1 Glossary of Terms/Abbreviations

The following are terms or abbreviations that are used within this document.

Term or Abbreviation	Definition
AAMVA	American Association of Motor Vehicle Administrators
COTS	Commercial Off-The-Shelf (packaged) software
DAVID	Driver and Vehicle Information Database
Dev	Development
DL	Driver License
ECM	Enterprise Content Management
EFS	Electronic Filing System
ELT	Electronic Lien and Title
ETL	Extract, Transform, and Load
FLHSMV	Florida Highway Safety and Motor Vehicles
FLMCS	Florida Motor Carrier System
FRVIS	Florida Real-Time Vehicle Information System
FSID	Florida Smart ID
FY	Fiscal Year
GHQ	General Headquarters (aka Kirkman Building, FLHSMV Office in Tallahassee)
HIP Sprint	A short sprint set aside for Hardening, Innovating, and Planning, prior to the end of a milestone
HOV	High Occupancy Vehicle
ICFS	Interstate Carrier Filing System
IMS	MM Phase II Integrated Master Schedule
IFTA/IRP	International Fuel Tax Agreement/ International Registration Plan
JAD	Joint Application Design
JSON	JavaScript Object Notation
LBR	Legislative Budget Request
Milestone	A collection of several sprints in which one or more functional areas are completed for potential release.

Docusign Envelope ID: A8D2D47B-DFF0-47BE-BF26-A8365EE5C6C6

Term or Abbreviation	Definition
MM	Motorist Modernization
MM Phase II	Motorist Modernization Phase II
MV	Motor Vehicle
MVI	Motor Vehicle Issuance (ORION Module)
MVR	Motor Vehicle Record
MVRN	Motor Vehicle Renewal Notice
MVRR	Motor Vehicle Records Request
MyDMV Portal	Public Portal for online self-service functions.
NMVTIS	National Motor Vehicle Title Information System
OMM	Office of Motorist Modernization
ORION	Online Registration and Identity Operating Network
QA	ISA Quality Assurance
SEU	Systems Evaluation Unit
SME	Subject Matter Expert
SSO	Single Sign-On
TFS	Team Foundation Server, a Microsoft tool for managing source code and development work items
UAT	User Acceptance Testing

Docusign Envelope ID: A8D2D47B-DFF0-47BE-BF26-A8365EE5C6C6

2 Assumptions and Constraints

The following are assumptions and constraints related to this document.

#	Assumptions and Constraints
1	MM Phase II development and testing ran concurrently with Phase I Pilot and Implementation.
2	The primary focus of MM Phase II is the replacement of FRVIS; however, not all functionality provided by FRVIS will be replaced at the same time, meaning that there can be multiple rollouts for various functions.
3	FRVIS will still need to be operational in GHQ and in Regional Offices, after full MM Phase II statewide rollout to support functionality not being modernized in MM Phase II, such as Dealer Licensing functionality, Consumer Complaints, and accounting functions, refunds, etc. It is anticipated that FRVIS would be fully retired by MM Phase III.
4	The Department continues meeting with the contracted vendor for a Commercial Off-the-Shelf (COTS) software solution for Enterprise Content Management (ECM) functionality. There will not be a dedicated Scrum team to support ECM implementation as part of the Phase II effort, so no metrics for this work effort will be included in this report.
5	Subcomponents of the report will be generated from TFS and will be included as attachments to this report. Attachments are only included for Scrum Teams currently engaged in active development and testing as of the date of this document.
6	The report will have a separate section for each of the Scrum Teams and each of the subcomponents of the report will be specific to that functional team (e.g., a particular team's backlog status).
7	Per a decision on 2/15/2019 (and documented in Deliverable 13 "Migration Plan"), the current vehicle type tables in TRDM (AUTO, TRUCK, VESSEL, etc.) will not be denormalized into a single VEHICLE table. Likewise, the current registration table types in TRDM (REGULAR_REGISTRATION, DEALER_REGISTRATION, etc.) will not be denormalized into a single REGISTRATION table. This should limit the introduction of new data synchronization requirements during MM Phase II Pilot and Deployment periods and reduce the complexity during MM Phase II development. In the discussion, FLHSMV agreed to discuss this point beyond the MM Phase II Implementation.
8	It is anticipated that some FLHSMV resources (Business Analysts, Developers, Testers, etc.) will not be 100% dedicated to MM Phase II; the percentage allocation of FLHSMV Phase II resources should be tracked in accordance with the Resource Management Plan within the MM Phase II Program Management Plan.
9	The IFTA/IRP COTS system is dependent upon components of the new ORION MV Issuance (MVI) Module (which includes core vehicle creation, title issuance, and inventory).

Docusign Envelope ID: A8D2D47B-DFF0-47BE-BF26-A8365EE5C6C6

#	Assumptions and Constraints
10	The Enterprise Team supports the other Scrum Teams by designing (and building, where appropriate) core shared components and data structures. As such, the sprint burndown chart for the Enterprise Team may not follow the "ideal" curve because new work items are added to the Enterprise Team's sprint backlog during the sprint (instead of just during sprint planning).
11	The Sprint burndown charts included in this report are a point-in-time snapshot based on the data in the Department's backlog management tool, Team Foundation Server (TFS) at the time of the report. Due to a known issue with TFS, a team's burndown chart starts to display data after the first full business day of a new sprint, leading to the occasional "blank" sprint burndown chart if a full business day in the new sprint has not been completed when the snapshot is taken.

Docusign Envelope ID: A8D2D47B-DFF0-47BE-BF26-A8365EE5C6C6

3 Introduction

3.1 Executive Summary

The Motorist Modernization Milestone (MM) Release Report will be a monthly report to inform various stakeholders as to the progress being made in the development and testing effort against the MM Phase II program backlog. Deliverable 2 will also provide stakeholders with an understanding of any changes in scope and the resulting impact on the program backlogs. The deliverable will summarize impediments relative to the user stories being developed and tested to achieve a particular MM Phase II Milestone.

As defined in CR-34 - MM Phase II IMS Master Schedule Change, which was signed 03/27/2023, the MM Phase II backlog will be delivered in six major releases:

- **Release 1 - ORION Common/MVI Inquiry** – included MV Customer Inquiry, Customer Summary, and linkage to DLI Customer Summary. – ***COMPLETED***
- **Release 2 - ORION Pilot** – will pilot a subset of ORION transactions and Global Admin functionality to a select group of offices. – ***IN PROGRESS***
- **Release 3 - IFTA/IRP** – will release the Celtic IFTA/IRP COTS Product and associated ORION updates. – ***COMPLETED***
- **Release 4 - ORION Statewide** – will include all core MVI and Global functionality.
- **Release 5 - MyDMV Portal** – will be MyDMV Portal MV functions and will be deployed during Statewide Implementation of the FRIVS replacement.
- **Release 6 - Batch, Back Office, Remaining functionality** – will be the modernization of GHQ-only functionality, Batch, and the Electronic Lien & Title (ELT) vendor interface.

To accomplish the development and testing of the functionality for each Release, the following Scrum Teams have been established:

- **Team A – Motor Vehicle Issuance Transactions**; this team focuses on implementing all Title and Registration transactions, including Salvage transactions, Parking Permits, and Dealer Registrations, as well as Title Scanning and other GHQ/Helpdesk functions within the MV Issuance module.
- **Team B – MV Globals (Core non-issuance ORION Functionality)**; this team focuses on core non-issuance functionality for ORION in Phase II, including Inventory, Admin, Cashiering, Correspondence, Reporting, and Batch processes.
- **Portal/Fleet Team**; this team focuses on MyDMV Portal and other convenience functionality: Customer Alerts, MV Records Requests (MVRR), Stops, Parking Permit Transactions, Registration Transactions, Title Transactions, Tribe Management, Fleet Management, E-commerce, and Kiosk
- **IFTA/IRP Team**; this team will work with the IFTA/IRP COTS vendor to integrate and test the IFTA/IRP COTS solution.
- **Florida Smart ID Team**: this team will work with the Credential Service Provider COTS vendor to integrate and test Florida Smart ID functionality.

Docusign Envelope ID: A8D2D47B-DFF0-47BE-BF26-A8365EE5C6C6

- **Enterprise Team**: this team supports the other Scrum Teams by focusing on the technical architecture, infrastructure, and shared components for the Motorist Modernization solution.

The reporting period for this iteration of Deliverable 2 covers December 1, 2024, to December 31, 2024.

A summary of activities for each team is listed in the table below.

