SCHEDULE I – REQUIRED NARRATIVES

Budget Period: 2018-19

Agency:Florida Public Service Commission (PSC)Trust Fund:Regulatory Trust FundFund No.:2573

<u>5% Trust Fund Reserve:</u>

The PSC's Regulatory Trust Fund receives no revenues that are excluded in the General Policy Guidelines section of the Legislative Budget Instructions. There is no negative impact of establishing the reserve in this LBR. Revenues are collected primarily only twice per year, but the majority of expenditures are paid out monthly (salaries/benefits make up the largest single amount, plus other routine costs of doing business) or quarterly (rent to DMS). Therefore, the trust fund balance must be sufficient to allow for this uneven cash flow.

| FY 17-18 total revenue | \$26,080,386 |
|---|---------------------|
| Less Estimated Federal Grant | (947,348) |
| Less 8% Service Charge to GR | (2,010,643) |
| Less Risk Management Casualty Insurance | (105,705) |
| Less Operating Transfer to DMS STW Contract | (88,290) |
| Total Revenue Subject to 5% Reserve Calculation | <u>\$22,928,400</u> |
| Multiplied by 5% | .05 |
| Total 5% Reserve for Regulatory Trust Fund | <u>\$ 1,146,420</u> |

Section III Adjustments:

Adjustments are included for FY 2016-17 as listed on the "Reconciliation of Schedule 1C to Agency Trial Balance" form.

Revenue Estimating Methodology:

The trust fund's primary revenues are from the regulatory assessment fees (RAFs) charged to the utilities regulated by the PSC. Maximum allowable rates are established in Florida Statutes, and actual assessable rates, up to the statutory cap, are established by PSC rule in the Florida Administrative Code. RAFs are computed on the utility companies' gross operating revenues derived from intrastate business, which must be estimated for the current year (Column A02) and the request year (Column A03). The PSC's revenue forecast is based on near-term company

Florida Public Service Commission Page 2

projections, when available, and past year growth rates when projections are not available. The projections also take into account relevant developments in the various industries that will affect the utilities' revenue.

The 2017 and 2018 investor-owned electric RAF revenues are based on actual revenues and projected revenue growth. The projected 2017 RAF revenue is a combination of the investor-owned electric utilities' actual RAF revenues for the first half of the year and company projections for the second half of the year. A significant revenue increase occurred during the first half of the year, relative to the revenue of the first half of 2016. Revenue in the second half of 2017 is projected to exceed actual revenue in the second half of 2016. For 2018, RAF revenues are based on company projections, and in the aggregate these revenues are expected to increase relative to 2017. This increase in investor-owned electric RAF revenue is projected consistent with an expected moderate increase in electric sales (0.95 percent).

For municipal and rural electrics, 2017 and 2018 RAF revenues are forecasted based on the projected gigawatt hours sales growth rate of the investor-owned utilities.

Except for two small gas utilities, the 2017 and 2018 RAF revenue estimates of the investorowned gas utilities are based on actual revenues and projected revenue growth. The projected 2017 RAF revenues of six investor-owned gas utilities are based on the actual RAF revenues for the first half of the year and company projections for the second half of the year. The projected 2017 RAF revenues for the six larger investor-owned gas utilities are based on company projections. The PSC projects the RAF revenues for two of the smaller gas utilities based on the most recent five year average revenue amounts for these utilities.

With respect to the municipal gas and gas districts (gas safety entities), the growth rate in 2017 and 2018 RAF revenue are projected to be equal to the growth rate of the gas utilities during those years. The two revenue data series have a history of following a similar trend with a relatively high positive correlation in annual revenue between the gas utilities and municipal and gas districts. We anticipate that trend to continue.

The Commission has two gas pipelines under its jurisdiction. The projected 2017 RAF revenue of the gas pipelines is based on the actual RAF revenues for the first half of the year and company projections for the second half of the year. The projected RAF revenue for 2018 is based on company revenue projections for the two pipelines.

