

Management and Administrative Costs

Management and Administrative costs of the Department of Citrus support core functions as approved by the Florida Citrus Commission. All administrative costs are absorbed by the Citrus Advertising Trust Fund.

Section III – Adjustments

- \$7,877 – Reverse PY A/P not certified forward 06/30/23
- \$345,900 - Prior year (Sept. 2023) certified forward reversions
- (\$294,109) – certified forward paid in foreign currency funded through the SPIA
- (\$1,809,110) – Current year expenditures paid in foreign currency funded through SPIA
- (\$19,945) - Write-off of Grants Receivable FY2021-22
- \$(1,940) – TR10 included in the trial balance, not included in Section I or Line D

Section IB

The Department of Citrus Trust Fund is restricted by enabling legislation under Chapter 601 of the Florida Statutes. Specifically, F.S. 601.02 (5) states that “...It is the intent of the Legislature that all funds collected under this chapter and the interest accrued on such funds are consideration for a social contract between the state and the citrus growers of the state whereby the state must hold such funds in trust and inviolate and use them only for the purposes prescribed in this chapter.”

Revenue Estimating Methodology

Revenue estimates for Fiscal Year 2024-25 and 2025-26 are based on the following methodology:

The assessment rates for all varieties of citrus are set at the October meeting of the Florida Citrus Commission (FCC), following the first USDA crop estimate of the season. The rates for the 2023-24 season are used to estimate 2024-25 revenue, as tentatively approved by the FCC during their June 2024 FCC meeting. The rates used to estimate Fiscal Year 2025-26 are also the same

as FY 2023-24.

The forecasted revenue for FY2024-25 and FY2025-26 will be updated after the October 23,2024, FCC meeting, if there are any changes to tax rates. A schedule of Estimated Boxes and Revenue is attached.

The projected grant revenues are based on anticipated grant awards. Estimated interest earnings are based on prior year average interest rates and projected cash balance in the trust fund.

USDA Foreign Agricultural Service (FAS) Market Access Program (MAP) Regional
Agricultural Promotion Program (RAPP)

The federal Targeted Export Assistance (TEA) program was created in the 1985 Farm Bill. By authorizing export promotional assistance, TEA was intended to provide economic relief to U.S. commodities and directly counteract unfair practices overseas. The Food, Agriculture, Conservation and Trade Act of 1990 established the Market Access Program (MAP), which replaced the TEA Program, to encourage the development, maintenance and expansion of commercial export markets for U.S. agricultural commodities through cost-share assistance to eligible trade organizations that implement market promotion activities. These two programs have been effective weapons against unfair competition for U.S. agriculture.

The Foreign Agricultural Service (FAS) administers the Market Access Program, as they previously did the TEA program. FAS authorizes both branded and generic export promotion, and the vast majority of U.S. agriculture in virtually all fifty states now participates in the program. By stimulating foreign interest in products of U.S. origin, FAS is enlarging overall world demand in ways that will endure and assist U.S. agriculture well into the future.

The Florida Department of Citrus (FDOC), on behalf of the Florida Citrus industry, is eligible for MAP funding in order to counter or offset the adverse effect of unfair trading practices of foreign countries on the export of citrus and citrus products. The FDOC budget for international marketing relies heavily on funding from this FAS program. Activity plans are developed at the FDOC with input from overseas advertising and promotion staff, exporters, importers and government agricultural officials. Execution of these plans is performed by these professional agencies in the countries in which FDOC/FAS programs operate.

FDOC's participation in the Market Access Program, and previously in the TEA program, helped the Florida Citrus industry expand market share and increase exports throughout the 1980s and 1990s. Since 2004, despite falling production and exports, MAP funding has helped the Florida Citrus industry sustain high prices and consumer preference in the face of challenging crop conditions resulting from hurricanes and disease. This will ensure that overseas markets for Florida Citrus will be able to expand again once production limitations are diminished. The schedule attached identifies the number of cartons of Florida Grapefruit shipped, F.O.B. prices, and FAS funding.

In 2019 the FDOC, on behalf of the Florida Citrus industry, was awarded funds through the FAS Agriculture Trade Promotion Program (ATP). The ATP was a short-term program designed to help U.S. agricultural exporters develop new markets in an effort to mitigate the adverse effects of tariff barriers implemented by other countries. After the United States imposed a 25 percent tariff on steel imports and a 10 percent tariff on aluminum imports from several countries including Canada, the Canadian government chose to

impose retaliatory tariffs of their own on several products including orange juice imported from the United States, which included Florida product. While only Florida Orange Juice in Canada had been affected by the tariffs, the ATP program allowed the FDOC to consider the needs of Florida Citrus and to propose programs that would have the most impact within Canada and in other markets. With this in mind, the FDOC identified two markets and products where there was room for significant opportunity and growth: Fresh Florida Oranges in Canada and Florida Orange Juice in South Korea. A Fresh Florida Orange program in Canada created a new opportunity to support a Florida Citrus product not targeted by the tariff while increased programming in South Korea, specifically for Florida Orange Juice, grew market access for the same product affected by the Canadian tariff. The ATP program ended on September 30, 2024. However, due to the success of the ATP program, the FDOC continues promotional efforts of fresh Florida Oranges in Canada through the use of MAP and grower funding.

In 2023, the USDA announced a new funding opportunity for export promotion and foreign market development. The Regional Agricultural Promotion Program (RAPP) allows American farmers to continue supplying the world while growing new markets that will create trade opportunities around the globe. RAPP is a regional program, therefore FAS identified specific markets eligible to receive funding through this new opportunity. The regions identified for funding in which FDOC currently focuses its marketing efforts include Asia and Europe. Canada is not included in the regions eligible for funding. In 2024 FDOC applied for RAPP funding and will use the funds received to continue its work in maintaining market share for Florida citrus products in Japan, South Korea, France and the Pan Europe region, which includes the United Kingdom, Netherlands, Sweden and Belgium. The RAPP program will begin July 2025 and ends September 30, 2030.

Is Column A02 set to TRANSFER CONTROL for DISPLAY status and MANAGEMENT CONTROL for UPDATE status for the Trust Fund Files (the Budget Files should already be on TRANSFER CONTROL for DISPLAY and MANAGEMENT CONTROL for UPDATE)? Are Columns A06, A07, A08 and A09 for Fixed Capital Outlay (FCO) set to TRANSFER CONTROL for DISPLAY status only (UPDATE status remains on OWNER)? (CSDI or Web LBR Column Security)	Y	Y	Y

TIP Generally look for and be able to fully explain significant differences between A02 and A03.					
TIP Exhibit B - A02 equal to B07: Compares Current Year Estimated column to a backup of A02. This audit is necessary to ensure that the historical detail records have not been adjusted. Records selected should net to zero.