Project Team	Summary of Activities
Team A – Title and Registration Issuance	During December 2024, the team focused on Change Requests, regression testing, Overrides, and bug fixes. The team also supported Releases 2a, 2b, 2c, and 2d which were deployed to production.
Team B – MV Globals	During December 2024, the team focused on completing Milestone S (Merge) and Milestone T and U stories, which included high-priority efforts for the 2e release. The team worked on functional testing, regression testing, bug fixes, and deployments. Some Milestone T and U stories were planned for a release following 2e. The team also supported Releases 2a, 2b, 2c, and 2d which were deployed to production.
Portal/Fleet Team	In December 2024, the BA team focused on re-refining Bulk Registration Renewal by decoupling it from EFS/ETR for Milestone U, refining Military Issuance stories to close out Milestone T, and preparing API specifications documents for Bulk Registration. Developers concentrated on addressing bugs impacting the last two Milestone S stories, developing APIs for Mobile, Kiosk, and Mail-In Renewals, and implementing and functionally testing Military Status API calls. The SEU team focused on writing and testing test cases for Kiosk and Mobile APIs, Military Status/Queue, and performing functional testing to support ongoing API development efforts.
IFTA/IRP Team	The team completed several updates to address and correct data issues and priority bugs in ICFS. The team continues to address priority bugs and work on business processes and support for the solution. The team is working on implementing ACH (e-checks) and convenience fees into the solution as well as the ability to transfer and surrender plates.
Florida Smart ID	There was no activity for the Florida Smart ID (FSID) Project during the month of December 2024.
Enterprise Team	During the month of December 2024, the team continued providing production support for NMVTIS.

Please refer to Section 4 - MM Phase II Milestone Release Report for the details on the Project Backlog & Milestone Status summaries provided in the tables above.

Development and Testing for Phase II continues to be impacted by the following program issues:

- Issue #15 (Developer Vacancies) – There have been multiple unplanned resignations of FLHSMV full-time employees that were dedicated to the MM Phase II development effort.

Docusign Envelope ID: A8D2D47B-DFF0-47BE-BF26-A8365EE5C6C6

  - ACTION PLAN: 4 Open positions – 2 for Portal/Fleet, 1 for T&R and 1 for Globals. CR-47 adjusted the schedule and added additional Milestones to elongate sprint development based upon impacts of Issues #15, #79, and #85. The department has slowly started to advertise critical open positions.

- Issue #20 (Phase II Development and Testing Late)
  - ACTION PLAN: CR38 - MM Phase II Scope Deferral/Extend Development was approved by ESC on 08/04/2023. This CR realigned functional area milestones. The team will continue to review scope to recommend for removal or deferment to ESC due to reduced developer capacity. The team is working closely with SEU to increase testing velocity. Additionally, Team A has integrated select Tax Collector offices into the testing process. Currently Hillsborough, Manatee, Brevard and Escambia County Tax Collector offices are assisting with testing. The OMM and SEU Teams meet with them weekly to review their findings. CR-47 adjusted the schedule and added additional Milestones to elongate sprint development based upon impacts of Issues #15, #79, and #85. Currently Team B and Portal Fleet are late in completing Milestone S and T and Team A is late in completing Milestone T. All Teams are trending behind in completing Milestone U.
- Issue #79 (Vacant SEU Positions)
  - ACTION PLAN: Currently there are 11 vacant positions. The Department currently has a hiring freeze which is impacting filling the vacant positions. CR-38 deferred scope and added additional Milestones to elongate sprint development and testing to address testing vacancies. Additionally, Team A has integrated select Tax Collector offices into the testing process Currently Hillsborough, Manatee, Brevard and Escambia County Tax Collector offices are assisting with testing. The OMM and SEU Teams meet with them weekly to review their findings. CR-47 adjusted the schedule and added additional Milestones to elongate sprint development based upon impacts of Issues #15, #79, and #85.
- Issue #89 (Team A Backlog - Refinement Behind)
  - ACTION PLAN: Currently all teams are behind in refinement. The impact to Team A has been that the team had to move developers to other teams due to not having enough work in the sprints. The teams are holding additional refinement sessions. Team A is adding stories to their sprint backlog after sprint planning once they are refined.

In recognition of the delays to completing the planned Milestones on schedule (due to the previously mentioned program issues), OMM used the Change Control Process to update the number of sprints, the Milestone completion dates and related changes to implementation dates. The remaining work from incomplete Milestones was realigned to this revised plan. *CR-34 - MM Phase II IMS Master Schedule Change* was approved by the Executive Steering Committee (ESC) in April 2023.

In recognition of delays due to staffing, *CR-38 - MM Phase II Scope Deferral/Extend Development* was approved and signed by the ESC on 08/04/2023. This CR realigned functional area milestones for the Titles and Registration, Globals, and Portal/Fleet Teams.

Docusign Envelope ID: A8D2D47B-DFF0-47BE-BF26-A8365EE5C6C6

In recognition of the delays to completing the planned Milestones on schedule (due to the previously mentioned program issues), OMM used the Change Control Process to update the number of sprints, the Milestone completion dates and related changes to implementation dates. The remaining work from incomplete Milestones was realigned to this revised plan. *CR-47 - MM Phase II IMS Schedule Change Master* was approved by the Executive Steering Committee (ESC) in April 2024.

The assessments provided above, and details contained in this deliverable were based on the information within Team Foundation Server (TFS) as of January 3, 2025.

3.2 Changes from Deliverable 17 – Release Plan

The Report presented in this document is based on the Milestone dates and functional area assignments defined in Deliverable 17 Increment 3 version 4.0. In addition, section 4.4 of this document includes milestones for the IFTA/IRP Team which were established as part of start-up activities with the IFTA/IRP vendor. Finally, this report includes updates to the functional area to Milestone mappings from *CR-34 - MM Phase II IMS Master Schedule Change,* which was approved by the Executive Steering Committee (ESC) August 04, 2023, and *CR-38 - MM Phase II Scope Deferral/Extend Development* was approved by the ESC on 08/04/2023.

CR-34 and CR-38 had functional areas and epics identified as “Deferred”, meaning that they aren’t aligned to any of the Phase II planned releases but will be completed at a later point. The status in this deliverable was updated to “On Hold” and the Milestone was marked “Deferred”.

CR-47 - MM Phase II IMS Schedule Change Master was approved by the ESC 04/28/2024. This CR updated the Program schedule and added additional Milestones to elongate sprint development based upon impacts of Issues #15, #79, and #85. Incomplete functional areas from Milestones P - R were incorporated into future Milestones. Those updates to Milestones are reflected in this deliverable.

On 12/09/2024, the ESC approved CR-52 which removed the functional area from the Titles and Registration team’s backlog related to a Motor Vehicle Records Request transaction for Tax Collectors to give customers a redacted motor vehicle record and CR-53 which added 5 stories related to the Scanning Unit back to the Titles and Registration team’s backlog which had been deferred by CR-38. The net result is a reduction in the Titles and Registration team’s backlog.

3.3 Description of TFS Work Items

Product Backlog – Product Backlog Work Item

Figure 1 shows the Life Cycle of a Product Backlog Work Item, including the status and status reason. As an example, when a Product Backlog Item is created, it has a status of “New” with a reason of “New to backlog item.” Statuses in the Product Backlog Report as used by the Program are:

- New – Product Backlog Item Created
- Approved – Product Backlog Item Reviewed by Product Owner and Team and Approved
- Removed – Product Backlog Item Removed from Project Scope
- Committed – Product Backlog Item Committed to a Sprint

Docusign Envelope ID: A8D2D47B-DFF0-47BE-BF26-A8365EE5C6C6

- Done – Product Backlog Item Completed

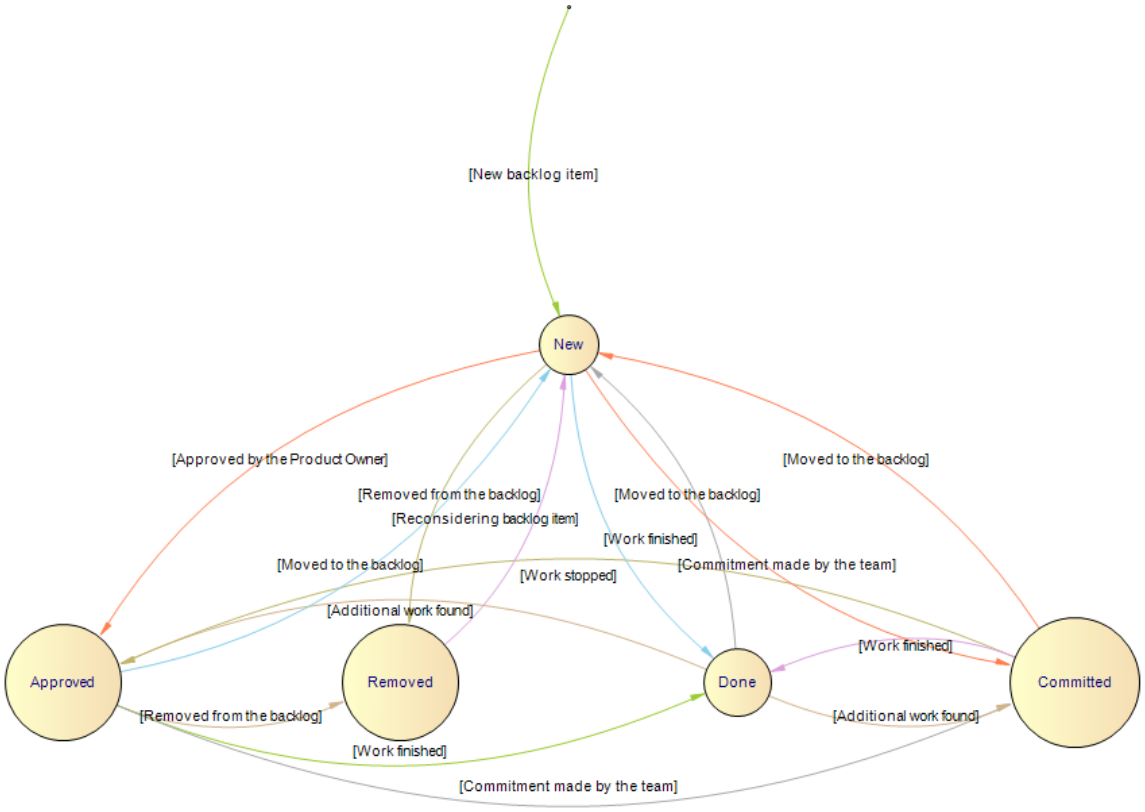

Figure 1 – Product Backlog Work Item Life Cycle

Sprint Backlog – Task Work Item

A Task is a child to a Product Backlog Work Item. Figure 2 shows the Life Cycle of a Task Work Item, including the status and status reason. As an example, when a Task Item is created, it has a status of “To Do” with a reason of “New”. Statuses in the Sprint Backlog Report as used by the Program are:

- To Do – Task Work Item Created
- In Progress – Task Work Item Assigned and in Progress
- Canceled – Task Work Item Removed from Product Backlog Item tasks
- Done – Task Work Item Completed

Docusign Envelope ID: A8D2D47B-DFF0-47BE-BF26-A8365EE5C6C6

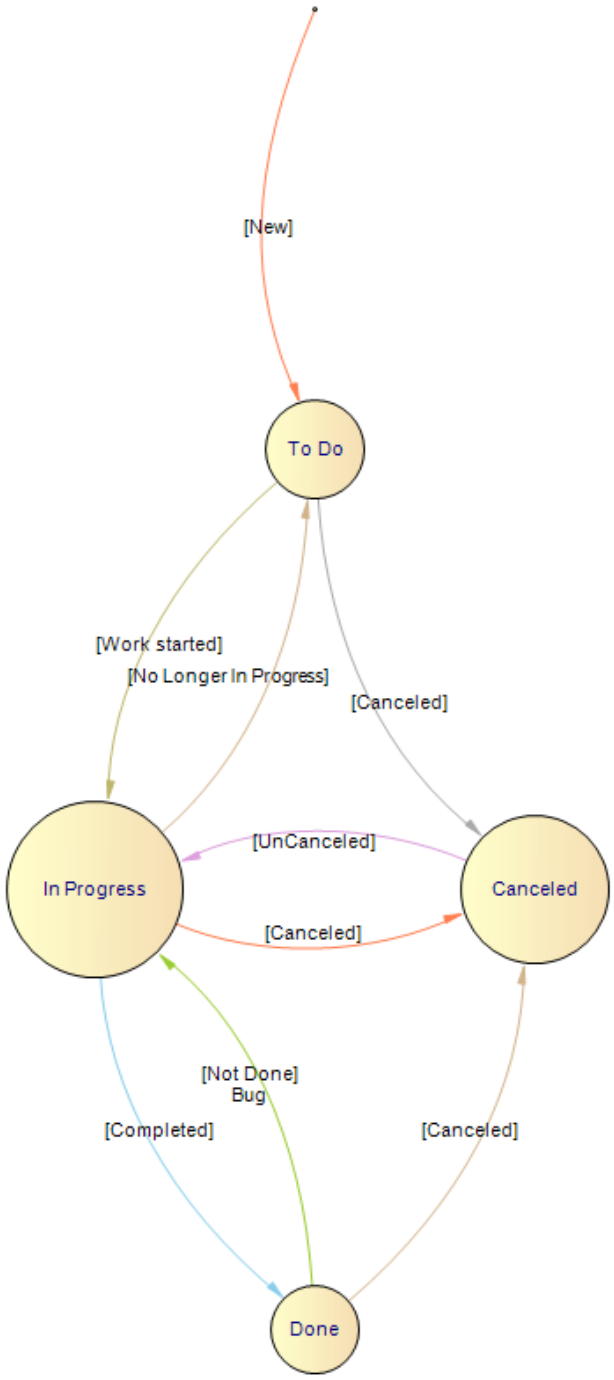

Figure 2 – Task Work Item Life Cycle

Docusign Envelope ID: A8D2D47B-DFF0-47BE-BF26-A8365EE5C6C6

Impediment Tracking Status – Blocked Product Backlog Items

To provide more fine grain tracking of a product backlog item during development and testing, the custom field named “Dev Status” can have one of the following values:

- 00 - Not Started
- 1A - Refinement Started
- 1B - Refinement Blocked
- 1C - Refinement Complete
- 2A - Dev Started
- 2B - Dev Blocked
- 2C - Dev Complete
- 2D - Ready for Test
- 3A - Testing Started
- 3B - Testing Blocked
- 3C - Testing Complete

Impediments are defined as a product backlog item with one of the following Dev Statuses:

- 1B - Refinement Blocked
- 2B - Dev Blocked
- 3B - Testing Blocked

Figure 3 below shows the relationship between the Product Backlog Item Overall Status and the Dev Status, during the various stages of Sprint development. Dev Statuses that signify Impediments are shown in red.

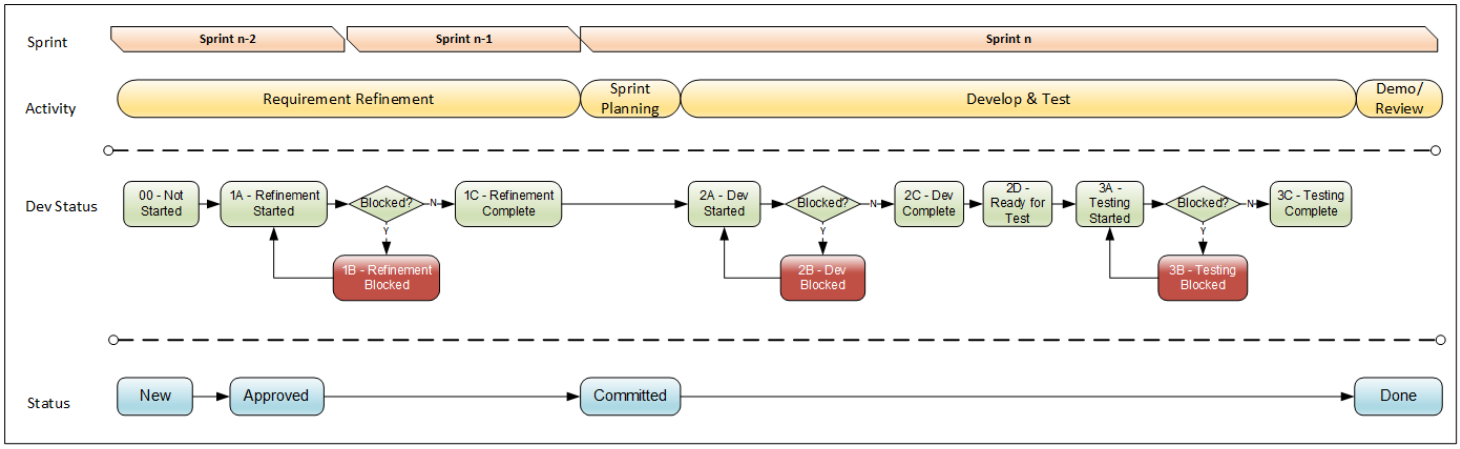

Figure 3 – Lifecycle of a Single Product Backlog Item in TFS, with Impediments Identified by Blocked Dev Status

Docusign Envelope ID: A8D2D47B-DFF0-47BE-BF26-A8365EE5C6C6

Defect Tracking Status – Bug Work Item

A Bug is a child to a Product Backlog Work Item. Figure 4 shows the Life Cycle of a Bug Work Item, including the status and status reason. As an example, when a Bug Item is created, it has a status of “New” with a reason of “New Defect Reported”. Statuses in the Defect Tracking Status Report as used by the Program are:

- New – Bug Work Item Created
- Approved – Bug Validated by Product Owner
- Committed – Bug Work Item Assigned and in Progress
- Removed – Bug Work Item Removed from Product Backlog Item tasks
- Dev Done – Developer Completed Bug Fix
- Ready to Test – Bug Deployed for Testing
- Done – Bug Work Item Completed and Verified by Testers

The Defect Tracking Report will include Bugs identified by Developers during Functional Testing as well as Bugs identified by Systems Evaluation Unit and Quality Assurance testers during Sprint Testing.