Telecommunications companies' revenues have been decreasing mainly due to a loss of access lines to wireless and other companies that do not pay RAFs. The 2017-2018 RAFs are expected to decline based on the actual historical decline in RAF revenues and a review of the actual revenues for the first half of 2017. This same negative growth is expected to continue in 2018.

The water and wastewater industry revenue forecast for 2017-2018 shows a slight increase. The companies are predicted to grow at the same rate for 2017 (1.5 percent) as in 2016, with

Florida Public Service Commission Page 3

adjustments for 2016-2017 certificate cancellations. The 2018 revenue projection includes a slightly lower growth rate (1.0 percent) than for 2017 for existing companies.

The revenue estimates are the latest we have available, but we will be monitoring and looking at the revenues again after our January 2018 collections. We will notify OPB of any significant changes in revenue estimates that occur prior to the Governor's Budget Recommendations.

For All Trust Funds scheduled for review this year, answer questions 1-6.

| 1 | Cite the statutory authority for the trust fund (Florida Statutes or, if none, Laws of Florida). Give the statutory purpose, if stated, for the trust fund. | S. 350.113, Florida Statutes, states that this trust fund "shall be used in the operation of the Commission in the performance of the various functions and duties required of it by law." |
|---|---|---|
| 2 | List the specific sources of receipts to the trust fund and the statutory references for those receipts. | The primary source of receipts is the assessment fees collected to fund the costs of regulating Public Electric and Gas Utilities and Water and Wastewater Companies, and of providing regulatory oversight of Telecommunications Companies, as required by Chapters 350, 364, 366, 367, 368, 403, and 427, Florida Statutes. Other receipts include filing/recording fees and refunds. |
| 3 | If state or federal law requires or prohibits specific expenditures from the trust fund, list the requirements or prohibitions and the statutory citations for them. | Sections 350.031, 350.06, and 350.113, Florida Statutes, require that this trust fund be used for operations of the Commission, including court reporting services and PSC Nominating Council costs. |
| 4 | If any source of receipts is federal, describe any restrictions on those receipts that are inconsistent with how the state does business. | The Public Service Commission (PSC) receives federal funds from the Pipeline and Hazardous Waste Safety Administration (PHMSA). These funds are partial reimbursement for regulatory trust funds expended by the PSC Division of Engineering - Bureau of Safety. |
| 5 | If this trust fund could be combined with other agency trust funds that accomplish a similar purpose, list those trust funds. | N/A |
| 6 | If General Revenue funding supports the same programs or activities that the trust fund supports, provide a justification. | N/A |

For Trust Funds that the agency believes are **Exempt from Termination** answer question 7.

For Trust Funds that the agency recommends should be **Re-created/Retained with or without modification** answer questions 8 and 9 and attach draft legislation as requested.

| 8 | Give the specific reasons that continuation (re- creation after initial creation or retention after subsequent re-creation) of this trust fund is necessary. List agency activities (based on the activity detail report) supported by the trust fund. | The continuation of the regulatory trust fund is vital because it provides the PSC with necessary resources to work towards ensuring that Consumers receive essential services (electric, gas, water, and waste water and telephone) in a safe, affordable, and reliable manner. Funding of this regulatory function through regulatory assessment fees and maintaining accountability for these revenues through the Regulatory Trust Fund is the most expedient and effective way to ensure that the collections are properly assessed, controlled, and expended for the intended purposes. The activities supported by this trust fund are as follows: Certificates and Territorial Disputes, Competitive Market Oversight, Conservation, Consumer Protection and Assistance, Electric Reliability, Ratemaking, Safety Oversight, Service Quality Evaluation, and Executive Direction and Administrative Support. |
|---|--|---|
| 9 | Describe any modifications the agency is requesting when this fund is re-created/retained. Attach draft legislation to accomplish the requested change. | N/A |

Over the past year, the PSC has been working to develop and create efficiencies. Through internal controls which include the management of vacancies, closely monitoring discretionary expenditures, federal reimbursment, and using a small amount of the cash balance, the PSC can manathe negative balances. Trust fund sweeps will jeopardize our continued ability to meet our fiscal obligations.