Docusign Envelope ID: A8D2D47B-DFF0-47BE-BF26-A8365EE5C6C6

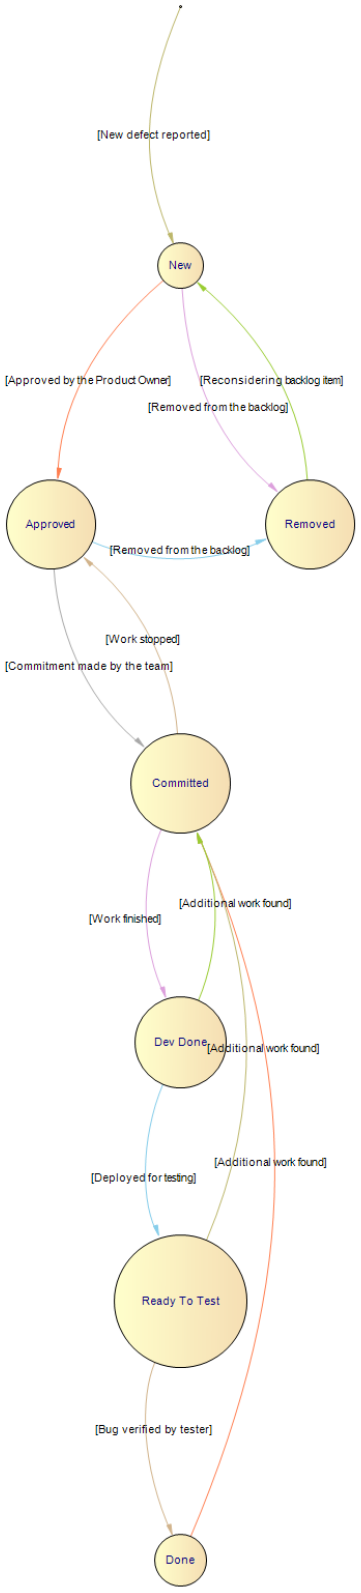

Figure 4 – Bug Work Item Life Cycle

4 MM Phase II Milestone Release Report – December 2024

4.1 Team A – Title and Registration Issuance Transactions

4.1.1 Product Backlog Status & Milestone Status

During December 2024, the team focused on Change Requests, regression testing, Overrides, and bug fixes. The team also supported Releases 2a, 2b, 2c, and 2d which were deployed to production.

Development and testing continue to be late due to the impacts from the following program issues:

- Issue #15 (Developer Vacancies) – There have been multiple unplanned resignations of FLHSMV full-time employees that were dedicated to the MM Phase II development effort.
    - ACTION PLAN: 4 Open positions – 2 for Portal/Fleet, 1 for T&R and 1 for Globals. CR-47 adjusted the schedule and added additional Milestones to elongate sprint development based upon impacts of Issues #15, #79, and #85. The department has slowly started to advertise critical open positions.
- Issue #20 (Phase II Development and Testing Late)
    - ACTION PLAN: CR38 - MM Phase II Scope Deferral/Extend Development was approved by ESC on 08/04/2023. This CR realigned functional area milestones. The team will continue to review scope to recommend for removal or deferment to ESC due to reduced developer capacity. The team is working closely with SEU to increase testing velocity. Additionally, Team A has integrated select Tax Collector offices into the testing process. Currently Hillsborough, Manatee, Brevard and Escambia County Tax Collector offices are assisting with testing. The OMM and SEU Teams meet with them weekly to review their findings. CR-47 adjusted the schedule and added additional Milestones to elongate sprint development based upon impacts of Issues #15, #79, and #85. Currently Team B and Portal Fleet are late in completing Milestone S and T and Team A is late in completing Milestone T. All Teams are trending behind in completing Milestone U.
- Issue #79 (Vacant SEU Positions)
    - ACTION PLAN: CR38 - MM Phase II Scope Deferral/Extend Development was approved by ESC on 08/04/2023. This CR realigned functional area milestones. The team will continue to review scope to recommend for removal or deferment to ESC due to reduced developer capacity. The team is working closely with SEU to increase testing velocity. Additionally, Team A has integrated select Tax Collector offices into the testing process. Currently Hillsborough, Manatee, Brevard and Escambia County Tax Collector offices are assisting with testing. The OMM and SEU Teams meet with them weekly to review their findings. CR-47 adjusted the schedule and added additional Milestones to elongate sprint development based upon impacts of Issues #15, #79, and #85.
- Issue #89 (Team A Backlog - Refinement Behind)
    - ACTION PLAN: Currently all teams are behind in refinement. The impact to Team A has been that the team had to move developers to other teams due to

Docusign Envelope ID: A8D2D47B-DFF0-47BE-BF26-A8365EE5C6C6

not having enough work in the sprints. The teams are holding additional refinement sessions. Team A is adding stories to their sprint backlog after sprint planning once they are refined.

Team A will continue to take the following additional actions during the next reporting period:

(1) removing non-essential team members from refinement meetings to allow people to focus on their core tasks of developing/testing.

(2) working overtime to complete outstanding functional or code reviews which are completed by Senior Developers prior to releasing a story for testing.

(3) continue to escalate need for expanded testing capacity (SEU members, QA members, automated), and

(4) T&R is working to have enough stories in the backlog for Sprint Planning

An overview of the Product Backlog for Team A – Title and Registration Issuance Transactions is shown in the table below.

Order	Description	Milestone Completion Month	Status
1	**Original Title & Original Registration**		
	• **Workflow & Basic Screen Functionality** – Functionality that establishes the technical framework for all ORION MV transactions.	A - Jan 2020	Completed
	• **Original Title Transaction** - Functionality that allows the user to process an Original title for a new or used motor vehicle/vessel in the database that has never been titled in Florida.	B - Apr 2020	Completed
	• **Original Registration Transaction** - The functionality that allows the user to process an Original registration for a new motor vehicle/vessel in the database that has never been registered in Florida.	C - Jul 2020	Completed
2	**MV Confidential Analysis** - Functionality for Special Processes	~~I - Jan 2022~~ Deferred	On Hold
3	**NMVTIS Integration**		
	• **Web Service Setup & Connectivity** - Functionality required to establish communications with AAMVA NMVTIS web service.	I - Jan 2022	Completed
	• **NMVTIS Workflow and Test Harness** - Functionality that allows users to test individual NMVTIS messages outside of a transaction. This is used to test and validate the department's implementation of NMVTIS messages.	I - Jan 2022	Completed
	• **Issuance Transactions (Call for Inquiry & Updates)** - Functionality to call NMVTIS web service for vehicle inquiry and update transactions.	~~J - Apr 2022~~ ~~O - Jul 2023~~ P - Oct 2023	Completed

Docusign Envelope ID: A8D2D47B-DFF0-47BE-BF26-A8365EE5C6C6

Order	Description	Milestone Completion Month	Status
	• **Voids (NMVTIS Undo Transaction)** - Functionality to call NMVTIS Undo transaction as part of a transaction Void in ORION.	~~J - Apr 2022~~ ~~O - Jul 2023~~ P - Oct 2023	Completed
	• **Batch** - Functionality to send Title records to AAMVA that were not able to be sent through NMVTIS in real time in an ORION issuance transaction.	~~J - Apr 2022~~ ~~O - Jul 2023~~ P - Oct 2023	Completed
	• **Help Desk** – Functionality that allows users to work errors identified from NMVTIS service calls to AAMVA	~~J - Apr 2022~~ O - Jul 2023	Completed
	• **CR-34 - NMVTIS** Various Help Desk Enhancements - These updates include: Updates to Help Desk adding output window for Help Desk transactions, addition of auto-refresh, addition of messaging for add/remove functions, improvement of navigation, addition of brands added field, changes to filtering for users	~~O - Jul 2023~~ ~~P - Oct 2023~~ S - Jul 2024	Completed
4	**IRP Issuance in ORION** - Functionality for Vendor COTS product to correct errors in IRP Issuance transactions.	~~J - Apr 2022~~ ~~N - May 2023~~ P - Oct 2023	Completed
5	**MV Issuance Queue (Transaction Queue)** - Functionality that allows the user to temporarily hold transactions and data so that the user can pause work and retrieve/finish on the same day.	J - Apr 2022	Completed
6	**CR-19 Title & Registration Change Requests (Part 1)** – Functionality for various approved change requests.	~~J - Apr 2022~~ ~~N - May 2023~~ P - Oct 2023	Completed
7	**MV Confidential -** Functionality for Special Processes.	~~K - Jul 2022~~ ~~M - Jan 2023~~ Deferred	On Hold
8	**CR-19 Title & Registration Change Requests (Part 2)** – Functionality for various approved change requests.	~~K - Jul 2022~~ ~~M - Jan 2023~~ ~~O - Jul 2023~~ P - Oct 2023	Completed
9	**Portal Dependent Transactions**		
	Title		
	• **Duplicate Title** - Functionality that allows the user to apply for a title that has been lost, stolen or destroyed.	I - Jan 2022	Completed
	• **Print Electronic Title** - Functionality that allows the user to apply for a paper title that was previously electronic.	I - Jan 2022	Completed
	• **Mark Title Sold** - Funcationality that allows the owner/co-owner who has transferred or sold a motor vehicle and has delivered the motor vehicle to a purchaser to notify the department of the sale or transfer.	I - Jan 2022	Completed
	Registration

4.2 Team B – MV Globals

4.2.1 Product Backlog Status & Milestone Status

During December 2024, the team focused on completing Milestone S (Merge) and Milestone T and U stories, which included high-priority efforts for the 2e release. The team worked on functional testing, regression testing, bug fixes, and deployments. Some Milestone T and U stories were planned for a release following 2e. The team also supported Releases 2a, 2b, 2c, and 2d which were deployed to production.

Development and testing continue to be late due to the impacts from the following program issues:

- Issue #15 (Developer Vacancies) – There have been multiple unplanned resignations of FLHSMV full-time employees that were dedicated to the MM Phase II development effort.
    - ACTION PLAN: 4 Open positions – 2 for Portal/Fleet, 1 for T&R and 1 for Globals. CR-47 adjusted the schedule and added additional Milestones to elongate sprint development based upon impacts of Issues #15, #79, and #85. The department has slowly started to advertise critical open positions.
- Issue #20 (Phase II Development and Testing Late)
    - ACTION PLAN: CR38 - MM Phase II Scope Deferral/Extend Development was approved by ESC on 08/04/2023. This CR realigned functional area milestones. The team will continue to review scope to recommend for removal or deferment to ESC due to reduced developer capacity. The team is working closely with SEU to increase testing velocity. Additionally, Team A has integrated select Tax Collector offices into the testing process. Currently Hillsborough, Manatee, Brevard and Escambia County Tax Collector offices are assisting with testing. The OMM and SEU Teams meet with them weekly to review their findings. CR-47 adjusted the schedule and added additional Milestones to elongate sprint development based upon impacts of Issues #15, #79, and #85. Currently Team B and Portal Fleet are late in completing Milestone S and T and Team A is late in completing Milestone T. All Teams are trending behind in completing Milestone U.
- Issue #79 (Vacant SEU Positions)
    - ACTION PLAN: Currently there are 11 vacant positions. The Department currently has a hiring freeze which is impacting filling the vacant positions. CR-38 deferred scope and added additional Milestones to elongate sprint development and testing to address testing vacancies. Additionally, Team A has integrated select Tax Collector offices into the testing process Currently Hillsborough, Manatee, Brevard and Escambia County Tax Collector offices are assisting with testing. The OMM and SEU Teams meet with them weekly to review their findings. CR-47 adjusted the schedule and added additional Milestones to elongate sprint development based upon impacts of Issues #15, #79, and #85.
- Issue #89 (Team A Backlog - Refinement Behind)
    - ACTION PLAN: Currently all teams are behind in refinement. The impact to Team A has been that the team had to move developers to other teams due to not having enough work in the sprints. The teams are holding additional

Docusign Envelope ID: A8D2D47B-DFF0-47BE-BF26-A8365EE5C6C6

refinement sessions. Team A is adding stories to their sprint backlog after sprint planning once they are refined.

Team B will continue to take the following additional actions during the next reporting period:

(1) removing non-essential team members from refinement meetings to allow people to focus on their core tasks of developing/testing.

(2) working overtime to complete outstanding functional or code reviews which are completed by Senior Developers prior to releasing a story for testing.

(3) continue to escalate need for expanded testing capacity (SEU members, QA members, automated).

(4) The team will continue to hold additional refinement meetings to support its backlog of workable stories

(5) The team is working with internal and external stakeholders to clarify requirements and development needs

An overview of the Product Backlog for Team B – MV Globals (as of Deliverable 17 Increment 3) is shown in the table below.

Order	Description	Milestone Completion Month	Status
1	**Inquiry / Summary**		
	• **Customer Search** - Functionality for performing an inquiry on an "Individual".	A - Jan 2020	Completed
	• **Business Search** - Functionality for performing an inquiry on a "business".	A - Jan 2020	Completed
	• **Advanced Search** - Functionality for performing an inquiry using vehicle/parking permit details using advanced criteria (reg number, VIN, decal type, etc.).	B - Apr 2020	Completed
	• **Customer/Vehicle Summary** - Functionality for displaying information and eligibility options related to a vehicle, Individual or Business customer.	B - Apr 2020	Completed
2	**Office Admin (Initial)**	B - Apr 2020	Completed
3	**Inventory (Initial)** - Functionality for maintaining agency levels statewide.		
	• **Module** - Functionality for navigation through various drop-down options.	B - Apr 2020	Completed
	• **Inquiry (Initial)** - Functionality for users to inquire on central inventory by agecy, order, configuration, or agent.	B - Apr 2020	Completed
	• **Maintain Inventory (Initial)** - Functionality for navigationg the Maintain Levels menu option, so that I can access and maintain inventory levels.	B - Apr 2020	Completed
	• **Transfer (Initial)** - Functionality for transfering inventory from agency to	B - Apr 2020	Completed

Order	Description	Milestone Completion Month	Status
	• **Reports** - Functionality to produce reports for inventory used by agency or county.	I - Jan 2022	Completed
	• **Web Service** - REST API to provide vendors the ability to retrieve orders that are ready for manufacturing and to update the order status to shipped or canceled accordingly.	J - Apr 2022	Completed
	• **Miscellaneous/Remaining Inventory** - Screens that allow for reviewing unaccounted for inventory.	J - Apr 2022	Completed
	• **FRVIS Inventory Transfer** – functionality to transfer inventory from FRVIS to ORION office.	~~J - Apr 2022~~ ~~M - Jan 2023~~ ~~P - Oct 2023~~ R - Apr 2024	Completed
6	**Confidential Update for Global** – functionality to configure offices for confidential functions.	~~J - Apr 2022~~ ~~M - Jan 2023~~ Deferred	On Hold
7	**Remaining Administration**		
	• **Agency Management/Maintenance** - Functionality for managing details related to Orion Agency configurations and settings.	F - May 2021	Completed
	• **MyDMV Portal Admin** - Functionality for administering settings in the MyDMV customer portal.	F - May 2021	Completed
	• **Office Management/Maintenance** - Functionality for administering office configuration and settings in ORION.	J - Apr 2022	Completed
	• **User Management/Maintenance** - Functionality to maintain users for a specific office.	J - Apr 2022	Completed
	• **Miscellaneous** - Funcionality for Offices to make various inquiries specific to a particular office during Orion transactions.	K – Jul 2022	Completed
	• **Kiosk Management/Maintenance** - Functionality for display kiosk details and configurations.	~~N - May 2023~~ ~~O - Jul 2023~~ Deferred	On Hold
8	**History Inquiry (Initial)** - Screens for inquiring on various types of MV history.	~~K - Jul 2022~~ N - May 2023	Completed
9	**History Inquiry (Complete)** - Screens for inquiring on various types of MV history.	~~L - Oct 2022~~ N - May 2023	Completed
10	**Merge** - Functionality to merge separate MV customer records together when more than one record has been created for the same individual or business.	~~M - Jan 2023~~ ~~O - Jul 2023~~ ~~P - Oct 2023~~ S - Jul 2024	In Progress
11	**Correspondence** - Functionality for generating MV correspondence for customers.	J - Apr 2022	Completed

Docusign Envelope ID: A8D2D47B-DFF0-47BE-BF26-A8365EE5C6C6

Order	Description	Milestone Completion Month	Status
12	**Code Tables** - Code table views for MV data.	~~M - Jan 2023~~ Deferred	On Hold
13a	**Reports** (part 1)- Functionality for building reports for transaction, auditing, and productivity reporting activities.	~~N - May 2023~~ ~~P - Oct 2023~~ ~~O - Jul 2023~~ P - Oct 2023	Completed
13b	**Reports** (part 2)- Functionality for building reports for transaction, auditing, and productivity reporting activities.	~~N - May 2023~~ ~~P - Oct 2023~~ ~~R - Apr 2024~~ S - Jul 2024	In Progress
14	**CR-19 Change Requests** - Change Requests and WRAPS.	~~N - May 2023~~ ~~Q - Jan 2024~~ T - Oct 2024	In Progress
15	**MV Batch (Initial)** - Functionality for subsystem used for batch programs that support Motor Vehicle-related processes, data exchanges, reporting and printing.	~~O - Jul 2023~~ ~~Q - Jan 2024~~ U - Jan 2025	Not Started
16	**MV Batch (Complete)** - Functionality for subsystem used for batch programs that support Motor Vehicle-related processes, data exchanges, reporting and printing.	~~P - Oct 2023~~ ~~Q - Jan 2024~~ V - Apr 2025	Not Started
17	**MV Report Request** - Functionality for subsystem used for batch programs that support Motor Vehicle-related processes, data exchanges, reporting and printing.	~~O - Jul 2023~~	Moved to T&R Team
18	**Additional GHQ Admin**		
	Additional GHQ Admin - Functionality for finalizing office permissions.	~~P - Oct 2023~~ ~~R - Apr 2024~~ S - Jul 2024	Not Started
	Additional GHQ Admin - Functionality for role/operation mapping.	~~P - Oct 2023~~ ~~R - Apr 2024~~ S - Jul 2024	Not Started
	Additional GHQ Admin - Additional GHQ Admin - Functionality for Profile Overrides.	~~P - Oct 2023~~ ~~R - Apr 2024~~ U - Jan 2025	Not Started
19	**Portal ORION Work**		
	Physician's Portal - Parking Permits – Functionality for a queue in ORION to allow to approve physicians for parking permit approval	~~M - Jan 2023~~ Deferred	On Hold
	Fleet Management – Functionality that allows management and reporting of fleet accounts in ORION. -	~~L - Oct 2022~~ N - May 2023	Completed
	E-Commerce – Functionality that allows processing, including error handling and printing for high-speed renewal files in ORION.	~~M - Jan 2023~~ ~~O - Jul 2023~~ ~~P - Oct 2023~~ ~~Q - Jan 2024~~ T - Oct 2024	In Progress