* Enter ONLY the six-digit code. Not applicable for requests to **Create** trust fund.

For All Trust Funds scheduled for review this year, answer questions 1-6.

| 1 | Cite the statutory authority for the trust fund (Florida Statutes or, if none, Laws of Florida). Give the statutory purpose, if stated, for the trust fund. | S. 350.113, Florida Statutes, states that this trust fund "shall be used in the operation of the Commission in the performance of the various functions and duties required of it by law." |
|---|---|---|
| 2 | List the specific sources of receipts to the trust fund and the statutory references for those receipts. | The primary source of receipts is the assessment fees collected to fund the costs of regulating Public Electric and Gas Utilities and Water and Wastewater Companies, and of providing regulatory oversight of Telecommunications Companies, as required by Chapters 350, 364, 366, 367, 368, 403, and 427, Florida Statutes. Other receipts include filing/recording fees and refunds. |
| 3 | If state or federal law requires or prohibits specific expenditures from the trust fund, list the requirements or prohibitions and the statutory citations for them. | Sections 350.031, 350.06, and 350.113, Florida Statutes, require that this trust fund be used for operations of the Commission, including court reporting services and PSC Nominating Council costs. |
| 4 | If any source of receipts is federal, describe any restrictions on those receipts that are inconsistent with how the state does business. | The Public Service Commission (PSC) receives federal funds from the Pipeline and Hazardous Waste Safety Administration (PHMSA). These funds are partial reimbursement for regulatory trust funds expended by the PSC Division of Engineering - Bureau of Safety. |
| 5 | If this trust fund could be combined with other agency trust funds that accomplish a similar purpose, list those trust funds. | N/A |
| 6 | If General Revenue funding supports the same programs or activities that the trust fund supports, provide a justification. | N/A |

For Trust Funds that the agency believes are **Exempt from Termination** answer question 7.

| 7 | If this trust fund is exempt from termination | N/A |
|---|--|-----|
| | according to Article III, section 19(f)(3) of the | |
| | Florida Constitution, list the specific exemptions | |
| | that apply. | |
| | *** | |

For Trust Funds that the agency recommends should be **Re-created/Retained with or without modification** answer questions 8 and 9 and attach draft legislation as requested.

| 8 | Give the specific reasons that continuation (re- creation after initial creation or retention after subsequent re-creation) of this trust fund is necessary. List agency activities (based on the activity detail report) supported by the trust fund. | The continuation of the regulatory trust fund is vital because it provides the PSC with necessary resources to work towards ensuring that Consumers receive essential services (electric, gas, water, and waste water and telephone) in a safe, affordable, and reliable manner. Funding of this regulatory function through regulatory assessment fees and maintaining accountability for these revenues through the Regulatory Trust Fund is the most expedient and effective way to ensure that the collections are properly assessed, controlled, and expended for the intended purposes. The activities supported by this trust fund are as follows: Certificates and Territorial Disputes, Competitive Market Oversight, Conservation, Consumer Protection and Assistance, Electric Reliability, Ratemaking, Safety Oversight, Service Quality Evaluation, and Executive Direction and Administrative Support. |
|---|--|---|
| 9 | Describe any modifications the agency is requesting when this fund is re-created/retained. Attach draft legislation to accomplish the requested change. | N/A |

For Trust Funds that the agency recommends should be **Terminated** answer question 10 and attach draft legislation as requested.

| cı | surrent receipts of the trust fund will be | |

| 12 | Describe the specific impact on any other trust fund or the General Revenue Fund from the creation of this new trust fund. | N/A |