Docusign Envelope ID: A8D2D47B-DFF0-47BE-BF26-A8365EE5C6C6

Order	Description	Milestone Completion Month	Status
	High-speed - Functionality that allows processing for high-speed renewal files in issuance service	~~M - Jan 2023~~ ~~O - Jul 2023~~ ~~P - Oct 2023~~ ~~Q - Jan 2024~~ T - Oct 2024	Not Started
	Mail-In Renewals - Functionality that allows processing for mail-in renewal files in issuance service.	~~M - Jan 2023~~ ~~O - Jul 2023~~ ~~P - Oct 2023~~ ~~Q - Jan 2024~~ T - Oct 2024	Not Started
	Motor Vehicle Records Request (including images) - The functionality where a customer can request MV records from the department.	~~O - Jul 2023~~ ~~N - May 2023~~ ~~P - Oct 2023~~ T - Oct 2024	In Progress
	CR-34 #165 - Military Queue - Allow military personnel the ability to upload documents for parking permit approval online (not OOS but doctor not in list), cause OOS can only get temporary permit) and add option as mark them as Military Personnel. Making this an additional feature to be worked by the military queue approval process.	~~O - Jul 2023~~ ~~Q - Jan 2024~~ V - Apr 2025	Not Started
	Stop Requests - Functionality that allows users to work a queue of stop requests in ORION submitted thru MyDMV Portal.	~~O - Jul 2023~~ ~~N - May 2023~~ ~~P - Oct 2023~~ U - Jan 2025	In Progress
20	**CR-34 #124 - CRS Payment Merge -** Updates to CRS for IFTA/IRP to address Celtic limitations to one CRS per transaction. There must be in intermediate solution within ORION to manage CRS transactions so that Accounting is not overwhelmed by service calls.	N - May 2023	Completed
21	**Messages -** screens to display messages related to customer to give a common view of the customer between DLI & MVI.	~~O - Jul 2023~~ ~~P - Oct 2023~~ S - Jul 2024	In Progress
22	**Override Authorization**	~~O - Jul 2023~~ ~~S - Jul 2024~~ U - Jan 2025	Not Started
23	**CR-34**		
	CR-34 - Code in Description Adding <Code - Description> when space is available.	~~Q - Jan 2024~~ U - Jan 2025	Not Started
	CR-34 - Automatically populate EFS Returned plates Invoices.	~~Q - Jan 2024~~ U - Jan 2025	Not Started
	CR-34 - WRAP 3830 We are adding Agent Stop functionality.	Q - Jan 2024	Completed
	CR-34 - Create/Generate - Missing Reports.	~~Q - Jan 2024~~	Not Started

4.3 Portal / Fleet Team

4.3.1 Product Backlog Status & Milestone Status

In December 2024, the BA team focused on re-refining Bulk Registration Renewal by decoupling it from EFS/ETR for Milestone U, refining Military Issuance stories to close out Milestone T, and preparing API specifications documents for Bulk Registration. Developers concentrated on addressing bugs impacting the last two Milestone S stories, developing APIs for Mobile, Kiosk, and Mail-In Renewals, and implementing and functionally testing Military Status API calls. The SEU team focused on writing and testing test cases for Kiosk and Mobile APIs, Military Status/Queue, and performing functional testing to support ongoing API development efforts.

Development and testing continue to be late due to the impacts from the following program issues:

- Issue #15 (Developer Vacancies) – There have been multiple unplanned resignations of FLHSMV full-time employees that were dedicated to the MM Phase II development effort.
    - ACTION PLAN: 4 Open positions – 2 for Portal/Fleet, 1 for T&R and 1 for Globals. CR-47 adjusted the schedule and added additional Milestones to elongate sprint development based upon impacts of Issues #15, #79, and #85. The department has slowly started to advertise critical open positions.
- Issue #20 (Phase II Development and Testing Late)
    - ACTION PLAN: CR38 - MM Phase II Scope Deferral/Extend Development was approved by ESC on 08/04/2023. This CR realigned functional area milestones. The team will continue to review scope to recommend for removal or deferment to ESC due to reduced developer capacity. The team is working closely with SEU to increase testing velocity. Additionally, Team A has integrated select Tax Collector offices into the testing process. Currently Hillsborough, Manatee, Brevard and Escambia County Tax Collector offices are assisting with testing. The OMM and SEU Teams meet with them weekly to review their findings. CR-47 adjusted the schedule and added additional Milestones to elongate sprint development based upon impacts of Issues #15, #79, and #85. Currently Team B and Portal Fleet are late in completing Milestone S and T and Team A is late in completing Milestone T. All Teams are trending behind in completing Milestone U.
- Issue #79 (Vacant SEU Positions)
    - ACTION PLAN: Currently there are 11 vacant positions. The Department currently has a hiring freeze which is impacting filling the vacant positions. CR-38 deferred scope and added additional Milestones to elongate sprint development and testing to address testing vacancies. Additionally, Team A has integrated select Tax Collector offices into the testing process Currently Hillsborough, Manatee, Brevard and Escambia County Tax Collector offices are assisting with testing. The OMM and SEU Teams meet with them weekly to review their findings. CR-47 adjusted the schedule and added additional Milestones to elongate sprint development based upon impacts of Issues #15, #79, and #85.
- Issue #89 (Team A Backlog - Refinement Behind)
    - ACTION PLAN: Currently all teams are behind in refinement. The impact to Team A has been that the team had to move developers to other teams due to

Docusign Envelope ID: A8D2D47B-DFF0-47BE-BF26-A8365EE5C6C6

not having enough work in the sprints. The teams are holding additional refinement sessions. Team A is adding stories to their sprint backlog after sprint planning once they are refined.

The Portal/Fleet team will continue to take the additional following actions during the next reporting period:

(1) removing non-essential team members from refinement meetings to allow people to focus on their core tasks of developing/testing.

(2) continue to arrange backlog features for refinement, development and testing based on readiness of dependencies from other teams.

(3) The team is working with stakeholders to clarify requirements and development needs during refinement to eliminate re-work.

An overview of the Product Backlog the Portal/Fleet Team is shown in the table below.

Order	Description	Milestone Completion Month	Status
1	**Motor Vehicle Check** - Allows customer to check the status of a motor vehicle, such as vehicle details, lien, brand, stop and crash information if applicable.	B - Apr 2020	In Production
2	**MV Express Renewal** - The ability for a customer to renew their registration with no address updates without creating a MyDMV Portal account.	G - Aug 2021	In Production
3	**Florida Smart ID** - Allow a customer inside of MyDMV Portal to allow maintain (Enroll, Withdraw, Update or Resend code) their FSID.	G - Aug 2021	In Production
4	**Trip/Fuel Permits** - An Online Portal application where customers can purchase Trip and Fuel Permits.	H - Oct 2021	In Production
5	**Motor Vehicle Records Request (no images)** - A MyDMV Portal customer can request an MV Records Request for vehicles owned by them or others.	H - Oct 2021	Completed
6	**Stop Inquiry** - A MyDMV Portal customer can inquire on Stops associated to their customer record, vehicle and/or registration.	H - Oct 2021	Completed
7	**MVRN Renewal Notice Emails** - Customers will receive electronic Email Notices for MV registrations and parking permits.	I - Jan 2022	Completed
8	**Stop Requests** - Online Portal application to allow Stop Agencies to submit a request to add or remove a Stop on a customer's record. In-house personnel will review the request and add or remove stops if eligible.	I - Jan 2022	Completed
9	**Stop Clearance** - A MyDMV Portal customer can pay, and clear Stops associated to their customer record, vehicle and/or registration.	I - Jan 2022	Completed
10	**License Plate Check**		
	• **Personalized Plate** - Online Portal application that allows a customer to check if a proposed personalized plate configuration is available.	J - Apr 2022	Completed

Docusign Envelope ID: A8D2D47B-DFF0-47BE-BF26-A8365EE5C6C6

Order	Description	Milestone Completion Month	Status
	• **Specialty Plates (Include WRAP 5535)** - Online Portal application that allows a customer to view.	J - Apr 2022	Completed
	• **Specialty Plate Voucher** - A MyDMV Portal customer can purchase a gift certificate for existing or voucher.	J - Apr 2022	Completed
11	**Title Transactions** - A MyDMV Portal customer can request to print an electronic title, get a duplicate and indicate Non-Ownership of a Title.	~~M - Jan 2023~~ K - Jul 2022	Completed
12	**Florida Smart ID - Portal Update for Authentication** - A MyDMV Portal customer can create/authenticate their account via their Florida Smart ID account.	~~K - Jul 2022~~ ~~M - Jan 2023~~ O - Jul 2023	In Production
13	**Parking Permit** - A MyDMV Portal Customer can request a renewal, duplicate, replacement, or subsequent disabled parking permit.	~~K - Jul 2022~~ ~~L - Oct 2022~~ N - May 2023	Completed
14	**Physician's Portal - Parking Permits** - An online feature that allows participating Physicians to approve an application submission for a disabled parking permit.	~~K - Jul 2022~~ ~~L - Oct 2022~~ ~~M - Jan 2023~~ Deferred	On Hold
15	**Registrations**		
	• **Renewal Regular** - The functionality that allows the user to renew a regular registration in the designated renewal period based on the vehicle type.	~~K - Jul 2022~~ ~~L - Oct 2022~~ ~~N - May 2023~~ P - Oct 2023	Completed
	• **Replace License Plate** - The functionality that allows the user to replace a license plate that was lost, stolen or destroyed.	~~K - Jul 2022~~ ~~L - Oct 2022~~ ~~N - May 2023~~ P - Oct 2023	Completed
	• **Replace Decal** - The functionality that allows the user to replace a validation decal that was lost, stolen or destroyed.	~~K - Jul 2022~~ ~~L - Oct 2022~~ ~~N - May 2023~~ P - Oct 2023	Completed
	• **Duplicate Registration** - The functionality to obtain a duplicate of the registration on file with the department if the original was lost, stolen or destroyed.	~~K - Jul 2022~~ ~~L - Oct 2022~~ ~~N - May 2023~~ P - Oct 2023	Completed
16	**Fleet Management**

4.4 IFTA/IRP Team

4.4.1 Product Backlog Status & Milestone Status

The team completed several updates to address and correct data issues and priority bugs in ICFS. The team continues to address priority bugs and work on business processes and support for the solution. The team is working on implementing ACH (e-checks) and convenience fees into the solution as well as the ability to transfer and surrender plates.

Order	Description	Milestone Completion Month	Status
1	IFTA/IRP Milestone A		
	• **Single Sign-On (SSO) foundation integration for ORION and FLMCS** – Feature needed to seemlessly redirect Users to the Vendor provided COTS solution.	A - May 2021	Completed
	• **Customer/Account Inquiry Interface** – Extends the ability to search by customer and accounts from the COTS solution.	A – May 2021	Completed
	• **Inventory Inquiry Interface** – Extends inventory lookup by the COTS solution.	A – May 2021	Completed
	• **Inventory Reserve Interface** – Extending Decals and Plates reservation inventory process by accepting a list of inventory numbers that will be updated as assigned.	A - May 2021	Completed
2	IFTA/IRP Milestone B		
	• **Discrepancy Inventory Inquiry** – Service returns a list of inventory items that were previously reserved and are no longer issuable.	B – Aug 2021	Completed
	• **Delete Inventory** – List of items needs to be removed from the reseved pool.	B – Aug 2021	Completed
	• **IFTA Issuance Initialize** – Features needed to connect IFTA Issuance to the enterprise core services.	B - Aug 2021	Completed
	• **Shopping Cart Interface** – extend Departments solution to COTS application.	B - Aug 2021	Completed
	• **CRS Payment Integration** – Extend the Departments Accounting payment features to the COTS application.	B - Aug 2021	Completed
3	IFTA/IRP Milestone C		
	• **IFTA Issuance Interfaces** – Allows for transaction Issuances to be called via the COTS application.	C - Oct 2021	Completed

Docusign Envelope ID: A8D2D47B-DFF0-47BE-BF26-A8365EE5C6C6

Order	Description	Milestone Completion Month	Status
	• **Update Supplement – IFTA** – Correct a record in process so that a transaction can be completed and customer record is current.	C - Oct 2021	Completed
	• **ICFS Batch Close** – Needed functionality to allow payment process to complete.	C - Oct 2021	Completed
	• **Vehicle Inquiry Interface** – Search feature to allow Florida title information for the COTS application.	C - Oct 2021	Completed
	• **Customer/Account – Customer Update** – Extend ability for COTS application to update customer.	C - Oct 2021	Completed
4	IFTA/IRP Milestone D		
	• **IRP Fee Calculation** – Ability to calculate administration fees so they are correctly assessed.	D - Jan 2022	Completed
5	IFTA/IRP Milestone E		
	• **IRP Issuance Initial** – Features needed to connect IRP Issuance to the enterprise core services.	E - Apr 2022	Completed
6	IFTA/IRP Milestone F		
	• **IRP Issuance Completed** – Allows for transaction Issuances to be processed and finalized.	F - Aug 2022	Completed
	• **VOID Issuance – IFTA** – Ability to reverse or remove an IFTA issuance created in error.	F - Aug 2022	Completed
	• **Create Supplement for IRP** - Correct a record in process so that a transaction can be completed and customer record is current.	F - Aug 2022	Completed
	• **License Plate Credit Calculation** – Extends the ability to calculate straight plate conversion credits.	F - Aug 2022	Completed
7	IFTA/IRP Milestone G		
	• **VOID Issuance – IRP** Ability to reverse or remove an IRP issuance created in error.	G - Oct 2022	Completed
8	IFTA/IRP Milestone H		
	• **Refund Interfaces** – Extend the ability to calculate refunds to the COTS applicaiton.	H – Jan 2023	Completed
	• **Registration Stops** – Extends the ability for the COTS application to add	H – Jan 2023	Completed

Docusign Envelope ID: A8D2D47B-DFF0-47BE-BF26-A8365EE5C6C6

Order	Description	Milestone Completion Month	Status
	or remove stops, so that a stop can be enforced.		
	• **Anonymous Cabcard Inquiry** – Extend search functionality of current cabcards to Weigh station personel, and Law Enforcement entities outside of the named user accounts of ORION.	H – Jan 2023	Completed
	• **Reserved Inventory Purge** - Purge list of inventory that was previously reserved and issued to keep inventory on hand current.	H – Jan 2023	Completed
	• **ORION Service Endpoint Development Completed**.	H – Jan 2023	Completed
9	IFTA/IRP Milestone N		
	• **Confidential Update for IFTA/IRP** – Making sure IFTA/IPR is in compliance with Motor Vehicle approach to accessing data records that have unique handling requirements.	~~N - May 2023~~ Deferred	On Hold
10	IFTA/IRP Milestone O		
	• **CR-34 - Apportioned Plates for 3 years** – Approved legislative for Motor Carrier Improvements - s. 316.028, F.S s. 320.0602, F.S IF Passed will allow the Department to issue metal pates every 3 years. This will require the vendor to modify their COTS solution, and IFTA/IRP and ORION enterprise changes.	O - Jul 2023	Completed
	• **CR-34 - 2019EPay2021 Credit Card Processing changes -** E-Payment Banking Solution changes in production for credit card processing will require P2 to adjust to accommodate new field credit card processing instead of what was coded and tested prior to November 2022 when the new production solution is planned to be released.	O - Jul 2023	Completed

ultCollection **Query:** Product Backlog - Enterprise **List type:** Flat

Title
Functional Requirements (Registration - Orphan Stories)
Investigate static code scanning tools - Security
Update TypeScript
Refactor EFS object model and web services for use in ORION
Branch Enterprise Core
Create MV Issuance module project
Tooling - Project Generation plugin
Tooling - Data access code generation
Confirm Work Item Types/Workflow after Azure DevOps upgrade
Confirm Blueprint extract after Azure DevOps upgrade
Create Agencies and Users for Dev and Test ORION
NMVTIS Virtualization
Return Title Tracking
Executive Order Reason Codes
"Deep Links" to/from Customer Record in MV Issuance module
Refactor SharePoint alerts to be aware of DL vs MV alerts
Implement Release Notes functionality in ORION
Expanding of the Address/Customer Sequence number
Research Moving the HSPROD into MVPROD
Expand The FIED Suffix data type to be future proof
Create Third Party Transaction Data Tables
Establish MV History Data Model
Utility or method to maintain code table values
Design new Inventory solution
Data Migration for GDC to new inventory category
New Code Table for Lien Status
New Transaction Type to Manage Stops
New transaction type "Miscellaneous Vehicle"
Research the Ability to use API to determine LEV eligibility
Registration Stops Additional Column
New Column for Curbstoning
New Code Table CCI Violations
New Code table for Manufactured Housing
Data Migration of the In Plant Inspection Access DB
Add IsActive column to the LOCATION_STATUS_TYPE Table
New DB tables require to process Dealer Insurance requirements
Add additional Column to the FAW_VEHICLE_CATEGORY_TYPE table
Create an Action Child table to MANUFACTURER_APPROVAL
Additional MCO columns for the Vehicle Sub Type Auto
Plan for Merging Duplicate Business relating to Dealer licensing
The ECM Solution On-Base
Create New Inventory sub-type and Code for Tribe plates
Linking VINs for mobile homes
Zip code to State, County and City Mapping

Docusign Envelope ID: A8D2D47B-DFF0-47BE-BF26-A8365EE5C6C6

Create Data Table to Support BOLO
New Cancel_reason Code
New correspondence Code for Legislative Plates
New LP code for perminate Antique LPs
New Column for FAW_PUBLICATION_CONFIRM_TRANS
Research options creating NOI Individuals WIthout Date of Birth
Create Code Table to Support Third party Tracking
Create code table for Vehicle Weight Category
Implement Business Customer Summary Inquiry
Create Code Tables to support Title Screen
Make the constructors of lookup table items consistent
Create Code table for Joint Ownership Code
Create New Column for Hope Scholarship in Vehicle_transaction
Customer and Reg stop history addtional columns
Create LEV code Table
Create View and Split Global Status Table
Need to store API (Application ID) code values
Create The Registation Status code Table
Research Options to link Dealer lics with specific Regional office
Update test Harness for Enteprise Core
Completing TODO's in enterprise core
MV Issuance transaction service
Review the Legacy, phase 1 and phase 2 Name change functionality
Display Registration Summary Screen
Update Odometer Status type code table
Add Is active indicator to Lien address table
create vehicle summary modal
POC for Email Validation Service (CA)
Tabbing through tab control
AD Integration for ORION
Expand DOING_BUSINESS_AS.DOING_BUSINESS_AS_NAME
Review VS code analyzer
Stop Configuration Solution
Branch DRIVE Global Admin for Phase 2
Add ability to add metadata tags in MDMA application
Ingergrate Oracle extension in VS 2019
Design Issuance Service in Enterprise core
Update Enterprise.Reports to work with VS 2019
First Name Data clean up
Data Model Changes
Create Initial Fee Paid Code Table
Automated Smoke Testing MV Issuance
Remove duplicate trans code classes
Couchbase SDK upgrade
Lookup Table Refactor Design and Plan
Re-engineer Title Void Routine into .NET
External API Documentation

Docusign Envelope ID: A8D2D47B-DFF0-47BE-BF26-A8365EE5C6C6

Create Build Definitions for SSO
Create Phase II Solutions
Design Validation Configuration for MV trans
Tech Runway - Stage
Create Meta Data File and Document Content

Refactor IFTA Tax Returns - Update Transaction Effective Date Validation
Refactor IRP Issuance - Inventory validation
Tech Debt Inventory Inquiry
Replace LPA Office 4/11 with 4/25
Refactor Icfs Close Batch
Administrator Finance
Refactor ICFS Batch Payment - Cashier Batch Payment
Automated Performance Test - Individual Inquiry API
Automated Performance Test - Update Business Customer API
Automated Performance Test - Vehicle Inquiry API
Automated Performance Test - Inventory Inquiry API
Automated Performance Test - CRS Payment Inquiry API
Automated Performance Test - Shopping Cart Inquiry API
Automated Performance Test - Orion User Inquiry API
Automated Performance Test - ICFS Batch Void Status Inquiry API
Automated Performance Test - ICFS Refund Inquiry API
Automated Performance Test - Cabcard Inquiry API
Automated Performance Test - IRP Admin Fee API
Automated Performance Test - CRS Payment Void API
Automated Performance Test - ICFS Batch Payment Create API
Automated Performance Test - ICFS Batch Close API

Docusign Envelope ID: A8D2D47B-DFF0-47BE-BF26-A8365EE5C6C6

Refactor Field Credit Card Payment
Automated Performance Test - Decal License Issuance API
Automated Performance Test - Create ICFS Supplement API
Automated Performance Test - Update ICFS Supplement API
Refactor IRP Issuance - Create Cashier Batch Transaction
Tech debt - Implement Orion User Authentication
SEU Support - TEST Environment
SEU Support - STAGE Environment
[Tech Debt] Orion SSO - Read SSL Cert from personal folder for data protection encryption
Refactor Inventory Discrepancy Inquiry to support 3 year IRP plates reconciliation
[Tech Debt] Shopping Cart Payment Status POST Listener
[Tech Debt] Shopping Cart Payment Status PUT Listener
ICFS Audit Manager
ICFS Audit Clerk
ICFS ACC Supervisor
ICFS IC Supervisor
ICFS IC Lead
ICFS IC Clerk
ICFS ACC Clerk
ICFS Field Supervisor
ICFS Field Clerk
Refactor Verify Orion User API
Automated Performance Test - IFTA Tax Returns Issuance API
Automated Performance Test - IRP Issuance API
Team A / Globals Role Bugs - (Deploying end of June)
External User Logon and Password Bulk Email Notification - RQ91319
Production Support - ICFS
ICFS Service Production Bugs
[Prod Support] - Modify IFTA Revoked Batch Job per i3v request
Incomplete IRP Transactions Not Converted
IFTA-IRP Supplements Mini Data Conversion
[Tech Debt] - ICFS Batch Job Enhancements
IRP Issuance - Cashier Batch Trans MV
IFTA Decal Issuance - Cashier Batch Trans MV
IFTA Tax Returns Issuance - Cashier Batch Trans MV
Refactor IRP Registration - Update plate, regular plate and reg history records
IFTA w/o Tax Returns - Data Conversion
Refactor IRP Registration - Add VehicleEntityStep to Irp workflow to update transaction id for vehicle duri
Refactor void batch job - remove transaction code TRN condition when NewPlateIssuedFlag is false
T&R - CR-47 - #308 - Add Vehicle Number to Vehicle Inquiry, Summary, Details, History screens
ENTERPRISE / TC_ADM_012Batch Process - Data Purge
Develop and Execute Load Test Scripts (EPIC)
Tech debt - CRS Package Stored Proc Naming Convention
Automated Performance Test - Address Verification API
Automated Performance Test - Create ICFS Refund API
Refactor IFTA Decal Issuance - Create Cashier Batch Transaction
Refactor IFTA Tax Returns Issuance - Create Cashier Batch Transaction

Docusign Envelope ID: A8D2D47B-DFF0-47BE-BF26-A8365EE5C6C6

[Tech Debt] Orion SSO - Use Tnsname to connect to oracle database
[Tech Debt] migration or the merging of code changes related to PAYMENT_RCV_PROC V1/V2”
ICFS Batch Job - Add an optional date parameter for the date dependent batch jobs
PAYMENT_RCVD_PROC_V2 MERGE

Docusign Envelope ID: A8D2D47B-DFF0-47BE-BF26-A8365EE5C6C6

Electronic Record and Signature Disclosure

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

From time to time, FL Dept HSMV (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to this Electronic Record and Signature Disclosure (ERSD), please confirm your agreement by selecting the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a limited period of time (usually 30 days) after such documents are first sent to you. After such time, if you wish for us to send you paper copies of any such documents from our office to you, you will be charged a $0.00 per-page fee. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.

How to contact FL Dept HSMV:

You may contact us to let us know of your changes as to how we may contact you electronically, to request paper copies of certain information from us, and to withdraw your prior consent to receive notices and disclosures electronically as follows:
To contact us by email send messages to: ContractAdmin@flhsmv.gov

To advise FL Dept HSMV of your new email address

To let us know of a change in your email address where we should send notices and disclosures electronically to you, you must send an email message to us at ContractAdmin@flhsmv.gov and in the body of such request you must state: your previous email address, your new email address. We do not require any other information from you to change your email address.

If you created a DocuSign account, you may update it with your new email address through your account preferences.

To request paper copies from FL Dept HSMV

To request delivery from us of paper copies of the notices and disclosures previously provided by us to you electronically, you must send us an email to ContractAdmin@flhsmv.gov and in the body of such request you must state your email address, full name, mailing address, and telephone number. We will bill you for any fees at that time, if any.

To withdraw your consent with FL Dept HSMV

To inform us that you no longer wish to receive future notices and disclosures in electronic format you may:

i. decline to sign a document from within your signing session, and on the subsequent page, select the check-box indicating you wish to withdraw your consent, or you may;

ii. send us an email to ContractAdmin@flhsmv.gov and in the body of such request you must state your email, full name, mailing address, and telephone number. We do not need any other information from you to withdraw consent.. The consequences of your withdrawing consent for online documents will be that transactions may take a longer time to process..

Required hardware and software

The minimum system requirements for using the DocuSign system may change over time. The current system requirements are found here: https://support.docusign.com/guides/signer-guide-signing-system-requirements.

Acknowledging your access and consent to receive and sign documents electronically

To confirm to us that you can access this information electronically, which will be similar to other electronic notices and disclosures that we will provide to you, please confirm that you have read this ERSD, and (i) that you are able to print on paper or electronically save this ERSD for your future reference and access; or (ii) that you are able to email this ERSD to an email address where you will be able to print on paper or save it for your future reference and access. Further, if you consent to receiving notices and disclosures exclusively in electronic format as described herein, then select the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

By selecting the check-box next to 'I agree to use electronic records and signatures', you confirm that:

- You can access and read this Electronic Record and Signature Disclosure; and
- You can print on paper this Electronic Record and Signature Disclosure, or save or send this Electronic Record and Disclosure to a location where you can print it, for future reference and access; and
- Until or unless you notify FL Dept HSMV as described above, you consent to receive exclusively through electronic means all notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you by FL Dept HSMV during the course of your relationship with FL Dept HSMV.
